NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) STATEMENT OF INFORMATION FURNISHED

The accompanying unaudited condensed consolidated financial statements as of March 31, 2005 and for the cumulative period from March 23, 1999 (Inception) to March 31, 2005 have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and pursuant with the rules and regulations of the Securities and Exchange Commission for Form 10-QSB. Accordingly, the condensed consolidated financial statements do not include all the information and notes to the financial statements required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) considered necessary for a fair presentation of NorMexSteel, Inc. and Subsidiary's financial position, results of operations, and cash flows for the periods presented. These results have been determined on the basis of accounting principles generally accepted in the United States of America and applied consistently with those used in the preparation of the Company's financial statements.

The results of operations for the interim periods ended March 31, 2005 and 2004 are not necessarily indicative of the results to be expected for the full year. These interim financial statements should be read in conjunction with the December 31, 2004 financial statements and related notes included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2004.

Edgar Filing: NORTH AMERICAN LIABILITY GROUP INC - Form 10QSB/A

(2) LOSS PER SHARE

Basic income or loss per common share amounts are based on the weighted average shares outstanding of 53,315,043 and 566,097 for the three months ended March 31, 2005 and 2004, respectively. Diluted income per common share amounts reflect the potential dilution that could occur if convertible preferred shares are converted into common stock. No conversion is assumed if such conversion would have an anti-dilutive effect on diluted loss per common share amounts.

(3) RECENT FINANCIAL ACCOUNTING STANDARDS

In December 2004, the FASB issued SFAS No. 123 (revised 2004), Share-Based Payment ("FAS 123(R)"), a revision of SFAS No. 123 ("FAS 123"). The statement is effective for the first interim or annual reporting period that begins after June 15, 2005. This

5

Statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services and addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. FAS 123 focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. The original pronouncement, issued in October 1995, defined a fair value based method of accounting for share-based payments, but permitted companies to disclose such payments either employing the fair value based method of accounting or by using the intrinsic value method as defined by APB No. 25, Accounting for Stock Issued to Employees. For companies reporting under the intrinsic value method, FAS 123 required a pro forma footnote disclosure of the impact of the fair value based method for financial reporting purposes. The 2004 revision to FAS 123, FAS 123(R), eliminates the intrinsic value method as provided by APB No. 25. Depending upon the extent to which the Company implements share-based compensation plans, adoption of this statement could have a material impact on the Company's future consolidated financial statements.

(4) ACQUISITION OF GRUPO INDUSTRIAL N.K.S., S.A., DE CV

As of March 15, 2005, the Company has completed a transaction resulting in the acquisition of 75% of all issued and outstanding shares of Grupo Industrial N.K.S., S.A., de CV ("NKS"). The Company and stockholders of NKS have mutually agreed that the Company will acquire 75% of all the shares of NKS in exchange for 250,000,000 of the Company's common restricted shares. NKS, a Mexican corporation, is the owner of a steel mill foundry and other assets in Lazaro Cardenas, Mexico. NKS has represented to the Company that the value of these hard assets has a value in excess of USD\$200,000,000, however, until such time as the Company has completed a formal appraisal of these assets, we have chosen not to show any asset value for NKS on our Balance Sheet. In addition, the Company issued 30 million of common shares to

Edgar Filing: NORTH AMERICAN LIABILITY GROUP INC - Form 10QSB/A

an unrelated party as a finders fee.

NKS is currently insolvent and their financial records are not available at this time. As a result, the Company is unable to consolidate the results of operations of NKS into the accompanying condensed consolidated financial statements. The investment in NKS has been valued at \$0 at March 31, 2005. The Company is currently working with its financial advisors in Mexico to obtain this information for future filings.

In November 2004, the Company repurchased the 20,000,000 shares of class B Preferred Stock from the non-related party for approximately \$32,000. As a result, 30,000,000 shares of Class B Preferred Stock are outstanding as of March 31, 2005.

Notes Payable as of March 31, 2005 is \$226,466. Interest accrues at various rates between 9 and 12 percent per annum.

