**Table of Contents****ATLANTIS PLASTICS, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Unaudited)

**Note 1. Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ( GAAP ) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six-month periods ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ended December 31, 2006.

The consolidated balance sheet at December 31, 2005 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

The information included in this Form 10-Q should be read in conjunction with Management's Discussion and Analysis and consolidated financial statements and footnotes thereto included in the Atlantis Plastics, Inc. Form 10-K for the year ended December 31, 2005.

Certain reclassifications have been made to prior year amounts to conform with the current year presentation.

**Note 2. Inventories**

Inventories are stated at the lower of cost or market. Market is established based on the lower of replacement cost or estimated net realizable value, with consideration given to deterioration, obsolescence, and other factors. Cost includes materials, direct and indirect labor, and factory overhead and is determined using the first-in, first-out method.

The components of inventory consist of the following at June 30, 2006 and December 31, 2005 (in thousands):

	<b>June 30, 2006</b>	<b>December 31, 2005</b>
Raw materials	\$28,508	\$ 23,747
Work in progress	438	421
Finished products	19,027	17,499
Inventories, net	<b>\$47,973</b>	<b>\$ 41,667</b>

**Table of Contents****Note 3. Earnings Per Share Data**

The following table sets forth the computation of basic and diluted earnings per share for the periods indicated:

<i>(In thousands, except per share data)</i>	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2006</b>	<b>2005</b>	<b>2006</b>	<b>2005</b>
Net income	\$ 26	\$ 2,445	\$ 790	\$ 2,113
Weighted average shares outstanding basic	8,256	8,256	8,256	8,091
Net effect of dilutive stock options based on treasury stock method	55		25	
Weighted average shares outstanding diluted	8,311	8,256	8,281	8,091
Earnings per share basic	\$ 0.00	\$ 0.30	\$ 0.10	\$ 0.26
Earnings per share diluted	\$ 0.00	\$ 0.30	\$ 0.10	\$ 0.26

**Note 4. Comprehensive Income**

Total comprehensive income for the three and six months ended June 30, 2006 and 2005 was as follows:

<i>(In thousands)</i>	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2006</b>	<b>2005</b>	<b>2006</b>	<b>2005</b>
Net income as reported	\$ 26	\$ 2,445	\$ 790	\$ 2,113
Unrealized gain on derivatives, net of income taxes	229	213	768	213
Total comprehensive income	\$ 255	\$ 2,658	\$ 1,558	\$ 2,326

**Table of Contents****Note 5. Debt**

Long-term debt consisted of the following balances at June 30, 2006 and December 31, 2005 (in thousands):

	<b>June 30, 2006</b>	<b>December 31, 2005</b>
Senior secured term loans	\$ 118,500	\$ 119,400
Junior secured term loan	75,000	75,000
Revolving line of credit	15,800	1,300
Bonds	3,211	3,465
Total debt	212,511	199,165
Current portion of long-term debt	(1,725)	(1,970)
Long-term debt	\$ 210,786	\$ 197,195

On March 22, 2005, the Company entered into a new \$220 million secured credit agreement (the Credit Agreement) provided by a syndicate of financial institutions, replacing its previously existing \$120 million credit facility (the Retired Credit Facility). The new financing included a \$25 million revolving credit facility maturing March 2011 priced, at the Company's discretion, at either the London Inter-bank Offered Rate (LIBOR) plus 2.75% or the prime interest rate plus 0.75%, a \$120 million senior secured term loan (the Senior Term Loan) priced at LIBOR plus 2.75% maturing September 2011 and a \$75 million junior secured term loan (the Junior Term Loan) priced at LIBOR plus 7.25% maturing in March 2012. Borrowings under the Credit Agreement were used to repay the Company's then existing senior secured debt of \$83.9 million outstanding on March 22, 2005 and to pay related fees and expenses. The remainder of the proceeds was used on April 8, 2005 to pay a special one-time dividend of \$103.2 million (\$12.50 per share) to the Company's shareholders and to pay approximately \$4.4 million to holders of outstanding stock options in exchange for the cancellation of those options. In conjunction with the pay-off of the Company's Retired Credit Facility in the first quarter of 2005, the Company wrote-off approximately \$3.8 million of deferred financing costs related to the Retired Credit Facility. Additionally in 2005, the Company expensed approximately \$0.6 million of costs associated with a financing effort that was not consummated.

