Exhibit Index

The following document (bearing the exhibit number listed below) is furnished herewith and is made a part of this Report pursuant to the General Instructions for Form 6-K:

Exhibit	Description
No. 1	RNS Announcement, re: State Aid approval dated 22 September 2004

British Energy plc

STATE AID TO BRITISH ENERGY APPROVED BY THE EUROPEAN COMMISSION

Edgar Filing: BRITISH ENERGY PLC - Form 6-K

British Energy welcomes the decision by the European Commission to approve the Government's state aid to the Company in connection with its restructuring, subject to compensatory measures.

Adrian Montague, Chairman of British Energy said:

"The approval by the European Commission is a major step forward in the Group's financial restructuring."

"The compensatory measures are stringent but workable, and the decision allows us to continue with our core objective of rebuilding the Company, operationally and financially. Our focus remains on improving the performance and reliability of our nuclear power stations and improving our energy trading and risk management capability."

"I would like to place on record my thanks to Ministers and Officials at the Department of Trade & Industry, for their enormous efforts in liaising with the European Commission and for their valuable support."

"Our priority is to ensure that we complete the remaining hurdles to successfully deliver the Restructuring. We have taken a major step forward but many significant uncertainties still remain."

The Company agreed to implement the proposed restructuring in October 2003 and although a number of important conditions and significant uncertainties remain, the Company will continue its efforts to implement the proposed restructuring in accordance with these agreements. Furthermore if for any reason the proposed restructuring cannot be implemented the Board may need to commence insolvency proceedings. If insolvency proceedings are commenced, distributions (if any) to unsecured creditors may represent only a small fraction of their unsecured claims and it is highly unlikely there would be any return for shareholders.
