CAUTIONARY STATEMENT

Certain statements made in this Quarterly Report on Form 10-Q are forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on management's expectations, beliefs, current assumptions, and projections. When used in this Quarterly Report on Form 10-Q, words such as may, will, expect, intend, estimate, anticipate, believe, should, project or plan or the negative thereof or similar words are intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond our control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. Those factors include, but are not limited to:

actions taken by our competitors and our ability to effectively compete in the increasingly competitive global electric motor, power generation and mechanical motion control industries;

our ability to develop new products based on technological innovation and the marketplace acceptance of new and existing products;

fluctuations in commodity prices and raw material costs;

our dependence on significant customers;

issues and costs arising from the integration of acquired companies and businesses, including the timing and impact of purchase accounting adjustments;

our dependence on key suppliers and the potential effects of supply disruptions;

infringement of our intellectual property by third parties, challenges to our intellectual property, and claims of infringement by us of third party technologies;

increases in our overall debt levels as a result of acquisitions or otherwise and our ability to repay principal and interest on our outstanding debt;

product liability and other litigation, or the failure of our products to perform as anticipated, particularly in high volume applications;

unanticipated costs or expenses that could be incurred relating to product warranty matters;

economic changes in global markets where we do business, such as reduced demand for the products we sell, currency exchange rates, inflation rates, interest rates, recession, foreign government policies and other external factors that we cannot control;

unanticipated liabilities of acquired businesses;

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

cyclical downturns affecting the global market for capital goods;

difficulties associated with managing foreign operations; and

other risks and uncertainties including but not limited to those described in **Risk Factors** in this Quarterly Report on Form 10-Q and from time to time in our reports filed with Securities and Exchange Commission.

Shareholders, potential investors, and other readers are urged to consider these factors in evaluating the forward-looking statements and cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included in this Quarterly Report on Form 10-Q are made only as of the date of this report, and we undertake no obligation to update these statements to reflect subsequent events or circumstances. Additional information regarding these and other risks and factors is included in **Item 1A Risk Factors** in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 2, 2011.

Table of Contents**REGAL BELOIT CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****October 1, 2011****(Unaudited)****1. BASIS OF PRESENTATION**

The accompanying (a) condensed consolidated balance sheet of Regal Beloit Corporation (the Company) as of January 1, 2011, which has been derived from audited financial statements, and (b) unaudited interim condensed consolidated financial statements as of October 1, 2011, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading.

It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and the notes thereto included in the Company's 2010 Annual Report on Form 10-K filed on March 2, 2011.

In the opinion of management, all adjustments considered necessary for a fair presentation of financial results have been made. Except as otherwise discussed, such adjustments consist of only those of a normal recurring nature. Operating results for the three and nine months ended October 1, 2011 are not necessarily indicative of the results that may be expected for the entire fiscal year ending December 31, 2011.

The Company operates on a 52/53 week fiscal year ending on the Saturday closest to December 31.

2. OTHER FINANCIAL INFORMATION**Inventories**

Cost for approximately 56% of the Company's inventory is determined using the last-in, first-out (LIFO) inventory valuation method. The approximate percentage distribution between major classes of inventories was as follows:

	October 1, 2011	January 1, 2011
Raw Material and Work in Process	36%	36%
Finished Goods and Purchased Parts	64%	64%

Property, Plant and Equipment

Property, plant, and equipment by major classification was as follows (in thousands):

	October 1, 2011	January 1, 2011
Land and Improvements	\$ 73,259	\$ 45,909
Buildings and Improvements	176,697	141,128
Machinery and Equipment	644,925	524,172
Construction in Progress	33,539	26,644
Property, Plant and Equipment	928,420	737,853
Less: Accumulated Depreciation	(384,699)	(341,477)
Net Property, Plant and Equipment	\$ 543,721	\$ 396,376

3. ACQUISITIONS

The results of operations for acquired businesses are included in the Condensed Consolidated Financial Statements from the dates of acquisition. Acquisition-related expenses were \$5.6 million and \$16.0 million for the three and nine months ended October 1, 2011, respectively.

EPC Acquisition

On August 22, 2011, the Company completed its acquisition of the Electrical Products Company (EPC) of A.O. Smith Corporation (NYSE: AOS). EPC manufactures and sells a full line of motors for hermetic, pump, distribution, HVAC, and general industrial applications. EPC is based in Tipp City, Ohio and has operations in the United States, Mexico, China, and the United Kingdom. The acquisition added technology and global capacity that will bring value to our customers with energy saving products, broader product offerings and better operating efficiencies. The purchase price included \$748.7 million paid in cash and 2,834,026 shares of Company common stock. EPC is reported as part of the Company's Electrical segment.

Table of Contents

The following summarizes the allocation of the estimated fair value of the assets acquired and liabilities assumed at the date of acquisition. The allocation of the purchase price is preliminary and differences between the preliminary and final purchase price allocation could be material. The Company has not completed its analysis estimating the fair value of inventory, property, plant, and equipment, intangible assets, income tax liabilities and certain contingent liabilities.

