**CAUTIONARY STATEMENT**

This Quarterly Report on Form 10-Q contains statements relating to our future results (including certain projections and business trends) that are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the safe harbor created by those sections. Forward-looking statements frequently are identifiable by the use of words such as believe, anticipate, expect, intend, will, and other similar expressions. Our actual results may differ materially from those projected as a result of certain risks and uncertainties. These risks and uncertainties include, but are not limited to: increased competition, conducting substantial amounts of business internationally, pricing pressures on agricultural products, adverse weather and growing conditions confronting avocado growers, new governmental regulations, as well as other risks and uncertainties, including but not limited to those set forth in Part I., Item 1A, *Risk Factors*, in our Annual Report on Form 10-K for the fiscal year ended October 31, 2006, and those detailed from time to time in our other filings with the Securities and Exchange Commission. These forward-looking statements are made only as of the date hereof, and we undertake no obligation to update or revise the forward-looking statements, whether as a result of new information, future events, or otherwise.

**Table of Contents****CALAVO GROWERS, INC.****NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)****1. Description of the business*****Business***

Calavo Growers, Inc. (Calavo, the Company, we, us or our) procures and markets avocados and other perishable commodities and prepares and distributes processed avocado products. Our expertise in marketing and distributing avocados, processed avocados, and other perishable foods allows us to deliver a wide array of fresh and processed food products to food distributors, produce wholesalers, supermarkets, and restaurants on a worldwide basis. We procure avocados principally from California, Mexico, and Chile. Through our operating facilities in southern California, Texas, New Jersey, and Mexico, we sort, pack, and/or ripen avocados for distribution both domestically and internationally. Additionally, we also distribute other perishable foods, such as Hawaiian grown papayas, and prepare processed avocado products. We report our operations in two different business segments: (1) fresh products and (2) processed products.

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, consisting of adjustments of a normal recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows. The results of operations for interim periods are not necessarily indicative of the results that may be expected for a full year. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2006.

***Recent Accounting Standards***

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, which permits entities to choose to measure at fair value eligible financial instruments and certain other items that are not currently required to be measured at fair value. The standard requires that unrealized gains and losses on items for which the fair value option has been elected be reported in earnings at each subsequent reporting date. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. We will adopt SFAS No. 159 no later than the first quarter of fiscal 2009. We are currently assessing the impact the adoption of SFAS No. 159 will have on our financial position and results of operations.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R)*. SFAS No. 158 requires company plan sponsors to display the net over- or under-funded position of a defined benefit postretirement plan as an asset or liability, with any unrecognized prior service costs, transition obligations or actuarial gains/losses reported as a component of other comprehensive income in shareholders' equity. SFAS No. 158 is effective for fiscal years ending after December 15, 2006. We will adopt SFAS No. 158 as of the end of fiscal 2007. We are currently assessing the impact the adoption of SFAS No. 158 will have on our financial position and results of operations.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 establishes a framework for measuring fair value in generally accepted accounting principles, clarifies the definition of fair value and expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements. However, the application of SFAS No. 157 may change current practice for some entities. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We will adopt SFAS No. 157 in the first quarter of fiscal 2009. We are currently assessing the impact that the adoption of SFAS No. 157 will have on our financial position and results of operations.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 108 on Quantifying Misstatements. SAB No. 108 requires companies to use both a balance sheet and an income

**Table of Contents****CALAVO GROWERS, INC.****NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)**

statement approach when quantifying and evaluating the materiality of a misstatement, and contains guidance on correcting errors under the dual approach. SAB No. 108 also provides transition guidance for correcting errors existing in prior years. SAB No. 108 is effective for annual financial statements covering the first fiscal year ending after November 15, 2006, with earlier application encouraged. We do not believe that the adoption of SAB 108 will have a significant impact on our financial position or results of operations.

In July 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109* (FIN 48). This interpretation clarifies the application of SFAS No. 109, *Accounting for Income Taxes*, by defining a criterion that an individual tax position must meet for any part of the benefit of that position to be recognized in an enterprise's financial statements and also provides guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006, but earlier adoption is permitted. We will adopt FIN 48 no later than November 1, 2007. We are currently assessing the impact the adoption of FIN 48 will have on our financial position and results of operations.

***Stock Based Compensation***

In December 2004, the FASB issued SFAS No. 123(R), *Share-Based Payment*. This pronouncement amends SFAS No. 123, *Accounting for Stock-Based Compensation*, and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*. SFAS No. 123(R) requires that companies account for awards of equity instruments issued to employees under the fair value method of accounting and recognize such amounts in their statements of operations. We adopted SFAS No. 123(R) on November 1, 2005 using the modified prospective method and, accordingly, have not restated the consolidated statements of operations for prior interim periods or fiscal years. Under SFAS No. 123(R), we are required to measure compensation cost for all stock-based awards at fair value on the date of grant and recognize compensation expense in our consolidated statements of operations over the service period that the awards are expected to vest.

