2 Our review was conducted in accordance with the specific rules set forth by the IBRACON - The Brazilian Institute of Independent Auditors, in conjunction with the Federal Accounting Council – CFC and consisted mainly of the following: (a) inquiry and discussion with management responsible for the accounting, financial and operational areas of the Company and its subsidiaries, regarding the main criteria adopted in the preparation of the Quarterly Financial Information; and (b) reviewing information and subsequent events that have or may have relevant effects on the financial position and operations of the Company and its subsidiaries.

3 Based on our review, we are not aware of any material modifications that should be made to the Quarterly Financial Information described above, for it to be in accordance with the rules issued by the Brazilian Securities and Exchange Commission (CVM), which are applicable to the preparation of the Quarterly Financial Information, including the Instruction CVM n° 469/08.

4 As mentioned in Note 2.n, on December 28, 2007 it was enacted Law 11.638/07, which has taken effect on January 1st, 2008. This law modified, revoked and introduced new devices in Law 6.404/76 (Corporate Law) and produced changes in accounting practices adopted in Brazil. Even though the mentioned law had already entered into force, some of its changes depend on standardizations by Regulation Boards to be applied by companies. In this way, and in this transition phase, the Brazilian Securities and Exchange Commission (CVM), through the Instruction 469/08, gave the option of non-adopting the devices of Law 11.638/07 in the

n. Modification in Law 11.638/07 (Brazilian Corporate Law)

On December 28, 2007, Law 11.638/07 was enacted. This law modified, revoked and introduced new provisions to Law 6.404/76 (Corporate Law), aiming at the increasing harmonization of the accounting practices adopted in Brazil to the International Financial Reporting Standards (IFRS), resulting from the rules issued by the International Accounting Standard Board (IASB).

The main changes and effects on the Company's Quarterly Financial Information are summarized as follows:

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Brazilian Reais, unless otherwise stated)

- Substitution of the Statement of Changes in Financial Position by the statement of Cash Flows. The Company already discloses the Statement of Cash Flows of the Parent and Consolidated Company in the annual financial statements and in its quarterly financial information.
- Inclusion of the Statement of Value Added, applicable to publicly-held companies, which states the value added by the Company, as well as the composition of sources and allocation of these amounts. The Company already discloses the Statement of Value Added in its annual financial statements and will start to disclose it in the quarterly financial information as from next year.
- Possibility of maintaining a separate bookkeeping to meet the tax law and, in the sequence, process the necessary adjustments to book the accounting practices. This practice was not yet adopted by the Company due to the lack of rules, that are still to be issued by the regulators.
- Creation of a new subgroup of intangible assets in the balance sheet. This account will record the rights that have as object intangible assets that are destined for Company's maintenance or that are exercised with this purpose, including goodwill. The Company already presents the group of intangibles in its financial statements (see Note 13). At the moment, the goodwill arising from the acquisitions is demonstrated as deferred charges (see Note 14) and will be reclassified to intangibles as soon the related regulations are issued.
- Obligation to record the rights whose purpose is the maintenance of the Company's activities in fixed assets, including those arising from operations which transfer to the Company the benefits, risks and control of assets. Some subsidiaries of the Company have lease operations of fuel distribution and systems equipment, which will be recorded as assets, liabilities and income in the year end financial statements of 2008. In Note 21.d), the effects of these lease operations are disclosed, in case these were capitalized. The Company will not have significant impacts in its net income for the period or in net equity due to this modification.

Ultrapar Participações S.A. and Subsidiaries

Notes to the interim financial information

(In thousands of Brazilian Reais, unless otherwise stated)