(9) STOCK OPTIONS

During 2004, the Company established a stock option plan under which options to purchase shares of common stock may be granted to employees, directors, officers, agents, consultants and independent contractors.

During November 2004, the Company granted 1,000,000 stock options to the Company's Chief Financial Officer. The options have an exercise price of \$1.00, vest immediately, and have a life of three years. At the grant date, these options had an intrinsic value of \$500,000, \$50,000 of which has been charged as a deferred compensation expense to Operating Expenses in the accompanying condensed consolidated statements of operations for the 3 months ended March 31, 2005. These options remain outstanding at March 31, 2005, are fully exercisable and have a remaining life of 32 months.

(10) SUBSEQUENT TRANSACTIONS

The Company changed its name to NorMexSteel Corporation, effective April 12, 2005 to reflect the changes in the operations of the Company. The new trading symbol is NXSI (Over the Counter Bulletin Board).

On May 3, 2004, we received a letter from Pedro Fernando Arizpe Carreon, a shareholder of Grupo Industrial NKS, S.A. DE C.V. ("NKS"), addressed to Montague Securities International, Ltd., the escrow agent for the transaction by which we acquired 75% of the outstanding shares of capital stock of NKS. Mr. Carreon alleged that we had breached the Purchase Agreement. We have denied any breach of the purchase agreement and have advised Mr. Carreon in writing. We do not believe there is any basis in fact or law for Mr. Carreon to intervene in the NKS transaction, and we intend to defend vigorously any actions he might take.

(11) GOING CONCERN MATTERS

The accompanying condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Due to its past financial difficulties, the Company has accumulated debt, including judgments, and accrued interest of approximately \$1,500,000 relating to its current and former lines of business and maintains these on its balance sheet as current liabilities. Interest on these balances is accruing at a rate of approximately \$13,000 per quarter as of March 31, 2005. The Company is continuing in its efforts to resolve these obligations and

8

others through settlements. However, there is no assurance that the Company will be able to settle in terms agreeable to the Company and if it does not do so, this will have a material adverse affect on the ability of the Company to operate properly in the future. As shown in the consolidated financial statements, the Company has incurred cumulative losses of approximately \$5,677,000 during its development stage.

As a result of the recent acquisition of NKS, the Company's primary focus will be on operating the steel foundry business in Mexico and looking for other complementary businesses in Mexico and in support of the steel foundry operations. These factors among others may dictate that the Company will be unable to continue as a going concern for a reasonable period of time.

ITEM 2. MANAGEMENT DISCUSSION AND ANALYSIS AND PLAN OF OPERATION

All statements contained herein that are not historical facts, including but not limited to, statements regarding the anticipated impact of future capital requirements and future development plans are based on current expectations. These statements are forward looking in nature and involve a number of risks and uncertainties. Actual results may differ materially. Among the factors that could cause actual results to differ materially are the following: amount of revenues earned by the Company's operations; the availability of sufficient capital to finance the Company's business plan on terms satisfactory to the Company; general business and economic conditions; and other risk factors described in the Company's reports filed from time to time with the Commission. The Company wishes to caution readers not to place undue reliance on any such forward looking statements, which statements are made pursuant to the Private Securities Litigation Reform Act of 1995 and, as such, speak only as of the date made.

RESULTS OF OPERATIONS

Three Months Ended March 31, 2005 versus Three Months Ended March 31, 2004.

We had no revenues for the three months ended March 31, 2005 and 2004. There is no assurance that we will any have revenues in fiscal 2005. As we had no sales in this quarter, we had no cost of sales for the quarter.

Operating expenses for the three months ended March 31, 2005 were \$191,199

Edgar Filing: NORTH AMERICAN LIABILITY GROUP INC - Form 10QSB/A

compared to \$175,555 for the three months ended March 31, 2004. Other income for the three months ended March 31, 2005 was \$1,390 as compared to other income of \$2,122 for three months ended March 31, 2004. The income was partially offset by interest expense of \$454 for three months ended March 31, 2005 versus \$95,808 for the three months ended March 31, 2004.

