BUSINESS

5. (a)

Business

NiSource Inc. ("NiSource") is an energy holding company that provides natural gas, electricity and other products and services to 3.6 million customers located within the energy corridor that runs from the Gulf Coast through the Midwest to New England. NiSource, organized as an Indiana holding company in 1987 under the name of NIPSCO Industries, Inc., changed its name to NiSource Inc. on April 14, 1999. In connection with the acquisition of Columbia Energy Group ("Columbia") on November 1, 2000, as discussed below, NiSource became a Delaware corporation. NiSource is a registered holding company under the Public Utility Holding Company Act of 1935, as amended (the "Act"), and derives substantially all its revenues and earnings from the operating results of its subsidiaries.

On November 1, 2000, NiSource completed its acquisition of Columbia for an aggregate consideration of approximately \$6 billion, with 30% of the consideration paid in common stock with the remaining 70% paid in cash and Stock Appreciation Income Linked Securities<sup>SM</sup> ("SAILSSM") which are units each consisting of a zero coupon debt security coupled with a forward equity contract in NiSource shares. NiSource also assumed approximately \$2 billion in Columbia debt. As a result of the acquisition, NiSource is the largest natural gas distribution company operating east of the Rocky Mountains, as measured by number of customers. NiSource's principal subsidiaries include Columbia, a

## Edgar Filing: NISOURCE INC/DE - Form U5B

vertically-integrated natural gas distribution, transmission, storage and exploration and production holding company whose subsidiaries provide service to customers in the Midwest, the Mid-Atlantic and the Northeast; and Northern Indiana Public Service Company ("Northern Indiana"), a vertically-integrated gas and electric company providing service to customers in northern Indiana; and Bay State Gas Company ("Bay State"), a natural gas distribution company serving customers in New England.

NiSource's primary business segments are: gas distribution; electric operations; gas transmission and storage; exploration and production; energy marketing; and other products and services.

### Gas Distribution

NiSource's natural gas distribution operations in total serve more than 3.2 million customers in 9 states and operate over 54,048 miles of pipeline. Through its wholly-owned subsidiary, Columbia, NiSource owns five distribution subsidiaries that provide natural gas to approximately 2.1 million residential, commercial and industrial customers in Ohio, Pennsylvania, Virginia, Kentucky and Maryland. NiSource also distributes natural gas to approximately 751,000 customers in northern Indiana through three subsidiaries: Northern Indiana, Kokomo Gas and Fuel Company and Northern Indiana Fuel and Light Company, Inc. Additionally, NiSource's subsidiaries, Bay State and Northern Utilities, Inc., distribute natural gas to more than 320,000 customers in areas of Massachusetts, Maine and New Hampshire. The distribution subsidiaries pursue initiatives that give residential and small commercial customers the opportunity to choose their natural gas suppliers and to use the distribution subsidiaries for transportation service. This ability to choose a supplier was previously limited to larger commercial and industrial customers.

### Electric Operations

Through its subsidiary Northern Indiana, NiSource generates and distributes electricity to approximately 430,000 customers in 21 counties in the northern part of Indiana. Northern Indiana owns and operates four coal-fired electric generating stations with a net capability of 3,179 megawatts, four gas-fired combustion turbine generating units with a net capability of 203 megawatts and two hydroelectric generating plants with a net capability of

6

10 megawatts. In total these facilities provide for a total system net capability of 3,392 megawatts. Northern Indiana is interconnected with five neighboring electric utilities. During the year ended December 31, 2000, Northern Indiana generated 94.8% and purchased 5.2% of its electric requirements.

