Notice for Meeting

To: Shareholder _____

1. Please note that we are scheduled to hold the 2008 Shareholders' General Meeting on Thursday, June 19, 2008 at 10:00 a.m. at Chuang-ching Hall, 600, Chia-chang Rd., NEPZ, Nantz Dist., Kaohsiung City. Major contents of the meeting shall be:

- 1.1 Status Report:
 - 1.1.1 Business report of 2007
 - 1.1.2 Report by supervisors on review of the 2007 financial statements.
 - 1.1.3 Report on total sum of endorsement for guarantee and amount of loans to other parties.
 - 1.1.4 Report on implementation of indirect investment on Mainland China by the Company.
 - 1.1.5 Report on the Rules of Procedure for the Board of Directors Meeting has set up.
- 1.2 Matters for ratification:
 - 1.2.1 Ratification of 2007 final financial statement.
 - 1.2.2 Ratification of proposal for 2007 earnings distribution proposal.
- 1.3 Matters for discussions:
 - 1.3.1 Discussions of issuance of new shares by capital increase from surplus and employee bonus.
 - 1.3.2 Discussions of authorization to the board of directors to opt at the most optimal time for capital increase in cash from participation in issuance of GDR, or conduct capital increase in cash at home, or issue domestic convertible bond or ECB overseas.
 - 1.3.3 Discussions of the revision case for the Procedure for Acquisition or Disposal of Assets.
 - 1.3.4 Discussions of revision of Guidelines for the Election of Directors and Supervisors.
 - 1.3.5 Discussions of revision of the Company's Articles of Incorporation.
 - 1.3.6 Discussions of revision of the Company's restrictions on investment in Mainland China.
- 1.4 Other motions and extempore motions.

2. The following explains how the 2007 earnings was distributed: NT\$9,854,450,540 for shareholders' bonus, NT\$1.8 per share, of which NT\$9,361,728,020 was in cash, NT\$1.71 for each share, the remaining NT\$492,722,520 was by stocks, or 9

shares of stock dividend for each and every 1,000 shares as non-remunerative surplus-turned capital increase. Additionally, the Company plans to implement a capital increase out of capital reserves of NT\$1,094,938,940, i.e., 20 shares of stock dividend as capital reserve-turned capital increase for each 1,000 shares held, and the total amount of dividends for this shareholder distribution is NT\$2 per share, which includes a cash dividend of NT\$1.71 per share and a stock dividend of NT\$0.29 per share. With respect to the above-mentioned cash dividend rate and stock dividend rate for shareholders' bonus, the calculation was based on the 5,474,694,749 shares registered in the roster of the Company's shareholders at March 20, 2008. Later, if ECB holders exercise their rights to convert the bond into the Company's shares, or employees opt to implement the Employee Stock Option warrants to subscribe new shares, or the Company issues new shares for a cash capital increase, or the Company buys back the Company's stocks, or the Company assigns or cancels the treasury stocks, which affect the number of shares that the Company may distribute and the fluctuation of shareholders' cash dividend rate and stock dividend rate require rectification, the shareholders' meeting will be requested to authorize the board of directors to make the adjustment at its discretion.

3. According to Article 165 of The Company Act, stock transfer shall be discontinued from April 21, 2008 to June 19, 2008.
4. Apart from the public announcement, this is the letter of invitation attached with one copy each of the Notice for Attendance of the Shareholders' General Meeting and proxy. You are cordially requested to save your calendar for this meeting. If you are to attend the meeting in person, please report to the site on the date of meeting by filling out Coupon 2 the Notice for Attendance in Person and Coupon 3 Sign-in Card. Note 1: Of the NT\$766,410,000 employee bonus appropriated this time, NT\$383,205,000 was distributed in cash and the remaining NT\$383,205,000 was distributed in stocks, processing for issuance of 38,320,500 new shares for capital increase by employee bonus.

Note 2: The shareholders' bonus distributed this time totaled NT\$9,854,450,540 NT\$1.8 per share, of which NT\$9,361,728,020 was distributed in cash, cash dividend of NT\$1.71 per share and the remaining NT\$492,722,520

- 5 -

was distributed in stocks, i.e., 9 shares of stock dividend as gratuitous surplus-turned capital increase for each 1,000 shares held. Additionally, the Company plans to implement a capital increase out of capital reserves of NT\$1,094,938,940 i.e., 20 shares of stock dividend as capital reserve-turned capital increase for each 1,000 shares held, and the total amount of dividends for this shareholder distribution is NT\$2 per share, which includes a cash dividend of NT\$1.71 per share and a stock dividend of NT\$0.29 per share. With respect to the above-mentioned cash dividend rate and stock dividend rate, the calculation was based on the 5,474,694,749 shares registered in the roster of shareholders as of March 20, 2008. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate and stock distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentiarily and make the adjustment accordingly.

