**ART TECHNOLOGY GROUP, INC.**

(Exact name of registrant as specified in its charter)

**Delaware**

(State or other jurisdiction of incorporation or  
organization)

**04-3141918**

(I.R.S. Employer Identification Number)

**25 First Street, Cambridge, Massachusetts**

(Address of principal executive offices)

**02141**

(Zip Code)

**(617) 386-1000**

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Sections 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check One):

Large accelerated filer  Accelerated filer  Non accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of July 31, 2006 there were 111,796,110 shares of the Registrant's common stock outstanding.

**Table of Contents****ART TECHNOLOGY GROUP, INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(1) Organization, Business and Summary of Significant Accounting Policies**

Art Technology Group, Inc. (ATG or the Company) offers an integrated suite of Internet online marketing, sales and service applications, as well as related application development, integration, hosting and support services. The Company was incorporated in 1991 in the State of Delaware and has been a publicly traded corporation since 1999. ATG delivers software solutions to help consumer-facing organizations create an interactive experience for their customers and partners via the Internet and other channels. The Company's software helps its clients market, sell and provide self-service opportunities to their customers and partners, which can enhance clients' revenues, reduce their costs and improve their customers' satisfaction. The Company also offers related services, including support and maintenance, education, professional services and application hosting services.

***(a) Principles of Consolidation***

The accompanying consolidated financial statements include the accounts of ATG and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

***(b) Use of Estimates***

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

***(c) Revenue Recognition***

ATG earns product license revenues from licensing the rights to use its software to end-users. ATG also generates service revenues from integrating its software with its customers' operating environments, the sale of support and maintenance services, the sale of certain other consulting and development services and hosting services. ATG has separate agreements with its customers that govern the terms and conditions of its software licenses, consulting, hosting and support and maintenance services. These separate agreements, along with ATG's business practices regarding pricing and of selling services separately, provide the basis for establishing vendor-specific objective evidence of fair value. This allows ATG to allocate revenue to the undelivered elements in a multiple element arrangement and apply the residual method under Statement of Position (SOP) No. 97-2 (SOP 97-2), *Software Revenue Recognition* and SOP No. 98-9 (SOP 98-9), *Modification of SOP 97-2, Software Revenue Recognition, with Respect to Certain Transactions*.

ATG recognizes revenue in accordance with SOP 97-2 and SOP 98-9. Revenues from software license agreements are recognized upon execution of a license agreement and delivery of the software, provided that the fee is fixed or determinable and deemed collectible by management. If conditions for acceptance are required subsequent to delivery, revenues are recognized upon customer acceptance if such acceptance is not deemed to be perfunctory. In multiple element arrangements, ATG uses the residual value method in accordance with SOP 97-2 and SOP 98-9. Revenue earned on software arrangements involving multiple elements that qualify for separate element accounting treatment is allocated to each undelivered element using the relative fair values of those elements based on vendor-specific objective evidence with the remaining value assigned to the delivered element, the software license. Many of the Company's software arrangements include consulting implementation services sold separately under consulting engagement contracts. Consulting revenues from these arrangements are generally accounted for separately from software licenses because the arrangements qualify as service transactions as defined in SOP 97-2. The more significant factors considered in determining whether the revenue should be accounted for separately include the nature of services (i.e., consideration of whether the services are essential to the functionality of the licensed product), degree of risk, availability of services from other vendors, timing of payments and impact of milestones or acceptance criteria on the realizability of the software license fee. Consequently, product license revenue is generally recognized when the product is shipped. Revenues from software support and maintenance or application hosting agreements are recognized ratably over the term of the support and maintenance or application hosting period, which for application hosting and support and maintenance is typically one year or two years. The Company accounts for these transactions in accordance with Emerging Issues Task Force (EITF) 00-3, *Application of AICPA Statement of Position 97-2*,

*Software Revenue Recognition, to Arrangements That Include the Right to Use Software Stored on Another Entity's Hardware*, and generally recognizes the product license fee upon delivery of the software license because the Company has established the fair value of vendor-specific objective evidence of hosting services, the customer has the contractual right to take possession of the software at any time during the hosting period without significant penalties, and it is feasible for the customer to run the software on its own hardware or contract with another party to host the software. ATG enters into reseller arrangements that typically provide for sublicense fees payable to ATG based upon a percentage of ATG's list price. Revenues are recognized under reseller agreements based upon actual sales to the resellers. ATG does not grant its resellers the right of return or price protection.

**Table of Contents**

Revenues from professional service arrangements are recognized on either a time-and-materials, proportional performance method or percentage-of-completion basis as the services are performed, provided that amounts due from customers are fixed or determinable and deemed collectible by management. From time to time the Company enters into fixed price service arrangements. In those circumstances in which services are essential to the functionality of the software, the Company applies the percentage-of-completion method, and in those situations when only professional services are provided, the Company applies the proportional performance method. Both of these methods require that the Company track the effort expended and the effort expected to complete a project. Amounts collected or billed prior to satisfying the above revenue recognition criteria are reflected as deferred revenue. Deferred revenue primarily consists of advance payments related to support and maintenance, service agreements and deferred product license revenues.

**(d) Net Income Per Share**

Basic net income per share is computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. Diluted net income per share is computed by dividing net income by the weighted average number of shares of common stock outstanding plus the dilutive effect of common stock equivalents using the treasury stock method. Common stock equivalents consist of stock options. In accordance with SFAS 123R, the assumed proceeds under the treasury stock method include the average unrecognized compensation expense of stock options that are in-the-money. This results in the assumed buyback of additional shares thereby reducing the dilutive impact of stock options.

The following table sets forth the computation of basic and diluted net income per share (in thousands, except for per share amounts):

	Three months ended June		Six months ended June	
	30, 2006	2005	30, 2006	2005
Net income (loss)	\$ 2,275	\$ (327)	\$ 4,916	\$ 1,081
Weighted average common shares outstanding used in computing basic net income per share	111,515	109,218	111,225	108,950
Dilutive employee common stock options	5,646		5,246	1,789
Total weighted average common stock and common stock equivalent shares outstanding used in computing diluted net income per share	117,161	109,218	116,471	110,739
Basic net income (loss) per share	\$ 0.02	\$ (0.00)	\$ 0.04	\$ 0.01
Diluted net income (loss) per share	\$ 0.02	\$ (0.00)	\$ 0.04	\$ 0.01
Anti-dilutive common stock options	3,506	10,529	2,773	9,859

**(e) Cash, Cash Equivalents and Marketable Securities**

ATG accounts for investments in marketable securities under Statement of Financial Accounting Standards (SFAS) No. 115 (SFAS 115), *Accounting for Certain Investments in Debt and Equity Securities*. Under SFAS 115, investments consisting of cash equivalents and marketable securities, for which ATG has the positive intent and the ability to hold to maturity, are reported at amortized cost, which approximates fair market value. Cash equivalents are highly liquid investments with maturities at the date of acquisition of less than 90 days. Marketable securities are investment grade debt securities with maturities at the date of acquisition of greater than 90 days. At June 30, 2006 and December 31, 2005, all of ATG's marketable securities were classified as held-to-maturity. The average maturity of ATG's marketable securities was approximately 3.1 and 3.2 months at June 30, 2006 and December 31, 2005 respectively. At June 30, 2006 and December 31, 2005, the difference between the carrying value and market value of ATG's marketable securities were unrealized losses of approximately \$16,000 and \$18,000, respectively. At June 30, 2006 and December 31, 2005, ATG's cash, cash equivalents and marketable securities consisted of the following (in thousands):

**Table of Contents**

	<b>June 30, 2006</b>	<b>December 31, 2005</b>
Cash and cash equivalents:		
Cash	\$ 18,882	\$ 15,473
Money market accounts	4,656	5,253
U.S. Treasury and U.S. Government Agency securities		1,323
Commercial paper	5,145	2,011
Total cash and cash equivalents	\$ 28,683	\$ 24,060
Marketable securities:		
U.S. Treasury and U.S. Government Agency securities	\$ 398	\$ 389
Certificate of Deposit	874	450
Commercial paper	2,220	2,011
Corporate debt securities	5,230	6,659
Total marketable securities	\$ 8,722	\$ 9,509

**Table of Contents****(f) Income Taxes**

ATG expects to have no Federal and minimal foreign income taxes in 2006 due to its projection of taxable losses in domestic and certain foreign locations in 2006 and the use of net operating loss carry-forwards. Accordingly, no Federal taxes have been recorded for the three and six months ended June 30, 2006. Taxes recorded for the three and six month periods ended June 30, 2005 were for foreign locations. As a result of historical net operating losses incurred, and after evaluating its anticipated performance over its normal planning horizon, the Company has provided for a full valuation allowance for its net operating loss carry-forwards, research credit carry-forwards and other net deferred tax assets. The primary differences between book and tax income that give rise to a tax loss for 2006 are due to the amortization of capitalized research and development expenses and estimated lease restructuring payments, partially offset by SFAS 123R stock compensation expenses.

**(g) Stock Based Compensation**

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued SFAS 123 (revised 2004), *Share-Based Payment* (SFAS 123R). SFAS 123R supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and amends SFAS No. 95, *Statement of Cash Flows*. Generally, the approach in SFAS 123R is similar to the approach described in SFAS 123. However, SFAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values at the date of grant. Pro forma disclosure is no longer an alternative. On January 1, 2006 (the first day of its 2006 fiscal year), the Company adopted SFAS 123R using the modified prospective method as permitted under SFAS 123R. Under this transition method, compensation cost recognized in 2006 includes: (a) compensation cost for all share-based payments granted prior to but not yet vested as of December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123, and (b) compensation cost for all share-based payments granted subsequent to December 31, 2005, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123R. In accordance with the modified prospective method of adoption, the Company's results of operations and financial position for prior periods have not been restated.

**Equity Compensation Plans**

The Company currently grants stock options under the following equity compensation plans:

***1996 Stock Option Plan***

In April 1996, the 1996 Stock Option Plan (the 1996 Plan) was approved by ATG's Board of Directors and stockholders. The purpose of the 1996 Plan is to reward employees, officers and directors and consultants and advisors to ATG who are expected to contribute to the growth and success of ATG. The 1996 Plan provides for the award of options to purchase shares of ATG's common stock. Stock options granted under the 1996 Plan may be either incentive stock options or nonqualified stock options. In 2004, shareholders approved resolutions to amend and restate the 1996 Plan to allow for the grant of restricted stock awards, performance share awards and other forms of equity based compensation that were not previously provided for in the plan and to extend the term of the 1996 Plan to December 31, 2013. The 1996 Plan is administered by the Board of Directors, which has the authority to designate participants, determine the number and type of awards to be granted, the time at which awards are exercisable, the method of payment and any other terms or conditions of the awards. While the Board determines the prices at which options may be exercised under the 1996 Plan, the exercise price of an incentive stock option shall be at least 100% (110% for incentive stock options granted to a 10% stockholder) of the fair market value of ATG's common stock on the date of grant. As of June 30, 2006, there are 25,600,000 shares authorized under the 1996 Plan and 7,192,369 shares available for grant.

***1999 Outside Director Stock Option Plan***

The 1999 Outside Director Stock Option Plan (Director Plan) was adopted by ATG's Board of Directors and approved by stockholders in May 1999. Under the terms of the Director Plan, non-employee directors of ATG receive nonqualified options to purchase shares of ATG's common stock. In 2004, shareholders approved resolutions to amend and restate the Director Plan to allow for the grant of restricted stock awards, performance share awards and other forms of equity based compensation that were not previously provided for in the plan and to extend the term of the Director Plan to December 31, 2013. A total of 800,000 shares of common stock have been reserved under the Director Plan. On April 4, 2006, the Company amended its Non-Employee Director Compensation Plan. The changes

to the plan provide that (i) the vesting of the annual stock option awards to the Company's non-employee directors under the plan change from quarterly vesting over one year to quarterly vesting over two years, with full acceleration of vesting upon a change of control of the Company; and (ii) the amount of the Company's annual restricted stock awards to the Company's non-employee directors under the plan increase from shares of the Company's common stock valued at \$2,500 to shares of the Company's common stock valued at \$4,500.

