INFORMATION AND RESULTS FOR THE THIRD QUARTER 2005

(São Paulo, Brazil, November 9, 2005)

Despite good sales volumes, Ultrapar's September YTD net earnings were 16% lower than the same period in the previous year. The simultaneous combination of a significant appreciation in the Brazilian currency, increased oil prices and the drop in petrochemical commodity prices had a negative influence on the company's financial performance.

- Ø OXITENO 3Q05 DOMESTIC SALES VOLUME ROSE BY 9% AND 18% IN RELATION TO 3Q04 AND 2Q05, RESPECTIVELY;
- Ø ULTRAGAZ 3Q05 SALES VOLUME INCREASED BY 2% AND 5%, IN RELATION TO 3Q04 AND 2Q05, RESPECTIVELY;
- Ø 3Q05 EBITDA AMOUNTED TO R\$ 127 MILLION, 42% AND 23% LOWER THAN 3Q04 AND 2Q05, RESPECTIVELY;
- Ø 9M05 EBITDA AMOUNTED TO R\$ 459 MILLION, 17% LOWER THAN THE 9M04 EBITDA.

□ Soaring product costs arising from the new level of oil prices once again highlights the need for growth through increased scale, outstanding technological edge and focus on the optimization of costs and expenses. We have consistently expanded the company's sales volume and we are investing in projects that will ensure significant volume growth at Oxiteno, through the manufacture of products with higher value added, principally from 2007 onwards. In addition, acquisition opportunities are being pursued to expand our position in the Latin American ethylene oxide market and to position ourselves as an international LPG distributor with expertise in emerging markets. □

3rd Quarter 2005

Ultrapar in the Macroeconomic Scenario

The most recent data published for the Brazilian economy indicate moderate growth, with inflation converging to the Central Bank target, satisfactory fiscal performance and a strong balance of payments. In August, Brazilian industrial activity grew by 3.8%, compared to August 2004, and 1.1% in relation to July 2005, according to the IBGE - The Brazilian Geography and Statistics Institute. In the sector specific terms, the highlights were in the capital goods segment and particularly the consumer durables segment. Additionally, recent expansion in the semi and non-durable segments is also worth of notice, reflecting signs of improvement in the labor market, particularly related to real increase of wages.

Ultrapar captured the improved dynamism of the economy in this third quarter through sales growth in the Brazilian market in all its businesses. Oxiteno's domestic sales volume increased by 9% in relation to 3Q04 and by 18% when compared to 2Q05; Ultragas's sales growth was respectively up 2% and 5%, using the same comparison periods. At Ultracargo, performance was no different, showing an increase in kilometrage travelled and volume stored.

Despite the good sales volumes, Ultrapar faced a combination of adverse factors in this quarter. At Oxiteno, these factors were the continuing appreciation in the Brazilian Real, soaring product costs arising from the increased international oil prices and the drop in the average price of petrochemical products in relation to the previous quarter. At Ultragas, the improvement in volumes in the LPG market was not sufficient to allow a recovery in prices and margins, the latter also pressured by the rise in the price of oil, which affected distribution costs, particularly freight and fuel costs.

As a result, Ultrapar's EBITDA for the third quarter, amounted to R\$ 127 million, 42% down from the EBITDA reported in 3Q04, and down 23% from 2Q05.

Quarterly EBITDA History

(R\$ million)

- 6 -

3rd Quarter 2005

Operational Performance

Ultragas - The Brazilian LPG market grew by 1% in 3Q05, compared to the same period in 2004, due to the expansion in real wages and the stability in prices, which reduced the weight of LPG in the family budgets. Ultragas experienced growth of 2% in its total sales volume, higher than the growth rate in the Brazilian market, principally due to strong sales in the domestic segment □ Ultragas ended the quarter with a market share of 24.3% , 0.4 percentage points higher than in 3Q04, and in line with the market share that the company enjoyed before it started the restructuring of its bottled distribution network in the Center-South of the country. In relation to 2Q05, total sales volume for Ultragas increased by 5% - in line with the expansion of 5% in the LPG market. For the year, both Ultragas and the market volumes softened by 1%.

Based on the above, Ultragas's bottled segment saw an increase of 4%, or 11 thousand tons, comparing 3Q05 with the same quarter in 2004. When compared with 2Q05, the increase amounted to 7%, or 17 thousand tons. The bulk segment, which mainly serves the commercial and industrial sectors, saw a drop of 2%, or 3 thousand tons, in relation to the same period in 2004, and an increase of 3%, or 4 thousand tons, in relation to 2Q05.

Sales Volume □ Ultragaz (in thousand tons)

Oxiteno - Oxiteno sales volume amounted to 148 thousand tons in 3Q05, driven by sales growth of 9% in the domestic market. Overall Oxiteno sales volume decreased by 7% in relation to 3Q04 due to lower sales to the international market - export shipments in 2Q04 were delayed, distorting the comparison base by increasing shipments booked in 3Q04. Total sales to the domestic market amounted to 101 thousand tons, 9% stronger than the all-time quarterly sales record of the 3Q04. The higher sales volume to the domestic market is due to increased market share with the customers served by Oxiteno and improved performance of the economy. Sales to international markets in 3Q05 amounted to 47 thousand tons, 29% lower than 3Q04, principally due to (i) the higher export volume in 3Q04 as a consequence of the shipment delays that occurred in 2Q04 and (ii) weaker international demand. Compared to 2Q05, total sales volume was up 9%, as a result of a 18% increase in sales to the domestic market. For the first nine months of 2005, Oxiteno reported an increase of 3% in total sales volume.