### Gas Transmission and Storage

NiSource's gas transmission and storage subsidiaries own and operate approximately 16,500 miles of interstate pipelines and operate one of the nation's largest underground natural gas storage systems. Through its subsidiaries, Columbia Gas Transmission Corporation ("Columbia Transmission") and Columbia Gulf Transmission Company ("Columbia Gulf"), it owns and operates

## Edgar Filing: NISOURCE INC/DE - Form U5B

an interstate pipeline network extending from offshore in the Gulf of Mexico to Lake Erie, New York, and the eastern seaboard. Together, Columbia Transmission and Columbia Gulf serve customers in 16 northeastern, mid-Atlantic, mid-western and southern states and the District of Columbia. The gas transmission and storage subsidiaries are engaged in several projects that will expand its service territory and throughput. The largest such project is the proposed 442-mile Millennium Pipeline Project in which Columbia Transmission is participating. As proposed, the project will transport approximately 700 Bcf of natural gas per day from the Lake Erie region to eastern markets. This project is currently awaiting approval by the Federal Energy Regulatory Commission ("FERC").

### Exploration and Production

NiSource's Columbia Energy Resources, Inc. ("Columbia Resources"), is an exploration and production subsidiary that explores for, develops, gathers and produces natural gas and oil in Appalachia and Canada. As of December 31, 2000, Columbia Resources has net proven gas and oil reserve holdings of 1.1 trillion cubic feet equivalent and owns and operates 6,200 miles of gathering pipelines.

### Energy Marketing

NiSource provides non-regulated energy marketing and services through its subsidiary EnergyUSA, Inc. and its subsidiary EnergyUSA-TPC Corp. ("TPC") These operations include energy marketing and asset management services to LDCs, wholesale, commercial and industrial customers. TPC primarily provides energy-related asset management and asset portfolio replacement opportunities for LDCs and fuel requirement services for electric utilities, independent power producers and cogeneration facilities. TPC also provides natural gas sales and management services to industrial and commercial customers, engages in natural gas marketing activities and provides gas supply to Northern Indiana, Kokomo Gas and Fuel Company and Northern

7

Indiana Fuel and Light Company, Inc. under spot and/or term contracts.

### Other Products and Services

NiSource develops power projects through its subsidiary, Primary Energy, Inc., which works with industrial customers in managing the engineering, construction, operation and maintenance of "inside the fence" cogeneration plants that provide cost-effective, long-term sources of energy for energy-intensive facilities. NiSource has also invested in a number of distributed generation technologies including fuel cells and microturbine ventures. NiSource is also building a dark-fiber optics telecommunications network primarily along its pipeline rights-of-way between New York and Washington D.C. NiSource is pursuing strategic alternatives for its telecommunications network, has recently exited the pipeline construction business and is in the process of selling the line locating and marking business.

### Divestiture of Non-Core Assets

## Edgar Filing: NISOURCE INC/DE - Form U5B

In connection with the Columbia acquisition, NiSource sold or is divesting certain businesses judged to be non-core to the company's energy strategy. Subsequent to the announcement of the Columbia acquisition, NiSource sold Market Hub Partners L.P., a company that owns and operates salt cavern gas storage facilities in Texas and Louisiana. Columbia completed the divestiture of its interest in the Cove Point LNG facilities. In February 2001, NiSource settled a lawsuit related to MHP operations for an immaterial amount. NiSource recently completed the sale of its pipeline construction subsidiary and Columbia electric generation businesses. NiSource also recently sold substantially all of its petroleum businesses. On January 31, 2001, NiSource announced a definitive agreement to sell the stock and assets of Columbia Propane Corporation to AmeriGas Partners, L.P. (AmeriGas) for approximately \$208 million, including \$53 million of AmeriGas partnership common units. Through its subsidiary IWC Resources Corporation, NiSource supplies water to residential, commercial and industrial customers and for fire protection service in Indianapolis, Indiana and surrounding areas. As part of the Securities and Exchange Commission's order approving the Columbia merger, NiSource has been ordered to divest its water utility business by November 2003. As a result of management's formal divestiture plan, the water utility business is reported as discontinued operations. NiSource is pursuing the sale of smaller non-core businesses, including its underground utility locating and marking business.

