VI In relation to CemigTelecom:

a) The Board submitted the following proposal to the EGM:

Approval and authorization of signature of the Protocol of Absorption and Justification, with CemigTelecom, so as to set out the terms and conditions to govern the absorption of CemigTelecom by this Company (Cemig).

Ratification, since this is an absorption of a wholly-owned subsidiary, of the appointment of the three expert witnesses,

Mr. Flávio de Almeida Araújo, CRC/MG 86.861,

Mr. Francisco do Couto, CRC/MG 58.343, and

Mr. Leonardo George de Magalhães, CRC/MG 53.140,

to provide a valuation, under and for the purposes of Article 8 of Law 6404/1976, of the Stockholders' equity of CemigTelecom.

Approval of the Valuation Opinion on the Stockholders' equity of CemigTelecom, at book value, prepared by the three experts, in the terms of and for the purposes of Article 8 of Law 6404/1976.

Authorization for absorption of CemigTelecom by Cemig, and subsequently, its extinction.

Authorization for Cemig to be the successor of CemigTelecom, in all its rights and obligations, for all purposes of law and otherwise.

Authorization for transfer to Cemig, by absorption, of all the establishments, tangible and intangible assets and goods, inventories, real estate property, credits, assets, rights, employees, stockholdings, contracts, obligations, liabilities, tax books and tax invoices, controls, records, accounting, documents, systems and information of CemigTelecom, including the shares in Ativas Data Center S.A. (Ativas), which are 19.6% of the share capital of Ativas, and the contracts related to that stockholding interest.

b) The Board oriented the representatives of the Company to vote, at the EGM of CemigTelecom, in favor of this absorption, and on cancellation of the registry of CemigTelecom as a company registered for listing with the Brazilian Securities Commission (CVM).

c)

The Board authorized, as the case may be, signature of the documents necessary for amendment of the Private Deed of the Second Issue of Non-convertible Debentures of CemigTelecom, with asset guarantee and additional surety guarantee, in a single series, for public distribution with restricted placement efforts, in the amount of twenty seven million Reais, signed on May 10, 2017 with Pentágono S.A. Distribuidora de Títulos e Valores Mobiliários, with the Company as consenting party, or total early redemption of the debentures issued by CemigTelecom on May 10, 2017.

The terms and conditions in these documents shall be the subject of specific analysis and decision by the Executive Board, based on the applicable legislation and on no further burden being placed upon the Company in relation to the original contracting.

- d) The Board authorized start of the procedure for disposal of telecommunications assets not appropriate for the Company's main activity and assignment of the contracts associated with these assets, through administrative proceedings for exemption from tender.

Maturity period:	Up to five hundred and forty days from the Issue Date.
Monetary updating and remuneratory interest:	<p>The Nominal Unit Value of the Notes shall not undergo monetary updating.</p> <p>The Notes will pay remuneratory interest equal to one hundred and fifty one per cent of the accumulated variation represented by the one-day <i>over extra-grupo</i> Interbank Deposit (<i>Depósitos Interfinanceiros</i>, or DI) Rate, expressed in the form of percentage per year, on the two hundred and fifty-two business days basis,</p>

calculated and published daily by B3 in its daily bulletin available at <http://www.cetip.com.br> (the Remuneration).

The Remuneration will be calculated on an exponential and cumulative basis, *pro rata temporis*, by business days elapsed, on the Nominal Unit Value of each Note, from the Issue Date up to the Remuneration Payment Date, according to the criteria set out in the *Cetip21 Manual of Formulas for Notes and Bonds (Caderno de Fórmulas - Notas Comerciais e Obrigações - Cetip21)* - available for consultation on the above web page.

These criteria will be printed on the physical Notes.

Payment of the Remuneration and amortization of the Nominal Unit Value:

In a single payment, on the Maturity Date, or on the date established in the Early Redemption Offer (as defined below), or the date of optional early redemption, or on the date on which early maturity of the Notes takes place as a result of any of the Default Events described on the printed Notes.

Renegotiation:

None.

Early Redemption Offer:

The Issuer may, at its exclusive option and at any time from thirty days after the Issue Date, make an offer for early redemption of the entirety of the Notes (a partial redemption offer not being permitted), addressed to all holders of the Notes, without distinction, and they shall all have equal conditions to accept the offer for early redemption of the notes they hold (Early Redemption Offer), and all the stages of this Early Redemption Offer process shall take place outside the ambit of B3.

Early redemption shall require payment of the Nominal Unit Value, plus the remuneration, calculated *pro rata temporis* from the Issue Date up to the actual date of the redemption.

The other terms and conditions of the Early Redemption Offer shall be detailed on the printed Notes.

The B3 must be informed of the effective redemption date at least three business days in advance;

Optional early redemption:

The Issuer may, in the terms of Paragraphs 2, 3 and 4 of Article 5 of CVM Instruction 566, at its exclusive option, make early redemption of the totality of the Notes (a partial redemption offer not being permitted), at any time starting from the seventh month from the Issue Date, upon payment of the Nominal Unit Value plus the Remuneration, calculated *pro rata temporis* from the Issue Date up to the date of actual redemption, in accordance with the applicable legislation, plus payment of a redemption premium equivalent to 1.5% per year, proportional to the period remaining before the Maturity Date, calculated according to a formula to be described on the printed Notes. The other terms and conditions of the Optional Early Redemption shall be detailed on the printed Notes. All Notes redeemed by the Issuer will be canceled; they may not be held in Treasury.

Early maturity:

The holders of the Notes may declare early maturity of all the obligations arising from the notes they hold and demand immediate payment by the Issuer and/or by the Guarantor of the Nominal Unit Value of the Notes plus the remuneration, calculated *pro rata temporis*, from the Issue Date up to the date of actual payment, and due charges, as applicable, by letter requiring identified proof of delivery or with advice of receipt addressed to the head office of the Issuer and/or of the Guarantor, in any of the early maturity events that are usual in this type of transaction, applicable both to the Issuer and to the Guarantor, agreed jointly between the Issuer and the Managers and stated on the printed Notes, being based on the conditions stated in the Issuer's previous issues.

Arrears charges:

- (a) Arrears interest calculated *pro rata temporis*, from the date of default until the date of actual payment, of 1% per month; and
- (b) a contractual penalty payment, irreducible and of a non-compensatory nature, of 2% on the amount due and unpaid, without prejudice to the Remuneration.

Form and proof of ownership:

The Notes will be issued in printed form and will be held in custody by the institution contracted to provide physical custody services of the Notes (Custodian). Transfer of ownership shall be by nominal endorsement, without guarantee, stating merely transfer of ownership. For all purposes of law, ownership of the Notes shall be proven by possession of the related physical Note. Additionally, if the Notes are deposited electronically on the B3, their ownership shall be proven by the statement issued by the B3 in the name of the Note holder.

Subscription price:

The Notes shall be subscribed on the Issue Date, at their Nominal Unit Value, and paid in full at sight in the act of subscription in Brazilian currency, exclusively through the Assets Distribution Module (MDA), in accordance with the settlement rules of the B3.

Distribution, trading and electronic custody:

In the primary market the Notes will be deposited for distribution exclusively through the MDA; and for trading in the secondary market through the Cetip21 (the Cetip-securities Module); both are administered and operated by the B3. Financial settlement of both distribution and trading will be in accordance with the procedures of the B3, and the Notes will be held in custody electronically in the B3. The Notes may be traded in regulated securities markets only after 90 days from the date of each subscription or acquisition by Professional Investors, in accordance with Articles 13 and 15 of CVM Instruction 476, and subject to compliance by the Issuer with the obligations stated in Article 17 of that Instruction.

Place of payment:

(a) For Notes deposited electronically in the B3, payments shall be made in accordance with the procedures of the B3; or

(b) for holders of the Notes that are not deposited electronically with the B3, in accordance the procedures adopted by the Mandated Bank.

Extension of periods:

Any payment date of an obligation that is specified in the printed Notes shall be considered automatically extended until the following business day, without any addition to the amounts to be paid, if that due date falls on a Saturday, Sunday, or declared national holiday.

2) **Fiduciary assignment of shares in Gasmig owned by the Company**, with value that shall correspond to the total amount of the Issue, in the terms of Article 40 of Law 6404/1976, on the following principal conditions, as well as others to be established in a specific instrument for that purpose:

- a) Cemig will place a fiduciary charge on preferred shares in Gasmig in the amount of the issue, and also on any preferred shares arising from a capital increase, or stock splits or bonuses, and also securities and other rights relating to this type of share that are issued as from the date of signature of said charge.
- b) Cemig and the Issuer will strengthen or replace this collateral in certain events which shall include but not be limited to the event that it becomes the object of lien, sequester, arrest or any other judicial or arbitration measure or administrative measure with similar effect or is canceled, invalidated or contested, by granting a fiduciary charge on additional PN shares in Gasmig that it owns, subject to the limits of guarantee granted by Cemig to other creditors, in other debt instruments.
- c) Cemig shall cause Gasmig to make official filing of the fiduciary charge, constituted as per the terms of the Contract, in the nominal Share Registry Book of Gasmig, in accordance with Article 40 of the Corporate Law. The fiduciary charge will be made by signature of the Contract for Fiduciary assignment of shares in Gasmig between the Issuer, Cemig and the Fiduciary Agent.

(3) **Execution of all and any acts** necessary to put into effect the decisions approved above.

