CHINA TELECOM SELECTS GILAT TO PROVIDE LARGE-SCALE SATELLITE RURAL TELEPHONY NETWORK IN TIBET
GILAT'S DIALAWAY(TM) VSAT NETWORK WILL BRING TELEPHONY SERVICES TO MORE THAN 1,300 PUBLIC CALL OFFICES

Petah Tikva, Israel, May 1, 2003 - Gilat Satellite Networks Ltd. (NASDAQ: GILTF) has been selected by the China Telecommunications Corp. to provide a large-scale, satellite-based rural telephony network in the Tibet autonomous region of China. China Telecom will make an initial purchase of a DialAway hub, 14 gateways and 1,300 VSAT terminals for public call offices to serve the region's remote villages. The tender indicates that the contract can be extended to a total of 5,000 VSATs.

Each DialAway remote site supports up to six toll-quality voice channels, the network providing as many as 4-5,000 voice lines. The DialAway VSAT provides on-demand voice, fax, and data services to and from fixed remote locations via satellite. It can be deployed quickly in harsh terrain and is designed to perform well in severe conditions where the mountainous terrain and cold weather make it difficult to implement a communications infrastructure. These are important attributes in Tibet, a vast, mountainous territory with altitudes up to 5,000 meters. In such an environment, satellite-based technology provides the most effective, if not the only, means of communication.

Gilat's DialAway rural telephony VSATs are used successfully by other major telecommunications agencies around the world, including Telkom South Africa, Peru's FITEL, Colombia's Compartel and India's TATA Teleservices. However, it was the successful deployment of over 1,000 DialAway VSATs in China's Xinjiang region (China's first large-scale, satellite rural telephony network), that was instrumental in the decision to award Gilat the contract in Tibet.

The first 300 VSATs have been delivered China Telecom, while the remaining units are to be delivered in the second quarter of 2003. China Telecom is responsible for the deployment of the system. Gilat provides technical services, training and support to its customers in China through its local Beijing office.

Edgar Filing: GILAT SATELLITE NETWORKS LTD - Form 6-K

Giora Reish, Associate Vice President, Sales and Marketing, Asia, said, "With this agreement, we solidify Gilat's position as the leading provider of satellite-based rural telephony networks in China. Given the fact that several other Western regions of China are interested in similar systems, we have a very positive outlook for our business position in this very important market."

ABOUT GILAT SATELLITE NETWORKS LTD.

Gilat Satellite Networks Ltd., with its global subsidiaries Spacenet Inc., Gilat Latin America, Inc. and rStar Corporation (RTRCE), is a leading provider of telecommunications solutions based on Very Small Aperture Terminal (VSAT) satellite network technology - with nearly 400,000 VSATs shipped worldwide. Gilat markets the Skystar Advantage, DialAw@y IP, FaraWay, Skystar 360E and SkyBlaster* 360 VSAT products in more than 70 countries around the world. The Company provides satellite-based, end-to-end enterprise networking and rural telephony solutions to customers across six continents, and markets interactive broadband data services. The Company is a joint venture partner in SATLYNX, a provider of two-way satellite broadband services in Europe with SES GLOBAL. Skystar Advantage(R), DialAw@y IP(TM) and FaraWay(TM) are trademarks or

registered trademarks of Gilat Satellite Networks Ltd. or its subsidiaries. Visit Gilat at WWW.GILAT.COM. (*SkyBlaster is marketed in the United States by StarBand Communications Inc. under its own brand name.)