Prior to the adoption of SFAS No. 123(R), we accounted for employee stock-based compensation using the intrinsic value method in accordance with APB Opinion No. 25, as permitted by SFAS No. 123 and SFAS No. 148, *Accounting for Stock-Based Compensation – Transition and Disclosure*. Under the intrinsic value method, the difference between the market price on the date of grant and the exercise price is charged to the statement of operations over the vesting period. Prior to the adoption of SFAS No. 123(R), we recognized compensation cost only for stock options issued with exercise prices set below market prices on the date of grant and provided the necessary pro forma disclosures required under SFAS No. 123.

Under SFAS No. 123(R), we now record in our consolidated statements of operations (i) compensation cost for options granted, modified, repurchased or cancelled on or after November 1, 2005 under the provisions of SFAS No. 123(R) and (ii) compensation cost for the unvested portion of options granted prior to November 1, 2005 over their remaining vesting periods using the amounts previously measured under SFAS No. 123 for pro forma disclosure purposes.

The value of each option award is estimated using the Black-Scholes-Merton or lattice-based option valuation models, which primarily consider the following assumptions: (1) expected volatility, (2) expected dividends, (3) expected term and (4) risk-free rate. Such models also consider the intrinsic value in the estimation of fair value of the option award. Forfeitures are estimated when recognizing compensation expense, and the estimate of forfeitures will be adjusted over the requisite service period to the extent that actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized through a cumulative catch-up adjustment in the period of change and will also impact the amount of compensation expense to be recognized in future periods.

In December 2006, our Board of Directors approved the issuance of options to acquire a total of 20,000 shares of our common stock to two members of our Board of Directors. Each grant to acquire 10,000 shares vests in increments of 2,000 per annum over a five-year period and have an exercise price of \$10.46 per share. Vested options have a term of five years from the vesting date. The market price of our common stock at the grant date was \$10.46. The estimated fair market value of such option grant was approximately \$40,000, based on the following assumptions:

**Table of Contents**

**CALAVO GROWERS, INC.**  
**NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)**

Expected dividend yield	3.10%
Expected stock price volatility	22.19%
Risk free interest rate	3.25%
Expected life (in years)	5.5

The expected stock price volatility rates are based on the historical volatility of the Company's common stock. The risk free interest rate was based on the U.S. Treasury yield curve in effect at the time of grant for periods approximating the expected life of the option. The expected life represents the average period of time that options granted are expected to be outstanding, as calculated using the simplified method described in the Securities and Exchange Commission's Staff Accounting Bulletin No. 107.

**2. Information regarding our operations in different segments**

We report our operations in two different business segments: (1) fresh products and (2) processed products. These two business segments are presented based on how information is used by our president to measure performance and allocate resources. The fresh products segment includes all operations that involve the distribution of avocados grown both inside and outside of California, as well as the distribution of other non-processed, perishable food products. The processed products segment represents all operations related to the purchase, manufacturing, and distribution of processed avocado products. Additionally, selling, general and administrative expenses, as well as other non-operating income/expense items, are evaluated by our president in the aggregate. We do not allocate assets, or specifically identify them to, our operating segments. Prior period amounts have been reclassified to conform to the current period presentation.

Consolidated net sales			\$ 69,184			\$ 67,429

**Table of Contents****CALAVO GROWERS, INC.****NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)****3. Inventories**

Inventories consist of the following (in thousands):

	<b>April 30, 2007</b>	<b>October 31, 2006</b>
Fresh fruit	\$ 8,341	\$ 4,961
Packing supplies and ingredients	2,906	2,380
Finished processed foods	3,715	3,228
	<b>\$ 14,962</b>	<b>\$ 10,569</b>

During the three and six month periods ended April 30, 2007 and 2006, we were not required to, and did not, record any provisions to reduce our inventories to the lower of cost or market.

**4. Related party transactions**

We sell papayas obtained from an entity owned by our Chairman of the Board of Directors, Chief Executive Officer and President. Sales of papayas procured from the related entity amounted to approximately \$2,460,000, and \$2,591,000 for the six months ended April 30, 2007 and 2006, resulting in gross margins of approximately \$218,000 and \$203,000. Sales of papayas procured from the related entity amounted to approximately \$1,326,000, and \$1,324,000 for the three months ended April 30, 2007 and 2006, resulting in gross margins of approximately \$126,000 and \$90,000. Included in accrued liabilities are approximately \$385,000 and \$79,000 at April 30, 2007 and October 31, 2006 due to this entity.

Certain members of our Board of Directors market avocados through Calavo pursuant to marketing agreements substantially similar to the marketing agreements that we enter into with other growers. During the three months ended April 30, 2007 and 2006, the aggregate amount of avocados procured from entities owned or controlled by members of our Board of Directors was \$1.2 million and \$4.5 million. During the six months ended April 30, 2007 and 2006, the aggregate amount of avocados procured from entities owned or controlled by members of our Board of Directors was \$2.4 million and \$6.2 million.

