NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2010
(unaudited)

Note 1 - Basis of Presentation

Financial information included herein is unaudited, however, such information reflects all adjustments (of a normal and recurring nature), which are, in the opinion of management, necessary for the fair presentation of the condensed consolidated financial statements for the interim periods. The results for the interim periods are not necessarily indicative of the results to be expected for the full year. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with rule 10-01 of Regulation S-X promulgated by the Securities and Exchange Commission and therefore do not include all information and footnote disclosures required under accounting principles generally accepted in the United States of America. It is suggested that the June 30, 2010 condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. The Condensed Consolidated Balance Sheet at December 31, 2009 is derived from the December 31, 2009 audited financial statements.

There have been no material changes in our significant accounting policies during the three and six months ended June 30, 2010 as compared to the significant accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2009. The Company has evaluated subsequent events through the filing date of this Form 10-Q and has determined that there were no subsequent events to recognize or disclose in these financial statements.

Recent Accounting Pronouncements: In February 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-09, "Subsequent Events: Amendments to Certain Recognition and Disclosure Requirements," which provides updated guidance on subsequent events and removes the requirement to disclose the date through which subsequent events have been evaluated for SEC filers. This guidance became effective upon issuance and its adoption did not have an effect on the Company's condensed consolidated financial statements.

Note 2 - Going Concern

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplates continuation of the Company as a going concern. The Company has incurred significant recurring losses from continuing operations and has a significant working capital deficiency. The Company incurred a net loss of \$4.0 million for the six months ended June 30, 2010 and has a working capital deficiency of \$16.9 million as of June 30, 2010. In addition, the Company recorded a loss from continuing operations of \$8.8 million for the year ended December 31, 2009. The June 30, 2010 results include a \$1.0 million restructuring charge related to the relocation of the

4

manufacturing of the Indoor display equipment from Connecticut to Iowa as further discussed in Note 3 - Plan of Restructuring and a \$456,000 charge to write-off engineering software. As further discussed in Note 7 - Long-Term Debt, the Company did not make the required sinking fund payment of \$105,700 on its 9 1/2% Subordinated debentures due 2012 (the "Debentures"), which was due on December 1, 2009 and the June 1, 2010 interest payment of \$50,200, and did not make the March 1, 2010 interest payment of \$417,800 on its 8 1/4% Limited

Edgar Filing: TRANS LUX CORP - Form 10-Q

convertible senior subordinated notes due 2012 (the "Notes"). Under the terms of the indenture agreements that govern the Debentures and Notes, the non-payments constitute events of default; accordingly, the trustees or the holders of 25% of the outstanding Debentures and Notes have the right to declare the outstanding principal and interest due and payable immediately. As such, all outstanding debt under the Debentures and Notes has been classified as current in the accompanying Condensed Consolidated Balance Sheets. In the event that the Company receives such notice, the senior lender has the right to demand payment on outstanding amounts on the Credit Agreement. These matters raise substantial doubt about the Company's ability to continue as a going concern.

In March 2010, the senior lender agreed to extend the maturity date of the Credit Agreement to May 1, 2011 and has extended payment terms on the term portion of the debt. The senior lender has retained the right to call the Credit Agreement in the event that the holders of the Debentures or Notes demand payment. As of August 1, 2010, the senior lender modified the Credit Agreement to reduce the availability under the revolving loan from \$5.0 million to \$4.3 million, amend the principal repayment schedule to defer the next three monthly principal payments of \$50,000 each until the maturity date and remove the senior debt coverage ratio covenant test for the June 30, 2010 and September 30, 2010 periods. The Company also refinanced its mortgage on its Des Moines, Iowa facility in March 2010, which provided an additional \$260,000 for working capital. The Company continues to be involved in discussions with various entities to try to obtain additional debt and/or equity financing including amounts that could be used to settle the Debentures and Notes, however there can be no assurance that the Company will be successful.

The Company continues to manage a plan to improve operating results. The plan includes a joint venture agreement with a People's Republic of China company to establish a cooperative venture limited liability company in the People's Republic of China to engage in research, engineering, development, manufacturing, sale and distribution of LED lamps, LED digital signage and LED lighting or similar products. The Company is pursuing new business opportunities in the LED market with energy-saving lighting solutions and supplementing our established digital display and signage businesses with a highly flexible, cost-efficient and creative means for facilities to enhance their environments with LED lighting. The Company intends to feature a comprehensive offering of the latest LED lighting technologies that provide facilities and public infrastructure with "green" lighting solutions that emit less heat, save energy and enable creative designs. The Company continues to seek ways to reduce costs of components used in its products and other expenses to improve sales margins, and continues to look at ways to lower overhead costs, such as compensation and benefits. There can be no assurance that the Company will achieve higher sales, improved margins or lower costs.

Because substantially all of the Company's eligible accounts receivable, inventory and other assets are secured by the Credit Agreement, management cannot provide any assurance that the Company

would have sufficient cash and liquid assets to fund normal operations during the period of time when it is required to repay amounts outstanding under the Credit Agreement. Further, if the Company is unable to obtain waivers or cure the defaults on the Debentures and Notes, the Debentures and Notes could be called and be immediately due. Such notice would trigger a default in the Credit Agreement. If the Credit Agreement, Debentures and Notes are called, the Company would need to obtain new financing; there can be no assurance that the Company will be able to do so. If the debt is called and new financing cannot be arranged it is unlikely the Company will be able to continue as a going concern. The accompanying condensed consolidated financial statements do not

Edgar Filing: TRANS LUX CORP - Form 10-Q

include any adjustments relating to the recoverability and classification of asset carrying amounts or the amounts and classification of liabilities that may result from the outcome of this uncertainty. See Note 7 - Long-Term Debt for further details.

Note 3 - Plan of Restructuring

In the second quarter, the Company decided to take certain actions to reduce operating costs. These actions included the elimination of approximately 50 positions from our operations and the closing of our Stratford, Connecticut manufacturing facility. For the six months ended June 30, 2010, we incurred one-time restructuring costs of approximately \$1.0 million, consisting of employee severance pay, facility closing costs, representing primarily lease termination and asset write-off costs, and other fees directly related to the restructuring plan. The costs associated with the restructuring are included in a separate line item, Restructuring costs, in the Condensed Consolidated Statement of Operations. We expect that the majority of these costs will be paid over the next 12 months.

The following table shows the amounts expensed and paid for restructuring costs that were incurred during the three and six months ended June 30, 2010 and the remaining accrued balance of restructuring costs as of June 30, 2010, which is included in Accrued liabilities in the Condensed Consolidated Balance Sheets.

