#### CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Amount to be Registered(1)	Proposed Maximum Offering Price per Unit(2)	Proposed Maximum Aggregate Offering Price(3)	Amount of Registration Fee
Common shares, par value \$0.125 per share	69,750,813	Not applicable	\$4,737,654,626	\$186,190

(1) The maximum number of common shares of Cleveland-Cliffs Inc that may be registered is based on the maximum number of shares issuable immediately upon consummation of the merger described in this joint proxy statement/prospectus.

(2) Not included pursuant to Rule 457(o).

(3) Based upon the average of the high and low prices in the consolidated reporting system of the common stock, par value \$0.01 per share, of Alpha Natural Resources, Inc. on the New York Stock Exchange on August 11, 2008,

multiplied by the maximum number of shares of common stock of Alpha Natural Resources, Inc. presently outstanding or issuable or expected to be issued in connection with the consummation of the merger described in this joint proxy statement/prospectus (73,341,660 shares), less \$1,630,385,102, which is the total cash consideration expected to be paid by Cleveland-Cliffs Inc for the outstanding common stock of Alpha Natural Resources, Inc. upon consummation of the merger described in this joint proxy statement/prospectus, in accordance with Rules 457(c) and (f), and estimated solely for the purpose of determining the amount of the registration fee pursuant to Rule 457.

**The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.**

**Table of Contents**

The information in this joint proxy statement/prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This joint proxy statement/prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

**PRELIMINARY COPY**

**SUBJECT TO COMPLETION, DATED AUGUST 12, 2008**

**TO THE SHAREHOLDERS OF  
CLEVELAND-CLIFFS INC AND  
ALPHA NATURAL RESOURCES, INC.**

Cleveland-Cliffs Inc, which is referred to as Cleveland-Cliffs, and Alpha Natural Resources, Inc., which is referred to as Alpha, have entered into an agreement and plan of merger pursuant to which Alpha Merger Sub, Inc., a wholly-owned subsidiary of Cleveland-Cliffs, which is referred to as merger sub, will merge with and into Alpha, or, under certain circumstances, as described in Annex G, merger sub will be converted from a Delaware corporation to a Delaware limited liability company, Alpha Merger Sub, LLC, and Alpha will merge with and into Alpha Merger Sub, LLC. Upon successful completion of the merger, Alpha stockholders will be entitled to receive a combination of cash and Cleveland-Cliffs common shares in exchange for their shares of Alpha common stock. Pursuant to the merger, each share of Alpha common stock (other than shares of Alpha common stock held by any dissenting Alpha stockholder that has properly exercised appraisal rights in accordance with Delaware law, held in treasury by Alpha or owned by Cleveland-Cliffs) will be converted into the right to receive 0.95 of a common share of Cleveland-Cliffs and \$22.23 in cash, without interest. Upon completion of the merger, we estimate that Alpha's former stockholders will own approximately 39% of the then-outstanding common shares of Cleveland-Cliffs, based on the number of shares of Alpha common stock and Cleveland-Cliffs common shares outstanding on \_\_\_\_\_, 2008. Cleveland-Cliffs shareholders will continue to own their existing shares, which will not be affected by the merger. Common shares of Cleveland-Cliffs are listed on the New York Stock Exchange under the symbol CLF. Upon completion of the merger, Alpha common stock, which is listed on the New York Stock Exchange under the symbol ANR, will be delisted. When the merger is completed, Cleveland-Cliffs will change its name to Cliffs Natural Resources Inc. and its common shares will continue to be listed on the New York Stock Exchange.

We expect the merger to be nontaxable for federal income tax purposes for Alpha stockholders and Cleveland-Cliffs shareholders, except for the receipt by Alpha stockholders of cash in exchange for their Alpha common stock or cash instead of fractional common shares of Cleveland-Cliffs.

We are each holding our special meeting of shareholders in order to obtain those approvals necessary to consummate the merger. At the Cleveland-Cliffs special meeting, Cleveland-Cliffs will ask its shareholders to adopt the merger agreement and approve the issuance of common shares of Cleveland-Cliffs in connection with the merger. At the Alpha special meeting, Alpha will ask its stockholders to adopt the merger agreement. The obligations of Cleveland-Cliffs and Alpha to complete the merger are also subject to the satisfaction or waiver of several other conditions to the merger, including antitrust clearance. More information about Cleveland-Cliffs, Alpha and the proposed merger is contained in this joint proxy statement/prospectus. **We urge you to read this joint proxy statement/prospectus, and the documents incorporated by reference into this joint proxy statement/prospectus, carefully and in their entirety, in particular, see Risk Factors beginning on page 27.**

After careful consideration, each of our boards of directors has approved the merger agreement and has determined that the merger agreement and the merger are advisable and in the best interests of the shareholders of Cleveland-Cliffs and stockholders of Alpha, respectively. **Accordingly, the Alpha board of directors recommends that the Alpha stockholders vote for the adoption of the merger agreement. The Cleveland-Cliffs board of directors recommends that the Cleveland-Cliffs shareholders vote for the adoption of the merger agreement and the issuance of Cleveland-Cliffs common shares to be issued in connection with the merger.**

We are very excited about the opportunities the proposed merger brings to both Alpha stockholders and Cleveland-Cliffs shareholders, and we thank you for your consideration and continued support.

Joseph A. Carrabba  
Chairman, President and Chief Executive Officer  
Cleveland-Cliffs Inc

Michael J. Quillen  
Chairman and Chief Executive Officer  
Alpha Natural Resources, Inc.

**Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this joint proxy statement/prospectus. Any representation to the contrary is a criminal offense.**

This joint proxy statement/prospectus is dated \_\_\_\_\_, 2008, and is first being mailed to Alpha stockholders and Cleveland-Cliffs shareholders on or about \_\_\_\_\_, 2008.

**NOTICE OF SPECIAL MEETING OF STOCKHOLDERS  
TO BE HELD ON \_\_\_\_\_, 2008**

To our fellow Stockholders of Alpha Natural Resources, Inc.:

We will hold our special meeting of stockholders at \_\_\_\_\_, on \_\_\_\_\_, 2008, at \_\_\_\_\_, unless adjourned to a later date. This special meeting will be held for the following purposes:

1. To adopt the Agreement and Plan of Merger, dated as of July 15, 2008, as it may be amended from time to time, by and among Cleveland-Cliffs Inc, Alpha Merger Sub, Inc., a wholly-owned subsidiary of Cleveland-Cliffs Inc, and Alpha Natural Resources, Inc., pursuant to which Alpha Merger Sub, Inc. will merge with and into Alpha Natural Resources, Inc., or, under certain circumstances, as described in Annex G, Alpha Merger Sub, Inc. will be converted from a Delaware corporation to a Delaware limited liability company, Alpha Merger Sub, LLC, and Alpha Natural Resources, Inc. will merge with and into Alpha Merger Sub, LLC, on the terms and subject to the conditions contained in the merger agreement, and each outstanding share of common stock of Alpha Natural Resources, Inc. (other than shares held by any of its dissenting stockholders that have properly exercised appraisal rights in accordance with Delaware law, held in its treasury or owned by Cleveland-Cliffs Inc) will be converted into the right to receive \$22.23 in cash, without interest, and 0.95 of a common share of Cleveland-Cliffs Inc. A copy of the merger agreement is attached as Annex A to the accompanying joint proxy statement/prospectus; and
2. To approve adjournments of the Alpha Natural Resources, Inc. special meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the Alpha Natural Resources, Inc. special meeting to approve the above proposal.

These items of business are described in the accompanying joint proxy statement/prospectus. Only stockholders of record at the close of business on \_\_\_\_\_, 2008, are entitled to notice of the Alpha Natural Resources, Inc. special meeting and to vote at the Alpha Natural Resources, Inc. special meeting and any adjournments of the Alpha Natural Resources, Inc. special meeting.

**Alpha Natural Resources, Inc. s board of directors has approved the merger agreement and the transactions contemplated by the merger agreement, including the merger, and has determined that the merger agreement and the transactions contemplated by the merger agreement are advisable and fair to, and in the best interests of, Alpha Natural Resources, Inc. and its stockholders. Alpha Natural Resources, Inc. s board of directors recommends that you vote for the adoption of the merger agreement.**

Under Delaware law, appraisal rights will be available to Alpha Natural Resources, Inc. stockholders of record who do not vote in favor of the adoption of the merger agreement. To exercise your appraisal rights, you must strictly follow the procedures prescribed by Delaware law, submit a timely written demand for appraisal prior to the vote on the adoption of the merger agreement and otherwise comply with the requirements for exercising appraisal rights. These procedures are summarized in the accompanying joint proxy statement/prospectus.

*Your vote is very important.* Whether or not you plan to attend the Alpha Natural Resources, Inc. special meeting in person, please complete, sign and date the enclosed proxy card(s) as soon as possible and return it in the postage-prepaid envelope provided, or vote your shares by telephone or over the Internet as described in the

accompanying joint proxy statement/prospectus. Submitting a proxy now will not prevent you from being able to vote at the special meeting by attending in person and casting a vote. **However, if you do not return or submit the**

**NOTICE OF SPECIAL MEETING OF SHAREHOLDERS  
TO BE HELD ON , 2008**

To our fellow Shareholders of Cleveland-Cliffs Inc:

The special meeting of shareholders of Cleveland-Cliffs Inc will be held at , 2008, at , unless postponed or adjourned to a later date. The Cleveland-Cliffs Inc special meeting will be held for the following purposes:

1. To adopt the Agreement and Plan of Merger, dated as of July 15, 2008, as it may be amended from time to time, by and among Cleveland-Cliffs Inc, Alpha Merger Sub, Inc., a wholly-owned subsidiary of Cleveland-Cliffs Inc, and Alpha Natural Resources, Inc., pursuant to which Alpha Merger Sub, Inc. will merge with and into Alpha Natural Resources, Inc., or, under certain circumstances, as described in Annex G, Alpha Merger Sub, Inc. will be converted from a Delaware corporation to a Delaware limited liability company, Alpha Merger Sub, LLC, and Alpha Natural Resources, Inc. will merge with and into Alpha Merger Sub, LLC, on the terms and subject to the conditions contained in the merger agreement, and approve the issuance of Cleveland-Cliffs Inc common shares in connection with the merger. A copy of the merger agreement is attached as Annex A to the accompanying joint proxy statement/prospectus;
2. To approve adjournments or postponements of the Cleveland-Cliffs Inc special meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the Cleveland-Cliffs Inc special meeting to adopt the merger agreement and approve the issuance of the Cleveland-Cliffs Inc common shares on the terms and subject to the conditions contained in the merger agreement; and
3. To consider and take action upon any other business that may properly come before the Cleveland-Cliffs Inc special meeting or any reconvened meeting following an adjournment or postponement of the Cleveland-Cliffs Inc special meeting.

These items of business are described in the accompanying joint proxy statement/prospectus. Only shareholders of record at the close of business on , 2008, are entitled to notice of the Cleveland-Cliffs Inc special meeting and to vote at the Cleveland-Cliffs Inc special meeting and any adjournments or postponements of the Cleveland-Cliffs Inc special meeting.

**Cleveland-Cliffs Inc's board of directors has approved the merger agreement and the transactions contemplated by the merger agreement, including the merger and the issuance of Cleveland-Cliffs Inc common shares in connection with the merger, and has determined that the transactions contemplated by the merger agreement are advisable and fair to, and in the best interests of, Cleveland-Cliffs Inc and its shareholders. Cleveland-Cliffs Inc's board of directors recommends that you vote for the adoption of the merger agreement and the approval of the issuance of Cleveland-Cliffs Inc common shares pursuant to the merger agreement.**

Under Chapter 1701 of the Ohio Revised Code, dissenters' rights will be available to Cleveland-Cliffs Inc shareholders of record who do not vote in favor of the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs Inc common shares. To exercise your dissenters' rights, you must strictly follow the procedures prescribed by Chapter 1701 of the Ohio Revised Code. These procedures are summarized in the accompanying joint

proxy statement/prospectus.

*Your vote is very important.* Whether or not you plan to attend the Cleveland-Cliffs Inc special meeting in person, please complete, sign and date the enclosed proxy card(s) as soon as possible and return it in the postage-prepaid envelope provided, or vote your shares by telephone or over the Internet as described in the accompanying

**QUESTIONS AND ANSWERS ABOUT THE SPECIAL MEETINGS AND THE MERGER**

*The following questions and answers briefly address some commonly asked questions about the special meetings and the merger. They may not include all the information that is important to you. Cleveland-Cliffs Inc, which we refer to as Cleveland-Cliffs, and Alpha Natural Resources, Inc., which we refer to as Alpha, urge you to read carefully this entire joint proxy statement/prospectus, including the annexes and the other documents to which we have referred you. We have included page references in certain parts of this section to direct you to a more detailed description of each topic presented elsewhere in this joint proxy statement/prospectus.*

**The Merger**

**Q: Why am I receiving this joint proxy statement/prospectus?**

A: The boards of directors of each of Alpha and Cleveland-Cliffs have agreed to the acquisition of Alpha by Cleveland-Cliffs pursuant to the terms of a merger agreement that is described in this joint proxy statement/prospectus. A copy of the merger agreement is attached to this joint proxy statement/prospectus as Annex A.

In order to complete the transactions contemplated by the merger agreement, including the merger, Cleveland-Cliffs shareholders and Alpha stockholders must vote on and approve proposals described in this joint proxy statement/prospectus and all other conditions to the merger must be satisfied or waived. Alpha and Cleveland-Cliffs will hold separate special meetings of their respective shareholders to seek to obtain these approvals.

This joint proxy statement/prospectus contains important information about the merger agreement, the transactions contemplated by the merger agreement, including the merger, and the respective special meetings of the stockholders of Alpha and shareholders of Cleveland-Cliffs, which you should read carefully. The enclosed proxy materials allow you to grant a proxy to vote your shares without attending your respective company's special meeting in person.

**Your vote is very important. We encourage you to submit your proxy as soon as possible.**

**Q: What is the proposed transaction for which I am being asked to vote?**

A: Alpha stockholders are being asked to adopt the merger agreement at the Alpha special meeting. A copy of the merger agreement is attached to this joint proxy statement/prospectus as Annex A. The approval of the proposal to adopt the merger agreement by Alpha stockholders is a condition to the obligation of the parties to the merger agreement to complete the merger. See *The Merger Agreement – Conditions to Completion of the Merger* on page 111 and *Summary – Conditions to Completion of the Merger* on page 12.

Cleveland-Cliffs shareholders are being asked to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement at the Cleveland-Cliffs special meeting. The approval of this proposal by the Cleveland-Cliffs shareholders is a condition to the obligation of the parties to the merger agreement to complete the merger. See *The Merger Agreement – Conditions to Completion of the Merger* on page 111 and *Summary – Conditions to Completion of the Merger* on page 12.

**Q: Why are Alpha and Cleveland-Cliffs proposing the merger?**

A: Alpha and Cleveland-Cliffs both believe that the merger will provide substantial strategic and financial benefits to the stockholders of both companies. The combined company, which after the completion of the merger will be renamed Cliffs Natural Resources Inc., which we refer to as the combined company or Cliffs Natural Resources, will become one of the largest U.S. mining companies and be positioned as a leading diversified mining and natural resources company. In addition, Alpha is also proposing the merger to provide its stockholders with the opportunity to receive the merger consideration and to offer Alpha stockholders the opportunity to participate in the growth and opportunities of the combined company by receiving Cleveland-Cliffs common shares pursuant to the merger. To review the reasons for the merger in greater detail, see [The Merger](#) [Cleveland-Cliffs](#) [Reasons for the Merger and Recommendation of Cleveland-Cliffs](#) [Board of](#)

**Table of Contents**

Directors on page 60 and The Merger Alpha's Reasons for the Merger and Recommendation of Alpha's Board of Directors on page 58.

**Q: What are the positions of the Alpha and Cleveland-Cliffs boards of directors regarding the merger and the proposals relating to the adoption of the merger agreement and the issuance of Cleveland-Cliffs common shares?**

A: Both boards of directors have approved the merger agreement and the transactions contemplated by the merger agreement, including the merger, and determined that the transactions contemplated by the merger agreement are advisable and fair to, and in the best interests of, their respective companies and stockholders. The Alpha board of directors recommends that the Alpha stockholders vote **for** the proposal to adopt the merger agreement at the Alpha special meeting. The Cleveland-Cliffs board of directors recommends that the Cleveland-Cliffs shareholders vote **for** the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement at the Cleveland-Cliffs special meeting. See The Merger Cleveland-Cliffs Reasons for the Merger and Recommendation of Cleveland-Cliffs Board of Directors on page 60, The Merger Alpha's Reasons for the Merger and Recommendation of Alpha's Board of Directors beginning on page 58, Summary The Merger Alpha's Reasons for the Merger on page 9 and Summary The Merger Cleveland-Cliffs Reasons for the Merger on page 9.

**Q: What vote is needed by Alpha stockholders to adopt the merger agreement?**

A: The adoption of the merger agreement requires the affirmative vote of at least a majority of the outstanding shares of Alpha common stock entitled to vote. If you are an Alpha stockholder and you abstain from voting, that will have the same effect as a vote against the adoption of the merger agreement. See The Alpha Special Meeting Quorum and Vote Required on page 40.

**Q: What vote is needed by Cleveland-Cliffs shareholders to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement?**

A: The adoption of the merger agreement and the approval of the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement requires the affirmative vote of at least two-thirds of the votes entitled to be cast by the holders of outstanding common shares of Cleveland-Cliffs and 3.25% Redeemable Cumulative Convertible Perpetual Preferred Stock of Cleveland-Cliffs, which we refer to as Series A-2 preferred stock, voting together as a class. If you are a Cleveland-Cliffs shareholder and you abstain from voting, that will have the same effect as a vote against the adoption of the merger agreement and the issuance of Cleveland-Cliffs common shares pursuant to the merger agreement. See The Cleveland-Cliffs Special Meeting Quorum and Vote Required on page 44.

**Q: What will happen in the proposed merger?**

A: In the proposed merger, Alpha Merger Sub, Inc., a wholly-owned subsidiary of Cleveland-Cliffs, which we refer to as merger sub, will merge with and into Alpha, with Alpha as the surviving company. Under certain circumstances, the merger may be restructured so that merger sub will be converted from a Delaware corporation to a Delaware limited liability company, Alpha Merger Sub, LLC, and Alpha will merge with and into Alpha Merger Sub, LLC, with Alpha Merger Sub, LLC as the surviving company. The effects of the merger, if it is restructured in this way, are described in [Annex G](#). After the merger, Alpha will no longer be a public company and will become a wholly-owned subsidiary of Cleveland-Cliffs. See The Merger Agreement The Merger; Closing on page 97.

**Q: What will Alpha stockholders receive in the merger?**

A: In the merger, holders of Alpha common stock (other than shares of Alpha common stock held by any dissenting Alpha stockholder that has properly exercised appraisal rights in accordance with Delaware law, held in treasury by Alpha or owned by Cleveland-Cliffs) will be entitled to receive for each share of Alpha common stock (which will be cancelled in the merger):

**Table of Contents**

\$22.23 in cash, without interest; and

0.95 of a fully paid, nonassessable common share of Cleveland-Cliffs.

Alpha stockholders will be entitled to receive cash for any fractional common shares of Cleveland-Cliffs that they would otherwise be entitled to receive in the merger.

**Q: Do Alpha stockholders have appraisal rights?**

A: Yes. Alpha stockholders who do not vote in favor of adopting the merger agreement and who otherwise comply with the requirements of Delaware law will be entitled to appraisal rights to receive the statutorily determined fair value of their shares of Alpha common stock as determined by the Delaware Chancery Court, rather than the merger consideration. For a full description of the appraisal rights available to Alpha stockholders, see Summary Appraisal Rights of Alpha Stockholders on page 12 and The Merger Appraisal Rights of Alpha Stockholders beginning on page 87.

**Q: Do Cleveland-Cliffs shareholders have dissenters' rights?**

A: Yes. Cleveland-Cliffs shareholders are entitled to exercise dissenters' rights in connection with the merger, provided they comply with the requirements of Chapter 1701 of the Ohio Revised Code, which we refer to as the Ohio General Corporation Law. For a full description of the dissenters' rights of Cleveland-Cliffs shareholders, see Summary Dissenters' Rights of Cleveland-Cliffs Shareholders on page 12 and The Merger Dissenters' Rights of Cleveland-Cliffs Shareholders beginning on page 91.

**Q: Will the rights of Alpha stockholders change as a result of the merger?**

A: Yes. Alpha stockholders will become Cleveland-Cliffs shareholders and their rights as Cleveland-Cliffs shareholders will be governed by the Ohio General Corporation Law and Cleveland-Cliffs amended articles of incorporation, as amended, which we refer to as the amended articles of incorporation, and regulations, which we refer to as the regulations. For a summary description of those rights, see Comparison of Rights of Shareholders beginning on page 217. For a copy of Cleveland-Cliffs amended articles of incorporation or regulations, see Where You Can Find More Information beginning on page 238.

**Q: Will the rights of Cleveland-Cliffs shareholders change as a result of the merger?**

A: No. Cleveland-Cliffs shareholders will retain their shares of Cleveland-Cliffs and their rights will continue to be governed by the Ohio General Corporation Law and Cleveland-Cliffs amended articles of incorporation and regulations.

**Q: Where do Cleveland-Cliffs common shares trade?**

A: Common shares of Cleveland-Cliffs trade on the New York Stock Exchange, or NYSE, under the symbol CLF.

**Q: When do you expect to complete the merger?**

A: If the merger agreement is adopted at the Alpha special meeting and the merger agreement is adopted and the issuance of Cleveland-Cliffs common shares is approved at the Cleveland-Cliffs special meeting, we expect to complete the merger as soon as possible after the satisfaction of the other conditions to the merger. There may be

a substantial period of time between the approval of the proposals by stockholders at the special meetings of Alpha's stockholders and Cleveland-Cliffs' shareholders and the effectiveness of the merger. We currently anticipate that, if the necessary approvals of Alpha's stockholders and Cleveland-Cliffs' shareholders are obtained, the merger will be completed prior to the end of 2008. See The Merger Agreement The Merger; Closing on page 97.

**Table of Contents**

**Q: Who will be the directors of Cleveland-Cliffs after the merger?**

A: The directors of Cleveland-Cliffs immediately prior to the merger will continue as directors after the effective time of the merger. In addition, Cleveland-Cliffs has agreed to take all actions required to appoint two members of Alpha's board of directors, Michael J. Quillen and Glenn A. Eisenberg, to Cleveland-Cliffs' board after the merger.

**Q: Should I send in my stock certificates now?**

A: **NO, PLEASE DO NOT SEND YOUR STOCK CERTIFICATE(S) WITH YOUR PROXY CARD(S).** If the merger is completed, Cleveland-Cliffs will send Alpha stockholders written instructions for sending in their stock certificates or, in the case of book-entry shares, for surrendering their book-entry shares. See *The Alpha Special Meeting Proxy Solicitations* on page 43 and *The Merger Agreement Exchange of Shares* on page 100. Cleveland-Cliffs shareholders will not need to send in their share certificates or surrender their book-entry shares.

**Q: Who can answer my questions about the merger?**

A: If you have any questions about the merger or your special meeting, need assistance in voting your shares, or need additional copies of this joint proxy statement/prospectus or the enclosed proxy card(s), you should contact:

*If you are a Cleveland-Cliffs shareholder:*

Innisfree M&A Incorporated  
501 Madison Avenue, 20<sup>th</sup> Floor  
New York, NY 10022  
Banks and Brokers call collect: (212) 750-5833  
All others call toll-free: (877) 456-3507

*If you are an Alpha stockholder:*

D.F. King & Co., Inc.  
48 Wall Street, 22<sup>nd</sup> Floor  
New York, NY 10005  
Banks and Brokers call collect: (212) 269-5550  
All others call toll-free: (888) 887-0082

**Procedures**

**Q: When and where are the special meetings?**

A: The Alpha special meeting will be held at \_\_\_\_\_, at \_\_\_\_\_ on \_\_\_\_\_, 2008.

The Cleveland-Cliffs special meeting will be held at \_\_\_\_\_, at \_\_\_\_\_ on \_\_\_\_\_, 2008.

**Q: Who is eligible to vote at the Alpha and Cleveland-Cliffs special meetings?**

A: Owners of Alpha common stock are eligible to vote at the Alpha special meeting if they were stockholders of record at the close of business on \_\_\_\_\_, 2008. See *The Alpha Special Meeting Record Date; Outstanding*

Shares; Shares Entitled to Vote on page 40.

Owners of Cleveland-Cliffs common shares and shares of Series A-2 preferred stock are eligible to vote at the Cleveland-Cliffs special meeting if they were shareholders of record at the close of business on \_\_\_\_\_, 2008. See The Cleveland-Cliffs Special Meeting Record Date; Outstanding Shares; Shares Entitled to Vote on page 44.

**Table of Contents**

**Q: What should I do now?**

A: You should read this joint proxy statement/prospectus carefully, including the annexes, and return your completed, signed and dated proxy card(s) by mail in the enclosed postage-paid envelope or by submitting your proxy by telephone or over the Internet as soon as possible so that your shares will be represented and voted at your special meeting. You may vote your shares by signing, dating and mailing the enclosed proxy card(s), or by voting by telephone or over the Internet. A number of banks and brokerage firms participate in a program that also permits shareholders whose shares are held in street name to direct their vote by telephone or over the Internet. This option, if available, will be reflected in the voting instructions from the bank or brokerage firm that accompany this joint proxy statement/prospectus. If your shares are held in an account at a bank or brokerage firm that participates in such a program, you may direct the vote of these shares by telephone or over the Internet by following the voting instructions enclosed with the proxy form from the bank or brokerage firm. See *The Alpha Special Meeting How to Vote* on page 41 and *The Cleveland-Cliffs Special Meeting How to Vote* on page 46.

**Q: If I am going to attend my special meeting, should I return my proxy card(s)?**

A: Yes. Returning your signed and dated proxy card(s) or voting by telephone or over the Internet ensures that your shares will be represented and voted at your special meeting. See *The Alpha Special Meeting How to Vote* beginning on page 41 and *The Cleveland-Cliffs Special Meeting How to Vote* on page 46.

**Q: How will my proxy be voted?**

A: If you complete, sign and date your proxy card(s) or vote by telephone or over the Internet, your proxy will be voted in accordance with your instructions. If you sign and date your proxy card(s) but do not indicate how you want to vote at your special meeting:

for Alpha stockholders, your shares will be voted **for** the adoption of the merger agreement. If you vote for the adoption of the merger agreement at the Alpha special meeting, you will lose the appraisal rights to which you would otherwise be entitled. See *Summary Appraisal Rights of Alpha Stockholders* on page 12, *The Merger Appraisal Rights of Alpha Stockholders* beginning on page 87 and *The Alpha Special Meeting How to Vote* on page 41; and

for Cleveland-Cliffs shareholders, your shares will be voted **for** the adoption of the merger agreement and the issuance of Cleveland-Cliffs common shares. If you vote for the adoption of the merger agreement and the issuance of the Cleveland-Cliffs common shares at the Cleveland-Cliffs special meeting, you will lose the dissenters' rights to which you would otherwise be entitled. See *Summary Dissenters' Rights of Cleveland-Cliffs Shareholders* on page 12, *The Merger Dissenters' Rights of Cleveland-Cliffs Shareholders* beginning on page 110 and *The Cleveland-Cliffs Special Meeting How to Vote* on page 46;

**Q: Can I change my vote after I mail my proxy card(s) or vote by telephone or over the Internet?**

A: Yes. If you are a record holder of Alpha common stock or Cleveland-Cliffs common shares or shares of Series A-2 preferred stock, you can change your vote by:

sending a written notice to the corporate secretary of the company in which you hold shares that is received prior to your special meeting and states that you revoke your proxy;

signing and delivering a new proxy card(s) bearing a later date;

voting again by telephone or over the Internet and submitting your proxy so that it is received prior to your special meeting; or

attending your special meeting and voting in person, although your attendance alone will not revoke your proxy.

## Table of Contents

If your shares are held in a street name account, you must contact your broker, bank or other nominee to change your vote.

### **Q: What if my shares are held in street name by my broker?**

A: If a broker holds your shares for your benefit but not in your own name, your shares are in street name. In that case, your broker will send you a voting instruction form to use in voting your shares. The availability of telephone and Internet voting depends on your broker's voting procedures. Please follow the instructions on the voting instruction form they send you. If your shares are held in your broker's name and you wish to vote in person at your special meeting, you must contact your broker and request a document called a legal proxy. You must bring this legal proxy to your respective special meeting in order to vote in person.

### **Q: What if I don't provide my broker with instructions on how to vote?**

A: Generally, a broker may only vote the shares that it holds for you in accordance with your instructions. However, if your broker has not received your instructions, your broker has the discretion to vote on certain matters that are considered routine. A broker non-vote occurs if your broker cannot vote on a particular matter because your broker has not received instructions from you and because the proposal is not routine. Broker non-votes could be counted in determining whether a quorum is present at the special meetings of Alpha stockholders and Cleveland-Cliffs shareholders. Nevertheless, since we do not anticipate that there will be any routine matters on the agenda for the respective special meetings of Alpha stockholders and Cleveland-Cliffs shareholders, we expect that there will be practical impediments that will prevent us from counting broker non-votes for purposes of a quorum at those special meetings.

#### *Alpha Stockholders*

If you wish to vote on the proposal to adopt the merger agreement, you must provide instructions to your broker because this proposal is not routine. If you do not provide your broker with instructions, your broker will not be authorized to vote with respect to adopting the merger agreement, and a broker non-vote will occur. This will have the same effect as a vote **against** the adoption of the merger agreement.

#### *Cleveland-Cliffs Shareholders*

If you wish to vote on the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares pursuant to the merger agreement, you must provide instructions to your broker because this proposal is not routine. If you do not provide your broker with instructions, your broker will not be authorized to vote with respect to the adoption of the merger agreement and the issuance of Cleveland-Cliffs common shares, and a broker non-vote will occur. This will have the same effect as a vote **against** the adoption of the merger agreement and the issuance of Cleveland-Cliffs common shares.

### **Q: What if I abstain from voting?**

A: Your abstention from voting will have the following effect.

#### *If you are an Alpha stockholder:*

Abstentions will be counted in determining whether a quorum is present at the special meeting. With respect to the proposal to adopt the merger agreement, abstentions will have the same effect as a vote **against** the proposal

to adopt the merger agreement. With respect to the proposal to adjourn the special meeting, if necessary, to solicit further proxies in connection with the merger agreement adoption proposal, abstentions will have the same effect as a vote **against** the proposal to adjourn the Alpha special meeting.

*If you are a Cleveland-Cliffs shareholder:*

Abstentions will be counted in determining whether a quorum is present at the special meeting. With respect to the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares

**Table of Contents**

pursuant to the merger agreement, abstentions will have the same effect as a vote **against** the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in connection with the merger. With respect to the proposal to adjourn or postpone the special meeting, if necessary, to solicit further proxies in connection with the merger agreement adoption and share issuance proposal, abstentions will have the same effect as a vote **against** the proposal to adjourn or postpone the Cleveland-Cliffs special meeting, whether a quorum is present or not.

**Q: What does it mean if I receive multiple proxy cards?**

A: Your shares may be registered in more than one account, such as brokerage accounts and 401(k) accounts. It is important that you complete, sign, date and return each proxy card or voting instruction card you receive or vote using the telephone or the Internet as described in the instructions included with your proxy card(s) or voting instruction card(s).

**Q: Where can I find more information about Cleveland-Cliffs and Alpha?**

A: You can find more information about Cleveland-Cliffs and Alpha from various sources described under **Where You Can Find More Information** beginning on page 238.

**Table of Contents**

**SUMMARY**

*This summary highlights selected information from this joint proxy statement/prospectus and may not contain all of the information that is important to you. You should carefully read this entire document and the other documents to which this document refers to fully understand the merger and the related transactions. See *Where You Can Find More Information* on page 238. Most items in this summary include a page reference directing you to a more complete description of those items.*

**Information about Cleveland-Cliffs**

Founded in 1847, Cleveland-Cliffs is an international mining company, the largest producer of iron ore pellets in North America and a supplier of metallurgical coal to the global steelmaking industry. Cleveland-Cliffs operates six iron ore mines in Michigan, Minnesota and Eastern Canada, and three coking coal mines in West Virginia and Alabama. Cleveland-Cliffs also owns 85.2 percent of Portman Limited, or Portman, a large iron ore mining company in Australia, serving the Asian iron ore markets with direct-shipping fines and lump ore. In addition, Cleveland-Cliffs has a 30 percent interest in MMX Amapá Mineração Limitada, a Brazilian iron ore project, which is referred to as Amapá, and a 45 percent economic interest in the Sonoma Coal Project, an Australian coking and thermal coal project, which is referred to as Sonoma. Cleveland-Cliffs principal executive offices are located at: 1100 Superior Avenue, Cleveland, Ohio 44114, and its telephone number is: (216) 694-5700.

**Information about Alpha**

Alpha is a leading Appalachian coal supplier. Alpha produces, processes and sells steam and metallurgical coal from eight regional business units, which, as of June 30, 2008, were supported by 32 active underground mines, 26 active surface mines and 11 preparation plants located throughout Virginia, West Virginia, Kentucky, and Pennsylvania, as well as a road construction business in West Virginia and Virginia that recovers coal. Alpha also sells coal produced by others, the majority of which Alpha processes and/or blends with coal produced from its mines prior to resale, providing Alpha with a higher overall margin for the blended product than if Alpha had sold the coals separately. Alpha's principal executive offices are located at: One Alpha Place, P.O. Box 2345, Abingdon, Virginia 24212, and its telephone number is: (276) 619-4410.

**The Merger (page 97)**

On July 15, 2008, each of the boards of directors of Cleveland-Cliffs and Alpha approved the merger of merger sub, a newly formed and wholly-owned subsidiary of Cleveland-Cliffs, with and into Alpha, upon the terms and subject to the conditions contained in the merger agreement. Alpha will be the surviving company after the merger and will become a wholly-owned subsidiary of Cleveland-Cliffs. Under certain circumstances, the merger may be restructured so that merger sub will be converted from a Delaware corporation into a Delaware limited liability company, Alpha Merger Sub, LLC, and Alpha will merge with and into Alpha Merger Sub, LLC, with Alpha Merger Sub, LLC as the surviving company. The effects of the merger, if it is restructured in this way, are described in Annex G. Any such restructuring will not affect the merger consideration to be received by holders of Alpha common stock.

We encourage you to read the merger agreement, which governs the merger and is attached as Annex A to this joint proxy statement/prospectus, because it sets forth the terms of the merger of Alpha with merger sub.

**Merger Consideration (page 98)**

In the merger, holders of Alpha common stock (other than shares of Alpha common stock held by any dissenting Alpha stockholder that has properly exercised appraisal rights in accordance with Delaware law, held in treasury by Alpha or owned by Cleveland-Cliffs) will be entitled to receive for each share of Alpha common stock (which will be cancelled in the merger):

\$22.23 in cash, without interest; and

0.95 of a fully paid, nonassessable common share of Cleveland-Cliffs.

**Table of Contents**

As a result, Cleveland-Cliffs will issue approximately 70,000,000 common shares of Cleveland-Cliffs and pay approximately \$1.7 billion in cash in the merger, based upon the number of shares of Alpha common stock outstanding on the record date for the Alpha special meeting. We refer to the share and cash consideration to be paid to Alpha stockholders by Cleveland-Cliffs as the merger consideration.

The total value of the merger consideration that an Alpha stockholder receives in the merger may vary. The value of the cash portion of the merger consideration is fixed at \$22.23 for each share of Alpha common stock. The share portion of the merger consideration is similarly fixed at 0.95 of a common share of Cleveland-Cliffs to be exchanged for each share of Alpha common stock, but its value may vary due to changes in the market value of Cleveland-Cliffs common shares.

No fractional common shares of Cleveland-Cliffs will be issued in the merger. Any holder of Alpha common stock that would otherwise be entitled to receive fractional common shares of Cleveland-Cliffs as a result of the exchange of Alpha common stock for Cleveland-Cliffs common shares will receive, in lieu of any fractional shares, an amount in cash, without interest, equal to the fractional share interest multiplied by the closing price for a common share of Cleveland-Cliffs as reported on the NYSE Composite Transactions Reports as of the closing date of the merger or, if such date is not a trading day, the trading day immediately preceding the closing date of the merger.

**Financing of the Merger (page 94)**

Cleveland-Cliffs will fund the cash portion of the merger consideration with cash from committed debt financing and cash from operations.

**Alpha's Reasons for the Merger (page 58)**

In reaching its decision to approve the merger agreement and recommend the merger to its stockholders, the Alpha board of directors consulted with Alpha's management, as well as Alpha's legal and financial advisors, and considered a number of factors, including those listed in The Merger Alpha's Reasons for the Merger and Recommendation of Alpha's Board of Directors on page 58.

**Cleveland-Cliffs' Reasons for the Merger (page 60)**

In reaching its decision to approve the merger agreement and the transactions contemplated by the merger agreement and to recommend that Cleveland-Cliffs shareholders adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in connection with the merger, the Cleveland-Cliffs board of directors consulted with Cleveland-Cliffs' management, as well as Cleveland-Cliffs' legal and financial advisors, and considered a number of factors, including those listed in The Merger Cleveland-Cliffs' Reasons for the Merger and Recommendation of Cleveland-Cliffs' Board of Directors on page 60.

**Effect of the Merger on Alpha Equity Awards (page 108)**

In general, upon completion of the merger, options to purchase shares of Alpha common stock will be converted into options to purchase common shares of Cleveland-Cliffs. Cleveland-Cliffs has agreed to assume each of Alpha's stock option plans at the effective time of the merger. Each unvested Alpha stock option outstanding under any Alpha stock option plan will become fully vested and exercisable in connection with the merger.

Restricted shares of Alpha common stock granted by Alpha to its employees and directors will become fully vested in connection with the merger and the holders thereof will be entitled to receive the merger consideration with respect to

such vested shares upon completion of the merger.

Performance shares of Alpha common stock granted by Alpha to its employees will vest according to the terms of the applicable performance share agreement, and the holder of each performance share agreement will be entitled to receive an amount in cash equal to the product of (i) the sum of (A) \$22.23 plus (B) the product of 0.95 multiplied by the closing price for a common share of Cleveland-Cliffs as reported on the NYSE Composite Transactions Reports on the closing date of the merger or, if such date is not a trading day, the trading day immediately preceding the closing date of the merger, multiplied by (ii) the number of shares of Alpha common stock that would be issuable under such performance share agreement.

**Table of Contents**

For a full description of the treatment of Alpha equity awards, see *The Merger Agreement – Covenants and Agreements – Effect of the Merger on Alpha Equity Awards* on page 108.

**Recommendations of the Boards of Directors to Alpha Stockholders and Cleveland-Cliffs Shareholders**

*Alpha Stockholders.* The Alpha board of directors believes that the merger agreement and the transactions contemplated by the merger agreement, including the merger, are advisable and fair to, and in the best interests of, Alpha and its stockholders and has approved the merger agreement and the transactions contemplated by the merger agreement, including the merger. The Alpha board of directors has resolved to recommend that Alpha stockholders vote **for** the adoption of the merger agreement.

*Cleveland-Cliffs Shareholders.* The Cleveland-Cliffs board of directors believes that the merger agreement and the transactions contemplated by the merger agreement, including the merger, are advisable and fair to, and in the best interests of, Cleveland-Cliffs and its shareholders and has approved the merger agreement and the transactions contemplated by the merger agreement, including the merger. The Cleveland-Cliffs board of directors has resolved to recommend that Cleveland-Cliffs shareholders vote **for** the adoption of the merger agreement and the approval of the issuance of Cleveland-Cliffs common shares pursuant to the merger agreement.

**Opinions of Financial Advisors (beginning on page 63 for Alpha’s Financial Advisor and page 75 for Cleveland-Cliffs’ financial advisor)**

*Opinion of Alpha’s Financial Advisor.* In deciding to approve the merger agreement, the Alpha board of directors considered the oral opinion of Citigroup Global Markets Inc., which is referred to as Citi, financial advisor to the Alpha board of directors, delivered on July 15, 2008, which was subsequently confirmed in writing on the same date, to the effect that, as of the date of the opinion and based upon and subject to the considerations and limitations set forth in the opinion, its work described below and other factors it deemed relevant, the merger consideration was fair, from a financial point of view, to the holders of Alpha common stock. The full text of Citi’s opinion, which sets forth the assumptions made, general procedures followed, matters considered and limits on the review undertaken, is included as Annex B to this joint proxy statement/prospectus. Holders of Alpha common stock are urged to read the Citi opinion carefully and in its entirety, as well as the information set forth under *Risk Factors* beginning on page 27. Citi provided its opinion for the information and assistance of the Alpha board of directors in connection with its consideration of the merger. Neither Citi’s opinion nor the related analyses constituted a recommendation of the proposed merger to the Alpha board of directors. Citi makes no recommendation to any stockholder regarding how such stockholder should vote with respect to the merger. For its services to date, Citi has been paid a customary fee, and will be entitled to receive a transaction fee upon the completion of the merger. In addition, in the event that the merger is not completed and Alpha receives termination or break-up fees, Citi will be entitled to a portion of such fees.

*Opinion of Cleveland-Cliffs’ Financial Advisor.* In connection with the merger, the Cleveland-Cliffs board of directors retained J.P. Morgan Securities Inc., which is referred to as J.P. Morgan, as its financial advisor. In deciding to approve the merger, the Cleveland-Cliffs board of directors considered the oral opinion of J.P. Morgan provided to the Cleveland-Cliffs board of directors on July 15, 2008, subsequently confirmed in writing on the same date, that, as of the date of the opinion and based upon and subject to the various factors and assumptions set forth in the written opinion, the consideration to be paid by Cleveland-Cliffs to Alpha stockholders in the proposed merger was fair, from a financial point of view, to Cleveland-Cliffs. The full text of J.P. Morgan’s written opinion, dated July 15, 2008, is attached to this joint proxy statement/prospectus as Annex C. Cleveland-Cliffs shareholders are urged to read the J.P. Morgan opinion carefully in its entirety for a description of, among other things, the assumptions made, general procedures followed, matters considered and limitations on the scope of the review undertaken by J.P. Morgan in conducting its financial analysis and rendering its opinion. J.P. Morgan’s opinion is addressed to the Cleveland-Cliffs

board of directors and is one of many factors considered by the Cleveland-Cliffs board of directors in deciding to approve the transactions contemplated by the merger agreement. J.P. Morgan provided its opinion for the information and assistance of the Cleveland-Cliffs board of directors in connection with its consideration of the merger, and the opinion does not constitute a recommendation to any holder of Alpha common

## **Table of Contents**

stock or Cleveland-Cliffs common shares as to how that holder should vote or act on any matter relating to the merger. For its services, J.P. Morgan will be entitled to receive a transaction fee, the principal portion of which is payable upon the completion of the merger. In addition, in the event Alpha pays a break-up fee or other payment to Cleveland-Cliffs following or in connection with the termination, abandonment or failure to consummate the merger, J.P. Morgan will be entitled to a portion of such fee or other payment.

### **Record Date; Outstanding Shares; Shares Entitled to Vote (page 40 for Alpha and page 44 for Cleveland-Cliffs)**

*Alpha Stockholders.* The record date for the meeting of Alpha stockholders is \_\_\_\_\_, 2008. This means that you must have been a stockholder of record of Alpha's common stock at the close of business on \_\_\_\_\_, 2008, in order to vote at the special meeting. You are entitled to one vote for each share of common stock you own. On Alpha's record date, there were \_\_\_\_\_ shares of common stock (excluding \_\_\_\_\_ shares of treasury stock) outstanding and entitled to vote at the special meeting.

*Cleveland-Cliffs Shareholders.* The record date for the meeting of Cleveland-Cliffs shareholders is \_\_\_\_\_, 2008. This means that you must have been a shareholder of record of Cleveland-Cliffs' common shares or Series A-2 preferred stock at the close of business on \_\_\_\_\_, 2008, in order to vote at the special meeting. You are entitled to one vote for each common share or share of Series A-2 preferred stock you own. On Cleveland-Cliffs' record date, Cleveland-Cliffs voting securities carried \_\_\_\_\_ votes, which consisted of \_\_\_\_\_ common shares (excluding \_\_\_\_\_ shares of treasury stock) and \_\_\_\_\_ shares of Series A-2 preferred stock.

### **Stock Ownership of Directors and Executive Officers (page 82 for Alpha and page 82 for Cleveland-Cliffs)**

*Alpha.* At the close of business on the record date for the Alpha special meeting, directors and executive officers of Alpha beneficially owned and were entitled to vote approximately \_\_\_\_\_ shares of Alpha common stock, collectively representing \_\_\_\_\_ % of the shares of Alpha common stock outstanding on that date.

*Cleveland-Cliffs.* At the close of business on the record date for the Cleveland-Cliffs special meeting, directors and executive officers of Cleveland-Cliffs beneficially owned and were entitled to vote approximately \_\_\_\_\_ common shares of Cleveland-Cliffs, collectively representing approximately \_\_\_\_\_ % of the common shares of Cleveland-Cliffs outstanding on that date.

### **Ownership of the Combined Company After the Merger (page 83)**

Based on the number of common shares of Cleveland-Cliffs and shares of Alpha common stock outstanding on their respective record dates, and assuming that Cleveland-Cliffs will issue approximately 70,000,000 common shares of Cleveland-Cliffs in the merger, after the merger, former Alpha stockholders are expected to own approximately 39% of the then-outstanding common shares of Cleveland-Cliffs.

### **Interests of Alpha Directors and Executive Officers in the Merger (page 83)**

Alpha's executive officers and members of the Alpha board of directors, in their capacities as such, may have financial interests in the merger that are in addition to or different from their interests as stockholders of Alpha generally. Alpha's board of directors was aware of these interests and considered them, among other matters, in approving the merger agreement and the transactions contemplated thereby.

### **Listing of Cleveland-Cliffs Common Shares and Delisting of Alpha Common Stock (page 87)**

Application will be made to have the common shares of Cleveland-Cliffs issued in the merger approved for listing on the NYSE, where Cleveland-Cliffs common shares currently are traded under the symbol CLF. If the merger is completed, Alpha common stock will no longer be listed on the NYSE and will be deregistered under the Securities Exchange Act of 1934, as amended, which is referred to as the Exchange Act, and Alpha may no longer file periodic reports with the SEC.

**Table of Contents**

**Appraisal Rights of Alpha Stockholders (page 87)**

Holders of Alpha common stock who do not wish to accept the consideration payable pursuant to the merger may seek, under Section 262 of the General Corporation Law of the State of Delaware, which we refer to as the DGCL, judicial appraisal of the fair value of their shares by the Delaware Court of Chancery. This value could be more than, less than or the same as the merger consideration for the Alpha common stock. Failure to strictly comply with all the procedures required by Section 262 of the DGCL will result in a loss of the right to appraisal.

Merely voting against adoption of the merger agreement will not preserve the right of Alpha stockholders to appraisal under Delaware law. Also, because a submitted proxy not marked against or abstain will be voted for the proposal to adopt the merger agreement, the submission of a proxy not marked against or abstain will result in the waiver of appraisal rights. Alpha stockholders who hold shares in the name of a broker or other nominee must instruct their nominee to take the steps necessary to enable them to demand appraisal for their shares.

Annex D to this joint proxy statement/prospectus contains the full text of Section 262 of the DGCL, which relates to the rights of appraisal. We encourage you to read these provisions carefully and in their entirety.

**Dissenters Rights of Cleveland-Cliffs Shareholders (page 91)**

Cleveland-Cliffs shareholders who (1) are record holders of the Cleveland-Cliffs shares as of the record date; (2) do not vote to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in the merger, and (3) deliver a written demand for payment of the fair cash value of their Cleveland-Cliffs shares not later than ten days after the Cleveland-Cliffs special meeting, will be entitled, if and when the merger is completed, to receive the fair cash value of their Cleveland-Cliffs shares. The right as a Cleveland-Cliffs shareholder to receive the fair cash value of Cleveland-Cliffs shares, however, is contingent upon strict compliance by the dissenting Cleveland-Cliffs shareholder with the procedures set forth in Section 1701.85 of the Ohio General Corporation Law. If you wish to submit a written demand for payment of the fair cash value of your Cleveland-Cliffs shares, you should deliver your demand no later than \_\_\_\_\_, 2008.

Annex E to this joint proxy statement/prospectus contains the full text of Section 1701.85 of the Ohio General Corporation Law, which relates to the dissenters rights of Cleveland-Cliffs shareholders. We encourage you to read these provisions carefully and in their entirety.

**Conditions to Completion of the Merger (page 92)**

Completion of the merger depends on a number of conditions being satisfied or waived. These conditions include the following:

adoption of the merger agreement by the Alpha stockholders at the Alpha special meeting;

adoption of the merger agreement and approval of the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement by the Cleveland-Cliffs shareholders at the Cleveland-Cliffs special meeting;

the waiting period (including any extension thereof) applicable to the consummation of the merger under the Hart-Scott-Rodino Act, which is referred to as the HSR Act, must have expired or been terminated, and antitrust clearance in Turkey must have been obtained;

making or obtaining consents, approvals, and actions of, filings with and notices to, the governmental entities required to consummate the merger and the other transactions contemplated by the merger agreement, the failure of which to be made or obtained is reasonably expected to have or result in a material adverse effect on Cleveland-Cliffs or Alpha;

absence of any order or law of any governmental authority preventing the consummation of the merger;

approval for listing on the NYSE, upon official notice of issuance, of Cleveland-Cliffs common shares to be issued in connection with the merger;

**Table of Contents**

continued effectiveness of the registration statement of which this joint proxy statement/prospectus is a part and the absence of any stop order or proceeding seeking a stop order by the SEC suspending the effectiveness of the registration statement;

accuracy of each party's representations and warranties in the merger agreement, except as would not reasonably be expected to have or result in a material adverse effect on the party making the representations;

performance in all material respects of each party's covenants set forth in the merger agreement required to be performed by it at or prior to the closing date of the merger; and

delivery by both parties of customary officer's certificates and tax opinions.

***Antitrust Clearances (page 93)***

The completion of the merger is subject to compliance with the HSR Act. The notifications required under the HSR Act to the U.S. Federal Trade Commission, which is referred to as the FTC, and the Antitrust Division of the U.S. Department of Justice, which is referred to as the Antitrust Division, were filed on July 25, 2008.

In addition, Cleveland-Cliffs and Alpha must submit a pre-merger notification in Turkey and obtain antitrust clearance from the Turkish Competition Board. The pre-merger notification in Turkey is contemplated to be submitted on or about August 15, 2008. The review period, which is generally 30 calendar days from filing, ends when the Turkish Competition Board authorizes the proposed transaction. If, prior to such authorization, the staff of the Turkish Competition Board requests additional information, this 30-day period starts again from the date such additional information is provided.

Cleveland-Cliffs and Alpha have agreed to use their reasonable best efforts, subject to specified limitations, to take, or cause to be taken, all actions necessary, proper or advisable under applicable law and regulations, including the HSR Act, to complete the merger as promptly as practicable, but in no event later than January 15, 2009, which date may be extended to April 15, 2009, in certain circumstances as described in Summary Termination of the Merger Agreement beginning on page 13 and in The Merger Agreement Termination of the Merger Agreement beginning on page 112. We refer to this January 15, 2009 date, as it may be extended, as the outside date.

Under the merger agreement, the use of such reasonable best efforts does not require the parties to dispose of or hold separate any of their businesses or to conduct any of their businesses in a particular manner, except to the extent any such disposal, separation or conduct would not reasonably be expected to materially impair the benefits each of Cleveland-Cliffs and Alpha reasonably expects to be derived from their combination through the merger.

**Termination of the Merger Agreement (beginning on page 112)**

Cleveland-Cliffs and Alpha may agree in writing to terminate the merger agreement at any time without completing the merger, even after the Alpha stockholders have approved the adoption of the merger agreement and the Cleveland-Cliffs shareholders have adopted the merger agreement and approved the issuance of Cleveland-Cliffs common shares in connection with the merger.

The merger agreement may also be terminated at any time before the effective time of the merger under the following circumstances, among others:

by either Cleveland-Cliffs or Alpha if:

the merger is not consummated by January 15, 2009, which date can be extended under certain circumstances to April 15, 2009 (we refer to such date, as possibly extended, as the outside date), unless the failure to consummate the merger by the outside date is the result of a breach of the merger agreement by the party seeking the termination or if such party has not yet held its special meeting of shareholders;

the shareholders of Cleveland-Cliffs have voted and failed to adopt the merger agreement and approve the issuance of common shares of Cleveland-Cliffs pursuant to the merger agreement;

**Table of Contents**

the Alpha stockholders have voted and failed to adopt the merger agreement; or

the other party breaches its representations or warranties or breaches or fails to perform its covenants set forth in the merger agreement, which breach or failure to perform results in a failure of certain of the conditions to the completion of the merger being satisfied and such breach or failure to perform is not cured within 30 days after the receipt of written notice thereof or is incapable of being cured by the outside date; or

by Alpha if:

prior to the receipt of its stockholders' approval of the proposal to adopt the merger agreement, Alpha (i) receives an unsolicited written proposal after the date of the merger agreement concerning a business combination or acquisition of Alpha that the Alpha board of directors determines in its good faith judgment constitutes, or would reasonably be expected to lead to, a proposal that is more favorable to the Alpha stockholders than the transactions contemplated by the merger agreement, (ii) the Alpha board of directors determines in good faith that failure to take such action would be reasonably likely to be a violation of its fiduciary duties to Alpha stockholders under applicable Delaware law, (iii) provides Cleveland-Cliffs with a written notice that it intends to take such action, (iv) satisfies the conditions for withdrawing (or modifying in a manner adverse to Cleveland-Cliffs) the recommendation by its board of directors of the merger or recommending such superior proposal, and (v) concurrently with the termination of the merger agreement, enters into an acquisition agreement with a third party providing for the implementation of the transactions contemplated by such superior proposal; provided that Alpha pays a \$350 million termination fee to Cleveland-Cliffs and such superior proposal did not result from Alpha's breach of its non-solicitation obligations under the merger agreement;

Cleveland-Cliffs materially breaches its covenants to convene the Cleveland-Cliffs special meeting or breaches its obligations to recommend that the Cleveland-Cliffs shareholders vote in favor of the adoption of the merger agreement and the issuance of common shares in connection with the merger; or

the Cleveland-Cliffs board of directors or any committee thereof (i) withdraws or modifies, or publicly proposes to withdraw or modify, its recommendation that Cleveland-Cliffs' shareholders adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in connection with the merger, or (ii) recommends, adopts or approves, or proposes publicly to recommend, adopt or approve certain transactions involving Cleveland-Cliffs; or

by Cleveland-Cliffs if:

Alpha materially breaches its obligations not to solicit alternative takeover proposals or materially breaches its covenants to convene the Alpha special meeting or breaches its obligations to recommend that the Alpha stockholders vote in favor of the adoption of the merger agreement; or

the Alpha board of directors or any committee thereof (i) withdraws or adversely modifies or publicly proposes to withdraw or adversely modify, its recommendation of the merger agreement and the transactions contemplated by the merger agreement, including the merger, or (ii) recommends, adopts or approves, or proposes publicly to recommend, adopt or approve a takeover proposal other than the merger agreement.

**Termination Fees (page 113)**

In connection with the termination of the merger agreement in certain circumstances involving a takeover proposal by a third party for Alpha, a change of the Alpha board of directors' recommendation to the Alpha stockholders in favor of the adoption of the merger agreement, or certain breaches of the merger agreement by Alpha, Alpha will be required to pay Cleveland-Cliffs a termination fee of \$350 million. Similarly, in connection with the termination of the merger agreement in certain circumstances involving certain alternative transactions for Cleveland-Cliffs, a change of the Cleveland-Cliffs board of directors' recommendation to the Cleveland-Cliffs shareholders in favor of the adoption of the merger agreement and the approval of the issuance of Cleveland-Cliffs

## **Table of Contents**

common shares in connection with the merger, or certain breaches of the merger agreement by Cleveland-Cliffs, Cleveland-Cliffs will be required to pay Alpha a termination fee of \$350 million.

Furthermore, each party will have to pay a termination fee of \$100 million to the other party if its stockholders or shareholders, as applicable, voting at their respective special meetings, fail to approve the adoption of the merger agreement (in the case of Alpha) or the adoption of the merger agreement and the approval of the issuance of common shares of Cleveland-Cliffs in connection with the merger (in the case of Cleveland-Cliffs), but no such fee will be payable by such party if the shareholders of both parties, voting at their respective special meetings, fail to make such approvals.

### **Material United States Federal Income Tax Consequences (beginning on page 94)**

Cleveland-Cliffs and Alpha intend for the merger to qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, or the Code. If the merger qualifies as a reorganization, the U.S. federal income tax consequences to Alpha stockholders generally will be as follows:

Alpha stockholders will generally recognize gain only to the extent of the cash consideration that they receive, and will not recognize any loss.

Tax matters are complicated, and the tax consequences of the merger to each Alpha stockholder will depend on the facts of each shareholder's situation. Alpha stockholders are urged to read carefully the discussion in the section entitled "Material United States Federal Income Tax Consequences" beginning on page 94 and to consult their own tax advisors for a full understanding of the tax consequences of their participation in the merger.

### **Accounting Treatment (page 94)**

The merger will be accounted for as a business combination using the "purchase" method of accounting. Cleveland-Cliffs will be the acquirer for financial accounting purposes.

### **Risks**

In evaluating the merger, the merger agreement or the issuance of common shares of Cleveland-Cliffs in the merger, you should carefully read this joint proxy statement/prospectus and especially consider the factors discussed in the section entitled "Risk Factors" beginning on page 27.

### **Comparison of Rights of Shareholders (beginning on page 217)**

As a result of the merger, the holders of Alpha common stock will become holders of Cleveland-Cliffs common shares and their rights will be governed by the Ohio General Corporation Law and by Cleveland-Cliffs' amended articles of incorporation and regulations. Following the merger, Alpha stockholders will have different rights as shareholders of Cleveland-Cliffs than as stockholders of Alpha.

For a summary of the material differences between the rights of Alpha stockholders and Cleveland-Cliffs shareholders, see "Comparison of Rights of Shareholders" beginning on page 217.

**Table of Contents****FINANCIAL SUMMARY****Cleveland-Cliffs Market Price Data and Dividends**

Cleveland-Cliffs common shares are traded on the NYSE under the symbol CLF. The following table shows the high and low sales prices at any time during the period indicated for Cleveland-Cliffs common shares as reported on the NYSE. For current price information, you are urged to consult publicly available sources.

On May 9, 2006, the board of directors of Cleveland-Cliffs approved a two-for-one stock split of its common shares. The record date for the stock split was June 15, 2006 with a distribution date of June 30, 2006. On March 11, 2008, the board of directors of Cleveland-Cliffs declared a two-for-one stock split of its common shares. The record date for the stock split was May 1, 2008 with a distribution date of May 15, 2008. Accordingly, unless indicated otherwise, all Cleveland-Cliffs common share and per share amounts in this joint proxy statement/prospectus that relate to dates prior to the stock splits have been adjusted retroactively to reflect the stock splits.

<b>Fiscal Year Ended</b>	<b>Price Range of Common shares</b>		<b>Dividends Declared</b>
	<b>High</b>	<b>Low</b>	
<b>December 31, 2006:</b>			
First Quarter	\$ 27.59	\$ 20.13	\$ 0.05
Second Quarter	25.22	15.70	0.0625
Third Quarter	20.05	16.58	0.0625
Fourth Quarter	24.74	18.42	0.0625
<b>December 31, 2007:</b>			
First Quarter	32.42	23.00	0.0625
Second Quarter	46.03	32.10	0.0625
Third Quarter	45.00	28.20	0.0625

<b>December 31, 2008:</b>			
First Quarter	63.89	38.63	0.0875
Second Quarter	121.95	57.32	0.0875
Third Quarter (through August 11, 2008)	118.10	84.33	

The last reported sales prices of Cleveland-Cliffs common shares on the NYSE on July 15, 2008 and August 11, 2008 were \$111.46 and \$85.90, respectively. July 15, 2008 was the last full trading day prior to the public announcement of the merger. August 11, 2008 was the last full trading day prior to the filing of this joint proxy statement/prospectus with the SEC.

The Cleveland-Cliffs board of directors has the power to determine the amount and frequency of the payment of dividends. Decisions regarding whether or not to pay dividends and the amount of any dividends are based on compliance with the Ohio General Corporation Law, compliance with agreements governing Cleveland-Cliffs indebtedness, earnings, cash requirements, results of operations, cash flows, financial condition and other factors that the board of directors considers important. While Cleveland-Cliffs intends to maintain dividends at this level for the foreseeable future, it cannot assure that it will continue to pay dividends at this level, or at all.

Under the merger agreement, Cleveland-Cliffs has agreed that, until the effective time of the merger, it will not declare, set aside or pay any dividends on, or make any other distributions in respect of, any of its capital stock, other than regular quarterly cash dividends with respect to Cleveland-Cliffs common shares not in excess of \$0.25 per share and Series A-2 preferred stock in accordance with the terms thereof.

**Table of Contents****Alpha Market Price Data and Dividends**

Alpha common stock is traded on the NYSE under the symbol ANR. The following table shows the high and low sales prices at any time during the period indicated for Alpha common stock on the NYSE. For current price information, you are urged to consult publicly available sources.

<b>Fiscal Year Ended</b>	<b>Price Range of Common Stock</b>	
	<b>High</b>	<b>Low</b>
<b>December 31, 2006:</b>		
First Quarter	\$ 23.60	\$ 19.25
Second Quarter	27.46	17.88
Third Quarter	20.18	14.41
Fourth Quarter	17.07	14.09
<b>December 31, 2007:</b>		
First Quarter	15.85	12.32
Second Quarter	21.07	15.43

Fourth Quarter	35.20	22.78
<b>December 31, 2008:</b>		
First Quarter	44.58	21.92
Second Quarter	108.73	40.05
Third Quarter (through August 11, 2008)	119.30	77.01

The last reported sales prices Alpha common stock on the NYSE on July 15, 2008, and August 11, 2008 were \$94.92 and \$88.30, respectively. July 15, 2008 was the last full trading day prior to the public announcement of the merger. August 11, 2008 was the last full trading day prior to the filing of this joint proxy statement/prospectus with the SEC.

The Alpha board of directors has the power to determine the amount and frequency of the payment of dividends. Decisions regarding whether or not to pay dividends and the amount of any dividends are based on compliance with the DGCL, compliance with agreements governing Alpha's indebtedness, earnings, cash requirements, results of operations, cash flows, financial condition and other factors that the board of directors considers important. Alpha does not currently pay dividends. While Alpha anticipates that if the merger were not consummated it would continue not to pay dividends, it cannot assure that is the case. Under the merger agreement, until the closing of the merger Alpha is not permitted to declare, set aside or pay any dividends on, or make any other distributions in respect of, any of its capital stock.

**Table of Contents****Selected Historical Consolidated Financial Data of Cleveland-Cliffs**

The following table shows selected historical financial data for Cleveland-Cliffs. The selected financial data as of December 31, 2007, 2006, 2005, 2004, and 2003 and for each of the five years then ended were derived from the audited historical consolidated financial statements and related footnotes of Cleveland-Cliffs. The data as of and for the six months ended June 30, 2008 and 2007 were derived from Cleveland-Cliffs unaudited condensed consolidated financial statements. In the opinion of management, the unaudited financial information as of and for the six months ended June 30, 2008 and 2007 includes all adjustments, consisting of normal and recurring adjustments, necessary to present fairly the data for such periods. The operating results for the six months ended June 30, 2008 are not necessarily indicative of results for the full year ending December 31, 2008.

Detailed historical financial information is included in the audited consolidated statements of financial position as of December 31, 2007 and 2006, and the related consolidated statements of operations, shareholders' equity and cash flows for each of the years in the three-year period ended December 31, 2007 and the unaudited condensed consolidated statements of financial position as of June 30, 2008 and the related unaudited condensed consolidated statements of operations and cash flows for the six-month periods ended June 30, 2008 and 2007 included elsewhere in this joint proxy statement/prospectus. You should read the following selected financial data together with Cleveland-Cliffs' historical consolidated financial statements, including the related notes.

- (a) On July 31, 2007, Cleveland-Cliffs completed the acquisition of Cliffs North American Coal LLC (formerly PinnOak Resources, LLC), which is referred to as PinnOak, a producer of high-quality, low-volatile metallurgical coal. Results for 2007 include PinnOak's results since the acquisition.
- (b) On April 19, 2005, Cleveland-Cliffs completed the acquisition of 80.4 percent of Portman, an iron ore mining company in Australia. The acquisition was initiated on March 31, 2005 by the purchase of approximately 68.7 percent of Portman's outstanding shares. Results for 2005 include Portman's results since the acquisition. On May 21, 2008, Portman authorized a tender offer to repurchase up to 16.5 million shares, or 9.39 percent of its common stock, and as a result of the repurchase of shares pursuant to the tender offer, Cleveland-Cliffs ownership interest in Portman increased from 80.4 percent to 85.2 percent on June 24, 2008. See Information about Cleveland-Cliffs Business Strategic Transformation on page 116.
- (c) Effective January 1, 2005, Cleveland-Cliffs adopted Emerging Issues Task Force, or EITF, 04-6, Accounting for Stripping Costs Incurred during Production in the Mining Industry.
- (d) On March 11, 2008, the board of directors of Cleveland-Cliffs declared a two-for-one stock split of its common shares. The record date for the stock split was May 1, 2008 with a distribution date of May 15, 2008. Accordingly, all common shares and per share amounts for all periods presented have been adjusted retroactively to reflect the stock split.
- (e) On May 9, 2006, the board of directors of Cleveland-Cliffs approved a two-for-one stock split of its common shares. The record date for the stock split was June 15, 2006 with a distribution date of June 30, 2006. Accordingly, all common shares and per share amounts for all periods presented have been adjusted retroactively to reflect the stock split.
- (f) On November 9, 2004, the board of directors of Cleveland-Cliffs approved a two-for-one stock split of its common shares. The record date for the stock split was December 15, 2004, with a distribution date of

December 31, 2004. Accordingly, all common shares and per share amounts for all periods presented have been adjusted retroactively to reflect the stock split.

- (g) In 2003, Cleveland-Cliffs recognized a \$2.2 million extraordinary gain in conjunction with the acquisition of the assets of Eveleth Mines; \$3.3 million acquisition and startup costs for this same mine, renamed United Taconite LLC, which is referred to as United Taconite, and \$8.7 million of restructuring charges related to a salaried employee reduction program.

**Table of Contents****Selected Historical Consolidated Financial Data of Alpha**

The following table shows selected historical financial and other data for Alpha. The selected financial data as of December 31, 2007, 2006, and 2005, and for the years then ended has been derived from the audited consolidated financial statements and related footnotes of Alpha. The selected historical financial data as of December 31, 2004 and for the year then ended has been derived from the combined financial statements of ANR Fund IX Holdings, L.P. and Alpha NR Holding, Inc. and subsidiaries (the owners of a majority of the membership interests of ANR Holdings, LLC prior to the February 11, 2005 restructuring) and the related notes, which are not included or incorporated by reference in this joint proxy statement/prospectus. The selected historical financial data as of December 31, 2003 and for the year then ended has been derived from the audited combined balance sheet of ANR Fund IX Holdings, L.P. and Alpha NR Holding, Inc. and subsidiaries, which are not included or incorporated by reference in this joint proxy statement/prospectus. The data as of and for the six months ended June 30, 2008 and 2007 has been derived from Alpha's unaudited condensed consolidated financial statements included in Alpha's quarterly report on Form 10-Q for the period ended June 30, 2008 incorporated by reference in this joint proxy statement/prospectus and, in the opinion of Alpha's management, includes all adjustments, consisting of normal and recurring adjustments, necessary to present fairly the data for such periods. The operating results for the six months ended June 30, 2008 are not necessarily indicative of results for the full year ending December 31, 2008.

Detailed historical financial information included in the audited consolidated balance sheets as of December 31, 2007 and 2006, and the related consolidated statements of income, stockholders' equity and partners' capital and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2007, are included in Alpha's Annual Report on Form 10-K for the fiscal year ended December 31, 2007 and incorporated by reference in this joint proxy statement/prospectus. You should read the following selected financial data together with Alpha's historical consolidated financial statements, including the related notes, and the other information contained or incorporated by reference in this joint proxy statement/prospectus. See "Where You Can Find More Information" on page 238.

Prior period coal revenues and cost of coal sales have been reclassified to exclude changes in the fair value of coal and diesel fuel derivatives contracts to conform to current year presentation. These reclassification adjustments had no effect on previously reported income from operations or net income.

(1) Basic earnings per share is computed by dividing net income or loss by the weighted average number of shares of common stock outstanding during the periods. Diluted earnings per share is computed by dividing net income or loss by the weighted average number of shares of common stock and dilutive common stock equivalents outstanding during the periods. Common stock equivalents include the number of shares issuable on exercise of outstanding options less the number of shares that could have been purchased with the proceeds from the exercise of the options based on the average price of common stock during the period. Due to the internal restructuring on February 11, 2005 and initial public offering of common stock completed on February 18, 2005, the calculation of earnings per share for 2005, 2004, and 2003 reflects certain adjustments, as described below.

The numerator for purposes of computing basic and diluted net income (loss) per share, as adjusted, includes the reported net income (loss) and a pro forma adjustment for income taxes to reflect the pro forma income taxes for ANR Fund IX Holdings, L.P.'s portion of reported pre-tax income (loss), which would have been recorded if the issuance of the shares of common stock received by ANR Fund IX Holdings, L.P. and Alpha NR Holding, Inc. in exchange for their ownership in ANR Holdings in connection with the February 11, 2005 restructuring had occurred as of January 1, 2003. For purposes of the computation of basic and diluted net income (loss) per share,

as adjusted, the pro forma adjustment for income taxes only applies to the percentage interest owned by ANR Fund IX Holding, L.P, the nontaxable affiliate. No pro forma adjustment for income taxes is required for the percentage interest owned by Alpha NR Holding, Inc., because income taxes have already been recorded in the historical results of operations. Furthermore, no pro forma adjustment to reported net income (loss) is necessary subsequent to February 11, 2005 because Alpha is subject to income taxes.

The denominator for purposes of computing basic net income (loss) per share, as adjusted, reflects the retroactive impact of the common shares received by ANR Fund IX Holdings, L.P. and Alpha NR Holding, Inc. in exchange for their ownership in ANR Holdings in connection with the internal restructuring on a weighted-average outstanding share basis as being outstanding as of January 1, 2003. The common shares issued to the minority interest owners of ANR Holdings in connection with the internal restructuring, including the immediately vested shares granted to management, have been reflected as being outstanding as of February 11, 2005 for purposes of computing the basic net income (loss) per share, as adjusted. The unvested shares granted to management on February 11, 2005 that vest monthly over the two-year period from January 1, 2005 to December 31, 2006 are included in the basic net income (loss) per share, as adjusted, computation as they vest on a weighted-average outstanding share basis starting on February 11, 2005. The 33,925,000 new shares issued in connection with the initial public offering have been reflected as being outstanding since February 14, 2005,

**Table of Contents**

the date of the initial public offering, for purposes of computing the basic net income (loss) per share, as adjusted.

The unvested shares issued to management are considered options for purposes of computing diluted net income (loss) per share, as adjusted. Therefore, for diluted purposes, all remaining unvested shares granted to management are added to the denominator subsequent to February 11, 2005 using the treasury stock method, if the effect is dilutive. In addition, the treasury stock method is used for outstanding stock options, if dilutive, beginning with the November 10, 2004 grant of options to management to purchase units in Alpha Coal Management, LLC that were automatically converted into options to purchase up to 596,985 shares of Alpha common stock at an exercise price of \$12.73 per share.

The computations of basic and diluted net income (loss) per share, as adjusted for 2005, 2004, and 2003 are set forth below:

	<b>Year Ended December 31,</b>		
	<b>2005</b>	<b>2004</b>	<b>2003</b>
	<b>(In thousands, except per share amounts)</b>		
Numerator:			
Reported income from continuing operations	\$ 21,426	\$ 22,388	\$ 2,752

Net income per share, as adjusted	\$ 0.38	\$ 1.36	\$ 0.15

(2) Pro forma net income (loss) per share gives effect to the following transactions as if each of these transactions had occurred on January 1, 2004: the Nicewonder acquisition and related debt refinancing in October 2005, the

February 11, 2005 restructuring and initial public offering in February 2005, the issuance in May 2004 of \$175.0 million principal amount of 10% senior notes due 2012, and the entry into a \$175.0 million revolving credit facility in May 2004.

**Table of Contents****Selected Unaudited Pro Forma Condensed Consolidated Financial Data**

The following selected unaudited pro forma condensed consolidated financial data of Cleveland-Cliffs and Alpha give effect to the merger as if the merger had been completed as of January 1, 2007, with respect to the pro forma results of operations data, and as of June 30, 2008, with respect to the pro forma balance sheet data.

The following unaudited pro forma condensed consolidated financial data should be read in conjunction with the historical consolidated financial statements and notes thereto of Cleveland-Cliffs, which are included elsewhere in this joint proxy statement/prospectus, and Alpha, which are incorporated by reference in this joint proxy statement/prospectus, and the other information contained or incorporated by reference in this joint proxy statement/prospectus. See *Where You Can Find More Information* on page 238 and *Financial Statements and Information* beginning on page F-i.

The following unaudited pro forma condensed consolidated financial data reflect the purchase method of accounting, with Cleveland-Cliffs treated as the acquirer. The following unaudited pro forma condensed consolidated financial data reflect adjustments, which are based upon preliminary estimates, to allocate the purchase price to Alpha's net assets. The purchase price allocation reflected herein is preliminary, and final allocation of the purchase price will be based upon the actual purchase price and the actual assets and liabilities of Alpha as of the date of the completion of the merger. Accordingly, the actual purchase accounting adjustments may differ materially from the pro forma adjustments reflected herein.

The following unaudited pro forma condensed consolidated financial data is presented for illustrative purposes only and is not necessarily indicative of what the combined company's actual financial position or results of operations would have been had the merger been completed on the dates indicated above. The following unaudited pro forma condensed consolidated financial data does not give effect to (1) Cleveland-Cliffs' or Alpha's results of operations or other transactions or developments since June 30, 2008, (2) the synergies, cost savings and one-time charges expected to result from the merger, or (3) the effects of transactions or developments, including sales or purchases of assets, which may occur subsequent to the merger. The foregoing matters could cause both Cleveland-Cliffs' pro forma historical financial position and results of operations, and the combined company's actual future financial position and results of operations, to differ materially from those presented in the following unaudited pro forma condensed consolidated financial data.

	<b>Six Months Ended June 30, 2008 (In millions, except per share data)</b>	<b>Year Ended December 31, 2007 (In millions, except per share data)</b>

**Table of Contents****COMPARATIVE PER SHARE INFORMATION**

The following tables set forth for the periods presented certain per share data separately for Cleveland-Cliffs and Alpha on a historical basis, on an unaudited pro forma combined basis per Cleveland-Cliffs common share and on an unaudited pro forma combined basis per equivalent share of common stock of Alpha. The following unaudited pro forma condensed consolidated financial data should be read in conjunction with the historical consolidated financial statements and notes thereto of Cleveland-Cliffs, which are included elsewhere in this joint proxy statement/prospectus, and Alpha, which are incorporated by reference in this joint proxy statement/prospectus, and the other information contained or incorporated by reference in this joint proxy statement/prospectus. See **Where You Can Find More Information** on page 238 and **Financial Statements and Information** beginning on page F-i.

The unaudited pro forma combined data per Cleveland-Cliffs common share are based upon the historical weighted average number of Cleveland-Cliffs common shares outstanding, adjusted to include the estimated number of Cleveland-Cliffs common shares to be issued in the merger. See **Unaudited Pro Forma Condensed Consolidated Financial Information** beginning on page 227. We have based the unaudited pro forma combined data per Alpha equivalent common share on the unaudited pro forma combined per Cleveland-Cliffs common share amounts, multiplied by the exchange ratio of 0.95. The exchange ratio does not include the \$22.23 per share cash portion of the merger consideration. This data shows how each share of Alpha common stock would have participated in the income from continuing operations and book value of Cleveland-Cliffs if the companies had always been consolidated for accounting and financial reporting purposes for all periods presented. These amounts, however, are not intended to reflect future per share levels of income from continuing operations and book value of the combined company.

The following unaudited pro forma data reflect the purchase method of accounting, with Cleveland-Cliffs treated as the acquirer. The following unaudited pro forma data reflect adjustments, which are based upon preliminary estimates, to allocate the purchase price to Alpha's net assets. The purchase price allocation reflected herein is preliminary, and final allocation of the purchase price will be based upon the actual purchase price and the actual assets and liabilities of Alpha as of the date of the completion of the merger. Accordingly, the actual purchase accounting adjustments may differ from the pro forma adjustments reflected herein.

The following unaudited pro forma data are presented for illustrative purposes only and are not necessarily indicative of what the combined company's actual financial position or results of operations would have been had the merger been completed on the dates indicated above. The following unaudited pro forma data do not give effect to (1) Cleveland-Cliffs' or Alpha's results of operations or other transactions or developments since December 31, 2007, (2) the synergies, cost savings and one-time charges expected to result from the merger, or (3) the effects of transactions or developments, including sales of assets, which may occur subsequent to the merger. The foregoing matters could cause both Cleveland-Cliffs' pro forma historical financial position and results of operations, and Cleveland-Cliffs' actual future financial position and results of operations, to differ materially from those presented in the following unaudited pro forma condensed consolidated financial data.

Closing price per common share	\$ 111.46	\$ 94.92	\$ 128.12
Market value of common shares (in billions)(2)	\$ 11.6	\$ 6.69	N/A
August 11, 2008			
Closing price per common share	\$ 85.90	\$ 88.30	\$ 103.84
Market value of common shares (in billions)(3)	\$ 9.17	\$ 6.22	N/A

- (1) The Alpha equivalent price per share reflects the fluctuating value of Cleveland-Cliffs common shares that Alpha stockholders would receive for each share of Alpha common stock if the merger were completed on either July 15, 2008 or August 11 2008. The Alpha equivalent price per share is equal to the sum of (i) the closing price of a Cleveland-Cliffs common share on the applicable date multiplied by 0.95 and (ii) \$22.23.
- (2) Based on 104,145,300 Cleveland-Cliffs common shares and 70,495,814 shares of Alpha common stock outstanding as of July 15, 2008 (excluding outstanding shares held in treasury).
- (3) Based on 106,720,512 Cleveland-Cliffs common shares and 70,495,814 shares of Alpha common stock outstanding as of August 11, 2008 (excluding outstanding shares held in treasury).

**Table of Contents**

**RISK FACTORS**

In deciding whether to vote for the adoption of the merger agreement, in the case of Alpha stockholders, or for adoption of the merger agreement and approval of the issuance of Cleveland-Cliffs common shares, in the case of Cleveland-Cliffs shareholders, we urge you to carefully consider all of the information included or incorporated by reference in this joint proxy statement/prospectus. See *Where You Can Find More Information* on page 238. You should also read and consider the risks associated with each of the businesses of Cleveland-Cliffs and Alpha because these risks will also affect the combined company. The risks associated with the business of Alpha can be found in the Alpha Annual Report on Form 10-K for the year ended December 31, 2007, which is incorporated by reference in this joint proxy statement/prospectus. In addition, we urge you to carefully consider the following material risks relating to the merger, the business of Cleveland-Cliffs and the business of the combined company.

**Risks Relating to the Merger**

*Cleveland-Cliffs may fail to realize all of the anticipated benefits of the merger, which could reduce Cleveland-Cliffs profitability.*

Cleveland-Cliffs expects that the acquisition of Alpha will result in certain synergies, business opportunities and growth prospects. Cleveland-Cliffs, however, may never realize these expected synergies, business opportunities and growth prospects. Integrating operations will be complex and will require significant efforts and expenses on the part of both Cleveland-Cliffs and Alpha. Personnel may leave or be terminated because of the merger. Cleveland-Cliffs management may have its attention diverted while trying to integrate Alpha. In addition, Cleveland-Cliffs may experience increased competition that limits its ability to expand its business, Cleveland-Cliffs may not be able to capitalize on expected business opportunities including retaining Alpha's current customers, assumptions underlying estimates of expected cost savings may be inaccurate, or general industry and business conditions may deteriorate. If these factors limit Cleveland-Cliffs' ability to integrate the operations of Alpha successfully or on a timely basis, Cleveland-Cliffs' expectations of future results of operations, including certain cost savings and synergies expected to result from the merger, may not be met. In addition, Cleveland-Cliffs' growth and operating strategies for Alpha's business may be different from the strategies that Alpha currently is pursuing.

*Because the market price of Cleveland-Cliffs common shares will fluctuate, Alpha stockholders cannot be sure of the value of the merger consideration they will receive.*

In the merger, each share of Alpha common stock (other than shares of Alpha common stock held by any dissenting Alpha stockholder that has properly exercised appraisal rights in accordance with Delaware law, shares of Alpha common stock held in treasury by Alpha or shares of Alpha common stock owned by Cleveland-Cliffs) will be converted into the right to receive \$22.23 in cash and 0.95 of a common share of Cleveland-Cliffs. The price of Cleveland-Cliffs common shares at the closing date of the merger or when the Cleveland-Cliffs common shares are received by Alpha stockholders may vary from their respective prices on the date of this joint proxy statement/prospectus and on the date of the Alpha special meeting. As a result, Cleveland-Cliffs shareholders and Alpha stockholders will not know the exact value of the Cleveland-Cliffs common shares that will be issued in the merger at the time they vote on the merger proposals. Share price changes may result from a variety of factors, including general market and economic conditions, changes in Cleveland-Cliffs' and Alpha's respective businesses, operations and prospects, and regulatory considerations. Many of these factors are beyond Cleveland-Cliffs' and Alpha's control. You should obtain current market quotations for Cleveland-Cliffs common shares and shares of Alpha common stock.

*The market price for common shares of Cleveland-Cliffs may be affected by factors different from, or in addition to, those affecting shares of Alpha common stock, and the market value of Cleveland-Cliffs common shares may decrease after the closing date of the merger.*

The businesses of Cleveland-Cliffs and Alpha differ in some respects and, accordingly, the results of operations of the combined company and the market price of the combined company's common shares may be affected by factors different from those currently affecting the independent results of operations of each of

**Table of Contents**

Cleveland-Cliffs and Alpha. In addition, the market value of the common shares of Cleveland-Cliffs that Alpha stockholders receive in the merger could decrease following the closing date of the merger. For a discussion of the business of Cleveland-Cliffs and factors to consider in connection with its business, please see Information about Cleveland-Cliffs beginning on page 116 and the information included elsewhere in this joint proxy statement/prospectus. For a discussion of the business of Alpha and factors to consider in connection with its business, please see Information about Alpha on page 143 and the documents and information incorporated by reference into this joint proxy statement/prospectus and listed under the section captioned Where You Can Find More Information, on page 238.

***Opposition by Harbinger Capital Partners, a shareholder of Cleveland-Cliffs, and/or other significant shareholders of Cleveland-Cliffs may prevent completion of the merger.***

The adoption of the merger agreement and the approval of the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement requires the affirmative vote of at least two-thirds of the votes entitled to be cast by the holders of outstanding common shares and Series A-2 preferred stock of Cleveland-Cliffs, voting together as a class. As a result, the failure of Harbinger Capital Partners and its affiliates, which, according to a filing on Schedule 13D, filed with the SEC on July 17, 2008, beneficially own 16,616,472 common shares of Cleveland-Cliffs (which as of August 11, 2008 represented 15.57% of Cleveland-Cliffs outstanding common shares), to vote in favor of the adoption of the merger agreement and the issuance of Cleveland-Cliffs common shares in connection with the merger would significantly decrease the likelihood that the merger will be completed. On July 17, 2008, Harbinger Capital Partners publicly stated that it did not believe that the merger would be in the best interests of Cleveland-Cliffs shareholders. If Harbinger Capital Partners and/or other significant shareholders of Cleveland-Cliffs oppose the merger, then Cleveland-Cliffs ability to obtain its required shareholder approval will be adversely affected.

***Obtaining required approvals and satisfying closing conditions may prevent or delay completion of the merger.***

The merger is subject to customary conditions to closing. These closing conditions include, among others, the receipt of required approvals of the stockholders of Alpha and shareholders of Cleveland-Cliffs and the receipt of certain governmental consents and approvals, including the expiration or termination of the applicable waiting period under the HSR Act. No assurance can be given that the required shareholder and governmental consents and approvals will be obtained or that the required conditions to closing will be satisfied, and, if all required consents and approvals are obtained and the conditions are satisfied, no assurance can be given as to the terms, conditions and timing of the consents and approvals. Cleveland-Cliffs and Alpha will also be obligated to pay certain investment banking, financing, legal and accounting fees and related expenses in connection with the merger, whether or not the merger is completed.

***The fairness opinions obtained by Cleveland-Cliffs and Alpha from their respective financial advisors will not reflect changes in circumstances between signing the merger agreement and the completion of the merger.***

Cleveland-Cliffs and Alpha have not obtained updated opinions as of the date of this document from J.P. Morgan, Cleveland-Cliffs financial advisor, or Citi, Alpha's financial advisor. These opinions speak only as of their respective dates and do not address the fairness of the merger consideration, from a financial point of view, at the time the merger is completed. Changes in the operations and prospects of Cleveland-Cliffs or Alpha, general market and economic conditions and other factors which may be beyond the control of Cleveland-Cliffs and Alpha, and on which the fairness opinions were based, may alter the value of Cleveland-Cliffs or Alpha or the prices of Cleveland-Cliffs common shares or shares of Alpha common stock by the time the merger is completed. For a description of the opinions that Cleveland-Cliffs and Alpha received from their respective financial advisors, please refer to The Merger Opinion of Cleveland-Cliffs Financial Advisor beginning on page 75 and The Merger Opinion of Alpha's Financial Advisor beginning on page 63.

## **Table of Contents**

***Whether or not the merger is completed, the announcement and pendency of the merger could cause disruptions in the businesses of Cleveland-Cliffs and Alpha, which could have an adverse effect on their respective businesses and financial results.***

Whether or not the merger is completed, the announcement and pendency of the merger could cause disruptions in the businesses of Cleveland-Cliffs and Alpha. Specifically:

current and prospective employees of Alpha will experience uncertainty about their future roles with the combined company, which might adversely affect Cleveland-Cliffs and Alpha's ability to retain key managers and other employees; and

the attention of management of each of Cleveland-Cliffs and Alpha may be directed toward the completion of the merger.

In addition, Cleveland-Cliffs and Alpha have each diverted significant management resources in an effort to complete the merger and are each subject to restrictions contained in the merger agreement on the conduct of their respective businesses. If the merger is not completed, Cleveland-Cliffs and Alpha will have incurred significant costs, including the diversion of management resources, for which they will have received little or no benefit. Further, Alpha and Cleveland-Cliffs may be required to pay to the other a termination fee of either \$100 million or \$350 million if the merger agreement is terminated, depending on the specific circumstances of the termination. For a detailed description of the circumstances in which such termination fee will be paid, see *The Merger Agreement – Termination Fees* on page 113.

***Certain directors and executive officers of Alpha have interests and arrangements that may be different from, or in addition to, those of Alpha stockholders.***

When considering the recommendation of the Alpha board of directors with respect to the merger, Alpha stockholders should be aware that some directors and executive officers of Alpha have interests in the merger that may be different from, or in addition to, their interests as stockholders and the interests of stockholders generally. These interests include, among others, payments under employment agreements and severance agreements, acceleration of vesting and exercisability of options and restricted stock as a result of the merger and the right to continued indemnification and insurance coverage by Cleveland-Cliffs for acts or omissions occurring prior to the merger.

As a result of these interests, these directors and executive officers may be more likely to support and to vote to adopt the merger agreement than if they did not have these interests. Shareholders should consider whether these interests may have influenced those directors and executive officers to support or recommend adoption of the merger agreement. As of the close of business on the record date for the Alpha special meeting, Alpha directors and executive officers were entitled to vote % of the then-outstanding shares of Alpha common stock. See *The Merger – Interests of Alpha Directors and Executive Officers in the Merger* on page 83.

## **Risks Associated with the Cleveland-Cliffs Business**

***If the rate of steel consumption slows globally, it could lead to excess global capacity, increasing competition within the steel industry and increased imports into the United States, potentially lowering the demand for iron ore and coal.***

The world price of iron ore and coal are strongly influenced by international demand. The current growing level of international demand for raw materials for steel production is largely due to the rapid industrial growth in China. Production at Portman, which comprises Cleveland-Cliffs' Asian-Pacific Iron Ore segment, is fully committed to steel

companies in China and Japan. In addition, all 2008 production at Sonoma is committed under supply agreements with customers in Asia, including China. If the economic growth rate in China slows, which may be difficult to forecast, less steel may be used in construction and manufacturing, which could decrease demand for iron ore and coal. This could adversely impact the world iron ore and coal markets and Cleveland-Cliffs operations, specifically, at Portman and Sonoma. A slowing of the economic growth rate globally leading to overcapacity in the steelmaking industry could also result in greater exports of steel out of Eastern Europe, Asia and Latin America, which, if imported into North America, could decrease demand for domestically produced steel,

**Table of Contents**

thereby decreasing the demand for iron ore and coal supplied in North America. During 2006, China became the world's largest exporter of steel.

China's domestic crude steel production climbed approximately 17 percent in 2007 as compared to 2006. Based on the American Iron and Steel Institute's Apparent Steel Supply (excluding semi-finished steel products), imports of steel into the United States constituted 23.3 percent, 27.3 percent and 21.3 percent of the domestic steel market supply for 2007, 2006 and 2005, respectively. Further, production of steel by North American integrated steel manufacturers may also be replaced, to some extent, by production of substitute materials by other manufacturers. In the case of some product applications, North American steel manufacturers compete with manufacturers of other materials, including plastic, aluminum, graphite composites, ceramics, glass, wood and concrete. Most of Cleveland-Cliffs' term supply agreements for the sale of iron ore products are requirements-based or provide for flexibility of volume above a minimum level. Reduced demand for and consumption of iron ore products by integrated steel producers have had and may continue to have a significant negative impact on Cleveland-Cliffs' sales, margins and profitability.

***Capacity expansions within the industry could lead to lower global iron ore and coal prices or impact Cleveland-Cliffs' production.***

The increased demand for iron ore and coal, particularly from China, has resulted in the major iron ore and metallurgical coal suppliers increasing their capacity. Many of Cleveland-Cliffs' competitors have announced plans to increase their capacity through capital expenditures, project expansion and acquisitions to capitalize on these opportunities. An increase in Cleveland-Cliffs' competitors' capacity could result in excess supply of iron ore and coal, resulting in downward pressure on prices. A decrease in pricing would adversely impact Cleveland-Cliffs' sales, margins and profitability.

