Except as updated below, the contents of the Prior Registration Statements are incorporated by reference herein to the extent not modified or superseded thereby or by any subsequently filed document that is incorporated by reference herein or therein.

Item 4. Description of Securities.

The Common Stock being registered hereunder has been registered pursuant to Section 12 of the Exchange Act.

The following descriptions of the Deferred Compensation Obligations of Mattel under the Plans are qualified by reference to the Plans. Capitalized terms used in this Item 4 and not otherwise defined in this Registration Statement shall have the respective meanings attributed to such terms in the Plans.

The Deferred Compensation Obligations incurred by Mattel under the Plans are unsecured general obligations of Mattel, and will rank equally with other unsecured and unsubordinated indebtedness of Mattel, from time to time outstanding, payable from the general assets of Mattel.

Mattel, Inc. Deferred Compensation and PIP Excess Plan

Under the Plan, Mattel provides for a select group of management and highly compensated employees of Mattel with deferred compensation benefits through deferrals of salary and incentive compensation and Company contributions. This Plan is also designed to provide for benefits that cannot be provided under the Mattel, Inc. Personal Investment Plan and/or any other qualified defined contribution retirement plan of Mattel due to the limitations of Code Sections 401(a)(17), 401(k)(3), 401(m), 402(g) and 415(c).

The Plan provides eligible individuals with the opportunity in each election period to elect to defer up to 75% (effective January 1, 2009) of his or her base salary and up to 100% of his or her bonus or other discretionary payments, which percentages may be amended by the Plan administrator from time to time. The portion of the participant's compensation that is deferred depends on the participant's election in effect with respect to his or her elective contributions under the Plan. In addition, Mattel makes certain automatic and a matching contribution to the participant's account and may contribute an additional amount at any time or times during the plan year. Mattel maintains separate bookkeeping accounts for each participant.

The amounts in each participant's accounts represent an obligation of Mattel to pay the participant at some time in the future. The amount that Mattel is required to pay under the terms of the Plan is equal to the deferrals made by the participant and the contributions made by Mattel, as adjusted for the hypothetical gains and losses attributable to the deemed investment(s) of the participant's investment option(s) which are credited to the participant's Account. The deemed investments for participants' Accounts may be varied from time to time at the discretion of the Committee. Generally, a participant is immediately vested in the deferrals and Mattel contributions (and income and gain attributable thereto), except any additional discretionary contributions made by Mattel during the plan year may be subject to certain vesting restrictions as determined by the administrator of the Plan.

The amounts payable to participants under the Plan are distributed in accordance with the distribution provisions of the Plan. Generally, such distributions are made upon termination of employment, death, disability, retirement or a scheduled date while employed. Participants may also be entitled to an early distribution in limited situations and certain hardship distributions. Distributions are payable in annual installments and/or a single lump sum payment, depending on the underlying circumstances of the distribution. Distributions are generally made in cash; provided, however, that participants who have their accounts invested in a hypothetical Mattel stock account will receive distributions from such account in the form of whole shares of Mattel Common Stock and cash for any partial shares. On a Change in Control (as defined in the Plan) participants will receive a distribution of all amounts remaining in his or her account in a lump sum payment and all deferrals shall cease.

Mattel reserves the right to amend or terminate the Plan, provided that such amendment or termination does not result in any reduction of a participant's account balance, including previous earnings or losses, as of the date of such amendment or termination.

Mattel, Inc. Deferred Compensation Plan for Non-Employee Directors

Under the Directors Plan, Mattel provides non-employee directors of Mattel with deferred compensation benefits through deferrals of amounts (the Compensation) earned for service as a member of the Board of Directors of Mattel (the Board) (including amounts earned for service as a member of a committee of the Board and any restricted stock unit awards).

The Directors Plan provides eligible individuals with the opportunity in each election period to elect to defer up to 100% of his or her Compensation. The portion of the participant's Compensation that is deferred depends on the participant's election in effect with respect to his or her elective contributions under the Directors Plan. Mattel maintains separate bookkeeping accounts for each participant.

The amounts in each participant's account represent an obligation of Mattel to pay the participant at some time in the future. The amount that Mattel is required to pay under the terms of the Directors Plan is equal to the deferrals made by the participant, as adjusted for the hypothetical gains and losses attributable to the deemed investment(s) of the participant's investment option(s) which are credited to the participant's account. The deemed investments options for participants include a Stock Equivalent Sub-Account and a Restricted Stock Unit Sub-Account and, prior to January 1, 2009, an Interest Accrual Account. Effective January 1, 2009, no new deferrals are credited to the Interest Accrual Account. A participant is immediately vested in his or her deferrals (and income and gain attributable thereto), except for any amounts credited to a participant's Restricted Stock Unit Sub-Account, which shall be subject to the original vesting terms of the underlying restricted stock unit award.

The amounts payable to participants under the Directors Plan are distributed in accordance with the distribution provisions of the Directors Plan. Generally, such distributions are made during the participant's lifetime (either on a participant's termination of service with Mattel or a specified date while providing services to Mattel) or in the event of his or her death. Distributions are payable in ten annual installments and/or a single lump sum payment. Distributions from the Interest Accrual Account are made in cash and distributions from the Stock Equivalent Sub-Account and Restricted Stock Unit Sub-Account are made in the form of whole shares of Mattel Common Stock and cash for any fractional shares. On a Change in Control (as defined in the Directors Plan) participants will receive a distribution of all amounts remaining in their account in a lump sum payment and all deferrals shall cease.

Mattel reserves the right to amend or terminate the Directors Plan, provided that such amendment or termination does not result in any reduction of a participant's account balance, including previous earnings or losses, as of the date of such amendment or termination.