	Provision	Payments and Other Adjustments	Balance June 30, 2010
Severance costs (1)	\$ 365	\$ 54	\$311
Facility closing costs (2)	596	171	425
Other fees	81	-	81
	\$1,042	\$225	\$817

6

The following table shows by reportable segment, the restructuring costs incurred during the three and six months ended June 30, 2010 and the remaining accrued balance of restructuring costs as of June 30, 2010.

	Provision	Payments and Other Adjustments	Balance June 30, 2010
Indoor display	\$ 935	\$197	\$738
Outdoor display	107	28	79
	\$1,042	\$225	\$817

Edgar Filing: TRANS LUX CORP - Form 10-Q

Note 4 - Fair Value

The Company carries its money market funds and cash surrender value of life insurance related to its deferred compensation arrangements at fair value. The fair value of these instruments is determined using a three-tier fair value hierarchy. Based on this hierarchy, the Company determined the fair value of its money market funds using quoted market prices, a Level 1 or an observable input, and the cash surrender value of life insurance, a Level 2 based on observable inputs primarily from the counter party. At June 30, 2010, the Company's money market funds and the cash surrender value of life insurance had carrying amounts of \$9,000 and \$71,000, respectively. The carrying amounts of cash equivalents, receivables, accounts payable and accrued liabilities approximate fair value due to the short-term maturities of these items. At June 30, 2010, the fair value of the Company's Notes and Debentures, using observable inputs, was \$0.8 million and \$0.1 million, respectively. At June 30, 2010, the fair value of the Company's remaining long-term-debt, including current portion, approximates its carrying value of \$7.7 million.

Note 5 - Inventories

Inventories are stated at the lower of cost or market and consist of the following:

	June 30	December 31
In thousands	2010	2009
Raw materials	\$3,945	\$3,695
Work-in-progress	877	1,044
Finished goods	467	410
	-----	-----
	\$5,289	\$5,149

7

Note 6 - Other Receivable

The Company had a \$2.6 million note receivable that was due June 2008, relating to the sale/leaseback of the Company's Norwalk, Connecticut facility in 2004. The receivable was secured by a purchase money mortgage subordinated to a \$3.5 million first mortgage in favor of the purchaser's bank. The purchaser defaulted on this payment and the Company pursued legal remedies. After the negative results of a foreclosure by sale by the first mortgagee, the Company wrote off this note receivable and related expense for a total of \$2.7 million in the second quarter of 2009.

Note 7 - Long-Term Debt

The Company has \$10.1 million of 8 1/4% Limited convertible senior subordinated notes due 2012 (the "Notes") which are no longer convertible into common shares; interest is payable semi-annually and the Notes may be redeemed, in whole or in part, at par. The Company did not remit the March 1, 2010 semi-annual interest payment of \$417,800 to the trustee, which non-payment continued for more than 30

Edgar Filing: TRANS LUX CORP - Form 10-Q

days. The non-payment constitutes an event of default under the indenture governing the Notes and the trustee, by notice to the Company, or the holders of 25% of the principal outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. When such notice is received by the Company, no payment shall be made by the Company to the holders or trustee until the earlier of such non-payment event of default is cured or waived or 179 days since receipt by the trustee of notice of such event, unless the holder of Senior Indebtedness has accelerated the due date thereof. If the holder of Senior Indebtedness accelerates the due date at any time, then no payment may be made on the Notes until the default is cured or waived. At June 30, 2010 and December 31, 2009, the total amount outstanding is classified as Current portion of long-term debt.

The Company has \$1.1 million of 9 1/2% Subordinated debentures due 2012 (the "Debentures") which are due in annual sinking fund payments of \$105,700 beginning in 2009, which payment has not been remitted by the Company, with the remainder due in 2012; interest is payable semi-annually and the Debentures may be redeemed, in whole or in part, at par. The Company did not remit the June 1, 2010 semi-annual interest payment of \$50,200 to the trustee, which non-payment continued for more than 30 days. The non-payments constitute an event of default under the indenture governing the Debentures and the trustee, by notice to the Company, or the holders of 25% of the principal outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. During the continuation of any event which, with notice or lapse of time or both, would constitute a default under any agreement under which Senior Indebtedness is issued, if the effect of such default is to cause or permit the holder of Senior Indebtedness to become due prior to its stated maturity, no payment (including any required sinking fund payment) of principal, premium or interest shall be made on the Debentures unless and until such default shall have been remedied, if written notice of such default has been given to the trustee by the Company or the holder of Senior Indebtedness. The failure to make the sinking fund payment is an event of default under the Credit Agreement since it involves indebtedness over \$500,000 and no payment can be made to the trustee or the holders at this time as such event has not been waived.

8

Likewise, the failure to pay the interest on the Notes is an event preventing payments on the Debentures, as the Notes are Senior Indebtedness with respect to the Debentures. At June 30, 2010 and December 31, 2009, the total amount outstanding is classified as Current portion of long-term debt.

The Company has a bank Credit Agreement, which provides for a term loan of \$10.0 million, a non-revolving line of credit of up to \$6.2 million (which is no longer available) to finance the redemption of one-half of the 7 1/2% Subordinated notes due 2006 (which were redeemed in June 2006 and no longer outstanding), and a revolving loan of up to \$4.3 million, based on eligible accounts receivable and inventory, at a variable rate of interest of Prime plus 2.00%, with a floor of 6.00% (6.00% at June 30, 2010), which was due to mature April 1, 2010. On April 13, 2010, the maturity of the Credit Agreement was extended to May 1, 2011. As of August 1, 2010, the senior lender modified the Credit Agreement to reduce the availability under the revolving loan from \$5.0 million to \$4.3 million, amend the principal repayment schedule to defer the next three monthly principal payments of \$50,000 each until the maturity date and remove the senior debt coverage ratio covenant test for the June 30, 2010 and September 30, 2010 periods. As of June 30, 2010, the Company has drawn \$4.0 million against the revolving loan facility and none was available for additional borrowing. The Credit Agreement, as amended, requires an annual facility fee on the unused commitment of 0.25% and requires compliance with certain financial covenants, as defined in the Credit Agreement, which include a

Edgar Filing: TRANS LUX CORP - Form 10-Q

senior debt coverage ratio of not less than 1.25 to 1.0, a loan-to-value ratio of not more than 50% and a \$1.0 million cap on capital expenditures per quarter beginning with the quarter ended December 31, 2010. In addition, the April 13, 2010 amendment waived the default on the Notes and Debentures, but in the event that the holders of the Notes or Debentures or trustees declare a default and begin to exercise any of their rights and remedies in connection with the non-payment defaults, this shall constitute a separate and distinct event of default and the senior lender may exercise any and all rights and remedies it may have. In addition, the April 13, 2010 amendment waived the default of non-payment of certain pension plan contributions, but in the event that any government agency takes any enforcement action or otherwise exercises any rights and remedies it may have, this shall constitute a separate and distinct event of default and the senior lender may exercise any and all rights and remedies it may have. The amounts outstanding under the Credit Agreement are collateralized by all of the Display division assets. At June 30, 2010 and December 31, 2009, the total amount outstanding under the Credit Agreement is classified as Current portion of long-term debt.