On June 6, 2005, the Company entered into an interest rate swap contract with a notional amount of \$125 million to effectively fix the interest rate on a portion of its floating rate debt. This contract had the effect of converting a portion of the Company's floating rate debt to a fixed 30-day LIBOR of 3.865%, plus the applicable spread. The interest rate swap was to expire on June 6, 2008. On May 16, 2006, the Company terminated this swap realizing \$3.4 million upon termination. The \$3.4 million is being amortized monthly as an offset to interest expense over the life of the original swap. The Company entered into a new swap concurrently that terminates on the same day as the old swap. Cash flows from the termination of this interest rate swap are classified as financing activities, the same category as the cash flows from the items being hedged. The new contract, which has substantially identical terms as the terminated contract, has the effect of converting a portion of the Company's floating rate debt to a fixed 30-day LIBOR of 5.265% plus the applicable spread. This swap expires on June 6, 2008. The fair value of the Company's interest rate swap agreement is the estimated amount that the Company would receive or pay to terminate the agreement at the reporting date, taking into account the current interest rate environment. The fair value of the interest rate swap outstanding at June 30, 2006 was a long-term asset of approximately \$0.5 million, and the change in fair value was

**Table of Contents**

recorded as part of other comprehensive income, net of income taxes (see also Note 4, Comprehensive Income (Loss); Note 7, Capital Structure; and Note 8, Derivative Instruments and Hedging Activities).

**Note 6. Stock-based Compensation**

Prior to January 1, 2005, the Company accounted for its stock-based employee compensation plans under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* ( APB 25 ) and related Interpretations, as permitted by FASB Statement No. 123, *Accounting for Stock-Based Compensation* ( SFAS 123 ). No stock-based employee compensation cost was recognized in the consolidated income statements as all options granted had an exercise price equal to the market value of the underlying common stock on the date of grant.

Effective January 1, 2005, the Company elected to early adopt the provisions of Statement of Financial Accounting Standards No. 123R, *Share-Based Payment* ( SFAS 123R ), which requires all share-based payments, including stock options, to be recognized in the income statement based on their fair values and no longer allows pro forma disclosure as an alternative. The Company adopted this statement based on the modified prospective method in which compensation cost is recognized beginning with the effective date (a) based on the requirements of SFAS 123R for all share-based payments granted after the effective date and (b) based on the requirements of SFAS 123R for all awards granted to employees prior to the effective date of SFAS 123R that remain unvested on the effective date. The Company recognized stock-based expense of \$53,000 during the first six months of 2005, prior to the Company's agreement to cancel all outstanding stock options (discussed below), which resulted in expensing the remaining unrecognized compensation of \$408,000. For the first six months of 2006, the Company recognized stock-based expense of \$195,000 in connection with the granting of stock options as discussed below.

On January 31, 2005, the Company agreed to cancel certain outstanding stock options of Anthony F. Bova, President and Chief Executive Officer, which would have otherwise expired on that date. In exchange for the cancellation of his 350,000 stock options, Mr. Bova received a cash payment of approximately \$2.4 million on April 8, 2005. The purpose of this option cancellation agreement was to provide Mr. Bova with a payment similar to the one-time dividend he would otherwise have received on that date on the shares issuable upon the exercise of the options cancelled.

On March 11, 2005, the Company agreed to cancel the outstanding stock options of its management, officers and directors (the Participants ) in exchange for cash payments, on April 8, 2005, of approximately \$2.0 million in aggregate in anticipation of the one-time dividend payment. The purpose of the option cancellation agreements was to provide each Participant with a payment similar to the dividend he or she would otherwise have received on the shares issuable upon the exercise of the options cancelled. Accordingly, the Company cancelled an aggregate of 228,800 outstanding stock options previously granted to the Participants. Upon the cancellation of those options, the Company recorded previously unrecognized compensation expense of \$408,000 during the first six months of fiscal 2005.

On March 15, 2005, the shareholders of the Company approved the amendment and restatement of its 2001 Stock Award Plan. The amended and restated Plan increased the number of shares available for grant from 500,000 to 865,000 and allows the granting of stock based awards other than stock options, such as stock appreciation rights, restricted stock, stock units, bonus stock, dividend equivalents, other stock related awards and performance awards that may be settled in cash, stock, or other property.