**5. Other assets**

At April 30, 2007, other assets in the accompanying consolidated condensed financial statements included the following intangible assets: customer-related intangibles of \$590,000 (accumulated amortization of \$386,000) and brand name intangibles of \$275,000. The customer-related intangibles are being amortized over five years. The intangible asset related to the brand name currently has an indefinite remaining useful life and, as a result, is not currently subject to amortization. We anticipate recording amortization expense of approximately \$59,000 for the remainder of fiscal 2007 and approximately \$118,000 per annum for fiscal 2008, with the remaining amortization expense of approximately \$27,000 recorded in fiscal 2009.

**Table of Contents****CALAVO GROWERS, INC.****NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)****6. Stock-Based Compensation**

In November 2001, our Board of Directors approved two stock-based compensation plans.

***The Directors Stock Option Plan***

Participation in the directors stock option plan is limited to members of our Board of Directors. The plan makes available to the Board of Directors, or a plan administrator, the right to grant options to purchase up to 3,000,000 shares of common stock. In connection with the adoption of the plan, the Board of Directors approved an award of fully vested options to purchase 1,240,000 shares of common stock at an exercise price of \$5.00 per share. We terminated this plan during the third quarter of fiscal 2007. Outstanding options have not been impacted by such termination.

In December 2003, our Board of Directors approved the issuance of options to acquire a total of 50,000 shares of our common stock to two members of our Board of Directors. Each option to acquire 25,000 shares vests in substantially equal installments over a three-year period, has an exercise price of \$7.00 per share, and has a term of five years from the grant date. The market price of our common stock at the grant date was \$10.01. In December 2005, the related stock option agreements were modified to shorten the option terms, as defined. Such modifications were contemplated primarily as a result of Section 409A of the tax code. During the six months ended April 30, 2007 and 2006, we recognized approximately \$12,000 and \$13,000 of compensation expense with respect to these stock option awards. No compensation expense was recorded in our second fiscal quarter of 2007 related to these stock options.

A summary of stock option activity follows (in thousands, except for per share amounts):

	<b>Number of Shares</b>	<b>Weighted-Average Exercise Price</b>	<b>Aggregate Intrinsic Value</b>
Outstanding at October 31, 2006 and April 30, 2007	49	\$ 7.00	\$ 347
Exercisable at April 30, 2007	49	\$ 7.00	\$ 347

The weighted average remaining life of such outstanding options is 1.64 years. The total fair value of shares vested during the six months ended April 30, 2007 was approximately \$235,000.

***The Employee Stock Purchase Plan***

The employee stock purchase plan was approved by our Board of Directors and shareholders. Participation in the employee stock purchase plan is limited to employees. The plan provides the Board of Directors, or a plan administrator, the right to make available up to 2,000,000 shares of common stock at a price not less than fair market value.

***The 2005 Stock Incentive Plan***

The 2005 Stock Incentive Plan of Calavo Growers, Inc. (the 2005 Plan ) was approved by our Board of Directors and shareholders. The 2005 Plan authorizes the granting of the following types of awards to persons who are employees, officers, consultants, advisors, or directors of Calavo Growers, Inc. or any of its affiliates:

Incentive stock options that are intended to satisfy the requirements of Section 422 of the Internal Revenue Code of 1986, as amended, and the regulations thereunder;

Non-qualified stock options that are not intended to be incentive stock options; and

Shares of common stock that are subject to specified restrictions

**Table of Contents****CALAVO GROWERS, INC.****NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)**

Subject to the adjustment provisions of the 2005 Plan that are applicable in the event of a stock dividend, stock split, reverse stock split or similar transaction, up to 2,500,000 shares of common stock may be issued under the 2005 Plan and no person shall be granted awards under the 2005 Plan during any 12-month period that cover more than 500,000 shares of common stock.

A summary of stock option activity follows (in thousands, except for share amounts):

	Number of Shares	Weighted-Average Exercise Price	Aggregate Intrinsic Value
Outstanding at October 31, 2006	391	\$ 9.10	
Granted	20	\$ 10.46	
Exercised	(4)	\$ 9.10	
Outstanding at April 30, 2007	407	\$ 9.17	\$ 2,031
Exercisable at April 30, 2007	387	\$ 9.10	\$ 1,931

The weighted average remaining life of such outstanding options is 3.53 years and the estimated fair market value per share granted during the six-months ended April 30, 2007 was approximately \$2.06 per share. At April 30, 2007, the total unrecognized compensation cost related to such unvested stock options awards was approximately \$38,000, which is expected to be recognized over the remaining period of approximately five years.