***If steelmakers use methods other than blast furnace production to produce steel, or if their blast furnaces shut down or otherwise reduce production, the demand for Cleveland-Cliffs' iron ore and coal products may decrease.***

Demand for Cleveland-Cliffs' iron ore and coal products is determined by the operating rates for the blast furnaces of steel companies. However, not all finished steel is produced by blast furnaces; finished steel also may be produced by other methods that do not require iron ore products. For example, steel mini-mills, which are steel recyclers, generally produce steel primarily by using scrap steel and other iron products, not iron ore pellets, in their electric furnaces. Production of steel by steel mini-mills was approximately 60 percent of North American total finished steel production in 2007. Steel producers also can produce steel using imported iron ore or semi-finished steel products, which eliminates the need for domestic iron ore. Environmental restrictions on the use of blast furnaces also may reduce Cleveland-Cliffs' customers' use of their blast furnaces. Maintenance of blast furnaces can require substantial capital expenditures. Cleveland-Cliffs' customers may choose not to maintain their blast furnaces, and some of Cleveland-Cliffs' customers may not have the resources necessary to adequately maintain their blast furnaces. If Cleveland-Cliffs' customers use methods to produce steel that do not use iron ore and coal products, demand for Cleveland-Cliffs' iron ore and coal products will decrease, which could adversely affect its sales, margins and profitability.

***A substantial majority of Cleveland-Cliffs' sales are made under term supply agreements, which are important to the stability and profitability of its operations.***

In 2007, more than 95 percent of Cleveland-Cliffs' North American Iron Ore sales volume, the majority of Cleveland-Cliffs' North American Coal sales, and virtually all of Cleveland-Cliffs' Asia-Pacific Iron Ore sales were sold under term supply agreements. For North American Coal, these agreements typically cover a twelve-month period and must be renewed each year. The Asia-Pacific Iron Ore contracts expire in 2010. Cleveland-Cliffs cannot be certain that it will be able to renew or replace existing term supply agreements at the same volume levels, prices or

with similar profit margins when they expire. A loss of sales to Cleveland-Cliffs' existing customers could have a substantial negative impact on Cleveland-Cliffs' sales, margins and profitability.

**Table of Contents**

Cleveland-Cliffs North American Iron Ore term supply agreements contain a number of price adjustment provisions, or price escalators, including adjustments based on general industrial inflation rates, the price of steel and the international price of iron ore pellets, among other factors, that allow Cleveland-Cliffs to adjust the prices under those agreements generally on an annual basis. Cleveland-Cliffs price adjustment provisions are weighted and some are subject to annual collars, which limit its ability to raise prices to match international levels and fully capitalize on strong demand for iron ore. Most of Cleveland-Cliffs North American Iron Ore term supply agreements do not otherwise allow Cleveland-Cliffs to increase its prices and to directly pass through higher production costs to its customers. An inability to increase prices or pass along increased costs could adversely affect Cleveland-Cliffs margins and profitability.

***In North America, Cleveland-Cliffs depends on a limited number of customers.***

Five customers together accounted for more than 80 percent of Cleveland-Cliffs North American Iron Ore sales revenues measured as a percent of product revenues for each of the past three years. If one or more of these customers were to significantly reduce their purchases of products from Cleveland-Cliffs, or if Cleveland-Cliffs were unable to sell products to them on terms as favorable to it as the terms under its current term supply agreements, Cleveland-Cliffs North American sales, margins and profitability could suffer materially due to the high level of fixed costs and the high costs to idle or close mines. The majority of the iron ore Cleveland-Cliffs manages and produces is for its own account, and therefore Cleveland-Cliffs relies on sales to its joint venture partners and other third-party customers for most of its revenues.

***Mine closures entail substantial costs, and if Cleveland-Cliffs closes one or more of its mines sooner than anticipated, its results of operations and financial condition may be significantly and adversely affected.***

If Cleveland-Cliffs closes any of its mines, its revenues would be reduced unless Cleveland-Cliffs were able to increase production at its other mines, which may not be possible. The closure of a mining operation involves significant fixed closure costs, including accelerated employment legacy costs, severance-related obligations, reclamation and other environmental costs, and the costs of terminating long-term obligations, including energy contracts and equipment leases. Cleveland-Cliffs bases its assumptions regarding the life of its mines on detailed studies Cleveland-Cliffs performs from time to time, but those studies and assumptions are subject to uncertainties and estimates that may not be accurate. Cleveland-Cliffs recognizes the costs of reclaiming open pits and shafts, stockpiles, tailings ponds, roads and other mining support areas based on the estimated mining life of its property. If Cleveland-Cliffs were to significantly reduce the estimated life of any of its mines, the mine-closure costs would be applied to a shorter period of production, which would increase production costs per ton produced and could significantly and adversely affect Cleveland-Cliffs results of operations and financial condition.

A North American mine permanent closure could significantly increase and accelerate employment legacy costs, including Cleveland-Cliffs expense and funding costs for pension and other postretirement benefit obligations. A number of employees would be eligible for immediate retirement under special eligibility rules that apply upon a mine closure. All employees eligible for immediate retirement under the pension plans at the time of the permanent mine closure also would be eligible for postretirement health and life insurance benefits, thereby accelerating Cleveland-Cliffs obligation to provide these benefits. Certain mine closures would precipitate a pension closure liability significantly greater than an ongoing operation liability. Finally, a permanent mine closure could trigger severance-related obligations, which can equal up to eight weeks of pay per employee, depending on length of service. No employee entitled to an immediate pension upon closure of a mine is entitled to severance. As a result, the closure of one or more of Cleveland-Cliffs mines could adversely affect its financial condition and results of operations.

***Cleveland-Cliffs relies on estimates of its recoverable reserves, which is complex due to geological characteristics of the properties and the number of assumptions made.***

Cleveland-Cliffs regularly evaluates its North American iron ore and coal reserves based on revenues and costs and updates them as required in accordance with SEC Industry Guide 7. Portman and Sonoma have published reserves which follow Joint Ore Reserves Code in Australia, which is similar to United States requirements. Changes to the reserve value to make them comply with SEC requirements have been made. There are numerous

**Table of Contents**

uncertainties inherent in estimating quantities of reserves of Cleveland-Cliffs mines, many of which have been in operation for several decades, including many factors beyond Cleveland-Cliffs' control.

Estimates of reserves and future net cash flows necessarily depend upon a number of variable factors and assumptions, such as production capacity, effects of regulations by governmental agencies, future prices for iron ore and coal, future industry conditions and operating costs, severance and excise taxes, development costs and costs of extraction and reclamation, all of which may in fact vary considerably from actual results. For these reasons, estimates of the economically recoverable quantities of mineralized deposits attributable to any particular group of properties, classifications of such reserves based on risk of recovery and estimates of future net cash flows prepared by different engineers or by the same engineers at different times may vary substantially as the criteria change. Estimated ore and coal reserves could be affected by future industry conditions, geological conditions and ongoing mine planning. Actual production, revenues and expenditures with respect to Cleveland-Cliffs' reserves will likely vary from estimates, and if such variances are material, Cleveland-Cliffs' sales and profitability could be adversely affected.

***A defect in the title or the loss of a leasehold interest in certain property could limit Cleveland-Cliffs' ability to mine its reserves or result in significant unanticipated costs.***

Cleveland-Cliffs conducts a significant part of its mining operations on property that it leases. A title defect or the loss of a lease could adversely affect Cleveland-Cliffs' ability to mine the associated reserves. As such, the title to property that Cleveland-Cliffs intends to lease or reserves that it intends to mine may contain defects prohibiting its ability to conduct mining operations. In order to conduct its mining operations on properties where these defects exist, Cleveland-Cliffs may incur unanticipated costs. In addition, some leases require Cleveland-Cliffs to pay minimum royalties. Cleveland-Cliffs' inability to satisfy those requirements may cause the leasehold interest to terminate.

***Cleveland-Cliffs relies on its joint venture partners in its mines to meet their payment obligations and is subject to risks involving the acts or omissions of its joint venture partners when Cleveland-Cliffs is not the manager of the joint venture.***

Cleveland-Cliffs co-owns four of its six North American mines with various joint venture partners that are integrated steel producers or their subsidiaries, including ArcelorMittal USA Inc., or ArcelorMittal USA, and U.S. Steel Canada Inc. (formerly Stelco Inc.), or U.S. Steel Canada. While Cleveland-Cliffs is the manager of each of the mines it co-owns, Cleveland-Cliffs relies on its joint venture partners to make their required capital contributions and to pay for their share of the iron ore pellets that Cleveland-Cliffs produces. Most of Cleveland-Cliffs' venture partners are also its customers. If one or more of Cleveland-Cliffs' venture partners fail to perform their obligations, the remaining venturers, including Cleveland-Cliffs, may be required to assume additional material obligations, including significant pension and postretirement health and life insurance benefit obligations. The premature closure of a mine due to the failure of a joint venture partner to perform its obligations could result in significant fixed mine-closure costs, including severance, employment legacy costs and other employment costs, reclamation and other environmental costs, and the costs of terminating long-term obligations, including energy contracts and equipment leases.

Cleveland-Cliffs cannot control the actions of its joint venture partners, especially when it has a minority interest in a joint venture and is not designated as the manager of the joint venture. Further, in spite of performing customary due diligence prior to entering into a joint venture, Cleveland-Cliffs cannot guaranty full disclosure of prior acts or omissions of the sellers or those with whom Cleveland-Cliffs enters into joint ventures. Most recently, Cleveland-Cliffs learned that the Brazilian Federal Police have initiated a criminal investigation into how the Amapá railway concession was obtained prior to Cleveland-Cliffs' involvement in the project. Such risks could have a material adverse effect on the business, results of operations or financial condition of Cleveland-Cliffs' joint venture interests.

**Table of Contents**

***Cleveland-Cliffs expenditures for postretirement benefit and pension obligations could be materially higher than it has predicted if its underlying assumptions prove to be incorrect, if there are mine closures or Cleveland-Cliffs joint venture partners fail to perform their obligations that relate to employee pension plans.***

Cleveland-Cliffs provides defined benefit pension plans and other postretirement benefits to eligible union and non-union employees, including Cleveland-Cliffs share of expense and funding obligations with respect to unconsolidated ventures. Cleveland-Cliffs pension expense and its required contributions to its pension plans are directly affected by the value of plan assets, the projected and actual rate of return on plan assets and the actuarial assumptions Cleveland-Cliffs uses to measure its defined benefit pension plan obligations, including the rate at which future obligations are discounted.

Cleveland-Cliffs cannot predict whether changing market or economic conditions, regulatory changes or other factors will increase its pension expenses or its funding obligations, diverting funds Cleveland-Cliffs would otherwise apply to other uses.

Cleveland-Cliffs has calculated its unfunded other postretirement benefits obligation based on a number of assumptions. Discount rate, return on plan assets, and mortality assumptions parallel those utilized for pensions. If Cleveland-Cliffs assumptions do not materialize as expected, cash expenditures and costs that Cleveland-Cliffs incurs could be materially higher. Moreover, Cleveland-Cliffs cannot be certain that regulatory changes will not increase its obligations to provide these or additional benefits. These obligations also may increase substantially in the event of adverse medical cost trends or unexpected rates of early retirement, particularly for bargaining unit retirees for whom there is currently no retiree healthcare cost cap. Early retirement rates likely would increase substantially in the event of a mine closure.

***Equipment and supply shortages may impact Cleveland-Cliffs production.***

The extractive industry has been experiencing long lead times on equipment, tires, and supply needs due to the increased demand for these resources. As the global mining industry increases its capacity, demand for these resources will increase, potentially resulting in higher prices, equipment shortages, or both.

***Cleveland-Cliffs sales and competitive position depend on the ability to transport its products to its customers at competitive rates and in a timely manner.***

Disruption of the lake freighter and rail transportation services because of weather-related problems, including ice and winter weather conditions on the Great Lakes, strikes, lock-outs or other events, could impair Cleveland-Cliffs ability to supply iron ore pellets to its customers at competitive rates or in a timely manner and, thus, could adversely affect Cleveland-Cliffs sales and profitability. Similarly, Cleveland-Cliffs coal operations depend on international freighter and rail transportation services, as well as the availability of dock capacity, and any disruptions to such could impair Cleveland-Cliffs ability to supply coal to its customers at competitive rates or in a timely manner and, thus, could adversely affect Cleveland-Cliffs sales and profitability. Further, reduced levels of government funding may result in a lesser level of dredging, particularly at Great Lakes ports. Less dredging results in lower water levels, which restricts the tonnage freighters can haul over the Great Lakes, resulting in higher freight rates.

Cleveland-Cliffs Asia-Pacific Iron Ore operations are in direct competition with the major world seaborne exporters of iron ore and its customers face higher transportation costs than most other Australian producers to ship its products to the Asian markets because of the location of its major shipping port on the south coast of Australia. Further, increases in transportation costs, decreased availability of ocean vessels or changes in such costs relative to transportation costs incurred by Cleveland-Cliffs competitors, could make its products less competitive, restrict its access to certain markets and have an adverse effect on its sales, margins and profitability.

***Cleveland-Cliffs operating expenses could increase significantly if the price of electrical power, fuel or other energy sources increases.***

Operating expenses at all Cleveland-Cliffs mining locations are sensitive to changes in electricity prices and fuel prices, including diesel fuel and natural gas prices. In Cleveland-Cliffs North American Iron Ore locations, for example, these items make up 24 percent of Cleveland-Cliffs North American Iron Ore operating costs. Prices for electricity, natural gas and fuel oils can fluctuate widely with availability and demand levels from other users.

**Table of Contents**

During periods of peak usage, supplies of energy may be curtailed and Cleveland-Cliffs may not be able to purchase them at historical rates. While Cleveland-Cliffs has some long-term contracts with electrical suppliers, it is exposed to fluctuations in energy costs that can affect its production costs. Cleveland-Cliffs enters into forward fixed-price supply contracts for natural gas and diesel fuel for use in its operations. Those contracts are of limited duration and do not cover all of Cleveland-Cliffs' fuel needs, and price increases in fuel costs could cause Cleveland-Cliffs' profitability to decrease significantly.

***Natural disasters, weather conditions, disruption of energy, unanticipated geological conditions, equipment failures, and other unexpected events may lead Cleveland-Cliffs' customers, its suppliers, or its facilities to curtail production or shut down their operations.***

Operating levels within the industry are subject to unexpected conditions and events that are beyond the industry's control. Those events could cause industry members or their suppliers to curtail production or shut down a portion or all of their operations, which could reduce the demand for Cleveland-Cliffs' iron ore and coal products, and could adversely affect its sales, margins, and profitability.

For example, one of Cleveland-Cliffs' customers shut down a blast furnace for 52 days in 2007. Additionally, in January of 2008, another customer of Cleveland-Cliffs provided Cleveland-Cliffs with a force majeure letter due to a fire on the smaller of its two operating furnaces. In early November 2007, several small cracks were discovered in a kiln riding ring during routine maintenance at Cleveland-Cliffs' Tilden Mining Company L.C., or Tilden, mine. As a result of the cracks, a scheduled major repair was extended approximately 15 days more than expected. Full production resumed in mid-January 2008. An electrical explosion at Cleveland-Cliffs' United Taconite facility on October 12, 2006 resulted in a temporary production curtailment as a result of a loss of electrical power. Full production did not resume until January 2007. In February 2007, severe weather conditions caused significant ice buildup in the basin supplying water to the Hibbing Taconite Company, or Hibbing, facility tailings basin. This caused a production shutdown that lowered first quarter production output. In August 2007 and March 2008, production at Pinnacle Mining Company, LLC, or Pinnacle, slowed as a result of sandstone intrusions encountered within the coal panel being mined at the time, spreading fixed costs over less production than planned.

Interruptions in production capabilities will inevitably increase Cleveland-Cliffs' production costs and reduce its profitability. Cleveland-Cliffs does not have meaningful excess capacity for current production needs, and it is not able to quickly increase production at one mine to offset an interruption in production at another mine.

A portion of Cleveland-Cliffs' production costs are fixed regardless of current operating levels. As noted, Cleveland-Cliffs' operating levels are subject to conditions beyond its control that can delay deliveries or increase the cost of mining at particular mines for varying lengths of time. These conditions include weather conditions (for example, extreme winter weather, floods and availability of process water due to drought) and natural disasters, pit wall failures, unanticipated geological conditions, including variations in the amount of rock and soil overlying the deposits of iron ore and coal, variations in rock and other natural materials and variations in geologic conditions and ore processing changes.

The manufacturing processes that take place in Cleveland-Cliffs' mining operations, as well as in its processing facilities, depend on critical pieces of equipment. This equipment may, on occasion, be out of service because of unanticipated failures. In addition, many of Cleveland-Cliffs' mines and processing facilities have been in operation for several decades, and the equipment is aged. In the future, Cleveland-Cliffs may experience additional material plant shutdowns or periods of reduced production because of equipment failures. Further, remediation of any interruption in production capability may require Cleveland-Cliffs to make large capital expenditures that could have a negative effect on its profitability and cash flows. Cleveland-Cliffs' business interruption insurance would not cover all of the lost revenues associated with equipment failures. Longer-term business disruptions could result in a loss of customers,

which could adversely affect Cleveland-Cliffs' future sales levels, and therefore its profitability.

Regarding the impact of unexpected events happening to Cleveland-Cliffs' suppliers, many of Cleveland-Cliffs' mines are dependent on one source for electric power and for natural gas. For example, Minnesota Power, Inc. is the sole supplier of electric power to Cleveland-Cliffs' Hibbing and United Taconite mines; Wisconsin Electric Power Company, or WEPCO, is the sole supplier of electric power to Cleveland-Cliffs' Tilden and Empire Iron Mining

**Table of Contents**

Partnership, or Empire, mines; and Cleveland-Cliffs Northshore Mining Company, or Northshore, mine is largely dependent on its wholly-owned power facility for its electrical supply. A significant interruption in service from Cleveland-Cliffs energy suppliers due to terrorism, weather conditions, natural disasters, or any other cause can result in substantial losses that may not be fully recoverable, either from its business interruption insurance or responsible third parties.

***Cleveland-Cliffs is subject to extensive governmental regulation, which imposes, and will continue to impose, significant costs and liabilities on Cleveland-Cliffs, and future regulation could increase those costs and liabilities or limit Cleveland-Cliffs ability to produce iron ore and coal products.***

Cleveland-Cliffs is subject to various federal, provincial, state and local laws and regulations in each jurisdiction in which Cleveland-Cliffs has operations on matters such as employee health and safety, air quality, water pollution, plant and wildlife protection, reclamation and restoration of mining properties, the discharge of materials into the environment, and the effects that mining has on groundwater quality and availability. Numerous governmental permits and approvals are required for Cleveland-Cliffs operations. Cleveland-Cliffs cannot be certain that it has been or will be at all times in complete compliance with such laws, regulations and permits. If Cleveland-Cliffs violates or fails to comply with these laws, regulations or permits, it could be fined or otherwise sanctioned by regulators.

Prior to commencement of mining, Cleveland-Cliffs must submit to and obtain approval from the appropriate regulatory authority of plans showing where and how mining and reclamation operations are to occur. These plans must include information such as the location of mining areas, stockpiles, surface waters, haul roads, tailings basins and drainage from mining operations. All requirements imposed by any such authority may be costly and time-consuming and may delay commencement or continuation of exploration or production operations. In addition, new legislation and regulations and orders, including proposals related to climate change and protection of the environment, to which Cleveland-Cliffs would be subject or that would further regulate and tax Cleveland-Cliffs customers, namely the North American integrated steel producer customers, may also require Cleveland-Cliffs or its customers to reduce or otherwise change operations significantly or incur additional costs. Such new legislation, regulations or orders (if enacted) could have a material adverse effect on Cleveland-Cliffs business, results of operations, financial condition or profitability. Cleveland-Cliffs U.S. operations are subject to Maximum Achievable Control Technology emissions standards for particulate matter promulgated by the United States Environmental Protection Agency, which is referred to as the EPA, under the Clean Air Act effective October 31, 2006. The EPA's decision not to regulate emissions of mercury or asbestos in the Maximum Achievable Control Technology Rule is the subject of a court remand, and the outcome cannot be predicted.

Further, Cleveland-Cliffs is subject to a variety of potential liability exposures arising at certain sites where Cleveland-Cliffs does not currently conduct operations. These sites include sites where Cleveland-Cliffs formerly conducted iron ore mining or processing or other operations, inactive sites that Cleveland-Cliffs currently owns, predecessor sites, acquired sites, leased land sites and third-party waste disposal sites. Cleveland-Cliffs may be named as a responsible party at other sites in the future and Cleveland-Cliffs cannot be certain that the costs associated with these additional sites will not be material.

Cleveland-Cliffs also could be held liable for any and all consequences arising out of human exposure to hazardous substances used, released or disposed of by Cleveland-Cliffs or other environmental damage, including damage to natural resources. In particular, Cleveland-Cliffs and certain of its subsidiaries are involved in various claims relating to the exposure of asbestos and silica to seamen who sailed on the Great Lakes vessels formerly owned and operated by certain of Cleveland-Cliffs subsidiaries. The full impact of these claims, as well as whether insurance coverage will be sufficient and whether other defendants named in these claims will be able to fund any costs arising out of these claims, continues to be unknown.

Cleveland-Cliffs Tilden mine was notified on June 17, 2008 by the Mine Safety and Health Administration, or MSHA, that it had conducted an initial screening of Tilden's compliance record. MSHA's notice indicated that, based upon the screening, a potential pattern of violations exists at the mine. If Tilden is placed on the pattern of violations, it will be subject to a higher level of regulatory enforcement that could potentially negatively impact its operations, reducing production and increasing Cleveland-Cliffs' costs.

**Table of Contents**

***Underground mining is subject to increased safety regulation and may require Cleveland-Cliffs to incur additional cost.***

Recent mine disasters have led to the enactment and consideration of significant new federal and state laws and regulations relating to safety in underground coal mines. These laws and regulations include requirements for constructing and maintaining caches for the storage of additional self-contained self rescuers throughout underground mines; installing rescue chambers in underground mines; constant tracking of and communication with personnel in the mines; installing cable lifelines from the mine portal to all sections of the mine to assist in emergency escape; submission and approval of emergency response plans; and new and additional safety training. Additionally, new requirements for the prompt reporting of accidents and increased fines and penalties for violations of these and existing regulations have been implemented. These new laws and regulations may cause Cleveland-Cliffs to incur substantial additional costs, which may adversely impact its operating performance.

***Coal mining is complex due to geological characteristics of the region.***

The geological characteristics of coal reserves, such as depth of overburden and coal seam thickness, make them complex and costly to mine. As mines become depleted, replacement reserves may not be available when required or, if available, may not be capable of being mined at costs comparable to those characteristic of the depleting mines. These factors could materially adversely affect the mining operations and cost structures of, and customers' ability to use coal produced.

***Cleveland-Cliffs' profitability could be negatively affected if it fails to maintain satisfactory labor relations.***

The United Steelworkers, which is referred to as the USW, represents all hourly employees at Cleveland-Cliffs' North American Iron Ore locations except for Northshore. The United Mineworkers of America, which is referred to as UMWA, represents hourly employees at Cleveland-Cliffs' North American Coal locations. Cleveland-Cliffs' four-year labor agreement with its U.S. iron ore labor force expires September 1, 2008. A five-year agreement runs until March 2009 with Cleveland-Cliffs' Canadian work force. The current UMWA agreement runs through 2011 at Cleveland-Cliffs' coal locations. Hourly employees at the Cleveland-Cliffs owned railroads that transport products among its facilities are represented by multiple unions with labor agreements that expire at various dates. If the collective bargaining agreements relating to the employees at Cleveland-Cliffs' mines or railroads are not successfully renegotiated prior to their expiration, Cleveland-Cliffs could face work stoppages or labor strikes.

***Cleveland-Cliffs may encounter labor shortages for critical operational positions, which could affect its ability to produce iron ore products.***

At many of Cleveland-Cliffs' mining locations, many of its mining operational employees are approaching retirement age. As these experienced employees retire, Cleveland-Cliffs may have difficulty replacing them at competitive wages. As a result, wages are increasing to address the turnover.

***Cleveland-Cliffs' profitability could be affected by the failure of outside contractors to perform.***

Portman and Sonoma use contractors to handle many of the operational phases of their mining and processing operations and therefore are subject to the performance of outside companies on key production areas.

***Cleveland-Cliffs' failure to maintain effective internal control over financial reporting may not allow it to accurately report its financial results, which could cause Cleveland-Cliffs' financial statements to become materially misleading and adversely affect the trading price of Cleveland-Cliffs common shares.***

Cleveland-Cliffs requires effective internal control over financial reporting in order to provide reasonable assurance with respect to its financial reports and to effectively prevent fraud. Internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls, or fraud. Therefore, even effective internal controls can provide only reasonable assurance with respect to the preparation and fair presentation of financial statements. If Cleveland-Cliffs cannot provide reasonable assurance with respect to its financial statements and effectively

**Table of Contents**

prevent fraud, Cleveland-Cliffs' financial statements could become materially misleading, which could adversely affect the trading price of Cleveland-Cliffs common shares. Implementing new internal controls and testing the internal control framework will require the dedication of additional resources, management time and expense. If Cleveland-Cliffs fails to maintain an effective internal control environment and perform timely testing, Cleveland-Cliffs could have a material weakness with its internal control over financial reporting. If Cleveland-Cliffs has a material weakness, or a weak control environment, its business, financial condition and operating results could be materially impacted.

***Cleveland-Cliffs may be unable to successfully identify, acquire and integrate strategic acquisition candidates.***

Cleveland-Cliffs' ability to grow successfully through acquisitions depends upon its ability to identify, negotiate, complete and integrate suitable acquisitions and to obtain necessary financing. It is possible that Cleveland-Cliffs will be unable to successfully complete potential acquisitions. In addition, the costs of acquiring other businesses could increase if competition for acquisition candidates increases. Additionally, the success of an acquisition is subject to other risks and uncertainties, including Cleveland-Cliffs' ability to realize operating efficiencies expected from an acquisition, the size or quality of the resource, delays in realizing the benefits of an acquisition, difficulties in retaining key employees, customers or suppliers of the acquired businesses, difficulties in maintaining uniform controls, procedures, standards and policies throughout acquired companies, the risks associated with the assumption of contingent or undisclosed liabilities of acquisition targets, the impact of changes to Cleveland-Cliffs' allocation of purchase price, and the ability to generate future cash flows or the availability of financing.

***Cleveland-Cliffs is subject to risks involving operations in multiple countries.***

Cleveland-Cliffs has a strategy to broaden its scope as a supplier of iron ore and other raw materials to the integrated steel industry in North American and international markets. As Cleveland-Cliffs expands beyond its traditional North American base business, it will be subject to additional risks beyond those risks relating to its North American operations, such as currency fluctuations; legal and tax limitations on Cleveland-Cliffs' ability to repatriate earnings in a tax-efficient manner; potential negative international impacts resulting from U.S. foreign and domestic policies, including government embargoes or foreign trade restrictions; the imposition of duties, tariffs, import and export controls and other trade barriers impacting the seaborne iron ore and coal markets; difficulties in staffing and managing multi-national operations; and uncertainties in the enforcement of legal rights and remedies in multiple jurisdictions. If Cleveland-Cliffs is unable to manage successfully the risks associated with expanding its global business, these risks could have a material adverse effect on its business, results of operations or financial condition.

***Cleveland-Cliffs is subject to a variety of market risks.***

These risks include those caused by changes in the value of equity investments, changes in commodity prices, interest rates and foreign currency exchange rates. Cleveland-Cliffs has established policies and procedures to manage such risks, however certain risks are beyond its control.

**Risks Relating to the Combined Company's Operations After Consummation of the Merger**

In addition to the risks associated with the respective businesses of Cleveland-Cliffs (see Risks Associated with the Cleveland-Cliffs Business beginning on page 29) and Alpha (which are incorporated by reference from Alpha's Annual Report on Form 10-K for the year ended December 31, 2007), the following risks should be considered because they will affect the combined company.

***Cleveland-Cliffs will take on substantial additional indebtedness to finance the merger, which may decrease the combined company's business flexibility and increase its borrowing costs***

Upon completion of the merger, Cleveland-Cliffs will incur approximately \$2 billion in additional indebtedness, and will have consolidated indebtedness that will be substantially greater than its indebtedness prior to the

**Table of Contents**

merger. The increased indebtedness and higher debt-to-equity ratio of the combined company in comparison to that of Cleveland-Cliffs immediately prior to the merger may have the effect, among other things, of reducing the flexibility of the combined company to respond to changing business and economic conditions and increasing borrowing costs.

***Competition within the coal industry may adversely affect the combined company's ability to sell coal.***

Coal with lower production costs shipped east from Western coal mines and from offshore sources has resulted in increased competition for coal sales in the Appalachian region. This competition could result in a decrease in the combined company's market share in this region and a decrease in the combined company's revenues.

Demand for the combined company's high sulfur coal and the price that the combined company can obtain for it will be impacted by, among other things, the changing laws with respect to allowable emissions and the price of emission allowances. Significant increases in the price of those allowances could reduce the competitiveness of high sulfur coal at plants not equipped to reduce sulfur dioxide emissions. Competition from low sulfur coal and possibly natural gas could result in a decrease in the combined company's high-sulfur coal market share and revenues from those operations.

Overcapacity in the coal industry, both domestically and internationally, may affect the price the combined company will receive for its coal. For example, during the 1970s and early 1980s, increased demand for coal and attractive pricing brought new investors to the coal industry and promoted the development of new mines. These factors resulted in added production capacity throughout the industry, which led to increased competition and lower coal prices. Continued coal pricing at relatively high levels, compared to historical levels, could encourage the development of expanded capacity by new or existing coal producers. Any overcapacity could reduce coal prices in the future.

The demand for U.S. coal exports is dependent upon a number of factors outside of the combined company's control, including the overall demand for electricity in foreign markets, currency exchange rates, ocean freight rates, the demand for foreign-produced steel both in foreign markets and in the U.S. market (which is dependent in part on tariff rates on steel), general economic conditions in foreign countries, technological developments, and environmental and other governmental regulations. If foreign demand for U.S. coal were to decline, this decline could cause competition among coal producers in the United States to intensify, potentially resulting in downward pressure on domestic coal prices.

**Table of Contents****CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS**

This joint proxy statement/prospectus, including information and other documents incorporated by reference into this joint proxy statement/prospectus, contains or incorporates by reference or may contain or may incorporate by reference forward-looking statements that have been made pursuant to the provisions of, and in reliance on the safe harbor under, the Private Securities Litigation Reform Act of 1995. These forward-looking statements, which can be found at various places throughout this joint proxy statement/prospectus and the other documents incorporated by reference in this joint proxy statement/prospectus, are not historical facts, but rather are based on current expectations, estimates and projections. Words such as anticipates, expects, intends, plans, believes, seeks, could, should, projects, estimates and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond Cleveland-Cliffs and Alpha's control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. In that event, Cleveland-Cliffs or Alpha's business, financial condition or results of operations could be materially adversely affected, and investors in Cleveland-Cliffs or Alpha's securities could lose part or all of their investment. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this joint proxy statement/prospectus or, in the case of documents incorporated by reference, the date referenced in those documents. We are not obligated to update these statements or publicly release the result of any revision to them to reflect events or circumstances after the date of this joint proxy statement/prospectus or, in the case of documents incorporated by reference, the date referenced in those documents, or to reflect the occurrence of unanticipated events.

You should understand that the risks, uncertainties, factors and assumptions listed and discussed in this joint proxy statement/prospectus, including those set forth under the headings Risk Factors beginning on page 27 and Management's Discussion and Analysis of Financial Condition and Results of Operations of Cleveland-Cliffs Market Risks beginning on page 145; the risks discussed in Alpha's Annual Report on Form 10-K for the fiscal year ended December 31, 2007, in Item 7A Quantitative and Qualitative Disclosures about Market Risk, and Alpha's quarterly report on Form 10-Q for the period ended June 30, 2008, in Item 3 Quantitative and Qualitative Disclosures about Market Risk; and the following important factors and assumptions, could affect the future results of the combined company following the merger, or the future results of Cleveland-Cliffs and Alpha if the merger does not occur, and could cause actual results or other outcomes to differ materially from those expressed or implied in any forward-looking statements:

the ability of Cleveland-Cliffs to integrate the Alpha businesses with Cleveland-Cliffs' businesses and achieve the expected benefits from the merger;

the adoption of the merger agreement at the Alpha special meeting;

the adoption of the merger agreement and approval of the issuance of Cleveland-Cliffs common shares in connection with the merger at the Cleveland-Cliffs special meeting;

the timing of the completion of the merger;

the actual financial position and results of operations of the combined company following the merger, which may differ significantly from the pro forma financial data contained in this joint proxy statement/prospectus;

changes in demand for iron ore pellets by North American integrated steel producers, or changes in Asian iron ore demand due to changes in steel utilization rates, operational factors, electric furnace production or imports

into the United States and Canada of semi-finished steel or pig iron;

the impact of consolidation and rationalization in the steel industry;

timing of changes in customer coal inventories;

changes in, renewal of and acquiring new long-term coal supply arrangements;

inherent risks of coal mining beyond the combined company's control;

competition in coal markets;

railroad, barge, truck and other transportation performance and costs;

**Table of Contents**

the geological characteristics of Central and Northern Appalachian coal reserves;

availability of mining and processing equipment and parts;

the combined company's assumptions concerning economically recoverable coal reserve estimates;

environmental laws, including those directly affecting coal mining production, and those affecting customers coal usage;

liability for litigation, administrative actions, and similar disputes;

inability to timely obtain permits, comply with government regulations or make capital expenditures required to maintain compliance; and

changes in laws and regulations.

**THE ALPHA SPECIAL MEETING**

**General**

This joint proxy statement/prospectus is being provided to Alpha stockholders as part of a solicitation of proxies by the Alpha board of directors for use at the special meeting of Alpha stockholders and at any adjournment thereof. This joint proxy statement/prospectus is first being furnished to stockholders of Alpha on or about \_\_\_\_\_, 2008. In addition, this joint proxy statement/prospectus is being furnished to Alpha stockholders as a prospectus for Cleveland-Cliffs in connection with the issuance by Cleveland-Cliffs of its common shares to Alpha stockholders in connection with the merger. This joint proxy statement/prospectus provides Alpha stockholders with information they need to know to be able to vote or instruct their vote to be cast at the special meeting of Alpha stockholders.

**Date, Time and Place of the Alpha Special Meeting**

The special meeting of Alpha stockholders will be held at \_\_\_\_\_, on \_\_\_\_\_, 2008, at \_\_\_\_\_.

**Purposes of the Alpha Special Meeting**

At the Alpha special meeting, Alpha's stockholders will be asked:

to adopt the merger agreement; and

to approve adjournments of the Alpha special meeting if necessary to permit further solicitation of proxies if there are not sufficient votes at the time of the Alpha special meeting to approve the proposal to adopt the merger agreement.

**Record Date; Outstanding Shares; Shares Entitled to Vote**

The record date for the meeting for Alpha stockholders is \_\_\_\_\_, 2008. This means that you must have been a stockholder of record of Alpha common stock at the close of business on \_\_\_\_\_, 2008, in order to vote at the special meeting. You are entitled to one vote for each share of common stock you own. On Alpha's record date, there were \_\_\_\_\_ shares of Alpha common stock outstanding and entitled to vote, held by approximately \_\_\_\_\_ holders of

record.

A complete list of Alpha stockholders entitled to vote at the Alpha special meeting will be available for inspection at the principal place of business of Alpha during regular business hours for a period of no less than ten days before the special meeting and at the place of the Alpha special meeting during the meeting.

### **Quorum and Vote Required**

A quorum of stockholders is necessary to hold a valid special meeting of Alpha. The required quorum for the transaction of business at the Alpha special meeting is a majority of the issued and outstanding shares of Alpha common stock entitled to vote and present at the special meeting, whether in person or by proxy. The abstentions will be counted in determining whether a quorum is present at the special meeting. As for broker non-votes, Alpha expects that there will be practical impediments that will prevent it from counting them for purposes of a quorum at the Alpha special meeting because Alpha does not anticipate that there will be any routine matters on the agenda for the Alpha special meeting.

## **Table of Contents**

Adoption of the merger agreement requires the affirmative vote of at least a majority of the outstanding shares of Alpha common stock entitled to vote. The required vote of Alpha stockholders on the merger agreement is based upon the number of outstanding shares of Alpha common stock, and not the number of shares that are actually voted. Accordingly, the failure to submit a proxy card or to vote in person at the Alpha special meeting or the abstention from voting by Alpha stockholders, or the failure of any Alpha stockholder who holds shares in street name through a bank or broker to give voting instructions to such bank or broker, will have the same effect as a vote **against** the adoption of the merger agreement.

To approve any adjournment of the Alpha special meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the Alpha special meeting to approve the proposal to adopt the merger agreement, the affirmative vote of a majority of the shares of Alpha common stock present in person or represented by proxy and entitled to vote at the Alpha special meeting is required regardless of whether or not a quorum is present. Abstentions will have the same effect as a vote **against** the proposal to adjourn the special meeting, while broker non-votes and shares not in attendance at the special meeting will have no effect on the outcome of any vote to adjourn the special meeting.

### **ITEM 1 THE MERGER**

As discussed elsewhere in this joint proxy statement/prospectus, Alpha stockholders are considering and voting on a proposal to adopt the merger agreement. You should carefully read this joint proxy statement/prospectus in its entirety for more detailed information concerning the transactions contemplated by the merger agreement, including the merger. In particular, you are directed to the merger agreement, which is attached as Annex A to this joint proxy statement/prospectus.

**The Alpha board of directors recommends that Alpha stockholders vote for the adoption of the merger agreement, and your properly signed and dated proxy will be so voted unless you specify otherwise.**

### **ITEM 2 APPROVE ADJOURNMENT OF THE SPECIAL MEETING, IF NECESSARY, TO PERMIT FURTHER SOLICITATION OF PROXIES IF THERE ARE NOT SUFFICIENT VOTES AT THE TIME OF THE ALPHA SPECIAL MEETING TO APPROVE THE PROPOSAL TO ADOPT THE MERGER AGREEMENT**

Alpha stockholders may be asked to vote on a proposal to adjourn the Alpha special meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the Alpha special meeting to approve the proposal to adopt the merger agreement.

**The Alpha board of directors recommends that Alpha stockholders vote for the proposal to adjourn the Alpha special meeting under certain circumstances, and your properly signed and dated proxy will be so voted unless you specify otherwise.**

### **Stock Ownership and Voting by Alpha's Directors and Executive Officers**

As of the record date for the Alpha special meeting, Alpha's directors and executive officers had the right to vote approximately \_\_\_\_\_ shares of the then outstanding Alpha voting stock at the Alpha special meeting. As of the record date of the Alpha special meeting, these shares represented \_\_\_\_\_ % of the Alpha common stock outstanding and entitled to vote at the meeting. We currently expect that Alpha's directors and executive officers will vote their shares **for** approval and adoption of the merger agreement, although none of them has entered into any agreement requiring them to do so.

## How to Vote

You may vote in person at the Alpha special meeting or by proxy. Alpha recommends you submit your proxy even if you plan to attend the special meeting. If you vote by proxy, you may change your vote if you attend and vote at the special meeting.

If you own common stock in your own name, you are an owner of record. This means that you may use the enclosed proxy card(s) to tell the persons named as proxies how to vote your shares. If you properly complete, sign and date your proxy card(s) or submit your proxy by telephone or over the Internet, your proxy will be voted in accordance with your instructions. The named proxies will vote all shares at the meeting for which proxies have been properly submitted (whether by mail, telephone or over the Internet) and not revoked. If you sign and return

## **Table of Contents**

your proxy card(s) but do not mark your card(s) to tell the proxies how to vote your shares on each proposal, your proxy will be voted as recommended by the Alpha board of directors.

If you hold shares of Alpha common stock in a stock brokerage account or through a bank, broker or other nominee, or, in other words, in street name, please follow the voting instructions provided by that entity. With respect to the proposal to adopt the merger agreement, if you do not instruct your bank, broker or other nominee how to vote your shares, your bank, broker or other nominee will not be authorized to vote with respect to this proposal and a broker non-vote will occur, which will have the same effect as a vote **against** the adoption of the merger agreement. In addition, if you do not instruct your bank, broker or other nominee how to vote your shares with respect to the proposal to adjourn the meeting to solicit further proxies to approve the proposal to adopt the merger agreement, a broker non-vote will occur.

If you abstain from voting with respect to the proposal to adopt the merger agreement, it will have the same effect as a vote **against** the adoption of the merger agreement. With respect to the proposal to adjourn the meeting to solicit further proxies to approve the proposal to adopt the merger agreement, your abstention will have the same effect as a vote **against** the proposal to adjourn the special meeting.

If you are an owner of record, you have three voting options:

***Internet:*** You can vote over the Internet at the Web address shown on your proxy card (<http://www.cesvote.com>). Internet voting is available 24 hours a day, 7 days a week. If you vote over the Internet, do not return your proxy card(s).

***Telephone:*** In the U.S., Canada and Puerto Rico, you can vote by telephone by calling the toll-free number on your proxy card(s). Telephone voting is available 24 hours a day, 7 days a week. Easy-to-follow voice prompts allow you to vote your shares and confirm that your instructions have been properly recorded. If you vote by telephone, do not return your proxy card(s).

***Mail:*** You can vote by mail by simply signing, dating and mailing your proxy card(s) in the postage-paid envelope included with this joint proxy statement/prospectus.

A number of banks and brokerage firms participate in a program that also permits stockholders whose shares are held in street name to direct their vote by telephone or over the Internet. If your shares are held in an account at a bank or brokerage firm that participates in such a program, you may direct the vote of these shares by telephone or over the Internet by following the voting instructions enclosed with the proxy form from the bank or brokerage firm. The Internet and telephone proxy procedures are designed to authenticate stockholders' identities, to allow stockholders to give their proxy voting instructions and to confirm that those instructions have been properly recorded. Votes directed by telephone or over the Internet through such a program must be received by 11:59 p.m. on \_\_\_\_\_, 2008. Directing the voting of your shares will not affect your right to vote in person if you decide to attend the Alpha special meeting; however, you must first obtain a signed and properly executed legal proxy from your bank, broker or other nominee to vote your shares held in street name at the special meeting. Requesting a legal proxy prior to the deadline described above will automatically cancel any voting directions you have previously given by telephone or over the Internet with respect to your shares.

## **Revoking Your Proxy**

If you are the owner of record of your shares, you can revoke your proxy at any time before its exercise by:

Edgar Filing: CLEVELAND CLIFFS INC - Form S-4

sending a written notice to Alpha, at One Alpha Place, P.O. Box 2345, Abingdon, Virginia 24212, attention: Corporate Secretary, bearing a date later than the date of the proxy, that is received prior to the Alpha special meeting and states that you revoke your proxy;

submitting your proxy again by telephone or over the Internet;

signing another proxy card(s) bearing a later date and mailing it so that it is received prior to the special meeting; or

attending the special meeting and voting in person, although attendance at the special meeting will not, by itself, revoke a proxy.

If your shares are held in street name by your broker, you will need to follow the instructions you receive from your broker to revoke or change your proxy.

## **Table of Contents**

### **Other Voting Matters**

#### ***Voting in Person***

If you plan to attend the Alpha special meeting and wish to vote in person, we will give you a ballot at the special meeting. However, if your shares are held in street name, you must first obtain from your broker, bank or other nominee a legal proxy authorizing you to vote the shares in person, which you must bring with you to the special meeting.

#### ***Electronic Access to Proxy Materials***

This joint proxy statement/prospectus is available on our Internet site at <http://www.alphanr.com>.

#### ***People with Disabilities***

We can provide reasonable assistance to help you participate in the special meeting if you tell us about your disability and how you plan to attend. Please write to Alpha, at One Alpha Place, P.O. Box 2345, Abingdon, Virginia 24212, attention: Corporate Secretary, or call at (276) 619-4410.

### **Proxy Solicitations**

Alpha is soliciting proxies for the Alpha special meeting from Alpha stockholders. Alpha will bear the entire cost of soliciting proxies from Alpha stockholders, except that Cleveland-Cliffs and Alpha will share equally the expenses incurred in connection with the filing with the SEC of the registration statement of which this joint proxy statement/prospectus forms a part and the printing and mailing of this joint proxy statement/prospectus. In addition to this mailing, Alpha's directors, officers and employees (who will not receive any additional compensation for their services) may solicit proxies personally, electronically or by telephone. Alpha has also engaged D.F. King & Co., Inc., to assist in the solicitation of proxies for a fee estimated not to exceed \$50,000, plus reimbursement of expenses. Alpha and its proxy solicitors will also request that banks, brokerage houses and other custodians, nominees and fiduciaries send proxy materials to the beneficial owners of Alpha common stock and will, if requested, reimburse the record holders for their reasonable out-of-pocket expenses in doing so.

*Stockholders should not submit any stock certificates with their proxy cards.* A transmittal form with instructions for the surrender of certificates representing shares of common stock or book-entry shares of common stock, as applicable, will be mailed to shares holders if the merger is completed.

### **Other Business**

Alpha is not aware of any other business to be acted upon at the special meeting. If, however, other matters are properly brought before the Alpha special meeting, your proxies will have discretion to vote or act on those matters according to their best judgment and they intend to vote the shares as the Alpha board of directors may recommend.

### **Assistance**

If you need assistance in completing your proxy card or have questions regarding Alpha's special meeting, please contact D.F. King & Co., Inc., 48 Wall Street, 22<sup>nd</sup> Floor, New York, New York 10005, banks and brokers call collect: (212) 269-5550, all others call toll-free: (888) 887-0082.

**Table of Contents**

**THE CLEVELAND-CLIFFS SPECIAL MEETING**

**General**

This joint proxy statement/prospectus is being provided to Cleveland-Cliffs shareholders as part of a solicitation of proxies by the Cleveland-Cliffs board of directors for use at the special meeting of Cleveland-Cliffs shareholders and at any adjournments or postponements thereof. This joint proxy statement/prospectus is first being furnished to shareholders of Cleveland-Cliffs on or about \_\_\_\_\_, 2008. This joint proxy statement/prospectus provides Cleveland-Cliffs shareholders with information they need to know to be able to vote or instruct their vote to be cast at the special meeting of Cleveland-Cliffs shareholders.

**Date, Time and Place of the Cleveland-Cliffs Special Meeting**

The special meeting of Cleveland-Cliffs shareholders will be held at \_\_\_\_\_, on \_\_\_\_\_, 2008, at \_\_\_\_\_.

**Purposes of the Cleveland-Cliffs Special Meeting**

At the Cleveland-Cliffs special meeting, Cleveland-Cliffs shareholders will be asked:

to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement;

to approve the adjournment or postponement of the Cleveland-Cliffs special meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the Cleveland-Cliffs special meeting to adopt the merger agreement and approve the proposal to issue Cleveland-Cliffs common shares pursuant to the terms of the merger agreement; and

to consider and take action upon any other business that may properly come before the Cleveland-Cliffs special meeting or any reconvened meeting following an adjournment or postponement of the Cleveland-Cliffs special meeting.

**Record Date; Outstanding Shares; Shares Entitled to Vote**

The record date for the meeting for Cleveland-Cliffs shareholders is \_\_\_\_\_, 2008. This means that you must have been a holder of record of Cleveland-Cliffs common shares or Series A-2 preferred stock at the close of business on \_\_\_\_\_, 2008, in order to vote at the special meeting. You are entitled to one vote for each common share and share of Series A-2 preferred stock you own. On Cleveland-Cliffs record date, Cleveland-Cliffs voting securities carried \_\_\_\_\_ votes, which consisted of \_\_\_\_\_ common shares (excluding \_\_\_\_\_ shares of treasury stock) and \_\_\_\_\_ shares of Series A-2 preferred stock.

A complete list of Cleveland-Cliffs shareholders entitled to vote at the Cleveland-Cliffs special meeting will be available for inspection at the principal place of business of Cleveland-Cliffs during regular business hours for a period of no less than ten days before the special meeting and at the place of the Cleveland-Cliffs special meeting during the meeting.

**Quorum and Vote Required**

A quorum of shareholders is necessary to hold a valid special meeting of Cleveland-Cliffs. The holders of a majority of the stock issued and outstanding and entitled to vote at the special meeting, present in person or represented by proxy, will constitute a quorum at the special meeting of the shareholders for the transaction of business at the meeting (with Cleveland-Cliffs common shares and Series A-2 preferred stock considered together as a single class). Abstentions will be counted in determining whether a quorum is present at the special meeting. As for broker non-votes, Cleveland-Cliffs expects that there will be practical impediments that will prevent Cleveland-Cliffs from counting the broker non-votes for purposes of a quorum at the Cleveland-Cliffs special meeting because Cleveland-Cliffs does not anticipate that there will be any routine matters on the agenda for such meeting.

The adoption of the merger agreement and approval of the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement requires the approval of at least two-thirds of the votes entitled to be

**Table of Contents**

cast by the holders of outstanding common shares and Series A-2 preferred stock of Cleveland-Cliffs, voting together as a class. Accordingly, the failure to submit a proxy card or to vote in person at the Cleveland-Cliffs special meeting or the abstention from voting by Cleveland-Cliffs shareholders, or the failure of any Cleveland-Cliffs shareholder who holds shares in street name through a bank or broker to give voting instructions to such bank or broker, will have the same effect as a vote **against** the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in connection with the merger.

To approve any adjournments or postponement of the Cleveland-Cliffs special meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the Cleveland-Cliffs special meeting to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares, the affirmative vote of a majority of the voting shares represented at the special meeting is required, regardless of whether or not a quorum is present. Abstentions will have the same effect as a vote **against** the proposal to adjourn or postpone the special meeting, while broker non-votes and shares not in attendance at the special meeting will have no effect on the outcome of any vote to adjourn or postpone the special meeting.

**ITEM 1 THE ADOPTION OF THE MERGER AGREEMENT AND THE ISSUANCE OF CLEVELAND-CLIFFS COMMON SHARES PURSUANT TO THE MERGER AGREEMENT**

As discussed elsewhere in this joint proxy statement/prospectus, Cleveland-Cliffs shareholders are considering and voting on a proposal to adopt the merger agreement and approve the issuance of common shares of Cleveland-Cliffs pursuant to the terms of the merger agreement. Cleveland-Cliffs shareholders should read carefully this joint proxy statement/prospectus in its entirety for more detailed information concerning the transactions contemplated by the merger agreement, including the merger. In particular, Cleveland-Cliffs shareholders are directed to the merger agreement, which is attached as Annex A to this joint proxy statement/prospectus.

**The Cleveland-Cliffs board of directors recommends that Cleveland-Cliffs shareholders vote for the adoption of the merger agreement and the approval of the issuance of common shares pursuant to the merger and your properly signed and dated proxy will be so voted unless you specify otherwise.**

**ITEM 2 APPROVE ADJOURNMENT OR POSTPONEMENT OF THE SPECIAL MEETING, IF NECESSARY, TO PERMIT FURTHER SOLICITATION OF PROXIES IF THERE ARE NOT SUFFICIENT VOTES AT THE TIME OF THE CLEVELAND-CLIFFS SPECIAL MEETING TO APPROVE THE PROPOSAL TO ADOPT THE MERGER AGREEMENT AND ISSUE CLEVELAND-CLIFFS COMMON SHARES IN CONNECTION WITH THE MERGER**

Cleveland-Cliffs shareholders may be asked to vote on a proposal to adjourn or postpone the Cleveland-Cliffs special meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the Cleveland-Cliffs special meeting to approve the proposal to adopt the merger agreement and issue common shares of Cleveland-Cliffs pursuant to the terms of the merger agreement.

**The Cleveland-Cliffs board of directors recommends that Cleveland-Cliffs shareholders vote for the proposal to adjourn or postpone the Cleveland-Cliffs special meeting under certain circumstances, and your properly signed and dated proxy will be so voted unless you specify otherwise.**

**Share Ownership and Voting by Cleveland-Cliffs Directors and Executive Officers**

As of the record date for the Cleveland-Cliffs special meeting, Cleveland-Cliffs directors and executive officers had the right to vote approximately shares of the then outstanding Cleveland-Cliffs voting stock at the Cleveland-Cliffs special meeting. As of the record date of the Cleveland-Cliffs special meeting, these shares

represented approximately % of the Cleveland-Cliffs common shares outstanding and entitled to vote at the meeting. We currently expect that Cleveland-Cliffs directors and executive officers will vote their shares **for** the adoption of the merger agreement and the approval of the issuance of Cleveland-Cliffs common shares in connection with the merger, although none of them has entered into any agreement requiring them to do so.

## Table of Contents

### **How to Vote**

You may vote in person at the Cleveland-Cliffs special meeting or by proxy. Cleveland-Cliffs recommends you submit your proxy even if you plan to attend the special meeting. If you submit your proxy, you may change your vote if you attend and vote at the special meeting.

If you own stock in your own name, you are an owner of record. This means that you may use the enclosed proxy card(s) to tell the persons named as proxies how to vote your shares. If you properly complete, sign and date your proxy card(s) or submit your proxy by telephone or over the Internet, your proxy will be voted in accordance with your instructions. The named proxies will vote all shares at the meeting for which proxies have been properly submitted (whether by mail, telephone or over the Internet) and not revoked. If you sign and return your proxy card(s) but do not mark your card(s) to tell the proxies how to vote your shares on each proposal, your proxy will be voted as recommended by the Cleveland-Cliffs board of directors.

If you hold Cleveland-Cliffs shares in a stock brokerage account or through a bank, broker or other nominee, or, in other words, in street name, please follow the voting instructions provided by that entity. With respect to the proposal relating to the adoption of the merger agreement and the approval of the issuance of Cleveland-Cliffs common shares pursuant to the merger agreement, if you do not instruct your bank, broker or other nominee how to vote your shares, your bank, broker or other nominee will not be authorized to vote with respect to the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in the merger, and a broker non-vote will occur. This will have the same effect as the vote **against** the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in the merger. In addition, if you do not instruct your bank, broker or other nominee how to vote your shares with respect to the proposal to adjourn or postpone the meeting to solicit further proxies to approve the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares pursuant to the merger agreement, a broker non-vote will occur.

If you abstain from voting with respect to the proposal to the issuance of Cleveland-Cliffs common shares pursuant to the merger agreement, your abstention will have the same effect as a vote **against** the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in the merger. With respect to the proposal to adjourn or postpone the meeting to solicit further proxies to approve the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in the merger, your abstention will have the same effect as a vote **against** the proposal to adjourn or postpone the special meeting, whether the quorum is present or not.

If you are an owner of record, you have three voting options:

Internet: You can vote over the Internet at the Web address shown on your proxy card(s) (<http://www.proxyvote.com>). You will be prompted to enter your Control Number from your proxy card. This number will identify you as a shareholder of record. Follow the simple instructions that will be given to you to record your vote. If you vote over the Internet, do not return your proxy card(s).

Telephone: You can vote by telephone by calling the toll-free number on your proxy card(s). You will be prompted to enter your Control Number from your proxy card. This number will identify you as a shareholder of record. Follow the simple instructions that will be given to you to record your vote. If you vote by telephone, do not return your proxy card(s).

Mail: You can vote by mail by simply signing, dating and mailing your proxy card(s) in the postage-paid envelope included with this joint proxy statement/prospectus.

A number of banks and brokerage firms participate in a program that also permits shareholders whose shares are held in street name to direct their vote by telephone or over the Internet. If your shares are held in an account at a bank or brokerage firm that participates in such a program, you may direct the vote of these shares by telephone or over the Internet by following the voting instructions enclosed with the proxy form from the bank or brokerage firm. The Internet and telephone proxy procedures are designed to authenticate shareholders' identities, to allow shareholders to give their proxy voting instructions and to confirm that those instructions have been properly recorded. Votes directed by telephone or over the Internet through such a program must be received by 11:59 p.m., on \_\_\_\_\_, 2008. Directing the voting of your shares will not affect your right to vote in person if you decide to

## **Table of Contents**

attend the Cleveland-Cliffs special meeting; however, you must first obtain a signed and properly executed legal proxy from your bank, broker or other nominee to vote your shares held in street name at your special meeting. Requesting a legal proxy prior to the deadline described above will automatically cancel any voting directions you have previously given by telephone or over the Internet with respect to your shares.

## **Revoking Your Proxy**

If you are the owner of record of your shares, you can revoke your proxy at any time before its exercise by:

sending a written notice to Cleveland-Cliffs, at 1100 Superior Avenue East, Suite 1500, Cleveland, Ohio 44114, attention: Corporate Secretary, bearing a date later than the date of the proxy that is received prior to the Cleveland-Cliffs special meeting and states that you revoke your proxy;

submitting your proxy again by telephone or over the Internet;

signing another proxy card(s) bearing a later date and mailing it so that it is received prior to the special meeting; or

attending the special meeting and voting in person, although attendance at the special meeting will not, by itself, revoke a proxy.

If your shares are held in street name by your broker, you will need to follow the instructions you receive from your broker to revoke or change your proxy.

## **Other Voting Matters**

### ***Voting in Person***

If you plan to attend the Cleveland-Cliffs special meeting and wish to vote in person, we will give you a ballot at the special meeting. However, if your shares are held in street name, you must first obtain a legal proxy from your broker, bank or other nominee authorizing you to vote the shares in person, which you must bring with you to the special meeting.

### ***Electronic Access to Proxy Material***

This joint proxy statement/prospectus is available on our Internet site at <http://www.cleveland-cliffs.com>.

### ***People with Disabilities***

We can provide you with reasonable assistance to help you participate in the special meeting if you tell us about your disability and how you plan to attend. Please write to Cleveland-Cliffs, at 1100 Superior Avenue East, Suite 1500, Cleveland, Ohio 44114, attention: Corporate Secretary, or call at (216) 694-5700, at least two weeks before the special meeting.

## **Proxy Solicitations**

Cleveland-Cliffs is soliciting proxies for the Cleveland-Cliffs special meeting from Cleveland-Cliffs shareholders. Cleveland-Cliffs will bear the entire cost of soliciting proxies from Cleveland-Cliffs shareholders, except that Cleveland-Cliffs and Alpha will share equally the expenses incurred in connection with the filing with the SEC of the

registration statement of which this joint proxy statement/prospectus forms a part and the printing and mailing of this joint proxy statement/prospectus. In addition to this mailing, Cleveland-Cliffs directors, officers and employees (who will not receive any additional compensation for their services) may solicit proxies personally, electronically or by telephone. Cleveland-Cliffs has also engaged Innisfree M&A Incorporated to assist in the solicitation of proxies for a fee of approximately \$100,000, plus reimbursement of expenses, including phone calls. Cleveland-Cliffs and its proxy solicitors will also request that banks, brokerage houses and other custodians, nominees and fiduciaries send proxy materials to the beneficial owners of Cleveland-Cliffs common shares and will, if requested, reimburse the record holders for their reasonable out-of-pocket expenses in doing so.

## **Table of Contents**

### **Other Business**

Cleveland-Cliffs is not aware of any other business to be acted upon at the special meeting. If, however, other matters are properly brought before the special meeting, your proxies will have discretion to vote or act on those matters according to their best judgment and they intend to vote the shares as the Cleveland-Cliffs board of directors may recommend.

### **Assistance**

If you need assistance in completing your proxy card or have questions regarding Cleveland-Cliffs' special meeting, please contact Innisfree M&A Incorporated, 501 Madison Avenue, 20th Floor, New York, NY 10022, banks and brokers call collect: (212) 750-5833, all others call toll-free: (877) 456-3507.

## **THE MERGER**

### **General**

Pursuant to the merger agreement, merger sub (which has been renamed Alpha Merger Sub, Inc. effective August 11, 2008) will merge with and into Alpha (or, under certain circumstances as described in [Annex G](#), merger sub will be converted from a Delaware corporation into a Delaware limited liability company, Alpha Merger Sub, LLC, and Alpha will merge with and into Alpha Merger Sub, LLC). As a result of the merger, Alpha will become wholly owned by Cleveland-Cliffs.

### **Background of the Merger**

As part of the continuous evaluation of its business, Cleveland-Cliffs' board of directors and management have regularly evaluated Cleveland-Cliffs' business strategy and prospects for growth and considered opportunities to improve Cleveland-Cliffs' operations and financial performance in order to create value for Cleveland-Cliffs' shareholders. As part of this process Cleveland-Cliffs' management has evaluated various opportunities to expand and diversify its business through acquisitions, and has discussed such opportunities with Cleveland-Cliffs' board of directors. As part of these evaluations, the Cleveland-Cliffs board of directors and management on various occasions have received advice from outside financial and legal advisors.

During the early 2000's, the Cleveland-Cliffs board of directors reviewed various options for the business and determined that a strategy of growth and diversification was the best way to generate value for Cleveland-Cliffs' shareholders. As a result of such evaluations, Cleveland-Cliffs has recently effected a number of strategic transactions, including the acquisition of a controlling interest in Australian iron ore producer Portman in 2005.

Joseph A. Carrabba, Cleveland-Cliffs' Chairman, President and Chief Executive Officer, was hired by Cleveland-Cliffs in 2005 and became Chief Executive Officer in 2006 because of his extensive background in global diversified mining, having over two decades of experience in the industry, most recently as President and Chief Operating Officer for Diavik Diamond Mines, Inc., a subsidiary of Rio Tinto plc. Prior to his position at Diavik Diamond Mines, Inc., Mr. Carrabba served as General Manager of Weipa Bauxite Operation of Comalco Aluminum and in a variety of other positions throughout his career at Rio Tinto plc. In 2005, Mr. Carrabba led a strategic review of various minerals with the Cleveland-Cliffs board of directors to determine the best approach to growth and diversification.

In early 2007, Cleveland-Cliffs began articulating its strategy of diversification to a broad group of investors. This communication included an evaluation of various minerals throughout the periodic table and a discussion on various geographies.

During the first half of 2007, Cleveland-Cliffs acquired 30% of Amapá, a Brazilian iron ore producer, and 45% of Sonoma, an Australian coal operation. Sonoma was Cleveland-Cliffs' first acquisition of coal assets.

On June 14, 2007, Cleveland-Cliffs announced the acquisition of metallurgical coal producer PinnOak. In addition to the PinnOak transaction, Cleveland-Cliffs has evaluated other coal mining opportunities from time to time, including an acquisition of Alpha.

**Table of Contents**

Alpha, in consultation with outside legal and financial advisors, regularly reviews strategic alternatives to Alpha's stand-alone plan, including business combinations with, acquisitions of and sales to, other companies active in the metals and mining sector. In connection with and as a result of these ongoing reviews, in 2006 and 2007 Alpha engaged in preliminary or exploratory confidential discussions with several potential acquisition targets, merger partners and acquirers.

In 2006 and 2007, Alpha, in consultation with its outside counsel, Cleary Gottlieb Steen & Hamilton LLP, or Cleary Gottlieb, and its financial advisor, considered and engaged in exploratory discussions and due diligence with another company operating in the coal mining sector, which is referred to as Company 1, regarding a possible at-market merger of equals between Alpha and Company 1. These discussions did not result in a transaction due to disagreements relating to the relative valuation of the two companies and the appropriate allocation of management responsibilities for the combined company. As an alternative to this proposed merger of equals transaction, Company 1 made a preliminary proposal to acquire Alpha. At a special meeting of the board of directors of Alpha held on May 31, 2007, the Alpha board determined that this preliminary proposal was inadequate. Discussions between Alpha and Company 1 terminated shortly thereafter.

Also in 2007, Alpha, in consultation with Cleary Gottlieb and its financial advisor, considered and engaged in exploratory discussions and due diligence with a different company operating in the coal mining sector, which is referred to as Company 2, regarding a possible acquisition of Alpha by Company 2 for all-stock consideration. These discussions terminated in the summer of 2007, when Company 2 informed Alpha that it did not intend to proceed with the potential transaction because, in view of the trading prices of the stock of the respective companies, the transaction would be economically dilutive to Company 2.

In late spring 2007, Michael J. Quillen, Alpha's Chairman and Chief Executive Officer, and Mr. Carrabba had a preliminary conversation regarding the general possibility of a strategic collaboration between Cleveland-Cliffs and Alpha.

During the spring and summer of 2007, Cleveland-Cliffs and Alpha discussed the possibility of a stock-for-stock transaction in which Cleveland-Cliffs would have acquired all of the common stock of Alpha at an implied premium to Alpha's trading price. As part of those discussions, the parties entered into a confidentiality agreement on June 21, 2007, which contained reciprocal standstill obligations of the parties for a period of 18 months, subject to specified exceptions.

During July and August 2007, Alpha and Cleveland-Cliffs and their respective financial and legal advisors conducted reciprocal due diligence investigations and engaged in further discussions regarding the terms of this potential all-stock transaction. The discussions did not progress beyond preliminary analyses of the economics of an exchange ratio and the structure of the transaction and the post-transaction governance arrangements.

On August 9, 2007, Cleveland-Cliffs management and the members of the board of directors held a board meeting. Representatives of Cleveland-Cliffs' outside counsel, Jones Day, and other outside advisors participated in the meetings. At the meeting, management and the board conducted a strategic review of the global coal industry and potential opportunities in the coal space. At the conclusion of the meeting, the Cleveland-Cliffs board of directors authorized management to continue pursuing a possible merger transaction with Alpha.

On September 11, 2007, Cleveland-Cliffs' management and board of directors, at a regularly scheduled meeting, further discussed a potential transaction with Alpha. The Cleveland-Cliffs board of directors determined that it was not the right time to pursue a potential transaction with Alpha.

On September 18, 2007, Mr. Carrabba notified Mr. Quillen that the Cleveland-Cliffs board was not prepared to proceed with the proposed business combination at that time.

In the course of the Alpha board's oversight of Alpha's discussions with Cleveland-Cliffs, the board considered the interests that one director of Alpha, John Brinzo, had in Cleveland-Cliffs as a result of his former role as Chair of Cleveland-Cliffs, including his receipt of a pension from Cleveland-Cliffs and ownership of common shares and unvested performance shares of Cleveland-Cliffs. Mr. Brinzo confirmed that he no longer owed any duties to Cleveland-Cliffs, including duties of disclosure or confidentiality, and that he would share with the Alpha board all material information in his possession relating to Cleveland-Cliffs. The Alpha board considered and discussed

**Table of Contents**

Mr. Brinzo's former relationship with and interests relating to Cleveland-Cliffs from time to time at meetings in 2007 and 2008 whenever discussions turned to Alpha's relationship with Cleveland-Cliffs, including in executive session without Mr. Brinzo present. After considering the factual background, the board took the view consistently during 2007 and 2008 that Mr. Brinzo's prior relationship with Cleveland-Cliffs and his existing interests in Cleveland-Cliffs did not preclude him from being a valuable contributor to the Alpha board's deliberations about strategic alternatives and matters relating to Cleveland-Cliffs and, in any event, that Mr. Brinzo was not in any way improperly influencing the deliberative processes of the board.

Beginning in November 2007, Mr. Carrabba engaged in informal discussions on several occasions with the Chief Financial Officer of another North American coal producer, which is referred to as Company A, regarding a potential combination of the two companies. The parties did not enter into a confidentiality agreement or engage in due diligence. The potential opportunity to acquire Company A was first reviewed with the Cleveland-Cliffs board in January 2008. Mr. Carrabba and the Chairman of Company A met on February 25, 2008. At that meeting, Mr. Carrabba outlined in general terms the possibility of a stock and cash offer for Company A. Company A's Chairman indicated that while he was open to discussions, a stock deal would not be attractive and he was not convinced of the strategic rationale of the proposed combination. With worsening credit markets in March and April and a sharp increase in Company A's stock price, Cleveland-Cliffs determined that an offer to acquire Company A at that time was not feasible. The discussions with Company A did not progress beyond the February 25 meeting.

In 2007, in addition to the respective discussions described above with Cleveland-Cliffs, Company 1 and Company 2, Alpha, in consultation with its advisors, engaged in exploratory and preliminary discussions with strategic and financial buyers who contacted Alpha to express an interest in considering an acquisition of Alpha. These strategic and financial buyers withdrew from or ceased discussions before the discussions ever advanced beyond the exploratory and preliminary stage.

Beginning in mid-April 2008, Cleveland-Cliffs' management and J.P. Morgan, financial advisor to Cleveland-Cliffs, met on several occasions to discuss potential acquisition opportunities, with an emphasis on opportunities to acquire metallurgical coal assets.

Exploratory discussions of a possible transaction involving Alpha and Cleveland-Cliffs resumed in April 2008. In late April 2008, Mr. Quillen and Mr. Carrabba agreed to reinstate exploratory discussions for a potential combination involving Alpha, Cleveland-Cliffs and Company A. Executives from Cleveland-Cliffs and Alpha had further exploratory discussions about this potential combination on April 28 and April 29, 2008.

In April 2008, Mr. Carrabba contacted a representative of a company with interests in the metals and mining sector, which is referred to as Company 4, to request a meeting to generally discuss current business between the companies. As a result of this contact, on April 28, 2008, a senior executive of Company 4 met with Mr. Carrabba. During this meeting, the representatives of Company 4 indicated that Company 4 would be interested in a potential acquisition of Cleveland-Cliffs for cash, but did not mention any price.

During May 2008, exploratory discussions between Alpha and Company 2 regarding a potential transaction resumed. These discussions focused on a possible acquisition of Company 2 by Alpha for all-stock consideration.

During May 2008, Alpha also signed a confidentiality agreement with another company in the coal sector, which is referred to as Company 3, and commenced preliminary discussions and due diligence with senior representatives of Company 3 with a view toward an acquisition of Company 3 by Alpha.

In addition to these discussions with Cleveland-Cliffs, Company 2 and Company 3, during the first half of 2008, Alpha engaged in exploratory discussions and due diligence with other parties about other potential significant

acquisition transactions by Alpha. None of these acquisition transactions advanced beyond these preliminary stages due to either a reluctance of the counterparty to sell or different perspectives on valuation.

On May 6, 2008, Mr. Carrabba and Laurie Brlas, Cleveland-Cliffs Chief Financial Officer, met with Mr. Quillen, Kevin Crutchfield, Alpha's President, and David Stuebe, Alpha's Chief Financial Officer, to discuss the possible combination involving Cleveland-Cliffs, Alpha and Company A. Representatives of J.P. Morgan and Citi were also in attendance. During this meeting, representatives of Cleveland-Cliffs proposed a potential three-way, all-stock combination in which Alpha and Company A would each have received a 10% premium and two

**Table of Contents**

seats on the combined company's board of directors. All in attendance at the meeting agreed that the potential three-way combination merited further consideration. Each of Cleveland-Cliffs and Alpha agreed to discuss the potential combination with their respective boards of directors in upcoming board meetings.

On May 13, 2008, the Cleveland-Cliffs board of directors held a regularly scheduled board meeting. Representatives from J.P. Morgan, Cleveland-Cliffs' financial advisor, and Jones Day, legal counsel to Cleveland-Cliffs, participated in the meeting. Cleveland-Cliffs management and representatives of J.P. Morgan discussed with the Cleveland-Cliffs board of directors a number of trends in the iron ore and coal industries. During the course of the meeting, Cleveland-Cliffs' management indicated its view that the acquisition of PinnOak, while recently completed, had been very successful. Cleveland-Cliffs' management also reiterated its belief that an acquisition of, or a combination with, a significant producer of metallurgical coal was a critical component to the successful implementation of Cleveland-Cliffs' long-term growth strategy to create value for Cleveland-Cliffs shareholders. Toward that end, Cleveland-Cliffs management and representatives of J.P. Morgan outlined a number of potential opportunities to acquire metallurgical coal assets, including the possible combination involving Cleveland-Cliffs, Alpha and Company A. Cleveland-Cliffs management reported on the preliminary discussions of the May 6<sup>th</sup> meeting with Alpha regarding the potential three-way combination. Cleveland-Cliffs' board of directors carefully considered the benefits and risks of a potential transaction among Cleveland-Cliffs, Alpha and Company A and, following a thorough discussion, Cleveland-Cliffs' board of directors authorized management to engage in formal discussions with Alpha and Company A regarding a combination of the three companies. Also, at the meeting, the directors, as well as members of Cleveland-Cliffs' senior management and representatives of Cleveland-Cliffs' legal and financial advisors also reviewed the discussions between Mr. Carrabba and the senior representative of Company 4, as well as Cleveland-Cliffs' stand-alone plan. Cleveland-Cliffs board of directors asked a number of questions of its legal and financial advisors. After a careful deliberation and consideration, Cleveland-Cliffs board of directors determined that it was not in the best interests of Cleveland-Cliffs and its shareholders to pursue a transaction with Company 4 at that time. The board of directors instructed Cleveland-Cliffs management to inform Company 4 of its decision.

On May 14, 2008, the Alpha board of directors held a regularly scheduled meeting, in which members of Alpha senior management also participated. During the meeting, the board reviewed the recent discussions with Cleveland-Cliffs, Company 2 and Company 3, as well as other alternatives available to Alpha. The Alpha board of directors engaged in a discussion regarding the benefits and risks of potential transactions involving Cleveland-Cliffs, Company A, Company 2, Company 3 and other alternatives available to Alpha and, thereafter, instructed Alpha's management to continue discussions with respect to these potential transactions.

On May 15, 2008, Mr. Carrabba informed a senior representative of Company 4 that Cleveland-Cliffs was not interested in pursuing a transaction with Company 4 at such time. Following this conversation, Company 4 did not subsequently contact Cleveland-Cliffs regarding a potential transaction.

On May 16, 2008, Mr. Quillen spoke with Company A's Chairman, who agreed to meet with representatives from Alpha and Cleveland-Cliffs later that spring.

On May 28, 2008, a representative of Company 4 contacted an executive of Alpha to request a meeting. As a result of this contact, on June 4, 2008, representatives of Alpha met with representatives of Company 4. During this meeting, the representatives of Company 4 indicated that Company 4 would be interested in a potential acquisition of Alpha for cash.

On May 30, 2008, after consulting with members of the Alpha board of directors, Mr. Quillen sent to Company 2's Chief Executive Officer a preliminary, non-binding proposal letter outlining the main terms of a possible acquisition of Company 2 by Alpha for all-stock consideration representing a 25% premium over Company 2's trading price on a date to be agreed. On June 3, 2008, representatives of Alpha and Company 2 and their respective financial and legal

advisors met for a preliminary discussion on the main terms of the proposed transaction. Following this meeting, Alpha and Company 2, together with their advisors, began negotiations regarding the terms of a potential transaction, including the terms of a merger agreement.

**Table of Contents**

During the first week of June 2008, senior representatives of Company 3 and Alpha held further preliminary discussions about a business combination of the two companies. Talks with Company 3 about such a business combination never progressed beyond the preliminary stage.

On June 2, 2008, Mr. Carrabba and Mr. Quillen had a meeting with the Chairman of Company A to discuss a potential combination of the three companies. The Chairman of Company A indicated that he would discuss the potential combination with his board of directors at an upcoming meeting. Shortly thereafter, Mr. Carrabba contacted the Chairman of Company A to follow-up on the June 2, 2008 meeting and to determine whether Company A would be willing to enter into a customary confidentiality agreement with Cleveland-Cliffs and Alpha so that the parties could commence reciprocal due diligence. Company A's Chairman indicated that while he believed the potential combination might be worth exploring, Company A's board of directors was not willing to pursue a potential transaction at that time.

Following Mr. Carrabba's discussion with Company A, Mr. Carrabba and Mr. Quillen had further discussions. Despite the fact that Company A was unwilling to pursue further discussions regarding a potential three-way combination, Mr. Carrabba and Mr. Quillen continued to believe that a combination of Cleveland-Cliffs and Alpha was a compelling transaction that the parties should continue to explore. They agreed to continue to engage in discussions and due diligence with respect to a potential combination between the two companies. During these further discussions, Mr. Carrabba reiterated Cleveland-Cliffs' interest in pursuing a combination with Alpha for all-stock consideration at a 10% premium.

On June 9, 2008, Alpha engaged Citi to act as its financial advisor in connection with the proposed transaction with Cleveland-Cliffs, which engagement was formalized pursuant to an engagement letter executed on July 15, 2008.

Also on June 9, 2008, Alpha held a special meeting of the board of directors at which the directors reviewed and discussed, in consultation with management, Citi and Cleary Gottlieb, the alternatives available to Alpha. Alpha's senior management and representatives of Citi reviewed with the Alpha board the recent discussions with Cleveland-Cliffs, Company 2, Company 3 and Company 4, as well as other potential counterparties. After a discussion regarding the risks and benefits of these potential transactions, the Alpha board of directors instructed management to continue its ongoing discussions with Cleveland-Cliffs and the other interested parties.

On June 10, 2008, Mr. Quillen and Mr. Crutchfield met with representatives of Company 4. During the meeting, Company 4's representatives made a verbal, non-binding proposal to acquire Alpha at a price of \$97 to \$100 per share in cash and requested a response from Alpha to this proposal within 48 hours.

On June 11, 2008, Mr. Crutchfield called a representative of Company 4 to inform him that Alpha's board of directors, with the assistance of Alpha's advisors, would carefully consider Company 4's proposal in the context of Alpha's stand-alone strategy and other opportunities that Alpha had been considering and would not be in a position to provide a response before completing such a thorough review and assessment. Mr. Crutchfield also indicated that Alpha was willing to share confidential information with Company 4 upon its entering into a confidentiality and standstill agreement. On June 12, 2008, Mr. Quillen spoke to a representative of Company 4 to convey a similar message.

Also on June 11, 2008, Alpha held a special meeting of the board of directors at which the directors, in consultation with Alpha's senior management and representatives of Citi and Cleary Gottlieb, discussed and analyzed the oral, non-binding proposal received from Company 4, the recent discussions with Cleveland-Cliffs and Company 2, and the latest developments on the other strategic opportunities under consideration. The Alpha board of directors instructed management to continue its ongoing discussions with Cleveland-Cliffs and the other interested parties and determined to discuss these developments again at another board meeting to be scheduled later that month.

On June 13, 2008, Company 4 sent a letter to Alpha reiterating Company 4's non-binding proposal to acquire all the outstanding shares of Alpha common stock at a cash price of \$97 to \$100 per share and requesting a response by June 20, 2008. During this period, the trading price of Alpha common stock at times exceeded the price being offered by Company 4 (e.g., the opening trading price per share on June 19, 2008 was \$102.40).

**Table of Contents**

On June 16, 2008, representatives of Cleveland-Cliffs, Jones Day and J.P. Morgan met to discuss a potential business combination transaction with Alpha. On June 18, 2008, Mr. Carrabba asked Mr. Quillen to inform him, after Alpha's next board meeting, whether Alpha remained interested in a business combination transaction with Cleveland-Cliffs on the terms previously discussed.

On June 19, 2008, Alpha held a special meeting of the board of directors at which the directors, as well as members of Alpha's senior management and representatives of Citi and Cleary Gottlieb, reviewed in detail Alpha's alternatives and stand-alone plan. Alpha management updated the directors on the latest developments regarding potential transactions under consideration by Alpha, including the status of discussions with Cleveland-Cliffs, Company 2, Company 3, and Company 4. Representatives from Citi reviewed with the board information about and analyses of the various strategic alternatives available to Alpha. Representatives from Cleary Gottlieb then discussed with the board the legal standards applicable to its decisions and actions with respect to the various potential transactions. The Alpha board instructed management to continue to pursue discussions with each of Cleveland-Cliffs, Company 2, and Company 4 in order to more fully develop, refine and, if possible, improve each of these alternatives and, in the case of Company 4 and Cleveland-Cliffs (but not Company 2), to convey that their most recent proposals were inadequate.

On June 20, 2008, Mr. Quillen communicated to Company 4 that its proposal at \$97 to \$100 in cash was inadequate and to Cleveland-Cliffs that the 10% all-stock premium that Cleveland-Cliffs had discussed in the context of the earlier discussions was inadequate. Mr. Quillen then updated the Alpha board on these discussions. In parallel, Alpha management proceeded with negotiations and discussions with Company 2.

On June 26, 2008, Mr. Carrabba, Ms. Brlas and Mr. Steve Baisden, Cleveland-Cliffs' director of investor relations, met with a senior representative of Cleveland-Cliffs' largest investor, which is referred to as the Investor, as part of a customary road show with one of Cleveland-Cliffs' sell-side analysts. Cleveland-Cliffs did not provide the Investor with any non-public information. The parties discussed general industry dynamics and Cleveland-Cliffs' strategy to diversify and further expand into coal. Cleveland-Cliffs noted that Appalachian coal was ripe for consolidation. The senior representative of the Investor expressed strong support for Cleveland-Cliffs' acquisition of PinnOak. Based on filings with the SEC, the Investor increased its ownership stake in Cleveland-Cliffs shortly after the June 26, 2008 meeting.

On June 27, 2008, Alpha and Company 4 entered into a confidentiality agreement that contained reciprocal standstill obligations of the parties.

On June 30, 2008, representatives of Cleveland-Cliffs and J.P. Morgan, on one hand, and Alpha and Citi, on the other hand, met to conduct reciprocal financial and operational due diligence and to discuss the terms, conditions and structure of a potential combination of Cleveland-Cliffs and Alpha.

Also on June 30, 2008, Alpha held a special meeting of the board of directors at which the directors discussed and analyzed, in consultation with management, Citi and Cleary Gottlieb, the most recent discussions with Cleveland-Cliffs, Company 2, and Company 4 and further prepared themselves to be in a position to act quickly and in an informed manner if revised proposals were made by Cleveland-Cliffs, Company 2, or Company 4.

From June 20 through July 8, 2008, Alpha's senior management and advisors continued to engage in negotiations with Company 2 and its advisors regarding the terms of the proposed merger transaction, including exchanging several drafts of a merger agreement. In the course of these negotiations, Alpha and Company 2 agreed to increase the premium payable to Company 2 shareholders from 25% to 27%. By July 8, 2008, the primary open issue in the negotiations between Alpha and Company 2 was how to allocate the risk that the financing needed for the proposed transaction would not be obtained. Although the proposed transaction with Company 2 called for all-stock consideration, the combination would trigger acceleration of debt, mostly at Company 2, that would have had to be

refinanced. On July 8, Company 2's Chief Executive Officer communicated to Alpha that Company 2 would suspend all activity on the contemplated transaction until Alpha agreed that the merger agreement would contain neither any financing condition nor any limitation on Alpha's liability in the event closing failed to occur due to the failure of the financing to be disbursed. Alpha's board of directors did not believe this to be a reasonable request. Alpha and Company 2 and their advisors then ceased discussions on the merger agreement. However, Alpha continued discussions with its debt financing sources regarding the terms of the financing for the proposed

**Table of Contents**

transaction and continued to update Company 2 regarding these discussions. Alpha's senior management and advisors then took steps to facilitate the making of revised acquisition proposals by each of Cleveland-Cliffs and Company 4. These activities included the sharing of due diligence materials with Cleveland-Cliffs and Company 4 and impressing upon them the need to come forward with their best and final proposals.

On July 2 and 3, 2008, representatives of Cleveland-Cliffs and Alpha and their respective financial advisors engaged in numerous discussions concerning due diligence and potential transaction structures.

On July 8 and 9, 2008, representatives of Company 4 and its advisors attended site visits and management presentations at Alpha's facilities.

Also on July 8 and 9, 2008, the Cleveland-Cliffs board of directors convened a regularly scheduled meeting. Representatives from J.P. Morgan and Jones Day participated in the meeting on the morning of July 8, 2008. At this meeting, Cleveland-Cliffs management reviewed with the Cleveland-Cliffs board of directors the status of the discussions to date with Alpha and Citi regarding a potential business combination transaction. Also at this meeting, J.P. Morgan presented a preliminary analysis of a combination of Cleveland-Cliffs and Alpha. In addition, Jones Day discussed the board of directors' fiduciary duties in the context of an acquisition transaction. At the conclusion of the July 8, 2008 board meeting, Cleveland-Cliffs' board of directors authorized management to make a formal non-binding offer of \$13.78 per share in cash and one common share of Cleveland-Cliffs for each share of Alpha common stock.

On July 8, 2008, Cleveland-Cliffs executed an engagement letter with J.P. Morgan.

During the late morning on July 8, 2008, representatives of Cleveland-Cliffs' management, Jones Day and J.P. Morgan met to discuss the non-binding offer to acquire Alpha, the outstanding due diligence requests and the terms of the financing to be arranged by JPMorgan Chase Bank, N.A., which is referred to as JPMCB.

Also, during the early afternoon of July 8, 2008, a senior representative of the Investor called Mr. Carrabba and Ms. Brlas to consult generally about factors to consider when contemplating an acquisition of Appalachian coal assets or coal assets in Alabama. The parties discussed generally those factors that Cleveland-Cliffs typically focuses on in connection with such acquisitions. The senior representative of the Investor thanked them for the information and concluded the call.

During the afternoon of July 8, 2008, Mr. Carrabba and Ms. Brlas met with Mr. Quillen and Mr. Crutchfield in Abingdon, Virginia. At this meeting, Mr. Carrabba and Ms. Brlas presented to Mr. Quillen and Mr. Crutchfield the terms of Cleveland-Cliffs' non-binding offer for the acquisition of all outstanding shares of Alpha common stock for a per share consideration of one Cleveland-Cliffs common share and \$13.78 in cash. Based on the closing price of Cleveland-Cliffs stock on July 7, 2008, the proposal was valued at \$112.13 per share, which represented an implied premium of approximately 28% as of that date. In the proposal to Alpha, Cleveland-Cliffs proposed to expand its board of directors to include Mr. Quillen, who would become non-executive vice chairman of Cleveland-Cliffs, and Glenn A. Eisenberg, a non-management member of Alpha's board. In addition, Cleveland-Cliffs proposed to appoint Mr. Crutchfield to the post of president of Cleveland-Cliffs' coal division, and to call the combined company Cliffs Natural Resources Inc. This proposal indicated, among other things, that the proposed acquisition would not be subject to any financing condition and that both parties would be subject to a customary reciprocal break-up fee.

On July 9, 2008, Cleveland-Cliffs delivered to Alpha an initial draft of the merger agreement.

Also on July 9, 2008, Alpha held a special meeting of its board of directors at which the directors, in consultation with management, Citi and Cleary Gottlieb, analyzed and discussed Cleveland-Cliffs' July 8, 2008 proposal and the alternatives available to Alpha, including the possibility of a revised proposal from Company 4. Alpha's senior

management then reviewed with the Alpha board the results of Alpha's financial and legal due diligence investigation of Cleveland-Cliffs in 2007 and its additional investigation during the prior weeks. Representatives of Cleary Gottlieb and Citi informed the board that, under Ohio law, the transaction would require the approval of two-thirds of Cleveland-Cliffs' outstanding shares and that the Investor would therefore play a very important role in determining whether shareholder approval would be obtained. The Investor has shared voting and dispositive power with respect to 16,616,472 shares (based upon information contained in a

**Table of Contents**

Schedule 13D filed by the Investor with the SEC on July 17, 2008) which constituted 15.57%, of Cleveland-Cliffs outstanding common shares as of August 11, 2008. The board of directors instructed Alpha's management and advisors to continue negotiations with Cleveland-Cliffs on the terms of the proposed transaction as set forth in the draft merger agreement and to communicate to Cleveland-Cliffs that the board strongly believed that Cleveland-Cliffs should discuss the proposed transaction with the Investor prior to the execution of a definitive merger agreement. The board of directors also instructed Alpha's management and advisors to continue working on the terms of the financing for the possible transaction with Company 2. In addition, the board instructed Alpha's management to communicate to Company 4's advisors that if Company 4 intended to make a revised proposal for the acquisition of Alpha, it should do so in the next few days. Representatives of Alpha subsequently informed Company 4 that any revised proposal should be submitted no later than July 14, 2008.

On July 9, 2008, Mr. Quillen indicated to the Chief Executive Officer of Company 2 that Alpha was now in serious discussions with another party for a strategic transaction and that he anticipated that the value represented by this other transaction would be of interest to Alpha's board. Mr. Quillen advised the Chief Executive Officer of Company 2 that Alpha was proceeding with negotiations with its banks on financing of the transaction with Company 2 and would continue that work and that Alpha hoped to report back on July 14, 2008 based on feedback from the banks.

On July 11, 2008, the Cleveland-Cliffs board of directors convened a special meeting. Representatives of J.P. Morgan and Jones Day participated in the meeting. At this meeting, Mr. Carrabba and Ms. Brlas provided the Cleveland-Cliffs board of directors with an update concerning their discussions with Mr. Quillen and Mr. Crutchfield on July 8, 2008.

Representatives of Jones Day and Cleary Gottlieb had a brief discussion regarding the merger agreement later on July 11, 2008. The representatives of Cleary Gottlieb indicated that, given the size of the Investor's equity interest in Cleveland-Cliffs and the required Cleveland-Cliffs shareholder approval necessary to complete the proposed transaction, Alpha's board of directors believed very strongly that Cleveland-Cliffs should discuss the proposed transaction with the Investor prior to the execution of a definitive merger agreement. Later that evening, representatives of Cleary Gottlieb delivered to Jones Day a mark-up of the merger agreement sent by Cleveland-Cliffs on July 9, 2008.

From July 11 through July 13, 2008, Cleveland-Cliffs and Alpha and their respective advisors negotiated the terms of the merger agreement.

On July 13, 2008, the Cleveland-Cliffs board of directors convened a special meeting. Representatives of J.P. Morgan and Jones Day participated in the meeting. At this meeting, the Cleveland-Cliffs management team reviewed with the board of directors of Cleveland-Cliffs, J.P. Morgan and Jones Day, the status of the negotiations with Alpha and the proposed terms and conditions of the merger. During this meeting, Cleveland-Cliffs management also reviewed the results of its financial and legal due diligence investigation, and J.P. Morgan reviewed its updated financial analysis of the proposed business combination. Jones Day reviewed the material terms and conditions of the merger agreement, as reflected in the then current draft, and the legal duties and responsibilities of the Cleveland-Cliffs board of directors in connection with the proposed merger.

On July 13, 2008, Alpha held a special meeting of its board of directors at which the directors, in consultation with management and representatives of Citi and Cleary Gottlieb, discussed and analyzed the proposed transaction with Cleveland-Cliffs and considered the other alternatives available to Alpha, including Alpha's stand-alone plan, the possibility of receiving a proposal from Company 4, the proposed transaction with Company 2, and the relative impact to shareholders of these different alternatives, including illustrative financial metrics prepared by Citi indicating that the proposed transaction with Cleveland-Cliffs could be more attractive, from a financial point of view, to Alpha's stockholders than the proposed combination with Company 2, given certain financial assumptions. Management informed the board that, despite requests to representatives of Company 4 and its financial advisor, Company 4 had

not submitted a revised proposal to acquire Alpha, nor had it signaled its intention to do so in due course. Management also informed the Alpha board that the negotiations with Company 2 remained stalled due to the insistence by Company 2 that Alpha bear all risk, without any limitation, relating to financing. In addition, Alpha was still awaiting the commitment letter from the banks as to financing the Company 2 acquisition. Alpha's management updated the board regarding the results of its legal and financial due diligence investigation of

**Table of Contents**

Cleveland-Cliffs. Representatives of Cleary Gottlieb and Citi reviewed for the board the terms of the draft merger agreement with Cleveland-Cliffs, including the remaining open issues, and the timing and process of the proposed merger. In addition, representatives of Cleary Gottlieb and Citi reiterated to the board that, under Ohio law, the transaction would require the approval of two-thirds of Cleveland-Cliffs' outstanding shares and that the Investor would therefore play a very important role in determining whether shareholder approval would be obtained. Citi reviewed with the board certain financial information regarding the proposed transactions under consideration. Alpha's board of directors then instructed management to continue negotiations with Cleveland-Cliffs in order to resolve the remaining legal issues on the merger agreement, to see if the consideration offered by Cleveland-Cliffs could be enhanced, and to require Cleveland-Cliffs to consult with the Investor to determine whether the Investor would oppose this transaction. The Alpha board instructed management that it should focus its efforts on obtaining enhanced merger consideration value, rather than negotiating for any additional benefits relating to social issues, such as board representation.

