CORPORATE GOVERNANCE AND GENERAL INFORMATION
CONCERNING THE BOARD OF DIRECTORS AND ITS COMMITTEES

Board Governance

At its February 4, 2004 meeting, the Board of Directors amended its corporate governance guidelines (first adopted in 1999) to reflect the rules of the New York Stock Exchange (NYSE) that were released in November 2003. The new rules impose independence requirements for directors and establish additional corporate governance standards. The Phelps Dodge Corporation Board of Directors is in compliance as of this date with the current NYSE rules, and the Corporate Governance Guidelines are published in this proxy statement as Appendix A. The Corporate Governance Guidelines and the current charters for the Audit Committee, Compensation and Management Development Committee and the Committee on Directors and Corporate Governance are published in this proxy statement and are available on the Corporation's website at www.phelpsdodge.com. The Phelps Dodge Corporation Code of Business Ethics & Policies (to which every non-bargained domestic and international employee attests annually) and the Code of Ethics for Directors (adopted by the Board of Directors) are also available on the Corporation's website. Each of these documents is available to any shareholder who requests a copy in writing.

The Board of Directors has determined that William J. Post no longer qualifies as an independent director under a recently adopted listing standard of the NYSE. According to the new listing standard, a director of the Corporation cannot qualify as independent if that director is an executive officer of another company that received payments from the Corporation in an amount which exceeded the greater of \$1 million or 2% of such other company's consolidated gross revenues during any one of the previous three fiscal years. In addition to serving as a director of the Corporation, Mr. Post is an executive officer of Pinnacle West Capital Corporation (Pinnacle West) and its subsidiary, Arizona Public Service Company (APS). Pinnacle West and APS are engaged in the business of supplying electricity to substantial portions of Arizona and other parts of the western United States. The rates charged by Pinnacle West and APS for electricity in 2003, which in some cases were fixed by governmental authority, offered economic advantages to the Corporation, in part because of the proximity of APS's generation and transmission facilities to certain of the Corporation's Arizona operations. Because the Corporation's purchases of electricity from Pinnacle West and APS amounted to approximately 2.5% of Pinnacle West's consolidated gross revenues in 2003, the NYSE has determined that Mr. Post can no longer qualify as an independent director under its new listing standard.

Board Meetings

The Board of Directors met nine times during 2003. Various committees of the Board also met during the year. All directors attended at least 75% of all Board and Committee meetings. The average attendance for all directors was 92%. The independent directors meet regularly in executive sessions without management. Executive sessions are presided at by the Chair of the Committee on Directors and Corporate Governance. The Chair of that Committee may, if desired, delegate such responsibility to another independent director, including the Chair of the Committee having jurisdiction over the bulk of the issues to be discussed at an executive session. The Corporation does not require directors to attend the annual meeting of shareholders. The Corporation believes that information concerning the Corporation is readily available from a variety of sources and management and the Board are accessible to shareholders through

additional, more effective means. Mr. Whisler was the only director who attended the 2003 annual meeting.

Shareholders may communicate with the directors by sending written correspondence in care of the Senior Vice President and General Counsel of the Corporation to One North Central Avenue, Phoenix, Arizona, 85004. Shareholder communications will be delivered to the director to whom they are addressed, or if addressed to all directors as a group, the Chair of the Committee on Directors and Corporate Governance.

Board Committees

The Audit Committee comprises Messrs. Franke, (Mrs.) Knowles (Chair), Krebs, Madonna, Parker and Thompson (effective February 25, 2004) and met ten times during 2003. At its December 3, 2003 meeting, the Board of Directors amended the written Charter of the Audit Committee (first adopted in 1988) to reflect new requirements arising from the rules issued by the NYSE and the requirements of the Sarbanes-Oxley Act. The revised Charter is published as Appendix B of this proxy statement. The Board of Directors determined, at its February 25, 2004 meeting, that Mrs. Knowles (Chair) is an audit committee financial expert (as defined by SEC regulations) and that each member of the Committee is independent and possesses financial management expertise as defined by the NYSE. The Committee generally performs the following functions:

Selects, evaluates and makes all decisions concerning the performance, compensation, retention and termination of the independent accountants;

Assists the Board of Directors with oversight of: (i) the quality and integrity of the Corporation's financial statements; (ii) the Corporation's compliance with legal and regulatory requirements; (iii) the independence and qualifications of the Corporation's independent accountants; and (iv) the performance of the Corporation's internal audit function;

Prepares the report of the Audit Committee to be included in the Corporation's proxy statement as required under the rules of the Securities and Exchange Commission; and

Provides an open avenue of communication among the independent accountants, financial and senior management, the internal auditing function, and the Board of Directors.

