This Annual Report on Form 10-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond the Company's control, that could cause actual results to differ materially from those set forth in, or implied by, such forward-looking statements. All statements other than statements of historical facts included in this Annual Report on Form 10-K, including without limitation the statements under Item 1 Business and Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operation regarding (i) the Company's business strategy, future financial position, prospects, plans and objectives of management, (ii) the Company's expected purchase price allocations, restructuring charges, accelerated depreciation, acquisition-related integration costs, and other costs, (iii) information concerning expected actions of third parties, and (iv) future worldwide or domestic economic conditions and the global credit environment are forward-looking statements. When used in this Annual Report on Form 10-K, the words anticipate, intend, expect, and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words. All forward-looking statements speak only as of the date of this Annual Report on Form 10-K. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct. In addition to the risks and uncertainties of ordinary business operations and conditions in the general economy and markets in which the Company competes, the forward-looking statements of the Company contained in this Annual Report on Form 10-K are also subject to the risk and uncertainty that the Company's purchase price allocations, restructuring charges, accelerated depreciation, acquisition-related integration costs, and other costs may vary materially from current expectations due to, among other reasons, variations in anticipated headcount reductions, contract terminations or modifications, equipment relocation, proceeds from the sale of assets identified for sale, product portfolio rationalizations, production footprint and/or other costs of implementation. Additional important factors that could cause actual results to differ materially from those set forth in, or implied, by the Company's forward-looking statements contained in this Annual Report on Form 10-K are those described in Item 1A Risk Factors and elsewhere in this report and in other Company filings with the Securities and Exchange Commission.

Table of Contents

PART I

Item 1. Business

Introduction

Unless the context otherwise requires, the terms Company, we, our, or us refer to Constellation Brands, Inc. and its subsidiaries, and all references to net sales refer to gross sales less promotions, returns and allowances, and excise taxes to conform with the Company's method of classification. All references to Fiscal 2009, Fiscal 2008, and Fiscal 2007 shall refer to the Company's fiscal year ended the last day of February of the indicated year. All references to Fiscal 2010 shall refer to the Company's fiscal year ending February 28, 2010.

Market positions and industry data discussed in this Annual Report on Form 10-K are as of calendar 2008 and have been obtained or derived from industry and government publications and Company estimates. The industry and government publications include: Adams Liquor Handbook; Adams Wine Handbook; Adams Beer Handbook; Adams Handbook Advance; The U.S. Wine Market: Impact Databank Review and Forecast; The U.S. Beer Market: Impact Databank Review and Forecast; The U.S. Spirits Market: Impact Databank Review and Forecast; Euromonitor; Australian Bureau of Statistics; Information Resources, Inc.; ACNielsen; Association for Canadian Distillers; AZTEC; and DISCUS. The Company has not independently verified the data from the industry and government publications. Unless otherwise noted, all references to market positions are based on equivalent unit volume.

The Company is a Delaware corporation incorporated on December 4, 1972, as the successor to a business founded in 1945. The Company has approximately 6,600 employees located throughout the world and the corporate headquarters are located in Victor, New York. The Company conducts its business through entities it wholly owns as well as through a variety of joint ventures with various other entities, both within and outside the U.S.

The Company is a leading international producer and marketer of beverage alcohol with a strong portfolio of premium wine brands complemented by premium spirits, imported beers and other select beverage alcohol products. The Company has the largest wine business in the world and has a leading market position in each of its core markets, which include the United States (U.S.), Canada, United Kingdom (U.K.), Australia and New Zealand.

The Company is the largest marketer of imported beer in the U.S. through its January 2, 2007, investment in Crown Imports, a joint venture with Grupo Modelo, S.A.B. de C.V. (Modelo) pursuant to which Modelo's Mexican beer portfolio (the Modelo Brands) are imported, marketed and sold by the joint venture in the U.S. along with certain other imported brands (see Recent Acquisitions, Equity Method Investments and Divestiture below and Investment in Crown Imports under Management's Discussion and Analysis of Financial Condition and Results of Operation in Item 7 of this Annual Report on Form 10-K). Prior to January 2, 2007, the Company was the largest marketer of imported beer in 25 primarily western U.S. states, where it had exclusive rights to import, market and sell the Mexican brands in its portfolio.

Table of Contents

On April 17, 2007, the Company participated in establishing and commencing operations of a joint venture with Punch Taverns plc (Punch) in which Punch acquired a 50% interest in the Company's wholesale business in the U.K. This U.K. wholesale joint venture is referred to hereinafter as Matthew Clark (see Recent Acquisitions, Equity Method Investments and Divestiture below and Investment in Matthew Clark under Management's Discussion and Analysis of Financial Condition and Results of Operation in Item 7 of this Annual Report on Form 10-K). Matthew Clark is the leading independent (non-brewery-owned) drinks wholesaler to the on-premise trade in the U.K., providing a full range of beverage alcohol and soft drinks. The Company leverages Matthew Clark as a strategic route-to-market for its branded product portfolio.

Many of the Company's products are recognized leaders in their respective categories and geographic markets. The Company's strong market positions make the Company a supplier of choice to many of its customers, who include wholesale distributors, retailers, on-premise locations and government alcohol beverage control agencies.

The Company's net sales by product category are summarized as follows:

<i>(in millions)</i>	For the Year Ended February 28, 2009	% of Total	For the Year Ended February 29, 2008	% of Total
Branded wine	\$ 3,015.3	83%	\$ 3,016.9	80%
Wholesale and other	220.6	6%	341.9	9%
Spirits	418.7	11%	414.2	11%
Consolidated Net Sales	\$ 3,654.6	100%	\$ 3,773.0	100%

The Company's geographic markets include North America (primarily the U.S. and Canada), Europe (primarily the U.K.) and Australia/New Zealand (primarily Australia and New Zealand). Net sales for spirits occurred in the North America market (primarily the U.S.). Branded wine net sales by geographic area (based on the location of the selling company) are summarized as follows:

<i>(in millions)</i>	For the Year Ended February 28, 2009	% of Total	For the Year Ended February 29, 2008	% of Total
North America	\$ 2,154.7	72%	\$ 2,005.6	67%
Europe	521.3	17%	637.9	21%
Australia/New Zealand	339.3	11%	373.4	12%
Consolidated Net Sales	\$ 3,015.3	100%	\$ 3,016.9	100%

During the past 10 years, there have been certain key trends within the beverage alcohol industry, which include:
Consolidation of suppliers, wholesalers and retailers;

An increase in global wine consumption, with premium wines growing faster than value-priced wines; and

In the U.S. within the beer category, high-end beer (imports and crafts) growing faster than domestic beer.

Table of Contents

To capitalize on these trends and become more competitive, the Company has employed a strategy of growing through a combination of internal growth, acquisitions and investments in joint ventures, with an increasing focus on higher-margin premium categories of the beverage alcohol industry. Key elements of the Company's strategy include:

Leveraging its existing portfolio of leading brands;

Developing new products, new packaging and line extensions;

Strengthening relationships with wholesalers and retailers;

Expanding distribution of its product portfolio;

Enhancing production capabilities;

Realizing operating efficiencies and synergies;

Maximizing asset utilization; and

Acquiring additional management, operational, marketing, and product development expertise.

Over the last two fiscal years, the Company has complemented this strategy by divesting certain businesses, brands, and assets as part of its efforts to increase its mix of premium brands, improve margins, create operating efficiencies and reduce debt.

During Fiscal 2009, an increasingly challenging global economic environment has contributed to some slowing of premium wine growth in the near-term but the Company believes consumers will continue to trade up to premium wines over the long-term.

Recent Acquisitions, Equity Method Investments and Divestitures

In March 2009, as part of its strategic focus on higher-margin premium brands in its portfolio, the Company sold its value spirits business for \$330.5 million, net of direct costs to sell. The Company retained the SVEDKA Vodka and Black Velvet Canadian Whisky premium spirit brands, which have scale in the marketplace and higher margins than the value spirits brands that were sold. To achieve synergies and operating efficiencies, these brands will be consolidated into the Company's North American wine operations. The Paul Masson Grande Amber Brandy brand, which is already being managed by the Company's North American wine business, was also retained.

In June 2008, the Company sold certain businesses consisting of several California wineries and wine brands that had been acquired as part of the December 2007 acquisition of the Fortune Brands U.S. wine business, as well as certain wineries and wine brands from the states of Washington and Idaho (collectively, the Pacific Northwest Business) for cash proceeds of \$204.2 million, net of direct costs to sell. This transaction contributes to the Company's streamlining of its U.S. wine portfolio by eliminating brand duplication and excess production capacity.

In February 2008, as part of ongoing efforts to increase focus on premium wine offerings in the U.S., the Company sold its lower margin popular-priced wine brands, Almaden and Inglenook, and certain other assets for cash proceeds of \$133.5 million, net of direct costs to sell.

In December 2007, the Company acquired the Fortune Brands U.S. wine business, which includes wineries and vineyards in California and produces, markets and sells super-premium and fine wines including Clos du Bois and Wild Horse. The transaction expands the Company's portfolio of super-premium plus wine brands and strengthens its position as the largest premium wine company in the U.S.

Table of Contents

In April 2007, the Company along with Punch, a leading pub company in the U.K., commenced operations of Matthew Clark, a joint venture which owns and operates the U.K. wholesale business formerly owned entirely by the Company. The Company and Punch, directly or indirectly, each have a 50% voting and economic interest in Matthew Clark. On April 17, 2007, the Company discontinued consolidation of the U.K. wholesale business and began accounting for its investment in Matthew Clark under the equity method.

In March 2007, the Company acquired the SVEDKA Vodka brand (Svedka) and related business. Svedka is produced in Sweden, and has become the fastest growing major premium spirits brand in the world and is the third largest imported vodka in the U.S. This acquisition increased the Company's mix of premium spirits.

In January 2007, the Company completed the formation of Crown Imports. The Company and Modelo indirectly each have equal interest in Crown Imports, which has the exclusive right to import, market and sell the Modelo Brands, which include Corona Extra, Corona Light, Coronita, Modelo Especial, Pacifico, and Negra Modelo, in all 50 states of the U.S., the District of Columbia and Guam. In addition, the owners of the Tsingtao and St. Pauli Girl brands transferred exclusive importing, marketing and selling rights with respect to these brands in the U.S. to Crown Imports. Prior to January 2007, the Company had the exclusive right to import, market and sell Modelo's Mexican beer portfolio in 25 primarily western U.S. states and was the exclusive U.S. national importer, marketer and seller of the Tsingtao and St. Pauli Girl brands. After completing the formation of Crown Imports, the Company discontinued consolidation of the imported beer business and accounts for its investment in Crown Imports under the equity method.

In June 2006, the Company acquired Vincor International Inc. (Vincor), Canada's premier wine company. Vincor is Canada's largest producer and marketer of wines. At the time of the acquisition, Vincor was the world's eighth largest producer and distributor of wine and related products by revenue and was also one of the largest wine importers, marketers and distributors in the U.K. Through this transaction, the Company acquired various additional winery and vineyard interests used in the production of premium, super-premium and fine wines from Canada, California, Washington State, Western Australia and New Zealand. In addition, as a result of the acquisition, the Company sources, markets and sells premium wines from South Africa. Well-known premium brands acquired in the Vincor acquisition include Inniskillin, Jackson-Triggs, Sawmill Creek, Sumac Ridge, R.H. Phillips, Toasted Head, Hogue, Kim Crawford and Kumala.

For more information about these transactions, see Management's Discussion and Analysis of Financial Condition and Results of Operation in Item 7 of this Annual Report on Form 10-K.

Business Segments

As a result of the Company's investment in Crown Imports, the Company changed its internal management financial reporting to consist of three business divisions: Constellation Wines, Constellation Spirits and Crown Imports. Prior to the investment in the joint venture, the Company's internal management financial reporting included the Constellation Beers business division. Consequently, the Company reports its operating results in five segments: Constellation Wines (branded wine, and wholesale and other), Constellation Spirits (distilled spirits), Constellation Beers (imported beer), Corporate Operations and Other and Crown Imports (imported beer). Segment results for Constellation Beers are for the period prior to January 2, 2007, and segment results for Crown Imports are for the period on and after January 2, 2007. The business segments, described more fully below, reflect how the Company's operations are managed, how operating performance within the Company is evaluated by senior management and the structure of its internal financial reporting.

Table of Contents

Information regarding net sales, operating income and total assets of each of the Company's business segments and information regarding geographic areas is set forth in Note 22 to the Company's consolidated financial statements located in Item 8 of this Annual Report on Form 10-K.

Constellation Wines

Constellation Wines is the leading producer and marketer of wine in the world. It sells a large number of wine brands across all categories—table wine, sparkling wine and dessert wine—and across all price points—popular, premium, super-premium and fine wine. The portfolio of super-premium and fine wines is supported by vineyard holdings in the U.S., Canada, Australia and New Zealand. As the largest producer and marketer of wine in the world, Constellation Wines has leading market positions in several countries. It is a leading producer and marketer of wine in the U.S., Canada, Australia and New Zealand and the largest marketer of wine in the U.K. Wine produced by the Company in the U.S. is primarily marketed domestically and in the U.K. and Canada. Wine produced in Australia and New Zealand is primarily marketed domestically and in the U.S., Canada and U.K., while wine produced in Canada is primarily marketed domestically. In addition, Constellation Wines exports its wine products to other major wine consuming markets of the world.

In the U.S., Constellation Wines sells 18 of the top-selling 100 table brands and is the largest premium wine company. In Canada, it has wine across all price points, and has six of the top-selling 25 table wine brands and the leading icewine brand with Inniskillin. It has five of the top-selling 25 table wine brands in the U.K. and the best-selling brand of fortified British wine. In Australia, it has wine brands across all price points and varieties, including a comprehensive range of premium wine brands, and has six of the top-selling 25 wine brands and is the largest producer of cask (box) wines.

Constellation Wines' well-known wine brands include Robert Mondavi Brands, Franciscan Oakville Estate, Wild Horse, Simi, Toasted Head, Estancia, Clos du Bois, Blackstone, Ravenswood, Black Box, Vendange, Arbor Mist, Inniskillin, Kim Crawford, Ruffino, Nobilo, Jackson-Triggs, Alice White, Hardys, Banrock Station, Stowells, and Kumala. Constellation Wines also produces and sells Paul Masson Grande Amber Brandy, a leading brand in the brandy/cognac category.

Throughout Fiscal 2007 and prior to April 17, 2007, Constellation Wines owned entirely the leading independent beverage wholesaler to the on-premise trade in the U.K. As previously discussed, on April 17, 2007, the Company, along with Punch, completed the formation of the Matthew Clark joint venture, which now owns and operates that U.K. wholesale business. Matthew Clark has approximately 20,000 on-premise accounts and distributes wine, distilled spirits, cider, beer, RTDs and soft drinks. Those products include Constellation Wines' branded wine and cider, and products produced by other major drinks companies.

Constellation Wines is also the second largest producer and marketer of cider in the U.K., with leading cider brands Blackthorn, Olde English and Gaymers, and a leading producer and a leading marketer of wine kits and beverage alcohol refreshment coolers in Canada.

In conjunction with its wine production, Constellation Wines produces and sells bulk wine and other related products and services.

Table of Contents

Constellation Spirits

Through fiscal 2009, Constellation Spirits produced, bottled, imported and marketed a diversified line of distilled spirits. The majority of the segment's distilled spirits unit volume consisted of products marketed in the value price category, including Chi-Chi's prepared cocktails, Barton, Sköl, Fleischmann's, Canadian LTD, Montezuma, Ten High, Mr. Boston and Inver House, and Svedka Vodka and Black Velvet Canadian Whisky in the premium price category.

As discussed above, in March 2009, the Company sold its value spirits business while retaining the Svedka and Black Velvet premium spirit brands, both of which have a leading position in their respective categories, as well as certain other spirits brands.

Constellation Beers

Prior to January 2, 2007, Constellation Beers was the largest marketer of imported beer in 25 primarily western U.S. states, where it had exclusive rights to import, market and sell the Mexican brands in its portfolio, Corona Extra, Corona Light, Coronita, Modelo Especial, Pacifico, and Negra Modelo. Constellation Beers also had exclusive rights to the entire U.S. to import, market and sell the St. Pauli Girl and Tsingtao brands.

Crown Imports

Effective January 2, 2007, the Constellation Beers operating segment was replaced with the Crown Imports operating segment as the Company completed the formation of the Crown Imports joint venture with Modelo. The Company and Modelo indirectly each have equal interest in Crown Imports, which has the exclusive right to import, market and sell Corona Extra, Corona Light, Coronita, Modelo Especial, Pacifico, Negra Modelo, St. Pauli Girl and Tsingtao brands in all 50 states of the U.S. The Company accounts for its investment in Crown Imports under the equity method. In the U.S., Crown Imports has six of the top-selling 25 imported beer brands. Corona Extra is the best-selling imported beer and the sixth best-selling beer overall and Corona Light is the leading imported light beer while St. Pauli Girl is the number two selling German Beer and Tsingtao is the number one selling Chinese Beer.

Corporate Operations and Other

The Corporate Operations and Other segment includes traditional corporate-related items including executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations, global information technology and global supply chain.

Marketing and Distribution

The Company's segments employ full-time, in-house marketing, sales and customer service organizations to maintain a high degree of focus on their respective product categories. The organizations use a range of marketing strategies and tactics to build brand equity and increase sales, including market research, consumer and trade advertising, price promotions, point-of-sale materials, event sponsorship, on-premise promotions and public relations. Where opportunities exist, particularly with national accounts in the U.S., the Company leverages its sales and marketing skills across the organization and segments.

Table of Contents

In North America, the Company's products are primarily distributed by a broad base of wholesale distributors as well as state and provincial alcoholic beverage control agencies. As is the case with all other beverage alcohol companies, products sold through state or provincial alcoholic beverage control agencies are subject to obtaining and maintaining listings to sell the Company's products in that agency's state or province. State and provincial governments can affect prices paid by consumers of the Company's products. This is possible either through the imposition of taxes or, in states and provinces in which the government acts as the distributor of the Company's products through an alcohol beverage control agency, by directly setting retail prices for the Company's products.

In the U.K., the Company's products are distributed either directly to retailers or through wholesalers and importers. Matthew Clark sells and distributes the Company's branded products and those of other major drinks companies to on-premise locations through a network of depots located throughout the U.K. In Australia, New Zealand and other markets, the Company's products are primarily distributed either directly to retailers or through wholesalers and importers. In the U.K., Australia and New Zealand, the distribution channels are dominated by a small number of industry leaders.

Trademarks and Distribution Agreements

Trademarks are an important aspect of the Company's business. The Company sells its products under a number of trademarks, which the Company owns or uses under license. Throughout its segments, the Company also has various licenses and distribution agreements for the sale, or the production and sale, of its products and products of third parties. These licenses and distribution agreements have varying terms and durations. At the end of the Company's fiscal year ended February 28, 2009, these agreements included, among others, a long-term license agreement with Hiram Walker & Sons, Inc., which expires in 2116, for the Ten High, Crystal Palace, Northern Light, Lauder's and Imperial Spirits brands, and a long-term license agreement with Chi-Chi's, Inc., which expires in 2117, for the production, marketing and sale of beverage products, alcoholic and non-alcoholic, utilizing the Chi-Chi's brand name. On that date the Company also held an import and license agreement for the Caravella brands with Sperone SPA, which expires in 2057, under which it owned the Caravella trademarks in the U.S. during the term, and a distribution and license agreement with C.D.G., SA that expires in 2015 for the Meukow brand. As previously discussed, in March 2009, the Company sold its value spirits business. The Company's rights to various trademarks were transferred as part of that divestiture, including the Company's rights to all of the foregoing named trademarks.

All of the Company's imported beer products are imported, marketed and sold through Crown Imports. Crown Imports has entered into exclusive importation agreements with the suppliers of the imported beer products. These agreements have terms that vary and prohibit Crown Imports from importing beer products from other producers from the same country. Crown Imports' Mexican beer portfolio, the Modelo Brands, currently consists of the Corona Extra, Corona Light, Coronita, Modelo Especial, Negra Modelo and Pacifico brands and is marketed and sold in all 50 states of the U.S., the District of Columbia and Guam. Crown Imports also has entered into license and importation agreements with the owners of the German St. Pauli Girl and the Chinese Tsingtao brands for their importation, marketing and sale within the U.S. With respect to the Modelo Brands, Crown Imports has an exclusive sub-license to use certain trademarks related to Modelo Brands beer products in the U.S. (including the District of Columbia and Guam) pursuant to a sub-license agreement between Crown Imports and Marcas Modelo, S.A. de C.V. This sub-license agreement continues for the duration of the Crown Imports joint venture.

Table of Contents

Crown Imports and Extrade II S.A. de C.V. (Extrade II), an affiliate of Modelo, have entered into an Importer Agreement (the Importer Agreement), pursuant to which Extrade II granted to Crown Imports the exclusive right to sell the Modelo Brands in the territories mentioned above. The joint venture and the related importation arrangements provide that, subject to the terms and conditions of those agreements, the joint venture and the related importation arrangements will continue through 2016 for an initial term of 10 years, and renew in 10-year periods unless GModelo Corporation, a Delaware corporation and subsidiary of Diblo, S.A. de C.V. (Diblo), gives notice prior to the end of year seven of any term.

Competition

The beverage alcohol industry is highly competitive. The Company competes on the basis of quality, price, brand recognition and distribution strength. The Company's beverage alcohol products compete with other alcoholic and non-alcoholic beverages for consumer purchases, as well as shelf space in retail stores, restaurant presence and wholesaler attention. The Company competes with numerous multinational producers and distributors of beverage alcohol products, some of which may have greater resources than the Company.

Constellation Wines' principal wine competitors include: E&J Gallo Winery, Foster's Group, WJ Deutch, Kendall-Jackson, Ste. Michelle Wine Estates, Diageo and Brown Forman in the U.S.; Andrew Peller, Foster's Group, Maison des Futailles and E&J Gallo Winery in Canada; Foster's Group, E&J Gallo Winery, Diageo, and Pernod Ricard in the U.K.; and Foster's Group and Pernod Ricard in Australia and New Zealand. Constellation Wines' principal cider competitors include Heineken and C&C Group.

Constellation Spirits' principal distilled spirits competitors include: Diageo, Fortune Brands, Bacardi, Pernod Ricard and Brown-Forman.

Crown Imports' principal competitors include: Heineken, Anheuser-Busch InBev, MillerCoors and Diageo in the imported beer category as well as domestic producers such as Anheuser-Busch InBev and MillerCoors.

Production

In the U.S., the Company operates 19 wineries where wine is produced from many varieties of grapes grown principally in the Napa, Sonoma, Monterey and San Joaquin regions of California. In Australia, the Company operates 11 wineries where wine is produced from many varieties of grapes grown in most of the major viticultural regions. The Company also operates 10 wineries in Canada, four wineries in New Zealand and one winery in South Africa. Grapes are crushed at most of the Company's wineries and stored as wine until packaged for sale under the Company's brand names or sold in bulk. In the U.S. and Canada, the Company's inventories of wine are usually at their highest levels in September through November during and after the crush of each year's grape harvest, and are reduced prior to the subsequent year's crush. Similarly, in Australia and New Zealand, the Company's inventories of wine are usually at their highest levels in March through May during and after the crush of each year's grape harvest, and are reduced prior to the subsequent year's crush.

The Company's Canadian whisky requirements are produced and aged at its Canadian distillery in Lethbridge, Alberta. The Company's requirements of grains and bulk spirits it uses in the production of Canadian whisky, are primarily purchased from various suppliers.

Table of Contents

The Company operates two facilities in the U.K. that produce, bottle and package wine and cider. To produce Stowells, wine is imported in bulk from various countries and packaged at the Company's facility at Bristol, England. All cider production takes place at the Company's facility at Shepton Mallet, England.

Sources and Availability of Production Materials

The principal components in the production of the Company's branded beverage alcohol products are agricultural products, such as grapes and grain, and packaging materials (primarily glass).

Most of the Company's annual grape requirements are satisfied by purchases from each year's harvest which normally begins in August and runs through October in the U.S. and Canada, and begins in February and runs through May in Australia and New Zealand. The Company believes that it has adequate sources of grape supplies to meet its sales expectations. However, in the event that demand for certain wine products exceed expectations, the Company would seek to source the extra requirements from the bulk wine markets, but could experience shortages.

The Company receives grapes from approximately 1,150 independent growers in the U.S., approximately 1,300 independent growers in Australia, approximately 120 independent growers in New Zealand and approximately 110 independent growers in Canada. The Company enters into written purchase agreements with a majority of these growers and pricing generally varies year-to-year and is generally based on then-current market prices. In Australia, approximately 700 of the 1,300 growers belong to a grape growers' cooperative. The Company purchases the majority of its Australian grape requirements from this cooperative under a long-term arrangement. In the U.K., the Company produces wine from materials purchased either on a contract basis or on the open market.

At February 28, 2009, the Company owned or leased approximately 24,400 acres of land and vineyards, either fully bearing or under development, in California (U.S.), New York (U.S.), Canada, Australia and New Zealand. This acreage supplies only a small percentage of the Company's overall total wine needs. However, most of this acreage is used to supply a large portion of the grapes used for the production of the Company's super-premium and fine wines. The Company continues to consider the purchase or lease of additional vineyards, and additional land for vineyard plantings, to supplement its grape supply.

The distilled spirits manufactured and imported by the Company require various agricultural products, neutral grain spirits and bulk spirits. The Company fulfills its requirements through purchases from various sources by contractual arrangement and through purchases on the open market. The Company believes that adequate supplies of the aforementioned products are available at the present time.

In the U.K., the Company sources apples for cider production primarily through long-term supply arrangements with owners of apple orchards. The Company believes there are adequate supplies of apples at this particular time.

Table of Contents

The Company utilizes glass and polyethylene terephthalate (PET) bottles and other materials such as caps, corks, capsules, labels, wine bags and cardboard cartons in the bottling and packaging of its products. Glass bottle costs are one of the largest components of the Company s cost of product sold. In the U.S., Canada and Australia, the glass bottle industry is highly concentrated with only a small number of producers. The Company has traditionally obtained, and continues to obtain, its glass requirements from a limited number of producers under long-term supply arrangements. Currently, one producer supplies most of the Company s glass container requirements for its U.S. operations and another producer supplies substantially all of the Company s glass container requirements for its Australian operations and an affiliate of that producer supplies a majority of the Company s glass container requirements for its Canadian operations. The Company has been able to satisfy its requirements with respect to the foregoing and considers its sources of supply to be adequate at this time. However, the inability of any of the Company s glass bottle suppliers to satisfy the Company s requirements could adversely affect the Company s operations.

Government Regulation

The Company is subject to a range of regulations in the countries in which it operates. Where it produces products, the Company is subject to environmental laws and regulations and may be required to obtain permits and licenses to operate its facilities. Where it markets and sells products, it may be subject to laws and regulations on trademark and brand registration, packaging and labeling, distribution methods and relationships, pricing and price changes, sales promotions, advertising and public relations. The Company is also subject to rules and regulations relating to changes in officers or directors, ownership or control.

The Company believes it is in compliance in all material respects with all applicable governmental laws and regulations in the countries in which it operates. The Company also believes that the cost of administration and compliance with, and liability under, such laws and regulations does not have, and is not expected to have, a material adverse impact on its financial condition, results of operations or cash flows.

Seasonality

The beverage alcohol industry is subject to seasonality in each major category. As a result, in response to wholesaler and retailer demand which precedes consumer purchases, the Company s wine and spirits sales are typically highest during the third quarter of its fiscal year, primarily due to seasonal holiday buying. Crown Imports imported beer sales are typically highest during the first and second quarters of the Company s fiscal year, which correspond to the Spring and Summer periods in the U.S.

Employees

As of the end of March 2009, the Company had approximately 6,600 full-time employees throughout the world. Approximately 2,900 full-time employees were in the U.S. and approximately 3,700 full-time employees were outside of the U.S., in countries including Australia, the U.K., Canada and New Zealand. Additional workers may be employed by the Company during the peak and grape crushing seasons. The Company considers its employee relations generally to be good.

Company Information

The Company's internet address is <http://www.cbrands.com>. The Company's filings with the Securities and Exchange Commission (SEC), including its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports, filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, are accessible free of charge at <http://www.cbrands.com> as soon as reasonably practicable after the Company electronically files such material with, or furnishes it to, the SEC. The SEC maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers, such as the Company, that file electronically with the SEC. The internet address of the SEC's site is <http://www.sec.gov>. Also, the public may read and copy any materials that the Company files with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330.

The Company has adopted a Chief Executive Officer and Senior Financial Executive Code of Ethics that specifically applies to its chief executive officer, its principal financial officer, and controller. This Chief Executive Officer and Senior Financial Executive Code of Ethics meets the requirements as set forth in the Securities Exchange Act of 1934, Item 406 of Regulation S-K. The Company has posted on its internet website a copy of the Chief Executive Officer and Senior Financial Officer Code of Ethics. It is accessible at <http://www.cbrands.com/CBI/constellationbrands/Investors/CorporateGovernance>.

The Company also has adopted a Code of Business Conduct and Ethics that applies to all employees, directors and officers, including each person who is subject to the Chief Executive Officer and Senior Financial Executive Code of Ethics. The Code of Business Conduct and Ethics is available on the Company's internet website, together with the Company's Global Code of Responsible Practices for Beverage Alcohol Advertising and Marketing, its Board of Directors Corporate Governance Guidelines and the Charters of the Board's Audit Committee, Human Resources Committee (which serves as the Board's compensation committee) and Corporate Governance Committee (which serves as the Board's nominating committee). All of these materials are accessible on the Company's Internet site at <http://www.cbrands.com/CBI/constellationbrands/Investors/CorporateGovernance>. Amendments to, and waivers granted to the Company's directors and executive officers under the Company's codes of ethics, if any, will be posted in this area of the Company's website. A copy of the Code of Business Conduct and Ethics, Global Code of Responsible Practices for Beverage Alcohol Advertising and Marketing, Chief Executive Officer and Senior Financial Executive Code of Ethics, and/or the Board of Directors Corporate Governance Guidelines and committee charters are available in print to any shareholder who requests it. Shareholders should direct such requests in writing to Investor Relations Department, Constellation Brands, Inc., 207 High Point Drive, Building 100, Victor, New York 14564, or by telephoning the Company's Investor Center at 1-888-922-2150.

The foregoing information regarding the Company's website and its content is for your convenience only. The content of the Company's website is not deemed to be incorporated by reference in this report or filed with the SEC.

Table of Contents

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the following factors which could materially affect our business, financial condition or results of operations. The risks described below are not the only risks we face. Additional factors not presently known to us or that we currently deem to be immaterial also may materially adversely affect our business operations.

Recent worldwide and domestic economic trends and financial market conditions could adversely impact our financial performance.

As widely reported, the worldwide and domestic economies have experienced adverse conditions and may be subject to further deterioration for the foreseeable future. We are subject to risks associated with these adverse conditions, including economic slowdown and the disruption, volatility and tightening of credit and capital markets.

In addition, this global economic situation could adversely impact our major suppliers, distributors and retailers. The inability of suppliers, distributors or retailers to conduct business or to access liquidity could impact our ability to produce and distribute our products. We have a committed credit facility and additional liquidity facilities available to us. While to date we have not experienced problems with accessing these facilities, to the extent that the financial institutions that participate in these facilities were to default on their obligation to fund, those funds would not be available to us.

The timing and nature of any recovery in the financial markets remains uncertain, and there can be no assurance that market conditions will improve in the near future. A prolonged downturn, further worsening or broadening of the adverse conditions in the worldwide and domestic economies could affect consumer spending patterns and purchases of our products, and create or exacerbate credit issues, cash flow issues and other financial hardships for us and for our suppliers, distributors, retailers and consumers. Depending upon their severity and duration, these conditions could have a material adverse impact on our business, liquidity, financial condition and results of operations. The Company is unable to predict the likely duration and severity of the current disruption in the financial markets and the adverse economic conditions in the United States and its other major markets outside the United States.

Table of Contents

Our indebtedness could have a material adverse effect on our financial health.

We have incurred substantial indebtedness to finance our acquisitions. In the future, we may incur substantial additional indebtedness to finance further acquisitions or for other purposes. Our ability to satisfy our debt obligations outstanding from time to time will depend upon our future operating performance. We do not have complete control over our future operating performance because it is subject to prevailing economic conditions, levels of interest rates and financial, business and other factors. We cannot assure you that our business will generate sufficient cash flow from operations to meet all of our debt service requirements and to fund our capital expenditure requirements.

Our current and future debt service obligations and covenants could have important consequences to you. These consequences include, or may include, the following:

Our ability to obtain financing for future working capital needs or acquisitions or other purposes may be limited;

Our funds available for operations, expansion or distributions will be reduced because we will dedicate a significant portion of our cash flow from operations to the payment of principal and interest on our indebtedness;

Our ability to conduct our business could be limited by restrictive covenants; and

Our vulnerability to adverse economic conditions may be greater than less leveraged competitors and, thus, our ability to withstand competitive pressures may be limited.

Our senior credit facility and the indentures under which our debt securities have been issued contain restrictive covenants and provisions. These covenants and provisions affect our ability to grant additional liens, engage in changes of control and engage in certain other fundamental changes. Certain of our existing indentures under which debt securities have been issued contain additional covenants and provisions that affect our ability to incur additional debt, sell assets, pay dividends, enter into transactions with affiliates, make investments and engage in certain other additional fundamental changes. Our senior credit facility also contains restrictions on our ability to make acquisitions and certain financial ratio tests, including a debt coverage ratio and an interest coverage ratio. These restrictions could limit our ability to conduct business. If we fail to comply with the obligations contained in the senior credit facility, our existing or future indentures or other loan agreements, we could be in default under such agreements, which could require us to immediately repay the related debt and also debt under other agreements that may contain cross-acceleration or cross-default provisions.

Table of Contents

Our acquisition, disposition and joint venture strategies may not be successful.

We have made a number of acquisitions, including our acquisition of the Fortune Brands, Inc. U.S. wine business, our Svedka acquisition and our Vincor acquisition and we anticipate that we may, from time to time, acquire additional businesses, assets or securities of companies that we believe would provide a strategic fit with our business. We will need to integrate acquired businesses with our existing operations. We cannot assure you that we will effectively assimilate the business or product offerings of acquired companies into our business or product offerings or realize anticipated operational synergies. Integrating the operations and personnel of acquired companies into our existing operations or separating from our existing operations the operations and personnel of businesses of which we dispose may result in difficulties, significant expense and accounting charges, disrupt our business or divert management's time and attention. In connection with the integration of acquired operations or the conduct of our overall business strategies, we may periodically restructure our businesses and/or sell assets or portions of our business, including the recent sale of our value spirits business. We may not achieve expected cost savings from restructuring activities or realize the expected proceeds from sales of assets or portions of our business, and actual charges, costs and adjustments due to restructuring activities may vary materially from our estimates. Additionally, our final determinations and appraisals of the fair value of assets acquired and liabilities assumed in our acquisitions may vary materially from earlier estimates. We cannot assure you that the fair value of acquired businesses will remain constant.

Acquisitions involve numerous other risks, including potential exposure to unknown liabilities of acquired companies and the possible loss of key employees and customers of the acquired business. In connection with acquisitions or joint venture investments outside the U.S., we may enter into derivative contracts to purchase foreign currency in order to hedge against the risk of foreign currency fluctuations in connection with such acquisitions or joint venture investments, which subjects us to the risk of foreign currency fluctuations associated with such derivative contracts.