As of August 22, 2011 (in thousands):

Current assets	\$ 369,850
Property, plant and equipment	154,720
Intangible assets subject to amortization	122,500
Goodwill	357,233
Other assets	292
Total assets acquired	\$ 1,004,595
Current liabilities assumed	\$ (106,543)
Long-term liabilities assumed	(11,897)
Net assets acquired	\$ 886,155

The intangible assets of \$122.5 million acquired are primarily customer relationship and technology, with useful lives ranging from eight to fifteen years. Substantially all of the \$357.2 million of goodwill is estimated to be deductible for tax purposes.

EPC had sales of \$84.8 million and income from operations was not material primarily due to the impact of purchase accounting inventory adjustments in the period from August 22, 2011 to October 1, 2011.

Pro Forma Financial Information

The following pro forma financial information shows the results of continuing operations for the three and nine months ended October 1, 2011, and October 2, 2010, respectively, as though the acquisition of EPC occurred at the beginning of each respective fiscal year. The pro forma financial information includes, where applicable, adjustments for: (i) the amortization of acquired intangible assets, (ii) additional interest expense on acquisition related borrowings and (iii) the income tax effect on the pro forma adjustments. The pro forma adjustments related to the acquisition of EPC are based on a preliminary purchase price allocation. Differences between the preliminary and final purchase price allocation could have an impact on the pro forma financial information presented and such impact could be material. The pro forma financial information is presented for illustrative purposes only and is not necessarily indicative of the operating results that would have been achieved had the acquisition been completed as of the date indicated above or the results that may be obtained in the future, (in thousands, except per share amounts):

5. WARRANTY COSTS

The Company recognizes the cost associated with its standard warranty on its products at the time of sale. The amount recognized is based on historical experience. The following is a reconciliation of the changes in accrued warranty costs for the three and nine months ended October 1, 2011 and October 2, 2010 (in thousands):

	Three Months Ended		Nine Months Ended	
	October 1, 2011	October 2, 2010	October 1, 2011	October 2, 2010

Translation Adjustments	(117)	42	(43)	76
Ending balance	\$ 41,444	\$ 13,002	\$ 41,444	\$ 13,002

The accrued warranty costs for the nine months ended October 1, 2011 include an incremental \$28.0 million provision due to a production flaw, which has been corrected, in certain standard motors produced in one of the Company's facilities during a limited period in 2011. The \$28.0 million provision was the Company's best estimate of the warranty costs associated with the production flaw based on current analysis and is expected to be paid out within the next twelve months.

The accrued warranty costs are included with Other Accrued Expenses on the balance sheet.

6. BUSINESS SEGMENTS

The Company has two strategic businesses that are reportable segments, Mechanical and Electrical (dollars in thousands):

7. GOODWILL AND OTHER INTANGIBLES

Goodwill

As required, the Company performs an annual impairment test of goodwill during the fourth quarter or more frequently if events or circumstances change that would more likely than not reduce the fair value of its reporting units below their carrying value.

At October 1, 2011, substantially all of the Company's goodwill is attributable to the Electrical Segment and the Company believes that substantially all of the goodwill is deductible for tax purposes. The following information presents changes to goodwill during the periods indicated (in thousands):

8. DEBT AND BANK CREDIT FACILITIES

The Company's indebtedness as of October 1, 2011 and January 1, 2011 was as follows (in thousands):

	October 1, 2011	January 1, 2011
Senior notes	\$ 750,000	\$ 250,000
Term loan	165,000	165,000

At October 1, 2011, the Company had \$750.0 million of senior notes (the Notes) outstanding. During the quarter ended October 1, 2011, the Company issued \$500.0 million in senior notes (the 2011 Notes) in a private placement. The 2011 Notes were issued in five tranches with maturities from seven to twelve years and carry fixed interest rates. The Company also has \$250.0 million in senior notes (the 2007 Notes) issued in two tranches with floating interest rates based on a margin over the London Inter-Bank offered rate (LIBOR). Details on the senior notes at October 1, 2011 were (in millions):

Table of Contents

	Principal	Interest Rate	Maturity
Floating Rate Series 2007A	\$ 150.0	Floating (1)	August 2014
Floating Rate Series 2007A	\$ 100.0	Floating (1)	August 2017

Fixed Rate Series 2011A	\$ 230.0	4.8 to 5.0%	July 2021
Fixed Rate Series 2011A	\$ 170.0	4.9 to 5.1%	July 2023

(1) Interest rates vary as LIBOR varies. At October 1, 2011, the interest was between 0.9 and 1.0%.

On June 16, 2008, the Company entered into a Term Loan Agreement (Term Loan) with certain financial institutions, whereby the Company borrowed an aggregate principal amount of \$165.0 million. The Term Loan matures in June 2013, and borrowings generally bear interest at a variable rate equal to a margin over LIBOR. The margin varies with the ratio of the Company's total funded debt to consolidated earnings before interest, taxes, depreciation, and amortization (EBITDA) as defined in the Term Loan. These interest rates also vary as LIBOR varies. At October 1, 2011, the interest rate of 1.0% was based on a margin over LIBOR.