Further information regarding the general business of NiSource and its subsidiaries may be found in the Merger U-1 (File No. 70-9551) filed as Exhibit F-4 hereto and incorporated by reference herein. In addition, a more detailed business

8

description of NiSource and its subsidiaries may be found in the following documents which are hereby incorporated by reference herein: the Annual Reports of NiSource Inc. (File No. 1-16189) filed as Exhibit F-1 hereto, Northern Indiana (File No. 1-4125) filed as Exhibit F-2 and Columbia Energy Group (File No. 1-01098) filed as Exhibit F-3 hereto, all on Form 10-K for the year ended December 31, 2000 as contained in Item 1 thereof.

(b) Any substantial changes which may have occurred in the general character of the business of such companies during the preceding five years.

The regulatory frameworks applicable to NiSource's regulated operations, at both the state and federal levels, are undergoing fundamental changes. These changes have impacted and will continue to have an impact on NiSource's operations, structure and profitability. At the same time, competition within the gas and electric industries will create opportunities to compete for new customers and revenues. Management continually seeks new ways to be more competitive and profitable in this changing environment, including partnering on energy projects with major industrial customers, converting some of its generating units to allow use of lower cost low sulfur coal, providing its gas customers with increased customer choice for new products and services, acquiring companies that will provide improved

## Edgar Filing: NISOURCE INC/DE - Form U5B

economies of scale and efficiencies and developing new energy-related products for residential, commercial and industrial customers. In addition, NiSource is in the process of divesting certain businesses judged to be non-core to the company's energy strategy.

Open access to natural gas supplies over interstate pipelines and the deregulation of the commodity price of gas has led to tremendous change in the energy markets, which continue to evolve. During the past few years, LDC customers and marketers began to purchase gas directly from producers and marketers and an open competitive market for gas supplies emerged. This separation or "unbundling" of the transportation and other services offered by pipelines and LDCs allows customers to select the service they want independent from the purchase of the commodity. NiSource's gas distribution subsidiaries are involved in programs that provide residential customers the opportunity to purchase their natural gas requirements from third parties and use the NiSource gas distribution subsidiaries for transportation services only. At the same time that the natural gas markets are evolving, the markets for competing energy sources are also changing.

In 1996, the FERC ordered that all public utilities owning, controlling or operating electric transmission lines to file non-discriminatory open-access tariffs and offer wholesale electricity suppliers and marketers the same transmission service they provide themselves. In 1997, FERC accepted for filing

9

Northern Indiana's open-access transmission tariff. In December 1999, FERC issued a final rule addressing the formation and operation of Regional Transmission Organizations. The rule was intended to eliminate pricing inequities in the provision of wholesale transmission service. In October 2000, NiSource filed with the FERC indicating that it is committed to joining an RTO and in February 2001, Northern Indiana became a member of the Alliance RTO in formation. The Alliance RTO expects to be fully operational by FERC's December 15, 2001, deadline. Although wholesale customers currently represent a small portion of Northern Indiana's electricity sales, it intends to continue its efforts to retain and add wholesale customers by offering competitive rates and also intends to expand the customer base for which it provides transmission services.

In connection with the Columbia acquisition, NiSource sold or is divesting certain businesses judged to be non-core to the company's energy strategy. Subsequent to the announcement of the Columbia acquisition, NiSource sold Market Hub Partners L.P., a company that owns and operates salt cavern gas storage facilities in Texas and Louisiana. Columbia completed the divestiture of its interest in the Cove Point LNG facilities. In February 2001, NiSource settled a lawsuit related to MHP operations for an immaterial amount. If any principal plant or important unit is not held in fee, so state and describe how held.

10

### UTILITY OPERATIONS

#### Gas Distribution

NiSource's gas distribution operations owns and operates a total of 54,048 miles of pipelines. This includes, for the five distribution subsidiaries of its wholly-owned Columbia subsidiary, 32,796 miles of pipelines; 3,300 acres of underground storage, 8 storage wells and one compressor station with 800 hp of installed capacity. For its Northern Indiana's system approximately 14,005 miles of gas mains and for its Bay State's system approximately 5,558 miles of pipelines. The physical properties of the NiSource gas utilities are located throughout Ohio, Indiana, Pennsylvania, Virginia, Kentucky and Maryland, Massachusetts, Maine and New Hampshire. NiSource's gas distribution system is primarily located on or under public streets, and other public places or on private property not owned by the Company, with easements from or consent of the respective owners.