***Primus Stock Option Plans***

In connection with the acquisition of Primus Knowledge Solutions, Inc. (Primus) in November 2004 the Company assumed certain options issued under the Primus Solutions 1999 Stock Incentive Compensation Plan (the Primus 1999 Plan) and the Primus Solutions 1999 Non-Officer Employee Stock Compensation Plan (Primus 1999 NESC Plan) (together the Primus Stock Option Plans) subject to the same terms and conditions as set forth in the Primus Stock Option Plans, adjusted to give effect to the conversion under the terms of the merger agreement.

**Table of Contents**

All options assumed by the Company pursuant to the Primus Stock Option Plans were fully vested upon the closing of the acquisition and converted to options to acquire ATG common stock. Options granted under the Primus Stock Option Plans typically vested over four years and remain exercisable for a period not to exceed ten years. At June 30, 2006, there were 1,920,000 shares available for grant under the Primus 1999 Plan. No additional options will be granted under the Primus 1999 NESC Plan.

While the Company may grant to employees options that become exercisable at different times or within different periods, the Company has generally granted to employees options that vest and become exercisable in an annual installment of 25% on the first anniversary of the date of grant and then vest and become exercisable in installments of 6.25% per quarter over the next three years. The maximum contractual term of all options is ten years.

***1999 Employee Stock Purchase Plan***

The 1999 Employee Stock Purchase Plan (the Stock Purchase Plan) was adopted by ATG's Board of Directors and approved by stockholders in May 1999. The Stock Purchase Plan, as amended, authorizes the issuance of up to a total of 6,500,000 shares of ATG's common stock to participating employees. All ATG employees, including directors who are employees, are eligible to participate in the Stock Purchase Plan. The purchase price is 85% of the closing market price of ATG's common stock on either: (1) the first business day of the offering period or (2) the last business day of the offering period, whichever is lower. The Stock Purchase Plan offering period is quarterly. As such, the first day of each quarter is the beginning of each offering period and is the grant date for the purposes of recognizing the stock-based compensation expense. Under APB Opinion No. 25, the Company was not required to recognize stock-based compensation expense for the cost of stock options or shares issued under the Company's Stock Purchase Plan. Upon adoption of SFAS 123R, the Company began recording stock-based compensation expense related to the Stock Purchase Plan.

***Grant-Date Fair Value***

The Company uses the Black-Scholes option pricing model to calculate the grant-date fair value of an award. The fair value of options granted during the three and six months ended June 30, 2006 and 2005 were calculated using the following estimated weighted average assumptions:

<b>Stock Options</b>	<b>Six months ended June 30,</b>		<b>Three months ended June 30,</b>	
	<b>2006</b>	<b>2005</b>	<b>2006</b>	<b>2005</b>
Options granted (in thousands)	2,956	3,334	694	521
Weighted-average exercise price	\$ 2.87	\$ 1.22	\$ 2.73	\$ 1.07
Weighted-average grant date fair-value	\$ 2.52	\$ 0.83	\$ 2.38	\$ 0.77
Assumptions:				
Expected volatility	115%	93.5%	11.5%	93.5%
Expected term (in years)	6.25	4	6.25	4
Risk-free interest rate	4.94	3.83%	4.94%	3.83%
Expected dividend yield				

**Expected volatility** The Company has determined that the historical volatility of its common stock is the best indicator of the future volatility of the Company's stock. As such, the Company uses historical volatility to estimate the grant-date fair value of stock options. The historical volatility is calculated for the period that is commensurate with the option's expected term.

**Expected term** In the first and second quarters of fiscal 2006, the Company was unable to use historical employee exercise and option expiration data to estimate the expected term assumption for the Black-Scholes grant-date valuation. The Company has utilized the safe harbor provision in Staff Accounting Bulletin No. 107 to determine the expected term of its stock options. With respect to options granted on or before December 31, 2005, the Company was able to use employee exercise and option expiration data to estimate the expected term assumption for the Black-Scholes grant-date valuation.

**Risk-free interest rate** The yield on zero-coupon U.S. Treasury securities for a period that is commensurate with the expected term is used as the risk-free interest rate.

**Expected dividend yield** The Company's Board of Directors did not declare a dividend for the first or second quarters of 2006 and historically has not declared dividends nor expects to issue dividends. As such, the Company uses a 0% expected dividend yield.

**Table of Contents****Expense**

The Company uses and has historically used the straight-line attribution method to recognize expense for stock options. The amount of stock-based compensation recognized during a period is based on the value of the portion of the awards that are ultimately expected to vest. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term forfeitures is distinct from cancellations or expirations and represents only the unvested portion of the surrendered option. The Company has applied an annual forfeiture rate of 7.5% to all unvested options as of June 30, 2006. This analysis is re-evaluated quarterly and the forfeiture rate is adjusted as necessary. Ultimately, the actual expense recognized over the vesting period will only be for those shares that vest.

The adoption of SFAS 123R on January 1, 2006 had the following impact on the three and six month periods ended June 30, 2006: operating profit before taxes and net income were reduced by \$905,000 and \$1,499,000, respectively, and basic and diluted earnings per share were lower by \$0.01 for both periods than if the Company had continued to account for share based compensation under APB 25

The following table details the effect on net income (loss) and earnings (loss) per share had stock-based compensation expense been recorded for the three and six month periods ended June 30, 2005 based on the fair-value method under SFAS 123, *Accounting for Stock-Based Compensation*. The reported and pro forma net income and earnings per share for the first six months of fiscal 2006 are the same, since stock-based compensation expense was calculated under the provisions of SFAS 123R.

	<b>Three months ended Jun 30, 2005</b>	<b>Six months ended Jun 30, 2005</b>
	in thousands, except per share amounts	
Net income (loss) as reported	\$ (327)	\$ 1,081
Add: Stock-based compensation expense included in reported net income (loss)		
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards	(469)	(1,927)
Pro forma net (loss)	\$ (796)	\$ (846)
Basic and diluted net income (loss) per share-as reported	\$ (0.00)	\$ 0.01
Pro forma	\$ (0.01)	\$ (0.01)

**Option Activity**

A summary of the activity under the Company's stock option plans as of June 30, 2006 and changes during the six-month period then ended, is presented below (in thousands, except per share amounts):

Weighted Average	Weighted Average
---------------------	---------------------

Edgar Filing: ART TECHNOLOGY GROUP INC - Form 10-Q

	Options Outstanding	Exercise Price Per Share	Remaining Contractual Term in Years	Aggregate Intrinsic Value
Options outstanding at December 31, 2005	13,244	\$ 2.33		
Options granted	2,956	\$ 2.87		
Options exercised	(987)	\$ 1.11		
Options forfeited	(474)	\$ 1.40		
Options expired	(232)	\$ 4.44		
Options outstanding at June 30, 2006	14,507	\$ 2.50	7.9	\$ 19,995
Options exercisable at June 30, 2006	7,515	\$ 3.12	7.1	\$ 11,894
Options vested or expected to vest at June 30, 2006	13,787	\$ 2.52	7.9	\$ 19,285

(1) In addition to the vested options, the Company expects a portion of the unvested options to vest at some point in the future. Options expected to vest are calculated by applying an estimated forfeiture rate to the unvested options.

During the six months ended June 30, 2006, the total intrinsic value of options exercised (i.e. the difference between the market price at exercise and the price paid by the employee to exercise the options) was \$1.8 million and the total amount of cash received from exercise of these options was \$2.9.

As of June 30, 2006, there was \$8.7 million of total unrecognized compensation cost related to unvested share-based awards. That cost is expected to be recognized over a weighted-average period of 1.4 years.

**Table of Contents****(h) Comprehensive Income**

SFAS No. 130, *Reporting Comprehensive Income*, requires financial statements to include the reporting of comprehensive income, which includes net income and certain transactions that have generally been reported in the statement of stockholders' equity. Comprehensive income consists of net income and foreign currency translation adjustments.

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
	in thousands		in thousands	
Net income (loss)	\$ 2,275	\$ (327)	\$ 4,916	\$ 1,081
Foreign currency translation adjustment	(104)	34	(108)	87
Comprehensive income (loss)	\$ 2,171	\$ (293)	\$ 4,808	\$ 1,168

**(i) Concentrations of Credit Risk and Major Customers**

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of marketable securities and accounts receivable. ATG maintains cash, cash equivalents and marketable securities with high credit quality financial institutions. To reduce its concentration of credit risk with respect to accounts receivable, the Company routinely assesses the financial strength of its customers through continuing credit evaluations. The Company generally does not require collateral.

At June 30, 2006 there were no customers that had accounted for greater than 10% of accounts receivable. At December 31, 2005 one customer balance, comprising product and service, accounted for 21% of accounts receivable. For the three and six month periods ended June 30, 2006 and 2005 no customers accounted for more than 10% of revenue.

**(2) Disclosures about Segments of an Enterprise**

SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, establishes standards for reporting information regarding operating segments in annual financial statements. SFAS No. 131 also requires related disclosures about products and services and geographic areas. Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision-maker or decision-making group in making decisions on how to allocate resources and assess performance. The Company's chief operating decision-maker is its executive management team. To date, the Company has viewed its operations and manages its business as principally one segment with two product offerings: software licenses and services. The Company evaluates these product offerings based on their respective gross margins. As a result, the financial information disclosed in the consolidated financial statements represents all of the material financial information related to the Company's principal operating segment.

Revenues from sources outside of the United States were approximately \$7.7 million and \$4.3 million for the three months ended June 30, 2006 and June 30, 2005, respectively, and \$12.2 million and \$10.8 million for the six months ended June 30, 2006 and 2005 respectively. ATG's revenues from international sources were primarily generated from customers located in Europe and the UK region. All of ATG's product sales for the six months ended June 30, 2006 and June 30, 2005, were delivered from its headquarters located in the United States.

The following table represents the percentage of total revenues by geographic region for the three and six months ended June 30, 2006 and 2005:

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
United States	70%	78%	75%	76%

Asia Pacific	0%	1%	0%	1%
Other	5%	0%	4%	0%
	100%	100%	100%	100%

**Table of Contents****(3) Credit Facility and Notes Payable*****Credit Facility***

Effective June 13, 2002, ATG entered into a \$15 million revolving line of credit with Silicon Valley Bank (the Bank) which provided for borrowings of up to the lesser of \$15 million or 80% of eligible accounts receivable. Effective December 24, 2002 the revolving line of credit increased to \$20 million. The line of credit is secured by all of the Company's tangible and intangible personal property and is subject to financial covenants including liquidity coverage and profitability.

In February 2006, the Company entered into the Ninth Loan Modification Agreement (the Ninth Amendment) with the Bank, which amended the Amended and Restated Loan and Security Agreement dated as of June 13, 2002. Under the Ninth Amendment, the revolving line of credit was extended to January 31, 2008 and the profitability covenant was revised to require net income of at least \$500,000 for the quarter ending June 30, 2006 and each quarter thereafter. The Company is required to maintain unrestricted and unencumbered cash, which includes cash equivalents and marketable securities, of greater than \$20 million at the end of each month through the duration of the credit facility.

