Pursuant to delegated authority, certain board functions may be discharged by one or more standing committees of the board.

The compensation committee, comprised of Messrs. auditors may wish to discuss. In addition, the audit committee would recommend the appointment of new auditors to the board of directors if future circumstances were to indicate that such action is desirable.

The board of directors does not maintain executive or nominating committees. Stockholders who may wish to suggest individuals for possible future consideration for board positions should direct recommendations to the board of directors at Reunion Industries' principal offices.

Directors not otherwise compensated by Reunion Industries receive annual retainers of \$18,000 for service on the board and \$500 for each board or committee meeting attended. Compensation paid to nonemployee directors during 2000 for service in all board capacities aggregated \$100,000. Directors are reimbursed for the actual cost of any travel expenses incurred. PROPOSAL 2. INCREASE IN SHARES RESERVED FOR ISSUANCE UNDER 1998 STOCK OPTION PLAN

The 1998 Stock Option Plan was approved by Reunion Industries' stockholders on August 4, 1998, and 600,000 shares of common stock were reserved for issuance under the plan at that time.

In general, the plan provides additional incentives to selected key employees, non-employee directors and consultants of Reunion Industries. The purpose of the plan is to further the long-term stability and financial success of Reunion Industries by retaining key employees, directors and consultants who are able to contribute to the financial success of the company. Moreover, the board of directors believes that offering the key employees, directors and consultants of the company the opportunity to become owners of capital stock of Reunion Industries will help to align further their interests with those of Reunion Industries' stockholders generally. The board of directors believes that reserving additional shares for future grants will enable the company to continue to realize the benefits of these incentives for key individuals.

As of April 2, 2001, there were options for 829,000 shares of common stock outstanding under the plan and under two plans adopted by predecessors to the company, the Buttes Gas & Oil Co. 1992 Nonqualified Stock Option Plan and the Reunion Resources Company 1993 Incentive Stock Plan. As of April 2, 2001, there were 40,000 additional shares of common stock reserved and available for future option grants.

The board of directors recommends, and the stockholders are asked to approve, reserving an additional 600,000 shares of common stock for future grants of options under the 1998 Stock Option Plan. The additional 600,000 shares, together with the 869,000 shares already granted or available for grant, would represent approximately 9% of the outstanding shares of Reunion Industries if fully exercised.

The Board of Directors recommends a vote for approval to reserve an additional 600,000 shares under the 1998 Stock Option Plan.

VOTE REQUIRED AND VOTING PROCEDURE

The eight nominees for election as directors at the 2001 Annual Meeting of Stockholders who receive the greatest number of votes cast for election at the Annual Meeting of Stockholders shall be the duly elected directors upon completion of the vote tabulation at the meeting, provided a majority of the outstanding shares as of the record date, April 2, 2001, are present in person or by proxy at the meeting.

The increase in the number of shares reserved for issuance under the 1998 Stock Option Plan will be approved by the affirmative vote of a majority of the votes cast at the 2001 Annual Meeting of Stockholders, provided a majority

Edgar Filing: REUNION INDUSTRIES INC - Form DEF 14A

of the outstanding shares as of the record date are present in person or by proxy at the meeting.

Votes will be tabulated by Registrar and Transfer Company, the transfer agent and registrar for Reunion Industries' common stock, and the results will be certified by an election inspector who is required to resolve impartially any interpretive questions as to the conduct of the vote. Under applicable provisions of Reunion Industries' bylaws, any proxy containing an abstention from voting or a broker nonvote will be sufficient to represent the shares at the meeting for purposes of determining whether a quorum is present, but will count neither as a vote for nor against any nominee with respect to whom the holder has abstained from voting.

Management of Reunion Industries believes that all of the shares of common stock to be voted by directors and executive officers and by KSB Acquisition Corp., Hanna Investment Corporation and Stanwich Financial Services Corp., aggregating 11,098,512 shares as of April 2, 2001, or approximately 72.8% of the issued and outstanding common stock (see "Ownership Information--Security Ownership of Certain Beneficial Owners and Management"), will be voted in favor of the election of each of the director nominees and in favor of the increase in the number of shares reserved for issuance under the 1998 Stock Option Plan.

Compensation Committee Report

The compensation committee of the board of directors has furnished the following report on executive compensation for 2000:

The board of directors pursues a philosophy of seeking to improve Reunion Industries' performance and to maximize shareholder value by, among other things, relating executive compensation and stock-based benefits to Reunion Industries' performance. In general, executive financial rewards may be segregated into the following significant components: base compensation, bonus, and stock option and other benefit plans.