On March 1, 2010, the Company refinanced its existing mortgage on its facility located in Des Moines, Iowa, which was scheduled to mature in 2009. The refinancing was for \$650,000 at a fixed rate of interest of 6.50% payable in monthly installments, which matures on March 1, 2015 and requires a compensating balance of \$200,000. The Company used proceeds of \$390,000 to settle the prior debt and will use the \$260,000 balance for working capital needs.

On February 25, 2010, the Company took out a mortgage on land located in Silver City, New Mexico. The financing was for \$100,000 at a fixed rate of interest of 7.80% payable in monthly interest only payments, which matures on February 25, 2012.

9

The Company also has a mortgage on its real estate rental property located in Santa Fe, New Mexico at a variable rate of interest of Prime, with a floor of 6.75%, which was the interest rate in effect at June 30, 2010, payable in monthly installments through December 12, 2012.

Note 8 - Comprehensive Loss

Total comprehensive loss is as follows:

In thousands	Three Months Ended June 30 2010	2009	Six Months Ende 2010
Net loss, as reported	\$(2,605)	\$(3,805)	\$(4,025)

Unrealized foreign currency translation (loss) gain	(162)	159	(44)
Total other comprehensive (loss) income, net of tax	(162)	159	(44)
Comprehensive loss	\$(2,767)	\$(3,646)	\$(4,069)

Edgar Filing: TRANS LUX CORP - Form 10-Q

Note 9 - Pension Plan

As of December 31, 2003, the benefit service under the pension plan had been frozen and, accordingly, there is no service cost. As of April 30, 2009, the compensation increments have been frozen and, accordingly, no additional benefits are being accrued under the plan.

The following table presents the components of net periodic pension cost:

In thousands	Three Months Ended June 30		Six Months Ended June 30	
	2010	2009	2010	2009
Interest cost	\$ 135	\$ 150	\$ 270	\$ 300
Expected return on plan assets	(104)	(119)	(208)	(238)
Amortization of prior service cost	-	4	-	8
Amortization of net actuarial loss	76	105	152	210
Net periodic pension cost	\$ 107	\$ 140	\$ 214	\$ 280

As of June 30, 2010, the Company has recorded a current pension liability of \$0.1 million, which is included in Accrued liabilities on the Condensed Consolidated Balance Sheets, and a long-term pension liability \$4.0 million, which is included in Deferred credits, deposits and other on the Condensed Consolidated Balance Sheets. The minimum required contribution for 2010 is expected to be \$0.1 million. The Company will seek a waiver for the minimum required contribution for 2010 to defer the May 15, 2010 and August 15, 2010 quarterly payments of \$90,000.

The pension plan asset information included below is presented at fair value. ASC 820 establishes a framework for measuring fair value and required disclosures about assets and liabilities measured at fair value. The fair value of these assets is determined using a three-tier fair value hierarchy. Based on this hierarchy, the Company determined the fair value of its money market funds, equity and index funds and guaranteed investment contracts using quoted market prices, a Level 1 or an observable input, and bonds, a Level 2 based on observable inputs and quoted prices in markets that are not active. The Company does not have any Level 3 pension assets, which such valuation would be based on unobservable measurements and management's estimates.

10

The following table presents the pension plan assets by level within the fair value hierarchy as of June 30, 2010:

In thousands	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	\$2,466	\$ -	\$ -	\$2,466
Equity and index funds	2,461	-	-	2,461
Bonds	-	51	-	51
Money market funds	17	-	-	17

Edgar Filing: TRANS LUX CORP - Form 10-Q

Total pension plan assets \$4,944 \$51 \$ - \$4,995

In March 2010, the Company submitted to the Internal Revenue Service a request for waiver of the minimum funding standard for its defined benefit plan. The waiver request was submitted as a result of the current economic climate and the current business hardship that the Company is experiencing. The waiver, if granted, will defer payment of \$285,000 of the minimum funding standard for the 2009 plan year. If the waiver is not granted, the Pension Benefit Guaranty Corporation and the Internal Revenue Service have various enforcement remedies they can implement to protect the participant's benefits, such as termination of the plan and require the Company to make the unpaid contributions. The senior lender has waived the default of non-payment of certain pension plan contributions. In the event that any government agency takes any enforcement action or otherwise exercises any rights and remedies it may have, this shall constitute a separate and distinct event of default and the senior lender may exercise any and all rights and remedies it may have. At this time, the Company is not anticipating making its required contributions for the 2010 plan year.

Note 10 - Stock Option Plans

The Company did not issue any stock options during the three and six months ended June 30, 2010. The Company issued options for 2,000 shares with an exercise price of \$1.05 per share under the Non-Employee Director Stock Option Plan in June 2009. The unrecognized compensation costs related to unvested stock options granted under the Company's stock option plans was nominal.

The following table summarizes the activity of the Company's stock options for the six months ended June 30, 2010:

	Options	Weighted Average Exercise Price (\$)	Weighted Average Remaining Contractual Term (Yrs)	Aggregate Intrinsic Value (\$)
Outstanding at beginning of year	26,000	4.57		
Granted	-	-		
Exercised	-	-		
Terminated	-	-		

Outstanding at end of period	26,000	4.57	2.6	
	=====			
Vested and expected to vest at end of period	24,500	4.81	2.4	-
	=====			
Exercisable at end of period	24,500	4.81	2.4	-

In February 2010, the Board granted Mr. Jean-Marc Allain, the Company's new President and Chief Executive Officer, 50,000 shares of restricted stock from treasury shares which vest 50% after one year and the remaining 50% after two years.

Edgar Filing: TRANS LUX CORP - Form 10-Q

Note 11 - Loss Per Common Share

Basic and diluted loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding for the period. In periods when the Company reports net income, diluted per common share amounts are calculated by adjusting net income by the weighted average number of common shares outstanding, adjusted for shares that would be assumed outstanding after convertible debt conversion and stock options vested under the treasury stock method. At June 30, 2010 and 2009, there were outstanding stock options to purchase 26,000 and 31,500 shares of Common Stock, respectively, which were excluded from the calculation of diluted loss per share because their impact would have been anti-dilutive.