To avoid additional bank fees and expenses, the Company is required to maintain unrestricted cash, which includes cash equivalents and marketable securities, at the Bank in an amount equal to two times the amount of obligations outstanding, which includes letters of credit that have been issued but not drawn upon, under the loan agreement. In the event the Company's cash balances at the Bank fall below this amount, the Company will be required to pay fees and expenses to compensate the Bank for lost income. At June 30, 2006, the Company was in compliance with all related financial covenants. In the event that ATG does not comply with the financial covenants within the line of credit or defaults on any of its provisions, the Bank's significant remedies include: (1) declaring all obligations immediately due and payable, which could include requiring ATG to cash collateralize its outstanding Letters of Credit (LC's); (2) ceasing to advance money or extend credit for the Company's benefit; (3) applying to the obligations any balances and deposits held by the Company or any amount held by the Bank owing to or for the credit or the account of ATG; and, (4) putting a hold on any deposit account held as collateral. If the agreement expires, or is not extended, the Bank will require outstanding LC's at that time to be cash secured on terms acceptable to the Bank. While there were no outstanding borrowings under the facility at June 30, 2006, the Bank had issued LC's totaling \$6.3 million on ATG's behalf, which are supported by this facility. The LC's have been issued in favor of various landlords to secure obligations under ATG's facility leases pursuant to leases expiring through January 2009. The line of credit bears interest at the Bank's prime rate (8% at June 30, 2006). As of June 30, 2006, approximately \$13.7 million was available under the facility.

**(4) Acquisition*****Acquisition of Primus Knowledge Solutions, Inc.***

In connection with the Company's acquisition of Primus Knowledge Solutions, Inc. (Primus) in November 2004, the Company commenced integration activities, which resulted in involuntary terminations and lease and contract terminations. The liability for involuntary termination benefits was for 49 employees, primarily in general and administrative and research and development functions. The following summarizes the obligations recognized in connection with the Primus acquisition and activity to date (in thousands):

	<b>June 30, 2006</b>		
	<b>Involuntary Termination</b>	<b>Facilities Related</b>

Edgar Filing: ART TECHNOLOGY GROUP INC - Form 10-Q

Payments	(891)	(279)	(1,170)
Balance December 31, 2005	327		327
Payments	(327)		(327)
Balance June 30, 2006	\$	\$	\$

Intangible assets are being amortized based on the pattern in which the economic benefits of the intangible assets are being utilized or on a straight-line basis, if greater. Intangible assets consist of the following (in thousands):

13

---

**Table of Contents**

	June 30, 2006			December 31, 2005		
	Gross	Accumulated	Net Book	Gross	Accumulated	Net Book
	Carrying	Amortization		Carrying	Amortization	
Amount	Amount	Value	Amount	Amortization	Value	
Purchased technology	\$ 3,600	\$ (1,664)	\$ 1,936	\$ 3,600	\$ (1,258)	\$ 2,342
Customer relationships	4,200	(2,482)	1,718	4,200	(1,927)	2,273
Non-compete agreements	400	(222)	178	400	(156)	244
Total intangible assets excluding goodwill	\$ 8,200	\$ (4,368)	\$ 3,832	\$ 8,200	\$ (3,341)	\$ 4,859

Amortization expense from intangible assets was \$514,000 and \$1,027,000 for the three and six month periods ended June 30, 2006. As of June 30, 2006, amortization expense on intangible assets for the next four years is as follows (in thousands):

Remainder of 2006	\$ 1,028
2007	1,740
2008	848
2009	216
Total	3,832

**(5) Commitments and Contingencies*****Indemnifications***

The Company frequently has agreed to indemnification provisions in software license agreements with customers and in its real estate leases in the ordinary course of its business.

With respect to software license agreements, these indemnifications generally include provisions indemnifying the customer against losses, expenses, and liabilities from damages that may be awarded against the customer in the event the Company's software is found to infringe upon the intellectual property of others. The software license agreements generally limit the scope of and remedies for such indemnification obligations in a variety of industry-standard respects. The Company relies on a combination of patent, copyright, trademark and trade secret laws and restrictions on disclosure to protect its intellectual property rights. The Company believes such laws and practices, along with its internal development processes and other policies and practices limit its exposure related to the indemnification provisions of the software license agreements. However, in recent years there has been significant litigation in the United States involving patents and other intellectual property rights. Companies providing Internet-related products and services are increasingly bringing and becoming subject to suits alleging infringement of proprietary rights, particularly patent rights. From time to time, the Company's customers have been subject to third party patent claims and the Company has agreed to indemnify such customers from claims to the extent the claims relate to the Company's products.

With respect to real estate lease agreements or settlement agreements with landlords, these indemnifications typically apply to claims asserted against the landlord relating to personal injury and property damage at the leased premises or to certain breaches of the Company's contractual obligations or representations and warranties included in the settlement agreements. These indemnification provisions generally survive the termination of the respective agreements, although the provision generally has the most relevance during the contract term and for a short period of

time thereafter. The maximum potential amount of future payments that the Company could be required to make under these indemnification provisions is unlimited.

In June 2006, the Company renegotiated its lease with the subtenant of its Waltham, MA location. The subtenant had previously contracted directly with the Company's landlord to return the leased facility back to its original condition and had provided a \$1.0 million letter of credit to secure the restorations. As part of the Company's renegotiation with the subtenant, the Company assumed the subtenant's liability to restore the facility to its original condition and received \$1.0 million in proceeds from the subtenant's letter of credit with the Company's landlord. The Company issued a \$1.0 million letter of credit to the Landlord to secure the restoration of the leased facility to its original condition.

New Real Estate Lease

On May 9, 2006, the Company executed a five year, four month real estate lease for its new corporate headquarters in Cambridge, Massachusetts. The real estate lease requires a letter of credit in the amount of \$738,000 which the Company executed under its credit facility as described in Note 3. The minimum annual payments under the real estate lease are as follows:

August 2006	December 2007	\$1,933,000
January 2008	December 2008	\$1,451,000
January 2009	December 2009	\$1,496,000
January 2010	December 2010	\$1,541,000
January 2011	December 2011	\$1,585,000

**(6) Restructuring**

During six month period ended June 30, 2006 and the years ended 2005, 2004, 2003, 2002 and 2001, the Company recorded net restructuring charges/(benefits) of \$0.3 million, \$0.9 million, \$3.6 million, \$(10.5) million, \$19.0 million and \$75.6 million, respectively, primarily as a result of the global slowdown in information technology spending. The significant drop in demand in 2001

**Table of Contents**

for technology oriented products, particularly internet related technologies, caused management to significantly scale back the Company's prior growth plans, resulting in a significant reduction in the Company's workforce and consolidation of the Company's facilities in 2001. Throughout 2002, the continued softness of demand for technology products, as well as near term revenue projections, caused management to further evaluate the Company's marketing, sales and service resource capabilities as well as its overall general and administrative cost structure, which resulted in additional restructuring actions being taken in 2002. These actions resulted in a further reduction in headcount and consolidation of additional facilities. In 2003, as the Company continued to refine its business strategy and to consider future revenue opportunities, the Company took further restructuring actions to reduce costs, including product development costs, to help move the Company towards profitability. In 2004, the Company's restructuring activities were undertaken to align the Company's headcount more closely with management's revenue projections and changing staff requirements as a result of strategic product realignments and the Company's acquisition of Primus, and to eliminate facilities that were not needed to efficiently run the Company's operations. In 2005, the Company restructuring was to align workforce and facilities needs. The additional charges recorded in 2006 relate to adjustments to charges recorded in 2001 and 2003. The charges referred to above primarily pertain to the closure and consolidation of excess facilities, impairment of assets, employee severance benefits, and the settlement of certain contractual obligations. The 2005, 2004 and 2003 charges were recorded in accordance with SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, SFAS No. 88, *Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits* and Staff Accounting Bulletin (SAB) No. 100, *Restructuring and Impairment Charges*. The 2002 and 2001 charges were recorded in accordance with Emerging Issues Task Force Issue No. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (Including Certain Costs Incurred in a Restructuring)*, SFAS 88 and SAB 100.

As of June 30, 2006, the Company had an accrued restructuring liability of \$4.1 million related to facility related costs. The long-term portion of the accrued restructuring liability was \$1.7 million.

A summary of the Company's charges and activity of restructuring accruals is as follows:

**Table of Contents****2001 Actions**

Actions taken by the Company in 2001 included the consolidation and closure of excess facilities, a worldwide workforce reduction, the write-off of certain unrealizable assets and settling certain obligations that had no future benefit. In the second quarter of 2001, the Company recorded a restructuring charge of \$44.2 million, and in the fourth quarter of 2001, the Company recorded a restructuring charge of \$31.4 million. In connection with these actions, the Company also recorded in cost of product licenses an impairment charge for purchased software of \$1.4 million. Total restructuring charges for 2001 totaled \$75.6 million.

***Facilities-Related Costs and Impairments***

During 2001, the Company recorded facilities-related charges of \$59.4 million of which \$38.1 million was recorded in the second quarter and \$21.3 million was recorded in the fourth quarter. The facilities-related charges comprised excess rental space for offices worldwide, net of estimates for vacancy periods and sublease income based on the then-current real estate market data, and related write-offs of abandoned leasehold improvements and fixed assets of \$7.7 million and \$2.2 million, respectively, which were directly related to excess office facilities. During the fourth quarter of 2001, the Company recorded an adjustment to increase the facilities-related costs for a change in estimate of the lease obligations for two leases by \$9.7 million as a result of a market analysis indicating lower sublease rates and longer vacancy periods due to the continued weakening of the real estate market. In addition, the Company reduced its lease accruals by \$8.2 million for a lease settlement in consideration of a buy-out totaling \$9.3 million, which was paid ratably over 4.5 years.

The leasehold improvements, which will continue to be in use, are related to the facilities the Company vacated and is subleasing and were written down to their estimated fair value of zero because the estimated cash flows to be generated by sublease income at those locations are not and will not be sufficient to recover the carrying value of the assets. Furniture and fixtures were written down to their fair value based on the expected discounted cash flows they will generate over their remaining economic life. Because these assets ceased being used as of the end of the period in which the write-downs were recorded, the fair value of these assets was estimated to be zero. The assets were abandoned and disposed of at the time of the charge.

During 2002, the Company recorded an adjustment to increase the facilities-related portion of the 2001 charge by an additional \$2.2 million for changes to sublease and vacancy assumptions due to the continued weakening in the real estate market. In addition, during 2002, the Company executed sublease agreements for two locations and recorded a reduction to its lease accruals of \$853,000 due to favorable sublease terms compared to the Company's original estimates.

During 2003, the Company settled future lease obligations for five leases for aggregate payments of \$17.1 million, resulting in an aggregate reduction to its lease accruals relating to its 2001 restructuring of \$11.5 million, net of sublease and vacancy assumptions. The Company also recorded an additional charge of \$2.8 million for facilities-related costs comprising \$2.3 million for updated management assumptions of probable settlement outcomes based on the then-current negotiations and \$450,000 for updated sublease assumptions based on current real estate market conditions extending the estimated vacancy period.

During 2004, the Company made adjustments in cost estimates related to space vacated in 2001. These adjustments resulted in an increase to the restructuring charge of \$112,000.

During 2005, the Company recorded an adjustment to its estimates of sublease costs related to the 2001 actions, resulting in a credit to the restructuring charge of \$792,000. The change in estimate was primarily due to the Company's continued evaluation of the financial condition of its subtenants and their ability to meet their financial obligations to the Company.

During the second quarter of 2006, the Company recorded a charge of \$509,000 to increase its lease obligation for its Waltham, Massachusetts location as a result of changes in assumptions as to the vacancy period and sublease income resulting from a lease settlement with the current subtenant. Under the terms of the settlement agreement with the subtenant, the Company received approximately \$710,000 in lease cancellation fees, which are included in accrued restructuring at June 30, 2006, resulting in a \$1,219,000 adjustment to the accrual. In addition, the Company assumed the subtenant's obligation to restore the facility back to its original condition. The subtenant had previously executed a \$1.0 million letter of credit with the Company's landlord for the restoration of the facilities back to original condition.