Base compensation for senior executives is intended to be competitive with that paid on comparably situated companies, but with a reasonable degree of financial security and flexibility afforded to those individuals who are regarded by the board of directors as acceptably discharging the levels and types of responsibility implicit in the various senior executive positions. While the committee's principal concern is with establishing compensation programs and setting executive compensation at levels which are somewhat reflective of those prevailing for similar executive positions, no comparability studies were conducted for executive salaries to be paid in 2000.

Under the supervision of the compensation committee, annual bonuses reflect a policy of requiring a specified level of company performance for the year before any bonuses are earned by senior executives, with bonuses for achieving higher levels of performance directly related to the level achieved. In setting performance criteria, the committee will consider the total

Edgar Filing: REUNION INDUSTRIES INC - Form DEF 14A

compensation payable or potentially available to the chief executive and other executives officers. While the development of any business necessarily involves numerous factors, the board's primary emphasis will be on encouraging management to increase Reunion Industries' net assets and cash flow, and in certain instances, rationalization of certain company businesses or assets. The compensation committee did not participate in the determination of compensation for Chatwins Group employees prior to the merger.

The board of directors believes that properly designed and administered long-term, stock-based incentives for senior executives closely align the executives' economic interest with those of stockholders and provide a direct and continuing focus upon the goal of constantly striving to maximize stockholder value. The compensation committee intends, with any necessary concurrence of the board of directors, to continue to consider alternate forms of stock-based incentives designed to achieve the maximum possible performance based benefit to all senior executives at the least possible cost and the greatest attainable economic efficiency to Reunion Industries, with such benefits designed as nearly as practicable to directly align the economic interests of professional managers with those of Reunion Industries' stockholders.

Pursuant to applicable rules of the Securities and Exchange Commission, as of April 2, 2001, members of the compensation committee are deemed to own beneficially an aggregate of 131,244 shares, or less than 1% of Reunion Industries' outstanding common stock. See "Ownership Information--Security Ownership of Certain Beneficial Owners and Management".

Directors, officers and persons owning more than 10% of the common stock of Reunion Industries are required to furnish Reunion Industries with copies of all such reports. Certain Relationships and Related Transactions

Chatwins Group Merger

At December 31, 1999, Chatwins Group owned 1,450,000 shares, or approximately 37%, of Reunion Industries' common stock. On March 16, 2000, Reunion Industries completed a merger with Chatwins Group. The merger was approved by Reunion Industries' Board of Directors in July 1999 and by its stockholders in December 1999, subject to certain conditions, including the completion of a refinancing that would retire certain debt and provide adequate working capital after the merger. Reunion Industries entered into credit facilities with Bank of America and others simultaneously with the merger.

To complete the merger, Reunion Industries issued 9,499,994 shares of common stock to holders of Chatwins Group's common stock. Cash was paid in lieu of issuing fractional shares. The 1,450,000 shares of Reunion Industries' common stock previously owned by Chatwins Group were retired in the merger. As a result of the merger, the Chatwins Group stockholders owned approximately 79% of Reunion Industries' common stock. The merger agreement also provides that up to an additional 500,000 shares of Reunion Industries common stock will be issued to the former Chatwins Group stockholders if the former Chatwins Group businesses and the acquired Kingway business achieve specified performance levels in 2000. Final determination of the number of shares to be issued will be made by the board of directors at its meeting scheduled on May 15, 2001.

Charles E. Bradley, Sr. was the Chairman and a director of Chatwins Group and the beneficial owner of approximately 47% of the outstanding common stock of Chatwins Group. Kimball J. Bradley was Senior Vice President of Chatwins Group and the beneficial owner of approximately 8% of the outstanding stock of Chatwins Group. John G. Poole was a director of Chatwins Group and the beneficial owner of approximately 15% of the outstanding common stock of Chatwins Group.

Kingway Acquisition

Reunion Industries also acquired Stanwich Acquisition Corp. ("SAC," d/b/a Kingway Material Handling Company, "Kingway") on March 16, 2000. Kingway manufactures gravity flow storage racks and computer-assisted picking systems, primarily for warehouse material handling applications. Mr. C. Bradley, Mr. K. Bradley and Richard L. Evans were officers and directors of Kingway and owned 42.5%, 42.5% and 15%, respectively, of Kingway's common stock. Reunion Industries paid \$100,000 for the Kingway common stock and issued 5,000 shares of Series B 15% preferred stock in exchange for Kingway's 15% preferred stock held by Stanwich Financial Services Corp.

Conversion of Preferred Stock

On June 14, 2000, Reunion Industries' board of directors approved the exchange of its Series A and Series B preferred stocks for 3,245,515 shares of common stock at an exchange price of \$5.00 per share. The closing price of the common stock was \$1.00 on that date. The Series A and Series B preferred stocks were issued in connection with the March 16, 2000 merger with Chatwins Group and acquisition of Kingway, and had an aggregate liquidation value of \$16.2 million.