- Only pre-operating and restructuring expenses, which will contribute, effectively, for the increase in the profitability in more than one year and which do not characterize just a cost reduction or increase of operational efficiency may be recorded as deferred charges. Note 14 details the balance of deferred charges, in which restructuring and pre-operating expenses will be maintained, as they contribute to the earnings of more than one year. The amounts related to goodwill will be reclassified to intangible, as previously mentioned.
- In accordance with CVM Resolution no. 527, of November 1st, 2007, the Company has to analyze, on a regular basis, the return capacity of the amounts recorded as fixed assets, intangible and deferred charges, aiming to ensure that: (i) the potential loss for the non-return of these assets is charged to income in the case of a decision of discontinuing the activities related to these assets or when there is evidence that the income derived from operating these assets will not be sufficient to guarantee their realization, and (ii) the criterion used to estimate the remaining useful lives of the assets, necessary to record their depreciation, amortization and depletion, is revised and adjusted. Currently, the Company does not have a situation subject to the impairment of its assets.
- There are requirements for the financial instruments, including derivatives, to be recorded: (i) considering their fair market value or equivalent, when related to financial investments classified as tradeable or available for sale, or (ii) at acquisition cost or value issued, updated in accordance with legal or contractual provisions, adjusted for the probable realization value, when this is lower. The Company already discloses the information of fair market value of financial instruments in the annual financial statements and quarterly financial information through Note 20, which indicates that the market value is higher than the accounting value in an amount of R\$ 33,790 as of June 30, 2008 (R\$ 36,988 as of March 31, 2008).
- Creation of the caption “Equity valuation adjustments” under the Shareholders’ Equity in order to: (i) record the market price valuation of certain assets, mainly related to financial instruments; (ii) record the exchange rate variation of investments carried on subsidiaries located abroad, as determined by CVM’s Resolution 534/08; (iii) record of amounts directly in the Shareholders’ Equity when required by an accounting pronouncement, and (iv) record the market value adjustments of assets and liabilities as a consequence of mergers and acquisitions occurred between non-related parties which entail change of control between parties. Item “(i)” may affect the Company’s Shareholders’ Equity as of June 30, 2008 in the estimated amount of R\$ 33,790 (R\$ 36,988 as of March 31, 2008)

without significant effects on net income; for item (ii) no relevant impact was calculated in the net equity or income of the Company in the quarter. No situations were identified in which adjustments arising from items “(iii)” and “(iv)” would be necessary.

- Introduction of the concept of present value adjustment for long-term assets and liabilities and for the relevant short-term accounts. The Company performed the present value calculation in conformity with the guidance included in CVM Instruction 469/08 and its explanatory note, and the related impact, both in the net equity as of June 30, 2008 and as of March 31, 2008, and in the income of the quarters ended June 30, 2008 and 2007 was not considered significant. The discount rate used was the Interbank Deposit Certificate rate (CDI), which is considered the opportunity cost for the financial yields of the Company.
- Revocation of the possibility of recording: (i) the premium received in the issuance of debentures; and (ii) donations and subsidies for investment (including tax incentives) directly as capital reserve in Shareholders' Equity. The Company does not have this type of reserve in its Shareholders' Equity.
- Option to keep or reverse existing revaluation balances. Management decided to keep existing revaluation reserve balances until their effective realization.
- Requirement that the assets and liabilities of a Company to be merged, arising from transactions that involve the acquisition, merger or split-off between independent parties resulting in change of control, be recorded at fair market value. The Company and its subsidiaries did not realize operations of this nature up to the present moment.
- Elimination of the relevance parameter for investment adjustment in related companies and in subsidiaries accounted for by the equity method, and substitution of the relevance parameter of 20% in the total capital of the investee to 20% of the voting capital of the investee. The Company will not suffer any effect due to this modification.

The estimates prepared by the Company on the impacts of Law 11.638/07 should be considered preliminary, as there still are a series of items to be regulated. These estimates correspond to the gross amounts and will not be subject to income and social contribution on income taxes under the terms of Art. 1 of the aforementioned law. The Company will continue to follow the progress of regulation concerning Law 11.638/07 prior to recording it in a definitive form.

Notes to the interim financial information

(In thousands of Brazilian Reais, unless otherwise stated)

On April 18, 2007 the Company, together with Petróleo Brasileiro S.A. (“Petrobras”) and Braskem S.A. (“Braskem”), acquired a controlling interest in the Ipiranga Group, as informed in the “Material Event” published on that date. Under the terms of the Acquisition Agreement signed by the three buyers, the Company acted as a commission agent for Braskem and Petrobras in relation to the acquisition of their assets, and for itself for the acquisition of the fuels/lubricants distribution and related products businesses located in the South and Southeast Regions of Brazil and Empresa Carioca de Produtos Químicos S.A. (“Ipiranga”), maintaining the brand Ipiranga. Petrobras holds the control of fuel distribution and lubricant businesses located in the North, Northeast and Center West Regions of Brazil (“North Distribution Assets”), and Braskem holds control of the petrochemical assets, represented by Ipiranga Química S.A., Ipiranga Petroquímica S.A. (“IPQ”) and the ownership in Copesul – Companhia Petroquímica do Sul (“Copesul”) (“Petrochemical Assets”).