The Compensation and Management Development Committee, comprises Messrs. Burt, Dunham (Chair), Franke, Johnson, (Mrs.) Knowles and Parker (effective February 25, 2004) and met five times during 2003. At its March 5, 2003 meeting, the Board of Directors approved amendments to the Committee's charter (first adopted in 2002) which is published as Appendix C of this proxy statement. The Board of Directors, at its February 25, 2004 meeting, determined that each member of the Committee is independent as defined by the NYSE rules. The Committee generally performs the following functions:

Reviews and approves the compensation of the Corporation's senior officers;

Reviews management recommendations concerning the compensation of other officers and key personnel;

Reviews the Corporation's program for management development; and

Reviews and approves incentive compensation awards, stock option grants and awards of restricted stock.

The Committee on Directors and Corporate Governance comprises Messrs. Burt (Chair), Dunham, Johnson, Krebs and Madonna and met twice during 2003. At its March 5, 2003 meeting, the Board of Directors amended the written charter of the Committee (first adopted in 2002) which is published as Appendix D of this proxy statement. The Board of Directors, at its February 25, 2004 meeting, determined that each member of the Committee is independent as defined by the NYSE rules. The criteria for determining independence is included in Appendix D. The Committee generally performs the following functions:

Makes recommendations concerning the composition of the Board and its Committees, and reviews director compensation;

Reviews the qualifications of potential director candidates and recommends to the Board nominees for election as directors; and

Develops and reviews the Board governance policies and makes recommendations concerning the corporate governance program for the Corporation.

Applications, recommendations or proposed nominations for directors will be referred to the Committee on Directors and Corporate Governance. Applications, recommendations and nominations should be sent to the Vice President, Assistant General Counsel and Secretary of the Corporation and should include the address and a brief description of the background, professional experience and qualifications of the individual recommended. The membership criteria for non-employee directors is published in the Corporate Governance Guidelines in Appendix A of this proxy statement.

The Committee on Directors and Corporate Governance considers candidates for Board membership suggested by its members and other Board members, as well as management and shareholders. There are no differences in the manner in which the Committee on Directors and Corporate Governance evaluates nominees for the Board of Directors based on whether or not the nominee is recommended by a shareholder. The Committee on Directors and Corporate Governance evaluates prospective nominees against a number of standards and qualifications, including the qualifications listed in Appendix A of this proxy statement under the heading, Membership Criteria for Non-Employee Directors of Phelps Dodge Corporation. The Committee also considers such other factors as it deems appropriate, including the current composition of the Board, the balance of management and independent directors, the need for Audit Committee expertise and the evaluations of other prospective nominees. The Committee then determines whether to interview the prospective nominees, and, if warranted, one or more of the members of the Committee on Directors and Corporate Governance, and others as appropriate, interview such prospective nominees whether in person or by telephone. After completing this evaluation and interview, the Committee on Directors and Corporate Governance makes a recommendation to the full Board of Directors as to the persons who should be nominated by the Board of Directors. The Board of Directors then determines the nominees after considering the recommendation and report of the Committee on Directors and Corporate Governance.

The Corporation has in the past retained an executive search firm to assist it in identifying and evaluating potential director candidates as and when necessary.

The Environmental, Health and Safety Committee, comprises Messrs. Burt, Johnson, (Mrs.) Knowles, Parker (Chair), Post and Thompson and met five times in 2003. The Committee generally performs the following functions:

Reviews the Corporation's environmental, health and safety policies;

Reviews management's implementation of these policies; and

Makes reports and recommendations to the Board concerning the results of its reviews.

