QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended: June 30, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission File Number 001-04471

XEROX CORPORATION
(Exact Name of Registrant as specified in its charter)

New York (State or other jurisdiction of incorporation or organization)	16-0468020 (IRS Employer Identification No.)
P.O. Box 4505, 45 Glover Avenue Norwalk, Connecticut (Address of principal executive offices)	06856-4505 (Zip Code)
(203) 968-3000 (Registrant's telephone number, including area code)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by a check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by a check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

Class _____ Outstanding at June 30, 2012
Common Stock, \$1 par value 1,307,202,831 shares

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and any exhibits to this Report may contain "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. The words "anticipate," "believe," "estimate," "expect," "intend," "will," "should" and similar expressions, as they relate to us, are intended to identify forward-looking statements.

These statements reflect management's current beliefs, assumptions and expectations and are subject to a number of factors that may cause actual results to differ materially. These factors include but are not limited to: changes in economic conditions, political conditions, trade protection measures, licensing requirements, environmental regulations and tax matters in the United States and in the foreign countries in which we do business; changes in foreign currency exchange rates; actions of competitors; our ability to obtain adequate pricing for our products and services and to maintain and improve cost efficiency of operations, including savings from restructuring actions; the risk that unexpected costs will be incurred; our ability to expand equipment placements; the risk that subcontractors, software vendors and utility and network providers will not perform in a timely, quality manner; the risk that individually identifiable information of customers, clients and employees could be inadvertently disclosed or disclosed as a result of a breach of our security; our ability to recover capital investments; development of new products and services; our ability to protect our intellectual property rights; interest rates, cost of borrowing and access to credit markets; the risk that multi-year contracts with governmental entities could be terminated prior to the end of the contract term; reliance on third parties for manufacturing of products and provision of services; our ability to drive the expanded use of color in printing and copying; the outcome of litigation and regulatory proceedings to which we may be a party; and other risks that are set forth in the "Risk Factors" section, the "Legal Proceedings" section, the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section and other sections of this Quarterly Report on Form 10-Q, our Quarterly Report on Form 10-Q for the quarter ended March 31, 2012 and our 2011 Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC"). The Company assumes no obligation to update any forward-looking statements as a result of new information or future events or developments, except as required by law.

XEROX CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(in millions, except per-share data and where otherwise noted)

Note 1 – Basis of Presentation

References herein to “we,” “us,” “our,” the “Company” and “Xerox” refer to Xerox Corporation and its consolidated subsidiaries unless the context specifically requires otherwise.

We have prepared the accompanying unaudited Condensed Consolidated Financial Statements in accordance with the accounting policies described in our 2011 Annual Report to Shareholders, which is incorporated by reference in our 2011 Annual Report on Form 10-K (“2011 Annual Report”), and the interim reporting requirements of Form 10-Q. Accordingly, certain information and note disclosures normally included in our annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. You should read these Condensed Consolidated Financial Statements in conjunction with the Consolidated Financial Statements included in our 2011 Annual Report.

In our opinion, all adjustments which are necessary for a fair statement of financial position, operating results and cash flows for the interim periods presented have been made. These adjustments consist of normal recurring items.

Interim results of operations are not necessarily indicative of the results of the full year.

For convenience and ease of reference, we refer to the financial statement caption “Income before Income Taxes and Equity Income” as “pre-tax income.”

Note 2 – Recent Accounting Pronouncements

Fair Value Accounting: In May 2011, the FASB issued ASU 2011-04, which amended Fair Value Measurements and Disclosures - Overall (ASC Topic 820-10) to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are consistent between U.S. GAAP and International Financial Reporting Standards. This update changed certain fair value measurement principles and enhanced the disclosure requirements, particularly for level 3 fair value measurements. We adopted this update prospectively effective for our fiscal year beginning January 1, 2012. This update did not have a material effect on our financial condition, results of operations or disclosures.

Balance Sheet Offsetting: In December 2011, the FASB issued ASU 2011-11, Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities. ASU 2011-11 requires entities to disclose both gross information and net information about both instruments and transactions eligible for offset in the Balance Sheet and instruments and transactions subject to an agreement similar to a master netting arrangement to enable users of their financial statements to understand the effects of offsetting and related arrangements on their financial position. This update is effective for our fiscal year beginning January 1, 2013 and must be applied retrospectively. The principal impact from this update will be to expand disclosures regarding our financial instruments. We currently report our derivative assets and liabilities on a gross basis in the Balance Sheet even in those instances where offsetting may be allowed under a master netting agreement.

Note 3 – Segment Reporting

Our reportable segments are aligned with how we manage the business and view the markets we serve. We report our financial performance based on the following two primary reportable segments – Services and Technology. Our Services segment operations involve delivery of a broad range of services including business process, document and IT outsourcing. Our Technology segment includes the sale and support of a broad range of document systems from entry level to high-end.

The Services segment is comprised of three outsourcing service offerings:

• Business Process Outsourcing (“BPO”)

• Document Outsourcing (which includes Managed Print Services) (“DO”)

• Information Technology Outsourcing (“ITO”)

Business process outsourcing services include service arrangements where we manage a customer's business activity or process. Document outsourcing services include service arrangements that allow customers to streamline, simplify and digitize document-intensive business processes through automation and deployment of software applications and tools and the management of their printing needs. Document outsourcing services also include revenues from our

Xerox 2012 Form 10-Q

7

partner print services offerings. Information technology outsourcing services include service arrangements where we manage a customer's IT-related activities, such as application management and application development, data center operations or testing and quality assurance.

Our Technology segment is centered on strategic product groups, which share common technology, manufacturing and product platforms. This segment includes the sale of document systems and supplies, technical services and product financing. Our products range from:

•“Entry,” which includes A4 devices and desktop printers; to

•“Mid-range,” which includes A3 devices that generally serve workgroup environments in midsize to large enterprises and includes products that fall into the following market categories: Color 41+ ppm priced at less than \$100K and Light Production 91+ ppm priced at less than \$100K; to

•“High-end,” which includes production printing and publishing systems that generally serve the graphic communications marketplace and large enterprises.

The segment classified as Other includes several units, none of which meet the thresholds for separate segment reporting. This group primarily includes Global Paper and Supplies Distribution Group (predominantly paper sales), licensing revenues, GIS network integration solutions and electronic presentation systems and non-allocated Corporate items including non-financing interest, as well as other items included in Other expenses, net.

Operating segment revenues and profitability were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	Segment Revenue	Segment Profit (Loss)	Segment Revenue	Segment Profit (Loss)

Other	1	1	1	—
Pre-tax Income	\$351	\$401	\$664	\$751

Note 4 – Acquisitions

In February 2012, we acquired R.K. Dixon, a leading provider of IT services, copiers, printers and managed print services for approximately \$58. The acquisition furthers our coverage of central Illinois and eastern Iowa, building on

Xerox 2012 Form 10-Q

8

our strategy to create a nationwide network of locally-based companies focused on customers' needs to improve business performance through efficiencies.

R.K. Dixon is included within our Technology segment. Additionally, our Services segment acquired two businesses during the six months ended June 30, 2012 for a total of \$29 in cash. The operating results of these acquisitions are not material to our financial statements and are included within our results from the respective acquisition dates. The purchase prices were primarily allocated to intangible assets and goodwill based on third-party valuations and management's estimates.

Note 5 – Receivables, Net

Accounts Receivable Sales Arrangements

Accounts receivable sales arrangements are utilized in the normal course of business as part of our cash and liquidity management. We have facilities in the U.S., Canada and several countries in Europe that enable us to sell to third-parties, on an on-going basis, certain accounts receivable without recourse. The accounts receivables sold are generally short-term trade receivables with payment due dates of less than 60 days.

One of the facilities in the U.S. enables us to sell a designated pool of receivables on a revolving basis to a wholly-owned consolidated bankruptcy-remote limited purpose subsidiary, which in turn sells such receivables to third-party commercial paper conduit purchasers (collectively, the "Purchasers") for cash and a deferred purchase price receivable. The Purchasers' maximum cash investment in the receivables at any time is \$265 and new receivables are purchased from cash collections on previously sold receivables. This facility terminates in June 2014. During the three and six months ended June 30, 2012, receivables of \$474 and \$566, respectively, were sold under this revolving facility program.

All of our arrangements involve the sale of entire groups of accounts receivables for cash. In most instances a portion of the sales proceeds are held back by the purchaser and payment is deferred until collection of the related receivables sold. Such holdbacks are not considered legal securities nor are they certificated. We report collections on such receivables as operating cash flows in the Condensed Consolidated Statements of Cash Flows because such receivables are the result of an operating activity and the associated interest rate risk is de minimis due to its short-term nature. Our risk of loss following the sales of accounts receivable is limited to the outstanding deferred purchase price receivable. These receivables are included in the caption "Other current assets" in the accompanying Condensed Consolidated Balance Sheets and were \$244 and \$97 at June 30, 2012 and December 31, 2011, respectively. The balance at June 30, 2012 includes receivables of \$150 held by the bankruptcy-remote subsidiary, noted in the revolving arrangement above, which were not available to satisfy any of our creditor obligations. Under most of the arrangements, we continue to service the sold accounts receivable. When applicable, a servicing liability is recorded for the estimated fair value of the servicing. The amounts associated with the servicing liability were not material.

Of the accounts receivable sold and derecognized from our Balance Sheet, \$1,049 and \$815 remained uncollected as of June 30, 2012 and December 31, 2011, respectively. Accounts receivables sales were as follows:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Accounts receivable sales	\$1,215	\$819	\$2,090	\$1,549
Deferred proceeds	256	103	403	197
Fees associated with sales	6	5	12	9
Estimated increase to operating cash flows ⁽¹⁾	169	29	100	5

⁽¹⁾ Represents the difference between current and prior period receivable sales adjusted for the effects of: (i) the deferred proceeds, (ii) collections prior to the end of the quarter and (iii) currency.

Finance Receivables – Allowance for Credit Losses and Credit Quality

Finance receivables include sales-type leases, direct financing leases and installment loans. Our finance receivable portfolios are primarily in the U.S., Canada and Europe. We generally establish customer credit limits and estimate

Xerox 2012 Form 10-Q

9

the allowance for credit losses on a country or geographic basis. Our policy and methodology used to establish our allowance for doubtful accounts has been consistently applied over all periods presented.