**Table of Contents**

In the first quarter of 2006, the Company granted stock options to certain key employees and directors. As of June 30, 2006, there was approximately \$1.8 million of unrecognized compensation cost related to nonvested share-based compensation arrangements granted under our stock option plans. We expect to amortize this cost over a remaining weighted average period of 4.7 years. The cost does not include the impact of any future share-based compensation awards.

**Note 7. Capital Structure**

The Company's capital stock consists of Class A Common Stock, with holders entitled to one vote per share, and Class B Common Stock, with holders entitled to 10 votes per share. Holders of the Class B Common Stock are entitled to elect 75% of the Board of Directors; holders of Class A Common Stock are entitled to elect the remaining 25%. Each share of Class B Common Stock is convertible, at the option of the holder thereof, into one share of Class A Common Stock. Class A Common Stock is not convertible into shares of any other equity security. During the six months ended June 30, 2006 and 2005, zero shares and 84,392 shares, respectively, of Class B Common Stock were converted into Class A Common Stock.

In March 2005, the shareholders of the Company approved a proposal to change the Company's state of incorporation from Florida to Delaware. Upon completion of this reincorporation, the par value of the Company's Class A and Class B Common Stock decreased to \$0.0001 per Common Share from \$0.10 per Common Share.

On March 22, 2005, the Company's Board of Directors declared a special, one-time cash dividend of \$12.50 per common share, payable April 8, 2005, to shareholders of record as of April 1, 2005. This dividend aggregated approximately \$103.2 million and was funded by proceeds from the Company's new financing arrangement.

**Table of Contents**

The following table summarizes changes in Shareholders' Deficit during the six months ended June 30, 2006:

<i>(in thousands)</i>	Class A Common Stock	Class B Common Stock	Additional Paid-In Capital	Accumulated Deficit	Accumulated Other Compre- hensive Income	Total Shareholders Deficit
<b>Balance at January 1, 2006</b>	<b>\$1</b>	<b>\$</b>	<b>\$</b>	<b>\$ (21,536)</b>	<b>\$ 1,652</b>	<b>\$ (19,883)</b>
Net income				790		790
Change in fair value of derivatives, net of income taxes of \$401					768	768
Share-based compensation			195			195
<b>Balance at June 30, 2006</b>	<b>\$1</b>	<b>\$</b>	<b>\$ 195</b>	<b>\$ (20,746)</b>	<b>\$ 2,420</b>	<b>\$ (18,130)</b>

**Note 8. Derivative Instruments and Hedging Activities**

All derivatives are recorded on the consolidated balance sheets at fair value. On the date the derivative contract is entered into, the Company designates the derivative as either (1) a fair value hedge of a recognized liability, (2) a cash flow hedge of a forecasted transaction, (3) the hedge of a net investment in a foreign operation, or (4) a non-designated derivative instrument. The Company is engaged in an interest rate swap agreement that is classified as a cash flow hedge. Changes in the fair value of derivatives that are classified as a cash flow hedge are recorded in other comprehensive income until reclassified into earnings at the time of settlement of the hedged transaction.

The Company formally documents all relationships between hedging instruments and hedged items as well as the risk management objectives and strategy. The Company formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in the hedged items. The Company does not utilize derivatives for speculative purposes.

**Table of Contents****Note 9. Segment Information**

The Company has three operating segments: Plastic Films, Injection Molding, and Profile Extrusion. Information related to such segments is as follows:

	<b>Six Months Ended June 30, 2006</b>				
<i>(in thousands)</i>	<b>Plastic Films</b>	<b>Injection Molding</b>	<b>Profile Extrusion</b>	<b>Corporate</b>	<b>Consolidated</b>

<sup>(1)</sup> Corporate identifiable assets are primarily intercompany balances that eliminate when combined with other segments.

**Table of Contents**

**Note 10. New Accounting Standards**

In July 2006, the Financial Accounting Standards Board ( FASB ) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* , ( FIN 48 ), with respect to Financial Accounting Standard No. 109, *Accounting for Income Taxes* ( FAS 109 ), which clarifies the accounting for uncertainty in tax positions. FIN 48 requires that we recognize in our consolidated financial statements the impact of a tax position if that position is more likely than not of being sustained based on the technical merits of the position. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. We are currently evaluating the impact of adopting FIN 48 in our consolidated financial statements.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**  
**Overview**

Atlantis Plastics, Inc., headquartered in Atlanta, Georgia, is a leading manufacturer of specialty plastic films and custom injection molded and extruded plastic products with 15 manufacturing plants located throughout the United States. We operate through three operating business segments: Plastic Films, Injection Molding, and Profile Extrusion.