The Finance Committee comprises Messrs. Dunham, Franke, Krebs (Chair), Madonna, Post (effective February 25, 2004) and Thompson and met five times during 2003. The Committee generally performs the following functions:

Reviews the financial affairs of the Corporation and its subsidiaries;

Recommends to the Board financial policies and actions to accommodate the Corporation's goals and operating strategies while maintaining a sound financial condition; and

Reviews the funding and management of assets for retirement income plans of the Corporation and its subsidiaries.

Directors Stock Ownership Policy

The Board of Directors in 1997 adopted a policy that each director, within three years of his or her election, shall own a total of not less than 2,000 common shares of the Corporation. Stock units granted to a director under the Corporation's Directors Stock Unit Plan or the Deferred Compensation Plan apply toward attainment of the requirement.

Board Compensation

Retainer and Fees

Directors who are not salaried employees of the Corporation (non-employee directors) receive the following annual compensation for their Board service:

Annual Retainer: \$36,000

Annual Committee Chair Stipend: \$3,000
The Audit Committee Chair stipend and the Compensation and Management Development Committee Chair stipend is \$6,000.

Attendance Fees: \$1,000 for each Board meeting
\$1,000 for each Board Committee meeting

Shares of Stock: The foregoing retainer and fees, at the election of the Director, may be received in an equivalent number of the Corporation's common shares in lieu of cash.

Stock Units: Number of units equal in value to \$50,000 on date of grant under the Directors Stock Unit Plan described below.

Directors Stock Unit Plan

In order to encourage increased stock ownership, the Board of Directors adopted the Directors Stock Unit Plan. Pursuant to that plan, each non-employee director receives an annual grant of stock units having a value equal

to \$50,000 on the date of the grant. One unit is equal in value to one share of the Corporation's common stock. While stock units do not confer on a director the right to vote, each stock unit is credited on each dividend payment date with stock units equal to the applicable dividend payable on the Corporation's common shares. Upon termination of service as a director, the director is entitled to payment of his or her accumulated stock units in an equivalent number of the Corporation's common shares or in cash.

Directors Deferred Compensation Plan

Directors may defer payment of retainer and/or meeting fees to future years and may elect to have such deferred compensation deemed to:

receive interest at prevailing market rates;

be invested in the Corporation's common shares; or

be invested in one of several mutual funds designated for that purpose.

Matching Gifts Plan

Directors are eligible to participate in the Corporation's Matching Gifts Plan. The Corporation will match a Director's contributions to qualified organizations up to \$10,000 annually.

Expenses and Benefits

All directors are reimbursed for travel and other related expenses incurred in attending Board and Committee meetings. The Corporation also provides non-employee directors with life insurance benefits.

Directors and Officers Liability Insurance

The Corporation maintains directors and officers (D&O) liability insurance policies issued by National Union Fire Insurance Company of Pittsburgh, PA, Federal Insurance Company, Continental Casualty Company, Zurich American Insurance Company, XL Insurance Company and AWAC. The policies insure (i) directors, officers, division presidents and vice presidents of the Corporation and its subsidiaries against certain liabilities they may incur in the performance of their duties and (ii) the Corporation against its obligations to indemnify such persons against such liabilities. These policies are placed on an annual basis from June 1, 2003 to June 1, 2004. The Company also purchases additional D&O liability insurance coverage from Corporate Officers and Directors Assurance Company and Starr Excess Insurance Company. These policies also are placed on an annual basis from June 1, 2003 to June 1, 2004. The annual premium for the D&O liability insurance is \$3,242,173. The Corporation also purchases a pension trust liability insurance policy on an annual basis for the period June 1, 2003 to June 1, 2004. This policy insures employees who are fiduciaries of employee benefit plans of the Corporation and its subsidiaries. The annual premium for the pension trust liability insurance is \$175,000.