On June 30, 2011, the Company entered into a new \$500.0 million revolving credit facility (the Facility) that replaced its existing credit facility, which was set to mature in April, 2012. The Facility permits the Company to borrow at interest rates based upon a margin above LIBOR, which margin varies with the ratio of total funded debt to EBITDA as defined in the Facility. These interest rates also vary as LIBOR varies. At October 1, 2011, the interest rate of 1.9% was based on a margin over LIBOR. The Company pays a commitment fee on the unused amount of the Facility, which also varies with the ratio of total funded debt to EBITDA. The Facility matures in June 2016.

The Notes, the Term Loan, and the Facility require the Company to meet specified financial ratios and to satisfy certain financial condition tests. The Company was in compliance with all financial debt covenants as of October 1, 2011.

The Company entered into interest rate swap agreements to manage fluctuations in cash flows resulting from interest rate risk. (See also Note 14 of Notes to Condensed Consolidated Financial Statements.)

At October 1, 2011, other notes payable of approximately \$25.4 million were outstanding with a weighted average interest rate of 5.7%.

9. PENSION PLANS

The Company's net periodic defined benefit pension cost is comprised of the following components (in thousands):

	Three Months Ended		Nine Months Ended	
	October 1, 2011	October 2, 2010	October 1, 2011	October 2, 2010
Service cost	\$ 572	\$ 586	\$ 1,909	\$ 1,758
Interest cost	1,758	1,734	5,734	5,203
Expected return on plan assets	(1,623)	(1,566)	(5,279)	(4,697)
Amortization of prior service cost and net actuarial loss	876	611	2,712	1,832
Net periodic benefit expense	\$ 1,583	\$ 1,365	\$ 5,076	\$ 4,096

The estimated net actuarial loss and prior service cost for defined benefit pension plans that will be amortized from accumulated other comprehensive income (loss) into net periodic benefit cost during the 2011 fiscal year is \$3.3 million and \$0.2 million, respectively.

During the first nine months of 2011 and 2010, the Company contributed \$5.7 million and \$3.9 million, respectively, to defined benefit pension plans. The Company expects to contribute an additional \$1.3 million, for total contributions of \$7.0 million in 2011. The Company contributed a total of \$4.1 million in 2010. The assumptions used in the valuation of the Company's pension plans and in the target investment allocation have remained the same as those disclosed in the Company's 2010 Annual Report on Form 10-K filed on March 2, 2011.

Table of Contents**10. SHAREHOLDERS' EQUITY**

The Company recognized approximately \$4.0 million and \$1.9 million in share-based compensation expense for the three month period ended October 1, 2011 and October 2, 2010, respectively. Share-based compensation expense for the nine month period ended October 1, 2011 and October 2, 2010 was \$10.2 million and \$5.0 million, respectively. The total excess income tax benefit recognized relating to share-based compensation for the nine months ended October 1, 2011 and October 2, 2010 was approximately \$1.0 million and \$1.6 million, respectively. The Company recognizes compensation expense on grants of share-based compensation awards on a straight-line basis over the vesting period of each award. As of October 1, 2011, total unrecognized compensation cost related to share-based compensation awards was approximately \$21.2 million, net of estimated forfeitures, which the Company expects to recognize over a weighted average period of approximately 2.9 years.

The Company was authorized as of October 1, 2011 to deliver up to 5.0 million shares of common stock upon exercise of non-qualified stock options or incentive stock options, or upon grant or in payment of stock appreciation rights, and restricted stock. Approximately 1.4 million shares were available for future grant or payment under the various plans at October 1, 2011.

Share-based Incentive Awards

The Company uses several forms of share-based incentive awards, including non-qualified stock options, incentive stock options, and stock appreciation rights (SARs). All grants are made at prices equal to the fair market value of the stock on the grant dates, and expire ten years from the grant date. The Company values restricted stock awards at the closing market value of its common stock on the date of grant and restrictions generally lapse three years after the date of grant.

The majority of the Company's annual share-based incentive awards are made in the fiscal second quarter. The per share weighted average fair value of share-based incentive awards granted in the May 2011 annual grant was \$26.81. The fair market value of the awards is estimated on the date of grant using the Black-Scholes pricing model and the following assumptions: risk-free interest rate of 2.6%; expected dividend yield of 1.0%; expected volatility of 35.5%; and an estimated life of 7.0 years.

A summary of share-based awards (options and SARs) as of October 1, 2011 follows below. Forfeitures of share-based awards during the three months ended October 1, 2011 were immaterial.

