On July 23, 2009, First Community Bancshares, Inc. (the Company) issued a press release announcing earnings for the three and six month periods ended June 30, 2009. Subsequent to this press release, management revised certain assumptions regarding the discount rate used in valuing cash flows projected to be received from a pooled trust preferred security. Based on the revised cash flow results, net credit-related impairment reported in earnings increased from the amount reported in the press release by \$1.70 million to \$3.78 million and \$3.99 million for the three and six month periods ended June 30, 2009, respectively, as compared to \$2.08 million and \$2.29 million, respectively, as previously reported. As a result, net income available to common shareholders for the three and six months ended June 30, 2009 was revised to \$1.83 million and \$6.49 million, respectively, as compared to \$2.89 million and \$7.55 million, respectively, as previously reported. As revised, diluted earnings per common share for the three and six months ended June 30, 2009, were \$0.14 and \$0.53, respectively, as compared to \$0.23 and \$0.62, respectively, as previously reported. Total assets and stockholders' equity at June 30, 2009, were revised to \$2.20 billion and \$283.56 million, respectively. The Company's Form 10-Q for the quarter ended June 30, 2009, which was filed with the Securities and Exchange Commission (SEC) on August 13, 2009, reflects these revised amounts.

The Company's investor presentation filed on Form 8-K with the SEC on July 27, 2009 reflects the amounts presented in the earnings release and, accordingly, should not be relied upon.