Stock Options

Each of the executives listed in the Summary Compensation Table was eligible to receive normal option grants during 2003. No option grants were made in 2003 to any of the executives named in the table as the scheduled annual grant was shifted to early in the 2004 calendar year when a total compensation review was made. A scheduled annual grant was considered in February 2004. On February 3, 2004, the Compensation

and Management Development Committee approved aggregate stock option grants of 55,500 to the named executive officers. Upon the approval of the shareholders at the 2003 annual meeting of the Phelps Dodge 2003 Stock Option and Restricted Stock Plan, and consistent with the commitment made in the 2003 Notice of Annual Meeting of Shareholders and Proxy Statement, the Compensation and Management Development Committee terminated the issuance of reload options (including the reload of reload options) that otherwise may have been permitted under the terms and conditions of the prior plans. Reloads are not permitted under the Phelps Dodge 2003 Stock Option and Restricted Stock Plan.

- (a) The Retirement Plan provides a member upon retirement at age 65 with a pension for life in a defined amount based upon final average monthly compensation and years of service. Under the Retirement Plan, final average monthly compensation is the average of the individual's monthly salary for the 36 consecutive months during the most recent 120 months of employment which produces the highest average plus the aggregate annual incentive compensation during the five consecutive calendar years occurring in the most recent 10 consecutive calendar years which produces the highest average, divided by 60. Years of service for purposes of benefit accrual include all periods of employment with the Corporation or its participating subsidiaries. Benefits under the Retirement Plan are subject to certain limitations under the Code, and to the extent the result of such limitations would be a benefit less than would otherwise be paid under such Plan, the difference is provided under the Supplemental Retirement Plan. The formula for determining benefits payable under the Retirement Plan takes into account estimated social security benefits payable. The amounts set forth in the table assume maximum social security benefits payable in 2003.
- (b) The expected credited years of service for benefit accrual at normal retirement and the current compensation covered by the Retirement Plan and the Supplemental Retirement Plan for the Corporation's five current named executive officers as of December 31, 2003 are as follows: Mr. Whisler, 43 years and \$1,315,333; Mr. Snider, 45 years and \$687,267; Mr. Peru, 42 years and \$579,023; Mr. Miele, 38 years and \$478,643; and Mr. Madhavpeddi, 40 years and \$393,237. The years of service are based on normal retirement for all executive officers under the Retirement Plan and the applicable provisions of the Supplemental Retirement Plan.

SEVERANCE AND CHANGE OF CONTROL ARRANGEMENTS

Severance Agreements With Our Executives

The Corporation has severance agreements (Severance Agreements) with each of its five named executive officers under which the executive would receive a lump sum payment equal to his annual base salary in the event the Corporation terminates his employment, other than for cause or mandatory retirement, or the executive voluntarily terminates his employment because of material reductions in his salary or his position, duties and responsibilities. The terminated executive would also receive (i) outplacement services at a cost up to a maximum of 15% of his base salary and (ii) the cost of continued coverage for a limited period under the Corporation's group health, life insurance and disability plans.

Change of Control Agreements With Our Executives

The Corporation also has agreements with these executives under which each executive would receive, in the event he ceases to be employed by the Corporation within two years following a change of control of the Corporation (for a reason other than death, disability, willful misconduct, or under certain circumstances a voluntary termination of employment by the executive), a lump sum equal to (i) three times the executive's highest base salary during that year and the prior two years plus (ii) three times the executive's target bonus under the Annual Incentive Compensation Plan in the year in which the change of control occurs, less (iii) any severance amounts payable under his Severance Agreement. These executives also have a 30-day window period beginning immediately after the first anniversary date of the change of control to voluntarily terminate their employment and still receive their change of control benefits. If the payments trigger an excise tax under the Internal Revenue Code, the Corporation will provide the executive with a tax gross-up payment

to reimburse the executive for any excise taxes, as well as the presumed income taxes on the gross-up. The Corporation will pay the cost for the terminated executive to receive continued coverage for a limited period of time under certain of the Corporation's insured group medical, dental, vision, life insurance and long-term disability plans, and for the cost of continuing executive physicals and financial counseling services for a similarly limited period. These executives are also eligible to receive outplacement services at a cost up to a maximum amount of 15% of their base salary. Except under certain circumstances, these change of control agreements currently expire on December 31, 2007.

