1. Nature of Operations

Strayer Education, Inc. (the Company), a Maryland corporation, conducts its operations through its wholly owned subsidiary, Strayer University, Inc. (the University). The University is an accredited institution of higher education that provides undergraduate and graduate degrees in various fields of study through 84 campuses (including four campuses opened for the 2010 fall term) in Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, West Virginia, and Washington, D.C., and worldwide via the Internet. With the Company's focus on the student, regardless of whether he or she chooses to take classes at a physical campus or online, it has only one reporting segment.

2. Significant Accounting Policies

The consolidated financial statements include the accounts of the Company and its subsidiary, the University. All inter-company accounts and transactions have been eliminated in the consolidated financial statements.

All information as of December 31, 2009 and June 30, 2009 and 2010, and for the three and six months ended June 30, 2009 and 2010 is unaudited but, in the opinion of management, contains all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the condensed consolidated financial position, results of operations and cash flows of the Company. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009. The results of operations for the three and six months ended June 30, 2010 are not necessarily indicative of the results to be expected for the full fiscal year.

The Company's educational programs are offered on a quarterly basis. Approximately 97% of the Company's revenues during the six months ended June 30, 2010 consisted of tuition revenue. Tuition revenue is recognized in the quarter of instruction. Tuition revenue is shown net of any refunds, withdrawals, corporate discounts, scholarships and employee tuition discounts. At the time of registration, a liability (unearned tuition) is recorded for academic services to be provided and a tuition receivable is recorded for the portion of the tuition not paid upfront in cash. Revenues also include application fees, placement test fees, withdrawal fees, textbook-related income and other income, which are recognized when incurred.

3. Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share reflects the potential dilution that could occur assuming vesting, conversion or exercise of all dilutive

Table of Contents

unexercised stock options and restricted stock. The dilutive effect of stock options was determined using the treasury stock method. Stock options are not included in the computation of diluted earnings per share when the stock option exercise price of an individual grant exceeds the average market price for the period. At June 30, 2009 and 2010, all issued and outstanding stock options were included in the calculation.

Set forth below is a reconciliation of shares used to compute earnings per share (in thousands):

Stock-based compensation

As required by the Stock Compensation Topic, ASC 718, the Company measures and recognizes compensation expense for all share-based payment awards made to employees and directors, including employee stock options and employee stock purchases related to the Company's Employee Stock Purchase Plan, based on estimated fair values. Stock-based compensation expense recognized in the Condensed Consolidated Statements of Income for the three and six months ended June 30, 2009 and 2010 is based on awards ultimately expected to vest and, therefore, has been adjusted for estimated forfeitures. The Company is required to estimate forfeitures at the time of grant and revise, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The forfeiture rate used is based on historical experience.

Table of Contents*Stock-based compensation plans*

A total of 3,000,000 shares have been approved by the Company's stockholders for grants under the Company's 1996 equity compensation plan (the Plan). The Plan provides for the granting of stock options intended to qualify as incentive stock options and also provides for the granting of non-qualifying options and restricted stock to employees, officers and directors of the Company at the discretion of the Board of Directors. Vesting provisions are at the discretion of the Board of Directors. Options may be granted at option prices based at or above the fair market value of the shares at the date of grant. The maximum term of the options granted under the Plan is ten years.

In February 2010, the Company's Board of Directors approved grants of 25,219 shares of restricted stock to certain employees pursuant to the Company's existing annual equity compensation program. These shares vest over a three year period. The Company's stock price closed at \$206.39 on the date of these restricted stock grants.

In April 2010, the Company awarded a total of 3,018 shares of restricted stock to various non-employee members of the Company's Board of Directors, as part of the Company's annual director compensation program. The Company's stock price closed at \$248.75 on the date of this restricted stock grant.

At June 30, 2010, total stock-based compensation cost which has not yet been recognized was \$52.7 million, all for unvested restricted stock. This cost is expected to be recognized over the next 79 months on a weighted-average basis. Excluding the February 2009 grant of 183,680 shares to the Chief Executive Officer, which are subject to performance-based criteria and vest on February 10, 2019, the remaining costs are expected to be recognized over the next 34 months on a weighted-average basis.