	Shares	Wtd. Avg. Exercise Price	Wtd. Avg. Remaining Contractual Term (years)	Aggregate Intrinsic Value (in millions)
Number of shares:				
Outstanding	1,762,325	\$ 49.07	6.86	\$ 6.7
Exercisable	793,875	38.43	5.18	5.8

Restricted Stock

As of October 1, 2011, the Company had 232,730 shares of restricted stock outstanding with a weighted average grant date fair value of \$61.22 and a weighted average life of 2.1 years. The Company values restricted stock awards at the closing market value of its common stock on the date of grant and restrictions generally lapse three years after the date of the grant. In the first nine months of 2011, 30,350 shares of restricted stock vested with a weighted average fair value of \$43.56 per share, 82,203 shares of restricted stock were granted with a weighted average fair value of \$71.80 per share, and 300 shares of restricted stock were forfeited with a weighted average fair value of \$52.01 per share.

11. INCOME TAXES

The effective tax rate for the three months ended October 1, 2011 was 30.3% versus 30.2% for the three months ended October 2, 2010. The effective tax rate for the nine months ended October 1, 2011 was 30.1% versus 31.2% in the prior period. The change in the effective rates was driven by changes in the global distribution of income.

As of October 1, 2011 and January 1, 2011, the Company had approximately \$5.3 million and \$5.5 million respectively, of unrecognized tax benefits, all of which would affect its effective tax rate if recognized. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense.

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. Federal tax returns from 2008 through 2010 and various state tax returns remain subject to income tax examinations by tax authorities.

Table of Contents**12. EARNINGS PER SHARE (EPS)**

The numerator for the calculation of basic and diluted earnings per share is Net Income Attributable to Regal Beloit Corporation. The denominator is computed as follows:

	Three Months Ended		Nine Months Ended	
	October 1, 2011	October 2, 2010	October 1, 2011	October 2, 2010
Denominator for basic EPS weighted average	39,931,610	38,581,166	39,075,118	38,112,515
Effect of dilutive securities	490,049	441,969	573,367	763,463
Denominator for diluted EPS	40,421,659	39,023,135	39,648,485	38,875,978

The Effect of dilutive securities represents the dilution impact of equity awards and convertible notes that were fully converted during 2010. The dilutive effect of the convertible notes was approximately 0.3 million shares for the nine months ended October 2, 2010.

For the three months ended October 1, 2011 and October 2, 2010, the Company had approximately 0.6 million and 0.3 million shares where the exercise price was above the market price, which were excluded from the calculation of the effect dilutive shares as the effect of such options was anti-dilutive. Options for common shares where the exercise price was above the market price for the nine months ended October 1, 2011 and October 2, 2010 totaling approximately 1.3 million and 1.0 million shares have been excluded from the calculation of the effect of dilutive securities as the effect of such options is anti-dilutive.

13. CONTINGENCIES

On August 25, 2011 one of the Company's subsidiaries, RBC Manufacturing Corporation, and Nordyne LLC entered into a settlement agreement resolving the patent litigation that was filed by Nordyne and that was pending in the U.S. District Court for the Eastern District of Missouri, Civil Action No. 4:09-cv-00203-ERW. Under the terms of the settlement agreement, both parties have dismissed their respective claims, we have received an undisclosed payment from Nordyne, and Nordyne shall have the rights under the asserted patent to continue to manufacture and sell all of its products.

One of the Company's subsidiaries that it acquired in 2007 is subject to numerous claims filed in various jurisdictions relating to certain sub-fractional motors that were primarily manufactured through 2004 and that were included as components of residential and commercial ventilation units marketed by a third party. These claims generally allege that the ventilation units were the cause of fires. Based on the current facts, the Company does not believe these claims, individually or in the aggregate, will have a material effect on its results of operations or financial condition. However, the Company cannot predict the outcome of these claims, or the nature or extent of remedial actions, if any, it may need to undertake with respect to motors that remain in the field. As a result, it cannot estimate a range of reasonably possible losses associated with these matters, some of which could be significant.

The Company is, from time to time, party to litigation that arises in the normal course of its business operations, including product warranty and liability claims, contract disputes and environmental, asbestos, employment and other litigation matters. The Company's products are used in a variety of industrial, commercial and residential applications that subject us to claims that the use of our products is alleged to have resulted in injury or other damage. The Company accrues for anticipated costs in defending against such lawsuits in amounts that we believe are adequate, and the Company does not believe that the outcome of any such lawsuit, individually or in the aggregate, will have a material effect on the Company's financial position or its results of operations.

14. DERIVATIVE INSTRUMENTS

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed by using derivative instruments are commodity price risk, currency exchange, and interest rate risk. Forward contracts on certain commodities are entered into to manage the price risk associated with forecasted purchases of materials used in the Company's manufacturing process. Forward contracts on certain currencies are entered into to manage forecasted cash flows in certain foreign currencies. Interest rate swaps are entered into to manage interest rate risk associated with the Company's floating rate borrowings.

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

The Company must recognize all derivative instruments as either assets or liabilities at fair value in the consolidated balance sheets. Accordingly, the Company designates commodity forward contracts as cash flow hedges of forecasted purchases of commodities, currency forward contracts as cash flow hedges of forecasted foreign currency cash flows and interest rate swaps as cash flow hedges of forecasted LIBOR-based interest payments. There were no significant collateral deposits on derivative financial instruments as of October 1, 2011.

Cash flow hedges

For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income or loss and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or changes in market value of derivatives not designated as hedges are recognized in current earnings.

Table of Contents

At October 1, 2011, the Company had an additional \$1.0 million, net of tax, of derivative gains on closed hedge instruments in AOCI that will be realized in earnings when the hedged items impact earnings. At October 2, 2010, the Company had an additional \$1.6 million, net of tax, of derivative gains on closed hedge instruments in AOCI that was realized in earnings when the hedged items impacted earnings.

As of October 1, 2011, the Company had outstanding the following commodity forward contracts (with maturities extending through June 2013) to hedge forecasted purchases of commodities (in millions):

15. FAIR VALUE

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The inputs used to measure fair value are classified into the following hierarchy:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 Unadjusted quoted prices in active markets for similar assets or liabilities, or
Unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or

Inputs other than quoted prices that are observable for the asset or liability

Level 3 Unobservable inputs for the asset or liability

Table of Contents

The Company uses the best available information in measuring fair value. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following table sets forth the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of October 1, 2011 and January 1, 2011 (in millions):

	October 1, 2011	January 1, 2011

Acquisitions		16.7
Ending balance	\$ 25.9	\$ 25.9

The Other Noncurrent Liabilities described above are comprised entirely of the Deferred Contingent Purchase Price of two of the Company's acquisitions as discussed in Note 3, and are measured using Level 3 inputs. The fair value was determined using valuation techniques, including discounted cash flows, comparable transactions, and/or comparable company analyses.

16. RELATED PARTY TRANSACTIONS

As part of the consideration paid for the acquisition of Elco on November 1, 2010, the Company assumed \$22.3 million payable to an entity that is affiliated with the Company's Elco Group B.V. joint venture partner resulting from bankruptcy proceeding involving Elco. The amount is payable in semi-annual payments ending in 2012. During the first nine months of 2011, \$11.1 million was paid by the Company. The Company has included the remaining amounts in Other Accrued Expenses.

Unless the context requires otherwise, references in this Item 2 to we, us, our or the Company refer collectively to Regal Beloit Corporation and its subsidiaries.

Overview

Global economic conditions continued to reflect sluggish growth and uncertain future trends in the third quarter 2011. Sales of high efficiency products continued to show above average growth rates, supported by the net economic impact to the end user and, in certain cases, by tax credits and government regulations requiring higher energy efficiency ratings on certain types of motors.

Net sales for the third quarter 2011 increased 24.7% to \$736.9 million compared to \$590.8 million in the third quarter 2010. Net sales for the third quarter 2011 included \$144.5 million of incremental net sales from the acquired businesses.

Net Income Attributable to Regal Beloit Corporation increased 2.3% to \$45.7 million for the third quarter 2011 compared to \$44.7 million for the third quarter 2010. Diluted earnings per share decreased to \$1.13 for the third quarter 2011 compared to \$1.14 for the third quarter 2010.

Three Months Ended October 1, 2011

Net sales for the third quarter 2011 were \$736.9 million, a 24.7% increase compared to \$590.8 million for the third quarter 2010. Net sales for the third quarter 2011 included \$144.5 million of incremental net sales from acquired businesses. Net sales for the third quarter 2011 reflected price increases of 5.4% to offset increased material costs.

In the Electrical segment, net sales for the third quarter 2011 increased \$139.7 million compared to the third quarter 2010, including \$144.5 million of incremental net sales from acquired businesses. North American commercial and industrial net sales, excluding net sales from the acquired businesses increased 14.8% for the third quarter 2011 compared to the third quarter 2010 primarily due to improving economic conditions, sales of energy efficient motors, pricing initiatives to offset commodity inflation, and a strong recovery in our generator business. North American residential HVAC motor net sales, excluding net sales from the acquired businesses decreased 20.3% in the third quarter 2011 compared to the third quarter 2010 primarily due to reduced federal tax incentives for high efficiency products, continued weakness in U.S. residential new construction and replacement demand as well as a mix shift to lower efficiency products.

In the Mechanical segment, net sales for the third quarter 2011 increased \$6.4 million compared to the third quarter 2010. The increase was primarily due to improving demand in later cycle end markets.

Net sales to regions outside of the United States were 35.9 % of total net sales for the third quarter 2011 compared to 31.0% of total net sales for the third quarter 2010. Third quarter 2011 net sales of high efficiency products were 15.4% of total net sales as compared to 18.3% in the third quarter of 2010. The impact of foreign currency exchange rates increased total net sales by 1.8% for the third quarter 2011 compared to the third quarter 2010.

Liquidity and Capital Resources

Our principal source of liquidity is operating cash flow. In addition, other significant factors affecting our liquidity management include working capital levels, capital expenditures, dividends, acquisitions, availability of debt financing, and the ability to attract long-term capital on acceptable terms.

Cash flow provided by operating activities (operating cash flow) was \$176.3 million for the nine months ended October 1, 2011, a \$27.7 million increase from the nine months ended October 2, 2010. The increase was driven by a \$20.8 million lower amount utilized in working capital compared to the nine months ended October 2, 2010.

Cash flow used in investing activities was (\$738.1) million for the first nine months of 2011, a \$524.6 million increase from the first nine months of 2010. Sales of investment securities were \$56.0 in the first nine months of 2011 versus the net purchases of investment securities of (\$76.4) in the first nine months of 2010. Capital expenditures were (\$44.4) million which included the purchase of land related to our factory in Faridabad, India which was previously leased. Business acquisitions were (\$764.9) million for the first nine months of 2011 compared to (\$107.3) million in the first nine months of 2010.

Cash flow provided by financing activities for the first nine months of 2011 was \$512.1 million compared to cash flow used of (\$64.7) million in the first nine months of 2010, primarily due to the \$500.0 million of long-term borrowings (See also Notes 3 and 8 of Notes to Condensed Consolidated Financial Statement) used to fund a portion of the EPC acquisition.

Our working capital was \$790.7 million at October 1, 2011, an increase of 14.8 % from \$688.7 million at January 1, 2011.

At October 1, 2011 our current ratio, the ratio of our current assets to current liabilities, was 2.3:1 compared to 2.7:1 at January 1, 2011.

The following table presents selected financial information and statistics as of October 1, 2011 and January 1, 2011 (in millions):

	October 1, 2011	January 1, 2011
Cash and Cash Equivalents	\$ 124.4	\$ 174.5
Investments Trading Securities		56.3
Trade Receivables, Net	498.7	331.0
Inventories, Net	626.9	390.6
Working Capital	790.7	688.7

Our Cash and Cash Equivalents totaled \$124.4 million at October 1, 2011. The majority of our cash held by foreign subsidiaries could be used in our domestic operations if necessary. There are no current trends, demands or uncertainties that we believe are reasonably likely to require repatriation or to have a material impact on our ability to fund U.S. operations.

At October 1, 2011, the Company had \$750.0 million of senior notes (the Notes) outstanding. During the quarter ended October 1, 2011, the Company issued \$500.0 million in senior notes (the 2011 Notes) in a private placement. The 2011 Notes were issued in five tranches with maturities from seven to twelve years and carry fixed interest rates. The Company also has \$250.0 million in senior notes (the 2007 Notes) issued in two tranches with floating interest rates based on a margin over the London Inter-Bank offered rate (LIBOR). Details on the senior notes at October 1, 2011 were (in millions):

	Principal	Interest Rate	Maturity

Fixed Rate Series 2011A	\$ 170.0	4.9 to 5.1%	July 14, 2023

(1) Interest rates vary as LIBOR varies. At October 1, 2011, the interest was between 0.9 and 1.0%.

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

On June 16, 2008, we entered into a Term Loan Agreement (Term Loan) with certain financial institutions, pursuant to which we borrowed an aggregate principal amount of \$165.0 million. The Term Loan matures in June 2013, and borrowings generally bear interest at a variable rate equal to a margin over LIBOR which varies with the ratio of our total funded debt to consolidated earnings before interest, taxes, depreciation, and amortization (EBITDA) as defined in the Term Loan. These interest rates also vary as LIBOR varies. At October 1, 2011, the interest rate of 1.0% was based on a margin over LIBOR.

Table of Contents

On June 30, 2011, we entered into a new \$500.0 million revolving credit facility (the Facility) that replaced our existing credit facility which was set to mature in April 2012. The Facility permits us to borrow at interest rates based upon a margin above LIBOR, which margin varies with the ratio of total funded debt to EBITDA as defined in the Facility. These interest rates also vary as LIBOR varies. At October 1, 2011, the interest rate of 1.9% was based on a margin over LIBOR. We pay a commitment fee on the unused amount of the Facility, which also varies with the ratio of our total funded debt to our EBITDA. The Facility matures in June 2016.

The Notes, the Term Loan and the Facility require us to meet specified financial ratios and to satisfy certain financial condition tests. We were in compliance with all financial debt covenants as of October 1, 2011.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk relating to our operations due to changes in interest rates, foreign currency exchange rates and commodity prices of purchased raw materials. We manage the exposure to these risks through a combination of normal operating and financing activities and derivative financial instruments such as interest rate swaps, commodity cash flow hedges and foreign currency forward exchange contracts. All hedging transactions are authorized and executed pursuant to clearly defined policies and procedures, which strictly prohibit the use of financial instruments for speculative purposes.

All hedges are recorded on the balance sheet at fair value and are accounted for as cash flow hedges, with changes in fair value recorded in Accumulated Other Comprehensive Income (Loss) (AOCI) in each accounting period. The ineffective portion of the change in fair value, if any, is recorded in earnings in the period of change.

Interest Rate Risk

We are exposed to interest rate risk on certain of our short-term and long-term debt obligations used to finance our operations and acquisitions. At October 1, 2011, net of interest rate swaps, we had \$508.7 million of fixed rate debt and \$459.7 million of variable rate debt. As a result, interest rate changes in variable rate debt impact future earnings and cash flow assuming other factors are constant. We utilize interest rate swaps to manage fluctuations in cash flows resulting from exposure to interest rate risk on forecasted variable rate interest payments. We have LIBOR-based floating rate borrowings, which expose us to variability in interest payments due to changes in interest rates. A hypothetical 10% change in our weighted average borrowing rate on outstanding variable rate debt at October 1, 2011, would result in a change in after-tax annualized earnings of approximately \$0.3 million.