Other Change of Control Provisions

Although normal compensatory options granted by the Corporation become exercisable in three or four substantially equal annual installments beginning on the first anniversary of the date of grant, they also become exercisable in certain change of control situations. Specifically, such options are exercisable (but not earlier than six months from the date of grant) for a period of 30 days beginning on the date the Corporation's common shares are purchased pursuant to a third party tender offer or the Corporation's shareholders approve a merger or similar transaction in which the Corporation will not survive as a publicly held corporation or, in the case of the five named executive officers and certain other employees, the date the employee ceases to be employed if he/she ceases to be employed within two years following a change of control.

The Phelps Dodge Corporation Supplemental Retirement Plan provides for the payment of unreduced benefits to employees who meet liberalized age and length of service requirements and whose employment is terminated by the Corporation or any of its subsidiaries within two years following a change of control of the Corporation. The Phelps Dodge Corporation Supplemental Retirement Plan also provides an additional 36 months of service credit to an executive who, due to his termination of employment within two years following a change of control of the Corporation, becomes entitled to receive payments under his change of control agreement with the Corporation. The Phelps Dodge Corporation Supplemental Savings Plan obligates the Corporation to transfer an amount equal to the deficiency in the assets of the Plan's trust fund, if any, prior to the day on which a change of control occurs.

COMPENSATION AND MANAGEMENT DEVELOPMENT COMMITTEE

REPORT ON EXECUTIVE COMPENSATION

The Committee

The Committee is composed solely of independent directors (currently six) who are not employees of the Corporation. It has periodically retained independent compensation consultants to advise it in connection with various compensation matters. In December 2003, the Committee retained Pearl Meyer & Partners, Inc., an independent executive compensation consulting firm, to advise the Committee and work with management regarding executive compensation.

Corporate Goals and Compensation Philosophy

The Corporation's goal is to be the leader in the domestic and international mining and manufacturing activities in which it competes while maximizing longer-term shareholder value.

The Committee designs its executive compensation program to ensure the Corporation's ability to attract, retain and motivate the best qualified and highest performing employees. The Committee believes it can align total compensation with shareholder interests and motivate senior managers participating in these programs by:

Emphasizing the relationship between pay and performance to reward managers who maximize the value of the Corporation's stock over the long-term;

Increasing the relative amount of compensation at risk as management responsibilities increase;

Assuring that the elements of variable compensation are linked as directly as practicable to measurable financial, operational and other measurable performance criteria;

Encouraging stock ownership by executives.

The Corporation's compensation philosophy emphasizes variable compensation in both short-term and long-term incentives. The Corporation targets base salaries at or slightly below the median of the comparison group (as described below). Annual total cash (base salary plus annual incentive) is targeted near the 60th percentile of the comparison group. Total remuneration (total cash plus long-term incentives, including stock options and restricted stock) is targeted between the 50th and 75th percentiles of the comparison group. The Committee believes that superior performance should result in superior pay.

Elements of Executive Compensation

The executive officers are compensated by salaries, annual incentive awards and long-term incentive compensation in the form of stock options and restricted stock grants, with each element focusing on performance. Salaries focus on level of responsibility and individual performance. Annual incentives relate to corporate and, where appropriate, division, unit and individual performance. Long-term incentive awards, delivered in the form of stock options and restricted stock, create a long-term identity of interest with shareholders based on the Corporation's performance and related growth of shareholder value.

The Committee believes that the Corporation competes for its executive talent primarily with similarly-sized industrial companies based in the United States. Accordingly, the Committee compares the compensation for the Corporation's top five executives, at least annually, to the compensation paid to executives holding similar positions at 13 publicly held industrial corporations of a median size, measured by revenues and market capitalization, similar to that of the Corporation (referred to as the comparison group). For other executives, comparisons to similar positions are based on a much larger group of companies of similar size to the Corporation, measured by revenues. The Committee believes that the competitive data used is generally representative of the competitive level of compensation paid to executive officers in companies the size of the Corporation. Thus, the companies used for comparison purposes in connection with the compensation paid to the Corporation's executive officers is a larger group than the companies included in the peer group used in the performance graphs on pages 21 and 22 to compare shareholder returns.

Beginning in 2004, the Committee intends to determine salary increases, incentive compensation awards, and long-term equity grants at the same time, permitting a comprehensive total compensation review in light of the prior year's performance both by the Corporation and by the executive. In order to accomplish this, the annual equity grant was shifted from December 2003 until February 2004 and salary increases were moved to March 1, 2004.

Executive Salaries

Individual salaries for executive officers are established by the Committee based upon the officer's performance, existing general economic and industry conditions and the Corporation's performance during the prior year. Generally, salary adjustments are targeted to advance salaries to competitive levels over time for sustained and excellent performance. The executives who participate in the Annual Incentive Compensation Plan (AICP) did not receive salary increases in 2002, but did receive increases in 2003. The Committee believes current salaries for the executive officers are generally below the median competitive levels when compared to employees in similar positions in the comparison group. The Committee determined that the individual executives named in the Summary Compensation Table have sustained excellent individual performance, and given the significant progress made on the *Quest for Zero* initiative, despite challenging economic conditions, salaries for the named executives have been increased in 2004.

Annual Incentives

The AICP provides executive officers and certain other officers and managers with compensation based on success in achieving annual corporate, division and, where appropriate, unit goals. Corporate goals are set

using return on equity and net operating cash flow return on invested capital. In late 2001, the Corporation publicly announced its *Quest for Zero* enterprise performance system and a series of aggressive goals related thereto, including a stretch goal of achieving by year-end 2003 an annualized operating income-improvement run-rate of \$400 million. For each of the 2002-2004 plan years, the Committee eliminated individual goals and implemented a third measure related to the *Quest for Zero* initiative, due to the critical nature of this initiative to the Corporation's short- and long-term success. While each business unit contributes to the *Quest for Zero* savings, the most important component of the cost-improvement program is the implied unit production cost of copper for Phelps Dodge Mining Company. As publicly reported, the Corporation achieved at year-end 2003 an annualized operating income-improvement of \$365 million, and its implied unit cost of production remained essentially the same as in 2002—all directly attributable to the *Quest for Zero* initiative. Without the savings attributable to *Quest for Zero* in 2003, implied unit cost of production would have risen by more than 6 percent compared to 2002. In 2003, the Corporation's return on equity performance was below the threshold goal. With respect to net operating cash flow return on invested capital, performance was at target. *Quest for Zero* performance results were between the established target and maximum goals. In 2003, certain division and unit performance ranged from threshold to above target. Based on these results and an assessment of individual performance, the Committee approved AICP awards for 2003 above the targeted amounts for the listed executives.

For the 2004 AICP plan year, implied unit cost of copper production will be the metric for measuring *Quest for Zero* improvements. Implied unit cost was the *Quest for Zero* performance metric for the mining company in both 2002 and 2003. This number is publicly reported and is the ultimate measure of success in driving costs out of the operations. Additional measures for the 2004 plan year, retained from prior years, include net operating cash flow return on invested capital and return on equity.

Long-Term Incentive Compensation

The Committee has historically used stock options and restricted stock as the principal methods of providing long-term incentive compensation. In 2002, a combination of stock options and restricted shares was awarded, intended to deliver the same approximate economic value as each of the 2000 and 2001 stock option grants. To accommodate the annual total compensation review by the Committee which will occur early in the calendar year, the normal 2003 grant cycle was shifted to early 2004. In 2003, only specific, targeted awards were made for retention, promotional or new hire purposes.

Grants of Restricted Stock

A total of 14 grants of restricted stock were awarded in 2003, including four to named executive officers. The majority of the awards, including those to the named officers, have a five-year cliff vesting schedule designed to enhance retention.

Stock Ownership Guidelines

To emphasize the connection between the interests of management and shareholders, the Corporation established stock ownership guidelines for officers and management of the Corporation. The guidelines are expressed as a multiple of salary and are then divided by the average 10-year stock price. The ownership targets range from two times salary at the lower end of the organization up to five times salary for the CEO.