Resolution:

Matters for Discussions

Item 1 (Proposed by the Board of Directors)

Proposal: Please discuss the issue of issuance of new shares for capital increase by surplus, employee bonus, and capital reserves.

- Explanation:
1. In conjunction with the plant expansion plan, the Company contemplates to use the shareholders' bonus of NT\$492,722,520 and employee bonus of NT\$383,205,000 totaling NT\$875,927,520 due for distribution in 2007 for capital increase of 87,592,752 shares at NT\$10 par value.
 2. It is additionally planned to allocate NT\$1,094,938,940 from capital reserves for capitalization, and capitalizing share premium capital reserves will take precedence in the aforementioned capitalization of capital reserves.
 3. New shares allocation method: In the previous items 1 and 2, a capital increase of a total of NT\$1,970,866,460 is planned, with an issuance of 197,086,646 new shares, calculated according to the 5,474,694,749 shares registered in the Company's roster of shareholders as of March 2008, with 9 shares of stock dividend as gratuitous surplus-turned capital increase and 20 shares of stock dividend as capital reserve-turned capital increase for a total of 29 shares for each 1,000 shares held by shareholders. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate and stock distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentially and make the adjustment accordingly. Shareholders are advised to consolidate the odd share of less than one share to make up one share by their own means for registration within 5 days as of the base date for distribution of new shares. Where the insufficient and inadequate part will be paid in cash by the par value. The board of directors has authorized the chairman to assign a specific person to purchase odd shares of less than one share. In addition, distribution of new shares for employee bonus-turned capital increase, the Company's by laws and the Company's Measures Concerning Distribution of Employee Bonus shall govern.
 4. The rights and obligations of new shares shall be equal to the older ones.
 5. Ex-rights base date: It shall be set separately, pending resolution passed by the shareholders' meeting and approval by the competent regulatory authority.
 6. The plant expansion plan by the capital increase of this time shall be completed by December 2011. Implementation of such plan is expected to enhance the Company's competitiveness, elevate the benefit of operation efficiency and is passively beneficial to the shareholders' equity. If the competent regulatory authority deems it necessary to change any of the

various items set for this capital increase case, or changes must be made to meet the objective environment, the board of directors is authorized to act at its discretion.

Resolution:

Item 2 (Proposed by the Board of Directors)

Proposal: To meet the requirements for larger production capacity in future the Company needs to enrich its operation capital in order to repay bank loans or the needs for other long-term development use, thereby enabling the fund-raising channels more diversified and flexible. As such, the shareholders' meeting is requested to authorize the board of directors to opt at the optimal time, depending on the market situation and the status of capital needs of the Company and in accordance with existing laws and regulations, for capital increase in cash by issuing common shares or joining the issuance of GDR (Global depository receipts) or domestic capital increase in cash or issuance of domestic or ECB to raise fund. The case is being presented for discussions.

Explanation: 1. The principles to authorize the board of directors to issue new common shares and GDR for capital increase in cash shall be as follows:

1.1 Issuance of common shares in the form GDR for capital increase in cash shall be limited to 500,000,000 shares only. The shareholders' meeting shall authorize the board of directors and the chairman of the board to make the adjustment by the market condition and issue the authorized GDR's all at once.

1.2 In conducting issuance of new shares in the form of GDR for capital increase in cash, the issuance price shall be by the rules set forth in the Self-discipline Rules Concerning Subscription and Issuance of Securities by the Issuing Company Member Underwriters Have Assisted in the Process, i.e., the issuance price shall not be lower than the closing price of the Company's common stock at the domestic open market. Take the simple arithmetic mean of the closing price of the common share on the first, third and fifth day prior to the price-setting day, minus 90% of the average stock price after gratuitous ex-rights and ex-interest, then comes the price for the new issue. However, the price-setting method may be duly adjusted if related domestic laws and regulations are updated. Since the stock price at home has often experience drastic volatility in the short run, the chairman of the board is authorized to set the actual issuance price within the above-mentioned price range, after having consulted with underwriter taking into consideration the international general practice, international capital market, domestic market price, the overall subscription status so as to make the offering price attractive to overseas investors. Consequently, the price-setting method should be reasonable. Additionally, the deciding method for the issuance price of GDR is based on the fair trading price of common shares at the domestic open market whereas the original stockholder may purchase the common shares at domestic stock exchange at the price close to the issuance price of the GDR, without bearing the exchange rate risk and liquidity risk. Moreover, the tranche of issuance of new shares and GRD for capital increase in cash do not affect much of the

shareholders' equity as the highest dilution ratio in relation to the original shareholders' equity stands only at 9.13%.

