## Edgar Filing: BAY RESOURCES LTD - Form 10QSB

Notes to Consolidated Financial Statements  
September 30, 2004

### (1) ORGANISATION

Bay Resources Ltd. (Bay Resources) is incorporated in the State of Delaware. The principal shareholder of Bay Resources is Edensor Nominees Proprietary Limited (Edensor), an Australian corporation. Baynex.com Pty Ltd has not traded since incorporation. On August 21, 2000, Bay Resources incorporated a new wholly owned subsidiary, Bay Resources (Asia) Pty Ltd (formerly Bayou International Pty Ltd), a corporation incorporated under the laws of Australia. In June 2002, the Company incorporated a new wholly owned subsidiary, Golden Bull Resources Corporation, formerly 4075251 Canada Inc, a corporation incorporated under the laws of Canada. Golden Bull Resources Corporation is undertaking exploration activities for gold in Canada.

### (2) AFFILIATE TRANSACTIONS

Bay Resources advances to and receives advances from various affiliates. All advances between consolidated affiliates are eliminated on consolidation.

Included in accounts payable and accrued liabilities at September 30, 2004 was A\$51,883 due to AXIS Consultants, an affiliated management company. During the three months ending September 30, 2004 and 2003, Bay Resources paid management fees to this affiliated management company in the amounts A\$30,000 and A\$30,000, respectively, and reimbursed AXIS Consultants A\$72,000 and A\$22,000 for direct costs, including salaries, incurred on behalf of the Company, respectively. At September 30, 2004 and 2003, the Company owed AXIS Consultants A\$51,883 and A\$546,846, respectively, for services provided in accordance with the Service Agreement. During the three months ending September 30, 2004 and 2003, AXIS Consultants charged interest of A\$1,598 and A\$12,736, respectively, on outstanding balances. These entities are affiliated through common management and ownership.

Chevas Pty Ltd, a company associated with the President of the Company, Joseph Gutnick, provided loan funds to enable the Company to meet its liabilities and has paid certain expenses on behalf of the Company. At June 30 2003, the Company owed Chevas A\$1,239,315 during the three months ending September 30, 2003, Chevas loaned a further A\$40,209 and charged A\$27,307 in interest to the Company on the loan account. At September 30, 2003 the Company owed Chevas A\$1,306,831. The amount owed to Chevas was repaid in full in March 2004. At September 30, 2004 there are no amounts owing to Chevas.

At June 30, 2003, the Company owed Tahera A\$1,361. During the three months ending September 30, 2003, Tahera did not charge the Company interest on amounts outstanding. At September 30, 2003, the Company owed Tahera \$10,491. Mr. JI Gutnick, the President of the Company, ceased to be the President and Chairman of Tahera in October 2003 and the Company's principal stockholder, Edensor Nominees Pty Ltd., of which Mr. Gutnick is a director and shareholder, ceased to be a major stockholder of Tahera in October 2003.

### (3) AFFILIATE TRANSACTIONS (CONT'D)

During the year ended June 30, 2003, Mr JI Gutnick paid certain amounts owing to Tahera on behalf of the Company and at September 30, 2003, the amount of \$47,000 was owing to Mr Gutnick. This amount was repaid in March 2004.

Quantum Resources Limited ("QR"), a company associated with the President of the Company, Mr J I Gutnick, incurred certain costs on behalf of the Company amounting to A\$43,941 in respect to the Company's activities in Tibet China as a result of QR's contacts in China. This amount remained outstanding and is included in accounts payable and accrued expenses at September 30, 2003. The amount was repaid in March 2004.

Kerisridge Pty Ltd, a company associated with the President of the Company, Mr J I Gutnick, loaned us A\$2,273,186 in March 2004 for the purpose of repaying our long term debt. On March 31, 2004, Kerisridge agreed to convert all of the debt owed to them into common stock and warrants of the Company. The Company issued 1,753,984 shares of common stock and 1,753,984 warrants exercisable at US\$1.30 and at any time up to March 31, 2006 in full repayment of the \$2,273,186 owing to Kerisridge.

On February 19, 2004 Edensor Nominees Pty Ltd ("Edensor") advised the Company that it was exercising the 6,000,000 options for common stock of the Company it held utilizing the cashless exercise feature of the terms and conditions of the issue of the options. The Company issued 5,142,857 shares of common stock to Edensor on March 3, 2004 as a result of the exercise of the options.

