Table of Contents

Report of Independent Registered Public Accounting Firm

To the Participants of the Bristol-Myers Squibb

Puerto Rico, Inc. Savings and Investment Program and the

Bristol-Myers Squibb Company Savings Plan Committee

We have audited the accompanying statement of net assets available for benefits of the Bristol-Myers Squibb Puerto Rico, Inc. Savings and Investment Program (the Program) as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Program's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Program's management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Bristol-Myers Squibb Puerto Rico, Inc. Savings and Investment Program as of December 31, 2010, and the changes in its net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

We have also audited the reclassification to the Program's December 31, 2009 statement of net assets available for benefits to retrospectively apply the adoption of a new accounting standard regarding the classification of participant loans. As discussed in Note 3 to the financial statements, such loans are segregated from investments in the accompanying December 31, 2010 statement of net assets available for benefits. In our opinion, such retrospective adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review, or apply any attest procedures to the 2009 financial statements of the Program other than with respect to the retrospective reclassification and, accordingly, we do not express an opinion or any other form of assurance on the 2009 financial statements taken as a whole.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at year-end) is presented only for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Program's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic 2010 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

Table of Contents

Report of Independent Registered Public Accounting Firm

To the Participants of the Bristol-Myers Squibb

Puerto Rico, Inc. Savings and Investment Program and the

Bristol-Myers Squibb Company Savings Plan Committee

We have audited, before the effects of the adjustments to retrospectively apply the change in accounting discussed in Note 3 to the financial statements, the accompanying statement of net assets available for benefits of the Bristol-Myers Squibb Puerto Rico, Inc. Savings and Investment Program (the Program) as of December 31, 2009 (the 2009 financial statement before the effects of the adjustments discussed in Note 3 to the financial statements is not presented herein). This financial statement is the responsibility of the Program's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. The Program is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Program's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statement, before the effects of the adjustments to retrospectively apply the change in accounting discussed in Note 3 to the financial statements, presents fairly, in all material respects, the net assets available for benefits of the Program as of December 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

We were not engaged to audit, review, or apply any procedures to the adjustments to retrospectively apply the change in accounting discussed in Note 3 to the financial statements and, accordingly, we do not express an opinion or any other form of assurance about whether such retrospective adjustments are appropriate and have been properly applied. Those retrospective adjustments were audited by other auditors.

SAVINGS AND INVESTMENT PROGRAM

NOTES TO FINANCIAL STATEMENTS

NOTE 1 PROGRAM DESCRIPTION AND RELATED INFORMATION

Description of the Program The Bristol-Myers Squibb Puerto Rico, Inc. Savings and Investment Program (the Program) is a defined contribution retirement plan that includes a cash or deferred arrangement as defined by Section 401(k) of the Internal Revenue Code, as amended (the Code) and is sponsored by Bristol-Myers Squibb Puerto Rico, Inc. (the Company). The Program is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is intended to be qualified under section 401(a) of the Code, as amended and under sections 1023(n) and 1165 of the Puerto Rico Internal Revenue Code of 1994 (PR IRC).

The description of the Program in the following notes provides only general information and does not modify any provision of the Program. Participants should refer to the Program's governing documents and/or Summary Program Description for a more complete description of the Program's provisions.

Program Administration The Bristol-Myers Squibb Company Savings Plan Committee (the Committee) is the Administrator, as defined by ERISA, of the Program and named fiduciary with respect to Program assets. Fidelity Employer Services Company provides recordkeeping services with respect to the Program. The assets of the Program are maintained in the Bristol-Myers Squibb Company Savings Plan Master Trust (the Savings Plan Master Trust), of which Fidelity Management Trust Company (Fidelity Trust) serves as directed trustee.

Employee Eligibility Any employee who meets certain service requirements, as defined in the Program document, is eligible to participate in the Program. Employees who are or may become eligible to participate in the Program (participants) may participate following their date of hire, although the Company matching contributions previously did not begin until an eligible employee had attained six months of service as prescribed by the Program. Additionally, for eligible employees who were new to the Company or who as of December 31, 2009 had not satisfied the six month waiting period, matching contributions became available effective January 1, 2010, or as soon as they began contributing to the Program. Subsequently, the six month waiting period has been eliminated.

