NEW ENVIRONMENTAL TECHNOLOGIES CORPORATION
(A Development Stage Company)
Notes to the Financial Statements
September 30, 2000 and December 31, 1999

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at September 30, 2000 and 1999 and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 1999 audited financial statements. The results of operations for periods ended September 30, 2000 and 1999 are not necessarily indicative of the operating results for the full years.

NOTE 2 - UNAUDITED FINANCIAL STATEMENTS

The accompanying unaudited financial statements include all of the adjustments which, in the opinion of management, are necessary for a fair presentation. Such adjustments are of a normal recurring nature.

NOTE 3 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, develop a reliable source of revenues, and achieve a profitable level of operations, the Company will need, among other things, additional capital resources. Management's plans to continue as a going concern include raising additional capital through sales of common stock and to seek a merger with an existing operating Company. However, management cannot provide any assurances that the company will be successful in accomplishing any

Edgar Filing: NEW ENVIRONMENTAL TECHNOLOGIES CORP - Form 10QSB

of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Plan of Operation.

The Company has not engaged in any material operations since the calendar year ended December 31, 1985, or during the quarterly period ended September 30, 2000.

The Company's plan of operation for the next 12 months is to: (i) consider guidelines of industries in which the Company may have an interest; (ii) adopt a business plan regarding engaging in business in any selected industry; and (iii) to commence such operations through funding and/or the acquisition of a "going concern" engaged in any industry selected.

During the next 12 months, the Company's only foreseeable cash requirements will relate to maintaining the Company in good standing or the payment of expenses associated with reviewing or investigating any potential industries as a business venture, which the Company expects to pay from its cash resources or loans from makers of management.

Results of Operations.

During the quarterly period ended September 30, 2000, the Company had no business operations. During this period, the Company received total revenues of \$0 and had a net loss of \$(1,794).

Liquidity.

At September 30, 2000, the Company had \$22 in current assets, with total current liabilities of \$29,235. Total stockholder's equity was (\$27,123).