1.3 10% of common shares issued for capital increase in cash shall, according to Article 267 of The Company Act, be reserved for subscription by company employees and the remaining 90% will be fully appropriated for open issuance as the securities for GDR as the original shareholders have waived their rights for subscription in accordance with Article 28-1 of the Securities Trading Act. For the part that employees have not subscribed, the chairman of the board is authorized to contact specific party for purchase or, depending on the market requirements, list as the original securities for participation in the issuance of GDR.

1.4 The proceeds for capital increase in cash from subscription to the GDR shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, and/or spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

1.5 The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, source of capital, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR.

1.6 Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to proceed with matters related to issuance of new shares.

1.7 If the agreement on issuance time, issuance condition, issuance volume, issuance amount of capital increase in cash and participation in issuance of GDR as well as other matters related to capital increase in cash and participation in issuance of GDR needs update in future due to the decision by the competent regulatory authority and on the basis of operation evaluation, or the needs of objective environment, the board of directors shall be authorized to handle at its full discretion.

1.8 In conjunction with the issuance method of common shares for capital increase in cash and participation in GDR issuance, the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the participation in the issuance of GDR as well as handling all needed matters related to the participation in the issuance of GDR.

1.9 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

2. The principles to authorize the board of directors to conduct capital increase in

cash at home shall be as follows:

2.1 Number of new shares issued for capital increase in cash shall not be in excess of 500,000,000 shares.

2.2 The par value of the new shares for capital increase in cash shall be NT\$10 each. Actual issuance price shall be by related rules set forth in the Self-discipline Rules Concerning Subscription and Issuance of Securities by the Issuing Company Member Underwriters Have Assisted in the Process and the market condition at the time of issuance. The chairman of the board and the underwriter may reach an agreement on the issuance in consideration of all the conditions mentioned above, which shall be subject to the approval by the competent regulatory authority before the issuance.

2.3 The issuance method of new shares for the capital increase in cash shall be by price enquiry and selected purchase. With the exception of 10%-15% reserved for employees as required by Article 267 of The Company Act, the rest will be offered for public issuance as all original shareholders have waived their rights to subscribe according to Article 28-1 of the Securities Trading Act. In addition, if the Company's employees have not subscribed sufficiently and adequately or waived the right to subscribe, the chairman may contact specific party for purchase.

2.4 The proceeds for capital increase in cash from subscription to the GDR shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, and/or spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

2.5 The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR.

2.6 Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to set the base date for capital increase.

2.7 With respect to the manner of issuance as mentioned in Section 2.3 above, the board of directors is authorized to make the amendment at its full discretion if amendment becomes necessary due to update of laws or regulations or the objective environment dictates the amendment.

2.8 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

3. The principles to authorize the board of directors to conduct capital increase in cash by issuance of convertible corporate bond at home and ECB overseas:

3.1 Estimated number of shares for conversion: Not to exceed the number of

shares registered in the application for update of the Company's profit-seeing registration card.

3.2 Time of issuance: It depends on the capital needs by the Company and the market condition.

3.3 Interest rate: In principle, it shall be by the market interest rate then prevailing in the marketplace and reasonable, if possible.

3.4 Issuance duration: It depends on the capital needs by the Company

3.5 Issuance condition: Subject to negotiation with the lead underwriter and existing laws and regulations.

3.6 The proceeds from subscriptions to the domestic convertible corporate bond and ECB overseas shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, and/or spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

3.7 The board of directors is authorized to set the issuance measures, amount of fund raised, plan items, estimated progress as well as estimated probable effect generated.

3.8 In conjunction with the issuance of the convertible corporate bond the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the issuance of the convertible corporate bond as well as handling all needed matters related to the issuance of the convertible corporate bond.

3.9 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

Item 3 (Proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Procedure for Acquisition or Disposal of Assets.

Explanation: 1. To increase the flexibility of the Company's long and short term investing, the Company's board of directors had passed a result on March 31, 2008 to revise Article 7 of the Company's Procedure for Acquisition or Disposal of Assets.

2. For details of the table of comparison of the revised provisions of the Procedure for Acquisition or Disposal of Assets, please refer to Attachment V to this Agenda Manual. Your consent is solicited.

