footnotes on the following page

- (1) The completion of all or any portion of the Offer is not a condition to the closing of the new senior subordinated notes offering or any of the other refinancing transactions. The lenders participating in our new senior credit facilities will require that we place in escrow, upon completion of the new senior subordinated notes offering, all of the net proceeds of the new senior subordinated notes offering and a portion of our borrowings under the term loan of our new senior credit facilities to pay the purchase price for debentures purchased in the Offer and to otherwise purchase or satisfy our repurchase obligations with respect to any untendered debentures. In addition, we may from time to time after the tenth business day after the expiration date of the Offer purchase any debentures not tendered in the Offer. We may acquire these debentures through open market purchases, privately negotiated transactions, tender offers, exchange offers or otherwise, upon such terms and at such prices as we may determine, which may be more or less than the price to be paid pursuant to the Offer and could be for cash or other consideration.
- (2) The completion of all or any portion of the 6.80% notes tender offer is not a condition to the closing of the new senior subordinated notes offering or any of the other refinancing transactions. The amount of the term loan under the new senior credit facilities will be reduced on a dollar-for-dollar basis to the extent any 6.80% notes are not repurchased in the 6.80% notes tender offer. In addition, we may from time to time after the expiration date of the 6.80% notes tender offer purchase any 6.80% notes not tendered in the tender offer. We may acquire these notes through open market purchase, privately negotiated transactions, tender offers, exchange offers or otherwise, upon such terms and at such prices as we may determine, which may be more or less than the price to be paid pursuant to the 6.80% notes tender offer and could be for cash or other consideration.
- (3) Includes restricted cash to be held in escrow to otherwise purchase or satisfy our repurchase obligations with respect to the untendered debentures. See note (1) above.
- (4) We expect to be able to borrow up to \$100.0 million under the revolving credit facilities. The revolving credit facilities will be available to us on a revolving basis during the period commencing on the closing date of the proposed new senior credit facilities and ending on the date that is five years after the closing date. We do not expect to draw down on the revolving credit facilities on the closing date.
- (5) Represents borrowings on our draft facilities linked to depository accounts for certain of our subsidiaries.

Edgar Filing: PERKINELMER INC - Form SC TO-I/A

- (6) The refinancing of our existing revolving credit facilities will result in our expensing of previously capitalized deferred financing costs related to these facilities. The repurchase of both the 6.80% notes and the debentures will also result in a charge to our earnings equal to the unamortized deferred financing costs related to the 6.80% notes and the debentures and other expenses incurred in connection with the repurchases. Both of these charges will be reflected in other expense on our consolidated income statement. We have not reflected any gain or loss that may result from the repurchase of the 6.80% notes or the debentures. Any such gain or loss would also affect retained earnings and our consolidated income statement."