The following table is a rollforward of the allowance for doubtful finance receivables as well as the related investment in finance receivables:

	United States	Canada	Europe	Other ⁽³⁾	Total	
Allowance for Credit Losses:						
Balance at December 31, 2011	\$75	\$33	\$91	\$2	\$201

Finance receivables as of June 30, 2011 collectively evaluated for impairment ⁽²⁾	\$2,979	\$867	\$2,919	\$88	\$6,853	

(1) Includes the impacts of foreign currency translation and adjustments to reserves necessary to reflect events of non-payment such as customer accommodations and contract terminations.

(2) Total Finance receivables exclude residual values of \$4 and \$9, and the allowance for credit losses of \$190 and \$209 at June 30, 2012 and 2011, respectively.

(3) Includes developing market countries and smaller units.

We evaluate our customers based on the following credit quality indicators:

Investment grade: This rating includes accounts with excellent to good business credit, asset quality and the capacity to meet financial obligations. These customers are less susceptible to adverse effects due to shifts in economic conditions or changes in circumstance. The rating generally equates to a Standard & Poors (S&P) rating of BBB- or better. Loss rates in this category are normally minimal at less than 1%.

Non-investment grade: This rating includes accounts with average credit risk that are more susceptible to loss in the event of adverse business or economic conditions. This rating generally equates to a BB S&P rating. Although we experience higher loss rates associated with this customer class, we believe the risk is somewhat mitigated by the fact that our leases are fairly well dispersed across a large and diverse customer base. In addition, the higher loss rates are largely offset by the higher rates of return we obtain on such leases. Loss rates in this category are generally in the

range of 2% to 4%.

Xerox 2012 Form 10-Q

10

Edgar Filing: XEROX CORP - Form 10-Q

Substandard: This rating includes accounts that have marginal credit risk such that the customer's ability to make repayment is impaired or may likely become impaired. We use numerous strategies to mitigate risk including higher rates of interest, prepayments, personal guarantees, etc. Accounts in this category include customers who were downgraded during the term of the lease from investment and non-investment grade status when the lease was originated. Accordingly, there is a distinct possibility for a loss of principal and interest or customer default. The loss rates in this category are around 10%.

Credit quality indicators are updated at least annually and the credit quality of any given customer can change during the life of the portfolio. Details about our finance receivables portfolio based on industry and credit quality indicators are as follows:

Note 6 – Inventories

The following is a summary of Inventories by major category:

	June 30, 2012	December 31, 2011
Finished goods	\$902	\$866
Work-in-process	70	58
Raw materials	101	97
Total Inventories	\$1,073	\$1,021

Note 7 – Investment in Affiliates, at Equity

Our equity in net income of our unconsolidated affiliates was as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2012	2011	June 30, 2012	2011
Fuji Xerox	\$28	\$31	\$65	\$62
Other investments	3	3	6	6
Total Equity in Net Income of Unconsolidated Affiliates	\$31	\$34	\$71	\$68

Fuji Xerox

Equity in net income of Fuji Xerox is affected by certain adjustments required to reflect the deferral of profit associated with intercompany sales. These adjustments may result in recorded equity income that is different from that implied by our 25% ownership interest. Equity income for the six months ended June 30, 2012 and 2011 includes after-tax restructuring charges of \$10 and \$15, respectively, primarily reflecting Fuji Xerox's continued cost-reduction initiatives.

Condensed financial data of Fuji Xerox was as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2012	2011	June 30, 2012	2011
Summary of Operations:				
Revenues	\$3,064	\$2,852	\$6,394	\$5,944
Costs and expenses	2,856	2,645	5,940	5,542
Income before income taxes	208	207	454	402
Income tax expense	81	64	178	124
Net Income	127	143	276	278
Less: Net income – noncontrolling interests	1	1	2	2
Net Income – Fuji Xerox	\$126	\$142	\$274	\$276
Weighted Average Rate ⁽¹⁾	80.09	81.59	79.90	81.87

(1) Represents Yen/U.S. Dollar exchange rate used to translate.

Note 8 – Restructuring Programs

During the six months ended June 30, 2012, we recorded net restructuring and asset impairment charges of \$46, which included approximately \$47 of severance costs related to headcount reductions of approximately 1,100 employees primarily in North America and \$7 of lease cancellation and asset impairment charges. These costs were partially offset by \$8 of net reversals for changes in estimated reserves from prior period initiatives.

Information related to restructuring program activity during the six months ended June 30, 2012 is outlined below:

Xerox 2012 Form 10-Q

14

	Severance and Related Costs	Lease Cancellation and Other Costs	Asset Impairments ⁽²⁾	Total
Balance December 31, 2011	\$116	\$ 7	\$—	\$123
Restructuring provision	47	5	2	54
Reversals of prior accruals	(8) —	—	(8
Net current period charges ⁽¹⁾	39	5	2	46
Charges against reserve and currency	(81) (2) (2) (85
Balance June 30, 2012	\$74	\$ 10	\$—	\$84

(1) Represents net amount recognized within the Condensed Consolidated Statements of Income for the period shown.

(2) Charges associated with asset impairments represent the write-down of the related assets to their new cost basis and are recorded concurrently with the recognition of the provision.

Reconciliation to the Condensed Consolidated Statements of Cash Flows:

	Three Months Ended		Six Months Ended	
	June 30, 2012	2011	June 30, 2012	2011
Charges against reserve	\$ (46) \$ (67) \$ (85) \$ (120
Asset impairment	—	—	2	—
Effects of foreign currency and other non-cash items	2	4	—	—
Cash Payments for Restructurings	\$ (44) \$ (63) \$ (83) \$ (120

The following table summarizes the total amount of costs incurred in connection with these restructuring programs by segment:

	Three Months Ended		Six Months Ended	
	June 30, 2012	2011	June 30, 2012	2011
Services	\$16	\$1	\$19	\$—
Technology	12	(7) \$29	\$ (19
Other	1	(3) (2) (5
Total Net Restructuring Charges	\$29	\$ (9) \$46	\$ (24

Note 9 – Debt

Debt Exchange

In February 2012, we completed an exchange of our 5.71% Zero Coupon Notes due 2023 with an accreted book value at the date of the exchange of \$303, for \$362 of our 4.50% Senior Notes due 2021. Accordingly, this increased the principal amount for our 4.50% Senior Notes due 2021 from \$700 to \$1,062. The exchange was conducted to retire high-interest, long-dated debt in a favorable interest rate environment. The debt exchange was accounted for as a non-revolving debt modification and, therefore, it did not result in any gain or loss. The difference between the book value of our Zero Coupon Notes and the principal value of the Senior Notes issued in exchange will be accreted over the remaining term of the Senior Notes. Upfront fees paid to third parties in connection with the exchange were not material and were expensed as incurred.

Senior Notes

In March 2012, we issued \$600 of Floating Rate Senior Notes due 2013 (the “2013 Floating Rate Notes”) and \$500 of 2.95% Senior Notes due 2017 (the “2017 Senior Notes”). The 2013 Floating Rate Notes were issued at par and the 2017 Senior Notes were issued at 99.875% of par, resulting in aggregate net proceeds for both notes of approximately

\$1,093. The 2013 Floating Rate Notes accrue interest at a rate per annum, reset quarterly, equal to the three-month LIBOR plus 1.400% and are payable quarterly. The 2017 Senior Notes accrue interest at a rate of 2.95% per annum and are payable semi-annually. As a result of the discount, they have a weighted average

Xerox 2012 Form 10-Q

15

effective interest rate of 2.977%. In connection with the issuance of these Senior Notes, debt issuance costs of \$6 were deferred. This debt issuance partially pre-funded the May 2012 maturity of our \$1,100 of 5.59% Senior Notes.

Interest Expense and Income

Interest expense and interest income were as follows:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Interest expense ⁽¹⁾	\$ 109	\$ 124	\$ 218	\$ 251
Interest income ⁽²⁾	147	168	298	337

(1) Includes Equipment financing interest, as well as non-financing interest expense that is included in Other expenses, net in the Condensed Consolidated Statements of Income.

(2) Includes Finance income, as well as other interest income that is included in Other expenses, net in the Condensed Consolidated Statements of Income.

Net (Payments) Proceeds on Debt

Net proceeds on debt as shown on the Condensed Consolidated Statements of Cash Flows was as follows:

	Six Months Ended	
	June 30,	
	2012	2011
Net proceeds (payments) on short-term debt	\$550	\$(297)
Net proceeds from issuance of long-term debt	1,105	1,018
Net payments on long-term debt	(1,112)	(18)
Net Proceeds on Debt	\$543	\$703

Note 10 – Financial Instruments

Interest Rate Risk Management

We use interest rate swap agreements to manage our interest rate exposure and to achieve a desired proportion of variable and fixed rate debt. These derivatives may be designated as fair value hedges or cash flow hedges depending on the nature of the risk being hedged.

Fair Value Hedges

At June 30, 2012 and December 31, 2011, we did not have any interest rate swaps outstanding.

Foreign Exchange Risk Management

We are a global company that is exposed to foreign currency exchange rate fluctuations in the normal course of our business. As a part of our foreign exchange risk management strategy, we use derivative instruments, primarily forward contracts and purchase option contracts, to hedge the following foreign currency exposures, thereby reducing volatility of earnings or protecting fair values of assets and liabilities:

Foreign currency-denominated assets and liabilities

Forecasted purchases and sales in foreign currency

Summary of Foreign Exchange Hedging Positions

At June 30, 2012, we had outstanding forward exchange and purchased option contracts with gross notional values of \$2,823, which is reflective of the amounts that are normally outstanding at any point during the year. Approximately 81% of these contracts mature within three months, 11% in three to six months and 8% in six to twelve months.

The following is a summary of the primary hedging positions and corresponding fair values as of June 30, 2012:

Currency Hedged (Buy/Sell)	Gross Notional Value	Fair Value Asset (Liability) ⁽¹⁾
Euro/U.K. Pound Sterling	\$589	\$(3)
U.S. Dollar/Euro	471	15
Japanese Yen/U.S. Dollar	452	(1)
Japanese Yen/Euro	418	17
U.K. Pound Sterling/Euro	193	4
Canadian Dollar/Euro	167	—
Mexican Peso/U.S. Dollar	69	—
Indian Rupee/U.S. Dollar	61	(5)
Euro/U.S. Dollar	58	(1)
Euro/Swiss Franc	56	—
Philippine Peso/U.S. Dollar	40	—
U.S. Dollar/Canadian Dollar	25	—
Euro/Peruvian Nuevo Sol	23	—
Euro/Japanese Yen	22	—
All Other	179	(2)
Total Foreign Exchange Hedging	\$2,823	\$24

⁽¹⁾ Represents the net receivable (payable) amount included in the Condensed Consolidated Balance Sheet at June 30, 2012.