**7. Other events***Dividend payment*

In January 2007, we paid a \$0.32 per share dividend in the aggregate amount of \$4.6 million to shareholders of record on December 15, 2006. In January 2006, we paid a \$0.32 per share dividend in the aggregate amount of \$4.6 million to shareholders of record on December 15, 2005.

*Accrued expenses and Advances to suppliers*

Included in accrued expenses at April 30, 2007 are payables to foreign tomato growers totaling approximately \$7.1 million. Additionally, we have receivables from such growers totaling approximately \$5.7 million, included in Advances to Suppliers, at April 30, 2007. No corresponding amounts existed at April 30, 2006.

*Contingencies*

*Hacienda Suit* We are currently under examination by the Mexican tax authorities (Hacienda) for the tax year ended December 31, 2000. During the first quarter of fiscal 2005, we received an assessment totaling approximately \$2.0 million from Hacienda related to the amount of income at our Mexican subsidiary. Subsequent to that initial assessment, the Hacienda offered a settlement of approximately \$400,000, which we declined. Based primarily on discussions with legal counsel and the evaluation of our claim, we maintain our belief that the Hacienda's position has no merit and that we will prevail. Accordingly, no amounts have been provided in the financial statements as of April 30, 2007. We pledged our processed products building located in Uruapan, Michoacan, Mexico as collateral to the Hacienda in regards to this assessment.

*Processed Products suit* During the first quarter of fiscal 2007, the Company was named defendant in a complaint filed with the Superior Court of the State of California for the County of Los Angeles, seeking monetary damages of not less than \$2.5 million stemming from packing services performed on behalf of the complainant. The initial complaint stated various allegations, including breach of contract, negligence, etc. Subsequent to that initial complaint, the court has dismissed certain allegations. We believe the charges in this case are without merit and intend to vigorously defend the litigation. Accordingly, no amounts have been provided in the financial statements as of April 30, 2007.

**Table of Contents**

**CALAVO GROWERS, INC.**

**NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)**

We are also involved in litigation arising in the ordinary course of our business that we do not believe will have a material adverse impact on our financial statements.

*Term Revolving Credit Agreement*

In January 2007, we converted one of our short-term, non-collateralized, revolving credit facilities into a term revolving credit agreement due February 2010. Effective February 2007, we further amended the term and also amended the total credit available pursuant to this borrowing agreement. The revised term is now through February 2012, and the total available credit is now \$15 million. Under the terms of this agreement, we are advanced funds for both working capital and long-term productive asset purchases. Borrowings incur interest at 6.0% at April 30, 2007. Under this credit facility, we had \$7.0 million outstanding as of April 30, 2007. The credit facility contains various financial covenants, the most significant relating to working capital, tangible net worth (as defined), and Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) (as defined). We were in compliance with all such covenants at April 30, 2007.

**Table of Contents**

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

This information should be read in conjunction with the unaudited consolidated condensed financial statements and the notes thereto included in this Quarterly Report, and the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Annual Report on Form 10-K for the year ended October 31, 2006 of Calavo Growers, Inc. (we, Calavo, or the Company). Certain prior year amounts have been reclassified to conform with the current period presentation.

***Recent Developments***

***Dividend payment***

In January 2007, we paid a \$0.32 per share dividend in the aggregate amount of \$4.6 million to shareholders of record on December 15, 2006. In January 2006, we paid a \$0.32 per share dividend in the aggregate amount of \$4.6 million to shareholders of record on December 15, 2005.

***Accrued expenses and Advances to suppliers***

Included in accrued expenses at April 30, 2007 are payables to foreign tomato growers totaling approximately \$7.1 million. 2007. The credit facility contains various financial covenants, the most significant relating to working capital, tangible net worth (as defined), and Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) (as defined). We were in compliance with all such covenants at April 30, 2007.

**Net Sales**

The following table summarizes our net sales by business segment for each of the three and six month periods ended April 30, 2007 and 2006:

(in thousands)	Three months ended April 30,			Six months ended April 30,		
	2007	Change	2006	2007	Change	2006
Net sales to third-parties:						
Fresh products	\$ 59,959	3.0%	\$ 58,215	\$ 108,080	7.0%	\$ 100,973
Processed products	9,225	0.1%	9,214	18,397	7.6%	17,103
Total net sales	\$ 69,184	2.6%	\$ 67,429	\$ 126,477	7.1%	\$ 118,076
As a percentage of net sales:						
Fresh products	86.7%		86.3%	85.5%		85.5%
Processed products	13.3%		13.7%	14.5%		14.5%
	100.0%		100.0%	100.0%		100.0%

Net sales for the second quarter of fiscal 2007, compared to fiscal 2006, increased by \$1.8 million, or 2.6%; whereas net sales for the six months ended April 30, 2007, compared to fiscal 2006, increased by \$8.4 million, or 7.1%. The increase in fresh product sales during the second quarter of fiscal 2007 was primarily related to increased sales in Mexican and Chilean sourced avocados, partially offset by a decrease in sales from California sourced avocados. The increase in fresh product sales during the six months ended April 30, 2007 was primarily driven by increased sales related to Chilean and Mexican sourced avocados, partially offset by decreased sales related to avocados sourced from California. While the procurement of fresh avocados related to our fresh products segment is seasonal, our processed products business is generally not subject to a seasonal effect. For the related six-month period, the increase in net sales delivered by our processed products business was due primarily to an increase in total pounds of product sold, as well as a marginal increase in the net sales price.