Plastic Films is a leading manufacturer of specialty plastic films. Three operating divisions comprise the Plastic Films segment: (1) Stretch Films, (2) Custom Films, and (3) Institutional Products. Stretch Films produces high quality, monolayer and multilayer plastic films used to cover, package and protect products for storage and transportation applications, i.e. for palletization. We are, with our Linear brand, one of the two original producers and one of the largest producers of stretch film in North America. Custom Films produces customized monolayer and multilayer films used as converter sealant webs, acrylic masking, industrial packaging and in laminates for foam padding of carpet, automotive and medical applications. Institutional Products converts custom films into disposable products such as table covers, gloves and aprons, which are used primarily in the institutional food service industry.

Injection Molding is a leading manufacturer of both custom and proprietary injection molded products. Injection Molding produces a number of custom injection molded components that are sold primarily to original equipment manufacturers, or OEMs, in the home appliance, and automotive parts industries. Injection Molding also manufactures a line of proprietary injection molded siding panels for the home building and remodeling markets.

Profile Extrusion manufactures custom profile extruded plastic products, primarily for use in both trim and functional applications in commercial and consumer products, including mobile homes, residential doors and windows, office furniture and appliances, and recreational vehicles, where we have a leading market share.

**Table of Contents**

Selected income statement data for the quarterly periods ended March 31, 2005 through June 30, 2006 are as follows (in millions):

<i>(In millions)</i>	2006			Q4	2005		
	Q2	Q1	Year		Q3	Q2	Q1

**Results of Operations****Net Sales**

Net sales for the quarter and six months ended June 30, 2006 were \$110.6 million and \$220.4 million, respectively, compared to \$101.6 million and \$202.0 million, respectively, for the comparable periods in 2005.

Net sales for the Plastic Films segment increased 10% to \$68.7 million for the second quarter of 2006 compared to \$62.4 million for the second quarter of 2005. Net sales for the six months ended June 30, 2006 increased 7% to \$136.8 million compared to \$128.1 million for the same period in 2005. These increases are primarily due to increased average selling prices, reflective of higher resin costs compared to the prior year. Sales volume (measured in pounds) for the second quarter increased 5% but decreased 4% for the six months in comparison to the prior year.

Net sales for the Injection Molding segment for the quarter and six months ended June 30, 2006 increased 9% and 16%, respectively, compared to the quarter and six months ended June 30, 2005. The six month increases are primarily attributable to volume growth within our traditional custom injection molding business, and, to a lesser extent, moderate growth in our building products line, as well as increases in average selling prices driven by increases in raw material costs.

**Table of Contents**

Net sales for the Profile Extrusion segment increased 2% and 6%, respectively, for the quarter and six months ended June 30, 2006 compared to the same periods in 2005. The increase for the six month period is primarily due to increases in average selling prices resulting from higher resin costs and, to a lesser extent, a slight volume increase within the recreational vehicle sector.

**Gross Margin and Operating Margin**

Gross margin declined to 12% and 13%, respectively, for the quarter and six months ended June 30, 2006 compared to 16% and 15%, respectively, for the same periods in 2005. Operating margins were 4% and 5%, respectively, for the quarter and six months ended June 30, 2006 compared to 8% and 6% for the quarter and six months ended June 30, 2005.

In the Plastic Films segment, gross margin and operating margin for the quarter ended June 30, 2006 declined to 11% and 4%, respectively, from 15% and 6% for the quarter ended June 30, 2005. For the six months ended June 30, 2006, gross margin and operating margin decreased to 12% and 4%, respectively, from 14% and 5%, respectively, for the comparable periods in 2005. Margins decreased primarily due to offsetting increases in both sales and cost of goods sold resulting from the direct pass-through of resin price increases as well as margin loss resulting from a 4% decline in pounds shipped.

In the Injection Molding segment, gross margin was 13% for the quarter ending June 30, 2006 and 17% for the quarter ending June 30, 2005, and operating margin decreased to 5% for the quarter ending June 30, 2006 compared to 10% for the quarter ending June 30, 2005. For the six months ended June 30, 2006, gross margin decreased from 15% to 14% and operating margin decreased from 8% to 7%. These declines were due primarily to increases in raw material and direct labor costs as a percentage of net sales.

