Process Control	Flat	5 to 0	+5
Industrial Automation	Flat	0 to +5	+5 to +10

Appliance and Tools	0 to +5	0 to +5	0 to +5
Total Emerson	0 to +5	0 to +5	+5 to +10

January'03 Order Comments:

January orders were impacted by favorable currency and reflect strength in the consumer businesses, offset by weaknesses in the telecommunications and industrial capital markets. Underlying trends are still in the +2% to -2% range. North America and Europe continue to be weak from the impact of the potential war uncertainty and lower capital spending levels. The currency impact is approximately 3% to 5% on most segments and in total, but approximately 8% in process.

Process orders were driven by strength in the systems and solutions businesses. Short-cycle orders continue to be sluggish.

Industrial Automation orders reflect stability in the industrial goods markets.

Electronics and Telecommunications order activity in the OEM businesses continues to remain positive, offset by weakness in the telecommunications market.

HVAC orders are benefiting from the good North America housing market and order strength in Asia.

Appliance and Tools orders were impacted by increases in the consumer housing and commercial storage related businesses. The industrial businesses remain weak.