Participant Contributions Participants can elect to contribute up to 16% of his or her annual benefit salary or wages (as defined in the Program document) on a pre-tax and/or after-tax basis, in all events, subject to Internal Revenue Service (IRS) annual limits and non-discrimination test results. The PR IRC limits the amount of annual pre-tax contributions to \$9 thousand. Participants may also elect a combination of contributions up to a combined total of 16%, both on an after-tax and pre-tax basis, subject to applicable limitations. Effective January 1, 2010, the definition of salary or wages was expanded so that in addition to base salary or wages it now includes: (1) annual bonuses and sales bonuses; (2) overtime and shift differentials; and (3) merit payments. The expanded definition of salary or wages applies for purposes of determining employee contributions and all employer contributions made on behalf of each eligible participant. Prior to January 1, 2010, if an eligible employee did not make a pre-tax and/or after-tax contribution election within his or her first 180 days of employment (from date of hire), the Company automatically started making contributions to the Program in his or her name at the rate of 6% of his or her annual benefit salary or wages through pre-tax salary reductions starting with the first payroll period after the date that is 180 days after his or her date of hire. Effective January 1, 2010, automatic contributions began starting with the first payroll period after the date that is 45 days after his or her date of hire. These contributions will be identical to pre-tax contributions elected by a participant, including immediate 100% vesting and matched on the same terms. The participant may change the contribution rate, including ceasing all elective contributions, and may elect after-tax or a combination of pre-tax and after-tax elective contributions at any time. In the absence of an affirmative investment direction from the participant, 100% of the automatic contribution will be invested in the qualified default investment alternative, which is currently the T. Rowe Price Retirement Fund for the year closest to the year in which the participant would attain age 65. The Program has an annual increase feature that allows participants to schedule an automatic increase in their pre-tax and/or after-tax contributions to the Program of 1% to 3% annually, subject in all events to the Program's maximum deferral rate of 16%.

The Program also allows for catch-up contributions for participants who are 50 years of age or older. Catch-up contributions are intended to give eligible participants the opportunity to make additional pre-tax contributions over the applicable Code, PR IRC and Program limits. Catch-up contributions can be from 1% to 10% of base pay, limited to \$1,000 in 2010 and 2009. There is no Company match on catch-up contributions.

Table of Contents

BRISTOL-MYERS SQUIBB PUERTO RICO, INC.

SAVINGS AND INVESTMENT PROGRAM

NOTES TO FINANCIAL STATEMENTS

Employer Contributions During 2009, the Company contributed a matching contribution equal to 75% of pre-tax and/or after-tax contributions up to 6% of the participant's annual benefit salary or wages elected by a participant at the time of their contribution. Under the PR IRC, after-tax contributions not subject to a matching contribution may not exceed 10% of the participant's annual benefit salary or wages. Effective January 1, 2010, the Company's matching contribution increased from 75% to 100% for each dollar a participant contributes to the Program up to 5% of their total salary or wages.

Effective January 1, 2010, the Company may make an additional annual contribution for each eligible employee, regardless of whether the eligible employee contributes to the Program. As a default, the additional annual contribution is determined as a defined percentage of salary or wages, which ranges from 2% up to 4% based on points equal to the sum of age plus years of service, rounded up, as of the December 31st of the calendar year for which the contribution is made. An eligible employee must be actively employed, as defined in the Program documents, on December 31st of the year for which the contribution is made in order to receive an additional annual contribution unless the otherwise eligible employee is not actively at work on the last day of the year due to death, disability or retirement during the year or due to involuntary termination effective on or after September 30 of the year. At December 31, 2010, the Program accrued additional annual employer contributions of \$1.6 million, which were funded in 2011.

Effective January 1, 2010, the Company may also make a transition contribution for participants, who, as of December 31, 2009, have: (1) age plus service equal to at least 60; and (2) completed at least 10 years of vesting service. The transition contribution is equal to 2% of salary or wages. The eligible participant must continue to be actively employed on December 31st of the year for which the contribution is made in order to receive a transition contribution, subject to the same exceptions as indicated above. Transition contributions will continue for up to five years through December 31, 2014, as long as the eligible participant remains employed. At December 31, 2010, the Program accrued transition employer contributions of \$364 thousand, which were funded in 2011.