As part of the Company assuming the subtenant's obligation, the Company's landlord drew down the subtenant's letter of credit and remitted the \$1.0 million proceeds to the Company. This amount is recorded in accrued expenses and will be expended in connection with the returning of the facilities back to the original condition. The Company in return had its bank issue a \$1.0 million letter of credit.

***Employee Severance, Benefits and Related Costs and Exchangeable Shares***

As part of the 2001 restructuring actions, the Company recorded charges of \$7.9 million for employee severance. The Company terminated the employment of 530 employees, or 46% of the Company's workforce, of which 249 were from sales and marketing, 117 from services, 101 from general and administrative and 63 from research and development. None of these employees remained employed as of September 30, 2002. In addition, the Company settled 11,762 exchangeable shares with an employee, who was terminated in connection with the restructuring action, and recorded \$1.3 million as a charge to restructuring for this settlement. During 2003, the Company recorded additional charges of \$229,000 for severance related to an employee terminated as part of the 2001 restructuring action. During 2004, the Company reached a final settlement with this employee, resulting in a reduction to the restructuring charge of \$172,000.

**Table of Contents*****Asset Impairments***

The asset impairment charges included the write-off of \$4.0 million of the remaining unamortized goodwill related to the two professional service organizations acquired in 2000. The Company had closed these operations and terminated the employees as part of the 2001 restructuring action, and as a result, the unamortized goodwill was impaired and had no future value. In addition, the Company recorded an impairment charge of approximately \$1.4 million in cost of product license revenues related to purchased software to record the software at its net realizable value of zero due to the Company abandoning a certain product development strategy. The purchased software had no future use to the Company.

***Marketing Costs and Legal and Accounting***

The Company recorded charges of \$851,000 to write off certain prepaid costs for future marketing services to their fair value of zero due to changes in the Company's product development strategy, as a result of which, the prepaid marketing cost had no future utility to the Company. During 2002, the Company unexpectedly was able to recoup \$536,000 and recorded a credit for the amount received. During 2001, the Company also recorded \$405,000 for legal and accounting services incurred in connection with the 2001 restructuring action.

The 2001 actions were substantially completed by February 28, 2002.

***2002 Actions***

Actions taken by the Company in 2002 included the consolidation and closure of excess facilities, a worldwide workforce reduction and the write-off of certain idle assets. In the fourth quarter of 2002, the Company recorded a restructuring charge of \$18.2 million.

***Facilities-Related Costs and Impairments***

During 2002, the Company recorded facilities-related charges of \$14.6 million, which included \$12.0 million for operating lease obligations, net of assumptions for vacancy periods and sublease income based on the then-current real estate market data, related to office space that was either idle or vacated during the first quarter of 2003. This action was completed by January 31, 2003. This charge also included write-offs of leasehold improvements and furniture and fixtures associated with these facilities of \$948,000 and \$507,000, respectively, and computer equipment and software of \$1.2 million. The lease charge was for office space the Company vacated and intends to sublease. The estimated sublease income was \$4.8 million based on then current rental rates and estimated vacancy periods.

As a result of this action and the actions taken in 2001, the Company wrote off certain computer equipment and software, aggregating \$1.2 million, and furniture and fixtures, aggregating \$507,000, which was no longer being used due to the reduction in personnel and office locations. These assets were abandoned and written down to their fair value based on the expected discounted cash flows they would generate over their remaining economic life. Due to the short remaining economic life and current market conditions for such assets, the fair value of these assets was estimated to be zero. These assets ceased being used either as of December 31, 2002 or in the first quarter of 2003 and were disposed of in the quarter ended March 31, 2003. In addition, the Company wrote off leasehold improvements, which will continue to be in use and are related to the facilities it is attempting to sublease, to their fair value of zero because the estimated cash flows to be generated by sublease income at those locations will not be sufficient to recover the carrying value of the assets.

During 2003, the Company recorded an adjustment of \$1.9 million primarily to increase its lease obligation accrual at two locations because of changes in assumptions as to the vacancy period and sublease income. In addition, principally due to a favorable lease settlement relating to its 2002 restructuring activities, the Company reduced its lease obligations by \$7.2 million. The settlement resulted in the Company terminating a future lease obligation for an aggregate payment of \$3.3 million, which was paid in January 2004. As a result of this transaction, the Company recorded prepaid rent of \$2.2 million, increasing the accrual adjustments in 2003 to \$4.1 million.

During 2004, the Company recorded an adjustment to its estimates related to the 2002 actions, resulting in a credit to the restructuring charge of \$242,000.

During 2005, the Company recorded reversals of \$48,000 to reduce accruals primarily due to executing a sublease agreement. Offsetting this reversal, the Company recorded additional charges of \$91,000 due to changes in its sublease assumptions at one location.

**Table of Contents*****Employee Severance, Benefits and Related Costs***

As part of the 2002 restructuring action, the Company recorded a charge of \$3.6 million for severance and benefit costs related to cost reduction actions taken across the worldwide employee base. The severance and benefit costs were for 125 employees, or 23% of the Company's workforce. Of the 125 employees, 53 of the employees were from sales and marketing, 45 from services, 19 from general and administrative and 8 from research and development. The Company accrued employee benefits pursuant to ongoing benefits plans and statutory minimum requirements in foreign locations. The Company began the termination process on January 6, 2003 and all employees had been terminated by June 30, 2003. During the second quarter of 2003, the Company recorded an adjustment to increase the severance accrual by \$327,000 based on final severance settlements with certain employees at its foreign locations. During the fourth quarter of 2003, the Company reduced certain severance accruals by \$86,000, primarily at its foreign locations, due to amounts being settled at less than the amount recorded as a result of foreign currency exchange movements.

**2003 Actions**

As a result of several reorganization decisions, the Company undertook plans to restructure operations in the second and third quarters of 2003. Actions taken by the Company included the closure of excess facilities, a worldwide workforce reduction and the write-off of certain idle assets.

**Second Quarter 2003 Actions**

During the quarter ended June 30, 2003, the Company recorded a restructuring charge of \$2.0 million. The Company also recorded an impairment charge in cost of product licenses of \$169,000 related to certain purchased software.

***Facilities-Related Costs and Impairments***

During the second quarter of 2003, the Company recorded facilities-related charges of \$1.1 million comprising \$866,000 for an operating lease related to idle office space, \$144,000 of leasehold improvements and fixed assets written down to their fair value, and \$61,000 for various office equipment leases. The lease charge was for office space the Company vacated and intends to sublease. The amount of the operating lease charge was based on assumptions from current real estate market data for sublease income rates and vacancy rates at the location. In the fourth quarter of 2003, as result of updated market conditions, the estimated sublet rental rate was lowered and the vacancy period was extended resulting in an additional charge of \$227,000. In accordance with SFAS 146, the Company recorded the present value of the net lease obligation.

As a result of a reduction of employees and closure of an office location, the Company wrote off computer and office equipment to their fair value based on the expected discounted cash flows they would generate over their remaining economic life. Due to the short remaining economic life and current market conditions for such assets, the fair value of these assets was estimated to be zero. These assets ceased being used by June 30, 2003 and were disposed of by September 30, 2003. In addition, the Company wrote off leasehold improvements, which continue to be in use and are related to the facility it is attempting to sublease, to their fair value of zero because the estimated cash flows to be generated from that location will not be sufficient to recover the carrying value of the assets.

During the second quarter of 2006, the Company recorded a reversal of \$186,000 to reduce accruals due to the execution of a sublease agreement.

***Employee Severance, Benefits and Related Costs***

As part of the second quarter 2003 restructuring action, the Company recorded a charge of \$927,000 for severance and benefit costs related to cost reduction actions taken across the worldwide employee base. The severance and benefit costs were for 32 employees, or 7.4% of the Company's workforce, consisting of 11 employees from sales and marketing, 3 from services, 3 from general and administrative and 15 from research and development. The Company accrued employee benefits pursuant to its ongoing benefit plans for domestic locations and under statutory minimum requirements in foreign locations. All employees were notified of their termination as of June 30, 2003. The termination process was completed during the fourth quarter of 2003. During the third quarter of 2003, the Company accrued an additional \$69,000 for employees at its foreign locations based on management's best estimate of the final payments for severance. During the fourth quarter of 2003, the Company reduced certain severance accruals by \$84,000 at its international locations as a result of final settlements.

***Asset Impairments***

The Company recorded a charge in cost of product license revenues of \$169,000 to reduce the carrying value of third-party software embedded into one of its products, which was a minor component of its suite of products, to its net realizable value of \$210,000 based on management's best estimate of future net cash flows to be generated from the sale of the software to customers. The Company discontinued marketing of this software and ceased future development work specifically related to this third-party software. However, the Company has not changed its overall product strategy for the purpose for which the software was acquired.

**Third Quarter 2003 Actions**

During the third quarter of 2003, the Company recorded a restructuring charge of approximately \$771,000.

**Table of Contents*****Facilities-Related Costs and Impairments***

The Company recorded facilities-related charges of \$393,000 comprising \$227,000 for an operating lease related to idle office space and \$166,000 of leasehold improvements and fixed assets written down to their fair value. The lease charge was for office space the Company vacated and intends to sublease. The amount of the operating lease charge was based on assumptions from current real estate market data for sublease income rates and vacancy rates at the location. The estimated sublease income was \$216,000 based on then current rental rates and an estimated vacancy period. During the fourth quarter, as a result of updated market conditions, the Company determined that it was unlikely it would sublet this space before its lease expires, resulting in an additional charge of \$198,000. In accordance with SFAS 146, the Company recorded the present value of the net lease obligation.

As a result of a reduction of employees and the closure of one office location, the Company wrote off computer and office equipment to their fair value based on the expected discounted cash flows they would generate over their remaining economic life. Due to the short remaining economic life and current market conditions for such assets, the fair value of these assets was estimated to be zero. These assets ceased being used prior to September 30, 2003 and were disposed of by December 31, 2003. In addition, the Company wrote down leasehold improvements to their fair value of zero because the estimated cash flows to be generated from that location would not be sufficient to recover the carrying value of the assets.

In the fourth quarter of 2005 the Company recorded an adjustment in estimates of sublease income resulting in additional charges of \$98,000.

***Employee Severance, Benefits and Related Costs***

The Company recorded a charge of \$309,000 for severance and benefit costs related to cost reduction actions taken across the worldwide employee base. The severance and benefit costs were for 16 employees, or 4.3% of the Company's workforce, consisting of 7 employees from sales and marketing, 4 from services and 5 from research and development. The Company accrued employee benefits pursuant to its ongoing benefit plans. All employees were notified of their termination as of September 30, 2003. The termination process was completed during the fourth quarter of 2003. During 2004, the Company made adjustments in cost estimates related to space vacated in 2003 and employee severance estimates related to 2003 actions. These adjustments resulted in a net reduction to the restructuring charge of \$77,000. During 2005, the Company recorded an adjustment to its cost estimates related to the 2003 actions, resulting in a credit to the restructuring charge of \$24,000.

**2004 Actions**

During 2004, the Company recorded a restructuring charge of \$3.6 million, comprised of costs related to new actions of \$3.9 million and net credits resulting from changes in estimates related to prior actions of \$379,000.

***Facilities-Related Costs and Impairments***

During the fourth quarter of 2004, the Company recorded facilities-related charges of \$1.5 million primarily comprised of \$800,000 for an operating lease related to idle office space net of assumptions for vacancy period and sublease income based on the then current real estate market data, \$200,000 of leasehold improvements written down to their fair value and \$500,000 of prepaid rent related to the abandoned space, which was recorded as part of prior lease settlements. The lease charge was for office space the Company vacated before December 31, 2004 and intended to sublease. The estimated sublease income was \$350,000 based on then current rental rates and an estimated vacancy period. In accordance with SFAS 146, the Company recorded the present value of the net lease obligation.