Foreign Currency Cash Flow Hedges

We designate a portion of our foreign currency derivative contracts as cash flow hedges of our foreign currency-denominated inventory purchases, sales and expenses. No amount of ineffectiveness was recorded in the Condensed Consolidated Statements of Income for these designated cash flow hedges and all components of each derivative's gain or loss was included in the assessment of hedge effectiveness. The net (liability) asset fair value of these contracts was \$16 and \$26 as of June 30, 2012 and December 31, 2011, respectively.

Summary of Derivative Instruments Fair Value

The following table provides a summary of the fair value amounts of our derivative instruments:

Designation of Derivatives	Balance Sheet Location	June 30, 2012	December 31, 2011
Derivatives Designated as Hedging Instruments			
Foreign exchange contracts – forwards	Other current assets	\$28	\$37
	Other current liabilities	(12)	(11)
	Net Designated Asset	\$16	\$26
Derivatives NOT Designated as Hedging Instruments			
Foreign exchange contracts – forwards	Other current assets	\$15	\$21
	Other current liabilities	(7)	(20)
	Net Undesignated Asset	\$8	\$1
Summary of Derivatives	Total Derivative Assets	\$43	\$58
	Total Derivative Liabilities	(19)	(31)
	Net Derivative Asset	\$24	\$27

Summary of Derivative Instruments Gains (Losses)

Derivative gains and (losses) affect the income statement based on whether such derivatives are designated as hedges

of underlying exposures. The following is a summary of derivative gains and (losses).

Designated Derivative Instruments Gains (Losses)

The following tables provide a summary of gains (losses) on derivative instruments:

Derivatives in Fair Value Relationships	Location of Gain (Loss) Recognized in Income	Derivative Gain (Loss) Recognized in Income Three Months Ended June 30,		Hedged Item Gain (Loss) Recognized in Income Three Months Ended June 30,	
		2012	2011	2012	2011
Interest rate contracts	Interest expense	\$—	\$17	\$—	\$(17)

Derivatives in Fair Value Relationships	Location of Gain (Loss) Recognized in Income	Derivative Gain (Loss) Recognized in Income Six Months Ended June 30,		Hedged Item Gain (Loss) Recognized in Income Six Months Ended June 30,	
		2012	2011	2012	2011
Interest rate contracts	Interest expense	\$—	\$16	\$—	\$(16)

Derivatives in Cash Flow Hedging Relationships	Derivative Gain (Loss) Recognized in OCI (Effective Portion) Three Months Ended June 30,		Location of Derivative Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Gain (Loss) Reclassified from AOCI to Income (Effective Portion) Three Months Ended June 30,	
	2012	2011		2012	2011
Foreign exchange contracts – forwards	\$52	\$3	Cost of sales	\$5	\$(7)

Derivatives in Cash Flow Hedging Relationships	Derivative Gain (Loss) Recognized in OCI (Effective Portion) Six Months Ended June 30,		Location of Derivative Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Gain (Loss) Reclassified from AOCI to Income (Effective Portion) Six Months Ended June 30,	
	2012	2011		2012	2011
Foreign exchange contracts – forwards	\$8	(24)	Cost of sales	\$21	(4)

No amount of ineffectiveness was recorded in the Condensed Consolidated Statements of Income for these designated cash flow hedges and all components of each derivative's gain or (loss) was included in the assessment of hedge effectiveness. In addition, no amount was recorded for an underlying exposure that did not occur or was not expected to occur.

For the six months ended June 30, 2012, net gains of \$17 were recorded in accumulated other comprehensive loss associated with our cash flow hedging activity. The entire balance is expected to be reclassified into net income within the next 12 months, providing an offsetting economic impact against the underlying anticipated transactions.

Non-Designated Derivative Instruments Gains (Losses)

Non-designated derivative instruments are primarily instruments used to hedge foreign currency-denominated assets and liabilities. They are not designated as hedges since there is a natural offset for the re-measurement of the underlying foreign currency-denominated asset or liability.

The following table provides a summary of gains (losses) on non-designated derivative instruments:

Derivatives NOT Designated as Hedging Instruments	Three Months Ended June 30,	Six Months Ended June 30,

Edgar Filing: XEROX CORP - Form 10-Q

	Location of Derivative Gain (Loss)	2012	2011	2012	2011
Foreign exchange contracts – forwards	Other expense – Currency gains (losses), net	\$23	\$15	\$5	\$(16)

During the three months ended June 30, 2012 and 2011, we recorded Currency losses, net of \$0 and \$0, respectively.
 During the six months ended June 30, 2012 and 2011, we recorded Currency losses, net of \$0 and \$1, respectively.

Xerox 2012 Form 10-Q

18

Currency losses, net includes the mark-to-market adjustments of the derivatives not designated as hedging instruments and the related cost of those derivatives, as well as the re-measurement of foreign currency-denominated assets and liabilities.

Note 11 – Fair Value of Financial Assets and Liabilities

The following table represents assets and liabilities measured at fair value on a recurring basis. The basis for the measurement at fair value in all cases is Level 2 – Significant Other Observable Inputs.

	June 30, 2012	December 31, 2011
Assets:		
Foreign exchange contracts-forwards	\$43	\$58
Deferred compensation investments in cash surrender life insurance	72	69
Deferred compensation investments in mutual funds	23	23
Total	\$138	\$150
Liabilities:		
Foreign exchange contracts-forwards	\$19	\$31
Deferred compensation plan liabilities	102	97
Total	\$121	\$128

We utilize the income approach to measure the fair value for our derivative assets and liabilities. The income approach uses pricing models that rely on market observable inputs such as yield curves, currency exchange rates and forward prices, and therefore are classified as Level 2.

Fair value for our deferred compensation plan investments in Company-owned life insurance is reflected at cash surrender value. Fair value for our deferred compensation plan investments in mutual funds is based on quoted market prices for actively traded investments similar to those held by the plan. Fair value for deferred compensation plan liabilities is based on the fair value of investments corresponding to employees' investment selections, based on quoted prices for similar assets in actively traded markets.

Summary of Other Financial Assets and Liabilities Not Measured at Fair Value on a Recurring Basis

The estimated fair values of our other financial assets and liabilities not measured at fair value on a recurring basis were as follows:

	June 30, 2012		December 31, 2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$814	\$814	\$902	\$902
Accounts receivable, net	2,776	2,776	2,600	2,600
Short-term debt	1,099	1,111	1,545	1,622
Long-term debt	8,061	8,691	7,088	7,496

The fair value amounts for Cash and cash equivalents and Accounts receivable, net, approximate carrying amounts due to the short maturities of these instruments. The fair value of Short- and Long-term debt was estimated based on quoted market prices for publicly-traded securities or on the current rates offered to us for debt of similar maturities. The difference between the fair value and the carrying value represents the theoretical net premium or discount we would pay or receive to retire all debt at such date.

Note 12 – Employee Benefit Plans

The components of Net periodic benefit cost and other changes in plan assets and benefit obligations were as follows:

Edgar Filing: XEROX CORP - Form 10-Q

	Pension Benefits				Retiree Health			
	Three Months Ended June 30, 2012		Six Months Ended June 30, 2012		Three Months Ended June 30, 2012		Six Months Ended June 30, 2012

Contributions: During the six months ended June 30, 2012, we made cash contributions of \$237 and \$33 to our defined benefit plans and our other post-retirement benefit plans, respectively. In March 2012, we elected to make a contribution of 15.4 million shares of our common stock, with an aggregate value of approximately \$130, to our U.S. defined benefit pension plan for salaried employees in order to meet our planned level of funding. We presently anticipate additional cash contributions of \$148 to our defined benefit pension plans and \$47 to our other post-retirement benefit plans in the second half of 2012 for a total cash contribution of approximately \$385 (\$515 total cash and stock contribution) and \$80, respectively. The decrease in total contributions to our defined benefit pension plans as compared to the \$560 previously disclosed, is primarily due to lower contributions in the U.S. as a result of the expected impacts from the recently enacted pension funding legislation. During the second quarter of 2012, Congress passed the Moving Ahead for Progress in the 21st Century Act, which included pension funding stabilization provisions. These provisions are intended to stabilize the discount rate used to determine funding requirements from the effects of interest rate volatility. Once additional guidance is issued, we will reevaluate any

additional change in contribution requirements.

	86,014	96,603	86,885	96,913
Dividends per common share	\$0.0425	\$0.0425	\$0.0850	\$0.0850

Note 16 – Contingencies and Litigation

Brazil Tax and Labor Contingencies

Our Brazilian operations are involved in various litigation matters and have received or been the subject of numerous governmental assessments related to indirect and other taxes, as well as disputes associated with former employees and contract labor. The tax matters, which comprise a significant portion of the total contingencies, principally relate to claims for taxes on the internal transfer of inventory, municipal service taxes on rentals and gross revenue taxes. We are disputing these tax matters and intend to vigorously defend our position. Based on the opinion of legal counsel and current reserves for those matters deemed probable of loss, we do not believe that the ultimate resolution of these matters will materially impact our results of operations, financial position or cash flows.

The labor matters principally relate to claims made by former employees and contract labor for the equivalent payment of all social security and other related labor benefits, as well as consequential tax claims, as if they were regular employees. As of June 30, 2012, the total amounts related to the unreserved portion of the tax and labor contingencies, inclusive of any related interest, amounted to approximately \$1,047 with the decrease from

December 31, 2011 balance of approximately \$1,120, primarily related to currency and closed cases partially offset by interest. With respect to the unreserved balance of \$1,047, the majority has been assessed by management as being remote as to the likelihood

Xerox 2012 Form 10-Q

24

of ultimately resulting in a loss to the company. In connection with the above proceedings, customary local regulations may require us to make escrow cash deposits or post other security of up to half of the total amount in dispute. As of June 30, 2012 we had \$211 of escrow cash deposits for matters we are disputing, and there are liens on certain Brazilian assets with a net book value of \$14 and additional letters of credit of approximately \$225, which include associated indexation. Generally, any escrowed amounts would be refundable and any liens would be removed to the extent the matters are resolved in our favor. We routinely assess all these matters as to probability of ultimately incurring a liability against our Brazilian operations and record our best estimate of the ultimate loss in situations where we assess the likelihood of an ultimate loss as probable.