Comment: The Board member **Aloísio Macário Ferreira de Souza** expressed his discomfort with the period made available for analysis of the subject and made comments on the cost of this transaction, considering it high, even in the context of the present indebtedness of Cemig D.

The Chair then declared the Meeting open and invited me, **Anamaria Pugedo Frade Barros**, to be Secretary of the meeting, asking me to read the convocation notice, published on May 10, 11 and 12 of this year, in the newspapers *Minas Gerais*, official publication of the Powers of the State, on pages 36, 40 and 54, respectively, and *O Tempo*, on pages 27, 29 and 24, respectively, the content of which is as follows:

COMPANHIA ENERGÉTICA DE MINAS GERAIS CEMIG

CNPJ 17.155.730/0001-64 NIRE 31300040127

EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS

CONVOCATION

Stockholders are hereby called to an Extraordinary General Meeting of Stockholders to be held on June 11, 2018 at 11 a.m., at the Company's head office, Av. Barbacena 1219, 29 floor, Belo Horizonte, Minas Gerais, Brazil, to decide on the following matters:

- 1) Changes to the by-laws, in accordance with Law 13303/2016 and Minas Gerais State Decree 47154/2017, with improvement of the provisions of the by-laws.
- 2) Election of the Board of Directors, for a new period of office, if the change to the by-laws is approved.
- 3) Election of the Audit Board, for a new period of office, if the change to the by-laws is approved.
- 4) Adjustment to the Annual Global Allocation for remuneration of the Managers, members of the Audit Board and of the Audit Committee, if the change to the by-laws is approved.
- 5) Setting of the compensation of the representatives of the Audit Committee, if the change to the by-laws is approved.
- 6) Orientation of representatives of Cemig, at the Extraordinary General Meeting of Cemig Distribuição S.A., to vote in favor of the changes to the by-laws and the resulting recomposition of the Board of Directors and of the Audit Board, if changes are made to the by-laws and to the composition of the Board of Directors and the Audit Board of the sole stockholder, Cemig.

- 7) Orientation of representatives of Cemig, at the Extraordinary General Meeting of Cemig Geração e Transmissão S.A., to vote in favor of the changes to the by-laws and the resulting recomposition of the Board of Directors and of the Audit Board, if changes are made to the by-laws and to the composition of the Board of Directors and the Audit Board of the sole stockholder, Cemig.

Under Article 3 of CVM Instruction 165/1991, as amended by CVM Instruction 282/1998 and subsequent amendments, adoption of the multiple voting system for election of members of the Company's Board of Directors requires the vote of stockholders representing a minimum of 5% (five per cent) of the voting stock.

Any stockholder who wishes to do so may exercise the right to vote using the remote voting system, under CVM Instruction 481/09, by sending the corresponding Remote Voting Statement (*Boletim de Voto à Distância* - BVD), through the stockholder's custodian institution or mandated bank, or directly to the Company.

Any stockholder wishing to be represented by proxy at the said General Meeting of Stockholders should obey the precepts of Article 126 of Law 6406 of 1976, and of §1 of Clause 9 of the Company's by-laws, by exhibiting at the time, or depositing, preferably by June 7, 2018, proofs of ownership of the shares, issued by a depositary financial institution, and a power of attorney with specific powers, at Cemig's Corporate Executive Office (*Superintendência da Secretaria Geral*), Av. Barbacena, 1219, 23rd Floor, Belo Horizonte, Minas Gerais, Brazil.

The representative of the stockholder **The State of Minas Gerais** stated that the Office of the General Attorney of the State, as formal representative of the controlling stockholder, would make a statement of position to this Meeting in the terms of Official Letter OF.SEF.GAB.SEC nº 433/2018, and without technical assessment immediately make a copy of this document available.

He also referred to the issuance of Opinion CJ/AGE 15977/2018, on the subject of changes in by-laws.

In accordance with CVM Instruction 481/2009, the Chair then asked the Secretary to read the spreadsheet of summary consolidated voting, recording the votes given by Remote Voting Forms, published to the Market on June 7 of this year, which will be at the disposal of stockholders for any consultation.

The Chair then stated that, under Federal Law 13303 of June 30, 2016 and Minas Gerais State Decree 47154 of February 20, 2017, Cemig is required to adapt its by-laws to the provisions of that legislation, and it is thus appropriate to improve the provisions of the by-laws.

For this purpose he requested me, Secretary, to read the Proposal by the Board of Directors which deals with items 1, 6 and 7 of the agenda, the content of which is as follows:

PROPOSAL

BY THE BOARD OF DIRECTORS

TO THE EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS

TO BE HELD ON JUNE 11, 2018 AT 11 A.M.

Dear Stockholders:

The Board of Directors of Companhia Energética de Minas Gerais Cemig:

whereas:

- a) Federal Law 13303, in effect from June 30, 2016, makes provisions on the legal form of by-laws of a publicly-owned company, a mixed-economy company and their subsidiaries, whether public ownership is at Federal, State, Federal District, or Municipal level. The State Companies Law, as it is known, regulated Article 173 §1 of the Constitution of 1988, covering subjects such as governance, corporate organization, control, bids/tenders, and contracts, applicable to state-controlled companies;
- b) the State Companies Law establishes a series of corporate governance and transparency mechanisms to be obeyed by the state-controlled companies, with the rules for publication of information, risk management

practices, codes of conduct, forms of oversight by the State and by society, constitution and functioning of Boards, and minimum requirements for appointment of managers;

- c) the State Companies Law orders adaptation of the by-laws of the companies to which it applies, to follow good corporate governance practices, which range from criteria for financial performance to social and environmental responsibility.
- d) the strong point of the State Companies Law has been to give detailed rules on oversight and control with a view to greater transparency in corporate governance, to avoid conflicts of interests and to allow timely control by the State company of strategic decisions;
- e) Minas Gerais State Decree 47154 came into force on February 20, 2017, governing the legal structure of by-laws of a public company, a mixed-economy company and subsidiaries, at the level of Minas Gerais State, in the terms of Federal Law 13303/2016;
- f) the State Decree regulated the State Companies Law, dealing with its provisions to adapt to the context of the Minas Gerais state companies, and for this reason Cemig is required to obey its provisions;

- g) the new rules are to be applied after the revision of the by-laws, to take place within 24 (twenty four) months, and this period closes on June 30, 2018 the transition period was granted to enable the state companies to review their internal rules and corporate management procedures;
- h) due to Law 13303/2016 and State Decree 47154/2017, Cemig has to make the necessary adaptation to the by-laws to comply with the said legislation;
- i) the proposed drafting not only makes the by-laws compliant with the legislation, but also enhances the provisions therein;
- j) under Clause 21, §4, Sub-clause g of the by-laws of Cemig, orientation of vote in General Meetings of Stockholders of Cemig Distribuição S.A. and Cemig Geração e Transmissão S.A. is made by Extraordinary General Meeting of Stockholders of Cemig the sub-clause states:

§4 The following matters shall require a decision by the Executive Board: ...

- g) approval, upon proposal by the Chief Executive Officer, prepared jointly with the Chief Business Development Officer and the Chief Finance and Investor Relations Officer, of the statements of vote in the General Meetings of the wholly-owned and other subsidiaries, affiliated companies and in the consortia in which the Company participates, except in the case of the wholly-owned subsidiaries Cemig Distribuição S.A. and Cemig Geração e Transmissão S.A., for which the competency to decide on these matters shall be that of the General Meeting of Stockholders, and decisions must obey the provisions of these Bylaws, the decisions of the Board of Directors, the Long-term Strategic Plan and the Multi-year Strategic Implementation Plan; ; and

- k) Cemig Distribuição S.A. and Cemig Geração e Transmissão S.A. are wholly-owned subsidiaries of Cemig and will hold Extraordinary Annual General Meetings of Stockholders to change the by-laws.

do now propose to you:

I Approval of change in the Company's by-laws in their entirety, adapting them to the requirements of Federal Law 13303/2016 and State Decree 47154/2017, providing for best corporate governance practices, and improvement of the drafting, as follows:

CHAPTER I

Name, constitution, objects, head office and duration

Clause 1 Companhia Energética de Minas Gerais Cemig, constituted on May 22, 1952 as a corporation with mixed private and public sector stockholdings, is governed by these Bylaws and by the applicable legislation, and its objects are:

to build, operate and make commercial use of systems for generation, transmission, distribution and sale of electricity, and related services;

to operate in the various fields of energy, from whatever source, with a view to economic and commercial operation;

to provide consultancy services within its field of operation to companies in and outside Brazil; and

to carry out activities directly or indirectly related to its objects, including development and commercial operation of telecommunication and information systems, technological research and development, and innovation.

§1 The activities specified in this Clause may be exercised directly by Cemig or, as intermediary, by companies constituted by it or in which it may hold a majority or minority stockholding interest, upon decision by the Board of Directors, under State Laws 828 of December 14, 1951, 8655 of September 18, 1984, 15290 of August 4, 2004 and 18695 of January 5, 2010.

§2 No subsidiary of Cemig, wholly-owned or otherwise, may take any action or make any decision which might affect the condition of the State of Minas Gerais as controlling stockholder of the Company, in the terms of the Constitution of the State of Minas Gerais and the legislation from time to time in force.

§3 Since the Company's securities are traded on the special listing section known as Corporate Governance Level 1 on the Sao Paulo Stock Exchange (B3 S.A. Brasil, Bolsa, Balcão), the Company, its stockholders, managers and members of the Audit Board are subject to the provisions of the *Level 1 Corporate Governance Regulations* of the B3 (under this or any name attributed to it in future).