#### Electric

Northern Indiana owns and operates four coal-fired electric generating stations with net capabilities of 3,179 megawatts, two hydroelectric generating plants with net capabilities of 10 megawatts and four gas-fired combustion turbine generating units with net capabilities of 203 megawatts, for a total system net capability of 3,392 megawatts. It has 288 substations with an aggregate transformer capacity of 23,023,700 kilovolt-amps (kva). Its transmission system, with voltages from 34,500 to 345,000 volts, consists of 3,091 circuit miles of line. The electric distribution system extends into 21 counties and consists of 7,800 circuit miles of overhead and 1,646 cable miles of underground primary distribution lines operating at various voltages from 2,400 to 12,500 volts. Northern Indiana has distribution transformers having an aggregate capacity of 11,638,066 kva and 447,784 electric watt-hour meters.

### OTHER OPERATIONS

## Edgar Filing: NISOURCE INC/DE - Form U5B

### Gas Transmission and Storage

At December 31, 2000, Columbia Transmission had 863,994 acres of underground storage, 3,235 storage wells, 10,577 miles of transmission pipelines and 107 compressor stations with 586,625 hp of installed capacity. These operations were located in Delaware, Kentucky, Maryland, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Virginia and West Virginia. Columbia Gulf had 4,116 miles of transmission pipelines and 13 compressor stations with 483,200 hp of installed capacity. Columbia Gulf's operations were located in Kentucky, Louisiana, Mississippi, Tennessee, Texas and Wyoming.

### Exploration and Production

NiSource's Columbia Resources had net proven gas and oil reserve holdings of 1.1 trillion cubic feet equivalent and had financial interests in approximately 8,000 wells. In addition, Columbia

11

Resources owns and operates approximately 6,200 miles of gathering pipelines and 53 compressor stations with 45,972 hp of installed capacity.

### Other Products and Services

Through its subsidiaries, NiSource owns Southlake Complex, a 325,000 square foot office building located in Merrillville, Indiana and a golf course, surrounding residential development and land held for resale in Chesterton, Indiana. Waterway Holding, Inc., owns parcels of land held for development.

### CHARACTER OF OWNERSHIP

Substantially all of the properties of Northern Indiana are subject to a lien of First Mortgage Indentures. The principal offices and properties of NiSource and its subsidiaries are held in fee and are free from other encumbrances, subject to minor exceptions, none of which are of such a nature as to impair substantially the usefulness of such properties. Many of the offices in various communities served are occupied by subsidiaries of NiSource under leases. All properties are subject to liens for taxes, assessments and undetermined charges (if any) incidental to construction. It is NiSource's practice regularly to pay such amounts, as and when due, unless contested in good faith. In general, the electric lines, gas pipelines and related facilities are located on land not owned in fee but are covered by necessary consents of various governmental authorities or by appropriate rights obtained from owners of private property. NiSource does not, however, generally have specific easements from the owners of the property adjacent to public highways over, upon or under which its electric lines and gas pipelines are located. At the time each of the principal properties was purchased a title search was made. In general, no examination of titles as to rights-of-way for electric lines, gas pipelines or related facilities was made, other than examination, in certain cases, to verify the grantors' ownership and the lien status thereof.

See Item 2 of the Annual Report of NiSource on Form 10-K for the year ended December 31, 2000 (File No. 1-16189) (filed as Exhibit F-1 hereto); Item 2 of the Annual Report of Northern Indiana on Form 10-K for the year ended December 31, 2000 (File No. 1-4125) (filed as Exhibit F-2 hereto); and Item 2 of the Annual Report of Columbia for

### SECURITIES SOLD

13. If, during the last five years, the registrant or any subsidiary company thereof has issued, sold, or exchanged either publicly or privately any securities having a principal amount, par, stated or declared value exceeding \$1,000,000 or exceeding an amount equal to 10% of the total liabilities as shown by the balance sheet of issuer at the time such issue (whichever of such sums is the lesser), give the following information with respect to each such issue or sale:

By permission of the Staff, information required to be disclosed pursuant to this item is not set forth herein.