Sales Volume □ Oxiteno (in thousand tons)

- 7 -

3rd Quarter 2005

Ultracargo □ The increase in the volume of operations at Ultracargo in this third quarter of 2005 was due to new operations, particularly the startup of the Santos Intermodal Terminal - TIS in July 2005, as well as the winning of new clients. The average amount of liquid and gas stored in 3Q05 increased by 10% and 7%, in relation to 3Q04 and 2Q05, respectively. The storage of solids increased by 11% in relation to 3Q04, and was 1% lower than 2Q05. Kilometrage travelled increased by 2% and 1%, respectively, compared to 3Q04 and 2Q05.

Economic-Financial Performance

Net Sales and Services - Ultrapar's consolidated net sales and services in 3Q05 amounted to R\$ 1.2 billion, an increase of 2% in relation to 2Q05, and 7% lower than 3Q04. For the first nine months of 2005, Ultrapar's net sales and services amounted to R\$ 3.6 billion, flat compared to the same period in 2004.

Net Sales and Services (in R\$ million)

Ultragaz □ Net sales and services at Ultragaz amounted to R\$ 772 million, flat in relation to 3Q04. Weaker average selling prices, due to the increased competitiveness of the market, were compensated by the expansion of 2% in volumes. Compared to the second quarter of 2005, Ultragaz's net sales and services rose by 5%, in line with the increased sales volume.

Oxiteno □ Net sales and services at Oxiteno totaled R\$ 409 million in 3Q05, 20% below 3Q04, due to (i) the appreciation of 21% in the Brazilian Real against the US dollar, partially compensated by dollar prices which were on average 10% higher and (ii) sales volume 7% lower in the quarter. Compared to 2Q05, net sales and services were down 3% - the effects of a stronger Real (quarterly average up by 6%) and a drop of 15% in the price of glycols were partially compensated by an increase of 9% in sales volume.

Ultracargo □ Total net sales and services amounted to R\$ 62 million, an increase of 18% in relation to 3Q04, as a result of new operations, particularly the Santos Terminal, the winning of new clients and

- 8 -

3rd Quarter 2005

contractual price increases. These same factors caused Ultracargo's net sales and services to increase 5% in relation to 2Q05.

Cost of Goods Sold (COGS) □ Ultrapar's cost of goods sold amounted to R\$ 1.0 billion in 3Q05, an increase of 1% compared to 3Q04, and 6% compared to 2Q05. For the first nine months of 2005, the cost of goods sold was 4% higher than the same period in 2004.

Ultragaz □ The cost of goods sold in 3Q05 increased by 4% in relation to 3Q04, and up 7% compared to 2Q05, due principally to: (i) higher sales volume, (ii) higher freight costs and (iii) the increase in personnel costs, of particular note being the annual collective wage agreement celebrated.

Oxiteno □ The cost of goods sold at Oxiteno in 3Q05 amounted to R\$ 309 million, down 6% compared to 3Q04, in line with the change in sales volume □ an increase of 15% in the dollar cost of ethylene arising from the rise in oil prices, was compensated by the appreciation in the Brazilian Real. Compared to 2Q05, Oxiteno's cost of goods sold increased by 4%, less than the increase of 9% in volumes sold, as a function of the appreciation in the Brazilian Real.

Ultracargo □ The cost of services provided in 3Q05 amounted to R\$ 40 million, an increase of 21% when compared to 3Q04, as a result of the new operations, the rise in fuel costs and the annual collective wage agreement. When compared to 2Q05, the cost of services provided by Ultracargo increased by 8%, impacted mainly by the startup of operations at the Santos Intermodal Terminal - TIS - and by the increase in fuel costs.

Sales, General and Administrative Expenses □ Ultrapar's sales, general and administrative expenses amounted to R\$ 141 million in 3Q05, a drop of 3% in relation to 3Q04 and an increase of 7% in relation to 2Q05. For the first nine months of 2005, Ultrapar's sales, general and administrative expenses amounted to R\$ 410 million, practically in line with the figure in the same period in 2004.

Ultragaz □ Sales, general and administrative expenses at Ultragaz amounted to R\$ 73 million in 3Q05, down 5% in relation to 3Q04, basically as a result of rationalization efforts during the year. In comparison with 2Q05, sales, general and administrative expenses saw an increase of 5% impacted by: (i) the collective wage increase agreement; and (ii) the increase of 5% in volume sold in 3Q05, compared to 2Q05.

Oxiteno □ Sales, general and administrative expenses amounted to R\$ 52 million in the quarter, down 9% when compared to 3Q04. Sales expenses were down 9%, basically due to lower export sales volume, reducing the costs of export freights. Administrative expenses were down 10%, due to lower personnel expenses, due basically to the reduction in the provision for employee profit-sharing payments. In relation to 2Q05, sales, general and administrative expenses increased by 6%, basically as a result of the rise in administrative expenses.

Ultracargo □ Ultracargo's sales, general and administrative expenses amounted to R\$ 17 million in 3Q05, up 31% in relation to 3Q04, principally due to the increase in personnel costs, as a result of expansion in the size of the workforce, due to new operations, and the collective wage increase agreement. In comparison with 2Q05, sales, general and administrative expenses were up 21%, the main impacts being the increase in the size of the workforce and the rise in general and administrative expenses as a result of the startup of operations at the Santos Intermodal Terminal - TIS.

