**3. How did this transaction come about?**

-

Both companies have experienced success and secured strong financial and industry positions. As the industries both companies serve face growing infrastructure requirements and customers increase reliance on outside service providers, demand for infrastructure services continues to grow.

- In evaluating their response to this increasing demand, both Quanta and InfraSource evaluated many options to effectively meet their customers increasing
-

need for infrastructure services. Quanta determined that InfraSource's geographic scope and service offering provided a strong complement to Quanta's capabilities, resources and culture.

- InfraSource also determined that Quanta's scale of resources and geographic reach would provide an excellent platform to extend its service offering.
- After careful consideration and evaluation of the merits of such a combination over the last several months, both companies determined that this transaction would be a unique opportunity for Quanta and InfraSource, as well as its stockholders, employees and customers.

**4. Why is this the right time for this combination?**

- The combined company will have the increased scale and enhanced resources to take advantage of current market dynamics, which include:
  - ; The Energy Policy Act of 2005, which drives increased investment in infrastructure, and therefore, more opportunities for Quanta to partner with customers to address the growing need to enhance North America's power delivery system.
  - ; The increase in outsourcing of infrastructure construction and maintenance functions by utilities.
  - ; The expected double-digit growth rate for the transmission segment of the electric power industry over the next 5-7 years.
  - ; Convergence of services (triple play voice/video/data) has created a growth in demand for bandwidth, spurred significant investment and elevated the need to push fiber closer to the home.
  - ; FTTx initiatives continue to gain momentum as the RBOCs (Regional Bell Operating Companies) implement aggressive deployment schedules
  - ; Companies continue to explore and test new technologies (and increase spending) to meet growing demand for dynamic products and services

**5. How does this transaction impact Quanta's geographic footprint?**

- The combined company will have a broad national footprint, reaching every U.S. state and Canada.

**6. How much is the company expecting to receive in synergies and over what time period?**

- While we anticipate cost synergies as a result of the transaction, the strategy is focused on enhancing our service capabilities, expanding our geographic reach and adding strategic sources of revenues.
- We believe the transaction will result in cost and operational synergies of approximately \$20 million in 2008.
- We expect to identify and realize additional synergies, including increased sales opportunities in 2008 and beyond.

**7. Will the transaction be accretive to Quanta's earnings?**

- We expect the transaction to be accretive to earnings per share in 2008.

**8. How much goodwill will result from this transaction?**

- As we proceed to closing, we will be valuing the goodwill and amortizable intangible assets arising from the transaction. These amounts can not be determined until closing.

**9. Are there any regulatory/legislative hurdles to complete the transaction?**

- We will be required to obtain certain regulatory approvals in connection with the transaction, including from the Securities and Exchange Commission as well as under Hart-Scott-Rodino, which is a routine part of every large acquisition.
- We expect to receive all required regulatory approvals and close the transaction during the third quarter of 2007.

**10. Does the transaction require Quanta stockholder approval? InfraSource stockholder approval?**

- The transaction requires the approval by both Quanta and InfraSource stockholders.

**11. When do you expect the transaction to close?**

- We expect the transaction to close during the third quarter of 2007.

**12. Who will hold senior leadership positions in the company?**

- John Colson will remain CEO of Quanta and James Haddox will remain CFO. Quanta's senior management team and operating unit presidents will also remain in place. Quanta and InfraSource operations, project management leadership and resources will report through this structure.

**13. Will InfraSource's CEO stay with the company? What about other InfraSource senior executives or directors?**

- David Helwig will become a member of Quanta's Board of Directors, as will 2 additional members of InfraSource's Board of Directors and will continue to actively support the business. InfraSource's corporate functions will become integrated with those of Quanta following a transition period. It is anticipated that InfraSource's operating leadership will continue as an integral part of the new organization.

**14. Will InfraSource be operated as a separate division/subsidiary of Quanta?**

- No. InfraSource's operations will be fully integrated into Quanta. It is intended that most of InfraSource's operating units will continue to operate under their existing names as fully integrated operations within the Quanta organization.

**15. How will the workforce be affected by the transaction?**

- Quanta values InfraSource's employees very highly and considers their ongoing contributions to be essential to the success of the combined company.
  - A significant driver of this transaction is the increasing need for expanded workforce resources in the industries we serve.
  - The vast majority of the workforce will not experience any change and will be able to benefit from being part of the larger company.
-

**16. How will customers be affected by the transaction?**

- Customers will benefit from the combined company's larger, more flexible workforce, advanced equipment, innovative technologies and proprietary methodologies which will allow Quanta to provide expanded services to address all infrastructure requirements of our customers.
- The combined company has the ability to provide customers expanded service offerings from design and engineering, to construction and maintenance, to energized services and emergency restoration.

**17. Will this transaction cause any delays in regular or emergency response services?**

- Absolutely not. Customers of both Quanta and InfraSource can expect the same high level of service they've always received. Once combined, Quanta's footprint will be strengthened, enabling the company to respond more effectively in planned and emergency situations.

**18. Who were the advisors on the transaction?**

- Credit Suisse Securities (USA) LLC is acting as financial advisor to Quanta, and Akin Gump Strauss Hauer and Feld, LLP is serving as its legal advisor. Citigroup Corporate and Investment Banking is acting as financial advisor to InfraSource and Ballard Spahr Andrews & Ingersoll, LLP is serving as its legal advisor.
