Item 2.02 Results of Operations and Financial Condition.

The First-Quarter 2007 Press Release furnished as Exhibit 99.1 hereto and the Supplemental Information regarding First-Quarter 2007 Results furnished as Exhibit 99.2 hereto, were posted on the Schlumberger internet web site (www.slb.com/ir) on April 20, 2007.

In addition to financial results determined in accordance with generally accepted accounting principles (GAAP) that are included in the attached First-Quarter 2007 Press Release and Supplemental Information, these documents also include the following non-GAAP financial measures (as defined under the SEC's Regulation G):

Net debt: Net debt is gross debt less cash, short-term investments and fixed income investments held to maturity. Management believes that net debt provides useful information regarding the level of Schlumberger's indebtedness by reflecting cash and investments that could be used to repay debt, and that the level of net debt provides useful information as to the results of Schlumberger's deleveraging efforts.

Return on Capital Employed: Return on capital employed (ROCE) is computed as (1) net income excluding charges and credits plus minority interest plus interest expense minus interest income minus tax benefit on interest expense, divided by (2) the quarterly average of (stockholders' equity plus net debt plus minority interest). Management believes that ROCE provides useful information regarding the value Schlumberger creates for the providers of capital, namely stockholders and bondholders, by reflecting the level of net income generated by continuing operations using a given level of capital.

The foregoing non-GAAP financial measures should be considered in addition to, not as a substitute for, or superior to, total debt, net income, cash flows or other measures of financial performance prepared in accordance with GAAP as more fully discussed in Schlumberger's financial statements and filings with the Securities and Exchange Commission.

Item 9.01 Financial Statements and Exhibits.