We have entered into joint ventures, including our joint venture with Modelo and our joint venture with Punch, and we may enter into additional joint ventures. We share control of our joint ventures. Our joint venture partners may at any time have economic, business or legal interests or goals that are inconsistent with our goals or the goals of the joint venture. Our joint venture arrangements may require us to pay certain costs or to make certain capital investments and we may have little control over the amount or the timing of these payments and investments. In addition, our joint venture partners may be unable to meet their economic or other obligations and we may be required to fulfill those obligations alone. Our failure or the failure of an entity in which we have a joint venture interest to adequately manage the risks associated with any acquisitions or joint ventures could have a material adverse effect on our financial condition or results of operations. We cannot assure you that any of our acquisitions or joint ventures will be profitable or that forecasts regarding joint venture activities will be accurate. In particular, risks and uncertainties associated with our joint ventures include, among others, the joint venture's ability to operate its business successfully, the joint venture's ability to develop appropriate standards, controls, procedures and policies for the growth and management of the joint venture and the strength of the joint venture's relationships with its employees, suppliers and customers.

Table of Contents

Competition could have a material adverse effect on our business.

We are in a highly competitive industry and the dollar amount and unit volume of our sales could be negatively affected by our inability to maintain or increase prices, changes in geographic or product mix, a general decline in beverage alcohol consumption or the decision of wholesalers, retailers or consumers to purchase competitive products instead of our products. Wholesaler, retailer and consumer purchasing decisions are influenced by, among other things, the perceived absolute or relative overall value of our products, including their quality or pricing, compared to competitive products. Unit volume and dollar sales could also be affected by pricing, purchasing, financing, operational, advertising or promotional decisions made by wholesalers, state and provincial agencies, and retailers which could affect their supply of, or consumer demand for, our products. We could also experience higher than expected selling, general and administrative expenses if we find it necessary to increase the number of our personnel or our advertising or promotional expenditures to maintain our competitive position or for other reasons.

An increase in import and excise duties or other taxes or government regulations could have a material adverse effect on our business.

The U.S., the U.K., Canada, Australia and other countries in which we operate impose import and excise duties and other taxes on beverage alcohol products in varying amounts which have been subject to change. Significant increases in import and excise duties or other taxes on beverage alcohol products could materially and adversely affect our financial condition or results of operations. Many U.S. states have considered proposals to increase, and some of these states have increased, state alcohol excise taxes. There may be further consideration by governmental entities to increase taxes upon beverage alcohol products as governmental entities explore available alternatives for raising funds during the current macroeconomic climate. In addition, federal, state, local and foreign governmental agencies extensively regulate the beverage alcohol products industry concerning such matters as licensing, trade and pricing practices, permitted and required labeling, advertising and relations with wholesalers and retailers. Certain federal and state or provincial regulations also require warning labels and signage. New or revised regulations or increased licensing fees, requirements or taxes could also have a material adverse effect on our financial condition or results of operations.

We rely on the performance of wholesale distributors, major retailers and government agencies for the success of our business.

Local market structures and distribution channels vary worldwide. In the U.S., we sell our products principally to wholesalers for resale to retail outlets including grocery stores, club and discount stores, package liquor stores and restaurants and also directly to government agencies. In the U.K., we sell our products principally to retailers and also to wholesalers. In Australia, we sell our products principally to wholesalers and also directly to retailers, while in Canada, we sell our products to government agencies. The replacement or poor performance of our major wholesalers, retailers or government agencies could materially and adversely affect our results of operations and financial condition. Our inability to collect accounts receivable from our major wholesalers, retailers or government agencies could also materially and adversely affect our results of operations and financial condition.

The industry is being affected by the trend toward consolidation in the wholesale and retail distribution channels, particularly in Europe and the U.S. If we are unable to successfully adapt to this changing environment, our net income, market share and volume growth could be negatively affected. In addition, wholesalers and retailers of our products offer products which compete directly with our products for retail shelf space and consumer purchases. Accordingly, wholesalers or retailers may give higher priority to products of our competitors. In the future, our wholesalers and retailers may not continue to purchase our products or provide our products with adequate levels of promotional support.

Table of Contents

Our business could be adversely affected by a decline in the consumption of products we sell.

Since 1995, there have been modest increases in consumption of beverage alcohol in most of our product categories and geographic markets. There have been periods in the past, however, in which there were substantial declines in the overall per capita consumption of beverage alcohol products in the U.S. and other markets in which we participate. A limited or general decline in consumption in one or more of our product categories could occur in the future due to a variety of factors, including:

A general decline in economic or geo-political conditions;

Increased concern about the health consequences of consuming beverage alcohol products and about drinking and driving;

A general decline in the consumption of beverage alcohol products in on-premise establishments, such as may result from smoking bans;

A trend toward a healthier diet including lighter, lower calorie beverages such as diet soft drinks, juices and water products;

The increased activity of anti-alcohol groups;

Increased federal, state or foreign excise or other taxes on beverage alcohol products; and

Increased regulation placing restrictions on the purchase or consumption of beverage alcohol products.

In addition, our continued success depends, in part, on our ability to develop new products. The launch and ongoing success of new products are inherently uncertain especially with regard to their appeal to consumers. The launch of a new product can give rise to a variety of costs and an unsuccessful launch, among other things, can affect consumer perception of existing brands.

We generally purchase raw materials under short-term supply contracts, and we are subject to substantial price fluctuations for grapes and grape-related materials, and we have a limited group of suppliers of glass bottles.

Our business is heavily dependent upon raw materials, such as grapes, grape juice concentrate, grains, alcohol and packaging materials from third-party suppliers. We could experience raw material supply, production or shipment difficulties that could adversely affect our ability to supply goods to our customers. Increases in the costs of raw materials also directly affect us. In the past, we have experienced dramatic increases in the cost of grapes. Although we believe we have adequate sources of grape supplies, in the event demand for certain wine products exceed expectations, we could experience shortages.

The wine industry swings between cycles of grape oversupply and undersupply. In a severe oversupply environment, the ability of wine producers, including ourselves, to raise prices is limited, and, in certain situations, the competitive environment may put pressure on producers to lower prices. Further, although an oversupply may enhance opportunities to purchase grapes at lower costs, a producer's selling and promotional expenses associated with the sale of its wine products can rise in such an environment.

Glass bottle costs are one of our largest components of cost of product sold. In the U.S., Canada and Australia, glass bottles have only a small number of producers. Currently, one producer supplies most of our glass container requirements for our U.S. operations and another producer supplies substantially all of our glass container requirements for our Australian operations and one of its affiliates supplies a majority of our glass container requirements for our Canadian operations. The inability of any of our glass bottle suppliers to satisfy our requirements could adversely affect our business.

Table of Contents

Our operations subject us to risks relating to currency rate fluctuations, interest rate fluctuations and geopolitical uncertainty which could have a material adverse effect on our business.

We have operations in different countries throughout the world and, therefore, are subject to risks associated with currency fluctuations. As a result of our international acquisitions, we have significant exposure to foreign currency risk as a result of having international operations in Australia, New Zealand and the U.K. Following the Vincor acquisition, our exposure to foreign currency risk increased significantly in Canada and also further increased in Australia, New Zealand and the U.K. We are also exposed to risks associated with interest rate fluctuations. We manage our exposure to foreign currency and interest rate risks utilizing derivative instruments and other means to reduce those risks. We, however, could experience changes in our ability to hedge against or manage fluctuations in foreign currency exchange rates or interest rates and, accordingly, there can be no assurance that we will be successful in reducing those risks. We could also be affected by nationalizations or unstable governments or legal systems or intergovernmental disputes. These currency, economic and political uncertainties may have a material adverse effect on our results of operations, especially to the extent these matters, or the decisions, policies or economic strength of our suppliers, affect our global operations.

We have a material amount of intangible assets, such as goodwill and trademarks, and if we are required to write-down any of these intangible assets, it would reduce our net income, which in turn could have a material adverse effect on our results of operations.

During the years ended February 28, 2009, and February 29, 2008, we recorded impairment losses of \$300.4 million and \$812.2 million, respectively, on our goodwill and intangible assets. We continue to have a significant amount of intangible assets, such as goodwill and trademarks. In accordance with the provisions of the Financial Accounting Standards Board's Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets, goodwill and indefinite lived intangible assets are subject to a periodic impairment evaluation. Reductions in our net income caused by the write-down of any of these intangible assets could materially and adversely affect our results of operations.

The termination of our joint venture with Modelo relating to importing, marketing and selling imported beer could have a material adverse effect on our business.

On January 2, 2007, we participated in establishing and commencing operations of a joint venture with Modelo, pursuant to which Corona Extra and the other Modelo Brands are imported, marketed and sold by the joint venture in the U.S. (including the District of Columbia) and Guam along with certain other imported beer brands in their respective territories. Pursuant to the joint venture and related importation arrangements, the joint venture will continue for an initial term of 10 years, and renew in 10-year periods unless GModelo Corporation, a Delaware corporation and subsidiary of Diblo, gives notice prior to the end of year seven of any term of its intention to purchase our interest we hold through our subsidiary, Constellation Beers Ltd. (Constellation Beers). The joint venture may also terminate under other circumstances involving action by governmental authorities, certain changes in control of us or Constellation Beers as well as in connection with certain breaches of the importation and related sub-license agreements, after notice and cure periods.

The termination of the joint venture by acquisition of Constellation Beers' interest or for other reasons noted above could have a material adverse effect on our business, financial condition or results of operations.

Table of Contents

Class action or other litigation relating to alcohol abuse or the misuse of alcohol could adversely affect our business.

There has been increased public attention directed at the beverage alcohol industry, which we believe is due to concern over problems related to alcohol abuse, including drinking and driving, underage drinking and health consequences from the misuse of alcohol. Several beverage alcohol producers have been sued in several courts regarding alleged advertising practices relating to underage consumers. Adverse developments in these types of lawsuits or a significant decline in the social acceptability of beverage alcohol products that results from lawsuits could materially adversely affect our business.

We depend upon our trademarks and proprietary rights, and any failure to protect our intellectual property rights or any claims that we are infringing upon the rights of others may adversely affect our competitive position and brand equity.

Our future success depends significantly on our ability to protect our current and future brands and products and to defend our intellectual property rights. We have been granted numerous trademark registrations covering our brands and products and have filed, and expect to continue to file, trademark applications seeking to protect newly-developed brands and products. We cannot be sure that trademark registrations will be issued with respect to any of our trademark applications. There is also a risk that we could, by omission, fail to timely renew or protect a trademark or that our competitors will challenge, invalidate or circumvent any existing or future trademarks issued to, or licensed by, us.

Contamination could harm the integrity or customer support for our brands and adversely affect the sales of our products.

The success of our brands depends upon the positive image that consumers have of those brands. Contamination, whether arising accidentally or through deliberate third-party action, or other events that harm the integrity or consumer support for those brands, could adversely affect their sales. Contaminants in raw materials purchased from third parties and used in the production of our wine and spirits products or defects in the distillation or fermentation process could lead to low beverage quality as well as illness among, or injury to, consumers of our products and may result in reduced sales of the affected brand or all of our brands.

An increase in the cost of energy or the cost of environmental regulatory compliance could affect our profitability.

We have experienced significant increases in energy costs, and energy costs could continue to rise, which would result in higher transportation, freight and other operating costs. We may experience significant future increases in the costs associated with environmental regulatory compliance. Our future operating expenses and margins will be dependent on our ability to manage the impact of cost increases. We cannot guarantee that we will be able to pass along increased energy costs or increased costs associated with environmental regulatory compliance to our customers through increased prices.

Table of Contents

Our reliance upon complex information systems distributed worldwide and our reliance upon third party global networks means we could experience interruptions to our business services.

We depend on information technology to enable us to operate efficiently and interface with customers, as well as maintain financial accuracy and efficiency. If we do not allocate, and effectively manage, the resources necessary to build and sustain the proper technology infrastructure, we could be subject to transaction errors, processing inefficiencies, the loss of customers, business disruptions, or the loss of or damage to intellectual property through security breach. As with all large systems, our information systems could be penetrated by outside parties intent on extracting information, corrupting information or disrupting business processes. Such unauthorized access could disrupt our business and could result in the loss of assets.

Changes in accounting standards and taxation requirements could affect our financial results.

New accounting standards or pronouncements that may become applicable to us from time to time, or changes in the interpretation of existing standards and pronouncements, could have a significant effect on our reported results for the affected periods. We are also subject to income tax in the numerous jurisdictions in which we generate revenues. In addition, our products are subject to import and excise duties and/or sales or value-added taxes in many jurisdictions in which we operate. Increases in income tax rates could reduce our after-tax income from affected jurisdictions, while increases in indirect taxes could affect our products' affordability and therefore reduce our sales.

Various diseases, pests and certain weather conditions could affect quality and quantity of grapes or other agricultural raw materials.

Various diseases, pests, fungi, viruses, drought, frosts and certain other weather conditions could affect the quality and quantity of grapes and other agricultural raw materials available, decreasing the supply of our products and negatively impacting profitability. We cannot guarantee that our grape suppliers or suppliers of other agricultural raw materials will succeed in preventing contamination in existing vineyards or fields or that we will succeed in preventing contamination in our existing vineyards or future vineyards we may acquire. Future government restrictions regarding the use of certain materials used in grape growing may increase vineyard costs and/or reduce production. Growing agricultural raw materials also requires adequate water supplies. A substantial reduction in water supplies could result in material losses of grape crops and vines or other crops, which could lead to a shortage of our product supply.

Item 2. Properties

Through its business segments, the Company operates wineries, distilling and bottling plants, and cider producing facilities, most of which include warehousing and distribution facilities on the premises. Through Matthew Clark, the Company also operates separate distribution centers serving the Constellation Wines segment's wholesaling business in the U.K. In addition to the Company's properties described below, certain of the Company's businesses maintain office space for sales and similar activities and offsite warehouse and distribution facilities in a variety of geographic locations.

The Company believes that its facilities, taken as a whole, are in good condition and working order and have adequate capacity to meet its needs for the foreseeable future.

The following discussion details the properties associated with the Company's five business segments.

Constellation Wines

Through the Constellation Wines segment, the Company maintains facilities in the U.S., Australia, New Zealand, the U.K., the Republic of Ireland, South Africa and Canada. These facilities include wineries, bottling plants, cider producing facilities, warehousing and distribution facilities, distribution centers and office facilities. The segment maintains owned and/or leased division offices in Canandaigua, New York; St. Helena, California; Gonzales, California; San Francisco, California; Healdsburg, California; Reynella, South Australia; Bristol, England; Guildford, England; and Mississauga, Ontario.

United States

In the U.S., the Company through its Constellation Wines segment operates two wineries in New York, located in Canandaigua and Naples; 16 wineries in California, located in Acampo, Esparto, Geyserville, Gonzales, Healdsburg, Kenwood, Madera, Oakville, Soledad, Rutherford, Templeton, Ukiah, two in Lodi, two in Sonoma; and one winery in Washington, located in Prosser. All of these wineries are owned. The Constellation Wines segment considers its principal wineries in the U.S. to be the Mission Bell winery in Madera (California), the Canandaigua winery in Canandaigua (New York), the Ravenswood wineries in Sonoma (California), the Franciscan Vineyards winery in Rutherford (California), the Woodbridge Winery in Acampo (California), the Turner Road Vintners Winery in Lodi (California), the Robert Mondavi Winery in Oakville (California) and the Blackstone Winery in Gonzales (California). The Mission Bell winery crushes grapes, produces, bottles and distributes wine and produces specialty concentrates and Mega Colors for sale. The Canandaigua winery crushes grapes and produces, bottles and distributes wine. The other principal wineries crush grapes, vinify, cellar and bottle wine. In California, the Constellation Wines segment also operates a distribution center and four warehouses.

Through the Constellation Wines segment, as of February 28, 2009, the Company owned or leased approximately 12,600 acres of vineyards, either fully bearing or under development, in California and New York to supply a portion of the grapes used in the production of wine.

Table of Contents

Australia/New Zealand

Through the Constellation Wines segment, the Company owns and operates 11 Australian wineries, five of which are in South Australia, three in Western Australia and the other three in New South Wales, Victoria and Tasmania. Additionally, through this segment the Company also owns four wineries in New Zealand. All but one of these Australia/New Zealand wineries crush grapes, vinify and cellar wine. Four include bottling and/or packaging operations. The facility in Reynella, South Australia bottles a significant portion of the wine produced in Australia, produces all Australian sparkling wines and cellars wines. The Company considers the segment's principal facilities in Australia/New Zealand to be the Berri Estates winery located in Glossop and the bottling facility located in Reynella, both in South Australia.

Through the Constellation Wines segment, the Company owns or has interests in approximately 6,100 acres of vineyards in South Australia, Western Australia, Victoria, and Tasmania, and approximately 3,900 acres of vineyards, either fully bearing or under development, in New Zealand.

Europe

Through the Constellation Wines segment, in the U.K. the Company operates two facilities in England, located in Bristol and Shepton Mallet. The Bristol facility, which is leased, is considered a principal facility and produces, bottles and packages wine; and the Shepton Mallet facility, which is owned, produces, bottles and packages cider.

Through this segment, the Company operates a National Distribution Centre, located at a leased facility in Severnside, Bristol, England, together with two leased satellite facilities and two third party storage facilities within the same region, to distribute the Company's products that are produced at the Bristol and Shepton Mallet facilities as well as products imported from other wine suppliers. The Company also operates an additional satellite warehouse in leased facilities in Severnside. Matthew Clark operates 11 physical distribution centers located throughout the U.K., 10 of which are leased, as well as two virtual depots and two satellite depots. These distribution centers and depots are used to distribute products produced by the Company, as well as by third parties.

Additionally, through the Constellation Wines segment, the Company leases warehouse and office facilities in Dublin in support of the Company's business of marketing, storing and distributing alcoholic beverages in the Republic of Ireland.

Canada

Through the Constellation Wines segment, the Company owns and operates 10 Canadian wineries, four of which are in British Columbia, four in Ontario, one in Quebec and one in New Brunswick. The British Columbia and Ontario operations all harvest a domestic crop and all locations vinify and cellar wines. Four wineries include bottling and/or packaging operations. The Company also operates a distribution center in Mississauga, Ontario. In addition, through the segment the Company operates facilities in Vancouver, British Columbia and Kitchener, Ontario in connection with its beer and wine making kit business, and a finished goods warehouse and sales office in Dartmouth, Nova Scotia. The Company considers the segment's principal facilities in Canada to be Niagara Cellars located in Niagara Falls (Ontario), the Vincor Quebec Division located in Rougemont (Quebec), the Vincor Production Facility located in Oliver (British Columbia) and the distribution center located in Mississauga (Ontario).

Table of Contents

Through the Constellation Wines segment, as of February 28, 2009, the Company owned or leased approximately 1,800 acres of vineyards, either fully bearing or under development, in Ontario and British Columbia to supply a portion of the grapes used in the production of wine.

South Africa

Through the Constellation Wines segment, the Company operates a leased winery facility in South Africa.

Constellation Spirits

Through the Constellation Spirits segment, the Company maintains leased division offices in Chicago, Illinois.

Through this segment, the Company currently owns and operates a distilling plant located in Lethbridge, Alberta, Canada. The Company also previously owned and operated a distilling plant in Valleyfield, Quebec which it sold to a third party during Fiscal 2009. The Company has moved the operations previously conducted at the Valleyfield, Quebec plant to its Lethbridge, Alberta, Canada facility. In addition, as discussed in Item 1 of this Annual Report on Form 10-K under the caption Business Recent Acquisitions, Equity Method Investments and Divestitures, subsequent to February 28, 2009, the Company sold its value spirits business, which included the sale of the Company's U.S. distilling, bottling and aging plant located in Bardstown, Kentucky. The Company considers this segment's principal distilling plant to be the facility located in Lethbridge (Alberta), which distills, bottles and stores Canadian whisky for the segment, and distills and/or bottles and stores Canadian whisky, vodka, rum, gin and liqueurs for third parties. The Company also had previously considered this segment's distilling plants located in Bardstown (Kentucky) and Valleyfield (Quebec) to be principal facilities. The Bardstown facility distilled bottled and warehoused distilled spirits products for the Company and, on a contractual basis, for other industry members. The Valleyfield, Quebec facility distilled, bottled and stored Canadian whisky for the segment, and distilled and/or bottled and stored Canadian whisky, vodka, rum, gin and liqueurs for third parties.

In the U.S., the Company through its Constellation Spirits segment also previously operated two bottling plants, located in Owensboro, Kentucky and Carson, California. Subsequent to February 28, 2009, the Company disposed of both these facilities in connection with the sale of its value spirits business. The facility located in Owensboro (Kentucky) was owned, while the facility in Carson (California) was leased. The Company had previously considered this segment's bottling plant located in Owensboro to be one of the segment's principal facilities, and the Owensboro facility bottled and warehoused distilled spirits products for the segment and was also utilized for contract bottling.

Constellation Beers and Crown Imports

Through the Constellation Beers segment, the Company maintained leased division offices in Chicago, Illinois and contracted with five providers of warehouse space and services in eight locations throughout the U.S. Coincident with the formation of Crown Imports on January 2, 2007, these warehouse space and services contracts were transferred to the joint venture, and Crown Imports has entered into additional arrangements to satisfy its warehouse requirements. It currently has contracted with 18 providers of warehouse space and services in various locations throughout the U.S. Crown Imports maintains leased offices in Chicago, Illinois as well as in seven other locations throughout the U.S.

Corporate Operations and Other

The Company's corporate headquarters are located in leased offices in Victor, New York.

Table of Contents**Item 3. Legal Proceedings**

In the ordinary course of their business, the Company and its subsidiaries are subject to lawsuits, arbitrations, claims and other legal proceedings in connection with their business. Some of the legal actions include claims for substantial or unspecified compensatory and/or punitive damages. A substantial adverse judgment or other unfavorable resolution of these matters could have a material adverse effect on the Company's financial condition, results of operations and cash flows. Management believes that the Company has adequate legal defenses with respect to the legal proceedings to which it is a defendant or respondent and that the outcome of these pending proceedings is not likely to have a material adverse effect on the financial condition, results of operations or cash flows of the Company. However, the Company is unable to predict the outcome of these matters.

Regulatory Matters The Company and its subsidiaries are in discussions with various governmental agencies concerning matters raised during regulatory examinations or otherwise subject to such agencies' inquiry. These matters could result in censures, fines or other sanctions. Management believes the outcome of any pending regulatory matters will not have a material adverse effect on the Company's financial condition, results of operations or cash flows. However, the Company is unable to predict the outcome of these matters.

Item 4. Submission of Matters to a Vote of Security Holders

Not Applicable.

Executive Officers of the Company

Information with respect to the current executive officers of the Company is as follows:

NAME	AGE	OFFICE OR POSITION HELD
Richard Sands	58	Chairman of the Board
Robert Sands	50	President and Chief Executive Officer
Alexander L. Berk	59	Chief Executive Officer, Constellation Beers and Spirits, and President and Chief Executive Officer, Constellation Services LLC
Jose F. Fernandez	53	Chief Executive Officer, Constellation Wines North America
F. Paul Hetterich	46	Executive Vice President, Business Development and Corporate Strategy
Jon Moramarco	52	Chief Executive Officer, Constellation International
Thomas J. Mullin	57	Executive Vice President and General Counsel
Robert Ryder	49	Executive Vice President and Chief Financial Officer
W. Keith Wilson	58	Executive Vice President, Chief Administrative Officer and Chief Human Resources Officer

Richard Sands, Ph.D., is the Chairman of the Board of the Company. He has been employed by the Company in various capacities since 1979. He has served as a director since 1982. In September 1999, Mr. Sands was elected Chairman of the Board. He served as Chief Executive Officer from October 1993 to July 2007, as Executive Vice President from 1982 to May 1986, as President from May 1986 to December 2002 and as Chief Operating Officer from May 1986 to October 1993. He is the brother of Robert Sands.

Table of Contents

Robert Sands is President and Chief Executive Officer of the Company. He was appointed Chief Executive Officer in July 2007 and appointed as President in December 2002. He has served as a director since January 1990. Mr. Sands also served as Chief Operating Officer from December 2002 to July 2007, as Group President from April 2000 through December 2002, as Chief Executive Officer, International from December 1998 through April 2000, as Executive Vice President from October 1993 through April 2000, as General Counsel from June 1986 through May 2000, and as Vice President from June 1990 through October 1993. He is the brother of Richard Sands.

Alexander L. Berk is the Chief Executive Officer of Constellation Beers and Spirits and the President and Chief Executive Officer of Constellation Services LLC (successor by merger to Barton Incorporated). Since 1990 and prior to becoming Chief Executive Officer of Barton Incorporated in March 1998, Mr. Berk was President and Chief Operating Officer of Barton Incorporated and from 1988 to 1990, he was the President and Chief Executive Officer of Schenley Industries. Mr. Berk has been in the beverage alcohol industry for most of his career, serving in various positions. Mr. Berk has announced that he will retire May 31, 2009, and has agreed to thereafter provide consultation services to the Company for up to one year.

Jose F. Fernandez is the Chief Executive Officer, Constellation Wines North America and the President and Chief Executive Officer of Constellation Wines U.S., Inc. Mr. Fernandez has held various positions with the Company since 2000. He was appointed Chief Executive Officer of Constellation Wines North America in July 2007 and has served as President and Chief Executive Officer of Constellation Wines U.S., Inc. since December 2003. Mr. Fernandez also served as President and Chief Executive Officer of Pacific Wine Partners (a previous joint venture between the Company and Hardy Wine Company Limited) from August 2001 until November 2003 and as Chief Executive Officer of BRL Hardy North America (previously an affiliate of Hardy Wine Company Limited) from October 2000 to August 2001. The Company acquired Hardy Wine Company Limited in calendar 2003. It is now known as Constellation Australia Limited. Mr. Fernandez has been in the beverage alcohol industry for most of his career, serving in various positions with other beverage alcohol companies.

F. Paul Hetterich has been the Company's Executive Vice President, Business Development and Corporate Strategy since June 2003. From April 2001 to June 2003, Mr. Hetterich served as the Company's Senior Vice President, Corporate Development. Prior to that, Mr. Hetterich held several increasingly senior positions in the Company's marketing and business development groups. Mr. Hetterich has been with the Company since 1986.

Jon Moramarco is the Chief Executive Officer, Constellation International, having served in that role since March 2007. From February 2006 through February 2007, he was the President and Chief Executive Officer of Constellation Europe, and from December 2003 through January 2006 he was President and Chief Executive Officer, Icon Estates. He served as President and Chief Executive Officer, Canandaigua Wine Company, Inc. (now named Constellation Wines U.S., Inc.) from October 1999 through November 2003. Mr. Moramarco has more than 20 years of diverse experience in the wine industry.

Thomas J. Mullin joined the Company as Executive Vice President and General Counsel in May 2000. Prior to joining the Company, Mr. Mullin served as President and Chief Executive Officer of TD Waterhouse Bank, NA, a national banking association, since February 2000, of CT USA, F.S.B. since September 1998, and of CT USA, Inc. since March 1997. He also served as Executive Vice President, Business Development and Corporate Strategy of C.T. Financial Services, Inc. from March 1997 through February 2000. From 1985 through 1997, Mr. Mullin served as Vice Chairman and Senior Executive Vice President of First Federal Savings and Loan Association of Rochester, New York and from 1982 through 1985, he was a partner in the law firm of Phillips, Lytle, Hitchcock, Blaine & Huber.

Table of Contents

Robert Ryder joined the Company in May 2007 as Executive Vice President and Chief Financial Officer. Mr. Ryder previously served from 2005 to 2006 as Executive Vice President and Chief Financial and Administrative Officer of IMG, a sports marketing and media company. From 2002 to 2005, he was Senior Vice President and Chief Financial Officer of American Greetings Corporation, a publicly traded, multi-national consumer products company. From 1989 to 2002, he held several management positions of increasing responsibility with PepsiCo, Inc. These included control, strategic planning, mergers and acquisitions and CFO and Controller positions serving at PepsiCo's corporate headquarters and at its Frito-Lay International and Frito-Lay North America divisions. Mr. Ryder is a certified public accountant.

W. Keith Wilson joined the Company in January 2002 as Senior Vice President, Human Resources. In September 2002, he was elected Chief Human Resources Officer and in April 2003 he was elected Executive Vice President. In July 2007, he was appointed Chief Administrative Officer while retaining the position of Executive Vice President. From 1999 to 2001, Mr. Wilson served as Senior Vice President, Global Human Resources of Xerox Engineering Systems, a subsidiary of Xerox Corporation, which engineers, manufactures and sells hi-tech reprographics equipment and software worldwide. From 1990 to 1999, he served in various senior human resource positions with the banking, marketing and real estate and relocation businesses of Prudential Life Insurance of America, an insurance company that also provides other financial products.

Executive officers of the Company are generally chosen or elected to their positions annually and hold office until the earlier of their removal or resignation or until their successors are chosen and qualified.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

The Company's Class A Common Stock (the Class A Stock) and Class B Common Stock (the Class B Stock) trade on the New York Stock Exchange (NYSE) under the symbols STZ and STZ.B, respectively. There is no public trading market for the Company's Class 1 Common Stock. The following tables set forth for the periods indicated the high and low sales prices of the Class A Stock and the Class B Stock as reported on the NYSE.

CLASS A STOCK

	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
Fiscal 2008				
High	\$24.61	\$25.79	\$26.46	\$24.97
Low	\$18.83	\$21.23	\$22.39	\$19.01
Fiscal 2009				
High	\$21.90	\$23.09	\$23.48	\$17.16
Low	\$17.21	\$18.82	\$10.66	\$11.54

CLASS B STOCK

	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
Fiscal 2008				
High	\$24.42	\$25.60	\$26.34	\$24.91
Low	\$19.00	\$21.40	\$22.54	\$19.20
Fiscal 2009				
High	\$21.76	\$22.96	\$23.32	\$17.55
Low	\$17.00	\$19.21	\$10.78	\$11.64

At April 20, 2009, the number of holders of record of Class A Stock and Class B Stock of the Company were 961 and 198, respectively. There were no holders of record of Class 1 Common Stock.

With respect to its common stock, the Company's policy is to retain all of its earnings to finance the development and expansion of its business, and the Company has not paid any cash dividends on its common stock since its initial public offering in 1973. In addition, under the terms of the Company's senior credit facility, the Company is currently constrained from paying cash dividends on its common stock. Also, certain of the indentures for the Company's outstanding senior notes and senior subordinated notes may restrict the payment of cash dividends on its common stock under certain circumstances. Any indentures for debt securities issued in the future, the terms of any preferred stock issued in the future and any credit agreements entered into in the future may also restrict or prohibit the payment of cash dividends on common stock.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation**Overview**

The Company is the largest wine company in the world with a strong portfolio of consumer-preferred premium wine brands complemented by spirits, imported beer and other select beverage alcohol products. The Company continues to supply imported beer in the United States (U.S.) through its investment in a joint venture with Grupo Modelo, S.A.B. de C.V. (Modelo). This imported beers joint venture operates as Crown Imports LLC and is referred to hereinafter as Crown Imports. As a result of their joint venture transactions, the Company and Modelo, through their affiliates, each have equal interests in Crown Imports and have appointed an equal number of directors to the Board of Directors of Crown Imports. Crown Imports commenced operations on January 2, 2007. The Company has the largest wine business in the world and is the largest premium wine company in the U.S.; a leading producer and exporter of wine from Australia and New Zealand; the largest producer and marketer of wine in Canada; and both a major supplier of beverage alcohol and, through its investment in Matthew Clark (see Equity Method Investment in Fiscal 2008 below), a major independent drinks wholesaler in the United Kingdom (U.K.).

Through January 1, 2007, the Company reported its operating results in three segments: Constellation Wines (branded wines, and U.K. wholesale and other), Constellation Beers and Spirits (imported beers and distilled spirits) and Corporate Operations and Other. As a result of the Company's investment in Crown Imports, the Company changed its internal management financial reporting to consist of three business divisions: Constellation Wines, Constellation Spirits and Crown Imports. Prior to the investment in Crown Imports, the Company's internal management financial reporting included the Constellation Beers business division. Consequently, the Company reports its operating results in five segments: Constellation Wines (branded wine, and wholesale and other), Constellation Spirits (distilled spirits), Constellation Beers (imported beer), Corporate Operations and Other and Crown Imports (imported beer). Segment results for Constellation Beers are for the period prior to January 2, 2007, and segment results for Crown Imports are for the period on and after January 2, 2007. Amounts included in the Corporate Operations and Other segment consist of general corporate administration and finance expenses. These amounts include costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations, global information technology and global supply chain. Any costs incurred at the corporate office that are applicable to the segments are allocated to the appropriate segment. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in the chief operating decision maker's evaluation of the operating income performance of the other reportable segments.

Table of Contents

In addition, the Company excludes acquisition-related integration costs, restructuring charges and unusual items that affect comparability from its definition of operating income for segment purposes as these items are not reflective of normal continuing operations of the segments. The Company excludes these items as segment operating performance and segment management compensation is evaluated based upon a normalized segment operating income. As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

The Company's business strategy is to remain focused on consumer preferred premium wine brands, complemented by premium spirits and imported beers. The Company intends to continue to invest in fast growing premium product categories and geographic markets and expects to capitalize on its size and scale in the marketplace to profitably grow the business. The Company remains committed to its long-term financial model of growing sales (both organically and through acquisitions), expanding margins and increasing cash flow to achieve earnings per share growth and improve return on invested capital.

Worldwide and domestic economies have experienced adverse conditions and may be subject to further deterioration for the foreseeable future. The economic and consumer conditions in the Company's key markets and on a global basis are currently very challenging and are contributing to an increasing intensity of the competitive environment in the marketplace. In addition, the global credit and capital markets continue to experience significant volatility and remain tight. This global economic situation has or could adversely affect the Company's major suppliers, distributors and retailers. The inability of suppliers, distributors or retailers to conduct business or to access liquidity could adversely impact the Company's business and financial performance. In order to mitigate the impact of these challenging conditions, the Company is focusing on improving operating efficiencies, containing costs and optimizing cash flow and return on invested capital. The Company has also maintained adequate liquidity to meet current obligations and fund capital expenditures. However, depending upon their severity and duration, adverse conditions in the worldwide and domestic economies could have a material adverse impact on the Company's business, liquidity, financial condition and results of operations.

Marketing, sales and distribution of the Company's products are managed on a geographic basis in order to fully leverage leading market positions within each core market. Market dynamics and consumer trends vary significantly across the Company's five core markets (U.S., Canada, U.K., Australia and New Zealand) within the Company's three geographic regions (North America, Europe and Australia/New Zealand). Within North America, the Company offers a range of beverage alcohol products across the branded wine and spirits and, through Crown Imports, imported beer categories in the U.S. Within the Company's remaining geographies, the Company offers primarily branded wine.

The environment for the Company's products is competitive in each of the Company's core markets, due, in part, to industry and retail consolidation. In particular, the U.K. and Australian markets are highly competitive, as further described below.

The U.K. wine market is primarily an import market with Australian wines comprising approximately one-quarter of all wine sales in the U.K. off-premise business. The Australian wine market is primarily a domestic market. The Company has leading share positions in the Australian wine category in both the U.K. and Australian markets.

Table of Contents

Due to competitive conditions in the U.K. and Australia, it has been difficult for the Company in recent fiscal periods to recover certain cost increases, in particular, the duty increases in the U.K. which have been imposed annually for the past several years. In the U.K., significant consolidation at the retail level has resulted in a limited number of large retailers controlling a significant portion of the off-premise wine business. The continuing surplus of Australian wine has made and continues to make very low cost bulk wine available to these U.K. retailers which has allowed certain of these large retailers to create and build private label brands in the Australian wine category. In January 2008, the Company implemented a price increase in the U.K. to cover certain cost increases. In March 2008, the U.K. announced a significant increase in duty as well as the expectation for future annual increases to approximate two percentage points above the rate of inflation. The Company immediately implemented an additional price increase in an effort to offset the impact of this March 2008 duty increase. In November 2008, the U.K. announced an additional increase in duty to be effective December 1, 2008. In an effort to offset the impact of this December 2008 duty increase, the Company immediately implemented an additional price increase in the U.K. In addition, the Company also implemented a price increase in Australia during the first quarter of calendar 2008 in an effort to improve profitability. These price increases, combined with the concentrated retail environment, competition from private label causing deterioration of retail pricing, foreign exchange volatility, and the escalating consumer recession, have all contributed to a greater than expected negative effect on the Company's results of operations for its U.K. and Australian businesses for Fiscal 2009 (as defined below).

