Exhibit 99

Press release issued June 15, 2006 in which the Registrant announced that that it will fund a 7,500 meter core drill program this summer at the Registrant's 100%-owned Kerr-Sulphurets project located in British Columbia, Canada. The program is designed to expand the project's known gold resource by testing for the strike and depth extensions of the Sulphurets deposit and by systematically drilling the promising new Mitchell gold zone identified in previous work. Following the program, a 43-101 Technical Report outlining resources will be prepared for the Mitchell, Sulphurets and Kerr deposits. To fund the 2006 drill program at Kerr-Sulphurets, the Registrant has arranged a private placement of 325,000 flow-through shares at Cdn.\$11.25 per share for gross proceeds of Cdn.\$3,656,250. The shares to be issued under this private placement will be subject to a four-month hold period. There are no commissions or finder's fees payable on the financing. Closing of this financing is subject to regulatory approval and completion of final documentation. Approximately 10% of the financing has been taken up by insiders of the Registrant.