As a result of a reduction of employees and the closure of office space, the Company wrote off \$200,000 of leasehold improvements related to the vacated space to their estimated fair value of zero because the estimated cash flows to be generated from that location will not be sufficient to recover the carrying value of the assets.

During 2005, the Company recorded a net reversal of \$267,000 primarily due to adjusting its estimates of net sublease obligations as a result of executing a sublease agreement.

***Employee Severance, Benefits and Related Costs***

As part of the fourth quarter 2004 restructuring action, the Company recorded a charge of \$2.5 million for severance and benefit costs related to cost reduction actions taken across the worldwide employee base. The severance and benefit costs were for 56 employees, or 14% of the Company's workforce, consisting of 27 employees from sales and marketing, 8 from services, 6 from general and administrative and 15 from research and development. The Company

accrued employee benefits pursuant to its ongoing benefit plans for domestic locations and under statutory minimum requirements in foreign locations. All employees were notified of their termination as of December 31, 2004 which was completed during 2005.

During the first quarter of 2005, the Company recorded a restructuring charge of \$200,000, resulting from adjustments to estimates made in 2004 for employee severance benefits payable in international geographies. Offsetting this charge were reversals of \$190,000 due to final settlements.

**Table of Contents****2005 Actions**

During 2005, the Company recorded net restructuring charges of \$885,000, comprised of costs related to new actions of \$1.8 million and net credits resulting from changes in estimates related to prior actions of \$0.9 million.

**Facilities-Related Costs and Impairments**

During the second quarter of 2005, the Company relocated its San Francisco office and reduced the amount of space it occupies in San Francisco. As a result of this action and other minor facilities charges, the Company recorded facilities-related charges of \$1.8 million primarily comprised of \$1.0 million of deferred rent related to the abandoned space, \$118,000 of leasehold improvements written down to their fair value, and \$557,000 for an operating lease related to idle office space vacated, net of assumptions for sublease income based on an executed sublease agreement. In accordance with SFAS 146, the Company recorded the net present value of the net lease obligation.

**Abandoned Facilities Obligations**

On June 30, 2006, the Company had lease arrangements related to six abandoned facilities. One of these leases is the subject of a lease settlement arrangement under which the Company is obligated to make payments through 2006. The lease agreements with respect to the other five facilities are ongoing. Of these locations, the restructuring accrual for the Waltham, MA location is net of assumed sub-lease income. In the second quarter of 2006 the Company renegotiated its sublease with the existing subtenant of its Waltham, MA facility, such that it is short-term in nature. The Company has made certain assumptions regarding the future sublease income for this facility which are shown in the table below. In addition, during the second quarter of 2006 the Company entered into a sublease agreement for its Reading, UK facility. Previously the Reading, UK facility did not have a sublease and the Company had made certain assumptions regarding its future sublease income. The restructuring accrual for all facilities, excluding the Waltham, MA facility, is either net of the contractual amounts due under an executed sub-lease agreement, or there is no assumed sublease income included in the accrual. All locations for which the Company has recorded restructuring charges have been exited, and thus the Company's plans with respect to these leases have been completed.

A summary of the remaining abandoned facility locations and the timing of the remaining cash payments are as follows (in thousands):

<b>Lease Locations</b>	<b>2006 Remaining</b>	<b>2007</b>	<b>2008</b>	<b>2009</b>	<b>Total</b>
Cambridge, MA	22				22
Cambridge, MA	200				200
Waltham, MA	691	1,384	1,384	346	3,805
Chicago, IL	265				265
San Francisco, CA	252	512			764
Reading, UK	284	561	561	142	1,548
Facility obligations, gross	1,714	2,457	1,945	488	6,604
Contracted and assumed sublet income	(110)	(843)	(843)	(236)	(2,032)
Net cash obligations	\$1,604	\$1,614	\$1,102	\$ 252	\$ 4,572
Assumed sub-lease income	\$ 9	\$ 558	\$ 558	\$ 189	\$ 1,314

**(7) Litigation**

The Company and certain of its former officers have been named as defendants in seven purported class action suits that have been consolidated into one action currently pending in the United States District Court for the District of Massachusetts under the caption *In re Art Technology Group, Inc. Securities Litigation* (Master File No. 01-CV-11731-NG). This case alleges that the Company and certain of its former officers, have violated Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule SEC 10b-5 promulgated thereunder. The case was originally filed in 2001, and a consolidated amended complaint was filed in March 2002. In April 2002, the Company

filed a motion to dismiss the case. On September 4, 2003, the court issued a ruling dismissing all but one of the plaintiffs' allegations. The remaining allegation was based on the veracity of a public statement made by one of the Company's former officers. In August 2004, the Company filed a renewed motion to dismiss and motion for summary judgment as to the remaining allegation, which the court granted in September 2005. The plaintiffs have moved for leave to file a second consolidated amended complaint, which, if allowed, would revive some of the claims previously dismissed by the court. The court has deferred a final order of dismissal of plaintiffs' case to allow it time to consider plaintiffs' motion for leave to file a second consolidated amended complaint. The Company has opposed that motion. Management believes that none of the claims that plaintiffs seek to assert in their second amended complaint have merit, and intends to continue to defend the action vigorously. While the Company cannot predict with certainty the outcome of the litigation, the Company does not expect any material adverse impact to its business, or the results of the Company's operations, from this matter.

**Table of Contents**

The Company's wholly owned subsidiary Primus Knowledge Solutions, Inc., two former officers of Primus, and the underwriters of Primus' initial public offering, have been named as defendants in an action filed in December 2001 in the United States District Court for the Southern District of New York under the caption *In re Primus Knowledge Solutions, Inc. Securities Litigation*, Civil Action 01-Civ.-11201 (SAS) on behalf of a purported class of purchasers of Primus common stock from June 30, 1999 to December 6, 2000, which was issued pursuant to the June 30, 1999 registration statement and prospectus for Primus' initial public offering. The consolidated and amended complaint asserts claims under Sections 11 and 15 of the Securities Act of 1933 and Sections 10(b) (and SEC Rule 10b-5 promulgated thereunder) and 20(a) of the Securities Exchange Act of 1934. This action is one of more than 300 similar actions coordinated for pretrial purposes under the caption *In re Initial Public Offering Securities Litigation*. Civil Action No. 21-MC-92. By action of a special committee of disinterested directors (who were neither defendants in the litigation nor members of Primus' Board of Directors at the time of the actions challenged in the litigation), Primus decided to accept a settlement proposal presented to all issuer defendants. In the settlement, plaintiffs will dismiss and release all claims against Primus and the individual defendants in exchange for a contingent payment by the insurance companies collectively responsible for insuring the issuers in all of the consolidated IPO cases, and for the assignment or release of certain potential claims that the Company may have against the underwriters. The Company will not be required to make any cash payments in the settlement, unless the pro rata amount paid by the insurers in the settlement on our behalf exceeds the amount of the insurance coverage, a circumstance that the Company believes is not likely to occur. A stipulation of settlement of claims against the issuer defendants, including Primus, was submitted to the Court for preliminary approval in June 2004. On August 31, 2005 the Court granted preliminary approval of the settlement. The settlement is subject to a number of conditions, including final Court approval after proposed settlement class members have an opportunity to object or opt out. If the settlement does not occur, and litigation against Primus continues, the Company believes it has meritorious defenses and intends to defend the case vigorously. While the Company cannot predict with certainty the outcome of the litigation or whether the settlement will be approved, the Company does not expect any material adverse impact to our business, or the results of our operations, from this matter.

The Company is also subject to various other claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters is not expected to have a material effect on the Company's business, financial condition or results of operations.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Overview**

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and the related notes contained in Item 1 of this Quarterly Report on Form 10-Q. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of a number of factors, including those referred to in Item 1A, *Risk Factors*. We were incorporated in 1991 in the State of Delaware and have been a publicly traded corporation since 1999. Our corporate headquarters are at 25 First Street, Cambridge, Massachusetts 02141. Our Internet web site address is [www.atg.com](http://www.atg.com). We develop and market an integrated suite of Internet commerce, service and marketing solutions, as well as related services, including support and maintenance, education, application hosting and professional services. We have licensed our products to more than 600 customers.

From 1991 through 1995, we functioned primarily as a professional services organization in the Internet commerce market. In 1996, we began offering Internet commerce and software solutions, initially focusing on infrastructure products such as our ATG Dynamo Application Server. In 2004, we began to offer our clients hosted services as an alternative delivery model for our application solutions. In late 2005, we released our new Wisdom application suite, combining the ATG and Primus products. The Wisdom suite provides integrated commerce, marketing and customer service/support solutions on a common platform. ATG Wisdom represents our strategy for enabling enterprises to create a more relevant and consistent experience for their customers across the Web, e-mail, call center, and mobile channels, and throughout the marketing, commerce, and service lifecycle.

We derive our revenues from the sale of software licenses and related services to consumer-facing organizations. Our software licenses are priced based on either the size of the customer implementation or site license terms. Services revenues are derived from fees for professional services, training, support and maintenance, and application hosting. Professional services include implementation, custom application development and project and technical consulting. We bill professional service fees primarily on a time and materials basis or in limited cases, on a fixed-price schedule defined in our contracts. Support and maintenance arrangements are priced based on the level of services provided. Generally, customers are entitled to receive software updates, maintenance releases as well as on-line and telephone technical support for an annual maintenance fee. Training is billed as services are provided. Revenue from application hosting services is recognized monthly as the services are provided. We market and sell our products worldwide through our direct sales force, systems integrators, technology alliances and original equipment manufacturers. As of June 30, 2006 we had offices in the United States, United Kingdom, France and Northern Ireland with sales personnel in the United

**Table of Contents**

States, United Kingdom and France. Revenues from customers outside the United States accounted for 30% and 22% of our total revenues for the three months ended June 30, 2006 and 2005, and 25% and 24% of our total revenues for the six months ended June 30, 2006 and 2005, respectively.

**Critical Accounting Policies**

This management's discussion of financial condition and results of operations analyzes our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States.

We believe the following critical accounting policies to be both those most important to the portrayal of our financial condition and those that require the most subjective judgment. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its estimates and judgments, including those related to revenue recognition, the allowance for doubtful accounts, research and development costs, restructuring expenses, the impairment of long-lived assets, income taxes, and stock based compensation. Management bases its estimates and judgments on historical experience, known trends or events and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The following represents the only material changes in our accounting policies during the first and second quarters of 2006. For a more detailed explanation of these policies, refer to Management's Discussion and Analysis of Financial Condition and Results of Operations within our Annual Report on Form 10-K for the year ended December 31, 2005, which is on file with the Securities and Exchange Commission, or SEC.

***Stock-Based Compensation Expense***

On January 1, 2006, we adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) 123R, *Share-Based Payment* using the modified-prospective-transition method. Under that transition method, compensation cost recognized in 2006 includes: (a) compensation cost for all stock-based payments granted prior to January 1, 2006, but not yet vested as of January 1, 2006, based on the grant-date fair value estimated in accordance with the original provisions of SFAS No. 123, *Accounting for Stock Based Compensation*, and (b) compensation cost for all stock-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123R. Such amounts have been reduced by our estimate of forfeitures of all unvested awards. Results for prior periods have not been restated.