The calendar years 2004, 2005 and 2006 were years of record Australian grape harvests that contributed to a surplus of Australian bulk wine. The calendar 2007 Australian grape harvest was significantly lower than the calendar 2006 Australian grape harvest as a result of an ongoing drought and late spring frosts in several regions. As a result of various conditions surrounding the calendar 2008 Australian grape harvest, the Company previously expected the supply of wine to continue to move toward balance with demand. However, the calendar 2008 Australian grape harvest was higher than expected, and, although the calendar 2009 Australian grape harvest is expected to be lower than the calendar 2008 Australian grape harvest, the current Australian bulk wine surplus, and related intense competitive conditions in the U.K. and Australian markets, are not expected to subside in the near term. In the U.S., although the calendar 2008 grape harvest was slightly lower than the calendar 2007 grape harvest, the Company expects the overall supply of wine to remain generally in balance with demand.

In the fourth quarter of fiscal 2009, pursuant to the Company's accounting policy, the Company performed its annual goodwill impairment analysis. As a result of this analysis, the Company concluded that the carrying amount of goodwill assigned to the Constellation Wines segment's U.K. reporting unit exceeded its implied fair value and recorded an impairment loss of \$252.7 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. The impairment loss was determined by comparing the carrying value of goodwill assigned to the specific reporting unit within the segment as of January 1, 2009, with the implied fair value of the goodwill. In determining the implied fair value of the goodwill, the Company considered estimates of future operating results and cash flows of the reporting unit discounted using market based discount rates. The estimates of future operating results and cash flows were principally derived from the Company's updated long-term financial forecast, which was developed as part of the Company's strategic planning cycle conducted during the Company's fourth quarter. The decline in the implied fair value of the goodwill and the resulting impairment loss was driven primarily by the accelerated deterioration in the Company's U.K. business during the fourth quarter of fiscal 2009 and the resulting adjustment to the Company's long-term financial forecasts, which showed lower estimated future operating results reflecting the significant fourth quarter deterioration in market conditions in the U.K.

Table of Contents

In addition, during the fourth quarter of fiscal 2009, the Company performed its review of indefinite lived intangible assets for impairment. The Company determined that certain trademarks associated primarily with the Constellation Wines segment's U.K. reporting unit were impaired largely due to the aforementioned market declines in the U.K. during the fourth quarter, and the resulting lower revenue and profit forecasts associated with products incorporating these assets which reflected the significant fourth quarter deterioration in market conditions in the U.K. The Company measured the amount of impairment by calculating the amount by which the carrying value of these assets exceeded their estimated fair values, which were based on projected discounted future cash flows. As a result of this review, the Company recorded impairment losses of \$25.9 million, which are included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. The Company had previously recorded impairment losses of \$21.8 million during its second quarter of fiscal 2009 in connection with the Company's Australian Initiative (as defined below) and the resulting lower revenue and profit forecasts associated with certain brands incorporating assets impacted by the Australian Initiative.

Additionally, during the fourth quarter of fiscal 2009, the Company performed its review of equity method investments for other-than-temporary impairment. The Company determined that two of the Company's Constellation Wines segment's international equity method investments, Matthew Clark and Ruffino S.r.l., were impaired primarily due to the decline in revenue and profit forecasts for these two equity method investees reflecting the significant market deterioration during the fourth quarter of fiscal 2009. The Company measured the amount of impairment by calculating the amount by which the carrying value of these assets exceeded their estimated fair values, which were based on projected discounted future cash flows. As a result of this review, the Company recorded impairment losses of \$79.2 million in equity in earnings of equity method investees on the Company's Consolidated Statements of Operations.

For the year ended February 28, 2009 (Fiscal 2009), the Company's net sales decreased 3% over the year ended February 29, 2008 (Fiscal 2008), primarily due to the divestitures of the Almaden and Inglenook wine brands and the Pacific Northwest wine brands (see Divestitures in Fiscal 2009 and Fiscal 2008 below); an unfavorable year-over-year foreign currency translation impact; and accounting for the Matthew Clark investment under the equity method of accounting (see Equity Method Investments in Fiscal 2008 and Fiscal 2007 below); partially offset by net sales of branded wine acquired in the BWE Acquisition (as defined below) and the Company's Constellation Wines segment's Fiscal 2008 initiative to reduce distributor wine inventory levels in the U.S., which negatively impacted net sales in the first half of fiscal 2008 as discussed below. Operating income (loss) increased over the comparable prior year period primarily due to lower impairment losses for Fiscal 2009 combined with the incremental benefit from (i) the BWE Acquisition and (ii) the increased net sales discussed above in connection with the Fiscal 2008 distributor wine inventory reduction initiative without a corresponding increase in promotional, advertising, and selling, general and administrative spend within the Constellation Wines segment. These factors were partially offset by costs recognized in Fiscal 2009 in connection with the Company's plan to sell certain assets and implement operational changes designed to improve the efficiencies and returns associated with the Australian business, primarily by consolidating certain winemaking and packaging operations and reducing the Company's overall grape supply due to reduced capacity needs resulting from a streamlining of the Company's product portfolio (the Australian Initiative). The Company's net loss decreased over the comparable prior year period's net loss primarily due to the factors discussed above, partially offset by a decrease in equity in earnings of equity method investees associated primarily with the Fiscal 2009 impairment losses recorded on certain of the Company's international equity method investments (as discussed above).

Table of Contents

The Company's Constellation Wines segment implemented a program to reduce distributor wine inventory levels in the U.S. during the first half of fiscal 2008, in response to the consolidation of distributors over the past few years and supply chain technology improvements. As distributors are looking to operate with lower levels of inventory while maintaining appropriate service levels to retailers, the Company has worked closely with its distributors to improve supply-chain efficiencies. The Company substantially completed its reduction of distributor wine inventory levels during the second quarter of fiscal 2008. This initiative had a significant impact on the Company's Fiscal 2008 financial performance, including a reduction of net sales of approximately \$110 million and a reduction in diluted earnings per share of approximately \$0.15 per share.

The following discussion and analysis summarizes the significant factors affecting (i) consolidated results of operations of the Company for Fiscal 2009 compared to Fiscal 2008, and Fiscal 2008 compared to the year ended February 28, 2007 (Fiscal 2007), and (ii) financial liquidity and capital resources for Fiscal 2009. This discussion and analysis also identifies certain acquisition-related integration costs, restructuring charges and net unusual costs expected to affect consolidated results of operations of the Company for Fiscal 2010. References to base branded wine net sales, base branded wine gross profit and base branded wine business exclude the impact of (i) branded wine acquired in the BWE Acquisition and (ii) branded wine disposed of in the Almaden and Inglenook divestiture and the Pacific Northwest Business divestiture. References to base branded spirits net sales and base branded spirits gross profit exclude the impact of branded spirits acquired in the Svedka Acquisition. This discussion and analysis should be read in conjunction with the Company's consolidated financial statements and notes thereto included herein.

Recent Developments

Divestiture of Value Spirits Business

In March 2009, the Company sold its value spirits business for \$330.5 million, net of direct costs to sell, subject to post-closing adjustments. The Company received \$274.5 million in cash proceeds and a note receivable for \$60.0 million. The Company retained certain mid-premium spirits brands, including Svedka Vodka, Black Velvet Canadian Whisky and Paul Masson Grande Amber Brandy. This transaction is consistent with the Company's strategic focus on premium, higher growth and higher margin brands in its portfolio. In connection with the classification of this business as an asset group held for sale as of February 28, 2009, the Company's Constellation Spirits segment recorded a loss of \$15.6 million for Fiscal 2009, primarily related to asset impairments. This loss is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Table of Contents***Fiscal 2010 Global Initiative***

On April 7, 2009, the Company announced its plan to simplify its business, increase efficiencies and reduce its cost structure on a global basis (the Global Initiative). The Global Initiative includes the elimination of approximately five percent of the Company's global workforce and the closure of certain office, production and warehouse facilities. In addition, the Global Initiative includes the termination of certain contracts, and a streamlining of the Company's production footprint and sales and administrative organizations. Lastly, the Global Initiative includes other non-material restructuring activities primarily in connection with the consolidation of the Company's remaining spirits business into its North American wine business following the recent disposition of its value spirits business. This initiative is part of the Company's ongoing efforts to maximize asset utilization, reduce costs and improve long-term return on invested capital throughout the Company's operations. The Company expects all costs associated with the Global Initiative to be recognized in its Consolidated Statements of Operations by February 28, 2011.

Acquisitions in Fiscal 2008 and Fiscal 2007***Acquisition of BWE***

On December 17, 2007, the Company acquired all of the issued and outstanding capital stock of Beam Wine Estates, Inc. (BWE), an indirect wholly-owned subsidiary of Fortune Brands, Inc., together with BWE's subsidiaries: Atlas Peak Vineyards, Inc., Buena Vista Winery, Inc., Clos du Bois, Inc., Gary Farrell Wines, Inc. and Peak Wines International, Inc. (the BWE Acquisition). As a result of the BWE Acquisition, the Company acquired the U.S. wine portfolio of Fortune Brands, Inc., including certain wineries, vineyards or interests therein in the State of California, as well as various super-premium and fine California wine brands including Clos du Bois and Wild Horse. In June 2008, the Company sold certain assets acquired in the BWE Acquisition (see Divestitures in Fiscal 2009 and Fiscal 2008 below).

The BWE Acquisition supports the Company's strategy of strengthening its portfolio with fast-growing super-premium and above wines. The BWE Acquisition strengthens the Company's position as the largest wine company in the world and the largest premium wine company in the U.S.

Total consideration paid in cash was \$877.3 million. In addition, the Company incurred direct acquisition costs of \$1.4 million. The purchase price was financed with the net proceeds from the Company's December 2007 Senior Notes and revolver borrowings under the Company's 2006 Credit Agreement (each as defined below). The results of operations of the BWE business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition.

Acquisition of Svedka

On March 19, 2007, the Company acquired the SVEDKA Vodka brand (Svedka) in connection with the acquisition of Spirits Marque One LLC and related business (the Svedka Acquisition). Svedka is a premium Swedish vodka and has become the fastest growing major premium spirits brand in the world. At the time of the acquisition, Svedka was the fifth largest imported vodka in the U.S. and, since the date of the acquisition, Svedka has become the third largest imported vodka in the U.S. In addition, at the time of the acquisition, the Svedka Acquisition supported the Company's strategy of expanding the Company's premium spirits business. The acquisition provided a foundation from which the Company looked to leverage its existing and future premium spirits portfolio for growth. In addition, Svedka complemented the Company's then existing portfolio of super-premium and value vodka brands by adding a premium vodka brand that had and continues to experience rapid growth.

Table of Contents

Total consideration paid in cash for the Svedka Acquisition was \$385.8 million. In addition, the Company incurred direct acquisition costs of \$1.3 million. The purchase price was financed with revolver borrowings under the Company's June 2006 Credit Agreement (as defined below) as amended in February 2007. The results of operations of the Svedka business are reported in the Constellation Spirits segment and are included in the consolidated results of operations of the Company from the date of acquisition.

Acquisition of Vincor

On June 5, 2006, the Company acquired all of the issued and outstanding common shares of Vincor International Inc. (Vincor), Canada's premier wine company (the Vincor Acquisition). Vincor is Canada's largest producer and marketer of wine. At the time of the acquisition, Vincor was the world's eighth largest producer and distributor of wine and related products by revenue and was also one of the largest wine importers, marketers and distributors in the U.K. Through this transaction, the Company acquired various additional winery and vineyard interests used in the production of premium, super-premium and fine wines from Canada, California, Washington State, Western Australia and New Zealand. In addition, as a result of the acquisition, the Company sources, markets and sells premium wines from South Africa. Well-known premium brands acquired in the Vincor Acquisition include Inniskillin, Jackson-Triggs, Sawmill Creek, Sumac Ridge, R.H. Phillips, Toasted Head, Hogue, Kim Crawford and Kumala.

The Vincor Acquisition supports the Company's strategy of strengthening the breadth of its portfolio across price segments and geographic regions to capitalize on the overall growth in the wine industry. In addition to complementing the Company's current operations in the U.S., U.K., Australia and New Zealand, the Vincor Acquisition increases the Company's global presence by adding Canada as another core market and provides the Company with the ability to capitalize on broader geographic distribution in strategic international markets. In addition, the Vincor Acquisition makes the Company the largest wine company in Canada and strengthens the Company's position as the largest wine company in the world and the largest premium wine company in the U.S.

Total consideration paid in cash to the Vincor shareholders was \$1,115.8 million. In addition, the Company incurred direct acquisition costs of \$9.4 million. At closing, the Company also assumed outstanding indebtedness of Vincor, net of cash acquired, of \$320.2 million, resulting in a total transaction value of \$1,445.4 million. The purchase price was financed with borrowings under the Company's June 2006 Credit Agreement. The results of operations of the Vincor business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition.

Equity Method Investments in Fiscal 2008 and Fiscal 2007***Investment in Matthew Clark***

On April 17, 2007, the Company and Punch Taverns plc (Punch) commenced operations of a joint venture for the U.K. wholesale business (Matthew Clark). The U.K. wholesale business was formerly owned entirely by the Company. Under the terms of the arrangement, the Company and Punch, directly or indirectly, each have a 50% voting and economic interest in Matthew Clark. The joint venture reinforces Matthew Clark's position as the U.K.'s largest independent premier drinks wholesaler serving the on-trade drinks industry. The Company received \$185.6 million of cash proceeds from the formation of the joint venture.

Table of Contents

Upon formation of the joint venture, the Company discontinued consolidation of the U.K. wholesale business and accounts for the investment in Matthew Clark under the equity method. Accordingly, the results of operations of Matthew Clark are included in equity in earnings of equity method investees on the Company's Consolidated Statements of Operations from the date of investment.

As discussed previously, the Company recorded an impairment of its investment in Matthew Clark during the fourth quarter of fiscal 2009. This impairment loss of \$30.1 million is included in equity in earnings of equity method investees on the Company's Consolidated Statements of Operations.

Investment in Crown Imports

On July 17, 2006, Barton Beers, Ltd. (Barton, now known as Constellation Beers Ltd. Constellation Beers), an indirect wholly-owned subsidiary of the Company, entered into an Agreement to Establish Joint Venture (the Joint Venture Agreement) with Diblo, S.A. de C.V. (Diblo), an entity owned 76.75% by Grupo Modelo, S.A.B. de C.V. (Modelo) and 23.25% by Anheuser-Busch Companies, Inc., pursuant to which Modelo's Mexican beer portfolio (the Modelo Brands) will be exclusively imported, marketed and sold in the 50 states of the U.S., the District of Columbia and Guam. In addition, the owners of the Tsingtao and St. Pauli Girl brands transferred exclusive importing, marketing and selling rights with respect to these brands in the U.S. to the joint venture. On January 2, 2007, the parties completed the closing (the Closing) of the transactions contemplated in the Joint Venture Agreement, as amended at Closing.

Pursuant to the Joint Venture Agreement, Barton established Crown Imports LLC, a wholly-owned subsidiary formed as a Delaware limited liability company. On January 2, 2007, pursuant to a Barton Contribution Agreement, dated July 17, 2006, among Barton, Diblo and Crown Imports LLC, Barton transferred to Crown Imports LLC substantially all of its assets relating to importing, marketing and selling beer under the Corona Extra, Corona Light, Coronita, Modelo Especial, Negra Modelo, Pacifico, St. Pauli Girl and Tsingtao brands and the liabilities associated therewith (the Barton Contributed Net Assets). At the Closing, GModelo Corporation, a Delaware corporation (the Diblo Subsidiary), a subsidiary of Diblo joined Barton as a member of Crown Imports LLC, and, in exchange for a 50% membership interest in Crown Imports LLC, contributed cash in an amount equal to the Barton Contributed Net Assets, subject to specified adjustments. This imported beers joint venture is referred to hereinafter as Crown Imports.

Also on January 2, 2007, Crown Imports and Extrade II S.A. de C.V. (Extrade II), an affiliate of Modelo, entered into an importer agreement, pursuant to which Extrade II granted to Crown Imports the exclusive right to import, market and sell the Modelo Brands in the territories mentioned above, and Crown Imports and Marcas Modelo, S.A. de C.V. (Marcas Modelo), entered into a Sub-license Agreement, pursuant to which Marcas Modelo granted Crown Imports an exclusive sub-license to use certain trademarks related to the Modelo Brands within this territory.

As a result of these transactions, Constellation Beers and Diblo each have, directly or indirectly, equal interests in Crown Imports and each of Constellation Beers and Diblo have appointed an equal number of directors to the Board of Directors of Crown Imports.

The importer agreement that previously gave Barton the exclusive right to import, market and sell the Modelo Brands primarily west of the Mississippi River was superseded by the transactions contemplated by the Joint Venture Agreement, as amended. The contribution by Diblo Subsidiary in exchange for a 50% membership interest in Crown does not constitute the acquisition of a business by the Company.

Table of Contents

The joint venture and the related importation arrangements provide that, subject to the terms and conditions of those agreements, the joint venture and the related importation arrangements will continue for an initial term of 10 years, and renew in 10-year periods unless Diblo Subsidiary gives notice prior to the end of year seven of any term. Upon consummation of the transactions, the Company discontinued consolidation of the imported beer business and accounts for the investment in Crown Imports under the equity method. Accordingly, the results of operations of Crown Imports are included in the equity in earnings of equity method investees line on the Company's Consolidated Statements of Operations from the date of investment.

Divestitures in Fiscal 2009 and Fiscal 2008

Pacific Northwest Business

In June 2008, the Company sold certain businesses consisting of several California wineries and wine brands acquired in the BWE Acquisition, as well as certain wineries and wine brands from the states of Washington and Idaho (collectively, the Pacific Northwest Business) for cash proceeds of \$204.2 million, net of direct costs to sell. In addition, if certain objectives are achieved by the buyer, the Company could receive up to an additional \$25.0 million in cash payments. This transaction contributes to the Company's streamlining of its U.S. wine portfolio by eliminating brand duplication and excess production capacity. In connection with this divestiture, the Company's Constellation Wines segment recorded a loss of \$23.2 million for Fiscal 2009, which includes a loss on business sold of \$15.8 million and losses on contractual obligations of \$7.4 million. The loss of \$23.2 million is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Almaden and Inglenook

In February 2008, as part of ongoing efforts to increase focus on premium wine offerings in the U.S., the Company sold its lower margin value-priced wine brands, Almaden and Inglenook, and certain other assets for cash proceeds of \$133.5 million, net of direct costs to sell. The Company recorded a loss of \$27.8 million on this sale in the fourth quarter of fiscal 2008, which is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Table of Contents**Results of Operations****Fiscal 2009 Compared to Fiscal 2008***Net Sales*

The following table sets forth the net sales (in millions of dollars) by operating segment of the Company for Fiscal 2009 and Fiscal 2008.

	Fiscal 2009 Compared to Fiscal 2008		
	Net Sales		%
	2009	2008	Increase (Decrease)
Constellation Wines:			
Branded wine	\$ 3,015.3	\$ 3,016.9	
Wholesale and other	220.6	341.9	(35)%
Constellation Wines net sales	3,235.9	3,358.8	(4)%
Constellation Spirits net sales	418.7	414.2	1%
Crown Imports net sales	2,393.2	2,391.0	1%
Consolidations and eliminations	(2,393.2)	(2,391.0)	1%
Consolidated Net Sales	\$ 3,654.6	\$ 3,773.0	(3)%

Net sales for Fiscal 2009 decreased to \$3,654.6 million from \$3,773.0 million for Fiscal 2008, a decrease of \$118.4 million, or (3%). This decrease was driven primarily by a reduction in wholesale and other net sales resulting largely from the accounting for the Matthew Clark investment under the equity method of accounting. A decrease in branded wine net sales due to the divestitures of the Almaden and Inglenook wine brands and the Pacific Northwest wine brands of \$128.4 million and an unfavorable year-over-year foreign currency translation impact of \$108.8 million was partially offset by net sales of branded wine acquired in the BWE Acquisition of \$147.3 million and the Company's Fiscal 2008 initiative to reduce distributor wine inventory levels in the U.S., which negatively impacted net sales in the first and second quarters of fiscal 2008 as discussed above.

Constellation Wines

Net sales for Constellation Wines decreased to \$3,235.9 million for Fiscal 2009 from \$3,358.8 million in Fiscal 2008, a decrease of \$122.9 million, or (4%). Branded wine net sales decreased \$1.6 million primarily due to the decrease in net sales associated with the divestitures of the Almaden and Inglenook wine brands and the Pacific Northwest wine brands of \$128.4 million and an unfavorable year-over-year foreign currency translation impact of \$108.8 million being substantially offset by the net sales of branded wine acquired in the BWE Acquisition of \$147.3 million and the benefit from the distributor wine inventory reduction initiative discussed above. Wholesale and other net sales decreased \$121.3 million primarily due to the accounting for the Matthew Clark investment under the equity method of accounting.

Constellation Spirits

Net sales for Constellation Spirits increased to \$418.7 million for Fiscal 2009 from \$414.2 million for Fiscal 2008, an increase of \$4.5 million, or 1%. This slight increase resulted primarily from net sales growth within the Company's branded spirits portfolio which was driven primarily by Svedka, partially offset by a decrease in contract production services net sales of \$21.3 million resulting predominantly from the Company's August 2008 sale of a nonstrategic Canadian distilling facility.

Table of Contents

Crown Imports

As this segment is eliminated in consolidation, see *Equity in Earnings of Equity Method Investments* below for a discussion of Crown Imports net sales, gross profit, selling, general and administrative expenses, and operating income.

Gross Profit

The Company's gross profit decreased to \$1,230.0 million for Fiscal 2009 from \$1,281.5 million for Fiscal 2008, a decrease of \$51.5 million, or (4%). This decrease was driven primarily by an increase in unusual costs, which consist of certain costs that are excluded by management in their evaluation of the results of each operating segment, which were higher by \$93.7 million in Fiscal 2009 versus Fiscal 2008. This increase resulted predominantly from (i) an increase in inventory write-downs of \$83.7 million in Fiscal 2009 in connection primarily with the Company's Australian Initiative of \$53.9 million and a loss of \$37.0 million on the adjustment of certain inventory, primarily Australian, related to prior years; and (ii) increased flow through of inventory step-up of \$10.8 million associated primarily with the BWE Acquisition. The Constellation Wines segment's gross profit increased \$36.3 million primarily due to higher U.S. base branded wine gross profit resulting largely from increased gross profit of \$69.5 million due to the BWE Acquisition and the benefit from the Company's Fiscal 2008 distributor wine inventory reduction initiative, partially offset by reduced gross profit in the U.K. largely attributed to the increasing duty and an unfavorable year-over-year foreign currency translation impact of \$28.7 million. The Constellation Spirits segment's gross profit increased \$5.9 million primarily due to increased gross profit from the increase in branded spirits net sales.

Gross profit as a percent of net sales decreased to 33.7% for Fiscal 2009 from 34.0% for Fiscal 2008 primarily due to the higher unusual costs, partially offset by (i) the benefit of reporting the lower margin U.K. wholesale business under the equity method of accounting for Fiscal 2009, (ii) the benefit from the divestiture of the lower margin Almaden and Inglenook wine brands and the Pacific Northwest wine brands, and (iii) sales of higher margin wine brands acquired in the BWE Acquisition.

Table of Contents***Selling, General and Administrative Expenses***

Selling, general and administrative expenses increased to \$830.4 million for Fiscal 2009 from \$807.3 million for Fiscal 2008, an increase of \$23.1 million, or 2.9%. This increase is due to an increase in unusual items which consist of certain items that are excluded by management in their evaluation of the results of each operating segment of \$34.0 million and increases of \$8.3 million and \$7.9 million in the Constellation Spirits segment and the Corporate Operations and Other segment, respectively, partially offset by a decrease of \$27.1 million in the Constellation Wines segment. The increase in unusual items was primarily due to the recognition in Fiscal 2009 of losses of \$23.2 million and \$15.6 million (discussed previously) in connection with the June 2008 sale of the Pacific Northwest Business and the loss, primarily on assets held for sale, in connection with the March 2009 sale of the value spirits business, respectively, and an increase of \$14.3 million in connection with the Company's plan (announced in August 2006) to invest in new distribution and bottling facilities in the U.K. and to streamline certain Australian wine operations (collectively, the Fiscal 2007 Wine Plan), partially offset by the loss on the sale of the Company's Almaden and Inglenook wine brands and certain other assets of \$27.8 million recognized in Fiscal 2008. The increase in the Constellation Spirits segment's selling, general and administrative expenses is primarily due to increases in general and administrative expenses of \$4.6 million, primarily due to losses on foreign currency transactions, and selling expenses of \$2.3 million, supporting the growth in net sales. The increase in the Corporate Operations and Other segment's selling, general and administrative expenses is primarily due to higher consulting service fees associated with the Company's review of its businesses and process improvement opportunities and an increase of \$6.7 million of stock-based compensation expense, partially offset by lower annual management incentive compensation expense. The decrease in the Constellation Wines segment's selling, general and administrative expenses is largely due to (i) a favorable year-over-year foreign currency translation impact; and (ii) lower general and administrative expenses resulting primarily from increased cost reduction efforts offset by higher losses on foreign currency transactions. These decreases were partially offset by higher selling expenses within the Constellation Wines segment.

Selling, general and administrative expenses as a percent of net sales increased to 22.7% for Fiscal 2009 as compared to 21.4% for Fiscal 2008 primarily due to the higher unusual items, combined with increased losses on foreign currency transactions within the Constellation Wines and Constellation Spirits segments and higher stock-based compensation expense, partially offset by the incremental benefit from the BWE Acquisition and the lower annual management incentive compensation expense.

Impairment of Goodwill and Intangible Assets

During Fiscal 2009, the Company recorded impairment losses of \$300.4 million, consisting of impairments of goodwill and intangible assets of \$252.8 million and \$47.6 million, respectively, related primarily to its Constellation Wines segment's U.K. reporting unit as more fully discussed in the Overview above. During Fiscal 2008, the Company recorded impairment losses of \$812.2 million, consisting of impairments of goodwill and intangible assets of \$599.9 million and \$212.3 million, respectively, related primarily to its Constellation Wines segment's Australian and U.K. reporting units.

Table of Contents***Restructuring Charges***

The Company recorded \$68.0 million of restructuring charges for Fiscal 2009 associated primarily with the Australian Initiative. Restructuring charges included \$16.5 million of employee termination costs, \$3.2 million of contract termination costs, \$1.8 million of facility consolidation/relocation costs, and \$46.5 million of impairment charges on assets held for sale in Australia. The Company recorded \$6.9 million of restructuring charges for Fiscal 2008 associated primarily with the Company's Fiscal 2008 Plan and the Company's Fiscal 2006 Plan (both as defined below) of \$12.0 million, partially offset by the reversal of prior accruals related primarily to the Company's plan to restructure and integrate the operations of Vincor (the Vincor Plan) of \$5.1 million. The Fiscal 2008 Plan consists of (i) the Company's plans (announced in November 2007) to streamline certain of its international operations, including the consolidation of certain winemaking and packaging operations in Australia, the buy-out of certain grape processing and wine storage contracts in Australia, equipment relocation costs in Australia, and certain employee termination costs; (ii) certain other restructuring charges incurred during the third quarter of fiscal 2008 in connection with the consolidation of certain spirits production processes in the U.S.; and (iii) the Company's plans (announced in January 2008) to streamline certain of its operations in the U.S., primarily in connection with the restructuring and integration of the operations acquired in the BWE Acquisition (the U.S. Initiative). These initiatives are collectively referred to as the Fiscal 2008 Plan. The Fiscal 2006 Plan consists of the Company's worldwide wine reorganizations and the Company's program to consolidate certain west coast production processes in the U.S., both announced during Fiscal 2006.

In addition, the Company incurred additional costs for Fiscal 2009 and Fiscal 2008 in connection with the Company's restructuring and acquisition-related integration plans. Total costs incurred in connection with these plans for Fiscal 2009 and Fiscal 2008 are as follows:

<i>(in millions)</i>	2009	Fiscal 2008
<u>Cost of Product Sold</u>		
Inventory write-downs	\$56.8	\$10.1
Accelerated depreciation	\$11.2	\$12.0
<u>Selling, General and Administrative Expenses</u>		
Other costs	\$24.2	\$ 2.2
Impairment of Intangible Assets	\$22.2	\$ 7.4
Restructuring Charges	\$68.0	\$ 6.9
Acquisition-Related Integration Costs (see below)	\$ 8.2	\$11.8

Table of Contents

The Company expects to incur the following costs in connection with its restructuring and acquisition-related integration plans for Fiscal 2010, including the Fiscal 2010 Global Initiative discussed previously:

<i>(in millions)</i>	Expected Fiscal 2010
<u>Cost of Product Sold</u>	
Accelerated depreciation	\$27.2
<u>Selling, General and Administrative Expenses</u>	
Other costs	\$45.5
Restructuring Charges	\$50.6
Acquisition-Related Integration Costs	\$ 4.4

Acquisition-Related Integration Costs

Acquisition-related integration costs decreased to \$8.2 million for Fiscal 2009 from \$11.8 million for Fiscal 2008. Acquisition-related integration costs for Fiscal 2009 consisted of costs recorded primarily in connection with the Company's Fiscal 2008 Plan. The Fiscal 2009 costs included \$2.5 million of employee-related costs and \$5.7 million of facilities and other one-time costs. Acquisition-related integration costs for Fiscal 2008 consisted of costs recorded primarily in connection with the Vincor Plan.

Operating Income (Loss)

The following table sets forth the operating income (loss) (in millions of dollars) by operating segment of the Company for Fiscal 2009 and Fiscal 2008.

	Fiscal 2009 Compared to Fiscal 2008 Operating Income (Loss)		
	2009	2008	% Increase (Decrease)
Constellation Wines	\$ 621.8	\$ 558.4	11%
Constellation Spirits	69.6	72.0	(3)%
Corporate Operations and Other	(93.4)	(85.5)	9%
Crown Imports	504.1	509.0	(1)%
Consolidations and eliminations	(504.1)	(509.0)	1%
Total Reportable Segments	598.0	544.9	10%
Acquisition-Related Integration Costs, Restructuring Charges and Unusual Costs	(575.0)	(901.6)	NM
Consolidated Operating Income (Loss)	\$ 23.0	\$ (356.7)	NM

NM = Not
Meaningful

Table of Contents

As a result of the factors discussed above, consolidated operating income increased to \$23.0 million for Fiscal 2009 from a consolidated operating loss of \$356.7 million for Fiscal 2008, an increase of \$379.7 million. Acquisition-related integration costs, restructuring charges and unusual costs of \$575.0 million and \$901.6 million for Fiscal 2009 and Fiscal 2008, respectively, consist of certain costs that are excluded by management in their evaluation of the results of each operating segment. These costs include:

<i>(in millions)</i>	Fiscal 2009	2008
<u>Cost of Product Sold</u>		
Flow through of inventory step-up	\$ 22.2	\$ 11.4
Inventory write-downs	56.8	10.1
Accelerated depreciation	11.2	12.0
Other	37.1	0.1
Cost of Product Sold	127.3	33.6
<u>Selling, General and Administrative Expenses</u>		
Loss on sale of Pacific Northwest Business	23.2	
Loss, primarily on assets held for sale, in connection with the March 2009 sale of the value spirits business	15.6

Acquisition-Related Integration Costs, Restructuring Charges and Unusual Costs	\$ 575.0	\$ 901.6

Equity in Earnings of Equity Method Investees

The Company's equity in earnings of equity method investees decreased to \$186.6 million in Fiscal 2009 from \$257.9 million in Fiscal 2008, a decrease of \$71.3 million, or (28%). This decrease is primarily due to \$83.3 million of impairment losses recognized in Fiscal 2009 on certain of the Company's international equity method investments, primarily in the fourth quarter of fiscal 2009 (as more fully discussed in the Overview above) versus a \$15.1 million impairment loss recognized in the fourth quarter of fiscal 2008.

Net sales for Crown Imports increased slightly to \$2,393.2 million for Fiscal 2009 from \$2,391.0 million for Fiscal 2008, an increase of \$2.2 million, or 1%. Crown Imports gross profit decreased \$17.9 million, as the slight increase in net sales was more than offset by a contractual price increase in Mexican beer costs. Selling, general and administrative expenses decreased \$13.0 million, primarily due to a decrease in advertising spend resulting from timing of marketing activities. Operating income decreased \$4.8 million, or (1%), primarily due to these factors.

Table of Contents***Interest Expense, Net***

Interest expense, net of interest income of \$3.8 million and \$5.7 million, for Fiscal 2009 and Fiscal 2008, respectively, decreased to \$316.4 million for Fiscal 2009 from \$341.8 million for Fiscal 2008, a decrease of \$25.4 million, or (7%). This was primarily due to lower average interest rates for Fiscal 2009.

Provision for Income Taxes

The Company's effective tax rate for Fiscal 2009 of (182.2%) was driven largely by (i) a non-deductible portion of the impairment losses related to goodwill, equity method investments and trademarks of \$268.8 million, \$83.3 million and \$23.6 million, respectively; (ii) the recognition of a valuation allowance of \$67.4 million against net operating losses primarily in Australia resulting largely from the Australian Initiative; and (iii) the recognition of income tax expense in connection with the gain on settlement of certain foreign currency economic hedges. The Company's effective tax rate for Fiscal 2008 of (39.2%) was impacted primarily by a non-deductible portion of the impairment losses related to goodwill and certain other intangible assets of \$599.9 million and \$177.0 million, respectively. In addition, the Company recorded a valuation allowance against net operating loss carryforwards in Australia of \$51.7 million for Fiscal 2008.

Net (Loss) Income

As a result of the above factors, net loss decreased to a net loss of \$301.4 million for Fiscal 2009 from a net loss of \$613.3 million for Fiscal 2008, or \$311.9 million.

Fiscal 2008 Compared to Fiscal 2007***Net Sales***

The following table sets forth the net sales (in millions of dollars) by operating segment of the Company for Fiscal 2008 and Fiscal 2007.

	Fiscal 2008 Compared to Fiscal 2007		
	Net Sales		%
	2008	2007	Increase (Decrease)
Constellation Wines:			
Branded wine	\$ 3,016.9	\$ 2,755.7	9%
Wholesale and other	341.9	1,087.7	(69)%
Constellation Wines net sales	3,358.8	3,843.4	(13)%
Constellation Spirits net sales	414.2	329.4	26%
Constellation Beers net sales		1,043.6	(100)%
Crown Imports net sales	2,391.0	368.8	NM
Consolidations and eliminations	(2,391.0)	(368.8)	NM
Consolidated Net Sales	\$ 3,773.0	\$ 5,216.4	(28)%

Table of Contents

Net sales for Fiscal 2008 decreased to \$3,773.0 million from \$5,216.4 million for Fiscal 2007, a decrease of \$1,443.4 million, or (28%). This decrease resulted primarily from a decrease in net sales of \$1,043.6 million and \$759.8 million for the Crown Imports and Matthew Clark investments, respectively, which are accounted for under the equity method of accounting, partially offset by net sales of products acquired in the Vincor Acquisition, Svedka Acquisition and BWE Acquisition of \$202.7 million and a favorable foreign currency impact of \$133.5 million.