Legal Matters

As more fully discussed below, we are involved in a variety of claims, lawsuits, investigations and proceedings concerning securities law, intellectual property law, environmental law, employment law and the Employee Retirement Income Security Act (“ERISA”). We determine whether an estimated loss from a contingency should be accrued by assessing whether a loss is deemed probable and can be reasonably estimated. We assess our potential liability by analyzing our litigation and regulatory matters using available information. We develop our views on estimated losses in consultation with outside counsel handling our defense in these matters, which involves an analysis of potential results, assuming a combination of litigation and settlement strategies. Should developments in any of these matters cause a change in our determination as to an unfavorable outcome and result in the need to recognize a material accrual, or should any of these matters result in a final adverse judgment or be settled for significant amounts, they could have a material adverse effect on our results of operations, cash flows and financial position in the period or periods in which such change in determination, judgment or settlement occurs.

Litigation Against the Company

In re Xerox Corporation Securities Litigation: A consolidated securities law action (consisting of 17 cases) is pending in the United States District Court for the District of Connecticut. Defendants are the Company, Barry Romeril, Paul Allaire and G. Richard Thoman. The consolidated action is a class action on behalf of all persons and entities who purchased Xerox Corporation common stock during the period October 22, 1998 through October 7, 1999 inclusive (“Class Period”) and who suffered a loss as a result of misrepresentations or omissions by Defendants as alleged by Plaintiffs (the “Class”). The Class alleges that in violation of Section 10(b) and/or 20(a) of the Securities Exchange Act of 1934, as amended (“1934 Act”), and SEC Rule 10b-5 thereunder, each of the defendants is liable as a participant in a fraudulent scheme and course of business that operated as a fraud or deceit on purchasers of the Company’s common stock during the Class Period by disseminating materially false and misleading statements and/or concealing material facts relating to the defendants’ alleged failure to disclose the material negative impact that the April 1998 restructuring had on the Company’s operations and revenues. The complaint further alleges that the alleged scheme: (i) deceived the investing public regarding the economic capabilities, sales proficiencies, growth, operations and the intrinsic value of the Company’s common stock; (ii) allowed several corporate insiders, such as the named individual defendants, to sell shares of privately held common stock of the Company while in possession of materially adverse, non-public information; and (iii) caused the individual plaintiffs and the other members of the purported class to purchase common stock of the Company at inflated prices. The complaint seeks unspecified compensatory damages in favor of the plaintiffs and the other members of the purported class against all defendants, jointly and severally, for all damages sustained as a result of defendants’ alleged wrongdoing, including interest thereon, together with reasonable costs and expenses incurred in the action, including counsel fees and expert fees. In 2001, the Court denied the defendants’ motion for dismissal of the complaint. The plaintiffs’ motion for class certification was denied by the Court in 2006, without prejudice to refile. In February 2007, the Court granted the motion of the International Brotherhood of Electrical Workers Welfare Fund of Local Union No. 164, Robert W. Roten, Robert Agius (“Agius”) and Georgia Stanley to appoint them as additional lead plaintiffs. In July 2007, the Court denied plaintiffs’ renewed motion for class certification, without prejudice to renewal after the Court holds a pre-filing conference to identify factual disputes the Court will be required to resolve in ruling on the motion. After that conference and Agius’s withdrawal as lead plaintiff and proposed class representative, in February 2008 plaintiffs filed a second renewed motion for class certification. In April 2008, defendants filed their response and motion to disqualify Milberg LLP as a lead counsel. On September 30, 2008, the Court entered an order certifying the class and denying the appointment of Milberg LLP as class counsel.

Edgar Filing: XEROX CORP - Form 10-Q

Subsequently, on April 9, 2009, the Court denied defendants' motion to disqualify Milberg LLP. On November 6, 2008, the defendants filed a motion for summary judgment. Briefing with respect to the motion is complete. The Court has not yet rendered a decision. The parties also filed motions to exclude the testimony of certain expert witnesses. On April 22, 2009, the Court denied plaintiffs' motions to exclude the testimony of two of defendants' expert witnesses. On September 30, 2010, the Court denied plaintiffs' motion to exclude the testimony of another of defendants' expert witnesses. The Court also granted defendants' motion to exclude the testimony of one of plaintiffs' expert witnesses, and granted in part and denied in part defendants' motion to exclude the testimony of plaintiffs' two remaining expert witnesses. The individual defendants and we deny any wrongdoing and are vigorously defending the action. At this time, we do not believe it is

Xerox 2012 Form 10-Q

25

reasonably possible that we will incur additional material losses in excess of the amount we have already accrued for this matter. In the course of litigation, we periodically engage in discussions with plaintiffs' counsel for possible resolution of this matter. Should developments cause a change in our determination as to an unfavorable outcome, or result in a final adverse judgment or a settlement for a significant amount, there could be a material adverse effect on our results of operations, cash flows and financial position in the period in which such change in determination, judgment or settlement occurs.

Other Contingencies

We have issued or provided the following guarantees as of June 30, 2012:

\$446 for letters of credit issued to i) guarantee our performance under certain services contracts; ii) support certain insurance programs; and iii) support our obligations related to the Brazil tax and labor contingencies.

\$769 for outstanding surety bonds. Certain contracts, primarily those involving public sector customers, require us to provide a surety bond as a guarantee of our performance of contractual obligations.

In general, we would only be liable for the amount of these guarantees in the event of default in our performance of our obligations under each contract; the probability of which we believe is remote. We believe that our capacity in the surety markets as well as under various credit arrangements (including our Credit Facility) is sufficient to allow us to respond to future requests for proposals that require such credit support.

We have service arrangements where we service third party student loans in the Federal Family Education Loan program ("FFEL") on behalf of various financial institutions. We service these loans for investors under outsourcing arrangements and do not acquire any servicing rights that are transferable by us to a third party. At June 30, 2012, we serviced a FFEL portfolio of approximately 4.0 million loans with an outstanding principal balance of approximately \$57.9 billion. Some servicing agreements contain provisions that, under certain circumstances, require us to purchase the loans from the investor if the loan guaranty has been permanently terminated as a result of a loan default caused by our servicing error. If defaults caused by us are cured during an initial period, any obligation we may have to purchase these loans expires. Loans that we purchase may be subsequently cured, the guaranty reinstated and the loans repackaged for sale to third parties. We evaluate our exposure under our purchase obligations on defaulted loans and establish a reserve for potential losses, or default liability reserve, through a charge to the provision for loss on defaulted loans purchased. The reserve is evaluated periodically and adjusted based upon management's analysis of the historical performance of the defaulted loans. As of June 30, 2012, other current liabilities include reserves of approximately \$2 for losses on defaulted loans purchased.

Note 17 – Subsequent Events

In July 2012, we acquired Lateral Data, LP., a leading e-discovery technology provider, for approximately \$30. Lateral Data's flagship software, Viewpoint™, brings simplicity and affordability to e-discovery and complements the offerings of Xerox Litigation Services. In July, we acquired Martin Whalen Office Solutions, a leading provider of office technology and software solutions, for approximately \$31. This acquisition further expands our distribution in Illinois and builds on our strategy to create a nationwide network of locally based companies focused on customer needs. We are in the process of determining the purchase price allocation for these acquisitions.

In July 2012, we also signed a definitive agreement to acquire Wireless Data Services, Ltd. ("WDS"), a provider of technical support, knowledge management and related consulting to the world's largest wireless telecommunication brands for approximately \$100 (£65 million). Based in the U.K., WDS's expertise in the telecommunications industry strengthens our broad portfolio of customer care solutions. The acquisition is expected to close in the third quarter of 2012, subject to the satisfaction of customary closing conditions.

ITEM 2 — MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management’s Discussion and Analysis (“MD&A”) is intended to help the reader understand the results of operations and financial condition of Xerox Corporation. MD&A is provided as a supplement to, and should be read in conjunction with, our Condensed Consolidated Financial Statements and the accompanying notes.

Throughout this document, references to “we,” “our,” the “Company,” and “Xerox” refer to Xerox Corporation and its subsidiaries. References to “Xerox Corporation” refer to the stand-alone parent company and do not include its subsidiaries.

To understand the trends in the business, we believe that it is helpful to analyze the impact of changes in the translation of foreign currencies into U.S. dollars on revenue and expenses. We refer to this analysis as “currency impact” or “the impact from currency.” This includes translating the most recent financial results of operations using foreign currency of the earliest period presented. Currencies for our developing market countries (Latin America, Brazil, the Middle East, India, Eurasia and Central-Eastern Europe) are reflected at actual exchange rates for all periods presented, since these countries generally have volatile currency and inflationary environments, and our operations in these countries have historically implemented pricing actions to recover the impact of inflation and devaluation. We do not hedge the translation effect of revenues or expenses denominated in currencies where the local currency is the functional currency.

Overview

Total revenue of \$5.5 billion for the three months ended June 30, 2012 decreased by 1% from the prior year, including a 2-percentage point negative impact from currency. Services segment revenues increased 5%, including a 2-percentage point negative impact from currency, reflecting growth in each of our outsourcing service offerings. Technology segment revenues declined by 7%, including a 3-percentage point negative impact from currency, reflecting the continued weak macro-economic environment, particularly in Europe, as well as an increasing shift by customers to Xerox managed print services. Total revenue of \$11.0 billion for the six months ended June 30, 2012 was flat compared to the prior year and includes a 1-percentage point negative impact from currency. Services segment revenue growth of 7%, including a 1-percentage point negative impact from currency, was offset by a 7% decrease in revenue in our Technology segment, including a 2-percentage negative impact from currency.

As a result of the continued economic uncertainty, primarily in Europe, we expect that 2012 total revenue will only increase by 1% to 2% excluding the impacts of currency. With respect to earnings, lower revenue from Technology is expected to be offset by strong year-over-year revenue growth from our Services segment and the ongoing benefit from operational efficiencies.

Net income attributable to Xerox for the three and six months ended June 30, 2012 was \$309 million and \$578 million, respectively, and included \$51 million and \$101 million, respectively, of after-tax amortization of intangibles. Net income attributable to Xerox for the three and six months ended June 30, 2011 was \$319 million and \$600 million, respectively, and included \$74 million and \$127 million, respectively, of after-tax costs related to amortization of intangibles as well as a loss on the early extinguishment of a liability in the second quarter 2011. Net income for the three and six months ended June 30, 2012 reflects continued pressure on margins, as we scale our revenue in services, that are partially being offset by operational improvements and cost reductions from restructuring actions.