Investment Decisions The Program gives participants the opportunity to direct the manner in which contributions made to the Program in their name, including matching and, where applicable, additional annual and transition contributions, and earnings thereon, are invested among a variety of investment funds. During the years ended December 31, 2010 and 2009, contributions were invested in any one or more of the funds which comprise the Savings Plan Master Trust, see Note 5. Savings Plan Master Trust for further information regarding investments. The default fund for all contributions as to which no affirmative investment direction is given is currently the T. Rowe Price Retirement Fund for the year closest to the year in which the participant would attain age 65.

Participant Accounts Each participant's account under the Program is credited with the participant's elected pre-tax and/or after-tax contributions, the Company's matching contributions, and the participant's respective share of Program earnings and is charged with participant withdrawals and distributions, and the participant's respective share of Program losses. The benefit to which a participant is entitled is the participant's vested Program account.

Participant Loans While employed, a participant may request a loan from the Program. The amount of the loan may not exceed the lesser of (1) 50% of the participant's entire vested interest under the Program, determined as of the valuation date, or (2) \$50,000 less the highest outstanding loan balance during the previous 12 months. Loans are secured by the balance in the participant accounts and bear interest at rates set by the Committee. Repayments and interest are credited to the Program account of the participant.

Withdrawals Prior to Retirement While employed, a participant may withdraw all or part of the employee and vested employer contributions, subject to certain restrictions imposed pursuant to the Program and excise taxes imposed by the Code and PR IRC.

Vesting Matching, additional annual and transition contributions vest at the rate of 20% for each year of qualifying service. In addition, upon becoming eligible for benefits under the Company's long-term disability benefits plan, death or normal retirement, or a change in control as defined in Bristol-Myers Squibb Company Change in Control Separation Benefits Plan, a participant will become 100% vested in matching, additional annual, and transition contributions regardless of his or her years of service. A participant is always 100% vested in pre-tax, after-tax, rollover contributions from other plans and catch-up contributions, as well as earnings thereon.

Edgar Filing: BRISTOL MYERS SQUIBB CO - Form 11-K

Forfeitures If a participant's employment terminates before he or she has become fully vested, the unvested portion of matching contributions credited to his or her account are forfeited and may be used to reduce future matching contributions or pay expenses of Plan administration. During the year ended December 31, 2010, matching contributions were reduced by \$40 thousand from forfeitures. At December 31, 2010 and 2009, the balance of unused forfeited funds available to offset future employer matching contributions was \$43 thousand and \$153 thousand, respectively. Participants who return to work for the Company who were partially or fully vested prior to their termination will be reinstated to their previous level of vesting and may immediately enroll in the Program.

Table of Contents

BRISTOL-MYERS SQUIBB PUERTO RICO, INC.

SAVINGS AND INVESTMENT PROGRAM

NOTES TO FINANCIAL STATEMENTS

Termination of Employment and Payment of Benefits Upon the termination of employment, the participant, or in the event of his or her death, the participant's spouse or designated beneficiary, may, under varying circumstances, receive (1) a lump sum payment, or (2) equal annual installments over a period not greater than 15 years. If the participant chooses to have the payments made in annual installments, then the participant may also choose to have payments continue to his or her beneficiary if the participant dies before receiving all of the installments. If the participant chooses to have the payment made in installments and does not elect to have payments continue to his or her beneficiary on an installment basis, in the event of the participant's death, the beneficiary can choose to receive the unpaid balance in a single payment or over a period of two to five years. In each case the payment will be based on the vested value in the respective funds allocated to the participant.

Net Transfers A participant's account could be transferred to another company's qualified defined contribution plan if required under the terms of a Company transaction. Similarly, new accounts could be transferred in from another company's qualified defined contribution plan, if required under the terms of a business acquisition. For a discussion of significant transfer activity, see Note 2. Significant Program Activity.

Payment of Benefits Benefit payments are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Program but have not yet been paid as of December 31, 2010 and 2009.