Constellation Wines

Net sales for Constellation Wines decreased to \$3,358.8 million for Fiscal 2008 from \$3,843.4 million in Fiscal 2007, a decrease of \$484.6 million, or (13%). Branded wine net sales increased \$261.2 million primarily due to \$140.2 million of net sales of branded wine acquired in the Vincor Acquisition and BWE Acquisition, a favorable foreign currency impact of \$108.2 million and a benefit of \$55.7 million due to branded wine net sales for the U.K. previously sold through the Company's U.K. wholesale business, partially offset by lower U.S. base branded wine net sales resulting primarily from the Company's implementation of a program to reduce distributor wine inventory levels in the U.S. Wholesale and other net sales decreased \$745.8 million primarily due to accounting for the Matthew Clark investment under the equity method of accounting, partially offset by a favorable foreign currency impact of \$25.3 million.

Constellation Spirits

Net sales for Constellation Spirits increased to \$414.2 million for Fiscal 2008 from \$329.4 million for Fiscal 2007, an increase of \$84.8 million, or 26%. This increase resulted primarily from \$55.1 million of net sales of branded spirits acquired in the Svedka Acquisition and an increase in base branded spirits net sales of \$19.9 million due primarily to higher average selling prices.

Constellation Beers

Net sales for Constellation Beers decreased \$1,043.6 million, or (100%), from Fiscal 2007 as the Crown Imports investment is accounted for under the equity method of accounting.

Gross Profit

The Company's gross profit decreased to \$1,281.5 million for Fiscal 2008 from \$1,523.9 million for Fiscal 2007, a decrease of \$242.4 million, or (16%). The Constellation Wines segment's gross profit increased \$4.9 million primarily due to increased gross profit of \$58.5 million due to the Vincor Acquisition and BWE Acquisition and a favorable foreign currency impact of \$40.6 million, partially offset by a decrease of \$77.8 million resulting from accounting for the Matthew Clark investment under the equity method of accounting and lower U.S. base branded wine gross profit resulting from the lower U.S. base branded wine net sales primarily as a result of the Company's program to reduce distributor inventory levels. The Constellation Spirits segment's gross profit increased \$36.7 million primarily due to increased gross profit of \$26.2 million due to the Svedka Acquisition and increased base branded spirits gross profit of \$9.0 million resulting from the higher average selling prices. The Constellation Beers segment's gross profit was down \$290.9 million due to accounting for the Crown Imports investment under the equity method of accounting. In addition, unusual items, which consist of certain costs that are excluded by management in their evaluation of the results of each operating segment, were lower by \$6.9 million in Fiscal 2008 versus Fiscal 2007. This decrease resulted primarily from decreased flow through of inventory step-up of \$18.8 million associated primarily with the Vincor Acquisition, partially offset by an increase in inventory write-offs and accelerated depreciation of \$9.5 million and \$5.4 million, respectively, primarily associated with the Fiscal 2008 Plan.

Table of Contents

Gross profit as a percent of net sales increased to 34.0% for Fiscal 2008 from 29.2% for Fiscal 2007 primarily due to the benefit of reporting the lower margin U.K. wholesale and imported beer businesses under the equity method of accounting, partially offset by (i) lower margins in the U.S. base branded wine business primarily due to the distributor inventory reduction program and (ii) lower margins in the U.K. branded wine business primarily due to the Company's absorption of increased duty costs.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased to \$807.3 million for Fiscal 2008 from \$768.8 million for Fiscal 2007, an increase of \$38.5 million, or 5%. This increase is due to an increase of \$76.4 million in the Constellation Wines segment, an increase of \$30.2 million in the Constellation Spirits segment, and an increase of \$24.6 million in Corporate Operations and Other, partially offset by a \$82.8 million decrease in selling, general and administrative expenses within the Constellation Beers segment as the Crown Imports investment is accounted for under the equity method of accounting, and a reduction in unusual costs which consist of certain items that are excluded by management in their evaluation of the results of each operating segment of \$9.9 million. The increase in the Constellation Wines segment's selling, general and administrative expenses is due to increased general and administrative expenses of \$43.2 million, advertising expenses of \$20.4 million and selling expenses of \$12.8 million resulting primarily from the Vincor Acquisition and BWE Acquisition and the recognition of an additional \$6.5 million of stock-based compensation expense. The increase in the Constellation Spirits segment's selling, general and administrative expenses is primarily due to increases in advertising expenses of \$14.0 million and selling expenses of \$11.8 million resulting primarily from the Svedka Acquisition. The Corporate Operations and Other segment's selling, general and administrative expenses increased primarily due to increased general and administrative expenses to support the Company's growth and the recognition of additional stock-based compensation expense in Fiscal 2008 of \$6.8 million. The decrease in unusual costs was primarily due to the recognition in Fiscal 2008 of (i) \$35.3 million of other costs associated primarily with the loss on the sale of the Company's Almaden and Inglenook wine brands and certain other assets and (ii) a \$6.6 million loss in connection with the contribution of the Company's U.K. wholesale business to the Matthew Clark joint venture, net of a \$4.8 million realized gain on a prior asset sale; partially offset by the recognition in Fiscal 2007 of (i) \$16.3 million of other costs associated with the Fiscal 2007 Wine Plan (as defined below in Restructuring Charges) (primarily from the write-down of an Australian winery and certain Australian vineyards to fair value less cost to sell) and the Fiscal 2006 Plan, (ii) a \$13.4 million loss on the sale of the Company's branded bottled water business resulting from the write-off of \$27.7 million of non-deductible intangible assets, primarily goodwill, (iii) financing costs of \$11.9 million related primarily to the Company's new senior credit facility entered into in connection with the Vincor Acquisition and (iv) foreign currency losses of \$5.4 million on foreign denominated intercompany loan balances associated with the Vincor Acquisition.

Selling, general and administrative expenses as a percent of net sales increased to 21.4% for Fiscal 2008 as compared to 14.7% for Fiscal 2007 primarily due to (i) the reporting of the imported beer and U.K. wholesale businesses under the equity method of accounting, (ii) the percent increase in general and administrative expenses supporting the Company's growth within the Corporate Operations and Other segment and the Constellation Wines segment growing at a faster rate than the increase in the respective segment's net sales (including a combined increase of \$13.3 million of stock-based compensation expense for those segments) and (iii) the lower net sales associated with the reduction in the distributor wine inventory levels without a corresponding decrease in selling, general and administrative expenses within the U.S. branded wine business.

Table of Contents***Impairment of Goodwill and Intangible Assets***

The Company recorded \$812.2 million of impairment losses for Fiscal 2008, consisting of impairments of goodwill and intangible assets of \$599.9 million and \$212.3 million, respectively, related primarily to its Constellation Wines segment's Australian and U.K. reporting units.

Restructuring Charges

The Company recorded \$6.9 million of restructuring charges for Fiscal 2008 associated primarily with the Company's Fiscal 2008 Plan and the Fiscal 2006 Plan of \$12.0 million, partially offset by the reversal of prior accruals related primarily to the Vincor Plan of \$5.1 million. Restructuring charges included \$10.2 million of employee termination benefit costs, (\$3.4) million of contract termination costs and \$0.1 million of facility consolidation/relocation costs. The Company recorded \$32.5 million of restructuring charges for Fiscal 2007 associated primarily with the Company's Fiscal 2007 Wine Plan and Fiscal 2006 Plan.

In addition, the Company incurred additional costs for Fiscal 2008 and Fiscal 2007 in connection with the Company's restructuring and acquisition-related integration plans. Total costs incurred in connection with the Company's restructuring and acquisition-related integration plans for Fiscal 2008 and Fiscal 2007 are as follows:

<i>(in millions)</i>	Fiscal 2008	2007
<u>Cost of Product Sold</u>		
Inventory write-downs	\$ 10.1	\$ 0.6
Accelerated depreciation	\$ 12.0	\$ 6.6
<u>Selling, General and Administrative Expenses</u>		
Other costs	\$ 2.2	\$ 16.3
Impairment of Intangible Assets	\$ 7.4	\$
Restructuring Charges	\$ 6.9	\$ 32.5
Acquisition-Related Integration Costs (see below)	\$ 11.8	\$ 23.6

Acquisition-Related Integration Costs

Acquisition-related integration costs decreased to \$11.8 million for Fiscal 2008 from \$23.6 million for Fiscal 2007. Acquisition-related integration costs for Fiscal 2008 consisted of costs recorded primarily in connection with the Company's Vincor Plan and the Fiscal 2008 Plan. These costs included \$4.8 million of employee-related costs and \$7.0 million of facilities and other costs. Acquisition-related integration costs for Fiscal 2007 consisted of costs recorded primarily in connection with the Vincor Plan.

Table of Contents***Operating (Loss) Income***

The following table sets forth the operating (loss) income (in millions of dollars) by operating segment of the Company for Fiscal 2008 and Fiscal 2007.

	Fiscal 2008 Compared to Fiscal 2007		
	Operating (Loss) Income		%
	2008	2007	Increase (Decrease)
Constellation Wines	\$ 558.4	\$ 629.9	(11)%
Constellation Spirits	72.0	65.5	10%
Constellation Beers		208.1	(100)%
Corporate Operations and Other	(85.5)	(60.9)	40%
Crown Imports	509.0	78.4	NM
Consolidations and eliminations	(509.0)	(78.4)	NM
Total Reportable Segments	544.9	842.6	(35)%
Acquisition-Related Integration Costs, Restructuring Charges and Unusual Costs	(901.6)	(143.6)	528%
Consolidated Operating (Loss) Income	\$ (356.7)	\$ 699.0	(151)%

As a result of the factors discussed above, consolidated operating (loss) income decreased to an operating loss of \$356.7 million for Fiscal 2008 from operating income of \$699.0 million for Fiscal 2007, a decrease of \$1,055.7 million, or (151%). Acquisition-related integration costs, restructuring charges and unusual costs of \$901.6 million and \$143.6 million for Fiscal 2008 and Fiscal 2007, respectively, consist of certain costs that are excluded by management in their evaluation of the results of each operating segment. These costs include:

Table of Contents

<i>(in millions)</i>	Fiscal	
	2008	2007
<u>Cost of Product Sold</u>		
Flow through of inventory step-up	\$ 11.4	\$ 30.2
Inventory write-downs	10.1	0.6
Accelerated depreciation	12.0	6.6
Other	0.1	3.1
 Cost of Product Sold	 33.6	 40.5
<u>Selling, General and Administrative Expenses</u>		
Gain on sale of non-strategic asset	(4.8)	
Loss on sale of Almaden and Inglenook wine brands and certain other assets	27.8	
Loss on the contribution of the U.K. wholesale business	6.6	
Loss on sale of the branded bottled water business		13.4
Financing costs		11.9
Foreign currency losses on foreign denominated intercompany loan balances		5.4
Other costs	7.5	16.3
 Selling, General and Administrative Expenses	 37.1	 47.0
 Impairment of Goodwill and Intangible Assets	 812.2	
 Restructuring Charges	 6.9	 32.5
 Acquisition-Related Integration Costs	 11.8	 23.6
 Acquisition-Related Integration Costs, Restructuring Charges and Unusual Costs	 \$ 901.6	 \$ 143.6

Equity in Earnings of Equity Method Investees

The Company's equity in earnings of equity method investees increased to \$257.9 million in Fiscal 2008 from \$49.9 million in Fiscal 2007. This increase is primarily due to the January 2, 2007, consummation of the Crown Imports joint venture and the reporting of the results of operations of that joint venture since that date under the equity method of accounting of \$255.1 million.

Gain on Change in Fair Value of Derivative Instrument

In April 2006, the Company entered into a foreign currency forward contract in connection with the Vincor Acquisition to fix the U.S. dollar cost of the acquisition and the payment of certain outstanding indebtedness. For Fiscal 2007, the Company recorded a gain of \$55.1 million in connection with this derivative instrument. Under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended, a transaction that involves a business combination is not eligible for hedge accounting treatment. As such, the gain was recognized separately on the Company's Consolidated Statements of Operations.

Table of Contents***Interest Expense, Net***

Interest expense, net of interest income of \$5.7 million and \$5.4 million, for Fiscal 2008 and Fiscal 2007, respectively, increased to \$341.8 million for Fiscal 2008 from \$268.7 million for Fiscal 2007, an increase of \$73.1 million, or 27%. The increase resulted primarily from higher average borrowings in Fiscal 2008 as a result of the funding of the Vincor Acquisition, Svedka Acquisition and BWE Acquisition, and the \$500.0 million of share repurchases, partially offset by \$185.6 million of net proceeds from the formation of the U.K. wholesale joint venture.

Provision for Income Taxes

The Company's effective tax rate was (39.2%) for Fiscal 2008 as compared to 38.0% for Fiscal 2007. The change in the Company's effective tax rate for Fiscal 2008 is primarily due to a non-deductible portion of the impairment losses related to goodwill and certain other intangible assets of \$599.9 million and \$177.0 million, respectively. In addition, the Company recorded a valuation allowance against net operating loss carryforwards in Australia of \$51.7 million for Fiscal 2008. In Fiscal 2007, the Company sold its branded bottled water business that resulted in the write-off of \$27.7 million of non-deductible intangible assets, primarily goodwill. The provision for income taxes on the sale of the branded bottled water business increased the Company's effective tax rate for Fiscal 2007.

Net (Loss) Income

As a result of the above factors, net (loss) income decreased to a net loss of \$613.3 million for Fiscal 2008 from net income of \$331.9 million for Fiscal 2007, a decrease of \$945.2 million.

Financial Liquidity and Capital Resources**General**

The Company's principal use of cash in its operating activities is for purchasing and carrying inventories and carrying seasonal accounts receivable. The Company's primary source of liquidity has historically been cash flow from operations, except during annual grape harvests when the Company has relied on short-term borrowings. In the U.S. and Canada, the annual grape crush normally begins in August and runs through October. In Australia and New Zealand, the annual grape crush normally begins in February and runs through May. The Company generally begins taking delivery of grapes at the beginning of the crush season with payments for such grapes beginning to come due one month later. The Company's short-term borrowings to support such purchases generally reach their highest levels one to two months after the crush season has ended. Historically, the Company has used cash flow from operating activities to repay its short-term borrowings and fund capital expenditures. The Company will continue to use its short-term borrowings to support its working capital requirements.

The global credit crisis has imposed exceptional levels of volatility in the capital markets, severely diminished liquidity and credit availability, and increased counterparty risk. Nevertheless, the Company has maintained adequate liquidity to meet current working capital requirements, fund capital expenditures, repay scheduled principal and interest payments on debt, and prepay certain future principal payments on debt. Absent further severe deterioration of market conditions, the Company believes that cash provided by operating activities and its financing activities, primarily short-term borrowings, will provide adequate resources to satisfy its working capital, scheduled principal and interest payments on debt, and anticipated capital expenditure requirements for both its short-term and long-term capital needs.

Table of Contents

As of April 20, 2009, the Company had \$707.5 million in revolving loans available to be drawn under its 2006 Credit Agreement. The member financial institutions participating in the Company's 2006 Credit Agreement have complied with prior funding requests and the Company believes the member financial institutions will comply with ongoing funding requests. However, there can be no assurances that any particular financial institution will continue to do so in the future.

Fiscal 2009 Cash Flows***Operating Activities***

Net cash provided by operating activities for Fiscal 2009 was \$506.9 million, which resulted primarily from a net loss of \$301.4 million of net income, plus \$748.0 million of net non-cash items charged to the Consolidated Statements of Operations and \$159.3 million of other, net, less \$99.0 million representing the net change in the Company's operating assets and liabilities.

The net non-cash items consisted primarily of impairment losses of goodwill and intangible assets; depreciation of property, plant and equipment; equity in earnings of equity method investees, net of distributed earnings; and the write-down of inventory in Australia.

The net change in operating assets and liabilities resulted primarily from an increase in inventories of \$86.0 million and a decrease in other accrued expenses and liabilities of \$95.0 million, partially offset by a decrease in accounts receivable of \$87.4 million. The offsetting increase in inventories and decrease in accounts receivable are both attributable primarily to lower net sales for the Company's fourth quarter of fiscal 2009 compared to the Company's fourth quarter of fiscal 2008. The decrease in other accrued expenses and liabilities is primarily attributable to an increase in cash paid for income taxes.

Other, net, consisted primarily of (i) cash proceeds of \$94.8 million from the gain on settlement of certain foreign currency hedges which were designed to economically hedge foreign currency risk associated with certain foreign currency denominated intercompany balances; (ii) cash proceeds of \$27.5 million for tenant allowances received in connection with the Company's 19.5 year lease of a new warehousing and production facility in the U.K. as part of the Fiscal 2007 Wine Plan; (iii) \$11.5 million of non-cash losses on certain foreign currency denominated intercompany balances, net of non-cash gains on certain foreign currency hedges which were designed to economically hedge foreign currency risk associated with these certain foreign currency denominated intercompany balances and (iv) a \$9.1 million non-cash loss associated with the settlement of pension and postretirement liabilities as a result of the sale of a nonstrategic Canadian distilling facility; and (v) \$7.4 million of non-cash losses on contractual obligations recorded in connection with the sale of the Pacific Northwest Business.

Investing Activities

Net cash provided by investing activities for Fiscal 2009 was \$128.6 million, which resulted primarily from the proceeds from the sale of the Pacific Northwest Business of \$204.2 million, net of direct costs to sell, less \$128.6 million of capital expenditures.

Financing Activities

Net cash used in financing activities for Fiscal 2009 was \$647.4 million resulting primarily from principal payments of long-term debt of \$577.6 million and net repayment of notes payable of \$109.7 million.

Table of Contents**Fiscal 2008 Cash Flows*****Operating Activities***

Net cash provided by operating activities for Fiscal 2008 was \$519.8 million, which resulted primarily from a net loss of \$613.3 million and net payments of \$32.1 million associated with the change in operating assets and liabilities (net of effects from purchases and sales of businesses), partially offset by \$1,165.2 million of net non-cash items charged to the Company's Consolidated Statements of Operations. The net change in operating assets and liabilities was primarily driven by a \$37.8 million increase in inventories and \$29.2 million of other items, partially offset by a decrease in accounts receivable, net, of \$56.2 million. The increase in inventories was due primarily to a delay in the release of the Canadian icewine vintage and an increase in U.S. wine inventory balances as a result of the Company's program to reduce distributor wine inventory levels. The other items consist primarily of \$24.7 million of losses on cash settlement of derivative instruments designed to economically hedge foreign currency risk associated with foreign currency denominated intercompany balances. These losses offset non-cash gains in the Company's Consolidated Statements of Operations associated with the foreign currency denominated intercompany balances. The decrease in accounts receivable, net, is due to lower U.S. sales in the fourth quarter of fiscal 2008 in connection with the Company's program to reduce distributor wine inventory levels and collection of accounts receivable balances acquired in the BWE Acquisition, partially offset by increased U.K. accounts receivable in connection with sales to Matthew Clark. The net non-cash items consisted primarily of impairment losses of goodwill and intangible assets, depreciation of property, plant and equipment and deferred tax provision.

Investing Activities

Net cash used in investing activities for Fiscal 2008 was \$1,112.9 million, which resulted primarily from the use of \$1,274.1 million, net of cash acquired, for the Svedka Acquisition and BWE Acquisition, and \$143.8 million of capital expenditures, partially offset by \$185.6 million of net proceeds from the formation of the U.K. wholesale joint venture and \$133.7 million from the sale of the Company's Almaden and Inglenook wine brands and certain other assets.

Financing Activities

Net cash provided by financing activities for Fiscal 2008 was \$584.9 million resulting primarily from proceeds from issuance of long-term debt of \$1,212.9 million and from notes payable of \$219.4 million, partially offset by purchases of treasury stock of \$500.0 million and principal payments of long-term debt of \$374.9 million.

Table of Contents**Share Repurchase Programs**

During February 2006, the Company's Board of Directors replenished a June 1998 Board of Directors authorization to repurchase up to \$100.0 million of the Company's Class A Common Stock and Class B Convertible Common Stock. During Fiscal 2007, the Company repurchased 3,894,978 shares of Class A Common Stock at an aggregate cost of \$100.0 million, or at an average cost of \$25.67 per share. The Company used revolver borrowings under the June 2006 Credit Agreement to pay the purchase price for these shares. During February 2007, the Company's Board of Directors authorized the repurchase of up to \$500.0 million of the Company's Class A Common Stock and Class B Convertible Common Stock. During Fiscal 2008, the Company repurchased 21,332,468 shares of Class A Common Stock pursuant to this authorization at an aggregate cost of \$500.0 million, or an average cost of \$23.44 per share, through a combination of open market transactions and an accelerated share repurchase (ASR) transaction that was announced in May 2007. The repurchased shares include 933,206 shares of Class A Common Stock that were received by the Company in July 2007 in connection with the early termination of the calculation period for the ASR transaction by the counterparty to the ASR transaction. The Company used revolver borrowings under the 2006 Credit Agreement to pay the purchase price for the repurchased shares. The repurchased shares have become treasury shares.

Debt

Total debt outstanding as of February 28, 2009, amounted to \$4,433.6 million, a decrease of \$823.9 million from February 29, 2008. The ratio of total debt to total capitalization increased to 69.9% as of February 28, 2009, from 65.5% as of February 29, 2008. The increase is attributable primarily to the foreign currency impact on the Company's total capitalization.

Senior Credit Facility***2006 Credit Agreement***

In connection with the Vincor Acquisition, on June 5, 2006, the Company and certain of its U.S. subsidiaries, JPMorgan Chase Bank, N.A. as a lender and administrative agent, and certain other agents, lenders, and financial institutions entered into a new credit agreement (the June 2006 Credit Agreement). On February 23, 2007, and on November 19, 2007, the June 2006 Credit Agreement was amended (collectively, the 2007 Amendments). The June 2006 Credit Agreement together with the 2007 Amendments is referred to as the 2006 Credit Agreement. The 2006 Credit Agreement provides for aggregate credit facilities of \$3.9 billion, consisting of a \$1.2 billion tranche A term loan facility due in June 2011, a \$1.8 billion tranche B term loan facility due in June 2013, and a \$900 million revolving credit facility (including a sub-facility for letters of credit of up to \$200 million) which terminates in June 2011. Proceeds of the June 2006 Credit Agreement were used to pay off the Company's obligations under its prior senior credit facility, to fund the Vincor Acquisition and to repay certain indebtedness of Vincor. The Company uses its revolving credit facility under the 2006 Credit Agreement for general corporate purposes, including working capital, on an as needed basis.

Table of Contents

As of February 28, 2009, the required principal repayments of the tranche A term loan and the tranche B term loan for each of the five succeeding fiscal years are as follows:

<i>(in millions)</i>	Tranche A Term Loan	Tranche B Term Loan	Total
2010	\$	\$	\$
2011	225.0	4.0	229.0
2012	150.0	4.0	154.0
2013		714.0	714.0
2014		712.0	712.0
	\$ 375.0	\$ 1,434.0	\$ 1,809.0

The rate of interest on borrowings under the 2006 Credit Agreement is a function of LIBOR plus a margin, the federal funds rate plus a margin, or the prime rate plus a margin. The margin is adjustable based upon the Company's debt ratio (as defined in the 2006 Credit Agreement) with respect to the tranche A term loan facility and the revolving credit facility. The margin is fixed with respect to the tranche B term loan facility. As of February 28, 2009, the LIBOR margin for the tranche A term loan facility and the revolving credit facility is currently at the maximum rate of 1.25%, while the LIBOR margin on the tranche B term loan facility is 1.50%.

The February 23, 2007, amendment amended the June 2006 Credit Agreement to, among other things, (i) increase the revolving credit facility from \$500.0 million to \$900.0 million, which increased the aggregate credit facilities from \$3.5 billion to \$3.9 billion; (ii) increase the aggregate amount of cash payments the Company is permitted to make in respect or on account of its capital stock; (iii) remove certain limitations on the incurrence of senior unsecured indebtedness and the application of proceeds thereof; (iv) increase the maximum permitted total Debt Ratio and decrease the required minimum Interest Coverage Ratio; and (v) eliminate the Senior Debt Ratio covenant and the Fixed Charges Ratio covenant. The November 19, 2007, amendment clarified certain provisions governing the incurrence of senior unsecured indebtedness and the application of proceeds thereof under the June 2006 Credit Agreement, as previously amended.

The Company's obligations are guaranteed by certain of its U.S. subsidiaries. These obligations are also secured by a pledge of (i) 100% of the ownership interests in certain of the Company's U.S. subsidiaries and (ii) 65% of the voting capital stock of certain of the Company's foreign subsidiaries.

The Company and its subsidiaries are also subject to covenants that are contained in the 2006 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, disposition or acquisition of property, the payment of dividends, transactions with affiliates and the making of certain investments, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to maximum total debt coverage ratios and minimum interest coverage ratios.

As of February 28, 2009, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$375.0 million bearing an interest rate of 2.2%, tranche B term loans of \$1,434.0 million bearing an interest rate of 3.3%, revolving loans of \$67.2 million bearing an interest rate of 1.7%, outstanding letters of credit of \$32.0 million, and \$800.8 million in revolving loans available to be drawn.

Table of Contents

Subsequent to February 28, 2009, the Company used proceeds from the sales of certain assets, including proceeds from the March 2009 sale of its value spirits business, to prepay \$260.0 million on the Company's tranche A and tranche B term loans under the 2006 Credit Agreement. As of April 20, 2009, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$321.0 million bearing an interest rate of 2.0%, tranche B term loans of \$1,228.0 million bearing an interest rate of 2.7%, revolving loans of \$160.0 million bearing an interest rate of 1.7%, outstanding letters of credit of \$32.5 million, and \$707.5 million in revolving loans available to be drawn.

In March 2005, the Company replaced its then outstanding five year interest rate swap agreements with new five year delayed start interest rate swap agreements effective March 1, 2006, which are outstanding as of February 28, 2009. These delayed start interest rate swap agreements extended the original hedged period through Fiscal 2010. The swap agreements fixed LIBOR interest rates on \$1,200.0 million of the Company's floating LIBOR rate debt at an average rate of 4.1% over the five year term. The Company received \$30.3 million in proceeds from the unwinding of the original swaps. This amount is being reclassified from Accumulated Other Comprehensive Income (AOCI) ratably into earnings in the same period in which the original hedged item is recorded in the Consolidated Statements of Operations. For Fiscal 2009 and Fiscal 2008, the Company reclassified \$12.6 million and \$7.1 million, net of income tax effect, respectively, from AOCI to interest expense, net on the Company's Consolidated Statements of Operations. This non-cash operating activity is included in the other, net line in the Company's Consolidated Statements of Cash Flows.

Senior Notes

In February 2001, the Company issued \$200.0 million aggregate principal amount of 8% Senior Notes due February 2008 (the February 2001 Senior Notes). On February 15, 2008, the Company repaid the February 2001 Senior Notes with proceeds from its revolving credit facility under the 2006 Credit Agreement.

As of February 28, 2009, the Company had outstanding £1.0 million (\$1.4 million) aggregate principal amount of 8 1/2% Series B Senior Notes due November 2009 (the Sterling Series B Senior Notes). In addition, as of February 28, 2009, the Company had outstanding £154.0 million (\$220.5 million, net of \$0.1 million unamortized discount) aggregate principal amount of 8 1/2% Series C Senior Notes due November 2009 (the Sterling Series C Senior Notes).

On August 15, 2006, the Company issued \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due September 2016 at an issuance price of \$693.1 million (net of \$6.9 million unamortized discount, with an effective interest rate of 7.4%) (the August 2006 Senior Notes). The net proceeds of the offering (\$685.6 million) were used to reduce a corresponding amount of borrowings under the Company's June 2006 Credit Agreement. As of February 28, 2009, the Company had outstanding \$694.4 million (net of \$5.6 million unamortized discount) aggregate principal amount of August 2006 Senior Notes.

On May 14, 2007, the Company issued \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due May 2017 (the Original May 2007 Senior Notes). The net proceeds of the offering (\$693.9 million) were used to reduce a corresponding amount of borrowings under the revolving portion of the Company's 2006 Credit Agreement. In January 2008, the Company exchanged \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due May 2017 (the May 2007 Senior Notes) for all of the Original May 2007 Senior Notes. The terms of the May 2007 Senior Notes are substantially identical in all material respects to the Original May 2007 Senior Notes, except that the May 2007 Senior Notes are registered under the Securities Act of 1933, as amended. As of February 28, 2009, the Company had outstanding \$700.0 million aggregate principal amount of May 2007 Senior Notes.

Table of Contents

On December 5, 2007, the Company issued \$500.0 million aggregate principal amount of 8 3/8% Senior Notes due December 2014 at an issuance price of \$496.7 million (net of \$3.3 million unamortized discount, with an effective interest rate of 8.5%) (the December 2007 Senior Notes). The net proceeds of the offering (\$492.2 million) were used to fund a portion of the purchase price of BWE. As of February 28, 2009, the Company had outstanding \$497.2 million (net of \$2.8 million unamortized discount) aggregate principal amount of December 2007 Senior Notes.

The senior notes described above are redeemable, in whole or in part, at the option of the Company at any time at a redemption price equal to 100% of the outstanding principal amount and a make whole payment based on the present value of the future payments at the adjusted Treasury Rate or adjusted Gilt rate plus 50 basis points. The senior notes are senior unsecured obligations and rank equally in right of payment to all existing and future senior unsecured indebtedness of the Company. Certain of the Company's significant U.S. operating subsidiaries guarantee the senior notes, on a senior unsecured basis.

Senior Subordinated Notes

As of February 28, 2009, the Company had outstanding \$250.0 million aggregate principal amount of 8 1/8% Senior Subordinated Notes due January 2012 (the January 2002 Senior Subordinated Notes). The January 2002 Senior Subordinated Notes are currently redeemable, in whole or in part, at the option of the Company.

Subsidiary Credit Facilities

In addition to the above arrangements, the Company has additional credit arrangements totaling \$334.6 million as of February 28, 2009. These arrangements primarily support the financing needs of the Company's domestic and foreign subsidiary operations. Interest rates and other terms of these borrowings vary from country to country, depending on local market conditions. As of February 28, 2009, amounts outstanding under these arrangements were \$193.9 million.

Contractual Obligations and Commitments

The following table sets forth information about the Company's long-term contractual obligations outstanding at February 28, 2009. The table brings together data for easy reference from the consolidated balance sheet and from individual notes to the Company's consolidated financial statements. See Notes 9, 10, 11, 12, 13, and 14 to the Company's consolidated financial statements located in Item 8 of this Annual Report on Form 10-K for a detailed discussion of the items noted in the following table.

Table of Contents

<i>(in millions)</i>	PAYMENTS DUE BY PERIOD				
	Total	Less than 1 year	1-3 years	3-5 years	After 5 years
Contractual obligations					
Notes payable to banks	\$ 227.3	\$ 227.3	\$	\$	\$
Interest payments on notes payable to banks ⁽¹⁾	6.3	6.3			
Long-term debt (excluding unamortized discount)	4,214.8	235.3	648.9	1,429.1	1,901.5
Interest payments on long-term debt ⁽²⁾	1,405.8	278.1	425.5	330.5	371.7
Operating leases	568.8	75.1	117.1	78.6	298.0
Other long-term liabilities ⁽³⁾	306.9	148.5	85.6	28.7	44.1
Unconditional purchase obligations ⁽⁴⁾	2,198.9	425.5	656.5	379.0	737.9
Total contractual obligations	\$ 8,928.8	\$ 1,396.1	\$ 1,933.6	\$ 2,245.9	\$ 3,353.2

(1) Interest payments on notes payable to banks include interest on both revolving loans under the Company's senior credit facility and on foreign subsidiary credit facilities. The weighted average interest rate on the revolving loans under the Company's senior credit facility was 1.7% as of February 28, 2009. Interest rates on foreign subsidiary credit facilities range from 1.1% to 5.0% as of February 28, 2009.

- (2) Interest rates on long-term debt obligations range from 3.1% to 8.5%. Interest payments on long-term debt obligations include amounts associated with the Company's outstanding interest rate swap agreements to fix LIBOR interest rates on \$1,200.0 million of the Company's floating LIBOR rate debt. Interest payments on long-term debt do not include interest related to capital lease obligations or certain foreign credit arrangements, which represent approximately 0.8% of the Company's total long-term debt, as amounts are not material.
- (3) Other long-term liabilities include \$35.4 million associated with expected payments for unrecognized tax benefit liabilities as of February 28, 2009, including \$21.4 million in the less than one year period. The payments are reflected in the period in which the Company believes they will ultimately be settled based on the Company's experience in these matters. Other long-term liabilities do not include payments for unrecognized tax benefit liabilities of \$101.3 million due to the uncertainty of the timing of future cash flows associated with these unrecognized tax benefit liabilities. In addition, other long-term liabilities do not include expected payments for interest and penalties associated with unrecognized tax benefit liabilities as amounts are not material. See Note 11 to the Company's consolidated financial statements located in Item 8 of this Annual Report on Form 10-K for a detailed discussion of these items.
- (4) Total unconditional purchase obligations consist of \$16.1 million for contracts to purchase various spirits over the next four fiscal years, \$1,941.1 million for contracts to purchase grapes over the next sixteen fiscal years, \$49.2 million for contracts to purchase bulk wine over the next four fiscal years, \$163.1 million for a contract to purchase a certain raw material over the next three fiscal years and \$29.4 million for processing contracts over the next four fiscal years. See Note 14 to the Company's consolidated financial statements located in Item 8 of this Annual Report on Form 10-K for a detailed discussion of these items.

Capital Expenditures

During Fiscal 2009, the Company incurred \$128.6 million for capital expenditures. The Company plans to spend from \$150.0 million to \$170.0 million for capital expenditures in Fiscal 2010. Included within the planned expenditures for Fiscal 2010 are amounts associated with the Company's initiative relating to the implementation of a comprehensive, multi-year program that will strengthen and enhance the Company's global business capabilities and processes through the creation of an integrated technology platform to improve the accessibility of information and visibility of global data. Management reviews the capital expenditure program periodically and modifies it as required to meet current business needs.

Table of Contents**Effects of Inflation and Changing Prices**

The Company's results of operations and financial condition have not been significantly affected by inflation and changing prices. The Company intends to pass along rising costs through increased selling prices and identifying on-going cost savings initiatives, subject to normal competitive conditions. There can be no assurances, however, that the Company will be able to pass along rising costs through increased selling prices.

Critical Accounting Policies

The Company's significant accounting policies are more fully described in Note 1 to the Company's consolidated financial statements located in Item 8 of this Annual Report on Form 10-K. However, certain of the Company's accounting policies are particularly important to the portrayal of the Company's financial position and results of operations and require the application of significant judgment by the Company's management; as a result they are subject to an inherent degree of uncertainty. In applying those policies, the Company's management uses its judgment to determine the appropriate assumptions to be used in the determination of certain estimates. Those estimates are based on the Company's historical experience, the Company's observance of trends in the industry, information provided by the Company's customers and information available from other outside sources, as appropriate. On an ongoing basis, the Company reviews its estimates to ensure that they appropriately reflect changes in the Company's business. The Company's critical accounting policies include:

Accounting for promotional activities. Sales reflect reductions attributable to consideration given to customers in various customer incentive programs, including pricing discounts on single transactions, volume discounts, promotional and advertising allowances, coupons, and rebates. Certain customer incentive programs require management to estimate the cost of those programs. The accrued liability for these programs is determined through analysis of programs offered, historical trends, expectations regarding customer and consumer participation, sales and payment trends, and experience with payment patterns associated with similar programs that had been previously offered. If assumptions included in the Company's estimates were to change or market conditions were to change, then material incremental reductions to revenue could be required, which would have a material adverse impact on the Company's financial statements. Promotional costs were \$712.1 million, \$733.7 million and \$635.6 million for Fiscal 2009, Fiscal 2008 and Fiscal 2007, respectively. Accrued promotion costs were \$100.3 million and \$143.9 million as of February 28, 2009, and February 29, 2008, respectively.