Note 12 - Legal Proceedings and Claims

The Company is subject to legal proceedings and claims which arise in the ordinary course of its business and/or which are covered by insurance that it believes individually and in the aggregate will not have a material adverse effect on the consolidated financial position or operations of the Company.

Note 13 - Business Segment Data

The Company evaluates segment performance and allocates resources based upon operating income. The Company's operations are managed in four reportable business segments. The Display Division comprises two operating segments, Indoor display and Outdoor display. Both design, produce, lease, sell and service large-scale, multi-color, real-time electronic information displays. Both operating segments are conducted on a global basis, primarily through operations in the U.S. The Company also has operations in Canada. The Indoor display and Outdoor display segments are differentiated primarily by the customers they serve. The new LED lighting segment intends to sell energy-saving lighting solutions that provide facilities and public infrastructure with "green" lighting solutions that emit less heat, save energy and enable creative designs. The Real estate rental segment owns an income-producing property. Segment operating income is shown after operating expenses and sales, general and administrative expenses directly associated with the segment. Corporate general and administrative expenses relate to costs that are not directly identifiable with a segment. There are no intersegment sales. Of the total goodwill of \$0.8 million, \$0.7 million relates to the Outdoor display segment and \$0.1 million relates to the Indoor display segment.

Foreign revenues represent less than 10% of the Company's revenues and therefore are not separately disclosed. The foreign operation does not manufacture its own equipment; the domestic operation provides the equipment that the foreign operation leases or sells. The foreign operation operates similarly to the domestic operation and has similar profit margins.

12

Information about the Company's operations in its four business segments for the three and six months ended June 30, 2010 and 2009 is as follows:

	Three Months Ended June 30		Six Months Ended June 30

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Trans-Lux is a full service provider of integrated multimedia systems for today's communications environments. The essential elements of these systems are the real-time, programmable electronic information displays we manufacture, distribute and service. Designed to meet the evolving communications needs of both the indoor and outdoor markets, these displays are used primarily in applications for the financial, banking, gaming, corporate, advertising, transportation, entertainment and sports industries. The Company started a new business opportunity in the LED lighting market with energy-saving lighting solutions that will feature a comprehensive offering of the latest LED lighting technologies that provide facilities and public infrastructure with "green" lighting solutions that emit less heat, save energy and enable creative designs. The Company also owns and operates an income producing rental property. The Company operates in four reportable segments: Indoor display, Outdoor display, LED lighting and Real estate rental.

The Indoor display segment includes worldwide revenues and related expenses from the rental, maintenance and sale of indoor displays. This segment includes the financial, government/private and gaming markets. The Outdoor display segment includes worldwide revenues and related expenses from the rental, maintenance and sale of outdoor displays. Included in this segment are catalog sports, retail and commercial markets. The LED lighting segment will include worldwide revenues and related expenses from the sale of LED lighting products. The Real estate rental segment includes the operations of an income-producing real estate property.

Edgar Filing: TRANS LUX CORP - Form 10-Q

Going Concern

In light of the unprecedented instability in the financial markets and the severe slowdown in the overall economy, we do not have adequate liquidity, including access to the debt and equity capital markets, to operate our business in the manner in which we have historically operated. As a result, our short-term business focus has been to preserve our liquidity position. In April 2010, we were successful in negotiating the renewal of the bank Credit Agreement, which was scheduled to mature on April 1, 2010. The senior lender has reduced the monthly principal payments and modified the maturity of the Credit Agreement to May 1, 2011. As of August 1, 2010, the senior lender modified the Credit Agreement to reduce the availability under the revolving loan from \$5.0 million to \$4.3 million, amend the principal repayment schedule to defer the next three monthly principal payments of \$50,000 each until the maturity date and remove the senior debt coverage ratio covenant test for the June 30, 2010 and September 30, 2010 periods. Substantially all of our eligible accounts receivable, inventory and other assets are secured by the Credit Agreement. We cannot provide any assurance that we would have sufficient cash and liquid assets to fund normal operations during the period of time when we are required to repay amounts outstanding under the Credit Agreement. Unless we are successful in obtaining additional liquidity, we believe that we will not have sufficient cash and liquid assets to fund normal operations for the next 12 months. In addition, the Company has not made the required sinking fund payment of \$105,700 on its 9 1/2% Subordinated debentures due 2012 (the "Debentures") which was due on December 1, 2009 and the June 1, 2010 interest payment of \$50,200, and did not make the March 1, 2010 interest payment of \$417,800 on its 8 1/4% Limited convertible senior subordinated notes due 2012 (the "Notes"). As a result, if the Company is unable to (i) obtain additional liquidity for working capital, (ii) make the required sinking fund payment or interest payments on its Debentures, (iii) make the required interest payment on its Notes and (iv) make the required payments under the Credit Agreement when due, there would be a significant adverse impact on the financial position and operating results of the Company.

Moreover, because of the uncertainty surrounding our inability to obtain additional liquidity and the potential of the noteholders and/or trustee to give notice to the Company of a default on either the Debentures or the Notes, our independent registered public accounting firm for the year ended December 31, 2009 issued an opinion on our consolidated financial statements that states that the consolidated financial statements were prepared assuming we will continue as a going concern, however the opinion further states that the uncertainty regarding the inability to make the required sinking fund payment on the Debentures and the interest payment on the Notes and the potential of the senior lender accelerating the payments on the Credit Agreement due to an event of default on the Debentures and Notes raises substantial doubt about our ability to continue as a going concern.

14

Results of Operations

Six Months Ended June 30, 2010 Compared to Six Months Ended June 30, 2009

Total revenues for the six months ended June 30, 2010 decreased \$3.6 million or 23.4% to \$11.7 million from \$15.2 million for the six months ended June 30, 2009, primarily due to a decrease in the Outdoor display sales revenues.

Indoor display revenues decreased \$766,000 or 16.7%. Of this decrease, Indoor display equipment sales decreased \$348,000 or 23.9%, primarily due to a decrease in sales from the financial services and gaming markets. Indoor display equipment rentals and maintenance revenues decreased \$418,000 or 13.3%,

Edgar Filing: TRANS LUX CORP - Form 10-Q

primarily due to disconnects and non-renewals of equipment on rental on existing contracts in the financial services market. The financial services market continues to be negatively impacted by the current investment climate resulting in consolidation within that industry and the wider use of flat-panel screens for smaller applications. Also, the global recession has negatively impacted Indoor sales and rentals and maintenance revenues.

Outdoor display revenues decreased \$2.8 million or 26.7%. Of this decrease, Outdoor display equipment sales decreased \$2.8 million or 31.6%, primarily in the catalog sports and commercial markets. Outdoor display equipment rentals and maintenance revenues decreased \$45,000 or 2.5%. Also, the global recession has negatively impacted the Outdoor sales revenues.

