Ranger Ad Calls For Accountability, Growth And New Leadership At Computer Associates

Dallas, Texas, July 9, 2001 - Ranger Governance, Ltd. today announced that it published the following advertisement in the New York Times regarding the proxy contest to elect directors to the board of Computer Associates, Inc. (NYSE: CA):

Why are these men suing?

[Photos of Computer Associates Chairman Charles B. Wang, President and CEO Sanjay Kumar, and Executive Vice President Russell M. Artzt]

Do they think they can avoid a shareholder vote  
and keep their grip on Computer Associates?

- . CA's Board and top managers have filed a baseless lawsuit to intimidate  
-----  
shareholders and block an open vote and a real choice on August 29,  
-----  
2001.
- . They want to avoid a shareholder vote because CA stock has declined 14%  
-----  
in total shareholder return over the past five years, versus a software  
industry average of positive 169% over the same period.  
-----
- . While shareholder value was declining, the CA Board awarded senior  
management more than \$1 billion of Company stock to executives Wang,  
Kumar and Artzt.
- . CA's top managers have never been accountable to all shareholders - and  
-----  
have never faced a contested election. They are treating CA's largest  
shareholder - a Swiss investor who made millions in CA stock many years  
ago - as though he were the only shareholder.  
-----

It's time for accountability to all shareholders.  
---

It's time for growth at Computer Associates.  
-----

It's time to choose new leadership for CA.  
-----

Ranger Governance has a plan to unlock the value and potential of Computer Associates. Ranger Governance is proposing new management under a truly independent Board of Directors. This new Board will strategically realign the company into four decentralized business units, and create a culture of innovation, accountability, extraordinary customer service, and real growth.

Integrity. Innovation. Accountability.  
Increased value for CA shareholders.

RANGER GOVERNANCE RESPONDS TO  
COMPUTER ASSOCIATES LAWSUIT

Ranger Says CA's Legal Action Is An Effort To "Muzzle Truthful Criticism" And  
Entrench Current Management

Dallas, Texas, July 9, 2001 - Ranger Governance, Ltd. and Sam Wyly today responded to the complaint filed by Computer Associates (NYSE: CA) in U.S. District Court on June 25, 2001. Among other items, Computer Associates' complaint seeks to bar Ranger and Mr. Wyly from soliciting proxies in their

## Edgar Filing: COMPUTER ASSOCIATES INTERNATIONAL INC - Form DFAN14A

effort to replace the company's current board of directors with a slate focused on delivering shareholder value.

In their response, Ranger and Mr. Wyly indicate that there is no legal basis to bar them from soliciting proxies or running a slate for the Computer Associates board. Further, they state that the purpose of the Computer Associates complaint is to "[E]ntrench the current management and board of Computer Associates and to prevent the shareholders of Computer Associates from having a meaningful opportunity to exercise their voting rights to replace the current board. . . [The complaint also seeks to] muzzle truthful and honest criticism of the current board and management, in order to keep Computer Associates' shareholders from having access to the information they need to cast informed proxies."

The response continues, "[T]he true motive of [Ranger's] proxy solicitation is to give the shareholders of Computer Associates a chance to replace the current board with one that will have as its first goal enhancing shareholder value and correcting Computer Associates' abysmal performance. Over the last five years, the total return for Computer Associates' stockholders has been dead last among the top ten software companies - a negative 14%, versus 169% for the S&P software index."

Ranger Governance said, "We are disappointed, but frankly not surprised that Computer Associates would have filed what we believe is a meritless claim, in an effort to prevent shareholders from expressing their desire for an alternative to the current, ineffective board and management. The Ranger Governance proposal has been developed to rebuild the Computer Associates brand, increase employee initiative, reengineer the company for greater efficiency and improve shareholder value."

The full text of the response can be found on the Ranger Governance website - [www.rangergov.com](http://www.rangergov.com).
