earnings per share calculation purposes was 2,320,000 and 2,488,000 respectively. The weighted average number of common shares outstanding for the three months ended March 31, 2003 for basic and diluted earnings per share calculation purposes was 2,297,000 and 2,371,000 respectively. BCB Bancorp, Inc., completed its acquisition of Bayonne Community Bank on May 1, 2003, consequently the information provided in this release at and for the three months ended March 31, 2003 is for Bayonne Community Bank on a stand alone basis.

As of March 31, 2004 total assets increased by \$37.2 million or 12.4% to \$337.9 million from \$300.7 million at December 31, 2003. Loans receivable increased by \$15.8 million or 8.4% to \$204.6 million at March 31, 2004 from \$188.8 million at December 31, 2003. Investment securities held-to-maturity increased by \$9.0 million or 10.0% to \$99.3 million at March 31, 2004 from \$90.3 million at December 31, 2003. Deposits increased by \$35.2 million or 13.9% to \$288.9 million at March 31, 2004 from \$253.7 million at December 31, 2003. This deposit increase represents the largest quarterly dollar volume increase the Bank has recorded since its inception. Total stockholders' equity increased to \$22.9 million at March 31, 2004 from \$21.2 million at December 31, 2003.

Net income increased by \$127,000 or 22.2% to \$700,000 for the three months ended March 31, 2004 from \$573,000 for the three months ended March 31, 2003. This improvement in operations reflects increases in net interest income and non-interest income and a decrease in the provision for loan losses, partially offset by increases in non-interest expense and income taxes. Net interest income increased by \$1.0 million or 47.6% to \$3.1 million for the three months ended March 31, 2004 from \$2.1 million for the three months ended March 31, 2003. This increase resulted primarily from the growth in average interest earning assets of \$118.7 million or 62.7% to \$307.9 million at March 31, 2004 from \$189.2 million at March 31, 2003, funded primarily through the growth in average interest bearing liabilities of \$117.5 million or 74.2% to \$275.9 million for the three months ended March 31, 2004 from \$158.4 million of the three months ended March 31, 2003, partially offset by a decrease in the net interest margin to 4.05% for the three months ended March 31, 2004 from 4.51% for the three months ended March 31, 2003. For the three months ended March 31, 2004, return on average assets, annualized was 0.88%, return on average stockholders equity annualized was 12.93%, the Bank's efficiency ratio was 58.06% and the Bank originated \$30.9 million of loans.

Donald Mindiak President & CEO commented that, "the addition of two offices, broadening our geographic distribution to serve a wider cross-section of our primary service area, coupled with personal service and competitively priced products have enabled us to continue our growth in both the balance sheet and operating statement. I'm proud of our ability to increase cash earnings by over 20% and basic and diluted earnings per share by 20.0% and 16.7% respectively from the comparative first quarter of 2003. Strategic additions to our loan and support staff should enable us to continue to grow the Bayonne Community Bank franchise. In this regard we intend to participate in a pooled trust preferred offering managed by Janney Montgomery Scott. The capital raised through the pooled trust offering will support our continued growth. This offering will not dilute the ownership of the existing shareholders and demonstrates the confidence we have in our commitment to build franchise and shareholder value."

Bayonne Community Bank presently operates three offices located in Bayonne, New Jersey.