In the Profile Extrusion segment, gross margin and operating margin decreased to 14% and 4%, respectively, for the quarter ended June 30, 2006, from 20% and 10%, respectively, for the quarter ended June 30, 2005. For the six months ended June 30, 2006, gross margin and operating margin declined to 11% and 2%, respectively, from 20% and 10%, respectively, for the same period of 2005. These declines were due to weakness in the RV sector and continuing operating inefficiencies at our Elkhart facilities.

**Selling, General, and Administrative Expense**

Selling, general, and administrative expenses ( SG&A ) decreased to \$8.3 million for the quarter ended June 30, 2006 from \$8.5 million for the quarter ended June 30, 2005, and decreased to \$17.1 million for the six months ended June 30, 2006 compared to \$17.7 million (including \$0.6 million in unconsummated financing costs) in the prior year. The decrease for the quarter is primarily due to decreases in incentive compensation costs. The six month decrease is due to stock option expense and costs related to an unconsummated financing incurred in the first quarter of 2005, which were not repeated in 2006, as well as decreases in incentive compensation costs. SG&A as a percentage of sales decreased to 7% and 8%, respectively, for the quarter and six months ended June 30, 2006 compared to 8% and 9%, respectively, for the quarter and six months ended June 30, 2005.

**Net Interest Expense**

Net interest expense on a comparative basis for the quarter and six months ended June 30, 2006 increased to \$4.9 million and \$9.6 million, respectively, from \$4.1 million and \$5.9 million, respectively, for the same periods in 2005. The increases are primarily due to higher average outstanding borrowings and, to a lesser extent, higher average interest rates in connection with our \$220 million credit facility. Unamortized

**Table of Contents**

deferred financing costs written off during the first quarter of 2005 were \$3.8 million as a result of replacing our previously existing credit facility of \$120 million with our new \$220 million credit facility in March 2005.

**Operating and Net Income**

As a result of the factors described above, operating income decreased to \$4.8 million, 4% of net sales, during the quarter ended June 30, 2006, compared with \$7.9 million, 8% of net sales, for the quarter ended June 30, 2005. For the six months ended June 30, 2006, operating income decreased to \$10.7 million, 5% of net sales, compared to \$12.9 million, 6% of net sales, for the six months ended June 30, 2005. Certain one-time charges, \$0.5 million of stock option expense and \$0.6 million of unconsummated financing costs, decreased operating income for the six months ended June 30, 2005.

Net income and basic and diluted earnings per share for the three and six months ended June 30, 2006 and 2005 were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
<i>(In thousands, except per share data)</i>				
Net income	\$ 26	\$2,445	\$ 790	\$2,113
Earnings per share basic	\$0.00	\$ 0.30	\$0.10	\$ 0.26
Earnings per share diluted	\$0.00	\$ 0.30	\$0.10	\$ 0.26

**Liquidity and Capital Resources**

As of June 30, 2006, we had \$0.2 million in cash and cash equivalents and an additional \$7.6 million of unused availability, net of outstanding letters of credit of approximately \$1.6 million, under our new \$220 million secured financing credit facility entered into on March 22, 2005. The new financing includes a \$25 million revolving credit facility maturing March 2011, a \$120 million senior secured term loan facility maturing in September 2011 and a \$75 million junior secured term loan facility maturing in March 2012. Substantially all of our accounts receivable, inventories and property and equipment are pledged as collateral under this credit facility.

Proceeds from the new financing facility were used to repay previously existing senior secured debt of \$83.9 million outstanding on March 22, 2005 and to pay related fees and expenses. In conjunction with the cancellation of our previous credit facility, we wrote-off approximately \$3.8 million of deferred financing costs associated with the old facility during the first quarter of fiscal 2005. Additionally, we expensed approximately \$0.6 million of costs associated with a financing effort that was not consummated. Furthermore, on March 22, 2005, our Board of Directors declared a special, one-time cash dividend of \$12.50 per common share, which was paid on April 8, 2005, to shareholders of record as of April 1, 2005. This dividend aggregated approximately \$103.2 million and was funded by proceeds from our new credit facility. Along with the special dividend payment, we paid approximately \$4.4 million to holders of outstanding stock options in exchange for the cancellation of those options. As a result of the option cancellations, we recorded compensation expense in the amount of \$408,000 during the first quarter of 2005 in accordance with the provisions of FAS 123R, which we adopted on January 1, 2005.

