MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

DECEMBER 31, 2012

NOTE 1 ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation together with its consolidated subsidiaries (MREIC, the Company, or we), operates as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations.

As of December 31, 2012 and September 30, 2012, rental properties consisted of seventy-four and seventy-two property holdings, respectively. These properties are located in twenty-six states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Iowa, Kansas, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and Wisconsin. In addition, one of the properties that the Company currently owns is through a majority interest in a limited liability company of which the Company consolidates its results of operations and financial condition. The Company also owns a portfolio of REIT investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended December 31, 2012 are not necessarily indicative of the results that may be expected for the year ending September 30, 2013. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended September 30, 2012.

Certain amounts in the consolidated financial statements for the prior periods presented have been reclassified to conform to the financial statement presentation for the current year. During fiscal 2011, the Quakertown, PA property was reclassified to held for sale, which resulted in \$-0- and \$19,628 of income for the three months ended December 31, 2012 and 2011, respectively being reclassified into discontinued operations. On October 31, 2011, the Quakertown, PA property was sold. In addition, during fiscal 2013 the Greensboro, NC property was reclassified to

held for sale, which resulted in \$(4,026) and \$28,841 of income (loss) for the three months ended December 31, 2012 and 2011, respectively being reclassified into discontinued operations. In January 2013, the Company entered into a contract to sell the Greensboro, NC property for \$1,525,000 (see Note 4).

Use of Estimates

In preparing the financial statements in accordance with accounting principles generally accepted in the United States of America, management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates.

Reclassification

Certain prior period amounts in the accompanying consolidated financial statements have been reclassified to conform to the current period's presentation.

Lease Termination Income

Lease termination income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company.

Under the terms of a lease termination agreement entered into in March 2012 with a tenant located at the Company's 388,671 square foot property located in St. Joseph, MO, the tenant was required to pay the Company additional rent from September 1, 2012 through November 30, 2012 in the amount of \$111,113 per month (pro-rated for any area/time leased to another tenant). On May 8, 2012, the Company entered into a 5-year lease agreement for this space with another tenant for approximately 256,000 square feet (representing approximately 66% of the space). In December 2012, the Company received \$113,784 in lease termination income representing additional rent from September 1, 2012 through November 30, 2012 for the 34% portion of the space that was not re-leased.

In October 2012, the Company's tenant at its 160,000 square foot property located in Monroe, NC exercised its early termination option. The Company received a lump sum termination payment of in October 2012 of \$576,946 which is calculated based on the period covering November 1, 2012 through July 31, 2013.

The Company's lease with its tenant at its 26,340 square foot location in Ridgeland (Jackson), MS has an early termination option which may be exercised at any time subsequent to December 2013 provided the Company is given six months notice. The rent per annum for this location is \$109,275 and the lease expires in July 2019. The Company does not anticipate that this tenant will exercise its early termination option and the Company does not have any other leases that contain an early termination option.

Stock Based Compensation

The Company accounts for stock options and restricted stock in accordance with ASC 718-10 which requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). This compensation cost for stock option grants is determined using option pricing models, intended

to estimate the fair value of the awards at the grant date. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value for restricted stock awards is equal to the fair value of the Company's common stock on the grant date. Compensation costs of \$79,527 and \$64,323 have been recognized during the three months ended December 31, 2012 and 2011, respectively.

During the three months ended December 31, 2012, no options or restricted stock awards were granted under the Company's 2007 Stock Option and Stock Award Plan (the Plan) and no options to purchase common stock were exercised. A total of 801,961 shares were available to grant as stock options or as restricted stock under the amended and restated 2007 Plan as of December 31, 2012. As of December 31, 2012, there were outstanding options to purchase 859,430 shares under the plan. The aggregate intrinsic value of options outstanding as of December 31, 2012 was \$1,982,744.

NOTE 2 NET INCOME PER SHARE

Basic net income per share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net income per common share is calculated by dividing net income attributable to common shareholders

plus interest expense related to the Company's Convertible Subordinated Debentures (Debentures) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period. During the three months ended December 31, 2012, the Company redeemed all of its Debentures (see Note 6). Interest expense of \$175,800 for the three months ended December 31, 2011 and 850,000 common shares to be issued upon conversion related to the potential conversion of the outstanding Debentures as of December 31, 2011 were excluded from the calculation due to their antidilutive effect.

In addition, common stock equivalents of 207,769 and 79,457 shares are included in the diluted weighted average shares outstanding for the three months ended December 31, 2012 and 2011, respectively. As of December 31, 2012 and 2011, options to purchase common stock of -0- and 110,850 shares, respectively, were antidilutive.

NOTE 3 REAL ESTATE INVESTMENTS

Acquisitions

On November 9, 2012, the Company purchased a 172,005 square foot industrial building located in Livonia, MI. The building is 100% net leased to FedEx Ground Packaging System, Inc. through March 31, 2022. The purchase price was \$14,350,000. The Company obtained a mortgage of \$9,500,000 at a fixed interest rate of 4.45% for 14 years and paid the remaining amount with cash on hand. This mortgage matures on December 1, 2026. Annual rental income over the remaining term of the lease is approximately \$1,194,000. In connection with the acquisition, the Company completed its evaluation of the acquired lease. As a result of its evaluation, the Company has allocated \$650,000 to an intangible asset associated with the net fair value assigned to the acquired lease at the property. The David Cronheim Mortgage Corporation, an affiliated company of the Company's former management agent, received \$95,000 in mortgage brokerage commissions in connection with obtaining financing for this acquisition.

On December 20, 2012, the Company purchased a 615,305 square foot industrial building located in Olive Branch, MS. The building is 100% net leased to Milwaukee Electric Tool Corporation through March 31, 2023. The purchase price was \$28,000,000. The Company obtained a mortgage of \$17,500,000 at a fixed interest rate of 3.76% for 10 years and paid the remaining amount with a draw on its unsecured line of credit (line of credit). This mortgage matures on January 1, 2023. Annual rental income over the remaining term of the lease is approximately \$1,965,000. In connection with the acquisition, the Company completed its evaluation of the acquired lease. As a result of its evaluation, the Company has not allocated any amount to an intangible asset.

FedEx Ground Packaging System, Inc.'s ultimate parent, FedEx Corporation and Milwaukee Electric Tool Corporation's ultimate parent, Techtronic Industries Company Limited are publicly-owned corporations and financial information on their business operations is readily available to the Company's shareholders.

On December 21, 2012, the Company purchased approximately 4.1 acres of land adjacent to its property which is leased to FedEx Ground Packaging System, Inc. located in Orion, MI for \$984,000 in connection with a 52,154 square foot expansion of the building which is expected to be completed in fiscal 2013.

The following unaudited pro forma condensed financial information has been prepared utilizing the historical financial statements of the Company and the effect of additional revenue and expenses from the properties acquired during fiscal 2013 and 2012 assuming that the acquisitions had occurred as of October 1, 2011, after giving effect to certain adjustments including (a) rental revenue adjustments resulting from the straight-lining of scheduled rent increases, (b) interest expenses resulting from the assumed increase in mortgage notes payable related to the new acquisitions, and (c) depreciation expense related to the new acquisitions. The unaudited pro forma condensed financial information is not indicative of the results of operations that would have been achieved had the acquisitions reflected herein been consummated on the dates indicated or that will be achieved in the future.

The Company is also required to disclose certain information about fair values of financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only, and therefore cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate loans payable and Subordinated Debentures (which have been fully redeemed as of December 31, 2012) approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. At December 31, 2012, the fair value (estimated based upon expected cash outflows discounted at current market rates) and carrying value of fixed rate mortgage notes payable amounted to \$269,124,000 and \$256,286,739, respectively.

NOTE 9 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the three months ended December 31, 2012 and 2011 was \$4,125,976 and \$4,148,660, respectively.

During the three months ended December 31, 2012, \$3,500,000 in principal amount of the Debentures was converted to 382,091 shares of common stock.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview and Recent Activity

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto provided elsewhere herein and the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2012.

The Company is a REIT. The Company's primary business is the ownership and management of industrial buildings subject to long-term leases primarily to investment grade tenants. During the three months ended December 31, 2012, the Company purchased two net-leased industrial properties, located in Livonia, MI and Olive Branch, MS, totaling approximately 787,000 square feet, for \$42,350,000. As of December 31, 2012, the Company owned seventy-three industrial properties and one shopping center with total square footage of approximately 9,206,000 square feet. These properties are located in twenty-six states. As of quarter end, the Company's weighted average lease expiration term was approximately 6.0 years and its occupancy rate was 94%. In addition, the Company's average rent per occupied square foot for fiscal 2013 was approximately \$5.44. Total real estate investments were \$508,264,036 as of December 31, 2012.

The Company's revenue primarily consists of rental and reimbursement revenue from the ownership of industrial rental property. Income from property operations defined as rental and reimbursement revenue less real estate taxes and operating expenses increased \$989,316 or 10% for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. The increase was due to the additional income related to seven industrial properties purchased during fiscal 2012 (of which five were purchased subsequent to December 31, 2011) and two properties purchased during the three months ended December 31, 2012. In addition, the Company's revenue also includes lease termination income, which amounted to \$690,730 for the three months ended December 31, 2012 and \$-0- for three months ended December 31, 2011. This income represents the payments from former tenants at our St. Joseph, MO and Monroe, NC properties terminating their lease obligations before the end of the contractual term of the leases.

The Company has a concentration of FedEx Corporation (FDX) and FDX subsidiary-leased properties. The percentage of FDX leased square footage to the total of the Company's rental space was 41% (11% to FDX and 30% to FDX subsidiaries) as of December 31, 2012. As of quarter end, no other tenants leased more than 5% of our total square footage with the exception of Milwaukee Electric Tool Corporation which leased 7%. The only tenant that accounted for more than 5% of our total rental and reimbursement revenue for the three months ended December 31, 2012 was FDX and its subsidiaries. Annualized rental and reimbursement revenue from FDX and its subsidiaries is estimated to be approximately 52% (12% to FDX and 40% to FDX subsidiaries) of total rental and reimbursement revenue for fiscal 2013. This concentration is a risk shareholders should consider.

The Company also holds a portfolio of securities of other REITs with a fair value of \$66,786,117 as of December 31, 2012, which earns dividend and interest income. The dividends received from our securities investments were at a weighted average yield of approximately 6.6% as of December 31, 2012. During the three months ended December 31, 2012, the Company recognized gains on sale of securities of \$2,110,768. As of December 31, 2012, the Company had net unrealized gains on securities available for sale of \$3,635,039. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments.

On November 9, 2012, the Company purchased a 172,005 square foot industrial building located in Livonia, MS. The building is 100% net leased to FedEx Ground Packaging System, Inc. through March 31, 2022. The purchase price was \$14,350,000. The Company obtained a mortgage of \$9,500,000 at a fixed interest rate of 4.45% for 14 years and paid the remaining amount with cash on hand. This mortgage matures on December 1, 2026. Annual rental income over the remaining term of the lease is approximately \$1,194,000. In connection with the acquisition, the Company completed its evaluation of the acquired

lease. As a result of its evaluation, the Company has allocated \$650,000 to an intangible asset associated with the net fair value assigned to the acquired lease at the property.

On December 20, 2012, the Company purchased a 615,305 square foot industrial building located in Olive Branch, MS. The building is 100% net leased to Milwaukee Electric Tool Corporation through March 31, 2023. The purchase price was \$28,000,000. The Company obtained a mortgage of \$17,500,000 at a fixed interest rate of 3.76% for 10 years and paid the remaining amount with a draw on its unsecured line of credit (line of credit). This mortgage matures on January 1, 2023. Annual rental income over the remaining term of the lease is approximately \$1,965,000. In connection with the acquisition, the Company completed its evaluation of the acquired lease. As a result of its evaluation, the Company has not allocated any amount to an intangible asset.

On December 21, 2012, the Company purchased approximately 4.1 acres of land adjacent to its property which is leased to FedEx Ground Packaging System, Inc. located in Orion, MI for \$984,000 in connection with a 52,154 square foot expansion of the building which is expected to be completed fiscal in 2013.

We have entered into separate agreements to purchase seven new build-to-suit industrial buildings that are currently being developed in Kentucky, Minnesota, Pennsylvania, Texas, Virginia and Wisconsin totaling approximately 1,217,000 square feet to be net-leased for 10 or more years, of which approximately 664,000 square feet or 55% will be leased to FedEx Ground Packaging System. We have entered into separate agreements to expand three existing buildings by approximately 170,000 square feet. As of December 31, 2012, the Company has incurred expansion costs of approximately \$1,400,000 (including \$984,000 for the purchase of land, see Note 3). As of December 31, 2012, the total remaining expansion costs expected to be incurred during fiscal 2013 and fiscal 2014 amount to approximately \$12,600,000. Upon completion, the expansions will result in total increased rent of approximately \$1,400,000 per annum. In addition, the expansions will result in a new ten year lease extension for each building being expanded.

See PART I, Item 1 Business in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2012 for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities, challenges, and risks on which the Company is focused.

Changes in Results of Operations

As of December 31, 2012, the Company owned seventy-four properties with total square footage of approximately 9,206,000 as compared to sixty-nine properties with total square footage of approximately 8,032,000 as of December 31, 2011. The Company's occupancy rate was 94% and 97% as of December 31, 2012 and 2011, respectively.

In fiscal 2013, approximately 10% of our gross leasable area, consisting of 11 leases totaling 896,813 square feet was originally set to expire. To date, the Company has extended the following 8 leases which were scheduled to expire in fiscal 2013:

We continue to be in discussions with our tenants regarding two leases representing 283,098 square feet or 32% of the space scheduled to expire in fiscal 2013. The one remaining lease representing 59,425 square feet or 7% of the space scheduled to expire in fiscal 2013 did not renew. This property is located in White Bear Lake, MN and was leased to FedEx Express through November 30, 2012.

Rental revenue increased \$651,628 or 6% for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. The increase in the three months ended December 31, 2012 was due primarily to the increased rental income earned from acquisitions of seven properties during fiscal 2012 (of which five were purchased subsequent to December 31, 2011) and two properties purchased during the three months ended December 31, 2012.

Lease termination income amounted to \$690,730 for the three months ended December 31, 2012 as compared to \$-0- for the three months ended December 31, 2011. This income represents the payments from former tenants at our St. Joseph, MO and Monroe, NC properties terminating their lease obligations before the end of the contractual term of the leases.

Real estate tax expense decreased \$261,089 or 18% for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. The decrease for the three months ended December 31, 2012 was due primarily to the Company's ability to obtain refunds and reductions in real estate taxes for several properties. Because this results in reducing our tenants overall occupancy costs, it is expected to result in higher tenant retention rates.

Operating expenses decreased \$138,203 or 21% for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. The decrease in the three months ended December 31, 2012 was due primarily to the decrease in management fees. Effective August 1, 2012, the Company terminated its contract with its management agent and the Company became a fully integrated and self-managed real estate company.

General and administrative expense increased \$279,823 or 28% for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. The increase in the three months ended December 31, 2012 was due primarily to increased salary and related expenses for recent hires of approximately \$135,000, professional fees associated with redeeming the Debentures of approximately \$60,000 and general professional fees of approximately \$85,000.

Interest and dividend income increased \$173,735 or 18% for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011. This increase was due mainly to an increase of 33% in investments in securities available for sale as of December 31, 2012 as compared to the investments in securities available for sale as of December 31, 2011. The weighted average yield was approximately 6.6% and 7.7% for the three months ended December 31, 2012 and 2011, respectively.

The Company recognized a gain on sale of securities of \$2,110,768 and \$2,788,458 for the three months ended December 31, 2012 and 2011, respectively. In addition, the Company had net unrealized gains on its securities held for sale of \$3,635,039 as of December 31, 2012.

Edgar Filing: MONMOUTH REAL ESTATE INVESTMENT CORP - Form 10-Q

Net real estate investments increased \$40,377,552 from September 30, 2012 to December 31, 2012. This increase was due mainly to the purchase of the industrial properties in Livonia, MI and Olive Branch, MS totaling \$42,350,000 and the purchase of land adjacent to our property located in Orion, MI for \$984,000. The increase was partially offset by depreciation expense for the three month period of \$3,121,064.

Securities available for sale increased \$5,100,944 from September 30, 2012 to December 31, 2012. The increase was due mainly to the purchase of \$8,781,232, partially offset by sales of \$4,042,158 of securities available for sale.

Mortgage notes payable increased \$18,342,828 from September 30, 2012 to December 31, 2012. The increase was due mainly to the two mortgages of \$27,000,000 originated in connection with the acquisitions of the two industrial properties purchased in fiscal 2013. Details on the mortgages are as follows:

<u>Property</u>	<u>Mortgage Originated</u>	<u>Maturity Date</u>	<u>Interest Rate</u>
Livonia, MI	\$9,500,000	12/1/26	4.45%
Olive Branch, MS	17,500,000	01/1/23	3.76%

The increase in mortgages was partially offset by scheduled payments of principal of \$4,253,495 and balloon payments on the Montgomery, IL and Ft. Myers, FL property mortgages of \$7,233,929. In addition, the Company refinanced the existing mortgage on the Tolleson, AZ property with a balance of \$5,169,748 at an interest rate of 5.8% due December 1, 2012. The new \$8,000,000 mortgage, which matures on November 1, 2022, is at a fixed interest rate of 3.95%. The Company is scheduled to repay a total of approximately \$26,260,000 in mortgage principal payments in the next twelve months, consisting of balloon payments of approximately \$7,500,000 and normal monthly amortization payments of approximately \$18,760,000. The Company intends to make these principal payments from the funds raised from the DRIP, draws from the line of credit, cash from operations and refinancings.

The Company's outstanding 8% Debentures decreased \$8,615,000 from September 30, 2012 to December 31, 2012. Pursuant to notice given, on October 29, 2012, the Company's subsidiary redeemed the 2013 and 2015 Debentures outstanding on November 30, 2012 for the full principal amount plus accrued interest to November 30, 2012. Between October 1, 2012 and November 30, 2012, \$3,500,000 of the Debentures was converted to 382,091 shares of common stock and the remaining \$5,115,000 of the Debentures were redeemed.

Loans payable increased \$22,507,905 from September 30, 2012 to December 31, 2012. The increase was due to a draw on the line of credit of \$12,000,000 and an increase of \$10,507,905 on its securities margin loans. As of December 31, 2012, total loans payable of \$27,707,905 consisted of \$12,000,000 outstanding under the Company's \$20,000,000 line of credit, a \$2,700,000 loan from the Bank of Princeton, a \$2,500,000 loan from Two River Bank and \$10,507,905 outstanding on its securities margin loans.

Liquidity and Capital Resources

Net cash provided by operating activities was \$4,992,206 and \$5,761,916 for the three months ended December 31, 2012 and 2011, respectively. Distributions paid on common stock for the three months ended December 31, 2012 and 2011 were \$6,135,493 and \$5,589,111, respectively (of which \$1,606,277 and \$1,230,696, respectively, was reinvested). The Company pays distributions from cash provided by operating activities.

As of December 31, 2012, the Company owned securities available for sale of \$66,786,117 subject to term loans of \$5,200,000 and securities margin loans of \$10,507,905. These marketable securities provide the Company with additional liquidity as well as dividend income. As of December 31, 2012, the Company had a net unrealized gain on its portfolio of \$3,635,039. The dividends received from our investments continue to meet our expectations.

As of December 31, 2012, the Company owned seventy-four properties (seventy-three industrial properties and one shopping center), of which sixty carried mortgage loans with outstanding principal balances as of December 31, 2012 totaling \$256,286,739. The unencumbered properties could be refinanced to raise additional funds, although covenants in the Company's line of credit limit the amount of unencumbered properties which can be mortgaged. The Company had \$8,000,000 available on its \$20,000,000 line of credit as of December 31, 2012. The line of credit matures June 30, 2013 and the Company is currently in the process of negotiating a new facility. The Company's total

net debt to total market capitalization was 33% and the Company's total net debt plus preferred equity to total market capitalization was 47% as of December 31, 2012.

We have entered into separate agreements to purchase seven new build-to-suit industrial buildings that are currently being developed in Kentucky, Minnesota, Pennsylvania, Texas, Virginia and Wisconsin totaling approximately 1,217,000 square feet to be net-leased for 10 or more years, of which approximately 664,000 square feet or 55% will be leased to FedEx Ground Packaging System. The aggregate purchase price for the seven properties is approximately \$81,000,000. Subject to satisfactory due diligence, we anticipate closing these seven transactions during fiscal 2013 and fiscal 2014. The Company has made deposits totaling \$1,800,000 on these acquisitions as of December 31, 2012, which is included in other assets as of December 31, 2012.

We have entered into separate agreements to expand three existing buildings by approximately 170,000 square feet. As of December 31, 2012, the Company has incurred expansion costs of approximately \$1,400,000 (including \$984,000 for the purchase of land, see Note 3). As of December 31, 2012, the total remaining expansion costs expected to be incurred during fiscal 2013 and fiscal 2014 amount to approximately \$12,600,000. Upon completion, the expansions will result in total increased rent of approximately \$1,400,000 per annum. In addition, the expansions will result in a new ten year lease extension for each building being expanded.

During the three months ended December 31, 2012, the Company paid \$1,019,727 in dividends on its outstanding Series A preferred shares. On January 16, 2013, the Board of Directors declared a quarterly dividend of \$0.4766 per share of the Company's Series A preferred shares payable March 15, 2013, to Series A preferred shareholders of record as of February 15, 2013.

During the three months ended December 31, 2012, the Company paid \$1,132,031 in dividends on its outstanding Series B preferred shares. On January 16, 2013, the Board of Directors declared a quarterly dividend of \$0.4922 per share of the Company's Series B preferred shares payable March 15, 2013, to Series B preferred shareholders of record as of February 15, 2013.

The Company raised \$3,465,468 (including reinvestments of \$1,606,277) from the issuance of 356,239 common shares in the DRIP during the three months ended December 31, 2012. During the three months ended December 31, 2012, the Company paid \$6,135,493 in total cash dividends or \$0.15 per common share to common shareholders, of which \$1,606,277 was reinvested in the DRIP. On January 16, 2013, the Company declared a dividend of \$0.15 per common share to be paid on March 15, 2013 to common shareholders of record as of February 15, 2013.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its line of credit or securities margin loans, refinance debt, or raise capital through the DRIP or capital markets.

As described above, the Company has been raising capital through its DRIP, registered direct placements and public offerings of common and preferred stock and investing in net leased industrial properties. The Company believes that funds generated from operations and from its recent public offerings, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next year.

The Company seeks to invest in well-located, modern buildings, leased primarily to investment grade tenants on long-term leases. In management's opinion, newly built facilities leased to FedEx Corporation (FDX) and its subsidiaries meet these criteria. The Company has a concentration of FDX and FDX subsidiary-leased properties. The percentage of FDX leased square footage to the total of the Company's rental space was 41% (11% to FDX and 30% to FDX subsidiaries) as of December 31, 2012. As of December 31, 2012, no other tenants leased more than 5% of our total square footage with the exception of Milwaukee Electric Tool Corporation which leased 7%. The only tenant that accounted for more than 5% of our total rental and reimbursement revenue for the three months ended

December 31, 2012 was FDX and its subsidiaries. Annualized rental and reimbursement revenue from FDX and its subsidiaries is estimated to be approximately 52% (12% to FDX and 40% to FDX subsidiaries) of total rental and reimbursement revenue for fiscal 2013.

FDX and Milwaukee Electric Tool Corporation's ultimate parent, Techtronic Industries Company Limited are publicly-owned companies and information on the business operations and financial condition on each company is readily available to the Company's shareholders.

The Company intends to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants, and expand its current properties when needed. The Company has historically financed purchases of real estate and expansions primarily through mortgages and available cash reserves. To the extent that funds or appropriate properties are not available, fewer acquisitions and expansions will be made.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations and Core Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts (NAREIT), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (GAAP), excluding extraordinary items, as defined under GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-GAAP supplemental measure of REIT operating performance. Core Funds From Operations (Core FFO), is defined as FFO plus acquisition costs. FFO and Core FFO should be considered as a supplemental measure of operating performance used by REITs. FFO and Core FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO and Core FFO are significant components in understanding the Company's financial performance.

FFO and Core FFO (i) do not represent cash flow from operations as defined by GAAP; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FFO and Core FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO and Core FFO for the three months ended December 31, 2012 and 2011 is calculated as follows:

	Three Months Ended	
	12/31/12	12/31/11
Net Income Attributable to Common Shareholders	\$3,554,819	\$4,346,218

FFO Attributable to Common Shareholders	\$7,073,429	\$7,449,765
Acquisition Costs	385,862	304,342
Core FFO Attributable to Common Shareholders	\$7,459,291	\$7,754,107