Termination of the Program Although the Company has not expressed any intent to do so, it has the right to discontinue its contributions, amend, and terminate the Program at any time in its sole discretion in accordance with the provisions of ERISA. If the Program is terminated, the interest of each participant in all unvested employer contributions will vest immediately.

Starting in 2007, the Company began closing certain manufacturing facilities and production lines in Puerto Rico, which resulted in terminations through 2010. Those affected employees became 100% vested in their participant Program accounts.

NOTE 2 SIGNIFICANT PROGRAM ACTIVITY

During February 2009, Mead Johnson Nutrition Company (Mead Johnson) completed an initial public offering subsequent to which the Company held an 83.1% interest in Mead Johnson. In February 2009, there was a trust-to-trust asset transfer of approximately \$904 thousand from the Program to a Savings Program maintained by Mead Johnson. This transfer represented all Program assets associated with active employees of Mead Johnson as of February 9, 2009.

On December 23, 2009, the Company completed a divestiture of the remaining interest in Mead Johnson through a split-off by offering its previously owned 170 million shares of Mead Johnson common stock in exchange for 269 million outstanding shares of the Company's common stock. In conjunction with the split-off, participants in the Company Common Stock Fund had the one-time option to exchange one share of Bristol-Myers Squibb common stock held for a 0.6313 share of Mead Johnson common stock. Participants tendered 9,256 Bristol-Myers Squibb common shares for 5,843 Mead Johnson common shares initially valued at \$253 thousand. Balances can remain in the Mead Johnson Stock Fund for two years as of the split-off date but no new contributions or transfers into the Mead Johnson Stock Fund are permitted. Participants may direct the trustee to liquidate some or all of their holdings in the Mead Johnson Stock Fund at any time during this two year period and reinvest the proceeds in other funds available under this Program. The fund will be discontinued effective December 22, 2011. Any remaining participant balances will be transferred, at that date, to other funds offered by the Program as directed by the Program participants. If no direction is provided, then the remaining balance will be transferred to the T. Rowe Price Retirement Fund for the year closest to the year in which the participant would attain age 65.

Effective September 1, 2009, the Fixed Income Fund, including the Fidelity Institutional Cash Portfolio Money Market Fund and Guaranteed Investment Contracts (GICs), was transferred to the Galliard Fixed Income Fund. This fund is comprised of GICS and synthetic GICs as well as a collective trust fund. The previous Fixed Income Fund utilized a constant \$1 NAV and interest was posted once a month to participant accounts. For the Galliard Fixed Income Fund, interest earned is reflected by a daily increase in the NAV, and included in the net appreciation in fair value investments.

Table of Contents

BRISTOL-MYERS SQUIBB PUERTO RICO, INC.

SAVINGS AND INVESTMENT PROGRAM

NOTES TO FINANCIAL STATEMENTS

NOTE 3 BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment Valuation The assets of the Program, as well as the assets of the Bristol-Myers Squibb Company Savings and Investment Program (the Savings Program) and the Bristol-Myers Squibb Company Employee Incentive Thrift Plan (the Thrift Plan) are maintained in the Savings Plan Master Trust, see Note 5. Savings Plan Master Trust. For a discussion of the valuation policies for each investment class, see Note 4. Fair Value Measurement.

Income Recognition Interest, dividends, and realized and unrealized gains/(losses) earned/(incurred) from participation in the Savings Plan Master Trust are allocated to the Program based upon participants' account balances and activity. This investment activity is presented on a net basis in the Statement of Changes in Net Assets Available for Benefits as the Program's share of net investment income in the Savings Plan Master Trust and is accounted for as follows:

Interest is accrued by the Savings Plan Master Trust as earned.

Dividends are recorded on the ex-dividend date.

Purchases and sales of securities are recorded by the Savings Plan Master Trust on a trade-date basis.

Realized gains and losses for security transactions are reported using the average cost method.

Expenses All expenses incurred by the Program are the obligation of the Program and are payable by the Savings Plan Master Trust fund's assets unless the Company, in its sole discretion, pays such expenses, in which event, the Company may request and the Savings Plan Master Trust may provide reimbursement to the Company. Management fees charged to the Program for investments are deducted from income earned on a daily basis and are not separately reflected in the Program's share of net investment income in the Savings Plan Master Trust. Consequently, management fees are reflected as a reduction of investment return for such investments.