Cash Flow from operations was \$213 million for the six months ended June 30, 2012, as compared to \$317 million from the prior year period, with the decrease primarily related to the timing of contributions to our defined benefit pension plans. Cash used in investing activities of \$312 million primarily reflects capital expenditures of \$243 million and acquisitions of \$87 million. Cash provided by financing activities was \$8 million, as a \$549 million increase in Commercial Paper was partially offset by \$357 million for the repurchase of common stock and \$187 million for

dividends and distributions to non-controlling interests. We also issued approximately \$1.1 billion in new Senior Notes to fund the May 2012 maturity of our \$1.1 billion 5.59% Senior Notes.

Add: Supplies and other sales	571	558		1,136	1,165				
Add: Paper sales	218	237		430	475				
Annuity Revenue	\$4,695	\$4,689		\$9,387	\$9,328				

Second quarter 2012 Total revenues decreased by 1% compared to the second quarter 2011, including a 2-percentage point negative impact from currency. Total revenues included the following:

Annuity revenue, which was flat as compared to the second quarter 2011, including a 2-percentage point negative impact from currency. Annuity revenue is comprised of the following:

Outsourcing, service and rentals revenue of \$3,763 million, which includes outsourcing revenue within our Services segment and technical service revenue (including bundled supplies) and rental revenue, both primarily within our Technology segment. An increase of 1%, including a 2-percentage point negative impact from currency, was driven by an increase in outsourcing revenue in our business process outsourcing, document outsourcing and IT outsourcing offerings.

Supplies and other sales revenue of \$571 million, which includes unbundled supplies and other sales, primarily within our Technology segment increased 2%, including a 2-percentage point negative impact from currency. The increase reflects a 4% increase (including a 1-percentage point negative impact from currency) in supplies sales driven by the timing of supplies purchases by our channel partners.

Paper sales revenue, primarily within our Other segment, of \$218 million decreased 8%, including a 4-percentage point negative impact from currency driven by market pricing and lower activity.

Equipment sales revenue, which is reported primarily within our Technology segment and the document outsourcing business within our Services segment, declined 9% as compared to the second quarter 2011, including a 3-percentage point negative impact from currency, driven by weakness in Europe and the impact of lower product mix. Product installs increased from the second quarter 2011 in all three of our product groups. Consistent with prior quarters, price declines were in the range of 5% to 10%.

Color Revenue¹, declined 4% as compared to second quarter 2011, including a 4-percentage point negative impact from currency. An increase in color pages of 10% was offset by a decline in color equipment sale revenue driven primarily by weakness in Europe and the impact of lower product mix.

Total revenues for the six months ended June 30, 2012, was flat compared to the prior year period, including a 1-percentage point negative impact from currency. Total revenues included the following:

• Annuity revenue increased 1% compared to the prior year period, including a 1-percentage point negative impact from currency. Annuity revenue is comprised of the following:

Outsourcing, service and rentals revenue of \$7,530 million, increased 2%, including a 2-percentage point negative impact from currency, primarily driven by an increase in outsourcing revenue in our Services segment.

Supplies and other sales revenue of \$1,136 million, decreased 2%, including a 2-percentage point negative impact from currency. This decrease was primarily driven by overall lower supplies purchases by our channel partners in the first six months of the year.

Paper sales revenue of \$430 million, decreased 9%, including a 2-percentage point negative impact from

Xerox 2012 Form 10-Q

28

currency, primarily driven by market pricing and lower activity as well as our strategy to discontinue the direct sale of paper in selected markets.

Equipment sales revenue decreased 5% compared to the prior year period, including a 2-percentage point negative impact from currency, driven by weakness in Europe and the impact of lower product mix. Product installs increased from the prior year period in all three of our product groups and was more than offset by the impact of price declines, which, consistent with prior quarters, were in the range of 5% to 10%.

Equipment sales within our Services segment continued to grow, driven by the migration of customers looking to reduce printing costs by moving to our market leading document outsourcing offering.

Color Revenue¹ - declined 4% compared to the prior year period, including a 3-percentage point negative impact from currency. A year-to-date increase in color pages of 10% was offset by a decline in color equipment sale revenue driven primarily by weakness in Europe and the impact of lower product mix.

An analysis of the change in revenue for each business segment is included in the "Segment Review" section.

Costs, Expenses and Other Income

Summary of Key Financial Ratios

	Three Months Ended			Six Months Ended		
	June 30,		Change	June 30,		Change
	2012	2011		2012	2011	
Total Gross Margin	32.0	% 33.4	% (1.4) pts	31.5	% 33.2	% (1.7) pts
RD&E as a % of Revenue	2.9	% 3.1	% (0.2) pts	3.0	% 3.2	% (0.2) pts
SAG as a % of Revenue	19.4	% 19.9	% (0.5) pts	19.4	% 20.2	% (0.8) pts
Operating Margin ⁽²⁾	9.7	% 10.4	% (0.7) pts	9.1	% 9.8	% (0.7) pts
Pre-tax Income Margin	6.3	% 7.1	% (0.8) pts	6.0	% 6.8	% (0.8) pts

Operating Margin

The second quarter 2012 operating margin² of 9.7% decreased 0.7-percentage points as compared to the second quarter of 2011. The decrease was primarily due to a decrease in gross margin, which was partially offset by expense reductions. Operating margin² improved sequentially from the first quarter 2012 by 1.2-percentage points.

The operating margin² for the six months ended June 30, 2012 of 9.1% decreased 0.7-percentage points as compared to the prior year period. The decrease was primarily due to a decrease in gross margin, which was partially offset by expense reductions.

Gross Margins

Total Gross Margin

Gross margin for the second quarter 2012 of 32.0% decreased 1.4-percentage points, as compared to the second quarter of 2011. The decrease was driven primarily by the ramping of new services contracts and the higher mix of Services revenue.

Gross margin for six months ended June 30, 2012 of 31.5% decreased 1.7-percentage points, as compared to the prior year comparable period. The decrease was driven primarily by the ramping of new services contracts, the impact of lower contract renewals from prior periods and the higher mix of Services revenue.

Services Gross Margin

Services segment gross margin for the second quarter of 2012 decreased 2.3-percentage points as compared to the second quarter 2011, due primarily to the ramping of new services contracts. However, Services segment gross margin improved sequentially from the first quarter 2012 by 0.9-percentage points.

Services segment gross margin for the six months ended June 30, 2012 decreased 2.1-percentage points as compared to the prior year comparable period, due primarily to the ramping of new services contracts within BPO and ITO and the impact of lower contract renewals from prior periods.

Technology Gross Margin

Technology segment gross margin for the second quarter of 2012 increased 0.2-percentage points as compared to the

Xerox 2012 Form 10-Q
29

second quarter 2011, as productivity improvements and restructuring savings more than offset the impact of price declines and unfavorable year-over-year transaction currency, reflecting continued focus on cost management. Technology segment gross margin for the six months ended June 30, 2012 decreased 0.2-percentage points as compared to the prior year comparable period, primarily due to price declines and unfavorable year-over-year transaction currency. The impact of price declines was offset by productivity improvements and restructuring savings, reflecting continued focus on cost management.

Research, Development and Engineering Expenses (“RD&E”)

(in millions)	Three Months Ended			Six Months Ended		
	June 30, 2012	2011	Change	June 30, 2012	2011	Change
R&D	\$133	\$147	\$(14)	\$278	\$303	\$(25)
Sustaining engineering	28	28	—	56	56	—
Total RD&E Expenses	\$161	\$175	\$(14)	\$334	\$359	\$(25)

Second quarter 2012 RD&E as a percent of revenue of 2.9% decreased 0.2-percentage points from the second quarter 2011.

RD&E of \$161 million was \$14 million lower than the second quarter 2011, reflecting the impact of restructuring and productivity improvements.

RD&E as a percent of revenue for the six months ended June 30, 2012 of 3.0% decreased 0.2-percentage points. In addition to lower spending, the decrease was driven by the positive mix impact of the continued growth in Services revenue, which historically has a lower RD&E as a percent of revenue.

RD&E of \$334 million for the six months ended June 30, 2012 was \$25 million lower, reflecting the impact of restructuring and productivity improvements.

Innovation continues to be one of our core strengths and we continue to invest at levels that enhance this core strength, particularly in color, software and services. Xerox R&D is strategically coordinated with Fuji Xerox.

Selling, Administrative and General Expenses (“SAG”)

SAG as a percent of revenue of 19.4% decreased 0.5-percentage points from the second quarter 2011. The decrease was driven by spending reductions reflecting benefits from restructuring and productivity improvements in addition to the positive mix impact from the continued growth in Services revenue.

SAG of \$1,076 million in the second quarter 2012 was \$43 million lower than the second quarter 2011, including a \$24 million favorable impact from currency. SAG expenses reflect the following:

- \$56 million decrease in selling expenses, driven primarily by benefits from restructuring and productivity improvements partially offset by the impact of acquisitions and spending associated with the drupa print trade show in Düsseldorf, Germany.

- \$11 million increase in general and administrative expenses as restructuring savings and productivity improvements were more than offset by the impact of acquisitions and compensation-related expenses.

- \$2 million increase in bad debt expenses to \$31 million.

SAG as a percent of revenue of 19.4% decreased 0.8%-percentage points for the six months ended June 30, 2012. The decrease was driven by spending reductions reflecting benefits from restructuring and productivity improvements in addition to the positive mix impact from the continued growth in Services revenue, which historically has a lower SAG percent of revenue.

SAG of \$2,144 million for the six months ended June 30, 2012 was \$94 million lower than the prior year period, including a \$35 million favorable impact from currency. SAG expenses reflect the following:

- \$111 million decrease in selling expenses, driven primarily by benefits from restructuring and productivity improvements.

- \$23 million increase in general and administrative expenses as restructuring savings and productivity improvements were more than offset by the impact of acquisitions and compensation-related expenses.

\$6 million decrease in bad debt expenses to \$55 million. Bad debt expense remained at less than one percent of receivables.

Restructuring and Asset Impairment Charges

Xerox 2012 Form 10-Q

30

During the second quarter 2012, we recorded net restructuring and asset impairment charges of \$29 million, which included approximately \$25 million of severance costs related to headcount reductions of approximately 700 employees primarily in North America, and \$5 million of lease cancellation charges. These costs were partially offset by \$1 million of net reversals for changes in estimated reserves from prior period initiatives.

During the six months ended June 30, 2012, we recorded net restructuring and asset impairment charges of \$46 million, which included approximately \$47 million of severance costs related to headcount reductions of approximately 1,100 employees primarily in North America and \$7 million of lease cancellation and asset impairment charges. These costs were partially offset by \$8 million of net reversals for changes in estimated reserves from prior period initiatives.

We recorded net restructuring and asset impairment credits of \$9 million and \$24 million for the three and six months ended June 30, 2011, respectively, primarily reflecting net reversals and changes in estimated reserves from prior period initiatives.

The restructuring reserve balance as of June 30, 2012 for all programs was \$84 million, of which approximately \$76 million is expected to be spent over the next twelve months. Refer to Note 8 - Restructuring Programs, in the Condensed Consolidated Financial Statements for additional information regarding our restructuring programs.

Amortization of Intangible Assets

During the three and six months ended June 30, 2012, we recorded \$82 million and \$164 million, respectively, of expense related to the amortization of intangible assets, which is \$5 million and \$8 million, lower than the prior year comparable periods primarily as a result of the accelerated write-off of the ACS brand name in the fourth quarter 2011.

Worldwide Employment

Worldwide employment of 139,100 at June 30, 2012 decreased approximately 550 from December 31, 2011, primarily due to restructuring related actions partially offset by the impact of acquisitions.

Other Expenses, Net

(in millions)	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2012	2011	2012	2011
Non-financing interest expense	\$58	\$64	\$114	\$131
Interest income	(4) (5) (7) (12
Gains on sales of businesses and assets	(2) (7) (3) (8
Currency losses, net	—	—	—	1
Litigation matters	—	6	(1) 12
Fees - Sales of receivables	6	5	12	9
Loss on early extinguishment of liability	—	33	—	33
All other expenses, net	16	8	14	16
Total Other Expenses, Net	\$74	\$104	\$129	\$182

Non-Financing Interest Expense: Non-financing interest expense for the three and six months ended June 30, 2012 of \$58 million and \$114 million, respectively, were \$6 million and \$17 million lower than prior year comparable periods. The decrease in interest expense is primarily due to the benefit of lower borrowing costs achieved as a result of refinancing existing debt.

Litigation matters: Litigation matters for the three and six months ended June 30, 2011 include charges related to probable losses on various legal matters, none of which were individually material.

Fees- Sales of Receivables: Fees for sales of receivables for the three and six months ended June 30, 2012 of \$6 million and \$12 million, respectively, were \$1 million and \$3 million higher than the prior year comparable periods primarily due to higher sales of receivables.

Loss on early extinguishment of liability: In May 2011, Xerox Capital Trust I, our wholly-owned subsidiary trust, redeemed its \$650 million 8% Preferred Securities due in 2027. The redemption resulted in a pre-tax loss of \$33 million (\$20 million after-tax) representing the call premium of approximately \$10 million as well as the write-off of

unamortized debt costs and other liability carrying value adjustments of \$23 million.

Xerox 2012 Form 10-Q

31

All Other Expenses, Net: All other expenses, net for the three months ended June 30, 2012 increased \$8 million primarily due to the write-off of an investment. All other expenses, net for the six months ended June 30, 2012 decreased \$2 million, as gains on investments supporting certain of our deferred compensation arrangements offset the write-off of an investment. The investment gains were offset by an increase in compensation expense recorded in SAG as a result of the increase in the liability associated with these arrangements.

Income Taxes

The effective tax rate for the three and six months ended June 30, 2012 was 18.8% and 21.5%, respectively. On an adjusted basis² the tax rate for the three and six months ended June 30, 2012 was 22.4% and 24.9%, respectively. The adjusted tax rates for the second quarter as well as the first half of 2012 were lower than the U.S. statutory tax rate primarily due to foreign tax credits resulting from anticipated dividends and other foreign transactions. In addition, the resolution of a number of tax audit positions and an increase in our anticipated future utilization of tax credits provided a 5 and 3-percentage point reduction in our second quarter and first half adjusted tax rates, respectively. The effective tax rate for the three and six months ended June 30, 2011 was 26.9% and 27.0%, respectively. On an adjusted basis² the tax rate for the three and six months ended June 30, 2012 was 29.6% and 29.4%, respectively. The adjusted tax rate for the three and six months was lower than the U.S. statutory tax rate primarily due to foreign income being taxed at a lower rate or offset by available foreign tax credits.

Xerox operations are widely dispersed. The statutory tax rate in most non U.S. jurisdictions is lower than the combined U.S. and state tax rate. The amount of income subject to these lower foreign rates relative to the amount of U.S. income will impact our effective tax rate. However, no one country outside of the U.S. is a significant factor to our overall effective tax rate. Certain foreign income is subject to U.S. tax net of any available foreign tax credits. Our full year effective tax rate includes a benefit of approximately 12 percentage points from these non U.S. operations, which is comparable to 2011.

Our effective tax rate is based on nonrecurring events as well as recurring factors, including the taxation of foreign income. In addition, our effective tax rate will change based on discrete or other nonrecurring events that may not be predictable. We anticipate that our effective tax rate for the remaining quarters of 2012 will be approximately 29%, excluding the effects of intangibles amortization and discrete events.

Equity in Net Income of Unconsolidated Affiliates

(in millions)	Three Months Ended		Six Months Ended	
	June 30, 2012	2011	June 30, 2012	2011
Total equity in net income of unconsolidated affiliates	\$31	\$34	\$71	\$68
Fuji Xerox after-tax restructuring costs	6	4	10	15

Equity in net income of unconsolidated affiliates primarily reflects our 25% share of Fuji Xerox net income.

Net Income

Second quarter 2012 net income attributable to Xerox was \$309 million, or \$0.22 per diluted share. On an adjusted basis², net income attributable to Xerox was \$360 million, or \$0.26 per diluted share, and reflected adjustments for the amortization of intangible assets.

Second quarter 2011 net income attributable to Xerox was \$319 million, or \$0.22 per diluted share. On an adjusted basis², net income attributable to Xerox was \$393 million, or \$0.27 per diluted share and reflected adjustments for the amortization of intangible assets and the loss on early extinguishment of a liability.

Net income attributable to Xerox for the six months ended June 30, 2012 was \$578 million, or \$0.41 per diluted share. On an adjusted basis², net income attributable to Xerox was \$679 million, or \$0.49 per diluted share.

Net income attributable to Xerox for the six months ended June 30, 2011 was \$600 million, or \$0.41 per diluted share. On an adjusted basis², net income attributable to Xerox was \$727 million, or \$0.50 per diluted share.

Refer to the Net Income and EPS reconciliation table in the Non-GAAP Financial Measures section for the adjustments to net income.

Other Comprehensive Income

Second quarter 2012 other comprehensive income attributable to Xerox of \$85 million decreased \$407 million from the second quarter 2011. The decrease was primarily due to losses from the translation of our foreign currency denominated net assets in 2012 as compared to translation gains in 2011. The translation losses are the result of a weakening of our major foreign currencies against the U.S. Dollar in the second quarter of 2012 as compared to a strengthening of those same currencies in the second quarter of 2011.

Other comprehensive income attributable to Xerox for the six months ended June 30, 2012 of \$416 million decreased \$597 million from the prior year comparable period. The decrease was primarily due to losses from the translation of our foreign currency denominated net assets in 2012 as compared to translation gains in 2011. The translation losses are the result of a weakening of our major foreign currencies against the U.S. Dollar in 2012 as compared to a strengthening of those same currencies in 2011.

Services

Our Services segment comprises three service offerings: Business Process Outsourcing (“BPO”), Document Outsourcing (“DO”) and Information Technology Outsourcing (“ITO”).

Revenue

(in millions)	Three Months Ended June 30,			Six Months Ended June 30,			Change	
	2012	2011	Change	2012	2011	Change		
Business Processing Outsourcing	\$1,606	\$1,504	7	% \$3,243	\$2,947	10	%	
Document Outsourcing	900	876	3	% 1,787	1,706	5	%	
Information Technology Outsourcing	344	316	9	% 676	647	4	%	
Less: Intra-segment Elimination	(44)	(24)	*	(79)	(44)	*		
Total Services Revenue	\$2,806	\$2,672	5	% \$5,627	\$5,256	7	%	

* Percent not meaningful.

Second quarter 2012 Services revenue of \$2,806 million increased 5% from second quarter 2011, including a 2-percentage point negative impact from currency.

BPO revenue increased 7%, including a 1-percentage point negative impact from currency, and represented 56% of total Services revenue. BPO growth was driven by the government healthcare, financial services and retail, travel and insurance businesses and was partially offset by lower transaction volumes from existing contracts.

DO revenue increased 3%, including a 3-percentage point negative impact from currency, and represented 32% of total Services revenue. Growth was driven primarily by our new partner print services offerings as well as new signings. Xerox is the market leader in this growing segment of the Document Technology market.

ITO revenue increased 9% and represented 12% of total Services revenue. ITO growth was driven by strong signings growth in recent quarters and also includes 3-percentage points of growth related to revenue from intercompany services, which is eliminated in total Services segment revenue.

Xerox 2012 Form 10-Q

33

Services revenue for the six months ended June 30, 2012 of \$5,627 million increased 7% from the comparable prior year period, including a 1-percentage point negative impact from currency.

- BPO revenue increased 10% and represented 57% of total Services revenue. BPO growth was driven by the government healthcare, healthcare payer, financial services, and retail, travel and insurance businesses.

DO revenue increased 5%, including a 2%-percentage point negative impact from currency, and represented 32% of total Services revenue. Continued growth was driven primarily by our new partner print services offerings as well as new signings. Xerox is the market leader in this growing segment of the Document Technology market.

ITO revenue increased 4% and represented 11% of total Services revenue. This reflects an improving trend from 2011 due primarily to ramping of newer contracts and also includes 2-percentage points of growth related to revenue from intercompany services, which is eliminated in total Services segment revenue.

Segment Margin

Second quarter 2012 Services segment margin of 10.6% decreased 1.5-percentage points from second quarter 2011, due primarily to the decline in gross margin, which was driven by the ramping of new services contracts. However, segment margin improved sequentially from first quarter 2012 by 1.3-percentage points.

Services segment margin for the six months ended June 30, 2012 of 10.0% decreased 1.2-percentage points from the prior year period, due primarily to the decline in gross margin, which was driven by the ramping of new services contracts and the impact of lower contract renewals from prior periods.

Metrics

Pipeline

Our total Services sales pipeline, including synergy opportunities, grew 10% over the second quarter 2011. This sales pipeline includes the Total Contract Value ("TCV") of new business opportunities that potentially could be contracted within the next six months and excludes business opportunities with estimated annual recurring revenue in excess of \$100 million.

Signings

Signings are defined as estimated future revenues from contracts signed during the period, including renewals of existing contracts.

Signings were as follows:

(in billions)	Three Months Ended June 30, 2012	Six Months Ended June 30, 2012
BPO	\$1.4	\$2.7
DO	0.9	1.4
ITO	0.3	0.7
Total Signings	\$2.6	\$4.8

Signings on a trailing twelve month basis declined 1% in relation to the comparable prior year period. Although the eligible renewal population was smaller in the second quarter 2012 than in prior quarters, new business signings increased by 13% on a trailing twelve month basis.

Note: TCV is the estimated total revenue for future contracts for the pipeline or signed contracts for signings, as applicable.

Renewal Rate (for BPO and ITO)

Renewal rate is defined as the annual recurring revenue ("ARR") on contracts that are renewed during the period as a percentage of ARR on all contracts on which a renewal decision was made during the period. The second quarter 2012 contract renewal rate for BPO and ITO contracts was 89%, which is within our target range of 85% - 90%.

Technology

Our Technology segment includes the sale of products and supplies, as well as the associated technical service and financing of those products. Technology revenues exclude the impact of growth in the Xerox document outsourcing business.

Revenue

Xerox 2012 Form 10-Q

34

Edgar Filing: XEROX CORP - Form 10-Q

(in millions)	Three Months Ended			Six Months Ended		
	June 30, 2012	2011	Change	June 30, 2012	2011	Change
Equipment sales	\$709	\$790	(10)%	\$1,388	\$1,513	(8)%
Annuity revenue	1,661	1,762	(6)%	3,320	3,534	(6)%
Total Revenue	\$2,370	\$2,552	(7)%	\$4,708	\$5,047	(7)%

Second quarter 2012 Technology revenue of \$2,370 million decreased 7% compared to second quarter 2011 and included a 3-percentage point negative impact from currency. Revenue results included the following:

Equipment sales revenue decreased 10%, including a 3-percentage point negative impact from currency. A weak macro-economic environment combined with a lower product mix and price declines in the range of 5% to 10% more than offset install growth in all three product groups. In addition, growth was negatively impacted by the continued migration of customers to our rapidly growing partner print services offering within document outsourcing.

Annuity revenue decreased 6%, including a 3-percentage point negative impact from currency. An increase in supplies revenue was more than offset by a moderating decline in total pages and the continued migration of customers to our partner print services offering.

Technology revenue mix was 22% entry, 58% mid-range and 20% high-end.

Technology revenue for the six months ended June 30, 2012 of \$4,708 million decreased 7% compared to prior year and included a 2%-percentage point negative impact from currency. Revenue results included the following:

Equipment sales revenue decreased 8%, including a 2%-percentage point negative impact from currency. This decline is driven in part by the weak macro-economic environment and the continued migration of customers to our rapidly growing partner print services offering within document outsourcing. In addition, the impact of lower product mix and price declines more than offset growth in installs. Consistent with prior quarters, price declines were in the range of 5% to 10%.

Annuity revenue decreased 6%, including a 2%-percentage point negative impact from currency. A decrease in supplies revenue was primarily driven by a moderating decline in pages, partially offset by a continued increase in revenue per page.

Technology revenue mix was 22% entry, 58% mid-range and 20% high-end.

Segment Margin

Second quarter 2012 Technology segment margin of 11.3% declined by 0.5-percentage points from second quarter 2011, as an improvement in gross margin was more than offset by expenses related to the drupa print trade show and an increase in general and administrative expenses as a percentage of revenue.

Technology segment margin for the six months ended June 30, 2012 of 10.9% declined by 0.3-percentage points from prior year period. Lower operating expenses from restructuring savings were more than offset by a decline in gross profit.

Total Installs (Technology and Document Outsourcing³)

In the second quarter 2012, installs continued to grow in all three strategic product groups (entry, mid-range and high-end). Install activity includes installations for document outsourcing and Xerox-branded products shipped to GIS. Details by product groups is shown below:

Entry

Installs for the second quarter 2012:

9% increase in black-and-white multifunction devices driven by demand for the recently launched WorkCentre[®] 3045.

34% increase in color multifunction devices driven by demand for the recently introduced WorkCentre[®] 6015 and ColorQube 8900.

4% increase in color printers driven by an increase in sales to OEM partners.

Installs for the six months ended June 30, 2012:

• 16% increase in black-and-white multifunction devices driven by demand for the recently launched WorkCentre® 3045.

• 40% increase in color multifunction devices driven by demand for the recently introduced WorkCentre® 6015.

• 4% decrease in color printers driven by an increase in sales to OEM partners.

Mid-Range

Installs for the second quarter 2012 :

• 15% increase in installs of mid-range color devices across all geographies driven by strong demand for products such as the WorkCentre® 7530/7535.

Xerox 2012 Form 10-Q

35

2% decrease in installs of mid-range black-and-white devices.

Installs for the six months ended June 30, 2012:

15% increase in installs of mid-range color devices driven by demand for products such as the WorkCentre® 7535/7125//7530 and the WorkCentre® 7556, which enabled continued market share gains in the fastest growing and most profitable segment of the office color market.

6% decrease in installs of mid-range black-and-white devices.

High-End

Installs for the second quarter 2012:

80% increase in installs of high-end color systems driven by strong demand for the recently launched Xerox Color 770, which has enabled large market share gains in the entry production color market segment.

24% decrease in installs of high-end black-and-white systems, reflecting continued declines in the overall market.

Installs for the six months ended June 30, 2012:

53% increase in installs of high-end color systems driven primarily by strong demand for the recently launched Xerox Color 770 and the DocuColor™ 8080. These products have enabled large market share gains in the Entry Production Color market segment.

16% decrease in installs of high-end black-and-white systems.

Note: Install activity percentages include installations for Document Outsourcing and the Xerox-branded product shipments to GIS. Descriptions of “Entry”, “Mid-range” and “High-end” are defined in Note 3-Segment Reporting, in the Condensed Consolidated Financial Statements.

Other

Revenue

Second quarter 2012 Other segment revenue of \$365 million decreased 6%, including a 2-percentage point negative impact from currency. The decline is due primarily to a decline in paper sales, which was driven by market pricing and lower activity.

Other segment revenue for the six months ended June 30, 2012 of \$709 million decreased 9%, including a 2%-percentage point negative impact from currency. The decline is due primarily to a decline in paper sales, which was driven by market pricing, lower activity and our strategy to discontinue the direct sale of paper in selected markets, as well as a decline in revenues from wide format systems and licensing. Paper comprised approximately 60% of the 2012 and 2011 Other segment revenue.

Segment Margin

Second quarter 2012 Other segment loss of \$68 million, decreased \$5 million from the second quarter 2011, primarily as a result of lower non-financing interest expense.

Other segment loss of \$120 million for the six months ended June 30, 2012, decreased \$19 million from the prior year comparable period, primarily driven by lower non-financing interest expense.

(1) Represents revenues from color devices and is a subset of total revenues and excludes Global Imaging Systems, Inc. (“GIS”) color revenues.

(2) See the “Non-GAAP Financial Measures” section for an explanation of this non-GAAP financial measure.

(3) Equipment sales associated with Document Outsourcing are reported in our Services segment revenue.

Capital Resources and Liquidity

Our ability to maintain positive liquidity going forward depends on our ability to continue to generate cash from operations and access the financial capital markets, both of which are subject to general economic, financial, competitive, legislative, regulatory and other market factors that are beyond our control.

As of June 30, 2012 and December 31, 2011, total cash and cash equivalents were \$814 million and \$902 million, respectively. We had \$649 borrowings under our Commercial Paper Program at June 30, 2012 as compared to \$100 million at December 31, 2011. There were no outstanding borrowings or letters of credit under our \$2 billion Credit Facility for either period.

Our Commercial Paper program was established in 2010 as a means to reduce our cost of capital and to provide an alternative liquidity vehicle in the market. Aggregate Commercial Paper and Credit Facility borrowings may not exceed the borrowing capacity under our Credit Facility at any time.

Xerox 2012 Form 10-Q

36

Our operating cash flow during the first half of 2012 was \$213 million and we continue to expect full-year operating cash flow of \$2 billion to \$2.3 billion. Over the past three years we have consistently delivered strong cash flow from operations driven by the strength of our annuity based revenue model. Cash flows from operations were \$1,961 million, \$2,726 million and \$2,208 million for the three years ended December 31, 2011, respectively.

Cash Flow Analysis

The following table summarizes our cash and cash equivalents:

(in millions)	Six Months Ended June 30,		Change
	2012	2011	
Net cash provided by operating activities	\$213	\$317	\$(104)
Net cash used in investing activities	(312)	(368)	56
Net cash provided by (used in) financing activities	8	(81)	89
Effect of exchange rate changes on cash and cash equivalents	3	19	(16)
Decrease in cash and cash equivalents	(88)	(113)	25
Cash and cash equivalents at beginning of period	902	1,211	(309)
Cash and Cash Equivalents at End of Period	\$814	\$1,098	\$(284)

Cash Flows from Operating Activities

Net cash provided by operating activities was \$213 million for the six months ended June 30, 2012. The \$104 million decrease in cash from the six months ended June 30, 2011 was primarily due to the following:

- \$248 million decrease related to higher accounts receivable primarily due to growth in services revenue and a reduction in the use of prompt pay discounts partially offset by an increase in sales of accounts receivable.

- \$114 million decrease due to the timing of contributions to our defined benefit pension plans.

- \$47 million decrease from higher net income tax payments primarily due to refunds in the prior year.

- \$33 million decrease from derivatives primarily due to the absence of the early termination of certain interest rate swaps.

- \$141 million increase primarily related to the timing of payments of accounts payable and accrued compensation.

- \$109 million increase due to higher net run-off of finance receivables as a result of lower equipment sales.

- \$53 million increase due to lower inventory growth.

- \$37 million increase due to lower restructuring payments.

Cash Flows from Investing Activities

Net cash used in investing activities was \$312 million for the six months ended June 30, 2012, which was a \$56 million decrease in the use of cash from the comparable prior year period. 2012 acquisitions include RK Dixon for \$58 million as well as two smaller acquisitions totaling \$29 million. 2011 acquisitions include Unamic/HCN for \$55 million, Concept Group for \$43 million and six smaller acquisitions for an aggregate of \$37 million.

Cash Flows from Financing Activities

Net cash provided by financing activities was \$8 million for the six months ended June 30, 2012. The \$89 million increase in cash from the six months ended June 30, 2011 was primarily due to the following:

- \$670 million increase reflecting the absence of payment of our liability to Xerox Capital Trust I in connection with their redemption of preferred securities.

- \$357 million decrease resulting from our share repurchase program.

- \$160 million decrease from net debt activity. 2012 reflects net proceeds of \$1.1 billion on Senior Notes issued in March and an increase of \$549 million on Commercial Paper offset by net payments on Senior Notes of \$1.1 billion in June and \$6 million on other debt. 2011 reflects proceeds of \$1 billion from the issuance of Senior Notes and \$3 million on other debt offset by a decrease of \$300 million on Commercial Paper.

- \$49 million decrease due to higher distributions to noncontrolling interests.

- \$21 million decrease due to lower proceeds from the issuances of common stock under our stock option plans.

Customer Financing Activities and Debt

The following represents our Total finance assets, net associated with our lease and finance operations:

Xerox 2012 Form 10-Q

37

(in millions)	June 30, 2012	December 31, 2011
Total Finance receivables, net ⁽¹⁾	\$5,916	\$6,362
Equipment on operating leases, net	519	533
Total Finance Assets, net ⁽²⁾	\$6,435	\$6,895

(1) Includes (i) billed portion of finance receivables, net, (ii) finance receivables, net and (iii) finance receivables due after one year, net as included in our Condensed Consolidated Balance Sheets.

(2) Change from December 31, 2011 includes a decrease of \$91 million due to currency.

Our lease contracts permit customers to pay for equipment over time rather than at the date of installation; therefore, we maintain a certain level of debt (that we refer to as financing debt) to support our investment in these lease contracts, which are reflected in Total Finance assets, net. For this financing aspect of our business, we maintain an assumed 7:1 leverage ratio of debt to equity as compared to our finance assets. Based on this leverage, the following represents the breakdown of total debt between financing debt and core debt:

(in millions)	June 30, 2012	December 31, 2011
Financing debt ⁽¹⁾	\$5,631	\$6,033
Core debt	3,529	2,600
Total Debt	\$9,160	\$8,633

(1) Financing debt includes \$5,177 million and \$5,567 million as of June 30, 2012 and December 31, 2011, respectively, of debt associated with Total finance receivables, net and is the basis for our calculation of "Equipment financing interest" expense. The remainder of the financing debt is associated with Equipment on operating leases.

The following summarizes our debt:

(in millions)	June 30, 2012	December 31, 2011
Principal debt balance ⁽¹⁾	\$9,061	\$8,450
Net unamortized discount	(65) (7
Fair value adjustments ⁽²⁾	164	190
Total Debt	9,160	8,633
Less: Current maturities and short-term debt	(1,099) (1,545
Total Long-term Debt	\$8,061	\$7,088

(1) Includes Commercial Paper of \$649 million and \$100 million as of June 30, 2012 and December 31, 2011, respectively.

(2) Fair value adjustments represent changes in the fair value of hedged debt obligations attributable to movements in benchmark interest rates. Hedge accounting requires hedged debt instruments to be reported at an amount equal to the sum of their carrying value (principal value plus/minus premiums/discounts) and any fair value adjustment.

The increase in debt from December 31, 2011 is primarily driven by an increase in commercial paper due to the timing of cash flows.

Sales of Accounts Receivable

We have facilities in the U.S., Canada and several countries in Europe that enable us to sell to third-parties, on an on-going basis, certain accounts receivables without recourse. The accounts receivables sold are generally short-term trade receivables with payment due dates of less than 60 days. Accounts receivables sales were as follows:

Edgar Filing: XEROX CORP - Form 10-Q

(in millions)	Three Months Ended		Six Months Ended	
	June 30,	2011	June 30,	2011
Accounts receivable sales	\$1,215	\$819	\$2,090	\$1,549
Deferred proceeds	256	103	403	197
Fees associated with sales	6	5	12	9
Estimated increase to operating cash flows ⁽¹⁾	169	29	100	5

⁽¹⁾ Represents the difference between current and prior period receivable sales adjusted for the effects of: (i) the deferred proceeds, (ii) collections

Xerox 2012 Form 10-Q

38

prior to the end of the quarter, and (iii) currency.

Refer to Note 5-Receivables, Net in the Condensed Consolidated Financial Statements for additional information.

Liquidity and Financial Flexibility

We manage our worldwide liquidity using internal cash management practices, which are subject to (1) the statutes, regulations and practices of each of the local jurisdictions in which we operate, (2) the legal requirements of the agreements to which we are a party and (3) the policies and cooperation of the financial institutions we utilize to maintain and provide cash management services.

Our principal debt maturities are in line with historical and projected cash flows and are spread over the next ten years as follows (in millions):

Year	Amount
2012 Q3	663
2012 Q4	11
2013	1,031
2014	1,085
2015	1,255
2016	952
2017	1,001
2018	1,001
2019	650
2020	—
2021 and thereafter	1,412
Total	\$9,061

Treasury Stock

During the second quarter 2012 we repurchased 41.3 million shares for an aggregate cost of \$307 million, including fees. Through July 27, 2012, we repurchased an additional 10.6 million shares at an aggregate cost of \$75.6 million, including fees, for a cumulative total of 341.4 million shares at a cost of \$4.1 billion, including fees.

Financial Risk Management

We are exposed to market risk from changes in foreign currency exchange rates and interest rates, which could affect operating results, financial position and cash flows. We manage our exposure to these market risks through our regular operating and financing activities and, when appropriate, through the use of derivative financial instruments. These derivative financial instruments are utilized to hedge economic exposures, as well as to reduce earnings and cash flow volatility resulting from shifts in market rates. We enter into limited types of derivative contracts, including interest rate swap agreements, foreign currency spot, forward and swap contracts and net purchased foreign currency options to manage interest rate and foreign currency exposures. Our primary foreign currency market exposures include the Yen, Euro and Pound Sterling. The fair market values of all our derivative contracts change with fluctuations in interest rates and/or currency rates and are designed so that any changes in their values are offset by changes in the values of the underlying exposures. Derivative financial instruments are held solely as risk management tools and not for trading or speculative purposes.

We are required to recognize all derivative instruments as either assets or liabilities at fair value in the balance sheet. As permitted, certain of these derivative contracts have been designated for hedge accounting treatment. Certain of our derivatives that do not qualify for hedge accounting are effective as economic hedges. These derivative contracts are likewise required to be recognized each period at fair value and therefore do result in some level of volatility. The level of volatility will vary with the type and amount of derivative hedges outstanding, as well as fluctuations in the currency and interest rate markets during the period. The related cash flow impacts of all of our derivative activities are reflected as cash flows from operating activities.

By their nature, all derivative instruments involve, to varying degrees, elements of market and credit risk. The market risk associated with these instruments resulting from currency exchange and interest rate movements is expected to

offset the market risk of the underlying transactions, assets and liabilities being hedged. We do not believe there is significant risk of loss in the event of non-performance by the counterparties associated with these instruments because these transactions are executed with a diversified group of major financial institutions. Further, our policy is to deal with counterparties having a minimum investment grade or better credit rating. Credit risk is managed through the

Xerox 2012 Form 10-Q

39

continuous monitoring of exposures to such counterparties.

The current market events have not required us to materially modify or change our financial risk management strategies with respect to our exposures to interest rate and foreign currency risk. Refer to Note 10 – Financial Instruments in the Condensed Consolidated Financial Statements for further discussion and information on our financial risk management strategies.

Non-GAAP Financial Measures

We have reported our financial results in accordance with generally accepted accounting principles (“GAAP”). In addition, we have discussed the non-GAAP measures described below. A reconciliation of these non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with GAAP are set forth below.

These non-GAAP financial measures should be viewed in addition to, and not as a substitute for, the Company’s reported results prepared in accordance with GAAP.

Adjusted Earnings Measures

To better understand the trends in our business, we believe it is necessary to adjust the following amounts determined in accordance with GAAP to exclude the effects of the certain items as well as their related income tax effects.

Net income and Earnings per share (“EPS”)

Effective tax rate

In 2012, adjustments are limited to the amortization of intangible assets. The amortization of intangible assets is driven by our acquisition activity which can vary in size, nature and timing as compared to other companies within our industry and from period to period. Accordingly, due to the incomparability of acquisition activity among companies and from period to period, we believe exclusion of the amortization associated with intangible assets acquired through our acquisitions allows investors to better compare and understand our results. The use of intangible assets contributed to our revenues earned during the periods presented and will contribute to our future period revenues as well. Amortization of intangible assets will recur in future periods.

In 2011, in addition to the adjustment related to the amortization of intangible assets, we also adjusted reported earnings for the loss on the early extinguishment of a liability given the discrete and infrequent nature of this item on our results of operations for the period.

We also calculate and utilize an operating income and margin earnings measure by adjusting our pre-tax income and margin amounts to exclude certain expenses. In addition to the above excluded items, operating income and margin also exclude Other expenses, net as well as Restructuring and asset impairment charges. Other expenses, net is primarily composed of non-financial interest expense. Restructuring and asset impairment charges consist of costs primarily related to severance and benefits for employees pursuant to formal restructuring and workforce reduction plans. Such charges are expected to yield future benefits and savings with respect to our operational performance. We exclude these amounts in order to evaluate our current and past operating performance and to better understand the expected future trends in our business.

Management believes that these non-GAAP financial measures provide an additional means of analyzing the current periods’ results against the corresponding prior periods’ results. However, the following non-GAAP financial measures should be viewed in addition to, and not as a substitute for, the Company’s reported results prepared in accordance with GAAP. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods. Compensation of our executives is based in part on the performance of our business based on these non-GAAP measures.

A reconciliation of these non-GAAP financial measures and the most directly comparable measures calculated and presented in accordance with GAAP are set forth on the following tables:

Xerox 2012 Form 10-Q