Net sales to third parties by segment exclude value-added services billed by our Uruapan packinghouse and our Uruapan processing plant to the parent company. All intercompany sales are eliminated in our consolidated results of operations.

**Fresh products**

Net sales delivered by the business increased by approximately \$1.7 million, or 3.0%, for the second quarter of fiscal 2007, when compared to the same period for fiscal 2006. This increase was primarily related to an increase in sales of Mexican and Chilean grown avocados, as well as tomatoes, in the U.S. marketplaces. The volume of Mexican fruit sold increased by approximately 21.9 million pounds, or 147.7%, when compared to the same prior year period. This increase was primarily in the U.S. marketplace and was substantially related to an increased emphasis in the Mexican avocado crop certified for export to the U.S., which principally stemmed from the expected, and ultimately, realized smaller California avocado crop. The volume of Chilean fruit sold increased by approximately 3.0 million pounds, or 100.0%, when compared to the same prior year period. This increase is primarily related to the size of the Chilean avocado crop, as well as the timing of the delivery to the United States. Additionally, the average selling price, on a per carton basis, of Mexican avocados sold increased approximately 13.3% when compared to the same prior year period. We attribute some of this increase to the smaller California avocado crop in the marketplace during our second fiscal quarter, as well as the premium pricing related to our ProRipeVIP™ avocado ripening program. The

volume of non-brokered tomatoes increased by approximately 15.7 million pounds when compared to the same prior year period. This increase, which accounted for the majority of the fluctuation, was primarily related to a new supplier relationship.

**Table of Contents**

The increased sales discussed above was partially offset by a decrease in sales related to avocados sourced from California. California avocados sales reflect a 74.0% decrease in pounds of avocados sold, when compared to the same prior year period. The decrease in pounds is consistent with the expected decrease in the overall harvest of the California avocado crop for the 2006/2007 season. Our market share of California avocados decreased to 30.5% in the second quarter of fiscal 2007, when compared to a 33.5% market share for the same prior year period. The average selling price, on a per carton basis, of California avocados sold, however, increased approximately 39.7% when compared to the same prior year period. We attribute some of this increase to the aforementioned smaller California avocado crop for the 2006/2007 season.

Net sales delivered by the business increased by approximately \$7.1 million, or 7.0%, for the six months ended April 30, 2007, when compared to the same period for fiscal 2006. This increase was primarily related to an increase in sales of Mexican and Chilean grown avocados, as well as tomatoes, in the U.S. marketplaces. The volume of Mexican fruit sold increased by approximately 27.8 million pounds, or 71.8%, when compared to the same prior year period. This increase was primarily in the U.S. marketplace and was substantially related to an increased emphasis in the Mexican avocado crop certified for export to the U.S., which principally stemmed from the expected, and ultimately, realized smaller California avocado crop. The volume of Chilean fruit sold increased by approximately 6.3 million pounds, or 90.5%, when compared to the same prior year period. This increase is primarily related to the size of the Chilean avocado crop, as well as the timing of the delivery to the United States. Additionally, the average selling price, on a per carton basis, of Mexican avocados sold increased approximately 9.7% when compared to the same prior year period. The average selling price of Chilean avocados sold, on a per carton basis, however, decreased approximately 22.2% when compared to the same prior year period. We attribute some of these price fluctuations to the size and/or timing of delivery of the Chilean and California avocado crop in the marketplace during the six month period ending April 30, 2007. The volume of non-brokered tomatoes increased by approximately 19.9 million pounds when compared to the same prior year period. This increase, which accounted for the majority of the fluctuation, was primarily related to a new supplier relationship.

The increased sales discussed above was partially offset by a decrease in sales related to avocados sourced from California. California avocados sales reflect a 60.2% decrease in pounds of avocados sold, when compared to the same prior year period. The decrease in pounds is consistent with the expected decrease in the overall harvest of the California avocado crop for the 2006/2007 season. Our market share of California avocados remained fairly consistent at 35.1% for the six month period ending April 30, 2007, when compared to a 34.5% market share for the same prior year period. The average selling price, on a per carton basis, of California avocados sold, however, increased approximately 21.9% when compared to the same prior year period. We attribute some of this increase to the aforementioned smaller California avocado crop for the 2006/2007 season.