Use of Estimates The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions to the net assets available for benefits during the reporting period. Actual results may or may not differ from estimated results.

Financial Instruments and Investments The Savings Plan Master Trust holds various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. The Savings Plan Master Trust is exposed to credit loss in the event of non-performance by the GIC issuers. However, GIC issuer non-performance is not considered probable and the risk to the Savings Plan Master Trust portfolio from credit loss is mitigated by the diversified nature of the assets held. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is reasonably possible that significant changes in the values of investment securities could occur in the near term and such changes could have a material adverse effect on the Program's financial statements.

Edgar Filing: BRISTOL MYERS SQUIBB CO - Form 11-K

Income Taxes and Tax Status The Program is designed to meet the requirements of a qualified plan under Sections 401(a) and 401(k) of the U.S. Internal Revenue Code (U.S. IRC), and Sections 1165(a) and 1165(e) of the Puerto Rico Internal Revenue Code. In the Program's latest determination letter dated July 8, 2003, the U.S. Internal Revenue Service (U.S. IRS) stated that the Program, as then designed, was in compliance with the applicable requirements of the U.S. IRC. Because the Program is intended to qualify under both the U.S. IRC and the PR IRC, it must meet the qualification requirements of both statutes. The Program was restated in November 2005 to comply with U.S. and Puerto Rico law, as applicable, and amended from time to time thereafter, to comply with U.S. and Puerto Rico law, as applicable, and design changes adopted by the Company. In January 2011, a proposed restatement of the Program was submitted to the U.S. IRS for a determination letter as to whether the Program, as amended and proposed to be restated, meets the qualification requirements of Section 401 of the U.S. IRC and that the trust under the Program continues to be tax-exempt under Section 501(a) of the U.S. IRC. The Company is awaiting a response from the U.S. IRS with respect to this request. In August 2006, the Program was submitted to the Department of the Treasury of the Commonwealth of Puerto Rico (the PR Treasury) for a determination letter as to whether the Program meets the qualification requirements of Section 1165 of the PR IRC. The PR Treasury issued a favorable determination letter for the Program dated May 2, 2007. On June 18, 2010, the Program was submitted to the PR Treasury for a determination letter as to whether the Program meets the qualification requirements of Section 1165 of the PR IRC., which application is pending.

Table of Contents

BRISTOL-MYERS SQUIBB PUERTO RICO, INC.

SAVINGS AND INVESTMENT PROGRAM

NOTES TO FINANCIAL STATEMENTS

The Plan Administrator believes, to the best of its knowledge, that the Program is currently designed and operated in material compliance with the applicable requirements of the U.S. IRC, the PR IRC and ERISA, and that the Program and Savings Plan Master Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Program's financial statements. Contributions made by participants on a pre-tax basis, the Company's matching and, where applicable, additional annual and transition contributions, and the earnings thereon are not included in participants' gross income for the purposes of income taxes until distributed from the Program.

U.S. GAAP requires Program management to evaluate tax positions taken by the Program and recognize a related tax liability (or asset) if the program has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Program management has analyzed the tax positions taken by the Program, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Program is subject to routine audits by taxing jurisdictions. The Program's Form 5500 for the 2006 Plan Year is currently under examination by the U.S. IRS. Currently, no adjustments have been requested and no taxes or penalties have been assessed. Program management believes it is no longer subject to income tax examinations for years prior to 2006. In addition, there have been no tax related interest or penalties for periods presented in these financial statements.

Recently Issued Accounting Standards In September 2010, the Financial Accounting Standards Board (FASB) issued a new standard which required participant loans to be classified as notes receivable from participants, which are to be segregated from investments in the Program's financial statements. The standard eliminates the requirement to report the fair value of participant loans, which are now measured at their unpaid principal balance plus and accrued but unpaid interest. This standard is effective for the Program's year ended December 31, 2010. As a result of retrospective application from the adoption of this accounting standard, participant loan amounts as of December 31, 2009 have been reclassified from investments to notes receivable from participants to conform to the current year presentation.

In January 2010, the FASB issued a new standard adding new disclosure requirements for transfers of Level 1 and 2 assets, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. The standard is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. Adoption of this standard did not impact the Program's financial statements.