30

### AGREEMENTS FOR FUTURE DISTRIBUTION OF SECURITIES

14. (a) Summarize the terms of any existing agreement to which the registrant or any associate or affiliate company thereof is a party or in which any such company has a beneficial interest with respect to future distributions of securities of the registrant or of any subsidiary.

Certain information regarding agreements with respect to future distribution of securities of NiSource and its subsidiaries is set forth in the following documents, the applicable portions of which are hereby incorporated herein by reference: Items 1.7 and 1.8 of the Application/Declaration of NiSource and Columbia on Form U-1, as amended (File No. 70-9681) (the Financing U-1) (filed herewith as Exhibit F-5); the Registration Statement of NiSource on Form S-3 (File No. 333-49316) (filed herewith as Exhibit F-6), with respect to the registration of \$2.5 billion common stock, preferred stock and debt securities and related guarantees of debt securities and with respect to the issuance of \$300 million of senior unsecured notes having a coupon rate of 5.75% and maturity date of April 15, 2003; and the Registration Statement of NiSource on Form S-3 (File No. 333-49330) (filed herewith as Exhibit F-7), with respect to the registration of 11.5 million shares of common stock.

Since the closing of the NiSource's acquisition of Columbia, the following financings have been executed by NiSource's financing subsidiary:

1. NiSource reduced its acquisition related commercial paper borrowings through the issuance of \$2.5 billion of privately placed notes, completed on November 10, 2000. This issuance included \$750 million of three-year notes paying a 7.5%

## Edgar Filing: NISOURCE INC/DE - Form U5B

coupon and maturing on November 15, 2003, \$750 million of five-year notes paying a 7.625% coupon and maturing on November 15, 2005, and \$1 billion of ten-year notes paying a 7.875% coupon and maturing on November 15, 2010. Subsequently, an additional \$150 million of five-year notes were issued, bearing a 7.625% coupon and maturing on November 15, 2005.

2. On November 27, 2000, NiSource issued 11.5 million new shares of NiSource common stock at an offering price of \$25.25 per share. The \$280.9 million of net proceeds were used to repay commercial paper.
3. In March 2001, NiSource arranged a new \$2.5 billion revolving credit facility with a syndicate of banks for future working capital requirements. The new facility has refinanced and consolidated essentially all of NiSource's existing short-term credit facilities as discussed above,

31

into one credit facility, through its NiSource Finance subsidiary.

4. On April 6, 2001, NiSource issued \$300 million of senior unsecured notes, utilizing the Company's S-3 shelf registration, filed and declared effective in November 2000. The notes have a coupon rate of 5.75% and mature on April 15, 2003. Proceeds from the issuance will be used to repay commercial paper borrowings.

There are no additional financing activities expected to occur during the next 12 months. The specific timing, execution and choice of future security issues will be based upon actual market conditions and cash flow needs of the companies.

(b) Describe briefly the nature of any financial interest (other than the ownership of securities acquired as a dealer for the purpose of resale) which any person with whom such agreement exists, has in the registrant or in any associate company thereof.

The beneficiaries of the employee benefit plans may be deemed to have a financial interest in the registrant or affiliated companies thereof by virtue of their employment relationship with the registrant or such other companies and compensation, benefit and severance agreements and arrangements relating to such employment.

Further information regarding employee benefit plans of NiSource and its subsidiaries may be found in the following documents which are hereby incorporated by reference herein: the Annual Reports of NiSource Inc. (File No. 1-16189) filed as Exhibit F-1 hereto, Northern Indiana (File No. 1-4125) filed as Exhibit F-2, Columbia Energy Group (File No. 1-01098) filed as Exhibit F-3 hereto, all on Form 10-K for the year ended December 31, 2000, and NiSource's 2001 Proxy Statement, dated March 12, 2001 (File No. 1-16189), filed as Exhibit F-8 hereto.

TWENTY LARGEST HOLDERS OF CAPITAL STOCKS

Edgar Filing: NISOURCE INC/DE - Form U5B

15. As of a recent date (indicating such date for each class) give the following information with respect to the holders of each class of stock and/or certificates of beneficial interest of the registrant:

(a) The twenty largest registered holders of common stock of NiSource, as of its most recent dividend record date.

NiSource shares can be held by certificate, through dividend reinvestment plans, through investment companies, and other street name and nominee accounts. Absent an unreasonable expenditure of time and money, NiSource has no way to determine

32

the number of shares held by each holder of beneficial interest. Accordingly, NiSource is only able to provide information as to shares registered with NiSource.

The following table sets forth NiSource's twenty largest registered shareholders on the books as of February 25, 2001:

(b) Number of shareholders of record each holding 1,000 shares or more, and aggregate number of shares so held.

As of December 31, 2000, there were 5,985 shareholders holding 1,000 shares or more. The aggregate number of shares held by these shareholders was 194,793,211.

(c) Number of shareholders of record each holding less than 1,000 shares, and aggregate number of shares so held.

As of December 31, 2000, there were 46,100 shareholders holding

## Edgar Filing: NISOURCE INC/DE - Form U5B

less than 1,000 shares. The aggregate number of shares held by these shareholders was 10,759,692.

### OFFICERS, DIRECTORS AND EMPLOYEES

16. (a) Positions and Compensation of Officers and Directors. Give name and address of each director and officer (including any person who performs similar functions) of the registrant, of each subsidiary company thereof, and of each mutual service company which is a member of the same holding company system. Opposite the name of each such

33

individual give the title of every such position held by him and briefly describe each other employment of such individual by each such company.

State the present rate of compensation on an annual basis for each director whose aggregate compensation from all such companies exceeds \$1,000 per year, and of each officer whose aggregate compensation from such companies is at the rate of \$20,000 or more per year. In the event any officer devotes only part of his time to a company or companies in the system this fact should be indicated by appropriate footnote. Such compensation for such part time should be computed on an annual rate and if such annual rate exceeds \$20,000 the actual compensation as well as annual rate should also be reported.

(b) Compensation of Certain Employees. As to regular employees of such companies who are not directors or officers of any one of them, list the name, address, and aggregate annual rate of compensation of all those who receive \$20,000 or more per year from all such companies.

(c) Indebtedness to System Companies. As to every such director, trustee or officer as aforesaid, who is indebted to any one of such companies, or on whose behalf any such company has now outstanding and effective any obligation to assume or guarantee payment of any indebtedness to another, and whose total direct and contingent liability to such company exceeds the sum of \$1,000, give the name of such director, trustee, or officer, the name of such company, and describe briefly the nature and amount of such direct and contingent obligations.

(d) Contracts. If any such director, trustee, or officer as aforesaid:

- (1) has an existing contract with any such company (exclusive of an employment contract which provides for no compensation other than that set forth in paragraph (a) of this Item); or,
- (2) either individually or together with the members of his immediate family, owns, directly or indirectly, 5% or more of the voting securities of any third person with whom any such company has an existing contract; or,
- (3) has any other beneficial interest in an existing contract to which any such company is a party; describe briefly the nature of such contract, the names of the parties thereto, the terms

## Edgar Filing: NISOURCE INC/DE - Form U5B

thereof, and the interest of such officer, trustee, or director therein.

By permission of the Staff, information required to be disclosed pursuant to Items 16(a) through 16(d) has not been included. However this information can be found in NiSource's 2001 Proxy Statement, dated March 12, 2001 (File No. 1-16189), filed as Exhibit F-8 hereto, NiSource's Annual Report on Form 10-K for the year ended December 31,

34

2000 (File No. 1-16189), filed as Exhibit F-1 hereto, Northern Indiana's Annual Report on Form 10-K for the year ended December 31, 2000 (File No. 1-4125), filed as Exhibit F-2 hereto, and Columbia Energy Group's Annual Report on Form 10-K for the year ended December 31, 2000 (File No. 1-01098), filed as Exhibit F-3 hereto, which reports are hereby incorporated by reference.