We entered into pay fixed/receive LIBOR-based floating interest rate swaps to manage fluctuations in cash flows resulting from interest rate risk. These interest rate swaps have been designated as cash flow hedges against forecasted LIBOR-based interest payments. Details regarding these instruments, as of October 1, 2011, are as follows:

Instrument	Notional		Fair Value		
	Amount	Maturity	Rate Paid	Rate Received	(Loss)
Swap	\$150.0 million	August 23, 2014	5.3%	LIBOR (3 month)	(\$20.8) million
Swap	\$100.0 million	August 23, 2017	5.4%	LIBOR (3 month)	(\$23.7) million

As of October 1, 2011 and January 1, 2011, the interest rate swap liability of (\$44.5) million and (\$39.1) million, respectively, was included in Hedging Obligations. The unrealized loss on the effective portion of the contracts net of tax of (\$27.6) million and (\$24.2) million as of October 1, 2011 and January 1, 2011, respectively, was recorded in AOCI.

Foreign Currency Risk

We are also exposed to foreign currency risks that arise from normal business operations. These risks include the translation of local currency balances of foreign subsidiaries, intercompany loans with foreign subsidiaries and transactions denominated in foreign currencies. Our objective is to minimize our exposure to these risks through a combination of normal operating activities and the utilization of foreign currency exchange contracts to manage our exposure on the transactions denominated in currencies other than the applicable functional currency. Contracts are executed with creditworthy banks and are denominated in currencies of major industrial countries. We do not hedge our exposure to the translation of reported results of foreign subsidiaries from local currency to United States dollars.

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

As of October 1, 2011, derivative currency assets (liabilities) of \$1.5 million, \$0.5 million, (\$10.5) million, and (\$10.8) million, are recorded in Prepaid Expenses, Other Noncurrent Assets, Accrued Expenses, and Hedging Obligations, respectively. As of January 1, 2011, derivative currency assets (liabilities) of \$7.3 million, \$1.4 million, (\$0.1) million, and (\$0.1) million are recorded in Prepaid Expenses, Other Noncurrent Assets, Accrued Expenses, and Hedging Obligations, respectively. The unrealized (loss) gain on the effective portion of the contracts of (\$12.4) million net of tax, and \$5.1 million net of tax, as of October 1, 2011 and January 1, 2011, was recorded in AOCI. At October 1, 2011, we had an additional \$0.3 million, net of tax, of currency gains on closed hedge instruments in AOCI that will be realized in earnings when the hedged items impact earnings. At January 1, 2011, we had an additional immaterial amount of derivative currency gains on closed hedge instruments in AOCI that were realized in 2011 earnings when the hedged items impacted earnings.

Table of Contents

The following table quantifies the outstanding foreign exchange contracts intended to hedge non-U.S. dollar denominated receivables and payables and the corresponding impact on the value of these instruments assuming a hypothetical 10% appreciation/depreciation of their counter currency on October 1, 2011 (dollars in millions):

Currency	Notional Amount	Fair Value	Foreign Exchange Gain/(Loss) From:	
			10% Appreciation of Counter Currency	10% Depreciation of Counter Currency
Mexican Peso	\$ 238.7	\$ (18.4)	\$ 23.9	\$ (23.9)
Indian Rupee	64.9	(1.6)	6.5	(6.5)
Chinese Renminbi	16.6	0.7	1.7	(1.7)
Australian Dollar	2.8		0.3	(0.3)
Thai Baht	2.3		0.2	(0.2)

Gains and losses indicated in the sensitivity analysis would be offset by gains and losses on the underlying receivables and payables.

Commodity Price Risk

We periodically enter into commodity hedging transactions to reduce the impact of changing prices for certain commodities such as copper and aluminum based upon forecasted purchases of such commodities. These transactions are designated as cash flow hedges and the contract terms of commodity hedge instruments generally mirror those of the hedged item, providing a high degree of risk reduction and correlation.

Derivative commodity assets (liabilities) of \$3.7 million, \$0.2 million, (\$30.9) million, and (\$1.8) million are recorded in Prepaid Expenses, Other Noncurrent Assets, Accrued Expenses, and Hedging Obligations, respectively, at October 1, 2011. Derivative commodity assets (liabilities) of \$24.9 million, \$4.2 million, and (\$0.1) million are recorded in Prepaid Expenses, Other Noncurrent Assets, and Accrued Expenses, respectively, at January 1, 2011. The unrealized (loss) gain on the effective portion of the contracts of (\$18.4) million net of tax and \$17.8 million net of tax, as of October 1, 2011 and January 1, 2011, respectively, was recorded in AOCI. At October 1, 2011, we had an additional \$0.8 million, net of tax, of derivative commodity gains on closed hedge instruments in AOCI that will be realized in earnings when the hedged items impact earnings. At January 1, 2011, we had an additional \$4.1 million, net of tax, of derivative commodity gains on closed hedge instruments in AOCI that were realized in 2011 earnings when the hedged items impacted earnings.