Tax Code Issues

Section 162(m) of the Internal Revenue Code generally places a \$1 million per person limit on the deduction a publicly held corporation may take for compensation paid to its chief executive officer and its four other highest compensated covered employees, excluding for this purpose deferred compensation and, in general, compensation constituting performance-based compensation. In 1998 and 2003, the Corporation obtained shareholder approval for the 1998 and 2003 Stock Option and Restricted Stock Plans, respectively, which continue to exclude the compensation from stock options from the \$1 million deductibility limit. Other elements of the compensation payable to executive officers, such as salary, annual incentive compensation and

restricted stock, are not excludable from such limit. As a result of the Corporation's performance in achieving above-target performance goals on its *Quest for Zero* program and the related incentive compensation award to Mr. Whisler, his compensation subject to Section 162(m) exceeded one million dollars. This resulted in the loss of a Federal income tax deduction with respect to approximately \$918,013 of his compensation for 2003.

CEO Compensation

The Committee determines the chief executive officer's compensation using the same philosophy and policies as for all executive officers.

Mr. Whisler earned \$850,000 in base salary in 2003. His salary increase was designed to bring his compensation closer to the median of the comparison group and to reflect his personal performance. As reported publicly, the Corporation achieved at year-end 2003 an annualized operating income-improvement run-rate of \$365 million, and its implied unit cost of production remained essentially the same as in 2002—all directly attributable to the *Quest for Zero* initiative. Without the savings attributable to *Quest for Zero* in 2003, implied unit cost of production would have risen by more than 6 percent compared to 2002. Mr. Whisler's commitment to the design, implementation, and execution of the *Quest for Zero* enterprise performance system was critical to its success. The Committee awarded Mr. Whisler an incentive payment of \$1 million for 2003 performance in recognition of the significant progress on *Quest for Zero* and its importance to the Corporation's short- and long-term future, as well as the overall improvement in the Corporation's performance. The combination of base salary and bonus places Mr. Whisler's total cash compensation for 2003 between the median and the 75th percentile of the peer group of companies used for compensation purposes. In 2003, Mr. Whisler received an award of 40,000 shares of restricted stock which will vest on the fifth anniversary of the grant. The primary basis for the Committee's restricted stock grant was to provide a significant incentive for him to enhance long-term shareholder value. The specific basis for the Committee's determination regarding Mr. Whisler's compensation in 2003 included his role in improving the Corporation's financial results in the short- and long-term, and restoring the Corporation to profitability.

Conclusion

The Committee will continue to evaluate the Corporation's compensation programs to best enable the Corporation to employ and motivate its employees. CONSIDER SHAREHOLDER PROPOSAL

Raymond B. Ruddy, 26 Rolling Lane, Dover, MA 02030, who is the record holder of 134 common shares of the Corporation has given notice that he intends to present the following proposal for action at the annual meeting of shareholders:

Resolved, the shareholders recommend to the board of directors of Phelps Dodge to cease making charitable contributions.

Supporting Statement

Thomas Jefferson once wrote, "To compel a man to furnish contributions of money for propagation of opinions which he believes is sinful and tyrannical. Choice is a popular word in our culture. Noble Prize winning economist and long time critic of corporate charitable contributions, Milton Friedman, writes about the importance of choice in his book, *Free to Choose*. By making charitable contributions at the corporate level we have usurped the right and duty of individuals to support the charities of their choice. We may also be forcing thousands of people to support causes they may disagree with on a most profound level. For example, abortion rights advocates often use the word choice, without mentioning what choice is all about, i.e., abortion. Today there are a number of prominent charities advocating for abortion and, in at least one case, Planned Parenthood, actually performing abortions. Other charities, often times involved in research for cures of disease, may advocate the destruction of human embryos for research purposes. These may be more controversial examples, but they illustrate the point today, many charities are involved in activities that are divisive and not universally supported. Phelps Dodge Corporation employees and shareholders represent a broad range of interests. It is impossible to be sensitive to the moral, religious and cultural sensitivities to so many people. Rather than compel our stakeholders to support potentially controversial charitable groups we should refrain from giving their money away to them. Let each person choose. The importance of individual choice and the importance of each individual cannot be underestimated.