As a result of the conversion and related transactions, Stanwich Financial Services Corp. received 1,393,750 shares of common stock, KSB Acquisition Corp. received 968,685 shares, Hanna Investment Corporation received 289,450 shares, Mr. Poole received 573,630 shares, and Mr. Evans and another individual received 10,000 shares each. Naptech Acquisition

On January 17, 2001, Reunion Industries acquired the common stock of NPS Acquisition Corp. ("NPSAC") from Mr. C. Bradley for \$10,000. NPSAC was formed by Mr. C. Bradley to acquire and hold

The Transactions and Balances

Stanwich Partners Consulting Agreement--Reunion Industries, and Chatwins Group prior to the merger, have maintained various consulting agreements with Stanwich Partners under which \$300,000 was recorded as expense during 2000. The consulting agreement expires on March 31, 2003 unless terminated by Stanwich Partners with 30 days' notice. Annual payments are permitted on this agreement as long as the Company meets an interest coverage ratio of at least 1.5 to 1 for the prior four full fiscal quarters. All amounts owed to Stanwich Partners from the Company have been paid including \$20,000 prepaid as of December 31, 2000.

Stanwich Partners Sublease--The Company subleases from Stanwich Partners approximately 1,500 square feet of office space in Stamford, Connecticut for administrative purposes. During 2000, the Company paid Stanwich Partners approximately \$33,000 under this sublease. The Company believes that the terms of this sublease are comparable to those available from third parties.

SFSC Revolving Credit Facility--In November 1997, SFSC provided SAC with a revolving credit facility. At the time of the Chatwins Group merger and acquisition of Kingway, SFSC was paid \$1,116,000 including interest under this loan from refinancing proceeds. The Company assumed the remaining balance. During 2000, \$571,000 of interest was paid to SFSC, including \$137,000 by SAC

Edgar Filing: REUNION INDUSTRIES INC - Form DEF 14A

prior to the merger and including \$75,000 prepaid at December 31, 2000. The balance outstanding under this facility at December 31, 2000 was \$2,998,000. This indebtedness is subordinated to Reunion Industries' indebtedness to Bank of America.

SFSC Note--Reunion Industries owes SFSC \$1,017,000 under a note, which bears interest at 11%. This note was assigned to SFSC in September 2000 by Mr. C. Bradley, who acquired it in 1996 from the former owner of a business in connection with Reunion Industries' acquisition of that business. During 2000, Reunion Industries paid interest of \$84,000 to Mr. C. Bradley and \$28,000 to SFSC. This note is subordinated to Reunion Industries' indebtedness to Bank of America.

SFSC Note Receivable--In August 1999, pre-merger Reunion Industries loaned \$310,000 to SFSC. The loan was scheduled to be repaid in December 1999 with interest at 15%. In December 1999, the Company agreed to extend the maturity to March 2000 and loaned an additional \$40,000 to SFSC also with interest at 15% which was repaid in March 2000. The remaining balance including accrued and unpaid interest due from SFSC at December 31, 2000 is \$372,000.

14

SFSC Collateral Fee--At the time of the merger and essential to the closing of the Bank of America refinancing, SFSC provided side collateral in the form of CPS debt and common stock to support the borrowings under the Bank of America credit facility. Under this arrangement, SFSC is to receive a 5% collateral fee for as long as the collateral is in place. Such collateral was in place from the time of the merger and remains in place. During 2000, the Reunion Industries recorded interest expense of \$224,000 related to this arrangement.

Kingway Services Agreement--Similar to Auto-Lok, Chatwins Group's storage rack and materials handling systems business prior to the merger, Kingway produced industrial and commercial storage racks and materials handling systems. In 1997, Kingway and Auto-Lok entered into a services agreement pursuant to which Kingway would utilize Auto-Lok's surplus capacity in exchange for fees approximately equal to Auto-Lok's costs of providing the surplus capacity. The integration of Kingway's business into Auto-Lok's facility took place primarily during the second quarter of 1998. During 2000, in the period prior to the merger and acquisition of Kingway, costs totaling \$1,256,000 were charged to Kingway under this agreement.

NAPTech Services Agreement--In August 1998, CP Industries ("CPI"), the pressure vessel division of pre-merger Chatwins Group, and NPSAC entered into a services agreement pursuant to which CPI would provide certain administrative services to NAPTech for cash fees approximately equal to the cost of providing such services. During 2000, net of non-cash services provided by NPSAC, costs, net of non-cash services provided by NPSAC, totaling \$1,363,000 were charged to NPSAC under this agreement. At December 31, 2000, receivables totaling \$2,356,000 were due from NPSAC.