During the evening of July 13, 2008, representatives of Jones Day delivered to Cleary Gottlieb a mark-up of the merger agreement in response to comments provided by Cleary Gottlieb on July 11, 2008.

During the course of July 14 and 15, 2008, representatives of Cleveland-Cliffs and Jones Day, on the one hand, and Alpha and Cleary Gottlieb, on the other hand, continued negotiating the terms of the merger agreement in detail.

During the morning of July 14, 2008, representatives of Cleveland-Cliffs and Alpha and their respective advisors discussed the terms of the merger agreement relating to the required approvals of Cleveland-Cliffs and Alpha stockholders. Representatives from Cleary Gottlieb and Alpha reiterated the view that Alpha's board of directors believed very strongly that Cleveland-Cliffs should discuss the proposed transaction with the Investor prior to the execution of a definitive merger agreement.

During the afternoon of July 14, 2008, Mr. Quillen called Mr. Carrabba to reiterate the Alpha board of directors' desire to have Cleveland-Cliffs obtain from the Investor some indication that the Investor was not opposed to the transaction. Mr. Quillen also informed Mr. Carrabba that Alpha's board of directors would not accept the offer of \$13.78 in cash plus one Cleveland-Cliffs common share for each share of Alpha common stock. Based on the closing price of Cleveland-Cliffs stock on July 11, 2008, the most recent trading day prior to July 14, the value of such consideration was \$123.19, which represented an implied premium of approximately 27% as of July 11, 2008. Mr. Quillen also advised Mr. Carrabba that Alpha was looking for the merger consideration to represent an implied premium, to the then-market price, in the range of 36% and asked Cleveland-Cliffs to come back with its best offer.

Later on July 14, 2008, after consultation with certain members of the Cleveland-Cliffs board of directors, J.P. Morgan and Ms. Brlas, Mr. Carrabba called Mr. Quillen to inform him that Cleveland-Cliffs would be willing to increase the value of its offer by increasing the cash component of the merger consideration from \$13.78 to \$22.23 per share and reducing the stock portion of the merger consideration from 1 to 0.95 common share of Cleveland-Cliffs for each share of Alpha common stock. Based on the closing price of Cleveland-Cliffs stock on July 14, 2008, the value of such consideration was \$130.00 per share, which represented an implied premium of approximately 32% as of such date. Mr. Quillen advised Mr. Carrabba that he would recommend this revised proposal to the board of Alpha, but first Alpha needed assurance that Cleveland-Cliffs would reach out to the Investor before Alpha's board meeting. Executives of and advisors to Cleveland-Cliffs indicated to executives of and advisors to Alpha that, while Cleveland-Cliffs believed that the Investor would approve of the proposed transaction based on recent discussions the Investor had had with Cleveland-Cliffs about Cleveland-Cliffs' strategy to expand further into coal, Cleveland-Cliffs would accommodate Alpha's request that Cleveland-Cliffs speak directly to the Investor about this transaction to obtain its reaction.

On July 15, 2008 Mr. Quillen contacted the Chief Executive Officer of Company 2 to advise him that it looked likely Alpha would pursue an alternative deal. In addition, Mr. Quillen briefed the Chief Executive Officer of Company 2 that the banks had proposed financing terms for the combination of Alpha and Company 2 that were unattractive in several respects, including an interest rate that was substantially above Alpha's current interest rate. The Chief Executive Officer of Company 2 asked for a few hours to consider if there were any terms of Company 2's proposed combination with Alpha that Company 2 wished to revise. Shortly thereafter, Company 2 delivered a letter to Alpha that indicated that it would be prepared to proceed with the proposed all-stock transaction between Company 2 and Alpha with a structure where Alpha would pay a reverse termination fee in the event the financing

**Table of Contents**

were not disbursed. The letter indicated that Company 2 expected the terms of the proposed transaction, including the economics, to otherwise remain unchanged from the previous discussions.

On July 15, 2008, Company 4 communicated to a senior executive of Alpha that Company 4 appreciated Alpha's cooperation in the process of conducting due diligence with respect to Alpha that Company 4 had recently completed, but was declining the opportunity to submit a revised proposal to acquire Alpha.

Also on July 15, 2008, the Cleveland-Cliffs board of directors met to discuss the final terms and conditions of the draft merger agreement. Also in attendance were members of Cleveland-Cliffs' management and representatives of J.P. Morgan and Jones Day. Representatives of Jones Day and Cleveland-Cliffs' management then reviewed with the Cleveland-Cliffs board of directors the final changes to the merger agreement, which had been provided to the directors prior to the meeting, discussed the status of the negotiations with Alpha, and the terms of Cleveland-Cliffs' financing commitment letters from J.P. Morgan and JPMCB. Jones Day reviewed with the board members their fiduciary duties in the context of the proposed transaction. Representatives of J.P. Morgan then presented an updated financial analysis of the proposed transaction and delivered its oral opinion to the Cleveland-Cliffs board of directors, which was subsequently confirmed the same day in writing, that, as of July 15, 2008, based upon and subject to the various factors and assumptions set forth in the opinion, the merger consideration to be paid by Cleveland-Cliffs to the Alpha stockholders in the proposed merger was fair, from a financial point of view, to Cleveland-Cliffs. The full text of the written opinion by J.P. Morgan, which sets forth the assumptions made, general procedures followed, matters considered and limitations on the scope of the review undertaken by J.P. Morgan in concluding its financial analysis and rendering its opinion, is attached as [Annex C](#) to this joint proxy statement/prospectus.

At the conclusion of the July 15, 2008 meeting, the Cleveland-Cliffs board of directors unanimously adopted resolutions approving the merger agreement with Alpha, the merger and the other transactions contemplated by the merger agreement, declaring the merger advisable and in the best interests of Cleveland-Cliffs shareholders, authorizing Cleveland-Cliffs to enter into the merger agreement and recommending that the Cleveland-Cliffs shareholders adopt the merger agreement and approve the issuance of the Cleveland-Cliffs common shares in connection with the merger.

Immediately following the conclusion of the July 15, 2008 Cleveland-Cliffs board meeting, Mr. Carrabba called a senior representative of the Investor. Prior to engaging in any discussions with this senior representative of the Investor, Mr. Carrabba obtained an agreement from him to keep the information to be discussed confidential and not to engage in any trading so as to ensure compliance with Cleveland-Cliffs' obligations under the federal securities laws. Having obtained the senior representative's agreement with respect to confidentiality, Mr. Carrabba informed him that Cleveland-Cliffs was about to execute an agreement to acquire Alpha in a cash and stock transaction and described the terms of the transaction. During this conversation, the senior representative of the Investor indicated that he would be looking for more information about the transaction but gave no indication that the Investor would oppose the transaction. After this conversation, Mr. Carrabba informed Mr. Quillen that Cleveland-Cliffs had presented the proposed transaction with Alpha to a senior representative of the Investor in a confidential telephone call after the market closed on July 15, 2008. Mr. Carrabba stated that he believed the Investor would support the transaction.

In the evening of July 15, 2008, Alpha held a special meeting of its board of directors at which the directors, in consultation with management, Citi and Cleary Gottlieb, reviewed and discussed the terms of the draft merger agreement, the terms of the debt commitment letter obtained by Cleveland-Cliffs to finance the transaction, the legal standards applicable to the board's decision-making processes, and financial analyses of the proposed transaction with Cleveland-Cliffs and the alternatives available to Alpha, including its stand-alone plan and the proposed transaction with Company 2. The board also considered the latest communication from Company 4 and the latest communication from Mr. Carrabba concerning his July 15, 2008 conversation with a senior representative of the Investor. Representatives of Citi made a presentation to the board about the proposed transaction and Alpha's alternatives. In

connection with the deliberation by the Alpha board of directors, Citi rendered to the Alpha board of directors its oral opinion, which was subsequently confirmed in writing on the same date, to the effect that, as of the date of the opinion and based upon and subject to the considerations and limitations set forth in the opinion, the presentation of financial analyses by Citi that accompanied the delivery of the opinion and other factors it deemed

## **Table of Contents**

relevant, the merger consideration was fair, from a financial point of view, to the holders of Alpha common stock. The full text of Citi's opinion, which sets forth the assumptions made, general procedures followed, matters considered and limits on the review undertaken, is included as Annex B to this joint proxy statement/prospectus. Following these discussions, and review and discussion among the members of the Alpha board of directors, including consideration of the factors described under Alpha's Reasons for the Merger; Recommendation of Alpha's Board of Directors, the Alpha board of directors determined that the merger, the merger agreement and the transactions contemplated by the merger agreement were advisable and fair to and in the best interests of Alpha and its stockholders, and the directors (with Mr. Brinzo abstaining due to his prior relationship with Cleveland-Cliffs) voted unanimously to approve the merger, the merger agreement and the transactions contemplated by the merger agreement.

The merger agreement was executed by Cleveland-Cliffs, merger sub, and Alpha on July 15, 2008. On July 16, 2008, prior to the commencement of trading on the NYSE, Cleveland-Cliffs and Alpha issued a joint press release announcing the signing of the merger agreement.

### **Alpha's Reasons for the Merger and Recommendation of Alpha's Board of Directors**

In reaching its decision to approve the merger agreement and recommend the merger to its stockholders, the Alpha board of directors consulted with Alpha's management, as well as legal and financial advisors, and considered a number of factors, including those listed below.

The Alpha board of directors considered the following factors as generally supporting its decision to enter into the merger agreement and recommend the merger to its stockholders:

its knowledge of Alpha's business, operations, financial condition, earnings and prospects and of Cleveland-Cliffs' business, operations, financial condition, earnings and prospects, taking into account the results of Alpha's due diligence of Cleveland-Cliffs;

its knowledge of the current environment in the mining industry, including economic conditions, continued consolidation, current financial market conditions and the likely effects of these factors on Alpha, Cleveland-Cliffs and the combined company's potential growth, development, productivity and strategic options;

the financial terms of the merger, including the fact that, based on the closing prices on the NYSE of Cleveland-Cliffs common shares on July 15, 2008 (the last trading day prior to announcement of the merger agreement), the value of the merger consideration represented an approximate 35% premium over the closing price of Alpha shares as of that date;

the fact that Alpha stockholders will receive a portion of the merger consideration in cash, giving Alpha stockholders an opportunity to immediately realize value for a portion of their investment and providing certainty of value, and a portion in Cleveland-Cliffs common shares, with the result that the Alpha stockholders will own approximately 39% of the combined company's equity, and benefit from the expected gains from the merger;

its belief, after reviewing Alpha's potential strategic alternatives to the merger with Cleveland-Cliffs, including a merger or other strategic transaction with another third party, and taking into account the preliminary discussions with other third parties (see Background of the Merger beginning on page 48), that it was unlikely that another party would make or accept an offer to engage in a transaction with Alpha that would be more favorable to Alpha and its stockholders than the merger with Cleveland-Cliffs;

its belief that the two companies would create a larger and more diversified institution that is both better equipped to respond to economic and industry developments and better positioned to develop and build on its strong market shares in iron ore, metallurgical coal and thermal coal;

the strategic fit and complementary nature of Cleveland-Cliffs and Alpha's respective businesses and the potential presented by the merger with Cleveland-Cliffs for cost savings opportunities, and the related potential impact on the combined company's earnings;

**Table of Contents**

the overall competitive positioning of the combined company, which is expected to be a leading diversified mining company and major supplier to the global steel industry;

the presentation by Alpha's financial advisor of financial analyses of Alpha on a stand-alone basis, the combination of Alpha and another third party that had expressed an interest in a merger with Alpha, and of the combination of Alpha and Cleveland-Cliffs;

Citi's opinion, dated as of July 15, 2008, delivered to the Alpha board of directors to the effect that, as of the date of the opinion, and subject to the considerations and limitations set forth in the opinion, the presentation of financial analyses by Citi that accompanied the delivery of the opinion and other factors that Citi deemed relevant, the merger consideration was fair, from a financial point of view, to the holders of Alpha common stock;

the statements by the Chief Executive Officer of Cleveland-Cliffs to Alpha about his conversations with a senior representative of Harbinger Capital Partners, the largest shareholder of Cleveland-Cliffs, about the proposed transaction in a confidential conversation on July 15, 2008, as well as the fact that, in the event that Alpha's stockholders adopted the merger agreement but the Cleveland-Cliffs shareholders failed to approve the issuance of shares in connection with the merger, Alpha would be entitled in some circumstances to obtain a \$100 million termination fee;

the structure of the merger and the terms and conditions of the merger agreement, including:

the limited closing conditions to Cleveland-Cliffs' obligations under the merger agreement, including, in particular, the fact that the merger agreement contains no financing contingency or limit on the obligations of Cleveland-Cliffs in the event of a failure of the lender to Cleveland-Cliffs to disburse the financing committed for purposes of this transaction;

the provisions of the merger agreement that allow Alpha to engage in negotiations with, and provide information to, third parties, under certain circumstances in response to an unsolicited takeover proposal that Alpha's board of directors determines in good faith, after consultation with its outside legal advisors and its financial advisors, constitutes or could reasonably be expected to lead to a transaction that is more favorable to Alpha stockholders than the merger with Cleveland-Cliffs;

the provisions of the merger agreement that allow Alpha, under certain circumstances, to terminate the merger agreement prior to its stockholder approval of the merger agreement in order to enter into an alternative transaction in response to an unsolicited takeover proposal that Alpha's board of directors determines in good faith, after consultation with its outside legal advisors and its financial advisors, is more favorable to Alpha stockholders than the merger with Cleveland-Cliffs;

the ability of Alpha to obtain a break-up fee of \$350 million from Cleveland-Cliffs in the event that Cleveland-Cliffs fails to consummate the merger under certain circumstances, or a fee of \$100 million if Cleveland-Cliffs shareholders fail to adopt the merger agreement and approve the issuance of the Cleveland-Cliffs common shares in connection with the merger (provided that, if Alpha's stockholders do not adopt the merger agreement, Cleveland-Cliffs will not be required to pay the \$100 million termination fee);

the fact that the merger is structured as a reorganization for U.S. federal income tax purposes, which generally allows Alpha stockholders to refrain from recognizing any gain from the receipt of the share portion of the merger consideration; and

the fact that Alpha stockholders who do not vote in favor of the adoption of the merger agreement and otherwise follow the procedures prescribed by the DGCL will have the appraisal rights in connection with the merger.

Alpha's board of directors also considered certain potentially negative factors in its deliberations concerning the merger, including the following:

the merger agreement's non-solicitation and stockholder approval covenants, and the requirement that Alpha must pay to Cleveland-Cliffs a termination fee of \$350 million if the merger agreement is terminated under

**Table of Contents**

certain circumstances (which Alpha's board of directors understood was a condition to Cleveland-Cliffs willingness to enter into the merger agreement and that could limit the willingness of a third party to propose a competing business combination with Alpha), or \$100 million if Alpha stockholders fail to adopt the merger agreement (provided that, if Cleveland-Cliffs' shareholders do not adopt the merger agreement and approve the issuance of Cleveland-Cliffs' common shares in connection with the merger, Alpha will not be required to pay the \$100 million termination fee);

the fact that, under Ohio law, the merger requires the approval of holders of two-thirds of the outstanding shares of Cleveland-Cliffs and the fact that a substantial portion of the outstanding shares of Cleveland-Cliffs are owned by a single shareholder;

the difficulty that Cleveland-Cliffs would have completing the merger if the financing outlined in the commitment letter received by Cleveland-Cliffs from J.P. Morgan and JPMCB were not disbursed;

the regulatory and other approvals required in connection with the merger and the possibility that such approvals might not be received in a timely manner and without unacceptable conditions, creating the risk that adverse changes to the financial condition, results of operations, business, competitive position, reputation and business prospects of either Alpha or Cleveland-Cliffs could result in fluctuation in the value of the share portion of the merger consideration to be received by Alpha stockholders, could adversely affect the value of the combined company, or could result in the failure to complete the merger;

the possibility that management focus and resources at both Alpha and Cleveland-Cliffs would be diverted from other strategic opportunities and from operational matters while working to implement the merger;

the requirement that Alpha conduct its business only in the ordinary course prior to the completion of the merger and subject to specified restrictions without Cleveland-Cliffs' prior consent (which consent may not be unreasonably withheld, delayed or conditioned), which might delay or prevent Alpha from undertaking certain business opportunities that might arise pending completion of the merger; and

the fact that some of Alpha's directors and executive officers have other interests in the merger that are in addition to, and may be different from, their interests as Alpha stockholders, including as a result of employment and compensation arrangements with Alpha and the manner in which they would be affected by the merger. See Interests of Alpha Directors and Executive Officers in the Merger on page 83.

In the judgment of the Alpha board of directors, however, these potential risks were outweighed by the potential benefits of the merger discussed above.

The foregoing discussion of the factors considered by the Alpha board of directors is not intended to be exhaustive, but, rather, includes the material factors considered by the Alpha board of directors. In reaching its decision to approve the merger agreement, the Alpha board did not quantify or assign any relative weights to the factors considered, and individual directors may have given different weights to different factors. The Alpha board of directors considered all these factors as a whole, including discussions with, and questioning of, Alpha management and Alpha's financial and legal advisors, and overall considered the factors to be favorable to, and to support, its determination. The Alpha board of directors also relied on the experience of Citi, its financial advisor, for analyses of the financial terms of the merger and for its opinions as to the fairness of the consideration to be received in the merger to Alpha stockholders.

**For the reasons set forth above, the Alpha board of directors determined that the merger is advisable and fair to and in the best interests of Alpha and its stockholders, and approved the merger agreement. The Alpha**

**board of directors recommends that the Alpha stockholders vote for the adoption of the merger agreement.**

**Cleveland-Cliffs Reasons for the Merger and Recommendation of Cleveland-Cliffs Board of Directors**

In reaching a conclusion to approve the merger and related transactions and to recommend that Cleveland-Cliffs shareholders adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in

**Table of Contents**

connection with the merger, the Cleveland-Cliffs board of directors consulted with Cleveland-Cliffs management, as well as legal and financial advisors. In these consultations, the board considered a number of factors including:

that Alpha is the largest metallurgical coal supplier in the United States, and that the acquisition of Alpha will provide Cleveland-Cliffs additional exposure to the high-growth steel making raw materials market;

the strategic nature of the acquisition, which will allow both companies to capitalize on current market dynamics in iron ore and metallurgical coal, as well as create a stronger platform for continued strategic investments in the global mining industry. The acquisition will also provide economies of scale that result from creating one of the largest mining companies in the United States;

the merger will provide Cleveland-Cliffs with premier coal industry management, technical and operational expertise via the addition of Alpha's management team;

the acquisition of Alpha will enhance Cleveland-Cliffs product portfolio in steelmaking raw materials and measured diversification into other products. The acquisition will substantially increase Cleveland-Cliffs annual production of metallurgical coal and optimize the revenues generated from the combined company's coal reserves;

the acquisition will capitalize on the strong market condition of the U.S. and global steel industries and further solidify Cleveland-Cliffs as a major iron ore and metallurgical coal supplier;

expected synergies, including Alpha's unique coal blending capabilities and preparation plant optimization, that are anticipated to result in approximately \$200 million in aggregate synergies beginning in 2010;

the additional exposure Alpha will provide Cleveland-Cliffs to international markets via Alpha's equity positions in U.S. port infrastructure and its expanded sales and marketing network;

Cleveland-Cliffs management's view, based on due diligence and discussions with Alpha's management, that Alpha and Cleveland-Cliffs share common values with respect to best-in-class safety standards and practices and the socially responsible processing of the earth's natural resources;

the merger is expected to provide Cleveland-Cliffs with a more balanced portfolio of existing mines and exploratory opportunities, thereby giving Cleveland-Cliffs management more flexibility in its capital allocation decisions;

the combined company will have a diverse geographic reach with combined coal operations in North America and Australia, and a number of the properties of the combined company will be in the same geographic region which may facilitate integration of those properties and a possible reduction in operating and administrative costs;

the potential synergies expected to be derived from the merger presents an opportunity for continued and sustained growth in accordance with Cleveland-Cliffs strategic plan for growth, as well as geographic and mineral diversification;

the Cleveland-Cliffs board's knowledge of Cleveland-Cliffs business, operations, financial condition, earnings and prospects and of Alpha's business, operations, financial condition, earnings and prospects, taking into account the results of Cleveland-Cliffs due diligence of Alpha;

the Cleveland-Cliffs board's knowledge of the current environment in the mining industry, including economic conditions, continued consolidation, current financial market conditions and the likely effects of these factors on Cleveland-Cliffs, Alpha's, and the combined company's potential growth, development, productivity and strategic options;

information concerning the financial conditions, results of operations, prospects and businesses of Cleveland-Cliffs and Alpha, including the respective companies' reserves, production volumes, cash flows from operations, recent performance of common shares and the ratio of Cleveland-Cliffs share price to Alpha stock price over various periods, as well as current industry, economic and market conditions;

the results of the business, legal and financial due diligence review of Alpha's businesses and operations;

**Table of Contents**

the exchange ratio will enable Cleveland-Cliffs shareholders to own approximately 61% of the outstanding stock of the combined company;

the determination that an exchange ratio that is fixed is appropriate to reflect the strategic purpose of the merger and that a fixed exchange ratio avoids fluctuations caused by near-term market volatility;

the terms and conditions of the merger agreement, including the following:

the fact that Alpha agreed to pay a termination fee of \$100 million to Cleveland-Cliffs in the event that the merger agreement is terminated due to a failure to obtain necessary approval from Alpha stockholders (provided that, if Cleveland-Cliffs shareholders do not adopt the merger agreement and approve issuance of the Cleveland-Cliffs common shares in connection with the merger, Alpha will not be required to pay the \$100 million termination fee);

the fact that Cleveland-Cliffs may be entitled to receive a \$350 million termination fee from Alpha if the merger is not consummated for certain reasons as more fully described in the section entitled "The Merger Agreement - Termination Fees" on page 113;

the fact that the conditions required to be satisfied prior to completion of the merger are customary thereby increasing the likelihood of the consummation of the merger;

the fact that two members of the Alpha board of directors are expected to be appointed to the Cleveland-Cliffs board of directors, which is expected to provide a degree of continuity and involvement by Alpha directors in the combined company following the merger; and

the fact that, subject to certain exceptions, Alpha is prohibited from taking certain actions that would be deemed to be a solicitation under the merger agreement, including solicitation, initiation, encouragement of any inquiries or the making of any proposals for certain types of business combination or acquisition of Alpha (or entering into any agreement for such business combination or acquisition of Alpha or any requiring to abandon, terminate or fail to consummate the merger); and

J.P. Morgan's opinion, including its analysis rendered orally on July 15, 2008 and confirmed in writing on the same date, to the effect that, as of July 15, 2008, and based on and subject to various factors and assumptions set forth in its written opinion, the consideration proposed to be paid by Cleveland-Cliffs to Alpha stockholders in the merger was fair, from a financial point of view, to Cleveland-Cliffs.

Cleveland-Cliffs board of directors also considered the potential adverse impact of other factors weighing negatively against the proposed transaction, including, without limitation, the following:

the risk that a substantial or extended decline in coal prices would likely make the merger less desirable from a financial point of view;

the potential dilution to Cleveland-Cliffs shareholders;

the risk of diverting management's attention from other strategic opportunities in order to implement merger integration efforts;

the challenges of combining the businesses, operations and workforces of Cleveland-Cliffs and Alpha and realizing the anticipated cost savings and operating synergies;

the risk that the parties may incur significant costs and delays resulting from seeking governmental consents and approvals necessary for completion of the proposed merger;

the terms and conditions of the merger agreement, including:

the requirement that Cleveland-Cliffs must pay to Alpha a termination fee of \$350 million if the merger agreement is terminated under circumstances specified in the merger agreement, as described in the section entitled "The Merger Agreement - Termination Fees" on page 113;

the fact that Cleveland-Cliffs agreed to pay a termination fee of \$100 million to Alpha in the event that the merger agreement is terminated due to a failure to obtain necessary Cleveland-Cliffs shareholder approval

**Table of Contents**

(provided that, if Alpha stockholders fail to adopt the merger agreement, Cleveland-Cliffs will not be required to pay the \$100 million termination fee), as described in the section entitled *The Merger Agreement Termination Fees* on page 113; and

the fact that the terms of the merger agreement provide that, under certain circumstances and subject to certain conditions more fully described in the section entitled *The Merger Agreement Covenants and Agreements No Solicitation by Alpha* on page 104, Alpha may furnish information to and conduct negotiations with a third party in connection with an unsolicited proposal for a business combination or acquisition of Alpha that is likely to lead to a superior proposal and the Alpha board of directors can terminate the merger agreement in order to accept a superior proposal or, under certain circumstances, change its recommendation prior to Alpha stockholders' approval of the merger agreement;

the fact that Alpha stockholders who dissent from the merger will have appraisal rights, as described in the section entitled *Appraisal Rights of Alpha Stockholders*, on page 87;

the fact that Cleveland-Cliffs shareholders who dissent from the merger will have dissenters' rights as described in the section entitled *Dissenters' Rights of Cleveland-Cliffs Shareholders*, on page 91; and

the risks described in the section entitled *Risk Factors* beginning on page 27.

In the judgment of the Cleveland-Cliffs board of directors, however, the potential benefits of the merger discussed above outweigh the any potential risks. The foregoing discussion of the factors considered by the Cleveland-Cliffs board of directors is not intended to be exhaustive, but, rather, includes the material factors considered by the Cleveland-Cliffs board of directors. In reaching its decision to approve the merger agreement, the Cleveland-Cliffs board did not quantify or assign any relative weights to the factors considered, and individual directors may have given different weights to different factors.

**Cleveland-Cliffs' board of directors has approved the merger agreement and determined that the transactions contemplated by the merger agreement are advisable and in the best interests of Cleveland-Cliffs and its shareholders. Cleveland-Cliffs' board of directors recommends that Cleveland-Cliffs shareholders vote for the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement at the Cleveland-Cliffs special meeting.**

**Opinion of Alpha's Financial Advisor**

Citi was retained to act as financial advisor to Alpha to render certain financial advisory and investment banking services in connection with the merger. Pursuant to Citi's engagement letter with Alpha, dated July 15, 2008 (which memorialized Citi's engagement by Alpha beginning on June 9, 2008), on July 15, 2008, Citi rendered its oral opinion, subsequently confirmed in writing to the Alpha board of directors on the same date, to the effect that, as of the date of the opinion and based upon and subject to the considerations and limitations set forth in the opinion, its work described below and other factors it deemed relevant, the merger consideration was fair, from a financial point of view, to the holders of Alpha common stock.

The full text of Citi's opinion, which sets forth the assumptions made, general procedures followed, matters considered and limits on the review undertaken, is included as Annex B to this joint proxy statement/prospectus. The summary of Citi's opinion set forth below is qualified in its entirety by reference to the full text of the opinion. Holders of Alpha common stock are urged to read the Citi opinion carefully and in its entirety.

Citi's opinion was limited solely to the fairness of the merger consideration from a financial point of view to the holders of Alpha common stock as of the date of the opinion. Neither Citi's opinion nor the related analyses constituted a recommendation of the proposed merger to the Alpha board of directors. Citi makes no recommendation to any stockholder regarding how such stockholder should vote with respect to the merger.

In arriving at its opinion, Citi reviewed a draft dated July 14, 2008 of the merger agreement and held discussions with certain senior officers, directors and other representatives and advisors of Alpha and certain senior officers and other representatives and advisors of Cleveland-Cliffs concerning the businesses, operations and prospects of Alpha and Cleveland-Cliffs. Citi examined certain publicly available business and financial information relating to Alpha and Cleveland-Cliffs as well as certain financial forecasts and other information and data

**Table of Contents**

relating to Alpha and Cleveland-Cliffs which were provided to or discussed with Citi by the respective managements of Alpha and Cleveland-Cliffs, including information relating to the potential strategic implications and operational benefits (including the amount, timing and achievability thereof) anticipated by the managements of Alpha and Cleveland-Cliffs to result from the merger. Citi reviewed the financial terms of the merger as set forth in the merger agreement in relation to, among other things: current and historical market prices and trading volumes of Alpha common stock and Cleveland-Cliffs common shares; the historical and projected earnings and other operating data of Alpha and Cleveland-Cliffs; and the capitalization and financial condition of Alpha and Cleveland-Cliffs. Citi considered and analyzed certain financial, stock market and other publicly available information relating to the businesses of other companies whose operations it considered relevant in evaluating those of Alpha and Cleveland-Cliffs. Citi also evaluated certain potential pro forma financial effects of the merger on Cleveland-Cliffs. In connection with Citi's engagement, Citi advised Alpha on discussions it had with selected third parties with respect to the possible acquisition of, or other combination with, Alpha. In addition to the foregoing, Citi conducted such other analyses and examinations and considered such other information and financial, economic and market criteria as it deemed appropriate in arriving at its opinion.

In rendering its opinion, Citi assumed and relied, without independent verification, upon the accuracy and completeness of all financial and other information and data publicly available or provided to or otherwise reviewed by or discussed with Citi and upon the assurances of the managements of Alpha and Cleveland-Cliffs that they were not aware of any relevant information that was omitted or that remained undisclosed to Citi. With respect to financial forecasts and other information and data relating to Alpha and Cleveland-Cliffs provided to or otherwise reviewed by or discussed with Citi, Citi was advised by the respective managements of Alpha and Cleveland-Cliffs that such forecasts and other information and data were reasonably prepared on bases reflecting the best currently available estimates and judgments of the managements of Alpha and Cleveland-Cliffs as to the future financial performance of Alpha and Cleveland-Cliffs, the potential strategic implications and operational benefits (including the amount, timing and achievability thereof) anticipated to result from the merger and the other matters covered thereby.

In rendering its opinion, Citi assumed, with Alpha's consent, that the merger would be consummated in accordance with its terms, without waiver, modification or amendment of any material term, condition or agreement and that, in the course of obtaining the necessary regulatory or third party approvals, consents and releases for the merger, no delay, limitation, restriction or condition would be imposed that would have an adverse effect on Alpha, Cleveland-Cliffs or the contemplated benefits of the merger. Representatives of Alpha advised Citi, and Citi further assumed, that the final terms of the merger agreement would not vary materially from those set forth in the draft reviewed by Citi. Citi also assumed, with Alpha's consent, that the merger would be treated as a tax-free reorganization for federal income tax purposes. Citi has not expressed any opinion as to what the value of the Cleveland-Cliffs common shares actually would be when issued pursuant to the merger or the price at which the Cleveland-Cliffs common shares would trade at any time. Citi did not make and was not provided with an independent evaluation or appraisal of the assets or liabilities (contingent or otherwise) of Alpha or Cleveland-Cliffs nor did it make any physical inspection of the properties or assets of Alpha or Cleveland-Cliffs. Citi's opinion did not address the underlying business decision of Alpha to effect the merger, the relative merits of the merger as compared to any alternative business strategies that might exist for Alpha or the effect of any other transaction in which Alpha might engage. Citi also expressed no view as to, and its opinion did not address, the fairness (financial or otherwise) of the amount or nature or any other aspect of any compensation to any officers, directors or employees of any parties to the merger, or any class of such persons, relative to the merger consideration. Citi's opinion was necessarily based upon information available to it, and financial, stock market and other conditions and circumstances existing, as of the date of the opinion.

In connection with rendering its opinion, Citi made a presentation to the Alpha board of directors on July 15, 2008 with respect to the material analyses performed by Citi in evaluating the fairness of the merger consideration. The following is a summary of that presentation. The summary includes information presented in tabular format. **In order**

**to understand fully the financial analyses used by Citi, these tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses.** The following quantitative information, to the extent it is based on market data, is, except as otherwise indicated, based

## **Table of Contents**

on market data as it existed at or prior to July 14, 2008, and is not necessarily indicative of current or future market conditions.

### ***Alpha Valuation Analyses***

#### ***Historical Stock Prices***

To provide background information and perspective with respect to the historical share prices of Alpha common stock, Citi reviewed the stock price performance of Alpha during the 52-week period ending on July 14, 2008.

Citi noted that the range of low and high trading prices of Alpha common stock during the 52-week period ending on July 14, 2008 was approximately \$16.00 and \$109.00, respectively. Citi noted that Alpha's closing share price on July 14, 2008 was \$98.72. Citi also noted that the implied per share merger consideration as of July 14, 2008 was \$130.00, consisting of \$22.23 per share in cash and 0.95 of a Cleveland Cliffs common share (with a value of \$107.77 as of market close on July 14, 2008).

#### ***Wall Street Equity Research Analyst Stock Price Targets***

To provide background information and perspective with respect to stock price targets of Alpha common stock, Citi reviewed publicly available published price target estimates for Alpha common stock set by Wall Street equity research analysts.

Citi observed that the analyst price targets ranged from \$75.00 to \$178.00 per share of Alpha common stock, and ranged from \$78.00 to \$125.00 per share of Alpha common stock if the lowest and highest price targets of the group were excluded. Citi also observed that the median analyst price target was \$105.00 per share of Alpha common stock. Citi noted that the implied per share merger consideration as of July 14, 2008 was \$130.00.

#### ***Discounted Cash Flow Analysis***

Using projections provided by the management of Alpha, Citi conducted discounted cash flow analyses of Alpha for the relevant periods to calculate ranges of implied per share equity values of Alpha. A discounted cash flow analysis is a method of determining the value of a company using estimates of the future unlevered free cash flows generated by the company and taking into consideration the time value of money with respect to those future cash flows by calculating their present value. Present value refers to the current value of future cash flows generated by the company, and is obtained by discounting those cash flows back to the present using a discount rate that takes into account macro-economic assumptions and estimates of risk, the opportunity cost of capital, capitalized returns and other appropriate factors. Terminal value refers to the capitalized value of all cash flows generated by the company for periods beyond the final forecast period.

These cash flows were prepared based on the four alternative scenarios described below:

- (1) Historical Met Coal / Management Steam Coal Case is based on, for committed tonnage, Alpha management estimates of future sales under existing commitments principally covering fiscal years 2008 and 2009 and, for uncommitted tonnage, a constant metallurgical coal price estimate determined by the average of historical monthly metallurgical coal prices for the calendar years 2005, 2006 and 2007, and Alpha management estimates of future steam coal prices;
- (2) Wall Street Consensus Case is based on, for committed tonnage, Alpha management estimates of future sales under existing commitments principally covering fiscal years 2008 and 2009 and, for uncommitted tonnage, the

average of Wall Street equity research estimates, selected by Citi on the basis of availability, of future metallurgical and steam coal prices;

- (3) Company Case 1 is based on, for committed tonnage, Alpha management estimates of future sales under existing commitments principally covering fiscal years 2008 and 2009 and, for uncommitted tonnage, Alpha management estimates of future metallurgical coal prices, which generally assume that such future prices for uncommitted tonnage decline annually beyond fiscal year 2008, and steam coal prices. For fiscal years 2008 through 2011, Alpha management estimates of future metallurgical coal prices generally correlated with those

**Table of Contents**

published in Wall Street equity research reports, selected by Citi on the basis of availability. The majority of such Wall Street equity research estimates projected a declining price curve; and

- (4) Company Case 2 is based on, for committed tonnage, Alpha management estimates of future sales under existing commitments principally covering fiscal years 2008 and 2009 and, for uncommitted tonnage, Alpha management estimates of future metallurgical coal prices, which generally assume that such future prices for uncommitted tonnage remain relatively flat through fiscal year 2012, and steam coal prices. Alpha management estimates of future metallurgical coal prices considered Alpha management's view of current and possible future supply and demand fundamentals of the metallurgical coal market, and the increased level of strategic interest in U.S. metallurgical coal assets demonstrated by international steel companies.

Estimates of future steam coal prices for uncommitted tonnage are identical in Historical Met Coal / Management Steam Coal Case, Company Case 1 and Company Case 2, and generally assume that such future prices for uncommitted tonnage remain relatively flat through fiscal year 2012. In Alpha management's view, such future prices represented a discount to current market prices, but a premium to historical market prices, and considered current export activity and supply and demand fundamentals of the steam coal market.

Citi derived the discounted cash flow values for Alpha as the sum of the net present values of (1) the estimated unlevered free cash flows that Alpha would generate from July 16, 2008 through fiscal year 2012 and (2) the terminal value of Alpha at the end of fiscal year 2012. The terminal value for Alpha was calculated by applying a range of EBITDA terminal value multiples of 5.0x to 6.0x to Alpha's fiscal year 2012 estimated earnings before interest, taxes, depreciation and amortization (or EBITDA). The cash flows and terminal values were discounted to present value using discount rates ranging from 10.1% to 12.8%. This range represented Alpha's estimated weighted average cost of capital as derived by Citi based on, among other assumptions, market data for Alpha and a number of selected companies in the coal mining sector which, in Citi's determination, had businesses and operating profiles reasonably similar to those of Alpha. Based on this analysis of Alpha and the selected comparable companies, Citi determined that the range of discount rates it derived was appropriate for this discounted cash flow analysis. However, because of the inherent differences among the businesses, operations and prospects of Alpha and the businesses, operations and prospects of the selected comparable companies, no comparable company is exactly the same as Alpha. Alpha did not supply Citi with, nor did Citi rely on, any Alpha management estimates of the discount rates used by Alpha management in generating its own internal financial analyses. This analysis indicated the following approximate implied per share equity reference ranges for Alpha:

	<b>Implied per Share Equity Reference Range for Alpha</b>	
Historical Met Coal/Management Steam Coal Case	\$ 39.00	\$ 48.00
Wall Street Consensus Case	\$ 50.00	\$ 57.00
Company Case 1	\$ 82.00	\$ 98.00
Company Case 2	\$ 143.00	\$ 174.00

Citi noted the implied per share equity reference ranges calculated above for each of the four alternative scenarios. Citi also noted that the implied per share merger consideration as of July 14, 2008 was \$130.00. Citi compared the implied per share equity reference ranges above to the implied per share merger consideration.

*Comparable Companies Analysis*

Citi compared financial, operating and stock market information, and forecasted financial information for Alpha with that of selected publicly traded U.S. coal producers in the Central Appalachia basin and pure play U.S. metallurgical coal producers. The selected comparable companies considered by Citi were:

International Coal Group, Inc.

James River Coal Company

Massey Energy Company

Walter Industries, Inc.

**Table of Contents**

The financial information used by Citi for the selected comparable companies was based on company filings and selected Wall Street equity research reports, and for Alpha, Alpha management estimates. All of the multiples were calculated using public trading market closing prices on July 14, 2008.

For each of the selected comparable companies, Citi derived and compared, among other things, the multiple of each company's firm value to its EBITDA for the estimated calendar years 2009 and 2010. Citi calculated firm value as (a) equity value, based on the per share closing stock price on July 14, 2008 of all fully diluted shares assuming the exercise or conversion of all in-the-money options, warrants and convertible securities outstanding, less the proceeds of any such options or warrants, as reflected in each company's latest publicly available information; plus (b) non-convertible indebtedness; plus (c) minority interests; plus (d) non-convertible preferred stock; plus (e) all out-of-the-money convertible securities; minus (f) cash and cash equivalents; minus (g) investments in unconsolidated affiliates.

Due to the significant increase in projected metallurgical and steam coal prices by Wall Street equity research analysts prior to the execution of the merger agreement, Citi observed that estimates of EBITDA for the calendar years 2009 and 2010 varied meaningfully among Wall Street equity research analysts and that such estimates tended to be higher in more recently published research reports. As a result, Citi considered for each of the selected comparable companies (i) the average of selected Wall Street equity research estimates (or Wall Street Consensus Estimates) and (ii) the average of the top quartile of such Wall Street Consensus Estimates (or Wall Street Top Quartile Estimates).

Based on the comparable companies analysis and taking into consideration other performance metrics and qualitative judgments, Citi derived the following reference range of firm value / EBITDA multiples for calendar years 2009 and 2010:

- i. 6.5x to 7.5x for calendar year 2009 estimated EBITDA and 4.5x to 5.5x for calendar year 2010 estimated EBITDA, based on Wall Street Consensus Estimates; and
- ii. 5.0x to 6.0x for calendar year 2009 estimated EBITDA and 4.0x to 4.5x for calendar year 2010 estimated EBITDA, based on Wall Street Top Quartile Estimates.

Citi then applied these multiples to Alpha's estimated EBITDA for calendar years 2009 and 2010 under the four alternative scenarios described above. This analysis indicated the following implied per share equity reference ranges for Alpha:

	<b>Implied per Share Equity Reference Range for Alpha</b>	
<b>Historical Met Coal / Management Steam Coal Case</b>		
Wall Street Consensus Estimates	\$ 50.00	\$ 60.00
Wall Street Top Quartile Estimates	\$ 40.00	\$ 45.00
<b>Wall Street Consensus Case</b>		
Wall Street Consensus Estimates	\$ 100.00	\$ 120.00
Wall Street Top Quartile Estimates	\$ 80.00	\$ 95.00
<b>Company Case 1</b>		
Wall Street Consensus Estimates	\$ 105.00	\$ 125.00
Wall Street Top Quartile Estimates	\$ 85.00	\$ 100.00

**Company Case 2**

Wall Street Consensus Estimates	\$	145.00	\$170.00
Wall Street Top Quartile Estimates	\$	120.00	\$140.00

Citi noted the implied per share equity reference ranges calculated above for each of the four alternative scenarios. Citi also noted that the implied per share merger consideration as of July 14, 2008 was \$130.00. Citi compared the implied per share equity reference ranges above to the implied merger consideration.

**Table of Contents**

Citi selected the comparable companies used in the comparable companies analysis because their businesses and operating profiles are reasonably similar to those of Alpha. However, because of the inherent differences among the businesses, operations and prospects of Alpha and the businesses, operations and prospects of the selected comparable companies, no comparable company is exactly the same as Alpha. Therefore, Citi believed that it was inappropriate to, and therefore did not, rely solely on the quantitative results of the comparable companies analysis. Accordingly, Citi made qualitative judgments concerning differences between the financial and operating characteristics and prospects of Alpha and the companies included in the comparable companies analysis that would affect the public trading values of each in order to provide a context in which to consider the results of the quantitative analysis. These qualitative judgments related primarily to the differing sizes, growth prospects, geographic location of assets, profitability levels and business segments between Alpha and the companies included in the comparable companies analysis and other matters, many of which are beyond Alpha's control, such as the impact of competition on its businesses and the industry generally, industry growth and the absence of any adverse material change in the financial condition and prospects of Alpha or the industry or in the financial markets in general. Mathematical analysis (such as determining the average or median) is not in itself a meaningful method of using peer group data.

*Selected Precedent Transactions Analysis*

Based upon (1) the significant projected increases in metallurgical and steam coal prices from calendar year 2008 through 2009, which are generally significantly greater than the historical increases of such prices, and (2) the significant projected growth of EBITDA for Alpha from fiscal year 2008 through 2009, which is generally significantly greater than the projected growth of EBITDA of target companies involved in recent precedent transactions in the U.S. coal industry, Citi did not consider precedent transactions based upon trailing multiples to be a meaningful benchmark for evaluating the merger consideration. As a result, while Citi analyzed selected precedent transactions in the U.S. coal industry, Citi did not consider this analysis in evaluating the fairness of the merger consideration.

*Confirmatory Cleveland-Cliffs Valuation Analyses*

Citi performed confirmatory valuation analyses with respect to Cleveland-Cliffs using substantially similar analyses and methodologies to those used with respect to Alpha, as described above, in order to assess the value indicated by the per share closing price of the Cleveland-Cliffs common shares on July 14, 2008 for purposes of inclusion of this value as part of the transaction consideration. Citi also presented to the Alpha board of directors certain other information with respect to Cleveland-Cliffs for illustrative purposes, including historical stock prices and Wall Street equity research analyst stock price targets.

*Historical Stock Prices*

To provide background information and perspective with respect to the historical share prices of Cleveland-Cliffs common shares, Citi reviewed the share price performance of Cleveland-Cliffs during the 52-week period ending on July 14, 2008.

Citi noted that the range of low and high trading prices of Cleveland-Cliffs common shares during the 52-week period ending on July 14, 2008 was approximately \$28.00 and \$122.00, respectively. Citi noted that Cleveland-Cliffs' closing share price on July 14, 2008 was \$113.44.

*Wall Street Equity Research Analyst Stock Price Targets*

To provide background information and perspective with respect to stock price targets of Cleveland-Cliffs common shares, Citi reviewed publicly available published price target estimates for Cleveland-Cliffs common shares set by Wall Street equity research analysts.

Citi observed that the analyst price targets ranged from \$140.00 to \$155.00 per share of Cleveland-Cliffs common shares. Citi also observed that the median analyst price target was \$150.00 per share of Cleveland-Cliffs common shares. Citi noted that Cleveland-Cliffs closing share price on July 14, 2008 was \$113.44.

**Table of Contents***Discounted Cash Flow Analysis*

Using projections provided by the management of Cleveland-Cliffs, which were adjusted for certain coal price assumptions made by Alpha management, Citi conducted discounted cash flow analyses of Cleveland-Cliffs for the relevant periods to calculate ranges of implied per share equity values of Cleveland-Cliffs.

These cash flows were prepared based on the three alternative scenarios described below:

- (1) Wall Street Consensus Case is based on Cleveland-Cliffs management estimates for fiscal year 2008 and the average of Wall Street equity research estimates, selected by Citi on the basis of availability, of future North America (Metallurgical) Coal prices, North America Iron Ore prices, Asia Pacific Iron Ore prices and Asia Pacific Coal prices for fiscal years 2009 through 2012;
- (2) Company Case 1 is based on (i) Cleveland-Cliffs management estimates of future North America Iron Ore prices, Asia Pacific Iron Ore prices and Asia Pacific Coal prices for fiscal years 2008 through 2012 and North America (Metallurgical) Coal prices for fiscal year 2008, and (ii) Alpha management estimates of future North America (Metallurgical) Coal prices for fiscal years 2009 through 2012, which generally assume that such future prices decline annually beyond fiscal year 2009. For fiscal years 2008 through 2011, Alpha management estimates of future North America metallurgical coal prices generally correlated with those published in Wall Street equity research reports, selected by Citi on the basis of availability. The majority of such Wall Street equity research reports estimates projected a declining price curve; and
- (3) Company Case 2 is based on (i) Cleveland-Cliffs management estimates of future North America Iron Ore prices, Asia Pacific Iron Ore prices and Asia Pacific Coal prices for fiscal years 2008 through 2012 and North America (Metallurgical) Coal prices for fiscal year 2008, and (ii) Alpha management estimates of future North America (Metallurgical) Coal prices for fiscal years 2009 through 2012, which generally assume that such future prices remain relatively flat through fiscal year 2012. Alpha management estimates of future North America (Metallurgical) Coal prices considered Alpha management's view of current and possible future supply and demand fundamentals of the metallurgical coal market and the increased level of strategic interests in U.S. metallurgical coal assets demonstrated by international steel companies.

Estimates of future North America Iron Ore prices, Asia Pacific Iron Ore prices and Asia Pacific Coal prices are identical in Company Case 1 and Company Case 2.

Citi derived the discounted cash flow values for Cleveland-Cliffs as the sum of the net present values of (1) the estimated unlevered free cash flows that Cleveland-Cliffs would generate from July 16, 2008 through fiscal year 2012 and (2) the terminal value of Cleveland-Cliffs at the end of fiscal year 2012. The terminal value for Cleveland-Cliffs was calculated by applying a range of EBITDA terminal value multiples of 5.0x to 6.0x to Cleveland-Cliffs' fiscal year 2012 estimated EBITDA. The cash flows and terminal values were discounted to present value using discount rates ranging from 9.9% to 12.5%. This range represented Cleveland-Cliffs' estimated weighted average cost of capital as derived by Citi based on, among other assumptions, market data for Cleveland-Cliffs and a number of selected companies in the iron ore and coal mining sectors which, in Citi's determination, had businesses and operating profiles reasonably similar to those of Cleveland-Cliffs. Based on this analysis of Cleveland-Cliffs and the selected comparable companies, Citi determined that the range of discount rates it derived was appropriate for this discounted cash flow analysis. However, because of the inherent differences among the businesses, operations and prospects of Cleveland-Cliffs and the businesses, operations and prospects of the selected comparable companies, no comparable company is exactly the same as Cleveland-Cliffs. Neither Cleveland-Cliffs nor Alpha supplied Citi with, nor did Citi rely on, any Cleveland-Cliffs or Alpha management estimates of the discount rates used by Cleveland-Cliffs or Alpha

management, respectively, in generating their own internal financial analyses. This analysis indicated the following approximate implied per share equity reference ranges for Cleveland-Cliffs:

	<b>Implied per Share Equity Reference Range for Cleveland-Cliffs</b>	
Wall Street Consensus Case	\$ 32.00	\$ 37.00
Company Case 1	\$ 118.00	\$146.00
Company Case 2	\$ 148.00	\$183.00

**Table of Contents**

Citi noted the implied per share equity reference ranges calculated above for each of the three alternative scenarios. Citi also noted that Cleveland-Cliffs' closing share price on July 14, 2008 was \$113.44. Citi compared the implied per share equity reference ranges above to Cleveland-Cliffs' closing share price on July 14, 2008.

*Comparable Companies Analysis*

Citi compared financial, operating and stock market information, and forecasted financial information for Cleveland-Cliffs with that of selected publicly traded iron ore producers. The selected comparable companies considered by Citi were:

Companhia Vale do Rio Doce S.A., or Vale

Fortescue Metals Group Ltd.

Kumba Iron Ore Ltd.

Ferrexpo plc

Mount Gibson Iron Limited

The financial information used by Citi for the selected comparable companies was based on company filings and selected Wall Street equity research reports, and for Cleveland-Cliffs, Cleveland-Cliffs management estimates, which were adjusted for certain coal price assumptions made by Alpha management. All of the multiples were calculated using public trading market closing prices on July 14, 2008.

For each of the selected comparable companies, Citi derived and compared, among other things, the multiple of each company's firm value to its EBITDA for the estimated calendar years 2009 and 2010. Citi calculated firm value as (a) equity value, based on the per share closing stock price on July 14, 2008 of all fully diluted shares assuming the exercise or conversion of all in-the-money options, warrants and convertible securities outstanding, less the proceeds of any such options or warrants, as reflected in each company's latest publicly available information; plus (b) non-convertible indebtedness; plus (c) minority interests; plus (d) non-convertible preferred stock; plus (e) all out-of-the-money convertible securities; minus (f) cash and cash equivalents; minus (g) investments in unconsolidated affiliates.

Due to the significant increase in projected iron ore and coal prices by Wall Street equity research analysts prior to the execution of the merger agreement, Citi observed that estimates of EBITDA for the calendar years 2009 and 2010 varied meaningfully among Wall Street equity research analysts and that such estimates tended to be higher in more recently published research reports. As a result, Citi considered for each of the selected comparable companies (i) Wall Street Consensus Estimates and (ii) Wall Street Top Quartile Estimates.

Based on the comparable companies analysis and taking into consideration other performance metrics and qualitative judgments, Citi derived the following reference range of firm value / EBITDA multiples for calendar years 2009 and 2010:

- i. 4.5x to 5.5x for calendar year 2009 estimated EBITDA and 4.0x to 5.0x for calendar year 2010 estimated EBITDA, based on Wall Street Consensus Estimates; and
- ii. 3.5x to 4.5x for calendar year 2009 estimated EBITDA and 3.0x to 4.0x for calendar year 2010 estimated EBITDA, based on Wall Street Top Quartile Estimates.

**Table of Contents**

Citi then applied these multiples to Cleveland-Cliffs' estimated EBITDA for calendar years 2009 and 2010 under the three alternative scenarios described above. This analysis indicated the following implied per share equity reference ranges for Cleveland-Cliffs:

	<b>Implied per Share Equity Reference Range for Cleveland-Cliffs</b>		
<b>Wall Street Consensus Case</b>			
Wall Street Consensus Estimates	\$	70.00	\$ 85.00
Wall Street Top Quartile Estimates	\$	50.00	\$ 70.00
<b>Company Case 1</b>			
Wall Street Consensus Estimates	\$	100.00	\$125.00
Wall Street Top Quartile Estimates	\$	75.00	\$100.00
<b>Company Case 2</b>			
Wall Street Consensus Estimates	\$	115.00	\$145.00
Wall Street Top Quartile Estimates	\$	85.00	\$115.00

Citi noted the implied per share equity reference ranges calculated above for each of the three alternative scenarios. Citi also noted that Cleveland-Cliffs' closing share price on July 14, 2008 was \$113.44. Citi compared the implied per share equity reference ranges above to Cleveland-Cliffs' closing share price on July 14, 2008.

Citi selected the comparable companies used in the comparable companies analysis because their businesses and operating profiles are reasonably similar to those of Cleveland-Cliffs. However, because of the inherent differences among the businesses, operations and prospects of Cleveland-Cliffs and the businesses, operations and prospects of the selected comparable companies, no comparable company is exactly the same as Cleveland-Cliffs. Therefore, Citi believed that it was inappropriate to, and therefore did not, rely solely on the quantitative results of the comparable companies analysis. Accordingly, Citi made qualitative judgments concerning differences between the financial and operating characteristics and prospects of Cleveland-Cliffs and the companies included in the comparable companies analysis that would affect the public trading values of each in order to provide a context in which to consider the results of the quantitative analysis. These qualitative judgments related primarily to the differing sizes, growth prospects, geographic location of assets, profitability levels and business segments between Cleveland-Cliffs and the companies included in the comparable companies analysis and other matters, many of which are beyond Cleveland-Cliffs' control, such as the impact of competition on its businesses and the industry generally, industry growth and the absence of any adverse material change in the financial condition and prospects of Cleveland-Cliffs or the industry or in the financial markets in general. Mathematical analysis (such as determining the average or median) is not in itself a meaningful method of using peer group data.

*Selected Precedent Transactions Analysis*

Based upon (1) the significant projected increases in iron ore and coal prices from calendar year 2008 through 2009, which are generally significantly greater than the historical increases of such prices, and (2) the significant projected growth of EBITDA for Cleveland-Cliffs from fiscal year 2008 through 2009, which is generally significantly greater than the projected growth of EBITDA of target companies involved in recent precedent transactions in the iron ore industry, Citi did not consider precedent transactions based upon trailing multiples to be a meaningful benchmark for evaluating Cleveland-Cliffs.

***Other Analyses***

*Implied Historical Premium Analysis*

Citi reviewed, for informational and illustrative purposes, the implied premiums to be paid in the merger based on a comparison of the historical average share prices of Alpha common stock for various periods to the per share merger consideration, consisting of \$22.23 per share in cash and 0.95 of a share of Cleveland-Cliffs common shares valued based on the historical average share prices of Cleveland-Cliffs common shares for the respective periods. Citi derived the implied premium represented relative to the closing price of Alpha common stock on July 14, 2008

**Table of Contents**

(the last trading day prior to the execution of the merger agreement), the average closing prices of Alpha common stock for the 5-day, 10-day, 20-day, 30-day, 60-day, and 90-day periods ended July 14, 2008, and with the 52-week high and low closing prices of Alpha common stock ended July 14, 2008.

The results of this analysis are set forth below:

	Alpha	Cleveland-Cliffs	Exchange Ratio	Implied Value of Consideration			Implied Premium
				Stock	Cash	Total	
July 14, 2008	\$ 98.72	\$ 113.44	0.95x	\$ 107.77	\$ 22.23	\$ 130.00	32%
5-Day Average	92.37	105.69	0.95	100.40	22.23	122.63	33
10-Day Average	93.17	105.08	0.95	99.83	22.23	122.06	31
20-Day Average	94.53	106.39	0.95	101.07	22.23	123.30	30
30-Day Average	92.21	105.23	0.95	99.97	22.23	122.20	33
60-Day Average	76.59	97.21	0.95	92.35	22.23	114.58	50
90-Day Average	65.42	86.05	0.95	81.75	22.23	103.98	59
52-Week High	108.73	121.95	0.95	115.85	22.23	138.08	27
52-Week Low	15.92	28.20	0.95	26.79	22.23	49.02	208

*Relative Financial Contribution Analysis*

Citi reviewed, for informational and illustrative purposes, the relative financial contributions of Alpha and Cleveland-Cliffs to the combined estimated fiscal year 2008, 2009 and 2010 EBITDA and net income, excluding synergies and transaction adjustments, under the following three alternative scenarios: (1) Wall Street Consensus Case for each of Alpha and Cleveland-Cliffs, as described above, (2) Company Case 1 for each of Alpha and Cleveland-Cliffs, as described above, and (3) Company Case 2 for each of Alpha and Cleveland-Cliffs, as described above.

*Pro Forma Accretion/Dilution Analysis*

Citi reviewed, for informational and illustrative purposes, potential accretion/dilution of cash flow per share (or CFPS) and earnings per share (or EPS) of Cleveland-Cliffs pro forma for the transaction under the following three alternative scenarios: (1) Wall Street Consensus Case for each of Alpha and Cleveland-Cliffs, as described above, (2) Company Case 1 for each of Alpha and Cleveland-Cliffs, as described above, and (3) Company Case 2 for each of Alpha and Cleveland-Cliffs, as described above. Citi based these calculations on, among other factors, an assumed transaction closing date of December 31, 2008, preliminary purchase accounting assumptions (applicable only to EPS) that were provided to Citi by Alpha management and the assumption of no synergies.

**Table of Contents**

The results of this analysis are set forth below:

	<b>Accretion / (Dilution) to Cleveland-Cliffs</b>	
	<b>CFPS</b>	<b>EPS</b>
<b>Wall Street Consensus Case</b>		
2009E	(7)%	(18)%
2010E	(1)%	(17)%

<b>Company Case 2</b>		
2009E	1%	(14)%
2010E	(2)%	(13)%

**Citi's advisory services and opinion were provided for the information of the Alpha board of directors in its evaluation of the merger and did not constitute a recommendation of the merger to Alpha or a recommendation to any holder of Alpha common stock as to how that stockholder should vote or act on any matters relating to the merger.**

The preceding discussion is a summary of the material financial analyses furnished by Citi to the Alpha board of directors, but it does not purport to be a complete description of the analyses performed by Citi or of its presentations to the Alpha board of directors. The preparation of financial analyses and fairness opinions is a complex process involving subjective judgments and is not necessarily susceptible to partial analysis or summary description. Citi made no attempt to assign specific weights to particular analyses or factors considered, but rather made qualitative judgments as to the significance and relevance of all the analyses and factors considered and determined to give its fairness opinion as described above. Accordingly, Citi believes that its analyses, and the summary set forth above, must be considered as a whole and that selecting portions of the analyses and of the factors considered by Citi, without considering all of the analyses and factors, could create a misleading or incomplete view of the processes underlying the analyses conducted by Citi and its opinion.

In its analyses, Citi made numerous assumptions with respect to Alpha, industry performance, general business, economic, market and financial conditions and other matters, many of which are beyond the control of Alpha. Any estimates contained in Citi's analyses are not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than those suggested by these analyses. Estimates of values of companies do not purport to be appraisals or necessarily to reflect the prices at which companies may actually be sold. Because these estimates are inherently subject to uncertainty, none of Alpha, the Alpha board of directors, Citi or any other person assumes responsibility if future results or actual values differ materially from the estimates.

Citi's analyses were prepared solely as part of Citi's analysis of the fairness of the merger consideration in the merger and were provided to the Alpha board of directors in that connection. The opinion of Citi was only one of the factors taken into consideration by the Alpha board of directors in making its determination to approve the merger agreement and the merger. See Alpha's Reasons for the Merger and Recommendation of Alpha's Board of Directors (page 58).

Citi is an internationally recognized investment banking firm engaged in, among other things, the valuation of businesses and their securities in connection with mergers and acquisitions, restructurings, leveraged buyouts,

negotiated underwritings, competitive biddings, secondary distributions of listed and unlisted securities, private placements and valuations for estate, corporate and other purposes. Alpha selected Citi to act as its financial advisor on the basis of Citi's international reputation and Citi's familiarity with Alpha. Citi and its affiliates may in the future provide services to Alpha and Cleveland-Cliffs unrelated to the proposed merger, for which services Citi and such affiliates would expect to receive compensation. In the ordinary course of business, Citi and its affiliates may actively trade or hold the securities of Alpha and Cleveland-Cliffs for their own account or for the account of their customers and, accordingly, may at any time hold a long or short position in such securities. Citi and its affiliates

## **Table of Contents**

(including Citigroup Inc. and its affiliates) may maintain relationships with Alpha, Cleveland-Cliffs and their respective affiliates.

Pursuant to Citi's engagement letter with Alpha, Alpha agreed to pay Citi the following fees for its services rendered in connection with the merger: (i) \$1,500,000 payable promptly upon delivery by Citi of the written fairness opinion in connection with this transaction plus (ii) a transaction fee equal to 0.550% of the aggregate value of the transaction less the \$1,500,000 paid under (i) above, payable promptly upon consummation of the transaction. In the event the merger is terminated, Alpha has agreed to pay Citi 25% (not to exceed 50% of the transaction fee and not to be paid if a transaction fee was previously paid) of (A) any termination, break-up, topping, or similar fee or payment received in connection with the merger agreement and (B) any profit arising from shares of Cleveland-Cliffs or any of its affiliates acquired by Alpha in connection with the merger, if any, payable promptly upon receipt of any such compensation by Alpha. Alpha has also agreed to reimburse Citi for its reasonable and documented travel and other expenses incurred in connection with its engagement, including reasonable fees and expenses of not more than one outside counsel per jurisdiction, up to a maximum amount of \$100,000 (except for expenses relating to the preparation and delivery of the opinion, which are not capped), and to indemnify Citi against specific liabilities and expenses relating to or arising out of its engagement, including liabilities under the federal securities laws.

The merger consideration was determined by arms-length negotiations between Alpha and Cleveland-Cliffs, in consultation with their respective financial advisors and other representatives, and was not established by such financial advisors or other representatives.

Citi and its affiliates in the past have provided, and currently provide, services to Alpha unrelated to the merger, for which services Citi and/or its affiliates have received and expect compensation, including, without limitation, (i) acting as joint book-running manager in Alpha's offerings of convertible senior notes and common stock in April 2008, (ii) acting as dealer manager for the tender offer and consent solicitation made by two of Alpha's subsidiaries in April 2008 with respect to senior notes co-issued by such subsidiaries, (iii) acting as administrative agent, joint lead arranger, joint book manager and lender under Alpha's existing credit facilities and (iv) acting as an advisor to Alpha in considering other strategic alternatives. Neither Citi nor its affiliates provides, or in the past have provided, services to Cleveland-Cliffs.

### **Opinion of Cleveland-Cliffs Financial Advisor**

Pursuant to an engagement letter dated July 8, 2008, Cleveland-Cliffs retained J.P. Morgan as its financial advisor in connection with the proposed merger and to render an opinion to the Cleveland-Cliffs board of directors as to the fairness, from a financial point of view, to Cleveland-Cliffs of the consideration to be paid by Cleveland-Cliffs in the proposed merger.

At the meeting of the Cleveland-Cliffs board of directors on July 15, 2008, J.P. Morgan delivered its oral opinion to the Cleveland-Cliffs board of directors (which was subsequently confirmed in writing on the same date) that, as of such date and on the basis of and subject to the various factors and assumptions set forth in its opinion, the consideration to be paid by Cleveland-Cliffs to Alpha stockholders in the proposed merger was fair, from a financial point of view, to Cleveland-Cliffs.

The full text of the written opinion of J.P. Morgan, which sets forth the assumptions made, general procedures followed, matters considered and limitations on the scope of the review undertaken by J.P. Morgan in conducting its financial analysis and rendering its opinion, is attached as Annex C to this joint proxy statement/prospectus and is incorporated herein by reference. **Cleveland-Cliffs shareholders are urged to read the J.P. Morgan opinion carefully and in its entirety.**

**The J.P. Morgan opinion is addressed to the Cleveland-Cliffs board of directors, is dated July 15, 2008, is directed only to the fairness, from a financial point of view, to Cleveland-Cliffs of the consideration to be paid by Cleveland-Cliffs in the proposed merger and does not constitute a recommendation as to how the Cleveland-Cliffs or the Alpha stockholders should vote with respect to the proposed merger or any other matter.**

**Table of Contents**

The following summary of the J.P. Morgan opinion is qualified in its entirety by reference to the full text of the J.P. Morgan opinion.

In arriving at its opinion, J.P. Morgan, among other things:

reviewed a draft dated July 15, 2008 of the merger agreement;

reviewed certain publicly available business and financial information concerning Cleveland-Cliffs and Alpha and the industries in which they operate;

compared the financial and operating performance of Cleveland-Cliffs and Alpha with publicly available information concerning certain other companies J.P. Morgan deemed relevant and reviewed the current and historical market prices of Cleveland-Cliffs common shares and Alpha common stock and certain publicly traded securities of such other companies;

reviewed certain internal financial analyses and forecasts prepared by management of Alpha, certain analyses of Alpha's business prepared by the management of Cleveland-Cliffs and certain internal financial analyses and forecasts prepared by the management of Cleveland-Cliffs relating to Cleveland-Cliffs' business, as well as the estimated amount and timing of cost savings and related expenses and synergies expected to result from the merger; and

performed such other financial studies and analyses and considered such other information as J.P. Morgan deemed appropriate for the purposes of its opinion.

J.P. Morgan also held discussions with certain members of the management of Cleveland-Cliffs and Alpha with respect to certain aspects of the merger, and the past and current business operations of Cleveland-Cliffs and Alpha, the financial condition and future prospects and operations of Cleveland-Cliffs and Alpha, the effects of the merger on the financial condition and future prospects of Cleveland-Cliffs and Alpha, and certain other matters J.P. Morgan believed necessary or appropriate to its inquiry.

J.P. Morgan relied upon and assumed the accuracy and completeness of all information that was publicly available or was furnished to or discussed with J.P. Morgan by Cleveland-Cliffs and Alpha or otherwise reviewed by or for J.P. Morgan, and J.P. Morgan did not independently verify (nor did J.P. Morgan assume responsibility or liability for independently verifying) any such information or its accuracy or completeness. J.P. Morgan did not conduct, and was not provided, with any valuation or appraisal of any assets or liabilities, nor did J.P. Morgan evaluate the solvency of Cleveland-Cliffs or Alpha under any state or federal laws relating to bankruptcy, insolvency or similar matters. In relying on financial analyses and forecasts provided to it or derived therefrom, including the synergies referred to above, J.P. Morgan assumed that they were reasonably prepared based on assumptions reflecting the best currently available estimates and judgments by management as to the expected future results of operations and financial condition of Cleveland-Cliffs and Alpha to which such analyses or forecasts relate. J.P. Morgan expressed no view as to such analyses or forecasts (including the synergies referred to above) or the assumptions on which they were based. J.P. Morgan also assumed that the merger and the other transactions contemplated by the merger agreement will qualify as a tax-free reorganization for United States federal income tax purposes, and will be consummated as described in the merger agreement and that the definitive merger agreement would not differ in any material respect from the draft thereof provided to J.P. Morgan. J.P. Morgan also assumed that the representations and warranties made by Cleveland-Cliffs and Alpha in the merger agreement and the related agreements are and will be true and correct in all respects material to J.P. Morgan's analysis. J.P. Morgan is not a legal, regulatory or tax expert and relied on the assessments made by advisors to Cleveland-Cliffs with respect to such issues. J.P. Morgan further assumed that

all material governmental, regulatory or other consents and approvals necessary for the consummation of the merger will be obtained without any adverse effect on Cleveland-Cliffs or Alpha or on the contemplated benefits of the merger.

The projections furnished to J.P. Morgan for Alpha were prepared by the respective managements of Cleveland-Cliffs and Alpha in connection with the proposed transaction. Neither Cleveland-Cliffs nor Alpha publicly discloses internal management projections of the type provided to J.P. Morgan in connection with J.P. Morgan's analysis of the merger, and such projections were prepared in connection with the proposed transaction and were not prepared with a view toward public disclosure. These projections were based on numerous

**Table of Contents**

variables and assumptions that are inherently uncertain and may be beyond the control of management, including, without limitation, factors related to general economic and competitive conditions and prevailing interest rates. Accordingly, actual results could vary significantly from those set forth in such projections.

The J.P. Morgan opinion is necessarily based on economic, market and other conditions as in effect on, and the information made available to J.P. Morgan as of, the date of the J.P. Morgan opinion. It should be understood that subsequent developments may affect the J.P. Morgan opinion, and J.P. Morgan does not have any obligation to update, revise, or reaffirm the J.P. Morgan opinion. The J.P. Morgan opinion is limited to the fairness, from a financial point of view, to Cleveland-Cliffs of the consideration to be paid by Cleveland-Cliffs in the proposed merger and J.P. Morgan has expressed no opinion as to the fairness of the merger to the holders of any class of securities, creditors or other constituencies of Cleveland-Cliffs or as to the underlying decision by Cleveland-Cliffs to engage in the merger. J.P. Morgan expressed no opinion as to the price at which Cleveland-Cliffs common shares or Alpha common stock will trade at any future time.

The consideration payable to Alpha stockholders in the proposed merger was determined through negotiation between Alpha and Cleveland-Cliffs and the decision to enter into the merger agreement was solely that of Alpha and Cleveland-Cliffs. The J.P. Morgan opinion and financial analyses were only one of the many factors considered by Cleveland-Cliffs in its evaluation of the proposed merger and should not be viewed as determinative of the views of the Cleveland-Cliffs board of directors or management with respect to the proposed merger or the merger consideration.

In accordance with customary investment banking practice, J.P. Morgan employed generally accepted valuation methods in reaching its opinion. The following is a summary of the material financial analyses undertaken by J.P. Morgan in connection with providing its opinion to the Cleveland-Cliffs board of directors on July 15, 2008. Some of the summaries of the financial analyses include information presented in tabular format. To fully understand the financial analyses, the tables should be read together with the text of each summary. Considering the data set forth in the table without considering the narrative description of the financial analyses, including the methodologies and assumptions underlying the analyses, could create a misleading or incomplete view of the financial analyses.

***Publicly traded comparable company analysis***

Using publicly available information, J.P. Morgan compared selected financial data of Alpha and Cleveland-Cliffs with similar data for selected publicly traded companies engaged in businesses which J.P. Morgan judged to be analogous to the respective businesses of Alpha and Cleveland-Cliffs.

For Alpha, the companies selected by J.P. Morgan were:

Arch Coal, Inc.

CONSOL Energy Inc.

Foundation Coal Holdings, Inc.

Massey Energy Company

Walter Industries, Inc.

For Cleveland-Cliffs, the companies selected by J.P. Morgan were divided into four groups – Diversified Mining, Base Metals, International Iron Ore and Steel – and were as follows:

Diversified Mining

Anglo American plc

BHP Billiton Group

Vale

Rio Tinto plc

**Table of Contents**

Teck Cominco Limited

Xstrata plc

**Base Metals**

Antofagasta plc

Freeport-McMoRan Copper &amp; Gold Inc.

Southern Copper Corporation

**International Iron Ore**

Kumba Iron Ore Limited

Mount Gibson Iron Limited

**Steel**

ArcelorMittal USA

United States Steel Corporation

These companies were selected for each of Alpha and Cleveland-Cliffs, among other reasons, because the companies share similar business and financial characteristics to Alpha and Cleveland-Cliffs, as applicable. In each case, J.P. Morgan also made judgments and assumptions concerning differences in financial and operating characteristics of the selected companies and other factors that could affect the public trading value of the selected companies.

For each of the selected companies and for Alpha and Cleveland-Cliffs, J.P. Morgan divided the company's firm value, based on most recent publicly available information, at July 14, 2008 by its estimated EBITDA for the calendar year ending December 31, 2009, the result of which is referred to as the Firm Value/EBITDA Multiple. In addition, for each of the selected companies and for Alpha and Cleveland-Cliffs, J.P. Morgan divided the company's equity value at July 14, 2008 by its estimated operating cash flow for the calendar year ending December 31, 2009, the result of which is referred to as the Equity Value/Operating Cash Flow Multiple. The estimates of both EBITDA and operating cash flow for the selected companies were based on publicly available equity research estimates. With respect to Alpha and Cleveland-Cliffs, two sets of estimates of EBITDA and operating cash flow were developed—one based on publicly available equity research estimates and the other on projections provided by Alpha and Cleveland-Cliffs and certain analyses of Alpha's business prepared by Cleveland-Cliffs' management.

The following table reflects the results of the analysis:

<b>Firm Value/ EBITDA Multiple 2009E</b>	<b>Equity Value/ Operating Cash Flow Multiple 2009E</b>
--	---

**Alpha Comparables**

Range	3.8x 7.7x	6.4x 10.2x
Median(1)	7.0x	8.9x

**Cleveland-Cliffs Comparables**

Diversified Mining range	4.6x 7.8x	6.0x 7.8x
Diversified Mining median	5.4x	6.4x
Base Metals range	4.1x 5.8x	5.5x 8.1x
Base Metals median	4.7x	5.8x
International Iron Ore range	3.0x 4.2x	3.9x 6.0x
International Iron Ore median	3.6x	5.0x
Steel range	5.1x 6.2x	6.5x 7.8x
Steel median	5.6x	7.2x

(1) Walter Industries was excluded from the median

**Table of Contents**

Based on the Firm Value/EBITDA multiple range of 5.0 to 7.0 applied to Alpha's projected 2009 EBITDA, J.P. Morgan arrived at an estimated implied valuation range for Alpha common stock of \$131 to \$182 per share. Based on the Firm Value/EBITDA multiple range of 4.5 to 5.5 applied to Cleveland-Cliffs' projected 2009 EBITDA, J.P. Morgan arrived at an estimated implied valuation range for Cleveland-Cliffs common shares of \$116 to \$142 per share.

Based upon these implied per share equity values, J.P. Morgan calculated a range of implied exchange ratios of 0.9230 to 1.5660.

Based on the Equity Value/Operating Cash Flow Multiple range of 7.0 to 9.0 applied to Alpha's projected 2009 operating cash flow, J.P. Morgan arrived at an estimated implied valuation range for Alpha common stock of \$132 to \$170 per share. Based on the Equity Value/Operating Cash Flow Multiple range of 5.5 to 7.0 applied to Cleveland-Cliffs' projected 2009 operating cash flow, J.P. Morgan arrived at an estimated implied valuation range for Cleveland-Cliffs common shares of \$107 to \$136 per share.

Based upon these implied per share equity values, J.P. Morgan calculated a range of implied exchange ratios of 0.9720 to 1.5900.

The implied exchange ratio analysis provides a measure of the relative value of shares of Alpha common stock and Cleveland-Cliffs common shares by showing the number of Cleveland-Cliffs common shares having a value equal to one share of Alpha common stock. The purpose of this implied exchange ratio analysis is to provide a range of illustrative exchange ratios, or a relative measure of the relative market values of Alpha common stock to Cleveland-Cliffs common shares. The resulting exchange ratios are not directly comparable to the exchange ratio for the merger because in the merger, Alpha stockholders will receive cash in addition to Cleveland-Cliffs common shares.

In each case, J.P. Morgan compared the implied exchange ratio to 1.1460, calculated by dividing \$130.00 per share of Alpha common stock by \$113.44. \$130.00 was calculated as the sum of (a) \$22.23 per share of cash and (b) the product of 0.95 multiplied by \$113.44. \$113.44 was the closing price of Cleveland-Cliffs common shares on July 14, 2008.

***Discounted cash flow analysis***

J.P. Morgan calculated ranges of implied fully diluted equity value per share for both Alpha common stock and Cleveland-Cliffs common shares by performing a discounted cash flow analysis on a stand-alone basis (without synergies). In addition, J.P. Morgan also calculated ranges of implied fully diluted equity value per share for Alpha common stock with synergies. The discounted cash flow analysis for both Alpha and Cleveland-Cliffs assumed a valuation date of December 31, 2008 and was based on, in the case of Alpha, projections provided by Alpha and certain analyses of Alpha's business prepared by the management of Cleveland-Cliffs and, in the case of Cleveland-Cliffs, projections provided by Cleveland-Cliffs. The discounted cash flow analysis for Alpha common stock with synergies assumed pretax synergies of \$50 million in 2009 and \$100 million in 2010. Costs to achieve these synergies in 2009 were estimated to be \$50 million, based on management guidance.

A discounted cash flow analysis is a traditional method of evaluating an asset by estimating the future cash flows of an asset and taking into consideration the time value of money with respect to those future cash flows by calculating the present value of the estimated future cash flows of the asset. Present value refers to the current value of one or more future cash payments, or cash flows, from an asset and is obtained by discounting those future cash flows or amounts by a discount rate that takes into account macro-economic assumptions, estimates of risk, the opportunity

cost of capital, expected returns and other appropriate factors. Other financial terms utilized below are terminal value, which refers to the value of all future cash flows from an asset at a particular point in time, and unlevered free cash flows, which refers to a calculation of the future cash flows of an asset without including in such calculation any debt servicing costs.

In arriving at the estimated equity values per share of Alpha common stock and Cleveland-Cliffs common shares, J.P. Morgan calculated terminal values as of December 31, 2018 by applying a range of perpetual revenue growth rates of 0.0% to 1.0% and a range of discount rates of 10.0% to 12.0%. The unlevered free cash flows from January 1, 2009 through December 31, 2018 and the terminal value were then discounted to present values using the

**Table of Contents**

range of discount rates and added together in order to derive the unlevered enterprise values for each of Alpha and Cleveland-Cliffs. The range of discount rates used by J.P. Morgan in its analysis was estimated using traditional investment banking methodology, including the analysis of selected publicly traded companies engaged in businesses that J.P. Morgan deemed relevant to Alpha's and Cleveland-Cliffs' businesses. These publicly traded companies were analyzed to determine the appropriate beta (an estimate of systematic risk) and target debt/total capital ratio to use in calculating the ranges of discount rates described above. The companies analyzed were the same as those used in connection with the comparable company analysis for Alpha and Cleveland-Cliffs described above.

In arriving at the estimated equity values per share of Alpha common stock and Cleveland-Cliffs common shares, J.P. Morgan calculated the equity value for both Alpha and Cleveland-Cliffs by increasing the unlevered enterprise values of each of Alpha and Cleveland-Cliffs by the estimated value of their respective cash, cash equivalents and marketable securities as of December 31, 2008.

Based on the assumptions set forth above, this analysis implied a common stock range of \$131 to \$156 per share without synergies and \$139 to \$166 per share with synergies for Alpha. Based on the assumptions set forth above, this analysis implied a common stock range of \$120 to \$143 per share for Cleveland-Cliffs. Based upon these implied per share common stock values, J.P. Morgan calculated a range of implied exchange ratios of 0.9140 to 1.2970 without synergies and 0.9690 to 1.3810 with synergies. In each case, J.P. Morgan compared the implied exchange ratio to the merger exchange ratio of 1.1460, assuming a 100% stock transaction, calculated as described above.

***Relative contribution analysis***

J.P. Morgan analyzed the contribution of Alpha and Cleveland-Cliffs to the pro forma combined company with respect to revenue, EBITDA and operating cash flow for fiscal years 2009 and 2010 using projections provided by Alpha and Cleveland-Cliffs and certain analyses of Alpha's business prepared by Cleveland-Cliffs' management. The relative contribution analysis did not take into effect the impact of any synergies or integration costs as a result of the proposed merger. The analysis showed that Cleveland-Cliffs would contribute approximately the following percentages of revenue, EBITDA and operating cash flow to the pro forma combined company:

**Relative contribution of Cleveland-Cliffs**

	<b>Revenue</b>	<b>EBITDA</b>	<b>Operating Cash Flow</b>
2009	55%	59%	59%
2010	55%	60%	61%

The relative contribution percentages based on revenue, EBITDA and operating cash flow were used to determine the implied pro forma ownership percentages of the combined company post-merger for the Cleveland-Cliffs shareholders and Alpha stockholders assuming a 100% stock transaction. This was done by first assuming that Alpha's and Cleveland-Cliffs' contributions with respect to revenue, EBITDA and operating cash flow reflected each company's contribution to the combined company's pro forma firm value (defined as the sum of market capitalization, net debt and minority interests). J.P. Morgan then derived each company's equity value contribution with respect to revenue, EBITDA and operating cash flow by adjusting each company's firm value contribution determined for each measurement by its outstanding net debt and minority interests. The analysis yielded the following implied pro forma ownership by the Cleveland-Cliffs shareholders:

**Implied ownership by Cleveland-Cliffs shareholders(1)**

	<b>Revenue</b>	<b>EBITDA</b>	<b>Operating Cash Flow</b>
2009	53%	58%	59%
2010	54%	59%	61%

(1) Based on relative contribution, actual capital structure and assuming a 100% stock transaction

**Table of Contents**

Based on the implied pro forma ownership percentages with respect to revenue, EBITDA and operating cash flow, J.P. Morgan then calculated the implied relative exchange ratios for each measurement assuming a 100% stock transaction. The analysis yielded the following implied exchange ratios:

**Implied exchange ratio(1)**

	<b>Revenue</b>	<b>EBITDA</b>	<b>Operating Cash Flow</b>
2009	1.2534x	1.0569x	1.0003x
2010	1.2321x	0.9969x	0.9227x

(1) Based on relative contribution, actual capital structure and assuming a 100% stock transaction

J.P. Morgan then compared the exchange ratios implied by the contribution analysis as calculated as described above to the merger exchange ratio of 1.1460, assuming a 100% stock transaction, which implies pro forma ownership of approximately 56% for Cleveland-Cliffs shareholders and approximately 44% for Alpha stockholders.

***Value creation analysis***

J.P. Morgan also estimated the potential impact on the value of the common shares held by Cleveland-Cliffs shareholders due to the transaction. J.P. Morgan calculated the potential increase/(decrease) in the equity value per Cleveland-Cliffs common share by comparing (a) the estimated discounted cash flow valuations of Cleveland-Cliffs common shares with (b) the estimated value of the pro forma Alpha common stock calculated by adding (i) the estimated discounted cash flow valuation for Cleveland-Cliffs common shares, (ii) the estimated discounted cash flow valuation for Alpha common stock and (iii) the estimated discounted cash flow valuation for the estimated synergies (less estimated integration costs), multiplied by a factor of 60%, representing Cleveland-Cliffs shareholders pro forma ownership of the pro forma combined company. Based on the assumptions set forth above, this analysis implied value creation for Cleveland-Cliffs common shares of \$1.85 per share (assuming no discount rate improvement) and \$7.34 per share (assuming a 0.5% discount rate improvement).

***Miscellaneous***

The foregoing summary of certain material financial analyses does not purport to be a complete description of the analyses or data presented by J.P. Morgan. The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. J.P. Morgan believes that the foregoing summary and its analyses must be considered as a whole and that selecting portions of the foregoing summary and these analyses, without considering all of its analyses as a whole, could create an incomplete view of the processes underlying the analyses and its opinion. In arriving at its opinion, J.P. Morgan did not attribute any particular weight to any analyses or factors considered by it and did not form an opinion as to whether any individual analysis or factor (positive or negative), considered in isolation, supported or failed to support its opinion. Rather, J.P. Morgan considered the totality of the factors and analyses performed in determining its opinion. Analyses based upon forecasts of future results are inherently uncertain, as they are subject to numerous factors or events beyond the control of the parties and their advisors. Accordingly, forecasts and analyses used or made by J.P. Morgan are not necessarily indicative of actual future results, which may be significantly more or less favorable than suggested by those analyses. Moreover, J.P. Morgan's analyses are not and do not purport to be appraisals or otherwise reflective of the prices at which businesses actually could be bought or sold.

None of the selected companies reviewed as described in the above summary is identical to Alpha or Cleveland-Cliffs. However, the companies selected were chosen because they are publicly traded companies with operations and businesses that, for purposes of J.P. Morgan's analysis, may be considered similar to those of Alpha or Cleveland-Cliffs, as the case may be. The analyses necessarily involve complex considerations and judgments concerning differences in financial and operational characteristics of the companies involved and other factors that could affect the companies compared to Alpha or Cleveland-Cliffs.

## **Table of Contents**

As a part of its investment banking business, J.P. Morgan and its affiliates are continually engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, investments for passive and control purposes, negotiated underwritings, secondary distributions of listed and unlisted securities, private placements, and valuations for estate, corporate and other purposes. J.P. Morgan was selected to advise Cleveland-Cliffs with respect to the merger and to deliver an opinion to the Cleveland-Cliffs board of directors with respect to the fairness, from a financial point of view, of the consideration to be paid by Cleveland-Cliffs in the merger on the basis of such experience and its familiarity with Cleveland-Cliffs.

J.P. Morgan acted as financial advisor to Cleveland-Cliffs with respect to the proposed merger and will receive a fee from Cleveland-Cliffs for its services (including for delivery of the J.P. Morgan opinion) in an aggregate amount equal to \$15 million, a substantial portion of which will become payable only if the proposed merger is consummated. In the event Alpha pays any termination fee or other payment (including any reimbursement of expenses) to Cleveland-Cliffs following or in connection with the termination, abandonment or failure to consummate the merger, Cleveland-Cliffs has agreed to pay J.P. Morgan 25% of any such termination fee or other payment (not to exceed the amount that would otherwise be payable to J.P. Morgan), less any fees previously paid. In addition, Cleveland-Cliffs has agreed to reimburse J.P. Morgan for its expenses and indemnify J.P. Morgan against certain liabilities arising out of J.P. Morgan's engagement, including liabilities arising under the Federal securities laws.

In addition, during the past two years, J.P. Morgan and its affiliates have had commercial or investment banking relationships with Cleveland-Cliffs for which J.P. Morgan and its affiliates have received customary compensation.

In addition, J.P. Morgan's commercial banking affiliate is an agent bank and a lender under outstanding credit facilities of Cleveland-Cliffs, for which it receives customary compensation or other financial benefits. J.P. Morgan anticipates that J.P. Morgan and its affiliates will arrange and provide financing to Cleveland-Cliffs in connection with the merger for customary compensation. J.P. Morgan has no transaction history with Alpha. In the ordinary course of their businesses, J.P. Morgan and its affiliates may actively trade the debt and equity securities of Cleveland-Cliffs or Alpha for their own accounts or for the accounts of customers and, accordingly, they may at any time hold long or short positions in such securities.

## **Stock Ownership of Directors and Executive Officers of Alpha and Cleveland-Cliffs**

### ***Alpha***

You should review Alpha's disclosures about Alpha directors' and executive officers' ownership of Alpha securities that are incorporated by reference in this joint proxy statement/prospectus. See "Where You Can Find More Information" on page 238.

### ***Cleveland-Cliffs***

For information regarding Cleveland-Cliffs directors' and executive officers' ownership of Cleveland-Cliffs securities, please see "Security Ownership of Certain Beneficial Owners and Management" "Cleveland-Cliffs Share Ownership by Management and Directors" on page 178.

## **Merger Consideration**

Holders of Alpha common stock (other than shares held by any dissenting Alpha stockholder that has properly exercised appraisal rights in accordance with Delaware law, held in treasury by Alpha or owned by Cleveland-Cliffs) will be entitled to receive for each share of Alpha common stock (which will be cancelled in the merger):

\$22.23 in cash, without interest; and

0.95 of a fully paid, nonassessable common share of Cleveland-Cliffs.

As a result, Cleveland-Cliffs will issue approximately 70,000,000 of its common shares and pay approximately \$1.7 billion in cash in the merger based upon the number of shares of Alpha common stock outstanding on the record date of the Alpha special meeting.

## **Table of Contents**

The total value of the merger consideration that an Alpha stockholder receives in the merger may vary. The value of the cash portion of the merger consideration is fixed at \$22.23 for each share of Alpha common stock. The share portion of the merger consideration is similarly fixed at 0.95 of a common share of Cleveland-Cliffs to be exchanged for each share of Alpha common stock, but the value of the share portion of the merger consideration will vary due to changes in the market value of Cleveland-Cliffs common shares.

No fractional common shares of Cleveland-Cliffs will be issued in the merger. Any holder of Alpha common stock that would otherwise be entitled to receive fractional common shares of Cleveland-Cliffs as a result of the exchange of Alpha common stock for Cleveland-Cliffs common shares will receive, in lieu of any fractional shares, an amount in cash, without interest, equal to the fractional share interest multiplied by the closing price for a common share of Cleveland-Cliffs as reported on the NYSE Composite Transactions Reports as of the closing date of the merger (or, if that date is not a trading day, as of the trading day immediately preceding the closing date).

Cleveland-Cliffs will fund the cash portion of the merger consideration with cash from committed debt financing.

## **Ownership of the Combined Company After the Merger**

Based on the number of common shares of Cleveland-Cliffs and shares of Alpha common stock outstanding on their respective record dates, and assuming that Cleveland-Cliffs will issue approximately 70,000,000 common shares of Cleveland-Cliffs in connection with the merger, after completion of the merger former Alpha stockholders will own approximately 39% of the then-outstanding common shares of the combined company.

## **Interests of Alpha Executive Officers and Directors in the Merger**

When considering the recommendation of its board of directors with respect to the merger agreement and the transactions contemplated by the merger agreement, including the merger, Alpha stockholders should be aware that some directors and executive officers of Alpha have interests in the transactions contemplated by the merger agreement that may be different from, or in addition to, their interests as stockholders and the interests of Alpha stockholders generally. These interests include:

special retention bonuses payable upon closing;

accelerated vesting and exercisability of Alpha stock options and restricted stock issued under Alpha's equity compensation plans;

payments under employment agreements and severance plans which, in either case, may be triggered upon the closing of the merger or if the officer's employment is terminated under certain circumstances following the merger;

accelerated vesting and payment of deferred compensation for directors under Alpha's equity compensation plans;

potential appointment to the Cleveland-Cliffs board of directors following the merger;

potentially becoming executive officers, employees or consultants of Cleveland-Cliffs after the transaction;

continued benefits under Cleveland-Cliffs plans for two years following the effective date of the merger that are, in the aggregate, substantially comparable to those provided by Alpha immediately prior to the effective time of the merger; and

Cleveland-Cliffs' agreement to indemnify each present and former Alpha officer and director against liabilities arising out of that person's services as an officer or director, and maintain directors' and officers' liability insurance for a period of six years after closing to cover Alpha directors and officers, subject to certain limitations.

The Alpha board of directors was aware of these arrangements during its deliberations on the merits of the merger and in deciding to recommend that you vote for the adoption of the merger agreement at the Alpha special meeting.

**Table of Contents**

*John Brinzo.* Alpha's board considered the interests that one director of Alpha, John Brinzo, had in Cleveland-Cliffs as a result of his former role as Chief Executive Officer and Chair of the Cleveland-Cliffs board of directors, including his receipt of a pension from Cleveland-Cliffs and ownership of common shares and unvested performance shares of Cleveland-Cliffs. As of the date of this joint proxy statement/prospectus, Mr. Brinzo holds 36,048 common shares of Cleveland-Cliffs. Mr. Brinzo is entitled to receive monthly pension payments from Cleveland-Cliffs in the amount of \$9,485.94 for the rest of his life. As of August 8, 2008, Mr. Brinzo held 23,188 performance shares and 4,092 retention units of Cleveland-Cliffs.

*Change in Control.* For purposes of all the Alpha agreements and plans described in further detail below, the completion of the transactions contemplated by the merger agreement will constitute a change in control.