EBITDA □ Ultrapar reported consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) of R\$ 127 million in 3Q05, a reduction of 42% in relation to 3Q04 and 23% compared to 2Q05. Despite the good sales volumes, the company's financial performance was affected mainly by the continuing appreciation in the Brazilian Real, the drop in the average price of petrochemical products in relation to the previous quarter and the

strong cost pressure as a consequence of higher oil prices. For the first nine months of 2005, Ultrapar's EBITDA amounted to R\$ 459 million, 17% lower than the EBITDA reported in the same period in 2004.

Ultragas □ Ultragas reported EBITDA of R\$ 53 million, down 28% in relation to that reported in 3Q04, due basically to the drop in the average sales price as a result of a more competitive market and the rise in freight costs. Compared to 2Q05, EBITDA at Ultragas was down 15%, due to increased costs and operational expenses, as a consequence of higher diesel prices and the wage increase agreements. Ultragas's profitability, as measured in EBITDA/ton, amounted to R\$ 130/ton in this third quarter, R\$ 53/ton and R\$ 30/ton lower than 3Q04 and 2Q05, respectively.

- 9 -

3rd Quarter 2005

Oxiten □ Oxiten ended 3Q05 with EBITDA of R\$ 60 million, 55% and 31% lower than 3Q04 and 2Q05, respectively. These reductions were due to: (i) 21% appreciation of the Brazilian Real against the US dollar between 3Q04 in 3Q05; (ii) the higher level of oil prices, which has put pressure on costs; and (iii) the lower price of glycol in 3Q05. Even in such an extremely unfavorable operating environment, Oxiten's profitability, measured in EBITDA/ton, amounted to US\$ 172/ton in the 3Q05, in line with the company's annual historic average.

Ultracargo □ Ultracargo reported an increase of 9% in EBITDA for 3Q05, compared to 3Q04, largely due to the increased operational volume. When compared to 2Q05, EBITDA at Ultracargo was down 9%, principally due to the costs and expenses generated as a result of the startup of operations at the Santos Intermodal Terminal, still without corresponding proportional revenues.

EBITDA (in R\$ million)

Financial Results □ Ultrapar reported net financial expense of R\$ 3 million in 3Q05, compared to R\$ 15 million in 3Q04, a decrease of 82%. Compared to 2Q05, net financial expenses were 84% lower. The main factor behind this reduction was the 5% appreciation in the Brazilian Real during the 3Q05, compared to 8% in the 3Q04 and 12% in the 2Q05. Furthermore, interest income was higher in this 3Q05 as a result of the company's increased net cash position.

Net Earnings □ Consolidated net earnings in 3Q05 amounted to R\$ 67 million, down 48% and 25%, respectively, in relation to 3Q04 and 2Q05. Net earnings for the first nine months of 2005 amounted to R\$ 257 million, down 16% in relation to the same period in 2004.

Investments □ Total capital expenditures (CAPEX) in the quarter amounted to R\$ 52 million, distributed as follows:

- At Ultragas, allocated basically to renewal of its vehicle fleet and expansion of the small bulk segment (UltraSystem).
- At Oxiten, invested principally in expanding its specialty chemicals production capacity, development of new applications, and on quality improvement.
- At Ultracargo, investments were mainly allocated to the completion of the Santos Intermodal Terminal (TIS) and expansion of its transport fleet.

Reverse split of the shares □ With a view to simplifying the quotation and trading of its shares, in the third quarter of 2005 Ultrapar carried out a reverse split of its shares, consolidating each lot of 1,000 shares, into 1 share of such type and class. Consequently, the share price quoted on the São Paulo Stock Exchange (Bovespa) is now traded with a unit quote, and no longer per lot of 1,000 shares, while the new ratio of PN shares to ADRs became 1:1.

Outlook

We believe that the Company's performance over the short term is still likely to be adversely affected by the strong Brazilian Real and the high level of oil prices. As Brazilian interest rates start to come down (Central Bank has reduced the Selic rate by 0.75 percentage points since September), this raises prospects for a more vigorous economy over the medium term. We have consistently expanded the company's sales volumes and we are

investing in projects that will ensure substantial increase of production capacity at Oxiteno, mainly from 2007 onwards, based on products with a higher value added.

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

To the Stockholders and Management of
Ultrapar Participações S.A.
São Paulo - SP

1. We have performed a special review of the accompanying interim financial statements of Ultrapar Participações S.A. and subsidiaries as of and for the quarter and nine-month period ended September 30, 2005, prepared in accordance with Brazilian accounting practices and under the responsibility of the Company's management, consisting of the balance sheets (Company and consolidated), the related statements of income and the performance report.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material modifications that should be made to the financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
4. Additionally, we have reviewed the consolidated statement of cash flows, included in Note 22 to the interim financial statements, for the periods ended September 30, 2005 and 2004, which is presented for purposes of additional analysis and is not a required part of the basic interim financial statements. Such statement has been subjected to the review procedures described in paragraph 2 and, based on our review, we are not aware of any material modifications that should be made to this statement for it to be fairly stated, in all material respects, in relation to the interim financial statements taken as a whole.
5. We had previously reviewed the Company and consolidated balance sheets as of June 30, 2005 and the Company and consolidated statements of income for the quarter and nine-month period ended September 30, 2004, presented for comparative purposes, and issued unqualified special review reports thereon, dated July 29, 2005 and October 29, 2004, respectively.

NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE QUARTER AND NINE-MONTH PERIOD ENDED SEPTEMBER 30, 2005
(Amounts in thousands of Brazilian reais - R\$, unless otherwise stated)

1. OPERATIONS

The Company invests in commercial and industrial activities, including subscription or purchase of shares of other companies with similar activities.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Through its subsidiaries, the Company is engaged in the distribution of liquefied petroleum gas - LPG (Ultragaz), production and sale of chemical and petrochemical products (Oxiteno), and logistic services for chemicals and fuels (Ultracargo).

2. PRESENTATION OF INTERIM FINANCIAL STATEMENTS

The interim financial statements are being presented in accordance with Brazilian corporate law.

3. ACCOUNTING PRACTICES AND CONSOLIDATION PRINCIPLES

In the preparation of the interim financial statements, the Company has applied the same accounting practices adopted in the preparation of the financial statements as of December 31, 2004, which are in accordance with the standards established by the CVM and accounting practices adopted in Brazil.

As mentioned in Note 9.b), the balance from tax benefits as of September 30, 2004 was reclassified from equity in subsidiary and affiliated companies under the heading income from income and social contribution taxes, to allow a better comparison of financial statement.

- ◆ On July 11, 2002, the subsidiary Terminal Químico de Aratu S.A. - Tequimar won a bid for use of the site where the Aratu Terminal is located for another 20 years, renewable for the same period. The price paid by Tequimar amounted to R\$12,000 and is being amortized from August 2002 until July 2042.
- ◆ Further, the subsidiary Terminal Químico de Aratu S.A. - Tequimar has a lease of adjacent area to the Santos harbor for 20 years, effective December 2002 and renewable for another 20 years, for building and operating a terminal for receipt, tankage, movement and distribution of bulk liquids. The price paid by Tequimar was R\$3,803 and is being amortized from August 2005 until December 2022.

12. DEFERRED CHARGES (CONSOLIDATED)

Represented substantially by costs incurred for the implementation of systems modernization projects in the amount of R\$4,838 (R\$3,881 as of June 30, 2005), amortized over five to ten years, and for the installation of Ultrasystem equipment on customers' premises in the amount of R\$60,386 (R\$56,428 as of June 30, 2005), amortized over the terms of the LPG supply medium contracts with these customers. Deferred charges also include goodwill from acquisitions in the amount of R\$12,958 (R\$15,067 as of June 30, 2005).

b) Eurobonds

In June 1997, the subsidiary Companhia Ultragas S.A. issued eurobonds in the total amount of US\$60 million, maturing in 2005. Maturity was subsequently extended to June 2020, with put/call options in June 2008.

Ultrapar Participações S.A. and Subsidiaries

In June 2005, the subsidiary LPG International Inc. that had acquired all eurobonds issued by Companhia Ultragas S.A. sold them to the subsidiary Oxiteno Overseas Co., that financed their acquisition through a syndicated loan in the amount of US\$60 million maturing in June 2008, with annual interest rate of 5.05%. LPG used the proceeds from the sale to redeem eurobonds issued by it.

The eurobonds and syndicated loan are guaranteed by the Company and its subsidiaries Ultragas Participações Ltda. and Oxiteno S.A. - Indústria e Comércio, which are subject to covenants that limit, among other things, their ability to incur indebtedness, make dividend and other payments, and engage in mergers and acquisitions. None of these covenants have restricted our ability to conduct our business until the present moment.

c) Debentures

The Extraordinary Stockholders' Meeting held on February 2, 2005 approved the issuance by the Company and the public distribution in a single block of 30,000 nonconvertible debentures with nominal unit value of R\$10,000.00 (ten thousand reais), totaling R\$300,000.

On March 30, 2005, the Board of Directors of the Company, according to delegation made by the Extraordinary Stockholders' Meeting, approved the interest rate determined through a bookbuilding process on the same date.

On April 6, 2005, the CVM registered the operation, and funds of R\$304,854, net of commission, were received on April 8, 2005.

Characteristics of debentures are:

Nominal unit value: R\$10,000.00.

Final maturity: March 1, 2008.

Nominal value payment: Lump sum at final maturity.

Yield: 102.5% of CDI.

Yield payment: Semiannually, beginning March 1, 2005.

Repricing: None.

The debentures are subject to commitments that restrict, among other things, certain operations of incorporation, merger or split as well as operation involving the disposal of operational assets that

would result in a reduction of more than 25% of consolidated net sales. They also included the obligation to maintain a consolidated net debt to EBITDA ratio less or equal to 3.5. None of these commitments have restricted the Company and its subsidiaries' ability to conduct business until the present moment.

d) Collateral

A portion of the financing is collateralized by liens on property, plant and equipment, shares, promissory notes and guarantees provided by the Company and its subsidiaries, as shown below:

	<u>09/30/05</u>	<u>06/30/05</u>
Amount of financing secured by:

Shares of affiliated companies	10,958	13,560
Minority stockholders' guarantees	10,958	13,561
	<u>71,813</u>	<u>76,955</u>

Other loans are collateralized by guarantees provided by the Company and the future flow of exports. The Company is responsible for sureties and guarantees offered on behalf of its subsidiaries, amounting to R\$461,774 (R\$440,130 as of June 30, 2005).

Certain subsidiaries provided guarantees to financial institutions for the debt owed to those institutions by some of their customers (vendor financing). In the event any subsidiary is required to make the payment under those guarantees, the subsidiary may recover the amount paid directly from its customers through commercial collection effort. Maximum future payments related to these guarantees amount to R\$34,233 (R\$21,000 as of June 30, 2005), with maturing of up to 210 days. The Company did not incur any loss nor recorded any liability related to these guarantees as of September 30, 2005.