Inventory valuation. Inventories are stated at the lower of cost or market, cost being determined on the first-in, first-out method. The Company assesses the valuation of its inventories and reduces the carrying value of those inventories that are obsolete or in excess of the Company's forecasted usage to their estimated net realizable value. The Company estimates the net realizable value of such inventories based on analyses and assumptions including, but not limited to, historical usage, future demand and market requirements. Reductions to the carrying value of inventories are recorded in cost of product sold. If the future demand for the Company's products is less favorable than the Company's forecasts, then the value of the inventories may be required to be reduced, which could result in material additional expense to the Company and have a material adverse impact on the Company's financial statements. Inventories were \$1,828.7 million and \$2,179.5 million as of February 28, 2009, and February 29, 2008, respectively.

Table of Contents

Accounting for business combinations. The acquisition of businesses is an important element of the Company's strategy. Under the purchase method, the Company is required to record the net assets acquired at the estimated fair value at the date of acquisition. The determination of the fair value of the assets acquired and liabilities assumed requires the Company to make estimates and assumptions that affect the Company's financial statements. For example, the Company's acquisitions typically result in goodwill and other intangible assets; the value and estimated life of those assets may affect the amount of future period amortization expense for intangible assets with finite lives as well as possible impairment charges that may be incurred. Amortization expense for amortizable intangible assets was \$6.8 million, \$4.8 million and \$2.8 million for Fiscal 2009, Fiscal 2008 and Fiscal 2007, respectively. Amortizable intangible assets were \$75.7 million and \$68.5 million as of February 28, 2009, and February 29, 2008, respectively.

Impairment of goodwill and intangible assets with indefinite lives. Intangible assets with indefinite lives consist primarily of trademarks. The Company is required to analyze its goodwill and other intangible assets with indefinite lives for impairment on an annual basis as well as when events and circumstances indicate that an impairment may have occurred. Certain factors that may occur and indicate that an impairment exists include, but are not limited to, operating results that are lower than expected and adverse industry or market economic trends. The impairment testing requires management to estimate the fair value of the assets, including the reporting unit goodwill, and record an impairment loss for the excess of the carrying value over the fair value. The estimate of fair value of the intangible assets is generally determined on the basis of discounted future cash flows. The estimate of fair value of the reporting unit is generally determined on the basis of discounted future cash flows supplemented by the market approach. In estimating the fair value, management must make assumptions and projections regarding such items as future cash flows, future revenues, future earnings and other factors. The assumptions used in the estimate of fair value are generally consistent with the past performance of each reporting unit and other intangible assets and are also consistent with the projections and assumptions that are used in current operating plans. Such assumptions are subject to change as a result of changing economic and competitive conditions. If these estimates or their related assumptions change in the future, the Company may be required to record an impairment loss for these assets. The recording of any resulting impairment loss could have a material adverse impact on the Company's financial statements. The most significant assumptions used in the discounted future cash flows calculation to determine the fair value of the Company's reporting units and the fair value of intangible assets with indefinite lives in connection with impairment testing are: (i) the discount rate, (ii) the expected long-term growth rate and (iii) the annual cash flow projections.

If the Company used a discount rate that was 50 basis points higher or used an expected long-term growth rate that was 50 basis points lower or used annual cash flow projections that were 100 basis points lower in its impairment testing of goodwill, then the changes individually, for only the discount rate and the expected long-term growth rate, would have resulted in the carrying value of the net assets of one of the reporting units, including its goodwill, exceeding its fair value, which would indicate the potential for impairment and the requirement to measure the amount of impairment, if any. If the Company used a discount rate that was 50 basis points higher or used an expected long-term growth rate that was 50 basis points lower or used annual cash flow projections that were 100 basis points lower in its impairment testing of intangible assets with indefinite lives, then the changes individually, for only the discount rate, would have resulted in one unit of accounting's carrying value exceeding its fair value.

Table of Contents

In the fourth quarter of fiscal 2009, pursuant to the Company's accounting policy, the Company performed its annual goodwill impairment analysis. As a result of this analysis, the Company concluded that the carrying amount of goodwill assigned to the Constellation Wines segment's U.K. reporting unit exceeded its implied fair value and recorded an impairment loss of \$252.7 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. In the fourth quarter of fiscal 2008, as a result of its annual goodwill impairment analysis, the Company concluded that the carrying amounts of goodwill assigned to the Constellation Wines segment's Australian and U.K. reporting units exceeded their implied fair values and recorded impairment losses of \$599.9 million, which are included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. No impairment losses of goodwill were recorded for Fiscal 2007. Goodwill was \$2,615.0 million and \$3,123.9 million as of February 28, 2009, and February 29, 2008, respectively. During the fourth quarter of fiscal 2009, the Company performed its review of indefinite lived intangible assets for impairment. The Company determined that certain trademarks associated primarily with the Constellation Wines segment's U.K. reporting unit were impaired. Accordingly, the Company recorded impairment losses of \$25.9 million, which are included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. During the fourth quarter of fiscal 2008, the Company determined that certain intangible assets associated with the Constellation Wines segment, primarily trademarks, were impaired. Accordingly, the Company recorded additional impairment losses of \$204.9 million, which are included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. The Company recorded an immaterial impairment loss for Fiscal 2007 for intangible assets with indefinite lives associated with assets held-for-sale. Intangible assets with indefinite lives were \$924.9 million and \$1,121.5 million as of February 28, 2009, and February 29, 2008, respectively.

Table of Contents

Accounting for Stock-Based Compensation. The Company adopted the fair value recognition provisions of SFAS No. 123(R) using the modified prospective transition method on March 1, 2006. Under the fair value recognition provisions of SFAS No. 123(R), stock-based compensation cost is calculated at the grant date based on the fair value of the award and is recognized as expense, net of estimated pre-vesting forfeitures, ratably over the vesting period of the award. In addition, SFAS No. 123(R) requires additional accounting related to the income tax effects and disclosure regarding the cash flow effects resulting from stock-based payment arrangements. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107, which provided supplemental implementation guidance for SFAS No. 123(R). The Company selected the Black-Scholes option-pricing model as the most appropriate fair value method for its awards granted after March 1, 2006. The calculation of fair value of stock-based awards requires the input of assumptions, including the expected term of the stock-based awards and the associated stock price volatility. The assumptions used in calculating the fair value of stock-based awards represent the Company's best estimates, but these estimates involve inherent uncertainties and the application of management judgment. As a result, if factors change and the Company uses different assumptions, then stock-based compensation expense could be materially different in the future. If the Company used an expected term for its stock-based awards that was one year longer, the fair value of stock-based awards granted during Fiscal 2009, Fiscal 2008 and Fiscal 2007 would have increased by \$22.5 million, resulting in an increase of \$4.6 million of stock-based compensation expense for Fiscal 2009. If the Company used an expected term of the stock-based awards that was one year shorter, the fair value of the stock-based awards granted during Fiscal 2009, Fiscal 2008 and Fiscal 2007 would have decreased by \$23.4 million, resulting in a decrease of \$4.8 million of stock-based compensation expense for Fiscal 2009. The total amount of stock-based compensation recognized under SFAS No. 123(R) for Fiscal 2009 was \$47.5 million, of which \$42.9 million was expensed for Fiscal 2009 and \$4.6 million was capitalized in inventory as of February 28, 2009. The total amount of stock-based compensation recognized under SFAS No. 123(R) for Fiscal 2008 was \$33.6 million, of which \$30.4 million was expensed for Fiscal 2008 and \$3.2 million was capitalized in inventory as of February 29, 2008. The total amount of stock-based compensation recognized under SFAS No. 123(R) for Fiscal 2007 was \$18.1 million, of which \$16.5 million was expensed for Fiscal 2007 and \$1.6 million was capitalized in inventory as of February 28, 2007.

Accounting Pronouncements Not Yet Adopted

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007) (SFAS No. 141(R)), Business Combinations. SFAS No. 141(R), among other things, establishes principles and requirements for how the acquirer in a business combination (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired business, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The Company is required to adopt SFAS No. 141(R) for all business combinations for which the acquisition date is on or after March 1, 2009. The adoption of SFAS No. 141(R) on March 1, 2009, did not have a material impact on the Company's consolidated financial statements.

Table of Contents

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 (SFAS No. 160), Noncontrolling Interests in Consolidated Financial Statements – An Amendment of ARB No. 51. SFAS No. 160 amends Accounting Research Bulletin No. 51 (ARB No. 51), Consolidated Financial Statements, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This statement also amends certain of ARB No. 51's consolidation procedures for consistency with the requirements of SFAS No. 141(R). In addition, SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The Company is required to adopt SFAS No. 160 for fiscal years beginning March 1, 2009. The adoption of SFAS No. 160 on March 1, 2009, did not have a material impact on the Company's consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position No. FAS 142-3, (FSP No. 142-3), Determination of the Useful Life of Intangible Assets. FSP No. 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under Statement of Financial Accounting Standards No. 142 (SFAS No. 142), Goodwill and Other Intangible Assets. The intent of FSP No. 142-3 is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS No. 141(R) and other U.S. generally accepted accounting principles. FSP No. 142-3 is effective for the Company as of March 1, 2009. The adoption of FSP No. 142-3 on March 1, 2009, did not have a material impact on the Company's consolidated financial statements and will be applied prospectively to future business combinations.

Table of Contents**Item 7A. Quantitative and Qualitative Disclosures About Market Risk**

The Company, as a result of its global operating, acquisition and financing activities, is exposed to market risk associated with changes in foreign currency exchange rates and interest rates. To manage the volatility relating to these risks, the Company periodically purchases and/or sells derivative instruments including foreign currency forward and option contracts and interest rate swap agreements. The Company uses derivative instruments solely to reduce the financial impact of these risks and does not use derivative instruments for trading purposes.

Foreign currency derivative instruments are or may be used to hedge existing foreign currency denominated assets and liabilities, forecasted foreign currency denominated sales/purchases to/from third parties as well as intercompany sales/purchases, intercompany principal and interest payments, and in connection with acquisitions or joint venture investments outside the U.S. As of February 28, 2009, the Company had exposures to foreign currency risk primarily related to the Australian dollar, euro, New Zealand dollar, British pound sterling, Canadian dollar and South African rand.

As of February 28, 2009, and February 29, 2008, the Company had outstanding foreign currency derivative instruments with a notional value of \$1,719.4 million and \$2,473.5 million, respectively. Approximately 73% of the Company's total exposures were hedged as of February 28, 2009. The estimated fair value of the Company's foreign currency derivative instruments was \$7.6 million and \$6.3 million as of February 28, 2009, and February 29, 2008, respectively. Using a sensitivity analysis based on estimated fair value of open contracts using forward rates, if the contract base currency had been 10% weaker as of February 28, 2009, and February 29, 2008, the fair value of open foreign currency contracts would have been decreased by \$40.4 million and \$155.2 million, respectively. Losses or gains from the revaluation or settlement of the related underlying positions would substantially offset such gains or losses on the derivative instruments.

The fair value of fixed rate debt is subject to interest rate risk, credit risk and foreign currency risk. The estimated fair value of the Company's total fixed rate debt, including current maturities, was \$2,353.3 million and \$2,507.2 million as of February 28, 2009, and February 29, 2008, respectively. A hypothetical 1% increase from prevailing interest rates as of February 28, 2009, and February 29, 2008, would have resulted in a decrease in fair value of fixed interest rate long-term debt by \$107.9 million and \$124.7 million, respectively.

As of February 28, 2009, and February 29, 2008, the Company had outstanding interest rate swap agreements to minimize interest rate volatility. The swap agreements fix LIBOR interest rates on \$1,200.0 million of the Company's floating LIBOR rate debt at an average rate of 4.1% through Fiscal 2010. A hypothetical 1% increase from prevailing interest rates as of February 28, 2009, and February 29, 2008, would have increased the fair value of the interest rate swaps by \$9.3 million and \$23.6 million, respectively.

In addition to the \$2,353.3 million and \$2,507.2 million estimated fair value of fixed rate debt outstanding as of February 28, 2009, and February 29, 2008, respectively, the Company also had variable rate debt outstanding (primarily LIBOR based) as of February 28, 2009, and February 29, 2008, of \$2,036.4 million and \$2,749.5 million, respectively. Using a sensitivity analysis based on a hypothetical 1% increase in prevailing interest rates over a 12-month period, the approximate increase in cash required for interest as of February 28, 2009, and February 29, 2008, is \$20.4 million and \$27.5 million, respectively.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Constellation Brands, Inc.:

We have audited the accompanying consolidated balance sheets of Constellation Brands, Inc. and subsidiaries (the Company) as of February 28, 2009 and February 29, 2008, and the related consolidated statements of operations, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended February 28, 2009. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Constellation Brands, Inc. and subsidiaries as of February 28, 2009 and February 29, 2008, and the results of their operations and their cash flows for each of the years in the three-year period ended February 28, 2009, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 11, the Company adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*—an interpretation of FASB Statement No. 109, effective March 1, 2007. As discussed in Note 1, the Company adopted Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*, effective March 1, 2006.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Constellation Brands, Inc.'s internal control over financial reporting as of February 28, 2009, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated April 29, 2009 expressed an adverse opinion on the effectiveness of Constellation Brands, Inc.'s internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Constellation Brands, Inc.:

We have audited Constellation Brands, Inc.'s (the Company) internal control over financial reporting as of February 28, 2009, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Constellation Brands, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. A material weakness related to the Company's reconciliation and review of inventory accounts at its Australian subsidiary has been identified and included in management's assessment as of February 28, 2009. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Constellation Brands, Inc. and subsidiaries as of February 28, 2009 and February 29, 2008, and the related consolidated statements of operations, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended February 28, 2009. This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the 2009 consolidated financial statements, and this report does not affect our report dated April 29, 2009, which expressed an unqualified opinion on those consolidated financial statements.

Table of Contents

In our opinion, because of the effect of the aforementioned material weakness on the achievement of the objectives of the control criteria, Constellation Brands, Inc. has not maintained effective internal control over financial reporting as of February 28, 2009, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Management's Annual Report on Internal Control Over Financial Reporting

Management of Constellation Brands, Inc. and subsidiaries (the Company) is responsible for establishing and maintaining an adequate system of internal control over financial reporting. This system is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements. Because of its inherent limitations, a system of internal control over financial reporting can provide only reasonable assurance and may not prevent or detect misstatements. Further, because of changes in conditions, effectiveness of internal controls over financial reporting may vary over time.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

Management conducted an evaluation of the effectiveness of the system of internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations (COSO) of the Treadway Commission. Based on that evaluation, management concluded that the Company's internal control over financial reporting was not effective as of February 28, 2009, because of the following material weakness:

During the Company's evaluation of the effectiveness of internal control over financial reporting as of February 28, 2009, the Company determined that the policies and procedures over the reconciliation and review of bulk inventory accounts were not properly designed and did not operate effectively at the Company's Australian operations. Specifically, the reconciliation and review controls for vineyard farming costs and bulk inventory at the Australian operations did not include identifying cost accumulation, and subsequent release to finished goods, by respective vintage year. In addition, reviews of inventory reconciliations were not performed with sufficient precision. As a result, it was at least reasonably possible for discrepancies to accumulate in these inventory accounts, which could have resulted in material differences between the actual costs for inventory on hand and the costs that should have been released to cost of product sold. This deficiency resulted in immaterial adjustments to inventories and cost of product sold in the Company's consolidated financial statements as of and for the fiscal year ended February 28, 2009, which adjustments also corrected immaterial errors related to prior periods.

The effectiveness of the Company's internal control over financial reporting has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report which is included herein.

CONSTELLATION BRANDS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FEBRUARY 28, 2009

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Description of business

Constellation Brands, Inc. and its subsidiaries (the Company) operate primarily in the beverage alcohol industry. The Company is a leading international producer and marketer of beverage alcohol with a broad portfolio of brands across the wine, spirits and imported beer categories (see Note 24). The Company has the largest wine business in the world and is the largest multi-category supplier of beverage alcohol in the United States (U.S.); a leading producer and exporter of wine from Australia and New Zealand; the largest producer and marketer of wine in Canada; and a major supplier of beverage alcohol in the United Kingdom (U.K.). In North America, the Company distributes its products through wholesale distributors. In addition, the Company imports, markets and sells the Modelo Brands (as defined in Note 8) and certain other imported beer brands through the Company's joint venture, Crown Imports (as defined in Note 8). In Australia, the Company distributes its products directly to off-premise accounts, such as major retail chains, on-premise accounts, such as hotels and restaurants, and large wholesalers. In the U.K., the Company distributes its products directly to off-premise accounts, such as major retail chains, and to other wholesalers and, through its investment in Matthew Clark (as defined in Note 8), the Company distributes its branded products and those of other major drinks companies to on-premise accounts: pubs, clubs, hotels and restaurants.

Principles of consolidation

The consolidated financial statements of the Company include the accounts of the Company and its majority-owned subsidiaries and entities in which the Company has a controlling financial interest after the elimination of intercompany accounts and transactions. The Company has a controlling financial interest if the Company owns a majority of the outstanding voting common stock or has significant control over an entity through contractual or economic interests in which the Company is the primary beneficiary.

Equity investments

If the Company is not required to consolidate its investment in another company, the Company uses the equity method if the Company can exercise significant influence over the other company. Under the equity method, investments are carried at cost, plus or minus the Company's equity in the increases and decreases in the investee's net assets after the date of acquisition and certain other adjustments. The Company's share of the net income or loss of the investee is included in equity in earnings of equity method investees on the Company's Consolidated Statements of Operations. Dividends received from the investee reduce the carrying amount of the investment.

Table of Contents

Equity investments are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the investments may not be recoverable. In the fourth quarter of fiscal 2009, the Company performed its review of equity method investments for other-than-temporary impairment. The Company determined that two of the Company's Constellation Wines segment's international equity method investments, Ruffino S.r.l (Ruffino) and Matthew Clark, were impaired primarily due to a decline in revenue and profit forecasts for these two equity method investees reflecting significant market deterioration during the fourth quarter of fiscal 2009. The Company measured the amount of impairment by calculating the amount by which the carrying value of these assets exceeded their estimated fair values, which were based on projected discounted future cash flows. As a result of this review, the Company recorded impairment losses of \$79.2 million in equity in earnings of equity method investees on the Company's Consolidated Statements of Operations. For the year ended February 29, 2008, the Company recorded an impairment loss of \$15.1 million associated with its investment in Ruffino, which is included in equity in earnings of equity method investees on the Company's Consolidated Statements of Operations. No instances of impairment were noted on the Company's equity method investments for the year ended February 28, 2007.

Management's use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue recognition

Sales are recognized when title passes to the customer, which is generally when the product is shipped. Amounts billed to customers for shipping and handling are classified as sales. Sales reflect reductions attributable to consideration given to customers in various customer incentive programs, including pricing discounts on single transactions, volume discounts, promotional and advertising allowances, coupons, and rebates.

Cost of product sold

The types of costs included in cost of product sold are raw materials, packaging materials, manufacturing costs, plant administrative support and overheads, and freight and warehouse costs (including distribution network costs). Distribution network costs include inbound freight charges and outbound shipping and handling costs, purchasing and receiving costs, inspection costs, warehousing and internal transfer costs.

Selling, general and administrative expenses

The types of costs included in selling, general and administrative expenses consist predominately of advertising and non-manufacturing administrative and overhead costs. Distribution network costs are not included in the Company's selling, general and administrative expenses, but are included in cost of product sold as described above. The Company expenses advertising costs as incurred, shown or distributed. Prepaid advertising costs at February 28, 2009, and February 29, 2008, were not material. Advertising expense for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, was \$175.7 million, \$180.4 million and \$182.7 million, respectively.

Table of Contents*Foreign currency translation*

The functional currency of the Company's subsidiaries outside the U.S. is the respective local currency. The translation from the applicable foreign currencies to U.S. dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate for the period. The resulting translation adjustments are recorded as a component of Accumulated Other Comprehensive Income (Loss) (AOCI). Gains or losses resulting from foreign currency denominated transactions are included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations. The Company engages in foreign currency denominated transactions with customers and suppliers, as well as between subsidiaries with different functional currencies. Aggregate foreign currency transaction net losses were \$26.3 million, \$15.3 million and \$9.9 million for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, respectively.

Cash investments

Cash investments consist of highly liquid investments with an original maturity when purchased of three months or less and are stated at cost, which approximates fair value. The amounts at February 28, 2009, and February 29, 2008, are not significant.

Allowance for doubtful accounts

The Company records an allowance for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. The majority of the accounts receivable balance is generated from sales to independent distributors with whom the Company has a predetermined collection date arranged through electronic funds transfer. The allowance for doubtful accounts was \$4.1 million and \$7.6 million as of February 28, 2009, and February 29, 2008, respectively.

Fair value of financial instruments

To meet the reporting requirements of Statement of Financial Accounting Standards No. 107, Disclosures about Fair Value of Financial Instruments, the Company calculates the fair value of financial instruments using quoted market prices whenever available. When quoted market prices are not available, the Company uses standard pricing models for various types of financial instruments (such as forwards, options, swaps, etc.) which take into account the present value of estimated future cash flows.

The carrying amount and estimated fair value of the Company's financial instruments are summarized as follows:

<i>(in millions)</i>	February 28, 2009		February 29, 2008	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets:				
Cash and cash investments	\$ 13.1	\$ 13.1	\$ 20.5	\$ 20.5
Accounts receivable	\$ 524.6	\$ 524.6	\$ 731.6	\$ 731.6
Foreign currency contracts	\$ 78.7	\$ 78.7	\$ 87.6	\$ 87.6
Liabilities:				
Notes payable to banks	\$ 227.3	\$ 227.3	\$ 379.5	\$ 379.5
Accounts payable	\$ 288.7	\$ 288.7	\$ 349.4	\$ 349.4
Long-term debt, including current portion	\$4,206.3	\$4,162.4	\$4,878.0	\$4,877.2
Foreign currency contracts	\$ 71.1	\$ 71.1	\$ 81.3	\$ 81.3
Interest rate swap contracts	\$ 51.1	\$ 51.1	\$ 57.2	\$ 57.2
	76			

Table of Contents

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Cash and cash investments, accounts receivable and accounts payable: The carrying amounts approximate fair value due to the short maturity of these instruments.

Foreign currency contracts: The fair value is estimated using market-based inputs, obtained from independent pricing services, into valuation models (see Note 5).

Interest rate swap contracts: The fair value is estimated based on quoted market prices from respective counterparties (see Note 5).

Notes payable to banks: These instruments are variable interest rate bearing notes for which the carrying value approximates the fair value.

Long-term debt: The senior credit facility is subject to variable interest rates which are frequently reset; accordingly, the carrying value of this debt approximates its fair value. The fair value of the remaining long-term debt, which is all fixed rate, is estimated by discounting cash flows using interest rates currently available for debt with similar terms and maturities.

Derivative instruments

As a multinational company, the Company is exposed to market risk from changes in foreign currency exchange rates and interest rates that could affect the Company's results of operations and financial condition. The amount of volatility realized will vary based upon the effectiveness and level of derivative instruments outstanding during a particular period of time, as well as the currency and interest rate market movements during that same period.

The Company enters into derivative instruments, primarily interest rate swaps and foreign currency forward and option contracts, to manage interest rate and foreign currency risks. In accordance with Statement of Financial Accounting Standards No. 133 (SFAS No. 133), Accounting for Derivative Instruments and Hedging Activities, as amended, the Company recognizes all derivatives as either assets or liabilities on the balance sheet and measures those instruments at fair value. The fair values of the Company's derivative instruments change with fluctuations in interest rates and/or currency rates and are expected to offset changes in the values of the underlying exposures. The Company's derivative instruments are held solely to hedge economic exposures. The Company follows strict policies to manage interest rate and foreign currency risks, including prohibitions on derivative market-making or other speculative activities.

To qualify for hedge accounting under SFAS No. 133, the details of the hedging relationship must be formally documented at inception of the arrangement, including the risk management objective, hedging strategy, hedged item, specific risk that is being hedged, the derivative instrument, how effectiveness is being assessed and how ineffectiveness will be measured. The derivative must be highly effective in offsetting either changes in the fair value or cash flows, as appropriate, of the risk being hedged. Effectiveness is evaluated on a retrospective and prospective basis based on quantitative measures.

Table of Contents

Certain of the Company's derivative instruments do not qualify for SFAS No. 133 hedge accounting treatment; for others, the Company chooses not to maintain the required documentation to apply hedge accounting treatment. These undesignated instruments are used to hedge the Company's exposure to fluctuations in the value of foreign currency denominated receivables and payables, foreign currency investments, primarily consisting of loans to subsidiaries, and cash flows related primarily to repatriation of those loans or investments. Forward contracts, generally less than 12 months in duration, are used to hedge some of these risks. The Company's derivative policy permits the use of undesignated derivatives when the derivative instrument is settled within the fiscal quarter or offsets a recognized balance sheet exposure. In these circumstances, the mark to fair value is reported currently through earnings in selling, general and administrative expenses on the Company's Consolidated Statements of Operations. As of February 28, 2009, and February 29, 2008, the Company had undesignated foreign currency contracts outstanding with a notional value of \$402.6 million and \$931.5 million, respectively.

Furthermore, when the Company determines that a derivative instrument which qualified for hedge accounting treatment has ceased to be highly effective as a hedge, the Company discontinues hedge accounting prospectively. The Company discontinues hedge accounting prospectively when (i) the derivative is no longer highly effective in offsetting changes in the cash flows or fair value of a hedged item; (ii) the derivative expires or is sold, terminated, or exercised; (iii) it is no longer probable that the forecasted transaction will occur; or (iv) management determines that designating the derivative as a hedging instrument is no longer appropriate.

Cash flow hedges:

The Company is exposed to foreign denominated cash flow fluctuations in connection with third party and intercompany sales and purchases and third party financing arrangements. The Company primarily uses foreign currency forward and option contracts to hedge certain of these risks. In addition, the Company utilizes interest rate swaps to manage its exposure to changes in interest rates. Derivatives managing the Company's cash flow exposures generally mature within three years or less, with a maximum maturity of five years. Throughout the term of the designated cash flow hedge relationship, but at least quarterly, a retrospective evaluation and prospective assessment of hedge effectiveness is performed. In the event the relationship is no longer effective, the Company recognizes the change in the fair value of the hedging derivative instrument from the prior assessment date immediately in the Company's Consolidated Statements of Operations. In conjunction with its effectiveness testing, the Company also evaluates ineffectiveness associated with the hedge relationship. Resulting ineffectiveness, if any, is recognized immediately in the Company's Consolidated Statements of Operations. As of February 28, 2009, and February 29, 2008, the Company had cash flow designated foreign currency contracts outstanding with a notional value of \$1,316.8 million and \$1,542.0 million, respectively. In addition, as of February 28, 2009, and February 29, 2008, the Company had interest rate swap agreements outstanding with a notional value of \$1,200.0 million (see Note 10).

The Company records the fair value of its foreign currency contracts qualifying for cash flow hedge accounting treatment in its consolidated balance sheet with the effective portion of the related gain or loss on those contracts deferred in stockholders' equity (as a component of AOCI). These deferred gains or losses are recognized in the Company's Consolidated Statements of Operations in the same period in which the underlying hedged items are recognized and on the same line item as the underlying hedged items. However, to the extent that any derivative instrument is not considered to be highly effective in offsetting the change in the value of the hedged item, the amount related to the ineffective portion of this derivative instrument is immediately recognized in the Company's Consolidated Statements of Operations in selling, general and administrative expenses.

Table of Contents

The Company expects \$17.4 million of losses, net of income tax effect, to be reclassified from AOCI to earnings within the next 12 months. The amount of hedge ineffectiveness associated with the Company's designated cash flow hedge instruments recognized in the Company's Consolidated Statements of Operations for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, was not material. All components of the Company's derivative instruments' gains or losses are included in the assessment of hedge effectiveness. The amount of net gains reclassified into earnings as a result of the discontinuance of cash flow hedge accounting due to the probability that the original forecasted transaction would not occur by the end of the originally specified time period (or within the two months following) was not material for the years ended February 28, 2009, February 29, 2008, and February 28, 2007.

Fair value hedges:

Fair value hedges are hedges that offset the risk of changes in the fair values of recorded assets and liabilities, and firm commitments. The Company records changes in fair value of derivative instruments which are designated and deemed effective as fair value hedges, in earnings offset by the corresponding changes in the fair value of the hedged items. The Company did not designate any derivative instruments as fair value hedges for the years ended February 28, 2009, February 29, 2008, and February 28, 2007.

Net investment hedges:

Net investment hedges are hedges that use derivative instruments or non-derivative instruments to hedge the foreign currency exposure of a net investment in a foreign operation. The Company manages currency exposures resulting from certain of its net investments in foreign subsidiaries principally with debt denominated in the related foreign currency. Gains and losses on these instruments are recorded as foreign currency translation adjustments in AOCI. During February 2009, the Company discontinued the hedging relationship between the Company's Sterling Series B Senior Notes and Sterling Series C Senior Notes (as defined in Note 10) totaling £155.0 million aggregate principal amount and the Company's investment in its U.K. subsidiary. For the years ended February 28, 2009, February 29, 2008, and February 28, 2007, net gains (losses) of \$84.3 million, (\$3.9) million and (\$32.6) million, respectively, have been deferred within foreign currency translation adjustments within AOCI.

Table of Contents*Fair values of derivative instruments:*

The fair values and locations of the Company's derivative instruments on its Consolidated Balance Sheets are as follows (see Note 5):

	Asset Derivatives		Liability Derivatives	
	Balance	February	Balance	February
(in millions)	Sheet	28,	Sheet	28,
	Location	2009	Location	2009

----------------------------	---	----	-------

Credit risk:

The Company enters into master agreements with its bank derivative trading counterparties that allow netting of certain derivative positions in order to manage credit risk. The Company's derivative instruments are not subject to credit rating contingencies or collateral requirements. As of February 28, 2009, the fair value of derivative instruments in a net liability position due to counterparties was \$74.7 million. If the Company were required to settle the net liability position under these derivative instruments on February 28, 2009, the Company would have had sufficient availability under its revolving credit facility to satisfy this obligation.

Table of Contents*Counterparty credit risk:*

Counterparty credit risk relates to losses the Company could incur if a counterparty defaults on a derivative contract. The Company manages exposure to counterparty credit risk by requiring specified minimum credit standards and diversification of counterparties. The Company enters into master agreements with its bank derivative trading counterparties that allow netting of certain derivative positions in order to manage counterparty credit risk. As of February 28, 2009, all of the Company's counterparty exposures are with financial institutions which have investment grade ratings. The Company has procedures to monitor counterparty credit risk for both current and future potential credit exposures. As of February 28, 2009, the fair value of derivative instruments in a net receivable position due from counterparties was \$31.2 million.

Inventories

Inventories are stated at the lower of cost (computed in accordance with the first-in, first-out method) or market. Elements of cost include materials, labor and overhead and are classified as follows:

<i>(in millions)</i>	February 28, 2009	February 29, 2008
Raw materials and supplies	\$ 57.9	\$ 85.4
In-process inventories	1,218.4	1,421.8
Finished case goods	552.4	672.3
	\$ 1,828.7	\$ 2,179.5

A substantial portion of barreled whiskey and brandy will not be sold within one year because of the duration of the aging process. All barreled whiskey and brandy are classified as in-process inventories and are included in current assets, in accordance with industry practice. Bulk wine inventories are also included as in-process inventories within current assets, in accordance with the general practices of the wine industry, although a portion of such inventories may be aged for periods greater than one year. Warehousing, insurance, ad valorem taxes and other carrying charges applicable to barreled whiskey and brandy held for aging are included in inventory costs.

The Company assesses the valuation of its inventories and reduces the carrying value of those inventories that are obsolete or in excess of the Company's forecasted usage to their estimated net realizable value. The Company estimates the net realizable value of such inventories based on analyses and assumptions including, but not limited to, historical usage, future demand and market requirements. Reductions to the carrying value of inventories are recorded in cost of product sold. If the future demand for the Company's products is less favorable than the Company's forecasts, then the value of the inventories may be required to be reduced, which would result in additional expense to the Company and affect its results of operations. During the year ended February 28, 2009, the Company recorded an immaterial adjustment to inventory of \$35.5 million related to prior periods of \$10.4 million, \$7.1 million and \$18.0 million for the years ended February 29, 2008, February 28, 2007, and February 28, 2006 and prior, respectively. This adjustment was to correct for costs, primarily in the Company's Australian business, which were not properly released from inventory as the product was sold.

Property, plant and equipment

Property, plant and equipment is stated at cost. Major additions and betterments are charged to property accounts, while maintenance and repairs are charged to operations as incurred. The cost of properties sold or otherwise disposed of and the related accumulated depreciation are eliminated from the accounts at the time of disposal and resulting gains and losses are included as a component of operating income. During the year ended February 29, 2008, the Company changed its policy related to dispensing equipment in the U.K. to be expensed as incurred. In connection with this policy change, the Company recognized an immaterial loss in selling, general and administrative expenses for the year ended February 29, 2008, in connection with the write-off of previously capitalized dispensing equipment in the U.K.

Table of Contents*Depreciation*

Depreciation is computed primarily using the straight-line method over the following estimated useful lives:

	Depreciable Life in Years
Land improvements	15 to 32
Vineyards	16 to 26
Buildings and improvements	10 to 44
Machinery and equipment	3 to 35
Motor vehicles	3 to 7

Goodwill and other intangible assets

In accordance with Statement of Financial Accounting Standards No. 142 (SFAS No. 142), Goodwill and Other Intangible Assets, the Company reviews its goodwill and indefinite lived intangible assets annually for impairment, or sooner, if events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

The Company uses January 1 as its annual impairment test measurement date. Indefinite lived intangible assets consist principally of trademarks. Intangible assets determined to have a finite life, primarily customer relationships, are amortized over their estimated useful lives and are subject to review for impairment in accordance with the provisions of SFAS No. 144 (as defined below). Note 7 provides a summary of intangible assets segregated between amortizable and nonamortizable amounts.

In the fourth quarter of fiscal 2009, pursuant to the Company's accounting policy, the Company performed its annual goodwill impairment analysis. As a result of this analysis, the Company concluded that the carrying amount of goodwill assigned to the Constellation Wines segment's U.K. reporting unit exceeded its implied fair value and recorded an impairment loss of \$252.7 million, which is included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. The impairment loss was determined by comparing the carrying value of goodwill assigned to the specific reporting unit within the segment as of January 1, 2009, with the implied fair value of the goodwill. In determining the implied fair value of the goodwill, the Company considered estimates of future operating results and cash flows of the reporting unit discounted using market based discount rates. The estimates of future operating results and cash flows were principally derived from the Company's updated long-term financial forecast, which was developed as part of the Company's strategic planning cycle conducted during the Company's fourth quarter. The decline in the implied fair value of the goodwill and the resulting impairment loss was driven primarily by the accelerated deterioration in the Company's U.K. business during the fourth quarter of fiscal 2009 and the resulting adjustment to the Company's long-term financial forecasts, which showed lower estimated future operating results reflecting the significant fourth quarter deterioration in market conditions in the U.K. In the fourth quarter of fiscal 2008, as a result of its annual goodwill impairment analysis, the Company concluded that the carrying amounts of goodwill assigned to the Constellation Wines segment's Australian and U.K. reporting units exceeded their implied fair values and recorded impairment losses of \$599.9 million, which are included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. No impairment losses were recorded for the year ended February 28, 2007.