*Retention Bonus.* In connection with entry into the merger agreement, Alpha approved the grant of a cash retention bonus to five executive officers including named executive officers David C. Stuebe, Randy L. McMillion, and Joachim V. Porco. Messrs. Stuebe, McMillion, and Porco, and two other executive officers (together) will receive cash retention bonuses at the closing of the merger in the amounts of up to \$1.2 million, \$2.1 million, \$1.6 million and \$1.9 million, respectively. Named executive officers Michael J. Quillen and Kevin S. Crutchfield will not receive retention bonuses. Each retention bonus will be forfeited in the event that the executive's employment is terminated for cause or the executive voluntarily terminates employment without cause prior to the second anniversary of closing of the merger.

*Equity Compensation Awards.* The merger agreement provides that, upon completion of the merger, outstanding Alpha stock options are converted into Cleveland-Cliffs stock options, and outstanding Alpha restricted shares are converted into the right to receive the merger consideration. Also, each outstanding performance share vests according to the terms of its agreement, and the holders of performance shares are entitled to receive cash for the shares. The terms of Alpha's equity compensation plans and the applicable award agreements provide that upon a change in control of Alpha, unvested stock options and shares of restricted stock will vest in full, and performance shares vest and are paid out at the target award level contemporaneous with the consummation of the change in control. Assuming a closing date for the merger of December 31, 2008, upon completion of the merger, (1) the number of unvested stock options (with exercise prices ranging from \$12.73 to \$24.85) held by each of Messrs. Quillen, Stuebe, Crutchfield, McMillion, Porco, the two other Alpha executive officers (together), and the seven non-employee directors (as a group), that would vest are 0, 16,000, 29,162, 24,000, 15,785, 28,568, and 12,000 respectively; (2) the number of performance shares of Alpha common stock held by each of Messrs. Quillen, Stuebe, Crutchfield, McMillion, Porco, and the two other Alpha executive officers (together) and the seven non-employee directors (as a group) that would vest and become free of restrictions are 144,811, 26,945, 88,270, 42,631, 34,274, 41,616, and 0, respectively; and (3) the number of shares of restricted Alpha common stock held by each of Messrs. Quillen, Stuebe, Crutchfield, McMillion, Porco, the two other Alpha executive officers (together), and the seven non-employee directors (as a group), that would vest and become free of restrictions are 111,579, 18,896, 67,755, 32,715, 26,398, 32,069 and 40,660 respectively.

Assuming the merger is completed on December 31, 2008, the aggregate cash value of the stock-based awards held by Messrs. Quillen, Stuebe, Crutchfield, McMillion, Porco, the two other Alpha executive officers (together) and the seven non-employee directors (as a group) that would vest upon completion of the merger, based on an estimated Alpha closing stock price of \$128.12, is approximately \$32.8 million, \$7.9 million, \$23.3 million, \$12.6 million, \$9.8 million, \$13.0 million, and \$6.7 million, respectively.

Prior to the effective date of the merger, Alpha's board of directors (and/or its compensation committee) expects to vote to exempt its executive officers' and directors' dispositions of Alpha securities (including derivative securities) from Section 16(b) of the Exchange Act.

*Employment Agreements.* Alpha has previously entered into employment agreements with each of Michael J. Quillen and Kevin S. Crutchfield. These employment agreements with Messrs. Quillen and Crutchfield provide for certain payments to them upon a change in control and upon termination of employment in connection with a change in control.

On July 16, 2008 Alpha announced that after the merger, Mr. Quillen will move to a new position as non-executive vice chairman of the board of the combined company, where he will help guide Clifs Natural Resources

**Table of Contents**

strategic direction and growth. Mr. Quillen's position of chairman of Alpha's board and chief executive officer of Alpha will be eliminated. His termination of employment as chief executive officer will be treated as a termination without cause subsequent to a change in control, and he will be eligible to receive payments and benefits under his employment agreement as set forth below.

Under the terms of the employment agreements with Messrs. Quillen and Crutchfield, upon a change in control, each of Messrs. Quillen and Crutchfield is entitled to receive a lump-sum cash payment equal to his pro-rata target annual bonus for the year in which the change in control occurs. Assuming the merger is completed on December 31, 2008, the amount of such payments that would be payable to each of Messrs. Quillen and Crutchfield is \$700,000 and \$504,000, respectively.

If the employment of either Mr. Quillen or Mr. Crutchfield is terminated during the 90 days prior to, on, or within one year after a change in control by either of them for good reason or by the employer other than for (x) employer cause, (y) death or (z) permanent disability, as such terms are defined in the employment agreements with Messrs. Quillen and Crutchfield, each of them will be entitled, subject to his execution of a release, to (i) a lump sum payment equal to a multiple of his base salary and target bonus (three, in the case of Mr. Quillen, and two and one-half, in the case of Mr. Crutchfield, whereas absent a change in control, for each of Messrs. Quillen and Crutchfield the multiple would be two), and (iii) a cash payment of \$15,000 to cover outplacement assistance services and other expenses associated with seeking another position.

In addition, upon a termination of Mr. Quillen's or Mr. Crutchfield's employment without cause or for good reason, whether or not in connection with a change in control, each is entitled to (i) a pro-rata share of any individual annual cash bonuses or target individual annual cash incentive compensation; (ii) any accrued base salary and other amounts accrued and/or owing to such executive; and (iii) certain health, life and welfare benefits until the earlier to occur of (x) his reaching the age of 65, (y) his obtaining substantially similar benefits from another employer, or (z) in the case of Mr. Quillen, the 36-month anniversary of the employment termination date in connection with a change in control (whereas absent a change in control, it would be the 24-month anniversary), and in the case of Mr. Crutchfield, the expiration of the COBRA continuation period (generally 18 months). Assuming that the merger is completed on December 31, 2008 and Mr. Quillen and Mr. Crutchfield experience qualifying terminations of employment immediately thereafter, the value of the continued medical and life benefits to be provided is approximately \$69,000 and \$27,000, respectively.

In the event that any change in control payments or distributions to Messrs. Quillen or Crutchfield would constitute an excess parachute payment within the meaning of Section 280G of the Code, then the agreements obligate Alpha (subject to certain exceptions) to pay each executive an additional tax gross-up payment such that the net amount retained by him, after deduction of any excise tax imposed under Section 4999 of the Code and any taxes imposed upon the gross-up payment itself, is equal to the amount that would have been payable or distributable to him if such payments or distributions did not constitute excess parachute payments.

Under the terms of their employment agreements, Messrs. Quillen and Crutchfield have also agreed to certain ongoing confidentiality obligations, and non-competition and non-solicitation obligations for a period of one year following termination of employment.

Assuming that the merger is completed on December 31, 2008 and each of Messrs. Quillen and Crutchfield experiences a qualifying termination of employment immediately thereafter, the aggregate value of the cash severance and other benefits that would be payable is approximately \$18.0 million and \$11.5 million, respectively, not including the value of the vesting of equity awards described above. Solely upon a change in control, assuming that the merger is completed on December 31, 2008, the aggregate value of the cash payments that would be made to Mr. Crutchfield under his employment agreement is approximately \$6.8 million, not including the value of the equity awards

described above.

*Key Employee Separation Plan.* Alpha's five other executive officers, including Messrs. Stuebe, McMillion, and Porco, are not parties to employment agreements with Alpha, but are covered by Alpha's key employee separation plan, which was previously approved by Alpha. Under the terms of the separation plan, upon a change in control, each participant is entitled to receive a lump-sum cash payment equal to his pro-rata target annual bonus for the year in which the change in control occurs. Assuming the merger is completed on December 31, 2008, the

**Table of Contents**

amount of such payments payable to each of Messrs. Stuebe, McMillion, and Porco and the two other executive officers (together), respectively, is approximately \$236,000, \$262,500, \$214,988, and \$252,000.

Contingent upon the participant's execution of a general release, and a one-year non-disparagement and non-competition agreement, in the event the participant's employment is terminated by the employer without cause or by the participant for good reason during the 90 days prior to, on or within one year after a change in control, upon termination the participant will be entitled to receive his base salary and target bonus multiplied by the applicable benefit factor (in the case of each of Messrs. Stuebe, McMillion, and Porco, that factor is two, whereas absent a change in control, it would be one and one-half).

In addition, upon a termination of a participant's employment without cause or for good reason (whether or not in connection with a change in control), each participant is entitled to: (i) any accrued base salary and other amounts accrued and/or owing to such executive; (ii) a pro-rata share of any individual annual cash bonuses or target individual annual cash incentive compensation; (iii) certain medical and life benefits until the earlier to occur of (x) reaching the age of 65, (y) obtaining substantially similar benefits from another employer, or (z) the expiration of the COBRA continuation period, and (iv) a cash payment of \$15,000 to cover outplacement assistance services and other expenses associated with seeking another position. Assuming that the merger is completed on December 31, 2008 and the executive experiences a qualifying termination of employment immediately thereafter, the approximate value of continued health, life and welfare benefits to each of Messrs. Stuebe, McMillion, and Porco and the two other executive officers (together), is approximately \$19,000, \$26,000, \$23,000, and \$40,000, respectively.

Assuming that the merger is completed on December 31, 2008 and the executive experiences a qualifying termination of employment immediately thereafter, the approximate aggregate value of the cash severance and other severance benefits payable under the Separation Plan to each of Messrs. Stuebe, McMillion, and Porco and each of Alpha's two other executive officers (together) is approximately \$1.59 million, \$1.79 million, \$1.47 million, and \$2.31 million, respectively. These amounts are in addition to the retention bonuses and the value of the vesting of equity awards, described above.

*Nonqualified Deferred Compensation.* Alpha maintains the Director Deferred Compensation Agreement under the 2005 Long-Term Incentive Plan, which provides for the deferral of compensation of non-employee directors into cash and stock units.

Pursuant to the terms of the Director Deferred Compensation Agreement, participants are entitled to a lump sum distribution of their accounts within 30 days following the consummation of a change in control. Three directors participate in this plan.

*Appointment to the Cleveland-Cliffs Board of Directors and Officer Appointment.* Under the merger agreement, the Cleveland-Cliffs board of directors is required to take all actions as may be required to appoint Mr. Quillen, Alpha's current Chief Executive Officer, to serve as non-executive vice-chairman, and Glenn A. Eisenberg, another current Alpha board member, to serve on the Cleveland-Cliffs board of directors after the merger. Under the merger agreement, Cleveland-Cliffs has agreed to take all actions as may be required to appoint Mr. Crutchfield as president of the coal division of Cleveland-Cliffs as of the effective time of the merger.

*New Employment Arrangements.* As of the date Alpha entered into the merger agreement, no executive officer of Alpha had any arrangement or understanding with Cleveland-Cliffs regarding continued employment with Cleveland-Cliffs or Cliffs Natural Resources other than, as discussed above, the payment of retention bonuses to certain executives and the provisions of the merger agreement that obligate Cleveland-Cliffs to appoint certain directors to the board of Cleveland-Cliffs and to appoint Mr. Crutchfield as president of the coal division of Cleveland-Cliffs at the effective time of the merger. As of the date of this joint proxy statement/prospectus, no

executive officer of Alpha has entered into any agreement or understanding or engaged in any substantive discussions with Cleveland-Cliffs as to terms and conditions of possible employment with Cleveland-Cliffs or the combined company. Alpha anticipates that, subsequent to the date of this joint proxy statement/prospectus, Mr. Crutchfield is likely to engage in discussions with Cleveland-Cliffs regarding the terms and conditions of his future employment by Cleveland-Cliffs as president of the coal division of Cleveland-Cliffs pursuant to the terms of the merger agreement. It is possible that certain other members of Alpha's management will be presented with, and

## **Table of Contents**

will discuss with Cleveland-Cliffs, proposed terms of future employment with the combined company subsequent to the date of this joint proxy statement/prospectus. The proposed terms and conditions of such possible employment that may be discussed and agreed upon by Mr. Crutchfield and other members of Alpha's management and Cleveland-Cliffs may include, but are not necessarily limited to, base salary, short-term incentive compensation and long-term incentive compensation, including equity awards.

## **Listing of Cleveland-Cliffs Common Shares and Delisting of Alpha Common Stock**

It is a condition to the merger that the Cleveland-Cliffs common shares issuable in connection with the merger be authorized for issuance on the NYSE subject to official notice of issuance. Cleveland-Cliffs common shares are currently traded on the NYSE under the symbol CLF. If the merger is completed, Alpha common stock will no longer be listed on the NYSE and will be deregistered under the Exchange Act, and Alpha may no longer file periodic reports with the SEC.

## **Cleveland-Cliffs Board of Directors After the Merger**

Under the merger agreement, as of the effective time of the merger, the Cleveland-Cliffs board of directors will take all actions as may be required to appoint Michael J. Quillen (to serve as non-executive vice-chairman) and Glenn A. Eisenberg to the Cleveland-Cliffs board of directors. Cleveland-Cliffs and Alpha have agreed that at least one of the individuals to be appointed to the Cleveland-Cliffs board of directors will meet the independence standard of the listing standards of the NYSE. If either of these individuals declines or is unable to serve on the Cleveland-Cliffs board of directors, Cleveland-Cliffs and Alpha will agree on a mutually acceptable candidate.

Michael J. Quillen has served as Alpha's Chief Executive Officer and a member of the Alpha board since its formation in November 2004 and served as Alpha's President until January 2007. He was named Chairman of Alpha's board in October 2006. Mr. Quillen joined the Alpha management team as President and the sole manager of Alpha Natural Resources, LLC, Alpha's top-tier operating subsidiary, in August 2002, and has served as Chief Executive Officer of Alpha Natural Resources, LLC since January 2003. He also served as the president and a member of the board of directors of ANR Holdings, LLC, Alpha's former top-tier holding company, from December 2002 until ANR Holdings, LLC was merged with another of Alpha's subsidiaries in December 2005, and as the chief executive officer of ANR Holdings, LLC from March 2003 until December 2005. From September 1998 to December 2002, Mr. Quillen was Executive Vice President - Operations of AMCI Metals & Coal International Inc., which is referred to as AMCI. While at AMCI, he was also responsible for the development of AMCI's Australian properties. Mr. Quillen has over 30 years of experience in the coal industry starting as an engineer. He has held senior executive positions in the coal industry throughout his career, including as Vice President - Operations of Pittston Coal Company, President of Pittston Coal Sales Corp., Vice President of AMVEST Corporation, Vice President - Operations of NERCO Coal Corporation, President and Chief Executive Officer of Addington, Inc. and Manager of Mid-Vol Leasing, Inc. Mr. Quillen was elected to the board of directors of Martin Marietta Materials, Inc., a leading producer of construction aggregates in the United States, in February 2008.

Glenn A. Eisenberg has been a member of the Alpha board since the 2005 Alpha annual meeting and is currently Chairman of Alpha's Audit Committee and a member of Alpha's Nominating and Corporate Governance Committee. Mr. Eisenberg currently serves as Executive Vice President, Finance and Administration of The Timken Company, an international manufacturer of highly engineered bearings, alloy and specialty steel and components and a provider of related products and services. Prior to joining The Timken Company in 2002, Mr. Eisenberg served as President and Chief Operating Officer of United Dominion Industries, a manufacturer of proprietary engineered products, from 1999 to 2001, and as the President - Test Instrumentation Segment and Executive Vice President for United Dominion Industries from 1998 to 1999. Mr. Eisenberg also serves as a director and chairman of the audit committee of Family Dollar Stores, Inc., owners and operators of discount stores throughout the United States.

**Appraisal Rights of Alpha Stockholders**

Holders of record of Alpha common stock who do not vote in favor of the adoption of the merger agreement, and who otherwise comply with the applicable provisions of Section 262 of the DGCL, will be entitled to exercise

## **Table of Contents**

appraisal rights under Section 262 of the DGCL in connection with the merger. A person having a beneficial interest in shares of Alpha common stock held of record in the name of another person, such as a broker, bank or other nominee, must act promptly to cause the record holder to fulfill the requirements of Section 262 of the DGCL properly and in a timely manner to perfect appraisal rights.

**The following discussion is not a complete statement of the law pertaining to appraisal rights under the DGCL and is qualified in its entirety by the full text of Section 262 of the DGCL, which is reprinted in its entirety as Annex D and incorporated into this proxy statement by reference. All references in Section 262 of the DGCL and in this summary to a stockholder or holder are to the record holder of the shares of Alpha common stock as to which appraisal rights are asserted. The following summary does not constitute legal or other advice nor does it constitute a recommendation that stockholders exercise their appraisal rights under Section 262 of the DGCL.**

Holders of shares of Alpha common stock who do not vote in favor of the adoption of the merger agreement and who otherwise follow the procedures set forth in Section 262 of the DGCL will be entitled to have their Alpha common stock appraised by the Delaware Court of Chancery and to receive, in lieu of the merger consideration, payment in cash of the fair value of the shares of Alpha common stock, exclusive of any element of value arising from the accomplishment or expectation of the merger, as determined by the Court together with interest, if any, to be paid upon the amount determined to be fair value. Unless the Delaware court in its discretion determines otherwise for good cause shown, this rate of interest will be five percent over the Federal Reserve discount rate (including any surcharge) as established from time to time between the effective date of the merger and the date of payment and will be compounded quarterly. Any such judicial determination of the fair value of shares of Alpha common stock could be based upon considerations other than or in addition to the merger consideration and the market value of the shares of Alpha common stock. Moreover, Alpha may argue in an appraisal proceeding that, for purposes of such a proceeding, the fair value of the shares of Alpha common stock is less than the merger consideration. **You should be aware that the fair value of your shares as determined under Section 262 of the DGCL could be less than, the same as, or more than the merger consideration that you are entitled to receive under the terms of the merger agreement.**

Under Section 262 of the DGCL, when a proposed merger of a Delaware corporation is to be submitted for adoption at a meeting of its stockholders, the corporation, not less than 20 days prior to the meeting, must notify each of its stockholders who was a stockholder on the record date for this meeting with respect to shares for which appraisal rights are available, that appraisal rights are so available, and must include in that required notice a copy of Section 262 of the DGCL.

This proxy statement constitutes the required notice to the holders of the shares of Alpha common stock in respect of the merger, and Section 262 of the DGCL is attached to this proxy statement as Annex D. Any Alpha stockholder who wishes to exercise appraisal rights in connection with the merger or who wishes to preserve the right to do so should review the following discussion and Annex D carefully, because failure to timely and properly comply with the procedures specified in Annex D will result in the loss of appraisal rights under the DGCL. Moreover, because of the complexity of the procedures for exercising the right to seek appraisal of shares of Alpha common stock, stockholders who are considering exercising such rights should seek the advice of legal counsel.

A holder of Alpha common stock wishing to exercise appraisal rights must not vote in favor of the adoption of the merger agreement, and must deliver to Alpha before the taking of the vote on the adoption of the merger agreement at the Alpha special meeting a written demand for appraisal of the stockholder's Alpha common stock. This written demand for appraisal must be separate from any proxy or ballot abstaining from the vote on the adoption of the merger agreement or instructing or effecting a vote against the adoption of the merger agreement. This demand must reasonably inform Alpha of the identity of the stockholder and of the stockholder's intent thereby to demand appraisal

of the stockholder's shares in connection with the merger. A holder of Alpha common stock wishing to exercise appraisal rights must be the record holder of the shares of Alpha common stock on the date the written demand for appraisal is made and must continue to hold the shares of Alpha common stock through the effective date of the merger. Accordingly, a holder of Alpha common stock who is the record holder of Alpha common stock on the date the written demand for appraisal is made, but who thereafter transfers the shares of Alpha

**Table of Contents**

common stock prior to consummation of the merger, will lose any right to appraisal in respect of the shares of Alpha common stock.

A proxy that is signed and does not contain voting instructions will, unless revoked, be voted in favor of the adoption of the merger agreement, and it will constitute a waiver of the stockholder's right of appraisal and will nullify any previously delivered written demand for appraisal. Therefore, a stockholder who submits a proxy and who wishes to exercise appraisal rights must vote against adoption of the merger agreement, or abstain from voting on the adoption of the merger agreement.

Only a holder of record of Alpha common stock on the date of the making of a demand for appraisal will be entitled to assert appraisal rights for the shares of Alpha common stock registered in that holder's name. A demand for appraisal should be executed by or on behalf of the holder of record, fully and correctly, as the holder's name appears on the holder's stock certificates. The demand must reasonably inform Alpha of the identity of the holder and the intention of the holder to demand appraisal of his, her or its shares of Alpha common stock. If your shares of Alpha common stock are held through a broker, bank, nominee or other third party, and you wish to demand appraisal rights, you must act promptly to instruct the applicable broker, bank, nominee or other third party to follow the steps summarized in this section.

**All written demands for appraisal should be sent or delivered to Alpha at One Alpha Place, P.O. Box 2345, Abingdon, Virginia 24212, Attention: Corporate Secretary.**

Within ten days after the effective date of the merger, Alpha, or its successor, which we refer to generally as the surviving corporation, will notify each former Alpha stockholder who has properly asserted appraisal rights under Section 262 of the DGCL, and has not voted in favor of the adoption of the merger agreement, of the date the merger became effective. At any time within 60 days after the effective date of the merger, any holder who has demanded an appraisal has the right to withdraw the demand and accept the merger consideration in accordance with the merger agreement for his, her or its shares of Alpha common stock.

Within 120 days after the effective date of the merger, but not thereafter, the surviving corporation or any former Alpha stockholder who has complied with the statutory requirements summarized above may file a petition in the Delaware Court of Chancery, with a copy served on the surviving corporation in the case of a petition filed by the stockholder, demanding a determination of the fair value of the shares of Alpha common stock that are entitled to appraisal rights. None of Cleveland-Cliffs, the surviving corporation or Alpha is under any obligation to and none of them has any present intention to file a petition with respect to the appraisal of the fair value of the shares of Alpha common stock, and stockholders seeking to exercise appraisal rights should not assume that the surviving corporation, Alpha or Cleveland-Cliffs will initiate any negotiations with respect to the fair value of such shares. Accordingly, it is the obligation of Alpha stockholders wishing to assert appraisal rights to take all necessary action to perfect and maintain their appraisal rights within the time prescribed in Section 262 of the DGCL. A person who is a beneficial owner of shares of Alpha common stock held either in a voting trust or by a nominee on behalf of such person may, in such person's own name, file the petition described in this paragraph.

Within 120 days after the effective date of the merger, any former Alpha stockholder who has complied with the requirements for exercise of appraisal rights will be entitled, upon written request, to receive from the surviving corporation a statement setting forth the aggregate number of shares of Alpha common stock not voted in favor of adopting the merger agreement, and with respect to which demands for appraisal have been received and the aggregate number of former holders of these shares of Alpha common stock. These statements must be mailed within 10 days after a written request therefor has been received by the surviving corporation or within 10 days after expiration of the period for delivery of demands for appraisal under Section 262 of the DGCL, whichever is later. A person who is the beneficial owner of shares of Alpha common stock held either in a voting trust or by a nominee on behalf of any such

person may, in such person's own name, request from the surviving corporation the statement described in this paragraph.

If a petition for an appraisal is filed timely with the Delaware Court of Chancery by a former Alpha stockholder and a copy thereof is served upon the surviving corporation, the surviving corporation will then be obligated within 20 days of service to file with the Delaware Register in Chancery a duly verified list containing the names and addresses of all former Alpha stockholders who have demanded appraisal of their shares of Alpha common stock.

**Table of Contents**

and with whom agreements as to value have not been reached. After notice to such former Alpha stockholders as required by the Delaware Court of Chancery, the Delaware Court of Chancery shall conduct a hearing on such petition to determine those former Alpha stockholders who have complied with Section 262 of the DGCL and who have become entitled to appraisal rights thereunder. The Delaware Court of Chancery may require the former Alpha stockholders who demanded appraisal of their shares of Alpha common stock to submit their stock certificates to the Delaware Register in Chancery for notation thereon of the pendency of the appraisal proceeding. If any former stockholder fails to comply with such direction, the Delaware Court of Chancery may dismiss the proceedings as to that former stockholder.

After determining which, if any, former Alpha stockholders are entitled to appraisal, the Delaware Court of Chancery will appraise their shares of Alpha common stock, determining their fair value, exclusive of any element of value arising from the accomplishment or expectation of the merger, together with interest, if any, to be paid upon the amount determined to be the fair value. Unless the Delaware Court of Chancery in its discretion determines otherwise for good cause shown, interest from the effective date of the merger through the date of payment of the judgment shall be compounded quarterly and shall accrue at five percent over the Federal Reserve discount rate (including the surcharge) as established from time to time between the effective date of the merger and the date of the payment.

In determining fair value, the Delaware Court of Chancery is required to take into account all relevant factors. Alpha stockholders considering seeking appraisal should be aware that the fair value of their shares of Alpha common stock as determined under Section 262 of the DGCL could be less than, the same as, or more than the value of the consideration they would receive pursuant to the merger agreement if they did not seek appraisal of their shares of Alpha common stock. Cleveland-Cliffs, Alpha and/or the surviving corporation reserve the right to assert, in any appraisal proceeding, that for the purposes of Section 262 of the DGCL, the fair value of a share of Alpha common stock is less than the merger consideration.

The costs of the appraisal action may be determined by the Delaware Court of Chancery and levied upon the parties as the Delaware Court of Chancery deems equitable. Upon application of a former Alpha stockholder, the Delaware Court of Chancery may also order that all or a portion of the expenses incurred by any former Alpha stockholder in connection with an appraisal proceeding, including, without limitation, reasonable attorneys fees and the fees and expenses of experts used in the appraisal proceeding, be charged pro rata against the value of all of the shares of Alpha common stock entitled to appraisal.

Any holder of Alpha common stock who has duly demanded an appraisal in compliance with Section 262 of the DGCL will not, after the consummation of the merger, be entitled to vote the shares of Alpha common stock subject to this demand for any purpose or be entitled to the payment of dividends or other distributions on those shares of Alpha common stock (except dividends or other distributions payable to holders of record of Alpha common stock as of a record date prior to the effective date of the merger).

If any stockholder who properly demands appraisal of his, her or its Alpha common stock under Section 262 of the DGCL fails to perfect, or effectively withdraws or loses, his, her or its right to appraisal, as provided in Section 262 of the DGCL, that stockholder's shares of Alpha common stock will be deemed to have been converted into the right to receive the merger consideration payable (without interest) in the merger. An Alpha stockholder will fail to perfect, or effectively lose or withdraw, his, her or its right to appraisal if, among other things, no petition for appraisal is filed within 120 days after the effective date of the merger, or if the stockholder delivers to Alpha or the surviving corporation, as the case may be, a written withdrawal of his, her or its demand for appraisal. Any attempt to withdraw an appraisal demand in this manner more than 60 days after the effective date of the merger will require the written approval of the surviving corporation. In addition, once a petition for appraisal is filed, the appraisal proceeding may not be dismissed as to any holder absent court approval; provided, however, that any stockholder who has not commenced an appraisal proceeding or joined that proceeding as a named party may withdraw his, her or its demand

for appraisal and accept the merger consideration offered pursuant to the merger agreement within 60 days after the effective date of the merger.

Any Alpha stockholder wishing to exercise appraisal rights is urged to consult with legal counsel prior to attempting to exercise such rights.

**Table of Contents**

**Dissenters' Rights of Cleveland-Cliffs Shareholders**

Under the Ohio General Corporation Law, certain of Cleveland-Cliffs shareholders are entitled to dissenters' rights in connection with the merger. However, such Cleveland-Cliffs shareholders are entitled to relief as dissenting shareholders under Section 1701.85 of the Ohio General Corporation Law only if they strictly comply with all of the procedural and other requirements of Section 1701.85, a copy of which has been attached as Annex E to this document. The following is a description of the material terms of Section 1701.85.

A Cleveland-Cliffs shareholder who wishes to perfect his, her or its rights as a dissenting shareholder:

must be a record holder of the shares of Cleveland-Cliffs as to which he, she or it seeks relief as of the record date of the Cleveland-Cliffs special meeting;

must not vote such shares of Cleveland-Cliffs in favor of the adoption of the merger agreement and the approval of the issuance of Cleveland-Cliffs common shares in the merger; and

must deliver to Cleveland-Cliffs, not later than ten days after the Cleveland-Cliffs special meeting, a written demand for payment to such dissenting shareholder of the fair cash value of the shares as to which he, she or it seeks relief. The written demand must state the dissenting shareholder's address, the number and class of such shares, and the amount claimed by the dissenting shareholder as the fair cash value of such shares.

**Voting against the adoption of the merger agreement and the approval of the issuance of the Cleveland-Cliffs common shares pursuant to the merger agreement will not satisfy the requirements of a written demand for payment.**

**Any written demand for payment should be mailed or delivered to Cleveland-Cliffs at 1100 Superior Avenue, Cleveland, Ohio 44114-2544.** Because the written demand must be delivered to Cleveland-Cliffs within the ten-day period following the Cleveland-Cliffs special meeting, Cleveland-Cliffs recommends that a dissenting shareholder use certified or registered mail, return receipt requested, to confirm that he, she or it has made timely delivery.

Cleveland-Cliffs will send to the dissenting shareholder, at the address specified in his, her or its written demand, a request for the certificate(s) representing the shares as to which the dissenting shareholder seeks relief. Within 15 days from the date of the sending of such request by Cleveland-Cliffs, the dissenting shareholder must deliver to Cleveland-Cliffs the certificate(s) requested so that Cleveland-Cliffs may endorse on them a legend to the effect that demand for the fair cash value of such shares has been made. Cleveland-Cliffs will then return the endorsed certificate(s) to the dissenting shareholder. Failure to deliver the certificate(s) within 15 days of the request from Cleveland-Cliffs will terminate the shareholder's rights as a dissenting shareholder, at the option of Cleveland-Cliffs, exercised by written notice sent to the dissenting shareholder within 20 days after the lapse of the 15-day period (unless a court otherwise directs for good cause shown). If a dissenting shareholder is a record holder of uncertificated shares of Cleveland-Cliffs, Cleveland-Cliffs will make an appropriate notation of the demand for payment in the dissenting shareholder's records.

If the dissenting shareholder and Cleveland-Cliffs cannot agree on the fair cash value per share of the shares of Cleveland-Cliffs, the dissenting shareholder or Cleveland-Cliffs may, within three months after the service of the written demand by the dissenting shareholder, file a complaint in the Court of Common Pleas of Cuyahoga County, Ohio. If the court finds that the dissenting shareholder is entitled to be paid the fair cash value of any shares, the court may appoint one or more persons as appraisers to receive evidence and to recommend a decision on the amount of the

fair cash value.

The fair cash value of a share of Cleveland-Cliffs to which a dissenting shareholder is entitled under Section 1701.85 will be determined as of the day prior to the Cleveland-Cliffs special meeting. The fair cash value of a share of Cleveland-Cliffs will be computed as the amount that a willing seller who is under no compulsion to sell would be willing to accept and that a willing buyer who is under no compulsion to purchase would be willing to pay, excluding any appreciation or depreciation in market value resulting from the issuance of the Cleveland-Cliffs common shares in connection with the merger. Notwithstanding the foregoing, the fair cash value of a share may not exceed the amount specified in the dissenting shareholder's written demand. The court will make a finding as to the fair cash value of a share and render judgment against Cleveland-Cliffs for the payment of it, with interest at a rate

**Table of Contents**

and from a date as the court considers equitable. The court will assess or apportion the costs of the proceeding (including reasonable compensation to the appraisers to be fixed by the court) as it considers equitable.

The rights of any dissenting shareholder will terminate if:

the dissenting shareholder has not complied with Section 1701.85 of the Ohio General Corporation Law, unless Cleveland-Cliffs, by its board of directors, waives this failure (however, pursuant to the terms of the merger agreement, Cleveland-Cliffs agreed not to waive, without Alpha's consent, any failure of a dissenting shareholder to comply with Section 1701.85 of the Ohio General Corporation Law);

Cleveland-Cliffs abandons or is finally enjoined or prevented from carrying out the transactions contemplated by the merger agreement, or the shareholders of Cleveland-Cliffs rescind their adoption of the merger agreement and approval of the issuance of the Cleveland-Cliffs common shares;

the dissenting shareholder withdraws his, her or its written demand, with the consent of Cleveland-Cliffs, by its board of directors; or

Cleveland-Cliffs and the dissenting shareholder have not agreed upon the fair cash value per share of the Cleveland-Cliffs shares and neither the dissenting shareholder nor Cleveland-Cliffs has timely filed or joined in a complaint in an appropriate court.

When a dissenting shareholder exercises his, her or its rights under Section 1701.85 of the Ohio General Corporation Law, all other rights accruing from his, her or its Cleveland-Cliffs shares, including voting and dividend or distribution rights, will be suspended until Cleveland-Cliffs purchases the shares or the right to receive fair cash value is otherwise terminated.

Because a proxy card which does not contain voting instructions regarding the proposal to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in the merger will be voted for the adoption of the merger agreement and the approval of the issuance of Cleveland-Cliffs common shares in the merger, a Cleveland-Cliffs shareholder who wishes to exercise dissenters' rights must either: (1) not sign and return the proxy card or otherwise vote at the Cleveland-Cliffs special meeting, or (2) vote against or abstain from voting on the adoption of the merger agreement and approval of the issuance of Cleveland-Cliffs common shares in the merger.

**Conditions to Completion of the Merger**

Completion of the merger depends on a number of conditions being satisfied or waived. These conditions include the following:

adoption of the merger agreement by the Alpha stockholders at the Alpha special meeting;

adoption of the merger agreement and approval of the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement by the Cleveland-Cliffs shareholders at the Cleveland-Cliffs special meeting;

the waiting period (including any extension thereof) applicable to the consummation of the merger under the HSR Act must have expired or been terminated, and antitrust clearance in Turkey must have been obtained;

making or obtaining consents, approvals, and actions of, filings with and notices to, the governmental entities required to consummate the merger and the other transactions contemplated by the merger agreement, the

failure of which to be made or obtained is reasonably expected to have or result in a material adverse effect on Cleveland-Cliffs or Alpha;

absence of any order or law of any governmental authority preventing the consummation of the merger;

approval for listing of Cleveland-Cliffs common shares to be issued in the merger on the NYSE upon official notice of issuance;

continued effectiveness of the registration statement of which this joint proxy statement/prospectus is a part and the absence of any stop order or proceeding seeking a stop order by the SEC suspending the effectiveness of the registration statement;

**Table of Contents**

accuracy of each party's representations and warranties in the merger agreement, except as would not reasonably be expected to have or result in a material adverse effect on the party making the representations;

performance in all material respects of each party's covenants set forth in the merger agreement required to be performed by it at or prior to the closing date of the merger; and

delivery by both parties of customary officer's certificates and tax opinions.

**Regulatory Approvals Required for the Merger**

The completion of the merger is subject to compliance with the HSR Act. The notifications required under the HSR Act to the FTC and the Antitrust Division were filed on July 25, 2008. The HSR waiting period expires at 11:59 p.m. EST on August 25, 2008 unless it is shortened by a grant of early termination or extended by the issuance by the FTC or the Antitrust Division of a request for additional information, or a second request. If a second request is issued, the waiting period will be extended until 30 days after substantial compliance with the second request unless the parties agree to extend the waiting period or the FTC or the Antitrust Division concludes its investigation and grants early termination of the second request waiting period.

In addition, Cleveland-Cliffs and Alpha must submit a pre-merger notification in Turkey and obtain antitrust clearance from the Turkish Competition Board. The pre-merger notification in Turkey is contemplated to be submitted on or about August 15, 2008. The review period, which is generally 30 calendar days from filing, ends when the Turkish Competition Board authorizes the proposed transaction. If, prior to such authorization, the staff of the Turkish Competition Board requests additional information, this 30-day period starts again from the date such additional information is provided.

Cleveland-Cliffs and Alpha have agreed to use their reasonable best efforts, subject to specified limitations, to take, or cause to be taken, all actions necessary, proper or advisable under applicable law and regulations, including the HSR Act, to complete the merger as promptly as practicable, but in no event later than the outside date. See "The Merger Agreement - Termination of the Merger Agreement" on page 112.

Under the merger agreement, the use of such reasonable best efforts does not require the parties to dispose of or hold separate any of their businesses or to conduct any of their businesses in a particular manner, except to the extent any such disposal, separation or conduct would not reasonably be expected to materially impair the benefits each of Cleveland-Cliffs and Alpha reasonably expects to be derived from their combination through the merger. See "The Merger Agreement - Covenants and Agreements - Cooperation; Regulatory, Antitrust and Other Required Approvals and Clearances" on page 107.

It is possible that any of the governmental entities with which filings have been or will be made may seek additional regulatory concessions or impose additional conditions or states or private parties may commence litigation to prevent the completion of the merger. There can be no assurance that:

Cleveland-Cliffs or Alpha will be able to satisfy or comply with any conditions imposed;

compliance or non-compliance will not have adverse consequences on the combined company after completion of the merger; or

litigation, if any, will be resolved favorably by Cleveland-Cliffs and Alpha.

See The Merger Agreement Conditions to Completion of the Merger on page 111.

**Cleveland-Cliffs Dividend Policy**

The Cleveland-Cliffs board of directors approves all dividend recommendations.

Under the merger agreement, Cleveland-Cliffs has agreed that, prior to the effective time of the merger, it will not declare, set aside or pay any dividends on, or make any other distributions in respect of, any of its capital stock, other than dividends and distributions by a direct or indirect wholly-owned subsidiary of Cleveland-Cliffs to its parent and other than regular quarterly cash dividends with respect to Cleveland-Cliffs common shares not in excess of \$0.25 per share and Series A-2 preferred stock in accordance with the terms thereof.

**Table of Contents**

**Financing of the Merger**

In connection with the signing of the merger agreement, Cleveland-Cliffs entered into a financing commitment letter with J.P. Morgan and JPMCB. J.P. Morgan intends to syndicate this facility to a group of lenders identified by it in consultation with Cleveland-Cliffs, which lenders (including JPMCB) are referred to collectively as the financing parties. This financing commitment letter contemplates a senior unsecured term loan A facility for up to \$1.9 billion. Cleveland-Cliffs intends to use the proceeds of this facility to finance the cash portion of the merger consideration to refinance indebtedness of Alpha, to consummate the tender offer described below (including the payment of any premium to the convertible noteholders) and pay all fees, expenses and other amounts contemplated to be paid by Cleveland-Cliffs or its affiliates under the merger agreement. Cleveland-Cliffs' obligation to complete the merger is not subject to any financing contingency.

The obligations of the financing parties to make available the facility is subject to the satisfaction of a number of conditions including, without limitation: absence since December 31, 2007 of any material adverse change or material adverse effect relating to Alpha; J.P. Morgan's and JPMCB's satisfaction that prior to and during the syndication of the facility there shall be no competing offering, placement or arrangement of any debt securities or bank financing (subject to certain exceptions); Cleveland-Cliffs using commercially reasonable efforts to solicit a proposed amendment to its existing revolving and term credit facility pursuant to which the applicable margins and pricing methodology under the existing facility are conformed to the applicable margins and pricing methodology in the definitive financing documentation for this new facility to finance the cash portion of the merger consideration; the negotiation, execution and delivery on or before November 15, 2008 of definitive financing documentation from the facility satisfactory to JPMCB and its counsel; the consummation of the merger and the funding of the facility on or before January 15, 2009 (or April 15, 2009 in certain circumstances); Cleveland-Cliffs or Alpha having tendered to repurchase 100% of the outstanding 2.375% Convertible Senior Notes due 2015 of Alpha; the leverage ratio (giving pro forma effect to the merger) on the closing date of the merger not exceeding the applicable leverage requirement as of the then most recently ended fiscal quarter or fiscal year (as applicable) prior to the closing date of the merger in respect of which Cleveland-Cliffs has delivered its quarterly or annual financial statements to the lenders under the existing revolving and term credit facility; and certain other customary closing conditions, including, without limitation, delivery of customary legal opinions and officers' certifications, receipt of ratings from ratings agencies, and the payment of fees and expenses.

Certain direct and indirect U.S. subsidiaries of Cleveland-Cliffs will guarantee the obligations under the facility. The facility will also include other covenants and restrictions customary for senior unsecured credit facilities. Cleveland-Cliffs will be required to indemnify and hold harmless J.P. Morgan and each financing party and their respective affiliates and their partners, directors, officers, employees, agents and advisors from and against all losses, claims, damages, liabilities, and expenses arising out of or relating to the facility, Cleveland-Cliffs' use of loan proceeds or the commitments, except to the extent any such loss, liability, claim, damage or expense is found to have resulted from such indemnified party's gross negligence or willful misconduct.

**Accounting Treatment**

The merger will be accounted for as a business combination using the purchase method of accounting. Cleveland-Cliffs will be the acquirer for financial accounting purposes.

**MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES**

The following is a summary of the material United States federal income tax consequences of the merger to U.S. holders of Cleveland-Cliffs common shares or Alpha common stock who hold their stock as a capital asset. The summary is based on the Code, the Treasury regulations issued under the Code, and administrative rulings and court decisions in effect as of the date of this joint proxy statement/prospectus, all of which are subject to change at any time, possibly with retroactive effect.

For purposes of this discussion, the term "U.S. holder" means:

a citizen or resident of the United States;

**Table of Contents**

a corporation created or organized under the laws of the United States or any of its political subdivisions;

a trust that (i) is subject to the supervision of a court within the United States and the control of one or more United States persons or (ii) has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person; or

an estate that is subject to United States federal income tax on its income regardless of its source.

If a partnership holds Cleveland-Cliffs common shares or Alpha common stock, the tax treatment of a partner will generally depend on the status of the partners and the activities of the partnership. If a U.S. holder is a partner in a partnership holding Cleveland-Cliffs common shares or Alpha common stock, the U.S. holder should consult its tax advisors.

This summary is not a complete description of all the tax consequences of the merger and, in particular, may not address United States federal income tax considerations applicable to holders of Cleveland-Cliffs common shares or Alpha common stock who are subject to special treatment under United States federal income tax law (including, for example, non-United States persons, financial institutions, dealers in securities, insurance companies or tax-exempt entities, holders who acquired Cleveland-Cliffs common shares or Alpha common stock pursuant to the exercise of an employee stock option or right or otherwise as compensation, and holders who hold Cleveland-Cliffs common shares or Alpha common stock as part of a hedge, straddle or conversion transaction). This summary does not address the tax consequences of any transaction other than the merger. This summary does not address the tax consequences to any person who actually or constructively owns 5% or more of Cleveland-Cliffs common shares or Alpha common stock. Also, this summary does not address United States federal income tax considerations applicable to holders of options or warrants to purchase Cleveland-Cliffs common shares or Alpha common stock, or holders of debt instruments convertible into Cleveland-Cliffs common shares or Alpha common stock. In addition, no information is provided with respect to the tax consequences of the merger under applicable state, local or non-United States laws.

The obligations of Cleveland-Cliffs and Alpha to consummate the merger as currently anticipated are conditioned on the receipt of opinions of their respective tax counsel, Jones Day (as to Cleveland-Cliffs) and Cleary Gottlieb (as to Alpha), dated the effective date of the merger, each referred to as a tax opinion, to the effect that the merger will be treated as a reorganization within the meaning of Section 368(a) of the Code and that Alpha and Cleveland-Cliffs will each be a party to the reorganization within the meaning of Section 368(b) of the Code. Each of the tax opinions will be subject to customary qualifications and assumptions, including the assumption that the merger will be completed according to the terms of the merger agreement. In rendering the tax opinions, each counsel may rely upon representations and covenants, including those contained in certificates of officers of Cleveland-Cliffs and Alpha. Although the merger agreement allows each of Cleveland-Cliffs and Alpha to waive this condition to closing, neither Cleveland-Cliffs nor Alpha currently anticipates doing so.

Neither the tax opinions nor the discussion that follows is binding on the Internal Revenue Service, referred to as the IRS, or the courts. In addition, the parties do not intend to request a ruling from the IRS with respect to the merger. Accordingly, there can be no assurance that the IRS will not challenge the conclusion expressed in the tax opinions or the discussion below, or that a court will not sustain such a challenge.

**Federal income tax consequences to Cleveland-Cliffs shareholders who do not hold any Alpha common stock**

Because holders of Cleveland-Cliffs common shares will retain their common shares in the merger, holders of Cleveland-Cliffs common shares will not recognize gain or loss upon the merger.

**Federal income tax consequences to Alpha stockholders if the merger is consummated as currently anticipated**

The following discussion assumes that the exchange of Alpha common stock for Cleveland-Cliffs common shares pursuant to the merger will constitute a reorganization within the meaning of Section 368(a) of the Code.

## **Table of Contents**

A holder of Alpha common stock who receives cash and Cleveland-Cliffs common shares in the merger generally will recognize gain equal to the lesser of (i) the excess of the sum of the fair market value of the Cleveland-Cliffs common shares received by the holder in exchange for Alpha common stock and the amount of cash received by the holder (including any cash received in lieu of fractional shares) in exchange for Alpha common stock over the holder's tax basis in the Alpha common stock and (ii) the amount of cash received by the holder in exchange for Alpha common stock (excluding any cash received in lieu of fractional shares). No loss will be recognized by holders of Alpha common stock in the merger, except, possibly, in connection with the receipt of cash in lieu of fractional shares, as discussed below. Any gain recognized by a holder of Alpha common stock generally will be long-term capital gain if the holder's holding period of the Alpha common stock is more than one year. Capital gains of individuals derived in respect of capital assets held for more than one year are eligible for reduced rates of taxation. The aggregate tax basis of the Cleveland-Cliffs common shares received (including fractional shares deemed received and redeemed as described below) will be equal to the aggregate tax basis of the Alpha common stock surrendered, reduced by the amount of cash the holder of Alpha common stock received (excluding any cash received in lieu of fractional shares), and increased by the amount of gain that the holder of Alpha common stock recognizes, but excluding any gain or loss from the deemed receipt and redemption of fractional shares described below. The holding period of Cleveland-Cliffs common shares received by a holder of Alpha common stock in the merger will include the holding period of the holder's Alpha common stock.

Cash received by a holder of Alpha common stock in lieu of fractional shares will generally be treated as if the holder received the fractional shares in the merger and then received the cash in redemption of the fractional shares. The holder should generally recognize capital gain or loss equal to the difference between the amount of the cash received in lieu of fractional shares and the portion of the holder's tax basis allocable to the fractional shares.

## **Backup withholding**

Backup withholding may apply with respect to the consideration received by a holder of Alpha common stock in the merger unless the holder:

- is a corporation or comes within certain other exempt categories and, when required, demonstrates this fact; or
- provides a correct taxpayer identification number, certifies as to no loss of exemption from backup withholding and that such holder is a U.S. person (including a U.S. resident alien) and otherwise complies with applicable requirements of the backup withholding rules.

A holder of Alpha common stock who does not provide Cleveland-Cliffs (or the exchange agent) with its correct taxpayer identification number may be subject to penalties imposed by the IRS. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against the holder's federal income tax liability, provided that the holder timely furnishes certain required information to the IRS.

## **Reporting requirements**

U.S. holders of Alpha common stock receiving Cleveland-Cliffs common shares in the merger will be required to retain records pertaining to the merger. U.S. holders who owned at least five percent (by vote or value) of the total outstanding Alpha common stock before the merger or whose tax basis in the Alpha common stock surrendered pursuant to the merger equals or exceeds USD 1 million are subject to certain requirements with respect to the merger. U.S. holders are urged to consult with their tax advisors with respect to these and other reporting requirements applicable to the merger.

**THE FOREGOING DISCUSSION OF UNITED STATES FEDERAL INCOME TAX CONSEQUENCES IS FOR GENERAL INFORMATION PURPOSES ONLY AND IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES RELATING TO THE MERGER. TAX MATTERS ARE VERY COMPLICATED, AND THE TAX CONSEQUENCES OF THE MERGER TO YOU WILL DEPEND UPON THE FACTS OF YOUR PARTICULAR SITUATION. BECAUSE INDIVIDUAL CIRCUMSTANCES MAY DIFFER, WE URGE YOU TO CONSULT WITH YOUR TAX ADVISOR REGARDING THE APPLICABILITY TO YOU OF THE RULES DISCUSSED ABOVE AND THE PARTICULAR TAX EFFECTS TO YOU OF THE MERGER, INCLUDING THE APPLICATION OF STATE, LOCAL AND FOREIGN TAX LAWS.**

**Table of Contents**

**THE MERGER AGREEMENT**

The following is a summary of certain material provisions of the merger agreement, a copy of which is attached as Annex A to this joint proxy statement/prospectus and is incorporated into this joint proxy statement/prospectus by reference. We urge you to read carefully this entire joint proxy statement/prospectus, including the annexes and the other documents to which we have referred you. You should also review the section titled "Where You Can Find More Information" on page 238.

**The merger agreement has been included for your convenience to provide you with information regarding its terms, and we recommend that you read it in its entirety. Except for its status as the contractual document that establishes and governs the legal relations between Cleveland-Cliffs and Alpha with respect to the merger, we do not intend for the merger agreement to be a source of factual, business or operational information about either Cleveland-Cliffs or Alpha.** The merger agreement contains representations and warranties that Cleveland-Cliffs and Alpha have made to each other. Those representations and warranties are qualified in several important respects, which you should consider as you read them in the merger agreement.

First, except for the parties themselves, under the terms of the merger agreement, only certain other specifically identified persons are third party beneficiaries of the merger agreement who may enforce it and rely on its terms. As shareholders, you are not third party beneficiaries of the merger agreement and therefore may not enforce or rely upon its terms and conditions.

Second, the representations and warranties are qualified in their entirety by certain information each of Cleveland-Cliffs and Alpha filed with the SEC prior to the date of the merger agreement, as well as by a confidential disclosure letter that each of Cleveland-Cliffs and Alpha prepared and delivered to the other immediately prior to signing the merger agreement.

Third, certain of the representations and warranties made by Cleveland-Cliffs and merger sub, on the one hand, and Alpha, on the other hand, were made as of a specified date, may be subject to a contractual standard of materiality different from what might be viewed as material to shareholders, and may have been used for the purpose of allocating risk between the parties to the merger agreement rather than as establishing matters as facts.

Fourth, none of the representations or warranties will survive the closing of the merger and they will therefore have no legal effect under the merger agreement after the closing. The parties will not be able to assert the inaccuracy of the representations and warranties as a basis for refusing to close unless all such inaccuracies as a whole would reasonably be expected to have or result in, individually or in the aggregate, a material adverse effect on the party that made the representations and warranties, except for certain limited representations and warranties that must be true and correct in all respects. Otherwise, for purposes of the merger agreement, the representations and warranties will be deemed to have been sufficiently accurate to require a closing.

**For the foregoing reasons, you should not rely on the representations and warranties as statements of factual information. Moreover, information concerning the subject matter of the representations and warranties may have changed since the date of the merger agreement, and subsequently developed or new information qualifying a representation or warranty may have been included in a filing with the SEC made since the date of the merger agreement (including in this joint proxy statement/prospectus).**

**The Merger; Closing**

Upon the terms and subject to the conditions of the merger agreement, and in accordance with Delaware law, at the effective time of the merger, merger sub will merge with and into Alpha. The separate corporate existence of merger sub will cease.

However, at the election of Cleveland-Cliffs or Alpha, if in their reasonable good faith opinion, such action is necessary to preserve the tax consequences outlined in the merger agreement, Cleveland-Cliffs, merger sub and Alpha will cooperate to (i) convert merger sub into a limited liability company prior to the effective time of the

## **Table of Contents**

merger, and, possibly, (ii) restructure the merger so that Alpha shall be merged with and into merger sub, with merger sub continuing as the surviving corporation, provided, that neither Cleveland-Cliffs or merger sub nor Alpha will be deemed to have breached any of their respective representations, warranties, covenants or agreements set forth in the merger agreement by reason of such election.

If the merger is restructured as described in the immediately preceding paragraph, the merger will have the effects described in Annex G. However, any such restructuring will not affect the merger consideration to be received by holders of Alpha common stock.

The closing of the merger will occur at a date and time agreed by the parties, but no later than the second business day following the date on which all of the conditions to the merger, other than conditions that, by their terms, cannot be satisfied until the closing date (but subject to satisfaction of such conditions) have been satisfied or waived, unless the parties agree on another time. Cleveland-Cliffs and Alpha expect to complete the merger prior to the end of 2008. However, they cannot assure you that such timing will occur or that the merger will be completed as expected.

As soon as practicable on or after the closing date of the merger, merger sub or Alpha will file a certificate of merger with the Secretary of State of the State of Delaware. The effective time of the merger will be the time merger sub or Alpha files the certificate of merger or at a later time upon which Cleveland-Cliffs and Alpha may agree and specify in the certificate of merger.

## **Directors and Officers of the Surviving Company**

The directors of merger sub immediately prior to the effective time of the merger will be the directors of the surviving company until the earlier of their death, resignation or removal or until their respective successors are duly elected and qualified, as the case may be. The officers of Alpha immediately prior to the effective time of the merger will be the officers of the surviving company until the earlier of their death, resignation or removal or until their respective successors are duly elected and qualified, as the case may be.

## **Cleveland-Cliffs Board of Directors; Certain Officers**

As of the effective time of the merger, the board of directors of Cleveland-Cliffs will take all actions as may be required to appoint to vacancies or newly-created seats on such board of directors, the following persons: Michael J. Quillen (to serve as non-executive vice-chairman) and Glenn A. Eisenberg. Mr. Quillen and Mr. Eisenberg will serve until their respective successors have been duly elected and qualified or until the earlier of their death, resignation or removal in accordance with the amended articles of incorporation and regulations of Cleveland-Cliffs and applicable law. Cleveland-Cliffs and Alpha have agreed that at least one of these designated directors will meet the independence standards of the listing standards of the NYSE. Notwithstanding the foregoing, if, prior to the effective time of the merger, either designee declines or is unable to serve, Cleveland-Cliffs and Alpha will agree on mutually acceptable replacement designees.

As of the effective time of the merger agreement, Cleveland-Cliffs will take all actions as may be required to appoint Kevin S. Crutchfield as president of the coal division of Cleveland-Cliffs.

## **Certificate of Incorporation and By-laws of the Surviving Company**

The restated certificate of incorporation of Alpha will be amended to read in its entirety as the certificate of incorporation of merger sub as in effect immediately prior to the completion of the merger, and, as so amended, will be the certificate of incorporation of the surviving company until changed or amended. The by-laws of merger sub, as in effect immediately prior to the completion of the merger, will be the by-laws of the surviving company until

changed or amended.

**Merger Consideration**

Upon the effectiveness of the merger, each share of Alpha common stock (other than shares held by any dissenting Alpha stockholder that has properly exercised appraisal rights in accordance with Delaware law as

## **Table of Contents**

described above, shares held in treasury by Alpha or shares owned by Cleveland-Cliffs) will be converted into the right to receive from Cleveland-Cliffs the merger consideration, consisting of the following:

\$22.23 in cash, without interest; and

0.95 of a validly issued, fully paid, nonassessable common share of Cleveland-Cliffs.

Upon completion of the merger, each share of Alpha common stock held by Cleveland-Cliffs, Alpha or any direct or indirect majority-owned subsidiary of Cleveland-Cliffs or Alpha immediately prior to the effective time of the merger will be automatically cancelled and extinguished, and none of Cleveland-Cliffs, Alpha or any of their respective direct or indirect majority owned subsidiaries will receive any consideration in exchange for those shares.

## **Fractional Shares**

No fractional Cleveland-Cliffs common shares will be issued in the merger. Instead, holders of Alpha common stock who would otherwise be entitled to receive a fractional common share of Cleveland-Cliffs will receive an amount in cash (rounded up to the nearest whole cent and without interest) determined by multiplying the fractional share interest by the closing price for a common share of Cleveland-Cliffs as reported on the NYSE Composite Transactions Reports (as reported in The Wall Street Journal, or, if not reported therein, any other authoritative sources) on the closing date of the merger, or if such date is not a trading day, the trading day immediately preceding the closing.

## **Appraisal Rights**

Shares of Alpha common stock held by any Alpha stockholder who properly demands payment for his, her or its shares in compliance with the appraisal rights under Section 262 of the DGCL will not be converted into the right to receive the merger consideration. Alpha stockholders properly exercising appraisal rights will be entitled to payment as further described above under The Merger Appraisal Rights of Alpha Stockholders beginning on page 87. However, if any Alpha stockholder withdraws his, her or its demand for appraisal (in accordance with Section 262 of the DGCL) or becomes ineligible for appraisal, then the shares of Alpha common stock held by that Alpha stockholder will be converted as of the effective time of the merger into and represent the right to receive the merger consideration, without interest, in accordance with the merger agreement.

## **Exchange Procedures**

Prior to the effective time of the merger, Cleveland-Cliffs will enter into an agreement with an exchange agent for the merger to handle the exchange of shares of Alpha common stock for the merger consideration, including the payment of cash for fractional shares. As of the effective time of the merger, Cleveland-Cliffs will deposit with the exchange agent, for the benefit of the holders of Alpha common stock, immediately available funds sufficient to pay the aggregate cash consideration and certificates representing Cleveland-Cliffs common shares issuable in the merger in exchange for outstanding shares of Alpha common stock, including any cash to be paid in lieu of fractional shares or in respect of any dividends or distributions on common shares of Cleveland-Cliffs with a record date after the effective time of the merger.

At the effective time of the merger, each certificate representing shares of Alpha common stock that has not been surrendered will represent only the right to receive upon surrender of that certificate the merger consideration, dividends and other distributions on common shares of Cleveland-Cliffs with a record date after the effective time of the merger, dividends and other distributions on shares of Alpha common stock with a record date prior to the effective time of the merger that remain unpaid as of the effective time of the merger, and cash, without interest, in lieu of fractional shares. Following the effective time of the merger, no further registrations of transfers on the stock

transfer books of the surviving company of the shares of Alpha common stock will be made. If, after the effective time of the merger, Alpha stock certificates are presented to Cleveland-Cliffs, the surviving company or the exchange agent for any reason, they will be cancelled and exchanged as described above.

## **Table of Contents**

### **Exchange of Shares**

As soon as reasonably practicable after the effective time of the merger, and in any event within 5 business days thereafter, Cleveland-Cliffs will cause the exchange agent to mail to each holder of record of an Alpha stock certificate or book-entry share whose shares of Alpha common stock were converted into the right to receive the merger consideration, a letter of transmittal and instructions explaining how to surrender Alpha stock certificates or book-entry shares in exchange for the merger consideration.

After the effective time of the merger, and upon surrender of an Alpha stock certificate or book-entry share to the exchange agent, together with a letter of transmittal, duly executed, and other documents as may reasonably be required by the exchange agent, the holder of the Alpha stock certificate or book-entry share will be entitled to receive the merger consideration in the form of (i) a certificate share representing that number of whole common shares of Cleveland-Cliffs that such holder has the right to receive pursuant to the merger agreement and (ii) a check for the full amount of cash that such holder has the right to receive pursuant to the provisions of the merger agreement, including the cash consideration, cash in lieu of fractional shares, and dividends and other distributions on common shares of Cleveland-Cliffs with a record date after the effective time of the merger and the Alpha stock certificates surrendered will be cancelled. No interest will be paid or will accrue on any merger consideration payable under the merger agreement.

### **Lost Stock Certificates**

If any stock certificate has been lost, stolen or destroyed, upon the making of an affidavit of that fact by the person claiming the stock certificate to be lost, stolen or destroyed and, if required by Cleveland-Cliffs or the surviving company, as the case may be, the posting by such person of a bond in a reasonable amount as Cleveland-Cliffs or the surviving company, as the case may be, may direct as indemnity against any claim that may be made against it with respect to the stock certificate, the exchange agent will issue, in exchange for such lost, stolen or destroyed stock certificate, the merger consideration, dividends and other distributions on common shares of Cleveland-Cliffs with a record date after the effective time of the merger, and cash, without interest, in lieu of fractional shares.

**Alpha stock certificates should not be returned with the enclosed proxy card(s). Alpha stock certificates should be returned with a validly executed transmittal letter and accompanying instructions that will be provided to Alpha stockholders following the effective time of the merger.**

### **Termination of Exchange Fund**

Twelve months after the effective time of the merger, Cleveland-Cliffs may require the exchange agent to deliver to Cleveland-Cliffs all cash and common shares of Cleveland-Cliffs remaining in the exchange fund. Thereafter, Alpha stockholders must look only to Cleveland-Cliffs for payment of the merger consideration on their shares of Alpha common stock.

### **Representations and Warranties**

The merger agreement contains representations and warranties made by each party to the other, which are subject, in some cases, to specified exceptions and qualifications, including exceptions and qualifications that would not have a material adverse effect on Alpha or Cleveland-Cliffs, as applicable. These representations and warranties relate to, among other things:

due organization, good standing and the requisite corporate power and authority to carry on their respective businesses;

ownership of subsidiaries;

capital structure and equity securities;

corporate power and authority to enter into the merger agreement and due execution, delivery and enforceability of the merger agreement;

**Table of Contents**

board of directors approval;

absence of conflicts with charter documents, breaches of contracts and agreements, liens upon assets and violations of applicable law resulting from the execution and delivery of the merger agreement and consummation of the transactions contemplated by the merger agreement;

absence of required governmental or other third party consents in connection with execution and delivery of the merger agreement and consummation of the transactions contemplated by the merger agreement other than governmental filings specified in the merger agreement;

timely filing of required documents with the SEC, compliance with the requirements of the Securities Act of 1933, which is referred to as the Securities Act, and the Exchange Act and the absence of untrue statements of material facts or omissions of material facts in those documents;

compliance of financial statements as to form with applicable accounting requirements and SEC rules and regulations and preparation in accordance with U.S. generally accepted accounting principles;

absence of misleading information contained or incorporated into this joint proxy statement/prospectus or the registration statement of which this joint proxy statement/prospectus forms a part;

absence of specified changes or events and conduct of business in the ordinary course since December 31, 2007;

compliance with applicable laws and holding of all necessary permits;

absence of proceedings before any governmental entity;

employee benefits matters and ERISA compliance;

tax matters;

environmental matters and compliance with environmental laws;

the affirmative vote required by Alpha stockholders to adopt the merger agreement and the affirmative vote required by Cleveland-Cliffs shareholders to adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares;

real property and assets;

intellectual property;

labor agreements and employee benefits issues;

certain material contracts;

insurance;

interested party transactions;

receipt of a fairness opinion from each company's financial advisors; and

brokers' or finders' fees.

Cleveland-Cliffs and merger sub made additional representations and warranties to Alpha in the merger agreement, including the availability of funds sufficient to pay the cash portion of the merger consideration and all other cash amounts to be paid pursuant to the merger agreement.

Alpha also made additional representations and warranties to Cleveland-Cliffs, including the non-applicability of anti-takeover laws to the merger.

## **Table of Contents**

For purposes of the merger agreement, a material adverse effect on Cleveland-Cliffs or Alpha means:

any event, circumstance, change, occurrence or state of facts that has a material adverse effect on the business, financial condition or results of operations of such party and its subsidiaries, taken as a whole, other than events, circumstances, changes, occurrences or any state of facts relating to:

changes in industries relating to such party and its subsidiaries in general, other than the effects of any such changes which adversely affect such party and its subsidiaries to a materially greater extent than their competitors in the applicable industries in which such party and its subsidiaries compete;

general legal, regulatory, political, business, economic, financial or securities market conditions in the United States or elsewhere, other than the effects of any such changes which adversely affect such party and its subsidiaries to a materially greater extent than its competitors in the applicable industries in which such party and its subsidiaries compete;

the execution or the announcement of the merger agreement, the undertaking and performance of the obligations contemplated by the merger agreement or the consummation of the transactions contemplated by the merger agreement, including the impact thereof on relationships with customers, suppliers, distributors, partners or employees, or any litigation arising in relation to the merger agreement or the transactions contemplated by the merger agreement;

acts of war, insurrection, sabotage or terrorism (or the escalation of the foregoing);

changes in U.S. generally accepted accounting principles or the accounting rules or regulations of the SEC; and

the fact, in and of itself (and not the underlying causes thereof), that such party or any of its subsidiaries failed to meet any projections, forecasts or revenue or earnings predictions; and

any event, circumstance, change, occurrence or state of facts that prevent or materially delay the ability of such party to consummate the transactions contemplated by the merger agreement.

The representations and warranties contained in the merger agreement will not survive the consummation of the merger, but they form the basis of specified conditions to the parties' obligations to complete the merger.

## **Covenants and Agreements**

### ***Operating Covenants***

Alpha has agreed that prior to the effective time of the merger it and its subsidiaries will carry on their businesses in the ordinary course. With specified exceptions, Alpha has agreed, among other things, not to, and not to permit its subsidiaries to:

declare, set aside or pay any dividends on, or make any other distributions in respect of, any of its capital stock;

split, combine or reclassify any of its capital stock;

except as required in Alpha's stock plans, purchase, redeem or otherwise acquire any shares of its or its subsidiaries' capital stock or any other securities of Alpha or any of its subsidiaries or any rights, warrants or

options to acquire any of those shares or other securities;

issue or authorize the issuance of, deliver, sell or encumber any shares of its capital stock, any other voting securities or any securities convertible into, or any rights, warrants or options to acquire, any such shares, voting securities or convertible securities;

amend its certificate of incorporation or by-laws;

merge or consolidate with any person other than another Alpha entity;

encumber or dispose of any of its properties or assets, other than dispositions of inventory or equipment in the ordinary course of business consistent with past practice;

**Table of Contents**

enter into commitments for capital expenditures involving (i) in the case of capital expenditures in respect of individual items of equipment more than \$5 million individually or (ii) more than \$50 million in the aggregate;

other than in the ordinary course of business consistent with past practice, incur any indebtedness;

take certain other actions with respect to employee benefit plans, compensation arrangements and collective bargaining agreements;

change the accounting principles used by it;

make acquisitions for consideration in excess of \$50 million in the aggregate;

make, change or rescind any express or deemed election with respect to taxes, settle or compromise any claim or action relating to taxes, or change any of its methods of accounting or of reporting income or deductions for tax purposes;

satisfy claims or liabilities other than satisfaction in the ordinary course of business consistent with past practice, in accordance with their terms or in amounts not to exceed \$5 million in 2008 and \$2 million in 2009;

make any loans, advances (other than advances to contract miners in excess of \$10 million in the aggregate) or capital contributions to, or investments in, any other person in excess of \$10 million in the aggregate;

modify, amend or terminate any material contract, other than in the ordinary course of business consistent with past practice;

waive, release, relinquish or assign any material right or claim under a material contract or cancel or forgive any indebtedness owed to Alpha or any of its subsidiaries in excess of \$2 million in the aggregate;

take any action to exempt any person (other than Cleveland-Cliffs and its subsidiaries) or any action taken thereby, except to the extent necessary to take any actions that Alpha or any third party would otherwise be permitted to take pursuant to the provisions of the merger agreement governing Alpha's non-solicitation obligations, from the provisions of Section 203 of the DGCL or any other state takeover law; or

authorize, or commit or agree to take, any of the foregoing actions.

Cleveland-Cliffs has agreed that, prior to the effective time of the merger, it and its subsidiaries will carry on their businesses in the ordinary course consistent with past practice and, to the extent consistent therewith, use reasonable best efforts to preserve intact their current business organizations, keep available the services of their current officers and other key employees and preserve their relationships with customers, suppliers, distributors and other persons having business dealings with them. Merger sub has agreed that prior to the effective time of the merger, it will not engage in any activities of any nature except as contemplated in the merger agreement. With specified exceptions set forth in the merger agreement, Cleveland-Cliffs has agreed, among other things, not to, and not to permit its subsidiaries to:

declare, set aside or pay any dividends on, or make any other distributions in respect of, any of its capital stock, except, among other things, for quarterly cash dividends with respect to (i) Cleveland-Cliffs common shares not in excess of \$0.25 per common share of Cleveland-Cliffs and (b) the Series A-2 preferred stock in accordance with the terms thereof;

split, combine or reclassify any of its capital stock;

purchase, redeem or otherwise acquire any shares of capital stock of Cleveland-Cliffs or any of its subsidiaries or any other securities of Cleveland-Cliffs or any of its subsidiaries or any rights, warrants or options to acquire any of those shares or other securities, except pursuant to agreements entered into with respect to Cleveland-Cliffs stock plans that are in effect as of the close of business on the date of the merger agreement;

issue or authorize the issuance of, deliver, sell, or encumber any shares of its capital stock, or any other securities in respect of, in lieu of, or in substitution for, shares of its capital stock, any other voting securities

**Table of Contents**

or any securities convertible into, or any rights, warrants or options to acquire, any of such shares, voting securities or convertible securities;

amend its organizational documents;

merge or consolidate with any person;

incur any long-term indebtedness or incur short-term indebtedness, other than (1) up to \$10 million of short-term indebtedness under lines of credit existing on the date of the merger agreement or (2) indebtedness incurred pursuant to the terms of Cleveland-Cliffs financings of the cash portion of the merger consideration;

change the accounting principles used by it;

make, change or rescind any express or deemed election with respect to taxes, settle or compromise any claim or action relating to taxes, or change any of its methods of accounting or of reporting income or deductions for tax purposes;

satisfy any claims or liabilities, other than in the ordinary course of business consistent with past practice or in accordance with their terms or in an amount not to exceed \$5 million in the aggregate;

make any loans, advances or capital contributions to, or investments in, any other person, except for loans, advances, capital contributions or investments between any wholly-owned Cleveland-Cliffs subsidiary and Cleveland-Cliffs or another wholly-owned Cleveland-Cliffs subsidiary and except for employee advances for expenses in the ordinary course of business consistent with past practice; or

authorize, or commit or agree to take, any of the foregoing actions.

***No Solicitation by Alpha***

Alpha has agreed, and agreed to cause its officers, directors, employees and representatives, other than in the case of officers, directors and employees, in their capacity as such, to cease all then existing activities with any parties with respect to or that could reasonably be expected to lead to a company takeover proposal. A company takeover proposal means any inquiry, proposal or offer from any person (other than Cleveland-Cliffs or its affiliates) relating to any:

direct or indirect acquisition or purchase of a business that constitutes 25% or more of the net revenues, net income or the assets of Alpha and its subsidiaries, taken as a whole;

direct or indirect acquisition or purchase of 25% or more of any class of equity securities of Alpha;

tender offer or exchange offer that if consummated would result in any person beneficially owning 25% or more of any class of equity securities of Alpha; or

merger, consolidation, business combination, asset purchase, recapitalization or similar transaction involving Alpha, other than the transactions contemplated or permitted by the merger agreement.

In addition, Alpha has agreed that it will not, and will direct its officers, directors, employees, and representatives not to, directly or indirectly:

solicit, initiate or knowingly encourage (including by way of furnishing non-public information), or knowingly facilitate, any inquiries or the making of any proposal that constitutes, or would reasonably be expected to lead to, a company takeover proposal;

enter into any agreement relating to a company takeover proposal or enter into any agreement, arrangement or understanding requiring Alpha to abandon, terminate or fail to consummate the merger or any other transaction contemplated by the merger agreement; or

initiate or participate in any way in any discussions or negotiations regarding, or knowingly furnish or disclose to any person (other than to Cleveland-Cliffs) any non-public information with respect to, or take

**Table of Contents**

any other action to knowingly facilitate or knowingly further any inquiries or the making of any proposal that constitutes, or would reasonably be expected to lead to, any company takeover proposal.

Notwithstanding these restrictions, Alpha may, at any time prior to obtaining Alpha stockholder approval at the Alpha special meeting, in response to an unsolicited bona fide written company takeover proposal that the board of directors of Alpha determines in good faith (after consultation with its outside counsel and a financial advisor of nationally recognized reputation) constitutes or could reasonably be expected to lead to a superior proposal (as defined below), and which company takeover proposal was made after the date of the merger agreement and did not otherwise result from a breach of Alpha's non-solicitation obligations, if and only to the extent that the board of directors of Alpha determines in good faith (after consultation with outside legal counsel) that failure to do so could be reasonably likely to be a violation of its fiduciary duties to the Alpha stockholders under applicable law, and subject to compliance with its non-solicitation obligations set forth in the merger agreement:

furnish non-public information with respect to Alpha and its subsidiaries to the person making the company takeover proposal (and its representatives) pursuant to a customary confidentiality agreement not less restrictive of the person than the existing confidentiality agreement between Alpha and Cleveland-Cliffs, provided that all the information is, previously provided to Cleveland-Cliffs or is provided to Cleveland-Cliffs prior to or substantially concurrent with the time it is provided to such person; and

participate in discussions or negotiations with the person making the company takeover proposal (and its representatives) regarding the company takeover proposal.

Superior proposal means any bona fide, written inquiry, proposal or offer from any person (other than Cleveland-Cliffs or its affiliates) relating to any:

direct or indirect acquisition or purchase of a business that constitutes 75% or more of the net revenues, net income or the assets of Alpha and its subsidiaries, taken as a whole;

direct or indirect acquisition or purchase of 75% or more of any class of equity securities of Alpha;

tender offer or exchange offer that if consummated would result in any person beneficially owning 75% or more of any class of equity securities of Alpha; or

merger, consolidation, business combination, asset purchase, recapitalization or similar transaction involving Alpha, other than the transactions contemplated or permitted by the merger agreement;

that the board of directors of Alpha determines in its good faith judgment (after consulting with outside counsel and a financial advisor of nationally recognized reputation), taking into account all legal, financial and regulatory and other aspects of the proposal (including any break-up fees, expense reimbursement provisions and conditions to consummation), the likelihood and timing of required governmental approvals and consummation and the ability of the person making the proposal to finance and pay the contemplated consideration, would be more favorable to the stockholders of Alpha than the transactions contemplated by the merger agreement (including any adjustment to the terms and conditions proposed by Cleveland-Cliffs in response to such superior proposal).

Alpha has agreed to promptly (but in any event within one calendar day) notify Cleveland-Cliffs in the event that Alpha receives, directly or indirectly, any company takeover proposal, or any request for non-public information relating to Alpha by any person that informs Alpha or its representatives that the person is considering making, or has made, a company takeover proposal, or any request for discussions or negotiations relating to a possible company takeover proposal. Alpha has also agreed to keep Cleveland-Cliffs reasonably informed, in all material respects, of the

status and details (including amendments or proposed amendments) of any such request, company takeover proposal or inquiry.

***Alpha Special Meeting and Board Recommendation***

Alpha has agreed that Alpha's board of directors will convene and hold a meeting of Alpha stockholders, recommend that such stockholders adopt the merger agreement and use its reasonable best efforts to obtain such approval. Alpha has further agreed that neither Alpha's board of directors nor any committee of Alpha's board of directors will cause a company adverse recommendation change.

## **Table of Contents**

A company adverse recommendation change means that the Alpha board of directors decides to (i) withdraw, or publicly propose to withdraw (or, in either case, modify in a manner adverse to Cleveland-Cliffs), the approval recommendation or declaration of advisability by the board of directors of the merger agreement or (ii) recommend, adopt or approve, or propose publicly to recommend, adopt or approve, any company takeover proposal.

However, if prior to obtaining Alpha stockholder approval, Alpha's board of directors determines in good faith that failure to do so would be reasonably likely to be a violation of its fiduciary duties to its stockholders under applicable law, then Alpha may (1) terminate the merger agreement and cause Alpha to enter into an acquisition agreement with respect to a superior proposal or (2) make a company adverse recommendation change, provided that Alpha fulfills the following conditions:

Alpha must provide written notice advising Cleveland-Cliffs that the Alpha board of directors intends to take such action and specifying the reasons therefor, including, if applicable, the terms and conditions of any superior proposal that is the basis of the proposed action by the Alpha board of directors (and any amendment to the amount of consideration or any other material term of the superior proposal will require a new notice to Cleveland-Cliffs);

for 3 business days following Cleveland-Cliffs' receipt of this written notice, Alpha must negotiate with Cleveland-Cliffs in good faith to make such adjustments to the terms and conditions of the merger as would enable Alpha to proceed with its recommendation of the merger agreement and the merger and not make such company adverse recommendation change or terminate the merger agreement in order to enter into an acquisition agreement with respect to a superior proposal; and

if applicable, at the end of such three-business day period, the Alpha board of directors must continue to believe that the company takeover proposal, if any, constitutes a superior proposal (after taking into account any adjustments to the terms and conditions of the merger agreement made pursuant to the negotiations described in the preceding bullet).

The merger agreement does not prohibit Alpha from taking and disclosing to its stockholders, in compliance with the rules and regulations of the Exchange Act, a position regarding any unsolicited tender offer for Alpha common stock or from making any other disclosure to Alpha stockholders if, in the good faith judgment of the Alpha board of directors, after consultation with outside counsel, failure to make such disclosure would reasonably be expected to violate its or Alpha's obligations under applicable law.

### ***Cleveland-Cliffs Special Meeting and Board Recommendation***

Cleveland-Cliffs has agreed that Cleveland-Cliffs' board of directors will convene and hold a special meeting of Cleveland-Cliffs shareholders, recommend that such shareholders adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in connection with the merger, and use its reasonable best efforts to obtain such approval. If, prior to obtaining Cleveland-Cliffs shareholder approval, the Cleveland-Cliffs' board of directors determines in good faith that failure to withdraw or modify or publicly propose to withdraw or modify its recommendation of the adoption of the merger agreement and approval of the issuance of Cleveland-Cliffs common shares in connection with the merger would be reasonably likely to be a violation of its fiduciary duties to the shareholders of Cleveland-Cliffs under the Ohio General Corporation Law, Cleveland-Cliffs board of directors may take such action, provided that Cleveland-Cliffs provides written notice advising Alpha that the Cleveland-Cliffs board of directors intends to take such action and specifying the reasons therefor, and negotiates in good faith with Alpha to make such adjustments to the terms and conditions of the merger agreement as would enable Cleveland-Cliffs to proceed with its recommendation in favor of the transactions contemplated by the merger agreement.

***Access to Information; Confidentiality***

During the period prior to the effective time of the merger, Cleveland-Cliffs and Alpha will, and will cause each of their subsidiaries to, afford to the other party and its representatives reasonable access during normal business hours to all of their respective properties, books, contracts, commitments, personnel and records, except that neither party is required to provide the other with any information that it reasonably believes it cannot provide due to contractual or legal restrictions, or which it believes is competitively sensitive information. The information

**Table of Contents**

will be held in confidence to the extent required by the provisions of the confidentiality agreement between Cleveland-Cliffs and Alpha.

***Cooperation; Regulatory, Antitrust and Other Required Approvals and Clearances***

Cleveland-Cliffs and Alpha have each agreed to use their reasonable best efforts to cooperate and to take, or cause to be taken, all actions necessary, proper or advisable to consummate and make effective the merger and the other transactions contemplated by the merger agreement, in the most expeditious manner practicable. This includes:

obtaining all necessary actions or nonactions, waivers, clearances, consents and approvals from governmental entities and making all necessary registrations and filings and taking all reasonable steps as may be necessary to obtain an approval or waiver from, or to avoid an action or proceeding by, any governmental entity;

obtaining all necessary consents, approvals or waivers from third parties;

preventing the entry, enactment or promulgation of any injunction or order or law that could materially and adversely affect the ability of Cleveland-Cliffs and Alpha to consummate the transactions under the merger agreement;

seeking the lifting or rescission of any injunction or order or law that could materially and adversely affect the ability of the parties hereto to consummate the transactions under the merger agreement;

cooperating to defend against any proceeding or investigation relating to the merger agreement or the transactions contemplated thereby and to cooperate to defend against it and respond thereto;

executing and delivering any additional instruments necessary to complete the merger and the other transactions contemplated by the merger agreement and to fully carry out the purposes of the merger agreement;

using commercially reasonable efforts to arrange for Alpha's independent accountants to provide such comfort letters, consents and other services that are reasonably required in connection with Cleveland-Cliffs' financings of the cash consideration; and

assisting in the marketing and sale or any other syndication of any such financings by making appropriate officers of Alpha available for due diligence meetings and for participation in the road show and meetings with prospective participants in such financings upon reasonable notice and at reasonable times.

Notwithstanding the foregoing, Cleveland-Cliffs has agreed to promptly reimburse Alpha for all out-of-pocket expenses incurred by, and otherwise indemnify and hold harmless, Alpha, its affiliates and its and their respective officers, directors, accountants and representatives from and against all liabilities listed in the ultimate and penultimate bullet points above relating to such actions other than those arising from such person's willful misconduct or gross negligence.

For purposes of the merger agreement, reasonable best efforts does not require the parties to sell, hold separate or otherwise dispose of or conduct the business of Alpha, Cleveland-Cliffs and/or any of their respective affiliates in a manner which would resolve any objections or suits that could materially and adversely affect the ability of the parties to consummate the transactions contemplated by the merger agreement (or agree to or permit any of these actions), except to the extent any such action would not reasonably be expected to materially impair the benefits each of Cleveland-Cliffs and Alpha reasonably expects to be derived from the combination of Cleveland-Cliffs and Alpha

through the merger.

In connection with the efforts referenced above to obtain all requisite approvals and authorizations for the transactions contemplated by the merger agreement under the HSR Act, and to obtain all such approvals and

**Table of Contents**

authorizations under any other applicable antitrust law, each of Cleveland-Cliffs and Alpha has further agreed to use its reasonable best efforts to:

cooperate in all respects with each other in connection with any filing or submission and in connection with any investigation or other inquiry, including any proceeding initiated by a private party;

keep the other party informed in all material respects of any material communication (and if in writing, provide a copy of such communication) received by such party from, or given by such party to, the FTC, the Antitrust Division or any other governmental entity and of any material communication received or given in connection with any proceeding by a private party, in each case regarding any of the transactions contemplated in the merger agreement;

permit the other party to review any material communication given by it to, and consult with each other in advance of any meeting or conference with, any such governmental entity or in connection with any proceeding by a private party;

consult and cooperate with the other party and consider in good faith the views of the other party in connection with any analyses, appearances, presentations, memoranda, briefs, arguments, opinions or proposals made or submitted by or on behalf of Alpha, Cleveland-Cliffs or any of their respective affiliates to any such governmental entity or private party; and

not participate in any substantive meeting or have any substantive communication with any governmental entity unless it has given the other parties a reasonable opportunity to consult with it in advance and, to the extent permitted by such governmental entity, gives the other the opportunity to attend and participate therein.

In connection with and without limiting these obligations, each of Cleveland-Cliffs and Alpha will take all action necessary to ensure that no state takeover statute or similar statute or regulation is or becomes applicable to the merger agreement or any transaction contemplated by the merger agreement, including the merger. If any state takeover statute or similar statute or regulation becomes applicable to the merger agreement or any transaction contemplated by the merger agreement, each of Cleveland-Cliffs and Alpha will take all action necessary to ensure that the merger agreement and the transactions contemplated by the merger agreement, including the merger, may be completed as promptly as practicable on the terms contemplated by the merger agreement and otherwise to minimize the effect of the statute or regulation on the merger agreement and the transactions contemplated by the merger agreement, including the merger.

Cleveland-Cliffs and merger sub have each acknowledged and agreed that their obligations to consummate the merger and the other transactions contemplated thereby are not conditioned or contingent upon receipt of any financing.

***Effect of the Merger on Alpha Equity Awards***

At the effective time of the merger, each outstanding Alpha stock option and stock plan will be assumed by Cleveland-Cliffs. To the extent provided under the terms of Alpha's stock plans, all outstanding options will accelerate and become immediately exercisable in connection with the merger. Except for acceleration in accordance with the terms of Alpha's stock plans, each Alpha stock option assumed by Cleveland-Cliffs will continue to have the same terms and conditions as were applicable immediately before the effective time of the merger, except that each Alpha stock option will be exercisable for a number of whole common shares of Cleveland-Cliffs equal to the product of the number of shares of Alpha common stock issuable upon exercise of the option immediately before the effective time of the merger multiplied by the sum of (1) the stock consideration plus (2) the cash consideration divided by the closing price for a common share of Cleveland-Cliffs as reported on the NYSE Composite Transaction Reports (as

reported in The Wall Street Journal, or, if not reported therein, any other authoritative sources) on the closing date of the merger. In addition, the per share exercise price of each Alpha stock option will be equal to the quotient determined by dividing the per share exercise price of the Alpha stock option by the sum of (1) the stock consideration plus (2) the cash consideration divided by the closing price for a common share of Cleveland-Cliffs as reported on the NYSE Composite Transaction Reports (as reported in The Wall Street Journal, or, if not reported therein, any other authoritative sources) on the closing date of the merger.

## **Table of Contents**

The conversion of any Alpha stock options which are incentive stock options, within the meaning of Section 422 of the Code, into options to purchase Cleveland-Cliffs common shares will be made so as not to constitute a modification of those Alpha stock options within the meaning of Section 424 of the Code.

Cleveland-Cliffs will take all corporate action necessary to reserve for issuance a sufficient number of common shares of Cleveland-Cliffs for delivery upon exercise or settlement of the Alpha stock plans described above that it will assume or settle pursuant to the merger agreement. As soon as practicable after the effective time of the merger, Cleveland-Cliffs will file a registration statement on Form S-8, or other appropriate form, with respect to the common shares of Cleveland-Cliffs subject to the Alpha stock plans and will maintain the effectiveness of such registration statement and maintain the current status of the prospectus or prospectuses contained in such registration statement, for so long as the Alpha stock options assumed by Cleveland-Cliffs remain outstanding.

At the effective time of the merger, each outstanding unvested share of restricted Alpha common stock issued under an Alpha stock plan will become vested and no longer subject to restrictions, and as a result will be treated in the merger as unrestricted Alpha common stock.

At the effective time of the merger, each outstanding performance share granted under Alpha stock plans will vest according to the terms of the applicable performance share agreement, and the holder of each performance share agreement will be entitled to receive an amount in cash equal to the product of (i) the sum of (A) the cash consideration plus (B) the product of the stock consideration multiplied by the closing price, multiplied by (ii) the number of shares of Alpha common stock that would be issuable under such performance share agreement.

### ***Indemnification and Insurance***

Cleveland-Cliffs has agreed that all rights to indemnification and exculpation, from liabilities for acts or omissions occurring at or prior to the effective time of the merger (including any matters arising in connection with the transactions contemplated by the merger agreement) existing in favor of the current or former directors, officers and employees of Alpha and its subsidiaries, as provided in their respective certificates of incorporation, by-laws or in any agreement between Alpha or its subsidiaries, on the one hand, and any current or former director, officer or employee of Alpha or its subsidiaries, on the other hand, will be assumed by the surviving company and will survive the merger and continue in full force and effect in accordance with their terms.

Cleveland-Cliffs has agreed to maintain in effect, for at least six years after the effective time of the merger, or to replace with a six-year tail policy providing the same coverage in all material respects, the Alpha directors and officers liability insurance policies covering acts or omissions occurring prior to the effective time of the merger with respect to those persons who are currently covered by Alpha's directors and officers liability insurance policies as of the date of the merger agreement on terms with respect to such coverage and amount no less favorable than those of such existing insurance coverage. However, Cleveland-Cliffs or the surviving company will not be required to expend in any one year an amount in excess of 300% of the annual premiums paid by Alpha at the date of the merger agreement for the insurance; if the annual premiums exceed that amount, Cleveland-Cliffs will be obligated to obtain a policy with the greatest coverage available for a cost not exceeding the limit set forth above.

### ***Alpha Employee Benefits Matters***

Cleveland-Cliffs agreed to assume all of the Alpha benefit plans and honor and pay or provide the benefits required under the plans, recognizing that the consummation of the merger or approval of the merger agreement by Alpha's stockholders, as the case may be, will constitute a change in control for purposes of each such plan that includes a definition of change in control.

With respect to any Alpha common stock held by any Alpha benefit plan as of the date of the merger agreement or thereafter, Alpha agreed to take all actions necessary or appropriate (including such actions as are reasonably requested by Cleveland-Cliffs) to ensure that all participant voting procedures contained in the Alpha benefit plans relating to such shares, and all applicable provisions of ERISA, are complied with in full.

For the period commencing at the effective time of the merger and ending on the second anniversary thereof, Cleveland-Cliffs agreed to cause to be maintained on behalf of employees of Alpha at the effective time of the merger other than individuals covered by a collective bargaining agreement, considered as a group, compensation

**Table of Contents**

opportunities and employee benefits that are substantially comparable, in the aggregate, to the compensation opportunities and employee benefits provided by Alpha or its subsidiaries, as applicable.

Employees of Alpha immediately before the effective time of the merger who are provided benefits under Cleveland-Cliffs employee benefit plans after the merger will receive credit for their service with Alpha and its affiliates before the effective time of the merger for purposes of eligibility, vesting and benefit accrual (other than benefit accrual under a Cleveland-Cliffs defined benefit plan) to the same extent as they were entitled, before the effective time of the merger, to credit for service under any similar or comparable Alpha benefit plan.

For purposes of each Cleveland-Cliffs benefit plan providing medical, dental or health benefits to any Alpha employee described above, Cleveland-Cliffs agreed to cause all pre-existing condition limitations and exclusions and all actively-at-work requirements of the plan to be waived for the employee and his or her covered dependents (but only to the extent that the limitations, exclusions and requirements would have been waived (or inapplicable) under the comparable Alpha benefit plan). Cleveland-Cliffs also agreed to cause any eligible expenses incurred by the employee and his or her covered dependents during the portion of the plan year of the Alpha plan ending on the date the employee's participation in the corresponding Cleveland-Cliffs plan begins to be taken into account under the Cleveland-Cliffs plan for purposes of satisfying all deductible, coinsurance and maximum out-of-pocket requirements applicable to the employee and his or her covered dependents for the applicable plan year as if the amounts had been paid in accordance with the Cleveland-Cliffs plan.

***Dissenters' Rights of Cleveland-Cliffs Shareholders***

Cleveland-Cliffs has agreed to give Alpha prompt notice of any demands received by Cleveland-Cliffs for the fair cash value of Cleveland-Cliffs common shares from those Cleveland-Cliffs shareholders who choose to exercise their dissenters' rights under the Ohio General Corporation Law (see Annex E to this joint proxy statement/prospectus for the full text of Section 1701.85 of the Ohio General Corporation Law governing dissenters' rights). Cleveland-Cliffs has also agreed (i) not to, without the prior written consent of Alpha, waive any requirement under or compliance with the provisions of the Ohio General Corporation Law applicable to any shareholder of Cleveland-Cliffs demanding the fair cash value of his, her or its shares of Cleveland-Cliffs and (ii) to require each such shareholder holding shares of Cleveland-Cliffs in certificated form to deliver such shares to Cleveland-Cliffs, and to endorse on such shares a legend to the effect that a demand for the fair cash value of such shares has been made.

***Additional Agreements***

The merger agreement contains additional agreements between Cleveland-Cliffs and Alpha relating to, among other things:

preparation of this joint proxy statement/prospectus and of the registration statement on Form S-4, of which this joint proxy statement/prospectus forms a part;

tax treatment of the merger, and cooperation with respect to obtaining opinions from outside counsel that the merger will constitute a reorganization within the meaning of Section 368(a) of the Code;

consultations regarding public announcements;

use of reasonable best efforts by Cleveland-Cliffs to cause the common shares of Cleveland-Cliffs to be issued in the merger to be approved for listing on the NYSE;

standstill agreements;

confidentiality agreements;

ensure exemption under Rule 16b-3 of the Exchange Act;

if Cleveland-Cliffs so requests, a tender offer by Alpha to repurchase Alpha's 2.375% Convertible Senior Notes due 2015; and

a payoff letter under Alpha's existing credit facility.

