Yum! Brands Inc. Reports Estimated First-Quarter Sales for Its International, China and U.S. businesses

- Expects Q1 EPS in a Range of \$0.51 to \$0.52, or +9% to +11% Growth

Louisville, Ky. - March 24, 2005 - Yum! Brands Inc. (NYSE: YUM) today reported estimated first-quarter sales: International Division system-sales increased 7% prior to foreign currency conversion or 11% after conversion to U.S. dollars; system sales for its China Division increased 26% versus last year, and U.S. blended same-store sales at company restaurants increased 4%.

The company now expects Q1 EPS in a range of \$0.51 to \$0.52, as strong sales results will likely be offset by a higher than previously forecasted quarterly tax rate and higher U.S. commodity costs.

Period 3	+10%	+7%	+8%

Note: These results exclude the China Division.

The company's annual target growth rate for International Division system sales is at least +5% prior to foreign currency conversion.

Period 3	+65%	+65%	(4)%

Note: The China Division includes Mainland China, Thailand, and KFC Taiwan. For the purpose of this sales release, like calendar months have been compared.

For Period 3 2005, system-sales results reflect the benefit of the Chinese New Year holiday. In 2004, the Chinese New Year occurred in Period 2. The company's annual target growth rate for China Division system sales is at least +22%

prior to foreign currency conversion.

KFC China recently experienced a seasoning supplier issue with an ingredient included in a limited number of products that necessitated temporarily withdrawing these products from that market. We have resolved this isolated supplier issue, have returned to selling these products and will continue to vigorously monitor the suppliers to ensure product quality. Based on currently available information, the company believes the adverse publicity and resulting negative sales impact associated with this event will be short term and will not have a material impact on our prior full-year guidance expectation of at least 10% EPS growth.

March sales for the China Division will be reported with the company's Period 4 sales results Wednesday, April 20, 2005.

Period 4 Sales Release

Sales results for Period 4 (the four-week period ending April 16, 2005, for the U.S. businesses) will be released Thursday, April 20, 2005, with first-quarter earnings.

International Division includes all operations outside the U.S., with the exception of those reported in the China Division. Currently, the International Division includes more than 11,000 system restaurants in 100 countries and territories. The International Division's period close remains one period earlier than the company's period-end date to facilitate consolidated reporting. Please refer to the reporting calendar posted on Yum! Brands' Web site at the following URL: http://investors.yum.com/ireye/ir_site.zhtml?ticker=YUM&script=1000.

China Division includes Mainland China, Thailand, and KFC Taiwan. Based on restaurant counts at the end of 2004, the China Division includes 1,416 restaurants in Mainland China, 358 restaurants in Thailand, and 131 KFC restaurants in Taiwan.

For 2005, we have moved forward Mainland China's business reporting calendar to more closely align the timing of reporting its results of operations with our U.S. business.

For purposes of this sales release, we have compared calendar months included in China Division's current reporting calendar with those same months last year.

System-sales growth includes total sales from all restaurants regardless of ownership, including company-owned, franchise, license, and unconsolidated affiliate (joint-venture) restaurants. Sales of franchise, unconsolidated affiliate (joint-venture) and license restaurants generate franchise and license fees for the company (typically at a rate of 4% to 6% of sales). Franchise, unconsolidated affiliate (joint-venture) and license restaurant sales are not included in the company sales we present on our Consolidated Statements of Income in accordance with U.S. GAAP; however, the fees are included in the company's revenues. We believe system-sales growth is useful to investors as a significant indicator of our company's market share relative to competitors and the overall strength of our brands in the market place.

U.S. same-store sales include only company restaurants that have been open one year or more. U.S. blended same-store sales include KFC, Pizza Hut, and Taco Bell company-owned restaurants only. U.S. same-store sales for Long John Silver's and A&W restaurants are not included. U.S. systemwide same-store-sales results are reported quarterly within the company's earnings release and include only KFC, Pizza Hut and Taco Bell restaurants.