As of September 30, 2005, 10,161 thousand preferred shares were outstanding abroad, in the form of American Depositary Receipts - ADRs.

Preferred shares are not convertible into common shares, do not entail voting rights, and have priority in capital redemption, without premium, in the event of liquidation of the Company.

Until May 18, 2004, preferred shares entitled their holders to dividends at least 10% higher than those attributable to common shares. On that date, the Special Meeting of Preferred Stockholders and the Extraordinary Stockholders' Meeting of Ultrapar approved to equalize the dividends on common and preferred shares.

b) Treasury shares

The Company was authorized to acquire its own shares at market price, without capital reduction, for holding in treasury and subsequent disposal or cancellation, in accordance with the provisions of CVM Instructions No. 10, of February 14, 1980, and No. 268, of November 13, 1997.

The Company's financial statements as of September 30, 2005 show 211 thousand preferred shares and 7 thousand common shares in treasury, which were acquired at the average cost of R\$26.07 and R\$19.30 per share, respectively. The consolidated financial statements show 377 thousand preferred shares and 7 thousand common shares in treasury, which were acquired at the average cost of R\$24.35 and R\$19.30 per share, respectively. The average acquisition cost, Company and consolidated, was adjusted because of the stock dividends, as shown in the table above.

The price of shares issued by the Company as of September 30, 2005 on the BOVESPA (São Paulo Stock Exchange) was R\$37.95 per share.

c) Capital reserve

The capital reserve, in the amount of R\$1,855, reflects the goodwill on sale of treasury shares from the Company to certain subsidiaries, at the average cost of R\$33.28 per share. Executives of these subsidiaries were given the usufruct of such shares, as described in Note 20.

d) Revaluation reserve

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

This reserve reflects the revaluation of assets of subsidiaries and is realized based upon depreciation, write-off or sale of revalued assets, including the related tax effects.

In some cases, taxes on the revaluation reserve of certain subsidiaries are recognized only upon the realization of this reserve, since the revaluations occurred prior to the publication of CVM Resolution No. 183/95. Taxes on these reserves are R\$7,408 (R\$7,528 as of June 30, 2005).

e) Profit retention reserve

This reserve is supported by the investment program, in conformity with article 196 of Brazilian corporate law, and includes both a portion of net income and the realization of the revaluation reserve.

f) Realizable profits reserve

This reserve is established in conformity with article 197 of Brazilian corporate law, based on the equity in subsidiary and affiliated companies. Realization of the reserve usually occurs upon receipt of dividends, sale and write-off of investments.

16. SEGMENT INFORMATION

The Company has three reportable segments: gas, chemicals and logistics. The gas segment distributes LPG to retail, commercial and industrial consumers mainly in the South, Southeast and Northeast Regions of Brazil. The chemicals segment mainly produces ethylene oxide, ethylene glycol, ethanolamine and ether glycol. Operations in the logistics segment include storage and transportation of chemicals and fuel, mainly in the Southeast and Northeast Regions of Brazil. Reportable segments are strategic business units that offer different products and services. Intersegment sales are transacted at prices similar to those that the selling entity is able to obtain with third parties.

The principal financial information about each of the Company's reportable segments is as follows:

	09/30/05				09/30/04	
	Ultragaz	Oxiteno	Ultracargo	Other	Consolidated	Consolidated

17. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

46

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and determination of limits, as follows:

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of September 30, 2005, the subsidiaries Oxiteno S.A. - Indústria e Comércio and Oxiteno Nordeste S.A. - Indústria e Comércio maintained R\$1,696 (R\$1,818 as of June 30, 2005) and the subsidiaries of Ultragas Participações Ltda. maintained R\$24,938 (R\$24,503 as of June 30, 2005) of allowance for doubtful accounts.
- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Cash investments of the Company and its subsidiaries are comprised substantially of transactions linked to the CDI, as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as shown below. Borrowings originate mainly from BNDES, debentures and foreign currency financing, as mentioned in Note 13.
- Exchange rate - The Company's subsidiaries use hedge (mainly US\$ to CDI) instruments available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts, periods and indexes equivalent to the assets and liabilities in foreign currency, to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian reais at September 30, 2005:

	Book value	Fair value

The exchange variation related to cash and banks, cash investments and investments abroad was recorded as financial expense in the statement of income as of September 30, 2005, in the amount of R\$15,856 (financial expense of R\$1,135 as of September 30, 2004). Other financial instruments recorded in the financial statements as of September 30, 2005 were determined in conformity with the accounting criteria and practices described in the respective notes.

19. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

a) Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in collective labor agreements, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of September 30, 2005.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

The subsidiaries Companhia Ultragas S.A. and SPGás Distribuidora de Gás Ltda. are parties to an administrative proceeding at the SDE (Economic Law Department), linked to the CADE (Administrative Council for Economic Defense), under the allegation of anticompetitive practice in the municipalities of a region of the State of Minas Gerais in 2001. In September 2005, the SDE issued a technical notice recommending to CADE the condemnation of the Companies involved in this proceeding. In their defense, the subsidiaries' arguments, among others, are: (i) under the terms of the notice issued by the Company's chief executive officer on July 4, 2000, the subsidiaries' employees were forbidden from discussing with third-party issues related to prices; and (ii) no consistent evidence was attached to the proceeding's records, and the SDE acknowledges its failure in the attempt to prove the practice. In view of the arguments presented, the fact that the technical notice has no binding effect on the CADE's decision, and their legal counsel's opinion, the subsidiaries did not record a provision for this issue. Should the CADE's decision be unfavorable, the subsidiaries can still discuss the issue at the judicial level.