The transaction was structured in 4 stages:

- (i) acquisition of Ipiranga Group controlling interest (occurred on April 18, 2007);
- (ii) tag along offering for the purchase of common shares issued by Companhia Brasileira de Petróleo Ipiranga (“CBPI”), Refinaria de Petróleo Ipiranga S.A. (“RPI”) and Distribuidora de Produtos de Petróleo Ipiranga S.A. (“DPPI”) (occurred on October 22, 2007 for DPPI and RPI and on November 8, 2007 for CBPI);
- (iii) merger of the remaining shares of CBPI, RPI and DPPI into Ultrapar (occurred on December 18, 2007) with the recognition of a concurrent accounts receivable from Braskem and Petrobras; and
- (iv) segregation of assets among Ultrapar, Petrobras and Braskem. Petrochemical Assets were withdrawn from RPI, DPPI and CBPI in February, 2008. CBPI was split-up and its assets segregated in April 2008. As a consequence of these steps the accounts receivable created in step (iii) was received by the Company.

The assets, liabilities and income of Ipiranga/Refinery have been reflected in the Company's financial statements since April, 2007.

In 2008 Empresa Carioca de Produtos Químicos S.A. became a subsidiary of U.A.T.S.P.E. Empreendimentos e Participações Ltda and is no longer a subsidiary of Companhia Brasileira de Petróleo Ipiranga. The main reason for this change was to relocate it under the "chemical segment" of the Company.

Ultracargo Terminais Ltda. was extinguished in April, 2008 and its net assets were transferred to the Corporation. (see Notes 8 and 11.a).

Oxiten S.A. Indústria e Comércio, through its subsidiary Barrington S.L., established in May, 2008 Oxiten Europe SPRL, located in Brussels. This new company is part of the international expansion process of Oxiten.

Upon consolidation, intercompany investments, accounts, transactions and profits were eliminated. Minority interest in subsidiaries is presented separately in the interim financial information.

In June 2008 the Company, through the subsidiary Terminal Químico de Aratu S.A - Tequimar, concluded a contract for Purchase/Sale of shares corresponding to 100% of shares of União Terminais e Armazéns Gerais Ltda. for R\$ 482,769. The Company reported material event on June 6, 2008 with further information about the transaction. On the same date the subsidiary deposited R\$ 241,385 in a current bank account, representing 50% of the price.

Such investments are stated at cost plus accrued income on a “pro rata temporis” basis.

Concurrently, subsidiary Oxiteno Overseas Corp. acquired from this financial institution a credit linked note backed by the Original Notes. The balance of ICMS is mainly due to credits of the Camaçari (Bahia State) plant of the subsidiary Oxiteno Nordeste S.A Indústria e Comércio, due to measures taken by the Bahia State, which made it difficult to utilize credits for import payment or to transfer them to third parties. The total balance of credits from this plant corresponds to R\$ 76,434 as of June 30, 2008 (R\$ 84,449 as of March 31, 2008), of which R\$ 33,911 have already been reviewed by the tax authorities and are awaiting release by the state finance department of Bahia for use/transfer. In addition to these credits, the subsidiary's management is working on a series of additional measures for consumption of the plant's ICMS balance. The allowance for loss of the plant's credits was recognized on the basis of the maximum discount expected on their commercialization. The PIS and COFINS credits are being utilized to offset other federal taxes, mainly income and social contribution taxes on income.

Terminal Químico de Aratu S.A. - Tequimar	Aratu Terminal	75	2012
	Suape Terminal	75	2015

(*) In December 2007, Suape plant's exemption expired and in June 30, 2008 a request was filed with ADENE (Northeast Development Agency), the agency in charge of managing this incentive program, seeking a 75% income tax reduction until 2017. If the reduction of 75% is not approved, the subsidiary will place a new request to ADENE, for the reduction of 25% for 2008 and 12.5% from 2009 to 2013, as the company is located in an area of tax incentives and its activity is strongly linked with regional development. Should the income tax reduction be approved, the subsidiary will have to wait the manifestation of the Federal Revenue Service, which has a period of 120 days to endorse it. After this period the subsidiary will record the value of this reduction in its financial statements, with retroactive effect to January 01, 2008.