Table of Contents

In May 1998, the Company adopted the Strayer Education, Inc. Employee Stock Purchase Plan (ESPP), which was re-authorized on April 28, 2009 for an additional 10 years. Under the ESPP, eligible employees may purchase shares of the Company s common stock, subject to certain limitations, at 90% of its market value at the date of purchase. Purchases are limited to 10% of an employee s eligible compensation. The aggregate number of shares of common stock that may be made available for purchase by participating employees under the ESPP is 2,500,000 shares.

6. Marketable Securities

The Company invests excess cash in bank overnight deposits, taxable and tax-exempt money market funds, and diversified, short-term, investment grade, taxable and tax-exempt bond funds. The Company uses tax-exempt investments to minimize principal risk and to benefit from the tax efficiency of the funds underlying securities when the taxable equivalent yield is higher. As of June 30, 2010, the Company had a total of \$52.9 million invested in the short-term tax-exempt bond fund. The investments are considered available-for-sale as they are not held for trading and will not be held to maturity, in accordance with the Investments-Debt and Equity Securities Topic, ASC 320. The Company records the net unrealized gains and losses for changes in fair value as a component of accumulated other comprehensive income in stockholders equity. Realized gains and losses from the sale of marketable securities are based on the specific identification method. At June 30, 2010, all of the Company s investments were classified as Level 1. Items not subject to fair value reporting include cash and cash equivalents and restricted cash totaling \$88.5 million.

7. Long-Term Liabilities*Lease Incentives*

In conjunction with the opening of new campuses and renovating existing ones, the Company, in some instances, was reimbursed by the lessors for improvements made to the leased properties. In accordance with the Operating Leases Subtopic, ASC 840-20, these improvements were capitalized as leasehold improvements and a long-term liability was established for the reimbursements. The leasehold improvements and the long-term liability are amortized on a straight-line basis over the corresponding lease terms, which range from five to ten years. As of December 31, 2009 and June 30, 2010, the Company had deferred lease incentives of \$3.7 million.

Deferred Rent

In accordance with ASC 840-20, the Company records rent expense on a straight-line basis over the initial term of a lease. The difference between the rent payment and the straight-line rent expense is recorded as a long-term liability. As of December 31, 2009 and June 30, 2010, the Company had deferred rent associated with its lease obligations of \$6.2 million and \$6.8 million, respectively.

Sale of Campus Building and Deferred Gain

In conjunction with the sale and lease back of its Loudoun, Virginia campus building in June 2007, the Company realized a gain of \$2.8 million before tax, which is deferred and recognized over the 10-year lease term. The non-current portion of this gain, which was \$1.8 million and \$1.7 million at December 31, 2009 and June 30, 2010, respectively, is recorded as a long-term liability.

Table of Contents

8. Income Taxes

The Fair Value Measurements and Disclosures Topic, ASC 740, requires the Company to determine whether uncertain tax positions should be recognized within the Company's financial statements. As a result of the implementation of ASC 740, no material adjustment in the liability for unrecognized income tax benefits was recognized. The amount of unrecognized tax benefits at the adoption date of January 1, 2007 and at June 30, 2010 is immaterial. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. As of June 30, 2010, the amount of accrued interest related to uncertain tax positions was immaterial. The tax years 2007-2009 remain open to examination by the major taxing jurisdictions in which the Company is subject.

9. Recent Accounting Pronouncements

In May 2009, the FASB issued the Subsequent Events Topic, ASC 855, which establishes general accounting and disclosure guidelines for events that occur after the balance sheet date but before financial statements are issued or available to be issued. The Company adopted the provisions of ASC 855 effective June 15, 2009.

In June 2009, the FASB issued The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162 (SFAS 168). Under the new FASB ASC, SFAS 168 is now the Generally Accepted Accounting Principles Topic (ASC 105). The ASC becomes the single, authoritative source for US accounting and reporting standards and supersedes all previously issued FASB statements and related accounting literature references for reporting purposes. The Company adopted the provisions of ASC 105 for reporting periods ending after September 15, 2009.

Table of Contents**Three Months Ended June 30, 2010 Compared to Three Months Ended June 30, 2009**

Enrollment. Enrollment at Strayer University for the 2010 spring term, which began April 13, 2010 and ended June 21, 2010, increased 22% to 55,970 students compared to 46,038 students for the same term in 2009. Across the Strayer University campus and online system, new student enrollments increased 16% and continuing student enrollments increased 23%. Global online enrollments increased 34%. Students taking 100% of their classes online (including campus based students) increased 18%. The total number of students taking at least one course online in the 2010 spring term increased 21% to 40,097.