Clause 2 The Company shall have its head office and management at Av. Barbacena 1219, Santo Agostinho, 30190-131 Belo Horizonte, Minas Gerais, and may open offices, representations or any other establishment in or outside Brazil upon authorization by the Executive Board.

Clause 3 The Company shall have indeterminate duration.

CHAPTER II

Share Capital

Clause 4 The share capital of the Company is

R\$ 7,293,763,005.00

(seven billion two hundred ninety three million seven hundred sixty three thousand and five Reais),

represented by:

a) 487,614,213

(four hundred eighty seven million six hundred fourteen thousand two hundred thirteen)

nominal common shares each with nominal value of R\$ 5.00 (five Reais); and

b) 971,138,388

(nine hundred seventy one million one hundred thirty eight thousand three hundred eighty eight)

nominal preferred shares each with nominal value of R\$ 5.00 (five Reais).

§1 The right to vote is reserved exclusively for the common shares; each common share has the right to one vote in decisions of the General Meeting of Stockholders.

Clause 5 The preferred shares have right of preference in the event of reimbursement of shares and shall have the right to a minimum annual dividend of the greater of the following amounts:

- a) 10% (ten percent) of their nominal value;
- b) 3% (three percent) of the value of the stockholders equity corresponding to the shares.

Clause 6 The common shares and the preferred shares have equal rights to distribution of bonuses and stock dividends.

Clause 7 In business years in which the Company does not make enough profit to pay dividends to its stockholders, the State of Minas Gerais guarantees to the shares issued by the Company up to August 5, 2004 and held by individual persons a minimum dividend of 6% (six percent) per year, under Clause 4 of State Law 15290/2004.

Clause 8 The shares subscribed by the State of Minas Gerais shall at all times, obligatorily, be the majority of the shares carrying the right to vote, and shall be subscribed in accordance with the applicable legislation. Payment for subscription of shares by other parties, whether individuals or legal entities, shall be made as specified by the General Meeting of Stockholders which decides on the subject.

§1 The Executive Board may, in order to obey a decision by a General Meeting of Stockholders, suspend the services of transfer and registry of shares, subject to the applicable legislation.

§2 The stockholders shall have the right of preference in subscription of increases of capital and in the issue of the Company's securities, in accordance with the applicable legislation. There shall, however, be no right of preference when the increase in the registered capital is paid with resources arising from tax incentive systems, subject to the terms of §1 of Article 172 of Law 6404 of December 15, 1976, as amended.

Clause 9 The Company's authorized share capital may be increased by up to 10% (ten per cent) of the Company's share capital, without the need for any change in the by-laws, upon decision by the Board of Directors, after prior consultation of the Audit Board.

- §1 As well as the other conditions relating to the issuance of new shares, the competency to determine the number of shares to be issued, the issue price, and the period and conditions of paying for their subscription shall be held by the of the Board of Directors.

CHAPTER III

The General Meeting of Stockholders

Clause 10 The General Meeting of Stockholders shall be held, ordinarily, within the first 4 (four) months of the year, for the purposes specified by the applicable legislation, and extraordinarily whenever necessary, and shall be called with minimum advance notice of 15 (fifteen) days. The relevant provisions of law shall be obeyed in its convocation, opening and decisions.

- §1 In the event that a provision of law or regulations alters this minimum period for convocation, it shall prevail.
- §2 Stockholders may be represented in General Meetings of Stockholders in the manner specified in Article 126 of Law 6404, as amended, by showing at the time of the meeting, or by previously depositing at the Company's head office, proof of ownership of the shares, issued by the depositary financial institution, accompanied by the proxy's identity document and a power of attorney with specific powers.

Clause 11 Ordinary or extraordinary General Meetings of Stockholders shall be chaired by a stockholder elected by the Meeting from among those present, who shall choose one or more secretaries.

CHAPTER IV

Management

Clause 12 The Company shall be managed by the Board of Directors and the Executive Board.

- §1 The structure and composition of the Board of Directors and the Executive Board of the Company shall be identical in the wholly-owned subsidiaries Cemig Distribuição S.A and Cemig Geração e Transmissão S.A., with occasional exceptions if approved by the Board of Directors.
- §2 Where filling of appointments to positions on the Board of Directors and/or Executive Board of the Company's subsidiary or affiliated companies is the competency of the Company, it shall do so in accordance with criteria and a policy of eligibility and assessment approved by the Board of Directors.
- §3 Where filling of positions on the support committees to the Boards of Directors of the subsidiaries and affiliated companies is the competency of the Company, it shall do so in accordance with specific regulations, to be approved by the Boards of Directors of the respective subsidiaries or affiliated companies.
- §4 In the management of the Company, and of the wholly-owned subsidiaries Cemig Distribuição S.A. and Cemig Geração e Transmissão S.A., and of the other subsidiaries or affiliates, and of the consortia in which any of them have direct or indirect holdings, the Board of Directors and the Executive Board shall obey the provisions of the Company's Long-term Strategic Plan.
- §5 The Long-term Strategy shall contain (i) fundamentals grounds, targets, goals and results to be pursued and achieved in the long term by the Company, and (ii) the Company's dividend policy; and shall comply with the commitments and prior requirements in §7 of Clause 12 of these by-laws.
- §6 The Company's Multi-year Business Plan shall reflect the assumptions and premises of the Long-term Strategy, and shall contain the targets for 5 (five) years, including the Annual Budget.

- §7 The Long-term Strategy, the Multi-year Business Plan and the Annual Budget shall be reviewed annually by the Executive Board and submitted, at the latest, to the last ordinary meeting of the Board of Directors of the prior year, for decision, and the Company must disclose its conclusions, in accordance with the applicable law, subject to secrecy for strategic information whose disclosure might be prejudicial to the Company's interests.
- §8 The Executive Board shall obey and comply with targets and limits established by the Board of Directors, especially in relation to indebtedness, liquidity, rates of return, investment and regulatory compliance.
- §9 In companies in which the Company has an interest, whether controlling or otherwise, practices of governance and control must be adopted that are in proportion to the importance, materiality and the risks of the business.
- §10 The Long-term Strategy, the Multi-year Business Plan and the Annual Budget shall be reflected in all plans, projections, activities, strategies, investments and expenses of the Company and its wholly-owned or other subsidiaries, affiliated companies or consortia in which it directly or indirectly holds an interest.
- §11 The global or individual amount of the compensation of the Board of Directors, the Executive Board and the Audit Committee shall be set by the General Meeting of Stockholders, in accordance with the applicable legislation. Payment of any type of percentage or other participation in the profits of the Company to any member of the Audit Board or the Board of Directors is forbidden, with the exception of the Board member representing the employees.
- §12 For the purpose of improving the Company, every year the managers and the members of the committee shall undergo individual and collective performance evaluation, with the following minimal requirements:
- a) description of acts of management practiced, as to lawfulness and efficacy of administrative action;
 - b) contribution to the profit for the period; and
 - c) pursuit and achievement of the objectives established in the Multi-year Business Plan and compliance with the Long-term Strategy.

§13

The managers of the company may not be sworn in unless they have agreed to and signed the applicable legal and regulatory terms and documents. In all practice of their responsibilities they shall obey the requirements, prohibitions and obligations specified in the applicable legislation and regulations.

Section I

The Board of Directors

Clause 13 The Board of Directors of the Company comprises 9 (nine) sitting members and the same number of substitute members. One shall be the Chair, and another shall be the Vice-Chair.

- §1 The substitute members shall substitute the respective members of the Board if the latter are absent or impeded from exercising their functions and, in the event of a vacancy, shall do so until the related replacement.
- §2 The members of the Board of Directors shall be elected for concurrent periods of office of 2 (two) years, and may be dismissed at any time, by the General Meeting of Stockholders. Re-election for a maximum of 3 (three) consecutive periods of office is permitted, subject to the requirements and prohibitions established in the applicable legislation and regulations.
- §3 The composition of the Board of Directors must obey the following rules:
 - a) The minority holders of common shares, and the holders of preferred shares, have the right to elect, in separate votes, one member each, in accordance with the applicable legislation.
 - b) At least 25% (twenty five per cent) of the members must be independent; and at least one, in the event that the minority stockholders decide to exercise the option of multiple vote, in the terms of Article 141 of Law 6404/1976.

- c) The employees have the right to elect one member, subject to the provisions of Federal Law 12353 of December 28, 2010, as applicable.
- d) In any event, the majority of the members shall be elected by the controlling stockholder of the Company.

§4 For election and for holding of office, the member of the Board of Directors representing the employees is subject to all the criteria, requirements, impediments and prohibitions specified in Law 6404/1976, Law 13303 of June 30, 2016, and regulations made under those laws.

§5 Without prejudice to the impediments and prohibitions specified in these by-laws, the member of the Board of Directors representing the employees shall not take part in debate and decisions on subjects that involve union relationships, remuneration, and/or benefits, including matters relating to private pension plans and/or other assistance plans, and/or in any other situation in which a conflict of interest is characterized.

§6 The Boards of Directors of the wholly-owned subsidiaries Cemig Distribuição S.A. and Cemig Geração e Transmissão S.A. shall, be made up of the same members and substitute members elected to the Board of Directors of the Company, for periods running concurrently from start to termination, being remunerated for only one of these positions.

§7 The posts of Chairman of the Board of Directors and Chief Executive Officer of the Company may not be held by the same person.

§8 The members of the Board of Directors shall be allowed to exercise other remunerated activity, as long as there is no incompatibility of time and/or conflict of interests.

§9 Subject to the provisions of these by-laws, the Board of Directors may delegate powers to the Executive Board for approval and signature of legal transactions related to the ordinary acts of management, including sale of electricity.

Clause 14 In the event of a vacancy on the Board of Directors, the first subsequent General Meeting of Stockholders shall elect a new member, for the period of office that remained to the previous member.

- §1 In this event, if the previous Board member was elected by a minority, the new member shall be elected by the same minority; the same rule shall be obeyed for the member representing the employees.

Clause 15 The Board of Directors shall meet, ordinarily, in accordance with its Regulations, at least once a month, to analyze the results of the Company and its subsidiaries and affiliated companies, and to decide on other matters included on the agenda; and shall meet in extraordinary meeting, if called by its Chair or its Vice-Chair, or by one third of its members, or when requested by the Executive Board.

- §1 Meetings of the Board of Directors shall be called by its Chair or Vice-Chair, with at least 10 (ten) days prior notice in writing or by email, containing the agenda. Convocation is not necessary when all the members of the Board of Directors, or their substitute members, are present. The Chair may call meetings of the Board of Directors on the basis of urgency without their being subject to this period of notice, provided that the other members of the Board are advised of the convocation.

- §2 Decisions of the Board of Directors shall be taken by the majority of the votes of the Board Members present, and in the event of a tie the Chair shall have the casting vote.

Clause 16 The Chair of the Board of Directors has the competency to grant leave to the Board's members, and the other members of the Board have the competency to grant leave to the Chair.

Clause 17 The Chair and Vice-Chair of the Board of Directors shall be chosen by the members of that Board, at the first meeting of the Board of Directors that takes place after the election of its members, and the Vice-Chair shall take the place of the Chair when the Chair is absent or impeded from exercising his/her functions.

Clause 18 The following are functions of the Board of Directors:

- a) to set the general orientation of the Company's business;
- b) to elect, dismiss and evaluate the Executive Officers of the Company, in accordance with the applicable legislation, subject to the by-laws;

- t) to ensure implementation of, and to supervise, the systems for management of risks and internal controls established for the prevention and mitigation of the principal risks to which the Company is exposed, including the risks related to safety and security of accounting and financial information and the occurrence of corruption or fraud;
- u) to establish an information disclosure policy to mitigate the risk of contradiction between the various areas and the managers of the Company;
- v) to make statements on any increase in number of the Company's own staff, concession of benefits or advantages, or revision of a salaries and careers plan, including alteration in the amount paid for commissioned posts or free appointments, and compensation of Chief Officers;
- w) to appoint, and to dismiss, in both cases with grounds, the head of the Internal Audit Unit, from among the Company's career employees;
- x) to elect the members of the Audit Committee, at the first meeting held after the Annual General Meeting, and to dismiss them, at any time, upon vote given with grounds by absolute majority of the members of the Board of Directors;
- y) to analyze, every year, the success in meeting targets and results in execution of the Multi-year Business Plan and the Long-term Strategy, and to publish its conclusions and state them to the Legislative Assembly of Minas Gerais State and to the Minas Gerais State Audit Court; and
- z) to approve the complementary policies, including the policy on holdings, in accordance with the terms of these by-laws.

§1 The financial limits relating to decisions by the Board of Directors that are identified by a percentage of the Company's Stockholders' equity shall be automatically adopted when the financial statements of each year are approved.

Section II

The Executive Board

Clause 19 The Executive Board comprises 11 (eleven) Executive Officers, who may be stockholders, resident in Brazil, elected by the Board of Directors for a period of two years, subject to the requirements of the applicable legislation and regulations. Re-election for a maximum of three consecutive periods of office is permitted.

§1 The Executive Officers shall remain in their posts until their duly elected successors take office.

§2 The Executive Officers shall exercise their positions as full-time occupations in exclusive dedication to the service of the Company. They may at the same time exercise non-remunerated positions in the management of the Company's wholly-owned or other subsidiaries or affiliated companies, at the option of the Board of Directors. In particular they shall also obligatorily hold the corresponding positions in the wholly-owned subsidiaries Cemig Distribuição S.A. and Cemig Geração e Transmissão S.A.

§3 Executive Officers who are not employees shall have the right to an annual paid leave of not more than 30 (thirty) days. This leave may not be accumulated, and its remuneration shall be augmented by one-third of the monthly compensation currently in effect.

Clause 20 In the event of absence, leave, vacancy, impediment or resignation of the Chief Executive Officer, this post shall be exercised by the Deputy Chief Executive Officer.

§1 In the event of absence, leave, vacancy, impediment or resignation of any of the other members of the Executive Board, the Executive Board may, on approval of the majority of its members, attribute the exercise of the respective functions to another Executive Officer, for as long as the period of absence or leave lasts.

§2 The Chief Executive Officer or member of the Executive Board elected in this way shall hold the position for the remaining time of the period of office of the Executive Officer who is substituted.

Clause 21 The Executive Board shall meet, ordinarily, at least two times per month; and, extraordinarily, whenever called by the Chief Executive Officer or by two Executive Officers with at least two days' prior notice in writing or by email or other digital medium, such notice not being required if all the Executive Officers are present. The decisions of the Executive Board shall be taken by vote of the majority of its members, and in the event of a tie the Chief Executive Officer shall have a casting vote.

Clause 22 The Executive Board is responsible for current management of the Company's business, subject to obedience to the Long-term Strategy, the Multi-year Business Plan, and the Annual Budget, prepared and approved in accordance with these Bylaws.

§1 The Multi-year Business Plan shall comprise plans and projections for the period of five business years, and must be updated at least once a year, and shall deal in detail with the following subjects, among others:

- a) the Company's strategies and actions, including any project related to its objects;
- b) new investments and business opportunities, including those of the Company's wholly-owned and other subsidiaries and affiliated companies, and the consortia in which it participates;
- c) the amounts to be invested or in any other way contributed from the Company's own funds or funds of third parties; and
- d) the rates of return and profits to be obtained or generated by the Company.

§2 The Annual Budget shall reflect the Company's Multi-year Business Plan and, consequently, the Long-term Strategy, and must give details of operational revenue and expenses, costs, capital expenditure, cash flow, the amount to be allocated to the payment of dividends, investments of cash from the Company's own funds or from funds of third parties, and any other data that the Executive Board considers to be necessary.

§3 The Long-term Strategy, the Multi-year Business Plan, and the Annual Budget shall be:

- a) prepared under coordination by the Chief Executive Officer, with participation of all the Chief Officers;

- b) prepared and updated annually, by the end of each business year, to take effect in the following business year;
- c) submitted to examination by the Executive Board and, subsequently, to approval by the Board of Directors.

§4 The following matters shall require a decision by the Executive Board:

- a) approval of the plan of organization of the Company and issuance of the corresponding rules and any changes to them;
- b) examination, and submission to the Board of Directors, for approval, of the Long-term Strategy and the Multi-year Business Plan, and revisions of them, including timetables, amount and allocation of the capital expenditure specified in it;
- c) examination, and submission to the Board of Directors, for approval, of the Annual Budget, which must reflect the Multi-year Business Plan in force at the time, and revisions of it;
- d) decision on reallocation of investments or expenditure specified in the Annual Budget which amount, individually or in aggregate, in a single financial year, to less than 1% (one per cent) of the Company's Stockholders' equity, with consequent adaptation of the targets approved, obeying the Multi-year Business Plan, the Long-term Strategy and the Annual Budget;
- e) approval of disposal of, or placement of a charge upon, any of the Company's property, plant or equipment, and/or giving of guarantees to third parties, in amounts less than 1% (one per cent) of the Company's Stockholders' equity;
- f) authorization of the Company's capital expenditure projects, or signing of agreements and legal transactions in general, or contracting of loans and financings and the creation of any obligation in the name of the Company, based on the Annual Budget approved, which individually or in aggregate have values less than 1% (one per cent) of the Company's Stockholders' equity, including injection of capital into wholly-owned or other subsidiaries, affiliated companies, and the consortia in which the Company participates;

- g) authorization to open administrative tender proceedings, and proceedings for dispensation from or non-requirement of tender, and contract, for amounts of up to 1% (one per cent) of the Company's Stockholders' equity, limited to R\$ 100,000,000.00 (one hundred million Reais), adjusted annually by the IPCA (expanded Consumer Price) index, if it is positive;
- h) authorization to file legal actions and administrative proceedings, and to enter into Court and out-of-court settlements, for amounts less than 1% (one per cent) of the Company's Stockholders' equity;
- i) approval of the nominations of employees to hold management posts in the Company, upon proposal by the Chief Officer concerned, subject to the provisions of Sub-clause h of Sub-item I of Clause 23;
- j) authorization of expenditure on personnel, and collective agreements and other employment instruments, subject to the competency of the General Meeting of Stockholders, the directives and limits approved by the Board of Directors, and the Annual Budget approved;
- k) examination of and decision on contracting of external consultants, when requested by the office of any Chief Officer's Department, subject to the provisions of Clause 18, Sub-clause j, and Clause 22, §4, Sub-clause g;
- l) formulation, for decision by the Board of Directors or the General Meeting of Stockholders, of policies complementary to these by-laws, including the policy on stockholding interests.

§5 Acts that are necessary for the regular functioning of the Company, signature of contracts, and other legal transactions, shall be carried out by the Chief Executive Officer, jointly with one Executive Officer, or by two Executive Officers, or by a person holding a valid power of attorney.

§6 Powers of attorney must be granted by the Chief Executive Officer, jointly with one Executive Officer, except for the power described in Sub-clause c of Sub-item I of Clause 23, for which only the signature of the Chief Executive Officer is required.

§7 Subject to the provisions of these by-laws the Executive Board may delegate powers to approve and sign legal transactions relating to matters in the remit of the bodies pertaining to each Executive Officer, for

ordinary acts of management, including sale of electricity.

§8 The financial limits for decision by the Executive Board that correspond to a percentage of the Company's Stockholders' equity shall be automatically adopted upon approval of the financial statements of each year.

§9 At the limits of its competencies and areas of autonomy, the Executive Board may attribute, by formal act, limits of autonomy to lower levels, upon composition of technical committees with decision capacity in specific subjects.

Clause 23 Subject to the provisions in the preceding Clauses and good corporate governance practices, it shall be the duty of each member of the Executive Board to comply with these by-laws, the decisions of the General Meeting of Stockholders and of the Board of Directors, the Internal Regulations and the decisions of the Executive Board, and cause others to comply with them. The duties of the members of the Executive Board, among others, are as follows:

I- Duties of the Chief Executive Officer:

- a) to coordinate and manage the work of the Company, and all the strategic and institutional activities of the affiliated companies, subsidiaries and consortia in which the Company has an interest;

 - b) to propose, implement and manage the work safety policy within the scope of his/her activities;
 - c) to disclose, at least annually, to the Executive Board, the reports on performance related to the activities which he/she coordinates and monitors; and
 - d) to represent the Company in relations with the market, the bodies, associations and other related entities of the electricity sector, including those of regulation and inspection.

Section III

The Audit Committee

The Audit Committee is an independent, consultative, permanent body, with its own budget allocation. Its objective is to provide advice and support to the Board of Directors, to which it reports. It also has the responsibility of other activities attributed to it by legislation.

- §1 The Audit Committee has three members, the majority of them independent, nominated and elected by the Board of Directors, in the first meeting after the Annual General Meeting, for periods of office of three years, not to run concurrently. One re-election is permitted.
- §2 Exceptionally, in the first election of the members of the Audit Committee, one member shall be elected for a period of office of two years.
- §3 The minutes of the meetings of the Audit Committee, which shall be every two months, must be disclosed, except when the Board of Directors considers that disclosure might put legitimate interest at risk, and in this case only its summary shall be disclosed.
- §4 The restriction in §3 may not be used in opposition to the control and/or inspection bodies to which the Company, and its wholly-owned and other subsidiaries, are subject – these shall have total and unrestricted access to the content of the minutes of the Audit Committee, subject to the obligation of secrecy and confidentiality.
- §5 The internal control over the Company entrusted to the Office of the General Inspector (*Controladoria*) of Minas Gerais State shall be of a subsidiary nature, and shall be subject to the principles of motivation, reasonableness, appropriateness and proportionality, and it must make itself compatible with the duties of the Internal Audit Unit and the Audit Committee.

Clause 25 The Audit Committee may exercise its duties and responsibilities in relation to such wholly-owned and other subsidiaries of the Company as adopt the regime of sharing of a Common Audit Committee.

Clause 26 The following are attributions and duties of the Audit Committee:

- a) to state opinion on contracting, and dismissal, of external auditors;
- b) to supervise the activities of the independent auditors, evaluating their independence, the quality of the services provided and the appropriateness of such services to the Company's needs;
- c) to supervise the activities carried out in the areas of internal control, internal audit and preparation of the financial statements;
- d) to monitor the quality and integrity of the internal control mechanisms, the financial statements and the information and measurements disclosed by the Company;
- e) to evaluate and monitor the Company's exposures to risk it may requisition, among other matters, detailed information on policies and procedures relating to compensation of the management, utilization of assets, and expenditures incurred in the name of the Company;
- f) to evaluate and monitor, jointly with the management and the Internal Audit Unit, the appropriateness of the transactions with related parties;
- g) to prepare an annual report with information on its activities, results, conclusions and recommendations, reporting any significant divergence between management, the independent auditors and the Audit Committee in relation to the financial statements;
- h) to assess the reasonableness of the parameters on which the actuarial calculations are based, and the actuarial result of the benefit plans maintained by the pension fund, when the Company is sponsor of a closed private pension plan entity;

- i) to give opinion, in such a way as to assist the stockholders in their appointment of managers, members of the Board of Directors support committees, and members of the Audit Board on compliance with the requirements of, and absence of prohibitions for the related elections; and
- j) to verify compliance in the process of evaluation of managers, members of the Board of Directors support committees, and members of the Audit Board.

§1 If an eligibility and evaluation committee is created, the competencies described in sub-clauses i and j of this Clause shall be transferred to that body.

Clause 27 The Audit Committee has operational autonomy to conduct or decide on carrying out of consultations, evaluations and investigations within the scope of its activities, including contracting and use of independent external specialists.

§1 The Audit Committee must have the means for receiving accusations, including those of a confidential nature, internal and external to the Company, on subjects related to its area of duties.

CHAPTER V

Control Areas

Clause 28 The following are Control Areas: Internal Audit, Compliance, and Corporate Risk Management.

§1 The Control Areas operate with independence, and have the prerogative of reporting directly to the Board of Directors, as applicable, in accordance with the applicable legislation.

Clause 29 The Internal Audit Unit is linked to the Board of Directors, with a view to preparation of the financial statements, and is responsible for assessing:

- a) appropriateness of internal controls, and the effectiveness of risk management and the governance process; and
- b) reliability of the process of collection, measurement, classification, accumulation, recording and disclosure of events and transactions.

Clause 30 The Compliance Area, linked to the Chief Executive Officer, is responsible for:

- a) managing the Company's compliance program, exercising prevention, detection of and response to failures in compliance with the internal and external rules and any deviation of conduct; and
- b) coordinating and defining the methodology to be used in the management of internal controls.

§1 The officer responsible for the Compliance Area reports directly to the Board of Directors in any situations in which involvement of the Chief Executive Officer in irregularities is suspected or when that Officer, having received a report of a situation, evades the obligation to adopt measures that are necessary in relation to it.

Clause 31 The Corporate Risk Management Area, linked to the CEO and led by a statutory director, is responsible for:

- a) coordinating and mapping the management of the portfolio of corporate risks;
- b) supporting the other areas of the Company in adoption of the decisions on the corporate risk policy and adoption of the risk appetite parameters decided by the Board of Directors; and
- c) deciding the methodology to be used in corporate risk management and supporting the other areas in its implementation.

§1 The risk management area shall periodically send reports to the Audit Committee containing its indications and recommendations.

CHAPTER VI

The Audit Board

Clause 32 The Audit Board shall function permanently, and shall comprise five sitting members and their respective substitute members, who shall be elected for a period of office of two years, when a General Meeting of Stockholders is held.

§1 The following rules for appointment must be obeyed in the composition of the Audit Board:

- a) The minority holders of common shares, and the holders of preferred shares, both have the right to elect, in separate votes, one member each, in accordance with the applicable legislation.
- b) The majority of the members shall be elected by the controlling stockholder of the Company, and at least one shall be a government employee with a permanent link to the Public Administration.

§2 The Audit Board shall elect its Chair from among its members, and the Chair shall call and chair the meetings.

§3 Where appointment of members of the Audit Board of subsidiary and/or affiliated companies is a competency of the Company, this shall be done according to criteria and an eligibility and assessment policy approved by the Board of Directors.

Clause 33 In the event of resignation, death or impediment, a member of the Audit Board shall be replaced by his or her respective substitute, until the new member is elected, and such member shall be chosen by the same party that appointed the substitute.

Clause 34 The Audit Board shall have the attributions set by the applicable legislation and, to the extent that they do not conflict with Brazilian legislation, those required by the laws of the countries in which the Company's shares are listed and traded, including the following:

- a) to monitor and inspect, through any one of its members, the acts of the managers and to verify compliance with their duties under the law and by-laws;
- b) to give opinion on the annual report of management, and to include in such opinion any such complementary information that it deems to be necessary or useful to the decision of the General Meeting of Stockholders;
- c) to give opinion on any proposals made by the management bodies, to be submitted to the General Meeting of Stockholders or the Board of Directors, as the case may be, in relation to change in share capital, issue of debentures or warrants, investment plans and/or capital budgets, distribution of dividends, transformation, absorption, merger or split;
- d) to report, through the person of any of its members, to the management bodies and, if these do not take the measures necessary for the protection of the Company's interests, to the General Meeting of Stockholders, any errors, frauds or crimes that they discover, and suggest measures that will be useful to the Company;
- e) to call the Annual General Meeting, if the management bodies delay its convocation by more than 1 (one) month, and to call an Extraordinary Meeting of Stockholders whenever there are serious or urgent reasons, and include on the agenda of such Meetings whatever matters they consider to be necessary;
- f)

to analyze, at least quarterly, a trial balance and other financial statements prepared periodically by the Company;

- g) to examine the financial statements for the business year and to give opinion on them; and
- h) to carry out these functions during liquidation, having in mind the special provisions that regulate that procedure.

Clause 35 The global or individual compensation of the members of the Audit Board shall be set by the General Meeting of Stockholders which elects it, in accordance with the applicable legislation.

CHAPTER VII

The Business Year

Clause 36 The business year shall coincide with the calendar year, closing on December 31 of each year, when the Financial Statements shall be prepared, in accordance with the applicable legislation. Financial statements for periods of six months or interim statements for shorter periods may be prepared.

Clause 37 Before any sharing of the profit, there shall be deducted from the result for the business year, in this order: retained losses, the provision for income tax, the Social Contribution tax on Net Profit, and then, successively, employees and managers profit shares.

Av. Barbacena 1200 Santo

§1 The net profit ascertained in each business year shall be allocated as follows:

- a) 5% (five per cent) to the legal reserve, up to the maximum limit specified by law;
- b) 50% (fifty per cent) distributed as mandatory dividend to the stockholders of the Company, subject to the other terms of these Bylaws and the applicable legislation; and
- c) the balance, after the retention specified in a capital expenditure and/or investment budget prepared by the Company's management, in compliance with the Company's Long-term Strategy and the dividend policy contained therein and duly approved, shall be applied in the constitution of a profit reserve for the purpose of distribution of extraordinary dividends, in accordance with Clause 30 of these by-laws, up to the maximum limit specified by Clause 199 of the Corporate Law.

Clause 38 The dividends shall be distributed in the following order:

- a) the minimum annual dividend guaranteed to the preferred shares;
- b) the dividend for the common shares, up to a percentage equal to that guaranteed to the preferred shares.

§1 Once the dividends specified in Sub-clauses a and b of the head paragraph of this clause have been distributed, the preferred shares shall have equality of rights with the common shares in any distribution of additional dividends.

§2 The Board of Directors may declare interim dividends, in the form of Interest on Equity, on account of retained earnings, profit reserves or profit reported in half-yearly or interim statements of financial position.

§3 The amounts paid or credited as Interest on Equity, in accordance with the relevant legislation, shall be imputed as on account of the amounts of the mandatory dividend or of the dividend payable under the Bylaws to the preferred shares, being for all purposes of law a part of the amount of the dividends distributed by the Company.

Clause 39

Without prejudice to the mandatory dividend, every two years, or more frequently if the Company's availability of cash so permits, the Company shall use the profit reserve specified in Sub-clause c of Clause 37 of these by-laws for the distribution of extraordinary dividends, up to the limit of cash available, as determined by the Board of Directors, in obedience to the Company's Long-term Strategy and the dividend policy contained therein.

Clause 40 The dividends declared, mandatory or extraordinary, shall be paid in 2 (two) equal installments, the first by June 30 and the second by December 30 of each year, and the Executive Board shall decide the location and processes of payment, subject to these periods.

§1 Dividends not claimed within a period of 3 (three) years from the date on which they are placed at the disposal of the stockholder shall revert to the benefit of the Company.

Clause 41 The employees have the right to a share in the profits or results of the Company, on criteria authorized by the Executive Board based on the guidelines approved by the Board of Directors and limits established by the General Meeting of Stockholders, in accordance with the applicable legislation.

CHAPTER VIII

Liability of Management

Clause 42 Under the applicable law and regulations, and these by-laws, members of the Company's management are accountable to the Company and to third parties for actions they take in exercise of their functions.

Clause 43 The Company will provide defense, on the plaintiff or defendant side, for members and former members of the Board of Directors, the Audit Board and the Executive Board in Court and/or administrative proceedings, during or after their periods of office, occasioned by events or acts related to the exercise of their specific functions.

§1 This guarantee also extends to employees who legally carry out actions by delegation or acting under authority from members of the Company's Management.

§2 Upon decision by the Board of Directors, the Company may contract third-party liability insurance to cover procedural expenses, fees of counsel and indemnities arising from legal or administrative actions referred to in the head paragraph of this Clause.

§3 Contracting of insurance may also cover defense of the insured parties in other spheres, provided that the acts in question do not show manifest illegality or abuse of power.

§4 If funding of procedural expenses, fees and/or other expenses is less expensive than contracting or activation of insurance, the Company may contract a specialized external office for defense in relation to the acts being impugned.

§5 Any member of the Board of Directors or the Audit Board, or any Chief Officer or employee, who is convicted of a crime in a final judgment against which there is no further appeal, must reimburse the Company all the costs, expenses and losses caused to it.

CHAPTER IX

Resolution of disputes

Clause 44 The Company, its stockholders, managers and members of the Audit Board undertake to resolve through arbitration, preceded by mediation, before the Market Arbitration Chamber (CAM) of the B3 or the FGV Mediation and Arbitration Chamber, all and any dispute or controversy that may arise between them related to or arising from, in particular, the application, validity, efficacy, interpretation or violation of the provisions contained in the applicable legislation and regulations, the by-laws, any stockholders' agreements filed at the head office, the rules issued by the Brazilian Securities Commission, or the other rules applicable to the functioning of the capital markets in general, as well as those contained in the Level 1 Regulations of the B3.

§1 Without prejudice to the validity of this arbitration clause, application for urgency measures, before the arbitration tribunal has been constituted, should be remitted to the Judiciary, through the courts of the legal district of Belo Horizonte, Minas Gerais.

CHAPTER X

General provisions

Clause 45 Admission to the permanent staff of employees of the Company shall be by approval in a public competition.

§1 The employees are subject to the applicable employment law and the internal regulations of the Company.

Clause 46 In contracts entered into, and other legal transactions, between the Company and its related parties, including the State of Minas Gerais, the Company's policy of transactions with related parties shall be obeyed.

Clause 47 References to the term "applicable legislation" in these by-laws includes reference to the regulatory rules, subject to the prevalence of Law over rules of an infra-legal nature.

Clause 48 Financial covenants currently in effect for the Company must obligatorily be mentioned in the Company's policy on dividends and indebtedness, to be approved by the General Meeting of Stockholders.

Clause 49 Policies complementary to these by-laws, required by the applicable legislation, shall be approved by the Board of Directors upon proposal by the Executive Board.

Clause 50 Upon being sworn in, and annually, management, members of the Audit Board and members of the Audit Committee, including the representatives of employees and minorities, must take part in specific trainings made available by the Company on the following subjects:

- a) corporate law and the capital markets;
- b) disclosure of information;
- c) internal controls;
- d) code of conduct;
- e) Federal Law 12846 of August 1, 2013;
- f) tenders and contracts;
- g) other subjects related to the Company's activities.

§1 Those who have not participated in annual training made available by the Company in the last two years are prohibited from being re-appointed to their positions.

Clause 51

For the purposes of the provisions of Article 17, §2, IV and Article 22, §1, V of Law 13303/2016 and Article 26, IX of State Decree 47154 of February 20, 2017, contracting of Cemig or its wholly-owned subsidiaries for activities carried out under natural monopoly, in the role of consumer, are not considered to be activities preventing appointment as managers, nor as independent managers.

CHAPTER XI

Transitory provisions

Clause 52 The rules relating to the members of the Board of Directors, the Executive Board, the Audit Board and the Audit Committee specified in the by-laws shall be applied as from the first periods of office beginning after the change in these by-laws, reflecting the adaptation specified by Law 13303/2016 and State Law 47154/2017.

- §1 Exceptionally, the first period of office of the members of the Board of Directors, the Executive Board and the Audit Board shall begin with the election held immediately after the approval of these by-laws, ending at the Annual General meeting of 2020.
- §2 The inter-regnum period between the Annual General Meeting held on April 30, 2018 and the election immediately after the approval of these by-laws shall not be considered as a new period of office for the purposes of Clause 13, §2, Clause 19 and Clause 32 of these by-laws.

Clause 53 Until the representative of the employees on the Board of Directors is chosen in accordance with sub-clause c of §3 and §4 of Clause 13 of these by-laws, an employee who complies with these specific requirements shall be designated as substitute member, and the unions representing the various groups of employees shall be advised of the designation.

Clause 54 The internal processes, organizational structure, names and terms used in the Company on the date of approval of these by-laws shall remain operative until the Board of Directors lays down the specific new arrangements.

Clause 55 Any cases of omission in these by-laws shall be resolved by the General Meeting of Stockholders, subject to the applicable legislation.

II. Orientation, of the representatives of Cemig at the Extraordinary General Meetings of Cemig Distribuição S.A. and Cemig Geração e Transmissão S.A., to vote in favor of the change to the by-laws and election of the members of the Board of Directors and Audit Board.

As can be seen, the objective of this proposal is to meet the legitimate interests of the stockholders and of the Company, and for this reason it is the hope of the Board of Directors that it will be approved.

The Chair then placed the said Proposal by the Board of Directors to this Meeting in debate.

The representative of the stockholder **The State of Minas Gerais** then presented adjustments in the version of the by-laws contained in the said Proposal, to:

A) change the drafting:

1) of sub-clause c of §12 of Clause 12 of the by-laws, to read as follows:
Clause 12 [...]

§ 12 [...]

c)

achievement of the objectives established in the Multi-year Business Plan and in accordance with the long-term Strategy and Annual Budget.

2) of §9 of Clause 13 of the by-laws, to read as follows:
Clause 13

§9 The Board of Directors may confer delegation of powers to the Executive Board for approval and signature of legal transactions related to the ordinary acts of management, including sale of electricity.

3) of Clause 15 of the by-laws, to read as follows:
Clause 15 The Board of Directors shall meet ordinarily, in accordance with its Internal regulations, at least once a month, to analyze the results of the Company and its wholly-owned and other subsidiaries and affiliated companies, and to decide on other matters included on the agenda. It shall also meet extraordinarily, on convocation by its Chair, or by its Vice-Chair, or by one-third of its members, or when requested by the Executive Board.

4) of §3 of Clause 19 of the by-laws, to read as follows:
Clause 19 [...]

§3 Those members of the Executive Board who are not employees, or those with employment contracts suspended, shall have the right to annual paid leave of not more than 30 (thirty) days, non-cumulative, receiving an additional one-third of the current monthly remuneration.

5) of Sub-items V and VII of Clause 23, to read as follows:
Clause 23 [...]

V To the Chief Officer for Distribution and Sales: To manage the processes and activities of distribution of electricity and sales in the Regulated Market.

[...]

VII To the Chief Trading Officer: To generate the processes and activities related to trading and sale of electricity and the use of the electricity system, market planning, and commercial relationship in the Free Market. ; and

B) to include §6 in Clause 24, with the following drafting:

§6 Members of the Board of Directors who are also members of the Audit Committee shall receive only the remuneration of the latter.

The representative of **BNDES Participações S.A. (BNDESPar)** also presented adjustments to the version of the by-laws contained in the Proposal by the Board of Directors to this meeting, to alter the drafting as follows:

1. In the head paragraph of clause 9, to provide for a limit to the authorized capital expressed in amount or in number of shares, as per Article 168 of Law 6404/1976, as amended and, if the percentage form is maintained, it should be based on the value of the share capital fixed in the by-laws, so that the authorization is not unlimited.
2. In Clause 12, §3, to provide that the positions on the committees of support to the Board of Directors in the subsidiaries and affiliated companies should be filled by members of the boards of directors of the company,

in line with best corporate governance practices.

3. In Clause 12, §5, to specify a minimum period of 5 (five) years as projection for the long-term strategy, not including the dividends policy because, under Clause 48 of the by-laws contained in the Proposal under discussion, that policy must be approved by the General Meeting of Stockholders and not by the Board of Directors.
4. In Clause 12, §7, exclusion of the final part, because what should be published and submitted to the Legislative Assembly and the Audit Court of the State of Minas Gerais is the annual analysis, made by the Board of Directors, in terms of achievement of targets and results in the execution of the long-term strategy and the business plan and not its approval, which is provided for in Clause 18, Sub-clause y of the by-laws under examination.
5. In §9 of Article 13, since the generic delegation by the Board of Directors to the Executive Board for approval of legal transactions should be treated on the basis of restriction or dispensation of the need for prior statement of opinion by the Board of Directors on certain legal transactions, or with increase of the level of autonomy of the body over this type of matter, provided that there is clear specification of the situations in which it is applicable, otherwise a competency that is exclusive to the body specified in the by-laws itself would be violated.
6. In Clauses 18, Sub-clause j , and 22, §4, Sub-clause g , to be aligned in terms of the limits of autonomy set for the Executive Board and Board of Directors, as well as making reference to the situations of dispensation or non-requirement of tender, or of the non-applicability of the duty to hold a tender, specified in Law 13303/2016.
7. In Clause 18, Sub-clause l , to state that the competency of the Board of Directors for issuance of debentures is restricted to those not convertible into shares, under Law 6404/1976.

8. In Clause 18, Sub-clause q, to provide that the committees of support to the Board of Directors should give their opinion before the decisions of that Board on the matters applicable to them, even if of a non-binding nature, because to the contrary the function of these committees would be null.
 9. In Clause 20, §1, of by-laws, which should completely regulate the process of replacement of members of the Executive Board, including new election, and not only in the matter of redistribution of function in the event of a post being vacant; and that body should function with a minimum number of 3 members, under Law 13303/2016.
 10. In Clauses 23, I, Sub-clause g, and 30, of the by-laws, which should specify that the areas of compliance and risk management, separated in the proposal, should be linked to the chief executive officer, but led by a statutory director, as specified in Law 13303/2016.
 11. In Clause 23, II, to provide that the Deputy CEO should have functions additional to substitution of the CEO.
 12. Exclusion of §5 of Clause 24, since the by-laws do not have the power to regulate or limit the activity of the central body of internal control of the Executive Power, the competences of which arise from Law.
 13. Exclusion of §1 of Clause 26, permanently setting the duties specified in Sub-clauses i and j in the ambit of the Audit Committee, as specified in State Decree 47154/2017, or to create a separate committee with the duties defined in Article 10 of Law 13303/2016, with the status of a body under the by-laws.
 14. In Clause 33, to provide for election by the General Meeting of Stockholders to fill the post of a member of the Audit Board in the event of vacancy, in line with the competencies set by Article 161, §3, of Law 6404/1976;
 15. Exclusion of Clause 52, since it aims to regulate prior situations unnecessarily, and contrary to statements by the CVM (Securities Commission) on the immediate applicability of the requirements and prohibitions on the members of the bodies under the by-laws as from Law 13303/2016 coming into effect.
 16. Clause 54 to provide for a period for adaptation of processes and internal structures to the new by-laws, in the absence of which its coming into full effect might be suspended indefinitely.
- The Chair then stated that, in relation to §5 of Clause 24 of the by-laws, the draft portrays the orientation received from the General Attorney of the State of Minas Gerais which, through Opinion AGE 15964/2018 concludes that the

control exercised by the General Comptroller of the State, in relation to state-controlled companies, is subsidiary to the internal control of the company, provided that any act in question obeys the requirements of motive, reasonability, appropriateness and proportionality.

The Proposal by the Board of Directors was submitted to debate and, subsequently, to the vote and was approved by a majority, containing the alterations presented by the representative of the State of Minas Gerais and the alterations presented and referred to in items 1, 3, 4, 6, 7, 9, 10, 11 and 14 above by the representative of **BNDESPar**, that is to say, by 302,823,138 votes in favor, 10,632,956 against and 69,730,102 votes of abstention; the other alterations suggested by the representative of **BNDESPar** being rejected, by majority, that is to say, by 259,113,102 votes against, 54,342,992 votes in favor, and 69,730,102 votes of abstention.

The Chair stated that, for the purposes of decision on item 1 of the agenda of this meeting, there were left out of account 4,114,071 shares, since they were cases of decision using remote voting.

On this matter, the Chair requested the transcript of the alterations approved in relation to the Proposal by the Board of Directors to this Meeting arising from the adjustments presented by the representative of **BNDESPar** and approved, namely the following:

Clause 9 The Company's Share Capital may be increased by up to a limit of 10% (ten percent) of the share capital set in the by-laws, without need for change in the by-laws and upon decision of the Board of Directors, having previously heard statement of opinion by the Audit Board.

Clause 33 In the event of resignation, death or impediment, a member of the Audit Board shall be replaced by his or her respective substitute, until the new member is elected, and such member shall be chosen by the same party that appointed the substitute.

In relation to Clauses 12, §3; 13, §9; 18, sub-clause q ; 26, §1 and 52 of the Proposal by the Board of Directors to this Meeting, the representative of BNDESPar presented a statement of opinion contrary to their approval.

The Chair then explained that in functional terms the duties and functions of the Internal Audit Unit are subordinated to the Board of Directors; but that the Internal Audit Unit shall be administratively subordinated to the office of the Chief Executive Officer.

He further stated that, under the recently-approved provision of the by-laws, it would not be a function of this Meeting to orient any vote by the representative(s) of Cemig in the Extraordinary General Meeting of Stockholders of Cemig Distribuição S.A. or Cemig Geração e Transmissão S.A., on changes to the by-laws or election of members of the Board of Directors or the Audit Board, for which reason items 6 and 7 of the Convocation are not successful.

The Chair then stated that, as a result of the change to the by-laws that had just been decided and in accordance with Item 2 of the convocation, it was necessary to elect the members of the Board of Directors, for a new period of office of 2 (two) years, exceptionally to end at the Annual General Meeting of 2020.

Finally, the Chair pointed out that it will be necessary first and in view of §3 of Clause 13 of the by-laws, to elect the sitting member and respective substitute nominated by representatives of the holders of preferred shares, and only then to apply the instrument of Multiple Vote to fill the remaining vacancies on the Board of Directors.

Since there was found not to be the minimum legally required quorum of preferred shares for nomination of a sitting and substitute member of the Board of Directors, the Chair stated that Multiple Vote would be adopted for election of 8 members and their respective substitutes to that Board.

The Chair stated that adoption of Multiple Vote had been requested by the stockholder **Fundo de Investimentos em Ações Dinâmica Energia FIA Dinâmica**, as per a letter in the Company's possession, and that 43,033,363 shares would be necessary for the election of each member of the Board of Directors.

Then, and by adoption of Multiple Vote, the representative of the stockholder **BNDESPar**, as per the voting spreadsheet, attributed, for sitting member of the Board of Directors, 54,342,998 shares, to:

Ms Patrícia Gracindo Marques de Assis Bentes

Brazilian, divorced, company manager, domiciled in Rio de Janeiro, RJ, at Rua Ministro Ramos Monteiro 37/701 B, Leblon, CEP 22430-100, bearer of Identity Card 59879098-6, issued by the Public Safety Department of São Paulo State, and CPF nº 810318827-15;

her substitute member not to be elected at this opportunity.

The representative of the stockholder The State of Minas Gerais, as per the voting spreadsheet, then attributed, per sitting member of the Board of Directors, 43,033,364 shares to complement the Board of Directors, electing the following:

Two seats still being vacant, the Chair said that Law 6404/1976 omits to specify the manner of decision in relation to the leftover balance of shares that took part in the composition of the Board of Directors through adoption of Multiple Vote.