CPS Leasing, Inc.--Reunion Industries, and Chatwins Group prior to the merger, entered into various operating lease agreements with CPSL. During 2000, lease payments totaling \$866,000 were paid to CPSL. At December 31, 2000, the Company has future minimum rental commitments under noncancellable operating leases with CPSL totaling \$4,023,000.

Butler Air--Reunion Industries, and Chatwins Group prior to the merger, entered into arrangements for flying services with Butler. Butler provides charter flight services for certain business travel by Reunion Industries' officers and employees at rates which the Company believes are comparable to

Edgar Filing: REUNION INDUSTRIES INC - Form DEF 14A

those available from third parties. The Company pays a monthly fee of \$5,000 which was credited against services used.

Cash Surrender Value of Life Insurance Policies--The Company pays the premiums on life insurance policies covering Mr. C. Bradley, Mr. Poole and Mr. Joseph C. Lawyer, the Company's vice chairman and a director. Pursuant to these arrangements, the Company will be reimbursed for the premiums it pays for such policies from either the death benefit of the policies or their cash surrender value. The covered individuals have agreed with the Company that if the policy proceeds are insufficient to reimburse the Company for the full amount of the premiums paid, they will cover the shortfall. As of December 31, 2000, premiums paid by the Company in excess of the cash surrender values of the policies totaled \$1,222,000.

APPENDIX A

AUDIT COMMITTEE CHARTER

One committee of the board of directors will be known as the audit committee. Only independent directors will serve on the audit committee. An independent director is free of any relationship that could influence his or her judgment as a committee member. An independent director may not be associated with a major vendor to, or customer of, the company. When there is some doubt about independence, as when a member of the committee has a short-term consulting contract with a major customer, the director should recuse himself from any decisions that might be influenced by that relationship.

The primary function of the audit committee is to assist the board in fulfilling its oversight responsibilities by reviewing the financial information that will be provided to the stockholders and others, the systems of internal controls management and the board of directors have established, and all audit processes.

General responsibilities

1. The audit committee provides open avenues of communication between the independent accountant and the board of directors.
2. The audit committee must report committee actions to the full board of directors and may make appropriate recommendations.

Edgar Filing: REUNION INDUSTRIES INC - Form DEF 14A

3. The audit committee has the power to conduct or authorize investigations into matters within the committee's scope of responsibilities. The committee is authorized to retain independent counsel, accountants or others it needs to assist it in an investigation.

4. The committee will meet at least four times each year; more frequently as circumstances require. The audit committee chairman has the power to call a committee meeting whenever he or she thinks there is a need. An audit committee member should not vote on any matter in which he or she is not independent. The committee may ask members of management or others to attend the meeting and is authorized to receive all pertinent information from management.

5. The committee will do whatever else the law, the rules of the American Stock Exchange, the company's charter or bylaws or the board of directors require.

Responsibilities for engaging independent accountants

1. The audit committee will select the independent accountants for company audits. The committee's selection is subject to approval by the full board of directors. The audit committee also will review and set any fees paid to the independent accountants and review and approve dismissal of the independent accountants. The independent accountant's ultimate accountability will be to the board of directors and the audit committee, as representatives of the stockholders, and these stockholder representatives will have ultimate authority and responsibility to select, evaluate, and, where appropriate, replace the independent accountant.

2. The audit committee will confirm and assure the independence of the independent accountant, including a review of management consulting services provided by the independent accountant and the fees paid for them. The audit committee will receive from the independent accountants a formal written statement delineating all relationships between such accounting firm and the company, consistent with Independence Standards Board Standard 1, and the audit committee will actively engage in a dialogue with the independent accountant with respect to any disclosed relationships or services that may impact the objectivity and independence of such accounting firm and for taking, or recommending that the full board of directors take, appropriate action to oversee the independence of the independent accountant.

A-1

3. The audit committee will ascertain that the independent accountant views the board of directors as its client, that it will be available to the full board of directors at least annually and that it will provide the committee with a timely analysis of significant financial reporting issues.

4. The audit committee will consider, in consultation with the independent accountant, the audit scope and procedural plans made by the independent accountant.

5. The audit committee will listen to management and the primary independent auditor if either thinks there might be a need to engage additional auditors. The audit committee will decide whether to engage an additional firm, and, if so, which one.

Responsibilities for reviewing the annual external audit and reviewing annual and quarterly financial statements

Edgar Filing: REUNION INDUSTRIES INC - Form DEF 14A

1. The audit committee will ask management and the independent accountant about significant risks and exposures and will assess management's steps to minimize them.

2. The audit committee will review the following with the independent accountant:

1. The adequacy of the company's internal controls, including computerized information system controls and security.