We anticipate that California avocado sales will experience a seasonal increase during our third fiscal quarter of 2007, as compared to the second fiscal quarter of 2007. Based on the expected smaller California avocado crop for fiscal 2007, which was further impacted by adverse weather conditions that primarily struck California crops during our first quarter, we do not expect sales from California sourced avocados to meet or exceed sales from California sourced avocados generated in the prior year. We intend to leverage our position as the largest packer of Mexican grown avocados for export markets to improve our overall sales performance.

We anticipate that net sales related to non-California sourced avocados to experience a seasonal decrease in the third fiscal quarter of 2007, as compared to the second fiscal quarter of 2007.

*Processed products*

For the quarter ended April 30, 2007, when compared to the same period for fiscal 2006, sales to third-party customers remained consistent at \$9.2 million. While we experienced a 3.7% increase in total pounds sold, such was substantially offset by a 3.7% decrease in our average net selling prices.

**Table of Contents**

For the first six months of fiscal 2007, when compared to the same period for fiscal 2006, sales to third-party customers increased by approximately \$1.3 million, or 7.6%. This increase is primarily related to a 6.2% increase in total pounds sold, as our ultra high pressure products have experienced widespread acceptance in both the retail and foodservice sectors. Our average net selling prices remained fairly consistent during the first six months ended April 30, 2007, when compared to the same prior year period.

Our ultra high pressure products continue to experience solid demand. During the six months ended April 30, 2007, sales of high pressure product totaled approximately \$7.3 million, as compared to \$6.2 million for the same prior year period. We believe that these fresh guacamole products are successfully addressing a growing market segment.

**Gross Margins**

The following table summarizes our gross margins and gross profit percentages by business segment for each of the three and six month periods ended April 30, 2007 and 2006:

(in thousands)	Three months ended April 30,			Six months ended April 30,		
	2007	Change	2006	2007	Change	2006
Gross margins:						
Fresh products	\$ 6,214	11.0%	\$ 5,600	\$ 9,940	40.5%	\$ 7,077
Processed products	2,977	(0.6%)	2,995	6,219	27.2%	4,890
Total gross margins	\$ 9,191	6.9%	\$ 8,595	\$ 16,159	35.0%	\$ 11,967
Gross profit percentages:						
Fresh products	10.4%		9.6%	9.2%		7.0%
Processed products	32.3%		32.5%	33.8%		28.6%
Consolidated	13.3%		12.7%	12.8%		10.1%

Our cost of goods sold consists predominantly of fruit costs, packing materials, freight and handling, labor and overhead (including depreciation) associated with preparing food products and other direct expenses pertaining to products sold. Gross margins increased by approximately \$0.6 million, or 6.9%, and \$4.2 million, or 35.0%, for the second quarter and first six months of fiscal 2007, when compared to the same periods for fiscal 2006. These increases were primarily attributable to improvements in both our fresh products and/or processed products segments.

For the second quarter and first six months of fiscal 2007, as compared to the same prior year periods, gross margins related to our fresh products segment increased. Such increases were primarily driven by a significant increase in pounds of Mexican and Chilean fruit sold, a decrease in Mexican fruit costs, and/or higher sales prices. For the second quarter and first six months of fiscal 2007, we experienced a 147.7% and 71.8% increase in fruit sold related to Mexican sourced fruit. Additionally, for the second quarter and first six months of fiscal 2007, we experienced a 100.0% and 90.5% increase in fruit sold related to Chilean sourced fruit. This had the effect of decreasing our per pound production costs, which, as a result, positively impacted gross margins. Additionally, the significant increase in tomato volume positively impacted gross margins as well. The resulting higher gross margins described above were partially offset, however, by decreases in California sourced fruit and the lower gross margins resulting therefrom. For the second quarter and first six months of fiscal 2007, the volume of California fruit decreased 74.0% and 60.2%, when compared to the same prior year periods.

The processed products gross profit percentages for the first six months of fiscal 2007, increased primarily as a result of lower fruit costs and increases in total pounds produced, which had the effect of reducing our per pound costs. We anticipate that the gross profit percentage for our processed product segment will continue to experience significant fluctuations during the next fiscal quarter primarily due to the uncertainty of the cost of fruit that will be used in the production process.

**Table of Contents*****Selling, General and Administrative***

(in thousands)	Three months ended April 30,			Six months ended April 30,		
	2007	Change	2006	2007	Change	2006
Selling, general and administrative	\$4,812	(3.7%)	\$4,997	\$9,443	0.4%	\$9,403
Percentage of net sales	6.9%		7.4%	7.5%		8.0%

Selling, general and administrative expenses include costs of marketing and advertising, sales expenses and other general and administrative costs. Selling, general and administrative expenses decreased \$0.2 million, or 3.7%, for the three months ended April 30, 2007, when compared to the same period for fiscal 2006. This decrease was primarily related to lower corporate costs, including, but not limited to, consulting expenses, including those related to implementing provisions required under section 404 of the Sarbanes-Oxley Act (totaling approximately \$0.4 million), a decrease in stock based compensation (totaling approximately \$0.2 million), and a decrease in general insurance expense (totaling approximately \$0.1 million). Such decreases were partially offset, however, by higher employee compensation costs (totaling approximately \$0.4 million).