Table of Contents

In addition, during the fourth quarter of fiscal 2009, the Company performed its review of indefinite lived intangible assets for impairment. The Company determined that certain trademarks associated primarily with the Constellation Wines segment's U.K. reporting unit were impaired largely due to the aforementioned market declines in the U.K. during the fourth quarter, and the resulting lower revenue and profit forecasts associated with products incorporating these assets which reflected the significant fourth quarter deterioration in market conditions in the U.K. The Company measured the amount of impairment by calculating the amount by which the carrying value of these assets exceeded their estimated fair values, which were based on projected discounted future cash flows. As a result of this review, the Company recorded impairment losses of \$25.9 million, which are included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. The Company had previously recorded impairment losses of \$21.8 million during its second quarter of fiscal 2009 in connection with the Company's Australian Initiative (as defined in Note 19) and the resulting lower revenue and profit forecasts associated with certain brands incorporating assets impacted by the Australian Initiative. In addition, during the fourth quarter of fiscal 2008, the Company determined that certain intangible assets associated with the Constellation Wines segment's Australian and U.K. reporting units, primarily trademarks, were impaired and recorded additional impairment losses of \$204.9 million, which are included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. The Company recorded an immaterial impairment loss for the year ended February 28, 2007, for indefinite lived intangible assets associated with assets held-for-sale.

Other assets

Other assets include the following: (i) investments in equity method investees which are carried under the equity method of accounting (see Note 8); (ii) deferred financing costs which are stated at cost, net of accumulated amortization, and are amortized on an effective interest basis over the term of the related debt; (iii) deferred tax assets which are stated at cost, net of valuation allowances (see Note 11); and (iv) derivative assets which are stated at fair value (see above).

Long-lived assets impairment

In accordance with Statement of Financial Accounting Standards No. 144 (SFAS No. 144), Accounting for the Impairment or Disposal of Long-Lived Assets, the Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment loss is recognized for the amount by which the carrying amount of the asset exceeds its fair value. Assets held for sale are reported at the lower of the carrying amount or fair value less costs to sell and are no longer depreciated (see below).

Table of Contents

Pursuant to this policy, for the year ended February 28, 2009, in connection with the Company's Australian Initiative (as defined in Note 19), the Company's Constellation Wines segment recorded asset impairment losses of \$46.5 million associated primarily with the write-down of certain winery and vineyard assets which satisfied the conditions necessary to be classified as held for sale. These assets were written down to a value based on the Company's estimate of fair value less cost to sell. This impairment loss is included in restructuring charges on the Company's Consolidated Statements of Operations. For the year ended February 29, 2008, in connection with the Company's Fiscal 2008 Plan (as defined in Note 19), the Company recorded asset impairment losses of \$7.4 million associated primarily with certain definite lived trademarks of brands to be discontinued within the Constellation Wines segment. These asset impairment losses are included in impairment of goodwill and intangible assets on the Company's Consolidated Statements of Operations. For the year ended February 28, 2007, in connection with the Constellation Wines segment's Fiscal 2007 Wine Plan (as defined in Note 19), the Company recorded an asset impairment loss of \$11.8 million in connection with the write-down of certain winery and vineyard assets which satisfied the conditions necessary to be classified as held-for-sale. This impairment loss is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Assets held for sale

As of February 28, 2009, in connection with the Company's divestiture of the value spirits business (see Note 24) and the Australian Initiative, the Company had \$374.6 million of assets held for sale, of which \$339.4 million is reported within the Constellation Spirits segment and \$35.2 million is reported within the Constellation Wines segment. As of February 29, 2008, in connection primarily with the divestiture of the Pacific Northwest Business (see Note 3), the Company had \$202.7 million of assets held for sale reported primarily within the Constellation Wines segment. The carrying amounts of the major classes of assets and liabilities classified as held for sale as of February 28, 2009, and February 29, 2008, are presented below. Amounts presented below are included within the respective line on the Company's Consolidated Balance Sheets as amounts are not deemed material for separate presentation on the face of the Company's Consolidated Balance Sheets.

<i>(in millions)</i>	February 28, 2009	February 29, 2008
Inventories	\$ 94.5	\$ 49.1
Prepaid expenses and other	8.2	
Total current assets	102.7	49.1
Property, plant and equipment, net	80.8	120.2
Goodwill	157.4	3.1
Intangible assets, net	33.7	30.3
Total assets	\$ 374.6	\$ 202.7
Total current liabilities	\$ 0.4	\$
Other liabilities	5.7	
Total liabilities	\$ 6.1	\$

Income taxes

The Company uses the asset and liability method of accounting for income taxes. This method accounts for deferred income taxes by applying statutory rates in effect at the balance sheet date to the difference between the financial reporting and tax bases of assets and liabilities.

Table of Contents*Environmental*

Environmental expenditures that relate to current operations or to an existing condition caused by past operations, and which do not contribute to current or future revenue generation, are expensed. Liabilities for environmental risks or components thereof are recorded when environmental assessments and/or remedial efforts are probable, and the cost can be reasonably estimated. Generally, the timing of these accruals coincides with the completion of a feasibility study or the Company's commitment to a formal plan of action. Liabilities for environmental costs were not material at February 28, 2009, and February 29, 2008.

Earnings per common share

The Company has two classes of outstanding common stock: Class A Common Stock and Class B Convertible Common Stock (see Note 15). With respect to dividend rights, the Class A Common Stock is entitled to cash dividends of at least ten percent higher than those declared and paid on the Class B Convertible Common Stock. Accordingly, the Company uses the two-class computation method for the computation of earnings per common share basic and earnings per common share diluted. The two-class computation method for each period reflects the amount of allocated undistributed earnings per share computed using the participation percentage which reflects the minimum dividend rights of each class of stock.

Earnings per common share basic excludes the effect of common stock equivalents and is computed using the two-class computation method (see Note 16). Earnings per common share diluted for Class A Common Stock reflects the potential dilution that could result if securities or other contracts to issue common stock were exercised or converted into common stock. Earnings per common share diluted for Class A Common Stock has been computed using the more dilutive of the if-converted or two-class computation method. Using the if-converted method, earnings per common share for Class A Common Stock assumes the exercise of stock options using the treasury stock method and the conversion of Class B Convertible Common Stock and Preferred Stock (as defined in Note 15). Using the two-class computation method, earnings per common share diluted for Class A Common Stock assumes the exercise of stock options using the treasury stock method and the conversion of Preferred Stock, but no conversion of Class B Convertible Common Stock. Earnings per common share diluted for Class B Convertible Common Stock is presented without assuming conversion into Class A Common Stock and is computed using the two-class computation method.

Stock-based employee compensation plans

Effective March 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004) (SFAS No. 123(R)), Share-Based Payment, for its four stock-based employee compensation plans, which are described more fully in Note 15. The Company applies a grant date fair-value-based measurement method in accounting for its share-based payment arrangements and records all costs resulting from share-based payment transactions ratably over the requisite service period in its consolidated financial statements.

Stock-based awards, primarily stock options, granted by the Company are subject to specific vesting conditions, generally time vesting, or upon retirement, disability or death of the employee (as defined by the stock option plan), if earlier. In accordance with the provisions of SFAS No. 123(R), the Company recognizes compensation expense immediately for awards granted to retirement-eligible employees or ratably over the period from the date of grant to the date of retirement-eligibility if that is expected to occur during the requisite service period.

Table of Contents

Total compensation cost for stock-based awards is as follows:

<i>(in millions)</i>	For the Years Ended		
	February 28, 2009	February 29, 2008	February 28, 2007
Total compensation cost for stock-based awards recognized in the Consolidated Statements of Income	\$ 46.1	\$ 32.0	\$ 16.5
Total income tax benefit recognized in the Consolidated Statements of Operations for stock-based compensation	\$ 14.0	\$ 9.2	\$ 4.5
Total compensation cost for stock-based awards capitalized in inventory in the Consolidated Balance Sheets	\$ 4.6	\$ 3.2	\$ 1.6

In March 2007, the Company's Board of Directors approved the accelerated vesting of certain unvested stock options held by approximately 70 employees of the Company who transferred to Matthew Clark on April 17, 2007, effective as of the end of the day on the date preceding the formation of the joint venture, April 16, 2007. The total incremental compensation cost associated with this modification was \$1.0 million.

On December 21, 2006, the Human Resources Committee of the Company's Board of Directors approved the accelerated vesting of certain unvested stock options held by approximately 100 employees of the Company who transferred to Crown Imports on January 2, 2007, effective as of the end of the day on the date preceding the formation of the joint venture, January 1, 2007. The total incremental compensation cost associated with this modification was \$1.8 million.

2. RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS:

Effective February 28, 2009, the Company adopted the final provision of Statement of Financial Accounting Standards No. 158 (SFAS No. 158), Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R). The first provision of SFAS No. 158 requires companies to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. The Company adopted this provision of SFAS No. 158 and provided the associated required disclosures as of February 28, 2007. The second provision of SFAS No. 158 requires companies to measure the funded status of a defined benefit postretirement plan as of the date of the company's fiscal year-end (with limited exceptions). The Company had previously used a December 31 measurement date for its defined benefit pension and other postretirement plans. On March 1, 2008, the Company elected to transition to a fiscal year-end measurement date utilizing the second alternative prescribed by SFAS No. 158. Accordingly, on March 1, 2008, the Company recognized adjustments to its opening retained earnings, accumulated other comprehensive income, net of income tax effect, and pension and other postretirement plan assets or liabilities. These adjustments did not have a material impact on the Company's consolidated financial statements. The Company completed its adoption of this final provision of SFAS No. 158 on February 28, 2009, when the Company changed its measurement date for its defined benefit pension and other postretirement plans to February 28, 2009 (see Note 13).

Table of Contents

Effective March 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 159 (SFAS No. 159), The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115. SFAS No. 159 permits companies to choose to measure many financial instruments and certain other items at fair value. Most of the provisions in SFAS No. 159 are elective; however, the amendment to Statement of Financial Accounting Standards No. 115, Accounting for Certain Investments in Debt and Equity Securities, applies to all entities with available-for-sale and trading securities. The fair value option established by SFAS No. 159 allows companies to choose to measure eligible items at fair value at specified election dates. In addition, the fair value option: (i) may be applied instrument by instrument, with a few exceptions, such as investments otherwise accounted for by the equity method; (ii) is irrevocable (unless a new election date occurs); and (iii) is applied only to entire instruments and not to portions of instruments. The adoption of SFAS No. 159 did not have a material impact on the Company's consolidated financial statements.

Effective December 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 161 (SFAS No. 161), Disclosures about Derivative Instruments and Hedging Activities An Amendment of FASB Statement No. 133. SFAS No. 161 requires enhanced disclosures about an entity's derivative and hedging activities to enable investors to better understand their effects on an entity's financial position, financial performance and cash flows. The adoption of the disclosure requirements of SFAS No. 161 did not have a material impact on the Company's consolidated financial statements.

3. ACQUISITIONS:*Acquisition of BWE*

On December 17, 2007, the Company acquired all of the issued and outstanding capital stock of Beam Wine Estates, Inc. (BWE), an indirect wholly-owned subsidiary of Fortune Brands, Inc., together with BWE's subsidiaries: Atlas Peak Vineyards, Inc., Buena Vista Winery, Inc., Clos du Bois, Inc., Gary Farrell Wines, Inc. and Peak Wines International, Inc. (the BWE Acquisition). As a result of the BWE Acquisition, the Company has acquired the U.S. wine portfolio of Fortune Brands, Inc., including certain wineries, vineyards or interests therein in the State of California, as well as various super-premium and fine California wine brands including Clos du Bois and Wild Horse. The BWE Acquisition supports the Company's strategy of strengthening its portfolio with fast-growing super-premium and above wines. The BWE Acquisition strengthens the Company's position as the largest wine company in the world and the largest premium wine company in the U.S.

Total consideration paid in cash was \$877.3 million. In addition, the Company incurred direct acquisition costs of \$1.4 million. The purchase price was financed with the net proceeds from the Company's December 2007 Senior Notes and revolver borrowings under the Company's 2006 Credit Agreement (as defined in Note 10). In accordance with the purchase method of accounting, the acquired net assets are recorded at fair value at the date of acquisition. The purchase price was based primarily on the estimated future operating results of the BWE business, including the factors described above. In June 2008, the Company sold certain businesses consisting of several of the California wineries and wine brands acquired in the BWE Acquisition, as well as certain wineries and wine brands from the states of Washington and Idaho (collectively, the Pacific Northwest Business) for cash proceeds of \$204.2 million, net of direct costs to sell. In addition, if certain objectives are achieved by the buyer, the Company could receive up to an additional \$25.0 million in cash payments. In connection with the sale of the Pacific Northwest Business, the Company recorded a loss of \$23.2 million for the year ended February 28, 2009, which includes a loss on business sold of \$15.8 million and losses on contractual obligations of \$7.4 million. The loss of \$23.2 million is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Table of Contents

The results of operations of the BWE business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition.

The following table summarizes the fair values of the assets acquired and liabilities assumed in the BWE Acquisition at the date of acquisition.

(in millions)

Current assets	\$ 288.4
Property, plant and equipment	232.8
Goodwill	334.6
Trademarks	97.9
Other assets	30.2
Total assets acquired	983.9
Current liabilities	103.9
Long-term liabilities	1.3
Total liabilities assumed	105.2
Net assets acquired	\$ 878.7

The trademarks are not subject to amortization. All of the goodwill is expected to be deductible for tax purposes.

Acquisition of Svedka

On March 19, 2007, the Company acquired the SVEDKA Vodka brand (Svedka) in connection with the acquisition of Spirits Marque One LLC and related business (the Svedka Acquisition). Svedka is a premium Swedish vodka. The Svedka Acquisition supported the Company s strategy of expanding the Company s premium spirits business. The acquisition provided a foundation from which the Company looked to leverage its existing and future premium spirits portfolio for growth. In addition, Svedka complemented the Company s then existing portfolio of super-premium and value vodka brands by adding a premium vodka brand.

Total consideration paid in cash for the Svedka Acquisition was \$385.8 million. In addition, the Company incurred direct acquisition costs of \$1.3 million. The purchase price was financed with revolver borrowings under the Company s June 2006 Credit Agreement, as amended in February 2007. In accordance with the purchase method of accounting, the acquired net assets are recorded at fair value at the date of acquisition. The purchase price was based primarily on the estimated future operating results of the Svedka business, including the factors described above.

The results of operations of the Svedka business are reported in the Constellation Spirits segment and are included in the consolidated results of operations of the Company from the date of acquisition.

Table of Contents

The following table summarizes the fair values of the assets acquired and liabilities assumed in the Svedka Acquisition at the date of acquisition.

(in millions)

Current assets	\$ 20.1
Property, plant and equipment	0.1
Goodwill	349.7
Trademark	36.4
Other assets	20.7
 Total assets acquired	 427.0
 Current liabilities	 23.8
Long-term liabilities	16.1
 Total liabilities assumed	 39.9
 Net assets acquired	 \$ 387.1

The trademark is not subject to amortization. Approximately \$87 million of the goodwill is expected to be deductible for tax purposes.

Acquisition of Vincor

On June 5, 2006, the Company acquired all of the issued and outstanding common shares of Vincor International Inc. (Vincor), Canada's premier wine company (the Vincor Acquisition). Vincor is Canada's largest producer and marketer of wine. At the time of the acquisition, Vincor was the world's eighth largest producer and distributor of wine and related products by revenue and was also one of the largest wine importers, marketers and distributors in the U.K. Through this transaction, the Company acquired various additional winery and vineyard interests used in the production of premium, super-premium and fine wines from Canada, California, Washington State, Western Australia and New Zealand. In addition, as a result of the acquisition, the Company sources, markets and sells premium wines from South Africa. Well-known premium brands acquired in the Vincor Acquisition include Inniskillin, Jackson-Triggs, Sawmill Creek, Sumac Ridge, R.H. Phillips, Toasted Head, Hogue, Kim Crawford and Kumala.

The Vincor Acquisition supports the Company's strategy of strengthening the breadth of its portfolio across price segments and geographic regions to capitalize on the overall growth in the wine industry. In addition to complementing the Company's current operations in the U.S., U.K., Australia and New Zealand, the Vincor Acquisition increases the Company's global presence by adding Canada as another core market and provides the Company with the ability to capitalize on broader geographic distribution in strategic international markets. In addition, the Vincor Acquisition makes the Company the largest wine company in Canada and strengthens the Company's position as the largest wine company in the world and the largest premium wine company in the U.S.

Total consideration paid in cash to the Vincor shareholders was \$1,115.8 million. In addition, the Company incurred direct acquisition costs of \$9.4 million. At closing, the Company also assumed outstanding indebtedness of Vincor, net of cash acquired, of \$320.2 million. The purchase price was financed with borrowings under the Company's June 2006 Credit Agreement. In accordance with the purchase method of accounting, the acquired net assets are recorded at fair value at the date of acquisition. The purchase price was based primarily on the estimated future operating results of the Vincor business, including the factors described above, as well as an estimated benefit from operating cost synergies.

Table of Contents

In connection with the Vincor Acquisition, the Company entered into a foreign currency forward contract to fix the U.S. dollar cost of the acquisition and the payment of certain outstanding indebtedness in April 2006. During the year ended February 28, 2007, the Company recorded a gain of \$55.1 million in connection with this derivative instrument. Under SFAS No. 133, a transaction that involves a business combination is not eligible for hedge accounting treatment. As such, the gain was recognized separately on the Company's Consolidated Statements of Operations.

The results of operations of the Vincor business are reported in the Constellation Wines segment and are included in the consolidated results of operations of the Company from the date of acquisition.

The following table summarizes the fair values of the assets acquired and liabilities assumed in the Vincor Acquisition at the date of acquisition:

<i>(in millions)</i>	
Current assets	\$ 389.1
Property, plant and equipment	241.4
Goodwill	871.6
Trademarks	224.3
Other assets	49.4
 Total assets acquired	 1,775.8
 Current liabilities	 413.6
Long-term liabilities	237.0
 Total liabilities assumed	 650.6
 Net assets acquired	 \$ 1,125.2

The trademarks are not subject to amortization. None of the goodwill is expected to be deductible for tax purposes.

Other

During the year ended February 28, 2009, the Company completed its acquisition of the remaining 50% ownership interest in a Canadian joint venture distribution business for a purchase price of \$12.8 million. During the year ended February 29, 2008, the Company completed its acquisition of several immaterial businesses for a total combined purchase price of \$27.4 million.

Table of Contents

The following table sets forth the unaudited pro forma results of operations of the Company for the years ended February 29, 2008, and February 28, 2007, respectively. The unaudited pro forma results of operations for the year ended February 29, 2008, give effect to the BWE Acquisition as if it occurred on March 1, 2006. The unaudited pro forma results of operations for the year ended February 29, 2008, are not presented to give effect to the Svedka Acquisition as if it had occurred on March 1, 2006, as it is not significant. The unaudited pro forma results of operations for the year ended February 28, 2007, give effect to the BWE Acquisition, the Svedka Acquisition, and the Vincor Acquisition as if they occurred on March 1, 2006. The unaudited pro forma results of operations are presented after giving effect to certain adjustments for depreciation, amortization of certain intangible assets and deferred financing costs, interest expense on acquisition financing, interest expense associated with adverse grape contracts, and related income tax effects. The unaudited pro forma results of operations are based upon currently available information and certain assumptions that the Company believes are reasonable under the circumstances. The unaudited pro forma results of operations for the year ended February 28, 2007, do not reflect total pretax nonrecurring charges of \$29.5 million (\$0.09 per share on a diluted basis) related to transaction costs, primarily for the acceleration of vesting of stock options, legal fees and investment banker fees, all of which were incurred by Vincor prior to the acquisition. The unaudited pro forma results of operations do not purport to present what the Company's results of operations would actually have been if the aforementioned transactions had in fact occurred on such date or at the beginning of the period indicated, nor do they project the Company's financial position or results of operations at any future date or for any future period.

	For the Years Ended	
	February 29, 2008	February 28, 2007
<i>(in millions, except per share data)</i>		
Net sales	\$ 3,984.0	\$ 5,589.1
(Loss) income before income taxes	\$ (450.0)	\$ 441.7

(Loss) income available to common stockholders	\$ (622.1)	\$ 263.7
(Loss) earnings per common share basic:		
Class A Common Stock	\$ (2.87)	\$ 1.16
Class B Convertible Common Stock	\$ (2.61)	\$ 1.06
(Loss) earnings per common share diluted:		
Class A Common Stock	\$ (2.87)	\$ 1.12
Class B Convertible Common Stock	\$ (2.61)	\$ 1.03
Weighted average common shares outstanding basic:		
Class A Common Stock	195.135	204.966
Class B Convertible Common Stock	23.812	23.840
Weighted average common shares outstanding diluted:		
Class A Common Stock	195.135	239.772
Class B Convertible Common Stock	23.812	23.840

Table of Contents**4. PROPERTY, PLANT AND EQUIPMENT:**

The major components of property, plant and equipment are as follows:

<i>(in millions)</i>	February 28, 2009	February 29, 2008
Land and land improvements	\$ 326.2	\$ 394.4
Vineyards	189.6	259.0
Buildings and improvements	409.5	516.6
Machinery and equipment	1,213.7	1,430.5
Motor vehicles	36.6	43.1
Construction in progress	48.1	99.0
	2,223.7	2,742.6
Less Accumulated depreciation	(676.2)	(707.6)
	\$ 1,547.5	\$ 2,035.0

5. FAIR VALUE MEASUREMENTS:

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157 (SFAS No. 157), Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and states that a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. In February 2008, the FASB issued FASB Staff Position No. FAS 157-2 (FSP No. 157-2), Effective Date of FASB Statement No. 157. FSP No. 157-2 amended SFAS No. 157 to defer the effective date of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis, at least annually, including goodwill and trademarks. On March 1, 2008, the Company adopted the provisions of SFAS No. 157 that were not deferred by FSP No. 157-2. The adoption of these provisions of SFAS No. 157 did not have a material impact on the Company's consolidated financial statements. In accordance with FSP No. 157-2, the Company is required to adopt the remaining provisions of SFAS No. 157 on March 1, 2009. The adoption of the remaining provisions of SFAS No. 157 on March 1, 2009, did not have a material impact on the Company's consolidated financial statements.

SFAS No. 157 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The hierarchy is broken down into three levels: Level 1 inputs are quoted prices in active markets for identical assets or liabilities; Level 2 inputs include data points that are observable such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) such as interest rates and yield curves that are observable for the asset and liability, either directly or indirectly; Level 3 inputs are unobservable data points for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

Table of Contents

The following table presents the fair value hierarchy for the Company's financial assets and liabilities measured at fair value on a recurring basis as of February 28, 2009:

	Fair Value Measurements as of February 28, 2009			Total
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
<i>(in millions)</i>				
Recurring Fair Value Measures				
Assets:				
Foreign currency contracts	\$	\$ 78.7	\$	\$ 78.7
Liabilities:				
Foreign currency contracts	\$	\$ 71.1	\$	\$ 71.1
Interest rate swap contracts		51.1		51.1
Total	\$	\$ 122.2	\$	\$ 122.2

The Company's foreign currency contracts consist of foreign currency forward and option contracts which are valued using market-based inputs, obtained from independent pricing services, into valuation models. These valuation models require various inputs, including contractual terms, market foreign exchange prices, interest-rate yield curves and currency volatilities. Interest rate swap fair values are based on quotes from respective counterparties. Quotes are corroborated by the Company using discounted cash flow calculations based upon forward interest-rate yield curves, which are obtained from independent pricing services.

6. GOODWILL:

The changes in the carrying amount of goodwill are as follows:

	Constellation Wines	Constellation Spirits	Crown Imports	Consolidations and Eliminations	Consolidated
<i>(in millions)</i>					
Balance, February 28, 2007	\$ 2,939.5	\$ 144.4	\$ 13.0	\$ (13.0)	\$ 3,083.9
Purchase accounting allocations	309.3	362.7			672.0
Foreign currency translation adjustments	144.4	2.7			147.1
Purchase price earn-out	1.2				1.2
Disposal of businesses	(180.4)				(180.4)
Impairment of goodwill	(599.9)				(599.9)
Balance, February 29, 2008	2,614.1	509.8	13.0	(13.0)	3,123.9
Purchase accounting allocations	23.8				23.8
Foreign currency translation adjustments	(245.7)	(4.0)			(249.7)
Disposal of businesses	(15.8)	(14.5)			(30.3)
Impairment of goodwill	(252.7)				(252.7)

Edgar Filing: CONSTELLATION BRANDS, INC. - Form 10-K

Balance, February 28, 2009	\$ 2,123.7	\$ 491.3	\$ 13.0	\$ (13.0)	\$ 2,615.0
----------------------------	------------	----------	---------	-----------	------------

Table of Contents

For the year ended February 29, 2008, the changes in the carrying amount of goodwill consist of the following components. The Constellation Spirits segment's purchase accounting allocations totaling \$362.7 million consist primarily of purchase accounting allocations associated with the Svedka Acquisition. The Constellation Wines segment's purchase accounting allocations totaling \$309.3 million consist primarily of purchase accounting allocations of \$320.1 million associated with the BWE Acquisition, partially offset by a reduction of \$17.3 million in connection with an adjustment to income taxes payable acquired in a prior acquisition. Disposal of businesses within the Constellation Wines segment consist of \$143.4 million related to the Company's reduction of goodwill in connection with the Company's contribution of its U.K. wholesale business associated with the formation of a joint venture with Punch Taverns plc (Punch) (see Note 8) and \$37.0 million related to the Company's reduction of goodwill in connection with the Company's sale of the Almaden and Inglenook wine brands and certain other assets. In February 2008, as part of ongoing efforts to increase focus on premium wine offerings in the U.S., the Company sold its lower margin popular-priced wine brands, Almaden and Inglenook, and certain other assets for cash proceeds of \$133.5 million, net of direct costs to sell. The Company recorded a loss of \$27.8 million on this sale which is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

For the year ended February 28, 2009, the changes in the carrying amount of goodwill consist of the following components. The Constellation Wines segment's purchase accounting allocations totaling \$23.8 million consist primarily of purchase accounting allocations associated with the BWE Acquisition of \$14.5 million and purchase accounting allocations associated with the purchase of an immaterial business of \$6.4 million. The Constellation Wines segment's disposal of business consists of the Company's reduction of goodwill in connection with the June 2008 sale of the Pacific Northwest Business. The Constellation Spirits segment's disposal of business consists of the impairment of goodwill on an asset group held for sale in connection with the March 2009 sale of the value spirits business.

7. INTANGIBLE ASSETS:

The major components of intangible assets are:

	February 28, 2009		February 29, 2008	
	Gross Carrying Amount	Net Carrying Amount	Gross Carrying Amount	Net Carrying Amount
<i>(in millions)</i>				
Amortizable intangible assets:				
Customer relationships	\$ 80.0	\$ 70.3	\$ 67.3	\$ 62.0
Other	11.4	5.4	12.7	6.5
Total	\$ 91.4	75.7	\$ 80.0	68.5
Nonamortizable intangible assets:				
Trademarks		915.2		1,117.3
Other		9.7		4.2
Total		924.9		1,121.5
Total intangible assets		\$ 1,000.6		\$ 1,190.0

Table of Contents

The difference between the gross carrying amount and net carrying amount for each item presented is attributable to accumulated amortization. Amortization expense for intangible assets was \$6.8 million, \$4.8 million and \$2.8 million for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, respectively. Estimated amortization expense for each of the five succeeding fiscal years and thereafter is as follows:

(in millions)

2010	\$ 6.3
2011	\$ 6.0
2012	\$ 5.4
2013	\$ 5.3
2014	\$ 5.3
Thereafter	\$47.4

8. OTHER ASSETS:

The major components of other assets are as follows:

(in millions)	February 28, 2009	February 29, 2008
Investments in equity method investees	\$ 258.1	\$ 394.1
Deferred financing costs	44.0	51.4
Other	57.2	80.6
	359.3	526.1
Less Accumulated amortization	(20.4)	(21.2)
	\$ 338.9	\$ 504.9

*Investment in equity method investees**Matthew Clark:*

On April 17, 2007, the Company and Punch commenced operations of a joint venture for the U.K. wholesale business (Matthew Clark). The U.K. wholesale business was formerly owned entirely by the Company. Under the terms of the arrangement, the Company and Punch, directly or indirectly, each have a 50% voting and economic interest in Matthew Clark. The Company received \$185.6 million of cash proceeds from the formation of the joint venture.

Upon formation of the joint venture, the Company discontinued consolidation of the U.K. wholesale business and accounts for the investment in Matthew Clark under the equity method. Accordingly, the results of operations of Matthew Clark are included in the equity in earnings of equity method investees line on the Company's Consolidated Statements of Operations from the date of investment. As of February 28, 2009, and February 29, 2008, the Company's investment in Matthew Clark was \$28.8 million and \$75.8 million, respectively. For the year ended February 28, 2009, the Company recorded an other-than-temporary impairment of its investment in Matthew Clark of \$30.1 million. The Company did not receive any cash distributions from Matthew Clark for the years ended February 28, 2009, and February 29, 2008.

Amounts sold to Matthew Clark for the years ended February 28, 2009, and February 29, 2008, were not material. As of February 28, 2009, and February 29, 2008, amounts receivable from Matthew Clark were not material.

Table of Contents*Crown Imports:*

On January 2, 2007, Barton Beers, Ltd. (Barton now known as Constellation Beers Ltd. Constellation Beers), an indirect wholly-owned subsidiary of the Company, and Diblo, S.A. de C.V. (Diblo), an entity owned 76.75% by Grupo Modelo, S.A.B. de C.V. (Modelo) and 23.25% by Anheuser-Busch Companies, Inc., completed the formation of Crown Imports LLC (Crown Imports), a joint venture in which Constellation Beers and Diblo each have, directly or indirectly, equal interests. Crown Imports has the exclusive right to import, market and sell Modelo s Mexican beer portfolio (the Modelo Brands) in the 50 states of the U.S., the District of Columbia and Guam. In addition, the owners of the Tsingtao and St. Pauli Girl brands have transferred exclusive importing, marketing and selling rights with respect to those brands in the U.S. to the joint venture. The importer agreement that previously gave Barton the exclusive right to import, market and sell the Modelo Brands primarily west of the Mississippi River was superseded by the transactions consummated by the newly formed joint venture.

Upon commencement of operations of the joint venture, the Company discontinued consolidation of the imported beer business and accounts for the investment in Crown Imports under the equity method. Accordingly, the results of operations of Crown Imports are included in the equity in earnings of equity method investees line on the Company s Consolidated Statements of Operations from the date of investment. As of February 28, 2009, and February 29, 2008, the Company s investment in Crown Imports was \$136.9 million and \$150.5 million, respectively. The carrying amount of the investment is greater than the Company s equity in the underlying assets of Crown Imports by \$13.6 million due to the difference in the carrying amounts of the indefinite lived intangible assets contributed to Crown Imports by each party. The Company received \$265.9 million and \$268.0 million of cash distributions from Crown Imports for the years ended February 28, 2009, and February 29, 2008, respectively, all of which represent distributions of earnings. The Company did not receive any cash distributions from Crown Imports for the year ended February 28, 2007.

Constellation Beers provides certain administrative services to Crown Imports. Amounts related to the performance of these services for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, were not material. In addition, as of February 28, 2009, and February 29, 2008, amounts receivable from Crown Imports were not material.

Other:

In connection with prior acquisitions, the Company acquired several investments which are being accounted for under the equity method. The primary investment consists of Opus One, a 50% owned joint venture arrangement. As of February 28, 2009, and February 29, 2008, the Company s investment in Opus One was \$55.2 million and \$63.7 million, respectively. The percentage of ownership of the remaining investments ranges from 20% to 50%.

In addition, the Company has a 40% interest in Ruffino, the well-known Italian fine wine company. The Company does not have a controlling interest in Ruffino or exert any managerial control. The Company accounts for the investment in Ruffino under the equity method; accordingly, the results of operations of Ruffino are included in the equity in earnings of equity method investees line on the Company s Consolidated Statements of Operations from the date of investment. As of February 28, 2009, and February 29, 2008, the Company s investment in Ruffino was \$24.8 million and \$84.5 million, respectively. For the years ended February 28, 2009, and February 29, 2008, the Company recorded other-than-temporary impairments of its investment in Ruffino of \$48.6 million and \$15.1 million, respectively.

Table of Contents

As of February 1, 2005, the Company's Constellation Wines segment began distribution of Ruffino's products in the U.S. Amounts purchased from Ruffino under this arrangement for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, were not material. As of February 28, 2009, and February 29, 2008, amounts payable to Ruffino were not material.

Summarized financial information for the Company's Crown Imports equity method investment and other material equity method investments are presented below. The amounts shown represent 100% of these equity method investments' financial position and results of operations.

Senior credit facility -

In connection with the Vincor Acquisition, on June 5, 2006, the Company and certain of its U.S. subsidiaries, JPMorgan Chase Bank, N.A. as a lender and administrative agent, and certain other agents, lenders, and financial institutions entered into a new credit agreement (the June 2006 Credit Agreement). On February 23, 2007, and on November 19, 2007, the June 2006 Credit Agreement was amended (collectively, the 2007 Amendments). The June 2006 Credit Agreement together with the 2007 Amendments is referred to as the 2006 Credit Agreement. The 2006 Credit Agreement provides for aggregate credit facilities of \$3.9 billion, consisting of a \$1.2 billion tranche A term loan facility due in June 2011, a \$1.8 billion tranche B term loan facility due in June 2013, and a \$900 million revolving credit facility (including a sub-facility for letters of credit of up to \$200 million) which terminates in June 2011. Proceeds of the June 2006 Credit Agreement were used to pay off the Company's obligations under its

prior senior credit facility, to fund the Vincor Acquisition and to repay certain indebtedness of Vincor. The Company uses its revolving credit facility under the 2006 Credit Agreement for general corporate purposes, including working capital, on an as needed basis.

Table of Contents

As of February 28, 2009, the required principal repayments of the tranche A term loan and the tranche B term loan for each of the five succeeding fiscal years are as follows:

<i>(in millions)</i>	Tranche A Term Loan	Tranche B Term Loan	Total
2010	\$	\$	\$
2011	225.0	4.0	229.0
2012	150.0	4.0	154.0
2013		714.0	714.0
2014		712.0	712.0
	\$ 375.0	\$ 1,434.0	\$ 1,809.0

The rate of interest on borrowings under the 2006 Credit Agreement is a function of LIBOR plus a margin, the federal funds rate plus a margin, or the prime rate plus a margin. The margin is fixed with respect to the tranche B term loan facility and is adjustable based upon the Company's debt ratio (as defined in the 2006 Credit Agreement) with respect to the tranche A term loan facility and the revolving credit facility. As of February 28, 2009, the LIBOR margin for the revolving credit facility and the tranche A term loan facility is 1.25%, while the LIBOR margin on the tranche B term loan facility is 1.50%.

The February 23, 2007, amendment amended the June 2006 Credit Agreement to, among other things, (i) increase the revolving credit facility from \$500.0 million to \$900.0 million, which increased the aggregate credit facilities from \$3.5 billion to \$3.9 billion; (ii) increase the aggregate amount of cash payments the Company is permitted to make in respect or on account of its capital stock; (iii) remove certain limitations on the incurrence of senior unsecured indebtedness and the application of proceeds thereof; (iv) increase the maximum permitted total Debt Ratio and decrease the required minimum Interest Coverage Ratio; and (v) eliminate the Senior Debt Ratio covenant and the Fixed Charges Ratio covenant. The November 19, 2007, amendment clarified certain provisions governing the incurrence of senior unsecured indebtedness and the application of proceeds thereof under the June 2006 Credit Agreement, as previously amended.

The Company's obligations are guaranteed by certain of its U.S. subsidiaries. These obligations are also secured by a pledge of (i) 100% of the ownership interests in certain of the Company's U.S. subsidiaries and (ii) 65% of the voting capital stock of certain of the Company's foreign subsidiaries.

The Company and its subsidiaries are also subject to covenants that are contained in the 2006 Credit Agreement, including those restricting the incurrence of additional indebtedness (including guarantees of indebtedness), additional liens, mergers and consolidations, disposition or acquisition of property, the payment of dividends, transactions with affiliates and the making of certain investments, in each case subject to numerous conditions, exceptions and thresholds. The financial covenants are limited to maximum total debt coverage ratios and minimum interest coverage ratios.