LED lighting is a start-up business and did not generate any revenues for the six months ended June 30, 2010.

Real estate rental revenues increased \$14,000 or 12.1%, due to an increase in rental income in the Santa Fe, New Mexico rental property.

Total operating income for the six months ended June 30, 2010 decreased \$2.2 million to an operating loss of \$1.7 million from an operating income of \$549,000 for the six months ended June 30, 2009, principally due to the decline in revenues, the restructuring costs and the charge to write-off engineering software, offset by a decrease in other general and administrative expenses.

Indoor display operating loss increased \$886,000 to \$1.5 million in 2010 compared to \$569,000 in 2009, primarily as a result of a decrease in revenues and the \$935,000 restructuring costs, offset by a \$361,000 decrease in bad debt expense. The cost of Indoor displays represented 89.0% of related revenues in 2010 compared to 85.1% in 2009. The Company periodically addresses the cost of field service to keep it in line with revenues from equipment rentals and maintenance. Cost of Indoor display equipment rentals and maintenance includes field service expenses, plant repair costs, maintenance and depreciation. Indoor display cost of equipment sales decreased \$174,000 or 18.9%, primarily due to the decrease in revenues. Indoor display general and administrative expenses decreased \$311,000 or 24.8%, primarily due the decrease in the bad debt expense. The restructuring will result in annual payroll savings of approximately \$1.2 million.

Outdoor display operating income decreased \$1.3 million, primarily as a result of a decrease in

15

revenues, the \$456,000 charge to write-off engineering software and the \$107,000 restructuring costs, offset by a \$74,000 decrease in bad debt expense and a decrease in selling payroll and benefits and related expenses. The cost of Outdoor displays represented 79.5% of related revenues in 2010 compared to 76.1% in 2009. Outdoor display cost of equipment sales decreased \$1.8 million or 27.0%, principally due to the decrease in volume. Outdoor display cost of equipment rentals and maintenance decreased \$24,000 or 2.0%. Outdoor display general and administrative expenses increased \$237,000 or 16.1%, primarily due to the charge to write-off engineering software, offset by a reduction in selling payroll and benefits and related expenses, as well as the decrease in bad debt expense. Cost of Outdoor display equipment rentals and maintenance includes field service expenses, plant repair costs, maintenance and depreciation. The restructuring will result in annual payroll savings of approximately \$0.7 million.

LED lighting operating loss of \$78,000 is primarily due to the start-up expenses of this new segment.

Edgar Filing: TRANS LUX CORP - Form 10-Q

Real estate rental operating income increased \$23,000 or 29.5%, primarily due to the increase in rental revenues. The cost of Real estate rental represented 18.5% of related revenues in 2010 compared to 26.7% in 2009. Real estate rental general and administrative expenses remained level.

Corporate general and administrative expenses decreased \$345,000 or 18.3%. The 2010 corporate general and administrative expenses includes a \$67,000 positive effect in the Canadian currency exchange, while 2009 included a \$151,000 negative effect in the Canadian currency exchange, a difference of \$218,000. Reductions in audit, insurance and medical expenses and payroll contributed to the decrease this year, offset by an increase in accrued consulting fees. The Company continues to monitor and reduce certain overhead costs such as benefit and medical costs.

Net interest expense decreased \$59,000 or 7.0%, primarily due to scheduled payments of long-term debt as well as a reduction in the outstanding balance of the revolving credit facility.

The effective tax rate for the six months ended June 30, 2010 and 2009 was 0.7% and 1.9%, respectively. Both the 2010 and 2009 tax rate are being affected by the valuation allowance on the Company's deferred tax assets as a result of reporting pre-tax losses. The income tax expense relates to the Company's Canadian subsidiary.

Three Months Ended June 30, 2010 Compared to Three Months Ended June 30, 2009

Total revenues for the three months ended June 30, 2010 decreased \$1.2 million or 15.7% to \$6.3 million from \$7.4 million for the three months ended June 30, 2009, primarily due to a decrease in the Outdoor display sales revenues.

Indoor display revenues decreased \$74,000 or 3.3%. Of this decrease, Indoor display equipment rentals and maintenance revenues decreased \$167,000 or 10.8%, primarily due to disconnects and non-renewals of equipment on rental on existing contracts in the financial services market. The financial services market continues to be negatively impacted by the current investment climate resulting in consolidation within that industry and the wider use of flat-panel screens for smaller

16

applications. Indoor display equipment sales increased \$93,000 or 13.9%, primarily due to an increase in sales from the transportation and gaming markets. Also, the global recession has negatively impacted Indoor sales and rentals and maintenance revenues.

Outdoor display revenues decreased \$1.1 million or 21.3%. Of this decrease, Outdoor display equipment sales decreased \$1.0 million or 23.5%, primarily in the catalog sports and commercial markets. Outdoor display equipment rentals and maintenance revenues decreased \$101,000 or 11.2%, primarily due to the continued expected revenue decline in the older Outdoor display equipment rental and maintenance bases acquired in the early 1990s. Also, the global recession has negatively impacted the Outdoor sales and rentals and maintenance revenues.

LED lighting is a start-up business and did not generate any revenues for the three months ended June 30, 2010.

Real estate rental revenues increased \$7,000 or 11.9%, due to an increase in rental income in our Santa Fe, New Mexico rental property.

Edgar Filing: TRANS LUX CORP - Form 10-Q

Total operating income for the three months ended June 30, 2010 decreased \$2.0 million to an operating loss of \$1.6 million from an operating income of \$392,000 for the three months ended June 30, 2009, principally due to the restructuring charge, the decline in revenues and the charge to write-off engineering software, offset by a decrease in general and administrative expenses.

Indoor display operating loss increased \$785,000 to \$1.1 million in 2010 compared to \$350,000 in 2009, primarily as a result of the \$935,000 restructuring costs and the decline in both sales and rentals and maintenance revenues, offset by a \$240,000 decrease in bad debt expense. The cost of Indoor displays represented 85.6% of related revenues in 2010 compared to 87.0% in 2009. The Company periodically addresses the cost of field service to keep it in line with revenues from equipment rentals and maintenance. Cost of Indoor display equipment rentals and maintenance includes field service expenses, plant repair costs, maintenance and depreciation. Indoor display cost of equipment sales increased \$37,000 or 7.9%, primarily due to the increase in revenues. Indoor display general and administrative expenses decreased \$128,000 or 20.1%, primarily due to a reduction in payroll and benefits and related expenses, as well as the decrease in bad debt expense.

