- (k) Indicates a variable rate security. The interest rate shown reflects the rate in effect at May 31, 2005.
- (l)

## Edgar Filing: HIGH YIELD INCOME FUND INC - Form N-Q

The United States Federal income tax basis of the Fund's investments and the unrealized depreciation as of May 31, 2005 were as follows:

<b>Tax Basis</b>	<b>Appreciation</b>	<b>Depreciation</b>	<b>Net Unrealized Depreciation</b>
\$ 87,952,236	\$ 3,235,501	\$ 3,371,194	\$ 135,693

The difference between book basis and tax basis is attributable to deferred losses on wash sales and differences in the treatment of premium and market discount amortization for book and tax purposes.

The Fund's current Statement of Additional Information contains a description of Moody's and Standard & Poor's ratings.

### Notes to Schedule of Investments

*Security Valuation:* Portfolio securities that are actively traded in the over-the-counter market, including listed securities for which the primary market is believed to be over-the-counter, are valued at prices provided by principal market makers and pricing agents. Any security for which the primary market is on an exchange is valued at the last sales price on such exchange on the day of valuation or, if there was no sale on such day, the last bid price quoted on such day. Securities issued in private placements are valued at the bid price or the mean between the bid and asked prices, if available, provided by principal market makers. Any security for which a reliable market quotation is unavailable is valued at fair value as determined in good faith by or under the direction of the Fund's Board of Directors. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values.

Short-term securities which mature in sixty days or less, are valued at amortized cost, which approximates market value. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of the difference between the principal amount due at maturity and cost. Short-term securities which mature in more than sixty dates are valued at current market quotations.

The Fund may invest up to 20% of its total assets in securities which are not readily marketable, including those which are restricted as to disposition under securities law ( restricted securities ).

Other information regarding the Fund is available in the Fund's most recent Report to Shareholders. This information is available on the Securities and Exchange Commission's website ([www.sec.gov](http://www.sec.gov)).

**Item 2. Controls and Procedures**

- (a) It is the conclusion of the registrant's principal executive officer and principal financial officer that the effectiveness of the registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the registrant has been accumulated and communicated to the registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.
  
- (b) There have been no significant changes in the registrant's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

**Item 3. Exhibits**

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 Attached hereto.