Resolution:

Item 4 (Proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Guidelines for the Election of Directors and Supervisors.

Explanation: 1. In order to meet the requirements set forth by the Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies announced by the Financial Supervisory Commission, Executive Yuan on March 28, 2006, it is planned to revise a portion of the articles of the Company's Guidelines for the Election of Directors and Supervisors. The Company's board of directors had passed a result on March 31, 2008 to revise the Company's Guidelines for the Election of Directors and Supervisors.

2. For details of the table of comparison of the revised provisions of the Guidelines for the Election of Directors and Supervisors, please refer to Attachment VI to this Agenda Manual. Your consent is solicited.

Resolution:

Item 5 (Proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's Articles of Incorporation.

Explanation: 1. In order to meet the requirements set forth by the Regulations Governing Appointment of Independent Directors and Compliance Matters for Public Companies announced by the Financial Supervisory Commission, Executive Yuan on March 28, 2006, and to meet the operation needs of the Company, part of the provisions of the Company's Articles of Incorporation are suggested for revision.

2. Please refer to Attachment VII to this Agenda Manual for the table of comparison of the revised Articles of Incorporation. Your consent is solicited.

Resolution:

Item 6 (Proposed by the Board of Directors)

Proposal: Please discuss the revised version of the Company's restrictions on investment in Mainland China

Explanation: 1. On July 11, 2000, by resolution of the Shareholders' Meeting, the Company gave the Board of Directors full authorization to handle matters related to the Company's investments and technical cooperation in Mainland China within the limit of 20% of paid-up capital or net value, whichever is higher. On June 30, 2005, by resolution of the Shareholders' Meeting, the Company raised the aforementioned authorized limit for investment in Mainland China to the accumulated investment amount that does not exceed the investment amount or ratio of investment set in the Review Principles for Investment or Technical Cooperation in Mainland China announced by the government. (The investment limits are a limit of a 40% ratio of investment for investments with a net value of less than 5 billion NT\$, a limit of a 30% ratio of investment for investments with a net value between 5 billion NT\$ and 10 billion NT\$, and a limit of a 20% ratio of investment for investments with a net value over 10 billion NT\$.)

2. To meet the Company's operational and business development needs, and in consideration of the announced March 11, 2008 revision of the aforementioned Review Principles for Investment or Technical Cooperation in Mainland China, the basis of calculation of the investment limit mentioned in the previous item is to be revised from the original "net value" to "net value or consolidated net value." It eases the regulation that, when increasing domestic investment, the upper limit of the accumulated amount of investment in Mainland China shall include 40% of the new increase in domestic investment amount in the subsequent year for investors who have exceeded the limit of their accumulated amount of investment in Mainland China or that will exceed the limit when the current application's investment (capital increase) amount is included. It is planned to revise the Company's aforementioned limits to investment in Mainland China to give full authority to the Board of Directors to handle matters related to the Company's investments and technical cooperation in Mainland China according to the regulations of the Review Principles for Investment or Technical Cooperation in Mainland China.

Business Report

2007 results represented a fluctuating year for ASE, consistent with the entire semiconductor market. Overall electronics industry growth was better than forecasted in the first half of the year, but weakened during the second half as uncertainty over a potential economic recession grew. Soaring oil prices, lower consumption, and the sub-prime mortgage of the USA added to global market concerns. According to IEK ITIS, the value of Taiwan's IC packaging industry in 2007 increased 8.2% year over year to NT\$228 billion, but it represented the lowest level of annual growth since 2001. In addition, the value of Taiwan's test industry in 2007 grew only 10.7% to NT\$102.3 billion, with further growth hindered by the continued fall of DRAM and Flash test prices.

Signs indicate that a readjustment of the global economy has begun and the shift of economies is significant. Industrialized countries are facing slow economic growth, while the performance of newly industrialized economies has grown in recent years with this growth trend expected to continue as investment increases in these specific regions. Facing the uncertainty of the macro economy and semiconductor market this year, one thing certain is our commitment to cost, quality, and partnerships with key customers. We will exercise caution using limited capital, but will make the best strategic investments on behalf of our customers. With continued focus on our core businesses, we will make the necessary changes to create a win-win operation model for excelling growth and profits.

The following report shows our operational status in the past year.