**Table of Contents**

**Conditions to Completion of the Merger**

The obligations of Cleveland-Cliffs, merger sub, and Alpha to complete the merger are subject to the satisfaction or waiver on or prior to the closing date of the merger of the following conditions:

adoption of the merger agreement by the Alpha stockholders at the Alpha special meeting;

adoption of the merger agreement and approval of the issuance of Cleveland-Cliffs common shares pursuant to the terms of the merger agreement by the Cleveland-Cliffs shareholders at the Cleveland-Cliffs special meeting;

expiration or termination of the waiting period (including any extension thereof) applicable to the consummation of the merger under the HSR Act and receipt of antitrust clearance in Turkey;

making or obtaining all other consents, approvals and actions of, filings with and notices to any governmental entity required to consummate the merger and the other transactions contemplated by the merger agreement, the failure of which to be made or obtained is reasonably expected to have or result in, individually or in the aggregate, a material adverse effect on Cleveland-Cliffs or Alpha;

absence of any judgment, order, decree or law entered, enacted, promulgated, enforced or issued by any court or other governmental entity of competent jurisdiction or other legal restraint or prohibition that is in effect and prevents the consummation of the merger;

continued effectiveness of the registration statement on Form S-4 of which this joint proxy statement/prospectus forms a part and absence of any stop order by the SEC or proceedings seeking a stop order, suspending the effectiveness of such registration statement; and

approval for listing on the NYSE, upon official notice of issuance, of the common shares of Cleveland-Cliffs to be issued in the merger.

The obligation of Cleveland-Cliffs and merger sub to effect the merger is further subject to satisfaction or waiver of the following conditions:

the representations and warranties of Alpha set forth in the merger agreement relating to the absence of a material adverse effect on Alpha since December 31, 2007 must be true and correct in all respects both as of the date of the merger agreement and as of the closing date of the merger, as if made at and as of the closing date of the merger;

the representations and warranties of Alpha set forth in the merger agreement relating to the capital structure of Alpha must be true and correct in all respects (except for any de minimis inaccuracies);

all other representations and warranties of Alpha set forth in the merger agreement must be true and correct in all respects (without giving effect to any materiality or material adverse effect qualifications contained in them), except where the failure of such other representations and warranties to be so true and correct would not reasonably be expected to have or result in, individually or in the aggregate, a material adverse effect on Alpha;

Alpha must have performed in all material respects all of its obligations required to be performed by it under the merger agreement at or prior to the closing date of the merger;

Alpha must have furnished Cleveland-Cliffs with a certificate dated the closing date of the merger signed on its behalf by an executive officer to the effect that the conditions set forth above in the four immediately preceding bullets have been satisfied; and

Cleveland-Cliffs must have received from Jones Day, its counsel, an opinion dated as of the closing date of the merger, to the effect that the merger will constitute a reorganization within the meaning of Section 368(a) of the Code.

**Table of Contents**

The obligation of Alpha to effect the merger is further subject to satisfaction or waiver of the following conditions:

the representations and warranties of Cleveland-Cliffs and merger sub set forth in the merger agreement relating to the absence of a material adverse effect on Cleveland-Cliffs since December 31, 2007 must be true and correct in all respects both as of the date of the merger agreement and as of the closing date of the merger, as if made at and as of the closing date of the merger;

the representations and warranties of Cleveland-Cliffs and merger sub set forth in the merger agreement relating to the capital structure of Cleveland-Cliffs must be true and correct in all respects (except for any de minimis inaccuracies);

all other representations and warranties of Cleveland-Cliffs and merger sub set forth in the merger agreement must be true and correct in all respects (without giving effect to any materiality or material adverse effect qualifications contained in them), except where the failure of such other representations and warranties to be so true and correct would not reasonably be expected to have or result in, individually or in the aggregate, a material adverse effect on Cleveland-Cliffs and merger sub;

Cleveland-Cliffs and merger sub must have performed in all material respects all of its obligations required to be performed by it under the merger agreement at or prior to the closing date of the merger;

Cleveland-Cliffs and merger sub must have each furnished Alpha with a certificate dated the closing date of the merger signed on its behalf by an executive officer to the effect that the conditions set forth above in the four immediately preceding bullets have been satisfied; and

Alpha shall have received from Cleary Gottlieb, its counsel, an opinion dated as of the closing date, to the effect that the merger will constitute a reorganization within the meaning of Section 368(a) of the Code.

**Termination of the Merger Agreement**

At any time before the effective time of the merger, whether or not the Alpha stockholders have adopted the merger agreement or the Cleveland-Cliffs shareholders have adopted the merger agreement and approved the issuance of Cleveland-Cliffs common shares in connection with the merger, the merger agreement may be terminated:

by the mutual written consent of Cleveland-Cliffs and Alpha;

by either Cleveland-Cliffs or Alpha if:

the parties fail to consummate the merger on or before January 15, 2009, or such later date, if any, as Cleveland-Cliffs and Alpha may agree, unless the failure to consummate the merger by January 15, 2009 or such later date is the result of a breach of the merger agreement by the party seeking the termination or unless such party has not yet held its special meeting; provided that if all conditions to the closing have been fulfilled other than the making or obtaining of the consents, approvals and actions of, filings with and notices to the governmental entities required to consummate the merger and the other transactions contemplated by the merger agreement, the failure of which to be made or obtained is reasonably expected to have or result in a material adverse effect on Alpha or Cleveland-Cliffs, and the expiration or termination of the applicable waiting period under the HSR Act, the outside date will be extended from January 15, 2009 to April 15, 2009;

the Cleveland-Cliffs special meeting has concluded, the shareholders of Cleveland-Cliffs have voted, and the adoption of the merger agreement and the approval by the Cleveland-Cliffs shareholders of the issuance of common shares of Cleveland-Cliffs pursuant to the merger agreement was not obtained; or

the Alpha special meeting has concluded, the stockholders of Alpha have voted, and the adoption of the merger agreement by the Alpha stockholders was not obtained; or

by Alpha if:

Cleveland-Cliffs or merger sub breach their representations or warranties or breach or fail to perform their covenants set forth in the merger agreement, which breach or failure to perform results in a failure of

**Table of Contents**

certain of the conditions to the completion of the merger being satisfied and such breach or failure to perform is not cured within 30 days after the receipt of written notice thereof or is incapable of being cured by the outside date;

prior to the receipt of its stockholders approval of the proposal to adopt the merger agreement, Alpha (i) receives an unsolicited written takeover proposal after the date of the merger agreement that the Alpha board of directors determines in its good faith judgment constitutes, or would reasonably be expected to lead to, a superior proposal, (ii) provides Cleveland-Cliffs with a written notice that it intends to take such action, (iii) the Alpha board of directors determines in good faith that failure to take such action would be reasonably likely to be a violation of its fiduciary duties to Alpha stockholders under applicable Delaware law, (iv) thereafter satisfies the conditions for withdrawing (or modifying in a manner adverse to Cleveland-Cliffs) the recommendation by its board of directors of the merger or recommending such superior proposal, and (v) concurrently with the termination of the merger agreement, enters into an acquisition agreement with a third party providing for the implementation of the transactions contemplated by such superior proposal; provided that Alpha pays a \$350 million termination fee to Cleveland-Cliffs and such superior proposal did not result from Alpha's breach of its non-solicitation obligations under the merger agreement;

Cleveland-Cliffs materially breaches its covenants to convene the Cleveland-Cliffs special meeting or breaches its obligations to recommend that Cleveland-Cliffs shareholders vote in favor of the adoption of the merger agreement and the issuance of common shares in connection with the merger; or

the Cleveland-Cliffs board of directors or any committee thereof (i) withdraws or modifies, or publicly proposes to withdraw or modify, its recommendation that Cleveland-Cliffs shareholders adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares in connection with the merger, or (ii) recommends, adopts or approves, or proposes publicly to recommend, adopt or approve certain transactions involving Cleveland-Cliffs; or

by Cleveland-Cliffs if:

Alpha breaches its representations or warranties or breaches or fails to perform its covenants in the merger agreement, which breach or failure to perform results in a failure of certain of the conditions to the completion of the merger being satisfied, provided such breach or failure to perform is not cured within 30 days after receipt of a written notice thereof or is incapable of being cured by the outside date;

Alpha materially breaches its obligations not to solicit takeover proposals or materially breaches its covenants to convene the Alpha special meeting or breaches its obligations to recommend that Alpha stockholders vote in favor of adoption of the merger agreement;

the Alpha board of directors or any committee thereof (i) withdraws or adversely modifies or publicly proposes to withdraw or adversely modify, its recommendation of the merger agreement and the transactions contemplated by the merger agreement, including the merger, or (ii) recommends, adopts or approves, or proposes publicly to recommend, adopt or approve a takeover proposal other than the merger agreement; or

Alpha materially breaches its obligations not to solicit takeover proposals or breaches certain of its obligations with respect to holding its special meeting of stockholders.

**Termination Fees**

Alpha must pay Cleveland-Cliffs a termination fee:

of \$350 million if the merger agreement is terminated by Cleveland-Cliffs because (a) Alpha has materially breached its non-solicitation obligations under the merger agreement or has materially breached its covenants to convene the Alpha special meeting for the adoption of the merger agreement or has breached its obligations to recommend that Alpha stockholders vote in favor of such adoption or (b) the Alpha board of directors or any committee thereof (i) withdraws or adversely modifies or publicly proposes to withdraw or adversely modify, its recommendation of the merger agreement and the transactions contemplated by the

**Table of Contents**

merger agreement, including the merger, or (ii) recommends, adopts or approves, or proposes publicly to recommend, adopt or approve a takeover proposal other than the merger agreement;

of \$350 million if the merger agreement is terminated by Alpha if, prior to the receipt of its stockholders approval of the proposal to adopt the merger agreement, Alpha (i) receives an unsolicited superior proposal after the date of the merger agreement, (ii) provides Cleveland-Cliffs with a written notice that it intends to take such action, (iii) the Alpha board of directors determines in good faith that failure to take such action would be reasonably likely to be a violation of its fiduciary duties to Alpha stockholders under applicable Delaware law, (iv) thereafter satisfies the conditions for withdrawing (or modifying in a manner adverse to Cleveland-Cliffs) the recommendation by its board of directors of the merger or recommending such superior proposal, and (v) concurrently with the termination of the merger agreement, enters into an acquisition agreement with a third party providing for the implementation of the transactions contemplated by such superior proposal; provided that such superior proposal did not result from Alpha's material breach of its non-solicitation obligations under the merger agreement;

of \$350 million if the merger agreement is terminated (i) because (x) the merger has not been consummated by the outside date; (y) the Alpha special meeting has concluded the stockholders of Alpha have voted and the adoption of the merger agreement by the Alpha stockholders was not obtained; or (z) Alpha breaches its representations or warranties or breaches or fails to perform its covenants in the merger agreement (other than its obligations described in clause (a) of the first bullet above), which breach or failure to perform results in a failure of certain of the conditions to the completion of the merger being satisfied, provided such breach or failure to perform is not cured within 30 days after receipt of a written notice thereof or is incapable of being cured by the outside date; (ii) prior to such termination, any person publicly announces an alternative takeover proposal relating to Alpha; and (iii) within 12 months of such termination Alpha enters into a definitive agreement with respect to, or consummates, an alternative takeover proposal relating to Alpha; provided that the \$350 million termination fee will be payable by Alpha either (A) upon consummation of the alternative takeover transaction or, (B) if the alternative takeover transaction is not consummated, upon the consummation of any other alternative takeover transaction that closes within 24 months from the entry into the definitive agreement for the first alternative takeover transaction; or

of \$100 million if the merger agreement is terminated because the Alpha stockholders voted and did not adopt the merger agreement (however, if the Cleveland-Cliffs shareholders voted and did not adopt the merger agreement and approve the issuance of Cleveland-Cliffs common shares pursuant to the merger agreement, Alpha will not be required to pay the \$100 million termination fee).

Cleveland-Cliffs must pay Alpha a termination fee:

of \$350 million if the merger agreement is terminated by Alpha because (i) Cleveland-Cliffs has materially breached its covenant to convene and hold the Cleveland-Cliffs special meeting to adopt the merger agreement and approve the issuance of Cleveland-Cliffs shares in the merger or has breached its covenant to recommend that Cleveland-Cliffs shareholders vote in favor of adoption of the merger agreement and issuance of Cleveland-Cliffs common shares in the merger or (ii) the Cleveland-Cliffs board of directors or any committee thereof has withdrawn or modified, or publicly proposed to withdraw or modify, such recommendation;

of \$350 million if the merger agreement is terminated by either party because: (i) (A) the merger was not consummated by the outside date; (B) Cleveland-Cliffs special meeting has concluded, the shareholders of Cleveland-Cliffs have voted and the adoption of the merger agreement and the approval of the issuance of common shares of Cleveland-Cliffs pursuant to the merger agreement by the Cleveland-Cliffs shareholders

were not obtained; or (C) Cleveland-Cliffs or merger sub breach their representations or warranties or breach or fail to perform their covenants (other than their obligations described in clause (i) of the first bullet above) set forth in the merger agreement, which breach or failure to perform results in a failure of certain of the conditions to the completion of the merger being satisfied and such breach or failure to perform is not cured within 30 days after the receipt of written notice thereof or is incapable of being cured by the outside date; (ii) prior to such termination, an alternative proposal concerning Cleveland-Cliffs and meeting certain criteria outlined in the merger agreement that is conditioned upon or

**Table of Contents**

designed to cause the termination or failure of the merger or the merger agreement shall have been made public; and (iii) within 12 months of such termination Cleveland-Cliffs or any of the Cleveland-Cliffs subsidiaries enters into a definitive agreement with respect to, or consummates, any such alternative proposal; or

of \$100 million if the merger agreement is terminated because the Cleveland-Cliffs shareholders voted and did not adopt the merger agreement and approve the issuance of common shares of Cleveland-Cliffs pursuant to the merger agreement (however, if the Alpha stockholders voted and did not adopt the merger agreement, Cleveland-Cliffs will not be required to pay the \$100 million termination fee).

In general, each of Cleveland-Cliffs and Alpha will bear its own expenses in connection with the merger agreement and the related transactions except that Cleveland-Cliffs and Alpha will share equally the costs and expenses in connection with filing, printing and mailing of the registration statement and this joint proxy statement/prospectus.

**Amendments, Extensions and Waivers**

***Amendments***

The merger agreement may be amended by the parties at any time prior to the effective time of the merger by an instrument in writing signed on behalf of each of the parties. However, after the adoption of the merger agreement at the Alpha special meeting or the adoption of the merger agreement and approval of the issuance of common shares of Cleveland-Cliffs in the merger at the Cleveland-Cliffs special meeting, there will be no amendment to the merger agreement made that by law, requires further approval by the stockholders of Alpha or shareholders of Cleveland-Cliffs without the further approval of the stockholders of Alpha or shareholders of Cleveland-Cliffs.

***Extensions and Waivers***

At any time prior to the effective time of the merger, any party to the merger agreement may:

extend the time for the performance of any of the obligations or other acts of the other parties;

waive any inaccuracies in the representations and warranties of the other parties contained in the merger agreement or in any document delivered pursuant to the merger agreement; or

waive compliance by the other parties with any of the agreements or conditions contained in the merger agreement except as limited by the provisions of the merger agreement described above in the section Amendments.

Any agreement on the part of either party to any extension or waiver will be valid only if set forth in an instrument in writing signed by that party. The failure of any party to the merger agreement to assert any of its rights under the merger agreement or otherwise will not constitute a waiver of those rights.

**Table of Contents**

**INFORMATION ABOUT CLEVELAND-CLIFFS**

References in this joint proxy statement/prospectus to A\$ are to Australian currency, C\$ to Canadian currency and \$ to United States currency.

**Business**

**General**

Founded in 1847, Cleveland-Cliffs is an international mining company, the largest producer of iron ore pellets in North America and a major supplier of metallurgical coal to the global steelmaking industry. Cleveland-Cliffs operates six iron ore mines in Michigan, Minnesota and Eastern Canada, and three coking coal mines in West Virginia and Alabama. Cleveland-Cliffs also owns 85.2 percent of Portman, a large iron ore mining company in Australia, serving the Asian iron ore markets with direct-shipping fines and lump ore. In addition, Cleveland-Cliffs has a 30 percent interest in Amapá, a Brazilian iron ore project, and a 45 percent economic interest in Sonoma, an Australian coking and thermal coal project.

Cleveland-Cliffs executive offices are located at 1100 Superior Avenue, Cleveland, Ohio 44114-2544, telephone number: (216) 694-5700.

**Strategic Transformation**

In recent years, Cleveland-Cliffs has undergone a strategic transformation to an international mining company from its historic business model as a mine manager for the integrated steel industry in North America. Through a series of acquisitions and joint venture partnerships, the transformation has included Cleveland-Cliffs pursuit of geographic and mineral diversification, with a focus on providing raw materials to the steelmaking industry.

Prior to 2002, Cleveland-Cliffs primarily held a minority interest in the mines it managed, with the majority interest in the mines held by various North American steel companies. Cleveland-Cliffs earnings were principally comprised of royalties and management fees paid by the partnerships, along with sales of Cleveland-Cliffs equity share of the mine pellet production. Faced with marked deterioration in the financial condition of many of its partners and customers, Cleveland-Cliffs embarked on a strategy to reposition itself from a manager of iron ore mines on behalf of steel company partners to primarily a merchant of iron ore through increasing its ownership interests in Cleveland-Cliffs managed mines.

In 2004, Cleveland-Cliffs also significantly improved its liquidity initially through its January, 2004 offering of \$172.5 million of Series A-2 preferred stock. The proceeds from the issuance were utilized to repay the remaining \$25 million balance of Cleveland-Cliffs unsecured notes and to fund \$76.1 million into Cleveland-Cliffs underfunded salaried and hourly pension funds and Voluntary Employee Benefit Association trusts. Additionally, the proceeds from the sale of International Steel Group, Inc. stock and cash flow from operations provided Cleveland-Cliffs with the liquidity for capital expenditures to maintain and expand its production capacity and to complete the acquisition of Portman.

In April 2005, Cleveland-Cliffs completed the acquisition of an 80.4 percent interest in Portman. The acquisition increased Cleveland-Cliffs customer base in China and Japan and established Cleveland-Cliffs presence in the Australian mining industry. On May 21, 2008, Portman authorized a tender offer to repurchase up to 16.5 million shares, or 9.39 percent of its common stock. Cleveland-Cliffs indicated that it would not participate in the repurchase

of shares pursuant to the tender offer. The tender period closed on June 24, 2008. Under the repurchase of shares pursuant to the tender offer, 9.8 million fully paid ordinary shares were tendered at a price of A\$14.66 per share. As a result of the repurchase of shares pursuant to the tender offer, Cleveland-Cliffs' ownership interest in Portman increased from 80.4 percent to 85.2 percent.

In March 2007, Cleveland-Cliffs acquired a 30 percent interest in Amapá. The remaining 70 percent of Amapá was owned by MMX Mineração e Metalicos S.A., or MMX. On August 5, 2008, Anglo-American plc acquired a controlling interest in MMX's current 51 percent interest in the Minas-Rio iron ore project and its 70 percent interest in Amapá.

**Table of Contents**

In April 2007, Cleveland-Cliffs completed the acquisition of a 45 percent economic interest in Sonoma in Queensland, Australia.

In June 2007, Cleveland-Cliffs entered into an alliance whereby Kobe Steel, LTD., or Kobe Steel, agreed to license its patented ITmk3<sup>®</sup> iron-making technology to Cleveland-Cliffs. The alliance, which has a 10-year term, provides Cleveland-Cliffs a technology to convert its low-grade iron ore reserves to high-purity iron nuggets that can be used in an electric arc furnace, a market in which Cleveland-Cliffs does not currently compete.

In July 2007, Cleveland-Cliffs completed its acquisition of PinnOak, a privately-owned U.S. mining company with three high-quality, low-volatile metallurgical coal mines. The acquisition furthered Cleveland-Cliffs' growth strategy and expanded its diversification of products for the integrated steel industry.

In November 2007, Cleveland-Cliffs acquired a 70 percent controlling interest in Renewafuel, LLC, or Renewafuel. Founded in 2005, Renewafuel produces high-quality, dense fuel cubes made from renewable and consistently available components such as corn stalks, switch grass, grains, soybean and oat hulls, wood, and wood byproducts. During the second quarter of 2008, Renewafuel announced it will build a next-generation biomass fuel production facility at the Telkite Technology Park in Marquette, Michigan. Projected to begin operations in the first quarter of 2009, the plant will annually produce 150,000 tons of high-energy, low-emission biofuel cubes from a sustainable composite of collected wood and agricultural feedstocks, including wood byproducts, corn stalks, grasses and energy crops.

During the second quarter of 2008, Portman acquired 22 million shares of Golden West Resources Ltd, a Western Australia iron ore exploration company referred to as Golden West representing approximately 19.9 percent of its outstanding shares. Acquisition of the shares represents an investment of approximately \$27 million. Golden West owns the Wiluna West exploration ore project in Western Australia, containing a resource of 119 million metric tons of ore. The purchase provides Portman a strategic interest in Golden West and its Wiluna West exploration ore project.

On July 12, 2008, Cleveland-Cliffs announced a capital expansion project at its Empire and Tilden mines in Michigan's Upper Peninsula. The project, which requires approximately \$290.4 million of incremental capital investment, is expected to allow the Empire mine to produce at three million tons annually through 2017 and increase Tilden mine production by more than two million tons annually. This incremental production is expected to result in total equity production of over 23 million tons annually for the North American Iron Ore segment of Cleveland-Cliffs. Empire was previously projected to exhaust reserves in early 2011. As part of the capacity expansion, Cleveland-Cliffs will also mine additional ore from its Tilden mine, located adjacent to Empire, and process it utilizing additional processing capacity at Empire. Utilization of this capacity will enable Tilden to increase production to more than 10 million tons annually, of which 8.5 million tons represent Cleveland-Cliffs' share. The work is expected to begin in the last quarter of 2008, with capital expenditures of \$69 million, \$161.5 million and \$59.9 million projected in 2008, 2009 and 2010, respectively.

In July 2008, Cleveland-Cliffs also incurred an additional capital commitment for the purchase of a new longwall plow system at Cleveland-Cliffs' Pinnacle mine in West Virginia. The equipment, which requires a capital investment of approximately \$90 million, will replace the current longwall plow system in an effort to reduce maintenance costs and increase production at the mine. Capital expenditures related to this purchase will be made in 2008 and 2009, with the equipment expected to be delivered in 2009.

On July 11, 2008, Cleveland-Cliffs signed and closed on the acquisition of the remaining 30 percent interest in United Taconite, with an effective date of July 1, 2008. Upon consummation of the purchase, Cleveland-Cliffs' ownership interest in United Taconite increased from 70 percent to 100 percent. Consideration paid for the acquisition is a

combination of approximately \$100 million in cash, approximately 1.5 million of Cleveland-Cliffs common shares, and 1.2 million tons of iron ore pellets to be provided throughout 2008 and 2009. The consolidation of the United Taconite minority interest, together with Cleveland-Cliffs Northshore property, represents two wholly-owned iron ore assets of Cleveland-Cliffs in North America.

For more information, see Management's Discussion and Analysis of Financial Condition and Results of Operations of Cleveland-Cliffs Growth Strategy and Strategies Transactions on page 146.

**Table of Contents****Business Segments**

In the past, Cleveland-Cliffs evaluated segment results based on segment operating income. As a result of the PinnOak acquisition and Cleveland-Cliffs' focus on reducing production costs, Cleveland-Cliffs now evaluates segment performance based on sales margin, defined as revenues less cost of goods sold identifiable to each segment.

Cleveland-Cliffs is currently organized into three reportable business segments: North America Iron Ore, North American Coal and Asia-Pacific Iron Ore. Additional operating segments that do not meet the criteria for reporting segments are the Latin American Iron Ore and Asia-Pacific Coal businesses, which are in the early stages of production. See Note 6 of the Cleveland-Cliffs unaudited consolidated financial statements as of and for the six months ended June 30, 2008, included elsewhere in this joint proxy statement/prospectus, for further information.

*North American Iron Ore*

Cleveland-Cliffs is the largest producer of iron ore pellets in North America and sells virtually all of its production to integrated steel companies in the United States and Canada. Cleveland-Cliffs manages and operates six North American iron ore mines located in Michigan, Minnesota and Eastern Canada that currently have a rated capacity of 36.5 million tons of iron ore pellet production annually, representing approximately 45 percent of total North American pellet production capacity. Based on Cleveland-Cliffs' percentage ownership of the North American mines Cleveland-Cliffs operates, its share of the rated pellet production capacity is currently 24.0 million tons annually, representing approximately 29.6 percent of total North American annual pellet capacity.

The following chart summarizes the estimated annual production capacity and percentage of total North American pellet production capacity for each of the North American iron ore pellet producers as of June 30, 2008:

**North American Iron Ore Pellet****Annual Rated Capacity Tonnage**

	<b>Current Estimated Capacity (Gross Tons of Raw Ore in Millions)</b>	<b>Percent of Total North American Capacity</b>
All Cleveland-Cliffs managed mines	36.5	45.0%
Other U.S. mines		
U.S. Steel's Minnesota ore operations		
Minnesota Taconite	14.6	18.0
Keewatin Taconite	5.4	6.6
Total U.S. Steel	20.0	24.6
ArcelorMittal USA Minorca mine	2.9	3.6
Total other U.S. mines	22.9	28.2
Other Canadian mines		
Iron Ore Company of Canada	12.8	15.8

ArcelorMittal Mines Canada	8.9	11.0
Total other Canadian mines	21.7	26.8
Total North American mines	81.1	100.0%

Cleveland-Cliffs sells its share of North American iron ore production to integrated steel producers, generally pursuant to term supply agreements with various price adjustment provisions.

For the year ended December 31, 2007, Cleveland-Cliffs produced a total of 34.6 million tons of iron ore pellets, including 21.8 million tons for Cleveland-Cliffs account and 12.8 million tons on behalf of steel company

**Table of Contents**

owners of the mines. For the six-month period ended June 30, 2008, Cleveland-Cliffs produced a total of 18.0 million tons of iron ore pellets, including 11.5 million tons for Cleveland-Cliffs' account and 6.5 million tons on behalf of steel company owners of the mines.

Cleveland-Cliffs produces 13 grades of iron ore pellets, including standard, fluxed and high manganese, for use in Cleveland-Cliffs' customers' blast furnaces as part of the steelmaking process. The variation in grades results from the specific chemical and metallurgical properties of the ores at each mine and whether or not fluxstone is added in the process. Although the grade or grades of pellets currently delivered to each customer are based on that customer's preferences, which depend in part on the characteristics of the customer's blast furnace operation, in many cases Cleveland-Cliffs' iron ore pellets can be used interchangeably. Industry demand for the various grades of iron ore pellets depends on each customer's preferences and changes from time to time. In the event that a given mine is operating at full capacity, the terms of most of Cleveland-Cliffs' pellet supply agreements allow some flexibility to provide Cleveland-Cliffs' customers iron ore pellets from different mines.

Standard pellets require less processing, are generally the least costly pellets to produce and are called standard because no ground fluxstone (*i.e.*, limestone, dolomite, etc.) is added to the iron ore concentrate before turning the concentrates into pellets. In the case of fluxed pellets, fluxstone is added to the concentrate, which produces pellets that can perform at higher productivity levels in the customer's specific blast furnace and will minimize the amount of fluxstone the customer may be required to add to the blast furnace. High manganese pellets are the pellets produced at Cleveland-Cliffs' Canadian Wabush Mines Joint Venture, or Wabush, operation where there is more natural manganese in the crude ore than is found at Cleveland-Cliffs, other operations. The manganese contained in the iron ore mined at Wabush cannot be entirely removed during the concentrating process. Wabush produces pellets with two levels of manganese, both in standard and fluxed grades.

It is not possible to produce pellets with identical physical and chemical properties from each of Cleveland-Cliffs' mining and processing operations. The grade or grades of pellets purchased by and delivered to each customer are based on that customer's preferences and availability.

Each of Cleveland-Cliffs' North American iron ore mines are located near the Great Lakes or, in the case of Wabush, near the St. Lawrence Seaway, which is connected to the Great Lakes. The majority of Cleveland-Cliffs' iron ore pellets are transported via railroads to loading ports for shipment via vessel to steelmakers in the U.S. or Canada.

**North American Iron Ore Customers**

Cleveland-Cliffs' North American Iron Ore revenues are derived from sales of iron ore pellets to the North American integrated steel industry, consisting of eight customers. Generally, Cleveland-Cliffs has multi-year supply agreements with its customers. Sales volume under these agreements is largely dependent on customer requirements, and in many cases, Cleveland-Cliffs is the sole supplier of iron ore pellets to the customer. Each agreement has a base price that is adjusted annually using one or more adjustment factors. Factors that can adjust price include international pellet prices, measures of general industrial inflation and steel prices. One of Cleveland-Cliffs' supply agreements has a provision that limits the amount of price increase or decrease in any given year.

During 2007, 2006 and 2005, Cleveland-Cliffs sold 22.3 million, 20.4 million and 22.3 million tons of iron ore pellets, respectively, from its share of the production from its North American iron ore mines. The following five

**Table of Contents**

customers together accounted for a total of 83, 91 and 93 percent of North American Iron Ore Revenues from product sales and services for the years 2007, 2006 and 2005, respectively:

<b>Customer</b>	<b>Percent of Sales Revenues(1)</b>		
	<b>2007</b>	<b>2006</b>	<b>2005</b>
ArcelorMittal USA	44%	44%	43%
Algoma Steel Inc., or Algoma	16	20	22
Severstal North America, Inc. or, Severstal	10	13	12
U.S. Steel Canada	7	5	8
WCI Steel Inc.	6	9	8
Total	83%	91%	93%

(1) Excluding freight and venture partners cost reimbursements.

**North American Iron Ore Term Supply Agreements**

Cleveland-Cliffs term supply agreements in North America expire between the end of 2011 and the end of 2022. The weighted average remaining duration is eight years.

Cleveland-Cliffs North American Iron Ore sales are influenced by seasonal factors in the first quarter of the year as shipments and sales are restricted by weather conditions on the Great Lakes. During the first quarter, Cleveland-Cliffs continues to produce its products, but it cannot ship those products via lake freighter until the Great Lakes are passable, which causes Cleveland-Cliffs first quarter inventory levels to rise. Cleveland-Cliffs limited practice of shipping product to ports on the lower Great Lakes and/or to customers facilities prior to the transfer of title has somewhat mitigated the seasonal effect on first quarter inventories and sales. At both December 31, 2007 and 2006, Cleveland-Cliffs had approximately 0.8 million tons of pellets in inventory at lower lakes or customers facilities.

**ArcelorMittal USA**

On March 19, 2007, Cleveland-Cliffs executed an umbrella agreement with ArcelorMittal USA that covers significant price and volume matters under three separate pre-existing iron ore pellet supply agreements for ArcelorMittal USA's Cleveland and Indiana Harbor West, Indiana Harbor East and Weirton Steel Corporation, or Weirton, facilities. This umbrella agreement formalizes a previously disclosed letter agreement dated April 12, 2006.

Under terms of the umbrella agreement, some of the terms of the separate pellet sale and purchase agreements for each of the above facilities were modified to aggregate ArcelorMittal USA's purchases during the years 2006 through 2010. The pricing provisions of the umbrella agreement are determined in accordance with the individual supply agreements that were in place for each of the facilities at the time it was executed.

During 2006 through 2010, ArcelorMittal USA is obligated to purchase specified minimum tonnages of iron ore pellets on an aggregate basis. The umbrella agreement also sets the minimum annual tonnage at ArcelorMittal USA's approximately budgeted usage levels through 2010, with pricing based on the facility to which the pellets are delivered. Beginning in 2007, the terms of the umbrella agreement allow ArcelorMittal USA to manage its ore

inventory levels through buydown provisions, which permit it to reduce its tonnage purchase obligation each year at a specified price per ton, and through deferral provisions, which permit ArcelorMittal USA to defer a portion of its annual tonnage purchase obligation beginning in 2007. ArcelorMittal USA has opted to defer the purchase of 550,000 tons from 2007 to 2008. The umbrella agreement also provides for consistent nomination procedures through 2010 across all three iron ore pellet supply agreements.

**Table of Contents**

If, at the end of the umbrella agreement term in 2010, a new agreement is not executed, Cleveland-Cliffs pellet supply agreements with ArcelorMittal USA prior to executing the umbrella agreement will again become the basis for supplying pellets to ArcelorMittal USA:

<b>Facility</b>	<b>Agreement Runs through</b>
Cleveland Works and Indiana Harbor West facilities	2016
Indiana Harbor East facility	2015
Weirton facility	2018

In 2005, ArcelorMittal USA shut down ArcelorMittal-Weirton's blast furnace. The Weirton Contract had a minimum annual purchase obligation from ArcelorMittal-Weirton to purchase iron ore pellets for the years 2006 through and including 2018, with a minimum annual purchase obligation of two million tons per year. The ArcelorMittal-Weirton blast furnace has been permanently shut down and to the best of Cleveland-Cliffs' knowledge will not be restarted. The umbrella agreement eliminated the Weirton minimum purchase obligation.

ArcelorMittal USA is a 62.3 percent equity participant in Hibbing and a 21 percent equity partner in Empire with limited rights and obligations and a 28.6 percent participant in Wabush through an affiliate of ArcelorMittal USA, ArcelorMittal Dofasco Inc. (formerly Dofasco Inc.), or Dofasco. In 2007, 2006 and 2005 Cleveland-Cliffs' North American Iron Ore pellet sales to ArcelorMittal USA were 10.3, 9.1, and 10.7 million tons, respectively.

**Algoma**

Algoma, is a Canadian steelmaker and a subsidiary of Essar Steel Holdings Limited. Cleveland-Cliffs has a 15-year term supply agreement under which Cleveland-Cliffs is Algoma's sole supplier of iron ore pellets through 2016. Cleveland-Cliffs' annual obligation is capped at four million tons with Cleveland-Cliffs' option to supply additional pellets. Pricing under the agreement with Algoma is based on a formula which includes international pellet prices. The agreement also provides that, in 2008, 2011 and 2014, either party may request a price negotiation if prices under the agreement with Algoma differ from a specified benchmark price. On January 3, 2008, Algoma requested price renegotiation for 2008. On May 30, 2008, four subsidiaries of Cleveland-Cliffs entered into a binding term sheet with Algoma amending the term supply agreement. The term sheet governs the performance of the parties under the agreement (as amended by the term sheet) until such time as the parties execute a definitive written agreement. The term sheet establishes the price for 2008 and provides for the sale of additional tonnage to Algoma for 2008 and 2009. Pricing for 2009 and beyond will be determined in accordance with the original terms of the agreement with Algoma. In June 2007, Essar Global Limited, through its wholly-owned subsidiary Essar Steel Holdings Limited, completed its acquisition of Algoma for C\$1.85 billion. Cleveland-Cliffs does not expect the acquisition to affect its term supply agreement with Algoma. Cleveland-Cliffs sold 2.9 million, 3.5 million and 3.8 million tons to Algoma in 2007, 2006 and 2005, respectively.

**Severstal**

In January 2006, Cleveland-Cliffs entered into an Amended and Restated Pellet Sale and Purchase Agreement dated and effective January 1, 2006, whereby Cleveland-Cliffs is the sole supplier of iron ore pellets through 2012 to Severstal. The agreement with Severstal contains certain minimum purchase requirements for certain years. Cleveland-Cliffs sold 3.0 million, 3.7 million and 3.6 million tons to Severstal in 2007, 2006 and 2005, respectively.

On January 5, 2008, Severstal experienced an explosion and fire on the smaller of its two operating furnaces that partially curtailed production at their North American facility.

On April 30, 2008, certain subsidiaries of Cleveland-Cliffs entered into a binding term sheet with Severstal regarding an amendment and extension of the agreement with Severstal. The term sheet governs the performance of the parties under the agreement until such time as the parties execute a definitive written agreement.

Pursuant to the term sheet, the term of the agreement with Severstal is fifteen years, subject to automatic renewals unless terminated by prior written notice. The agreement provides that Cleveland-Cliffs must supply all of Severstal's blast furnace pellet requirements for its Dearborn, Michigan facility during the term of the agreement, subject to specified minimum and maximum requirements in certain years.

**Table of Contents**

**WCI Steel Inc.**

On October 14, 2004, Cleveland-Cliffs and WCI Steel Inc., or WCI, reached agreement for Cleveland-Cliffs to supply 1.4 million tons of iron ore pellets in 2005 and, in 2006 and thereafter, to supply 100 percent of WCI's annual requirements up to a maximum of two million tons of iron ore pellets. The 2004 agreement is for a ten-year term, which commenced on January 1, 2005.

On May 1, 2006, an entity controlled by the secured noteholders of WCI acquired the steelmaking assets and business of WCI. The new WCI assumed the 2004 agreement. Cleveland-Cliffs sold 1.5 million, 1.6 million and 1.4 million tons to WCI (and its successor) in 2007, 2006 and 2005, respectively.

**U.S. Steel Canada Inc.**

U.S. Steel Canada is a 44.6 percent participant in Wabush, and U.S. subsidiaries of U.S. Steel Canada own 14.7 percent of Hibbing and 15 percent of Tilden.

In December 2006, Cleveland-Cliffs executed a binding pellet supply term sheet with U.S. Steel Canada with respect to a seven-year supply agreement to provide their Lake Erie Steel and Hamilton Steel facilities excess pellet requirements above the amount supplied from their ownership interest at Hibbing, Tilden and Wabush. Pellet sales to U.S. Steel Canada totaled 1.2 million, 0.9 million and 1.4 million tons in 2007, 2006 and 2005, respectively.

**North American Coal**

Cleveland-Cliffs is a supplier of metallurgical coal in North America. Cleveland-Cliffs owns and operates three North American coal mines located in West Virginia and Alabama that currently have a rated capacity of 6.5 million short tons of production annually. For the six months ended June 30, 2008, Cleveland-Cliffs sold a total of 1.6 million tons.

All three of Cleveland-Cliffs' North American coal mines are positioned near rail or barge lines providing access to international shipping ports, which allows for export of Cleveland-Cliffs' coal production.

**North American Coal Customers**

North American Coal's production is sold to global integrated steel and coke producers in Europe, South America and North America. Approximately 90 percent of Cleveland-Cliffs' 2008 production is committed under one-year contracts. Customer contracts in North America typically are negotiated on a calendar year basis with international contracts negotiated as of March 31.

Exports and domestic sales represented 66 percent and 34 percent, respectively, of Cleveland-Cliffs' North American Coal sales in 2007.

**Asia-Pacific Iron Ore**

Cleveland-Cliffs' Asia-Pacific Iron Ore segment is comprised of an 85.2 percent interest in Portman, an Australian iron ore mining company. The minority interest ownership of the company is publicly held and traded on the Australian Stock Exchange under the ticker symbol *PMM*.

Portman's operations are in Western Australia and include its 100 percent owned Koolyanobbing mine and its 50 percent equity interest in Cockatoo Island Joint Venture, which is referred to as Cockatoo Island. Portman serves the Asian iron ore markets with direct-shipping fines and lump ore. Production in 2007 (excluding its 0.7 million

tonne share of Cockatoo Island) was 7.7 million tonnes.

These two operations supply a total of four direct shipping export products to Asia via the global seaborne trade market. Koolyanobbing produces a standard lump and fines product as well as low grade fines product. Cockatoo Island produces and exports a single premium fines product. Portman lump products are directly charged to the blast furnace, while the fines products are used as sinter feed. The variation in Portman's four export product grades reflects the inherent chemical and physical characteristics of the ore bodies mined as well as the supply requirements of the customers.

## **Table of Contents**

Koolyanobbing is a collective term for the operating deposits at Koolyanobbing, Mount Jackson and Windarling. The project is located 425 kilometers east of Perth and approximately 50 kilometers northeast of the town of Southern Cross. There are approximately 100 kilometers separating the three mining areas. Banded iron formation hosts the mineralization which is predominately hematite and goethite. Each deposit is characterized with different chemical and physical attributes and in order to achieve customer product quality; ore in varying quantities from each deposit must be blended together.

Blending is undertaken at Koolyanobbing, where the crushing and screening plant is located. Standard and low grade products are produced in separate campaigns. Once the blended ore has been crushed and screened into a direct shipping product, it is transported by rail approximately 575 kilometers south to the Port of Esperance for shipment to Asian customers.

Cockatoo Island is located off the Kimberley coast of Western Australia, approximately 1,900 kilometers north of Perth and is only accessible by sea and air. Cockatoo Island produces a single high iron product known as Cockatoo Island Premium Fines. The deposit is almost pure hematite and contains very few contaminants enabling the shipping grade to be above 68 percent iron. Ore is mined below the sea level on the southern edge of the island. This is facilitated by a sea wall which enables mining to a depth of 40 meters below sea level. Ore is crushed and screened to the final product sizing. Vessels berth at the island and the fines product is loaded directly to the ship. Cockatoo Island Premium Fines are highly sought in the global marketplace due to its extremely high iron grade and low valueless mineral content. Cockatoo Island production ceased at the end of the second quarter 2008, with shipments to continue into the third quarter 2008. Construction on a necessary extension of the existing seawall will commence in the third quarter 2008, with production anticipated to restart by the end of the second quarter 2009. This extension is expected to extend production for approximately two additional years.

## **Asia-Pacific Iron Ore Customers**

Portman's production is fully committed to steel companies in China and Japan through 2012. A limited spot market exists for seaborne iron ore as most production is sold under long-term contracts with annual benchmark prices driven from negotiations between the major suppliers and Chinese, Japanese and other Asian steel mills.

Portman has long-term supply agreements with steel producers in China and Japan that account for approximately 74 percent and 26 percent, respectively, of sales. Sales volume under the agreements is partially dependent on customer requirements. Each agreement is priced based on benchmark pricing established for Australian producers.

During 2007, 2006 and 2005, Cleveland-Cliffs sold 8.1 million, 7.4 million and 4.9 million tonnes of iron ore, respectively, from its Western Australia mines. (Sales for 2005 represent amounts since the March 31, 2005 acquisition of Portman).

Sales in 2007 were to 17 Chinese and three Japanese customers. No customer comprised more than 15 percent of Asia-Pacific Iron Ore sales or 10 percent of Cleveland-Cliffs' consolidated sales in 2007, 2006 or 2005. Portman's five largest customers accounted for approximately 47 percent of Portman's sales in 2007, 46 percent in 2006 and 50 percent in 2005.

## **Investments**

In addition to Cleveland-Cliffs' reportable business segments, Cleveland-Cliffs is partner to a number of projects, including Amapá in Brazil and Sonoma in Australia.

*Amapá*

Cleveland-Cliffs is a 30 percent minority interest owner in Amapá, which consists of a significant iron ore deposit, a 192-kilometer railway connecting the mine location to an existing port facility and 71 hectares of real estate on the banks of the Amazon River, reserved for a loading terminal. Amapá initiated production in late-December 2007. It is expected that completion of the construction of the concentrator and ramp-up of production will occur in 2008. It is estimated that Amapá will produce and sell approximately three million tonnes of iron ore fines products in 2008 and 6.5 million tonnes annually once fully operational. The majority of Amapá's production

## **Table of Contents**

is committed under a long-term supply agreement with an operator of an iron oxide pelletizing plant in the Kingdom of Bahrain.

### *Sonoma*

Cleveland-Cliffs is a 45 percent economic interest owner in Sonoma in Queensland, Australia. The project is currently operating and expected to produce approximately two million tonnes of coal in 2008 and three to four million tonnes of coal annually in 2009 and beyond. Production will include a mix of hard coking coal and thermal coal. Sonoma has economically recoverable reserves of 27 million tonnes. All 2008 production is committed under supply agreements with customers in Asia.

### **The Iron Ore, Metallurgical Coal and Steel Industries**

China produced 489 million tonnes of crude steel in 2007, up 15 percent over 2006, accounting for approximately 37 percent of global production.

The rapid growth in steel production in China has only been partially met by a corresponding increase in domestic Chinese iron ore production. Chinese iron ore deposits, although substantial, are of a lower grade (less than half of the equivalent iron ore content) than the current iron ore supplied from Brazil and Australia.

The world price of iron ore is influenced by international demand. The rapid growth in Chinese demand, particularly in more recent years, has created a market imbalance and has led to demand outstripping supply. This market imbalance has recently led to high spot prices for natural iron ore and increases of 9.5 percent, 19 percent and 71.5 percent in 2007, 2006 and 2005, respectively, in benchmark prices for Brazilian and Australian suppliers of iron ore. During the second quarter of 2008, the Australian benchmark prices for lump and fines settled at increases of 97 percent and 80 percent, respectively. As a result, second quarter sales from Cleveland-Cliffs' Asia-Pacific Iron Ore segment were recorded based on 2008 settled price increases, which reflects an incremental increase of approximately \$90.6 million when compared to second quarter revenue measured at 2007 prices. In addition, approximately \$65.0 million of additional product revenue related to first quarter sales was recognized in the second quarter upon settlement of 2008 benchmark prices. The increased demand for iron ore has resulted in the major iron ore suppliers expanding efforts to increase their capacity.

### **Competition**

Cleveland-Cliffs competes with several iron ore producers in North America, including Iron Ore Company of Canada, ArcelorMittal Mines Canada and United States Steel Corporation, or U.S. Steel, as well as other steel companies that own interests in iron ore mines that may have excess iron ore inventories. In the coal industry, Cleveland-Cliffs competes with many metallurgical coal producers including Alpha, Bluestone Coal Corp., CONSOL Energy Inc., International Coal Group, Inc., Massey Energy Company, Jim Walter Resources, Inc., Peabody Energy Corp., United Coal Group Company and numerous others.

As the North American steel industry continues to consolidate, a major focus of the consolidation is on the continued life of the integrated steel industry's raw steelmaking operations (i.e., blast furnaces and basic oxygen furnaces that produce raw steel). In addition, other competitive forces have become a large factor in the iron ore business. Electric furnaces built by mini-mills, which are steel recyclers, generally produce steel by using scrap steel and reduced-iron products, not iron ore pellets, in their electric furnaces.

Competition in the iron ore business and the coal business is predicated upon the usual competitive factors of price, availability of supply, product performance, service and transportation cost to the consumer.

Portman exports iron ore products to China and Japan in the world seaborne trade. Portman competes with major iron ore exporters from Australia, Brazil and India.

**Table of Contents**

**Environment**

*General*

Various governmental bodies are continually promulgating new laws and regulations affecting Cleveland-Cliffs, its customers, and its suppliers in many areas, including waste discharge and disposal, hazardous classification of materials and products, air and water discharges, and many other environmental, health, and safety matters. Although Cleveland-Cliffs believes that its environmental policies and practices are sound and does not expect that the application of any current laws or regulations would reasonably be expected to result in a material adverse effect on its business or financial condition, Cleveland-Cliffs cannot predict the collective adverse impact of the expanding body of laws and regulations.

Specifically, proposals for voluntary initiatives and mandatory controls are being discussed both in the United States and worldwide to reduce greenhouse gases – most notably carbon dioxide, a by-product of burning fossil fuels and other industrial processes. Although the outcome of these efforts remains uncertain, Cleveland-Cliffs has proactively engaged outside experts to more formally develop a comprehensive, enterprise-wide greenhouse gas management strategy. The comprehensive strategy is aimed at considering all significant aspects associated with greenhouse gas initiatives and optimizing Cleveland-Cliffs' regulatory, operational, and financial impacts and/or opportunities. Cleveland-Cliffs will continue to monitor developments related to efforts to register and potentially regulate greenhouse gas emissions.

*North American Iron Ore*

In the construction of Cleveland-Cliffs' facilities and in their operation, substantial costs have been incurred and will continue to be incurred to avoid undue effect on the environment. Cleveland-Cliffs' North American capital expenditures relating to environmental matters were \$8.8 million, \$10.5 million, and \$9.2 million in 2007, 2006 and 2005, respectively. It is estimated that approximately \$10.8 million will be spent in 2008 for capital environmental control facilities.

The iron ore industry has been identified by the EPA as an industrial category that emits pollutants established by the 1990 Clean Air Act Amendments. These pollutants included over 200 substances that are now classified as hazardous air pollutants, or HAP. The EPA is required to develop rules that would require major sources of HAP to utilize Maximum Achievable Control Technology standards for their emissions. Pursuant to this statutory requirement, the EPA published a final rule on October 30, 2003 imposing emission limitations and other requirements on taconite iron ore processing operations. On December 15, 2005, Cleveland-Cliffs and Ispat-Inland Mining Company filed a Petition to Delete the iron ore industry as a source category regulated by Section 112 of the Clean Air Act. The EPA requested additional information, and a supplement was submitted to the EPA on August 22, 2006. A response is pending.

On March 10, 2005, the EPA issued the Clean Air Interstate Rule, or CAIR, final regulations and on March 15, 2005, the EPA issued the Clean Air Mercury Rule, or CAMR. The rules establish phased reductions of NO<sub>x</sub>, SO<sub>2</sub> and mercury from electric power generating stations. After CAMR was vacated early in 2008, the U.S. Court of Appeals for the D.C. Circuit vacated CAIR in July 2008. The vacatur of the rules does not preclude more stringent regulation of air pollutants from power plants, and various legal and administrative efforts are expected to reissue regulations in new form. Accordingly, Cleveland-Cliffs anticipates that it will incur capital and ongoing emission allowance costs at its Silver Bay Power Plant to maintain compliance with the rule. As Cleveland-Cliffs is still optimizing its various options for compliance, it cannot accurately estimate the timing or cost of emission controls at this time.

On December 16, 2006, Cleveland-Cliffs submitted an administrative permit amendment application to the Minnesota Pollution Control Agency, or MPCA, with respect to Northshore's Title V operating permit. The proposed amendment

requested the deletion of a 30-year old control city monitoring requirement which was used to assess the adequacy of air emission control equipment installed in the 1970s. MPCA had discontinued use of control city monitoring in the early 1980s, but had recently reinstated monitoring. The control city monitoring compared ambient fiber levels in St. Paul, Minnesota to levels at Northshore and the surrounding area. The administrative permit amendment application argued that the control city monitoring requirement is an obsolete and

**Table of Contents**

redundant standard given Northshore's existing emission control equipment and applicable federal regulations, state rules, and permit requirements.

Cleveland-Cliffs received a letter dated February 23, 2007 from the MPCA notifying Cleveland-Cliffs that its proposed permit amendment had been denied. Cleveland-Cliffs has appealed the denial to the Minnesota Court of Appeals. Subsequent to the filing of Cleveland-Cliffs' appeal, the MPCA advised Northshore that the MPCA considered Northshore to be in violation of the control city standard. In addition, the Minnesota Center for Environmental Advocacy intervened in Cleveland-Cliffs' appeal of the denial of a proposed permit amendment to its Title V operating permit. Oral arguments on Cleveland-Cliffs' appeal were held on February 21, 2008.

On July 28, 2008, MPCA issued a Notice of Violation, or NOV, to Northshore alleging violations related to the control city standard from March 2006 through October 2007 specifically with respect to MPCA's interpretation of the control city standard's emission limits and related monitoring and reporting requirements. The NOV states that Northshore has been in compliance with MPCA's interpretation of the standard since October 2007, but requires corrective actions relating to operating and maintaining facilities of treatment and control to remain in compliance. Although the NOV does not seek civil penalties, it contains various requests for information and reserves the right for MPCA to take further action. Northshore disputes the allegations contained in the NOV and is currently assessing its legal/administrative options. If either Cleveland-Cliffs' appeal is unsuccessful or if Cleveland-Cliffs is unable to negotiate an acceptable compliance schedule, Northshore could be subject to future enforcement actions with respect to its Title V operating permit if Cleveland-Cliffs is unable to meet the permit requirements as interpreted by MPCA.

On March 27, 2008, United Taconite received a draft stipulation agreement, or DSA, from the MPCA alleging various air emissions violations of the facility's air permit limit conditions, reporting and testing requirements. The allegations generally stem from procedures put in place prior to 2004 when Cleveland-Cliffs first acquired its interest in the mine. The DSA requires the facility to install continuous emissions monitoring, evaluate compliance procedures, submit a plan to implement procedures to eliminate air deviations during the relevant time period, and proposes a civil penalty in an amount to be determined. While United Taconite does not agree with MPCA's allegations, United Taconite and the MPCA are scheduled to discuss the matter further with the intent of working toward a mutual resolution.

*North American Coal*

In 1996 and 1997, two cases were brought alleging that dust from the Concord Preparation Plant damaged properties in the area. In 2002, the parties entered into settlement agreements with the former owner in exchange for a lump sum payment and the agreement to implement remedial measures. However, the plaintiffs were not required to dismiss their claims. PinnOak was added to these cases in 2004 and 2006. The plaintiffs in these matters are now seeking additional remediation measures and Cleveland-Cliffs is opposing this assertion and believes that any amounts ultimately paid in this matter will not be material. In addition to the two cases noted above, in 2004 approximately 160 individual plaintiffs brought an action against PinnOak asserting injuries arising from particulate emissions from the Concord Preparation Plant. Cleveland-Cliffs is seeking a summary judgment in this most recent matter because it had previously been concluded under the 2002 settlement agreement.

In 2006, 13 plaintiffs brought an action against PinnOak related to the operation of the Concord Preparation Plant. These plaintiffs assert that dangerous levels of coal dust emissions have been allowed to accumulate at that facility. Cleveland-Cliffs denies this allegation and is defending the matter vigorously.

Pinnacle Mining owns the closed West Virginia Maitland mine, which continues to discharge groundwater to Elkhorn Creek under terms of a National Pollutant Discharge Elimination System permit issued by the West Virginia Department of Environment Protection, or DEP. On April 30, 2008 the DEP renewed the permit and imposed more stringent effluent quality limitations for iron and aluminum. Current effluent iron concentrations sometimes exceed

the new limitation. A permit appeal was filed with the West Virginia Environmental Quality Board regarding the reduced limitations and the absence of a compliance schedule in the permit. The West Virginia Environmental Quality Board has granted Pinnacle's request for a temporary stay. Meanwhile, Pinnacle is evaluating technical options and believes that negotiations with DEP are expected to resolve this matter. Pinnacle does not anticipate the final resolution will have any material impact to the operation.

**Table of Contents**

Since the acquisition of the PinnOak properties in 2007, Cleveland-Cliffs is evaluating ways to improve the efficiency and reduce the environmental impact of its coal operations. Included in these evaluations are ways to reduce refuse and air emissions from preparation plants and maintaining the quality of water in and around Cleveland-Cliffs properties.

*Asia-Pacific Iron Ore*

Environmental issues and their management continued to be an important focus at Cleveland-Cliffs Asia-Pacific iron ore operations throughout 2007. Mining operations proceeded without major environmental incidents. Implementation of management controls at the Koolyanobbing operations continued, and a significant milestone was achieved with the certification of the environmental management system to the International Standards Organization standard 14001.

A third-party compliance review of the Koolyanobbing operations was undertaken during 2007. The Koolyanobbing operations are among the most heavily regulated mining operations in Western Australia, with environmental conditions set at both state and federal government levels. The review audited compliance with over 200 regulatory conditions and management plan commitments. A high level of compliance was achieved across all areas. Nine items of non-compliance were reported, with most being non-material in terms of environmental risk. Work commenced to address these items, including improved blasting procedures, the initiation of a project to quantify dust emission sources and the inclusion of soil assessment protocols in waste dump planning.

The Asia-Pacific iron ore environmental team was strengthened during the year to ensure that both the current mine operations continue to be well managed and that expansion plans receive timely environmental assessment and approvals.

Cleveland-Cliffs commenced a major environmental permitting program at the Koolyanobbing operations in 2007 in preparation of the submission of approval applications for a number of development proposals in 2008. The program included environmental baseline and impact assessment for expansion of pits and waste dumps at Koolyanobbing, Mount Jackson and Windarling. Groundwater studies, including a ground water re-injection trial, were completed in support of an approval application for mining below the water table at Windarling.

In May 2007, the Australian Environmental Protection Agency, or AEPA, released a report outlining the recommendations for a significant extension of the conservation estate in the area of the Koolyanobbing mining operations. The AEPA report recommended the conversion of much of the area to Class A conservation reserve, which effectively excludes mining activities. The report represents the view of the AEPA and neither creates an obligation on the government to act nor affects the rights of Portman to operate under existing approvals. However, if implemented, the AEPA recommendations would severely constrain Portman's expansion opportunities in the vicinity of the current operations. There are disparate views within government agencies over the issue. Cleveland-Cliffs has communicated its concerns to the government in a manner that indicates a willingness to work with all parties to achieve a sustainable outcome for conservation and resource development in the region.

At the Cockatoo Island operations, the focus of environmental work was on preparing a submission for environmental approvals for extension of the embankment mining project. A submission was lodged with the regulatory agencies in December 2007 to extend the existing Stage 1 and 2 seawalls eastwards adding a further three years mine life. In addition to this extension proposal work continued on refining the overall closure plan for Cockatoo Island taking into account the proposed extension. The Stage 3 extension and closure plan were reviewed as a package by the regulators and approved in August 2008 for both the extension and the closure plan. Activities within the closure plan not associated with the Stage 3 extension have been programmed over the 2008/2009 years.

**Table of Contents***Environmental and Mine Closure Obligations*

Cleveland-Cliffs had environmental and mine closure liabilities of \$131.8 million and \$130.8 million at June 30, 2008 and December 31, 2007, respectively. Payments in the first six months of 2008 were \$3.8 million compared with \$9.2 million for the full year in 2007. The following is a summary of the obligations:

	<b>June 30, 2008</b>	<b>December 31, 2007</b>
	<b>(In millions)</b>	
Environmental	\$ 13.6	\$ 12.3
Mine closure:		
LTV Steel Mining Company, or LTVSMC	21.1	22.5
Operating mines:		
North American Iron Ore	62.2	61.8
North American Coal	21.0	20.4
Asia-Pacific Iron Ore	10.5	9.5
Other	3.4	4.3
 Total mine closure	 118.2	 118.5
 Total environmental and mine closure obligations	 131.8	 130.8
 Less current portion	 6.8	 7.6
 Long term environmental and mine closure obligations	 \$ 125.0	 \$ 123.2

**Environmental***The Rio Tinto Mine Site*

The Rio Tinto Mine Site is a historic underground copper mine located near Mountain City, Nevada, where tailings were placed in Mill Creek, a tributary to the Owyhee River. Site investigation and remediation work is being conducted in accordance with a consent order between the Nevada Department of Environmental Protection, and the Rio Tinto Working Group, or RTWG, composed of Cleveland-Cliffs, Atlantic Richfield Company, Teck Cominco American Incorporated, and E. I. du Pont de Nemours and Company. The estimated costs of the available remediation alternatives currently range from approximately \$10.0 million to \$30.5 million. In recognition of the potential for a Natural Resource Damages, or NRD, claim, the parties are actively pursuing a global settlement that would include the EPA and encompass both the remedial action and the NRD issues. Cleveland-Cliffs has increased its reserve most recently in the second quarter of 2008 by \$3.0 million to reflect revised cleanup estimates and cost allocation associated with Cleveland-Cliffs' anticipated share of the eventual remediation costs based on a consideration of the various remedial measures and related cost estimates, which are currently under review.

**Mine Closure**

The mine closure obligations are for Cleveland-Cliffs' four consolidated North American operating iron ore mines, Cleveland-Cliffs' three consolidated North American operating coal mines, Cleveland-Cliffs' Asia-Pacific operating

iron ore mines, the coal mine at Sonoma and a closed operation formerly known as LTVSMC. The LTVSMC closure obligation results from an October 2001 transaction where subsidiaries of Cleveland-Cliffs received a net payment of \$50 million and certain other assets and assumed environmental and certain facility closure obligations of \$50 million. Obligations have declined to \$21.1 million at June 30, 2008.

**Table of Contents**

The accrued closure obligation for Cleveland-Cliffs' active mining operations provides for contractual and legal obligations associated with the eventual closure of the mining operations. The accretion of the liability and amortization of the related fixed asset is recognized over the estimated mine lives for each location. The following represents a rollforward of Cleveland-Cliffs' asset retirement obligation liability for the six months ended June 30, 2008 and the year ended December 31, 2007:

	<b>June 30, 2008</b>	<b>December 31, 2007(1)</b>
	<b>(In millions)</b>	
Asset retirement obligation at beginning of period	\$ 96.0	\$ 62.7
Accretion expense	4.1	6.6
PinnOak acquisition		19.9
Sonoma investment		4.3
Reclassification adjustment	(0.9)	1.1
Exchange rate changes	0.5	0.9
Revision in estimated cash flows	(2.6)	0.5
Asset retirement obligation at end of period	\$ 97.1	\$ 96.0

(1) Represents a 12-month rollforward of our asset retirement obligation at December 31, 2007.

**Energy**

*Electricity.* The Empire and Tilden mines receive electric power from WEPCO. Under the contracts, Empire and Tilden were afforded an energy price cap and certain power curtailment features. These contracts terminated at the end of the 2007 calendar year. Prior to the termination of the contracts in 2007, WEPCO initiated a tariff rate case in which Empire and Tilden participated in order to establish a new tariff rate for each mine upon the termination of the contracts. The resulting settlement, which was approved by the Michigan Public Service Commission, created a new industrial tariff rate. Effective January 1, 2008 Tilden and Empire receive their electrical power from WEPCO under the new tariff rate. On January 31, 2008, WEPCO filed a new rate case, proposing an increase to the tariff rates that became effective on January 1, 2008. In February 2008, Cleveland-Cliffs filed a petition to intervene in the new rate case. Cleveland-Cliffs is also reviewing the rate case and analyzing the potential impact on Empire and Tilden.

Electric power for the Hibbing and United Taconite mines is supplied by Minnesota Power, Inc., or MP, under agreements that continue to December 2008 and October 2008, respectively. Silver Bay Power Company, or Silver Bay, an indirect wholly-owned subsidiary of Cleveland-Cliffs, with a 115 megawatt power plant, provides the majority of Northshore's energy requirements. Silver Bay has an interconnection agreement with MP for backup power. Silver Bay entered into an agreement to sell 40 megawatts of excess power capacity to Xcel Energy under a contract that extends to 2011. In March 2008, Northshore reactivated one of its furnaces resulting in a shortage of electrical power of approximately 10 megawatts. As a result, supplemental electric power is purchased by Northshore from MP under an agreement that continues to March 2009.

Wabush owns a portion of the Twin Falls Hydro Generation facility that provides power for Wabush's mining operations in Newfoundland. Wabush has a 20-year agreement with Newfoundland Power, which continues until December 31, 2014. This agreement allows an interchange of water rights in return for the power needs for Wabush's

mining operations. The Wabush pelletizing operations in Quebec are served by Quebec Hydro on an annual contract.

The Oak Grove Resources, LLC, or Oak Grove, mine and Concord Preparation Plant are supplied electrical power by Alabama Power under a contract which expires June 30, 2009. Rates of the contract are subject to change during the term of the contract as regulated by the Alabama Public Service Commission.

Electrical power to the Pinnacle, Green Ridge No. 1, Green Ridge No. 2 mines and the Pinnacle Preparation Plant are supplied by the Appalachian Power Company under two contracts. The Indian Creek contract is renewable on July 24, 2009 and the Pinnacle Creek contract is renewable on July 4, 2009. Both contracts specify the applicable rate schedule, minimum monthly charge and power capacity furnished. Rates, terms and conditions of the contracts are subject to the approval of the Public Service Commission of West Virginia.

**Table of Contents**

Koolyanobbing and its associated satellite mines draw power from independent diesel fueled power stations and generators. Temporary diesel power generation capacity has been installed at the Koolyanobbing operations, allowing sufficient time for a detailed investigation into the viability of long-term options such as connecting into the Western Australian South West Interconnected System or provision of natural gas or dual fuel (natural gas and diesel) generating capacity. These options are not economic for the satellite mines, which will continue being powered by diesel generators.

Electrical supply on Cockatoo Island is diesel generated. The powerhouse adjacent to the processing plant powers the shiploader, fuel farm and the processing plant. The workshop and administration office is powered by a separate generator.

Sonoma receives its electricity from the public grid generated by local electric retailer Ergon Energy. In 2008, Sonoma plans to go to the contestable energy market and invite offers to supply electricity on a long-term basis. The state of Queensland enjoys a competitive deregulated energy market.

*Process Fuel.* Cleveland-Cliffs has contracts providing for the transport of natural gas for its United States iron ore operations. The Empire and Tilden mines have the capability of burning natural gas, coal, or to a lesser extent, oil. The Hibbing and Northshore mines have the capability to burn natural gas and oil. The United Taconite mine has the ability to burn coal, natural gas and coke breeze. Although all of the U.S. iron ore mines have the capability of burning natural gas, with higher natural gas prices, the pelletizing operations for the U.S. iron ore mines utilize alternate fuels when practicable. Wabush has the capability to burn oil and coke breeze.

**Research and Development**

Cleveland-Cliffs has been a leader in iron ore mining technology for more than 160 years. Cleveland-Cliffs operated some of the first mines on Michigan's Marquette Iron Range and pioneered early open-pit and underground mining methods. From the first application of electrical power in Michigan's underground mines to the use today of sophisticated computers and global positioning satellite systems, Cleveland-Cliffs has been a leader in the application of new technology to the centuries-old business of mineral extraction. Today, Cleveland-Cliffs' engineering and technical staffs are engaged in full-time technical support of Cleveland-Cliffs' operations and improvement of existing products.

As part of Cleveland-Cliffs' efforts to develop alternative metallic products, Cleveland-Cliffs is developing, with Kobe Steel, a commercial-scale reduced iron plant, which will convert hematite into nearly pure iron in nugget form utilizing Kobe Steel's ITmk<sup>®</sup> technology. This innovative technology has the potential to open new markets by offering an economically competitive supply of iron material for electric arc furnaces.

North American Coal and Asia-Pacific Iron Ore do not have any material research and development projects.

**Employees**

As of June 30, 2008, Cleveland-Cliffs had a total of 5,928 employees.

<b>North American Iron Ore</b>	<b>North American Coal</b>	<b>Asia-Pacific Iron Ore</b>	<b>Corporate &amp; Support Services</b>	<b>Total</b>
--	------------------------------------	----------------------------------	---	--------------

Edgar Filing: CLEVELAND CLIFFS INC - Form S-4

Salaried	1,007	261	111	241	1,620
Hourly	3,519	789	0		4,308
Total(1)	4,526	1,050	111	241	5,928

(1) Includes Cleveland-Cliffs employees and the employees of the North American joint ventures.

Hourly employees at Cleveland-Cliffs Michigan and Minnesota iron ore mining operations (other than Northshore) are represented by the USW, under collective bargaining agreements dated August 1, 2004 that expire on September 1, 2008. Bargaining for new collective agreements will take place in 2008. Both the U.S. Steel and ArcelorMittal USA collective bargaining agreements with the USW also expire on September 1, 2008. The current

## **Table of Contents**

profitable state of both the North American steel and iron ore industries has been cited by the USW as an important factor in developing negotiation objectives for 2008.

In April 2006, the USW advised Cleveland-Cliffs with a Written Notification that it was initiating an organizing campaign at Northshore. Under the terms of Cleveland-Cliffs' collective bargaining agreements with the USW, Cleveland-Cliffs is required to remain neutral during the organizing campaign. Based upon subsequent conversations with USW representatives, the organizing campaign was postponed pending resolution of issues related to the neutrality commitment in the collective bargaining agreement.

Hourly employees at Wabush are represented by the USW. Wabush and the USW entered into a collective bargaining agreement in October 2004 that expires on March 1, 2009.

Hourly production and maintenance employees at PinnOak subsidiary corporations are represented by the UMWA. Each of these subsidiary companies entered into new collective bargaining agreements with the UMWA in March 2007 that expire on December 31, 2011. Those collective agreements are identical in all material respects to the National Bituminous Coal Wage Agreement of 2007 between the UMWA and the Bituminous Coal Operators Association.

Cleveland-Cliffs' employees at Asia-Pacific operations are not represented under collective bargaining agreements.

As of June 30, 2008, 66 percent of Cleveland-Cliffs' employees were covered by collective bargaining agreements. Agreements covering 83 percent of those employees expire by the end of 2008.

## **Growth Strategy**

Cleveland-Cliffs expects to grow its business and presence as an international mining company by expanding both geographically and through the minerals that it mines and markets. Recent investments in Australia and Latin America, as well as acquisitions in minerals outside of iron ore, such as coal, illustrate the execution of this strategy.

For information regarding Cleveland-Cliffs' growth strategy, see Management's Discussion and Analysis of Financial Condition and Results of Operations of Cleveland-Cliffs' Growth Strategy and Strategic Transactions on page 146.

## **Properties**

The following map shows the locations of Cleveland-Cliffs' operations:

*Mine Facilities and Equipment.* Each of the North American Iron Ore mines has crushing, concentrating, and pelletizing facilities. There are crushing and screening facilities at Koolyanobbing and Cockatoo Island.

**Table of Contents**

North American Coal mines have preparation, processing, and load-out facilities, with the Pinnacle and Green Ridge mines sharing facilities. The facilities at each site are in satisfactory condition, although they require routine capital and maintenance expenditures on an ongoing basis. Certain mine equipment generally is powered by electricity, diesel fuel or gasoline. The total cost of the property, plant and equipment, net of applicable accumulated amortization and depreciation as of June 30, 2008, for each of the mines is set forth in the chart below.

<b>Location and Name</b>	<b>Total Historical Cost of Mine Plant and Equipment (Excluding Real Estate and Construction in Progress), Net of Applicable Accumulated Amortization and Depreciation (In millions)</b>
Empire	\$ 62.9(1)
Tilden	186.6(2)
Hibbing	476.6(3)
Northshore	84.0
United Taconite	68.2
Wabush	460.1(3)
Pinnacle Complex	61.3
Oak Grove	63.1
Sonoma	147.4(4)
Cockatoo Island	(5)
Koolyanobbing	247.4
Amapá	472.7

(1) Includes capitalized financing costs of \$5.5 million, net of accumulated amortization.

(2) Includes capitalized financing costs of \$14.7 million, net of accumulated amortization.

(3) Does not reflect depreciation, which is recorded by the individual venturers.

(4) Includes capitalized financing costs of \$2.7 million, net of accumulated amortization.

(5) Cockatoo Island plant and equipment is fully amortized.

**North American Iron Ore**

Cleveland-Cliffs directly or indirectly owns and operate interests in the following six North American iron ore mines:

*Empire mine*

The Empire mine is located on the Marquette Iron Range in Michigan's Upper Peninsula approximately 15 miles west-southwest of Marquette, Michigan. The mine has been in operation since 1963. Over the past five years, the

Empire mine has produced between 4.8 million and 5.4 million tons of iron ore pellets annually.

Cleveland-Cliffs is a 79.0 percent partner in Empire, and a subsidiary of ArcelorMittal USA has retained a 21 percent ownership in Empire with limited rights and obligations, which it has a unilateral right to put to Cleveland-Cliffs at any time subsequent to the end of 2007. This right has not been exercised. Cleveland-Cliffs owns directly approximately one-half of the remaining ore reserves at the Empire mine and leases them to Empire. A subsidiary of Cleveland-Cliffs leases the balance of the Empire reserves from other owners of such reserves and subleases them to Empire.

*Tilden mine*

The Tilden mine is located on the Marquette Iron Range in Michigan's Upper Peninsula approximately five miles south of Ishpeming, Michigan. The Tilden mine has been in operation since 1974. Over the past five years, the Tilden mine has produced between 6.9 million and 7.9 million tons of iron ore pellets annually.

## **Table of Contents**

Cleveland-Cliffs owns 85 percent of Tilden, with the remaining minority interest owned by U.S. Steel Canada. Each partner takes its share of production pro rata; however, provisions in the partnership agreement allow additional or reduced production to be delivered under certain circumstances. Cleveland-Cliffs owns all of the ore reserves at the Tilden mine and leases them to Tilden.

The Empire and Tilden mines are located adjacent to each other. The logistical benefits include a consolidated transportation system, more efficient employee and equipment operating schedules, reduction in redundant facilities and workforce and best practices sharing.

### *Hibbing mine*

The Hibbing mine is located in the center of Minnesota's Mesabi Iron Range and is approximately ten miles north of Hibbing, Minnesota and five miles west of Chisholm, Minnesota. The Hibbing mine has been in operation since 1976. Over the past five years, the Hibbing mine has produced between 7.4 million and 8.5 million tons of iron ore pellets annually.

Cleveland-Cliffs owns 23 percent of Hibbing, ArcelorMittal USA has a 62.3 percent interest, and U.S. Steel Canada has a 14.7 percent interest. Each partner takes its share of production pro rata; however, provisions in the joint venture agreement allow additional or reduced production to be delivered under certain circumstances.

### *Northshore mine*

The Northshore mine is located in northeastern Minnesota, approximately two miles south of Babbitt, Minnesota on the northeastern end of the Mesabi Iron Range. Northshore's processing facilities are located in Silver Bay, Minnesota, near Lake Superior, on U.S. Highway 61. The Northshore mine has been in continuous operation since 1990. Over the past five years, the Northshore mine has produced between 4.8 million and 5.2 million tons of iron ore pellets annually.

The Northshore mine began production under Cleveland-Cliffs' management and ownership on October 1, 1994. Cleveland-Cliffs owns 100 percent of the mine.

### *United Taconite mine*

The United Taconite mine is located on Minnesota's Mesabi Iron Range in and around the city of Eveleth, Minnesota. The United Taconite concentrator and pelletizing facilities are located 10 miles south of the mine, near the town of Forbes, Minnesota. The main entrance to the concentrator and pelletizing facilities is on County Road 16, three miles west of State Highway 53. The mine has been operating since 1965. Over the past five years, the United Taconite mine has produced between 1.6 million and 5.3 million tons of iron ore pellets annually.

On July 11, 2008, Cleveland-Cliffs signed and closed on the acquisition of the remaining 30 percent interest in United Taconite, with an effective date of July 1, 2008. Upon consummation of the purchase, Cleveland-Cliffs' ownership interest in United Taconite increased from 70 percent to 100 percent.

### *Wabush mine*

The Wabush mine and concentrator is located in Wabush, Labrador, Newfoundland, and the pellet plant is located in Pointe Noire, Quebec, Canada. The Wabush mine has been in operation since 1965. Over the past five years, the Wabush mine has produced between 3.8 million and 5.2 million tons of iron ore pellets annually. Cleveland-Cliffs owns 26.8 percent of Wabush, Dofasco has a 28.6 percent interest and U.S. Steel Canada has a 44.6 percent interest.

**Table of Contents**

**North American Coal**

Cleveland-Cliffs directly owns and operates the following three North American coal mines:

*Pinnacle and Green Ridge mines*

The Pinnacle Complex includes the Pinnacle and Green Ridge mines and is located approximately 30 miles southwest of Beckley, West Virginia. The Pinnacle mine has been in operation since 1969. Over the past five years, the Pinnacle mine has produced between 1.4 million and 2.5 million tons of coal annually. The Green Ridge mine has been in operation since 2004 and has produced between 0.4 million and 0.5 million tons of coal annually.

*Oak Grove mine*

The Oak Grove mine is located approximately 25 miles southwest of Birmingham, Alabama. The mine has been in operation since 1972. Over the past five years, the Oak Grove mine has produced between 1.3 million and 1.7 million tons of coal annually.

**Asia-Pacific Iron Ore**

*Koolyanobbing*

The Koolyanobbing operations are located 425 kilometers east of Perth and approximately 50 kilometers northeast of the town of Southern Cross. Koolyanobbing produces lump and fine iron ore. An expansion program was completed in 2006 to increase capacity from six to eight million tonnes per annum. The expansion was primarily driven by the development of iron ore resources at Mount Jackson and Windarling, located 80 kilometers and 100 kilometers north of the existing Koolyanobbing operations, respectively. Over the past five years, the Koolyanobbing operation has produced between 4.9 million and 7.6 million tonnes annually.

*Cockatoo Island*

The Cockatoo Island operation is located six kilometers to the west of Yampi Peninsula, in the Buccaneer Archipelago, and 140 kilometers north of Derby in the West Kimberley region of Western Australia. The island has been mined for iron ore since 1951, with a break in operations between 1985 and 1993. Over the past five years, Cockatoo Island has produced between 0.6 million and 1.4 million tonnes annually at the 100 percent ownership level.

Portman commenced a beneficiation project in 1993 that was completed in mid-2000. Portman owns a 50 percent interest in this joint venture to mine remnant iron ore deposits. Mining from this phase of the operation commenced in late 2000. Cockatoo Island production ceased at the end of the second quarter 2008, with shipments to continue into the third quarter 2008. Construction on a necessary extension of the existing seawall will commence in the third quarter 2008, with production anticipated to restart by the end of the second quarter 2009. This extension is expected to extend production for approximately two additional years. Ore is hauled by haul truck to the stockpiles, crushed and screened and then transferred by conveyor to the shiploader.

**Transportation**

Two railroads, one of which is wholly-owned by Cleveland-Cliffs, link the Empire and Tilden mines with Lake Michigan at the loading port of Escanaba, Michigan and with the Lake Superior loading port of Marquette, Michigan. From the Mesabi Range, Hibbing pellets are transported by rail to a shiploading port at Superior, Wisconsin. United

Taconite pellets are shipped by railroad to the port of Duluth, Minnesota. At Northshore, crude ore is shipped by a wholly-owned railroad from the mine to processing and dock facilities at Silver Bay, Minnesota. In Canada, there is an open-pit mine and concentrator at Wabush, Labrador, Newfoundland and a pellet plant and dock facility at Pointe Noire, Quebec. At the Wabush mine, concentrates are shipped by rail from the Scully mine at Wabush to Pointe Noire where they are pelletized for shipment via vessel within Canada, to the United States and other international destinations or shipped as concentrates for sinter feed.

## **Table of Contents**

Cleveland-Cliffs' coal production is shipped domestically by rail, barge and/or truck. Coal for international customers is shipped through the port of Mobile, Alabama or Newport News, Virginia.

All of the ore mined at the Koolyanobbing operations is transported by rail to the Port of Esperance, 575 kilometers to the south for shipment to Asian customers. Direct ship premium fines mined at Cockatoo Island are loaded at a local dock.

## **Internal Control over Reserve Estimation**

Cleveland-Cliffs has a corporate policy relating to internal control and procedures with respect to auditing and estimating mineral reserves. The procedures include the calculation of mineral reserves at each mine by mining engineers and geologists under the direction of Cleveland-Cliffs' Chief Mining Engineer. Cleveland-Cliffs' General Manager-Resource Technology compiles, reviews, and submits the calculations to the Corporate Accounting department, where the disclosures for Cleveland-Cliffs' annual and quarterly reports are prepared based on those calculations. The draft disclosure is submitted to Cleveland-Cliffs' General Manager-Resource Technology for further review and approval. The draft disclosures are then reviewed and approved by Cleveland-Cliffs' Chief Financial Officer and Chief Executive Officer before inclusion in Cleveland-Cliffs' annual and quarterly reports. Additionally, the long-range mine planning and mineral reserve estimates are reviewed annually by Cleveland-Cliffs' Audit Committee. Furthermore, all changes to mineral reserve estimates, other than those due to production, are documented by Cleveland-Cliffs' General Manager-Resource Technology and are submitted to Cleveland-Cliffs' President and Chief Executive Officer for review and approval. Finally, Cleveland-Cliffs performs periodic reviews of long-range mine plans and mineral reserve estimates at mine staff meetings and senior management meetings.

## **Operations**

In North America, Cleveland-Cliffs produced 21.8 million, 20.8 million and 22.1 million long tons of iron ore pellets in 2007, 2006 and 2005, respectively, for Cleveland-Cliffs' account and 12.8 million, 12.8 million and 13.8 million long tons, respectively, on behalf of the steel company owners of the mines. Cleveland-Cliffs also produced 1.1 million short tons of coal in North America in 2007, representing Cleveland-Cliffs' volume since the acquisition of PinnOak on July 31, 2007. In Australia, Cleveland-Cliffs produced 8.4 million tonnes, 7.7 million tonnes and 5.2 million tonnes in 2007, 2006 and 2005, respectively. Asia-Pacific Iron Ore's 2005 total represents production since the March 31, 2005 acquisition of a controlling interest in Portman. See Management's Discussion and Analysis of Financial Condition and Results of Operations of Cleveland-Cliffs beginning on page 145 for further information regarding production and sales volumes.

Cleveland-Cliffs' business is subject to a number of operational factors that can affect Cleveland-Cliffs' future profitability.

## **Mine Capacity and Ore Reserves**

Reserves are defined by SEC Industry Standard Guide 7 as that part of a mineral deposit that could be economically and legally extracted and produced at the time of the reserve determination. All reserves are classified as proven or probable and are supported by life-of-mine plans.

### *North American Iron Ore*

Cleveland-Cliffs' 2008 ore reserve estimates for its iron ore mines as of December 31, 2007 were estimated from fully-designed open pits developed using three-dimensional modeling techniques. These fully designed pits incorporate design slopes, practical mining shapes and access ramps to assure the accuracy of Cleveland-Cliffs'

**Table of Contents**

reserve estimates. The following tables reflect expected current annual capacity and economic ore reserves for Cleveland-Cliffs North American and Asia-Pacific iron ore mines as of December 31, 2007.

Mine	Iron Ore Mineralization	Current Annual Capacity	Mineral Reserves(2)(3)			Mineral Rights		Method of Reserve Estimation	
			Proven	Probable	Total	Year Owned	Leased		
Tons in millions(1)									
Empire	Negaunee Iron Formation Model (Magnetite)	5.5	10		10	13	57%	43%	Geologic Block
Tilden	Negaunee Iron Formation (Hematite / Magnetite)	8.0	210	42	252	259	100%	0%	Geologic Block Model
Hibbing Taconite	Biwabik Iron Formation (Magnetite)	8.0	129	16	145	152	3%	97%	Geologic Block Model
Northshore	Biwabik Iron Formation (Magnetite)	4.8	303	10	313	318	0%	100%	Geologic Block Mode
United Taconite	Biwabik Iron Formation (Magnetite)	5.2	133	16	149	119	0%	100%	Geologic Block Model
Wabush	Wabush Iron Formation (Hematite)	5.5	37	2	39	44	0%	100%	Geologic Block Model

(1) Tons are long tons of pellets of 2,240 pounds.

(2) Estimated standard equivalent pellets, including both proven and probable reserves based on life-of-mine operating schedules.

(3) Cleveland-Cliffs regularly evaluates its reserves estimates and updated them in accordance with SEC Industry Guide 7.

In 2007, there were no changes in reserve estimates at Hibbing, Tilden, Northshore or Wabush, except for production.

A new ore reserve estimate was completed at United Taconite that incorporates increased iron ore pellet pricing, addition of new mining areas, and improved pit designs and production schedules. The updated ore reserve estimate calculated a 31 percent increase, or 35 million tons.

During 2007, the geologic resource model at Empire was updated by modifying an ore quality cut-off for oxidation. The net result of gains from a 2006 re-optimization of the life of mine pit design and losses due to this oxidized material resulted in an increase of two million tons in the remaining pellet reserves.

**Table of Contents***Asia-Pacific Iron Ore*

Mine Project	Iron Ore Mineralization	Current Annual Capacity	Mineral Reserves(2)(3)			Mineral Rights		Method of Reserve Estimation	
			Proven	Probable	Total	Previous Year	Owned		Leased
Koolyanobbing(4)	Banded Iron Formations Southern Cross Terrane Yilgarn Mineral Field (Hematite, Goethite)	8.0	7	88	95	87	0%	100%	Geologic Block Model
Cockatoo Island(5)	Sandstone Yampi Formation Kimberley Mineral Field (Hematite)	1.2		0.5	0.5	0.9	0%	100%	Geologic Block Model

(1) Tons are metric tonnes of 2,205 pounds.

(2) Reported ore reserves restricted to both proven and probable reserves based on life of mine operating schedules. Koolyanobbing reserves can be derived from up to 15 separate mineral deposits over a 100-kilometer operating distance. 7.4 million tonnes of the Koolyanobbing reserves are sourced from current long-term stockpiles.

(3) Cleveland-Cliffs regularly updates its reserves estimates in accordance with SEC Industry Guide 7 and the 2004 Edition of the Joint Ore Reserves Code.

(4) An expansion project was completed in 2006 that increased annual production capacity to 8 million tonnes.

(5) Portman has a 50 percent interest in the Cockatoo Island Joint Venture. Capacity and reserve totals represent 100 percent.

The increase in Koolyanobbing ore reserves is related to exploration success in expanding the mineral resource inventory and conversion of inferred resources to indicated resources. Mining at Cockatoo Island was conducted to deeper levels than originally planned during 2007, with mined production from the current Stage 2 pit now planned to continue until the second quarter of 2008. Product iron grades have also been lowered to assist extension of the mine life, but the revised grades still generate a premium fines product.

*North American Coal*

Cleveland-Cliffs 2008 reserve estimates for its North American underground coal mines as of December 31, 2007 were estimated using three-dimensional modeling techniques, coupled with mine plan designs. A complete re-estimation of the moist, recoverable coal reserves and life-of-mine plans was completed after the PinnOak acquisition. The following table reflects expected current annual capacities and economically recoverable reserves for

Cleveland-Cliffs North American coal mines as of December 31, 2007.

Mine(2)	Category	Current	Proven and Probable		Mineral Rights		Method of	Infrastructure
		Annual Capacity Tons in millions(1)	In-Place	Moist Recoverable	Owned	Leased	Reserve Estimation	
Pinnacle Complex		4.0			0%	100%	Geologic Block Model	Mine, Preparation Plant, Load-out
Pocahontas No 3	Assigned		126.0	62.9				
Pocahontas No 4	Unassigned		32.8	11.1				
Oak Grove		2.5			0%	100%	Geologic Block Model	Mine, Preparation Plant, Load-out
Blue Creek Seam	Assigned		91.1	49.4				
Total(3)		6.5	249.9	123.4				

(1) Short tons of 2,000 pounds.

**Table of Contents**

(2) All coal extracted by underground mining using longwall and continuous miner equipment.

(3) All recoverable coal is less than 1 percent sulfur and more than 13,000 Btu/lb. as received.

*Asia-Pacific Coal*

The 2008 reserve estimate for Cleveland-Cliffs Asia-Pacific coal mine as of December 31, 2007 is based on a Joint Ore Reserves Code-compliant resource estimate. An optimized pit design for an initial 10-year mine operating schedule was generated supporting the reserve estimate.

The following table reflects expected current annual capacity and economically recoverable reserves for Sonoma:

Mine(2)	Current Annual Capacity Category	Proven and Probable		Mineral Rights		Method of Reserve Estimation	Infrastructure
		In-Place Recoverable Tons in millions(1)	Moist Recoverable Tons in millions(1)	Owned	Leased		
Sonoma Mine Moranbah Coal Measures B, C and E Seams	Assigned	3.0	48	27	8%	92%	Geologic  Block Model  Mine, Preparation  Plant, Load-out

(1) Metric tonnes of 2,205 pounds. In-place tons at eight percent moisture, recoverable clean tons at nine percent moisture. Reserves listed on 100 percent basis. Cleveland-Cliffs has an effective 45 percent interest in the joint venture.

(2) All coal is extracted by conventional surface mining techniques.

Sonoma's recoverable coal reserves are primarily metallurgical grade coal (standard coking coal plus low volatile coal for pulverized coal injection) and steam coal.

**General Information about the Mines**

*Leases.* Mining is conducted on multiple mineral leases having varying expiration dates. Mining leases are routinely renegotiated and renewed as they approach their respective expiration dates.

*Exploration and Development.* All iron ore mining operations are open-pit mines that are in production. Additional pit development is underway at each mine as required by long-range mine plans. At Cleveland-Cliffs North American Iron Ore mines, drilling programs are conducted periodically for the purpose of refining guidance related to ongoing operations.

The Biwabik, Negaunee, and Wabush Iron Formations are classified as Lake Superior type iron-formations that formed under similar sedimentary conditions in shallow marine basins approximately two billion years ago. Magnetite and/or hematite are the predominant iron oxide ore minerals present, with lesser amounts of goethite and limonite. Chert is the predominant waste mineral present, with lesser amounts of silicate and carbonate minerals. The ore minerals liberate from the waste minerals upon fine grinding.

All North American Coal mine operations are underground mines that are in production. Drilling programs are conducted periodically for the purpose of refining guidance related to ongoing operations. The Pocahontas No 3 and Blue Creek Coal Seams are Pennsylvanian Age low ash, high quality coals.

At Koolyanobbing, an exploration program targeting extensions to the iron ore resource base as well as regional exploration targets in the Yilgarn Mineral Field was active in 2007 and will continue in 2008. At Cockatoo Island, feasibility studies have been completed for a below-sea-level eastward mine pit extension. Environmental permitting has been initiated supporting this proposed extension to the Cockatoo mine life.

The mineralization at the Koolyanobbing operations is predominantly hematite and goethite replacements in greenstone-hosted banded iron-formations. Individual deposits tend to be small with complex ore-waste contact relationships. The Koolyanobbing operations reserves are derived from 15 separate mineral deposits distributed

## **Table of Contents**

over a 100-kilometer operating radius. The mineralization at Cockatoo Island is predominantly friable, hematite-rich sandstone that produces premium high grade, low impurity direct shipping fines.

An exploration program providing geologic definition of the hematite mineralization at Amapá is ongoing.

Mineralized material at the Amapá mine is predominantly hematite occurring in weathered and leached greenstone-hosted banded iron-formation of the Archean Vila Nova Group. Variable degrees of leaching generate friable hematite mineralization suitable for either sinter feed production via crushing and gravity separation or pelletizing feed production via grinding and flotation.

In Australia, the Sonoma mine operation is an open-cut mine located in the northern section of Queensland's Bowen Basin. A mix of high quality metallurgical coal and thermal coal is recovered from the B and C seams of the Permian Mooranbah Coal Measures.

Geologic models are developed for all mines to define the major ore and waste rock types. Computerized block models are then constructed that include all relevant geologic and metallurgical data. These are used to generate grade and tonnage estimates, followed by detailed mine design and life of mine operating schedules.

## **Legal Proceedings**

*Alabama Dust Litigation.* In 1996 and 1997, two cases (White, et al v. USX Corporation, et al, and Weekley, et al v. USX Corporation, et al.) were brought alleging that dust from the Concord Preparation Plant damaged properties in the area. In 2002, the parties entered into settlement agreements with the former owner in exchange for a lump sum payment and the agreement to implement remedial measures. However, the plaintiffs were not required to dismiss their claims. PinnOak was added to these cases in 2004 and 2006. The plaintiffs in these matters are now seeking additional remediation measures and Cleveland-Cliffs is opposing this assertion and believes that any amounts ultimately paid in this matter will not be material. In addition to the two cases noted above, in 2004 approximately 160 individual plaintiffs brought an action (Waid, et al v. U.S. Steel Mining Company, et al.) against PinnOak asserting injuries arising from particulate emissions from the Concord Preparation Plant. PinnOak is seeking a summary judgment in this most recent matter because it had previously been concluded under the 2002 settlement agreement.

In 2006, in Gamble, et al v. PinnOak Resources, LLC, et al, 13 plaintiffs brought an action against PinnOak related to the operation of the Concord Preparation Plant. These plaintiffs assert that dangerous levels of coal dust emissions have been allowed to accumulate at that facility. Cleveland-Cliffs denies this allegation and is defending the matter vigorously. On April 15, 2008, the United States District Court for the Northern District of Alabama, Southern Division, dismissed the case without prejudice for lack of standing on the part of the plaintiffs.