The following table quantifies the outstanding commodity contracts intended to hedge raw material commodity prices and the corresponding impact on the value of these instruments assuming a hypothetical 10% appreciation/depreciation of their prices on October 1, 2011 (dollars in millions):

Commodity	Notional Amount	Fair Value	Foreign Exchange Gain/(Loss) From:	
			10% Increase of Commodity Prices	10% Decrease of Commodity Prices
Copper	\$ 164.0	\$ (28.3)	\$ 16.4	\$ (16.4)
Aluminum	5.1	(0.4)	0.5	(0.5)
Natural Gas	0.5	(0.1)	0.1	(0.1)
Zinc	0.1			

Gains and losses indicated in the sensitivity analysis would be offset by the actual prices of the commodities.

The net AOCI balance of (\$57.4) million loss at October 1, 2011 includes (\$27.5) million of net current deferred losses expected to be realized in the next twelve months.

ITEM 4. CONTROLS AND PROCEDURES**Disclosure Controls and Procedures**

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial

Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures were effective to ensure that (a) information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and (b) information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting

In August 2011, we acquired the Electrical Products Company (EPC) of A.O. Smith Corporation. As part of the post-closing integration, we are engaged in refining and harmonizing the internal controls and processes of the acquired business with those of the company. Management intends to include the internal controls of EPC in its annual assessment of the effectiveness of the Company's internal control over financial reporting (Section 404 of the Sarbanes-Oxley Act) for 2011.

Except for the change above, there were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

On August 25, 2011 one of our subsidiaries, RBC Manufacturing Corporation, and Nordyne LLC have entered into a settlement agreement resolving the patent litigation that was filed by Nordyne and that was pending in the U.S. District Court for the Eastern District of Missouri, Civil Action No. 4:09-cv-00203-ERW. Under the terms of the settlement agreement, both parties have dismissed their respective claims, we have received an undisclosed payment from Nordyne, and Nordyne shall have the rights under the asserted patent to continue to manufacture and sell all of its products.

One of our subsidiaries that we acquired in 2007 is subject to numerous claims filed in various jurisdictions relating to certain sub-fractional motors that were primarily manufactured through 2004 and that were included as components of residential and commercial ventilation units marketed by a third party. These claims generally allege that the ventilation units were the cause of fires. Based on the current facts, we do not believe these claims, individually or in the aggregate, will have a material adverse effect on our results of operations or financial condition. However, we cannot predict the outcome of these claims, or the nature or extent of remedial actions, if any, it may need to undertake with respect to motors that remain in the field. As a result, we cannot estimate a range of reasonably possible losses associated with these matters, some of which could be significant.

We are, from time to time, party to litigation that arises in the normal course of our business operations, including product warranty and liability claims, contract disputes and environmental, asbestos, employment and other litigation matters. Our products are used in a variety of industrial, commercial and residential applications that subject us to claims that the use of our products is alleged to have resulted in injury or other damage. We accrue for anticipated costs in defending against such lawsuits in amounts that we believe are adequate, and we do not believe that the outcome of any such lawsuit, individually or in the aggregate, will have a material effect on our financial position or our results of operations.

Item 1A. RISK FACTORS

The business and financial results of the Company are subject to numerous risks and uncertainties. The risks and uncertainties have not changed materially from those reported in Item 1A in our Annual Report on Form 10-K filed on March 2, 2011, as updated in Part II, Item 1A of our Quarterly Report on Form 10-Q filed on May 11, 2011.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Under the Company's equity incentive plans, participants may pay the exercise price or satisfy all or a portion of the federal, state and local withholding tax obligations arising in connection with plan awards by electing to (a) have the Company withhold shares of common stock otherwise issuable under the award, (b) tender back shares received in connection with such award or (c) deliver other previously owned shares of common stock, in each case having a value equal to the exercise price or the amount to be withheld. During the three months ended October 1, 2011, there were no shares acquired in connection with equity incentive plans.

Edgar Filing: REGAL BELOIT CORP - Form 10-Q

The Board of Directors has approved repurchase programs for up to three million shares of the Company's common stock. Management is authorized to effect purchases from time to time in the open market or through privately negotiated transactions.

Table of Contents

As previously reported on the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on August 25, 2011, in connection with its acquisition of the EPC from A.O. Smith Corporation (A.O. Smith), the Company issued 2,834,026 shares of its common stock to A.O. Smith on August 22, 2011. The Company and A.O. Smith relied on Rule 506 of Regulation D, promulgated under the Securities Act of 1933, as amended, to provide an exemption from registration for the issuance of such common stock of the Company to A.O. Smith. Pursuant to the Shareholder Agreement, dated as of August 22, 2011, by and between the Company and A.O. Smith, A.O. Smith made representations that support the availability of the exemption from registration provided by Regulation D.