The fair value of each stock award is estimated on the grant date using the Black-Scholes option-pricing model based on assumptions for volatility, risk-free interest rates, expected term of the option, and dividends (if any). Expected volatility is determined exclusively on historical volatility data of our common stock based on the estimated term of our stock options. The expected term of our stock options is calculated using the safe harbor provisions in SAB 107 because we currently do not have sufficient data in a manageable manner to determine the term of our stock options based on employee exercise and termination patterns. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant commensurate with the expected life assumption.

We are using the straight-line attribution method to recognize stock based compensation expense. The amount of stock-based compensation recognized during a period is based on the value of the portion of the awards that are ultimately expected to vest. SFAS 123R requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term "forfeitures" is distinct from "cancellations" or "expirations" and represents only the unvested portion of the surrendered option. We have applied an annual forfeiture rate of 7.5% to all unvested options as of June 30, 2006. This analysis will be re-evaluated quarterly and the forfeiture rate will be adjusted as necessary. Ultimately, the actual expense recognized over the vesting period will only be for those shares that vest.

**Results of Operations**

The following table sets forth statement of operations data as percentages of total revenues for the periods indicated:

**Table of Contents****Results of Operations**

The following table sets forth statement of operations data as a percentage of total revenue for the periods indicated:

	Three months ended		Six months ended	
	June 30,		June 30,	
	2006	2005	2006	2005
Revenues:				
Product licenses:	36%	26%	35%	30%
Services	64%	74%	65%	70%
Total revenues	100%	100%	100%	100%

The following table sets forth, for the periods indicated, the cost of product license revenues as a percentage of product license revenues and the cost of services revenues as a percentage of service revenues and the related gross margins:

	Three months ended		Six months ended	
	June 30,		June 30,	
	2006	2005	2006	2005
Cost of product license revenues	6%	7%	6%	7%

Gross margin on product license revenues	94%	93%	94%	93%
Cost of services revenues	43%	36%	42%	37%
Gross margin on services revenues	57%	64%	58%	63%

**Three and six months ended June 30, 2006 and 2005***Revenues*

Total revenues increased 25% to \$25.2 million for the three months ended June 30, 2006 from \$20.3 million for the three months ended June 30, 2005. For the six months ended June 30, 2006 total revenues increased 16% to \$49.2 million from \$42.3 million for the six months ended June 30, 2005. These increases are primarily attributable to increases in product license revenue. Revenues generated from international customers increased to \$7.7 million, or 30% of total revenues, for the three months ended June 30, 2006, from \$4.5 million, or 22% of total revenues, for the three months ended June 30, 2005. For the six months ended June 30, 2006 and 2005, revenues generated from international customers increased to \$12.2 million or 25% of total revenues from \$10.2 million or 24% of total revenues, respectively. We expect full year 2006 revenues in the range of \$97 million to \$105 million.

No customer accounted for more than 10% of our total revenues for the three and six months ended June 30, 2006 and 2005.

**Table of Contents***Product License Revenues*

Product license revenues increased 71% to \$9.1 million for the three months ended June 30, 2006 from \$5.3 million for the three months ended June 30, 2005 and increased 36% to \$17.2 million for the six months ended June 30, 2006 from \$12.7 million for the six months ended June 30, 2005. The increase is primarily attributable to increased sales levels of our Commerce products and the implementation of our Wisdom strategy that fully integrates our Service product suite.

Product license revenues generated from international customers increased to \$4.2 million for the three months ended June 30, 2006 from \$1.4 million for the three months ended June 30, 2005. Product license revenues generated from international customers increased to \$5.2 million for the six months ended June 30, 2006 from \$3.3 million for the six months ended June 30, 2005. The increases in international revenues were due primarily to the timing of certain deals. Product license revenues as a percentage of total revenues for the three months ended June 30, 2006 and 2005 were 36% and 26%, respectively, and for the six months ended June 30, 2006 and 2005 were 35% and 30%, respectively. We expect this percentage to be in the range of 32% to 36% in 2006.

Our resellers generally receive a discount from our list prices. The extent of any discount is based on negotiated contractual agreements between us and the reseller. We do not grant our resellers the right of return, price protection or favorable payment terms. We rely upon resellers to market and sell our products to governmental entities and to customers in geographic regions where it is not cost effective for us to reach out to end users directly. We have approximately 15 active resellers. Reseller revenues and the percentage of revenues from resellers can vary significantly from period to period depending on the revenues from large deals, if any, closed through this channel during any period. No resellers accounted for more than 10% of our revenues for the three or six months ended June 30, 2006 and 2005.

The table below sets forth, for the periods indicated, product revenues recognized from reseller arrangements (in thousands):

	Three months ended June		Six months ended June	
	30, 2006	2005	30, 2006	2005
Reseller revenues (thousands)	484	22	895	782
Percentage of product revenues	5%	0%	5%	6%

*Services Revenues*

Services revenues increased 8% to \$16.1 million for the three months ended June 30, 2006 from \$14.9 million for the three months ended June 30, 2005 and increased 8% to \$32.0 million for the six months ended June 30, 2006 from \$29.6 million for the six months ended June 30, 2005. The increase for the three and six months ended June 30, 2006 compared to the same periods in 2005 was attributable to new service revenue, primarily professional services, and support and maintenance, resulting from higher license revenue, combined with an increase in hosting. The nature of our license transactions is such that they typically generate related maintenance, education, and professional service revenues. These related service revenues may be realized both in the quarter the license revenue is recognized and in subsequent quarters. We expect services revenues to be higher in 2006 as compared to 2005, and to decrease slightly as a percentage of total revenues.

Support and maintenance revenues were 61% of total service revenues for the three months ended June 30, 2006, as compared to 65% for the three months ended June 30, 2005, and were 61% of total service revenues for the six months ended June 30, 2006 as compared to 64% for the six months ended June 30, 2005. Support and maintenance revenues, on a dollar value basis, were higher for the three and six months ended June 30, 2006 as compared to the same periods in 2005.

Revenue from hosting services increased 57% to \$1.8 million for the three months ended June 30, 2006 from \$1.1 million for the three months ended June 30, 2005 and increased 41% to \$3.4 million for the six months ended June 30, 2006 from \$2.4 million for the six months ended June 30, 2005. We expect hosting service revenue to become a larger portion of our services revenue as a result of our new OnDemand product offering.

*Cost of Product License Revenues*

Cost of product license revenues includes salary and related benefits costs of fulfillment and engineering staff dedicated to maintenance of products that are in general release, the amortization of licenses purchased in support of and used in our products, royalties paid to vendors whose technology is incorporated into our products and amortization expense related to acquired developed technology.

**Table of Contents**

Cost of product license revenues increased 37% to \$518,000 for the three months ended June 30, 2006 from \$378,000 for the three months ended June 30, 2005 and increased 8% to \$1.0 million for the six months ended June 30, 2006 from \$942,000 for the six months ended June 30, 2005. The increase in the three month period ended June 30, 2006 is primarily related to a \$120,000 increase in third party royalty costs. The increase in the six month period ended June 30, 2006 is primarily related to a \$49,000 increase headcount and related costs, including \$9,000 of SFAS 123R costs, and a \$10,000 increase in travel and entertainment expenses.

For the three and six months ended June 30, 2006 and 2005, cost of product license revenues as a percentage of total revenues was 2%. We anticipate the cost of product license revenues, as a percentage of total revenues, to be between 1% and 3% for 2006.

*Gross Margin on Product License Revenues*

For the three months ended June 30, 2006 and 2005, gross margin on product license revenues was 94%, or \$8.6 million, and 93%, or \$4.9 million, respectively, and for the six months ended June 30, 2006 and 2005, gross margin on product license revenues was 94%, or \$16.2 million, and 93%, or \$11.8 million, respectively.

*Cost of Services Revenues*

Cost of services revenues includes salary and other related costs for our professional services and technical support staff, as well as third-party contractor expenses. Additionally, cost of services revenues includes fees for hosting facilities, bandwidth costs, and equipment and related depreciation costs. Cost of services revenues will vary significantly from period to period depending on the level of professional services staffing, the effective utilization rates of our professional services staff, the mix of services performed, including product license technical support services, the extent to which these services are performed by us or by third-party contractors, the level of third-party contractors fees, and the amount of equipment and hosting space required.

Cost of services revenues increased 29% to \$6.9 million for the three months ended June 30, 2006 from \$5.4 million for the three months ended June 30, 2005, and increased 26% to \$13.6 million for the six months ended June 30, 2006 from \$10.8 million for the six months ended June 30, 2005. The increase in the three months ended June 30, 2006 compared to the same period in 2005 was primarily attributable to an increase of \$702,000 in outside professional services, an increase of \$203,000 in stock compensation expense related to our adoption of SFAS 123R in 2006, a \$179,000 increase in travel and entertainment costs and an increase of \$130,000 in support and maintenance costs. The increase in the six months ended June 30, 2006 compared to the same period in 2005 was primarily attributable to an increase of \$1.5 million in outside professional services, an increase of \$337,000 in stock compensation expense related to our adoption of SFAS 123R in 2006, a \$211,000 increase in bandwidth costs, a \$161,000 increase in travel and entertainment costs and a \$160,000 increase in support and maintenance costs.

For the three months ended June 30, 2006 and 2005, cost of services revenues as a percentage of total revenues was 27% and 26%, respectively, and for the six months ended June 30, 2006 and 2005, cost of services revenues as a percentage of total revenues was 28% and 26%, respectively. We anticipate the cost of services revenues, as a percentage of total revenues, to be between 25% and 30% for 2005.

*Gross Margin on Services Revenues*

For the three months ended June 30, 2006 and 2005, gross margin on services revenues was 57%, or \$9.2 million, and 64%, or \$9.6 million, respectively, and for the six months ended June 30, 2006 and 2005, gross margin on services revenues was 58%, or \$18.4 million, and 63%, or \$18.7 million, respectively. The decrease in gross margin was primarily attributable to the change in service revenue mix, our continued investment in OnDemand services and stock option expenses under SFAS 123R of \$133,000 and \$337,000 in the three and six month periods ended June 30, 2006, respectively. The nature of our OnDemand service requires us to make an upfront fixed investment in both people and capital before we realize economies of scale in our infrastructure. We expect gross margin on services revenues in 2006 to be in the 60% to 64% range.

*Research and Development Expenses*

Research and development expenses consist primarily of salary and related costs to support product development. To date, all software development costs have been expensed as research and development in the period incurred.

Research and development expenses increased 13% to \$5.1 million for the three months ended June 30, 2006 from \$4.5 million for the three months ended June 30, 2005, and increased 9% to \$9.9 million for the six months ended

June 30, 2006 from \$9.1 million for the six months ended June 30, 2005.

Research and development expenses as a percentage of total revenues were 20% and 22% for the three and six months ended June 30, 2006 and 2005, respectively. The increase in the three months ended June 30, 2006 compared to the same period in 2005 was primarily attributable to an increase of \$438,000 in our outside services and professional fees and an increase of \$235,000 in stock compensation expense related to our adoption of SFAS 123R in 2006 partially offset by a \$22,000 decrease in support and maintenance expense. The increase in the six months ended June 30, 2006 compared to the same period in 2005 was primarily attributable to an increase of \$700,000 in our outside services and professional fees and an increase of \$388,000 in stock compensation expense related to our adoption of SFAS 123R in 2006 partially offset by a \$65,000 decrease in support and maintenance expense and a \$43,000 decrease in equipment lease expense.

**Table of Contents***Sales and Marketing Expenses*

Sales and marketing expenses consist primarily of salaries, commissions and other related costs for sales and marketing personnel, travel, public relations and marketing materials and events.