(**) Due to improvements made at the Aracaju plant a request was made to ADENE (Northeast Development Agency) in June 30, 2008 asking for an increase in the reduction of income tax to 75% until 2017.

Risks and financial instruments (Consolidated)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables, such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

- **Customer default** - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of June 30, 2008, Oxiteno S.A. Indústria e Comércio and its subsidiaries maintained R\$ 1,943 (R\$ 1,955 as of March 31, 2008), the subsidiaries of Ultragaz Participações Ltda. maintained R\$ 15,186 (R\$ 18,093 as of March 31, 2008), and Ipiranga/Refinery maintained R\$ 43,093 (R\$ 46,506 as of March 31, 2008) as an allowance for doubtful accounts.
- **Interest rates** - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Temporary cash investments of the Company and its subsidiaries are comprised mainly of transactions linked to the CDI, as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as mentioned below. Borrowings are mainly originated from the BNDES, debentures, promissory notes and foreign currency financing, as mentioned in Note 15.
- **Exchange rate** - The Company's subsidiaries use hedge instruments (mainly between CDI and US\$) available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts, periods and indexes substantially equivalent to the assets and liabilities in foreign currency to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian Reais at June 30, 2008 and March 31, 2008:

21 Contingencies and commitments (Consolidated)

a. Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in a collective labor agreement, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of June 30, 2008.

The subsidiaries Companhia Ultragaz S.A. and Ultragaz Participações Ltda. are parties to an administrative proceeding at CADE (Administrative Council for Economic Defense), under the allegation of anticompetitive practice in municipalities of a region of the State of Minas Gerais in 2001. Recently CADE determined the closing of the proceeding against Ultragaz Participações Ltda. and condemned Company Ultragaz SA to a fine equivalent to 1% of gross annual turnover of 2001 (which amounted to \$ 1,475 million), excluding taxes and updated by the IPCA-e. This administrative decision is subject to appeal. If the conviction is maintained under the administrative decision, its implementation could be suspended and the merit judged once again in the judicial sphere. Based on the above and on the opinion of its legal advisers, management of the Company and its subsidiaries have not booked any provision.

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, State of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for property damage and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragaz's on-site LPG storage facilities did not contribute to the explosion. Of the 61 lawsuits judged thus far, a favorable judgment was obtained for 60, and of these 24 have already been dismissed; only 1 had an unfavorable decision, which is still subject to appeal, and whose amount, should the decision be upheld, is R\$ 17. Four lawsuits have not yet been judged. The subsidiary has insurance coverage for these lawsuits, and the uninsured contingent amount is R\$ 22,488. The Company has not recorded any provision for this amount, since it believes the probability of loss is remote.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. In 2005, the STF decided the matter favorable to the taxpayer. Although it is a precedent, the effect of this decision does not automatically apply to all companies, since they must await judgment of their own lawsuits. In the first half of 2007, final decisions were rendered for the Company and its subsidiaries which reversed the accrual previously recorded, in the amount of R\$ 12,759, net of attorney's fees. The Company has other subsidiaries whose lawsuits have not yet been judged. Should there be final favorable outcomes for the subsidiaries in all lawsuits still not judged, the Company estimates that the total positive effect in income before income and social contribution taxes should reach R\$31,851, net of attorney's fees.

Subsidiary Utingás Armazenadora S.A. has challenged in court ISS (Service Tax) tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the judgement decisions at the administrative appeal level was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The unprovisioned updated amount of the contingency as of June 30, 2008 is R\$ 44,785 (R\$ 43,125 as of March 31, 2008).

On October 7, 2005, the subsidiaries of Ultragaz Participações Ltda. filed for and obtained an injunction to support the offset of PIS and COFINS credits against other federal taxes administered by the Federal Revenue Service (SRF), notably corporate income tax and social contribution taxes. This decision was judged favorably on May 16, 2008 at the lower court. According to the injunction obtained, the subsidiaries have been making judicial deposits for these debits in the amount of R\$ 99,976 as of June 30, 2008 (R\$ 87,758 as of March 31, 2008) and recognizing the corresponding liability for this purpose.

Subsidiaries Ultragaz Participações Ltda, Cia. Ultragaz S.A., Utingás Armazenadora S.A., Terminal Químico de Aratu S.A. - Tequimar, Transultra - Armazenamento e Transporte Especializado Ltda. and Ultracargo Operações Logísticas e Participações Ltda., hold judicial measures petitioning the full and immediate utilization of supplementary monetary adjustment based on the Consumer Price Index (IPC) / National Treasury Bonds (BTN) for 1990 (Law No. 8.200/91), and hold accruals in the amount of R\$ 14,023 (R\$ 13,798 as of March 31, 2008) as a possible contingency, in case of unfavorable outcome of such lawsuits.

On December 29, 2006, the subsidiaries Oxiteno S.A Indústria e Comércio, Oxiteno Nordeste S.A Indústria e Comércio, Companhia Ultragaz S.A. and Transultra Armazenamento e Transporte Especializado Ltda filed for an injunction seeking the deduction of ICMS from the PIS and COFINS tax basis. Oxiteno Nordeste S.A. Indústria e Comércio received an injunction and is paying the amounts into judicial deposits, as well as recording the respective accrual in the amount of R\$ 16,746 (R\$ 13,549 as of March 31, 2008); the others subsidiaries did not receive similar injunction and are waiting the judgment of an appeal to Regional Federal Court – TRF of the 3rd Region.

The Company and some subsidiaries filed a request for an injunction seeking not to be subject to the legislation that restricted the offset of corporate income tax (IRPJ) and social contribution (CSLL) tax loss carryforwards computed through December 31, 1994 to 30% of income for the year. As a result of the position of Supreme Court – STF and based on opinion of its legal counsellor, the provision for contingency was recorded in amount of R\$ 6,651 (R\$ 6,687 as of March 31, 2008).

In 2007, considering the evolution of the recent jurisprudence, the valuation of its legal advisors and the increase of amounts involved in realized operations, the Company and its subsidiaries decided to accrue PIS and COFINS on credits of interest on capital. The total amount accrued as of June 30, 2008 is R\$ 21,503 (R\$ 21,104 as of March 31, 2008).

Regarding Ipiranga/Refinery, the main provisions for contingencies refer to: (a) requirements for the reversal of ICMS credits on transportation services taken during the freight reimbursement system established by DNC (currently National Agency for Petroleum - ANP), in the amount of R\$ 7,149; (b) requirements for the reversal of ICMS credits in the State of Minas Gerais, on interstate outflows carried under Article 33 of ICMS Agreement 66/88, which allowed the maintenance of credits and which was suspended by an injunction conceded by the Supreme Court - STF, in the amount of R\$ 27,869; (c) reversal of the deduction of unconditional discounts from the ICMS calculation basis, in the State of Minas Gerais, as a result of tax substitution, in the amount of R\$ 15,979; (d) litigation based on clauses of contracts with clients; (e) claims made by former employees and outsourced personnel regarding salary related amounts.

The main tax contingencies of Ipiranga/Refinery which present risks evaluated as possible, and which, based in this evaluation, have not been accrued for in the interim financial information, refer to ICMS, in the total amount of R\$ 138,249 and relate, mainly to: (a) requirements for the reversal of credits on interstate outflows; (b) requirements of ICMS on the purchases of basic oils; (c) demands to reverse credits related with interstate transport services operations; (d) demands to reverse credits derived from excess taxation generated on the purchase of products in the petroleum refinery under the tax substitution system; (e) demands to reverse credits in operations with alcohol (anhydrous fuel alcohol) in the State of São Paulo; (f) tax assessment resulting from operations of alcohol loan devolutions (anhydrous fuel alcohol). In addition, subsidiary Distribuidora de Produtos de Petróleo Ipiranga S.A.-DPPI and its subsidiaries have tax assessments concerning non-homologation of IPI credits originated in acquisitions of products whose subsequent sales had no taxation. The non-accrued contingent amount as of June 30, 2008, is R\$ 37,539.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks on these proceedings as possible and/or remote and, therefore, no reserves for potential losses on these proceedings have been recorded. The Company and its subsidiaries also have litigations that aim at recovery of taxes and contributions, that have not been registered in the interim financial information due to their contingent nature.

As of June 30, 2008, such rates were R\$ 4.97 and R\$ 3.97 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since inception of the contracts.

In April 2007 Ultrapar acquired the control of various companies in the Ipiranga Group, ending up with: (i) the fuel and lubricants distribution businesses in the South and Southeast of Brazil and related activities, (ii) EMCA - Empresa Carioca de Produtos Químicos, a producer of white mineral-based oils and special fluids, and (iii) a stake in the refining operations. The financial statements of Ultrapar's consolidate all the businesses acquired from 2Q07 onwards. Except where otherwise mentioned, Ultrapar's financial statements for periods prior to 2Q07 do not include the operations acquired. With the purpose of providing a comparison basis for the analysis of the evolution in the

performance of Ipiranga, unaudited financial statements for this company have been drawn up for periods prior to 2Q07 (“Ipiranga Pro-forma figures”). For the same reason, when indicated, the figures for operations acquired have been included in all Ultrapar's financial statements relating to quarters prior to 2Q07 (“Ultrapar pro-forma figures”). After the exchange of shares issued by Refinaria de Petróleo Ipiranga S.A., Distribuidora de Produtos de Petróleo Ipiranga S.A. and Companhia Brasileira de Petróleo Ipiranga by Ultrapar in 4Q07 (“Share Exchange”), the correspondent portion of the minority interest in that companies was reduced and since October 2007 Ultrapar started to consolidate 100% of the earnings of that companies in its figures. From 01/01/2008, EMCA has been consolidated into Oxiteno, reflecting the effective management responsibility for the business, and the financial statements of Oxiteno and Ipiranga, prior to this date, reflect the current consolidation, retrospectively. The references to the term "Ipiranga", consequently, refer to the fuel and lubricant distribution businesses acquired in the South and Southeast of Brazil and related activities.

(2) Performance Analysis:

Net Sales and Services - Ultrapar's consolidated net sales and services amounted to R\$ 6,992.4 million in 2Q08, 13% and 18% higher than the net sales and services in 2Q07 and 1Q08, respectively. In 1H08, Ultrapar's net sales and services totaled R\$ 12,919.8 million, up 76% on 1H07, as a consequence of consolidation of Ipiranga's net sales from 2Q07 and the growth in all business units.

Ultragaz: According to ANP (Brazilian National Oil Agency), the Brazilian LPG market increased by 2% in 2Q08 compared to the same period of the previous year, mainly as result of the improved performance of the Brazilian economy. Sales volume at Ultragaz in 2Q08 totaled 411,000 tons, up 2% on the volume sold in 2Q07, as a result of the 4% growth in the bottled segment. In the bulk segment, the volume sold was in line with 2Q07, reflecting the temporary consumption, in the second quarter of 2007, of two major clients from the bulk segment which consumed 8,000 tons in 2Q07. In 1Q08, Ultragaz's sales volume increased by 12%, as a result of the seasonal variation between the two periods. In the first half of the year, Ultragaz's sales volume amounted to 777,000 tons, up 1% on 1H07. Net sales and services at Ultragaz was R\$ 853.6 million in 2Q08, up 7% on 2Q07, as a result of an increase in volume sold and in the cost of LPG for use in the bulk segment in 2008, partially offset by the increased level of competition in the bottled segment since 3Q07. Compared to 1Q08, net sales and services were up 14%, higher than the 12% increase in the volume sold, as a consequence of an increase in the LPG costs in April. In 1H08, Ultragaz's net sales and services totaled R\$ 1,599.4 million, up 4% on 1H07.

Ipiranga: The increase in vehicle sales and recent measures to improve legislation and inspection implemented in the sector, such as the mandatory use of electronic invoices in the distributors since April 2008, have been positively influencing Ipiranga's sales volume. In 2Q08 the volume sold amounted to 3,063 thousand cubic meters, an 11% increase compared to 2Q07. The main highlights were (i) the combined volume of gasoline, ethanol and NGV, which increased by 12% (120 thousand cubic meters), with emphasis to the 71% increase in hydrated ethanol sales, as a result of the 34% increase in the sale of flex-fuel vehicles and the improvements introduced in the sector and (ii) diesel volume, which increased by 11% in the period (182 thousand cubic meters), basically as a consequence of increased economic activity. Compared to 1Q08, there was a 13% increase in sales volume at Ipiranga (347 thousand cubic meters), reflecting typical seasonal variation between the periods, with emphasis to the 19% increase in diesel, as a result of higher consumption of the agricultural sector, due to the beginning of harvests and the good positioning of Ipiranga to capture this volume.