The subsidiary Companhia Ultragas S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, state of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragas for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for material damages and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragas's on-site LPG storage facilities did not contribute to the explosion. It has obtained a favorable judgment in all lawsuits which have been judged to date. The subsidiary has insurance for this contingency; the uninsured amount is R\$40,229. The Company did not record any provision for this amount, since it believes the probability of loss is remote.

The Company and its subsidiaries obtained injunctions to pay PIS and Cofins (taxes on revenue) without the changes introduced by Law No. 9,718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$35,984 (R\$35,396 as of June 30, 2005).

The main tax discussions of the Company and its subsidiaries refer to the taxation of PIS and Cofins (as detailed in the preceding paragraph) and the taxation of income earned abroad (as stated in Note 9.a)). The potential losses on these discussions are accrued in long-term liabilities as other taxes and deferred income and social contribution taxes, respectively.

The subsidiary Oxiteno S.A. - Indústria e Comércio recorded an accrual of R\$7,986 (R\$7,757 as of June 30, 2005) for an ICMS tax assessment under judgment at the administrative level. The subsidiary currently awaits a decision on its appeal filed in July 2004.

23

Ultrapar Participações S.A. and Subsidiaries

The subsidiary Utingás Armazenadora S.A. has been challenging in court ISS tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the lower court decisions was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The updated amount of the unaccrued contingency as of September 30, 2005 is R\$28,755 (R\$27,940 as of June 30, 2005).

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks of these proceedings as possible or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

b) Contracts

The subsidiary Terminal Químico de Aratu S.A. - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with their port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment. As of September 30, 2005, such rates were R\$3.67 and R\$3.44 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since the inception of the contracts.

The subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2012, which establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the years ended September 30, 2005 and 2004, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the current ethylene price for the quantity not purchased.

c) Insurance coverage for subsidiaries

The Company has appropriate insurance policies to cover several risks, including loss and damage from fire, lightning, explosion of any nature, windstorm, plane crash and electrical damage, among others, protecting the units and other branches of all subsidiaries. The estimated amount of insured assets is US\$226 million.

For the Oxiteno and Canamex units, there is also a loss of income insurance against losses from potential accidents related to their assets, in the amount of US\$118 million.

The civil liability insurance program covers all the Group companies, with a coverage of US\$150 million, for losses and damages from accidents caused by third parties, related to the commercial/industrial operations and/or distribution and sale of products and services.

Group life insurance, personal accident insurance, health insurance, and domestic and international transportation insurance are also contracted.

20. STOCK COMPENSATION PLAN (CONSOLIDATED)

The Extraordinary Stockholders' Meeting held on November 26, 2003 approved a compensation plan for the management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by the subsidiaries in which the beneficiaries are employed; and (ii) the transfer of the beneficial ownership of the shares after ten years of the initial grant provided that the professional relationship between the beneficiary and the Company and its subsidiaries is not interrupted. The total amount granted to the executives as of September 30, 2005, including taxes, was R\$7,654 (R\$4,960 as of September 30, 2004). Such amount is being amortized over a period of ten years, and the amortization related to the third quarter of 2005, in the amount of R\$574 (R\$372 to the third quarter of 2004), was recorded as an operating expense for the period.

21. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. This plan is managed by Ultraprev - Associação de Previdência Complementar. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical

25

Ultrapar Participações S.A. and Subsidiaries

amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name at Ultraprev; or (ii) a fixed monthly amount which will deplete the fund accumulated in the participant's name over a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the amounts and periods of receipt of the retirement benefit. As of September 30 2005, the Company and its subsidiaries contributed R\$2,199 (R\$2,902 as of September 30, 2004) to Ultraprev, which was charged to income for the

year. The total number of participating employees as of September 30, 2005 was 5,954 (5,382 as of September 30, 2004), with no participants retired to date. Additionally, Ultraprev has 1 active participant and 32 former employees receiving defined benefits according to the policies of a previous plan.

(2) Performance Analysis:

Net Sales and Services - Ultrapar's consolidated net sales and services in 3Q05 amounted to R\$ 1,229.3 million, an increase of 2% in relation to 2Q05, and 7% lower than 3Q04. For the first nine months of 2005, Ultrapar's net revenues amounted to R\$ 3,568.3 million, flat compared to the same period in 2004.

Ultragaz: The Brazilian LPG market grew by 1% in 3Q05, compared to the same period in 2004, due to the expansion in real wages and the stability seen in prices, which reduced the weighting of LPG in the family budget. Ultragaz experienced growth of 2% in its total sales volume, higher than the growth rate in the Brazilian market, principally due to the sales recovery in the domestic segment □ Ultragaz ended the quarter with a market share of 24.3%, 0.4 percentage points higher than in 3Q04, and in line with the market share that the Company previously enjoyed before it started restructuring its distribution network. In relation to 2Q05, total sales volume for Ultragaz increased by 5% - in line with the expansion of 5% seen in the LPG market. For the year, both Ultragaz and the market saw a retraction in total sales volume, of 1%. Based on this, Ultragaz's bottled segment saw an increase of 4%, or 11 thousand tons, comparing 3Q05 with the same quarter in 2004. When compared with 2Q05, the increase amounted to 7%, or 17 thousand tons. The bulk segment, which mainly serves the commercial and industrial sectors, saw a drop of 2%, or 3 thousand tons, in relation to the same period in 2004, and an increase of 3%, or 4 thousand tons, in relation to 2Q05. Net sales and services at Ultragaz amounted to R\$ 772.2 million, flat in relation to 3Q04. The expansion of 2% in volumes sold compensated for the drop in average sales price, due to the increased competitiveness of the market. Compared to the second quarter of 2005, Ultragaz's net revenues increased by 5%, in line with the increased sales volume.