Report on Operations in Fiscal 2007

1. Accomplishment of Business Plan for Fiscal 2007

Our revenue in 2007 grew to NT\$101.2 billion, representing an increase of less than 1% (NT\$800 million) growth over 2006. As many world-leading semiconductor companies ramped up operations in China, IC packaging and test companies likewise expanded capacity and product portfolios. Revenues for our China assembly and test operations grew in 2007, and we expect to see continued growth in 2008 as ASE works with all our customers to offer high volume, lower cost manufacturing. Our package portfolio in China is still not complete; however, we have launched some major initiatives in order to compete and eventually provide a complete product portfolio. One such initiative was the completion of an assembly and test joint venture (ASEN) with NXP Semiconductors, the independent semiconductor company founded by Philips, which was approved by the Investment Commission of the Ministry of

Economic Affairs (MOEAIC). ASEN combines ASE's expertise in assembly and test with NXP's technology know-how and innovative processes. Overall, ASE's China operations deliver strong value across the entire semiconductor industry chain, helping customers to optimize their assembly and test, shortening their time to market and ensuring high quality, cost-effective products.

2. Budget performance

No financial forecast was disclosed in 2007.

3. Analysis of financial accounts and profitability

By the end of 2007, the paid-in capital was \$54,475,589 thousands and the shareholder equity was \$75,173,361 thousands, commanding 74% of the total assets amounting to \$102,045,382 thousands. The long-term capital to fixed assets ratio was 286%, indicating a significant improvement in the financial ratio from last year, while the financial structure and debt re-payment capacity remained stable. Operating income and profit after tax for 2007 were NT\$10,680,296 thousands and NT\$12,165,249 thousands respectively; and the overall operating results and profitability reduced slightly due to volatile market conditions and recession concerns.

4. R&D overview

As a result of dedicated R&D investment, we successfully developed the following new technologies: DDR2 800 packaging and testing solutions, 65nm copper process/lead-free flip-chip package and wire bonding package for low-k wafers, 65nm copper process/stacked chip scale package (SCSP) for low-k wafers, wafer via technology, laser wafer cut technology, 0.7 mil wire bonding package technology, Bluetooth module technology, WiFi module technology, copper wire bonding package technology, and outer lead flip-chip Map PoP stacking technology.

In 2007, we were also the first IC packaging and test provider in Taiwan to receive the Green System Certificate of QC080000. Our chemistry laboratory received RoHS certification from the TAF in November 2007, and began to provide internal RoHS packaging services. These achievements are testament to our commitment to the design, R&D, manufacture and production of green products, environmental safety, and quality assurance.

Business Plan for 2008 in summary

1. Operating policy

1.1 Provide customer with services of "ultimate quality"

1.2 Create long-term and stable profits for the organization and customers

1.3 Create prosperity with suppliers together

1.4 Develop employees to be elite in respective areas

1.5 Treat employees “in a fair and reasonable manner”

1.6 Provide employees with a “harmonious, happy and open” work environment

1.7 Maintain flexibility in operations

2. Projects sales volume and references

In light of current industry dynamics, future market demand and ASE’s capacity, the projected sales volume for 2008 is as follows:

Item	Project Sales
Package	Approx. 4.1 billion chips
Test	Approx. 800 million chips

3. Important production and sales policies

As packaging and test technologies are becoming more sophisticated, the technology and capital thresholds of packaging and test industries are likewise changing every year. We are aligning our R&D objectives accordingly and placing major focus on the development of the most advanced packaging technologies in Taiwan.

As we ramp-up operations in China, we are placing focus on the low-level package market and offering the right combination of product performance and cost advantage to meet domestic market needs. It is estimated that the revenue proportion of our mid- and low-level IC packaging and test services will increase gradually and become one of our major sources of our income and profit within the next 3-5 years.

Future Development Strategy

For 2008, Gartner Dataquest forecasts another year of growth for the SATS industry with initial estimates for 9.8 percent over 2007. Driving growth will be the continued adoption of Windows Vista, the replacement of desktops by laptops, and the high demand for communication products and consumer electronics in emerging markets across the world. Also expected to contribute to SATs market growth is the fab-lite operating strategy, increasingly being adopted by the IDM community. According to Frost & Sullivan, growth of the IC packaging market in Asia will double during the 2006-10 timeframe.

As customers demand more sophisticated designs to meet fast-moving consumer electronics market trends, ASE remains highly competitive in terms of both know-how and finance. In addition, as the Taiwanese government abolished the restrictions on low-level packaging and test industries at the end of 2006, we increased our investment in China in order to successfully compete in the market, as well as expand the scope of product ranges to attract more new customers and provide existing customers with the best possible product portfolio.