NOTE 4 FAIR VALUE MEASUREMENT

Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Program utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The fair values of Savings Plan Master Trust investments held are classified into the following fair value hierarchy levels:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable prices for similar instruments, quoted prices for identical or similar instruments in markets that are not active, or other observable inputs that can be corroborated by market data for substantially the full term of the assets or liabilities

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The Savings Plan Master Trust's investment valuation policies for each investment class are as follows:

The Company Stock Fund and Mead Johnson Stock Fund consist primarily of shares of common stock of Bristol-Myers Squibb Company and Mead Johnson Nutrition Company, respectively, and are valued based upon quoted prices at the last reported sales price at the end of the year, or, if there was not a sale that day, the last reported bid price. From time to time, the Company Stock Fund and Mead Johnson Stock Fund may invest in U.S. government obligations or other investments of a short-term nature, which will ultimately be used for the purchase of shares of common stock of the Bristol-Myers Squibb

Table of Contents

BRISTOL-MYERS SQUIBB PUERTO RICO, INC.

SAVINGS AND INVESTMENT PROGRAM

NOTES TO FINANCIAL STATEMENTS

Company and Mead Johnson Nutrition Company, respectively. Such investments are valued at cost plus interest earned, which approximates fair value.

Mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Program at year end.

Money market instruments are valued at cost plus interest earned, which approximates their fair value.

Common collective trust (CCT) fund fair values are determined daily by the respective fund manager and represent the net asset value (NAV) of the underlying investments within the respective CCTs. The net asset value represents the price at which Program participants would transact their respective CCT interest at any point in time. The CCTs are comprised of equity index funds and equity funds primarily invested in publicly traded securities, cash investments, and other short term investments. There were no significant unfunded commitments or restrictions on redemptions related to the CCTs as of December 31, 2010.

Fixed Income Fund investments include fully benefit-responsive investment contracts, comprised of traditional guaranteed investment contracts (GICs), security-backed contracts (synthetic GICs), and the Wells Fargo Stable Return Fund, a fixed income collective trust fund. These investments are stated at fair value within the Program's interest in Savings Plan Master Trust line item and then adjusted on a separate line item to contract value in the Statements of Net Assets Available for Benefits. The Fixed Income Fund utilizes a NAV that reflects interest earned by a daily increase to NAV. There were no significant unfunded commitments or restrictions on redemptions related to the Fixed Income Fund as of December 31, 2010.

The fair value of the GICs is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

The fair value of synthetic GICs equals the total of the fair value of the underlying assets plus the fair value of the wrapper contract. A wrapper contract is an agreement by another party to make payments to the Fixed Income Fund in certain circumstances. The fair value of these wrapper contracts was not considered to be material as of December 31, 2010 and 2009. Wrapper contracts are designed to allow synthetic GIC portfolios to maintain NAV and to ensure the future minimum interest crediting rate does not fall below zero. The assets underlying the synthetic GICs were primarily comprised of U.S. government securities in fixed income funds. The fair value of the fixed income funds is determined by the respective fund manager on a daily basis and represents the NAV of the underlying investments. In the event that wrapper contracts fail to perform as intended, the Fixed Income Fund's NAV may decline if the market value of its assets declines. The Fixed Income Fund's ability to receive amounts due pursuant to these wrapper contracts is dependent on the third-party issuer's ability to meet their financial obligations. The wrapper issuer's ability to meet its contractual obligations under the wrapper contracts may be affected by future economic and regulatory developments.

The Fixed Income Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrapper contracts covering all of its underlying assets. This could result from the Fund's inability to promptly find a replacement wrapper contract following termination of a wrapper contract. Wrapper contracts are non-transferable and have no trading market. There are a limited number of wrapper issuers. The synthetic GICs do not permit the wrapper issuer to terminate the agreement prior to the scheduled maturity date.

The fair value of the Wells Fargo Stable Return Fund is determined by the fund manager on a daily basis and represents the NAV of the underlying investments. The Wells Fargo Stable Return Fund primarily invests in GICs, synthetic GICs, and cash equivalents.

