1. Review of operations and financial condition

(1) Summary of the results of operations for the six months under review

For the six months ended September 30, 2010, revenues of Kubota Corporation and subsidiaries (hereinafter, the Company) increased ¥4.4 billion [1.0 %], to ¥449.0 billion from the corresponding period in the prior year.

Domestic revenues decreased ¥3.8 billion [1.7 %], to ¥224.8 billion, due to decreases in revenues in Water & Environment Systems and Social Infrastructure, while revenues in Farm & Industrial Machinery and Other increased. Overseas revenues increased ¥8.3 billion [3.8 %], to ¥224.3 billion, because increase of revenues in Farm & Industrial Machinery compensated declines of revenues in other segments.

Operating income increased ¥10.0 billion [30.3 %], to ¥43.2 billion from the corresponding period in the prior year, due to an increase in revenues in Farm & Industrial Machinery and progressing cost reduction. Income before income taxes and equity in net income of affiliated companies increased ¥9.8 billion [29.3 %], to ¥43.0 billion. Income taxes were ¥14.7 billion [representing an effective tax rate of 34.2 %], and net income increased ¥6.3 billion [27.7 %], to ¥28.9 billion. Net income attributable to Kubota Corporation increased ¥6.4 billion [33.1 %], to ¥25.7 billion from the corresponding period in the prior year.

Review of operations by reporting segment

1) Farm & Industrial Machinery

Farm & Industrial Machinery comprises farm equipment, engines and construction machinery.

Revenues in this segment increased 6.8%, to ¥330.7 billion from the corresponding period in the prior year, comprising 73.6 % of consolidated revenues.

Domestic revenues increased 4.2 %, to ¥121.0 billion. Sales of farm equipment increased supported by steady demand. Sales of engines and construction machinery largely increased due to the upswing in the markets.

Overseas revenues increased 8.3 %, to ¥209.7 billion. In North America, although sales in Canada were sluggish, sales of tractors increased in the U.S. and sales of engines recorded a substantial increase due to the recovery in demand. In Europe, sales of construction machinery and engines considerably increased due to the market upturn. In Asia outside Japan, sales of farm equipment registered a modest increase due to the broken weather and low price of rice. On the other hand, sales of construction machinery increased largely.

Operating income in Farm & Industrial Machinery increased 42.0 %, to ¥46.6 billion due to increased revenues and cost reductions.

2) Water & Environment Systems

Water & Environment Systems comprises pipe-related products (ductile iron pipes, plastic pipes, valves, and other products) and environment-related products (environmental plants, pumps and other products).

Revenues in this segment decreased 17.6 %, to ¥74.7 billion from the corresponding period in the prior year, comprising 16.6 % of consolidated revenues.

Domestic revenues decreased 11.7 %, to ¥68.4 billion. Sales of pipe-related products such as ductile iron pipes and plastic pipes decreased due to slashes in public investment. Sales of environment-related products also decreased mainly due to a decrease in sales of products related to

Edgar Filing: KUBOTA CORP - Form 6-K

water and sewage treatment. Overseas revenues decreased 52.2 %, to ¥6.3 billion, owing to sales declines of ductile iron pipes for the Middle East market and decreases in sales of valves and pumps.

Operating income in Water & Environment Systems decreased 65.1 %, to ¥2.1 billion due to decreased revenues and higher cost of raw materials.

3) Social Infrastructure

Social Infrastructure comprises industrial castings, spiral welded steel pipes, vending machines, electronic equipped machinery, and air-conditioning equipment.

Revenues in this segment decreased 2.7 %, to ¥31.2 billion from the corresponding period in the prior year, comprising 7.0 % of consolidated revenues.

Domestic revenues decreased 1.6 %, to ¥23.3 billion. Sales of air-conditioning equipment and electronic equipped machinery increased. Sales of industrial castings and vending machines remained at the same level as the corresponding period in the prior year. On the other hand, sales of spiral welded steel pipes substantially decreased. Overseas revenues decreased 5.9 %, to ¥8.0 billion owing to the sales decline of industrial castings in Europe and the Middle East.

Operating income in Social Infrastructure decreased 15.2 %, to ¥1.9 billion mainly due to decreased revenues and tightening competition.

4) Other

Other comprises construction, services and other businesses.

Revenues in this segment increased 2.3 %, to ¥12.5 billion from the corresponding period in the prior year, comprising 2.8 % of consolidated revenues. The increase was mainly due to increase in sales of services, while sales of construction decreased.

Operating income in Other decreased 31.5 %, to ¥0.8 billion.

(2) Financial condition

Assets, liabilities and equity

Total assets at the end of September 2010 amounted to ¥1,357.4 billion, a decrease of ¥51.7 billion from the end of March 2010. As for Assets, current assets largely decreased due to declines of notes and accounts receivable and cash and cash equivalents.

As for liabilities, current liabilities largely decreased because of a decrease in short-term borrowings and long-term liabilities decreased mainly due to a decline of long-term debt.

Equity increased modestly because an increase in retained earnings was mostly offset by an increase in accumulated other comprehensive loss attributable to the appreciation of the yen and declines in the stock market prices. Shareholders' equity ratio was 46.2 %, 1.7 percentage points higher than the prior year end.

Cash flows

Net cash provided by operating activities during the six months under review was ¥53.2 billion, an increase of ¥11.3 billion of cash inflow from the corresponding period in the prior year. This increase was mainly due to an increase in net income and a decrease in working capital.

Net cash used in investing activities was ¥28.7 billion, an increase of ¥8.1 billion of cash outflow from the corresponding period in the prior year. This increase was mainly due to a larger increase in finance receivables as well as a decrease in proceeds from sales and redemption of investments.

Edgar Filing: KUBOTA CORP - Form 6-K

Net cash used in financing activities was ¥30.5 billion, an increase of ¥32.5 billion of cash outflow from the corresponding period in the prior year. This substantial increase was mainly due to an increase in repayments of long-term debt.

As a result, including the effect of exchange rate, cash and cash equivalents at the end of September 2010 was ¥103.7 billion, a decrease of ¥7.8 billion from the beginning of the year.

(3) Prospect for the fiscal year under review

The forecasts of the anticipated results of operations for the year ending March 31, 2011, which were announced on May 11, 2010, remain unchanged.

The forecasts are based on the assumption of an exchange rate of ¥87=US\$1.

< Cautionary Statements with Respect to Forward-Looking Statements >

This document may contain forward-looking statements that are based on management's expectations, estimates, projections and assumptions. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results may differ materially from what is forecast in forward-looking statements due to a variety of factors, including, without limitation: general economic conditions in the Company's markets, particularly government agricultural policies, levels of capital expenditures, both in public and private sectors, foreign currency exchange rates, continued competitive pricing pressures in the marketplace, as well as the Company's ability to continue to gain acceptance of its products.