Influences of external competitions, regulations and macroeconomics

In addition to the increasing sophistication and miniaturization of electronic products, environmental issues have also deeply impacted the semiconductor industry at large. The EU's environmental regulations and non-toxic and lead-free requirements have pushed the packaging industry to channel innovation towards the development of green products. This requires capital investment, so we have embarked on relevant green package studies and also initiated discussion with customers on the most effective supply chain logistical management, required to meet both established and emerging green standards. In terms of environmental regulations, while listing employee bonuses as fees will be the practice in Taiwan starting this year, the valuation of stock will then be the same as that of world-leading suppliers in the long run. Therefore, the valuation of the price-earning ratio (PER) of Taiwanese stocks, which have been underestimated for a long time, will be more competitive.

Despite external environmental changes, we will dedicate efforts to accelerate organizational growth and expansion, while creating greater reward for shareholders. Together, as a company, ASE is well-equipped to meet market challenges, and persevere in our role as market leader. Today, ASE is not only more healthy than ever, we can also provide all key customers a much more complete service as well as achieve higher growth in the longer term.

Article 13

When the chair deems the motion being discussed has reached the state for voting, he/she may announce stop of discussions and bring the case for voting.

When the voting of a motion is being taken, it shall be deemed passed if there is no objection from the attending directors once the chair has made the enquiry, which shall have the same effect as does the voting. If, however, there is objection, the case should resort to voting.

The chair may choose one of the following methods to decide the manner of voting. If there are objections, the voting shall be decided by the opinion of the majority:

13.1 Vote by raising one's hands.

13.2 Vote by casting the ballot.

Article 15

Where there is conflict of interest that involves the interest of the director or the corporate shareholder the director represents, the concerned director shall not enter into the discussions or voting nor act as agent to cast the vote.

Where the director is not allowed to exercise the voting right with regard to the board's resolution in accordance with the rules specified in the foregoing paragraph, Article 180(2) applying Article 206-2 of The Company Act shall govern.

Article 13

When the chair deems the motion being discussed has reached the state for voting, he/she may announce stop of discussions and bring the case for voting.

When the voting of a motion is being taken, it shall be deemed passed if there is no objection from the full body of attending directors once the chair has made the enquiry. If, however, there is objection, the case should resort to voting.

The chair may choose one of the following methods to decide the manner of voting. If there are objections, the voting shall be decided by the opinion of the majority:

13.1 Vote by raising one's hands.

13.2 Vote by casting the ballot.

The full body of attending directors mentioned in the second item does not include directors not allowed to exercise the voting right according to Article 15(1).

Article 15

Where there is conflict of interest that involves the interest of the director or the corporate shareholder the director represents, the concerned director shall express their opinion and ask and answer questions, shall not enter into the discussions or voting, and should recuse themselves during discussions and resolutions, nor act as agent to cast the vote.

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying balance sheets of Advanced Semiconductor Engineering, Inc. (the "Company") as of December 31, 2007 and 2006, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2007 and 2006, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 1 to the financial statements, the Company separated the related operation, assets, and liabilities of its material segment into its subsidiary, Advanced Semiconductor Engineering Electronics Inc. on August 1, 2006, and acquired 294,930 thousand shares issued by this subsidiary. The related operating income of the separated material segment for the year ended December 31, 2006 has been reflected as separated segment in the statements of income mentioned in the first paragraph.

As discussed in Note 27 to the financial statements, the Company incurred fire damage to its production lines and facilities in Chung Li, Taiwan on May 1, 2005. The Company recognized an estimated loss of NT\$11,849,699 thousand for the damage to its inventories, building, machinery and equipment, net of NT\$4,616,000 thousand of insurance receivable in 2005. The Company reached final settlement with the insurers in June 2006 with regards to the fire damage referred to above. The final settlement amount of NT\$7,190,524 thousand, less the NT\$4,616,000 thousand recorded in 2005 and the related repair and restoring expenses of NT\$1,043,262 thousand, was recorded as a gain in 2006. The Company also reversed NT\$2,009,102 thousand of previously recorded impairment charges on these fire-damaged building, machinery and equipment due to an increase in the estimated service potential of the assets. Net amount of NT\$3,540,364 thousand

was recognized as a gain on insurance settlement and impairment recovery with NT\$2,362,579 thousand and income from separated segment with NT\$1,177,785 thousand, respectively.

As discussed in Note 3 to the financial statements, the Company adopted Republic of China Statement of Financial Accounting Standards No. 34, "Financial Instruments: Recognition and Measurement", No. 36, "Financial Instruments: Disclosure and Presentation" and other revised Statements on January 1, 2006.