***Other Income (Expense), net***

(in thousands)	Three months ended April 30,			Six months ended April 30,		
	2007	Change	2006	2007	Change	2006
Other income (expense), net	\$(137)	(1,470.0%)	\$ 10	\$(293)	350.8%	\$( 65)
Percentage of net sales	(0.2%)		0.0%	(0.2%)		(0.1%)

Other income, net, includes interest income and expense generated in connection with our financing and operating activities, as well as certain other transactions that are outside of the course of normal operations. For the three and six months ended April 30, 2007, other income, net, includes dividend income of \$0.1 million from Limoneira Company. For the six months ended April 30, 2007, other income, net, includes \$0.1 million of income from Maui Fresh, LLC.

***Provision for Income Taxes***

(in thousands)	Three months ended April 30,			Six months ended April 30,		
	2007	Change	2006	2007	Change	2006
Provision for income taxes	\$1,655	16.6%	\$1,419	\$2,505	156.9%	\$ 975
Percentage of income before provision for income taxes	39.0%		39.3%	39.0%		39.0%

For the first six months of fiscal 2007, our provision for income taxes was \$1.7 million, as compared to \$1.4 million recorded for the comparable prior year period. We expect our effective tax rate to approximate 39.0% during fiscal 2007.

**Table of Contents****Liquidity and Capital Resources**

Cash provided by operating activities was \$0.3 million for the six months ended April 30, 2007, compared to \$3.3 million for the similar period in fiscal 2006. Operating cash flows for the six months ended April 30, 2007 reflect our net income of \$3.9 million, net non-cash items (depreciation and amortization, stock compensation expense, income from Maui Fresh, LLC, and provision for losses on accounts receivable) of \$1.1 million and a net decrease in the noncash components of our working capital of approximately \$4.7 million.

These working capital decreases include an increase in accounts receivable of \$5.1 million, an increase in advances to suppliers of \$4.6 million, an increase in inventory of \$4.4 million, and an increase in prepaid expenses and other current assets of \$0.8 million. These decreases were partially offset by an increase in trade accounts payable and accrued expenses of \$7.3 million, a decrease in income tax receivable of \$2.3 million, an increase in payable to growers of \$0.4 million, and an increase in income tax payable of \$0.2 million.

The increase in our accounts receivable balance, as of April 30, 2007, when compared to October 31, 2006, primarily reflects higher sales recorded in the month of April 2007, as compared to October 2006. The increase in advances to suppliers is primarily related to outstanding advances to foreign tomato suppliers as of April 30, 2007, as compared to October 31, 2006. The increase in inventory is primarily related to an increase in California fruit delivered in the month of April 2007, as compared to October 2006, an increase in purchased foreign fruit, as well as an increase in finished processed foods, primarily driven by production exceeding sales during such time period. The increase in trade accounts payable and accrued expenses primarily reflects an increase in payables to foreign tomato suppliers as of April 2007, as compared to October 2006. The decrease in income tax receivable primarily relates to income from operations through the six months ended April 30, 2007.

Cash used in investing activities was \$2.1 million for the six months ended April 30, 2007 and related principally to the purchase of property, plant and equipment items.

Cash provided by financing activities was \$3.3 million for the six months ended April 30, 2007, which related principally to \$5.4 million of borrowings from our lines of credit, as well as \$2.4 million from the collection of our notes receivable from shareholders. Such proceeds were partially offset, however, by the payment of a \$4.6 million dividend.

Our principal sources of liquidity are our existing cash reserves, cash generated from operations and amounts available for borrowing under our existing credit facilities. Cash and cash equivalents as of April 30, 2007 and October 31, 2006 totaled \$1.6 million and \$0.1 million. Our working capital at April 30, 2007 was \$20.5 million, compared to \$12.0 million at October 31, 2006. The overall working capital increase primarily reflects increases in our accounts receivable, inventory and advances to suppliers balances, partially offset by an increase in our accrued expenses balance.

We believe that cash flows from operations, available credit facilities, and long-term credit facilities will be sufficient to satisfy our future capital expenditures, grower recruitment efforts, working capital and other financing requirements. We will continue to evaluate grower recruitment opportunities and exclusivity arrangements with food service companies to fuel growth in each of our business segments. We have one short-term and one long-term, non-collateralized, revolving credit facilities. These credit facilities expire in February 2012 and April 2008 and are with separate banks. Under the terms of these agreements, we are advanced funds for both working capital and long-term productive asset purchases. Total credit available under the combined short-term borrowing agreements was \$27 million, with a weighted-average interest rate of 6.0% and 6.2% at April 30, 2007 and October 31, 2006. Under these credit facilities, we had \$9.3 million and \$3.8 million outstanding as of April 30, 2007 and October 31, 2006. The credit facilities contain various financial covenants with which we were in compliance at April 30, 2007. The most significant financial covenants relate to working capital, tangible net worth (as defined), and Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) (as defined) requirements. We have no significant commitments for capital expenditures as of April 30, 2007.