Sales and marketing expenses increased 13% to \$7.9 million for the three months ended June 30, 2006 from \$7.0 million for the three months ended June 30, 2005 and increased 7% to \$14.8 million for the six months ended June 30, 2006 from \$13.8 million for the six months ended June 30, 2005. The increase in the three months ended June 30, 2006 compared to the same period in 2005 was primarily attributable to an increase of \$381,000 in marketing program expenses primarily relate to the April Insight 2006 conference, an increase of \$264,000 in stock compensation expense related to our adoption of SFAS 123R in 2006, a \$261,000 increase in travel and entertainment expenses and a \$163,000 increase in severance costs. The increase in the six months ended June 30, 2006 compared to the same period in 2005 was primarily attributable to \$515,000 in marketing program expenses primarily relate to the April Insight 2006 conference, an increase of \$437,000 in stock compensation expense related to our adoption of SFAS 123R, a \$375,000 increase in bonus and commission expenses, an increase of \$175,000 in recruiting fees and a \$163,000 increase in severance costs.

For the three months ended June 30, 2006 and 2005, sales and marketing expenses as a percentage of total revenues were 31% and 35%, respectively, and for the six months ended June 30, 2006 and 2005, sales and marketing expenses as a percentage of total revenues were 30% and 33%, respectfully. We anticipate that 2006 sales and marketing expenses as a percentage of total revenues will be consistent with the 2005 level. However, sales and marketing expenses can fluctuate as a percentage of total revenues depending on economic conditions, level and timing of global expansion, program spending, the rate at which new sales personnel become productive and the level of revenue.

*General and Administrative Expenses*

General and administrative expenses consist primarily of salaries and other related costs for operations and finance employees and legal and accounting fees.

General and administrative expenses remained flat at \$2.7 million for the three months ended June 30, 2006 and 2005 and decreased 5% to \$5.4 million for the six months ended June 30, 2006 from \$5.7 million for the six months ended June 30, 2005. The decrease over the six month period is primarily due to a \$681,000 reduction in outside professional services fees attributable to the decreased costs of Sarbanes-Oxley compliance and the integration of the Primus acquisition in comparison with the corresponding period in 2005, and a \$225,000 decrease in lease expense resulting from the majority of our equipment leases ending in the fourth quarter of 2005 partially offset by an increase of \$335,000 in stock compensation expense related to our adoption of SFAS 123, a \$164,000 increase in computer supplies and equipment and a \$114,000 increase in recruitment fees.

For the three and six months ended June 30, 2006 and 2005, general and administrative expenses as a percentage of total revenues were 11% and 13%, respectively. We anticipate that general and administrative expenses will decrease slightly, as compared with 2005, as a percentage of revenue.

*Stock-based Compensation Expense*

During the first quarter of fiscal 2006, on January 1, 2006, we adopted Statement of Financial Accounting Standards No. 123R (revised 2004), *Share-Based Payment*, or SFAS 123R, using the modified prospective application method. Compensation cost is calculated on the date of grant using the fair value of the options as determined by the Black-Scholes valuation model. In the three and six month periods ended June 30, 2006, we recognized \$905,000 and \$1,499,000, respectively, of total stock-based compensation expense as a result of the adoption of SFAS 123R. The adoption of SFAS 123R resulted in a lower diluted earnings per share for the three and six month periods ended June 30, 2006 of \$0.01 than if we had continued to account for stock based compensation under APB 25.

Prior to the adoption of SFAS 123R, we accounted for share-based payments to employees using APB Opinion No. 25 s, *Accounting for Stock Issued to Employees*, intrinsic value method and, as such, generally recognized no compensation cost for employee stock options. The adoption of SFAS 123R under the modified prospective application method required us to recognize compensation cost beginning with the effective date (a) based on the requirement of SFAS 123R for all share-based payments granted after the effective date and (b) based on the requirements of SFAS 123 for all awards granted to employees prior to the effective date of SFAS 123R that remain unvested on the effective date. Under the modified prospective application method, prior periods are not restated for

the effect of SFAS 123R. We are using the straight-line attribution method to recognize expense for all grants. As of June 30, 2006, the total compensation cost related to unvested awards not yet recognized in the statement of income was approximately \$8.7 million, which will be recognized over a weighted average period of 1.4 years. See Note (1) (g) to our Condensed Consolidated Financial Statements contained in Item 1 of this Quarterly Report on Form 10-Q for further information regarding our adoption of SFAS 123R.

**Table of Contents***Restructuring*

During each of the last five calendar years we have taken restructuring actions to realign our operating expenses and facilities with the requirements of our business and current market conditions and recorded adjustments to prior restructuring charges. These actions have included closure and consolidation of excess facilities, reductions in the number of our employees, abandonment or disposal of tangible assets and settlement of contractual obligations. In connection with each of these actions we have recorded restructuring charges, based in part upon our estimates of the costs ultimately to be paid for the actions we have taken. When changes or circumstances result in changes in our estimates relating to our accrued restructuring costs, we reflect these changes as additional charges or benefits in the period in which the change of estimate occurs. For detailed information about our restructuring activities and related costs and accruals, see Note 6 to the Condensed Consolidated Financial Statements contained in Item 1 of this Quarterly Report on Form 10-Q.

During the second quarter of 2006, we recorded a net charge of \$323,000 comprised of charge of \$509,000 to increase our lease obligation for our Waltham, Massachusetts location as a result of changes in assumptions as to the vacancy period and sublease income resulting from a lease settlement with the current subtenant offset by a reduction of \$186,000 for a lease accrual at another location due to executing a sublease agreement. Under the terms of the Waltham settlement agreement with the subtenant, we received approximately \$710,000 in lease cancellation fees, which are included in accrued restructuring at June 30, 2006, resulting in a \$1,219,000 total adjustment to the accrual. In addition, we assumed the subtenant's obligation to restore the facility back to its original condition. The subtenant had previously executed a \$1.0 million letter of credit with our landlord for the restoration of the facilities back to original condition. As part of our assuming the subtenant's obligation, our landlord drew down the subtenant's letter of credit and remitted the \$1.0 million proceeds to us. This amount is recorded in accrued expenses and will be expended in connection with the returning of the facilities back to the original condition. In return we had our bank issue a \$1.0 million letter of credit.

During the second quarter of 2006, we recorded a reversal of \$186,000 to reduce accounts for our Reading, UK facility due to the execution of a sublease agreement.

The net impact of our restructuring adjustments for the six months ended June 30, 2006 was \$323,000.

**Abandoned Facilities Obligations**

At June 30, 2006, we had lease arrangements related to six abandoned facilities. One of these leases is the subject of a lease settlement arrangement under which we are obligated to make payments through 2006. The lease agreements with respect to the other five facilities are ongoing. Of these locations, the restructuring accrual for the Waltham, MA location is net of assumed sublease income. In the second quarter of 2006 we renegotiated our sublease with our existing tenant of our Waltham, MA facility such that it is short-term in nature. We have made certain assumptions regarding the future sublease income for this facility which are shown in the table below. In addition, during the second quarter of 2006, we entered into a sublease agreement for our Reading, UK facility. Previously the Reading, UK facility did not have a sublease and we had made certain assumptions regarding the future sublease income for the facility. The restructuring accrual for all facilities, excluding the Waltham, MA facility, is either net of the contractual amounts due under an executed sub-lease agreement, or there is no assumed sub-lease income included in the accrual. All locations for which we have recorded restructuring charges have been exited, and thus our plans with respect to these leases have been completed. A summary of the remaining abandoned facility locations and the timing of the remaining cash payments are as follows (in thousands):

<b>Lease Locations</b>	<b>2006 Remaining</b>	<b>2007</b>	<b>2008</b>	<b>2009</b>	<b>Total</b>
Cambridge, MA	22				22
Cambridge, MA	200				200
Waltham, MA	691	1,384	1,384	346	3,805
Chicago, IL	265				265
San Francisco, CA	252	512			764
Reading, UK	284	561	561	142	1,548

Facility obligations, gross	1,714	2,457	1,945	488	6,604
Contracted and assumed sublet income	(110)	(843)	(843)	(236)	(2,032)
Net cash obligations	\$ 1,604	\$ 1,614	\$ 1,102	\$ 252	\$ 4,572
Assumed sub-lease income	\$ 9	\$ 558	\$ 558	\$ 189	\$ 1,314

*Interest and Other Income (Expense), Net*

Interest and other income (expense), net increased 515% to \$547,000 for the three months ended June 30, 2006 from \$89,000 for the three months ended June 30, 2005 and increased 724% to \$825,000 for the six months ended June 30, 2006 from \$100,000 for the six months ended June 30, 2005. The increase was primarily due to an increase in interest income resulting from our higher average cash balance.

*Provision for Income Taxes*

We expect to have no Federal and minimal foreign income taxes in 2006 due to our projection of taxable losses in domestic and certain foreign locations in 2006 and the use of net operating loss carry-forwards. Accordingly, no taxes have been recorded for the three and six months ended June 30, 2006. Taxes recorded for the three and six months ended June 30, 2005 were for foreign locations. As a result of historical net operating losses incurred, and after evaluating our anticipated performance over our normal planning horizon, we have provided a full valuation allowance for our net operating loss carry-forwards, research credit carry-forwards and other net deferred tax assets. The primary differences between our book and tax income that give rise to a tax loss for 2006 are due to the amortization of capitalized research and development expenses and estimated payments on lease restructuring reserves partially offset by SFAS 123R stock compensation expenses.

**Table of Contents****Liquidity and Capital Resources**

Our capital requirements relate primarily to facilities, employee infrastructure and working capital requirements. Historically, we have funded our cash requirements primarily through the public and private sales of equity securities, and commercial credit facilities. At June 30, 2006, we had \$28.7 million in cash and cash equivalents and \$8.7 million in marketable securities.

Cash provided by operating activities was \$4.6 million for six months ended June 30, 2006. This consisted of net income of \$4.9 million depreciation and amortization of \$2.1 million, amortization of stock compensation expense of \$1.5 million, and a \$709,000 increase to accounts payable, offset by a \$3.1 million increase in accounts receivable, a \$1.0 million decrease in accrued restructuring, a \$1.0 million decrease in prepaid expenses, and a \$961,000 decrease in accrued liabilities. In the second quarter of 2006, we renegotiated the sublease with the subtenant of our Waltham, MA location, whereby we received a \$710,000 lease termination payment and \$1.0 million in proceeds from the subtenant's letter of credit with the landlord. These amounts are shown in the change in accrued restructuring and accrued expenses, respectively.

Cash used in operating activities was \$1.6 million for the six months ended June 30, 2005. This consisted of net income of \$1.1 million, depreciation and amortization of \$2.1 million, a non-cash restructuring charge of \$1.2 million and a decrease in accounts receivable of \$5.2 million, offset by a decrease in accrued restructuring of \$4.1 million. Other changes in working capital items consisted primarily of \$1.4 million in cash used for accrued expenses, an increase in prepaid expenses of \$1.3 million, a decrease in accounts payable of \$1.3 million, and a decrease in deferred revenues of \$3.5 million.

We expect that capital expenditures will total approximately \$6.0 million for the year ending December 31, 2006. Our investing activities for the six months ended June 30, 2006 used cash of \$1.1 million and consisted primarily of capital expenditures of \$1.7 million offset by net proceeds from maturity of marketable securities of \$787,000.

Our investing activities for the six months ended June 30, 2005 used cash of \$1.5 million and consisted primarily of payment of acquisition costs of \$1.0 million, capital expenditures of \$271,000, and net proceeds from maturity of marketable securities of \$418,000, offset by a decrease in other assets of \$241,000.

Net cash provided by financing activities was \$1.1 million for the six months ended June 30, 2006, consisted primarily of \$1.1 million proceeds from exercised stock options offset by principal payments on notes payable and capital leases.

Net cash provided by financing activities was \$688,000 for the six months ended June 30, 2005, representing proceeds from the employee stock purchase plan and the exercise of stock options aggregating \$1.1 million, offset by principal payments on notes payable of \$360,000 and payments on capital leases of \$28,000.