Revenues. Revenues increased 26% to \$159.3 million in the second quarter of 2010 from \$125.9 million in the second quarter of 2009, principally due to a 22% increase in enrollment and a 5% tuition increase implemented at the beginning of 2010.

Instruction and educational support expenses. Instruction and educational support expenses increased \$9.2 million, or 22%, to \$50.1 million in the second quarter of 2010 from \$40.9 million in the second quarter of 2009. This increase was principally due to direct costs necessary to support the increase in student enrollments, including faculty compensation, related academic staff salaries, and campus facility costs, which increased \$3.5 million, \$1.9 million, and \$1.7 million, respectively. Instruction and educational support expenses as a percentage of revenues decreased to 31.5% in the second quarter of 2010 from 32.5% in the second quarter of 2009, largely due to faculty costs growing at a lower rate than tuition revenue.

Marketing and admissions expenses. Marketing and admissions expenses increased \$4.9 million, or 24%, to \$24.9 million in the second quarter of 2010 from \$20.0 million in the second quarter of 2009. This increase was principally due to the direct costs required to build the Strayer University brand and to attract prospective students, and the addition of admissions personnel, particularly at new campuses. Marketing and admissions expenses as a percentage of revenues decreased to 15.6% in the second quarter of 2010, from 15.9% in the second quarter of 2009, as the higher rate of tuition growth more than offset incremental marketing costs.

General and administration expenses. General and administration expenses increased \$5.7 million, or 29%, to \$25.6 million in the second quarter of 2010 from \$19.9 million in the second quarter of 2009. This increase was principally due to increased employee salaries and related costs, higher bad debt expense, and other administrative expenses (e.g., professional services and travel), which increased \$2.8 million, \$0.4 million, and \$1.0 million, respectively, over the prior year. General and administration expenses as a percentage of revenues increased to 16.1% in the second quarter of 2010 from 15.8% in the second quarter of 2009 primarily due to the increase in other administrative expenses.

Income from operations. Income from operations increased \$13.6 million, or 30%, to \$58.7 million in the second quarter of 2010 from \$45.1 million in the second quarter of 2009, due to the aforementioned factors.

Investment and other income. Investment and other income was \$0.2 million in the second quarter of 2010 compared to \$0.4 million in the second quarter of 2009. The decrease was primarily attributable to lower investment yields partly offset by a higher average cash balance.

Table of Contents

Provision for income taxes. Income tax expense increased \$5.3 million, or 30%, to \$23.3 million in the second quarter of 2010 from \$18.0 million in the second quarter of 2009, primarily due to the increase in income before taxes attributable to the factors discussed above. Our effective tax rate was 39.5% for the second quarter of 2010 and the second quarter of 2009.

Net income. Net income increased \$8.2 million, or 30%, to \$35.7 million in the second quarter of 2010 from \$27.5 million in the second quarter of 2009 because of the factors discussed above.

This increase was principally due to direct costs necessary to support the increase in student enrollments, including faculty compensation, related academic staff salaries, and campus facility costs, which increased \$7.1 million, \$4.4 million, and \$3.7 million, respectively. These expenses as a percentage of revenues decreased to 31.2% for the six months ended June 30, 2010 from 32.0% in the six months ended June 30, 2009.

This increase was principally due to the direct costs required to build the Strayer University brand and to attract prospective students, and the addition of admissions personnel, particularly at new campuses. Table of Contents

Investment and other income. Investment and other income decreased \$0.4 million to \$0.5 million in the six months ended June 30, 2010 from \$0.9 million in the six months ended June 30, 2009. This decrease was principally attributable to lower investment yields partly offset by a larger average cash balance.

Provision for income taxes. Income tax expense increased \$10.1 million, or 27%, to \$47.1 million in the six months ended June 30, 2010 from \$37.0 million in the six months ended June 30, 2009, primarily due to the increase in income before taxes discussed above. Liquidity and Capital Resources

At June 30, 2010, we had cash, cash equivalents and marketable securities of \$140.9 million compared to \$116.5 million at December 31, 2009 and \$90.4 million at June 30, 2009. At June 30, 2010, most of our excess cash was invested in bank overnight deposits, money market funds, and a diversified, short-term, investment grade, tax-exempt bond fund to minimize our principal risk and to benefit from the tax efficiency of the fund's underlying securities. As of June 30, 2010, we had a total of \$52.9 million invested in the short-term tax-exempt bond fund. At June 30, 2010, the 1,201 issues in this fund had an average credit rating of AA, an average maturity of 1.3 years, an average duration of 1.2 years, and an average yield to maturity of 0.8%. We had no debt as of December 31, 2009 and June 30, 2010.