Outdoor display operating income decreased \$1.1 million to an operating loss of \$429,000 in 2010 compared to operating income of \$703,000 in 2009, primarily as a result of the decrease in revenues and the \$456,000 charge to write-off engineering software. The cost of Outdoor displays represented 80.3% of related revenues in 2010 compared to 74.7% in 2009. Outdoor display cost of equipment sales decreased \$610,000 or 18.7%, principally due to the decrease in volume. Outdoor display cost of equipment rentals and maintenance increased slightly. Outdoor display general and administrative expenses increased \$519,000 to \$1.1 million in 2010 compared to \$604,000 in 2009, primarily due to the charge to write-off engineering software, offset by a decrease in bad debt expense. Cost of Outdoor display equipment rentals and maintenance includes field service expenses, plant repair costs, maintenance and depreciation.

LED lighting operating loss of \$78,000 is primarily due to the start-up expenses of this new segment.

17

Real estate rental operating income increased \$13,000 or 33.3%, primarily due to the increase in rental revenues. The cost of Real estate rental represented 18.2% of related revenues in 2010 compared to 27.1% in 2009. Real estate rental general and administrative expenses remained level.

Corporate general and administrative expenses decreased \$387,000 or 37.9%. The 2010 corporate general and administrative expenses includes a \$193,000 positive effect in the Canadian currency exchange, while 2009 included a \$157,000 negative effect in the Canadian currency exchange, a difference of \$350,000. Reductions in audit, insurance and medical expenses and payroll contributed to the decrease, offset by an increase in accrued consulting fees.

Net interest expense decreased \$72,000 or 16.5%, primarily due to scheduled payments of long-term debt as well as a reduction in the outstanding balance of the revolving credit facility.

The effective tax rate for the three months ended June 30, 2010 and 2009 was 0.5% and 1.4%, respectively. Both the 2010 and 2009 tax rate are being affected by the valuation allowance on the Company's deferred tax assets as a result of reporting pre-tax losses. The income tax expense relates to the Company's Canadian subsidiary.

Edgar Filing: TRANS LUX CORP - Form 10-Q

Liquidity and Capital Resources

The accompanying unaudited condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred significant recurring losses from continuing operations and has a significant working capital deficiency. The Company incurred a net loss of \$4.0 million for the six months ended June 30, 2010 and has a working capital deficiency of \$16.9 million as of June 30, 2010. In addition, the Company reported a loss from continuing operations of \$8.8 million for the year ended December 31, 2009. The June 30, 2010 results include a \$1.0 million restructuring charge related to the relocation of the manufacturing of the Indoor display equipment from Connecticut to Iowa as further discusses in Note 3 - Plan of Restructuring and the \$456,000 charge to write-off engineering software. As further discussed in Note 7 - Long-Term Debt, the Company did not make the required sinking fund payment of \$105,700 on its 9 1/2% Subordinated debentures due 2012 (the "Debentures"), which was due on December 1, 2009 and the June 1, 2010 interest payment of \$50,200, and did not make the March 1, 2010 interest payment of \$417,800 on its 8 1/4% Limited convertible senior subordinated notes due 2012 (the "Notes"). Under the terms of the indenture agreements that govern the Debentures and Notes, the non-payments constitute events of default; accordingly, the trustees or the holders of 25% of the outstanding Debentures and Notes have the right to declare the outstanding principal and interest due and payable immediately. In the event that the Company receives such notice, the senior lender has the right to demand payment on outstanding amounts on the Credit Agreement. As such, the outstanding Debentures, Notes and Credit Agreement debt have been classified as Current portion of long-term debt on the accompanying Condensed Consolidated Balance Sheets. These matters raise substantial doubt about the Company's ability to continue as a going concern.

18

The Company has a bank Credit Agreement, which provides for a term loan of \$10.0 million, a non-revolving line of credit of up to \$6.2 million (which is no longer available) to finance the redemptions of one-half of the 7 1/2% Subordinated notes due 2006 (which were redeemed in June 2006 and no longer outstanding), and a revolving loan of up to \$4.3 million, based on eligible accounts receivable and inventory, at a variable rate of interest of Prime plus 2.00%, with a floor of 6.00% (6.00% at June 30, 2010). On April 13, 2010, the maturity of the Credit Agreement was extended to May 1, 2011. As of August 1, 2010, the senior lender modified the Credit Agreement to reduce the availability under the revolving loan from \$5.0 million to \$4.3 million, amend the principal repayment schedule to defer the next three monthly principal payments of \$50,000 each until the maturity date and remove the senior debt coverage ratio covenant test for the June 30, 2010 and September 30, 2010 periods. As of June 30, 2010, the Company has drawn \$4.0 million against the revolving loan facility and none was available for additional borrowing. The Credit Agreement, as amended, requires an annual facility fee on the unused commitment of 0.25% and requires compliance with certain financial covenants as defined in the Credit Agreement, which include a senior debt coverage ratio of not less than 1.25 to 1.0, a loan-to-value ratio of not more than 50% and a \$1.0 million cap on capital expenditures per quarter beginning with the quarter ended December 31, 2010. In addition, the April 13, 2010 amendment waived the default on the Notes and Debentures, but in the event that the holders of the Notes or Debentures or trustees declare a default and begins to exercise any of their rights and remedies in connection with the non-payment defaults, this shall constitute a separate and distinct event of default and the senior lender may exercise any and all rights and remedies it may have. In addition, the April 13, 2010 amendment waived the default of non-payment of certain pension plan contributions, but in the event that any government agency takes any enforcement

Edgar Filing: TRANS LUX CORP - Form 10-Q

action or otherwise exercises any rights and remedies it may have, this shall constitute a separate and distinct event of default and the senior lender may exercise any and all rights and remedies it may have. The Company's objective in regards to the Credit Agreement is to obtain additional funds from external sources through equity or additional debt financing and the Company is in discussions with senior lenders and others to obtain additional borrowing capacity, which management believes will be difficult to accomplish within the next 12 months given the current global credit markets, economic conditions and operating results of the Company. While management hopes it can be successful in the long run, there can be no assurance that management will be successful in achieving these objectives. The Company continually evaluates the need and availability of long-term capital in order to meet its cash requirements and fund potential new opportunities. The amounts outstanding under the Credit Agreement are collateralized by all of the Display division assets. At June 30, 2010 and December 31, 2009, the total amount outstanding under the Credit Agreement is classified as Current portion of long-term debt.

On March 1, 2010, the Company refinanced its existing mortgage on its facility located in Des Moines, Iowa, which was scheduled to mature in 2009. The refinancing was for \$650,000 at a fixed rate of interest of 6.50% payable in monthly installments, which matures on March 1, 2015. The Company used proceeds of \$390,000 to settle the prior debt and will use the \$260,000 balance for working capital needs.

On February 25, 2010, the Company took out a mortgage on land located in Silver City, New Mexico. The financing was for \$100,000 at a fixed rate of interest of 7.80% payable in monthly interest only payments, which matures on February 25, 2012.

19

The Company also has a mortgage on its real estate rental property located in Santa Fe, New Mexico at a variable rate of interest of Prime, with a floor of 6.75%, which was the interest rate in effect at June 30, 2010, payable in monthly installments through December 12, 2012.

The Company has generated cash provided by operating activities from operations of \$1.3 million and \$2.7 million for the six months ended June 30, 2010 and 2009, respectively. The Company has implemented several initiatives to improve operational results and cash flows over future periods, including the closing of the Stratford, Connecticut manufacturing facility. The Company continues to explore ways to reduce operational and overhead costs. The Company periodically takes steps to reduce the cost to maintain the equipment on rental and maintenance.

The Company is dependent on future operating performance in order to generate sufficient cash flows in order to continue to run its businesses. Future operating performance is dependent on general economic conditions, as well as financial, competitive and other factors beyond our control. As a result, we have experienced a decline in our sales and lease bases. The cash flows of the Company are constrained, and in order to more effectively manage its cash resources in these challenging economic times, the Company has, from time to time, increased the timetable of its payment of some of its payables. There can be no assurance that we will meet our anticipated current and near term cash requirements. The Company's objective in regards to the Credit Agreement is to obtain additional funds from external sources through equity or additional debt financing prior to the maturity of the Credit Agreement on May 1, 2011, and is in discussions with senior lenders and others, but the current global credit environment has been and continues to be a challenge in accomplishing these objectives. If the Company is unable to obtain replacement financing before the maturity of the Credit Agreement on May 1, 2011, the senior lender has the right

Edgar Filing: TRANS LUX CORP - Form 10-Q

to call the loan. If the loan were called, the Company would have difficulties meeting its obligations in the normal course of business. The Company continually evaluates the need and availability of long-term capital in order to meet its cash requirements.

The Company has \$10.1 million of Notes outstanding. Interest is payable semi-annually and the Notes may be redeemed, in whole or in part, at par. The Company has not remitted the \$417,800 March 1, 2010 semi-annual interest payment to the trustee, which continued for more than 30 days. The non-payment constitutes an event of default under the indenture governing the Notes and the trustee, by notice to the Company, or the holders of 25% of the principal outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. When such notice is received by the Company, no payment shall be made by the Company to the holders or trustee until the earlier of such non-payment event of default is cured or waived or 179 days since receipt by the trustee of notice of such event, unless the holder of Senior Indebtedness has accelerated the due date thereof. If the holder of Senior Indebtedness accelerates the due date at any time, then no payment may be made until the default is cured or waived.

In addition, the Company has \$1.1 million of Debentures outstanding. The Company has not remitted the December 1, 2009 annual sinking fund payment of \$105,700. Interest is payable semi-annually and the Debentures may be redeemed, in whole or in part, at par. The Company has not remitted the \$50,200 June 1, 2010 semi-annual interest payment to the trustee, which continued

20

for more than 30 days. The non-payments constitute an event of default under the indenture governing the Debentures and the trustee, by notice to the Company, or the holders of 25% of the principal outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. During the continuation of any event which, with notice or lapse of time or both, would constitute a default under any agreement under which Senior Indebtedness is issued, if the effect of such default is to cause or permit the holder of Senior Indebtedness to become due prior to its stated maturity, no payment (including any required sinking fund payment) of principal, premium or interest shall be made on the Debentures unless and until such default shall have been remedied, if written notice of such default has been given to the trustee by the Company or the holder of Senior Indebtedness. The failure to make the sinking fund payment is an event of default under the Credit Agreement since it involves indebtedness over \$500,000 and no payment can be made to such trustee or the holders at this time as such event has not been waived.

In March 2010 the Company submitted to the Internal Revenue Service a request for waiver of the minimum funding standard for its defined benefit plan. The waiver request was submitted as a result of the current economic climate and the current business hardship that the Company is experiencing. The waiver, if granted, will defer payment of \$285,000 of the minimum funding standard for the 2009 plan year. If the waiver is not granted, the Pension Benefit Guaranty Corporation and the Internal Revenue Service have various enforcement remedies they can implement to protect the participant's benefits, such as termination of the plan and require the Company to make the unpaid contributions. The senior lender has waived the default of non-payment of certain pension plan contributions. In the event that any government agency takes any enforcement action or otherwise exercises any rights and remedies it may have, this shall constitute a separate and distinct event of default and the senior lender may exercise any and all rights and remedies it may have. At this time, the Company is not anticipating to make its required contributions for the 2010 plan year. Management believes that with its current cash resources and cash provided by

Edgar Filing: TRANS LUX CORP - Form 10-Q

operations, it will have difficulty funding operations and its current obligations over the next 12 months.

Cash and cash equivalents increased \$166,000 for the six months ended June 30, 2010 compared to an increase of \$320,000 for the six months ended June 30, 2009. The increase in 2010 is primarily attributable to cash provided by operating activities of \$1.3 million and \$100,000 proceeds from long-term debt, offset by the investment in equipment for rental of \$820,000, the investment in property, plant and equipment of \$35,000, scheduled payments of long-term debt of \$597,000 and \$55,000 of payments on its revolving credit facility. In addition, the Company refinanced its Des Moines mortgage, netting an additional \$260,000 for working capital needs. The increase in 2009 is primarily attributable to cash provided by operating activities of \$2.7 million and proceeds from the sale of available-for-sale securities of \$135,000, offset by the investment in equipment for rental of \$1.1 million, the investment in property, plant and equipment of \$133,000 and scheduled payments of long-term debt of \$1.3 million.

A fundamental principle of the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America is the assumption that an entity will continue in existence as a going concern, which contemplates continuity of operations and the realization of assets and settlement of liabilities occurring in the ordinary course of business. This

21

principle is applicable to all entities except for entities in liquidation or entities for which liquidation appears imminent. In accordance with this requirement, the Company has prepared its condensed consolidated financial statements on a going concern basis. While we have prepared our consolidated financial statements on a going concern basis, the continuing losses and uncertainty regarding the inability to make the required sinking fund payment on the Debentures and the interest payments on the Notes and the Debentures and the potential of the senior lender accelerating the payments on the Credit Agreement due to an event of default on the Debentures and Notes raises substantial doubt about our ability to continue as a going concern. Therefore, we may not be able to realize our assets and settle our liabilities in the ordinary course of business. Our condensed consolidated financial statements included in this quarterly report on Form 10-Q do not reflect any adjustments that might specifically result from the outcome of this uncertainty.