As of February 28, 2009, under the 2006 Credit Agreement, the Company had outstanding tranche A term loans of \$375.0 million bearing an interest rate of 2.2%, tranche B term loans of \$1,434.0 million bearing an interest rate of 3.3%, revolving loans of \$67.2 million bearing an interest rate of 1.7%, outstanding letters of credit of \$32.0 million, and \$800.8 million in revolving loans available to be drawn.

Table of Contents

In March 2005, the Company replaced its then outstanding five year interest rate swap agreements with new five year delayed start interest rate swap agreements effective March 1, 2006, which are outstanding as of February 28, 2009. These delayed start interest rate swap agreements extended the original hedged period through fiscal 2010. The swap agreements fixed LIBOR interest rates on \$1,200.0 million of the Company's floating LIBOR rate debt at an average rate of 4.1% over the five year term. The Company received \$30.3 million in proceeds from the unwinding of the original swaps. This amount is being reclassified from Accumulated Other Comprehensive Income (AOCI) ratably into earnings in the same period in which the original hedged item is recorded in the Consolidated Statements of Operations. For the years ended February 28, 2009, February 29, 2008, and February 28, 2007, the Company reclassified \$12.6 million, \$7.1 million and \$5.9 million, net of income tax effect, respectively, from AOCI to interest expense, net on the Company's Consolidated Statements of Operations. This non-cash operating activity is included in the other, net line in the Company's Consolidated Statements of Cash Flows.

Senior notes

In August 1999, the Company issued \$200.0 million aggregate principal amount of 8 5/8% Senior Notes due August 2006 (the August 1999 Senior Notes). On August 1, 2006, the Company repaid the August 1999 Senior Notes with proceeds from its revolving credit facility under the June 2006 Credit Agreement.

In February 2001, the Company issued \$200.0 million aggregate principal amount of 8% Senior Notes due February 2008 (the February 2001 Senior Notes). On February 15, 2008, the Company repaid the February 2001 Senior Notes with proceeds from its revolving credit facility under the 2006 Credit Agreement.

On November 17, 1999, the Company issued £75.0 million (\$121.7 million upon issuance) aggregate principal amount of 8 1/2% Senior Notes due November 2009 (the Sterling Senior Notes). Interest on the Sterling Senior Notes is payable semiannually on May 15 and November 15. In March 2000, the Company exchanged £75.0 million aggregate principal amount of 8 1/2% Series B Senior Notes due in November 2009 (the Sterling Series B Senior Notes) for all of the Sterling Senior Notes. The terms of the Sterling Series B Senior Notes are identical in all material respects to the Sterling Senior Notes. In October 2000, the Company exchanged £74.0 million aggregate principal amount of Sterling Series C Senior Notes (as defined below) for £74.0 million of the Sterling Series B Notes. The terms of the Sterling Series C Senior Notes are identical in all material respects to the Sterling Series B Senior Notes. As of February 28, 2009, and February 29, 2008, the Company had outstanding £1.0 million (\$1.4 million and \$2.0 million, respectively) aggregate principal amount of Sterling Series B Senior Notes.

On May 15, 2000, the Company issued £80.0 million (\$120.0 million upon issuance) aggregate principal amount of 8 1/2% Series C Senior Notes due November 2009 at an issuance price of £79.6 million (\$119.4 million upon issuance, net of \$0.6 million unamortized discount, with an effective interest rate of 8.6%) (the Sterling Series C Senior Notes). Interest on the Sterling Series C Senior Notes is payable semiannually on May 15 and November 15. As of February 28, 2009, and February 29, 2008, the Company had outstanding £154.0 million (\$220.5 million, net of \$0.1 million unamortized discount, and \$306.1 million, net of \$0.2 million unamortized discount, respectively) aggregate principal amount of Sterling Series C Senior Notes.

Table of Contents

On August 15, 2006, the Company issued \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due September 2016 at an issuance price of \$693.1 million (net of \$6.9 million unamortized discount, with an effective interest rate of 7.4%) (the August 2006 Senior Notes). The net proceeds of the offering (\$685.6 million) were used to reduce a corresponding amount of borrowings under the Company's June 2006 Credit Agreement. Interest on the August 2006 Senior Notes is payable semiannually on March 1 and September 1 of each year, beginning March 1, 2007. As of February 28, 2009, and February 29, 2008, the Company had outstanding \$694.4 million (net of \$5.6 million unamortized discount) and \$693.9 million (net of \$6.1 million unamortized discount), respectively, aggregate principal amount of August 2006 Senior Notes.

On May 14, 2007, the Company issued \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due May 2017 (the Original May 2007 Senior Notes). The net proceeds of the offering (\$693.9 million) were used to reduce a corresponding amount of borrowings under the revolving portion of the Company's 2006 Credit Agreement. Interest on the Original May 2007 Senior Notes is payable semiannually on May 15 and November 15 of each year, beginning November 15, 2007. In January 2008, the Company exchanged \$700.0 million aggregate principal amount of 7 1/4% Senior Notes due May 2017 (the May 2007 Senior Notes) for all of the Original May 2007 Senior Notes. The terms of the May 2007 Senior Notes are substantially identical in all material respects to the Original May 2007 Senior Notes, except that the May 2007 Senior Notes are registered under the Securities Act of 1933, as amended. As of February 28, 2009, and February 29, 2008, the Company had outstanding \$700.0 million aggregate principal amount of May 2007 Senior Notes.

On December 5, 2007, the Company issued \$500.0 million aggregate principal amount of 8 3/8% Senior Notes due December 2014 at an issuance price of \$496.7 million (net of \$3.3 million unamortized discount, with an effective interest rate of 8.5%) (the December 2007 Senior Notes). The net proceeds of the offering (\$492.2 million) were used to fund a portion of the purchase price of BWE. Interest on the December 2007 Senior Notes is payable semiannually on June 15 and December 15 of each year, beginning June 15, 2008. As of February 28, 2009, and February 29, 2008, the Company had outstanding \$497.2 million (net of \$2.8 million unamortized discount) and \$496.8 million (net of \$3.2 million unamortized discount), respectively, aggregate principal amount of December 2007 Senior Notes.

The senior notes described above are redeemable, in whole or in part, at the option of the Company at any time at a redemption price equal to 100% of the outstanding principal amount and a make whole payment based on the present value of the future payments at the adjusted Treasury Rate or adjusted Gilt rate plus 50 basis points. The senior notes are senior unsecured obligations and rank equally in right of payment to all existing and future senior unsecured indebtedness of the Company. Certain of the Company's significant U.S. operating subsidiaries guarantee the senior notes, on a senior unsecured basis.

Senior subordinated notes

On January 23, 2002, the Company issued \$250.0 million aggregate principal amount of 8 1/8% Senior Subordinated Notes due January 2012 (January 2002 Senior Subordinated Notes). Interest on the January 2002 Senior Subordinated Notes is payable semiannually on January 15 and July 15. The January 2002 Senior Subordinated Notes are redeemable at the option of the Company, in whole or in part, at any time on or after January 15, 2007. The January 2002 Senior Subordinated Notes are unsecured and subordinated to the prior payment in full of all senior indebtedness of the Company, which includes the senior credit facility. The January 2002 Senior Subordinated Notes are guaranteed, on a senior subordinated unsecured basis, by certain of the Company's significant U.S. operating subsidiaries. As of February 28, 2009, and February 29, 2008, the Company had outstanding \$250.0 million aggregate principal amount of January 2002 Senior Subordinated Notes.

Table of Contents*Trust Indentures*

Certain of the Company's Trust Indentures relating to the senior notes and senior subordinated notes contain certain covenants, including, but not limited to: (i) limitation on indebtedness; (ii) limitation on restricted payments; (iii) limitation on transactions with affiliates; (iv) limitation on senior subordinated indebtedness; (v) limitation on liens; (vi) limitation on sale of assets; (vii) limitation on issuance of guarantees of and pledges for indebtedness; (viii) restriction on transfer of assets; (ix) limitation on subsidiary capital stock; (x) limitation on dividends and other payment restrictions affecting subsidiaries; and (xi) restrictions on mergers, consolidations and the transfer of all or substantially all of the assets of the Company to another person. The limitation on indebtedness covenant is governed by a rolling four quarter fixed charge ratio requiring a specified minimum.

Subsidiary credit facilities

In addition to the above arrangements, the Company has additional credit arrangements totaling \$334.6 million and \$397.0 million as of February 28, 2009, and February 29, 2008, respectively. These arrangements primarily support the financing needs of the Company's domestic and foreign subsidiary operations. Interest rates and other terms of these borrowings vary from country to country, depending on local market conditions. As of February 28, 2009, and February 29, 2008, amounts outstanding under these arrangements were \$193.9 million and \$130.7 million, respectively.

Debt payments

Principal payments required under long-term debt obligations (excluding unamortized discount of \$8.5 million) during the next five fiscal years and thereafter are as follows:

(in millions)

2010	\$ 235.3
2011	243.3
2012	405.6
2013	715.6
2014	713.5
Thereafter	1,901.5
	\$ 4,214.8

11. INCOME TAXES:

(Loss) income before income taxes was generated as follows:

<i>(in millions)</i>	For the Years Ended		
	February 28, 2009	February 29, 2008	February 28, 2007
Domestic	\$ 401.9	\$ 231.3	\$ 449.2
Foreign	(508.7)	(671.9)	86.1
	\$ (106.8)	\$ (440.6)	\$ 535.3

Table of Contents

The income tax provision (benefit) consisted of the following:

<i>(in millions)</i>	For the Years Ended		
	February 28, 2009	February 29, 2008	February 28, 2007
Current:			
Federal	\$ 133.8	\$ 57.2	\$ 112.8
State	36.4	11.8	15.1
Foreign	22.1	5.7	22.8
Total current	192.3	74.7	150.7
Deferred:			
Federal	22.7	55.1	55.4

Foreign	(16.9)	33.7	(16.8)
Total deferred	2.3	98.0	52.7
Income tax provision	\$ 194.6	\$ 172.7	\$ 203.4

The foreign provision (benefit) for income taxes is based on foreign pretax earnings. Earnings of foreign subsidiaries would be subject to U.S. income taxation on repatriation to the U.S. The Company's consolidated financial statements provide for anticipated tax liabilities on amounts that may be repatriated.

Deferred tax assets and liabilities reflect the future income tax effects of temporary differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases and are measured using enacted tax rates that apply to taxable income.

Significant components of deferred tax assets (liabilities) consist of the following:

<i>(in millions)</i>	February 28, 2009	February 29, 2008
Deferred tax assets:

Long-term deferred tax assets	1.7	
Current deferred tax liabilities		(2.0)
Long-term deferred tax liabilities	(543.6)	(535.8)
	\$ (481.6)	\$ (455.1)

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some or all of the deferred tax assets will not be realized. Management considers the projected reversal of deferred tax liabilities and projected future taxable income in making this assessment. Based upon this assessment, management believes it is more likely than not that the Company will realize the benefits of these deductible differences, net of any valuation allowances. During the fourth quarter of fiscal 2008, lower estimates of future operating results and cash flows negatively impacted the Company's assessment regarding the realizability of certain net operating losses and intangible assets resulting in the recording of additional valuation allowances. During the year ended February 28, 2009, the Company recorded additional valuation allowances, primarily associated with its Australian business, as a result of continuing operating losses for this business.

Operating loss carryforwards totaling \$383.7 million at February 28, 2009, are being carried forward in a number of foreign jurisdictions where the Company is permitted to use tax operating losses from prior periods to reduce future taxable income. Of these operating loss carryforwards, \$46.2 million will expire in 2011 through 2027 and \$337.5 million of operating losses in foreign jurisdictions may be carried forward indefinitely.

The Company is subject to ongoing tax examinations and assessments in various jurisdictions. Accordingly, the Company provides for additional tax expense based on probable outcomes of such matters. While it is often difficult to predict the final outcome or the timing of resolution of any particular tax matter, the Company believes the reserves reflect the probable outcome of known tax contingencies. Unfavorable settlement of any particular issue would require use of cash. Favorable resolution would be recognized as a reduction to the effective tax rate in the year of resolution. During the year ended February 28, 2009, various federal, state, and international examinations were finalized. A tax benefit of \$12.1 million was recorded primarily related to the resolution of certain tax positions in connection with those examinations.

Table of Contents

A reconciliation of the total tax provision to the amount computed by applying the statutory U.S. Federal income tax rate to (loss) income before provision for income taxes is as follows:

	February 28, 2009		For the Years Ended February 29, 2008		February 28, 2007	
	Amount	% of Pretax Income	Amount	% of Pretax Income	Amount	% of Pretax Income
<i>(in millions, except % of pretax income data)</i>						
Income tax (benefit) provision at statutory rate	\$ (37.4)	35.0	\$ (154.2)	35.0	\$ 187.3	35.0
State and local income taxes, net of federal income tax benefit	21.3	(20.0)	13.6	(3.1)	19.0	3.5
Write-off of non-deductible goodwill, equity method investments and other intangible assets	131.5	(123.1)	277.8	(63.1)	7.9	1.5
Net operating loss valuation allowance	67.4	(63.2)	51.7	(11.7)		
Nontaxable foreign exchange gains and losses	11.4	(10.6)	(7.2)	1.6		
Earnings of subsidiaries taxed at other than U.S. statutory rate	(3.5)	3.3	(12.5)	2.8	(14.4)	(2.7)
Miscellaneous items, net	3.9	(3.6)	3.5	(0.7)	3.6	0.7
	\$ 194.6	(182.2)	\$ 172.7	(39.2)	\$ 203.4	38.0

The effect of earnings of foreign subsidiaries includes the difference between the U.S. statutory rate and local jurisdiction tax rates, as well as the (benefit) provision for incremental U.S. taxes on unremitted earnings of foreign subsidiaries offset by foreign tax credits and other foreign adjustments.

Effective March 1, 2007, the Company adopted Financial Accounting Standards Board Interpretation No. 48 (FIN No. 48), Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109. FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. As of February 28, 2009, the liability for income taxes associated with uncertain tax positions, excluding interest and penalties, was \$136.7 million. A reconciliation of the beginning and ending unrecognized tax benefit liabilities is as follows:

<i>(in millions)</i>	
Balance, March 1, 2008	\$ (131.1)
Increases in unrecognized tax benefit liabilities as a result of tax positions taken during a prior period	(13.4)
Decreases in unrecognized tax benefit liabilities as a result of tax positions taken during a prior period	13.2
Increases in unrecognized tax benefit liabilities as a result of tax positions taken during the current period	(20.9)
Decreases in unrecognized tax benefit liabilities related to settlements with tax authorities	13.4
Decreases in unrecognized tax benefit liabilities related to lapse of applicable statute of limitations	2.1
Balance, February 28, 2009	\$ (136.7)

As of February 28, 2009, and February 29, 2008, the Company had \$132.1 million and \$142.5 million, respectively, of non-current unrecognized tax benefit liabilities, including interest and penalties, recorded in other liabilities on the Company's Consolidated Balance Sheet. These liabilities are recorded as non-current as payment of cash is not anticipated within one year of the balance sheet date.

Table of Contents

As of February 28, 2009, and February 29, 2008, the Company had \$106.9 million and \$87.3 million, respectively, of unrecognized tax benefit liabilities that, if recognized, would decrease the effective tax rate.

In accordance with the Company's accounting policy, the Company recognizes interest and penalties related to unrecognized tax benefit liabilities as a component of the provision for income taxes on the Company's Consolidated Statements of Operations. This policy did not change as a result of the adoption of FIN No. 48. For the years ended February 28, 2009, and February 29, 2008, the Company recorded \$1.4 million and \$8.3 million of interest expense, net of income tax effect, and penalties, respectively. As of February 28, 2009, and February 29, 2008, \$16.8 million, net of income tax effect, and \$16.9 million, net of income tax effect, respectively, was included in the liability for uncertain tax positions for the possible payment of interest and penalties.

Various U.S. federal, state and foreign income tax examinations are currently in progress. It is reasonably possible that the liability associated with the Company's unrecognized tax benefit liabilities will increase or decrease within the next twelve months as a result of these examinations or the expiration of statutes of limitation. As of February 28, 2009, the Company estimates that unrecognized tax benefit liabilities could change by a range of zero to \$77 million. The Company files U.S. federal income tax returns and various state, local and foreign income tax returns. Major tax jurisdictions where the Company is subject to examination by tax authorities include Australia, Canada, New Zealand, the U.K. and the U.S. With few exceptions, the Company is no longer subject to U.S. federal, state, local or foreign income tax examinations for fiscal years prior to February 29, 2004.

12. OTHER LIABILITIES:

The major components of other liabilities are as follows:

<i>(in millions)</i>	February 28, 2009	February 29, 2008
Unrecognized tax benefit liabilities	\$ 132.1	\$ 142.5
Accrued pension liability	49.0	121.6
Adverse grape contracts (Note 14)	22.5	26.6
Other	83.5	93.4
	\$ 287.1	\$ 384.1

13. DEFINED CONTRIBUTION AND DEFINED BENEFIT PLANS:*Defined contribution plans -*

The Company's retirement and profit sharing plan, the Constellation Brands, Inc. 401(k) and Profit Sharing Plan (the Plan), covers substantially all U.S. employees, excluding those employees covered by collective bargaining agreements. The 401(k) portion of the Plan permits eligible employees to defer a portion of their compensation (as defined in the Plan) on a pretax basis. Participants may defer up to 50% of their compensation for the year, subject to limitations of the Plan. The Company makes a matching contribution of 50% of the first 6% of compensation a participant defers. The amount of the Company's contribution under the profit sharing portion of the Plan is a discretionary amount as determined by the Board of Directors on an annual basis, subject to limitations of the Plan. Company contributions under the Plan were \$14.0 million, \$15.1 million and \$15.2 million for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, respectively.

Table of Contents

In addition to the Plan discussed above, the Company has the Constellation Wines Australia Superannuation Plan (the Constellation Wines Australia Plan) which covers substantially all of its salaried Australian employees. The Constellation Wines Australia Plan has a defined benefit component and a defined contribution component. The Company also has a statutory obligation to provide a minimum defined contribution on behalf of any Australian employees who are not covered by the Constellation Wines Australia Plan. In addition, the Company has a defined contribution plan that covers substantially all of its U.K. employees and a defined contribution plan that covers certain of its Canadian employees. Lastly, in connection with the Vincor Acquisition, the Company acquired the Retirement Plan for Salaried Employees of Vincor International Inc. (the Vincor Retirement Plan) which covers substantially all of its salaried Canadian employees. The Vincor Retirement Plan has a defined benefit component and a defined contribution component. Company contributions under the defined contribution component of the Constellation Wines Australia Plan, the Australian statutory obligation, the U.K. defined contribution plan, the Canadian defined contribution plan and the defined contribution component of the Vincor Retirement Plan aggregated \$8.5 million, \$9.8 million and \$9.3 million for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, respectively.

Defined benefit pension plans -

The Company also has defined benefit pension plans that cover certain of its non-U.S. employees. These consist of a Canadian plan, an U.K. plan, the defined benefit components of the Constellation Wines Australia Plan and the Vincor Retirement Plan, and two defined benefit pension plans acquired in connection with the Vincor Acquisition which cover substantially all of its hourly Canadian employees. The Company adopted the recognition and related disclosure provisions of SFAS No. 158 as of February 28, 2007 (see Note 2). The Company adopted the measurement date provision of SFAS No. 158 as of February 28, 2009. Accordingly, the Company uses the last day of February as its measurement date for all of its plans for the year ended February 28, 2009. For the years ended February 29, 2008, and February 28, 2007, the Company used a December 31 measurement date for all its plans. For the year ended February 28, 2009, in connection with the Company's August 2008 sale of a nonstrategic Canadian distilling facility, the Company recognized a settlement loss and curtailment loss of \$8.6 million and \$0.4 million, respectively, associated with the settlement of the related pension obligation. Net periodic benefit cost reported in the Consolidated Statements of Operations for all of the Company's defined benefit pension plans includes the following components:

<i>(in millions)</i>	For the Years Ended		
	February 28, 2009	February 29, 2008	February 28, 2007
Service cost	\$ 3.9	\$ 5.5	\$ 3.9
Interest cost	23.4	24.9	21.5
Expected return on plan assets	(27.5)	(29.7)	(25.2)
Amortization of prior service cost	0.2	0.4	0.2
Recognized net actuarial loss	6.9	8.4	6.8
Recognized loss due to curtailment	0.4		
Recognized net loss (gain) due to settlement	8.6	(0.8)	(0.3)
Special termination benefits			1.0
Net periodic benefit cost	\$ 15.9	\$ 8.7	\$ 7.9

Table of Contents

The following table summarizes the funded status of the Company's defined benefit pension plans and the related amounts included in the Consolidated Balance Sheets:

<i>(in millions)</i>	February 28, 2009	February 29, 2008
Change in benefit obligation:		
Benefit obligation as of March 1	\$ 507.7	\$ 474.4
SFAS No. 158 measurement date provision	5.1	
Service cost	3.9	5.5
Interest cost	23.4	24.9
Plan participants' contributions	2.1	2.0
Plan amendment	0.4	
Actuarial (gain) loss	(77.7)	0.8
Settlement	(35.8)	(7.1)
Benefits paid	(16.8)	(16.4)
Foreign currency exchange rate changes	(123.5)	23.6
Benefit obligation as of the last day of February	\$ 288.8	\$ 507.7
<i>(in millions)</i>	February 28, 2009	February 29, 2008
Change in plan assets:		
Fair value of plan assets as of March 1	\$ 391.9	\$ 352.1
SFAS No. 158 measurement date provision	(4.5)	
Actual return on plan assets	(14.9)	27.7
Employer contribution	11.2	10.8
Plan participants' contributions	2.1	2.0
Settlement	(33.6)	(7.1)
Benefits paid	(16.9)	(16.4)
Foreign currency exchange rate changes	(95.2)	22.8
Fair value of plan assets as of the last day of February	\$ 240.1	\$ 391.9
Funded status of the plan as of the last day of February:		
Funded status	\$ (48.7)	\$ (115.8)
Employer contributions from measurement date to fiscal year end		0.7
Net amount recognized	\$ (48.7)	\$ (115.1)
Amounts recognized in the Consolidated Balance Sheets consist of:		
Long-term pension asset	\$ 0.4	\$ 6.6
Current accrued pension liability	(0.1)	(0.1)
Long-term accrued pension liability	(49.0)	(121.6)

Edgar Filing: CONSTELLATION BRANDS, INC. - Form 10-K

Net amount recognized	\$ (48.7)	\$ (115.1)
Amounts recognized in accumulated other comprehensive income:		
Unrecognized prior service cost	\$ 0.6	\$ 0.9
Unrecognized actuarial loss	70.0	155.4
Accumulated other comprehensive income, gross	70.6	156.3
Cumulative tax impact	19.7	47.0
Accumulated other comprehensive income, net	\$ 50.9	\$ 109.3

The estimated amounts that will be amortized from accumulated other comprehensive income, net of income tax effect, into net periodic benefit cost over the next fiscal year are as follows:

(in millions)

Prior service cost	\$ 0.1
Net actuarial loss	\$ 2.7

Table of Contents

As of February 28, 2009, and February 29, 2008, the accumulated benefit obligation for all defined benefit pension plans was \$283.1 million and \$494.5 million, respectively. The following table summarizes the projected benefit obligation, accumulated benefit obligation and fair value of plan assets for only those pension plans with an accumulated benefit obligation in excess of plan assets:

	February 28, 2009	February 29, 2008
<i>(in millions)</i>		
Projected benefit obligation	\$ 288.8	\$ 425.1
Accumulated benefit obligation	\$ 283.1	\$ 411.9
Fair value of plan assets	\$ 240.1	\$ 304.4

The following table sets forth the weighted average assumptions used in developing the net periodic pension expense:

	For the Years Ended	
	February 28, 2009	February 29, 2008
Rate of return on plan assets	7.31%	8.08%
Discount rate	5.41%	5.07%
Rate of compensation increase	4.16%	4.00%

The following table sets forth the weighted average assumptions used in developing the benefit obligation:

	February 28, 2009	February 29, 2008
Discount rate	6.82%	5.65%
Rate of compensation increase	4.03%	4.30%

The Company's weighted average expected long-term rate of return on plan assets is 7.31%. The Company considers the historical level of long-term returns and the current level of expected long-term returns for each asset class, as well as the current and expected allocation of assets when developing its expected long-term rate of return on assets assumption. The expected return for each asset class is weighted based on the target asset allocation to develop the expected long-term rate of return on assets assumption for the Company's portfolios.

The following table sets forth the weighted average asset allocations by asset category:

	February 28, 2009	February 29, 2008
Asset Category:		
Equity securities	28.9%	41.1%
Debt securities	24.0%	22.3%
Real estate	0.4%	0.5%
Other	46.7%	36.1%
Total	100.0%	100.0%

Table of Contents

For each of its Canadian, U.K. and Australian defined benefit plans, the Company employs an investment return approach whereby a mix of equities and fixed income investments are used (on a plan by plan basis) to maximize the long-term rate of return on plan assets for a prudent level of risk. From time to time, the Company will target asset allocation on a plan by plan basis to enhance total return while balancing risks. The established weighted average target allocations across all of the Company's plans are approximately 32.0% equity securities, 19.9% fixed income securities, 3.5% real estate and 44.6% other. The other component results primarily from investments held by the Company's U.K. plan and consists primarily of U.K. hedge funds which have characteristics of both equity and fixed income securities. Risk tolerance is established separately for each plan through careful consideration of plan liabilities, plan funded status, and corporate financial condition. The individual investment portfolios contain a diversified blend of equity and fixed-income investments. Equity investments are diversified across each plan's local jurisdiction stocks as well as international stocks, and across multiple asset classifications, including growth, value, and large and small capitalizations. Investment risk is measured and monitored for each plan separately on an ongoing basis through periodic investment portfolio reviews and annual liability measures.

The Company expects to contribute \$6.8 million to its pension plans during the year ended February 28, 2010.

Benefit payments, which reflect expected future service, as appropriate, expected to be paid during the next ten fiscal years are as follows:

(in millions)

2010	\$ 13.2
2011	\$ 15.7
2012	\$ 13.8
2013	\$ 14.9
2014	\$ 16.1
2015 - 2019	\$ 97.6

14. COMMITMENTS AND CONTINGENCIES:

Operating leases -

Step rent provisions, escalation clauses, capital improvement funding and other lease concessions, when present in the Company's leases, are taken into account in computing the minimum lease payments. The minimum lease payments for the Company's operating leases are recognized on a straight-line basis over the minimum lease term. Future payments under noncancelable operating leases having initial or remaining terms of one year or more are as follows during the next five fiscal years and thereafter:

(in millions)

2010	\$ 75.1
2011	63.7
2012	53.4
2013	42.4
2014	36.2
Thereafter	298.0
	\$ 568.8

Rental expense was \$94.4 million, \$88.6 million and \$79.6 million for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, respectively.

Table of Contents*Purchase commitments and contingencies -*

The Company has agreements with suppliers to purchase various spirits of which certain agreements are denominated in British pound sterling. The aggregate minimum purchase obligations under these agreements, based upon exchange rates at February 28, 2009, are estimated to be \$16.1 million for contracts expiring through December 2012.

In connection with previous acquisitions as well as with the BWE Acquisition, the Vincor Acquisition and the acquisition of all of the outstanding capital stock of The Robert Mondavi Corporation (Robert Mondavi), the Company has assumed grape purchase contracts with certain growers and suppliers. In addition, the Company has entered into other grape purchase contracts with various growers and suppliers in the normal course of business. Under the grape purchase contracts, the Company is committed to purchase all grape production yielded from a specified number of acres for a period of time from one to sixteen years. The actual tonnage and price of grapes that must be purchased by the Company will vary each year depending on certain factors, including weather, time of harvest, overall market conditions and the agricultural practices and location of the growers and suppliers under contract. The Company purchased \$446.1 million, \$417.8 million, and \$364.2 million of grapes under contracts for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, respectively. Based on current production yields and published grape prices, the aggregate minimum purchase obligations under these contracts are estimated to be \$1,941.1 million over the remaining terms of the contracts which extend through December 2024.

In connection with previous acquisitions as well as with the BWE Acquisition, the Vincor Acquisition and the Robert Mondavi acquisition, the Company established a liability for the estimated loss on firm purchase commitments assumed at the time of acquisition. As of February 28, 2009, and February 29, 2008, the remaining balance on this liability is \$36.6 million and \$44.4 million, respectively.

The Company's aggregate minimum purchase obligations under bulk wine purchase contracts are estimated to be \$49.2 million over the remaining terms of the contracts which extend through December 2012. The Company's aggregate minimum purchase obligation under a certain raw material purchase contract is estimated to be \$163.1 million over the remaining term of the contract which extends through December 2012.

In connection with a previous acquisition, the Company assumed certain processing contracts which commit the Company to utilize outside services to process and/or package a minimum volume quantity. In addition, the Company has a processing contract utilizing outside services to process a minimum volume of brandy at prices which are dependent on the processing ingredients provided by the Company. The Company's aggregate minimum contractual obligations under these processing contracts are estimated to be \$29.4 million over the remaining terms of the contracts which extend through December 2011.

Employment contracts -

The Company has employment contracts with its executive officers and certain other management personnel with either automatic one year renewals after an initial term or an indefinite term of employment unless terminated by either party. These employment contracts provide for minimum salaries, as adjusted for annual increases, and may include incentive bonuses based upon attainment of specified management goals. These employment contracts may also provide for severance payments in the event of specified termination of employment. In addition, the Company has employment arrangements with certain other management personnel which provide for severance payments in the event of specified termination of employment. As of February 28, 2009, the aggregate commitment for future compensation and severance, excluding incentive bonuses, was \$40.9 million, of which \$2.3 million was accrued.

Table of Contents

Employees covered by collective bargaining agreements -

Approximately 23% of the Company's full-time employees are covered by collective bargaining agreements at February 28, 2009. Agreements expiring within one year cover approximately 19% of the Company's full-time employees.

Legal matters -

In the course of its business, the Company is subject to litigation from time to time. Although the amount of any liability with respect to such litigation cannot be determined, in the opinion of management, such liability will not have a material adverse effect on the Company's financial condition, results of operations or cash flows.

15. STOCKHOLDERS' EQUITY:

Common stock -

Through December 5, 2007, the Company had two classes of common stock: Class A Common Stock and Class B Convertible Common Stock. Class B Convertible Common Stock shares are convertible into shares of Class A Common Stock on a one-to-one basis at any time at the option of the holder. Holders of Class B Convertible Common Stock are entitled to ten votes per share. Holders of Class A Common Stock are entitled to one vote per share and a cash dividend premium. If the Company pays a cash dividend on Class B Convertible Common Stock, each share of Class A Common Stock will receive an amount at least ten percent greater than the amount of the cash dividend per share paid on Class B Convertible Common Stock. In addition, the Board of Directors may declare and pay a dividend on Class A Common Stock without paying any dividend on Class B Convertible Common Stock. However, under the terms of the Company's senior credit facility, the Company is currently constrained from paying cash dividends on its common stock. In addition, the indentures for the Company's outstanding senior notes and senior subordinated notes may restrict the payment of cash dividends on its common stock under certain circumstances.

Effective December 6, 2007, the Company filed a Restated Certificate of Incorporation (the "Restated Certificate") which created a new class of common stock consisting of 15,000,000 shares of Class 1 Common Stock, \$0.01 par value per share (the "Class 1 Common Stock"). The Restated Certificate increased the aggregate number of authorized shares of the Company's common and preferred stock to 361,000,000 shares. While the aggregate number of authorized shares of the Company's common and preferred stock has been increased by the Restated Certificate, the Company's ability to actually issue more shares has not been increased. Because shares of Class 1 Common Stock are convertible into shares of Class A Common Stock, for each share of Class 1 Common Stock issued, the Company must reserve one share of Class A Common Stock for issuance upon the conversion of the share of Class 1 Common Stock. This requirement effectively reduces the number of shares of Class A Common Stock that the Company may issue by the number of shares of Class 1 Common Stock that the Company issues. Because the number of authorized shares of Class A Common Stock was not increased by the Restated Certificate, the aggregate number of shares that the Company is able to issue has not been increased.

Shares of Class 1 Common Stock do not generally have voting rights. Class 1 Common Stock shares are convertible into shares of Class A Common Stock on a one-to-one basis at any time at the option of the holder, provided that the holder immediately sells the Class A Common Stock acquired upon conversion. Holders of Class 1 Common Stock do not have any preference as to dividends, but may participate in any dividend if and when declared by the Board of Directors. If the Company pays a cash dividend on Class 1 Common Stock, each share of Class A Stock will receive an amount at least ten percent greater than the amount of cash dividend per share paid on Class 1 Common Stock. In addition, the Board of Directors may declare and pay a dividend on Class A Common Stock without paying a dividend on Class 1 Common Stock. The cash dividends declared and paid on Class B Convertible Common Stock and Class 1 Stock must always be the same.

Table of Contents

In July 2007, the stockholders of the Company approved an increase in the number of authorized shares of Class A Common Stock from 300,000,000 shares to 315,000,000 shares, thereby increasing the aggregate number of authorized shares of the Company's common and preferred stock to 346,000,000 shares.

At February 28, 2009, there were 195,400,511 shares of Class A Common Stock and 23,743,494 shares of Class B Convertible Common Stock outstanding, net of treasury stock. There were no shares outstanding of Class 1 Common Stock at February 28, 2009.

Stock repurchases -

In February 2006, the Company's Board of Directors replenished a June 1998 Board of Directors authorization to repurchase up to \$100.0 million of the Company's Class A Common Stock and Class B Convertible Common Stock. During the year ended February 28, 2007, the Company repurchased 3,894,978 shares of Class A Common Stock at an aggregate cost of \$100.0 million, or at an average cost of \$25.67 per share. The Company used revolver borrowings under the June 2006 Credit Agreement to pay the purchase price for these shares. The repurchased shares have become treasury shares.

In February 2007, the Company's Board of Directors authorized the repurchase of up to \$500.0 million of the Company's Class A Common Stock and Class B Convertible Common Stock. During the year ended February 29, 2008, the Company repurchased 21,332,468 shares of Class A Common Stock pursuant to this authorization at an aggregate cost of \$500.0 million, or an average cost of \$23.44 per share, through a combination of open market transactions and an accelerated share repurchase (ASR) transaction that was announced in May 2007. The repurchased shares include 933,206 shares of Class A Common Stock that were received by the Company in July 2007 in connection with the early termination of the calculation period for the ASR transaction by the counterparty to the ASR transaction. The Company used revolver borrowings under the 2006 Credit Agreement to pay the purchase price for the repurchased shares. The repurchased shares have become treasury shares. No shares were repurchased during the year ended February 28, 2009.

Preferred stock -

During the year ended February 29, 2004, the Company issued 5.75% Series A Mandatory Convertible Preferred Stock (Preferred Stock). Dividends were cumulative and payable quarterly, if declared, in cash, shares of the Company's Class A Common Stock, or a combination thereof, at the discretion of the Company. Dividends were payable, if declared, on the first business day of March, June, September, and December of each year, commencing on December 1, 2003. On September 1, 2006, the Preferred Stock was converted into 9,983,066 shares of the Company's Class A Common Stock. The September 1, 2006, conversion includes both mandatory conversions as well as optional conversions initiated during August 2006. No fractional shares of the Company's Class A Common Stock were issued in the conversions.