*Tilden Mine Threatened Pattern of Violations.* On June 17, 2008, the Mine Safety and Health Administration, which is referred to as the MSHA, notified Tilden that it had conducted an initial screening of Tilden's compliance record. MSHA's notice indicated that based upon the screening a potential pattern of violations exists at the mine. Tilden has requested a conference with MSHA and is preparing a written action plan indicating actions it intends to implement to reduce repeated significant and substantial violations at the operation. No date has been set for the conference as of July 31, 2008.

*Wabush Litigation.* Cleveland-Cliffs has been named, along with two of its wholly-owned subsidiaries, Cliffs Mining Company and Wabush Iron Co. Limited, as defendants, along with U.S. Steel Canada, HLE Mining Limited Partnership and HLE Mining GP Inc. (collectively referred to as the U.S. Steel defendants), in an action brought before the Ontario Superior Court of Justice by Dofasco. The action pertains to a contemplated transaction whereby Dofasco and/or certain of its affiliates would purchase Cleveland-Cliffs' ownership interests and those of U.S. Steel

defendants in Wabush. After six months of negotiations with no definitive agreements reached, both Cleveland-Cliffs and U.S. Steel defendants determined to withdraw from negotiations and retain their respective ownership interests in Wabush. Notice of the withdrawal was delivered to Dofasco on March 3, 2008.

On March 20, 2008, Dofasco commenced this action against both Cleveland-Cliffs and U.S. Steel. Dofasco's statement of claim demands specific performance of an alleged binding contract for Cleveland-Cliffs and U.S. Steel to sell their respective interests in Wabush with equitable compensation in the amount of C\$427 million or, in the

**Table of Contents**

alternative, general damages in the amount of C\$1.8 billion. Cleveland-Cliffs strongly disagrees with Dofasco's allegations and intends to defend this case vigorously. On May 14, 2008, U.S. Steel defendants filed a notice of motion to dismiss the action. Cleveland-Cliffs filed an identical notice of motion on May 15, 2008. A two-day hearing was held on the respective motions of the U.S. Steel defendants and Cleveland-Cliffs on June 23, 2008 and June 24, 2008. A ruling from the court is expected during the third quarter of 2008.

*ArcelorMittal Arbitrations.* On March 18, 2008, ArcelorMittal USA filed two demands for arbitration with the American Arbitration Association, which is referred to as AAA, with respect to the March 1, 2007 umbrella agreement between ArcelorMittal USA and some of Cleveland-Cliffs' operations. In one demand for arbitration, ArcelorMittal USA alleged that Cleveland-Cliffs had breached the umbrella agreement by refusing to honor ArcelorMittal USA's revised 2008 nomination for an additional 1,450,000 gross tons of iron ore pellets for export to ArcelorMittal USA's facilities located outside of the United States. In the other demand for arbitration, ArcelorMittal USA requested a ruling from the AAA that, under the terms of the umbrella agreement, ArcelorMittal USA may transfer iron ore pellets purchased in 2009 and 2010 under the umbrella agreement to any iron and steel making facility owned directly or indirectly by Mittal Steel Company N.V., or Mittal. Both arbitrations are in very early stages. Cleveland-Cliffs intends to defend both arbitrations vigorously.

*M.M. Silta, Inc. v. Cleveland-Cliffs Inc et al.* In August 2006, M.M. Silta, Inc., or Silta, sued Cleveland-Cliffs and two of its subsidiaries, Cliffs Mining Company and Cliffs Erie, L.L.C., or Cliffs Erie, for breach of two separate contracts entered into between Silta and Cliffs Erie. Silta alleged that Cliffs Erie had breached both a reclamation services agreement, pursuant to which Silta recovered, screened and loaded recovered iron ore pellets, chips and fines from the ore yard at the former LTVSMC, and a breaker sales agreement, pursuant to which Silta purchased for scrap certain circuit breakers located in the processing plant at the former LTVSMC. This dispute went to trial in March 2008. On March 13, 2008, a jury ruled in favor of Cleveland-Cliffs in connection with the alleged breach of the reclamation services agreement and in favor of Silta on the alleged breach of the breaker sales agreement, awarding Silta \$6.8 million. Cleveland-Cliffs filed a motion with the trial court for judgment as a matter of law and a motion for a new trial, both of which were denied by the trial court. A notice of appeal was filed, but no briefs have been filed to date.

*United Taconite Air Emissions Matter.* On March 27, 2008, United Taconite received a DSA from the MPCA alleging various air emissions violations of the facility's air permit limit conditions, reporting and testing requirements. The allegations generally stem from procedures put in place prior to 2004 when Cleveland-Cliffs first acquired its interest in the mine. The DSA requires the facility to install continuous emissions monitoring, evaluate compliance procedures, submit a plan to implement procedures to eliminate air deviations during the relevant time period, and proposes a civil penalty in an amount to be determined. While United Taconite does not agree with MPCA's allegations, United Taconite and the MPCA are scheduled to discuss the matter further with the intent of working toward a mutual resolution.

*Maritime Asbestos Litigation.* As previously disclosed, The Cleveland-Cliffs Iron Company and/or The Cleveland-Cliffs Steamship Company have been named defendants in 485 actions brought from 1986 to date by former seamen in which the plaintiffs claim damages under federal law for illnesses allegedly suffered as the result of exposure to airborne asbestos fibers while serving as crew members aboard the vessels previously owned or managed by Cleveland-Cliffs entities until the mid-1980s. All of these actions have been consolidated into multidistrict proceedings in the Eastern District of Pennsylvania, whose docket now includes a total of over 30,000 maritime cases filed by seamen against ship-owners and other defendants. All of these cases have been dismissed without prejudice, but can be reinstated upon application by plaintiffs' counsel. The claims against Cleveland-Cliffs entities are insured in amounts that vary by policy year; however, the manner in which these retentions will be applied remains uncertain. Cleveland-Cliffs entities continue to vigorously contest these claims and have made no settlements on them.

*The Rio Tinto Mine Site.* The Rio Tinto Mine Site is a historic underground copper mine located near Mountain City, Nevada, where tailings were placed in Mill Creek, a tributary to the Owyhee River. Site investigation and remediation work is being conducted in accordance with a consent order between the Nevada Department of Environmental Protection, or NDEP and the RTWG composed of Cleveland-Cliffs, Atlantic Richfield Company, Teck Cominco American Incorporated, and E. I. du Pont de Nemours and Company. The

**Table of Contents**

consent order provides for technical review by the U.S. Department of the Interior Bureau of Indian Affairs, the U.S. Fish & Wildlife Service, U.S. Department of Agriculture Forest Service, the NDEP and the Shoshone-Paiute Tribes of the Duck Valley Reservation (collectively referred to as the Rio Tinto trustees). The Consent Order is currently projected to continue with the objective of supporting the selection of the final remedy for the site. Costs are shared pursuant to the terms of a participation agreement between the parties of the RTWG, who have reserved the right to renegotiate any future participation or cost sharing following the completion of the consent order.

The Rio Tinto trustees have made available for public comment their plans for the assessment of NRD. The RTWG commented on the plans and also are in discussions with the Rio Tinto trustees informally about those plans. The notice of plan availability is a step in the damage assessment process. The studies presented in the plan may lead to a NRD claim under Comprehensive Environmental Response, Compensation and Liability Act. There is no monetized NRD claim at this time.

The focus of the RTWG was on development of alternatives for remediation of the mine site. A draft of an alternatives study was reviewed with NDEP, the EPA and the Rio Tinto trustees and as of December 31, 2006, the alternatives have essentially been reduced to two: (1) tailings stabilization and long-term water treatment; and (2) removal of the tailings. The estimated costs range from approximately \$10 million to \$30.5 million. During 2007 a number of meetings were held with the NDEP, the EPA, and the Rio Tinto trustees (collectively referred to as the RTAG) regarding the remedial alternatives. Following a number of studies undertaken to evaluate the feasibility of a modified alternative for removal of the tailings, it was suggested that this could be the basis for a global settlement, incorporating both site remediation and potential NRD claims. During the fourth quarter of 2007, initial positions for a global settlement were exchanged between RTWG and RTAG. In recognition of the potential for an NRD claim, the parties are actively pursuing a global settlement that would include the EPA and encompass both the remedial action and the NRD issues. Cleveland-Cliffs increased its reserve by \$3.0 million in the second quarter of 2008 to reflect its estimated costs for completing the work under the existing consent order and its share of the eventual remediation costs based on a consideration of the various remedial measures and related cost estimates, which are currently under review.

*Northshore Air Permit Matters.* On December 16, 2006, Northshore submitted an application to the MPCA for an administrative amendment to its air pollution operating permit. The proposed amendment requested the deletion of a term in the air permit that was derived from a court case brought against the Silver Bay taconite operations in 1972. The permit term incorporated elements of the court-ordered requirement to reduce fiber emissions to below a medically significant level by installing controls that would be deemed adequate if the fiber levels in Silver Bay were below those of a control city such as St. Paul. Cleveland-Cliffs requested deletion of this control city permit requirement on the grounds that the court-ordered requirements had been satisfied more than 20 years ago and should no longer be included in the permit. The MPCA denied Cleveland-Cliffs' application on February 23, 2007. Cleveland-Cliffs has appealed the denial to the Minnesota Court of Appeals. The appeal is currently pending. Oral arguments were held on Cleveland-Cliffs' appeal on February 21, 2008.

Subsequent to the filing of the appeal, the MPCA alleged that Northshore was in violation of the control city standard based on new data that the MPCA collected showing that current fiber levels in St. Paul were lower than in Silver Bay for a period in 2007. Northshore filed a motion with the U.S. District Court for the District of Minnesota to re-open the original Reserve Mining case, requesting that the court declare the control city standard satisfied and the court's injunction voided, or if the control city standard remained in effect, clarify that it was a fixed standard set at the 1980 level rather than a moving standard, referred to as the federal suit. Shortly thereafter, the Save Lake Superior Association and the Sierra Club filed a lawsuit in U.S. District Court for the District of Minnesota with respect to alleged violations of the control city standard, referred to as the citizens suit. On September 20, 2007, the court granted Northshore's motion to stay the citizen's suit pending resolution of the federal suit.

The court entered an order in the federal suit on December 21, 2007, concluding that the 1975 federal court injunction from the case no longer had any force or effect. However, the court's order also stated that the control city standard was a state permit requirement that can only be addressed in state court. While the determination that the 1975 federal injunction no longer has any effect is favorable, Northshore is currently analyzing the implications of the federal court order with respect to Northshore's operating permit and pending state appeal. On February 19, 2008, Northshore filed an appeal of certain aspects of the federal court's order. The impact of the federal court order

**Table of Contents**

on the citizen's suit is also unclear, although the MPCA stated during depositions in the federal court proceedings in November 2007 that based on current fiber sample results, it believes Northshore to be in compliance with the control city permit term.

On July 28, 2008, the MPCA issued a NOV to Northshore alleging violations related to the control city standard for the period of March 2006 through October 2007, specifically with respect to MPCA's interpretation of the control city standard's emission limits and related monitoring and reporting requirements. The NOV states that Northshore has been in compliance with MPCA's interpretation of the standard since October 2007, but requires corrective actions relating to operating and maintaining facilities of treatment and control to remain in compliance. Although the NOV does not seek civil penalties, it contains various requests for information and reserves the right for MPCA to take further action. Northshore disputes the allegations contained in the NOV and is currently assessing its legal/administrative options.

*American Steamship Litigation.* One of Cleveland-Cliffs' subsidiaries, Cliffs Sales Company, currently contracts with American Steamship Company, or ASC, for the transportation of iron ore pellets from various ports on the Great Lakes to a blast furnace ore dock in Cleveland, Ohio. There are nine years remaining on that contract and Cleveland-Cliffs filed suit against ASC on February 21, 2007 alleging breach of contract and unjust enrichment claims for damages in connection with overcharges by ASC for fuel adjustments. Cleveland-Cliffs also requested declaratory relief for the fuel adjustment provisions of the contract as well as with respect to ASC's obligation to shuttle iron ore. On May 18, 2007, ASC filed its own action against Cliffs Sales Company and adding Northshore Mining Company and Oglebay Norton Marine Services Company, LLC, as parties. ASC requested declaratory relief stating that its fuel adjustment charges were proper and that it had no obligation to shuttle iron ore during the winter. ASC also requested damages in connection with an alleged anticipatory breach of the contract based on Cleveland-Cliffs' breach of contract claims. Both cases were consolidated for purposes of discovery.

On May 20, 2008, a jury returned a verdict in favor of Cliffs Sales Company with respect to overcharges for fuel adjustments. The jury awarded Cliffs Sales Company damages totaling \$3.7 million. It was determined that Oglebay Norton was responsible for \$1.7 million of the damages and ASC was responsible for the remaining \$2.0 million of damages to Cleveland-Cliffs. The jury stated that ASC could only charge an additional half cent fuel surcharge on shuttles to a blast furnace ore dock in Cleveland, Ohio when the ore was delivered to Cleveland Bulk Terminal by a non-ASC vessel. The jury found against Cliffs Sales Company finding that ASC was not obligated to provide winter shuttle service. Cliffs Sales Company filed a motion for the payment of interest on the amounts due to Cliffs Sales Company, as well as for Cleveland-Cliffs' costs for trying. ASC and Oglebay Norton filed motions for new trial and for judgment as a matter of law.

*West Virginia Flood Litigation.* As of February 2008, Cleveland-Cliffs' Pinnacle Mining Company has been named as a defendant in six lawsuits brought against over sixty defendants who were allegedly involved in land disturbing activities (primarily mining or logging) in Wyoming County, West Virginia. In each case the plaintiffs allege that these activities in Wyoming County resulted in flooding on or after July 8, 2001. The plaintiffs seek a permanent injunction and unstated personal and property damages under a number of legal theories. Cleveland-Cliffs is currently investigating these cases. Cleveland-Cliffs intends to defend these cases vigorously.

**Table of Contents**

**INFORMATION ABOUT ALPHA**

Alpha is a leading Appalachian coal supplier. Alpha produces, processes and sells steam and metallurgical coal from eight regional business units, which, as of June 30, 2008, were supported by 32 active underground mines, 26 active surface mines and 11 preparation plants located throughout Virginia, West Virginia, Kentucky, and Pennsylvania, as well as a road construction business in West Virginia and Virginia that recovers coal. Alpha is also actively involved in the purchase and resale of coal mined by others, the majority of which Alpha blends with coal produced from its mines, allowing it to realize a higher overall margin for the blended product than it would be able to achieve selling these coals separately.

For the three months and six months ended June 30, 2008, sales of steam coal were 4.4 and 8.3 million tons, respectively, and accounted for approximately 56% and 57%, respectively, of Alpha's coal sales volume. For the three and six months ended June 30, 2008, sales of metallurgical coal, which generally sells at a premium over steam coal, were 3.4 and 6.3 million tons, respectively, and accounted for approximately 44% and 43%, respectively of Alpha's sales volume. Alpha's sales of steam coal were made to large utilities and industrial customers in the Eastern region of the United States, and its sales of metallurgical coal were made to steel companies in the Northeastern and Midwestern regions of the United States and in several countries in Europe, South America, Africa and Asia. Approximately 52% of Alpha's coal sales and freight revenue in the first six months of 2008 was derives from sales made outside the United States, primarily in Turkey, Brazil, Egypt, Hungary, Canada and Russia.

As of December 31, 2007, Alpha owned or leased 617.5 million tons of proven and probable coal reserves. Of Alpha's total proven and probable reserves, approximately 82% are low sulfur reserves, with approximately 57% having sulfur content below 1%. Approximately 89% of Alpha's total proven and probable reserves have a high Btu content which creates more energy per unit when burned compared to coals with lower Btu content.

Additional information about Alpha and its subsidiaries is included in documents incorporated by reference in this joint proxy statement/prospectus. See "Where You Can Find More Information" on page 238.

The principal executive office of Alpha is located at One Alpha Place, P.O. Box 2345, Abingdon, Virginia, and its telephone number is (276) 691-4410.

**Table of Contents**

**MATERIAL CONTRACTS BETWEEN CLEVELAND-CLIFFS AND ITS AFFILIATES AND ALPHA AND ITS AFFILIATES**

Other than the merger agreement and the Confidentiality Agreement dated June 21, 2007, between Alpha and Cleveland-Cliffs, there are no other material contracts between Cleveland-Cliffs and its affiliates, on the one hand, and Alpha and its affiliates, on the other hand.

As of the date of the merger agreement, no executive officer or director of Alpha had any arrangement or understanding with Cleveland-Cliffs regarding employment with or provision of services to the combined company, except as described in the merger agreement and this joint proxy statement/prospectus. See *The Merger Agreement Directors and Officers of the Surviving Company* beginning on page 98 and *The Merger Interests of Alpha Executive Officers and Directors in the Merger* on page 83. As of the date of this joint proxy statement/prospectus, no executive officer of Alpha has entered into any agreement with Cleveland-Cliffs as to terms and conditions of employment with the combined company.

**Table of Contents**

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF CLEVELAND-CLIFFS**

**Overview**

Cleveland-Cliffs is an international mining company, the largest producer of iron ore pellets in North America, and a major supplier of metallurgical coal to the global steelmaking industry. Cleveland-Cliffs operates six iron ore mines located in Michigan, Minnesota and Eastern Canada, and three coking coal mines in West Virginia and Alabama. Cleveland-Cliffs owns 85.2 percent of Portman, a large iron ore mining company in Australia, serving the Asian iron ore markets with direct-shipping fines and lump ore. Cleveland-Cliffs also owns a 30 percent interest in Amapá, a Brazilian iron ore project, and a 45 percent economic interest in Sonoma, an Australian coking and thermal coal project.

Cleveland-Cliffs continued to deliver strong financial performance in 2007 and the first six months of 2008. Revenues for 2007 increased to \$2.3 billion, with net income of \$2.57 per diluted share. This compares with revenues of \$1.9 billion and net income of \$2.60 per diluted share in 2006. Revenues for the first six months of 2008 increased to \$1.5 billion, with net income of \$2.73 per diluted share. This compares with revenues of \$0.9 billion and net income of \$1.14 per diluted share in the first six months of 2007.

Global crude steel growth, a significant driver of Cleveland-Cliffs' business, was up approximately seven percent in 2007 from 2006 and up approximately six percent for the first six months of 2008 from the prior period with supply and demand of steel raw materials extremely tight. In North America, the relining of two of Cleveland-Cliffs' customers' blast furnaces, as well as softness in steel pricing over the summer, did not prevent Cleveland-Cliffs from reaching 22 million sales tons of iron ore in North America in 2007. Reasonable industry fundamentals returned in the fall of 2007 and most producers reacted to lower service center inventories by achieving multiple rounds of price increases. Steelmakers in China continue their strong demand for iron ore as Cleveland-Cliffs' Asia-Pacific Iron Ore segment produced near capacity with over eight million sales tonnes in 2007.

World-wide demand for metallurgical coal increased throughout 2007 and the first six months of 2008 as port constraints in Australia and production problems at large mines in the United States continued to place upward pressure on pricing.

Cleveland-Cliffs is engaged with expanding its leadership position in the industry by focusing on high product quality, technical excellence, superior relationships with its customers and partners and improved operational efficiency through cost saving initiatives. Cleveland-Cliffs operates a fully-equipped research and development facility in Ishpeming, Michigan. Cleveland-Cliffs' research and development group is staffed with experienced engineers and scientists and is organized to support the geological interpretation, process mineralogy, mine engineering, mineral processing, pyrometallurgy, advanced process control and analytical service disciplines. Cleveland-Cliffs' research and development group is also utilized by iron ore pellet customers for laboratory testing and simulation of blast furnace conditions.

***Segments***

Cleveland-Cliffs organizes its business according to product category and geographic location: North American Iron Ore, North American Coal, Asia-Pacific Iron Ore, Asia-Pacific Coal and Latin American Iron Ore. The Asia-Pacific Coal and Latin American Iron Ore businesses do not meet the criteria for reporting segments and are in the early stages of production.

The North American Iron Ore segment is comprised of Cleveland-Cliffs' interests in six North American mines that provide iron ore to the integrated steel industry. The North American Coal segment is comprised of Cleveland-Cliffs' three North American coal mines that provide metallurgical coal to the integrated steel industry. The Asia-Pacific Iron Ore segment, comprised of Cleveland-Cliffs' interests in Portman, is located in Western Australia and provides iron ore to steel producers in China and Japan. There are no intersegment revenues.

The Asia-Pacific Coal operating segment is comprised of Cleveland-Cliffs' 45 percent economic interest in Sonoma, located in Queensland, Australia, which is in the early stages of production. The Latin American Iron Ore

**Table of Contents**

operating segment is comprised of Cleveland-Cliffs' 30 percent Amapá interest in Brazil, which is also in the early stages of production. As a result, the Asia-Pacific Coal and Latin American Iron Ore operating segments do not meet reportable segment disclosure requirements and therefore are not separately reported.

Cleveland-Cliffs Asia-Pacific headquarters are located in Perth, Australia. Cleveland-Cliffs Latin American headquarters are located in Rio de Janeiro, Brazil. Cliffs International Mineração Brasil, Ltda and Cliffs Asia-Pacific Pty Limited provide technical and administrative support for Cleveland-Cliffs' assets in Latin America and Australia, respectively, as well as new business development services in these regions. All North American business segments are headquartered in Cleveland, Ohio. Offices in Duluth, Minnesota, have shared services groups supporting the North American business segments. Cleveland-Cliffs' Technology Group is located in Ishpeming, Michigan.

Cleveland-Cliffs evaluates segment performance based on sales margin, defined as revenues less cost of goods sold identifiable to each segment. This measure of operating performance is an effective measurement as Cleveland-Cliffs focuses on reducing production costs throughout Cleveland-Cliffs.

See Note 6 of the Cleveland-Cliffs unaudited consolidated financial statements as of and for the six months ended June 30, 2008 and Note 4 of the Cleveland-Cliffs audited consolidated financial statements as of and for the year ended December 31, 2007, which are included elsewhere in this joint proxy statement/prospectus, for further information.

***Growth Strategy and Strategic Transactions***

Cleveland-Cliffs expects to grow its business and presence as an international mining company by expanding both geographically and through the minerals that Cleveland-Cliffs mines and markets. Cleveland-Cliffs' investments in Australia and Latin America, as well as acquisitions in minerals outside of iron ore, such as coal, illustrate the execution of this strategy. In 2007 and the first six months of 2008, Cleveland-Cliffs continued its strategic transformation to an international mining company through the following acquisitions and partnerships:

*United Taconite.* On July 11, 2008, Cleveland-Cliffs signed and closed on the acquisition of the remaining 30 percent interest in United Taconite, with an effective date of July 1, 2008. Upon consummation of the purchase, Cleveland-Cliffs' ownership interest increased from 70 percent to 100 percent. Consideration paid for the acquisition is a combination of \$100 million in cash, approximately 1.5 million of Cleveland-Cliffs common shares and 1.2 million tons of iron ore pellets to be provided throughout 2008 and 2009.

*Portman.* On May 21, 2008, Portman announced a tender offer to repurchase up to 16.5 million shares, or 9.39 percent of its common stock. On this date, Cleveland-Cliffs owned 80.4 percent of approximately 176 million shares outstanding in Portman and indicated it would not participate in the tender buyback. Under the share tender program, eligible shareholders could offer to sell some or all of their shareholdings at a fixed-price discount of 14 percent to the volume-weighted average price of Portman shares trade on the Australian Stock Exchange during the five trading days after the date of the announcement. The tender period closed on June 24, 2008. Under the buyback, 9.8 million fully paid ordinary shares were tendered at a price of A\$14.66 per share. The total consideration paid under the buyback was A\$143.3 million. As a result of the buyback, Cleveland-Cliffs' ownership interest in Portman increased from 80.4 percent to 85.2 percent.

*Golden West.* During the second quarter of 2008, Portman acquired 22 million shares of Golden West, a Western Australia iron ore exploration company, which represents approximately 19.9 percent of its outstanding shares. Acquisition of the shares represents an investment of approximately \$27 million. Golden West owns the Wiluna West exploration ore project in Western Australia, containing a resource of 119 million metric tons of ore. The purchase provides Portman a strategic interest in Golden West and its Wiluna West exploration ore project.

*Renewafuel.* In November 2007, Cleveland-Cliffs acquired a 70 percent controlling interest in Renewafuel. Founded in 2005, Renewafuel produces high-quality, dense fuel cubes made from renewable and consistently available components such as corn stalks, switch grass, grains, soybean and oat hulls, wood, and wood byproducts. This is a strategic investment that provides an opportunity to utilize a "green" solution for further reduction of emissions consistent with Cleveland-Cliffs' objective to contain costs and enhance efficiencies in a socially responsible manner. In addition to the potential use of Renewafuel's biofuel cubes in Cleveland-Cliffs' production

**Table of Contents**

process, the cubes will be marketable to other organizations as a potential substitute for Western coal and natural gas. During the second quarter of 2008, Renewafuel announced it will build a next-generation biomass fuel production facility at the Telkite Technology Park in Marquette, Michigan. Projected to begin operations in the first quarter of 2009, the plant will annually produce 150,000 tons of high-energy, low-emission biofuel. The capital cost for the facility is estimated to be approximately \$10 million.

*PinnOak.* Cleveland-Cliffs North American Coal segment is comprised of the PinnOak acquisition completed on July 31, 2007. PinnOak was a privately-owned U.S. producer of high-quality, low-volatile metallurgical coal. The acquisition furthers Cleveland-Cliffs growth strategy and expands Cleveland-Cliffs diversification of products for the integrated steel industry. The purchase price of PinnOak and its subsidiary operating companies was \$450 million in cash, of which \$108.4 million is deferred until December 31, 2009, plus the assumption of approximately \$160 million in debt, which was repaid at closing. The purchase agreement also included a contingent earn-out, which ranges from \$0 to approximately \$300 million dependent on PinnOak's performance in 2008 and 2009. The earn-out, if any, would be payable in 2010 and treated as additional purchase price. PinnOak's operations include two complexes comprising three underground mines—the Pinnacle and Green Ridge mines in southern West Virginia and the Oak Grove mine near Birmingham, Alabama. Combined, the mines have rated capacity to produce 6.5 million short tons of premium-quality metallurgical coal annually.

*Kobe Steel Alliance.* On June 19, 2007, Cleveland-Cliffs entered into an alliance whereby Kobe Steel agreed to license its patented ITmk3<sup>®</sup> iron-making technology to Cleveland-Cliffs. The alliance, which has a 10-year term, covers use of the proprietary process in the United States and Canada, Australia and Brazil, and may be expanded to include other geographic regions. Used for the production of high-purity iron nuggets containing more than 96 percent iron, the ITmk3<sup>®</sup> process provides the means to create high-quality raw materials for electric arc furnaces, or EAFs, a market that Cleveland-Cliffs does not currently supply. Steel producers utilizing EAFs currently account for 60 percent of North America's steelmaking capacity. On August 22, 2007, IronUnits LLC and its joint venture partner, Kobe Iron Nugget LLC formed Michigan Iron Nugget LLC. This new entity is the first manifestation of the Cleveland-Cliffs/Kobe alliance and will oversee the feasibility stage of building a commercial iron nugget plant in Marquette County, Michigan.

*Sonoma.* On April 18, 2007, Cleveland-Cliffs executed agreements to participate in Sonoma, a coking and thermal coal project located in Queensland, Australia. As of December 31, 2007, Cleveland-Cliffs invested \$120.1 million to acquire and develop mining tenements and related infrastructure including the construction of a washplant, which will produce coal to meet the growing global demand. Cleveland-Cliffs' total investment in Sonoma is estimated to be \$127.7 million. Immediately preceding Cleveland-Cliffs' investment in Sonoma, QCoal Pty Ltd, which is referred to as QCoal, owned exploration permits and applications for mining leases for the real estate that is involved in Sonoma, or the Sonoma mining assets; however, development of the Sonoma mining assets requires significant infrastructure including the construction of a rail loop and related equipment, referred to as the Sonoma non-mining assets, and a facility that prepares the extracted coal for sale, or the Sonoma washplant. Pursuant to a combination of interrelated agreements creating a structure whereby Cleveland-Cliffs owns 100 percent of the Sonoma washplant, 8.33 percent of the Sonoma mining assets and 45 percent of the Sonoma non-mining assets, Cleveland-Cliffs obtained a 45 percent economic interest in the collective operations of Sonoma.

Mining operations reached a milestone in December 2007, when the first coal was extracted from the mine. Severe flooding at the mine in mid-February 2008 has caused a delay in previously scheduled shipments. Incorporating the effects of the flooding, Cleveland-Cliffs expects total production of 2.0 million tonnes for 2008 and three to four million tonnes annually in 2009 and beyond. Production will include a mix of hard coking coal and thermal coal.

*Amapá.* On March 5, 2007, Cleveland-Cliffs acquired a 30 percent interest in Amapá, a Brazilian iron ore project, through the acquisition of 100 percent of the shares of Centennial Asset Participacoes Amapá S.A., which is referred

to as Centennial Amapá, for approximately \$133 million. The remaining 70 percent of Amapá was owned by MMX, which managed the construction and operations of Amapá while Cleveland-Cliffs supplied supplemental technical support. On August 5, 2008, Anglo American plc acquired a controlling interest in MMX's 51 percent interest in the Minas-Rio iron ore project and its 70 percent interest in Amapá.

**Table of Contents**

Total project funding requirements are estimated to be between \$550 and \$650 million (Cleveland-Cliffs share \$165 million to \$195 million), including approximately \$415 million to \$490 million (Cleveland-Cliffs share \$125 million to \$147 million) to be funded with project debt, and approximately \$135 million to \$160 million (Cleveland-Cliffs share \$40 million to \$48 million) to be funded with equity contributions. As of June 30, 2008, Amapá had long-term project debt outstanding of approximately \$338 million, for which Cleveland-Cliffs has provided a several guarantee of its 30 percent share. Amapá has engaged in ongoing discussions with its lenders regarding loan amendments to address several loan covenant violations related to project delays, higher construction expenditures, debt-to-equity ratios and deliveries under its long-term supply agreement with an operator of an iron ore pelletizing plant in the Kingdom of Bahrain. In addition, on June 30, 2008, Amapá had total short-term loans outstanding of \$188.9 million. Cleveland-Cliffs subsequently provided a several guarantee in July 2008 on its 30 percent share of the total debt outstanding, or \$159.1 million.

Amapá consists of a significant iron ore deposit, a 192-kilometer railway connecting the mine location to an existing port facility and 71 hectares of real estate on the banks of the Amazon River, reserved for a loading terminal. Amapá began production of sinter fines in late-December 2007. It is expected that completion of construction of the concentrator and ramp-up of production will occur in 2008. Production and sales for 2008 are expected to total approximately three million tonnes for 2008. Once fully operational, production is targeted at 6.5 million tonnes of fines products annually beginning in 2009.

**Safety**

Safety remains the No. 1 priority within Cleveland-Cliffs. Cleveland-Cliffs continuous improvement efforts in this area resulted in a reportable incident rate, as defined by MSHA, of 1.93 in North America, or 38 basis points below last year's result of 2.31. Cleveland-Cliffs newly acquired North American Coal operations achieved a 6.09 reportable incident rate since the July 31, 2007 acquisition. The MSHA reportable incident rate at underground bituminous coal mines was 7.36 for 2006.

At Cleveland-Cliffs Asia-Pacific Iron Ore operations, Koolyanobbing's Lost Time Injury Frequency Rate, or LTIFR, for 2007 was 4.14, which is higher than 2006 result of 3.5. During 2007, six Lost Time Injuries, or LTIs, were recorded at the Koolyanobbing operation. At Cockatoo Island, three LTI's were incurred, resulting in a LTIFR of 6.1 for the year, compared with two LTI's, resulting in a LTIFR of 7.87 in 2006. Asia-Pacific Iron Ore safety statistics include employees and contractors.

**Results of Operations*****Three- and Six-Month Period Ended June 30, 2008 Compared to Three- and Six-Month Period Ended June 30, 2007*****North American Iron Ore**

Following is a summary of North American Iron Ore results for the three months ended June 30, 2008 and 2007:

<b>Three Months</b>		<b>Sales Price and Rate</b>	<b>Change Due to</b>		
<b>Ended June 30,</b>			<b>Sales Volume</b>	<b>Freight and Reimbursements</b>	<b>Total Change</b>
<b>2008</b>	<b>2007</b>				
<b>(In millions)</b>					

Edgar Filing: CLEVELAND CLIFFS INC - Form S-4

Revenues from product sales and services	\$ 643.4	\$ 432.8	\$ 202.8	\$ 2.5	\$ 5.3	\$ 210.6
Cost of goods sold and operating expense	(370.8)	(328.4)	(35.1)	(2.0)	(5.3)	(42.4)
Sales margin	\$ 272.6	\$ 104.4	\$ 167.7	\$ 0.5		\$ 168.2
Sales tons	5.5	5.4				

148

---

**Table of Contents**

Following is a summary of North American Iron Ore results for the six months ended June 30, 2008 and 2007:

	Six Months		Sales Price and Rate	Change Due to		
	Ended June 30, 2008	2007		Sales Volume	Freight and Reimbursements	Total Change
Revenues from product sales and services	\$ 922.2	\$ 658.0	\$ 229.8	\$ 18.9	\$ 15.5	\$ 264.2
Cost of goods sold and operating expense	(585.0)	(516.3)	(39.3)	(13.9)	(15.5)	(68.7)
Sales margin	\$ 337.2	\$ 141.7	\$ 190.5	\$ 5.0		\$ 195.5
Sales tons	8.2	7.9				

The sales revenue increase for the second quarter and first half of 2008 was primarily due to higher sales prices combined with slight increases in sales volume. Sales price increases of approximately 56 percent in the quarter and 42 percent for the year to date primarily reflected the impact from higher steel prices, renegotiated and new long-term supply agreements with certain customers and other contractual price adjustment factors. Included in second quarter 2008 revenues was \$84.3 million related to supplemental steel payments, compared with \$20.0 million for the same period last year. For the first half of 2008, revenue included \$110.3 million related to the supplemental payments compared with \$29.6 million for the first six months of 2007. The higher sales volume for both the quarter and first half of 2008 is primarily due to increased demand.

In addition, based on settlement of 87 percent price increases in the iron ore pellet benchmarks referenced in certain of Cleveland-Cliffs North American Iron Ore sales contracts, approximately \$5 million of additional product revenue, or \$0.91 per ton, related to first quarter sales was recognized in the second quarter of 2008 upon settlement.

On May 30, 2008, Cleveland-Cliffs entered into a term sheet with Algoma amending the term supply agreement with Algoma. As previously disclosed, Algoma, a Canadian steelmaker and subsidiary of Essar Steel Holdings Limited, had requested a price renegotiation for 2008 pricing under the terms of the agreement. The term sheet establishes the price for 2008 and provides for the sale of additional tonnage to Algoma for 2008 and 2009. Pricing for 2009 and beyond will be determined in accordance with the original terms of the agreement with Algoma.

The cost of goods sold and operating expense increase in the second quarter and first half of 2008 was primarily due to higher costs of production and higher reimbursable freight and minority interest costs. Contributing to the increase in both the second quarter and first six months of 2008 were higher fuel and energy costs of \$14.7 million and \$19.1 million, respectively, compared to the same periods in 2007. Costs of goods sold and operating expense for the first half of 2008 were also higher due to major furnace repairs at Empire and United Taconite during the first quarter.

**Table of Contents***Production*

Following is a summary of iron ore production tonnage for 2008 and 2007:

	<b>Second Quarter</b>		<b>First Six Months</b>		<b>Full Year</b>	
	<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>	<b>2008(1)</b>	<b>2007</b>
	<b>(In millions)(2)</b>					
Mine:						
Empire	1.4	1.3	2.6	2.5	4.2	4.9
Tilden	2.2	2.3	3.8	3.7	8.4	7.2
Hibbing	2.0	2.1	4.0	3.3	8.1	7.4
Northshore	1.5	1.3	2.8	2.6	5.7	5.2
United Taconite	1.5	1.4	2.7	2.6	5.5	5.3
Wabush	1.1	1.1	2.1	2.2	4.6	4.6
Total	9.7	9.5	18.0	16.9	36.5	34.6
Cliffs' share of total	6.3	6.0	11.5	10.8	24.0	21.8

(1) Estimate

(2) Tons are long tons of pellets of 2,240 pounds.

The increase in Hibbing's production for the first six months of 2008 compared to the comparable prior year period was a result of the shutdown in late February 2007 due to severe weather conditions that caused significant buildup of ice in the basin supplying water to the processing facility. The full year production loss in 2007 totaled approximately 0.8 million tons (Cleveland-Cliffs' share is 0.2 million tons).

The increase in second quarter production at Northshore was due to reactivation of one of its furnaces at the end of March 2008. Accordingly, production at Northshore is expected to benefit from an incremental increase of approximately 0.6 million tons in 2008 and 0.8 million tons annually thereafter.

Production for 2008 at Empire and Tilden was previously expected to be 4.0 million tons and 7.9 million tons, respectively. However, based on the recently announced capital expansion project at the mines, Cleveland-Cliffs has increased its rate of production and expects to produce 4.2 million tons at Empire in 2008. As part of the capacity expansion, Cleveland-Cliffs will also mine additional ore from its Tilden mine, located adjacent to Empire, and process it utilizing additional processing capacity at Empire. As a result, Cleveland-Cliffs expects to produce 8.4 million tons at Tilden in 2008.

**North American Coal**

Following is a summary of North American Coal results for the three and six months ended June 30, 2008:

**Six Months**

	<b>Three Months Ended June 30, 2008</b>	<b>Ended June 30, 2008</b>
	<b>(In millions, except tonnage)</b>	
Revenues from product sales and services	\$ 61.5	\$ 155.4
Cost of goods sold and operating expense	(84.5)	(180.9)
Sales margin	\$ (23.0)	\$ (25.5)
Sales tons (in thousands)	576	1,574

**Table of Contents***Production*

Following is a summary of coal production tonnage for 2008:

	<b>Second Quarter</b>	<b>First Six Months (In millions)(2)</b>	<b>Full Year(1)</b>
Mine:			
Pinnacle Complex	618	1,250	2,900
Oak Grove	115	492	1,100
Total	733	1,742	4,000

(1) Estimate

(2) Tons are short tons of 2,000 pounds.

Cleveland-Cliffs reported losses of \$23.0 million and \$25.5 million in sales margin for the three and six months ended June 30, 2008, respectively. On a sequential quarter basis, revenue decreased approximately 35 percent primarily as a result of lower sales volume. Cleveland-Cliffs sold 576 thousand tons during the second quarter of 2008 compared to 998 thousand tons in the first quarter of 2008. The decrease in sales volume was primarily attributable to a 27 percent decline in production as a result of development of the longwall panel at Cleveland-Cliffs Oak Grove mine. The extended development spanned throughout most of the second quarter. In addition, Cleveland-Cliffs declared force majeure on customer shipments from its Pinnacle mine in mid-March 2008. Production at the mine slowed during the second quarter as a result of encountering a fault area within the coal panel being mined at the time. The force majeure was lifted in mid-June 2008.

The costs per-ton increased approximately 58 percent from the first quarter of 2008. As a result of lower production in the second quarter, higher fixed costs were absorbed per ton produced.

Longwall development timing has been extended due to the difficulty in obtaining additional equipment and personnel. Accordingly, Cleveland-Cliffs reduced the total estimated metallurgical coal production for 2008 by approximately 300 thousand tons to 4.0 million tons.

*Asia-Pacific Iron Ore*

Following is a summary of Asia-Pacific Iron Ore results for the three months ended June 30, 2008 and 2007:

<b>Three Months</b>		<b>Change Due to</b>		
<b>Ended June 30,</b>		<b>Sales Price and Rate</b>	<b>Sales Volume</b>	<b>Total</b>

**Table of Contents**

During the second quarter of 2008, the Australian benchmark prices for lump and fines settled at increases of 97 percent and 80 percent, respectively. As a result, second quarter sales from Cleveland-Cliffs Asia-Pacific Iron Ore segment were recorded based on 2008 settled price increases, which reflects an incremental increase of approximately \$90.6 million when compared to second quarter revenue measured at 2007 prices. In addition, approximately \$65.0 million of additional product revenue related to first quarter sales was recognized in the second quarter upon settlement of 2008 benchmark prices.

Cost of goods sold and operating expenses for the quarter and year to date increased primarily due to higher costs of production partially offset by lower volume. Costs were also negatively impacted in the second quarter and first half of 2008 by approximately \$10.7 million and \$25.2 million, respectively, related to foreign exchange rates, as the U.S. dollar continued to weaken relative to the Australian dollar. The increase in cost of goods sold and operating expenses was also a result of higher fuel, maintenance and contract labor expenditures arising from inflationary pressures. Fuel and energy costs for the quarter and year to date increased by approximately \$3.5 million and \$5.0 million, respectively, compared to the comparable periods in 2007.

*Production*

Following is a summary of iron ore production tonnage for 2008 and 2007:

	<b>Second Quarter</b>		<b>First Six Months</b>		<b>Full Year</b>	
	<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>	<b>2008(1)</b>	<b>2007</b>
	<b>(In millions)(2)</b>					
Mine:						
Koolyanobbing	1.9	2.1	3.7	3.9	7.7	7.7
Cockatoo Island	0.2	0.1	0.3	0.3	0.3	0.7
Total	2.1	2.2	4.0	4.2	8.0	8.4

(1) Estimate

(2) Tons are metric tonnes of 2,205 pounds. Cockatoo production reflects Portman's 50 percent share.

Production for the second quarter and first half of 2008 was relatively consistent with the comparable prior year periods. Cockatoo Island production ceased at the end of the second quarter 2008, with shipments to continue into the third quarter 2008. Construction on a necessary extension of the existing seawall will commence in the third quarter 2008, with production anticipated to restart by the end of the second quarter 2009. This extension is expected to extend production for approximately two additional years.

*Other operating income (expense)*

Following is a summary of other operating income (expense) for 2008 and 2007:

**Three Months Ended****Six Months Ended**

	June 30,			June 30,		
	2008	2007	Variance Favorable/ (Unfavorable) (In millions)	2008	2007	Variance Favorable/ (Unfavorable)
Casualty recoveries	\$ 10.0	\$ 3.2	\$ 6.8	\$ 10.0	\$ 3.2	\$ 6.8
Royalties and management fee revenue	7.1	4.0	3.1	10.9	6.2	4.7
Selling, general and administrative expenses	(52.1)	(21.5)	(30.6)	(96.6)	(42.2)	(54.4)
Gain on sale of other assets	19.5		19.5	21.0		21.0
Miscellaneous net	(1.4)	0.6	(2.0)	(1.9)	2.2	(4.1)
	\$ (16.9)	\$ (13.7)	\$ (3.2)	\$ (56.6)	\$ (30.6)	\$ (26.0)

**Table of Contents**

The increase in selling, general and administrative expense of \$30.6 million and \$54.4 million in the second quarter and first half of 2008, respectively, compared with the same periods in 2007 is primarily a result of higher employment compensation and increased outside professional service fees associated with the expansion of Cleveland-Cliffs' business of \$13.3 million and \$17.1 million for the quarter and year to date, respectively. In addition, selling, general and administrative expense increased in the quarter and first half of 2008 by \$5.4 million and \$11.3 million, respectively, as a result of additional corporate development activities in Latin America and Asia-Pacific. Increases of \$3.4 million and \$9.2 million for the quarter and year to date, respectively, relate to Cleveland-Cliffs' North American Coal segment acquired in July 2007. Selling, general and administrative expense for the first six months of 2008 was also impacted by a charge in the first quarter of approximately \$6.8 million in connection with a legal case as well as \$2.1 million related to Cleveland-Cliffs' interest in Sonoma acquired in 2007.

The gain on sale of other assets of \$19.5 million and \$21.0 million in the second quarter and first half of 2008, respectively, primarily relates to the sale of its wholly-owned subsidiary, Cliffs Synfuel Corp., or Synfuel, which was completed on June 4, 2008. Cleveland-Cliffs recorded a gain of \$19 million in the second quarter of 2008 upon completion of the transaction. Under the agreement, Oil Shale Exploration Company-Skyline, LLC acquired 100 percent of Synfuel for \$24 million. As additional consideration for the stock, a perpetual nonparticipating royalty interest was granted initially equal to \$0.02 per barrel of shale oil and \$0.01 per barrel of shale oil produced from lands covered by existing State of Utah oil shale leases, plus 25 percent of royalty payments from conventional oil and gas operations. Cleveland-Cliffs recorded a gain of \$19 million upon completion of the transaction.

The increase in casualty recoveries for both the three and six months ended June 30, 2008 compared to the comparable prior year periods is primarily attributable to a \$9.2 million insurance recovery recognized in the current year related to a 2006 electrical explosion at Cleveland-Cliffs' United Taconite facility.

**Other income (expense)**

Following is a summary of other income (expense) for 2008 and 2007:

	Three Months Ended June 30,			Six Months Ended June 30,		
	2008	2007	Variance Favorable/ (Unfavorable) (In millions)	2008	2007	Variance Favorable/ (Unfavorable)
Interest income	\$ 6.3	\$ 4.6	\$ 1.7	\$ 11.9	\$ 9.9	\$ 2.0
Interest expense	(9.8)	(2.1)	(7.7)	(17.0)	(3.1)	(13.9)
Other net	0.3	(1.2)	1.5	0.3	0.1	0.2
	\$ (3.2)	\$ 1.3	\$ (4.5)	\$ (4.8)	\$ 6.9	\$ (11.7)

The increase in interest income for both the quarter and year to date is primarily attributable to additional cash and investments held by Portman during the period coupled with higher average returns. Higher interest expense in both the second quarter and first half of 2008 reflected borrowings under Cleveland-Cliffs' credit facilities and interest accretion for the deferred payment. See Note 5 of the Cleveland-Cliffs unaudited consolidated financial statements as of and for the six months ended June 30, 2008, included elsewhere in this joint proxy statement/prospectus, for further information.

Income Taxes

Cleveland-Cliffs' total tax provision from continuing operations for the six months ended June 30, 2008 and 2007 was \$121.6 million and \$39.3 million, respectively. The increase in Cleveland-Cliffs' tax provision is attributable to higher pre-tax income and a higher effective tax rate. For the full year 2008, Cleveland-Cliffs expects an effective tax rate of approximately 26 percent, which reflects benefits from deductions for percentage depletion in excess of cost depletion related to U.S. operations as well as benefits derived from operations outside the U.S., which are taxed at rates lower than the U.S. statutory rate of 35 percent. See Note 10 of the Cleveland-Cliffs unaudited consolidated financial statements as of and for the six months ended June 30, 2008, included elsewhere in this joint proxy statement/prospectus, for further information.

**Table of Contents**Equity Loss in Ventures

The equity loss in ventures for the three and six months ended June 30, 2008 of \$6.2 million and \$13.1 million, respectively, represents the results from Cleveland-Cliffs investment in Amapá. The results for the second quarter and year to date primarily consist of pre-production and start-up losses of \$8.4 million and \$22.1 million, respectively, including operating losses from the railroad of \$1.9 million and \$3.9 million, respectively, partially offset by foreign currency hedge gains, \$2.7 million and \$8.6 million, respectively.

**Year Ended December 31, 2007 Compared to Year Ended December 31, 2006**North American Iron Ore*Sales Margin*

Following is a summary of North American Iron Ore sales margin for 2007 versus 2006:

	2007	2006	Change due to			
			Sales Price and Rate (In millions)	Sales Volume	Freight and Reimbursements	Total Change
Revenue from product sales and services	\$ 1,745.4	\$ 1,560.7	\$ 39.3	\$ 122.4	\$ 23.0	\$ 184.7
Cost of goods sold and operating expenses	(1,347.5)	(1,233.3)	0.6	(91.8)	(23.0)	(114.2)
Sales margin	\$ 397.9	\$ 327.4	\$ 39.9	\$ 30.6	\$	\$ 70.5
Sales tons	22.3	20.4				

The increase in sales revenue was due to a sales volume increase of 1.9 million tons, or \$122.4 million, higher sales prices, \$39.3 million and higher freight and venture partners reimbursements, \$23.0 million. Sales volume in 2007 included 1.5 million tons of pellets purchased and paid for by customers at year-end under take-or-pay provisions of existing long-term supply agreements. First half shipments in 2007 included 1.2 million tons of pellets purchased in upper Great Lakes stockpiles and paid for in 2006. Revenue recognition related to the December 2006 stockpile transaction totaling \$62.6 million was deferred until the product was delivered in 2007. Sales prices per-ton increased 2.8 percent, reflecting the effect of contractual base price increases, higher term supply agreement escalation factors including higher steel pricing, higher Producers Price Indices and lag-year adjustments.

The increase in cost of goods sold and operating expenses primarily reflected higher volume, \$91.8 million. On a per-ton basis, cost of goods sold and operating expenses were flat in comparison to last year, as a result of Cleveland-Cliffs strategic procurement, maintenance and other business improvement programs, as well as the implementation of Six Sigma and Lean Sigma. This compares with a Producers Price Indices increase of 4.1 percent, which is a measurement of industrial company cost inflation.

Principally, as a result this cost containment, North American Iron Ore sales margin per ton increased 11 percent from 2006.

**Table of Contents***Production*

Following is a summary of North American Iron Ore production tonnage for 2007 versus 2006:

<b>Mine</b>	<b>Company Share</b>		<b>Total</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
	<b>(In millions)(1)</b>			
Empire	3.9	3.8	4.9	4.9
Tilden	6.1	5.9	7.2	6.9
Hibbing	1.7	1.9	7.4	8.3
Northshore	5.2	5.1	5.2	5.1
United Taconite	3.7	3.0	5.3	4.3
Wabush	1.2	1.1	4.6	4.1
<b>Total</b>	<b>21.8</b>	<b>20.8</b>	<b>34.6</b>	<b>33.6</b>

(1) Long tons of pellets of 2,240 pounds.

The decrease in Hibbing's production was a result of the shutdown in late February 2007 due to severe weather conditions that caused significant buildup of ice in the basin supplying water to the processing facility.

Year-over-year production at Tilden benefited from major maintenance work and operating improvements performed in the prior year, and United Taconite production increased due to its recovery from last year's electrical accident. Production at Wabush was higher as a result of pit design improvements to mitigate dewatering issues.

Cleveland-Cliffs reinitiated construction activity to restart an idled pellet furnace at the Northshore facility that will increase capacity by approximately 0.6 million tons of pellets in 2008 and 0.8 million tons to Cleveland-Cliffs' annual capacity thereafter.

**North American Coal***Sales Margin*

Following is a summary of North American Coal sales margin since the July 31, 2007 acquisition:

	<b>Five Months Ended December 31, 2007</b>	
	<b>(In millions, except tonnage)</b>	
Revenues from product sales and services	\$	85.2
Cost of goods sold and operating expense		(116.9)
Sales margin	\$	(31.7)

Sales tons (in thousands)(1)

1,171

(1) Tons are short tons of 2,000 pounds.

In August 2007, production at Cleveland-Cliffs Pinnacle mine in West Virginia slowed as a result of sandstone intrusions encountered within the coal panel being mined at the time. This slowdown prompted the operating decision in late September to move the mine's longwall plow system to another panel. In mid-October, the plow system was brought back into production. In addition, Cleveland-Cliffs has invested in business improvement initiatives and safety activities designed to enhance future production at Cleveland-Cliffs Oak Grove mine. These investments reduced Cleveland-Cliffs 2007 production.

The slowdown, and resulting lack of leverage over fixed costs, such as labor, energy and administration, contributed to a loss of sales margin and unusually high per-ton costs of goods sold. However, as Cleveland-Cliffs builds production volumes at the metallurgical coal mines through 2008, Cleveland-Cliffs cost per ton is expected to steadily and significantly decrease.

**Table of Contents**

The net impact of these factors contributed to a \$31.7 million loss of sales margin. As production volumes build through 2008, Cleveland-Cliffs per-ton costs are anticipated to steadily and significantly decrease each quarter.

*Production*

Following is a summary of North American Coal production tonnage for 2007:

<b>Mine</b>	<b>Five Months Ended December 31, 2007(1) (In thousands)</b>
Oak Grove	406
Pinnacle	558
Green Ridge	127
<b>Total</b>	<b>1,091</b>

(1) Tons are short tons of 2,000 pounds.

*Asia-Pacific Iron Ore**Sales Margin*

Following is a summary of Asia-Pacific Iron Ore sales margin for 2007 versus 2006:

	<b>2007</b>	<b>2006</b>	<b>Change Due to Sales price and Rate (In millions)</b>	<b>Sales Volume</b>	<b>Total Change</b>
Revenue from product sales and services	\$ 444.6	\$ 361.0	\$ 48.9	\$ 34.7	\$ 83.6
Cost of goods sold and operating expenses	(348.8)	(274.4)	(48.0)	(26.4)	(74.4)
Sales margin	\$ 95.8	\$ 86.6	\$ 0.9	\$ 8.3	\$ 9.2
Sales tonnes	8.1	7.4			

The increase in sales revenue was due to higher sales prices, \$48.9 million and higher volume, \$34.7 million. Portman's sales prices reflected the effects of the 9.5 percent increase in the international benchmark price of iron ore fines and lump. The 0.7 million tonne volume increase reflected the completion of the two-million-tonne per annum expansion at Koolyanobbing in late 2006.

Increased production capacity has allowed Asia-Pacific to supply higher sales volumes at increased price realizations driven by intense demand from the Asian steel industry, particularly in China. As a result of this demand, revenues per tonne increased 12 percent from the prior year. Per-tonne costs in Asia-Pacific Iron Ore, which increased 16 percent, continue to be negatively impacted by foreign exchange rates, as the U.S. dollar weakened relative to the Australian dollar, as well as higher maintenance and contract labor expenditures. Cleveland-Cliffs Asia-Pacific Iron Ore management team has put in place a new contractor for mine operations that has cost control incentives. This is expected to result in better cost control in 2008.

### *Production*

Following is a summary of Asia-Pacific Iron Ore production tonnage for 2007 versus 2006:

<b>Mine</b>	<b>Total</b>	
	<b>2007</b>	<b>2006</b>
	<b>(In millions)(1)</b>	
Koolyanobbing	7.7	7.0
Cockatoo Island	0.7	0.7
Total	8.4	7.7

(1) Metric tonnes of 2,205 pounds.

**Table of Contents**

The increase in production primarily reflected the completion of the expansion at Koolyanobbing in late 2006. Cockatoo Island production ceased at the end of the second quarter 2008, with shipments to continue into the third quarter 2008. Construction on a necessary extension of the existing seawall will commence in the third quarter 2008, with production anticipated to restart by the end of the second quarter 2009. This extension is expected to extend production for approximately two additional years.

In July 2007, Portman was notified that its exploration and mining rights under two leases would not be extended beyond July 3, 2007. The mining leases permit Portman to explore for and mine iron ore on mining tenements north of Portman's Koolyanobbing operations, including the rights to 4.5 million tonnes of iron ore reserves. Portman has since negotiated an in-principle agreement to transfer these rights to the other party in exchange for additional mining rights to new leases. A formal agreement to this effect is expected to be ratified in 2008.

*Other Operating Income (Expense)*

Selling, general and administrative expense of \$114.2 million in 2007 increased \$41.8 million compared with the prior year, primarily reflecting higher employment costs related to Cleveland-Cliffs' expanding business, including expenses at North American Coal and Cleveland-Cliffs' Asia-Pacific locations; increased outside professional service fees and higher legal fees.

Gain on sale of assets of \$18.4 million primarily reflected the fourth quarter 2007 gain on the sale of portions of the former LTVSMC site. The sale included cash proceeds of approximately \$18 million.

Miscellaneous-net expense of \$2.3 million in 2007 increased \$14.7 million compared with the prior year, primarily reflecting increased mark-to-market hedging losses at Cleveland-Cliffs' Asia-Pacific Iron Ore business.

*Other Income (Expense)*

Interest income of \$20.0 million increased \$2.8 million compared with 2006, reflecting average higher cash and investment balances and higher average interest rates in Cleveland-Cliffs' Asia-Pacific iron ore business.

Interest expense of \$22.6 million increased \$17.3 million compared with 2006, primarily reflecting borrowings from the credit facility to fund the acquisition of PinnOak.

*Income Taxes*

Income tax expense of \$84.1 million in 2007 was \$6.8 million lower than the comparable amount in 2006. The decrease was due to lower pre-tax income in 2007 and a lower effective tax rate. See Note 9 of the Cleveland-Cliffs audited consolidated financial statements as of and for the three years ended December 31, 2007, included elsewhere in this joint proxy statement/prospectus.

*Minority Interest*

Minority interest decreased \$1.5 million, or nine percent from 2006. Minority interest represents the 19.6 percent minority interest related to Asia-Pacific iron ore earnings.

*Equity Loss in Ventures*

The equity loss in ventures in 2007 of \$11.2 million represents the results from Cleveland-Cliffs' investment in Amapá, primarily pre-production costs of \$7.2 million and operating losses from the railroad of \$4.0 million.

**Table of Contents*****Year Ended December 31, 2006 Compared to Year Ended December 31, 2005*****North American Iron Ore*****Sales Margin***

Following is a summary of North American Iron Ore sales margin for 2006 versus 2005:

	2006	2005	Sales Price and Rate (In millions)	Change Due to		Total Change
				Sales Volume	Freight and Reimbursements	
Revenue from product sales and services	\$ 1,560.7	\$ 1,535.0	\$ 111.6	\$ (111.2)	\$ 25.3	\$ 25.7
Cost of goods sold and operating expenses	(1,233.3)	(1,176.4)	(112.3)	80.7	(25.3)	(56.9)
Sales margin	\$ 327.4	\$ 358.6	\$ (0.7)	\$ (30.5)	\$	\$ (31.2)
Sales tons	20.4	22.3				

The increase in sales revenue was due to higher sales prices in 2006, \$111.6 million and higher freight and venture partners reimbursements, partially offset by a sales volume decrease of 1.9 million tons, or \$111.2 million. The 9.3 percent increase in sales prices primarily reflected the effect of contractual base price increases, higher term supply agreement escalation factors including higher steel pricing, higher Producers Price Indices and lag-year adjustments, partially offset by the impact of lower international benchmark pellet prices. The price of blast furnace pellets for Eastern Canadian producers decreased 3.5 percent. Included in 2006 revenues were approximately 1.3 million tons of 2006 sales at 2005 contract prices and \$21.6 million of revenue related to pricing adjustments on 2005 sales.

Cost of goods sold and operating expenses in 2006 increased \$56.9 million or approximately five percent. The increase reflected higher unit production costs of \$112.3 million and higher freight and venture partners cost reimbursements, \$25.3 million. Lower sales volume reduced costs \$80.7 million. On a per-ton basis, cost of goods sold and operating expenses increased approximately 13 percent, primarily due to higher maintenance activity, increased energy and supply pricing, increased stripping and higher employment costs. Production costs were also impacted by an approximate \$15 million cost effect related to production curtailments caused by the October 12, 2006 explosion at the United Taconite processing plant.

***Production***

Mine	Company Share		Total	
	2006	2005	2006	2005
	(In millions)(1)			

Edgar Filing: CLEVELAND CLIFFS INC - Form S-4

Empire	3.8	3.8	4.9	4.8
Tilden	5.9	6.7	6.9	7.9
Hibbing	1.9	2.0	8.3	8.5
Northshore	5.1	4.9	5.1	4.9
United Taconite	3.0	3.4	4.3	4.9
Wabush	1.1	1.3	4.1	4.9
Total	20.8	22.1	33.6	35.9

(1) Long tons of pellets of 2,240 pounds.

Production at Tilden in 2006 was lower than the previous year due to unplanned equipment repairs and a change in mix to produce more magnetite pellets to fulfill customer requirements. Magnetite pellets have lower productivity than hematite pellets.

**Table of Contents**

The decrease in United Taconite production was due to the electrical explosion at the United Taconite processing plant on October 12, 2006. Production at the United Taconite plant was temporarily curtailed as a result of the loss of electrical power resulting from the explosion. Repairs to the plant's Line 2 were completed and full production resumed in January 2007.

Crude ore mining at Wabush was significantly impacted by pit de-watering difficulties, which adversely impacted production and costs.

**Asia-Pacific Iron Ore*****Sales Margin***

Following is a summary of Asia-Pacific Iron Ore sales margin for 2006 versus 2005:

	<b>2006</b>	<b>2005(1)</b>	<b>Change Due to Sales Price and Rate (In millions)</b>	<b>Sales Volume</b>	<b>Total Change</b>
Revenue from product sales and services	\$ 361.0	\$ 204.5	\$ 51.5	\$ 105.0	\$ 156.5
Cost of goods sold and operating expenses	(274.4)	(174.1)	(10.9)	(89.4)	(100.3)
Sales margin	\$ 86.6	\$ 30.4	\$ 40.6	\$ 15.6	\$ 56.2
Sales tonnes	7.4	4.9			

(1) Represents results since the March 31, 2005 acquisition.

Sales revenue increased \$156.5 million or approximately 77 percent. The increase in sales revenue was due to higher volume, \$105.0 million and higher sales prices, \$51.5 million. The 2.5 million tonne volume increase reflected the expansion of the Koolyanobbing operations in 2006 and the exclusion of sales prior to the March 31, 2005 acquisition. Asia-Pacific iron ore sales prices include the effects of a 19 percent increase in the international benchmark price of iron ore fines and lump.

Cost of goods sold and operating expenses increased \$100.3 million or approximately 58 percent. The increase primarily reflected the effect of higher volume and an increase in unit production costs, primarily higher contract labor.

***Production***

Following is a summary of Asia-Pacific Iron Ore production tonnage for 2006 versus 2005:

<b>Mine</b>	<b>2006</b>	<b>Total 2005</b>
-------------	-------------	-----------------------

	<b>(In millions)(1)</b>	
Koolyanobbing	7.0	4.7
Cockatoo Island	0.7	0.5
Total	7.7	5.2

(1) Metric tonnes of 2,205 pounds.

Asia-Pacific Iron Ore 2005 production reflects results since the March 31, 2005 acquisition. An expansion of the Koolyanobbing facility was completed in 2006 that increased the Portman's wholly-owned production capacity from six to eight million tonnes per annum.

Other Operating Income (Expense)

Casualty recoveries in 2005 of \$12.3 million related to a five-week production curtailment at the Empire and Tilden mines in 2003 due to the loss of electric power as a result of flooding in the Upper Peninsula of Michigan. Cleveland-Cliffs recovered a portion of Cleveland-Cliffs' deductible in 2007, totaling \$3.2 million.

**Table of Contents**

Selling, general and administrative expenses of \$72.4 million in 2006 increased \$10.3 million compared with the prior year, reflecting increased outside professional services and full-year expense at Cleveland-Cliffs Asia-Pacific iron ore business and a \$3.0 million property damage insurance deductible associated with the electrical explosion at United Taconite, partially offset by lower incentive compensation.

Miscellaneous-net income of \$12.4 million in 2006 was \$8.2 million higher than the prior year, primarily reflecting higher mark-to-market currency gains at Portman and higher customer bankruptcy recoveries related to WCI's 2003 bankruptcy filing.

**Other Income (Expense)**

Interest income of \$17.2 million in 2006 was \$3.3 million higher than the prior year, reflecting higher average cash balances and higher interest rates.

**Income Taxes**

During 2005, an \$8.9 million adjustment to reverse a valuation allowance on net operating losses attributable to pre-consolidated separate return years of one of Cleveland-Cliffs subsidiaries was recognized. Excluding the \$8.9 million reversal in 2005, income tax expense of \$90.9 million in 2006 was \$2.8 million lower than the comparable amount last year. The decrease was due to a lower effective tax rate, partially offset by higher pre-tax income in 2006. See Note 9 of the Cleveland-Cliffs audited consolidated financial statements as of and for the three years ended December 31, 2007, included elsewhere in this joint proxy statement/prospectus, for further information.

**Minority Interest**

Minority interest increased \$7.0 million, or almost 70 percent from the prior year. Minority interest represents the 19.6 percent minority interest related to Cleveland-Cliffs Asia-Pacific iron ore earnings.

**Discontinued Operations**

Cleveland-Cliffs arrangements with C.V.G. Ferrominera Orinoco C.A. of Venezuela, which is referred to as Ferrominera, a government-owned company responsible for the development of Venezuela's iron ore industry, to provide technical assistance in support of improving operations of a 3.3 million tonne per year pelletizing facility, were terminated in the third quarter of 2005. Cleveland-Cliffs recorded after-tax income of \$0.2 million related to this contract in 2006, compared with 2005 after-tax expense of \$1.7 million, which included Cleveland-Cliffs exit costs.

On July 23, 2004, Cliffs and Associated Limited, which is referred to as CAL, an affiliate of Cleveland-Cliffs jointly owned by a subsidiary of Cleveland-Cliffs (82.3945 percent) and Outotec (17.6055 percent), a German company (formerly known as Lurgi Metallurgie GmbH), completed the sale of CAL's Hot Briquette Iron facility located in Trinidad and Tobago to ArcelorMittal USA. Terms of the sale included a purchase price of \$8.0 million plus assumption of liabilities. ArcelorMittal USA closed this facility at the end of 2005. Cleveland-Cliffs recorded after-tax income of \$0.1 million in 2006, compared with after-tax income of \$0.9 million in 2005.

The results of discontinued operations for CAL and Ferrominera were recorded under *Income (Loss) from Discontinued Operations* in the Statements of Consolidated Operations.

**Table of Contents****Liquidity, Cash Flows and Capital Resources***Liquidity*

Following is a summary of key liquidity measures at June 30, 2008, December 31, 2007 and December 31, 2006:

	<b>June 30, 2008</b>	<b>December 31, 2007</b>	<b>December 31, 2006</b>
	<b>(In millions)</b>		
Cash and cash equivalents	\$ 320.4	\$ 157.1	\$ 351.7
2006 credit facility	\$	\$	\$ 500.0
2007 multicurrency credit agreement	800.0	800.0	
Senior notes	325.0		
Portman facilities	153.8		
Senior notes drawn	(325.0)		
Term loans drawn	(200.0)	(200.0)	
Revolving loans drawn	(160.0)	(240.0)	
Letter of credit obligations	(31.4)	(16.2)	
Borrowing capacity available	\$ 562.4	\$ 343.8	\$ 500.0

For the six months ended June 30, 2008, uses of liquidity primarily include operational needs, general capital requirements, and capital expenditures related to the Empire and Tilden mine expansion project, upgrades on the rail line at Portman between the operations and the port, and longwall system down payments at Cleveland-Cliffs Pinnacle mine.

Uses of liquidity in 2007 primarily included operational needs, capital requirements and investments in management infrastructure related to our rapid growth and increased business development. Capital expenditures included the acquisition and development of mining tenements and related infrastructure including the construction of a washplant at Sonoma; the 0.8 million capacity expansion at Northshore and the re-build of the substation at United Taconite resulting from the October 2006 explosion.

*Multicurrency Credit Agreement.* On August 17, 2007, Cleveland-Cliffs entered into a five-year unsecured credit facility with a syndicate of 13 financial institutions, which replaced a \$500 million credit facility scheduled to expire in 2011 and a \$150 million credit facility scheduled to expire in 2008. The new facility provides \$800 million in borrowing capacity, comprised of \$200 million in term loans and \$600 million in revolving loans, swing loans and letters of credit. Loans are drawn with a choice of interest rates and maturities, subject to the terms of the agreement. Interest rates are either (1) a range from London Interbank Offered Rate, or LIBOR, plus 0.45 percent to LIBOR plus 1.125 percent based on debt and earnings or (2) the prime rate or the prime rate plus 1.125 percent based on debt and earnings. The credit facility has two financial covenants: (1) debt to earnings ratio and (2) interest coverage ratio. As of June 30, 2008, Cleveland-Cliffs was in compliance with the covenants in the credit agreement.

As of June 30, 2008 and December 31, 2007, (1) \$160 million and \$240 million, respectively, were drawn in revolving loans, and (2) the principal amount of letter of credit obligations totaled \$31.4 and \$16.2 million, respectively, under the new credit facility. Cleveland-Cliffs also had \$200 million drawn in term loans as of June 30, 2008 and December 31, 2007. Cleveland-Cliffs had \$562.4 million and \$343.8 million of borrowing capacity available under the \$800 million credit facility, respectively. The weighted average annual interest rate for outstanding revolving and term loans under the credit facility was 5.81 percent as of December 31, 2007. After the effect of interest rate hedging, the weighted average annual borrowing rate was 5.68 percent.

*Private Placement.* On June 25, 2008, Cleveland-Cliffs entered into a \$325 million private placement consisting of \$270 million of 6.31 percent Five-Year Senior Notes due June 15, 2013, and \$55 million of 6.59 percent Seven-Year Senior Notes due June 15, 2015. Interest will be paid on the notes for both tranches on June 15 and December 15 until their respective maturities. The notes are unsecured obligations with interest and principal amounts guaranteed by certain of Cleveland-Cliffs domestic subsidiaries. The notes and guarantees are

**Table of Contents**

not required to be registered under the Securities Act of 1933, as amended, and have been placed with qualified institutional investors. Cleveland-Cliffs used the proceeds to repay senior unsecured indebtedness and for general corporate purposes.

The terms of the note purchase agreement contain customary covenants that require compliance with certain financial covenants based on: (1) debt to earnings ratio and (2) interest coverage ratio. As of June 30, 2008, Cleveland-Cliffs was in compliance with the covenants in the note purchase agreement.

*Portman.* In 2005, Portman secured five-year financing from its customers in China as part of its long-term sales agreements to assist with the funding of the expansion of its Koolyanobbing mining operations. The borrowings, totaling \$6.2 million at December 31, 2007, accrue interest annually at five percent. The borrowings require principal payments of approximately \$0.8 million plus accrued interest to be made each January 31 for the next two years, with the balance due in full on January 31, 2010.

Effective June 23, 2008, Portman added a A\$120 million cash facility to its existing facility agreement, under which Portman continues to maintain a A\$40 million multi-option facility. The facilities have floating interest rates of 20 basis points and 75 basis points, respectively, over the 90-day bank bill swap rate in Australia. At June 30, 2008, the outstanding bank commitments totaled A\$12.5 million, reducing borrowing capacity to A\$27.5 million on the A\$40 million facility. No funds have been utilized on the A\$120 million facility. The A\$120 million facility is available until September 30, 2008. Both facilities operate under the same financial covenants of Portman: (1) debt to earnings ratio and (2) interest coverage ratio. As of June 30, 2008, Portman was in compliance with the covenants of the credit facilities.

Cash and cash equivalents included \$127.8 million and \$97.6 million at Cleveland-Cliffs Asia-Pacific Iron Ore operations at December 31, 2007 and 2006, respectively.

*Amapá.* At June 30, 2008, Amapá had long-term project debt outstanding of approximately \$338 million for which Cleveland-Cliffs has provided several guarantees on its 30 percent share. Amapá is engaged in ongoing discussions with its lenders regarding loan amendments to address several loan covenant violations related to project delays, higher construction expenditures, debt-to-equity ratios and deliveries under its long-term supply agreement with an operator of an iron ore pelletizing plant in the Kingdom of Bahrain. In addition, at June 30, 2008, Amapá had total short-term loans outstanding of \$188.9 million. Cleveland-Cliffs subsequently provided several guarantees in July 2008 on its 30 percent share of the total debt outstanding, or \$159.1 million.

See Note 5 of the Cleveland-Cliffs unaudited consolidated financial statements as of and for the six months ended June 30, 2008 and Note 6 of the Cleveland-Cliffs audited consolidated financial statements as of and for the year ended December 31, 2007, included elsewhere in this joint proxy statement/prospectus, for further information.

**Table of Contents*****Cash Flows*****Six Months Ended June 30, 2008 and 2007**

Following is a summary of cash flows for the six months ended June 30, 2008 and 2007:

	<b>Six Months Ended June 30, 2008                  2007 (In millions)</b>	
Borrowings under senior notes	\$ 325.0	\$
Net cash provided (used) by operating activities	82.9	(37.7)
Proceeds from sale of assets	38.6	1.8
Purchase of minority interest in Portman	(137.8)	
Net borrowings (repayments) under revolving credit facility	(80.0)	125.0
Capital expenditures	(59.1)	(46.2)
Net purchase of marketable securities	(6.7)	(36.0)
Investment in ventures	(2.2)	(223.7)
Other	2.6	(5.6)
Increase (decrease) in cash and cash equivalents	\$ 163.3	\$ (222.4)

A summary of cash flows due to changes in operating assets and liabilities is as follows:

	<b>Six Months Ended June 30, 2008                  2007 (In millions)</b>	
Changes in product inventories	\$ (205.3)	\$ (159.0)
Changes in payables and accrued expenses	(108.4)	8.1
Changes in receivables and other assets	63.4	(48.1)
Cash used by changes in operating assets and liabilities	\$ (250.3)	\$ (199.0)

Cleveland-Cliffs product inventory balances at June 30, 2008 and December 31, 2007 were as follows:

	<b>June 30, 2008</b>		<b>December 31, 2007</b>	
	<b>Amount</b>	<b>Tons(1)</b>	<b>Amount</b>	<b>Tons(1)</b>
	<b>(In millions)</b>			
North American Iron Ore	\$ 297.1	6.7	\$ 114.3	3.4
North American Coal	15.4	0.3	8.3	0.1

Asia-Pacific Iron Ore	38.0	1.3	30.2	1.1
Other	10.6	0.2		
Total	\$ 361.1		\$ 152.8	

(1) North American Iron Ore tons are long tons of pellets of 2,240 pounds. North American Coal tons are short tons of 2,000 pounds. Asia-Pacific Iron Ore tons are metric tonnes of 2,205 pounds.

The increase in North American Iron Ore pellet inventory was primarily due to higher production volume as well as winter-related shipping constraints on the lower Great Lakes earlier in the year.

*Point Beach Nuclear Power Plant*

On December 19, 2006 WEPCO entered into an asset sale agreement to sell its Point Beach Nuclear Plant. In conjunction with the sale, the parties to the transaction also negotiated a long-term power purchase agreement whereby WEPCO would purchase the capacity, energy, and ancillary services from Point Beach. On September 25, 2007, the Michigan Public Service Commission, which is referred to as the MPSC, issued its opinion and order and

**Table of Contents**

determined that all of WEPCO's Michigan customers, including the Empire and Tilden mines, should share in the distribution of proceeds resulting from the sale. The MPSC directed WEPCO to calculate an equal mills per Kilowatt hours, or kWh, credit to be applied to customers' bills for 18 monthly billing cycles following the close of the Point Beach Nuclear Plant sale. WEPCO estimates a total of \$882 million in net proceeds resulting from the transfer of ownership. The funds will be applied based on future consumption by its customers beginning in December 2007 through a \$0.01581/kWh credit. Based on WEPCO's proposal on projected electricity usage, the 2008 distribution to Cleveland-Cliffs would be approximately \$32 million and will be reflected as a reduction in cost of goods sold and operating expenses.

**2007, 2006 and 2005**

Following is a summary of Cleveland-Cliffs' cash flows for 2007, 2006 and 2005:

	<b>2007</b>	<b>2006</b>	<b>2005</b>
		<b>(In millions)</b>	
Acquisition of PinnOak (net of \$2.6 million of cash acquired)	\$ (343.8)	\$	\$
Capital expenditures	(199.5)	(119.5)	(97.8)
Investment in ventures	(180.6)	(13.4)	(8.5)
Repayment of PinnOak debt	(159.6)		
Net purchase of marketable securities	(44.7)		
Dividends on common and preferred stock	(26.4)	(25.8)	(18.7)
Repurchases of common stock	(2.2)	(121.5)	
Net borrowings under credit facility	440.0		
Net cash from operating activities	288.9	428.5	514.6
Effect of exchange rate changes on cash	11.8	5.9	(2.2)
Investment in Portman (net of \$24.1 million cash acquired)			(409.0)
Other	21.5	4.4	(0.3)
Increase (decrease) in cash and cash equivalents from continuing operations	(194.6)	158.6	(21.9)
Cash from (used by) discontinued operations		0.3	(2.2)
Increase (decrease) in cash and cash equivalents	\$ (194.6)	\$ 158.9	\$ (24.1)

See Note 2 of the Cleveland-Cliffs audited consolidated financial statements as of and for the three years ended December 31, 2007, included elsewhere in this joint proxy statement/prospectus, for information regarding the PinnOak acquisition and repayment of debt as well as Cleveland-Cliffs' investments in ventures.

Capital expenditures included the acquisition and development of mining tenements and related infrastructure including the construction of a washplant at Sonoma; the 0.8 million capacity expansion at Northshore and the re-build of the substation at United Taconite resulting from the October 2006 explosion. Cleveland-Cliffs expects to fund its capital expenditures from available cash, current operations and borrowings under Cleveland-Cliffs' credit facility.

Common stock repurchases in 2007 and 2006 reflected the purchase of 90,000 shares and 6.4 million shares, respectively, of 9.0 million shares authorized under two 2006 repurchase programs. Also, Cleveland-Cliffs increased its quarterly common share dividend to \$0.0875 per share from \$0.0625 per share effective with the quarterly dividend

payable on March 3, 2008 to shareholders of record as of the close of business on February 15, 2008.

**Table of Contents**

The decrease in operating cash flows in 2007 compared with 2006 was primarily due to changes in operating assets and liabilities. A summary of cash due to changes in operating assets and liabilities is as follows:

	<b>2007</b>	<b>2006</b> <b>(In millions)</b>	<b>2005</b>
Net proceeds of short-term marketable securities	\$	\$ 9.9	\$ 172.8
Changes in product inventories	3.2	(29.9)	9.8
Changes in receivables and other assets	18.0	73.0	(64.8)
Changes in deferred revenues	(34.2)	62.4	0.2
Changes in payables and accrued expenses	(14.8)	3.4	73.3
Cash (used by) from changes in operating assets and liabilities	\$ (27.8)	\$ 118.8	\$ 191.3

Cleveland-Cliffs product inventory balances at December 31, 2007 and 2006 were as follows:

	<b>2007</b>		<b>2006</b>	
	<b>Amount</b>	<b>Tons(1)</b>	<b>Amount</b>	<b>Tons(1)</b>
	<b>(In millions)</b>			
North American Iron Ore	\$ 114.3	3.4	\$ 129.5	3.8
North American Coal	8.3	0.1		
Asia-Pacific Iron Ore	30.2	1.1	20.8	0.9
Total	\$ 152.8		\$ 150.3	

(1) North American Iron Ore tons are long tons of pellets of 2,240 pounds; North American Coal tons are short tons of 2,000 pounds; and Asia-Pacific Iron Ore tons are metric tonnes of 2,205 pounds.

The decrease in North American Iron Ore pellet inventory was primarily due to higher sales volume, partially offset by higher production. The increase in Asia-Pacific Iron Ore inventory is primarily due to increased production attributable to the expansion of the Koolyanobbing operations and higher opening inventory compared with the prior year, partially offset by higher sales.

Operating cash flows in 2005 included the proceeds from the sale of \$182.7 million of highly liquid marketable securities used in connection with Cleveland-Cliffs acquisition of Portman, net of \$9.9 million purchases of auction rate securities.

Net cash from operating activities in 2007, 2006 and 2005 also reflected \$123.9 million, \$95.7 million and \$86.2 million of income tax payments and \$37.7 million, \$56.1 million and \$55.8 million of contributions to pension plans and VEBAs, respectively. In 2006, Cleveland-Cliffs received a \$67.5 million refund from the WEPCO escrow account.

**Capital Resources**

Cleveland-Cliffs has taken a balanced approach to allocation of its capital resources and free cash flow. Cleveland-Cliffs has made strategic investments both domestically and internationally, increased its capital expenditures, strengthened its balance sheet, increased funding of its employee benefit obligations and increased its borrowing capacity.

**Table of Contents****Contractual Obligations and Off-Balance Sheet Arrangements**

Other than operating leases primarily utilized for certain equipment and office space, Cleveland-Cliffs does not have any off-balance sheet financing. Following is a summary of Cleveland-Cliffs' contractual obligations at December 31, 2007:

Contractual Obligations	Total	Payments Due by Period(1)			
		Less Than 1 Year	1 - 3 Years	3 - 5 Years	More Than 5 Years
			(In millions)		
Long-term debt	\$ 555.0	\$ 0.8	\$ 114.2	\$ 440.0	\$
Interest on debt(2)	122.7	23.9	48.8	50.0	
Capital lease obligations	77.4	9.7	18.8	17.1	31.8
Operating leases	77.9	18.2	31.5	16.8	11.4
Purchase obligations					
Open purchase orders	227.0	180.5	28.6	17.9	
Minimum take or pay purchase commitments(3)	517.0	144.3	177.3	130.1	65.3
Total purchase obligations	744.0	324.8	205.9	148.0	65.3
Other long-term liabilities					
Pension funding minimums	87.9	24.0	34.8	29.1	
Other postretirement benefits claim payments	125.6	16.9	24.0	22.8	61.9
Mine closure obligations	118.5	3.5	0.8	15.6	98.6
FIN 48 obligations(4)	18.7	8.3	10.4		
Personal injury	16.5	3.6	4.3	1.3	7.3
PinnOak contingent consideration	99.5		99.5		
Other(5)	201.0				
Total other long-term liabilities	667.7	56.3	173.8	68.8	167.8
Total	\$ 2,244.7	\$ 433.7	\$ 593.0	\$ 740.7	\$ 276.3

(1) Includes Cleveland-Cliffs' consolidated obligations.

(2) Interest calculated using a variable rate of 5.2 percent in 2008 and 2009 for the \$200 million term debt and 5.8 percent from 2010 to 2012. Interest calculated using a variable rate of 5.6 percent from 2008 to 2012 for the \$240 million revolving debt.

(3) Includes minimum electric power demand charges, minimum coal, diesel and natural gas obligations, minimum railroad transportation obligations, minimum port facility obligations and minimum water pipeline access

obligations for the Sonoma washplant.

- (4) Includes accrued interest.
- (5) Primarily includes income taxes payable and deferred income tax amounts for which payment timing is non-determinable.

***Significant Changes Since December 31, 2007***

As of June 30, 2008 future minimum lease payment obligations were \$111.9 million and \$97.1 million for capital and operating leases, respectively. Total minimum capital lease payments of \$111.9 million include \$1.8 million and \$110.1 million, for Cleveland-Cliffs North American Iron Ore segment and Asia-Pacific Iron Ore segment, respectively. Total minimum operating lease payments of \$97.1 million include \$79.8 million for Cleveland-Cliffs North American Iron Ore segment, \$16.3 million for Cleveland-Cliffs Asia-Pacific Iron Ore segment and \$1.0 million for Cleveland-Cliffs North American Coal segment.

## **Table of Contents**

In the second quarter of 2008, Cleveland-Cliffs finalized the purchase price allocation related to the PinnOak acquisition. As the acquisition involved a contingent earn-out, a liability was recorded totaling \$178.5 million, representing the lesser of the maximum amount of contingent consideration or the excess prior to the pro rata allocation of purchase price.

On June 25, 2008, Cleveland-Cliffs also completed the private placement of \$325 million of its senior notes. For more information regarding this issuance, see *Liquidity, Cash Flows and Capital Resources* *Liquidity* on page 161.

## **Pensions and Other Postretirement Benefits**

### ***Three and Six Months Ended June 30, 2008***

Defined benefit pension expense totaled \$5.4 million and \$9.2 million for the second quarter and first half of 2008, respectively, compared with \$5.2 million and \$10.4 million for the comparable periods in 2007. Defined benefit pension expense for the first six months of 2008 decreased from the comparable prior year period as a result of changes in the service lives of the workforce as well as favorable experience on investments and discount rates. See Note 8 of the Cleveland-Cliffs unaudited consolidated financial statements as of and for the six months ended June 30, 2008, included elsewhere in this joint proxy statement/prospectus, for further information.

Other postretirement benefits, or OPEB, expense totaled \$1.2 million and \$2.2 million for the second quarter and first half of 2008, respectively, compared with \$2.4 million and \$4.8 million for the comparable 2007 periods. The decrease in OPEB expense for both the quarter and year to date was due to changes in remaining service lives of employees and lower medical claims paid experience.

See Note 8 of the Cleveland-Cliffs unaudited consolidated financial statements as of and for the six months ended June 30, 2008, included elsewhere in this joint proxy statement/prospectus, for further information.

### ***Years Ended December 31, 2007, 2006 and 2005***

Defined benefit pension expense totaled \$17.4 million, \$23.0 million and \$18.9 million for 2007, 2006 and 2005, respectively. The decrease in defined benefit pension expense was due primarily to the effects of greater than expected asset returns, demographic gains and an increase in the assumed discount rate used to determine plan obligations.

OPEB expense totaled \$4.5 million, \$9.8 million and \$13.7 million for 2007, 2006 and 2005, respectively. The decrease in OPEB expense was due primarily to the effects of contributions made to the VEBAs during 2006, demographic gains, greater than expected asset returns and an increase in the assumed discount rate used to determine plan obligations.

See Note 8 of the Cleveland-Cliffs audited consolidated financial statements as of and for the three years ended December 31, 2007, included elsewhere in this joint proxy statement/prospectus, for further information.

## **Market Risks**

Cleveland-Cliffs is subject to a variety of risks, including those caused by changes in the market value of equity investments, changes in commodity prices, interest rates and foreign currency exchange rates. Cleveland-Cliffs has established policies and procedures to manage such risks; however, certain risks are beyond Cleveland-Cliffs' control.

### ***Foreign Currency Exchange Rate Risk***

Portman hedges a portion of its United States currency-denominated sales in accordance with a formal policy. The primary objective for using derivative financial instruments is to reduce the earnings volatility attributable to changes in Australian and United States currency fluctuations. The instruments are subject to formal documentation, intended to achieve qualifying hedge treatment, and are tested at inception and at each reporting period as to effectiveness. Changes in fair value for highly effective hedges are recorded as a component of other comprehensive income. Ineffective portions are charged to Miscellaneous net on the Statements of unaudited condensed

**Table of Contents**

consolidated operations. At June 30, 2008, Portman had \$559.2 million of outstanding exchange rate contracts in the form of call options, collar options, convertible collar options and forward exchange contracts with varying maturity dates ranging from July 2008 to May 2011, and fair value adjustments of \$44.4 million, based on the June 30, 2008 spot rate. A 100 basis point increase in the value of the Australian dollar from the month-end rate would increase the fair value by approximately \$40.1 million and a 100 basis point decrease would reduce the fair value by approximately \$49.1 million.

Cleveland-Cliffs' share of pellets produced at the Wabush operation in Canada represents approximately five percent of Cleveland-Cliffs' North American iron ore pellet production. This operation is subject to currency exchange fluctuations between the United States and Canadian currency; however, Cleveland-Cliffs does not hedge its exposure to this currency exchange fluctuation.

Cleveland-Cliffs is subject to changes in foreign currency exchange rates in Australia as a result of its operations at Portman and Sonoma, which could impact its financial condition. Foreign exchange risk arises from Cleveland-Cliffs' exposure to fluctuations in foreign currency exchange rates because its reporting currency is the United States dollar. Cleveland-Cliffs does not hedge its exposure to this currency exchange fluctuation. A hypothetical one percent movement in quoted foreign currency exchange rates could result in a fair value change of approximately \$11 million in Cleveland-Cliffs' net investment.

***Interest Rate Risk***

Interest for borrowings under Cleveland-Cliffs' credit facility is at a floating rate, dependent in part on the London Interbank Offered Rate, or LIBOR, rate, which exposes Cleveland-Cliffs to the effects of interest rate changes. Based on \$260 million in outstanding revolving and term loans at June 30, 2008 with a floating interest rate and no corresponding fixed rate swap, a 100 basis point change to the LIBOR rate would result in a change of \$2.6 million to interest expense on an annual basis.

In October 2007, Cleveland-Cliffs entered into a \$100 million fixed rate swap to convert a portion of this floating rate into a fixed rate. With the swap agreement, Cleveland-Cliffs pays a fixed three-month LIBOR rate for \$100 million of its floating rate borrowings. The interest rate swap terminates in October 2009 and qualifies as a cash flow hedge.

***Other Risks***

Cleveland-Cliffs' investment policy relating to short-term investments is to preserve principal and liquidity while maximizing the short-term return through investment of available funds. The carrying value of these investments approximates fair value on the reporting dates.

Approximately six percent of Cleveland-Cliffs' U.S. pension trust assets and two percent of Voluntary Employee Benefit Association trusts, which are referred to as VEBA, assets are exposed to sub prime risk, all of which are investment grade and fully collateralized by properties. These investments primarily include Mortgage-Backed Securities and the Home Equity subset of the Asset-Backed Securities sector with AAA and AA credit quality ratings.

The spreads of these structures have narrowed causing their market values to improve as the liquidity crisis in the U.S. has waned. In addition, the over-collateralization of the arrangements mitigates the potential for principal loss in these tranches, and the securities held have not been subject to rating downgrades to date. The U.S. pension and VEBA trusts have no allocations to mortgage-related collateralized debt obligations.

The rising cost of energy and supplies are important issues affecting Cleveland-Cliffs' production costs. Recent trends indicate that electric power, natural gas and oil costs can be expected to increase over time, although the direction and

magnitude of short-term changes are difficult to predict. Cleveland-Cliffs consolidated North American iron ore mining ventures consumed approximately 5.5 million Million British Thermal Units, or MMBTUs, of natural gas and 8.9 million gallons of diesel fuel in the first six months of 2008. As of June 30, 2008, Cleveland-Cliffs purchased or has forward purchase contracts for 6.9 million MMBTU s of natural gas, representing approximately 53 percent of Cleveland-Cliffs 2008 requirements, at an average price of \$9.66 per

## **Table of Contents**

MMBTU and 10.8 million gallons of diesel fuel, representing approximately 43 percent of Cleveland-Cliffs' annual requirements, at \$3.00 per gallon for its North American iron ore mining ventures.

Cleveland-Cliffs' strategy to address increasing energy rates includes improving efficiency in energy usage and utilizing the lowest cost alternative fuels. To counter the rising cost of fuel and shrink Cleveland-Cliffs' carbon footprint, Cleveland-Cliffs has made investments in a renewable fuel company and a small natural gas field in Kansas. Cleveland-Cliffs' North American Iron Ore mining ventures enter into forward contracts for certain commodities, primarily natural gas and diesel fuel, as a hedge against price volatility. Such contracts are in quantities expected to be delivered and used in the production process. At June 30, 2008, the notional amount of the outstanding forward contracts was \$33.5 million, with an unrecognized fair value net gain of \$20.0 million based on June 30, 2008 forward rates. The contracts mature at various times through December 2009. If the forward rates were to change 10 percent from the month-end rate, the value and potential cash flow effect on the contracts would be approximately \$5.3 million.

Cleveland-Cliffs' mining ventures enter into forward contracts for certain commodities, primarily natural gas and diesel fuel, as a hedge against price volatility. Such contracts, which are in quantities expected to be delivered and used in the production process, are a means to limit exposure to price fluctuations. At December 31, 2007, the notional amounts of the outstanding natural gas and diesel forward contracts were \$52.5 million, with an unrecognized fair value gain of \$5.7 million based on December 31, 2007 forward rates. The natural gas contracts mature at various times through September 2009 and the diesel fuel contracts mature at various times through December 2009. If the forward rates were to change 10 percent from the year-end rate, the value and potential cash flow effect on the contracts would be approximately \$5.8 million.