For the six months ended June 30, 2010, we reported \$87.9 million of net cash from operating activities compared to \$71.9 million for the same period in 2009. Capital expenditures were \$22.6 million for the six months ended June 30, 2010 compared to \$13.0 million for the same period in 2009. During the six months ended June 30, 2010, we paid regular, quarterly common stock dividends of \$20.9 million (\$0.75 per share for each quarterly dividend) and we received \$0.5 million upon the exercise of 6,667 stock options. During the three months ended June 30, 2010, we invested \$7.0 million to repurchase 29,200 shares of common stock at an average price of \$239.77 per share as part of a previously announced common stock repurchase authorization. Our remaining authorization for stock repurchases was \$68.0 million at June 30, 2010, having spent \$22.0 million for repurchases in the six months ended June 30, 2010. In the second quarter of 2010, bad debt expense as a percentage of revenues was 3.6% compared to 4.2% for the same period in 2009. Days sales outstanding, adjusted to exclude tuition receivable related to future quarters, was 12 days at the end of the second quarter of 2010, compared to 15 days at the end of the second quarter of 2009.

Currently, we invest our cash in bank overnight deposits, money market funds and a short-term, tax exempt bond fund. In addition, we have available a \$15.0 million line of credit facility. There have been no borrowings under the credit facility. We believe that existing cash and cash equivalents, cash generated from operating activities, and if necessary, cash borrowed under the credit facility, will be sufficient to meet our requirements for at least the next 12 months.

In October, the Company intends to announce the number of new campuses Strayer University plans to open in 2011.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is subject to the impact of interest rate changes and may be subject to changes in the market values of its future investments. The Company invests its excess cash in bank overnight deposits, money market funds and a short-term tax-exempt bond fund. The Company has not used derivative financial instruments in its investment portfolio.

Earnings from investments in bank overnight deposits, money market mutual funds, and short-term tax-exempt bond funds may be adversely affected in the future should interest rates change. The Company's future investment income may fall short of expectations due to changes in interest rates or the Company may suffer losses in principal if forced to sell securities that have declined in market value due to changes in interest rates. As of June 30, 2010, a 10% increase or decrease in interest rates would not have a material impact on the Company's future earnings, fair values, or cash flows related to investments in cash equivalents or interest earning marketable securities.

ITEM 4: CONTROLS AND PROCEDURES

Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in reports it files or submits under the Securities Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

b) *Internal Control Over Financial Reporting.* There have not been any changes in the Company's internal control over financial reporting during the quarter ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, the Company is involved in litigation and other legal proceedings arising out of the ordinary course of its business. There are no pending material legal proceedings to which the Company is subject or to which the Company's property is subject.

Item 1A. Risk Factors

In addition to the updated risk factor set forth below, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2009, which could materially affect our business. Those risks, except to the extent they are updated or amended below, are incorporated herein by this reference. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business.

Risks Related to Extensive Regulation of Our Business

The U.S. Department of Education's current rulemaking process may result in material regulatory changes.

On June 18, 2010, the Department of Education released for public comment a notice of proposed rulemaking that addressed program integrity issues for postsecondary education institutions that participate in Title IV programs. The Department of Education also recently released another notice of proposed rulemaking addressing substantive measurements for whether an educational program leads to gainful employment in a recognized occupation for purposes of that program's eligibility for Title IV funds. With respect to both notices of proposed rulemaking, the Department of Education would need to issue final rules by November 1, 2010, for them to be effective July 1, 2011. We cannot predict the substance of any final rules that may be adopted by the Department of Education with respect to the program integrity issues.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the three months ended June 30, 2010, the Company used \$7.0 million to repurchase shares of common stock under its repurchase program⁽¹⁾. The Company's remaining authorization for common stock repurchases was \$68.0 million at June 30, 2010. A summary of the Company's share repurchases during the quarter is set forth below:
