NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(Amounts in millions, except per-share data and as indicated)

1. Description of Business and Basis of Presentation

Acuity Brands, Inc. (“Acuity Brands”) is the parent company of Acuity Brands Lighting, Inc. (“ABL”) and other subsidiaries (Acuity Brands, ABL, and such other subsidiaries are collectively referred to herein as the “Company”). The Company’s lighting and energy management solutions include devices such as luminaires, lighting and building controls, lighting components, power supplies, prismatic skylights, and integrated lighting systems for indoor and outdoor applications utilizing a combination of light sources, including daylight, and other devices controlled by software that monitors and manages light levels while optimizing energy consumption. Additionally, the Company continues to expand its solutions portfolio for both indoor and outdoor applications in an effort to capitalize on the evolving and growing market for intelligent networked systems that collect and exchange data to increase efficiency as well as provide a host of other economic benefits resulting from data analytics to better enable smart buildings and smart cities. The transition to solid-state lighting provides the opportunity for lighting to be integrated with other building automation systems to create an optimal platform for enabling the “Internet of Things” (IoT), which will support the advancement of smart buildings, smart cities, and the smart grid. The Company has one reportable segment serving the North American and select international markets.

The Consolidated Financial Statements have been prepared by the Company in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and present the financial position, results of operations, and cash flows of Acuity Brands and its wholly-owned subsidiaries. References made to years are for fiscal year periods.

These unaudited interim consolidated financial statements reflect all normal and recurring adjustments which are, in the opinion of management, necessary to present fairly the Company’s consolidated financial position as of May 31, 2016, the consolidated comprehensive income for the three and nine months ended May 31, 2016 and May 31, 2015, and the consolidated cash flows for the nine months ended May 31, 2016 and May 31, 2015. Certain information and footnote disclosures normally included in the Company’s annual financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. However, the Company believes that the disclosures included herein are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the audited consolidated financial statements of the Company as of and for the three years ended August 31, 2015 and notes thereto included in the Company’s Annual Report on Form 10-K filed with the Securities and Exchange Commission (the “SEC”) on October 27, 2015 (File No. 001-16583) (“Form 10-K”).

The results of operations for the three and nine months ended May 31, 2016 and May 31, 2015 are not necessarily indicative of the results to be expected for the full fiscal year due primarily to seasonality resulting in the net sales and net income of the Company generally being higher in the second half of its fiscal year, the impact of the acquisitions, and among other reasons, the continued uncertainty of general economic conditions that may impact the key end markets of the Company for the remainder of fiscal 2016.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements and related disclosures in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain prior-period amounts have been reclassified to conform to the current year presentation. No material reclassifications occurred during the current period.

3. Acquisitions and Investments

Fiscal 2016 Acquisitions

Juno Lighting LLC

On December 10, 2015, using cash on hand, the Company acquired for approximately \$380 all of the equity interests of Juno Lighting LLC ("Juno Lighting"), a leading provider of downlighting and track lighting fixtures for both residential and commercial applications. Juno Lighting is headquartered in Des Plaines, Illinois. At the time of acquisition, Juno Lighting generated annual revenues of approximately \$250. The operating results of Juno Lighting have been included in the Company's consolidated financial statements since the date of acquisition.

Distech Controls Inc.

On September 1, 2015, using cash on hand, the Company acquired for approximately \$240 all of the outstanding capital stock of Distech Controls Inc. ("Distech Controls"), a provider of building automation solutions that allow for the integration of lighting, HVAC, access control, closed circuit television, and related systems. Distech Controls is headquartered in Quebec, Canada. At the time of acquisition, Distech Controls generated annual revenues of approximately \$80 Canadian Dollars. The operating results of Distech Controls have been included in the Company's consolidated financial statements since the date of acquisition.

Geometri LLC

On December 9, 2015, using cash on hand, the Company acquired certain assets and assumed certain liabilities of Geometri, LLC ("Geometri"), a provider of a software and services platform for mapping, navigation, and analytics. The operating results of Geometri have been included in the Company's consolidated financial statements since the date of acquisition.

Accounting for Fiscal 2016 Acquisitions

Acquisition-related costs were expensed as incurred. Preliminary amounts related to the acquisition accounting for these acquisitions are reflected in the Consolidated Balance Sheets as of May 31, 2016. The aggregate preliminary purchase price of these acquisitions was allocated as follows:

Purchase Price

Cash paid, net of cash acquired \$613.7

Allocation

Goodwill \$324.0

Intangible assets:

Customer-based¹ 117.0

Marketing-related² 42.4

Technology-based³ 81.8

Property and equipment 63.4

Other assets acquired 124.3

Liabilities assumed (139.2)

\$613.7

(1) Customer-based intangibles have useful lives between 12 and 15 years, with a weighted average amortization period of 14 years.

(2) Marketing-related intangibles are considered indefinite-lived.

(3) Technology-based intangibles have useful lives between five and fifteen years, with a weighted average amortization period of 11.8 years.

These amounts are deemed to be provisional until disclosed otherwise, as the Company continues to gather information related to the identification and valuation of intangible and other acquired assets and liabilities. These

amounts are expected to change as the Company finalizes the allocation. During the third quarter of fiscal 2016, the Company continued to gather information regarding the valuation of marketing-related and technology-based intangibles, resulting in changes to the allocation noted above.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Proforma results of operations have not been presented because the effects of these acquisitions, individually and in the aggregate, were not material to the Company's consolidated results of operations.

Fiscal 2015 Acquisition and Investment

On April 15, 2015, using cash on hand, the Company acquired substantially all of the assets and assumed certain liabilities of ByteLight, Inc. ("ByteLight"), a provider of indoor location software for light-emitting diode ("LED") lighting. The operating results of ByteLight have been included in the Company's consolidated financial statements since the date of acquisition. Management finalized the acquisition accounting for ByteLight during the fourth quarter of fiscal 2015 and the amounts are reflected in the Consolidated Balance Sheets.

In addition, during fiscal 2015, the Company made a strategic, non-controlling investment in a company specializing in light sensory networks. This investment was accounted for using the cost method and is reflected in Other long term assets on the Consolidated Balance Sheets.

4. New Accounting Pronouncements

Accounting Standards Adopted in Fiscal 2016

In November 2015, the Financial Accounting Standards Board ("FASB") issued ASU No. 2015-17, Balance Sheet Classification of Deferred Taxes ("ASU 2015-17"), requiring that all tax liabilities and assets be classified as noncurrent in a classified statement of financial position. ASU 2015-17 is effective for annual reporting periods beginning after December 15, 2016. The Company early adopted ASU 2015-17, which resulted in the reclassification of \$23.1 from current deferred income taxes to noncurrent deferred income taxes on the Consolidated Balance Sheets as of August 31, 2015.

Accounting Standards Yet to Be Adopted

In March 2016, the FASB issued ASU No. 2016-09, Improvements to Employee Share-Based Payment Accounting, ("ASU 2016-09"), which will change certain aspects of accounting for share-based payments to employees. ASU 2016-09 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2016. The standard requires that all excess tax benefits and deficiencies currently recorded as additional paid in capital be prospectively recorded in income tax expense. As such, implementation of this standard could create volatility in the Company's effective income tax rate on a quarter by quarter basis. The volatility in the effective income tax rate is due primarily to fluctuations in the Company's stock price and the timing of stock option exercises and vesting of restricted share grants. The standard also requires excess tax benefits to be presented as an operating activity on the statement of cash flows rather than as a financing activity. This element of the guidance may be applied retrospectively or prospectively. The Company intends to implement the standard as required in fiscal 2018.

In February 2016, the FASB issued ASU No. 2016-02, Leases, ("ASU 2016-02"), which requires lessees to include most leases on the balance sheet. ASU 2016-02 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2018. The Company is currently evaluating the impact of the provisions of ASU 2016-02.

In July 2015, the FASB issued ASU No. 2015-16, Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments ("ASU 2015-16"), which simplifies the accounting for measurement-period adjustments to provisional amounts recognized in a business combination. ASU 2015-16 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2016. The provisions of ASU 2015-16 are not expected to have a material effect on the Company's financial condition, results of operations, or cash flows.

In April 2015, the FASB issued ASU No. 2015-05, Customer's Accounting For Fees Paid In A Cloud Computing Arrangement ("ASU 2015-05"), which provides guidance for a customer's accounting for cloud computing costs. ASU 2015-05 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2015. The provisions of ASU 2015-05 are not expected to have a material effect on the Company's financial condition, results of operations, or cash flows.

Edgar Filing: ACUITY BRANDS INC - Form 10-Q

In May 2014, the FASB issued ASU No. 2014-09, Revenue From Contracts With Customers (“ASU 2014-09”), which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. ASU 2014-09 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2017. ASU 2014-09 permits the use of either the retrospective or cumulative effect transition method. The Company is currently evaluating the impact of the provisions of ASU 2014-09.

All other newly issued accounting pronouncements not yet effective have been deemed either immaterial or not applicable.

5. Fair Value Measurements

The Company determines fair value measurements based on the assumptions a market participant would use in pricing the asset or liability. Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurements and Disclosures ("ASC 820"), establishes a three level hierarchy making a distinction between market participant assumptions based on (i) unadjusted quoted prices for identical assets or liabilities in an active market (Level 1), (ii) quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability (Level 2), and (iii) prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement (Level 3).

The following table presents information about assets and liabilities required to be carried at fair value and measured on a recurring basis as of May 31, 2016 and August 31, 2015:

Fair Value Measurements as of:

	May 31, 2016		August 31, 2015	
	Level 1	Total Fair Value	Level 1	Total Fair Value
Assets:				
Cash and cash equivalents		\$337.0	\$756.8	\$756.8
Other	0.4	0.4	0.5	0.5
Liabilities:				
Other		\$0.4	\$0.5	\$0.5

The Company utilizes valuation methodologies to determine the fair values of its financial assets and liabilities in conformity with the concepts of "exit price" and the fair value hierarchy as prescribed in ASC 820. All valuation methods and assumptions are validated at least quarterly to ensure the accuracy and relevance of the fair values. There were no material changes to the valuation methods or assumptions used to determine fair values during the current period.

The Company used quoted market prices to determine the fair value of Level 1 assets and liabilities. No transfers between the levels of the fair value hierarchy occurred during the current fiscal period. In the event of a transfer in or out of a level within the fair value hierarchy, the transfers would be recognized on the date of occurrence.

Disclosures of fair value information about financial instruments (whether or not recognized in the balance sheet), for which it is practicable to estimate that value, are required each reporting period in addition to any financial instruments carried at fair value on a recurring basis as prescribed by ASC Topic 825, Financial Instruments ("ASC 825"). In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows.

The carrying values and estimated fair values of certain of the Company's financial instruments were as follows at May 31, 2016 and August 31, 2015:

	May 31, 2016		August 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets:				
Investment in noncontrolling affiliate	\$8.0	\$8.0	\$8.0	\$8.0
Liabilities:				

Edgar Filing: ACUITY BRANDS INC - Form 10-Q

Senior unsecured public notes, net of unamortized discount and deferred costs	\$348.5	\$384.6	\$348.4	\$386.4
Other debt	5.7	5.7	4.0	4.0

Investment in noncontrolling affiliate represents a strategic investment accounted for using the cost method. The Company estimates that the historical cost of the acquired shares represents the fair value of the investment (Level 3). The senior unsecured public notes are carried at the outstanding balance, net of bond discounts and deferred costs, as of the end of the reporting period. Fair value is estimated based on discounted future cash flows using rates currently available for debt of similar terms and maturity (Level 2).

7

Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Other long-term debt includes instruments for which fair value is estimated based on discounted future cash flows using rates currently available for debt of similar terms and maturity (Level 2). One of the instruments is a variable-rate instrument that resets on a weekly basis; therefore, the Company estimates that the face amount of the instrument approximates fair value.

ASC 825 excludes certain financial instruments and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value to the Company. In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments. In evaluating the Company's management of liquidity and other risks, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

6. Goodwill and Intangible Assets

Through multiple acquisitions, the Company acquired intangible assets consisting primarily of trademarks and trade names associated with specific products with finite lives, definite-lived distribution networks, patented technology, non-compete agreements, and customer relationships, which are amortized over their estimated useful lives.

Indefinite-lived intangible assets consist of trade names that are expected to generate cash flows indefinitely.

The Company recorded amortization expense of \$7.5 and \$2.7 during the three months ended May 31, 2016 and May 31, 2015, respectively, and \$18.5 and \$8.3 during the nine months ended May 31, 2016 and May 31, 2015, respectively. Amortization expense is generally recorded on a straight-line basis and is expected to be approximately \$25.1 in fiscal 2016, \$27.1 in fiscal 2017, \$27.1 in fiscal 2018, \$27.1 in fiscal 2019, and \$25.8 in fiscal 2020.

Amortization expense recorded by the Company, as well as expected amortization expense, include a preliminary estimate related to intangibles acquired with Distech Controls, Geometri, and Juno Lighting. These amounts are deemed to be provisional until disclosed otherwise, as the Company continues to gather information related to the identification and valuation of intangible assets acquired. Refer to the Acquisitions & Investments footnote for additional information regarding the preliminary purchase price allocation.

The change in the carrying amount of goodwill during the nine months ended May 31, 2016 is summarized as follows:

Balance at August 31, 2015	\$565.0
Additions from acquired businesses	324.0
Foreign currency translation adjustments	0.8
Balance at May 31, 2016	\$889.8

Further discussion of the Company's goodwill and other intangible assets is included within the Significant Accounting Policies footnote of the Notes to Consolidated Financial Statements within the Company's Form 10-K.

7. Inventories

Inventories include materials, labor, in-bound freight, and related manufacturing overhead, are stated at the lower of cost (on a first-in, first-out or average cost basis) or market, and consist of the following:

	May 31, August 31,	
	2016	2015
Raw materials, supplies, and work in process ⁽¹⁾	\$159.3	\$125.7
Finished goods	149.9	113.9
	309.2	239.6
Less: Reserves	(20.3)	(14.8)
Total Inventory	\$288.9	\$224.8

⁽¹⁾ Due to the immaterial amount of estimated work in process and the short lead times for the conversion of raw materials to finished goods, the Company does not believe the segregation of raw materials and work in process to

be meaningful information.

8. Earnings Per Share

Basic earnings per share is computed by dividing net earnings available to common stockholders by the weighted average number of common shares outstanding, which has been modified to include the effects of all participating securities (unvested share-based payment awards with a right to receive nonforfeitable dividends) as prescribed by the two-class method under ASC Topic 260, Earnings Per Share ("ASC 260"), during the period. The equity plan approved by stockholders in January 2013 changed the dividend provisions causing share-based payment awards to lose the right to receive nonforfeitable dividends. Due to this change, any shares granted after January 2013 are not participating securities as prescribed by the two-class method under ASC 260 and are accounted for in the diluted earnings per share calculation described below.

Diluted earnings per share is computed similarly but reflects the potential dilution that would occur if dilutive options were exercised, restricted stock awards (unvested share-based payment awards without a right to receive nonforfeitable dividends) were vested, and other distributions related to deferred stock agreements were incurred. Further discussion of the Company's stock options and restricted stock awards is included within the Common Stock and Related Matters and Share-Based Payments footnotes of the Notes to Consolidated Financial Statements within the Company's Form 10-K.

The following table calculates basic earnings per common share and diluted earnings per common share for the three and nine months ended May 31, 2016 and May 31, 2015:

	Three Months Ended May 31, 2016		Nine Months Ended May 31, 2015

10. Debt

Lines of Credit

On August 27, 2014, the Company executed a \$250.0 revolving credit facility (the “Revolving Credit Facility”). The Revolving Credit Facility will mature and all amounts outstanding will be due and payable on August 27, 2019. The Revolving Credit Facility contains financial covenants, including a minimum interest coverage ratio (“Minimum Interest Coverage Ratio”) and a leverage ratio (“Maximum Leverage Ratio”) of total indebtedness to EBITDA (earnings before interest, taxes, depreciation, and amortization expense), as such terms are defined in the Revolving Credit Facility agreement. These ratios are computed at the end of each fiscal quarter for the most recent 12-month period. The Revolving Credit Facility allows for a Maximum Leverage Ratio of 3.50 and a Minimum Interest Coverage Ratio of 2.50, subject to certain conditions defined in the financing agreement. As of May 31, 2016, the Company was in compliance with all financial covenants under the Revolving Credit Facility. At May 31, 2016, the Company had additional borrowing capacity under the Revolving Credit Facility of \$243.9 under the most restrictive covenant in effect at the time, which represents the full amount of the Revolving Credit Facility less outstanding letters of credit of \$6.1 issued under the Revolving Credit Facility. As of May 31, 2016, the Company had outstanding letters of credit totaling \$11.0, primarily for securing collateral requirements under the casualty insurance programs for Acuity Brands and providing credit support for the Company’s industrial revenue bond, including \$6.1 issued under the Revolving Credit Facility.

Generally, amounts outstanding under the Revolving Credit Facility bear interest at a “Eurocurrency Rate.” Eurocurrency Rate advances can be denominated in a variety of currencies, including U.S. Dollars, and amounts outstanding bear interest at a periodic fixed rate equal to the London Inter Bank Offered Rate (“LIBOR”) for the applicable currency plus a margin as determined by the Company’s leverage ratio (“Applicable Margin”). The Applicable Margin is based on the Company’s leverage ratio, as defined in the Revolving Credit Facility, with such margin ranging from 1.000% to 1.575%.

The Company is required to pay certain fees in connection with the Revolving Credit Facility, including administrative service fees and an annual facility fee. The annual facility fee is payable quarterly, in arrears, and is determined by the Company’s leverage ratio as defined in the Revolving Credit Facility. This facility fee ranges from 0.125% to 0.300% of the aggregate \$250.0 commitment of the lenders under the Revolving Credit Facility.

Long-term Debt

At May 31, 2016, the Company had \$350.0 of publicly-traded, senior unsecured notes outstanding at a 6% interest rate that are scheduled to mature in December 2019 (the “Notes”) and \$4.0 of tax-exempt industrial revenue bonds that are scheduled to mature in 2021. The Company also had \$1.7 outstanding under fixed-rate bank loans. Further discussion of the Company’s long-term debt is included within the Debt and Lines of Credit footnote of the Notes to Consolidated Financial Statements within the Company’s Form 10-K.

Interest Expense

Interest expense, net, is comprised primarily of interest expense on long-term debt, obligations in connection with non-qualified retirement benefits, and Revolving Credit Facility borrowings partially offset by interest income on cash and cash equivalents.

The following table summarizes the components of interest expense, net:

	Three Months Ended		Nine Months Ended	
	May 31, 2016	May 31, 2015	May 31, 2016	May 31, 2015

11. Commitments and Contingencies

In the normal course of business, the Company is subject to the effects of certain contractual stipulations, events, transactions, and laws and regulations that may, at times, require the recognition of liabilities, such as those related to self-insurance reserves and claims, legal and contractual issues, environmental laws and regulations, guarantees, and indemnities. The Company establishes reserves when the associated costs related to uncertainties or guarantees become probable and can be reasonably estimated. For the period ended May 31, 2016, no material changes have occurred in the Company's reserves for self-insurance, litigation, environmental matters, guarantees and indemnities, or relevant events and circumstances, from those disclosed in the Commitments and Contingencies footnote of the Notes to Consolidated Financial Statements within the Company's Form 10-K.

Trade Compliance Matters

Prior to the close of the acquisition, Distech Controls discovered shipments by it and its subsidiaries during the past five years of standard commercial building control products directly or indirectly to customers in a country that may constitute violations of U.S. and Canadian sanctions or export regulations, including those administered by the U.S. Office of Foreign Asset Control ("OFAC") and the Export Controls Division of the Canadian Department of Foreign Affairs, Trade and Development ("DFATD"). Distech Controls estimates that it received total revenue of approximately \$0.3 from these shipments. Distech Controls has voluntarily self-reported the potential violations to OFAC and DFATD and retained outside counsel that conducted an investigation of the matter and filed a full voluntary disclosure with these agencies. Now that the Company has acquired Distech Controls, the Company has greater access to information regarding Distech Controls' prior operations and will continue to assess the matter and implement related ongoing compliance and remediation efforts.

The Company intends to fully cooperate with respect to any investigations by governmental agencies of the potential violations. The former shareholders of Distech Controls have jointly agreed to indemnify the Company for damages, if any, as a result of, in respect of, connected with or arising out of the potential violations or any inaccuracy or breach of the representations made by Distech Controls to the Company related thereto, up to a specified aggregate amount, which is not material to the Company's consolidated financial statements. These indemnity obligations are supported by an escrow account containing proceeds from the transaction equal to the specified aggregate amount. The Company currently believes that this indemnity will be sufficient to cover any damages related to the potential violations and the costs and expenses related to the investigation thereof and any related remedial actions. The Company therefore does not expect this matter to have a material adverse effect on the business, financial condition, cash flow, or results of operations of the Company. There can be no assurance, however, that actual damages, costs and expenses will not be in excess of the indemnity or that the Company and its affiliates will not be subject to other damages, including but not limited to damage to the Company's reputation or monetary or non-monetary penalties as permitted under applicable trade laws, that may not be fully covered by the indemnity. Estimated liabilities for legal fees as well as potential fines or penalties related to this matter are included in Other accrued liabilities within the Consolidated Balance Sheets.

The Company discovered through a review of shipment activity that it may have misclassified certain shipments of component parts to its manufacturing facilities under applicable import/export regulations. Although no claim has been asserted against the Company, the Company is reviewing these shipments to determine the extent of any liabilities and the extent of available remedial measures. The Company is unable at this time to determine the likelihood or amount of any loss associated with the misclassification of these shipments.

Product Warranty and Recall Costs

Acuity Brands records an allowance for the estimated amount of future warranty costs when the related revenue is recognized. Estimated costs related to product recalls based on a formal campaign soliciting repair or return of that product are accrued when they are deemed to be probable and can be reasonably estimated. Estimated future warranty and recall costs are primarily based on historical experience of identified warranty and recall claims. However, there can be no assurance that future warranty or recall costs will not exceed historical amounts or new technology

products, which may include extended warranties, may not generate unexpected costs. If actual future warranty or recall costs exceed historical amounts, additional allowances may be required, which could have a material adverse impact on the Company's results of operations and cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Reserves for product warranty and recall costs are included in Other accrued liabilities and Other long-term liabilities on the Consolidated Balance Sheets. The changes in the reserves for product warranty and recall costs during the nine months ended May 31, 2016 and May 31, 2015 are summarized as follows:

	Nine Months Ended	
	May 31, 2016	May 31, 2015

End of period	\$14.2	\$ 11.1

Litigation

The Company is subject to various legal claims arising in the normal course of business, including patent infringement, employment matters, and product liability claims. Based on information currently available, it is the opinion of management that the ultimate resolution of pending and threatened legal proceedings will not have a material adverse effect on the financial condition, results of operations, or cash flows of the Company. However, in the event of unexpected future developments, it is possible that the ultimate resolution of any such matters, if unfavorable, could have a material adverse effect on the financial condition, results of operations, or cash flows of the Company in future periods. The Company establishes reserves for legal claims when associated costs become probable and can be reasonably estimated. The actual costs of resolving legal claims may be substantially higher than the amounts reserved for such claims. However, the Company cannot make a meaningful estimate of actual costs to be incurred that could possibly be higher or lower than the amounts reserved.

12. Share-Based Payments

The Company accounts for share-based payments through the measurement and recognition of compensation expense for share-based payment awards made to employees and directors of the Company, including stock options and restricted shares (all part of the Company's equity incentive plan), and share units representing certain deferrals into the Company's director deferred compensation plan or the Company's supplemental deferred savings plan. Further details regarding each of these award programs and the Company's share-based payments are included within the Share-Based Payments footnote of the Notes to Consolidated Financial Statements within the Company's Form 10-K. The following table presents share-based payment information for the three and nine months ended May 31, 2016 and May 31, 2015:

	Three Months Ended		Nine Months Ended	
	May 31, 2016	May 31, 2015	May 31, 2016	May 31, 2015

Shares issued upon exercise of stock options	68,159	—	185,448	87,766

13. Pension and Profit Sharing Plans

The Company has several pension plans, both qualified and non-qualified, covering certain hourly and salaried employees. Benefits paid under these plans are based generally on employees' years of service and/or compensation

during the final years of employment. Plan assets are invested primarily in equity and fixed income securities.

14. Special Charge

Fiscal 2016 Actions

During fiscal 2016, the Company recorded a pre-tax special charge of \$10.2, consisting primarily of severance and employee-related costs, for actions initiated to streamline the organization, including the integration of recent acquisitions. These streamlining activities include the consolidation of selected production activities and realignment of certain responsibilities, primarily within various selling, distribution, and administrative departments. The Company expects that these actions to streamline its business activities, in addition to those taken in previous fiscal years, will allow it to reduce spending in certain areas while permitting continued investment in future growth initiatives, such as new products, expanded market presence, and technology and innovation.

Fiscal 2015 Actions

During fiscal 2015, the Company streamlined the organization by realigning certain responsibilities primarily within various selling, distribution, and administrative departments and the consolidation of certain production activities. During fiscal 2015, the Company recorded a pre-tax special charge of \$12.9, consisting primarily of severance and employee-related costs of \$11.9 as well as production transfer costs of \$0.5 and lease termination costs of \$0.5. As of May 31, 2016, remaining severance reserves were \$8.9 and are included in Accrued Compensation on the Consolidated Balance Sheets. The changes in the reserves related to these programs during the nine months ended May 31, 2016 are summarized as follows:

	Fiscal 2015 Actions	Fiscal 2016 Actions	Total

15. Supplemental Guarantor Condensed Consolidating Financial Statements

In December 2009, ABL, the 100% owned and principal operating subsidiary of the Company, refinanced the then current outstanding debt through the issuance of the Notes. See Debt and Lines of Credit footnote of the Notes to Consolidated Financial Statements within the Company's Form 10-K for further information.

In accordance with the registration rights agreement by and between ABL and the guarantors to the Notes and the initial purchasers of the Notes, ABL and the guarantors to the Notes filed a registration statement with the SEC for an offer to exchange the Notes for an issue of SEC-registered notes with identical terms. Due to the filing of the registration statement and offer to exchange, the Company determined the need for compliance with Rule 3-10 of SEC Regulation S-X ("Rule 3-10"). In lieu of providing separate audited financial statements for ABL and ABL IP Holding, the Company has included the accompanying Condensed Consolidating Financial Statements in accordance with Rule 3-10(d) of SEC Regulation S-X since the Notes are fully and unconditionally guaranteed by Acuity Brands and ABL IP Holding. The column marked "Parent" represents the financial condition, results of operations, and cash flows of Acuity Brands. The column marked "Subsidiary Issuer" represents the financial condition, results of operations, and cash flows of ABL. The column entitled "Subsidiary Guarantor" represents the financial condition, results of operations, and cash flows of ABL IP Holding. Lastly, the column listed as "Non-Guarantors" includes the financial condition, results of operations, and cash flows of the non-guarantor direct and indirect subsidiaries of Acuity Brands, which consist primarily of foreign subsidiaries. Eliminations were necessary in order to arrive at consolidated amounts. In addition, the equity method of accounting was used to calculate investments in subsidiaries. Accordingly, this basis of presentation is not intended to present our financial condition, results of operations, or cash flows for any purpose other than to comply with the specific requirements for parent-sub subsidiary guarantor reporting.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(\$ in millions, except per-share data and as indicated)

The following discussion should be read in conjunction with the Consolidated Financial Statements and related notes included within this report. References made to years are for fiscal year periods.

The purpose of this discussion and analysis is to enhance the understanding and evaluation of the results of operations, financial position, cash flows, indebtedness, and other key financial information of Acuity Brands, Inc. and its subsidiaries as of May 31, 2016 and for the three and nine months ended May 31, 2016 and May 31, 2015. For a more complete understanding of this discussion, please read the Notes to Consolidated Financial Statements included in this report. Also, please refer to the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2015, filed with the Securities and Exchange Commission (the "SEC") on October 27, 2015 ("Form 10-K").

Overview

Company

Acuity Brands, Inc. ("Acuity Brands") is the parent company of Acuity Brands Lighting, Inc. ("ABL") and other subsidiaries (Acuity Brands, ABL, and such other subsidiaries are collectively referred to herein as the "Company"). The Company, with its principal office in Atlanta, Georgia, employed approximately 10,000 people worldwide as of May 31, 2016.

The Company is one of the world's leading providers of lighting and energy management solutions for commercial, institutional, industrial, infrastructure, and residential applications throughout North America and select international markets. The Company's lighting and energy management solutions include devices such as luminaires, lighting and building controls, lighting components, power supplies, prismatic skylights, and integrated lighting systems for indoor and outdoor applications utilizing a combination of light sources, including daylight, and other devices controlled by software that monitors and manages light levels while optimizing energy consumption. Additionally, the Company continues to expand its solutions portfolio for both indoor and outdoor applications in an effort to capitalize on the evolving and growing market for intelligent networked systems that collect and exchange data to increase efficiency as well as provide a host of other economic benefits resulting from data analytics to better enable smart buildings and smart cities. The transition to solid-state lighting provides the opportunity for lighting to be integrated with other building automation systems to create an optimal platform for enabling the "Internet of Things" (IoT), which will support the advancement of smart buildings, smart cities, and the smart grid. As of May 31, 2016, the Company operates 20 manufacturing facilities and eight distribution facilities along with two warehouses to serve its extensive customer base.

The Company continues to expand and enhance its portfolio of lighting solutions, including the following transactions:

On December 10, 2015, using cash on hand, the Company acquired all of the equity interests of Juno Lighting LLC ("Juno Lighting"), a leading provider of downlighting and track lighting fixtures for both residential and commercial applications. Juno Lighting is headquartered in Des Plaines, Illinois.

On December 9, 2015, using cash on hand, the Company acquired certain assets and assumed certain liabilities of Geometri, LLC ("Geometri"), a provider of a software and services platform for mapping, navigation, and analytics.

On September 1, 2015, using cash on hand, the Company acquired all of the outstanding capital stock of Distech Controls Inc. ("Distech Controls"), a provider of building automation solutions that allow for the integration of lighting, HVAC, access control, closed circuit television, and related systems. Distech Controls is headquartered in Quebec, Canada.

On April 15, 2015, the Company acquired for cash substantially all of the assets and assumed certain liabilities of ByteLight, Inc. ("ByteLight"), a provider of indoor location software for LED lighting. ByteLight is headquartered in Boston, Massachusetts.

In addition, during fiscal 2015, the Company made a strategic, non-controlling investment in a company specializing in light sensory networks.

Please refer to the Description of Business and Basis of Presentation footnote of the Notes to Consolidated Financial Statements for more information.

Liquidity and Capital Resources

The Company's principal sources of liquidity are operating cash flows generated primarily from its business operations, cash on hand, and various sources of borrowings. The ability of the Company to generate sufficient cash flow from operations or to access certain capital markets, including banks, is necessary to fund its operations and capital expenditures, pay dividends, meet its obligations as they become due, and maintain compliance with covenants contained in its financing agreements.

Based on its cash on hand, availability under existing financing arrangements and current projections of cash flow from operations, the Company believes that it will be able to meet its liquidity needs over the next 12 months.

Short-term needs are

Table of Contents

expected to include funding operations as currently planned, making anticipated capital investments, paying quarterly stockholder dividends as currently anticipated, paying principal and interest on borrowings as currently scheduled, making required contributions to its employee benefit plans, funding potential acquisitions, and potentially repurchasing shares of its outstanding common stock as authorized by the Board of Directors (the "Board"). Two million shares of the Company's common stock are currently authorized and available for repurchase under an existing repurchase program. The Company expects to repurchase these shares on an opportunistic basis. The Company currently expects to invest approximately two and a half percent of net sales during fiscal 2016, of which \$61.8 had been invested as of May 31, 2016, primarily for equipment, tooling, facility enhancements, as well as new and enhanced information technology capabilities. Additionally, management believes that the Company's cash flows from operations and sources of funding, including, but not limited to, borrowing capacity, will sufficiently support the long-term liquidity needs of the Company.

Cash Flow

The Company uses available cash and cash flow from operations, as well as proceeds from the exercise of stock options, to fund operations and capital expenditures, repurchase common stock of the Company, fund acquisitions, and pay dividends. The Company's cash position at May 31, 2016 was \$337.0, a decrease of \$419.8 from August 31, 2015. The decrease was due primarily to cash used to fund acquisitions of \$613.7 and capital expenditures of \$61.8 as well as to pay dividends to stockholders of \$17.1. The decrease was partially offset by cash flow generated from operations and stock issued under employee compensation plans.

The Company generated \$243.9 of cash flow from operating activities during the nine months ended May 31, 2016 compared with \$158.2 in the prior-year period, an increase of \$85.7, due primarily to higher net income and lower operating working capital requirements partially offset by increased variable incentive compensation payments. Cash used for operating working capital (calculated by adding accounts receivable plus inventories, and subtracting accounts payable-net of acquisitions and the impact of foreign exchange rate changes) decreased to \$11.2 during the first nine months of fiscal 2016 compared to \$55.2 during the first nine months of fiscal 2015.

Management believes that investing in assets and programs that will over time increase the overall return on its invested capital is a key factor in driving stockholder value. The Company invested \$61.8 and \$42.3 in the first nine months of fiscal 2016 and 2015, respectively, primarily related to investments in new equipment, tooling, facility enhancements, and information technology. As noted above, the Company expects to invest approximately two and a half percent of net sales primarily for equipment, tooling, facility enhancements, and new and enhanced information technology capabilities during fiscal 2016.

During the nine months ended May 31, 2016, the Company used approximately \$613.7 of cash for the acquisitions of Distech Controls, Juno Lighting, and Geometri.

Capitalization

The current capital structure of the Company is comprised principally of senior unsecured notes and equity of its stockholders. As of May 31, 2016, total debt outstanding was \$354.4, compared with \$352.4 at August 31, 2015, and consisted primarily of fixed-rate obligations. During fiscal 2016, the Company borrowed \$1.7 under recently-executed fixed-rate long-term bank loans.

On August 27, 2014, the Company executed the Revolving Credit Facility with a borrowing capacity of \$250.0. The Revolving Credit Facility will mature and all amounts outstanding thereunder will be due and payable on August 27, 2019. The Company was in compliance with all financial covenants under the Revolving Credit Facility as of May 31, 2016. At May 31, 2016, the Company had additional borrowing capacity under the Revolving Credit Facility of \$243.9 under the most restrictive covenant in effect at the time, which represents the full amount of the Revolving Credit Facility less outstanding letters of credit of \$6.1 issued under the Revolving Credit Facility. As of May 31, 2016, the Company had outstanding letters of credit totaling \$11.0, primarily for securing collateral requirements under the casualty insurance programs for Acuity Brands and providing credit support for the Company's industrial revenue bond, including \$6.1 issued under the Revolving Credit Facility. See the Debt footnote of the Notes to Consolidated Financial Statements.

During the first nine months of fiscal 2016, the Company's consolidated stockholders' equity increased \$227.9 to \$1,587.9 at May 31, 2016 from \$1,360.0 at August 31, 2015. The increase was due primarily to net income earned in

the period, as well as amortization of stock-based compensation, stock issuances resulting primarily from the exercise of stock options, and amortization of pension plan prior service costs and actuarial losses partially offset by dividend payments and foreign currency translation adjustments. The Company's debt to total capitalization ratio (calculated by dividing total debt by the sum of total debt and total stockholders' equity) was 18.2% and 20.6% at May 31, 2016 and August 31, 2015, respectively. The ratio of debt, net of cash, to total capitalization, net of cash, was 1.1% at May 31, 2016 and (42.3)% at August 31, 2015.

Dividends

Acuity Brands paid dividends on its common stock of \$17.1 and \$17.0 (\$0.39 per share) during the nine months ended May 31, 2016 and May 31, 2015, respectively. All decisions regarding the declaration and payment of dividends by Acuity Brands are at the discretion of the Board and are evaluated regularly in light of the Company's financial condition, earnings, growth prospects, funding requirements, applicable law, and any other factors the Board deems relevant.

Net sales were \$851.5 for the three months ended May 31, 2016 compared with \$683.7 reported for the three months ended May 31, 2015, an increase of \$167.8, or 24.5%. For the three months ended May 31, 2016, the Company reported net income of \$74.0, an increase of \$9.5, or 14.7%, compared with \$64.5 for the three months ended May 31, 2015. For the third quarter of fiscal 2016, diluted earnings per share increased 14.2% to \$1.69 compared with \$1.48 reported in the year-ago period.

The following table reconciles certain U.S. GAAP financial measures to the corresponding non-U.S. GAAP measures referred to in the discussion of the Company's results of operations, which exclude the impact of acquisition-related items, amortization of acquired intangible assets, share-based compensation expense, and special charges associated primarily with continued efforts to streamline the organization. Although special charges, amortization of acquired intangible assets, and share-based compensation expense have been recognized in prior periods and could recur in future periods, management typically excludes these charges during internal reviews of performance and uses these non-U.S. GAAP measures for baseline comparative operational analysis, decision making, and other activities. These non-U.S. GAAP financial measures, including adjusted gross profit and margin, adjusted selling, distribution, and administrative expenses, adjusted operating profit and margin, adjusted other expense (income), adjusted net income, and adjusted diluted earnings per share, are provided to enhance the user's overall understanding of the Company's

current financial performance. Specifically, the Company believes these non-U.S. GAAP measures provide greater comparability and enhanced visibility into the results of operations. The non-U.S. GAAP financial measures should be considered in addition to, and not as a substitute for or superior to, results prepared in accordance with U.S. GAAP.

Net Sales

Net sales for the three months ended May 31, 2016 increased 25% compared with the prior-year period due primarily to a 16% increase in sales volume and approximately 12% favorable impact of acquired revenues from acquisitions, partially offset by the unfavorable impact of changes in product prices and the mix of products sold ("price/mix") of approximately 2% and approximately 1% unfavorable foreign currency rate changes. Sales volume was higher across most product categories and key sales channels as the Company realized greater demand for LED-based luminaires. Sales of LED-based products represented approximately 60% of total net sales. The change in price/mix was due primarily to unfavorable pricing on LED luminaires, reflecting the decline in certain LED component costs, and to a lesser degree, changes in the mix of products sold. Due to the changing dynamics of the Company's product portfolio, including the increase of integrated lighting solutions as well as the proliferation of new products due to the adoption of solid-state lighting, it is not possible to precisely quantify volume or differentiate the individual components of price/mix.

Gross Profit

Gross profit for the third quarter of fiscal 2016 increased \$82.3, or 27.8%, to \$377.9 compared with \$295.6 in the prior-year period. Gross profit margin increased 120 basis points to 44.4% for the three months ended May 31, 2016 compared with 43.2% in the prior-year period. Gross profit was higher than the prior-year period due primarily to additional contribution on higher net sales, productivity improvements, as well as lower material and component costs. These benefits were partially offset by higher warranty and recall costs, the unfavorable impact of acquired profit in inventory, and unfavorable price/mix. Adjusted gross profit for the three months ended May 31, 2016 was \$378.8 (44.5% of net sales) compared with gross profit of \$295.6 (43.2% of net sales) in the prior-year period.

Operating Profit

Selling, Distribution, and Administrative ("SD&A") expenses for the three months ended May 31, 2016 were \$247.2 compared with \$196.0 in the prior-year period, an increase of \$51.2, or 26.1%. The increase in SD&A expenses was due primarily to higher costs to support the greater sales volume, including freight and commissions, higher employee-related costs, including incentive compensation, increased SD&A expense related to acquired businesses, and increased amortization expense of acquired intangible assets. SD&A expenses for the third quarter of fiscal 2016 were 29.0% of net sales compared with 28.7% for the prior-year period. Adjusted SD&A expenses for the three months ended May 31, 2016 were \$232.7 (27.3% of net sales) compared with \$187.5 (27.4% of net sales) in the prior-year period.

The Company recognized a pre-tax special charge of \$9.7 during the third quarter of fiscal 2016, compared with a pre-tax special charge of \$0.4 during the third quarter of fiscal 2015. Fiscal 2016 charges related primarily to actions initiated to streamline the organization, including the integration of recent acquisitions. These streamlining activities include the consolidation of selected production activities and realignment of certain responsibilities, primarily within various SD&A departments. Further details regarding the Company's special charges are included in the Special Charge footnote of the Notes to Consolidated Financial Statements.

Operating profit for the third quarter of fiscal 2016 was \$121.0 compared with \$99.2 for the prior-year period, an increase of \$21.8, or 22.0%. The increase in operating profit was due primarily to higher gross profit, partially offset by higher costs to support greater sales volume, higher employee-related costs, including incentive compensation, increased amortization expense related to recent acquisitions, and higher special charges.

Adjusted operating profit increased by \$38.0, or 35.2%, to \$146.1 for the third quarter of fiscal 2016 compared with \$108.1 for the third quarter of fiscal 2015. Adjusted operating profit margin increased 140 basis points to 17.2% for the third quarter of fiscal 2016 compared with 15.8% for the year-ago period.

Other Expense (Income)

Other expense (income) consists principally of net interest expense and net miscellaneous income/expense, which includes gains and losses associated with foreign currency-related transactions. Interest expense, net, was \$8.1 and \$7.9 for the three months ended May 31, 2016 and May 31, 2015, respectively. The Company reported net miscellaneous income of \$0.3 and \$9.5 for the three months ended May 31, 2016 and May 31, 2015, respectively. Net miscellaneous income for the three months ended May 31, 2015 included a \$10.5 net gain associated with two financial instruments intended to mitigate the foreign currency exposure associated with the Distech Controls

Canadian-dollar acquisition.

Provision for Income Taxes and Net Income

The Company's effective income tax rate was 34.3% and 36.0% for the three months ended May 31, 2016 and May 31, 2015, respectively. The Company estimates that the effective tax rate for the fourth quarter of fiscal 2016 will be approximately 35.5% before any discrete items and if the rates in its taxing jurisdictions remain generally consistent throughout the year.

Net income for the third quarter of fiscal 2016 increased \$9.5 to \$74.0 from \$64.5 reported for the prior-year period. The increase in net income resulted primarily from higher operating profit partially offset by higher other expense and a higher provision for income taxes. Diluted earnings per share for the three months ended May 31, 2016 increased \$0.21 to \$1.69 compared with diluted earnings per share of \$1.48 for the prior-year period.

Adjusted net income for the third quarter of fiscal 2016 was \$90.4 compared with \$64.2 in the prior-year period, which represented an increase of \$26.2, or 40.8%. Adjusted diluted earnings per share for the three months ended May 31, 2016 increased \$0.59, or 40.1%, to \$2.06 compared with \$1.47 for the prior-year period.

Net Sales

Net sales for the nine months ended May 31, 2016 increased \$418.7, or 22%, compared with the prior-year period due primarily to an increase in sales volume of approximately 16% and approximately 9% favorable impact of acquired revenues from acquisitions, partially offset by the impact of an unfavorable change in price/mix of approximately 2% and approximately 1% unfavorable foreign currency rate changes. Sales volume was higher across most product categories and key sales channels as the Company realized greater demand for LED-based luminaires. Sales of LED-based luminaires during the first nine months of fiscal 2016 represented more than 55% of total net sales. The change in price/mix was due primarily to unfavorable pricing on LED luminaires, reflecting the decline in certain LED component costs. Due to the changing dynamics of the Company's product portfolio, including the increase of integrated lighting solutions as well as the proliferation of new products due to the adoption of solid-state lighting, it is not possible to precisely quantify volume or differentiate the individual components of price/mix.

Gross Profit

Gross profit for the first nine months of fiscal 2016 increased \$209.9, or 25.5%, to \$1,034.2 compared with \$824.3 in the prior-year period. Gross profit margin increased to 43.7% for the nine months ended May 31, 2016 compared with 42.3% in the prior-year period. Gross profit was higher than the prior-year period due primarily to additional contribution on higher net sales, productivity improvements, as well as lower material and component costs. These benefits were partially offset by higher warranty and recall costs, the unfavorable impact of acquired profit in inventory, and unfavorable price/mix. Adjusted gross profit for the nine months ended May 31, 2016 was \$1,036.9 (43.8% of net sales) compared with gross profit of \$824.3 (42.3% of net sales) in the prior-year period.

Operating Profit

SD&A expenses for the nine months ended May 31, 2016 were \$683.9 compared with \$550.0 in the prior-year period, an increase of \$133.9, or 24.3%. The increase in SD&A expenses was due primarily to higher costs to support the greater sales volume, including freight and commissions, higher employee-related costs, including incentive compensation, increased SD&A expense related to acquired businesses, and increased amortization of acquired intangible assets. SD&A expenses for the first nine months of fiscal 2016 were 28.9% of net sales compared with 28.2% for the prior-year period. Adjusted SD&A expenses for the nine months ended May 31, 2016 were \$637.8 (27.0% of net sales) compared with \$526.7 (27.0% of net sales) in the prior-year period.

The Company recognized a pre-tax special charge of \$10.2 during the first nine months of fiscal 2016, compared with a pre-tax special charge of \$9.8 during the first nine months of fiscal 2015. Fiscal 2016 charges related primarily to actions initiated to streamline the organization, including the integration of recent acquisitions. These streamlining activities include the consolidation of selected production activities and realignment of certain responsibilities, primarily within various SD&A departments. Further details regarding the Company's special charges are included in the Special Charge footnote of the Notes to Consolidated Financial Statements.

Operating profit for the first nine months of fiscal 2016 was \$340.1 compared with \$264.5 for the prior-year period, an increase of \$75.6, or 28.6%. The increase in operating profit for the first nine months of fiscal 2016 compared with the first nine months of fiscal 2015 was due primarily to higher gross profit, partially offset by higher costs to support greater sales volume, higher employee-related costs, including incentive compensation, increased amortization expense related to recent acquisitions, and higher special charges.

Adjusted operating profit increased by \$101.5, or 34.1%, to \$399.1 for the first nine months of fiscal 2016 compared with \$297.6 for the first nine months of fiscal 2015. Adjusted operating profit margin for the first nine months of fiscal 2016 increased 160 basis points to 16.9% compared with 15.3% in the year-ago period.

Other Expense (Income)

Other expense (income) consists principally of net interest expense and net miscellaneous income, which includes gains and losses associated with foreign currency-related transactions. Interest expense, net, was \$24.2 for the nine months ended May 31, 2016 compared with \$23.8 for the nine months ended May 31, 2015. The Company reported net miscellaneous income of \$1.5 in the first nine months of fiscal 2016 compared with \$10.5 in the prior-year period. Net miscellaneous income for the three months ended May 31, 2015 included a \$10.5 net gain associated with two financial instruments intended to mitigate the foreign currency exposure associated with the Distech Controls Canadian-dollar acquisition.

Provision for Income Taxes and Net Income

The Company's effective income tax rate was 34.5% and 35.5% for the nine months ended May 31, 2016 and May 31, 2015, respectively.

Table of Contents

Net income for the first nine months of fiscal 2016 increased \$45.9 to \$207.9 from \$162.0 reported for the prior-year period. The increase in net income resulted primarily from higher operating profit partially offset by higher other expense and a higher provision for income taxes. Diluted earnings per share for the nine months ended May 31, 2016 increased \$1.03 to \$4.75 compared with diluted earnings per share of \$3.72 for the prior-year period.

Adjusted net income for the first nine months of fiscal 2016 was \$246.5 compared with \$177.4 in the prior-year period, which represented an increase of \$69.1, or 39.0%. Adjusted diluted earnings per share for the nine months ended May 31, 2016 increased \$1.56, or 38.3%, to \$5.63 compared with \$4.07 for the prior-year period.

Outlook

Management believes that the execution of the Company's strategy will provide opportunities for continued profitable growth. The Company's strategy is to capitalize on market growth opportunities by continuing to expand and leverage its industry-leading lighting product and energy management solutions portfolio combined with its extensive market presence and financial strength. Management will continue to drive the creation of a world-class, cost-efficient supply chain and service capability, while also reducing and/or eliminating resources allocated to specific areas of slower and/or declining growth. Management continues to position the Company to optimize short-term performance while investing in and deploying resources for long-term profitable growth opportunities.

In September 2015, the Company completed the acquisition of Distech Controls, a provider of building automation solutions. Distech Controls generated net sales in excess of \$80 Canadian dollars during the fiscal year ended August 31, 2015, and achieved a five-year annual growth rate of over 25%. Additionally, the Company acquired Juno Lighting and Geometri in mid-December 2015. Juno Lighting generated revenues of approximately \$250 in the trailing 12-month period prior to being acquired by the Company. Geometri, a small yet fast growing business intelligence company, is expected to enhance the Company's growing portfolio of intelligent networked lighting and building automation solutions. Management expects these acquisitions to be accretive to the Company's fiscal 2016 consolidated financial results.

During the first nine months of fiscal 2016, the Company recorded a pre-tax special charge of \$10.2 for actions initiated to streamline the organization, including the integration of recent acquisitions. These streamlining activities include the consolidation of selected production activities and realignment certain responsibilities, primarily within various selling, distribution, and administrative departments. Management expects to realize annual savings equal to at least twice the amount of the charge and to achieve the full annualized run-rate by the end of the first quarter of fiscal 2017. Management expects to incur additional costs associated with these and potential future integration and streamlining activities in the fourth quarter of fiscal 2016.

The U.K. referendum vote to exit the European Union created a great deal of uncertainty and generated significant volatility in the global financial markets. This uncertainty and volatility have the potential to affect consumer and business sentiment which could negatively impact global economic activity. This notwithstanding, management remains bullish regarding the Company's prospects for continued future profitable growth. Third-party forecasts issued in recent months as well as key leading indicators suggest that the growth rate for the North American lighting market, which includes renovation and retrofit activity and comprises over 97 percent of the Company's revenues, will be in the mid-to-upper single digit range for the remainder of fiscal 2016 with expectations that overall demand in the Company's primary end-markets will continue to experience solid growth over the next several years. The Company's order rates through the month of June reflect this favorable trend. In addition to the projected growth in the Company's primary end-markets, management believes that the Company should benefit from recent acquisitions, further growth from the introduction of new lighting and building automation solutions, and expansion in underpenetrated geographies and channels.

From a longer term perspective, management expects that the Company's addressable markets will experience solid growth over the next decade, particularly as energy and environmental concerns come to the forefront along with emerging opportunities for digital lighting to play a key role in the "Internet of Things" (IoT) through the use of intelligent networked lighting and building automation systems that can collect and exchange data to increase efficiency as well as provide a host of other economic benefits resulting from data analytics. Management remains positive about the future prospects of the Company and its ability to outperform the markets it serves.

Critical Accounting Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations addresses the financial condition and results of operations as reflected in the Company's Consolidated Financial Statements, which have been prepared in accordance with U.S. GAAP. As discussed in the Description of Business and Basis of Presentation footnote of the Notes to Consolidated Financial Statements, the preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expense during the reporting period. On an ongoing basis, management evaluates its estimates and judgments, including those related to revenue recognition; accounts receivable; inventory valuation; depreciation, amortization and the recoverability of long-lived assets, including goodwill and intangible assets; share-based compensation expense; medical, product warranty and recall, and other reserves; income taxes; retirement benefits; litigation; and environmental matters. Management bases its estimates and judgments on its substantial historical experience and other relevant factors, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates. Management discusses the development of accounting estimates with the Company's Audit Committee of the Board.

There have been no material changes in the Company's critical accounting estimates during the current period. For a detailed discussion of significant accounting policies that may involve a higher degree of judgment, please refer to the Company's Form 10-K.

Cautionary Statement Regarding Forward-Looking Information

This filing contains forward-looking statements within the meaning of the federal securities laws. Statements made herein that may be considered forward-looking include statements incorporating terms such as "expects", "believes", "intends", "anticipates" and similar terms that relate to future events, performance, or results of the Company. In addition, the Company, or the executive officers on the Company's behalf, may from time to time make forward-looking statements in reports and other documents the Company files with the SEC or in connection with oral statements made to the press, current and potential investors, or others. Forward-looking statements include, without limitation: (a) the Company's projections regarding financial performance, liquidity, capital structure, capital expenditures, and dividends; (b) expectations about the impact of volatility and uncertainty in general economic conditions; (c) external forecasts projecting the North American lighting market growth rate and growth in the Company's addressable markets; (d) the Company's ability to execute and realize benefits from initiatives related to streamlining its operations, capitalize on growth opportunities, expand in key markets as well as underpenetrated geographies and channels and introduce new lighting and building automation solutions; (e) the Company's estimate of its fourth quarter fiscal 2016 tax rate; (f) the Company's estimate of future amortization expense; (g) the Company's ability to achieve its long-term financial goals and measures and outperform the markets it serves; (h) the Company's expectations about the Distech Controls, Juno Lighting, and other acquisitions; and (i) the Company's expectations about the resolution of the trade compliance matter. You are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date of this report. Except as required by law, the Company undertakes no obligation to publicly update or release any revisions to these forward-looking statements to reflect any events or circumstances after the date of this annual report or to reflect the occurrence of unanticipated events. The Company's forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from the historical experience of the Company and management's present expectations or projections. These risks and uncertainties include, but are not limited to, customer and supplier relationships and prices; competition; ability to realize anticipated benefits from initiatives taken and timing of benefits; market demand; litigation and other contingent liabilities; and economic, political, governmental, and technological factors affecting the Company. Also, additional risks that could cause the Company's actual results to differ materially from those expressed in the Company's forward-looking statements are discussed in Part I, "Item 1a. Risk Factors" of the Company's Form 10-K, and are specifically incorporated herein by reference.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

General. The Company is exposed to market risks that may impact its Consolidated Balance Sheets, Consolidated Statements of Comprehensive Income, and Consolidated Statements of Cash Flows due primarily to fluctuations in interest rates, foreign exchange rates, and commodity prices. There have been no material changes to the Company's exposure from market risks from those disclosed in Part II, Item 7a of the Company's Form 10-K.

Item 4. Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to reasonably ensure that information required to be disclosed in the reports filed or submitted by the Company under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to reasonably ensure that information required to be disclosed by the Company in the reports filed under the Exchange Act is accumulated and communicated to management, including the principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

As required by SEC rules, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of May 31, 2016. This evaluation was carried out under the supervision and with the participation of management, including the principal executive officer and principal financial officer. Based on this evaluation, these officers have concluded that the design and operation of the Company's disclosure controls and procedures are effective at a reasonable assurance level as of May 31, 2016. However, because all disclosure procedures must rely to a significant degree on actions or decisions made by employees throughout the organization, such as reporting of material events, the Company and its reporting officers believe that they cannot provide absolute assurance that all control issues and instances of fraud or errors and omissions, if any, within the Company will be detected. Limitations within any control system, including the Company's control system, include faulty judgments in decision-making or simple errors or mistakes. In addition, controls can be circumvented by an individual, by collusion between two or more people, or by management override of the control. Because of these limitations, misstatements due to error or fraud may occur and may not be detected.

During the nine months ended May 31, 2016, the Company completed its acquisitions of Distech Controls Inc. ("Distech Controls") and Juno Lighting LLC ("Juno Lighting"). SEC guidance permits management to omit an assessment of an acquired business' internal control over financial reporting from management's assessment of internal control over financial reporting for a period not to exceed one year from the date of the acquisition. Accordingly, management has not assessed Distech Controls' or Juno Lighting's internal control over financial reporting as of May 31, 2016.

Excluding the acquisitions, there have been no changes in the Company's internal control over financial reporting that occurred during the Company's most recent completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company began integrating Distech Controls and Juno Lighting into its existing control procedures from the date of acquisition. The Company does not anticipate the integration of the acquired companies to result in changes that would materially affect its internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Acuity Brands is subject to various legal claims arising in the normal course of business, including, but not limited to, patent infringement, product liability claims, and employment matters. Acuity Brands is self-insured up to specified limits for certain types of claims, including product liability and employment matters, and is fully self-insured for certain other types of claims, including environmental, product recall, and patent infringement. Based on information currently available, it is the opinion of management that the ultimate resolution of pending and threatened legal proceedings will not have a material adverse effect on the financial condition, results of operations, or cash flows of Acuity Brands. However, in the event of unexpected future developments, it is possible that the ultimate resolution of any such matters, if unfavorable, could have a material adverse effect on the financial condition, results of operations, or cash flows of Acuity Brands in future periods. Acuity Brands establishes reserves for legal claims when the costs associated with the claims become probable and can be reasonably estimated. The actual costs of resolving legal claims may be substantially higher than the amounts reserved for such claims. However, the Company cannot make a meaningful estimate of actual costs to be incurred that could possibly be higher or lower than the amounts reserved. Information regarding reportable legal proceedings is contained in Part I, “Item 3. Legal Proceedings” in the Company’s Form 10-K. Information set forth in this report’s Commitments and Contingencies footnote of the Notes to Consolidated Financial Statements describes any legal proceedings that became reportable during the quarter ended May 31, 2016, and updates any descriptions of previously reported legal proceedings in which there have been material developments during such quarter. The discussion of legal proceedings included within the Commitments and Contingencies footnote of the Notes to Consolidated Financial Statements is incorporated into this Item 1 by reference.

Item 1a. Risk Factors

There have been no material changes in the Company’s risk factors from those disclosed in Part I, “Item 1a. Risk Factors” of the Company’s Form 10-K.

Item 5. Other Information

Declaration of Dividend

On June 24, 2016, the Board of Directors of the Company declared a quarterly dividend of \$0.13 per share. The dividend is payable on August 1, 2016 to stockholders of record on July 18, 2016.