## **Outlook**

### ***North American Iron Ore***

Cleveland-Cliffs updated its guidance for expected 2008 per-ton pricing and costs and currently expects to realize average per-ton prices of \$90, up from its previous estimate of \$85 and an increase of 36 percent from the average price per ton of \$66 realized in 2007. This expectation is based on an annual average hot band steel price of \$775 per ton at certain steelmaking facilities. Cost per ton is estimated to average \$57 for the full year up from Cleveland-Cliffs' previous estimate of \$56, and an increase of 19 percent compared with the \$48 per-ton average reported for 2007. The higher cost per ton estimate is the result of increasing royalty payments, energy costs and maintenance activities associated with Cleveland-Cliffs' recently announced expansion at the Empire and Tilden mines in Michigan.

In 2008, Cleveland-Cliffs expects to have equity production of approximately 24 million tons and sales volume of an estimated 25 million tons as Cleveland-Cliffs sells through inventory. The increases in Cleveland-Cliffs' equity production and sales volume are a result of the Michigan operations expansion and the mid-year acquisition of the remaining 30 percent interest in United Taconite, combined with continued market strength.

### ***North American Coal***

North American Coal is expected to produce and sell approximately 4.0 million tons of metallurgical coal in 2008, a 300 thousand ton reduction from previous guidance. The decrease is a result of extended longwall development due to the timing of adding additional equipment and personnel. Average sales realization per ton is still expected to be approximately \$94. Cost per ton for the year is expected to be \$89, a three dollar increase from previous guidance, due to the reduced production outlook.

*Asia-Pacific Iron Ore*

Cleveland-Cliffs Asia-Pacific Iron Ore segment is expected to achieve average revenue per tonne of approximately \$102 in 2008. This is an 85 percent increase from the previous year's per-tonne average of \$55, and is primarily due to recent iron ore settlements in Australia of an 80 percent increase for fines and a 97 percent increase for lump ore.

## **Table of Contents**

Cleveland-Cliffs expects cost per tonne in Asia-Pacific Iron Ore to average \$58 in 2008, up 35 percent from the \$43 per-tonne average in 2007. The cost increase is primarily the result of higher royalty payments related to higher than expected year-over-year price increases, rising fuel costs and the impact of foreign exchange. Production and sales volumes are both expected to be 8.0 million tonnes.

### ***Sonoma***

Cleveland-Cliffs has a 45 percent economic interest in Sonoma and expects total production of approximately 2.0 million tonnes for 2008. With recent reports of significant year-over-year increases in pricing for metallurgical coal, Sonoma is expected to benefit and generate average revenue of \$142 per tonne in 2008, an increase from Cleveland-Cliffs' previous guidance of \$129 per tonne. Cleveland-Cliffs' outlook for Sonoma includes a mix of metallurgical and thermal coal.

Costs at Sonoma are projected at approximately \$92 per tonne for 2008, up from Cleveland-Cliffs' previous estimate of \$83 per tonne. The higher cost is the result of expenses attributed to changes in mine operations related to increasing the production ratio of metallurgical versus thermal coal.

### ***Amapá***

Amapá, a project between MMX and Cleveland-Cliffs, began production in late-December 2007. Cleveland-Cliffs owns a 30 percent interest in the project. Production and sales are expected to total approximately three million tonnes for the full year. Based on start-up delays and production levels, Cleveland-Cliffs expects to incur equity losses in 2008. Amapá is expected to produce at the 6.5 million tonnes design level in 2009.

### ***Other Expectations***

Total operating expenses are anticipated to be approximately \$140 million in 2008, comprised of selling, general and administrative expenses offset by casualty recoveries, royalties and gain on sale of assets. Cleveland-Cliffs anticipates an effective tax rate of approximately 26 percent for the year. Cleveland-Cliffs also expects 2008 capital expenditures of approximately \$250 million and depreciation and amortization of approximately \$190 million. The increase from the previous estimate of \$200 million of capital expenditures is related to the recently announced Empire and Tilden mine-expansion project, upgrades on the rail line at Portman between the operations and the port, and longwall system down payments at Cleveland-Cliffs' Pinnacle mine.

### **Recently Issued Accounting Pronouncements**

In May 2008, Financial Accounting Standards Board, or FASB, issued FASB Statement No. 162, *The Hierarchy of Generally Accepted Accounting Principles*, referred to as SFAS 162. SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with GAAP. SFAS 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board's related amendments to remove the GAAP hierarchy from auditing standards, where it has previously resided. Cleveland-Cliffs is evaluating the impact SFAS 162 will have on Cleveland-Cliffs' consolidated financial statements upon adoption, but does not expect this Statement to result in a material change in current practice.

In April 2008, the FASB issued FASB Staff Position, which is referred to as FSP, No. FAS 142-3, *Determination of the Useful Life of Intangible Assets*. This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*, referred to as SFAS 142. The objective of this FSP is to improve the

consistency between the useful life of a recognized intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS 141(R), and other U.S. GAAP. This FSP applies to all intangible assets, whether acquired in a business combination or otherwise and shall be effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years and applied prospectively to intangible assets acquired after the effective date. Early adoption is prohibited. Cleveland-Cliffs is currently evaluating the impact adoption of this FSP will have on Cleveland-Cliffs consolidated financial statements.

**Table of Contents**

In March 2008, the FASB issued Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133*, referred to as SFAS 161. This Statement amends and expands the disclosure requirements of Statement 133 to provide users of financial statements with an enhanced understanding of how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations and how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. The new requirements apply to derivative instruments and non-derivative instruments that are designated and qualify as hedging instruments and related hedged items accounted for under SFAS 133. The Statement is effective for fiscal years and interim periods beginning after November 15, 2008. Early application is encouraged. Cleveland-Cliffs is currently evaluating the impact adoption of this Statement will have on Cleveland-Cliffs' consolidated financial statements.

In February 2008, the FASB issued FASB Staff Position 157-1, *Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13*, referred to as FSP 157-1. FSP 157-1 amends SFAS 157 to remove certain leasing transactions from its scope. In addition, on February 12, 2008, the FASB issued FSP FAS 157-2, *Effective Date of FASB Statement No. 157*, which amends SFAS 157 by delaying its effective date by one year for non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis. This pronouncement was effective upon issuance. Cleveland-Cliffs has deferred the adoption of SFAS 157 with respect to all non-financial assets and liabilities in accordance with the provisions of this pronouncement. On January 1, 2009, SFAS 157 will be applied to all other fair value measurements for which the application was deferred under FSP FAS 157-2. Cleveland-Cliffs is currently assessing the impact SFAS 157 will have in relation to non-financial assets and liabilities on Cleveland-Cliffs' consolidated financial statements. See Note 11 of the Cleveland-Cliffs unaudited consolidated financial statements as of and for the six months ended June 30, 2008, included elsewhere in this joint proxy statement/prospectus, for further information.

FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an Amendment of FASB Statement No. 115*, referred to as SFAS 159, became effective on January 1, 2008. This standard permits entities to choose to measure many financial instruments and certain other items at fair value. While SFAS 159 became effective for its 2008 fiscal year, Cleveland-Cliffs did not elect the fair value measurement option for any of its financial assets or liabilities. Therefore, adoption of this Statement did not have a material impact on Cleveland-Cliffs' consolidated financial statements.

In December 2007, the FASB issued Statement No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51*. This Statement amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. Cleveland-Cliffs is evaluating the impact of this Statement on its consolidated financial statements.

In December 2007, the FASB issued Statement No. 141 (revised 2007), *Business Combinations*. This Statement establishes principles and requirements for how the acquirer in a business combination recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree at the acquisition date fair value. SFAS 141R determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Early adoption is not permitted.

In December 2007, the EITF ratified Issue No. 07-1, *Accounting for Collaborative Arrangements*, (EITF 07-1). The Issue defines collaborative arrangements and establishes reporting requirements for transactions between participants in a collaborative arrangement and between participants in the arrangement and third parties. The

## **Table of Contents**

ratification of EITF is effective for fiscal years beginning after December 15, 2008 and interim periods within those fiscal years. Cleveland-Cliffs is evaluating the impact of this Issue on its consolidated financial statements.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Liabilities Including an Amendment of FASB Statement No. 115*. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The Statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. The Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted. Cleveland-Cliffs does not expect adoption of this Statement to have a material impact on its consolidated financial statements.

In September 2006, the FASB issued Statement No. 157, *Accounting for Fair Value Measurements*. SFAS 157 clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements would be separately disclosed by level within the fair value hierarchy. SFAS 157 is effective for financial assets and liabilities, as well as for any other assets and liabilities that are carried at fair value on a recurring basis in financial statements for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years, with early adoption permitted. The FASB provided a one-year deferral for the implementation of SFAS 157 for other non-financial assets and liabilities. Cleveland-Cliffs does not expect adoption of this Statement to have a material impact on its consolidated financial statements.

On March 17, 2005, the EITF reached consensus on Issue No. 04-6, *Accounting for Stripping Costs Incurred during Production in the Mining Industry*, (EITF 04-6). The consensus clarified that stripping costs incurred during the production phase of a mine are variable production costs that should be included in the cost of inventory. The consensus, which was effective for reporting periods beginning after December 15, 2005, permitted early adoption. At its June 29, 2005 meeting, FASB ratified a modification to EITF 04-6 to clarify that the term "inventory produced" means "inventory extracted." Cleveland-Cliffs elected to adopt EITF 04-6 in 2005. As a result, Cleveland-Cliffs recorded an after-tax cumulative effect adjustment of \$5.2 million or \$.09 per diluted share, and increased product inventory by \$8.0 million effective January 1, 2005.

## **Critical Accounting Estimates**

See Note 1 of the Cleveland-Cliffs audited consolidated financial statements as of and for the year ended December 31, 2007 and Notes 1 and 2 of the Cleveland-Cliffs unaudited consolidated financial statements as of and for the six months ended June 30, 2008, which are included elsewhere in this joint proxy statement/prospectus.

Management's discussion and analysis of financial condition and results of operations is based on Cleveland-Cliffs consolidated financial statements, which have been prepared in accordance with the generally accepted accounting principles in the United States, or GAAP. Preparation of financial statements requires management to make assumptions, estimates and judgments that affect the reported amounts of assets, liabilities, revenues, costs and expenses, and the related disclosures of contingencies. Management bases its estimates on various assumptions and historical experience, which are believed to be reasonable; however, due to the inherent nature of estimates, actual results may differ significantly due to changed conditions or assumptions. On a regular basis, management reviews the accounting policies, assumptions, estimates and judgments to ensure that Cleveland-Cliffs' financial statements are fairly presented in accordance with GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from Cleveland-Cliffs' assumptions and estimates, and such differences could be material. Management believes that the following critical accounting estimates and judgments have a significant impact on Cleveland-Cliffs' financial statements.

**Revenue Recognition**

*North American Iron Ore*

Revenue is recognized on the sale of products when title to the product has transferred to the customer in accordance with the specified provisions of each term supply agreement and all applicable criteria for revenue

**Table of Contents**

recognition have been satisfied. Most of our North American Iron Ore term supply agreements provide that title transfers to the customer when payment is received. Under some term supply agreements, we ship the product to ports on the lower Great Lakes and/or to the customer's facilities prior to the transfer of title. Certain supply agreements with one customer include provisions for supplemental revenue or refunds based on the customer's annual steel pricing at the time the product is consumed in the customer's blast furnaces. We account for this provision as a derivative instrument at the time of sale and record this provision at fair value until the product is consumed and the amounts are settled as an adjustment to revenue.

Most of Cleveland-Cliffs' North American Iron Ore long-term supply agreements are comprised of a base price with annual price adjustment factors. These price adjustment factors vary from agreement to agreement but typically include adjustments based upon changes in international pellet prices, changes in specified Producers Price Indices including those for all commodities, industrial commodities, energy and steel. The adjustments generally operate in the same manner, with each factor typically comprising a portion of the price adjustment, although the weighting of each factor varies from agreement to agreement. One of Cleveland-Cliffs' term supply agreements contains price collars, which typically limit the percentage increase or decrease in prices for Cleveland-Cliffs' iron ore pellets during any one year. In most cases, these adjustment factors have not been finalized at the time Cleveland-Cliffs' product is sold; Cleveland-Cliffs routinely estimate these adjustment factors. The price adjustment factors have been evaluated as embedded derivatives. Cleveland-Cliffs evaluated the embedded derivatives in the supply agreements in accordance with the provisions of Statement of Financial Accounting Standards, or SFAS, 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended by SFAS 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities* — an amendment of FASB Statement No. 133. The price adjustment factors share the same economic characteristics and risks as the host contract and are integral to the host contract as inflation adjustments; accordingly they have not been separately valued as derivative instruments. Certain supply agreements with one customer include provisions for supplemental revenue or refunds based on the customer's annual steel pricing for the year the product is consumed in the customer's blast furnaces. Cleveland-Cliffs accounts for this provision as derivative instruments at the time of sale and record this provision at fair value until the year the product is consumed and the amounts are settled as an adjustment to revenue.

Under some North American term supply agreements, Cleveland-Cliffs ships the product to ports on the Great Lakes and/or to the customer's facilities prior to the transfer of title. Cleveland-Cliffs' rationale for shipping iron ore products to some customers in advance of payment for the products is to minimize credit risk exposure. Generally, Cleveland-Cliffs' North American term supply agreements specify that title and risk of loss pass to the customer when payment for the pellets is received. This is a practice utilized to reduce Cleveland-Cliffs' financial risk to customer insolvency.

Revenue from product sales includes cost reimbursements from venture partners for their share of mine costs. The mining ventures function as captive cost companies; they supply product only to their owners effectively on a cost basis. Accordingly, the minority interests' revenue amounts are stated at cost of production and are offset in entirety by an equal amount included in cost of goods sold resulting in no profits or losses reflected in minority interest participants. As Cleveland-Cliffs is responsible for product fulfillment, Cleveland-Cliffs has the risks and rewards of a principal in the transaction and accordingly Cleveland-Cliffs records revenue in this arrangement on a gross basis in accordance with Emerging Issues Task Force, or EITF, 99-19, *Reporting Revenue Gross as a Principal Versus Net as an Agent*, under the line item "Freight and other reimbursements".

Revenue from product sales also includes reimbursement for freight charges paid on behalf of customers in *Freight and Venture Partners' Cost Reimbursements* separate from product revenue, in accordance with EITF 00-10, *Accounting for Shipping and Handling Fees and Costs*. Where Cleveland-Cliffs is joint venture participant in the ownership of a North American iron ore mine, Cleveland-Cliffs' contracts entitle Cleveland-Cliffs to receive royalties and management fees, which Cleveland-Cliffs earns as the pellets are produced.

## **Table of Contents**

### *North American Coal*

For domestic coal sales, revenue is recognized when title passes to the customer. This generally occurs when coal is loaded into rail cars at the mine. For export coal sales, this generally occurs when coal is loaded into the vessel at the terminal.

### *Asia-Pacific Iron Ore*

Portman's sales revenue is recognized at the free on board, or F.O.B., point, which is generally when the product is loaded into the vessel. Foreign currency revenues are converted to Australian dollars at the currency exchange rate in effect at the time of the transaction.

Certain supply agreements primarily with our Asia-Pacific customers provide for revenue or refunds based on the ultimate settlement of annual international benchmark pricing provisions. The pricing provisions are characterized as freestanding derivatives and are required to be accounted for separately once iron ore is shipped. The derivative instrument, which is settled and billed once the annual international benchmark price is settled, is marked to fair value as a revenue adjustment each reporting period based upon the estimated forward settlement until the benchmark is actually settled.

### **Litigation Accruals**

Cleveland-Cliffs is subject to proceedings, lawsuits and other claims. Cleveland-Cliffs is required to assess the likelihood of any adverse judgments or outcomes to these matters as well as the potential ranges of probable losses. A determination of the amount of accrual required, if any, for these contingencies is made after careful analysis of each matter. The required accrual may change in the future due to new developments in each matter or changes in approach, such as a change in settlement strategy in dealing with these matters. Cleveland-Cliffs does not believe that any such matter will have a material adverse effect on Cleveland-Cliffs' financial condition or results of operations.

### **Tax Contingencies**

Domestic and foreign tax authorities periodically audit Cleveland-Cliffs' income tax returns. These audits include questions regarding Cleveland-Cliffs' tax-filing positions, including the timing and amount of deductions and allocation of income among various tax jurisdictions. At any time, multiple tax years are subject to audit by the various tax authorities. In evaluating the exposures associated with Cleveland-Cliffs' various tax-filing positions, Cleveland-Cliffs records reserves for exposures where a position taken has not met a more-likely-than-not threshold. A number of years may elapse before a particular matter, for which Cleveland-Cliffs has established a reserve, is audited and fully resolved. When facts change or the actual results of a settlement with tax authorities differs from Cleveland-Cliffs' established reserve for a matter, Cleveland-Cliffs adjusts its tax contingencies reserve and income tax provision in the period in which the facts changed or the income tax matter is resolved.

Prior to 2007, Cleveland-Cliffs recorded estimated tax liabilities to the extent they were probable and could be reasonably estimated. On January 1, 2007, Cleveland-Cliffs adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, referred to as FIN 48. The effects of applying this Interpretation resulted in a decrease of \$7.7 million to retained earnings as of January 1, 2007. FIN 48 prescribes a more-likely-than-not threshold for financial statement recognition and measurement of a tax position taken (or expected to be taken in a tax return). This Interpretation also provides guidance on derecognition of income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods and income tax disclosures.

**Mineral Reserves**

Cleveland-Cliffs regularly evaluates its economic mineral reserves and updates them as required in accordance with SEC Industry Guide 7. The estimated mineral reserves could be affected by future industry conditions, geological conditions and ongoing mine planning. Maintenance of effective production capacity or the mineral reserve could require increases in capital and development expenditures. Generally as mining operations progress,

## **Table of Contents**

haul lengths and lifts increase. Alternatively, changes in economic conditions, or the expected quality of ore reserves could decrease capacity or ore reserves. Technological progress could alleviate such factors, or increase capacity or ore reserves.

Cleveland-Cliffs uses its mineral reserve estimates combined with its estimated annual production levels, to determine the mine closure dates utilized in recording the fair value liability for asset retirement obligations. See Note 5 of the Cleveland-Cliffs audited consolidated financial statements as of and for the three years ended December 31, 2007, included elsewhere in this joint proxy statement/prospectus, for further information.

Since the liability represents the present value of the expected future obligation, a significant change in mineral reserves or mine lives would have a substantial effect on the recorded obligation. Cleveland-Cliffs also utilizes economic mineral reserves for evaluating potential impairments of mine assets and in determining maximum useful lives utilized to calculate depreciation and amortization of long-lived mine assets. Decreases in mineral reserves or mine lives could significantly affect these items.

### **Asset Retirement Obligations**

The accrued mine closure obligations for Cleveland-Cliffs' active mining operations provide for contractual and legal obligations associated with the eventual closure of the mining operations. Cleveland-Cliffs' obligations are determined based on detailed estimates adjusted for factors that an outside party would consider (i.e., inflation, overhead and profit), which were escalated (at an assumed three percent) to the estimated closure dates, and then discounted using a credit-adjusted risk-free interest rate for the initial estimates. The estimate at December 31, 2007 and 2006 included incremental increases in the closure cost estimates and changes in estimates of mine lives. The closure date for each location was determined based on the exhaustion date of the remaining iron ore reserves. The estimated obligations are particularly sensitive to the impact of changes in mine lives given the difference between the inflation and discount rates. Changes in the base estimates of legal and contractual closure costs due to changed legal or contractual requirements, available technology, inflation, overhead or profit rates would also have a significant impact on the recorded obligations. See Note 5 of the Cleveland-Cliffs audited consolidated financial statements as of and for the three years ended December 31, 2007, included elsewhere in this joint proxy statement/prospectus, for further information.

### **Asset Impairment**

Cleveland-Cliffs monitors conditions that indicate that the carrying value of an asset or asset group may be impaired. Cleveland-Cliffs determines impairment based on the asset's ability to generate cash flow greater than its carrying value, utilizing an undiscounted probability-weighted analysis. If the analysis indicates the asset is impaired, the carrying value is adjusted to fair value. Fair value can be determined by market value and also comparable sales transactions or using a discounted cash flow method. The impairment analysis and fair value determination can result in significantly different outcomes based on critical assumptions and estimates including the quantity and quality of remaining economic ore reserves, future iron ore prices and production costs.

### **Environmental Remediation Costs**

Cleveland-Cliffs has a formal policy for environmental protection and restoration. Cleveland-Cliffs' obligations for known environmental problems at active and closed mining operations and other sites have been recognized based on estimates of the cost of investigation and remediation at each site. If the estimate can only be estimated as a range of possible amounts, with no specific amount being most likely, the minimum of the range is accrued. Management reviews its environmental remediation sites quarterly to determine if additional cost adjustments or disclosures are required. The characteristics of environmental remediation obligations, where information concerning the nature and

extent of clean-up activities is not immediately available, or changes in regulatory requirements, result in a significant risk of increase to the obligations as they mature. Expected future expenditures are not discounted to present value unless the amount and timing of the cash disbursements are readily known. Potential insurance recoveries are not recognized until realized.

**Table of Contents****Employee Retirement Benefit Obligations**

Cleveland-Cliffs and its North American Iron Ore mining ventures sponsor defined benefit pension plans covering substantially all North American employees. These plans are largely noncontributory, and benefits are generally based on employees' years of service and average earnings for a defined period prior to retirement. Cleveland-Cliffs does not provide OPEB for most U.S. salaried employees hired after January 1, 1993.

Pursuant to a 2003 asset purchase agreement with the previous owner, PinnOak assumed postretirement benefits for certain employees who will vest more than five years after the asset purchase date of June 30, 2003. Postretirement benefits for vested employees and those that will vest within the five-year period subsequent to the acquisition date remain obligations of the previous owner. PinnOak records a provision for estimated postretirement benefits for employees not covered by the asset purchase agreement with the former owner based upon annual valuations.

Portman does not have employee retirement benefit obligations.

On September 12, 2006, Cleveland-Cliffs' board of directors approved modifications to the pension benefits provided to salaried participants. The modifications retroactively reinstated the final average pay benefit formula (previously terminated and replaced with a cash balance formula in July 2003) to allow for additional accruals through June 30, 2008 or the continuation of benefits under an improved cash balance formula, whichever is greater. The change increased the projected benefit obligation, or PBO, by \$15.1 million and pension expense by \$1.1 million in 2006. Following is a summary of Cleveland-Cliffs' defined benefit pension and OPEB funding and expense for the years 2005 through 2008:

	Pension		OPEB	
	Funding	Expense	Funding	Expense
	(In millions)			
2005	\$ 38.1	\$ 18.9	\$ 29.2	\$ 13.7
2006	40.7	23.0	30.4	9.8
2007	32.5	17.4	23.0	4.5
2008 (Estimated)	24.4	15.4	16.0	3.9

Assumptions used in determining the benefit obligations and the value of plan assets for defined benefit pension plans and postretirement benefit plans (primarily retiree healthcare benefits) offered by Cleveland-Cliffs are evaluated periodically by management. Critical assumptions, such as the discount rate used to measure the benefit obligations, the expected long-term rate of return on plan assets, and the medical care cost trend are reviewed annually. At December 31, 2007, Cleveland-Cliffs increased Cleveland-Cliffs' discount rate for U.S. plans to 6.00 percent from 5.75 percent at December 31, 2006. Additionally, Cleveland-Cliffs adopted the IRS static 2023/2015 (separate pre-retirement and postretirement) table on December 31, 2007, to determine the expected life of Cleveland-Cliffs plan participants, replacing the 1994 GAM table. Following are sensitivities on estimated 2008 pension and OPEB expense of potential further changes in these key assumptions:

**Increase in 2008  
Expense  
Pension OPEB  
(In millions)**

Decrease discount rate .25 percent	\$ 1.5	\$ 0.4
Decrease return on assets 1 percent	5.8	1.3
Increase medical trend rate 1 percent	N/A	4.1

Changes in actuarial assumptions, including discount rates, employee retirement rates, mortality, compensation levels, plan asset investment performance, and healthcare costs, are determined by Cleveland-Cliffs based on analyses of actual and expected factors. Changes in actuarial assumptions and/or investment performance of plan assets can have a significant impact on Cleveland-Cliffs' financial condition due to the magnitude of Cleveland-Cliffs' retirement obligations. See Note 8 of the Cleveland-Cliffs audited consolidated financial statements as of and for the three years ended December 31, 2007 for further information.

**Table of Contents**

**Accounting for Business Combinations**

In July 2007, Cleveland-Cliffs completed the acquisition of PinnOak. Cleveland-Cliffs allocated the purchase price to assets acquired and liabilities assumed based on their relative fair value at the date of acquisition, pursuant to SFAS 141, Business Combinations. In estimating the fair value of the assets acquired and liabilities assumed, Cleveland-Cliffs considers information obtained during Cleveland-Cliffs' due diligence process and utilize various valuation methods, including market prices, where available, comparisons to transactions for similar assets and liabilities and present value of estimated future cash flows. Cleveland-Cliffs is required to make subjective estimates in connection with these valuations and allocations.

**Table of Contents****SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT****Alpha**

You should review Alpha's disclosures about security ownership of certain of its beneficial owners and management, which are incorporated by reference in this joint proxy statement/prospectus. See "Where You Can Find More Information" on page 238.

**Cleveland-Cliffs*****Share Ownership by Management and Directors***

As of August 11, 2008, the directors and executive officers of Cleveland-Cliffs controlled the voting interests of the following stock (the percentages of beneficial ownership set forth below are based on 106,720,512 common shares of Cleveland-Cliffs issued and outstanding as of August 11, 2008):

**Directors**

<b>(Excluding Those Who are also Named Executive Officers)</b>	<b>Beneficial Ownership(1)</b>	<b>Investment Power</b>		<b>Voting Power</b>		<b>Percent of Class(2)</b>

(1)

Under the rules of the SEC, beneficial ownership includes having or sharing with others the power to vote or direct the investment of securities. Accordingly, a person having or sharing the power to vote or direct the investment of securities is deemed to beneficially own the securities even if he or she has no right to receive any part of the dividends on or the proceeds from the sale of the securities. Also, because beneficial ownership extends to persons, such as co-trustees under a trust, who share power to vote or control the disposition of the securities, the very same securities may be deemed beneficially owned by two or more persons shown in the table. Information with respect to beneficial ownership shown in the table above is based upon information supplied by Cleveland-Cliffs directors, nominees and executive officers and filings made with the SEC or furnished to Cleveland-Cliffs by any shareholder.

(2) Less than one percent, except as otherwise indicated.

**Table of Contents**

- (3) Of the 1,144,422 shares deemed under the rules of the SEC to be beneficially owned by Mr. Ireland, he is a beneficial holder of 45,966 shares. The remaining 1,098,456 shares are held in trusts, substantially for the benefit of a charitable foundation, as to which Mr. Ireland is a co-trustee with shared voting and investment powers. Of such shares in trusts, Mr. Ireland has an interest in the income or corpus with respect to 93,698 shares.

***Stock Ownership of Certain Beneficial Owners (Other than Management and Directors)***

The following table sets forth as of August 11, 2008, the beneficial ownership of Cleveland-Cliffs common shares by persons known to Cleveland-Cliffs to be beneficial owners of more than 5% of outstanding Cleveland-Cliffs common shares, other than Cleveland-Cliffs directors and officers. The percentages of beneficial ownership set forth below are based on 106,720,512 common shares of Cleveland-Cliffs issued and outstanding as of August 11, 2008:

Name and Address	Beneficial Ownership(1)	Investment Power		Voting Power		Percent of Class
		Sole	Shared	Sole	Shared	
Harbinger Capital Partners Master Fund I, Ltd.(2) c/o International Fund Services (Ireland) Limited, Third Floor, Bishop s Square, Redmond s Hill, Dublin, L2, Ireland	16,616,472		16,616,472		16,616,472	15.57%

- (1) Under the rules of the SEC, beneficial ownership includes having or sharing with others the power to vote or direct the investment of securities. Accordingly, a person having or sharing the power to vote or direct the investment of securities is deemed to beneficially own the securities even if he or she has no right to receive any part of the dividends on or the proceeds from the sale of the securities. Also, because beneficial ownership extends to persons, such as co-trustees under a trust, who share power to vote or control the disposition of the securities, the very same securities may be deemed beneficially owned by two or more persons shown in the table. Information with respect to beneficial ownership shown in the table above is based upon information supplied by Cleveland-Cliffs directors, nominees and executive officers and filings made with the SEC or furnished to Cleveland-Cliffs by any shareholder.
- (2) The information shown above and in this footnote was taken from Schedule 13D, dated July 17, 2008, as filed with the SEC on July 18, 2008 jointly by Harbinger Capital Partners Master Fund I, Ltd., Harbinger Capital Partners Offshore Manager, L.L.C., HMC Investors, L.L.C., Harbinger Capital Partners Special Situations Fund, L.P., Harbinger Capital Partners Special Situations GP, LLC, Harbert Management Corporation, Phillip Falcone, Raymond J. Harbert, and Michael Luce. The address for contacting Phillip Falcone, the Harbinger Capital Partners Special Situations GP, LLC, and Harbinger Capital Partners Special Situations Fund, L.P., is 555 Madison Avenue, 16th Floor, New York, NY 10022. The principal business address for Harbinger Manager, HMC Investors, Harbert Management Corporation, Raymond J. Harbert, and Michael D. Luce is 2100 Third Avenue North, Suite 600, Birmingham, AL, 35203.

**Table of Contents****MANAGEMENT****Information About Executive Officers and Directors of Cleveland-Cliffs**

The following table sets forth information concerning the individuals who serve as Cleveland-Cliffs executive officers and directors as of August 11, 2008.

<b>Name</b>	<b>Age</b>	<b>Position(s)</b>
<b>Executive Officers</b>		
Joseph A. Carrabba	55	Chairman, President and Chief Executive Officer
Laurie Brlas	50	Executive Vice President Chief Financial Officer
Donald J. Gallagher	56	President, North American Business Unit
William A. Brake, Jr.	48	Executive Vice President Cleveland-Cliffs Metallics and Chief Technical Officer
William R. Calfee	61	Executive Vice President Commercial, North American Iron Ore
William C. Boor	42	Senior Vice President Business Development
Randy L. Kummer	51	Senior Vice President Human Resources
Duke D. Vetor	50	Senior Vice President North American Coal
George W. Hawk, Jr.	51	General Counsel and Secretary
<b>Directors</b>		
Ronald C. Cambre	69	Director
Joseph A. Carrabba	55	Director
Susan M. Cunningham	52	Director
Barry J. Eldridge	62	Director
Susan M. Green	48	Director
James D. Ireland III	58	Director
Francis R. McAllister	65	Director
Roger Phillips	68	Director
Richard K. Riederer	64	Director
Alan Schwartz	68	Director

There is no family relationship between any of Cleveland-Cliffs executive officers, or between any of Cleveland-Cliffs executive officers and any of Cleveland-Cliffs directors. Officers are elected to serve until successors have been elected. All of the above-named executive officers were elected effective on the dates listed below for each such officer. Each Cleveland-Cliffs director is elected for a one-year term expiring at the Cleveland-Cliffs 2009 annual meeting and continues in office until his or her successor has been elected and qualified, or until his or her earlier death, resignation or retirement.

*Joseph A. Carrabba* has been Chairman, President and Chief Executive Officer of Cleveland-Cliffs since May 8, 2007. Mr. Carrabba served as Cleveland-Cliffs President and Chief Executive Officer from September 2006 through May 8, 2007 and as Cleveland-Cliffs President and Chief Operating Officer from May 2005 to September 2006. Mr. Carrabba previously served as President and Chief Operating Officer of Diavik Diamond Mines, Inc. from April 2003 to May 2005 and General Manager of Weipa Bauxite Operation of Comalco Aluminum from March 2000 to April 2003, both subsidiaries of Rio Tinto plc., an international mining group. Mr. Carrabba is a Director of Newmont

Mining Corporation.

*Laurie Brlas* has served as Executive Vice President Chief Financial Officer of Cleveland-Cliffs since March 2008. Ms. Brlas served as Cleveland Cliffs Senior Vice President Chief Financial Officer from October 2007 through March 2008. From December 2006 to October 2007, Ms. Brlas served as Senior Vice President Chief Financial Officer and Treasurer of Cleveland-Cliffs. From April 2000 to December 2006, Ms. Brlas was

**Table of Contents**

Senior Vice President Chief Financial Officer of STERIS Corporation. In addition, Ms. Brlas is a director of Perrigo Company.

*Donald J. Gallagher* has served as President, North American Business Unit of Cleveland-Cliffs since November 2007. From December 2006 to November 2007, Mr. Gallagher served as President, North American Iron Ore. From July 2006 to December 2006, Mr. Gallagher served as President, North American Iron Ore, and Acting Chief Financial Officer and Treasurer of Cleveland-Cliffs. From May 2005 to July 2006, Mr. Gallagher was Executive Vice President, Chief Financial Officer and Treasurer of Cleveland-Cliffs. From July 2003 to May 2005, Mr. Gallagher served as Senior Vice President, Chief Financial Officer and Treasurer of Cleveland-Cliffs. From August 1998 to July 2003, Mr. Gallagher served as Vice President Sales of Cleveland-Cliffs.

*William A. Brake, Jr.* has served as Executive Vice President, Cleveland-Cliffs Metallics and Chief Technical Officer of Cleveland-Cliffs since April 2007. From January 2006 to August 2006, Mr. Brake was Executive Vice President Operations of Mittal Steel USA and from March 2005 to January 2006, he served as Executive Vice President Operations East at Mittal Steel USA. From March 2003 to March 2005, Mr. Brake was Vice President & General Manager of International Steel Group. From April 2002 to March 2003, Mr. Brake was a Division Manager Hot Rolling at International Steel Group.

*William C. Boor* has served as Senior Vice President, Business Development of Cleveland-Cliffs since May 2007. Mr. Boor served as Executive Vice President Strategy and Development at American Gypsum Co. (a subsidiary of Eagle Materials Inc.) from February 2005 to April 2007 and Senior Vice President Corporate Development and Investor Relations at Eagle Materials Inc. from May 2002 to February 2005.

*Randy L. Kummer* has served as Senior Vice President Human Resources of Cleveland-Cliffs since January 2003.

*Duke D. Vektor* has served as Senior Vice President, North American Coal of Cleveland-Cliffs since November 2007. From July 2006 to November 2007, Mr. Vektor served as Vice President Operations North American Iron Ore of Cleveland-Cliffs. Mr. Vektor was General Manager of Safety and Operations Improvement of Cleveland-Cliffs from December, 2005 to July 2006. From 2003 to November 2005, Mr. Vektor served as Vice President Operations of Diavik Diamond Mines.

*George W. Hawk, Jr.* has served as General Counsel and Secretary of Cleveland-Cliffs since January 2005. Prior to that, Mr. Hawk served as Assistant General Counsel and Secretary of Cleveland-Cliffs from August 2003 to December 2004 and Assistant General Counsel of Cleveland-Cliffs from February 2003 to July 2003. From 1998 to 2003, Mr. Hawk was Deputy General Counsel of Lincoln Electric Holdings, Inc.

*Ronald C. Cambre* has been a director of Cleveland-Cliffs since 1996. Mr. Cambre is a former Chairman of the Board of Newmont Mining Corporation, an international mining company (from January 1995 through December 2001). Mr. Cambre also served as Chief Executive Officer of Newmont Mining Corporation, from November 1993 to December 2000. Mr. Cambre is a Director of W. R. Grace & Co. and McDermott International, Inc.

*Susan M. Cunningham* has been a director of Cleveland-Cliffs since 2005. Ms. Cunningham has served as Senior Vice President of Exploration of Noble Energy Inc., an international oil and gas exploration and production company, since May 2007. Ms. Cunningham served as Senior Vice President of Exploration and Corporate Reserves of Noble Energy Inc. from October 2005 to May 2007. From 2001 to 2005, Ms. Cunningham served as Senior Vice President of Exploration of Noble Energy Inc.

*Barry J. Eldridge* has been a director of Cleveland-Cliffs since 2005. Mr. Eldridge is a former Managing Director and Chief Executive Officer of Portman, an international iron ore mining company in Australia (from October 2002

through April 2005). Mr. Eldridge is Chairman of Vulcan Resources Ltd. and Wedgetail Mining Limited and is Director of Mundo Minerals Limited, all of which are listed on the Australian Stock Exchange.

*Susan M. Green* has been a director of Cleveland-Cliffs since 2007. Ms. Green has been Deputy General Counsel at the U.S. Congressional Office of Compliance since November 2007. Ms. Green served as Aide to Councilmember Nancy Floreen, Montgomery County, Maryland from December 2002 to August 2005. Ms. Green was originally proposed as a nominee for the Board of Directors by the United Steelworkers, pursuant to the terms of Cleveland-Cliffs 2004 labor agreement.

## **Table of Contents**

*James D. Ireland III* has been a director of Cleveland-Cliffs since 1986. Mr. Ireland has been Managing Director since January 1993 of Capital One Partners, Inc., a private equity investment firm, which through an affiliate, serves as the General Partner of Early Stage Partners I and II L.P., two venture capital investment partnerships. Mr. Ireland is a Director of OurPets Co.

*Francis R. McAllister* has been a director of Cleveland-Cliffs since 1996. Mr. McAllister has been Chairman and Chief Executive Officer of Stillwater Mining Company, a palladium and platinum producer, since February 2001. Mr. McAllister is a Director of Stillwater Mining Company.

*Roger Phillips* has been a director of Cleveland-Cliffs since 2002. Mr. Phillips is a former President and Chief Executive Officer of IPSCO Inc., a North American steel producing company (from 1982 through 2002). Mr. Phillips is a Director of Canadian Pacific Railway Limited, Imperial Oil Limited and Toronto Dominion Bank.

*Richard K. Riederer* has been a director of Cleveland-Cliffs since 2002. Mr. Riederer has been Chief Executive Officer of RKR Asset Management, a consulting organization, since June 2006. Mr. Riederer served as Chief Executive Officer from January 1996, and President from January 1995 through February 2001, of Weirton Steel Corporation, a steel producing company. Mr. Riederer is a Director of First American Funds and the Boler Company, Chairman and Director of Idea Foundry, and serves on the Board of Trustees of Franciscan University of Steubenville.

*Alan Schwartz* has been a director of Cleveland-Cliffs since 1991. Mr. Schwartz has been a Professor of Law at the Yale Law School and Professor at the Yale School of Management since 1987.

## **Appointment of Additional Directors and Officers After the Merger**

Under the merger agreement, the Cleveland-Cliffs board of directors is required as of the effective time of the merger to take all actions as may be required to appoint Michael J. Quillen (to serve as non-executive vice-chairman) and Glenn A. Eisenberg to the Cleveland-Cliffs board of directors. Further, the merger agreement provides that as of the effective time of the merger, Cleveland-Cliffs will take all actions as may be required to appoint Kevin S. Crutchfield as president of the coal division of Cleveland-Cliffs.

Michael J. Quillen (age 59) has served as Alpha's Chief Executive Officer and a member of the Alpha board since its formation in November 2004 and served as Alpha's President until January 2007. He was named Chairman of Alpha's board in October 2006. Mr. Quillen joined the Alpha management team as President and the sole manager of Alpha Natural Resources, LLC, Alpha's top-tier operating subsidiary, in August 2002, and has served as Chief Executive Officer of Alpha Natural Resources, LLC since January 2003. From September 1998 to December 2002, Mr. Quillen was Executive Vice President - Operations of AMCI, a mining and marketing company. While at AMCI, he was also responsible for the development of AMCI's Australian properties. Mr. Quillen has over 30 years of experience in the coal industry starting as an engineer. He has held senior executive positions in the coal industry throughout his career, including as Vice President - Operations of Pittston Coal Company, President of Pittston Coal Sales Corp., Vice President of AMVEST Corporation, Vice President - Operations of NERCO Coal Corporation, President and Chief Executive Officer of Addington, Inc. and Manager of Mid-Vol Leasing, Inc. Mr. Quillen was elected to the board of directors of Martin Marietta Materials, Inc., a leading producer of construction aggregates in the United States, in February 2008.

Glenn A. Eisenberg (age 46) has been a member of the Alpha board since the 2005 Alpha annual meeting and is currently Chairman of Alpha's Audit Committee and a member of Alpha's Nominating and Corporate Governance Committee. Mr. Eisenberg currently serves as Executive Vice President, Finance and Administration of The Timken Company, an international manufacturer of highly engineered bearings, alloy and specialty steel and components and a provider of related products and services. Prior to joining The Timken Company in 2002, Mr. Eisenberg served as

President and Chief Operating Officer of United Dominion Industries, a manufacturer of proprietary engineered products, from 1999 to 2001, and as the President Test Instrumentation Segment and Executive Vice President for United Dominion Industries from 1998 to 1999. Mr. Eisenberg also serves as a director and chairman of the audit committee of Family Dollar Stores, Inc., owners and operators of discount stores throughout the United States.

## **Table of Contents**

Kevin S. Crutchfield (age 47) has served as Alpha President since January 2007 and as a member of Alpha Board since November 2007. Prior to that time, Mr. Crutchfield served as Alpha Executive Vice President since Alpha's formation in November 2004. Mr. Crutchfield joined the Alpha management team as the Executive Vice President of Alpha Natural Resources, LLC and Vice President of ANR Holdings, LLC in March 2003, and also served as the Executive Vice President of ANR Holdings, LLC from November 2003 until ANR Holdings was merged with another of Alpha's subsidiaries in December 2005. From June 2001 through January 2003, he was Vice President of El Paso Corporation, a natural gas and energy provider, and President of Coastal Coal Company, a coal producer and affiliate of El Paso Corporation acquired by Alpha in 2003. Prior to joining El Paso, he served as President of AMVEST Corporation, a coal and gas producer and provider of related products and services, and held executive positions at AEI Resources, Inc., a coal producer, including President and Chief Executive Officer. Before joining AEI Resources, he served as the Chairman, President and Chief Executive Officer of Cyprus Australia Coal Company and held executive operating management positions with Cyprus in the U.S. before being relocated to Sydney, Australia in 1997. He worked for Pittston Coal Company, a coal mining company, in various operating and executive management positions from 1986 to 1995 including as Vice President Operations prior to joining Cyprus Amax Coal Company, a coal producer and supplier.

## **Executive Compensation**

### ***Compensation Discussion and Analysis***

In recent years, Cleveland-Cliffs has undergone a strategic transformation to an international mining company from its historic business model as a mine manager for the integrated steel industry in North America. Through the acquisitions and joint venture partnerships described above, the transformation has included Cleveland-Cliffs' pursuit of geographic and mineral diversification, with a focus on providing raw materials to the steelmaking industry. As part of this transformation, Cleveland-Cliffs has experienced significant price increases driven by market factors and rapid revenue growth, which factors have had a meaningful impact on Cleveland-Cliffs' executive compensation in recent years. With this in mind, the Cleveland-Cliffs' Compensation Committee, or Compensation Committee, has continually sought to strike a balance in program design and execution among several competing objectives, including:

- Attraction and retention of executive talent in highly competitive executive labor markets;

- Recognition for business performance;

- Maintaining focus on controllable financial results;

- Limiting the potential for undue windfalls or losses to executives;

- Recognition of changes in scope of the business (revenues and profitability);

- Supporting Cleveland-Cliffs' strategic repositioning by:

  - Building capacity;

  - Growth and diversification of revenue streams; and

  - Internationalization; and

  - Ensuring alignment with shareholder interests.

The specific compensation principles, components, and decisions designed to achieve these objectives are discussed in more detail below. This discussion focuses on the information contained in the tables and related footnotes and narratives included below primarily for Cleveland-Cliffs 2007 fiscal year, but also contains information regarding compensation actions taken and decisions made both before and after fiscal year 2007 to the extent that information enhances the understanding of Cleveland-Cliffs executive compensation program. Please note that, unless indicated otherwise, all Cleveland-Cliffs common shares amounts and share prices in this Executive Compensation section have been adjusted retroactively to reflect the two-for-one stock split effective May 15, 2008.

## **Table of Contents**

### *Oversight of Executive Compensation*

The Compensation Committee administers the Cleveland-Cliffs executive compensation program, including compensation for Cleveland-Cliffs Chief Executive Officer, Joseph A. Carrabba, its Chief Financial Officer, Laurie Brlas, the other three highest paid employees on December 31, 2007, William R. Calfee, Donald J. Gallagher and Randy Kummer, and Messrs. David Gunning and Ronald Stovash, former Vice Chairman and former Chief Executive Officer and President of PinnOak, respectively, who would have been among the three highest paid employees other than the Chief Executive Officer and Chief Financial Officer but for their termination of employment during 2007. Cleveland-Cliffs collectively refers to these individuals as its named executive officers. Specific responsibilities of the Compensation Committee related to executive compensation include:

Oversee development and implementation of Cleveland-Cliffs compensation policies and programs for executive officers;

Review and approve Chief Executive Officer and other elected officer compensation, including setting goals, evaluating performance, and determining results;

Oversee Cleveland-Cliffs equity-based employee incentive compensation plans and approve grants (except grants or awards under plans relating to Director compensation, which are administered by the Cleveland-Cliffs Board Affairs Committee);

Ensure that the criteria for awards under Cleveland-Cliffs incentive and equity plans are appropriately related to its operating performance objectives;

Oversee certain aspects of regulatory compliance with respect to compensation matters; and

Review and approve any proposed severance or retention plans or agreements.

### *Executive Compensation Philosophy and Core Principles*

The Compensation Committee has designed the compensation structure to attract, motivate, reward and retain high-performing executives. The goal is to align pay with Cleveland-Cliffs performance in the short term through measures of profitability and operational excellence, and over the long term through stock-based incentives. Cleveland-Cliffs compensation philosophy places a significant portion of compensation at risk with Cleveland-Cliffs performance and individual performance, increasing the portion at risk with the responsibility level of the individual, consistent with market practices. Cleveland-Cliffs also seeks to balance this performance focus with sufficient retention incentives and a focus on controllable results to limit the risk of losing key executives during periods of unfavorable industry conditions, all in a manner that the Compensation Committee deems fair to the executives and to the shareholders.

More specifically, the guiding principles of Cleveland-Cliffs compensation plan design and administration are as follows:

Target pay opportunity for executive officers should be at the 62.5th percentile of market levels.

Align pay with results delivered to shareholders, while recognizing the potentially cyclical nature of the industry in which Cleveland-Cliffs operates. The goal is to avoid undue windfalls to executives in years of good performance or the undue loss of all compensation opportunities in down cycles.

Focus performance measures on a combination of absolute performance objectives tied to Cleveland-Cliffs business plan (profitability and cost control), achievement of key initiatives that reflect the business strategy (*e.g.*, sales initiatives, cost control activities, etc.) and relative objectives reflecting market conditions (relative total shareholder return (which reflects share price appreciation plus reinvested dividends, if any)).

Provide competitive fixed compensation elements over the short-term (salary) and long-term (retention grants and retirement benefits) to encourage long-term retention of Cleveland-Cliffs executives.

Design pay programs to be as simple and transparent as possible to facilitate focus and understanding.

During 2007, and since the beginning of 2008, Cleveland-Cliffs executive compensation and benefits consisted of salary, annual cash incentives, long-term incentives consisting of performance shares, retention units,

**Table of Contents**

restricted share units, restricted shares, retirement benefits, and limited perquisites and other benefits. The Compensation Committee regularly reviews and re-evaluates target positioning for each element of compensation. Descriptions of each of these elements are discussed in more detail in the following sections.

*Compensation Policies*

*Market Positioning.* During 2007, Cleveland-Cliffs continued to manage total compensation (base plus target annual incentives and the grant value of long-term incentives) to the median of the market in which Cleveland-Cliffs competes for talent. During 2008, the Compensation Committee approved targeting total compensation at the 62.5th percentile. Cleveland-Cliffs believes that a 62.5th percentile pay positioning will allow it to remain competitive in attracting, retaining and motivating the needed level of talent for the organization while managing costs to an objectively reasonable level. Actual pay may be higher or lower than this target positioning overall based on company and individual performance. The target compensation for each executive may also be higher or lower than this market positioning based on such factors as individual skills, experience, contribution and performance, internal equity, or other factors that the Compensation Committee may take into account that are relevant to the individual executive.

*Market for Talent.* The Compensation Committee conducts an annual review of market pay practices for executive officers with the assistance of Mercer (US), Inc., its outside compensation advisor. This review is based on several published compensation surveys. For 2007, the pay review targeted general industry pay practices for companies with approximately \$2.5 billion in revenues, reflecting the increased scope of Cleveland-Cliffs' worldwide operations.

*Pay Mix.* Because Cleveland-Cliffs' executive officers are in a position to directly influence its overall performance, a significant portion of their compensation is at risk through short- and long-term incentive programs. Cleveland-Cliffs named executive officers have a significant percent of their target total compensation at risk. This includes the target annual incentive and target long-term incentive grant values, but not benefits or retirement programs. These levels of pay at risk are consistent with each executive's level of impact and responsibility and are consistent with market practices for fixed versus variable pay.

*Forms of Compensation.* Cleveland-Cliffs uses cash for salaries and for annual incentive plan payouts, consistent with market practices and the short-term nature of performance. For longer-term performance, Cleveland-Cliffs currently uses performance shares, retention units, restricted share units, and restricted share grants to reward and retain executives. The retention units are denominated in Cleveland-Cliffs' common shares and vary with its share price, but are payable in cash. The performance shares, restricted share unit and restricted share grants are denominated and payable in Cleveland-Cliffs' common shares to align the interests of its executives with shareholders through direct ownership.

Each year, Cleveland-Cliffs establishes a target long-term incentive award value for each executive based on market practices. Actual awards to each executive may vary +/- 25 percent from this target based on the Chief Executive Officer's assessment of individual performance in the case of executives other than the Chief Executive Officer, and based on the Compensation Committee's assessment of the Chief Executive Officer's performance in the case of grants made to the Chief Executive Officer. In 2007, the Compensation Committee awarded 15 percent of the long-term incentive opportunity for each Cleveland-Cliffs named executive officer other than Mr. Stovash in the form of retention units. Each retention unit represents the value of one Cleveland-Cliffs common share, which is payable in cash based on the participant's continued employment throughout a three-year retention period. Retention units are guaranteed a payout at 100 percent of the original grant. The balance of each individual's long-term incentive award was in the form of performance shares, with actual payouts tied to Cleveland-Cliffs' total shareholder return relative to industry peers over a three-year performance period (see below for further detail).

In 2008, the Compensation Committee awarded 25 percent of the long-term incentive opportunity for each Cleveland-Cliffs named executive officer in the form of restricted share units. Each such restricted share unit represents one of Cleveland-Cliffs common shares. The restricted share units are payable in shares based on the participant's continued employment throughout the three-year period ending December 31, 2010. The balance of each named executive officer's long-term incentive award for 2008 was in the form of performance shares as described above.

## **Table of Contents**

Restricted share awards were granted on a selective basis to executives at the PinnOak mines in relation to the 2007 acquisition of PinnOak in order to retain their critical expertise in underground coal operations. The restrictions on the shares will lapse 50 percent two years after grant date and 50 percent three years after grant date or will lapse immediately in the event the executive is involuntarily terminated without cause as defined in the restricted share agreements. No other named executive officers received a restricted share grant in 2007 or 2008.

*Other Factors.* When making individual compensation decisions for executives, Cleveland-Cliffs takes many factors into account, including the individual's performance, tenure and experience, Cleveland-Cliffs' performance overall, any retention concerns, the individual's historical compensation and internal equity considerations.

The Compensation Committee relies significantly on the Chief Executive Officer's input and recommendations when evaluating these factors relative to the executive officers other than the Chief Executive Officer. The Compensation Committee also reviews a five-year pay history for each executive and considers the progression of salary increases over time compared to the individual's development and performance, the unvested and vested value inherent in outstanding equity awards, and the cumulative impact of all previous compensation decisions. The Compensation Committee uses the same factors in evaluating the Chief Executive Officer's performance and compensation as it uses with the other executive officers.

*Committee Process.* Decisions relating to the Chief Executive Officer's pay are made by the Compensation Committee in executive session, without management present. In assessing the Chief Executive Officer's pay, the Compensation Committee considers company performance, the Chief Executive Officer's contribution to that performance, and other factors as described above in the same manner as for any other executive. The Compensation Committee approves the Chief Executive Officer's salary, incentive plan payment (consistent with the terms of the plan as described below) and long-term incentive awards each year.

For the other named executive officers, the Chief Executive Officer in partnership with Human Resources conducts an assessment of each executive at the end of each year against a spectrum of behaviors and strategic goals established for each executive at the beginning of the year. The Chief Executive Officer then provides the Compensation Committee with his assessment of the performance of the executive and his perspective on the factors described above in developing his recommendations for each executive's compensation, including salary adjustments, annual incentive payouts, and equity grants. The Compensation Committee discusses the Chief Executive Officer's recommendations, including how the recommendations compare against the external market data and how the compensation levels of the executives compare to each other, to the Chief Executive Officer's, and to the historic pay for each executive. Based on this discussion, the Compensation Committee then approves or modifies the recommendations in collaboration with the Chief Executive Officer.

### *Elements of Compensation*

Cleveland-Cliffs uses multiple components to provide a competitive overall compensation and benefits package that is reasonable relative to market and industry practices and tied appropriately to performance.

*Base Salary.* Cleveland-Cliffs' philosophy is that base salaries should meet the objective of attracting and retaining the executive talent needed to run the business. Therefore, Cleveland-Cliffs seeks to target base pay levels for executives at the 50th percentile of market survey data, although each executive may have a base salary above or below the median of the market. Actual salaries reflect responsibility, performance, and experience, among other factors described above.

Base salary adjustments can affect the value of other compensation and benefit elements. A higher base salary will result in a higher annual incentive, assuming the same level of achievement against goals. Base salaries also affect the

level of performance-based contributions to the Cleveland-Cliffs Inc and its Associated Employers Salaried Employees Supplemental Retirement Savings Plan, a tax-qualified 401(k) savings plan, which Cleveland-Cliffs refers to as its 401(k) Savings Plan, disability benefits, severance and change in control benefits and pension benefits.

For 2007, the Compensation Committee recognized Cleveland-Cliffs substantially increased size in terms of revenues, the increased complexity of the organization on a global basis, and the overall increase in Cleveland-Cliffs ability to pay for top talent due to the heightened level of profitability relative to prior years. The market benchmarks

**Table of Contents**

used by the Compensation Committee reflected these factors and as a result showed that executives were currently positioned approximate to the competitive market median. As such, no significant adjustments outside of merit increases were made to named executive officers' base salaries in 2007 or 2008.

*Annual Incentive Plan.* Cleveland-Cliffs provides an annual Executive Management Performance Incentive Plan, which provides an opportunity for the senior executive officers to earn an annual cash incentive based on company financial performance relative to business plans and achievement against key corporate objectives. The objective of this plan is to provide executives with a competitive annual cash compensation opportunity while aligning actual pay results with Cleveland-Cliffs' short-term business performance.

*2007 Award Opportunities:* Under the Executive Management Performance Incentive Plan, bonus opportunities for senior officers, including the named executive officers, ranged from zero to a maximum of 100 percent of the officers' grant amount for 2007. The maximum annual incentive opportunity for the Chief Executive Officer was 200 percent of base salary in 2007 and for each of the other named executive officers, including the former Vice Chairman, Mr. Gunning, the target incentive ranged from 105 to 126 percent of base salary. Mr. Stovash was not a participant in the Executive Management Performance Incentive Plan and was covered by a different annual incentive program sponsored by PinnOak, under which his target incentive was 80% of base salary and his potential bonus ranged from 0 percent at threshold to 140 percent of target at maximum.

*2007 Executive Management Performance Incentive Plan Performance Measures:* The Executive Management Performance Incentive Plan uses a performance scorecard with multiple performance standards that are related to Cleveland-Cliffs' annual business plan and current strategic priorities. For 2007, the Compensation Committee developed a scorecard targeted at those areas that it believed would most directly improve financial results for shareholders in the near term, while maintaining incentives for long-term strategic improvements. The elements and their respective weightings for 2007 were as follows:

<b>Objective</b>	<b>Weight</b>
Pre-Tax Earnings	50.00%
Adjusted Cost Control	25.00%
Corporate Objectives	25.00%
Total	100.00%

Pre-tax earnings is a measure of Cleveland-Cliffs' profitability and is measured on a consolidated basis. Adjusted cost control is a measure of the cost of production per ton, adjusted to hold energy prices at a fixed rate throughout the year in order to eliminate the (positive and negative) impact of the large and potentially volatile uncontrollable cost of energy on compensation. Although cost control is a component of pre-tax earnings, the Compensation Committee believes a more targeted focus on managing production cost per ton is essential to Cleveland-Cliffs' long-term health. Adjusted cost control is measured only for North American iron ore operations, based on the Compensation Committee's belief that cost control in this region was most critical to Cleveland-Cliffs' success during 2007. Similarly, the Compensation Committee evaluates management on a subjective basis against key strategic and operational goals that are not as easily quantified as financial results to ensure that short-term profitability is balanced with the long-term success of the organization. For 2007, corporate objectives included goals in the areas of business development, workforce, safety, specific cost initiatives and sales initiatives.

2007 Executive Management Performance Incentive Plan Target Setting and 2007 Results: Performance targets for the financial objectives of the Executive Management Performance Incentive Plan are established at the beginning of each year. Each metric has a threshold, target, and maximum goal, with a potential funding of between 0 percent and 100 percent of the maximum award. At threshold performance, each goal would be funded at 25 percent of maximum, with 0 percent funding for performance below threshold. If performance is at the target level, the bonus will be funded at 50 percent of the maximum award. Adjustments to 2007 pre-tax earnings were made as a result of the reversal of certain ore stockpile sales that occurred in December 2006. As a result of these adjustments, revenue recognition on these transactions totaling \$94 million was deferred until 2007. The Compensation Committee adjusted the 2007 Executive Management Performance Incentive Plan targets to take into account these adjustments and their impact on 2007 pre-tax earnings to ensure that management did not receive a windfall in 2007 under the Executive Management Performance Incentive Plan.

**Table of Contents**

Each year, the Compensation Committee approves performance targets and ranges for each of the financial performance measures, taking into consideration management financial plans for the coming year, prior years performance, performance relative to other metals and mining companies, and the relative degree of difficulty of attaining performance goals under different product-pricing scenarios. Performance targets are approved each year by the Compensation Committee early in the year, with an adjustment as necessary for the specific impact of world pellet price settlements on price escalators in Cleveland-Cliffs' contracts. This price adjustment is formulaic and objective, tied directly to Cleveland-Cliffs' term supply agreements.

For 2007, the Executive Management Performance Incentive Plan was funded at 76.82 percent of the maximum bonuses for all named executive officers except Mr. Carrabba. Mr. Carrabba's Executive Management Performance Incentive Plan bonus was funded at 72.98 percent. The Compensation Committee arrived at this funding level by taking the following factors into consideration:

2007 pre-tax earnings were reviewed and compared to adjusted maximum performance levels set at the beginning of 2007 of \$422 million with an adjusted minimum and target performance levels of \$281 million and \$351 million. Preliminary results were \$380.7 million. This factor was weighted 50 percent, resulting in funding of 35.44 percent of maximum bonuses.

Adjusted cost control was above the target established for the year, resulting in a funding multiple of 16.38 percent of maximum for this performance factor (weighted 25 percent).

The Compensation Committee evaluated corporate objectives established at the beginning of the year and rated those objectives at a performance level of 100 percent. This factor was weighted 25 percent, resulting in funding of 25 percent of maximum bonuses. Due to post acquisition performance of PinnOak and at the discretion of the Compensation Committee, Mr. Carrabba's corporate objectives portion of the bonus was rated less than other named executive officers.

Bonuses for 2007 under the Executive Management Performance Incentive Plan were paid in the following amounts to the named executive officers:

Joseph A Carrabba	\$ 1,021,706	William R. Calfee	\$ 337,240
Laurie Brlas	\$ 367,200	Randy L. Kummer	\$ 212,023
Donald G. Gallagher	\$ 381,027	David G. Gunning	\$ 182,448

The specific performance goals for adjusted cost control are not disclosed as Cleveland-Cliffs believes, and the Compensation Committee concurs, that providing detailed information about Cleveland-Cliffs' cost structure could limit its ability to negotiate supply agreements or spot sales on terms that would be favorable to its shareholders, thereby resulting in meaningful competitive harm. Likewise, Cleveland-Cliffs and the Compensation Committee believe that disclosing specific, non-quantitative corporate objectives for the year would provide detailed information on business operations and forward looking strategic plans to its customers and competitors that could result in substantial competitive harm.

The Compensation Committee did test the adjusted cost control performance targets by comparing to business plans, past performance, and the impact of cost per ton on the range of pre-tax earnings goals, including the impact under different product-pricing scenarios. Based on these evaluations, the Compensation Committee believes that the range of performance objectives established for 2007 were appropriately difficult to attain. Corporate objectives are subjective in nature and therefore the degree of difficulty cannot be readily quantified.

2008 Award Opportunities and 2008 Executive Management Performance Incentive Plan Performance

Measures: 2008 bonus opportunities for senior officers, including the named executive officers, under the Executive Management Performance Incentive Plan again range from zero to a maximum of 100 percent of the officers maximum bonus opportunities for 2008. The maximum annual incentive opportunity for the Chief Executive Officer is 280 percent of base salary, and for each of the other named executive officers the target incentive ranges from 147 to 168 percent of base salary. The target annual bonus opportunity for named executive officers is 50 percent of the maximum bonus opportunity and the threshold annual bonus opportunity for named executive officers is 25 percent of the maximum bonus opportunity. For 2008, the Executive Management Performance Incentive Plan again uses a performance scorecard with multiple performance standards that

**Table of Contents**

are related to Cleveland-Cliffs' annual business plan and current strategic priorities. For 2008, the Compensation Committee developed a scorecard targeted at those areas that it believed would most directly improve financial results for shareholders in the near term, while maintaining incentives for long-term strategic improvements. The elements and their respective weightings for 2008 are the same as those for the Executive Management Performance Incentive Plan for 2007.

2008 Executive Management Performance Incentive Plan Target Setting: The specific performance targets for 2008 for pre-tax earnings and adjusted cost controls are not disclosed as Cleveland-Cliffs believes, and the Compensation Committee concurs, that providing detailed information about Cleveland-Cliffs' cost structure prior to the completion of the 2008 performance period could result in meaningful competitive harm.

Long-Term Incentives. The objectives of Cleveland-Cliffs' long-term incentives are to reward executives for sustained performance over multiple years while recognizing the potential volatility of industry conditions and limiting the potential for undue windfalls or losses to executives for factors outside of management's control. In addition, Cleveland-Cliffs' long-term incentive programs are designed to enhance retention of executives by delaying the vesting of compensation opportunities and to align the long-term interests of executives with shareholders through the use of equity to deliver compensation.

Administrative Process: Long-term incentive awards for senior executives are generally made annually and are based on the executive's position, experience, performance, prior equity-based compensation awards and competitive equity-based compensation levels. The grant date is the date of the Compensation Committee approval or a later date as set by the Compensation Committee. Grants for new hires or promotions are approved by the Compensation Committee at the next regularly scheduled Compensation Committee meeting following the hire or promotion date or in a special meeting, as needed. The grant date for new hire or promotional grants is the date of such approval or such later date as the Compensation Committee determines. Cleveland-Cliffs does not time grants to coordinate with the release of material non-public information.

The review of market practices in 2007 indicated that Cleveland-Cliffs was approximate to the desired market pay positioning for total compensation, including long-term incentives, for named executive officers. As a result, the Compensation Committee maintained its grant guidelines for 2007.

Performance Share Program: Performance shares continue to be the primary vehicle used by Cleveland-Cliffs to deliver long-term incentives. A performance share is the opportunity to earn a common share based on Cleveland-Cliffs' performance over a three-year period, with potential funding between 0 percent and 150 percent of the target share grant depending on the level of performance against goals. Cleveland-Cliffs uses performance shares to reward for shareholder results relative to industry conditions, taking into consideration returns to shareholders as compared to other companies in the steel and mining industries.

**Table of Contents**

Specifically, each executive officer is granted a target number of performance shares at the beginning of each three-year period. The total shareholder return for Cleveland-Cliffs and its performance peers identified below was historically measured quarterly on a cumulative basis since the beginning of the performance period and Cleveland-Cliffs was ranked relative to peers at the end of each quarter. At the end of three years, Cleveland-Cliffs calculated the average of these quarterly percentile rankings of total shareholder return performance relative to peers to determine the total performance over the three-year period and the number of shares earned at the end of the period. Funding for performance below threshold is zero percent. An absolute threshold is also provided for Return on Net Assets performance. If average Return on Net Assets is below 12 percent over the three years of the plan, then any payouts will be reduced by 50 percent regardless of relative total shareholder return. Return on Net Assets is defined as pre-tax income divided by average assets less average current liabilities, excluding short-term debt included in current liabilities, for each year of the plan. The calibration of the pay for performance relationship is as follows:

Performance Factor	Threshold	Performance Level	
		Target	Maximum
Relative total shareholder return	35 <sup>th</sup> ile	55 <sup>th</sup> ile	75 <sup>th</sup> ile
Payout	50%	100%	150%
Pre-Tax Return on Net Assets	Calculated payout reduced 50% if Return on Net Assets is below 12% at the end of the three year period (approximately equivalent to the cost of capital on a pre-tax basis)		

On March 12, 2007, the Compensation Committee adopted a new methodology for the calculation of payment of performance shares in connection with the 2007 Incentive Equity Plan. With respect to performance shares, a portion of the calculation was based on a cumulative quarter-by-quarter basis calculation of total shareholder return. Under the 2007 Incentive Equity Plan, the quarter-by-quarter portion of the calculation was eliminated, and the calculation is instead based on cumulative total shareholder return between the start and the end of the performance period. The Compensation Committee also gave participants in the prior plan the option of having the old or new methodology apply to their outstanding performance shares for the 2005-2007 and 2006-2008 performance periods. Ms. Brlas and Messrs. Carrabba and Gunning elected to apply the new methodology to their outstanding grants, and Messrs. Calfee, Gallagher and Kummer elected to continue to have the old methodology apply to their outstanding grants. While the total impact of this change cannot be calculated at this time given the 2006-2008 performance period has not been completed, the new methodology resulted in a higher total shareholder return performance factor for 2005-2007 performance shares. Subsequently, on May 12, 2008, the Compensation Committee determined that the election process was inconsistent with its pay for performance philosophy and determined to automatically pay the executives the amount generated by the new methodology if it is higher than the old methodology for the 2006-2008 performance period.

The performance peer group used for the relative performance share plan during the 2007-2009 cycle is as follows:

AK Steel Holding Corp.	Gerdau Ameristeel Corp.	Rio Tinto plc
Algoma Steel Inc.	IPSCO Inc.	Southern Copper Corp.
Arch Coal	Macarthur Coal	Steel Dynamics Inc.
Companhia Vale ADR	Nucor Corp.	Teck Cominco Ltd
Freeport-McMoran	Oxiana Limited	USX-US Steel Group

The peer group currently focuses on steel, metals and commodity mineral mining companies that will be generally affected by the same long-term market conditions as those that affect Cleveland-Cliffs. The Compensation Committee evaluates this peer group for each new cycle of the performance share plan and makes adjustments as needed based on changes in the industry makeup and relevance of Cleveland-Cliffs specific peers. During a cycle, any peer that is acquired, files for bankruptcy, or otherwise ceases to trade on a major stock exchange will be excluded from the calculation of relative performance for each quarter subsequent to the de-listing event. Beginning with the 2007-2009 grant, the Compensation Committee determined that the S&P Metals and

**Table of Contents**

Mining ETF total shareholder return would be substituted for the entire performance period for any peer that is acquired, files for bankruptcy, or otherwise ceases to trade on a major stock exchange. To date, the following companies have been excluded from the performance peer group: Algoma and IPSCO Inc. On May 12, 2008, the Compensation Committee also determined to amend the 2006 grant so that the participants would get the greater of the payout determined if the S&P Metals and Mining ETF is substituted in place of peer group companies that drop out of the peer group and the payout determined if no such substitution is permitted.

In January 2008, the Compensation Committee determined that, for the three-year performance period ended December 31, 2007, Cleveland-Cliffs achieved the 75th percentile with respect to its peer group for total shareholder return, a Return on Net Assets greater than 12 percent, and 100 percent with respect to the accomplishment of strategic objectives. This provided a total performance factor of 175 percent for the 2005-2007 performance periods. However, based on the application of the maximum value cap in place for grants before 2006, the actual payout was reduced to 77 percent of the uncapped value. A payout for such performance period was made in Cleveland-Cliffs common shares to all participants, including Messrs. Carrabba, Calfee, Gallagher, Kummer and Gunning, with a distribution date of February 27, 2008. The performance share award for the named executive officers for the 2005-2007 performance period is disclosed under the 2007 Option Exercises and Stock Vested Table in footnotes 4 and 5.

**Retention Units:** Starting in 2000, the Compensation Committee began granting a part of its incentive equity grants as retention units. The retention awards included in the Cleveland-Cliffs Inc Long-Term Incentive Plan and the 2007 Incentive Equity Plan assist Cleveland-Cliffs in retaining key executives throughout industry cycles by providing a minimum floor to the long-term incentive opportunity based solely on executives remaining with the company. In 2007, the Compensation Committee awarded executive officers 15 percent of their long-term incentive opportunity in the form of retention units. Each retention unit represents the value of one Cleveland-Cliffs common share and is payable in cash based upon the participant's continued employment throughout the three-year retention period.

During 2007, the retention units granted on March 8, 2005 to the named executive officers employed on that date vested on December 31, 2007 and were paid out in cash on February 27, 2008, as shown in footnote 5 under the 2007 Option Exercises and Stock Vested Table. Cleveland-Cliffs' closing share price on December 31, 2007 of \$50.40 per share was used to determine the value of this payout.

**2008-2010 Performance Share and Restricted Share Unit Awards:** On March 10, 2008, the Compensation Committee approved performance share and restricted share unit awards under the 2007 Incentive Equity Plan for Cleveland-Cliffs' executives, including its named executive officers. 75 percent of the total value of the incentive award was made in the form of performance shares, while the remaining 25 percent was made in the form of restricted share units. Restricted share units are earned based on continued employment, are retention-based awards, vest at the end of the performance period used for the performance shares, and are payable in common shares at a time determined by the Compensation Committee in its discretion. The following amounts of performance shares and restricted share units were awarded to Cleveland-Cliffs' named executive officers for the 2008-2010 performance period:

Name	Performance Shares	Restricted Share Units
Joseph A Carrabba	34,500	11,500
Laurie Brlas	10,800	3,600
Donald G. Gallagher	10,650	3,550
William R. Calfee	8,100	2,700

Randy L. Kummer

6,150

2,050

The performance shares awards for the 2008-2010 performance period under the 2007 Incentive Equity Plan are subject to relative total shareholder return and three-year cumulative free cash flow performance metrics, and are intended to be paid out in common shares. Free cash flow is defined as cash from operations less capital expenditures. Further, the Compensation Committee resolved that, upon the occurrence of a change in control, all performance shares and restricted share units awarded for the 2008-2010 performance period will vest and become nonforfeitable, and will be paid out in cash. The specific performance targets for the cumulative free cash flow

**Table of Contents**

performance metrics are not disclosed as Cleveland-Cliffs believes, and the Compensation Committee concurs, that providing detailed information about Cleveland-Cliffs' expectations prior to the completion of the 2008-2010 performance period could result in meaningful competitive harm.

*Restricted Share Grants:* During 2007, the Compensation Committee did not award any restricted share awards to any of the current named executive officers. Restricted shares awarded to three named executive officers in 2005 vested on December 31, 2007. Mr. Stovash received a grant of 38,000 shares of restricted shares pursuant to the closing of the acquisition of PinnOak. His restricted shares were originally intended to vest 50 percent two years after date of grant and the remaining three years after date of grant. However, under the circumstances of his termination, Mr. Stovash's shares vested in November 2007.

*Retirement and Deferred Compensation Benefits*

*Defined Benefit Pension Plan:* Cleveland-Cliffs maintains a defined benefit pension plan, which it refers to as the Pension Plan, and a Supplemental Retirement Benefit Plan in which all of the named executive officers, except Mr. Stovash, are eligible for participation following one year of service. The Compensation Committee believes that pension benefits are a typical component of total remuneration for employees and executives in industries similar to Cleveland-Cliffs' industry, and that providing such benefits is important to delivering a competitive package to retain employees. The objective of the Supplemental Retirement Benefit Plan is to provide benefits above the statutory limits for qualified pension plans for highly paid executives.

*401(k) Savings Plan:* Under Cleveland-Cliffs' 401(k) Savings Plan, executives are eligible to contribute up to 35 percent of base salary. Pre-tax contributions are limited by the annual Internal Revenue Service discrimination testing limits. For the calendar year 2007, employee pre-tax contributions are limited to \$15,500. Cleveland-Cliffs matches 100 percent of employee contributions up to the first 3 percent and 50 percent for the next 2 percent. Additionally, Cleveland-Cliffs has a performance-based contribution that can be made annually to the 401(k) Savings Plan. The performance-based contribution was established to deliver as much as 10 percent of eligible 401(k) wages into the 401(k) Savings Plan when Cleveland-Cliffs meets certain financial performance targets.

*Deferred Compensation Plan:* Under the Voluntary Non-Qualified Deferred Compensation Plan, or VNQDC Plan, the named executive officers and other senior management employees are permitted to defer, on a pre-tax basis, up to 50 percent of their base salary, all or a portion of their annual incentive under the Executive Management Performance Incentive Plan and their share award or cash award that may be payable under the Long-Term Incentive Plan or the 2007 Incentive Equity Plan. The Compensation Committee believes the opportunity to defer compensation is a competitive benefit and addresses the goal of attracting and retaining talent.

Cash awards can be deferred into a cash deferral account or a share unit account. Share awards can only be deferred into share units. Cash deferrals earn interest at the Moody's Corporate Average Bond Yield rate. Unit deferrals are denominated in Cleveland-Cliffs' common shares and vary with Cleveland-Cliffs' share price performance.

In order to encourage share ownership and the alignment of executive interests with shareholder interests, as well as to assist executives in meeting their share ownership guidelines (as discussed below under *Share Ownership Guidelines*), any cash compensation awards deferred into share units are matched with a 25 percent match by Cleveland-Cliffs that vests at the end of five years.

Finally, the VNQDC Plan provides that if a participant is entitled to receive a performance-based contribution under the 401(k) Savings Plan but is limited in the amounts that can be contributed to the 401(k) Savings Plan by certain Code limitations, then any such performance-based contributions in excess of the Code limits are deferred into the VNQDC Plan. These specific cash accounts are not convertible to share units.

*Other Benefits.* Cleveland-Cliffs' other benefits and perquisites for senior executives include company paid parking, personal financial services and company paid club memberships. These benefits are disclosed below in the 2007 Summary Compensation Table under All Other Compensation and described in footnote 5.

**Table of Contents**

*Supplementary Compensation Policies*

Cleveland-Cliffs uses several additional policies to ensure that the overall compensation structure is aligned with shareholder interests and is competitive with market practices. Specific policies include:

*Share Ownership Guidelines:* The Board of Directors adopted share ownership guidelines to ensure that senior executives have a meaningful direct ownership stake in Cleveland-Cliffs and that the interests of executives are thereby aligned with shareholders. The guidelines call for the Chief Executive Officer to own shares equal in value to four-and-a-half times annual base salary. Other executives, depending on their level, are required to hold between one-and-a-half and two-and-a-half times annual base salary in shares. For awards made after January 1, 2007 under the 2007 Incentive Equity Plan, executives are not permitted to sell shares received under the Performance Share Program unless the executive is in compliance with the ownership guidelines, except as may be necessary to pay income taxes. An officer's direct ownership of shares, including restricted shares and share units held in the VNQDC Plan, count toward meeting the share ownership guidelines.

*Severance and Change in Control Agreements:* Cleveland-Cliffs has entered into severance agreements with all of the named executive officers that provide for certain payments upon termination following a change in control. The Compensation Committee believes that such agreements support the goals of attracting and retaining highly talented individuals by clarifying the terms of employment and reducing the risks to the executive in situations where the executive believes that Cleveland-Cliffs may undergo a merger or be acquired. In addition, the Compensation Committee believes that such agreements align the interests of executives with the interests of shareholders if a qualified offer to acquire Cleveland-Cliffs is made, in that each of the named executive officers would likely be aware of or involved in any such negotiation and it is to the benefit of shareholders to have the executives negotiating in the shareholder's best interests without regard to the executive officer's personal financial interests.

The agreements generally provide for the following change-in-control provisions (see accompanying narrative below for more details):

Automatic vesting of unvested equity incentives upon change-in-control;

Two to three times annual base salary and target annual incentive as severance upon termination following a change in control, and continuation of welfare benefits between two to three years;

Full tax gross-up payments on any excise taxes imposed upon any change in control payments; and

Non-compete, confidentiality and non-solicitation provisions for executives who receive severance payments following a change in control.

*Other Material Tax and Accounting Implications:* Section 162(m) of the Code limits the deductibility of certain executive compensation in excess of \$1 million. The aggregate combination of distributions from the Executive Management Performance Incentive Plan, Long-Term Incentive Plan, vesting of restricted shares, and dividends on restricted shares has caused, with respect to 2007, the \$1 million limit to be exceeded with respect to five of the named executive officers, and will cause the \$1 million limit to be exceeded in subsequent years with respect to one or more of the named executive officers. In 2007, Cleveland-Cliffs' shareholders approved the Executive Management Performance Incentive Plan, and the 2007 Incentive Equity Plan, which replaced the predecessor plans. Performance based compensation under the Executive Management Performance Incentive Plan and the 2007 Incentive Equity Plan will be exempt from the \$1 million limit. Even with the adoption of these new plans, retention units and restricted share grants will still not qualify as performance based compensation and thus will be excluded from the calculation of the \$1 million limit.

***Summary Compensation Table***

The following table sets forth the compensation earned by the named executive officers for services rendered to Cleveland-Cliffs and its subsidiaries for the fiscal years ended December 31, 2007 and 2006. This table discloses in column (c) the salary of each named executive officer. Salary under column (c) includes base salary before salary reduction contributions to Cleveland-Cliffs Benefits Choice Plan, which provides health, life and disability

**Table of Contents**

benefits, salary reduction contributions to the Savings Plan and salary reduction contributions to the VNQDC Plan. The VNQDC Plan is described more fully in the Compensation Discussion and Analysis section above.

Column (d) of the table, Bonus, discloses special, non-incentive payments to certain executives, whether such payments were designated bonus or not. Such payments include payments in 2006 to Mr. Calfee in cash of 50 percent of the award he would otherwise have received as restricted shares under the 1992 Incentive Equity Plan. Since the restricted share agreements do not forfeit the restricted shares of employees who retire, Mr. Calfee, who is retirement eligible, was taxed on the value of the restricted shares on the date of grant. The payment of 50 percent of his award in cash was intended to assist him in paying the taxes on the restricted shares award. Column (d) also includes a special signing bonus and guaranteed bonus payable to Ms. Brlas who was employed as Cleveland-Cliffs Chief Financial Officer on December 11, 2006. Amounts payable to the named executive officers under the Executive Management Performance Incentive Plan are not shown in column (d), but are instead shown under column (f), Non-Equity Incentive Plan Compensation.

Column (e) of the table, Stock Awards, reflects the dollar amount recognized for financial statement reporting purposes for the fiscal year ended December 31, 2007 and December 31, 2006 in accordance with SFAS 123R of performance shares held by the named executive officers. Performance shares vest and become payable at the end of a three-year performance period. The performance share grants are described more fully in the Compensation Discussion and Analysis section above.

Column (e) of the table, Stock Awards, also reflects an amount under SFAS 123R relating to retention units granted to the named executive officers under the Long-Term Incentive Plan or 2007 Incentive Equity Plan. The retention units are measured by the value of Cleveland-Cliffs common shares but are payable in cash rather than common shares. Such retention units vest and become payable at the end of the third year in the three-year period that includes the date of grant. The retention units are described more fully in the Compensation Discussion and Analysis section above.

In addition, column (e) of the table, Stock Awards, reflects the amount under SFAS 123R relating to restricted shares held by the named executive officers under the 1992 Incentive Equity Plan. The restricted shares normally vest and the restrictions lapse at the end of the third year in the three-year period that includes the date of grant. The restricted share awards are described more fully in the Compensation Discussion and Analysis section above.

As noted above, column (f), Non-Equity Incentive Plan Compensation, includes amounts payable to the named executive officers under the Executive Management Performance Incentive Plan. The Executive Management Performance Incentive Plan is described more fully in the Compensation Discussion and Analysis section above. Column (f) also includes the amount of performance based contribution credited to the accounts of the named executive officers under the 401(k) Savings Plan and the VNQDC Plan for 2007 and 2006. Such performance based contribution is made on behalf of all salaried employees and is equal to 10 percent of 401(k) eligible wages for all salaried employees for 2007 and 2006. To the extent that such contribution caused the total contributions to the 401(k) Savings Plan to exceed certain Code limitations, the balance of the contribution was credited to the accounts of the named executive officers under the VNQDC Plan.

Column (g) of the table, Change in Pension Value and Nonqualified Deferred Compensation Earnings, includes accruals under the Pension Plan and the Supplemental Retirement Benefit Plan. The Pension Plan and Supplemental Retirement Benefit Plan are described more fully in the Compensation Discussion and Analysis section above and before the Pension Benefits tables below.

**Table of Contents**

Column (h) of the table, All Other Compensation, shows the combined value of the named executive officers' perquisites. These perquisites include payments by Cleveland-Cliffs for parking, financial services and club memberships. Column (h) also includes matching contributions to the 401(k) Savings Plan and the VNQDC Plan. Other benefits are described more fully in the Compensation Discussion and Analysis section above and before the Pension Benefits tables below.

**2007 Summary Compensation Table**

Principal Position	Year	Salary (\$) (c)(1)	Bonus (\$) (d)	Stock Awards (\$) (e)(1)(2)	Non-Equity Incentive Plan Compensation (\$) (f)(1)(3)	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$) (g)(4)	All Other Compensation (\$) (h)(5)	
Carrabba	2007	675,000(6)		2,105,673	1,089,206	159,936	63,280	4
President and Executive Officer	2006	520,833(6)		909,353	752,083	125,300	106,382	2

Gunning	2007	184,083(6)		715,847	200,856	193,571(10)	56,294(11)	1
Vice Chairman of the	2006	426,250(6)		1,564,430	397,625	313,800	20,522	2

(1) Columns (c), (e) and (f) reflect the salary, equity compensation and non-equity incentive compensation, respectively, of each named executive officer before pre-tax reductions for contributions to the 401(k) Savings Plan and/or the VNQDC Plan. Amounts by which salary, equity compensation and non-equity incentive compensation were reduced in 2007 pursuant to the named executive officers' elections to make contributions to the VNQDC Plan are as follows: Carrabba \$33,750; Brlas \$26,337; and Calfee \$34,475. These amounts appear in column (b) of the 2007 Nonqualified Deferred Compensation Table below.

- (2) The amounts in column (e) reflect the dollar amount recognized for financial statement reporting purposes for the fiscal years ended December 31, 2007 and December 31, 2006, in accordance with Financial Accounting Standards Board Statement No. 123 (revised 2004), Accounting for Stock-Based Compensation, or SFAS 123R, of awards of restricted shares, performance shares and retention units, and thus includes amounts from awards granted in and prior to 2006 and 2007. For additional information, refer to Note 11 to Cleveland-Cliffs' audited financial statements for the year ended December 31, 2007 included elsewhere in this joint proxy statement/prospectus, and Notes 11 and 12 to Cleveland-Cliffs' audited financial statements in Item 8 of Cleveland-Cliffs' Annual Reports on Form 10-K for the years ended December 31, 2006 and 2005, respectively. These types of awards are discussed in further detail in the Compensation Discussion and Analysis section above under the headings Performance Share Program, Retention Units and Restricted Stock Grants. See the 2007 Grants of Plan-Based Awards Table for more detail on the awards of restricted shares, retention units and performance shares. Please note that the amounts shown in column (e) for 2006 differ from the amounts shown in column (e) of the 2006 Summary Compensation Table included in Cleveland-Cliffs' proxy statement

**Table of Contents**

for the 2007 annual meeting because the amounts shown last year were the value of such awards on the dates granted in 2006 rather than the amounts recognized for financial statement reporting purposes.

- (3) The amounts in column (f) reflect the sum of (i) incentive bonus awards that were earned in 2007 under the Executive Management Performance Incentive Plan, which is discussed in further detail in the Compensation Discussion and Analysis section above under the heading Annual Incentive Plan, and were paid in cash to the named executive officers on February 22, 2008, and (ii) amounts allocated to the named executive officers as performance-based contributions under the 401(k) Savings Plan, which equaled in 2007 for all the participants under the 401(k) Savings Plan 10 percent of their 401(k) eligible wages. To the extent that such performance-based contributions exceeded Code limits for a qualified profit sharing plan, they were credited to the accounts of the executives under the VNQDC Plan. The amounts of the incentive bonus for 2007 for the named executive officers were: Carrabba \$1,021,706; Brlas \$367,200; Gallagher \$381,027; Calfee \$337,240; Kummer \$212,023 and Gunning \$182,448. Mr. Carrabba deferred \$99,298 of his 2007 incentive bonus into the VNQDC Plan (as shown in column (b) of the 2007 Nonqualified Deferred Compensation Table below). The amounts representing the performance-based contributions for 2007 under the 401(k) Savings Plan and/or the VNQDC Plan for the named executive officers are: Carrabba \$67,500; Brlas \$37,625; Gallagher \$38,925; Calfee \$34,475; Kummer \$25,975 and Gunning \$18,408. After reaching the maximum levels of pre-tax contributions to the 401(k) Savings Plan, the balance of the performance-based contributions for 2007 listed were deferred into the VNQDC Plan as follows: Carrabba \$45,000; Brlas \$15,125; Gallagher \$16,425; Calfee \$13,545 and Kummer \$23,449 (as shown in column (c) of the 2007 Nonqualified Compensation Table below).
- (4) The amounts in column (g) reflect the actuarial increase in the present value of the named executive officers benefits under the Pension Plan and the Supplemental Retirement Benefit Plan, both of which are discussed in further detail in the Compensation Discussion and Analysis section above under the heading Defined Benefit Pension Plan, determined using interest rate and mortality assumptions consistent with those used in Cleveland-Cliffs financial statements and may include amounts that the named executive officer is not currently entitled to receive because his or her benefits are not fully vested. The increase in the value of the benefits in 2007 of the named executive officers under the Pension Plan were: Carrabba \$159,700; Brlas \$32,200; Gallagher \$513,800; Calfee \$512,200 and Kummer \$49,000. The increase in the value of the benefits of the named executive officers under the Supplemental Retirement Benefit Plan in 2007 were zero for each named executive officer. Laurie Brlas and Ronald Stovash were not eligible for pension or Supplemental Retirement Benefit Plan benefits in 2007. The amounts for above market interest in column (g) on deferred compensation in 2007 were: Carrabba \$235; Brlas \$25; Gallagher \$138; Calfee \$390; Kummer \$47 and Gunning \$47.
- (5) The amounts in column (h) reflect the combined value of the named executive officer's perquisites attributable to Cleveland-Cliffs-paid parking, financial services, club memberships, restricted stock dividends, matching contributions made by and on behalf of the executives under the 401(k) Saving Plan and the VNQDC Plan.

The following table summarizes perquisites in 2007:

	<b>Voluntary Non-Qualified 401(k) Deferred Savings Compensation</b>

David H. Gunning	2007	1,050		1,378	7,363		5,741	40,762	56,294

**Table of Contents**

- (a) Includes tax gross up on financial services paid for Messrs. Carrabba \$184; Gallagher \$293 and Calfee \$287.
- (b) Other Compensation for Mr. Stovash includes \$520 payment as a result of waiving medical benefits, \$1,008,130 separation payment and \$8,000 vehicle allowance. Other Compensation for Mr. Gunning includes \$40,762 paid to him as a consulting fee for serving as Cleveland-Cliffs representative on the board of directors of Portman and keeping current management apprised of developments relating to Portman
- (6) The salary of the named executive officers includes their base salary before salary reductions for the Benefits Choice Plan, the 401(k) Savings Plan, and the VNQDC Plan. The 2007 401(k) salary deferrals of the named executive officers were: Carrabba \$7,875; Brlas \$11,250; Gallagher \$11,250; Calfee \$15,500; Kummer \$15,500; Stovash \$15,500 and Gunning \$13,806. The 2007 catch-up 401(k) salary deferrals for the named executive officers were: Carrabba \$4,800; Brlas \$4,800; Gallagher \$5,000; Calfee \$5,000; Kummer \$5,000; Stovash \$5,000 and Gunning \$5,000. The pre-tax contributions for the compensation earned in 2007 and deferred into the VNQDC Plan on behalf of the named executive officers were: Carrabba \$33,750; Brlas \$26,337 and Calfee \$34,475.
- (7) The amount shown in column (d) for Ms. Brlas reflects a signing bonus of \$115,000 plus a Management Performance Incentive Plan bonus of \$284,700. The Management Performance Incentive Plan bonus was intended to compensate her for the loss of a bonus from her prior employment.
- (8) Upon the granting of restricted shares on May 8, 2006, certain executives were then eligible to retire without forfeiting the restricted shares, thereby resulting in the restricted share being taxable to the executive immediately rather than when the restrictions lapsed. For such executives, it was determined to pay an amount in cash in lieu of half of the restricted shares that would otherwise be granted to the executive. Such cash would provide the executives with sufficient funds to pay federal, state and local income taxes on the total value of the restricted shares and the cash payment. The amounts in column (d) for Mr. Calfee reflect the cash paid in lieu of one-half of the restricted shares which would otherwise have been granted to him.
- (9) Mr. Stovash became employed with Cleveland-Cliffs upon the acquisition of PinnOak on July 31, 2007 and was terminated from Cleveland-Cliffs effective November 5, 2007.
- (10) The lump sum present value of the benefits of Mr. Gunning accrued under the Supplemental Retirement Benefit Plan (\$537,043) were paid to him upon his retirement on June 1, 2007.
- (11) Mr. Gunning retired from Cleveland-Cliffs on June 1, 2007 after 7 years of service. Upon his retirement, Mr. Gunning entered into a consulting agreement with Cleveland-Cliffs effective June 1, 2007. The consulting agreement provides that Mr. Gunning is to be paid an annual fee in quarterly installments in U.S. dollars for his service as a member of the Board of Directors of Portman serving on behalf of Cleveland-Cliffs. The consulting fee is based on the current retainer paid to the independent directors of Portman. Effective March 2008, the Portman directors retainers were increased from A\$84,404 to A\$95,000 (each, Australian dollars).

***Grants Of Plan Based Awards***

This table discloses in columns (d), (e) and (f) the potential payouts at the threshold, target and maximum levels of the awards under the Executive Management Performance Incentive Plan for 2007. See the Compensation Discussion and Analysis section above for a description of the Executive Management Performance Incentive Plan. As is shown in footnotes 3 and 9 to the 2007 Summary Compensation Table, the actual payouts for the named executive officers were: Carrabba \$1,021,706; Brlas \$367,200; Gallagher \$381,027; Calfee \$337,240; Kummer \$212,023; Gunning

\$182,448 and Stovash \$0.