The valuation methods as described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Program believes its valuation methods are appropriate and consistent with other market participants, the

Edgar Filing: BRISTOL MYERS SQUIBB CO - Form 11-K

use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the Program s Savings Plan Master Trust investments by fair value hierarchy level described above, see Note 5. Savings Plan Master Trust.

SAVINGS AND INVESTMENT PROGRAM

NOTES TO FINANCIAL STATEMENTS

The Program's estimated share of investments within the Savings Plan Master Trust stated at fair value that represented 5% or more of the Program's net assets available for benefits as of December 31, 2010 and 2009 were as follows:

(Dollars in Thousands)	2010	2009
Investments:		
Company Stock Fund - Bristol-Myers Squibb Company Common Stock	\$ 18,302	\$ 21,347
Fidelity Growth Company Fund	4,420	3,464
Fidelity U.S. Equity Index Commingled Pool - Class 2	3,613	3,183
Fixed Income Fund - GICs*	15,233	22,776
Fixed Income Fund - Wells Fargo Stable Return Fund**	10,271	***

* The contract value of this investment was \$14,803 and \$21,657 at December 31, 2010 and 2009, respectively.

** The contract value of this investment was \$10,050 at December 31, 2010.

*** This investment did not meet the 5% threshold at December 31, 2009.

The following table summarizes the activity for those financial assets within the Savings Plan Master Trust where fair value measurements are estimated utilizing Level 3 inputs:

(Dollars in Thousands)	Fixed Income Fund 2010	GICs 2009
Fair value as of January 1	\$ 369,683	\$ 565,075
Unrealized (losses)/gains included in Statements of Changes in Net Assets Available for Benefits	(1,698)	7,652
Purchases, sales, issuances, and settlements, net	(67,644)	(203,044)
Fair value as of December 31	\$ 300,341	\$ 369,683

The total net investment income of the Savings Plan Master Trust for the year ended December 31, 2010 was as follows:

(Dollars in Thousands)	
Net investment income:	
Interest income	\$ 6,795
Dividend income	29,676
Net appreciation in fair value of investments	272,685
Total net investment income	\$ 309,156

The net appreciation in the fair value of the Savings Plan Master Trust investments (including gains and losses on investments bought and sold, as well as held during the year) by major investment category for the year ended December 31, 2010 were as follows:

Edgar Filing: BRISTOL MYERS SQUIBB CO - Form 11-K

SAVINGS AND INVESTMENT PROGRAM

NOTES TO FINANCIAL STATEMENTS

NOTE 6 FIXED INCOME FUND

The Program offers a Fixed Income Fund, within the Savings Plan Master Trust, as an investment available to participants. The Fixed Income Fund holds GICs and synthetic GICs with various issuers in several fully benefit-responsive investment contracts plus a collective trust fund which provide a guarantee of principal and interest at a guaranteed rate. Each fully benefit responsive investment contract is presented in the Statements of Net Assets Available for Benefits at fair value within the Program's interest in the Savings Plan Master Trust line item and then adjusted on a separate line item in the Statement of Net Assets Available for Benefits to contract value. Contract value represents contributions made to the fund, plus earnings on the underlying investments, less participant withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at any time at contract value, which represents the Fixed Income Fund's NAV, as reported by the fund manager. Certain events may limit the ability of the fund to transact at contract value with the issuer, such as premature termination of the contracts by the fund, significant plant closings, significant layoffs, plan terminations, bankruptcy, mergers, or the Program's loss of its qualified status. Program management believes that the occurrence of events that would cause participants to transact at less than contract value is not probable. The issuers may not terminate a contract at any amount less than contract value.

There are currently no reserves against contract value for credit risk of the contract issuers or otherwise.

The GIC and synthetic GIC issuers are contractually obligated to pay the principal and specified interest rate that is guaranteed to the Program. All contracts pay interest on a net basis. The crediting interest rate is reset and declared on a daily basis. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than the percentage based on the individual contracts which range during 2010 from 4.81% to 5.56% for the Program. The Program's Fixed Income Fund crediting interest rate was 4.19% and 5.0% as of December 31, 2010 and 2009, respectively. The key factors that influence future interest crediting rates for a wrapper contract include current interest rates, the investment returns generated by the fixed income investments that back the wrapper contract, and the duration of the underlying investments backing the wrapper contract. At any point in time, the Fixed Income Fund's average yield will be a combined rate based upon the balances and the interest rates of the investments which comprise the fund, and depends on the amount of contributions invested in the fund, the amounts withdrawn from the fund and the amounts transferred to and from the fund. The fund's average yield is measured by the investment manager using general market reporting methods. The crediting interest rate at any date is the weighted-average of the yields on the individual contracts and other investments in the Fixed Income Fund on that date.