Long-term stock incentive plan -

Under the Company's Long-Term Stock Incentive Plan, nonqualified stock options, stock appreciation rights, restricted stock and other stock-based awards may be granted to employees, officers and directors of the Company. The aggregate number of shares of the Company's Class A Common Stock and Class 1 Common Stock available for awards under the Company's Long-Term Stock Incentive Plan is 94,000,000 shares. The exercise price, vesting period and term of nonqualified stock options granted are established by the committee administering the plan (the

Committee). The exercise price of any nonqualified stock option may not be less than the fair market value of the Company's Class A Common Stock on the date of grant. Nonqualified stock options generally vest and become exercisable over a four-year period from the date of grant. Nonqualified stock options expire at the times established by the Committee, but not later than ten years after the grant date.

Table of Contents

Grants of stock appreciation rights, restricted stock and other stock-based awards may contain such vesting, terms, conditions and other requirements as the Committee may establish. The purchase price for an award of restricted stock is \$0.00 per share. Restricted stock awards based on service generally vest for one to four years from the date of grant. During the years ended February 28, 2009, February 29, 2008, and February 28, 2007, no stock appreciation rights were granted.

Incentive stock option plan -

The Company's Incentive Stock Option Plan provides for the grant of incentive stock to employees, including officers, of the Company. Grants, in the aggregate, may not exceed 8,000,000 shares of the Company's Class A Common Stock. The exercise price of any incentive stock option may not be less than the fair market value of the Company's Class A Common Stock on the date of grant. The vesting period and term of incentive stock options granted are established by the Committee. Incentive stock options generally vest and become exercisable over a four-year period from the date of grant. Incentive stock options expire at the times established by the Committee, but not later than ten years after the grant date. While unexercised incentive stock options are currently held by certain grant recipients, under the current terms of the Incentive Stock Option Plan, no additional grants of incentive stock options are permitted.

A summary of stock option activity under the Company's Long-Term Stock Incentive Plan and the Incentive Stock Option Plan is as follows:

	Number of Options Outstanding	Weighted Average Exercise Price	Number of Options Exercisable	Weighted Average Exercise Price
Balance, February 28, 2006	23,652,958	\$ 14.43	23,149,228	\$ 14.43
Granted	5,670,181	\$ 25.97		
Exercised	(5,423,708)	\$ 11.74		
Forfeited	(530,905)	\$ 25.53		
Balance, February 28, 2007	23,368,526	\$ 17.61	17,955,262	\$ 15.24
Granted	10,033,913	\$ 21.31		
Exercised	(2,158,146)	\$ 9.40		
Forfeited	(1,252,440)	\$ 24.23		
Balance, February 29, 2008	29,991,853	\$ 19.16	16,989,765	\$ 16.56
Granted	8,730,084	\$ 19.18		
Exercised	(2,254,660)	\$ 12.03		
Forfeited	(2,371,314)	\$ 22.79		
Balance, February 28, 2009	34,095,963	\$ 19.39	17,499,016	\$ 17.99

Table of Contents

A summary of restricted Class A Common Stock activity under the Company's Long-Term Stock Incentive Plan is as follows:

	Restricted Stock Awards			Restricted Stock Units		
	Number of Restricted Stock Awards Outstanding	Weighted Average Grant-date Price	Fair Value of Shares Vested	Number of Restricted Stock Units Outstanding	Weighted Average Grant-date Price	Fair Value of Shares Vested
Nonvested balance, February 28, 2006	5,720	\$27.96			\$

116

Table of Contents

The fair value of options is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

	For the Years Ended		
	February 28, 2009	February 29, 2008	February 28, 2007
Expected life	5.3 years	5.6 years	5.5 years
Expected volatility	27.7%	30.2%	31.7%
Risk-free interest rate	2.8%	4.5%	4.8%
Expected dividend yield	0.0%	0.0%	0.0%

For the years ended February 28, 2009, February 29, 2008, and February 28, 2007, the Company used a projected expected life for each award granted based on historical experience of employees' exercise behavior for similar type grants. Expected volatility for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, is based on historical volatility levels of the Company's Class A Common Stock. The risk-free interest rate for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, is based on the implied yield currently available on U.S. Treasury zero coupon issues with a remaining term equal to the expected life.

Employee stock purchase plans -

The Company has a stock purchase plan under which 9,000,000 shares of Class A Common Stock may be issued. Under the terms of the plan, eligible employees may purchase shares of the Company's Class A Common Stock through payroll deductions. The purchase price is the lower of 85% of the fair market value of the stock on the first or last day of the purchase period. During the years ended February 28, 2009, February 29, 2008, and February 28, 2007, employees purchased 376,297 shares, 343,868 shares and 265,295 shares, respectively, under this plan.

The weighted average fair value of purchase rights granted during the years ended February 28, 2009, February 29, 2008, and February 28, 2007, was \$4.87, \$5.22 and \$5.49, respectively. The fair value of purchase rights granted is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

	For the Years Ended		
	February 28, 2009	February 29, 2008	February 28, 2007
Expected life	0.5 years	0.5 years	0.5 years
Expected volatility	46.6%	30.2%	23.3%
Risk-free interest rate	1.0%	3.6%	5.2%
Expected dividend yield	0.0%	0.0%	0.0%

The Company has a stock purchase plan under which 2,000,000 shares of the Company's Class A Common Stock may be issued to eligible employees and directors of the Company's U.K. subsidiaries. Under the terms of the plan, participants may purchase shares of the Company's Class A Common Stock through payroll deductions. The purchase price may be no less than 80% of the closing price of the stock on the day the purchase price is fixed by the committee administering the plan. There were no shares purchased under this plan during the year ended February 28, 2009. During the years ended February 29, 2008, and February 28, 2007, employees purchased 463 shares and 52,842 shares, respectively, under this plan.

Table of Contents

The weighted average fair value of purchase rights granted during the years ended February 28, 2009, February 29, 2008, and February 28, 2007, was \$7.42, \$9.73 and \$11.22, respectively. The maximum number of shares which can be purchased under purchase rights granted during the years ended February 28, 2009, February 29, 2008, and February 28, 2007, is 57,824 shares, 73,987 shares and 396,803 shares, respectively. The fair value of the purchase rights granted is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

	For the Years Ended		
	February 28, 2009	February 29, 2008	February 28, 2007
Expected life	3.7 years	4.0 years	3.9 years
Expected volatility	29.1%	27.0%	27.9%
Risk-free interest rate	2.2%	4.1%	4.8%
Expected dividend yield	0.0%	0.0%	0.0%

As of February 28, 2009, there was \$99.9 million of total unrecognized compensation cost related to nonvested stock-based compensation arrangements granted under the Company's four stock-based employee compensation plans. This cost is expected to be recognized in the Company's Consolidated Statements of Operations over a weighted-average period of 2.4 years. With respect to the issuance of shares under any of the Company's stock-based compensation plans, the Company has the option to issue authorized but unissued shares or treasury shares.

16. (LOSS) EARNINGS PER COMMON SHARE:

(Loss) earnings per common share are as follows:

	For the Years Ended		
	February 28, 2009	February 29, 2008	February 28, 2007
<i>(in millions, except per share data)</i>			
Net (loss) income	\$ (301.4)	\$ (613.3)	\$ 331.9
Dividends on preferred stock			(4.9)
(Loss) income available to common stockholders	\$ (301.4)	\$ (613.3)	\$ 327.0
Weighted average common shares outstanding basic:			
Class A Common Stock	193.906	195.135	204.966
Class B Convertible Common Stock	23.753	23.812	23.840
Weighted average common shares outstanding diluted:			
Class A Common Stock	193.906	195.135	204.966
Class B Convertible Common Stock			23.840
Stock options			5.933
Preferred stock			5.033
Weighted average common shares outstanding diluted	193.906	195.135	239.772
(Loss) earnings per common share basic:			
Class A Common Stock	\$ (1.40)	\$ (2.83)	\$ 1.44

Class B Convertible Common Stock	\$ (1.27)	\$ (2.57)	\$ 1.31
(Loss) earnings per common share diluted:			
Class A Common Stock	\$ (1.40)	\$ (2.83)	\$ 1.38
Class B Convertible Common Stock	\$ (1.27)	\$ (2.57)	\$ 1.27

Table of Contents

For the years ended February 28, 2009, and February 29, 2008, the computation of diluted loss per common share excluded 23.8 million shares of Class B Convertible Common Stock because the inclusion of such potentially dilutive common shares would have been antidilutive. In addition, for the years ended February 28, 2009, and February 29, 2008, the computation of diluted loss per common share excluded stock options to purchase 34.1 million and 30.0 million shares, respectively, of Class A Common Stock because the inclusion of such potentially dilutive common shares would have been antidilutive. In addition, for the year ended February 28, 2007, stock options which could result in the issuance of 8.8 million shares of Class A Common Stock were outstanding, but were not included in the computation of earnings per common share diluted for Class A Common Stock because the effect of including such awards would have been antidilutive.

17. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS):

Other comprehensive income (loss), net of income tax effect, includes the following components:

<i>(in millions)</i>	Before Tax Amount	Tax (Expense) or Benefit	Net of Tax Amount
Other comprehensive income (loss), February 28, 2007:			
Foreign currency translation adjustments	\$ 142.2	\$ (10.1)	\$ 132.1

Net gain recognized in other comprehensive income	81.4	(25.0)	56.4
Other comprehensive (loss) income, February 28, 2009	\$ (614.1)	\$ (28.7)	\$ (642.8)

Table of Contents

Accumulated other comprehensive income (loss), net of income tax effect, includes the following components:

<i>(in millions)</i>	Foreign Currency Translation Adjustments	Net Unrealized Losses on Derivatives	Pension/ Postretirement Adjustments	Accumulated Other Comprehensive Income
Balance, February 29, 2008	\$ 859.0	\$ (13.4)	\$ (109.6)	\$ 736.0
Adjustment to initially apply the measurement date provisions of SFAS No. 158, net of income tax effect (see Note 2)			1.0	1.0
Current period change	(683.6)	(15.6)	56.4	(642.8)
Balance, February 28, 2009	\$ 175.4	\$ (29.0)	\$ (52.2)	\$ 94.2

18. SIGNIFICANT CUSTOMERS AND CONCENTRATION OF CREDIT RISK:

Sales to the five largest customers represented 36.3%, 32.8% and 21.7% of the Company's sales for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, respectively. Sales to the Company's largest customer, Southern Wine and Spirits, represented 15.7% of the Company's sales for the year ended February 28, 2009, of which 87.3% is reported within the Constellation Wines segment and 12.7% is reported within the Constellation Spirits segment. Sales for the year ended February 29, 2008, to Southern Wine and Spirits represented 12.3% of the Company's sales for the period then ended, of which 85.6% is reported within the Constellation Wines segment and 14.4% is reported within the Constellation Spirits segment. No single customer was responsible for greater than 10% of sales for the year ended February 28, 2007. Accounts receivable from the Company's largest customer represented 13.4%, 9.0% and 13.0% of the Company's total accounts receivable as of February 28, 2009, February 29, 2008, and February 28, 2007, respectively. Sales to the Company's five largest customers are expected to continue to represent a significant portion of the Company's revenues. The Company's arrangements with certain of its customers may, generally, be terminated by either party with prior notice. The Company performs ongoing credit evaluations of its customers' financial position, and management of the Company is of the opinion that any risk of significant loss is reduced due to the diversity of customers and geographic sales area.

19. RESTRUCTURING CHARGES:

The Company has several restructuring plans within its Constellation Wines segment as follows:

Robert Mondavi Plan

In January 2005, the Company announced a plan to restructure and integrate the operations of Robert Mondavi (the Robert Mondavi Plan). The objective of the Robert Mondavi Plan is to achieve operational efficiencies and eliminate redundant costs resulting from the December 22, 2004, acquisition of Robert Mondavi. The Robert Mondavi Plan includes the elimination of certain employees, the consolidation of certain field sales and administrative offices, and the termination of various contracts. The Company does not expect any additional costs associated with the Robert Mondavi Plan to be recognized in its Consolidated Statements of Operations. The Company expects the related cash expenditures to be completed by February 29, 2012.

Table of Contents*Fiscal 2006 Plan*

During fiscal 2006, the Company announced a plan to reorganize certain worldwide wine operations and a plan to consolidate certain west coast production processes in the U.S. (collectively, the Fiscal 2006 Plan). The Fiscal 2006 Plan's principal features are to reorganize and simplify the infrastructure and reporting structure of the Company's global wine business and to consolidate certain west coast production processes. This Fiscal 2006 Plan is part of the Company's ongoing effort to enhance its administrative, operational and production efficiencies in light of its ongoing growth. The objective of the Fiscal 2006 Plan is to achieve greater efficiency in sales, administrative and operational activities and to eliminate redundant costs. The Fiscal 2006 Plan includes the termination of employment of certain employees in various locations worldwide, the consolidation of certain worldwide wine selling and administrative functions, the consolidation of certain warehouse and production functions, the termination of various contracts, investment in new assets and the reconfiguration of certain existing assets. The Fiscal 2006 Plan has been completed as of February 28, 2009.

Vincor Plan

In July 2006, the Company announced a plan to restructure and integrate the operations of Vincor (the Vincor Plan). The objective of the Vincor Plan is to achieve operational efficiencies and eliminate redundant costs resulting from the June 5, 2006, Vincor Acquisition, as well as to achieve greater efficiency in sales, marketing, administrative and operational activities. The Vincor Plan includes the elimination of certain employment redundancies, primarily in the U.S., U.K. and Australia, and the termination of various contracts. The Company does not expect any additional costs associated with the Vincor Plan to be recognized in its Consolidated Statements of Operations. The Company expects the related cash expenditures to be completed by February 29, 2012.

Fiscal 2007 Wine Plan

In August 2006, the Company announced a plan to invest in new distribution and bottling facilities in the U.K. and to streamline certain Australian wine operations (collectively, the Fiscal 2007 Wine Plan). The U.K. portion of the plan includes new investments in property, plant and equipment and certain disposals of property, plant and equipment and is expected to increase wine bottling capacity and efficiency and reduce costs of transport, production and distribution. The U.K. portion of the plan also includes costs for employee terminations. The Australian portion of the plan includes the buy-out of certain grape supply and processing contracts and the sale of certain property, plant and equipment. The initiatives are part of the Company's ongoing efforts to maximize asset utilization, further reduce costs and improve long-term return on invested capital throughout its international operations. The Company expects all costs associated with the Fiscal 2007 Wine Plan to be recognized in its Consolidated Statements of Operations by February 28, 2010, with the related cash expenditures to be completed by February 28, 2010.

Fiscal 2008 Plan

During November 2007, the Company initiated its plans to streamline certain of its international operations, including the consolidation of certain winemaking and packaging operations in Australia, the buy-out of certain grape processing and wine storage contracts in Australia, equipment relocation costs in Australia, and certain employee termination costs. In addition, the Company incurred certain other restructuring charges during the third quarter of fiscal 2008 in connection with the consolidation of certain spirits production processes in the U.S. In January 2008, the Company announced its plans to streamline certain of its operations in the U.S., primarily in connection with the restructuring and integration of the operations acquired in the BWE Acquisition (the U.S. Initiative). These initiatives will collectively be referred to as the Fiscal 2008 Plan. The Fiscal 2008 Plan is part of the Company's ongoing efforts to maximize asset utilization, further reduce costs and improve long-term return on invested capital throughout its domestic and international operations. The Company expects all costs associated with the Fiscal 2008 Plan to be recognized in its Consolidated Statements of Operations by February 28, 2011, with the related cash expenditures to be completed by February 28, 2011.

Table of Contents*Australian Initiative*

During August 2008, the Company announced a plan to sell certain assets and implement operational changes designed to improve the efficiencies and returns associated with the Australian business, primarily by consolidating certain winemaking and packaging operations and reducing the Company's overall grape supply due to reduced capacity needs resulting from a streamlining of the Company's product portfolio (the Australian Initiative).

The Australian Initiative includes the planned sale of three wineries and more than 20 vineyard properties, a streamlining of the Company's wine product portfolio and production footprint, the buy-out and/or renegotiation of certain grape supply and other contracts, equipment relocations and costs for employee terminations. Included in the Company's restructuring charges on its Consolidated Statements of Operations for the year ended February 28, 2009, is \$46.5 million of non-cash charges related to the write-down of property, plant and equipment, net, held for sale in connection with the Australian Initiative (which are excluded from the restructuring liability rollforward table below). As of February 28, 2009, the Company had \$35.2 million of Australian assets held for sale which are included in property, plant and equipment, net on the Company's Consolidated Balance Sheets. The Company expects all costs associated with the Australian Initiative to be recognized in its Consolidated Statements of Operations by February 28, 2011, with the related cash expenditures to be completed by February 28, 2011.

Restructuring charges consisting of employee termination benefit costs, contract termination costs, and other associated costs are accounted for under either SFAS 112 or SFAS 146, as appropriate. Employee termination benefit costs are accounted for under SFAS 112, as the Company has had several restructuring programs which have provided employee termination benefits in the past. The Company includes employee severance, related payroll benefit costs such as costs to provide continuing health insurance, and outplacement services as employee termination benefit costs. Contract termination costs, and other associated costs including, but not limited to, facility consolidation and relocation costs are accounted for under SFAS 146. Per SFAS 146, contract termination costs are costs to terminate a contract that is not a capital lease, including costs to terminate the contract before the end of its term or costs that will continue to be incurred under the contract for its remaining term without economic benefit to the entity. The Company includes costs to terminate certain operating leases for buildings, computer and IT equipment, and costs to terminate contracts, including distributor contracts and contracts for long-term purchase commitments, as contract termination costs. Per SFAS 146, other associated costs include, but are not limited to, costs to consolidate or close facilities and relocate employees. The Company includes employee relocation costs and equipment relocation costs as other associated costs.

Table of Contents

Details of each plan are presented in the following table. Other Plans consists of the Vincor Plan, the Fiscal 2006 Plan, the Robert Mondavi Plan and certain other immaterial restructuring activities.

<i>(in millions)</i>	Australian Initiative	Fiscal 2008 Plan	Fiscal 2007 Wine Plan	Other Plans	Total

Table of Contents

In connection with the Company's BWE Acquisition, Vincor Acquisition and Robert Mondavi acquisition, the Company accrued \$24.7 million, \$37.7 million and \$50.5 million of liabilities for exit costs, respectively, as of the respective acquisition date. The BWE Acquisition line item in the table above for the years ended February 28, 2009, and February 29, 2008, reflect adjustments to the fair value of liabilities assumed in the BWE Acquisition. The Vincor Acquisition line item in the table above for the years ended February 28, 2009, February 29, 2008, and February 28, 2007, reflect adjustments to the fair value of liabilities assumed in the Vincor Acquisition. As of February 28, 2009, the balances of the BWE, Vincor and Robert Mondavi purchase accounting accruals were \$6.3 million, \$0.7 million and \$2.7 million, respectively. As of February 29, 2008, the balances of the BWE, Vincor and Robert Mondavi purchase accounting accruals were \$17.3 million, \$3.8 million and \$3.8 million, respectively. As of February 28, 2007, the balances of the Vincor and Robert Mondavi purchase accounting accruals were \$19.3 million and \$5.4 million, respectively.

For the year ended February 28, 2009, employee termination benefit costs and contract termination costs include the reversal of prior accruals of \$0.5 million and \$0.4 million, respectively, associated primarily with the Fiscal 2006 Plan and the Vincor Plan, respectively. For the year ended February 29, 2008, employee termination benefit costs include the reversal of prior accruals of \$0.6 million associated primarily with the Fiscal 2006 Plan and contract termination costs and facility consolidation/relocation costs include the reversal of prior accruals of \$4.2 million and \$0.3 million, respectively, associated primarily with the Vincor Plan. For the year ended February 28, 2007, employee termination benefit costs and facility consolidation/relocation costs include the reversal of prior accruals of \$2.0 million related primarily to the Fiscal 2006 Plan and \$0.3 million related primarily to the Fiscal 2004 Plan, respectively.

In addition, the following table presents other costs incurred in connection with the Australian Initiative, Fiscal 2008 Plan, Fiscal 2007 Wine Plan, the Vincor Plan, the Fiscal 2006 Plan, and certain other immaterial restructuring activities (Other):

<i>(in millions)</i>	Australian Initiative	Fiscal 2008 Plan	Fiscal 2007 Wine Plan	Vincor Plan	Fiscal 2006 Plan	Other	Total

Table of Contents

20. ACQUISITION-RELATED INTEGRATION COSTS:

For the year ended February 28, 2009, the Company recorded \$8.2 million of acquisition-related integration costs associated primarily with the Fiscal 2008 Plan. The Company defines acquisition-related integration costs as nonrecurring costs incurred to integrate newly acquired businesses after a business combination which are incremental to those of the Company prior to the business combination. As such, acquisition-related integration costs include, but are not limited to, (i) employee-related costs such as salaries and stay bonuses paid to employees of the acquired business that will be terminated after their integration activities are completed, (ii) costs to relocate fixed assets and inventories, and (iii) facility costs and other costs such as external services and consulting fees. For the year ended February 28, 2009, acquisition-related integration costs included \$2.5 million of employee-related costs and \$5.7 million of facilities and other costs. For the years ended February 29, 2008, and February 28, 2007, the Company recorded \$11.8 million of acquisition-related integration costs associated primarily with the Vincor Plan and the Fiscal 2008 Plan and \$23.6 million of acquisition-related integration costs associated primarily with the Vincor Plan, respectively.

21. CONDENSED CONSOLIDATING FINANCIAL INFORMATION:

The following information sets forth the condensed consolidating balance sheets as of February 28, 2009, and February 29, 2008, the condensed consolidating statements of operations and cash flows for each of the three years in the period ended February 28, 2009, for the Company, the parent company, the combined subsidiaries of the Company which guarantee the Company's senior notes and senior subordinated notes ("Subsidiary Guarantors") and the combined subsidiaries of the Company which are not Subsidiary Guarantors (primarily foreign subsidiaries) ("Subsidiary Nonguarantors"). The Subsidiary Guarantors are wholly owned and the guarantees are full, unconditional, joint and several obligations of each of the Subsidiary Guarantors. Separate financial statements for the Subsidiary Guarantors of the Company are not presented because the Company has determined that such financial statements would not be material to investors. The accounting policies of the parent company, the Subsidiary Guarantors and the Subsidiary Nonguarantors are the same as those described for the Company in the Summary of Significant Accounting Policies in Note 1 and include the recently adopted accounting pronouncement described in Note 2. There are no restrictions on the ability of the Subsidiary Guarantors to transfer funds to the Company in the form of cash dividends, loans or advances.

22. BUSINESS SEGMENT INFORMATION:

As a result of the Company's investment in Crown Imports, the Company has changed its internal management financial reporting to consist of three business divisions: Constellation Wines, Constellation Spirits and Crown Imports. Prior to the investment in the joint venture, the Company's internal management financial reporting included the Constellation Beers business division. Consequently, the Company reports its operating results in five segments: Constellation Wines (branded wine, and wholesale and other), Constellation Spirits (distilled spirits), Constellation Beers (imported beer), Corporate Operations and Other and Crown Imports (imported beer). Segment results for Constellation Beers are for the period prior to January 2, 2007, and segment results for Crown Imports are for the period on and after January 2, 2007. Amounts included in the Corporate Operations and Other segment consist of general corporate administration and finance expenses. These amounts include costs of executive management, corporate development, corporate finance, human resources, internal audit, investor relations, legal, public relations, global information technology and global supply chain. Any costs incurred at the corporate office that are applicable to the segments are allocated to the appropriate segment. The amounts included in the Corporate Operations and Other segment are general costs that are applicable to the consolidated group and are therefore not allocated to the other reportable segments. All costs reported within the Corporate Operations and Other segment are not included in the chief operating decision maker's evaluation of the operating income performance of the other reportable segments.

The business segments reflect how the Company's operations are managed, how operating performance within the Company is evaluated by senior management and the structure of its internal financial reporting.

In addition, the Company excludes acquisition-related integration costs, restructuring charges and unusual items that affect comparability from its definition of operating income for segment purposes as these items are not reflective of normal continuing operations of the segments. The Company excludes these items as segment operating performance and segment management compensation is evaluated based upon a normalized segment operating income. As such, the performance measures for incentive compensation purposes for segment management do not include the impact of these items.

Table of Contents

For the years ended February 28, 2009, February 29, 2008, and February 28, 2007, acquisition-related integration costs, restructuring charges and unusual costs included in operating income (loss) consist of:

<i>(in millions)</i>	For the Years Ended		
	February 28, 2009	February 29, 2008	February 28, 2007
<u>Cost of Product Sold</u>			
Flow through of inventory step-up	\$ 22.2	\$ 11.4	\$ 30.2
Inventory write-downs	56.8	10.1	0.6
Accelerated depreciation	11.2	12.0	6.6
Other	37.1	0.1	3.1
Cost of Product Sold	127.3	33.6	40.5
<u>Selling, General and Administrative Expenses</u>			
Loss on sale of Pacific Northwest Business	23.2		
Loss, primarily on assets held for sale, in connection with the March 2009 sale of the value spirits business	15.6		
Loss (gain) on sale of non-strategic assets	8.1	(4.8)	
Loss on sale of Almaden and Inglenook wine brands and certain other assets		27.8	
Loss on the contribution of the U.K. wholesale business		6.6	
Loss on sale of branded bottle water business			13.4
Financing costs			11.9
Foreign currency losses on foreign denominated intercompany loan balances			5.4
Other costs	24.2	7.5	16.3
Selling, General and Administrative Expenses	71.1	37.1	47.0
Impairment of Goodwill and Intangible Assets	300.4	812.2	
Restructuring Charges	68.0	6.9	32.5
Acquisition-Related Integration Costs	8.2	11.8	23.6
Acquisition-Related Integration Costs, Restructuring Charges and Unusual Costs	\$ 575.0	\$ 901.6	\$ 143.6

For the year ended February 28, 2009, acquisition-related integration costs, restructuring charges and unusual costs included in equity in earnings of equity method investees of \$83.3 million consist primarily of impairment losses on the Company's investments in Ruffino and Matthew Clark. For the year ended February 29, 2008, acquisition-related integration costs, restructuring charges and unusual costs included in equity in earnings of equity method investees consist of an impairment loss of the Company's investment in Ruffino of \$15.1 million and the flow through of inventory step-up associated with the Opus One investment of \$0.9 million. For the year ended February 28, 2007, acquisition-related integration costs, restructuring charges and unusual costs included in equity in earnings of equity method investees consist of the flow through of inventory step-up associated primarily with the Opus One investment

of \$2.8 million.

The Company evaluates performance based on operating income of the respective business units. The accounting policies of the segments are the same as those described for the Company in the Summary of Significant Accounting Policies in Note 1 and include the recently adopted accounting pronouncement described in Note 2. Transactions between segments consist mainly of sales of products and are accounted for at cost plus an applicable margin.

23. ACCOUNTING PRONOUNCEMENTS NOT YET ADOPTED:

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007) (SFAS No. 141(R)), Business Combinations. SFAS No. 141(R), among other things, establishes principles and requirements for how the acquirer in a business combination (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired business, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The Company is required to adopt SFAS No. 141(R) for all business combinations for which the acquisition date is on or after March 1, 2009. The adoption of SFAS No. 141(R) on March 1, 2009, did not have a material impact on the Company's consolidated financial statements.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 (SFAS No. 160), Noncontrolling Interests in Consolidated Financial Statements—An Amendment of ARB No. 51. SFAS No. 160 amends Accounting Research Bulletin No. 51 (ARB No. 51), Consolidated Financial Statements, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This statement also amends certain of ARB No. 51's consolidation procedures for consistency with the requirements of SFAS No. 141(R). In addition, SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. The Company is required to adopt SFAS No. 160 for fiscal years beginning March 1, 2009. The adoption of SFAS No. 160 on March 1, 2009, did not have a material impact on the Company's consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position No. FAS 142-3, (FSP No. 142-3), Determination of the Useful Life of Intangible Assets. FSP No. 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under Statement of Financial Accounting Standards No. 142 (SFAS No. 142), Goodwill and Other Intangible Assets. The intent of FSP No. 142-3 is to improve the consistency between the useful life of a recognized intangible asset under SFAS No. 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS No. 141(R) and other U.S. generally accepted accounting principles. FSP No. 142-3 is effective for the Company as of March 1, 2009. The adoption of FSP No. 142-3 on March 1, 2009, did not have a material impact on the Company's consolidated financial statements and will be applied prospectively to future business combinations.

Table of Contents

24. SUBSEQUENT EVENTS:

Divestiture of Value Spirits Business -

In March 2009, the Company sold its value spirits business for \$330.5 million, net of direct costs to sell, subject to post-closing adjustments. The Company received \$274.5 million in cash proceeds and a note receivable for \$60.0 million. The Company retained certain mid-premium spirits brands, including Svedka Vodka, Black Velvet Canadian Whisky and Paul Masson Grande Amber Brandy. In connection with the classification of this business as an asset group held for sale as of February 28, 2009, the Company's Constellation Spirits segment recorded a loss of \$15.6 million for the year ended February 28, 2009, primarily related to asset impairments. This loss is included in selling, general and administrative expenses on the Company's Consolidated Statements of Operations.

Fiscal 2010 Global Initiative -

On April 7, 2009, the Company announced its plan to simplify its business, increase efficiencies and reduce its cost structure on a global basis (the Global Initiative). The Global Initiative includes the elimination of approximately five percent of the Company's global workforce and the closure of certain office, production and warehouse facilities. In addition, the Global Initiative includes the termination of certain contracts, and a streamlining of the Company's production footprint and sales and administrative organizations. Lastly, the Global Initiative includes other non-material restructuring activities primarily in connection with the consolidation of the Company's remaining spirits business into its North American wine business following the recent disposition of its value spirits business. This initiative is part of the Company's ongoing efforts to maximize asset utilization, reduce costs and improve long-term return on invested capital throughout the Company's operations. The Company expects all costs associated with the Global Initiative to be recognized in its Consolidated Statements of Operations by February 28, 2011.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

Not Applicable.

Item 9A. Controls and Procedures

Disclosure Controls and Procedures

The Company's Chief Executive Officer and its Chief Financial Officer have concluded, based on their evaluation as of the end of the period covered by this report, that the Company's disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) were not effective, in light of the material weakness described in Management's Annual Report on Internal Control Over Financial Reporting, to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (ii) is accumulated and communicated to the Company's management, including its Chief Executive Officer and its Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Subsequent to February 28, 2009, the Company has taken and intends to take a number of corrective actions with respect to its Australian operations intended to remediate the material weakness described in Management's Annual Report on Internal Control Over Financial Reporting. These actions with respect to the Company's Australian operations include:

Enhancing the internal finance and accounting organizational structure, particularly within the cost accounting function, continuing to enhance the training and education of inventory management and cost accounting personnel, and replacing certain personnel with oversight responsibility for performance of inventory reconciliations;

Engaging additional professional resources on a consulting basis to assist with the review of inventory management and cost accounting policies and procedures and financial reporting with knowledge, experience and training in the application of generally accepted accounting principles (GAAP); and

Strengthening review processes for various calculations relating to inventory valuation and establishing strengthened monitoring controls by the Company's Australian operations management.

In addition, the Company is performing a review of inventory processes and procedures applicable to its Australian operations to identify and adopt additional measures to further improve and strengthen its overall control environment and will continue to monitor the effectiveness of these processes, procedures and controls.

Table of Contents

Internal Control over Financial Reporting

- (a) See page 67 of this Annual Report on Form 10-K for Management's Annual Report on Internal Control over Financial Reporting, which is incorporated herein by reference.
- (b) See page 65 of this Annual Report on Form 10-K for the attestation report of KPMG LLP, the Company's independent registered public accounting firm, which is incorporated herein by reference.
- (c) In connection with management's quarterly evaluation of internal control over financial reporting (as defined in the Securities Exchange Act of 1934 Rules 13a-15(f) and 15d-15(f) no changes were identified in the Company's internal control over financial reporting during the Company's fiscal quarter ended February 28, 2009 (the Company's fourth fiscal quarter) that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. Management believes the implementation of the corrective actions it has taken and intends to take to remediate the material weakness referred to above under Disclosure Controls and Procedures are reasonably likely to materially affect the Company's internal control over financial reporting.

Item 9B. Other Information

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this Item (except for the information regarding executive officers required by Item 401 of Regulation S-K which is included in Part I hereof in accordance with General Instruction G(3)) is incorporated herein by reference to the Company's proxy statement to be issued in connection with the Annual Meeting of Stockholders of the Company which is expected to be held on July 23, 2009, under those sections of the proxy statement to be titled "Director Nominees," "The Board of Directors and Committees of the Board" and "Section 16(a) Beneficial Ownership Reporting Compliance," which proxy statement will be filed within 120 days after the end of the Company's fiscal year.

The Company has adopted the Chief Executive Officer and Senior Financial Executive Code of Ethics which is a code of ethics that applies to its chief executive officer and its senior financial officers. The Chief Executive Officer and Senior Financial Executive Code of Ethics is located on the Company's Internet website at <http://www.cbrands.com/CBI/constellationbrands/Investors/CorporateGovernance>. Amendments to, and waivers granted under, the Company's Chief Executive Officer and Senior Financial Executive Code of Ethics, if any, will be posted to the Company's website as well. The Company will provide to anyone, without charge, upon request, a copy of such Code of Ethics. Such requests should be directed in writing to Investor Relations Department, Constellation Brands, Inc., 207 High Point Drive, Building 100, Victor, New York 14564 or by telephoning the Company's Investor Center at 1-888-922-2150.

Item 11. Executive Compensation

The information required by this Item is incorporated herein by reference to the Company's proxy statement to be issued in connection with the Annual Meeting of Stockholders of the Company which is expected to be held on July 23, 2009, under those sections of the proxy statement to be titled "Executive Compensation," "Compensation Committee Interlocks and Insider Participation" and "Director Compensation," which proxy statement will be filed within 120 days after the end of the Company's fiscal year. Notwithstanding the foregoing, the Compensation Committee Report included within the section of the proxy statement to be titled "Executive Compensation" is only being furnished hereunder and shall not be deemed filed with the Securities and Exchange Commission or subject to the liabilities of Section 18 of the Securities Exchange Act of 1934.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this Item is incorporated herein by reference to the Company's proxy statement to be issued in connection with the Annual Meeting of Stockholders of the Company which is expected to be held on July 23, 2009, under that section of the proxy statement to be titled "Beneficial Ownership," which proxy statement will be filed within 120 days after the end of the Company's fiscal year. Additional information required by this item is as follows:

Table of Contents**Securities Authorized for Issuance under Equity Compensation Plans**

The following table sets forth information with respect to the Company's compensation plans under which its equity securities may be issued, as of February 28, 2009. The equity compensation plans approved by security holders include the Company's Long-Term Stock Incentive Plan, Incentive Stock Option Plan, 1989 Employee Stock Purchase Plan and UK Sharesave Scheme.

Equity Compensation Plan Information

Plan Category	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	34,095,963	\$ 19.39	25,975,972 ⁽¹⁾
Equity compensation plans not approved by security holders			
Total	34,095,963	\$ 19.39	25,975,972

(1) Includes 7,438,756 shares of Class A Common Stock under the Company's Incentive Stock Option Plan. However, by the current terms of the Incentive Stock Option Plan, no additional grants of incentive stock options are permitted.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this Item is incorporated herein by reference to the Company's proxy statement to be issued in connection with the Annual Meeting of Stockholders of the Company which is expected to be held on July 23, 2009, under those sections of the proxy statement to be titled "Director Nominees," "The Board of Directors and Committees of the Board" and "Certain Relationships and Related Transactions," which proxy statement will be filed

within 120 days after the end of the Company's fiscal year.

Item 14. Principal Accountant Fees and Services

The information required by this Item is incorporated herein by reference to the Company's proxy statement to be issued in connection with the Annual Meeting of Stockholders of the Company which is expected to be held on July 23, 2009, under that section of the proxy statement to be titled "Ratification of the Selection of KPMG LLP as Independent Registered Public Accounting Firm," which proxy statement will be filed within 120 days after the end of the Company's fiscal year.