(e) Banking Connections. If any such director, trustee, or officer is an executive officer, director, partner, appointee, or representative of any bank, trust company, investment banker, or banking association or firm, or of any corporation a majority of whose stock having the unrestricted right to vote for the election of directors, is owned by any bank, trust company, investment banker, or banking association or firm, state the name of such director or officer, describe briefly such other positions held by him and indicate which of the rules under Section 17(c) authorizes the registrant and subsidiary companies of which he is a director or officer to retain him in such capacity.

1. James T. Morris-- Member of Board of Directors of NiSource Inc. since 1997 and currently a director of National City Bank, based in Indianapolis, Indiana. Authorized pursuant to Rule 70(a) of the Act.
2. Carolyn Y. Woo-- Member of Board of Directors of NiSource Inc. since 1998 and currently a director of St. Joseph Capital Bank, based in Mishawaka, Indiana. Authorized pursuant to Rule 70(a) of the Act.
3. Gary L. Neale-- Member of Board of Directors of NiSource Inc. since 1991 and currently a director of Mercantile National Bank of Indiana, based in Hammond, Indiana. Authorized pursuant to Rule 70(a) of the Act.
4. Robert J. Welsh-- Member of Board of Directors of NiSource Inc. since 1998 and currently a director of Mercantile National Bank of Indiana, based in Hammond, Indiana. Authorized pursuant to Rule 70(a) of the Act.
5. William E. Krivan-- Director of Columbia Gas of Ohio, Inc., since 1998 and currently a director of Bank One, based in Chicago, and is also a member of the Bank One Advisory Board. Authorized pursuant to Rule 70(d) of the Act.
6. Douglas G. Borrer-- Director of Columbia Gas of Ohio, Inc., since 1994 and currently a director of Huntington National Bank, based in Columbus, Ohio. Authorized pursuant to Rule 70(c) of the Act.

7. William E. Stifle -- Director of Kokomo Gas and Fuel Company since 1986 and currently a member of the Advisory Board of KeyBank, based in Cleveland, Ohio. Authorized pursuant to Rule 70(d) of the Act.

INTERESTS OF TRUSTEES IN SYSTEM COMPANIES

17. Describe briefly the nature of any substantial interest which any trustee under indentures executed in connection with any outstanding issue of securities of the registrant or any subsidiary thereof, has in either the registrant or such subsidiary, and any claim which any such trustee may have against registrant or any subsidiary; provided, however, that it shall not be necessary to include in such description any evidences of indebtedness owned by such trustee which were issued pursuant to such an indenture.

To the knowledge of NiSource, no such interests exist.

SERVICE, SALES AND CONSTRUCTION CONTRACTS

18. As to each service, sales, or construction contract (as defined in paragraphs (19) to (21) of Section 2(a) of the Act) which the registrant and any subsidiary company thereof has had in effect within the last three months, describe briefly the nature of such contract, the name and address of the parties thereto, the dates of execution and expiration, and the compensation to be paid thereunder. Attach typical forms of any such contracts as an exhibit to this registration statement. If the other party to any such contract is a mutual service company or a subsidiary service company which is a member of the same holding company system as the registrant and as to which the Commission has made a favorable finding in accordance with Rule 13-22, specific reference may be made to the application or declaration filed by such company pursuant to Rule 13-22 and no further details need be given as to such contracts.

There are no typical forms of affiliate agreements, other than the Form of Service Agreement between NiSource Corporate Services Company and affiliates, filed on Rule 24 Certificate, March 30, 2001, with the Commission, and which is included as Exhibit H-1 hereto. Bay State provides repair and installation services to EnergyUSA, Inc. for propane equipment sold by EnergyUSA, Inc. under an agreement entered into as of December 22, 1999, which has a term of one year with one-year renewals. Under this agreement, Bay State charges a flat response fee. In addition, SM&P has agreements to provide underground facilities locating services to Northern Indiana and NIFL. SM&P is in the process of being sold.