**Table of Contents****ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Our financial instruments include cash and cash equivalents, accounts receivable, payable to growers, accounts payable, current and long-term borrowings pursuant to our credit facilities with financial institutions, and long-term, fixed-rate obligations. All of our financial instruments are entered into during the normal course of operations and have not been acquired for trading purposes. The table below summarizes interest rate sensitive financial instruments and presents principal cash flows in U.S. dollars, which is our reporting currency, and weighted-average interest rates by expected maturity dates, as of April 30, 2007.

(All amounts in thousands)	Expected maturity date April 30,						Total	Fair Value
	2007	2008	2009	2010	2011	Thereafter		
<b>Assets</b>								
Cash and cash equivalents								
(1)	\$ 1,568	\$	\$	\$	\$	\$	\$ 1,568	\$ 1,568
Accounts receivable (1)	29,114						29,114	29,114
<b>Liabilities</b>								
Payable to growers (1)	\$ 6,715	\$	\$	\$	\$	\$	\$ 6,715	\$ 6,715
Accounts payable (1)	2,222						2,222	2,222
Current borrowings pursuant to credit facilities (1)	6,250						6,250	6,250
Long-term borrowings pursuant to credit facilities (2)				3,000			3,000	3,000
Fixed-rate long-term obligations (3).	1,308	1,306	1,300	1,300	1,300	5,200	11,714	10,754

(1) We believe the carrying amounts of cash and cash equivalents, accounts receivable, payable to growers, accounts payable, and current borrowings pursuant to credit facilities approximate their fair value due to the short maturity of these financial instruments.

(2) Long-term borrowings pursuant to credit

facilities bear interest at 6.3% at April 30, 2007.

We believe that a portfolio of loans with a similar risk profile would currently yield a similar return. We project the impact of an increase or decrease in interest rates of 100 basis points would result in a change of fair value of approximately \$110,000.

- (3) Fixed-rate long-term obligations bear interest rates ranging from 3.3% to 8.2% with a weighted-average interest rate of 5.7%. We believe that loans with a similar risk profile would currently yield a return of 7.2%. We project the impact of an increase or decrease in interest rates of 100 basis points would result in a change of fair value of approximately \$434,000.

We were not a party to any derivative instruments during the fiscal year. It is currently our intent not to use derivative instruments for speculative or trading purposes. Additionally, we do not use any hedging or forward contracts to offset market volatility.

Our Mexican-based operations transact business in Mexican pesos. Funds are transferred by our corporate office to Mexico on a weekly basis to satisfy domestic cash needs. Consequently, the spot rate for the Mexican peso has a moderate impact on our operating results. However, we do not believe that this impact is sufficient to warrant the use

of derivative instruments to hedge the fluctuation in the Mexican peso. Total foreign currency gains and losses for each of the three years in the period ended October 31, 2006 do not exceed \$0.1 million.

**ITEM 4. CONTROLS AND PROCEDURES**

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act ), as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective.

There were no substantial changes in the Company's internal control over financial reporting during the quarter ended April 30, 2007 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Table of Contents****PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

We are involved in litigation in the ordinary course of business, none of which we believe will have a material adverse impact on our financial position or results from operations.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

On April 25, 2007, we held the annual meeting of shareholders of Calavo Growers, Inc. at 15765 W. Telegraph Road, Santa Paula, California, 93060. At the meeting, the holders of our outstanding common stock acted on the following matters:

(1) The shareholders voted on a cumulative basis for 13 directors, each to serve for a term of one year. Each nominee received the following votes:

<b>Name of Nominee</b>	<b>Votes For</b>	<b>Votes Withheld</b>
Lecil E. Cole	28,986,678	287,982
George H. Barnes	8,247,445	329,056
Michael D. Hause	9,282,475	279,817
Donald M. Sanders	12,344,988	42,359
Fred J. Ferrazzano	9,789,816	328,238
Alva V. Snider	9,590,019	420,785
Scott Van Der Kar	10,638,651	370,475
J. Link Leavens	14,008,536	382,888
Dorcas H. McFarlane	9,963,785	396,147
John M. Hunt	10,775,668	312,511
Egidio Carbone, Jr.	8,327,514	448,077
Harold Edwards	8,276,934	298,657
Alan Van Wagner	8,492,660	332,786

(2) The shareholders voted for the ratification of the appointment of Ernst & Young LLP as our independent accountants for fiscal 2007. Votes cast were as follows:

For	11,720,250
Against	12,825
Abstain	28,844