Oxiteno: Total sales volume for Oxiteno amounted to 148 thousand tons in 3Q05, as a result of sales growth of 9% in the domestic market. The drop of 7% in relation to 3Q04 was because of lower sales to the international market, seeing that export shipments in 2Q04 were delayed, distorting the comparison base by increasing shipments booked in 3Q04. Total sales to the domestic market amounted to 101 thousand tons, up 9% on 3Q04, which up to that time had constituted an all-time quarterly sales record in the domestic market for Oxiteno. The higher sales volume to the domestic market is due to increased market share with the customers served by Oxiteno, as well as the performance of the economy. Sales to international markets in 3Q05 amounted to 47 thousand tons, 29% lower than 3Q04, principally due to (i) the higher export volume in 3Q04 as a consequence of the shipment delays that occurred in 2Q04, (ii) weaker international demand. Compared to 2Q05, total sales volume was up 9%, as a result of a 18% increase in sales to the domestic market. For the first nine months of 2005, Oxiteno reported an increase of 3% in total sales volume. Net sales and services at Oxiteno totaled R\$ 409.4 million in 3Q05, 20% below 3Q04, due to: (i) the appreciation of 21% in the Brazilian Real against the US dollar, partially compensated by dollar prices which were on average 10% higher and (ii) sales volume 7% lower in the quarter. Compared to 2Q05, net revenues were down 3% - the effects of a stronger Real (up on average by 6%) and a drop of 15% in the price of glycols were partially compensated by an increase of 9% in sales volume.

Ultracargo: The increase in the volume of operations at Ultracargo in this third quarter of 2005, was due to new operations, particularly the operational startup of the Santos Intermodal Terminal -TIS in July 2005, as well as the winning of new clients. The average amount of liquid and gas stored in 3Q05 increased by 10% and 7%, in relation to 3Q04 and 2Q05, respectively. The storage of solids increased by 11% in relation to 3Q04, and was 1% lower than 2Q05. Kilometrage travelled increased by 2% and 1%, respectively, compared to 3Q04 and 2Q05. Total net sales and services amounted to R\$ 61.6 million, an increase of 18% in relation to 3Q04, as a result of new operations, particularly the Santos Terminal, the winning of new clients and contractual price increases. These same factors caused Ultracargo's net revenues to show an increase of 5% in relation to 2Q05.

Cost of Goods Sold (COGS): Ultrapar's cost of goods sold amounted to R\$ 1,009.7 million in 3Q05, an increase of 1% compared to 3Q04, and 6% compared to 2Q05. For the first nine months of 2005, the cost of goods sold was 4% higher than the same period in 2004.

Ultragaz: the cost of goods sold in 3Q05 increased by 4% in relation to 3Q04, and up 7% compared to 2Q05, due principally to: (i) higher sales volume, (ii) higher freight costs and (iii) the increase in personnel costs, of particular note being the collective wage agreement celebrated.

Oxitenó: the cost of goods sold at Oxitenó in 3Q05 amounted to R\$ 308.7 million, down 6% compared to 3Q04, in line with the variation in sales volume - the rise of 15% in the cost of ethylene in dollar terms as a function of the rise in oil prices, was compensated by the appreciation in the Brazilian Real. Compared to 2Q05, Oxitenó's cost of goods sold increased by 4%, less than the increase of 9% seen in volumes sold, as a function of the appreciation in the average Brazilian Real.

Ultracargo: the cost of services provided in 3Q05 amounted to R\$ 39.8 million, an increase of 21% when compared to 3Q04, as a result of the new operations, the rise in fuel costs and the employee salary increase. When compared to 2Q05, the cost of services provided by Ultracargo increased by 8%, impacted mainly by the startup of operations at the Santos Intermodal Terminal - TIS - and by the increase in fuel costs.

Gross Profit: In 3Q05 Ultrapar reported a gross profit of R\$ 219.6 million, a decrease of 32% and 13% in relation to 3Q04 and 2Q05, respectively. In the 9M05 gross profit was R\$ 729.4 million, 12% lower than the R\$ 826.0 million reported in the same period of 2004.

Sales, General and Administrative Expenses: Ultrapar's sales, general and administrative expenses amounted to R\$ 141.0 million in 3Q05, a drop of 3% in relation to 3Q04 and an increase of 7% in relation to 2Q05. For the first nine months of 2005, Ultrapar's sales, general and administrative expenses amounted to R\$ 409.9 million, practically in line with the figure in the same period in 2004.

Ultragaz: sales, general and administrative expenses at Ultragaz amounted to R\$ 73.3 million in 3Q05, down 5%, in relation to 3Q04, basically as a result of the lower expense levels achieved due to rationalization efforts during the year. In comparison with 2Q05, sales, general and administrative expenses saw an increase of 5% impacted by: (i) the collective wage increase agreement; and (ii) the increase of 5% in volume sold in 3Q05, compared to

2Q05.