**Table of Contents**

Our principal needs for liquidity, on both a short and long-term basis, relate to working capital (principally accounts receivable and inventories), debt service, and capital expenditures. Presently, we do not have any material commitments for future capital expenditures.

Our high debt level presents substantial risks and could have negative consequences. For example, it could (1) require us to dedicate all or a substantial portion of our cash flow from operations to debt service, limiting the availability of cash for other purposes; (2) increase our vulnerability to adverse general economic conditions by making it more difficult to borrow additional funds to maintain our operations if we suffer shortfalls in net sales; (3) hinder our flexibility in planning for, or reacting to, changes in our business and industry by preventing us from borrowing money to upgrade equipment or facilities; and (4) limit or impair our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, or general corporate purposes.

In the event that our cash flow from operations is not sufficient to fund our expenditures or to service our indebtedness, we would be required to raise additional funds through the sale of assets or subsidiaries. There can be no assurance that any of these sources of funds would be available in amounts sufficient for us to meet our obligations. Moreover, even if we were able to meet our obligations, our highly leveraged capital structure could significantly limit our ability to finance our expansion program and other capital expenditures, to compete effectively, or to operate successfully under adverse economic conditions.

***Cash Flows from Operating Activities***

Net cash used for operating activities was \$11.1 million for the six months ended June 30, 2006, compared to \$5.5 million for the six months ended June 30, 2005. The use of operating cash flow during 2006 resulted primarily from higher working capital requirements, the majority of which was comprised of a reduction in accounts payable and accrued expenses of \$12.9 million, a \$6.3 million increase in inventory, and an increase in other current assets of \$1.7 million, partially offset by \$6.1 million in depreciation, a \$2.4 million decrease in accounts receivable, and \$0.5 million in loan fee amortization. The use of operating cash flow during the same period in 2005 was attributable to a decrease of \$10.8 in accounts payable and accrued expenses, an increase of \$6.1 million in net accounts receivable, and an increase in other current assets of \$2.5 million, partially offset by depreciation of \$5.8 million, other amortization of \$4.2 million, and a decrease in inventory of \$1.6 million.

***Cash Flows from Investing Activities***

Net cash used for investing activities decreased to \$5.4 million for the six months ended June 30, 2006, compared to \$6.5 million for the six months ended June 30, 2005 resulting from decreased capital expenditures, net of proceeds from asset dispositions, between periods.

***Cash Flows from Financing Activities***

Net cash provided by financing activities for the six months ended June 30, 2006 was \$16.6 million compared with net cash provided by financing activities of \$12.0 million for the six months ended June 30, 2005. Net cash provided by financing activities for the first six months of 2006 was primarily used to fund working capital, and reflect net borrowings of \$14.5 million on our revolving credit facility and \$3.4 million in proceeds from an interest rate swap redemption, partially offset by \$1.2 million in debt repayments. Net cash provided by financing activities for the first six months of 2005 reflect borrowings of \$195.0 million under the term loans of our new credit agreement and \$7.1 million under our new revolving credit facility, a \$3.7 million income tax benefit due to the exercise of employee stock options, \$2.5 million in proceeds from the exercise of

**Table of Contents**

stock options and the receipt of approximately \$0.5 million in repayments of shareholder notes. These amounts were partially offset by the \$103.2 million payment of a special dividend, net repayments of \$87.7 million on our retired credit facility and \$5.8 million of financing costs associated with our new credit agreement.

**Recent Accounting Pronouncements**

In July 2006, the Financial Accounting Standards Board ( FASB ) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* , ( FIN 48 ), with respect to Financial Accounting Standard No. 109, *Accounting for Income Taxes* ( FAS 109 ), which clarifies the accounting for uncertainty in tax positions. FIN 48 requires that we recognize in our consolidated financial statements the impact of a tax position if that position is more likely than not of being sustained based on the technical merits of the position. The provisions of FIN 48 are effective for fiscal years beginning after December 15, 2006, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. We are currently evaluating the impact of adopting FIN 48 in our consolidated financial statements.

**Note Regarding Forward Looking Statements**

This quarterly report on Form 10-Q contains forward-looking statements within the meaning of that term in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Additional written or oral forward-looking statements may be made from time to time, in press releases, annual or quarterly reports to shareholders, filings with the Securities Exchange Commission, presentations or otherwise. Statements contained herein that are not historical facts are forward-looking statements made pursuant to the safe harbor provisions referenced above.

Forward-looking statements may include, but are not limited to, projections of net sales, income or losses, or capital expenditures; plans for future operations; financing needs or plans; compliance with financial covenants in loan agreements; plans for liquidation or sale of assets or businesses; plans relating to our products or services; assessments of materiality; predictions of future events; the ability to obtain additional financing; our ability to meet obligations as they become due; the impact of pending and possible litigation; as well as assumptions relating to the foregoing. In addition, when used in this discussion, the words anticipates, believes, estimates, expects, intends, and similar expressions are intended to identify forward-looking statements. Forward-looking statements are inherently subject to risks and uncertainties, including, but not limited to, the impact of leverage, dependence on major customers, fluctuating demand for our products, risks in product and technology development, fluctuating resin prices, competition, litigation, labor disputes, capital requirements, and other risk factors detailed in our filings with the Securities and Exchange Commission, some of which cannot be predicted or quantified based on current expectations.

Consequently, future events and actual results could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. Readers are cautioned not to place undue reliance on any forward-looking statements contained herein, which speak only as of the date hereof. We do not undertake an obligation to publicly release the result of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

For a discussion of certain market risks related to the Company, see the Quantitative and Qualitative Disclosures about Market Risk section in the Company's Form 10-K for the fiscal year ended December 31, 2005.

**Table of Contents**

On March 22, 2005, the Company replaced its existing credit facility with a new credit agreement resulting in variable rate debt of \$209.3 million outstanding at June 30, 2006. Currently, the Company has an interest rate swap agreement which matures in June 2008 that has the effect of converting \$125 million of the Company's floating rate debt to a fixed rate. The Company has designated this interest rate swap agreement as a cash flow hedge (see also Note 5, Debt; and Note 8, Derivative Instruments and Hedging Activities). The Company uses interest rate swap agreements to manage its exposure of interest rate changes on the Company's variable rate debt. Based on the Company's variable-rate obligations outstanding at June 30, 2006, a 25 basis point increase or decrease in the level of interest rates would, respectively, increase or decrease annual interest expense by approximately \$0.5 million. Such potential increases or decreases are based on certain simplifying assumptions, including a constant level of variable rate debt for all maturities and an immediate, across-the-board increase or decrease in the level of interest rates with no other subsequent changes for the remainder of the period.

There have been no other significant changes with respect to market risks related to the Company since December 31, 2005.

**Item 4. Controls and Procedures**

Our Chief Executive Officer (CEO) and Chief Financial Officer (CFO) have evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2006. Based on this evaluation, our CEO and CFO have each concluded that our disclosure controls and procedures are effective to ensure that we record, process, summarize, and report information required to be disclosed by us in our quarterly reports filed under the Securities Exchange Act within the time periods specified by the Securities and Exchange Commission's rules and forms. During the quarterly period covered by this report, there have not been any changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Subsequent to the date of their evaluation, there have not been any significant changes in our internal controls or in other facts that could significantly affect these controls.

**Table of Contents***Part II. Other Information***Item 1. Legal Proceedings**

The Company is not a party to any legal proceeding other than routine litigation incidental to its business, none of which is material.

**Item 1A. Risk Factors**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2005, which could materially affect our business, financial condition and future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may adversely affect our business, financial condition and/or operating results.

**Item 4. Submission of Matters to a Vote of Security Holders**

(A) The Registrant held its Annual Meeting of Shareholders on June 1, 2006.

(B) Not required.

(C) The matter voted on at the Annual Meeting of Shareholders, and the tabulation of votes on such matter are as follows:

**Election of Directors:**

Name	Voters For	Votes Withheld
<b>CLASS A</b>		
Chester B. Vanatta	4,798,123	287,990
Larry D. Horner	4,796,388	289,725
<b>CLASS B</b>		
Cesar L. Alvarez	1,997,548	0
Anthony F. Bova	1,997,548	0
Charles D. Murphy, III	1,997,548	0
Earl W. Powell	1,997,548	0
Jay Shuster	1,997,548	0
Peter Vandenberg, Jr.	1,997,548	0
(D) Not applicable.