*Accounts Receivable and Days Sales Outstanding*

Our accounts receivable balance and days sales outstanding, or DSO, as of June 30, 2006 and December 31, 2005 were as follows:

	<b>2006</b>	<b>2005</b>
DSO	88	86
Revenue	49,185	90,646
Accounts Receivable (excluding unbilled accounts receivable and non-trade receivables)	24,186	21,459

As of June 30, 2006 our DSO has increased from December 31, 2005 mainly due to the timing of our product sales, including related support and maintenance services, and the renewal of annual support and maintenance contracts within the second quarter of 2006. In the second quarter of 2006, our product sales and annual support and maintenance renewals were more heavily weighted to the end of the quarter than was experienced in prior quarters which resulted in the related accounts receivable not being due within the quarter.

*Credit Facility*

We have an existing \$20 million revolving line of credit with Silicon Valley Bank (the Bank). The line of credit is secured by all of our tangible and intangible personal property and is subject to financial covenants including liquidity coverage and profitability.

The revolving line of credit will expire on January 31, 2008. The profitability covenant requires net income of at least \$500,000 for the quarter ending June 30, 2006 and each quarter thereafter. We are required to maintain unrestricted and unencumbered cash, which includes cash equivalents and marketable securities, of greater than \$20 million at the end of each month through the duration of the credit facility.

**Table of Contents**

To avoid additional bank fees and expenses, we are required to maintain unrestricted cash, which includes cash equivalents and marketable securities, at the Bank in an amount equal to two times the amount of obligations outstanding, which includes letters of credit that have been issued but not drawn upon, under the loan agreement. In the event our cash balances at the Bank fall below this amount, we will be required to pay fees and expenses to compensate the Bank for lost income. At June 30, 2006, we were in compliance with all related financial covenants. In the event that we do not comply with the financial covenants within the line of credit or defaults on any of its provisions, the Bank's significant remedies include: (1) declaring all obligations immediately due and payable, which could include requiring us to cash collateralize its outstanding Letters of Credit (LC's); (2) ceasing to advance money or extend credit for our benefit; (3) applying to the obligations any balances and deposits held by us or any amount held by the Bank owing to or for the credit or our account and, (4) putting a hold on any deposit account held as collateral. If the agreement expires, or is not extended, the Bank will require outstanding LC's at that time to be cash secured on terms acceptable to the Bank.

While there were no outstanding borrowings under the facility at June 30, 2006, the Bank had issued LC's totaling \$6.3 million on our behalf, which are supported by this facility. The LC's have been issued in favor of various landlords to secure obligations under our facility leases pursuant to leases expiring through December 2011 (New Headquarters Lease). The line of credit bears interest at the Bank's prime rate (8% at June 30, 2006). As of June 30, 2006, approximately \$13.7 million was available under the facility.

**Contractual Obligations**

On June 30, 2006, our contractual cash obligations, which consist of operating and capital leases, were as follows (in thousands):

<b>Contractual Obligations</b>	<b>Total</b>	<b>1 year</b>	<b>2-3 years</b>	<b>4-5 years</b>	<b>After 5 Years</b>
Lease Commitments	\$16,036	\$4,996	\$7,907	\$3,134	\$0

We believe that our balance of \$37.4 million in cash and cash equivalents and marketable securities at June 30, 2006, along with other working capital and cash expected to be generated by our operations will allow us to meet our liquidity needs over the next twelve months. However, our actual cash requirements will depend on many factors, including particularly, overall economic conditions both domestically and abroad. We may seek additional external funds through public or private securities offerings, strategic alliances or other financing sources. There can be no assurance that if we seek external funding, it will be available on favorable terms, if at all.

**FACTORS THAT MAY AFFECT RESULTS**

This quarterly report contains forward-looking statements, including statements about our growth and future operating results. For this purpose, any statement that is not a statement of historical fact should be considered a forward-looking statement. We often use the words believes, anticipates, plans, expects, intends and similar expressions to help identify forward-looking statements. There are a number of important factors that could cause our actual results to differ materially from those indicated or implied by forward-looking statements. Factors that could cause or contribute to such differences include those referred to under heading Risk Factors, as well as those discussed elsewhere in this quarterly report.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We maintain an investment portfolio consisting mainly of investment grade money market funds, corporate obligations and government obligations with a weighted average maturity of less than one year. These held-to-maturity securities are subject to interest rate risk. However, a 10% change in interest rates would not have a material impact to the fair values of these securities primarily due to their short maturity and our intent to hold the securities to maturity. There have been no significant changes to the fair values of these securities since June 30, 2006. The majority of our operations are based in the U.S., and accordingly, the majority of our transactions are denominated in U.S. dollars. However, we have foreign-based operations where transactions are denominated in foreign currencies and are subject to market risk with respect to fluctuations in the relative value of currencies. Our

primary foreign currency exposures relate to our short-term intercompany balances with our foreign subsidiaries. The primary foreign subsidiaries have functional currencies denominated in the British pound and Euro that are remeasured at each reporting period with any exchange gains and losses recorded in our consolidated statements of operations. Based on currency exposures existing at June 30, 2006 a 10% movement in foreign exchange rates would not expose us to significant gains or losses in earnings or cash flows. We may use derivative instruments to manage the risk of exchange rate fluctuations, however, at June 30, 2006 we held no outstanding derivative instruments. We do not use derivative instruments for trading or speculative purposes.

**Table of Contents****Item 4. Controls and Procedures**

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of June 30, 2006. Based on this evaluation, our chief executive officer and chief financial officer concluded that, as of June 30, 2006, our disclosure controls and procedures were (1) designed to ensure that material information relating to our company, including our consolidated subsidiaries, is made known to our chief executive officer and chief financial officer by others within those entities particularly during the period in which this report was being prepared and (2) effective, in that they provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the control system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events and the application of judgment in evaluating the cost-benefit relationship of possible controls and procedures. Because of these and other inherent limitations of control systems, there is only reasonable assurance that our controls will succeed in achieving their goals under all potential future conditions.

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter ended June 30, 2006 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

We and certain of our former officers have been named as defendants in seven purported class action suits that have been consolidated into one action currently pending in the United States District Court for the District of Massachusetts under the caption *In re Art Technology Group, Inc. Securities Litigation* (Master File No. 01-CV-11731-NG). This case alleges that we, and certain of our former officers, have violated Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule SEC 10b-5 promulgated thereunder. The case was originally filed in 2001, and a consolidated amended complaint was filed in March 2002. In April 2002, we filed a motion to dismiss the case. On September 4, 2003, the court issued a ruling dismissing all but one of the plaintiffs' allegations. The remaining allegation was based on the veracity of a public statement made by one of our former officers. In August 2004, we filed a renewed motion to dismiss and motion for summary judgment as to the remaining allegation, which the court granted in September 2005. The plaintiffs have moved for leave to file a second consolidated amended complaint, which, if allowed, would revive some of the claims previously dismissed by the court. The court has deferred a final order of dismissal of plaintiffs' case to allow it time to consider plaintiffs' motion for leave to file a second consolidated amended complaint. We have opposed that motion. Management believes that none of the claims that plaintiffs seek to assert in their second amended complaint has merit, and intends to continue to defend the action vigorously. While we cannot predict with certainty the outcome of the litigation, we do not expect any material adverse impact to our business, or the results of our operations, from this matter.

Our wholly owned subsidiary Primus Knowledge Solutions, Inc., two former officers of Primus, and the underwriters of Primus' initial public offering, have been named as defendants in an action filed in December 2001 in the United States District Court for the Southern District of New York under the caption *In re Primus Knowledge Solutions, Inc. Securities Litigation*, Civil Action 01-Civ.-11201 (SAS) on behalf of a purported class of purchasers of Primus common stock from June 30, 1999 to December 6, 2000, which was issued pursuant to the June 30, 1999 registration statement and prospectus for Primus' initial public offering. The consolidated and amended complaint asserts claims under Sections 11 and 15 of the Securities Act of 1933 and Sections 10(b) (and SEC Rule 10b-5 promulgated thereunder) and 20(a) of the Securities Exchange Act of 1934. This action is one of more than 300 similar actions coordinated for pretrial purposes under the caption *In re Initial Public Offering Securities Litigation*, Civil Action No. 21-MC-92. By action of a special committee of disinterested directors (who were neither defendants in the litigation nor members of Primus' Board of Directors at the time of the actions challenged in the litigation), Primus

decided to accept a settlement proposal presented to all issuer defendants. In the settlement, plaintiffs will dismiss and release all claims against Primus and the individual defendants in exchange for a contingent payment by the insurance companies collectively responsible for insuring the issuers in all of the consolidated IPO cases, and for the assignment or release of certain potential claims that we may have against the underwriters. We will not be required to make any cash payments in the settlement, unless the pro rata amount paid by the insurers in the settlement on our behalf exceeds the amount of the insurance coverage, a circumstance that we believe is not likely to occur. A stipulation of settlement of claims against the issuer defendants, including Primus, was submitted to the Court for preliminary approval in June 2004. On August 31, 2005, the Court granted preliminary approval of the settlement. The settlement is subject to a number of conditions, including final Court approval after proposed settlement class members have an opportunity to object or opt out. If the settlement does not occur, and litigation against Primus continues, we believe we have meritorious defenses and intend to defend the case vigorously. While we cannot predict with certainty the outcome of the litigation or whether the settlement will be approved, we do not expect any material adverse impact to our business, or the results of our operations, from this matter.

We are also subject to various other claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters is not expected to have a material effect on our business, financial condition or results of operations.

**Table of Contents**

**Item 1A. Risk Factors**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2005, which could materially affect our business, financial condition or future results. To the best of our knowledge, as of the date of this report there has been no material change in any of the risk factors described in our Annual Report on Form 10-K.

**Item 2. Changes in Securities and Use of Proceeds**

None.

**Item 3. Defaults Upon Senior Securities**

None.

**Item 4. Submission of Matters to a Vote of Security Holders**

None.

**Item 5. Other Information**

None.

**Item 6. Exhibits**

**Exhibits**

3.1 Amended and Restated Certificate of Incorporation (incorporated by reference to Exhibit 4.1 to our Registration Statement on Form S-8 dated June 12, 2003).

3.2 Amended and Restated By-Laws (incorporated by reference to Exhibit 4.2 to our Registration Statement on Form S-3 dated July 6, 2001).

4.1 Rights Agreement dated September 26, 2001 with EquiServe Trust Company, N.A. (incorporated by reference to Exhibit 4.1 to our Current Report on Form 8-K dated October 2, 2001).

10.1 Lease agreement dated May 6, 2006 with RREEF America REIT Corp. PPP (incorporated by reference to Exhibit 10.33 to our quarterly report on Form 10-Q for the fiscal quarter ended March 31, 2006, filed on May 10, 2006).

10.2 2006 Executive Management Compensation Plan as amended (incorporated by reference to Exhibit 99.1 to our current report on Form 8-K dated June 16, 2006 and filed on June 19, 2006).\*

10.3 1999 Employee Stock Purchase Plan, as amended (incorporated by reference to Annex A to our definitive proxy statement filed on April 10, 2006).\*

10.4 Non-Employee Director Compensation Plan, as amended (incorporated by reference to Exhibit 10.34 to our quarterly report on Form 10-Q for the fiscal quarter ended March 31, 2006, filed on May 10, 2006).\*

31.1 Certifications of Principal Executive Officer Pursuant to Exchange Act Rules 13a-14 and 15d-14, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certifications of Principal Financial and Accounting Officer Pursuant to Exchange Act Rules 13a-14 and 15d-14, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certifications of Principal Executive Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certifications of Principal Financial and Accounting Officer Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

\* Management contract or compensatory plan.