We have also audited the consolidated financial statements of the Company and its subsidiaries as of and for the years ended December 31, 2007 and 2006, and have expressed an unqualified opinion, and a modified unqualified opinion with an explanatory paragraph, respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc. (a corporation incorporated under the laws of the Republic of China) and its subsidiaries (collectively the "Company") as of December 31, 2006 and 2007, and the related consolidated statements of operations, changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2007, all expressed in New Taiwan dollars. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants, auditing standards generally accepted in the Republic of China and the Standards of the Public Company Accounting Oversight Board (United States). Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2006 and 2007, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2007, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 29 to the consolidated financial statements, the Company incurred fire damage to its production line and facilities in Chung Li, Taiwan on May 1, 2005. The Company recognized an estimated loss of NT\$13,479,079 thousand for the damage to its inventories, building, machinery and equipment, net of NT\$4,641,000 thousand of insurance receivable in 2005. The Company reached a final settlement with the insurers in June 2006 with regards to the fire damage referred to above. The final settlement amount of NT\$8,068,000 thousand, less the NT\$4,641,000 thousand recorded in 2005 and the related repair and restoring expenses of NT\$1,043,132 thousand, was recorded as a gain in 2006. The Company also reversed NT\$2,190,583 thousand of previously recorded impairment charges on these fire-damaged building, machinery and equipment due to an increase in the estimated service potential of the assets. The net amount of NT\$4,574,451 thousand was recognized as a gain on insurance settlement and impairment recovery.

As discussed in Note 3 to the consolidated financial statements, the Company adopted the Republic of China Statement of Financial Accounting Standards No. 34, "Financial Instruments: Recognition and Measurement", No. 36, "Financial Instruments: Disclosure and Presentation" and other revised Statements on January 1, 2006.

Accounting principles generally accepted in the Republic of China differ in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 31 to the consolidated financial statements.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of the readers.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2007, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 10, 2008 expressed an unqualified opinion on the Company's internal control over financial reporting.

Advanced Semiconductor Engineering, Inc.
Rules of Procedure for the Shareholders' Meeting

1. The Shareholders' Meeting of the Company shall be conducted in accordance with the Rules specified herein.
2. Attending shareholders (or their proxies) shall wear attendance badges, and shall submit sign-in cards in lieu of signing in. The number of voting right shall be calculated according to the sign-in cards submitted.
3. Unless as stipulated in Article 179 of The Company Act whereas there are shares that have no voting right for shareholders of the Company, there is one vote for each share. When a shareholder is unable to attend the shareholders' meeting for whatever the reason, the shareholder may present a proxy statement printed by the Company that states the scope of authorization to entrust a proxy to attend the shareholders' meeting. With the exception of trust enterprises or stock affair agencies approved by competent securities authorities concerned, the votes that may be cast by one proxy representing two or more shareholders shall not exceed three percent of the votes of total shares issued; any votes in excess of that limit shall not be counted.
4. The venue for the shareholders' meeting shall be where the Company is located or a place convenient for shareholders to attend and suitable for convening the shareholders' meeting. The beginning time for the meeting may not be earlier than 9 a.m. or later than 3 p.m.
5. Unless otherwise provided by The Company Act, the shareholders' meeting shall be convened by the board of directors and presided by the chairperson. If the chairperson is on leave or unable to exercise the official function for whatever the reason, Article 208 Paragraph 3 of The Company Act shall govern. If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the meeting shall be presided by the convening person. Where there are two or more persons entitled to convene the shareholders' meeting, they shall nominate among them one person to preside the meeting.
6. The Company may appoint the retained lawyers, certified public accountants or relevant personnel to attend the shareholders' meeting. The staff handling administrative affairs of the shareholders' meeting shall wear identification badges or arm-bands.
7. The Company shall record the whole course of the shareholders' meeting on audio tape or video tape, and shall keep the tapes on file for at least one year.

8. When the time comes for the shareholders' meeting to begin, the chairperson shall immediately call the meeting in session. However, if the shareholders present represent less than half of the total issued shares, the chairperson may postpone the commencement of the meeting. The meeting may be postponed up to twice, and the total duration of postponement may not exceed one hour. If after two postponements the number of shareholders present is still insufficient while the shareholders present do represent at least one third of the total issued shares, provisional resolutions may be adopted in accordance with Article 175 Paragraph 1 of the Company Act. If prior to the end of the meeting the shareholders present have represented at least half of the total issued shares, the chairperson may resubmit the provisional resolutions adopted by the meeting for a vote in accordance with Article 174 of The Company Act.
9. Where the shareholders' meeting is convened by the board of directors, the meeting agenda shall be set by the board of directors. The meeting shall proceed in accordance with the agenda, which may not be altered unless by the resolution of the shareholders' meeting.