LITIGATION

19. Describe briefly any existing litigation of the following descriptions, to which the registrant or any subsidiary company thereof is a party, or of which the property of the registrant or any such subsidiary company is the subject, including the names of the parties and the court in which such litigation is pending:

## Edgar Filing: NISOURCE INC/DE - Form U5B

- (1) Proceedings to enforce or to restrain enforcement of any order of a State commission or other governmental agency;
- (2) Proceedings involving any franchise claimed by any such company;
- (3) Proceedings between any such company and any holder, in his capacity as such, of any funded indebtedness or capital stock issued, or guaranteed by such company, or between any such company and any officer thereof;
- (4) Proceedings in which any such company sues in its capacity as owner of capital stock or funded indebtedness issued or guaranteed by any other company; and
- (5) Each other proceeding in which the matter in controversy, exclusive of interest and costs, exceeds an amount equal to 2% of the debit accounts shown on the most recent balance sheet of such company.

Information regarding litigation involving NiSource and its subsidiaries is incorporated by reference to the following documents: Item 3 of the Annual Report of NiSource on Form 10-K for the year ended December 31, 2000 (File No. 1-16189) (filed herewith as Exhibit F-1); Item 3 of the Annual Report of Northern Indiana on Form 10-K for the year ended December 31, 2000 (File No. 1-4125) (filed herewith as Exhibit F-2) and Item 3 of the Annual Report of Columbia for the year ended December 31, 2000 (File No. 1-01098) (filed herewith as Exhibit F-3).

### EXHIBITS

EXHIBIT A. Furnish a corporate chart showing graphically relationships existing between the registrant and all subsidiary companies thereof as of the same date as the information furnished in the answer to Item 8. The chart should show the percentage of each class voting securities of each subsidiary owned by the registrant and by each subsidiary company.

EXHIBIT	DESCRIPTION
A-1	Corporate chart of NiSource and its subsidiaries (filed herewith as Exhibit A-1 on Form SE).

EXHIBIT B. With respect to the registrant and each subsidiary company thereof, furnish a copy of the charter, articles of incorporation, trust agreement, voting trust agreement, or other fundamental document of organization, and a copy of its bylaws, rules, and regulations, or other instruments corresponding thereto. If such documents do not set forth fully the rights, priorities, and preferences of the holders of each class of capital stock described in the answer to Item 8(b) and those of the holders of any warrants, options or other securities described in the answer to Item 8(d), and of any limitations on such rights, there shall also be

included a copy of each certificate, resolution, or other document establishing or defining such rights and limitations. Each such document shall be in the amended form effective at the date of filing the registration statement or shall be accompanied by copies of any amendments to it then in effect.

EXHIBIT B OMITTED BY PERMISSION OF THE STAFF

EXHIBIT C. (a) With respect to each class of funded debt shown in the answers to Items 8(a) and 8(c), submit a copy of the indenture or other fundamental document defining the rights of the holders of such security, and a copy of each contract or other instrument evidencing the liability of the registrant or a subsidiary company thereof as endorser or guarantor of such security. Include a copy of each amendment of such document and of each supplemental agreement, executed in connection therewith. If there have been any changes of trustees thereunder, such changes, unless otherwise shown, should be indicated by notes on the appropriate documents. No such indenture or other document need be filed in connection with any such issue if the total amount of securities that are now, or may at any time hereafter, be issued and outstanding thereunder does not exceed either \$1,000,000 or an amount equal to 10% of the total of the debit accounts shown on the most recent balance sheet of the registrant or subsidiary company which issued or guaranteed such securities or which is the owner of property subject to the lien of such securities, whichever of said sums is the lesser.

(b) As to each outstanding and uncompleted contract or agreement entered into by registrant or any subsidiary company thereof relating to the acquisition of any securities, utility assets (as defined in section 2(a)(18) of the Act), or any other interest in any business, submit a copy of such contract or agreement and submit details of any supplementary understandings or arrangements that will assist in securing an understanding of such transactions.