Oxitenó: sales, general and administrative expenses amounted to R\$ 52.5 million in the quarter, down 9% when compared to 3Q04. Sales expenses were down 9%, basically due to lower export sales volume, reducing the cost of export freight. Administrative expenses were down 10%, due to lower personnel expenses, due basically to the reduction in the provision for employee profit-sharing payments. In relation to 2Q05, sales, general and administrative expenses increased by 6%, basically as a result of the rise in administrative expenses.

Ultracargo: Ultracargo's sales, general and administrative expenses amounted to R\$ 16.6 million in 3Q05, up 31% in relation to 3Q04, principally due to the increase in personnel costs, as a result of expansion in the size of the workforce, due to new operations and the collective wage increase agreement introduced for the company's employees. In comparison with 2Q05, sales, general and administrative expenses were up 21%, the main impacts being the increase in the size of the workforce and the rise in general and administrative expenses as a result of the startup of operations at the Santos Intermodal Terminal - TIS.

Operating Income: Ultrapar reported an operating income of R\$ 79.1 million, 55% lower than the operating income reported in 3Q04. Compared to 2Q05, Ultrapar's operating income retracted by 33%. In the first nine months of 2005, Ultrapar's operating income totaled R\$ 320.5 million, 24% lower than the same period of 2004, when Ultrapar's operating income totaled R\$ 422.1 million.

Financial Result: Ultrapar reported financial expenses net of financial revenues of R\$ 2.7 million in 3Q05, compared to R\$ 14.6 million in 3Q04, a drop of 82% between the corresponding quarters. Compared to 2Q05, financial expenses net of financial revenues were 84% lower. The main factor behind this reduction was the 5% appreciation seen in the Brazilian Real in 3Q05, compared to 8% in 3Q04 and 12% in 2Q05. Furthermore, revenues from financial investments were up as a result of the company's increased net cash position.

Non-Operating Expenses: In 3Q05 Ultrapar reported a non-operating expense of R\$ 0.7 million, an improvement of 79% or R\$ 2.6 million compared to 3Q04, when Ultrapar reported a non-operating expense of R\$ 3.3 million. Compared to 2Q05, Ultrapar's non-operating expenses in the quarter were practically unchanged. This result is basically due to the scrapping of storage cylinders at Ultragaz.

36

Income Tax and Social Contribution: Ultrapar's 3Q05 income tax and social contribution expenses amounted to R\$ 22.7 million, a decrease of 59% in relation to 3Q04, when Ultrapar's income tax and social contribution expenses was R\$ 55.5 million. Besides the lower results reported in 3Q05 in relation to 3Q04, non-taxable revenues resulted in a R\$ 3.1 million benefit in this third quarter.

Benefit of Tax Holidays: Ultrapar is entitled to federal tax benefits for its activities in the Northeast Region of Brazil, due to the federal program for development of the region. Tax benefits cover Oxitenó's plant in Camaçari, Bahiana Distribuidora de Gás and Tequimar. In this third quarter, tax benefits amounted to R\$ 15.3 million, 46% lower than that in the same period of 2004. The tax benefits reduction is in line with the reduction in Oxitenó's results in the Camaçari plant.

Lucro Líquido: consolidated net earnings in 3Q05 amounted to R\$ 67.2 million, down 48% and 25%, respectively, in relation to 3Q04 and 2Q05. Net earnings for the first nine months of 2005 amounted to R\$ 257.5 million, down 16% in relation to the same period in 2004.

EBITDA: Ultrapar reported consolidated operational cash generation (EBITDA) of R\$ 126.8 million in 3Q05 a reduction of 42% in relation to 3Q04 and 23% compared to 2Q05. Despite the good sales volume performance shown by its businesses, the company's financial performance was affected mainly by the continuing appreciation in the Brazilian Real, the drop in the average price of petrochemical products in relation to the previous quarter

and the strong cost pressure as a consequence of higher oil prices. For the first nine months of 2005, Ultrapar's EBITDA amounted to R\$ 459.5 million, 17% lower than the EBITDA reported in the same period in 2004.

Ultragas: Ultragas reported EBITDA of R\$ 53.1 million, down 28% in relation to that reported in 3Q04, due basically to the drop in the average sales price as a result of a more competitive market and the rise in freight costs. Compared to 2Q05, EBITDA at Ultragas was down 15%, due to increased costs and operational expenses, as a consequence of higher diesel prices and wage increase agreements. Ultragas's profitability, as measured in EBITDA/ton, amounted to R\$ 130/ton in this third quarter, R\$ 53/ton and R\$ 30/ton lower than 3Q04 and 2Q05, respectively.

Oxiteno: Oxiteno ended 3Q05 with EBITDA of R\$ 59.6 million, 55% and 31% lower than 3Q04 and 2Q05, respectively. These reductions were due to: (i) the effect of the appreciation of the Brazilian Real against the US dollar, of 21% between 3Q04 in 3Q05; (ii) the higher oil price level, which has put pressure on costs; and (iii) the lower price of glycol in 3Q05. Even operating in such an extremely unfavorable scenario, Oxiteno's profitability, measured in EBITDA/ton, amounted to US\$ 172/ton, still in line with the company's annual historic average.

Ultracargo: Ultracargo reported an increase of 9% in EBITDA for 3Q05, compared to 3Q04, due basically to the company's increased operational volume. When compared to 2Q05, EBITDA at Ultracargo was down 9%, principally due to the costs and expenses generated as a result of the startup of operations at the Santos Intermodal Terminal, still without corresponding proportional revenues to compensate.