The average yields for investment contracts with issuers for the years ended December 31, 2010 and 2009 were as follows:

	2010	2009
Average yields:		
Based on annualized earnings ⁽¹⁾	4.19%	4.97%
Based on interest rate credited to participants ⁽²⁾	4.19%	4.97%

(1) Computed by dividing the annualized one-day actual earnings of the investment contract on the last day of the Program year by the fair value of the investments on the same date.

(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the Program year by the fair value of the investments on the same date.

NOTE 7 RECONCILIATION TO FORM 5500

The accompanying financial statements present fully benefit-responsive synthetic GICs held in the Fixed Income Fund at contract value. The Form 5500 requires fully benefit-responsive synthetic GICs to be reported at fair value. Therefore, the adjustment from fair value to contract value for fully benefit-responsive synthetic GICs represents a reconciling item. Additionally, the Form 5500 requires the Savings Plan Master Trust to file a separate 5500 as a direct filing entity, which includes the total Savings Plan Master Trust administrative expenses per Schedule C

Edgar Filing: BRISTOL MYERS SQUIBB CO - Form 11-K

Service Provider Information. As such, the Program does not report administrative expenses attributable to the Savings Plan Master Trust on the Program Form 5500 filing. The Form 5500 also requires participant loans to be recorded as investments, while U.S. GAAP requires participant loans to be recorded as notes receivable from participants.

The following is a reconciliation of the Program interest in the Savings Plan Master Trust per the financial statements to the Form 5500 as of December 31:

(Dollars in Thousands)	2010	2009
Program interest in Savings Plan Master Trust per the financial statements	\$ 63,676	\$ 62,881
Less: Adjustment from fair value to contract value for fully benefit-responsive contracts	(640)	(1,127)
Add: Adjustment from contract value to fair value for fully benefit-responsive synthetic GICs	221	8
Value of interest in master trust investment accounts per the Form 5500	\$ 63,257	\$ 61,762

Total net income per the Form 5500	\$ 3,338

NOTE 8 EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Edgar Filing: BRISTOL MYERS SQUIBB CO - Form 11-K

Certain Program investments are shares in registered mutual funds or units in pooled investment funds managed by affiliates of Fidelity Trust through the Savings Plan Master Trust. The transactions involving the registered mutual funds are exempt party-in-interest transactions pursuant to the Department of Labor Prohibited Transaction Class Exemption 77-4 and the transactions involving the pooled investment funds are exempt party-in-interest transactions pursuant to Section 408(b)(8) of ERISA. The Program also invests in shares of the Company and Mead Johnson. As of December 31, 2010 and 2009, the Program held 0.7 million shares and 0.8 million shares, respectively, of Company common stock with a cost basis of \$16.8 million and \$20.1 million, respectively. During the year ended December 31, 2010, the Program recorded dividend income on the Company's common stock of \$768 thousand. As of December 31, 2010 and 2009, the Program held 5 thousand shares and 6 thousand shares, respectively, of Mead Johnson common stock with a cost basis of \$213 thousand and \$234 thousand, respectively. During the year ended December 31, 2010, the Program recorded dividend income on Mead Johnson's common stock of \$5 thousand. The transactions in Company and Mead Johnson common stock were exempt party-in-interest transactions pursuant to section 408(e) of ERISA. In addition, certain Program participants borrowed from the Program. As of December 31, 2010 and 2009, the outstanding loans of the Program participants were \$1.7 million and \$1.6 million, respectively, with interest rates ranging from 4.25% to 9.25% and varying maturity dates. Program participants are a party-in-interest to the Program and these loans were exempt party-in-interest transactions pursuant to section 408(b)(1) of ERISA.
