The Issuer may redeem the notes at its option, in whole or in part, at any time or from time to time at a redemption price equal to the sum of 100% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest, if any, on those notes to the redemption date, plus a make-whole amount, if any, based on the Reinvestment Rate, which is equal to the sum of (i) 0.35% (35 basis points) and (ii) the arithmetic mean of the yields under the heading “Week Ending” published in the most recent Statistical Release under the caption “Treasury Constant Maturities” for the maturity, rounded to the nearest month, corresponding to the remaining life to maturity of those notes or, if no maturity exactly corresponds, yields for the two published maturities most closely corresponding to such maturity shall be calculated as contemplated above and the Reinvestment Rate shall be interpolated or extrapolated from such yields on a straight line basis, rounded in each of such relevant periods to the nearest month.