Interest expense incurred on loans and advances due to affiliated entities approximated A\$3,000 and A\$40,000 in the quarters ended September 30, 2004 and 2003, respectively.

### (4) GOING CONCERN

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplates continuation of Bay Resources as a going concern. Bay Resources has sustained recurring losses and has a net working capital deficiency which raises substantial doubts as to its ability to continue as going concerns. However, Bay Resources anticipates that it will be able to defer repayment of obligations until it has sufficient liquidity to enable these loans to be repaid or other arrangements to be put in place. In addition Bay Resources has historically relied on loans and advances from corporations affiliated with the President of Bay Resources. Based on discussions with these affiliate companies, Bay Resources believes this source of funding will continue to be available. Other than the arrangements noted above, Bay Resources has not confirmed any other arrangement for ongoing funding. As a result Bay Resources may be required to raise funds by additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

## (5) INCOME TAXES

Bay Resources should have carry forward losses of approximately US\$20.5 million as of June 30, 2004 which will expire in the years 2005 through 2023. Bay Resources will need to file tax returns for those years having losses on which returns have not been filed to establish the tax benefits of the net operating loss carry forwards. Due to the uncertainty of the availability and future utilization of those operating loss carry forwards, management has provided a full valuation against the related tax benefit.

## (6) CONTINGENT LIABILITIES

The Company has received an invoice from a corporation that conducted the pegging of the claims in Canada on behalf of the Company. A number of claims that were pegged were not ultimately issued to the Company due to a number of errors by the pegging Company. The Company had advised the pegging company that it does not believe any further payments are due to the pegging company as a result of the economic loss incurred by Bay Resources. The Company believes that if it is unsuccessful in defending any claim that is brought against it, the maximum potential liability is CDN\$59,000. No accrued liability has been recorded in the accompanying financial statement pending the ultimate disposition of this matter.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

### FUND COSTS CONVERSION

The consolidated statements of operations and other financial and operating data contained elsewhere here in and the consolidated balance sheets and financial results have been reflected in Australian dollars unless otherwise stated.

The following table shows the average rate of exchange of the Australian dollar as compared to the US dollar and Canadian dollar during the periods indicated:

3 months ended September 30, 2003	A\$1.00 = US\$.6802
3 months ended September 30, 2004	A\$1.00 = US\$.7168
3 months ended September 30, 2003	A\$1.00 = CDN\$.9103
3 months ended September 30, 2004	A\$1.00 = CDN\$.9172

### RESULTS OF OPERATION

THREE MONTHS ENDED SEPTEMBER 30, 2004 VS. THREE MONTHS ENDED SEPTEMBER 30 2003.

Costs and expenses increased from A\$124,000 in the three months September 30, 2003 to A\$1,318,000 in the three months ended September 30, 2004. The Company's financial statements are prepared in Australian dollars (A\$). Since September 30, 2003 the A\$ compared to the United States dollar (US\$) has appreciated by

## Edgar Filing: BAY RESOURCES LTD - Form 10QSB

5.4%. A number of the costs and expenses of the Company are incurred in US\$ and the conversion of these costs to A\$ means that the comparison of September 2004 to 2003 does not always present a true comparison. The increase in expenses is a net result of:

- a) a decrease in interest expense from A\$40,000 for the three months ended September 30, 2003 to A\$3,000 for the three months ended September 30, 2004 as all long term debt was converted into equity in March 2004 and the Company raised funds through the issue of shares and warrants in March 2004 to fund the Company's operations. During the 2003 quarter, the interest rate of 8.60% was charged on outstanding amounts by Chevas which did not change. Chevas is a company associated with Mr. J.I. Gutnick, our President, which provided funding for the Company's operations during the prior year. AXIS provides management and geological services to the Company pursuant to a Service Deed dated November 25, 1988. AXIS charged interest at a rate between 10.10% and 10.60% for fiscal 2004 compared to 9.60% and 10.10% for fiscal 2003.
- b) an increase in legal, accounting and professional expense from A\$10,000 for the three months ended September 30, 2003 to A\$39,000 for the three months ended September 30, 2004 as a result of the increase in accounting fees in the three months ending September 30, 2004 compared to the three months ending September 30, 2003 and a quarterly accrual for the annual audit; an annual fee for the maintenance of records by the external share registrar to do with the reverse stock split that occurred in 1999 and an increase in legal fees in relation to discussions with external financiers and the preparation of a Form SB-2 to register securities issued during a private placement in March 2004.
- c) an increase in administrative costs including salaries from A\$65,000 in the three months ended September 30, 2003 to A\$220,000 in the three months ended September 30, 2004 as a result of the costs of engaging a consultant to undertake business development and investor relations work for the Company and associated business expenses of A\$50,000; the costs of negotiation with external funding sources of A\$7,000; amounts charged by Canaccord to cover due diligence and other costs prior to Canaccord agreeing to act as sponsor for the Company's Toronto Venture Exchange ("TSX-V") listing in Canada of A\$39,000; an increase in direct costs, including salaries, charged to the Company by AXIS Consultants as a result of the increase in activity of the Company of A\$50,000; and a quarterly allocation of the insurance costs for Canada to cover the exploration programme of A\$11,000. Other than the direct costs charged by AXIS Consultants, there was no comparable cost in the prior comparable quarter.
- d) an increase in the exploration expenditure expense from \$9,000 for the three months ended September 30, 2003 to \$1,056,000 for the three months ended September 30, 2004. In March 2004, we appointed a Vice President Exploration in Canada and commenced the exploration program on the Committee Bay Properties. These properties are in Nunavut in an isolated area and exploration can only be undertaken between June and August each year due to ground conditions. Exploration is costly as we were required to hire and construct a temporary camp which also had to be transported by charter flight. All supplies and temporary employees also needed to be transported to the temporary camp by charter flights and/or helicopter. The properties are located approximately 100

## Edgar Filing: BAY RESOURCES LTD - Form 10QSB

kilometers from the camp and employees are transported by helicopter daily from camp to the exploration site. For the 3 months ended September 2003, exploration in Canada related to monitoring the staking of claims in the Committee Bay Greenstone Belt at a cost of A\$9,000.

As a result of the foregoing, the loss from operations increased from A\$124,000 for the three months ended September 30, 2003 to A\$1,318,000 for the three months ended September 30, 2004.

The net loss was A\$1,318,000 for the three months ended September 30, 2004 compared to a net loss of A\$124,000 for the three months ended September 30, 2003.

### LIQUIDITY AND CAPITAL RESOURCES

For the September quarter of 2004, net cash used in operating activities was A\$945,000 primarily consisting of the net loss for the quarter of A\$1,318,000; increases in accounts payable and accrued expenses of A\$432,000; a reduction of prepayments and deposits of A\$38,000; a decrease in accounts payable - affiliates of A\$54,000 and an increase in receivables of A\$46,000. Net cash used in investing activities consisted of a A\$6,000 purchase of plant and equipment.

As of September 30, 2004 the Company had short-term obligations of A\$984,000 comprising accounts payable, accrued expenses and a short term loan from an affiliate.

We have A\$167,000 in cash at September 30, 2004. We are investigating the possibility of raising cash flow through money in Canada for exploration purposes.

We have been preparing a listing application for the dual listing of our shares of common stock on TSX-V. The listing application was lodged with TSX-V in June 2004 and we are currently in the process of responding to questions raised by TSX-V. We believe that a dual listing of our shares of common stock will provide liquidity in our shares. There can be no assurance that the dual listing on TSX-V will eventuate or that such listing will create an increase in the volume of trading of our shares of common stock.

The Company anticipates that it will be able to defer repayment of certain of its short-term loan commitments, until it has sufficient liquidity to enable these loans to be repaid, of which there can be no assurance. In addition the Company has historically relied upon loans and advances from affiliates to meet a significant portion of the Company's cash flow requirements which the Company believes, based on discussions with such affiliates, will continue to be available during fiscal 2005.

Other than the arrangements, above the Company has not confirmed any further arrangements for ongoing funding. As a result, the Company will be required to raise funds from additional debt or equity offerings in order to meet its cash flow requirements during the forthcoming year.

10

The Company will require substantial additional capital over the next year in order to satisfy existing liabilities and to provide funding to achieve its current business plan. Failure to obtain such capital could adversely impact the Company's operations and prospects.