This table also shows in columns (g), (h) and (i) the potential payouts at the threshold, target and maximum levels of the 2007 performance share awards under the 2007 Incentive Equity Plan. Such performance shares are for a three-year period ending December 31, 2009.

The table also shows in columns (j) and (k) the actual numbers of awards granted and the grant date fair value of (1) restricted share awards under the 1992 Incentive Equity Plan and 2007 Incentive Equity Plan and (2) retention units under the Long-Term Incentive Plan and 2007 Incentive Equity Plan. The 2007 restricted shares awarded to

**Table of Contents**

Mr. Stovash vested on November 5, 2007 upon his termination. The 2007 retention units, granted to all named executive officers excluding Mr. Stovash, will vest at the end of a three-year period ending December 31, 2008.

**2007 Grants of Plan-Based Awards Table**

Grant Date (b)	Committee Date (c)	Estimated Possible Payouts under						All Other Stock Awards: Number of Shares of Stock or Units (#) (j)	Grants Date (k)

3/13/2007	3/12/2007				5,610	11,220	16,830	1,980	372
3/27/2007	3/27/2007	65,750	138,075	276,150					
3/13/2007	3/12/2007				5,525	11,050	16,575	1,950	366
2/22/2007	2/22/2007		560,000	560,000					
7/31/2007	7/31/2007							38,000	1,316
3/27/2007	3/27/2007	79,100	118,755	237,510					
3/13/2007	3/12/2007				14,705	29,410	44,115	5,190	200

(1) Except as otherwise indicated, the amounts in column (d) reflect the threshold payment level under the Executive Management Performance Incentive Plan, which is 25 percent of the target amount shown in column (f). The amount shown in column (e) is 50 percent of the amount shown in column (f). These amounts are based on the individual's current salary and position. Mr. Stovash's target annual incentive was 80% of base salary and ranged from 0% to 140% of target.

(2) The amounts in column (g) reflect the threshold payout level of performance shares under the 2007 Incentive Equity Plan, which is 50 percent of the target amount shown in column (h). The amount shown in column (i) is

150 percent of such target amount.

- (3) Mr. Stovash was granted restricted shares pursuant to his employment with Cleveland-Cliffs in connection with the acquisition of PinnOak Resources Ltd.
- (4) Mr. Gunning's Executive Management Performance Incentive Plan bonus, performance share and retention unit awards are pro-rated for his retirement in 2007.

***Outstanding Equity Awards At Fiscal Year-End***

The following table shows in columns (b) and (c) the actual numbers of shares, and the fair market value of all (1) unvested restricted share awards under the 1992 Incentive Equity Plan and (2) unvested retention units under the Long-Term Incentive Plan or 2007 Incentive Equity Plan outstanding on December 31, 2007. The fair market value of each restricted share and retention unit on December 31, 2007 was \$50.40.

The table also shows in columns (d) and (e), for the named executive officers, the actual numbers of performance shares and the fair market value as of December 31, 2007 of all unvested and unearned performance shares assuming a market value of \$50.40 per share (the closing market price of Cleveland-Cliffs' common shares on December 31, 2007) and assumes that the performance shares pay off at the target level.

	03/13/07	12/31/09	5,190(4)	261,576	29,410(5)	1,482,264

(1) Normally, outstanding options would be listed in this table. There are no outstanding stock options for any named executive officers.

(2) The amounts shown in this column reflect the number of unvested restricted shares granted under the Incentive Equity Plan and the number of retention units under the Long-Term Incentive Plan or 2007 Incentive Equity

Plan. Unless otherwise indicated, all of these awards vest on the last day of the second year following the year in which the award was granted.

- (3) Reflects a grant of restricted shares.
- (4) Reflects a grant of retention units. Grant dates of 5/8/06, 9/1/06 and 12/11/06 pertain to the 2006-2008 performance period, and the grant date of 3/13/07 pertains to the 2007-2009 performance period.
- (5) Reflects grants of performance shares. Grant dates of 5/8/06, 9/1/06 and 12/11/06 pertain to the 2006-2008 performance period, and the grant date of 3/13/07 pertains to the 2007-2009 performance period.
- (6) This represents additional performance shares (28,220) and retention units (4,980) for the 2006-2008 performance period granted to Mr. Carrabba upon becoming Cleveland-Cliffs Chief Executive Officer.

**Table of Contents**

- (7) This represents performance shares (13,600) and retention units (2,400) for the 2006-2008 performance period granted to Ms. Brlas upon becoming Cleveland-Cliffs Chief Financial Officer.
- (8) Mr. Stovash did not have any outstanding equity as of December 31, 2007.
- (9) Mr. Gunning received a grant of restricted shares on 3/14/06 that vests on 3/14/09. The shares became non-forfeitable upon his retirement. Restrictions were removed from 50 percent of the award to satisfy tax obligations.

**Option Exercises and Stock Vested**

Columns (b) and (c) in the following table set forth certain information regarding performance shares, retention units and restricted share awards that vested during 2007 for the named executive officers based on the applicable fair market value. None of Cleveland-Cliffs named executive officers had stock options during the fiscal year ended December 31, 2007 and thus could not exercise them.

**2007 Option Exercises And Stock Vested Table**

<b>Name</b>	<b>Stock Awards</b>	
	<b>Number of Shares Acquired on Vesting (#)</b>	<b>Value Realized on Vesting (\$)</b>
<b>(a)</b>	<b>(b)</b>	<b>(c)(1)</b>
Joseph A. Carrabba(2)	5,066(3)	186,479
	17,402(4)	1,042,032
	2,280(5)	114,912
Laurie Brlas(2)		
Donald J. Gallagher	14,600(6)	527,571
	18,776(4)	1,124,307
	2,460(5)	123,984
William R. Calfee	18,776(4)	1,124,307
	2,460(5)	123,984
Randy L. Kummer	24,336(7)	1,226,534
	13,280(4)	795,206
	1,740(5)	87,696
Ronald G. Stovash(2)	38,000(8)	1,609,490
David H. Gunning	50,000(9)	1,435,250
	41,860(10)	1,803,747
	25,088(4)	1,502,269
	3,286(5)	165,614

- (1) The value realized shown in column (c) is computed by multiplying the number of restricted shares, performance shares and retention units by the closing price of a Cleveland-Cliffs common share on the date of vesting. Except as otherwise noted, all awards vested on December 31, 2007. The closing price of a Cleveland-Cliffs common share on December 31, 2007 was \$50.40.
- (2) The executive did not participate in the Long-Term Incentive Plan for the 2004-2006 performance period.
- (3) The restricted shares were granted on May 23, 2005. They vested on May 23, 2007 with a fair market value of \$36.81.
- (4) This represents a performance share award granted on March 8, 2005 for the 2005-2007 performance period paid out to participants on February 26, 2008 at a fair market value of \$59.88 per share on February 22, 2007. The performance shares would have been, based on the performance criteria, paid out at 175 percent.

**Table of Contents**

However, because the maximum cap on payments, they were actually paid at 77 percent of the uncapped value.

- (5) This represents an award of retention units under the Long-Term Incentive Plan paid out to participants for the 2005-2007 performance period.
- (6) Pursuant to Mr. Gallagher's restricted stock agreement, the shares became non-forfeitable upon his retirement eligibility. The shares vested on May 4, 2007 with a fair market value of \$36.14.
- (7) The restricted shares were granted on March 8, 2005. They vested on December 31, 2007 with a fair market value of \$50.40.
- (8) The restricted shares were granted on July 31, 2007. Pursuant to provisions in Mr. Stovash's restricted share agreement, the shares vested on November 5, 2007 with a fair market value of \$42.36 upon his involuntary termination without cause.
- (9) The restricted shares were granted on March 10, 2003. They vested on March 12, 2007 with a fair market value of \$28.71.
- (10) The restricted shares were granted on March 14, 2006. Mr. Gunning retired from Cleveland-Cliffs on June 1, 2007. The grant became non-forfeitable upon his retirement. Restrictions were removed on 50 percent of the shares to satisfy the tax obligation. The balance of the shares will be released on March 14, 2009.

***Pension Benefits***

The table below shows the present value of accumulated benefits payable to each named executive officer, except Mr. Stovash, and the number of years of service credited to each such named executive officer under the Pension Plan and the Supplemental Retirement Benefit Plan. The calculation was determined using interest rate and mortality rate assumptions consistent with those used in Cleveland-Cliffs' financial statements.

The Pension Plan provides participants, including the named executive officers, with the greater of:

(a) the sum of:

- (1) For service with Cleveland-Cliffs through June 30, 2008, his or her accrued benefit under the plan's Final Average Pay Formula described below; and
- (2) For service with Cleveland-Cliffs after June 30, 2008, his or her cash balance credits and interest under the Cash Balance Formula described below; or

(b) the sum of:

- (1) For service with Cleveland-Cliffs through June 30, 2003, his or her accrued benefit under the Final Average Pay Formula described below; and
- (2) For service with Cleveland-Cliffs after June 30, 2003, his or her cash balance credits and interest after June 30, 2003 under the Cash Balance Formula described below.

The Final Average Pay Formula provides a benefit that is generally based on a 1.65 percent pension formula. For each year of service up to June 30, 2003 or June 30, 2008, as the case may be, the plan provides 1.65 percent of Average

Monthly Compensation. Average Monthly Compensation is defined as the average annual compensation earned during the 60 consecutive months providing the highest such average during the last 120 months preceding the applicable date. The benefit is subject to an offset of 50 percent of Social Security benefits through the applicable date. Benefits are payable as an annuity, unreduced for early commencement, upon the attainment of normal retirement at age 65, or at 30 years of service. Benefits are payable as an annuity reduced for early commencement upon the attainment of age 55 with 15 years of service.

The Cash Balance Formula provides a benefit payable at any time equal to the value of a notional cash balance account. For each calendar quarter, after the applicable date a credit is made to the account equal to a percentage of his or her pay ranging from four percent to ten percent based upon his or her age and service with transitional pay credits up to 13 percent during the transition period from June 30, 2003 to June 30, 2008. Interest is credited to the

**Table of Contents**

account balance on a quarterly basis. At retirement or termination of employment, the accumulated account balance can be paid as either a lump sum or actuarially equivalent annuity.

The compensation used to determine benefits under the Pension Plan is the sum of salary and annual incentive compensation paid under the Executive Management Performance Incentive Plan to a participant during a calendar year. Pensionable earnings for each of Cleveland-Cliffs named executive officers during 2007 include the amount shown for 2007 in column (c) of the 2007 Summary Compensation Table above, plus the amount of incentive compensation earned in 2006 and paid in 2007.

The Supplemental Retirement Benefit Plan generally provides the named executive officers with the benefits which would have been payable under the Pension Plan if certain Code limitations did not apply to the Pension Plan. The Supplemental Retirement Benefit Plan was amended effective for 2006 and future accruals to eliminate the annual payments and to provide that Supplemental Retirement Benefit Plan accruals will be paid at retirement. The Supplemental Retirement Benefit Plan provides for accruals to be paid out at retirement.

**2007 Pension Benefits Table**

Name (a)	Plan Name (b)	Number of Years Credited	Present Value of Accumulated Benefit (\$) (d)(2)	Payments During Last Fiscal Year (\$) (e)
		Service (#) (c)		
Joseph A. Carrabba	Salaried Pension Plan	2.7	39,100	
	Supplemental Retirement Benefit Plan	2.7	999,400	
Laurie Brlas	Salaried Pension Plan	1.1	11,500	
	Supplemental Retirement Benefit Plan	1.1	20,700	
Donald J. Gallagher	Salaried Pension Plan	26.4	731,200	
	Supplemental Retirement Benefit Plan	26.4	815,800	
William R. Calfee	Salaried Pension Plan	35.5	1,263,300	
	Supplemental Retirement Benefit Plan	35.5	923,000	
Randy L. Kummer	Salaried Pension Plan	7.3	88,700	
	Supplemental Retirement Benefit Plan	7.3	63,000	
Ronald G. Stovash(1)				
David H. Gunning	Salaried Pension Plan	6.2	190,900	
	Supplemental Retirement Benefit Plan	6.2	533,824	

- (1) Mr. Stovash was not eligible to participate in pension benefits.
- (2) The present value of accrued benefits were calculated using a 6.00 percent discount rate, the assumption that the executive would receive the benefits at age 65 unless he or she is entitled to an unreduced benefit at an earlier age, and using the RP2000 mortality table.

***Nonqualified Deferred Compensation***

Pursuant to the VNQDC Plan, the named executive officers are permitted to defer, on a pre-tax basis, up to 50 percent of their base salary, all or a portion of their annual incentive under the Executive Management Performance Incentive Plan, and their stock award or cash award that may be payable under the Long-Term Incentive Plan. Cash compensation awards deferred into stock units will be matched with a 25 percent match by Cleveland-Cliffs.

Cash deferrals earn interest at the Moody's Corporate Average Bond Yield rate. Stock awards, which can only be deferred into stock units, are denominated in Cleveland-Cliffs common shares and vary with Cleveland-Cliffs share price performance.

**Table of Contents**

Additionally, the VNQDC Plan provides that if a participant is entitled to receive a discretionary performance based contribution under the 401(k) Savings Plan but is limited in the amounts which can be contributed to the 401(k) Savings Plan by certain Code limitations, then the balance of such performance based contribution will be credited to the participant's account under the VNQDC Plan. Similarly, if a named executive officer's salary reduction contributions to the 401(k) Savings Plan are limited by Code limitations, the amount that exceeds the limit will be credited to the executive's account under the VNQDC Plan together with the Cleveland-Cliffs match he or she would have had under the 401(k) Savings Plan.

This table discloses in column (b), Executive Contributions in Last Fiscal Year, the contributions by each named executive officer to the VNQDC Plan. The contributions include pre-tax contributions of salary, pre-tax contributions of incentive bonuses, pre-tax contributions of stock awards, and pre-tax contributions of cash awards.

Column (c) of the Table, Registrant Contributions in Last Fiscal Year, includes matching contributions Cleveland-Cliffs made of behalf of the named executive officers to the VNQDC Plan and performance-based contributions authorized under the 401(k) Savings Plan that were credited to the VNQDC Plan.

Column (d) of the Table, Aggregate Earnings in Last Fiscal Year, includes interest earned on cash deferrals and dividends earned on deferred shares.

**2007 Nonqualified Deferred Compensation Table**

<b>Name</b>	<b>Executive Contributions in Last Fiscal Year</b>	<b>Registrant Contributions in Last Fiscal Year</b>	<b>Aggregate Earnings in Last Fiscal Year</b>	<b>Aggregate Withdrawals / Distributions</b>	<b>Aggregate Balance at Last Fiscal Year-End</b>
<b>(a)</b>	<b>(\$)</b>	<b>(\$)</b>	<b>(\$)</b>	<b>(\$)</b>	<b>(\$)</b>
	<b>(b)(1)</b>	<b>(c)(2)</b>	<b>(d)(3)</b>	<b>(e)</b>	<b>(f)(2)(4)</b>
Joseph A. Carrabba	133,048(2)	64,688	9,369		346,138
Laurie Brlas	26,337	21,175	842		48,457
Donald J. Gallagher		16,425	2,536,862		5,006,763
William R. Calfee	34,475	18,765	1,077,551		2,401,240
Randy L. Kummer		23,449	2,422		69,319
Ronald G. Stovash(5)					
David H. Gunning			3,005	61,704	

(1) The amounts in column (b) represents pre-tax contributions of salary, incentive bonuses, and performance share and retention unit awards to the VNQDC Plan by the named executive officers. Mr. Carrabba deferred \$99,298 of his 2007 bonus and \$33,750 of his salary into the VNQDC Plan. Ms. Brlas and Mr. Calfee deferred only salary. All of these amounts are reported as 2007 compensation in the 2007 Summary Compensation Table above.

(2) The amounts in column (c) reflect the sum of (i) Cleveland-Cliffs matching contributions made on behalf of the named executive officers to the VNQDC Plan, and (ii) performance-based contributions authorized under the 401(k) Savings Plan but that were credited to the VNQDC Plan. The matching contributions for the named executive officers were: Carrabba \$19,688; Brlas \$6,050; and Calfee \$5,220. The performance-based contributions to the VNQDC Plan for the named executive officers were: Carrabba \$45,000; Brlas \$15,125;

Gallagher \$16,425; Calfee \$13,545; and Kummer \$23,449. All of these amounts are reported as 2007 compensation in the 2007 Summary Compensation Table above. Please note that the amounts shown in column (b) for Mr. Carrabba and in columns (c) and (f) differ from the amounts shown in the respective columns of the 2007 Nonqualified Deferred Compensation table included in Cleveland-Cliffs proxy statement for the 2007 annual meeting as a result of recent SEC guidance to reflect certain amounts contributed to the VNQDC Plan during 2008.

- (3) The amounts in column (d) reflect the sum of (i) interest earned on cash deferrals, (ii) dividends earned on deferred shares, and (iii) the increase (or decrease) in the value of deferred common shares held in the participant's account from January 1, 2007 through December 31, 2007. The interest earned by the named executive officers was: Carrabba \$9,370; Brlas \$842; Gallagher \$7,623; Calfee \$21,350;

**Table of Contents**

Kummer \$2,422 and Gunning \$3,005. The dividends earned by the named executive officers were: Gallagher \$22,399 and Calfee \$9,892. A portion of dividends was reinvested into deferred common shares. The change in valuation of the deferred common shares for Messrs. Gallagher and Calfee was \$2,506,840 and \$1,046,310, respectively. None of these amounts are reported as 2007 compensation in the 2007 Summary Compensation Table above.

- (4) Mr. Gallagher's aggregate balance includes 96,356 deferred common shares and Mr. Calfee's aggregate balance includes 39,800 deferred common shares. Cleveland-Cliffs' common shares had a closing market price of \$50.40 on December 31, 2007.
- (5) Mr. Stovash was not eligible to participate in nonqualified deferred compensation.

***Potential Payments Upon Termination or Change of Control***

The tables below reflect the compensation payable to each of the named executive officers currently serving Cleveland-Cliffs in the event of termination of such executive's employment under a variety of different circumstances, including the named executive officer's voluntary termination, involuntary not-for-cause termination, and termination following a change of control. The amounts shown assume in all cases that such termination was effective as of December 31, 2007, and, unless indicated otherwise, reflect the two-for-one stock split effective May 15, 2008. All amounts shown are estimates of the amounts that would be paid out to the executives upon their termination. The actual amounts to be paid out can only be determined at the time of such executive's separation from Cleveland-Cliffs.

***Payments Made Upon All Terminations***

If a named executive officer's employment terminates, he or she is entitled to receive certain amounts earned during his or her term of employment no matter the cause of termination. Such amounts include:

Salary through the date of termination;

Unused vacation pay;

Accrued and vested benefits under the Pension Plan, Supplemental Retirement Benefit Plan, 401(k) Savings Plan, and VNQDC Plan;

Undistributed performance shares and unpaid retention units for periods which have been completed; and

Restricted shares where the restrictions have lapsed.

***Additional Payments Upon Involuntary Termination Without Cause***

In the event that a named executive officer is terminated involuntarily without cause, he or she would typically receive the following additional payments or benefits in the sole discretionary judgment of the Compensation Committee, taking into account the nature of the termination, the length of the executive's service with Cleveland-Cliffs, and the executive's grade level. There is no legally binding agreement requiring that any such payments or benefits be paid to any named executive officer except in the case of a change in control prior to the termination:

Severance payments;

Continued health insurance benefits;

Out-placement services; and

Financial services.

Since all such benefits are at the discretion of the Compensation Committee, it is impossible to estimate the amount that would be paid in such circumstances.

On November 5, 2007, Mr. Stovash's employment was terminated without cause. Within its discretion, Cleveland-Cliffs agreed to pay Mr. Stovash or provide Mr. Stovash with:

\$78,000 representing pay until December 31, 2007;

**Table of Contents**

A lump sum payment of \$930,000 representing one year's salary (\$500,000), one year's target bonus (\$400,000), one year's matching employer contributions under the applicable 401(k) plan (\$18,000) and one year's vehicle allowance;

Vesting of his restricted shares granted on July 31, 2007 valued at \$1,609,490;

The benefits of his membership in the PinnOak Resources Employee Equity Incentive Plan valued at \$2,500,000;

Continued coverage under Cleveland-Cliffs dental plans until December 31, 2007 valued at \$65;

Use, at his own expense, of the Laurel Valley Golf Club and the Duquesne Club; and

One executive physical examination at the Greenbrier Clinic.

In return for such benefits, Mr. Stovash agreed not to disclose Cleveland-Cliffs trade secrets and not to become employed by certain of Cleveland-Cliffs competitors.

***Additional Payments Upon Retirement***

None of the named executive officers were eligible to retire on December 31, 2007 other than Mr. Calfee and Mr. Gallagher. In the event of any named executive officer's retirement, the following additional amounts will be paid and additional benefits will be provided, in addition to the amounts payable to all terminated salaried employees:

A pro-rata portion of the annual incentive award under the Executive Management Performance Incentive Plan for the year in which he or she retires;

Any unpaid annual incentive award under the Executive Management Performance Incentive Plan for the year prior to the year of retirement;

A pro-rata portion of his or her performance shares and retention units will be paid when such shares and units would otherwise be paid;

A pro-rata portion of any performance based contribution to the 401(k) Savings Plan and the VNQDC Plan for the year of retirement;

He or she will keep his or her restricted shares and the restrictions on sale of the shares will lapse at the end of the restriction period;

He or she will be entitled to retiree medical and life insurance for the rest of his or her life and the life of his or her spouse on the same terms as any other salaried employee hired prior to 1993; and

He or she will become vested in certain matching contributions under the VNQDC Plan provided that the amounts are not withdrawn until the end of the five year vesting period.

On June 1, 2007, Mr. Gunning retired from Cleveland-Cliffs after seven years of service. Because of his retirement, Mr. Gunning will receive the payments and benefits described above and described in the section under the heading Payments Made Upon All Terminations, except that he is not entitled to retiree medical and life insurance since he

was not hired until after the freezing of such benefit. Upon his retirement, Mr. Gunning entered into a consulting agreement with Cleveland-Cliffs effective June 1, 2007. The consulting agreement provides that Mr. Gunning is to be paid an annual fee in quarterly installments in U.S. dollars for his service as a member of the Board of Directors of Portman serving on behalf of Cleveland-Cliffs. The consulting fee is based on the current retainer paid to independent directors of Portman.

**Table of Contents**

***Additional Payments Because of Change in Control Without Termination***

Under the terms of the Restricted Shares Agreements and Performance Share Agreements, the named executive officers are entitled to the following benefits upon the occurrence of a change in control, regardless of whether the employment of the named executive officer is terminated:

The restrictions on the restricted shares lapse immediately;

The performance shares vest immediately; and

The retention units vest immediately.

For this purpose, a change in control generally means the occurrence of any of the following events:

- (1) Any one person, or more than one person acting as a group acquires ownership of stock of Cleveland-Cliffs that, together with stock held by such person or group, constitutes more than 50% of the total fair market value or total voting power of the stock of Cleveland-Cliffs (subject to certain exceptions);
- (2) Any one person, or more than one person acting as a group, acquires (or has acquired during the 12-month period ending on the date of the most recent acquisition by such person or persons) ownership of stock of Cleveland-Cliffs possessing 35% or more of the total voting power of the stock of Cleveland-Cliffs;
- (3) A majority of members of the board of directors of Cleveland-Cliffs is replaced during any 12-month period by directors whose appointment or election is not endorsed by a majority of the members of the board of directors prior to the date of the appointment or election; or
- (4) Any one person, or more than one person acting as a group, acquires (or has acquired during the 12-month period ending on the date of the most recent acquisition by such person or persons) assets from Cleveland-Cliffs that have a total gross fair market value equal to or more than 40% of the total gross fair market value of all of the assets of Cleveland-Cliffs immediately prior to such acquisition or acquisitions.

Acquisitions of Cleveland-Cliffs stock pursuant to certain business combination or similar transactions described in Cleveland-Cliffs relevant equity incentive plans, however, will not constitute a change in control if, generally speaking, in each case, immediately after such business transaction:

the owners of Cleveland-Cliffs stock immediately prior to the business transaction own more than 55% of the entity resulting from the business transaction in substantially the same proportions as their pre-business transaction ownership of Cleveland-Cliffs stock;

no one person, or more than one person acting as a group (subject to certain exceptions), owns 30% or more of the combined voting power of the entity resulting from the business transaction; and

at least a majority of the members of the board of directors of the entity resulting from the business transaction were members of the incumbent board of directors of Cleveland-Cliffs when the business transaction agreement was signed or approved by Cleveland-Cliffs board of directors. For purposes of this exception, the incumbent board of directors of Cleveland-Cliffs generally means those directors who were serving as of August 11, 2008 (or a prior date in the case of certain pre-2007 equity awards) or whose appointment or election was endorsed by a majority of the incumbent members prior to the date of such appointment or election.

Except as it pertains to the definition of business combination or similar transactions, persons will be considered to be acting as a group if they are owners of a corporation that enters into a merger, consolidation, purchase or acquisition of stock, or similar business transaction with Cleveland-Cliffs. Additionally, for certain equity awards made prior to the 2007 Incentive Equity Plan, issuances of Cleveland-Cliffs stock approved by the incumbent board of directors of Cleveland-Cliffs, acquisitions by Cleveland-Cliffs of its own stock and acquisitions by Cleveland-Cliffs stock by Cleveland-Cliffs employee benefit plans or related trusts also will not constitute a change in control.

The Compensation Committee amended the 2007 Incentive Equity Plan to correct the definition of a Change in Control so that performance shares and retention units awarded in 2007 and 2008 will not be earned as a result of

**Table of Contents**

the consummation of the merger. The Compensation Committee made this amendment, which was approved by the board of directors, because the Compensation Committee was of the view that, at the time that it approved the plan in 2007, it did not intend for awards under the plan to become earned in connection with transactions such as the merger. The Compensation Committee was advised by independent counsel with respect to the amendment of the plan. In the absence of this amendment, the performance share and retention unit awards would have been considered to be earned at the time of the merger at 100% of target levels, regardless of Cleveland-Cliffs' performance, and required to be paid out in cash within 10 days of the merger. Absent the amendment to the 2007 Incentive Equity Plan, Cleveland-Cliffs estimates the total aggregate amount of the payments that would have been required to be made with respect to these accelerated performance shares and retention units would be approximately \$69,180,881, assuming a price per Cleveland-Cliffs common share of \$111.46, which was the closing price of Cleveland-Cliffs common shares on the NYSE on the last trading day prior to the announcement of the merger. It is possible that the amendment of the plan could be subject to challenge.

***Additional Payments Upon Termination Without Cause after Change in Control***

Each of the named executive officers has a written Severance Agreement which applies only in the event of termination during the two years after a change in control. If one of the named executive officers is involuntarily terminated during the two years after a change in control, for a reason other than cause, he or she will be entitled to the following additional benefits:

- (1) A lump sum payment in an amount equal to three times (two times for Kummer) the sum of (A) base salary (at the highest rate in effect for any period prior to the termination date), plus (B) annual incentive pay at the target level for the current year or prior year whichever is greater.
- (2) Coverage for a period of 36 months (24 months for Kummer) following the termination date, by health, life insurance and disability benefits.
- (3) A lump sum payment in an amount equal to the sum of the future pension benefits which the executive would have been entitled to receive three years (two years for Kummer) following the termination date under the Supplemental Retirement Benefit Plan.
- (4) Pro-rata incentive pay at target levels for the year in which the termination date occurs.
- (5) Outplacement services in an amount up to 15 percent of the executive's base salary.
- (6) Post-retirement medical, hospital, surgical and prescription drug coverage for the lifetime of the executive, his or her spouse and any eligible dependents at the normal participant cost based on the executive's age.
- (7) A gross-up payment for any taxes imposed on the executive under Code Section 4999 relating to excess parachute payments.
- (8) He or she will become vested in certain matching contributions under the VNQDC Plan provided that the amounts are not withdrawn until the end of the five-year vesting period.
- (9) He or she will be provided perquisites for a period of 36 months (24 months for Mr. Kummer) comparable to the perquisites he or she was receiving before the termination of his employment or the change in control whichever was greater.

Similar benefits are paid if the executive voluntarily terminates his or her employment during the two years following a change in control by reason of any one of the following happening:

- (1) Failure to maintain the executive in the office or position, or a substantially equivalent office or position, which the executive held immediately prior to a change in control;
- (2) (A) A significant adverse change in the nature or scope of the executive's authorities, powers, functions, responsibilities or duties, (B) a reduction in the executive's base salary, (C) a reduction in the executive's opportunity to receive incentive pay, or (D) the termination or denial of the executive's rights to employee benefits or a reduction in the scope or value thereof;

**Table of Contents**

- (3) A change in circumstances which has substantially hindered executive's performance of his or her job;
- (4) Certain corporate transactions;
- (5) Cleveland-Cliffs relocates its principal executive offices in excess of 25 miles from the prior location; or
- (6) Breach of the Severance Agreement.

For purposes of the Severance Agreements, *cause* generally means termination of an executive for the following acts:

- (1) conviction of a criminal violation involving fraud, embezzlement or theft in connection with his or her duties or in the course of his or her employment with Cleveland-Cliffs or any subsidiary of Cleveland-Cliffs; (2) intentional wrongful damage to property of Cleveland-Cliffs or any subsidiary of Cleveland-Cliffs; (3) intentional wrongful disclosure of secret processes or confidential information of Cleveland-Cliffs or any subsidiary of Cleveland-Cliffs; or (4) intentional wrongful engagement in any Competitive Activity.

In order to receive benefits under the Severance Agreements, the named executive officers may not disclose Cleveland-Cliffs' confidential and proprietary information, may not go into competition with Cleveland-Cliffs, and may not solicit Cleveland-Cliffs' employees to leave Cleveland-Cliffs' employment.

***Potential Termination Payments to Named Executive Officers***

The following tables show the benefits payable to the named executive officers currently serving Cleveland-Cliffs upon various types of terminations of employment and change in control assuming an effective date of December 31, 2007:

<b>Benefit</b>	<b>Joseph A. Carrabba</b>

**Table of Contents****Directors Compensation**

Prior to May 1, 2008, Cleveland-Cliffs directors who are not Cleveland-Cliffs employees received an annual retainer fee of \$32,500 and an annual equity award of \$32,500. Effective May 1, 2008, the annual retainer fee and annual equity awards for independent directors of Cleveland-Cliffs were increased to \$50,000 and \$75,000, respectively. Board meeting fees and committee meeting fees are \$1,500 and \$1,000, respectively. The Lead Director annual retainer fee is \$10,000. Annual committee chair retainers are as follows: Audit Committee, \$10,000, and Board Affairs, Finance, and Compensation Committees, \$5,000. Effective July 8, 2008, the Strategic Advisory Committee, originally an Ad Hoc Committee, was formalized by the Cleveland-Cliffs board of directors to be a standing committee. The committee chair of the Strategic Advisory Committee receives an annual retainer of \$5,000. Employee directors receive no compensation for their service as directors.

The Nonemployee Directors Compensation Plan (as Amended and Restated as of January 1, 2005), which Cleveland-Cliffs refers to as the Directors Plan, implements the annual equity grant program referenced above. Directors who are under age 69 on the date of the annual meeting receive an automatic annual grant of \$75,000 worth of restricted shares with a three-year vesting requirement. Nonemployee directors who are 69 years of age or older on the date of the Cleveland-Cliffs annual meeting receive an automatic annual grant of \$75,000 worth of Cleveland-Cliffs common shares (with no restrictions).

The Directors Plan also provides that a director should own by the end of a four-year period either (1) 4,000 or more common shares or (2) common shares having a market value of at least \$100,000, in accordance with the current Director Share Ownership Guidelines. If a nonemployee director meets these guidelines in December of each year, the director may elect to receive all or a portion of his or her annual retainer of \$50,000 for the following year in cash. If the director does not meet these guidelines, the director is required to receive an equivalent value of \$20,000 (increased from \$15,000 as of May 1, 2008) in Cleveland-Cliffs common shares until he or she meets one of the two guidelines. Nonemployee directors may elect to receive up to 100 percent of their retainer and other fees in common shares. In addition, the Directors Plan gives nonemployee directors the opportunity to defer all or a portion of their annual retainer and other fees, whether payable in cash or common shares. Beginning with the 2006 annual equity award, nonemployee directors may elect to receive deferred shares in lieu of their annual equity award of restricted common shares or common shares. A director may also elect that all cash dividends with respect to such restricted shares be deferred and reinvested in additional common shares during the restriction period of such restricted shares. Those additional common shares are subject to the same restrictions as the underlying award. Cash dividends not subject to the restriction described above will be paid to the director without restriction.

Nonemployee directors who joined the board before January 1, 1999 were able to participate in either the Retirement Plan for Non-Employee Directors adopted in 1984, which Cleveland-Cliffs refers to as the 1984 Plan, or the Nonemployee Directors Supplemental Compensation Plan established in 1995, which Cleveland-Cliffs refers to as the 1995 Plan. The 1984 Plan provides that a nonemployee director elected before July 1, 1995, with at least five years of service, receives during his or her lifetime after retirement an amount equal to the annual retainer currently paid to nonemployee directors. Under the 1995 Plan, a nonemployee director elected on or after July 1, 1995, with at least five years of service, receives after retirement a quarterly amount equal to fifty percent of the stated quarterly retainer in effect at the time of retirement for the period equal to the director's continuous service. Under either plan, in the event of a change in control causing the director's retirement, he or she receives the retirement payment prorated for any service less than five years. Directors who join the board on or after January 1, 1999 were not eligible to participate in either plan.

On January 14, 2003, the board of directors adopted respective amendments to both plans to provide for a voluntary immediate lump sum cash-out election of the present value of the accrued pension and deferred benefits to all nonemployee directors participating under both plans. Under the terms of both plans, as amended, the lump-sum benefit was payable to the participants on June 30, 2003. Of the 14 participants, three elected not to participate in the lump sum benefit. The aggregate value for participants electing a payout was approximately \$2.3 million. The payout election by the 11 participants means those participants have no further opportunity for a pension adjustment under either plan for future changes in Cleveland-Cliffs' annual retainer. Mr. Ireland is the only current active director eligible for a retirement benefit, which will be paid from the 1984 Plan. There are no active directors eligible for retirement benefits, and only two retired directors currently receive benefits under the 1995 Plan.

**Table of Contents**

Cleveland-Cliffs has trust agreements with KeyBank National Association relating to the Directors Plan, the 1984 Plan and the 1995 Plan, in order to fund and pay Cleveland-Cliffs retirement obligations under these plans.

**2007 Director Compensation Table**

The following table, supported by the accompanying footnotes and narrative, sets forth for fiscal year 2007 all compensation earned by the individuals who served as Cleveland-Cliffs nonemployee directors at any time during 2007.

Name (a)	Fees Earned or	Stock	Change in Pension Value and Nonqualified Deferred Compensation	All Other	Total
	Paid in Cash (\$) (b)(1)	Awards (\$) (c)(2)	Earnings (\$) (d)(3)	Compensation (\$) (e)(4)	(\$) (f)
R. C. Cambre	58,000	24,660		4,000	86,660
S. M. Cunningham	61,000	22,393			83,393
B. J. Eldridge	63,500	24,338			87,838
S. M. Green	22,954	15,343			38,297
J. D. Ireland III	70,000	24,660	1,196		95,856
F. R. McAllister	73,000	24,660		5,000	102,660
R. Phillips	56,000	29,821			85,821
R. K. Riederer	80,000	29,821			109,821
A. Schwartz	61,000	24,660		3,000	88,660
J. S. Brinzo(5)	125,000	384,263		16,080	525,343

- (1) The amounts listed in this column reflect the aggregate cash dollar value of all earnings in 2007 for annual director retainers, chairman retainers and meeting fees, whether received in required retainer shares, voluntary shares, or cash, or a combination thereof. Unless otherwise noted below, the amounts indicated were elected to be paid in cash.

Messrs. Cambre, Eldridge, and Schwartz elected to receive \$32,500, \$44,450, and \$15,000, respectively, in Cleveland-Cliffs common shares. Messrs. Cunningham and Green did not meet the established Director Share Ownership Guidelines and were required to receive \$15,000 and \$6,440, respectively, in Cleveland-Cliffs common shares. Mr. Riederer elected to defer \$15,000 in Cleveland-Cliffs common shares and Mr. Ireland elected to defer \$15,000 in cash pursuant to the Directors Plan.

- (2) The amounts in this column reflect the dollar amount recognized for financial statement reporting purposes for the fiscal year ended December 31, 2007, in accordance with SFAS 123R, of awards of restricted shares and includes amounts from awards granted in and prior to 2007. For additional information specifically regarding Mr. Brinzo's stock awards, refer to Note 11 to Cleveland-Cliffs audited financial statements for the year ended December 31, 2007 included elsewhere in this joint proxy statement/prospectus, and Notes 11 and 12 to Cleveland-Cliffs audited financial statements in Item 8 of Cleveland-Cliffs Annual Reports on Form 10-K for the years ended December 31, 2006 and 2005, respectively. In 2007, an automatic annual equity grant of 936

restricted shares having a grant date fair market value of \$32,474.52 was made to each of the nonemployee directors listed above. Mr. Riederer elected to receive deferred shares in lieu of restricted shares under the Directors Plan.

As of December 31, 2007, the aggregate number of restricted shares subject to forfeiture held by each Nonemployee Director were as follows: Mr. Cambre 3,976; Ms. Cunningham 3,372; Mr. Eldridge 3,916; Ms. Green 936, Mr. Ireland 3,976; Mr. McAllister 3,976; Mr. Phillips 3,976; Mr. Riederer 1,732; and Mr. Schwartz 3,976.

As of December 31, 2007, the aggregate number of unvested deferred shares credited to Mr. Riederer under the Directors Plan was 2,266.5498.

**Table of Contents**

- (3) Mr. Ireland is the only independent director eligible for retirement benefits under the 1984 Plan. The aggregate change in the actuarial present value of Mr. Ireland's benefit under the 1984 Plan is \$1,196.
- (4) The amounts in this column, except as noted, reflect matching contributions made to educational institutions from the Cleveland-Cliffs Foundation on behalf of the director.

The Company donated \$5,000 to the Boy Scouts Jamboree on behalf of Mr. McAllister who was the Chairman of the Relationship and Media Team for the U.S. contingent to the World Scout Jamboree in 2007.

- (5) Mr. Brinzo retired as Chairman of the board on May 8, 2007. As former Chief Executive Officer of Cleveland-Cliffs, Mr. Brinzo was not an independent director. The amount of cash compensation received in 2007 was paid pursuant to a compensation package approved by the Compensation Committee on August 17, 2006.

Mr. Brinzo received performance share grants as a Cleveland-Cliffs officer for performance periods 2005 to 2007 and 2006 to 2008. The amount listed of \$348,263 is the SFAS 123R calculation of the value of outstanding performance shares and retention units for Mr. Brinzo's service as a director.

Pursuant to Mr. Brinzo's retirement agreement, he received \$8,080 in investment counseling services and secretarial support valued at \$3,000. Also, in connection with Mr. Brinzo's retirement, Cleveland-Cliffs established a \$5,000 annual scholarship in the name of Mr. Brinzo to one recipient entering his or her freshman year at Kent State University's College of Business. Cleveland-Cliffs created this scholarship to honor Mr. Brinzo for his leadership of Cleveland-Cliffs and his dedication to education.

**Equity Compensation Plan Information**

The table below sets forth certain information regarding the following equity compensation plans as of December 31, 2007: the 1992 Incentive Equity Plan, the 2007 Incentive Equity Plan, the Management Performance Incentive Plan, the Executive Management Performance Incentive Plan and the Mine Performance Bonus Plan, which Cleveland-Cliffs refers to as the Mine Plan, the VNQDC Plan and the Directors' Plan. Only the 1992 Incentive Equity Plan, the 2007 Incentive Equity Plan, the Directors' Plan and the Executive Management Performance Incentive Plan have been approved by shareholders.

<b>Plan Category</b>	<b>Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (a)</b>	<b>Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights (b)</b>	<b>Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column(a)) (c)</b>

Equity compensation plans approved by security holders	735,344(1)	\$	5.42	2,000,878(2)
Equity compensation plans not approved by security holders				(3)
Total	735,344	\$	5.42	2,000,878

- (1) Includes 723,544 performance share awards, an award initially denominated in shares, but no shares are actually issued until performance targets are met. The weighted-average exercise price of outstanding options, warrants and rights, column (b), does not take these awards into account.
- (2) Includes 1,842,306 common shares remaining available under the 2007 Incentive Equity Plan, which authorizes the Compensation Committee to make awards of option rights, restricted shares, deferred shares, performance shares and performance units (including up to 514,714 restricted shares and deferred shares); and 158,572 common shares remaining available under the Directors' Plan, which authorizes the award of restricted shares, which we refer to as the annual equity grant, to directors upon their election or re-election to the board at the annual meeting and provides (i) that the directors are required to take \$15,000 of the annual retainer in common shares unless they meet the director share ownership guidelines, and (ii) may take up to 100 percent of their retainer and other fees in common shares.

**Table of Contents**

- (3) The Management Performance Incentive Plan, the Mine Plan, and the VNQDC Plan provide for the issuance of common shares, but do not provide for a specific amount available under the plans. Descriptions of those plans are set forth either above or below.

***Management Performance Incentive Plan***

The Management Performance Incentive Plan provides an opportunity for elected officers and other management employees to earn annual cash bonuses. Bonuses may also be paid in common shares. Certain participants in the Management Performance Incentive Plan may elect to defer all or a portion of such bonus into the VNQDC Plan. Each year the participants under the Management Performance Incentive Plan must make their cash bonus deferral election by December 31 of the year prior to the year in which the bonus is earned. A further election to exchange this bonus into shares may be made before payment of the bonus at a time selected by the Chief Executive Officer. Cleveland-Cliffs refers to these exchanged shares as bonus exchange shares. These participants may also elect at this time to have dividends credited with respect to the bonus exchange shares, either credited in additional deferred common shares, deferred in cash or paid out in cash in an in-service compensation distribution. In order to encourage elections to be credited with deferred common shares, the participants in the Management Performance Incentive Plan, who elect to have their cash bonuses credited to an account with bonus exchange shares, will be credited with restricted deferred common shares in the amount of 25 percent of the bonus exchange shares, referred to as bonus match shares. These participants must comply with the employment and non-distribution requirements for the bonus exchange shares during a five-year period for the bonus match shares to become vested and nonforfeitable.

***Mine Plan***

The Mine Plan provides an opportunity for senior mine managers to earn cash bonuses. Bonuses earned under the Mine Plan are determined and paid quarterly to the participants. Certain participants may elect to defer all or part of their quarterly cash bonuses under the VNQDC Plan. Participants in the Mine Plan may further elect to have his or her deferred cash bonus credited to an account with deferred common shares. Each year participants under the Mine Plan must make their bonus exchange shares election (for the four quarters of that year). Such elections must be made by December 31 of the year prior to the year in which the quarterly bonuses are earned. As with the participants electing bonus exchange shares under the Management Performance Incentive Plan, participants under the Mine Plan electing bonus exchange shares will receive or be credited with restricted bonus match shares in an amount of 25 percent of the bonus exchange shares with the same five-year vesting period.

***VNQDC Plan***

The VNQDC Plan, was originally adopted by the Cleveland-Cliffs board of directors to provide certain key management and highly compensated employees of Cleveland-Cliffs or its selected affiliates with the opportunity to defer receipt of a portion of their regular compensation in order to defer taxation of these amounts. The VNQDC Plan also permits deferral of bonus awards under the Management Performance Incentive Plan, the Executive Management Performance Incentive Plan, the Mine Performance Bonus Plan, or Mine Plan, and performance shares (awarded under the 1992 Incentive Equity Plan and 2007 Incentive Equity Plan). In addition, the VNQDC Plan contains the Management Share Acquisition Program, whose purpose is to provide designated management employees with the opportunity to acquire deferred interests in common shares through deferral of their bonuses. The VNQDC Plan also contains the Officer Share Acquisition Program, which permits elected officers who have not met the requirements of Cleveland-Cliffs Share Ownership Guidelines, to acquire deferred interests in common shares with compensation previously deferred in cash under the VNQDC Plan. When participants in the Management Performance Incentive Plan, the Mine Plan or the Management Share Acquisition Program or Officer Share Acquisition Program elect to have accounts credited with deferred common shares under the VNQDC Plan, they receive a match equal to

25 percent of the value of the deferred common shares that is credited by Cleveland-Cliffs to the accounts of participants.

**Table of Contents**

**Compensation Committee Interlocks and Insider Participation**

None of the individuals who served as members of the Cleveland-Cliffs Compensation Committee in 2007 was or has been an officer or employee of Cleveland-Cliffs or engaged in transactions with Cleveland-Cliffs (other than in his or her capacity as a director of Cleveland-Cliffs). None of Cleveland-Cliffs' executive officers serves as a director or member of the compensation committee of another entity, one of whose executive officers serves as a member of the Compensation Committee or a Cleveland-Cliffs director.

**CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

Other than Mr. Carrabba, who is Chairman, President and Chief Executive Officer of Cleveland-Cliffs, none of the current directors of Cleveland-Cliffs has any material relationship with Cleveland-Cliffs (directly or as a partner, shareholder or officer of an organization that has a relationship with Cleveland-Cliffs). Each of the current directors of Cleveland-Cliffs (other than Mr. Carrabba) is independent within Cleveland-Cliffs' director independence standards, which include exactly the NYSE director independence standards, as currently in effect and as they may be changed from time to time.

Since January 1, 2007, there have been no transactions between Cleveland-Cliffs and any of its independent directors other than compensation for service as a director.

Cleveland-Cliffs has entered into indemnification agreements with each current member of the Cleveland-Cliffs board of directors. The form and execution of the indemnification agreements were approved by Cleveland-Cliffs' shareholders at the annual meeting convened on April 29, 1987. The indemnification agreements essentially provide that, to the extent permitted by the Ohio General Corporation Law, Cleveland-Cliffs will indemnify the indemnitee against all expenses, costs, liabilities and losses (including attorneys' fees, judgments, fines or settlements) incurred or suffered by the indemnitee in connection with any suit in which the indemnitee is a party or otherwise involved as a result of his or her service as a member of the Board. In connection with the indemnification agreements, Cleveland-Cliffs has a trust agreement with KeyBank National Association pursuant to which the parties to the indemnification agreements may be reimbursed with respect to enforcing their respective rights under the indemnification agreements.

In order to promote mutual appreciation of management and union interests, Cleveland-Cliffs and the USW reached a new agreement in 2004 on a process under which the USW may designate a member of the board of directors, provided that individual is acceptable to the Chairman, is recommended by the Board Affairs Committee of the board of directors, and is elected by the full board. This agreement superseded a general understanding between the USW and certain of Cleveland-Cliffs' subsidiaries reached in 1993. Such designee would be subject to annual nomination by Cleveland-Cliffs, election by vote of the shareholders, and all laws and Cleveland-Cliffs' policies applicable to the board of directors. This arrangement is concurrent with Cleveland-Cliffs' U.S. labor agreements that may be terminated by either party on September 1, 2008. Susan M. Green was proposed by the USW and elected to the full board of directors at the annual meeting in 2007.

Jones Day is a law firm that Cleveland-Cliffs has retained for specific legal services, on a case-by-case basis, for over thirty years. The fees paid by Cleveland-Cliffs to Jones Day during 2007 were approximately \$1.98 million, which amount is less than 1.0 percent of Jones Day's gross revenues for 2007. Mr. Gunning is the father-in-law of Gina K. Gunning, a partner of Jones Day. During 2007, Ms. Gunning did not personally render legal services to Cleveland-Cliffs or supervise any attorney in the rendering of legal services to Cleveland-Cliffs, and Ms. Gunning did not receive any direct compensation from fees paid by Cleveland-Cliffs to Jones Day.

In 2007, Cleveland-Cliffs pledged \$1.25 million over five years to build infrastructure to connect the William G. Mather Steamship Museum, also known as the Mather Museum, and the Great Lakes Science Center in Cleveland, Ohio. The Mather was Cleveland-Cliffs' flagship for many years. The purpose of the donation is to preserve Cleveland-Cliffs' history in the City of Cleveland. It will also make the Mather Museum a year round attraction. Mr. Brinzo, Cleveland-Cliffs' former Chairman, President and CEO, was Chairman of the Great Lakes Science Center from 2004-2006. Mr. Ireland is a member of the Mather Museum's Board of Trustees.

## **Table of Contents**

Cleveland-Cliffs recognizes that transactions between Cleveland-Cliffs and any of its directors or executive officers can present potential or actual conflicts of interest and create the appearance that its decisions are based on considerations other than the best interests of Cleveland-Cliffs shareholders. Pursuant to its charter, the Audit Committee reviews and approves all related-party transactions, defined as those transactions required to be disclosed under Item 404 of Regulation S-K.

## **DESCRIPTION OF CLEVELAND-CLIFFS CAPITAL STOCK**

The following is a summary of the terms and provisions of Cleveland-Cliffs capital stock. The rights of Cleveland-Cliffs shareholders are governed by the Ohio General Corporation Law, Cleveland-Cliffs amended articles of incorporation and regulations. This summary is qualified in its entirety by reference to the governing corporate instruments of Cleveland-Cliffs to which we have referred you and applicable provisions of Ohio law. To obtain a copy of Cleveland-Cliffs amended articles of incorporation and regulations, see [Where You Can Find More Information](#) beginning on page 238.

### **Cleveland-Cliffs Common Shares**

#### **General**

Cleveland-Cliffs has authorized 224,000,000 common shares, par value \$0.125 per share. The holders of Cleveland-Cliffs common shares are entitled to one vote for each share on all matters upon which shareholders have the right to vote and, upon proper notice, are entitled to cumulative voting rights in the election of directors. Cleveland-Cliffs common shares do not have any preemptive rights, are not subject to redemption and do not have the benefit of any sinking fund.

Holders of Cleveland-Cliffs common shares are entitled to receive such dividends as Cleveland-Cliffs directors from time to time may declare out of funds legally available therefore. Entitlement to dividends is subject to the preferences granted to other classes of securities Cleveland-Cliffs has or may have outstanding in the future. In the event of liquidation of Cleveland-Cliffs, holders of Cleveland-Cliffs common shares are entitled to share in any assets of Cleveland-Cliffs remaining after satisfaction in full of its liabilities and satisfaction of such dividend and liquidation preferences as may be possessed by the holders of other classes of securities Cleveland-Cliffs has or may have outstanding in the future.

Cleveland-Cliffs common shares are listed on the NYSE under the symbol [CLF](#).

The transfer agent and registrar for the Cleveland-Cliffs common shares is Computershare Trust Company, N.A.

#### **Ohio Control Share Statute**

Section 1701.831 of the Ohio General Corporation Law requires the prior authorization of the shareholders of certain corporations in order for any person to acquire, either directly or indirectly, shares of that corporation that would entitle the acquiring person to exercise or direct the exercise of 20 percent or more of the voting power of that corporation in the election of directors or to exceed specified other percentages of voting power. In the event an acquiring person proposes to make such an acquisition, the person is required to deliver to the corporation a statement disclosing, among other things, the number of shares owned, directly or indirectly, by the person, the range of voting power that may result from the proposed acquisition and the identity of the acquiring person. Within 10 days after receipt of this statement, the corporation must call a special meeting of shareholders to vote on the proposed acquisition. The acquiring person may complete the proposed acquisition only if the acquisition is approved by the affirmative vote of the holders of at least a majority of the voting power of all shares entitled to vote in the election of

directors represented at the meeting excluding the voting power of all interested shares. Interested shares include any shares held by the acquiring person and those held by officers and directors of the corporation as well as by certain others, including many holders commonly characterized as arbitrageurs. Section 1701.831 does not apply to a corporation if its articles of incorporation or code of regulations state that the statute does not apply to a corporation. Neither the Cleveland-Cliffs amended articles of incorporation nor its regulations contain a provision opting out of this statute.

**Table of Contents**

**Ohio Interested Shareholder Statute**

Chapter 1704 of the Ohio Revised Code prohibits certain corporations from engaging in a chapter 1704 transaction with an interested shareholder for a period of three years after the date of the transaction in which the person became an interested shareholder, unless, among other things:

the articles of incorporation expressly provide that the corporation is not subject to the statute (Cleveland-Cliffs has not made this election); or

the board of directors of the corporation approves the chapter 1704 transaction or the acquisition of the shares before the date the shares were acquired.

After the three-year moratorium period, the corporation may not consummate a chapter 1704 transaction unless, among other things, it is approved by the affirmative vote of the holders of at least two-thirds of the voting power in the election of directors and the holders of a majority of the voting shares, excluding all shares beneficially owned by an interested shareholder or an affiliate or associate of an interested shareholder, or the shareholders receive certain minimum consideration for their shares. A chapter 1704 transaction includes certain mergers, sales of assets, consolidations, combinations and majority share acquisitions involving an interested shareholder. An interested shareholder is defined to include, with limited exceptions, any person who, together with affiliates and associates, is the beneficial owner of a sufficient number of shares of the corporation to entitle the person, directly or indirectly, alone or with others, to exercise or direct the exercise of 10 percent or more of the voting power in the election of directors after taking into account all of the person's beneficially owned shares that are not then outstanding.

**Preferred Stock**

The Cleveland-Cliffs board of directors can, without approval of shareholders, issue one or more series of preferred stock. The board can determine the number of shares of each series and the rights, preferences and limitations of each series, including dividend rights, voting rights, conversion rights, redemption rights and any liquidation preferences and the terms and conditions of issue. In some cases, the issuance of preferred shares could delay, defer or prevent a change in control of Cleveland-Cliffs and make it harder to remove present management, without further action by Cleveland-Cliffs shareholders. Under some circumstances, preferred shares could also decrease the amount of earnings and assets available for distribution to holders of Cleveland-Cliffs common shares if Cleveland-Cliffs liquidates or dissolves and could also restrict or limit dividend payments to holders of Cleveland-Cliffs common shares.

On July 16, 2008, 19,350 shares of Series A-2 preferred stock of Cleveland-Cliffs were converted to 2,574,800 Cleveland-Cliffs common shares (total common shares of Cleveland-Cliffs are being issued out of treasury) at a conversion rate of 133.0646, reducing the number of outstanding shares of Series A-2 preferred stock to 205 with a redemption value of \$2.8 million on that date. Cleveland-Cliffs shares of Series A-2 preferred stock may be converted into its common shares based on the applicable conversion rate. As of June 30, 2008, the conversion rate was 133.0646 common shares of Cleveland-Cliffs for one share of Series A-2 preferred stock of Cleveland-Cliffs.

**COMPARISON OF RIGHTS OF SHAREHOLDERS**

As a result of the merger, in addition to the cash consideration, Alpha stockholders will be entitled to receive 0.95 of a common share of Cleveland-Cliffs for each share of Alpha common stock. The rights of holders of Cleveland-Cliffs common shares differ from the rights of holders of Alpha common stock. These differences arise in part from the differences between the DGCL and the Ohio General Corporation Law. Additional differences arise from the governing instruments of the two companies (in the case of Alpha, the Alpha certificate of incorporation, which we

refer to as the Alpha certificate of incorporation, and the Alpha bylaws, which we refer to as the Alpha bylaws, and, in the case of Cleveland-Cliffs, the amended articles of incorporation and the regulations). Although it is impractical to compare all of the aspects in which the DGCL and the Ohio General Corporation Law and Alpha s and Cleveland-Cliffs governing instruments differ with respect to shareholders rights, the following discussion summarizes the material differences between them.

## **Table of Contents**

All Alpha stockholders and Cleveland-Cliffs shareholders are urged to read carefully the relevant provisions of the DGCL and the Ohio General Corporation Law, as well as the Alpha certificate of incorporation, the Alpha bylaws, the Cleveland-Cliffs amended articles of incorporation, and the Cleveland-Cliffs regulations, which are available to Alpha stockholders and Cleveland-Cliffs shareholders upon request. See [Where You Can Find More Information](#) on page 238.

## **Material Differences in Shareholder Rights**

### ***Amendment and Repeal of Bylaws and Regulations***

*Delaware.* The DGCL provides that stockholders of a corporation, and, when provided for in the certificate of incorporation, the board of directors of the corporation, have the power to adopt, amend and repeal the bylaws of a corporation.

*Alpha.* The Alpha certificate of incorporation and Alpha bylaws grant the Alpha board of directors the power to amend and repeal the Alpha bylaws. Amendments to the Alpha bylaws are otherwise governed in accordance with the DGCL.

*Ohio.* The Ohio General Corporation Law provides that only holders of a majority of the voting power of a corporation if acting at a meeting of shareholders, or two-thirds of the voting power of the corporation if acting by written consent, have the power to adopt, amend and repeal the code of regulations of a corporation. Under certain circumstances, a majority vote of *disinterested* shares is also required to amend or repeal the code of regulations of a corporation.

*Cleveland-Cliffs.* Amendments to the Cleveland-Cliffs regulations are governed in accordance with the Ohio General Corporation Law. In contrast to Alpha, the Cleveland-Cliffs board of directors does not have the power to amend or repeal the Cleveland-Cliffs regulations.

### ***Amendment of Charter Documents***

*Delaware.* The DGCL requires approval by the corporation's board of directors and holders of a majority of the voting power of a corporation or, in cases in which class voting is required, by holders of a majority of the voting power of such class, in order to amend a corporation's certificate of incorporation, unless otherwise specified in such corporation's certificate of incorporation.

*Alpha.* Amendments to the Alpha certificate of incorporation are governed in accordance with the DGCL with the exception that the affirmative vote of at least 90% of the combined voting power of all outstanding shares of Alpha common stock is required to alter, amend, repeal, or adopt any provision inconsistent with Article XI of the Alpha certificate of incorporation, which governs certain fiduciary duties with respect to the conduct of certain affairs of Alpha, that may involve specified parties that were controlling stockholders of Alpha at the time of its initial public offering and their affiliates and their respective officers and directors, and the powers, rights, duties and liabilities of Alpha and its officers, directors and stockholders in connection therewith. The provisions of Article XI ceased to have force or effect when such persons ceased to own five percent or more of Alpha common stock.

*Ohio.* According to the Ohio General Corporation Law, an adoption by shareholders of an amendment to the articles requires approval by holders of two-thirds of the voting power of a corporation or, in cases in which class voting is required, by holders of two-thirds of the voting power of such class to amend a corporation's articles of incorporation, unless otherwise specified in such corporation's articles of incorporation. Pursuant to Section 1701.70(B) of the Ohio General Corporation Law, in certain circumstances, an amendment to a corporation's articles of incorporation may be

adopted by the corporation's directors. For instance, pursuant to Section 1701.70(B)(6) of the Ohio General Corporation Law, unless otherwise provided in the articles of incorporation, the directors may adopt any amendment changing the name of the corporation.

*Cleveland-Cliffs.* Amendments to the Cleveland-Cliffs articles of incorporation are governed in accordance with the Ohio General Corporation Law.

## **Table of Contents**

### ***Cumulative Voting***

*Delaware.* The DGCL provides that stockholders of a corporation do not have the right to cumulate their votes in the election of directors unless such right is granted in the certificate of incorporation of the corporation.

*Alpha.* The Alpha certificate of incorporation does not grant Alpha stockholders the right to vote cumulatively in the election of directors.

*Ohio.* The Ohio General Corporation Law provides that each shareholder of a corporation has the right to vote cumulatively in the election of directors if certain notice requirements are satisfied unless the articles of incorporation of a corporation are amended to eliminate cumulative voting for directors.

*Cleveland-Cliffs.* Neither the Cleveland-Cliffs articles of incorporation nor the Cleveland-Cliffs regulations eliminate the right of Cleveland-Cliffs shareholders to vote cumulatively in the election of directors.

### ***Removal of Directors***

*Delaware.* The DGCL provides that a director or directors may be removed from office, with or without cause, by the holders of a majority of the voting power of a corporation, except that (i) in the case of a corporation that has a classified board, directors may be removed from office only for cause, unless the certificate of incorporation provides otherwise and (ii) in the case of a corporation having cumulative voting, if less than the entire board is to be removed, no director may be removed without cause if the votes cast against such removal would be sufficient to elect such director if then cumulatively voted at an election of the entire board of directors or of the class of directors of which the director is a part.

*Alpha.* In accordance with the DGCL, the Alpha bylaws provide that a director may be removed with or without cause.

*Ohio.* The Ohio General Corporation Law provides that a director may be removed from office by the board of directors if (i) such director has been found to be of unsound mind by an order of court, (ii) such director is adjudicated bankrupt, or (iii) such director fails to meet any qualifications for office. The Ohio General Corporation Law further provides that a director may be removed from office, with or without cause, by the holders of a majority of the voting power of a corporation, except that, in the case of a corporation having cumulative voting, if less than the entire board is to be removed, no director may be removed without cause if the votes cast against such removal would be sufficient to elect such director if then cumulatively voted at an election of the entire board of directors or of the class of directors of which the director is a part, unless the articles of incorporation provides otherwise. Directors serving on a classified board may only be removed for cause.

*Cleveland-Cliffs.* The removal of Cleveland-Cliffs directors is governed in accordance with the Ohio General Corporation Law. In contrast to Alpha, a Cleveland-Cliffs director may be removed by the board of directors.

### ***Vacancies on the Board***

*Delaware.* The DGCL provides that vacancies and newly created directorships resulting from a resignation or any increase in the authorized number of directors to be elected by the stockholders having the right to vote as a single class may be filled by a majority of the directors then in office or by a sole remaining director, unless the certificate of incorporation or the bylaws of a corporation provide otherwise.

*Alpha.* Vacancies on Alpha's board of directors are governed in accordance with the DGCL.

*Ohio.* The Ohio General Corporation Law provides that vacancies on a corporation's board of directors may be filled by a majority of the remaining directors of the corporation unless the governing documents of the corporation provide otherwise.

*Cleveland-Cliffs.* The Cleveland-Cliffs regulations provide that vacancies on the Cleveland-Cliffs board of directors are governed in accordance with the Ohio General Corporation Law.

## **Table of Contents**

### ***Right to Call Special Meetings of Shareholders***

*Delaware.* The DGCL permits special meetings of stockholders to be called by the board of directors and such other persons, including stockholders, as the certificate of incorporation or bylaws may provide. The DGCL does not require that stockholders be given the right to call special meetings.

*Alpha.* The Alpha bylaws provide that, unless otherwise prescribed by the DGCL, special meetings may be called by the chairman of the Alpha board of directors, the chief executive officer or by resolution of the board of directors and shall be called by the chief executive officer or secretary upon the written request of not less than 10% of the stockholders in interest entitled to vote thereat.

*Ohio.* The Ohio General Corporation Law provides that (i) the chairperson of the board, the president or, in case of the president's death or disability, the vice president authorized to exercise the authority of the president, (ii) the directors by action at a meeting or a majority of the directors acting without a meeting, or (iii) holders of at least 25% of the outstanding voting shares of a corporation, unless the corporation's articles or regulations specifies another percentage for such purpose (which may not be greater than 50%), have the authority to call special meetings of shareholders.

*Cleveland-Cliffs.* In contrast to Alpha, according to the Cleveland-Cliffs regulations, special meetings may be called by (1) the chairman, president, or a vice-president, (2) by the directors by action at a meeting or by three or more directors acting without a meeting, or (3) by the person or persons who hold at least 25% of all shares outstanding and entitled to be voted on any proposal to be subjected at said meeting. The right to call special meetings of shareholders is otherwise governed in accordance with the Ohio General Corporation Law.

### ***Shareholder Action Without a Meeting***

*Delaware.* The DGCL provides that any action that may be taken at a meeting of stockholders may be taken without a meeting, without prior notice and without a vote, if the holders of the outstanding stock having not less than the minimum number of votes otherwise required to authorize or take such action at a meeting of stockholders consent in writing, unless otherwise provided by a corporation's certificate of incorporation. The record date to determine the stockholders entitled to consent to corporate action in writing is the date of first submission of the written consent to the corporation.

*Alpha.* Actions by Alpha stockholders without a meeting are governed in accordance with the DGCL, except that the Alpha bylaws provide for the following procedure for the board of directors of Alpha to set the record date for stockholder action by written consent: any person seeking to have the Alpha stockholders authorize or take corporate action by written consent without a meeting shall request the Alpha board of directors to fix the record date by sending to the corporate secretary a written notice describing the action that the stockholder proposes to take by consent and providing some further information described in the Alpha bylaws. The board of directors will then have 10 days from receipt of such written notice to determine the validity of the request and adopt a resolution fixing the record date, which record date shall not be more than 10 days from the date of the board resolution. If the board of directors fails within 10 days to fix a record date, then the record date shall be the day on which the first written consent is delivered to the corporation.

*Ohio.* The Ohio General Corporation Law provides that, except to the extent prohibited in the articles or regulations, any action that may be authorized or taken by shareholders of a corporation at a meeting of shareholders may be authorized or taken without a meeting with the unanimous written consent of all shareholders entitled to vote at such meeting.

*Cleveland-Cliffs.* Actions by Cleveland-Cliffs shareholders without a meeting are governed in accordance with the Ohio General Corporation Law. In contrast to Alpha stockholders, Cleveland-Cliffs shareholders may only take action without a meeting by unanimous written consent (however, Cleveland-Cliffs shareholders may amend the Cleveland-Cliffs regulations to permit action by less than unanimous written consent upon the approval of at least two-thirds of the outstanding shares).

**Table of Contents*****Provisions Affecting Control Share Acquisitions and Business Combinations***

*Delaware.* Section 203 of the DGCL provides generally that any person who acquires 15% or more of a corporation's voting stock (thereby becoming an interested stockholder) may not engage in a wide range of business combinations with the corporation for a period of three years following the time the person became an interested stockholder, unless (1) the board of directors of the corporation has approved, prior to that acquisition time, either the business combination or the transaction that resulted in the person becoming an interested stockholder, (2) upon consummation of the transaction that resulted in the person becoming an interested stockholder, that person owned at least 85% of the corporation's voting stock outstanding at the time the transaction commenced (excluding shares owned by persons who are directors and also officers and shares owned by employee stock plans in which participants do not have the right to determine confidentially whether shares will be tendered in a tender or exchange offer), or (3) on or after the date the stockholder became an interested stockholder, the business combination is approved by the board of directors and authorized by the affirmative vote (at an annual or special meeting and not by written consent) of at least 66 $\frac{2}{3}$ % of the outstanding voting stock not owned by the interested stockholder.

These restrictions on interested stockholders do not apply under certain circumstances, including, but not limited to, the following: (1) if the corporation's original certificate of incorporation contains a provision expressly electing not to be governed by Section 203 of the DGCL, or (2) if the corporation, by action of its stockholders taken with the favorable vote of a majority of the outstanding voting power of the corporation, adopts an amendment to its bylaws or certificate of incorporation expressly electing not to be governed by Section 203 of the DGCL, with such amendment to be effective 12 months thereafter.

*Alpha.* The Alpha certificate of incorporation specifically provides that Alpha is exempted from Section 203 of the DGCL.

*Ohio.* Chapter 1704 of the Ohio Revised Code prohibits an interested shareholder from engaging in a wide range of business combinations similar to those prohibited by Section 203 of the DGCL. However, in contrast to Section 203 of the DGCL, under Chapter 1704 of the Ohio Revised Code, an interested shareholder includes a shareholder who, directly or indirectly, exercises or directs the exercise of 10% or more of the voting power of the corporation. Chapter 1704 restrictions do not apply under certain circumstances, including, but not limited to, the following: (1) if, prior to the interested shareholder's share acquisition date, the directors of a corporation have approved the transaction or the purchase of shares on the share acquisition date, and (2) if a corporation, by action of its shareholders holding at least two-thirds of the voting power of the corporation, adopts an amendment to its articles of incorporation specifying that Chapter 1704 of the Ohio Revised Code shall not be applicable to the corporation.

Under Section 1701.831 of the Ohio General Corporation Law, unless the articles of incorporation or code of regulations of a corporation otherwise provide, any control share acquisition of an issuing public corporation can only be made with the prior approval of the shareholders of the corporation. A control share acquisition is defined as any acquisition of shares of a corporation that, when added to all other shares of that corporation owned by the acquiring person, would enable a person to exercise levels of voting power in any of the following ranges: at least 20% but less than 33 $\frac{1}{3}$ %; at least 33 $\frac{1}{3}$ % but less than 50%; 50% or more.

*Cleveland-Cliffs.* Neither the Cleveland-Cliffs articles of incorporation nor the Cleveland-Cliffs regulations contain a provision that exempts Cleveland-Cliffs from Chapter 1704 of the Ohio Revised Code, and Cleveland-Cliffs' ability to enter into control share acquisition and business combinations is governed in accordance with the Ohio General Corporation Law.

***Rights of Dissenting Shareholders***

*Delaware.* The DGCL provides that appraisal rights are available to dissenting stockholders in connection with certain mergers or consolidations. However, unless a corporation's certificate of incorporation otherwise provides, the DGCL does not provide for appraisal rights if (1) the shares of the corporation are (x) listed on a national securities exchange or (y) held of record by more than 2,000 stockholders or (2) the corporation is the surviving corporation and no vote of its stockholders is required for the merger. However, notwithstanding the

**Table of Contents**

foregoing, the DGCL provides that appraisal rights will be available to the stockholders of a corporation if the stockholders are required by the terms of a merger agreement to accept for such stock anything except (1) shares of stock of the corporation surviving or resulting from such merger or consolidation, or depository receipts in respect thereof, (2) shares of stock of any other corporation, or depository receipts in respect thereof, which shares of stock (or depository receipts in respect thereof) or depository receipts at the effective date of the merger or consolidation will be either listed on a national securities exchange or held of record by more than 2,000 holders, (3) cash in lieu of fractional shares or fractional depository receipts as described above, or (4) any combination of the shares of stock, depository receipts and cash in lieu of fractional shares or fractional depository receipts as described above. See *Summary Appraisal Rights of Alpha Stockholders* on page 12 and *The Merger Appraisal Rights of Alpha Stockholders* beginning on page 87. The DGCL does not provide appraisal rights to stockholders with respect to the sale of all or substantially all of a corporation's assets or an amendment to a corporation's certificate of incorporation, although a corporation's certificate of incorporation may so provide.

The DGCL provides, among other procedural requirements for the exercise of the appraisal rights, that a shareholder's written demand for appraisal of shares must be received before the taking of the vote on the matter giving rise to appraisal rights, when the matter is voted on at a meeting of stockholders. See [Annex D](#) for the full text of Section 262 of the DGCL governing the rights of appraisal.

*Alpha.* The appraisal rights of Alpha stockholders are governed in accordance with the DGCL.

*Ohio.* Under the Ohio General Corporation Law, dissenting shareholders are entitled to dissenters' rights in connection with certain amendments to a corporation's articles of incorporation and the lease, sale, exchange, transfer or other disposition of all or substantially all of the assets of a corporation. Shareholders of an Ohio corporation being merged into or consolidated with another corporation are also entitled to dissenters' rights. In addition, shareholders of an acquiring corporation are entitled to dissenters' rights in any merger, combination or majority share acquisition in which such shareholders are entitled to voting rights. The Ohio General Corporation Law provides shareholders of an acquiring corporation with voting rights, and corresponding dissenters' rights, if the acquisition involves the transfer of shares of the acquiring corporation entitling the recipients thereof to exercise one sixth or more of the voting power of such acquiring corporation immediately after the consummation of the transaction.

The Ohio General Corporation Law provides that a shareholder's written demand must be delivered to a corporation not later than ten days after the taking of the vote on the matter giving rise to dissenters' rights. See [Annex E](#) for the full text of Section 1701.85 of the Ohio General Corporation Law governing dissenters' rights. See also *Summary Dissenters Rights of Cleveland-Cliffs Shareholders* on page 12 and *The Merger Dissenters Rights of Cleveland-Cliffs Shareholders* on page 91.

*Cleveland-Cliffs.* The dissenters' rights of Cleveland-Cliffs shareholders are governed in accordance with the Ohio General Corporation Law.

***Director Liability and Indemnification***

*Delaware.* The DGCL allows a corporation to include in its certificate of incorporation a provision eliminating the liability of a director for monetary damages for a breach of such director's fiduciary duties as a director, except liability (1) for any breach of the director's duty of loyalty to the corporation or the corporation's stockholders, (2) for acts or omissions not in good faith or that involve intentional misconduct or knowing violation of law, (3) under Section 174 of the DGCL (which deals generally with unlawful payments of dividends, stock repurchases and redemptions), and (4) for any transaction from which the director derived an improper personal benefit.

The DGCL permits a Delaware corporation to indemnify directors, officers, employees and agents (or any person serving, at the request of the corporation, as director or officer of another corporation, partnership, joint venture, trust or other enterprise) under certain circumstances, and mandates indemnification under certain circumstances. The DGCL permits a corporation to indemnify an officer, director, employee or agent for fines, judgments, or settlements, as well as for expenses in the context of actions other than derivative actions, if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation and, in the case of a criminal proceeding, if such person had no reasonable cause to believe that such person's conduct was unlawful. Indemnification against expenses incurred by a director, officer,

**Table of Contents**

employee or agent in connection with a proceeding against such person for actions in such capacity is mandatory to the extent that such person has been successful on the merits. If a director, officer, employee or agent is determined to be liable to the corporation, indemnification for expenses is not allowable in derivative actions, subject to limited exceptions when a court deems the award of expenses appropriate.

The DGCL grants express power to a Delaware corporation to purchase liability insurance for its directors, officers, employees and agents, regardless of whether any such person is otherwise eligible for indemnification by the corporation. Advancement of expenses is permitted, but a director or officer receiving such advances must agree to repay those expenses if it is ultimately determined that he is not entitled to indemnification.

*Alpha.* The Alpha certificate of incorporation contains a provision pursuant to which Alpha directors, officers, employees, and agents, and persons serving at the request of Alpha as a director, officer, employee, or agent of another corporation shall be indemnified to the fullest extent permitted by the DGCL. The Alpha certificate of incorporation also contains a provision excluding the personal liability of a director to Alpha or its stockholders for monetary damages for breach of fiduciary duty as a director to the fullest extent permitted by the DGCL. In addition to the provisions of the Alpha certificate of incorporation, the Alpha bylaws generally provide indemnification to Alpha's directors and officers, and persons serving at the request of Alpha as a director, officer, or trustee of another corporation, partnership, joint venture, trust, or other enterprise, to the fullest extent provided by the DGCL. The Alpha bylaws also allow Alpha to purchase and maintain liability insurance for its directors, officers, employees and agents, regardless of whether any such person is otherwise eligible for indemnification by the corporation, and provide for the advancement of expenses.

*Ohio.* The Ohio General Corporation Law provides no comparable provision limiting the liability of officers, employees or agents of a corporation. However, unless a corporation's articles of incorporation or code of regulations expressly states that such provision of the Ohio General Corporation Law is not applicable, a director is not liable for monetary damages unless it is proved by clear and convincing evidence that such director's action or failure to act was undertaken with deliberate intent to cause injury to the corporation or with reckless disregard for the best interests of the corporation, although such provision does not limit a director's liability for the approval of unlawful loans, dividends or distributions of assets.

The Ohio General Corporation Law provides that a corporation may indemnify directors, officers, employees and agents within prescribed limits, and must indemnify them under certain circumstances. The Ohio General Corporation Law does not authorize payment by a corporation of judgments against a director, officer, employee or agent after a finding of negligence or misconduct in a derivative suit absent a court order. Indemnification is required, however, to the extent such person succeeds on the merits. In all other cases, if it is determined that a director, officer, employee, or agent acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation, indemnification is discretionary, except as otherwise provided by a corporation's articles of incorporation or code of regulations, or by contract, except with respect to the advancement of expenses to directors (as discussed in the next paragraph). The statutory right to indemnification is not exclusive of Ohio, and Ohio corporations may, among other things, purchase insurance to indemnify such persons.

The Ohio General Corporation Law provides that a director (but not an officer, employee, or agent) is entitled to mandatory advancement of expenses, including attorneys' fees, incurred in defending any action, including derivative actions, brought against the director, provided that the director agrees to cooperate with the corporation concerning the matter and to repay the amount advanced if it is proved by clear and convincing evidence that such director's act or failure to act was done with deliberate intent to cause injury to the corporation or with reckless disregard for the corporation's best interests.

*Cleveland-Cliffs.* The Cleveland-Cliffs regulations provide for indemnification of Cleveland-Cliffs directors, officers, employees, and agents, or persons serving at the request of Cleveland-Cliffs as a director, officer, employee, or agent of another corporation to the fullest extent permitted by the Ohio General Corporation Law. The Cleveland-Cliffs regulations also contain a provision limiting the personal liability of a director to Cleveland-Cliffs or its shareholders for monetary damages for breach of fiduciary duty as a director to the fullest extent permitted by the Ohio General Corporation Law.

## **Table of Contents**

### ***Mergers, Acquisitions, Share Purchases and Certain Other Transactions***

*Delaware.* The DGCL requires approval of mergers (other than so-called parent-subsubsidiary mergers where the parent company owns at least 90% of the shares of the subsidiary), consolidations and dispositions of all or substantially all of a corporation's assets by a majority of the voting power of the corporation, unless the corporation's certificate of incorporation specifies a different percentage. The DGCL does not require stockholder approval for (a) majority share acquisitions, (b) mergers (i) involving the issuance of 20% or less of the voting power of the corporation, (ii) governed by an agreement of merger that does not amend in any respect the certificate of incorporation of the corporation, and (iii) in which each share of stock of the corporation outstanding immediately prior to the effective date of the merger remains identical after the effective date of the merger, or (c) other combinations, except for business combinations subject to Section 203 of the DGCL.

*Alpha.* Approval of mergers, acquisitions, share purchases and certain other transactions is governed in accordance with the DGCL. Alpha is exempt from Section 203 of the DGCL.

*Ohio.* The Ohio General Corporation Law requires approval of mergers, dissolutions, dispositions of all or substantially all of a corporation's assets, and majority share acquisitions and combinations involving issuance of shares representing one-sixth or more of the voting power of the corporation immediately after the consummation of the transaction (other than so-called parent-subsubsidiary mergers), by two-thirds of the voting power of a corporation, unless the articles of incorporation specify a different proportion (but not less than a majority).

Section 1701.59 of the Ohio General Corporation Law permits a director of a corporation, in determining what such director reasonably believes to be in the best interests of the corporation, to consider, in addition to the interests of the corporation's shareholders, any of the following (1) the interests of the corporation's employees, suppliers, creditors, and customers, (2) the economy of the state and nation, (3) community and societal considerations, and (4) the long-term as well as short-term interests of the corporation and the corporation's shareholders, including the possibility that these interests may be best served by the continued independence of the corporation.

*Cleveland-Cliffs.* Approval of mergers, acquisitions, share purchases and certain other transactions is governed in accordance with the Ohio General Corporation Law.

### **Certain Similarities in Shareholder Rights**

#### ***Public Markets for the Shares***

Common shares of Cleveland-Cliffs and shares of Alpha common stock are quoted on the NYSE. After the merger, common shares of the combined company, including those issued in connection with the merger, will be quoted on the NYSE.

#### ***Classification of Board of Directors***

*Delaware.* The DGCL permits, but does not require, a classified board of directors, pursuant to which the directors can be divided into two or three classes with staggered terms of office, with only one class of directors standing for election each year.

*Alpha.* Neither the Alpha certificate of incorporation nor the Alpha bylaws call for the division of its board of directors into classes.

*Ohio.* The Ohio General Corporation Law permits, but does not require, a classified board of directors, pursuant to which the directors can be divided into two or three classes with staggered terms of office, with terms of office (which need not be uniform) that do not exceed three years and which consist of not less than three directors in each class, subject to certain exceptions.

*Cleveland-Cliffs.* Neither the Cleveland-Cliffs articles of incorporation nor the Cleveland-Cliffs regulations call for the division of its board of directors into classes. The Cleveland-Cliffs articles of incorporation, however, provide that if, and so often as, Cleveland-Cliffs is in default of its dividend payments to series A or series B preferred shareholders in an amount equal to six full quarterly dividends, whether or not consecutive and whether or not earned or declared, the affected class of shareholders is entitled to vote separately as a class in order to elect two

## **Table of Contents**

directors in addition to any other directors then in office or proposed to be elected. The terms of these additional directors shall immediately terminate and the number of directors reduced accordingly at such time as the default is remedied pursuant to the provisions of the Cleveland-Cliffs articles of incorporation.

### ***Class Voting***

*Delaware.* The DGCL provides that the holders of a particular class of shares are entitled to vote as a separate class with respect to certain amendments to a corporation's certificate of incorporation, including, but not limited to, amendments that increase or decrease the aggregate number of authorized shares of such class, increase or decrease the par value of shares of such class, or otherwise adversely affect the holders of such class.

*Alpha.* The Alpha certificate of incorporation provides that any increase or decrease in the authorized number of shares (but not below the number of shares then outstanding) of any class or classes of stock, or the creation, authorization, or issuance of any securities convertible into, or warrants, options, or similar rights to purchase, acquire, or receive, shares of any such class or classes of stock shall not be deemed to adversely affect the holders of preferred stock. Class voting by Alpha stockholders is otherwise governed in accordance with the DGCL.

*Ohio.* The Ohio General Corporation Law provides that the holders of a particular class of shares are entitled to vote as a separate class with respect to amendments to a corporation's articles of incorporation, including, but not limited to, amendments that decrease the aggregate number of issued shares of such class, increase or decrease the par value of shares of such class, or are otherwise substantially prejudicial to the holders of such class.

*Cleveland-Cliffs.* The Cleveland-Cliffs articles of incorporation provide that if, and so often as, Cleveland-Cliffs is in default of its dividend payments to series A or series B preferred shareholders in an amount equal to six full quarterly dividends whether or not consecutive and whether or not earned or declared, the affected class of shareholders is entitled to vote separately as a class in order to elect two directors in addition to any other directors then in office or proposed to be elected.

The Cleveland-Cliffs articles of incorporation provide that the affirmative vote of the holders of at least a majority of the outstanding shares of the respective class of preferred stock shall be necessary to effect (1) the consolidation or merger of Cleveland-Cliffs with or into any other corporation to the extent any such consolidation or merger shall be required, pursuant to the Ohio General Corporation Law, to be approved by the holders of the respective class of shares of preferred stock voting separately as a class, or (2) the authorization of any shares ranking on a parity with the respective class of preferred shares including an increase in the authorized number of respective class of preferred shares.

The Cleveland-Cliffs articles of incorporation provide that the affirmative vote of the holders of at least two-thirds of the outstanding shares of the affected class of preferred stock shall be necessary to effect (1) any amendment, alteration or repeal of any of the provisions of the Cleveland-Cliffs articles of incorporation or regulations which affects adversely the preferences or voting rights of the holders of either class of preferred stock, subject to certain qualifications, (2) the authorization, creation, or increase in the authorized amount of any shares of any class or any security convertible into shares of any class, in either case, ranking prior to the affected class of preferred stock, or (3) the purchase or redemption of less than all of the affected class of preferred stock the outstanding, subject to certain qualifications.

### ***Preemptive Rights of Shareholders***

*Delaware.* The DGCL provides that no stockholder shall have any preemptive rights to purchase additional securities of a corporation unless the corporation's certificate of incorporation expressly grants such rights.

*Alpha.* The Alpha certificate of incorporation does not grant any preemptive rights to Alpha stockholders.

*Ohio.* The Ohio General Corporation Law provides that no shareholder shall have any preemptive rights to purchase additional securities of a corporation unless the corporation's articles of incorporation expressly grant such rights.

*Cleveland-Cliffs.* The Cleveland-Cliffs articles of incorporation do not grant any preemptive rights to Cleveland-Cliffs shareholders.

**Table of Contents**

***Dividends***

*Delaware.* The DGCL provides that dividends may be paid in cash, property or shares of a corporation's capital stock. The DGCL further provides that a corporation may pay dividends out of any surplus, and, if it has no surplus, out of any net profits for the fiscal year in which the dividend was declared or for the preceding fiscal year (provided that such payment out of net profits will not reduce capital below the amount of capital represented by all classes of shares having a preference upon the distribution of assets).

*Alpha.* The Alpha bylaws provide that the board of directors may declare dividends either out of the Alpha surplus, or in the case that there is no such surplus, out of its net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. Before the declaration of any dividend, the board of directors may, at its discretion, set apart, out of any funds of Alpha available for dividends, such sum or sums as may be deemed proper for working capital or as a reserve fund to meet contingencies or such other purposes as shall be deemed conducive to the interests of Alpha.

*Ohio.* The Ohio General Corporation Law provides that dividends may be paid in cash, property or shares of a corporation's capital stock. The Ohio General Corporation Law further provides that a corporation may pay dividends out of its surplus and if a dividend is paid out of capital surplus, the corporation must notify its shareholders as to the kind of surplus out of which it is paid.

*Cleveland-Cliffs.* Dividends granted to Cleveland-Cliffs shareholders are governed in accordance with the Ohio General Corporation Law. Cleveland-Cliffs has outstanding shares of Series A-2 preferred stock entitled to a \$32.50 dividend per annum.

**Table of Contents**

**UNAUDITED PRO FORMA CONDENSED CONSOLIDATED FINANCIAL INFORMATION**

The following unaudited pro forma condensed consolidated financial information is based upon the historical consolidated financial information of Cleveland-Cliffs, which is included elsewhere in this joint proxy statement/prospectus, and Alpha, which is incorporated by reference in this joint proxy statement/prospectus, and has been prepared to reflect the proposed merger involving the companies. The unaudited pro forma condensed consolidated statement of financial position as of June 30, 2008 is presented as if the merger and related financing had occurred on that date. The unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2007 and for the six months ended June 30, 2008 assume that the merger had occurred on January 1, 2007. The historical consolidated financial information has been adjusted to give effect to estimated pro forma events that are (1) directly attributable to the merger, (2) factually supportable, and (3) with respect to the statements of operations, expected to have a continuing impact on the combined results of operations.

Cleveland-Cliffs will account for the merger as a purchase of Alpha by Cleveland-Cliffs, using the acquisition method of accounting in accordance with GAAP. Cleveland-Cliffs and Alpha expect that, upon completion of the merger, Alpha stockholders will receive approximately 39.0% of the outstanding common shares of the combined company in respect of their shares of Alpha common stock on a diluted basis and Cleveland-Cliffs shareholders will retain approximately 61.0% of the outstanding common shares of the combined company on a diluted basis. In addition to considering these relative voting rights, Cleveland-Cliffs also considered the proposed composition of the combined company's board of directors and the board's committees, the proposed structure and members of the executive management team of the combined company, and the premium to be paid by Cleveland-Cliffs to acquire Alpha in determining the acquirer for accounting purposes. Based on the weighting of these factors, Cleveland-Cliffs has concluded that it is the accounting acquirer.

The unaudited pro forma condensed consolidated financial information should be read in conjunction with the historical consolidated financial statements and accompanying notes of Cleveland-Cliffs, which are included elsewhere in this joint proxy statement/prospectus, and Alpha, which are incorporated by reference from its Annual Report on Form 10-K for the fiscal year ended December 31, 2007 and subsequent Quarterly Report on Form 10-Q as of and for the six months ended June 30, 2008.

The unaudited pro forma condensed consolidated financial information has been prepared for illustrative purposes only and is not necessarily indicative of the consolidated financial position or results of operations in future periods or the results that actually would have been realized had Cleveland-Cliffs and Alpha been a combined company during the specified periods. The pro forma adjustments are based on the preliminary information available at the time of the preparation of this document. For purposes of this unaudited pro forma condensed consolidated financial information, Cleveland-Cliffs has made a preliminary allocation of the estimated purchase price to the tangible and intangible assets acquired and liabilities assumed based on various estimates of their fair value. The purchase consideration, including certain acquisition and closing costs, will be allocated amongst the relative fair values of the assets acquired and liabilities assumed based on their estimated fair values as of the date of the merger. Any excess of the purchase price for the merger over the fair value of Alpha's net assets will be recorded as goodwill. The final allocation is dependent upon certain valuations and other analyses that cannot be completed prior to the merger and are required to make a definitive allocation. The actual amounts recorded at the completion of the merger may differ materially from the information presented in the accompanying unaudited pro forma condensed consolidated financial information. Additionally, the unaudited pro forma condensed consolidated financial information does not reflect the cost of any integration activities or benefits that may result from synergies that may be derived from any integration activities, which may be significant.

Certain amounts in the historical consolidated Alpha financial statements have been reclassified to conform to Cleveland-Cliffs financial statement presentation. Additionally, Alpha coal revenues and cost of coal sales for the year ended December 31, 2007 have been reclassified to exclude changes in the fair value of coal and diesel fuel derivative contracts to conform to their 2008 presentation. Such reclassification adjustments had no effect on historical operating income or net income for the year ended December 31, 2007. Management expects that there could be additional reclassifications following the merger. Additionally, management will continue to assess Alpha's accounting policies for any additional adjustments that may be required to conform Alpha's accounting policies to those of Cleveland-Cliffs.

**Table of Contents**

The preliminary purchase price allocation assumes the merger is consummated in 2008, and that it will be accounted for under Statement of Financial Accounting Standards No. 141, Business Combinations. Cleveland-Cliffs and Alpha s managements believe that, assuming the requisite approvals of Alpha s stockholders and Cleveland-Cliffs shareholders are obtained, the merger will be consummated in the fourth quarter of 2008. If the merger is consummated subsequent to December 31, 2008, it will be accounted for under Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations, or SFAS 141(R), which is effective for Cleveland-Cliffs on January 1, 2009. SFAS 141(R) changes the methodologies for calculating purchase price and for determining fair values. It also requires that all transaction and restructuring costs related to business combinations be expensed as incurred, and it requires that changes in deferred tax asset valuation allowances and liabilities for tax uncertainties subsequent to the acquisition date that do not meet certain remeasurement criteria be recorded in the income statement among other changes. The consolidated statement of financial position and results of operations of the combined company could be materially different if the merger of Cleveland-Cliffs and Alpha were accounted for under SFAS 141(R).

**Notes to Unaudited Pro Forma Condensed Consolidated Financial Information**

**Note 1. Basis of Presentation**

On July 15, 2008, Cleveland-Cliffs and Alpha entered into the merger agreement. Upon the terms and conditions set forth in the merger agreement, Alpha stockholders will be entitled to receive 0.95 of a common share of Cleveland-Cliffs and \$22.23 in cash on the date of the merger for each share of Alpha common stock. At the closing date of the merger, all outstanding shares of Alpha common stock will automatically be cancelled.

The accompanying unaudited pro forma condensed consolidated financial information presents the pro forma consolidated financial position and results of operations of the combined company based upon the historical financial statements of Cleveland-Cliffs and Alpha, after giving effect to the Alpha merger adjustments described in these notes, and are intended to reflect the impact of the merger on Cleveland-Cliffs. Certain amounts in Alpha's historical financial statements have been reclassified to conform to Cleveland-Cliffs' presentation.

The acquisition was accounted for in the unaudited pro forma condensed consolidated financial information using the purchase method of accounting in accordance with Statement of Financial Accounting Standards No. 141, Business Combinations, or SFAS 141, whereby the total cost of the acquisition was allocated to the assets acquired and liabilities assumed based upon their estimated fair values. The allocation of the purchase price to acquired assets and liabilities in the unaudited pro forma condensed consolidated statement of financial position is based on management's preliminary valuation estimates. Such allocations will be finalized based on additional valuation and other studies. Accordingly, the purchase price allocation adjustments and related impacts on the unaudited pro forma con