Under various agreements, the Company is obligated to make future cash payments in fixed amounts. These include payments under the Company's long-term debt agreements, employment and consulting agreement payments and rent payments required under operating lease agreements. The Company has both variable and fixed interest rate debt. Interest payments are projected based on actual interest payments incurred until the underlying debts mature.

The following table summarizes the Company's fixed cash obligations as of June 30, 2010 for the remainder of 2010 and the next four years:

In thousands	Remainder of 2010	2011	2012	2013	2014
Long-term debt, including interest	\$17,274	\$ 289	\$2,079	\$ 89	\$ 89
Employment and consulting agreement obligations	275	550	226	195	195
Operating lease payments	158	293	185	77	-

Edgar Filing: TRANS LUX CORP - Form 10-Q

Total	\$17,707	\$1,132	\$2,490	\$361	\$284
-------	----------	---------	---------	-------	-------

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

The Company may, from time to time, provide estimates as to future performance. These forward-looking statements will be estimates and may or may not be realized by the Company. The Company undertakes no duty to update such forward-looking statements. Many factors could cause actual results to differ from these forward-looking statements, including loss of market share through competition, introduction of competing products by others, pressure on prices from competition or purchasers of the Company's products, interest rate and foreign exchange fluctuations, terrorist acts and war.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company is subject to interest rate risk on its long-term debt. The Company manages its exposure to changes in interest rates by the use of variable and fixed interest rate debt. In addition the Company is exposed to foreign currency exchange rate risk mainly as a result of its investment in its Canadian subsidiary. The Company may, from time to time, enter into derivative contracts to manage its interest risk. The Company does not enter into derivatives for trading or speculative

22

purposes. At June 30, 2010, the Company did not hold any derivative financial instruments.

A one-percentage point change in interest rates would result in an annual interest expense fluctuation of approximately \$69,000. A 10% change in the Canadian dollar relative to the U.S. dollar would result in a currency exchange expense fluctuation of approximately \$327,000, based on dealer quotes, considering current exchange rates.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As required by Rule 13a-15 under the Securities Exchange Act of 1934, as of the end of the period covered by this report, we have carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer (our principal executive officer and principal financial officer), of the effectiveness of the design and operation of our disclosure controls and procedures. Our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and that such information is accumulated and communicated to our management (including our Chief Executive Officer and Chief Financial Officer) to allow timely decisions regarding required disclosures. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded these disclosure controls are effective as of June 30, 2010.

Changes in Internal Control over Financial Reporting. There has been no change in the Company's internal control over financial reporting, that occurred in the quarter ended June 30, 2010, that has materially affected, or is reasonably

Edgar Filing: TRANS LUX CORP - Form 10-Q

likely to materially affect, the Company's internal control over financial reporting.

Part II - Other Information

Item 1. Legal Proceedings

The Company is subject to legal proceedings and claims which arise in the ordinary course of its business and/or which are covered by insurance that it believes individually and in the aggregate will not have a material adverse effect on the consolidated financial position or operations of the Company.

23

Item 1A. Risk Factors

The Company is subject to a number of risks including general business and financial risk factors. Any or all of such factors could have a material adverse effect on the business, financial condition or results of operations of the Company. The risk factors identified in our Annual Report on Form 10-K for the year ended December 31, 2009 should be carefully considered.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults upon Senior Securities

As disclosed in Note 7 - Long-Term Debt to the condensed consolidated financial statements, the Company has \$10.1 million of 8 1/4% Limited convertible senior subordinated notes due 2012 (the "Notes") which are no longer convertible into common shares; interest is payable semi-annually and the Notes may be redeemed, in whole or in part, at par. The Company did not remit the March 1, 2010 semi-annual interest payment of \$417,800 to the trustee, which non-payment continued for more than 30 days. The non-payment constitutes an event of default under the indenture governing the Notes and the trustee, by notice to the Company, or the holders of 25% of the principal outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. When such notice is received by the Company, no payment shall be made by the Company to the holders or trustee until the earlier of such non-payment event of default is cured or waived or 179 days since receipt by the trustee of notice of such event, unless the holder of Senior Indebtedness has accelerated the due date thereof. If the holder of Senior Indebtedness accelerates the due date at any time, then no payment may be made until the default is cured or waived. At June 30, 2010, the total amount outstanding is classified as Current portion of long-term debt.

Also disclosed in Note 7 - Long-Term Debt, the Company has \$1.1 million of 9 1/2% Subordinated debentures due 2012 (the "Debentures") which are due in annual sinking fund payments of \$105,700 beginning in 2009, which payment has not been remitted by the Company, with the remainder due in 2012; interest is payable semi-annually and the Debentures may be redeemed, in whole or in part, at par. The Company did not remit the June 1, 2010 semi-annual interest payment of \$50,200 to the trustee, which non-payment continued for more than 30 days. The non-payments constitute an event of default under the Indenture governing the Debentures and the trustee, by notice to the Company, or the holders of 25% of the principal outstanding, by notice to the Company and the trustee, may declare the outstanding principal plus interest due and payable immediately. During the

Edgar Filing: TRANS LUX CORP - Form 10-Q

continuation of any event which, with notice or lapse of time or both, would constitute a default under any agreement under which Senior Indebtedness is issued, if the effect of such default is to cause or permit the holder of Senior Indebtedness to become due prior to its stated maturity, no payment (including any required sinking fund payment) of principal, premium or interest shall be made on the Debentures unless and until such default shall have been remedied, if written notice of such default has been given to the trustee by the Company or the holder of Senior Indebtedness. The failure to

24

make the sinking fund payment is an event of default under the Credit Agreement since it involves indebtedness over \$500,000 and no payment can be made to the trustee or the holders at this time as such event has not been waived. At June 30, 2010, the total amount outstanding is classified as Current portion of long-term debt.

Item 4. (Removed and Reserved)

Item 5. Other Information

None.

Item 6. Exhibits

10.1 Amendment No. 15 to the Amended and Restated Commercial Loan and Security Agreement with People's United Bank dated as of August 1, 2010, filed herewith.

31.1 Certification of Jean-Marc Allain, President and Chief Executive Officer, pursuant to Rule 13a-14(a) and 15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certification of Angela D. Toppi, Executive Vice President and Chief Financial Officer, pursuant to Rule 13a-14(a) and 15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification of Jean-Marc Allain, President and Chief Executive Officer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification of Angela D. Toppi, Executive Vice President and Chief Financial Officer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