If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the rules of the preceding paragraph shall apply *mutatis mutandis*.

Unless by the resolution of the shareholders' meeting, the chairperson may not declare the meeting ended until all items on the agenda (including extemporaneous motions) arranged in the preceding two paragraphs have been completed.

After the meeting is declared ended, shareholders may not elect a chairperson to resume the meeting at the original location or other premises, unless such declaration by the chairperson has violated the rules of procedure, whereas one person may be elected the chairperson with the consent of one half of the votes represented by shareholders present to resume the Meeting.

10. When the shareholders' meeting is in session, the chairperson may in his/her discretion allocate and announce time for breaks.
11. Before a shareholder present at the meeting speaks, he/she shall first fill out a statement slip stating therein the main points of the statement, the shareholder's account number (or the attendance identification number) and account name, so that the chairperson may determine the order of speaking. The shareholder present at the meeting that merely submits a statement slip without speaking is considered not having spoken. If the contents of the statement do not conform to the contents of the statement slip, the contents of the statement shall govern. Unless given consent by the chairperson and the speaking shareholder, the other shareholders may not speak to interrupt when a shareholder is speaking; otherwise the chairperson shall stop the interruption.

12. Unless permitted by the chairperson, no shareholder may speak for more than twice regarding the same proposal, and shall not last for more than five minutes each time.

If a shareholder violates rules under the preceding paragraph or goes beyond the scope of topics for discussion in speaking, the chairperson may stop him/her from speaking.

13. When an institutional person attends the shareholders' meeting as a proxy, the institutional person may assign only one representative to attend the meeting. When an institutional shareholder assigns two or more representatives to attend the shareholders' meeting, only one of them may speak for any single proposal.
14. After a shareholder present at the meeting speaks, the chairperson may reply in person or assign concerned personnel to reply.
15. With respect to discussions of a proposal, if the chairperson feels that a consensus has been reached where a vote can be taken on the proposal, he/she may announce that the discussions shall cease and the proposal be submitted for a vote.
16. The chairperson shall appoint monitors and ballot counters for voting on proposals. For qualifications, monitors must be shareholders. The results of each vote shall be announced on the spot and made into the minutes.
17. Unless otherwise provided by The Company Act or the Company's Articles of Incorporation, a proposal shall be approved by the consent of more than half of the votes of shares represented by shareholders present. In voting, a proposal is considered approved if the chairperson receives no dissenting opinions after requesting, which has the same effect as does voting by ballot.
18. Where there is an amendment or an alternative for a proposal, the chairperson shall determine the order in which they are to be voted on with the original proposal. If any of the proposals has been approved, the other shall be treated as rejected and not be voted on separately.
19. The chairperson may instruct the inspectors (or security personnel) to assist in maintaining order in the meeting venue. While assisting in maintaining order at the venue, the inspectors (or security personnel) shall wear arm-bands reading "Inspector."
20. All matters not provided by these Rules herein shall be handled in accordance with The Company Act, relevant laws and regulations, as well as the Company's Articles of Incorporation.
21. These Rules shall come into force given the approval of the shareholders' meeting, and so shall be the amendment.

Note 1 Subject to the resolution by the 2008 Shareholders' General Meeting.

Note 2 Shareholders' bonus distributed this time amounts to NT\$9,854,450,540 or NT\$1.8 per share, of which NT\$9,361,728,020 is distributed in cash or NT\$1.71 per share and the remaining NT\$492,722,520 is distributed in stock (9 shares of stock dividend as gratuitous surplus-turned capital increase for each 1,000 shares held.) Additionally,

the Company plans to implement a capital increase out of capital reserves of NT\$1,094,938,940 i.e., 20 shares of stock dividend as capital reserve-turned capital increase for each 1,000 shares held, and the total amount of dividends for this shareholder distribution is NT\$2 per share, which includes a cash dividend of NT\$1.71 per share and a stock dividend of NT\$0.29 per share. With respect to the above-mentioned cash dividend rate and stock dividend rate, the calculation was based on the 5,474,694,749 shares registered in the roster of shareholders as of March 20, 2008. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate and stock distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentially and make the adjustment accordingly.

Note 3 According to the "Guidance Concerning Handling of Financial Forecast Information of Public Companies", the Company is not required to disclose its 2008 financial forecast.