The Company's net loss for the three months ended March 31, 2005 was \$190,263, as compared to a loss of \$269,241 for the three months ended March 31, 2004, a decrease in net loss of \$78,978 or 29%.

9

LIQUIDITY AND CAPITAL RESOURCES

On March 31, 2005, the Company had a working capital deficit of approximately \$1,498,000. Since its inception, the Company has continued to sustain losses. The Company's operations since inception have been funded by the sale of common and preferred stock, and proceeds from both secured and unsecured loans. These funds have been used for working capital and capital expenditures and other corporate purchases. The Company has had losses of approximately \$5,677,000 since inception. The Company is seeking financing through equity financing. There can be no assurance that the Company will be able to obtain funding at terms acceptable to the Company. These factors indicate that the Company may not be able to continue as a going concern.

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the FASB issued SFAS No. 123 (revised 2004), Share-Based Payment ("FAS 123(R)"), a revision of SFAS No. 123 ("FAS 123"). For small business issuers, this Statement must be implemented at the beginning of the fiscal year that begins after December 15, 2005. This Statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services and addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. FAS 123 focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. The original pronouncement, issued in October 1995, defined a fair value based method of accounting for share-based payments, but permitted companies to disclose such payments either employing the fair value based method of accounting or by using the intrinsic value method as defined by APB No. 25, Accounting for Stock Issued to Employees. For companies reporting under the intrinsic value method, FAS 123 required a pro forma footnote disclosure of the impact of the fair value based method for financial reporting purposes. The 2004 revision to FAS 123, FAS 123(R), eliminates the intrinsic value method as provided by APB No. 25. Depending upon the extent to which the Company implements share-based compensation plans, adoption of this statement could have a material impact on the Company's future consolidated financial statements.

OFF-BALANCE SHEET ARRANGEMENTS

The Company does not maintain off-balance sheet arrangements nor does it participate in non-exchange traded contracts requiring fair value accounting treatment.

Edgar Filing: NORTH AMERICAN LIABILITY GROUP INC - Form 10QSB/A

ITEM 3. CONTROLS AND PROCEDURES

In accordance with Exchange Act Rules 13a-15 and 15d-15, the Company's management carried out an evaluation with the participation of the Company's Chief Executive Officer and Chief Financial Officer, its principal executive officer and principal financial officer, respectively, of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded as of the end of the period covered by this Form 10-QSB that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company required to be included in periodic reports filed under the Securities Exchange Act of 1934, as amended. There were no changes in the Company's internal controls over financial reporting identified in connection with the evaluation by the Chief Executive Officer and Chief Financial Officer that occurred during the Company's fourth quarter that have materially affected or are reasonably likely to materially affect the Company's internal controls over financial reporting.

10

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Due to our financial difficulties, we defaulted on a number of debt and lease obligations. We have several judgments totaling approximately \$378,000 that were entered against us. We are currently trying to resolve these obligations through settlements. However, there is no assurance that we will be able to settle on terms favorable to us and if we are unable to do so, this will have a material adverse affect on our ability to operate properly in the future.

On May 3, 2004, we received a letter from Pedro Fernando Arizpe Carreon, a shareholder of Grupo Industrial NKS, S.A. DE C.V. ("NKS"), addressed to Montague Securities International, Ltd., the escrow agent for the transaction by which we acquired 75% of the outstanding shares of capital stock of NKS. Mr. Carreon alleged that we had breached the Purchase Agreement. We have denied any breach of the purchase agreement and have advised Mr. Carreon in writing. We do not believe there is any basis in fact or law for Mr. Carreon to intervene in the NKS transaction, and we intend to defend vigorously any actions he might take.

As of March 15, 2005, the Company completed a transaction resulting in the acquisition of 75% of all issued and outstanding shares of Grupo Industrial N.K.S., S.A., de CV ("NKS") in exchange for 250,000,000 of the Company's common restricted shares. NKS, a Mexican corporation, is the owner of a steel mill foundry and other assets in Lazaro Cardenas, Mexico.