VOTING ON SHAREHOLDER PROPOSAL

The affirmative vote of the holders of a majority of the shares voted in person or by proxy at the annual meeting is required for the approval of this proposal.

The Board of Directors recommends a vote AGAINST the Shareholder Proposal.

The Board of Directors recommends that shareholders vote AGAINST this proposal for the following reasons:

Phelps Dodge Corporation (Phelps Dodge or the Company) is proud of its commitment to community and its charitable giving history. This commitment is part of a long history of giving and involvement that began in 1832. Over the years, our efforts have evolved to meet community needs, while also supporting our values and enhancing many of our business objectives. Phelps Dodge's long-term record of charitable giving is vital to the Company's reputation as a socially responsible company among investors, clients, employees, governments and communities.

Phelps Dodge strives to act as a catalyst for positive change in communities where we have a presence by awarding grants, building partnerships, encouraging employee volunteerism, and standing behind critical issues that affect quality of life. Through a carefully selected set of program focus areas, we are pioneering the creation of value for our communities, our employees and our businesses. These program focus areas include education, community safety, environment, arts and culture, and community/civic development.

Each year the Phelps Dodge Foundation, Phelps Dodge Corporation and local operating facilities donate resources to charitable organizations in more than 30 communities across the globe. The following are just a few of the many efforts we have funded in recent years:

Colorado School of Mines *United States.* Phelps Dodge has provided financial support to the School of Mines for curriculum development, student recruitment and scholarships that help increase and maintain its competitiveness and ability to attract students and prepare them for careers in the mining industry. Phelps Dodge has also provided more than 1,500 scholarships to students (through partnerships with other universities and colleges) pursuing degree programs relevant to the industry.

University of Chile *Santiago, Chile.* The University of Chile is an important partner in education, offering degree programs relevant to the mining industry and many of its graduates have become valuable employees.

Arizona Science Center *United States.* This important educational institution offers hands-on learning experiences for children and their families. In 1997, Phelps Dodge provided funds to develop a mining and mineral exhibit which highlights the importance of mining and copper to today's standard of living. Each year more than 50,000 children visit the Center with their parents or classroom to learn about all disciplines of science.

Phoenix Zoo *United States.* Phelps Dodge has provided support for the Phoenix Zoo's ZooMobile program, allowing the Zoo to reach thousands of children and families outside the Phoenix metropolitan area with a mobile, environmental and wildlife educational program featuring some of the Zoo's animals. The ZooMobile carries the Phelps Dodge logo and provides excellent recognition for Phelps Dodge.

American Red Cross / Phelps Dodge Youth Leadership and Safety Conference *United States.* Begun in 2001 with a donation of cash from the Phelps Dodge Foundation and volunteer resources, this award-winning partnership with the American Red Cross has provided 360 youth from various states throughout the U.S. (and in several other countries in 2003) with the opportunity to gain valuable leadership and safety skills that can then be used as an asset in their own community. Youth who attend are encouraged to develop solutions to problems in their local community, and are offered the opportunity to apply for a small grant from a special conference fund to implement a community service project of their creation.

Domestic Violence Shelter Partnership Initiative *United States.* With a focus on community and family safety, the Phelps Dodge Foundation provided contributions to domestic violence shelters in or near all of Phelps Dodge Mining Company's communities. This collaboration helped shelter partners leverage nearly \$500,000 in additional funding (from other sources) to increase their capacity to provide emergency shelter for victims of abuse seeking shelter and a safer way of life.

In addition, communities and their citizens have come to expect that corporations contribute to a sustainable quality of life beyond jobs and taxes, which include the provision of charitable contributions that help solve social issues. The Phelps Dodge charitable contributions program is critical in creating the hospitable community environment essential to our operational success, which is obviously critical to shareholder value.

The Board is confident that rather than damaging the Company's reputation with any of its constituencies, our corporate giving programs strengthen the Company's image as a good citizen and a good neighbor. Company contributions improve the communities where our employees live, create recognition for our Company and its products, and help us attract the best people. Refraining from making these contributions would erode, not enhance, the value of the Company to shareholders.

Accordingly, the Board recommends a vote AGAINST this proposal.