On this matter, and considering that the by-laws also have no rule for distribution of these leftover shares, the holders of voting rights present at the meeting decided at this time to adopt, as the criterion for filling the two remaining vacancies on the Board of Directors resulting from the distribution of shares by Multiple Vote, the use of the highest proportion of leftover shares relative to the distribution of the six previously-filled seats.

As candidate for one of the seats on the Board of Directors, Mr. Anderson Carlos Koch, as per the voting spreadsheet, attributed 42,431,983 shares to complement the Board of Directors, electing:

José Pais Rangel

Brazilian, married, lawyer, domiciled in Rio de Janeiro, Rio de Janeiro State, at Av. Presidente Vargas 463/13º andar, Centro, CEP 20071-003, bearer of Identity Card No. 22191 issued by the Brazilian Bar association of Rio de Janeiro (OAB/RJ), and CPF 239775667-68;

Then, the representative of the State of Minas Gerais, as per the voting spreadsheet, attributed 33,313,326 shares to complement the Board of Directors, electing the following:

Marcelo Gasparino da Silva

Brazilian, married, lawyer, domiciled in Florianópolis, Santa Catarina State, at Rua Esteves Júnior 605/1411, Centro, CEP 88015-130, bearer of Identity Card 2302967, issued by the Santa Catarina State Public Safety Department, and CPF 807383469-34;

Then, and as per Clause 53 of the recently-decided by-laws, the seat as substitute member of the Board of Directors attributed to a representative of the employees was allocated to Mr.

Márcio José Peres

Brazilian, married, engineer, bearer of Identity Card 12729567-7, issued by SSP/SP, and CPF 713401066-04, domiciled in Belo Horizonte, MG, at Av. Barbacena 1200, 12th Floor, Santo Agostinho, CEP 30190-131;

the related seat of a sitting member remaining unfilled, with 249,015,057 votes in favor, 13,006,245 against and 125,278,965 votes of abstention.

The Board members elected declared in advance that they are not subject to any prohibition on exercise of commercial activity, that they do not occupy any post in a company which could be considered to be a competitor of the Company, and that they do not have nor represent any interest conflicting with that of Cemig; and they made a solemn commitment to become aware of, obey and comply with the principles, ethical values and rules established by the Code of Professional Conduct of Companhia Energética de Minas Gerais – Cemig, and the Code of Ethical Conduct of Government Workers and Senior Administration of the State of Minas Gerais.

The Chair stated that assumption of these posts is conditional on presentation of the statements contained in the relevant federal and state legislation.

He then said that as a result of the new composition of the Board of Directors, and as stated by Clause 12, §1 of the by-laws of Cemig just approved, there was a need to change the composition of the Board of Directors of the wholly-owned subsidiaries Cemig Distribuição S.A. (Cemig D) and Cemig Geração e Transmissão S.A. (Cemig GT), since the structure and composition of the Boards of Directors of those Companies are required to be identical to those of Cemig.

The Chair then dealt with items 4 and 5 of the agenda, relating to the setting of compensation of the representatives of the Audit Committee, and adjustment of the Annual Global Allocation for compensation of the Managers, Members of the Audit Board, and members of the Audit Committee, and proposed as follows:

- 1) To set the Annual Global allocation for Compensation of the members of the Board of Directors, the Executive Board, the Audit Board and the Audit Committee at the amount of up to R\$ 30,766,415.00 (thirty million seven hundred sixty-six thousand four hundred fifteen Reais), the other amounts and criteria remaining the same as those approved by the Ordinary (Annual) and Extraordinary General Meetings of Stockholders of Cemig held, concurrently, on April 30 of this year.

2)

To establish that the monthly remuneration of each one of the members of the Audit Committee shall be equivalent to R\$ 20,590.90 (twenty thousand five hundred ninety Reais and ninety centavos).

- 3) To establish that the members of the Board of Directors that are also members of the Audit Committee shall receive only the compensation of the latter.

The proposal by the representative of the stockholder The State of Minas Gerais being placed in debate, the representative of BNDESPar recorded his view that this item of the agenda should not pass because in the convocation the amounts and the criteria to be considered had not been stated.

The proposal of the representative of the stockholder The State of Minas Gerais was put to vote and approved by majority, as follows:

249,015,057 votes in favor, 13,006,245 against and 125,278,965 votes of abstention.

Then, considering Item 3 of the convocation, the Chair stated that it was necessary to elect the members of the Audit Board, for a new period of office of 2 (two) years, exceptionally ending with the Annual General Meeting to be held in 2020.

The Chair said that this election would be carried out with separate voting, in the case of candidates indicated by holders of preferred shares and by minority stockholders of common shares.

The Chair thus placed the election of the sitting and substitute members of the Audit Board in debate.

Asking for the floor, as holder of preferred shares, the representative of the stockholder **FIA Dinâmica** nominated the following persons to be members of the Board of Directors:

Sitting member:

Rodrigo de Mesquita Pereira

Brazilian, married, lawyer, domiciled in São Paulo, São Paulo State at Rua Dr. Fernandes Coelho 85, 6º Andar, Pinheiros, CEP 05423-040, bearer of Identity Card 8364447-7 issued by the São Paulo State Public Safety Department (SSPSP), and CPF 091622518-64;

and, as his substitute member,

Michele da Silva Gonsales

Brazilian, married, lawyer, domiciled in São Paulo, SP, at Rua Sabará 402/42, Higienópolis, CEP 01239-010, bearer of Identity Card 33347425-9, issued by the São Paulo State Public Safety Department, and CPF 324731878-00.

The Chair then put the above nominations to debate, and, subsequently, to a vote separately, i.e. with only holders of the preferred shares participating and they were approved by a majority of votes, with 77,663,677 votes in favor, 92,860,436 abstentions, and no votes against.

The Chair stated that, for the purposes of composition of the Audit Board, there were left out of account 203,675,889 shares, since candidates for the Audit Board to be elected by the holders of preferred shares, separately, were not included on the remote voting form.

Asking for the floor, the representative of **FIA Dinâmica**, for the minority of common stockholders with the right to vote, proposed the following names for the Audit Board:

Sitting member:

Manuel Jeremias Leite Caldas

Brazilian, married, engineer, domiciled in Rio de Janeiro, RJ, at Av. Lúcio Costa 6700/1103, Barra da Tijuca, CEP 22795-900, bearer of Identity Card 284123 issued by the Air Ministry and CPF 535866207-30;

and as his substitute member,

Ronaldo Dias

Brazilian, married, accountant, domiciled in Rio de Janeiro, RJ, at Rua Maxwell 452/704, Vila Isabel, CEP 20541-100, bearer of Identity Card 2201087-0 issued by the Rio de Janeiro State Traffic Department (Detran), and CPF 221285307-68.

Asking for the floor, the representative of the stockholder BNDESPar, also for the minority of common stockholders with the right to vote, proposed the following appointments to the Audit Board:

and as his substitute member,

Carlos Roberto de Albuquerque Sá

Brazilian, divorced, engineer, domiciled in São Paulo, SP, at Alameda Jauaperi 755/132, Moema, CEP 04523-013, bearer of Identity Card 2321952, issued by the Felix Pacheco Institute of Rio de Janeiro and CPF 212107217-91.

The above nominations were put to debate, and, subsequently, to a vote, separately, by the minority of holders of voting shares, and the nominations of the representative of the stockholder BNDESPar received 54,342,992 votes in favor, while the nominations of the representative of **FIA Dinâmica** received 42,431.983 votes, there having been counted in relation to these nominations 37,931,075 abstentions, and no votes against.

The Chair then stated that the nomination by the majority stockholder of members of the Audit Board was at this time not successful, due to the provision in CVM Official Letter 227/2018/CVM/SEP/GEA-1, of June 7, 2018, which states a decision by the CVM that the prohibitions established by Article 17, §2, of Law 13303/2016, are applicable also to candidates to the Audit Board of public companies and mixed-economy companies.

For this reason, the representative of the stockholder **The State of Minas Gerais** stated that the majority stockholder will proceed to a re-composition of the Audit Board at another time in the future.

The Members of the Audit Board elected declared in advance that they are not subject to any prohibition on exercise of commercial activity, and assumed a solemn undertaking to be aware of, obey and comply with the principles, ethical values and rules established by the Code of Professional Conduct of Companhia Energética de Minas Gerais Cemig, and the Code of Ethical Conduct of Government Workers and Senior Administration of the State of Minas Gerais.

The Chair noted that their taking office is conditional upon presentation of the statements contained in the relevant federal and state legislation.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The meeting being opened to the floor, since no-one else wished to speak, the Chair ordered the session suspended for the time necessary for the writing of these minutes.

The session being reopened, the Chair, after putting the said minutes to debate and to the vote and verifying that they had been approved unanimously, that is to say by 387,300,267 votes, and signed, closed the meeting.

For the record, I, **Anamaria Pugedo Frade Barros**, Secretary, wrote these minutes and sign them together with all those present.

MARKET ANNOUNCEMENT

Changes to the by-laws enhancing corporate governance

Cemig (*Companhia Energética de Minas Gerais*), a listed company with securities traded on the stock exchanges of São Paulo, New York and Madrid, **hereby informs** the public, the CVM (the Brazilian Securities Commission) and the São Paulo stock exchange (B3) **as follows:**

The Extraordinary General Meeting of Stockholders of Cemig held on June 11, approved alteration of the Company's by-laws, to formalize best practices in corporate governance, and provide formal compliance with Law 13306/2016 (the State Companies Law).

The improvements now formally incorporated in the by-laws include:

Reduction of the number of members of the Board of Directors from 15 to 9 reflecting the Best Corporate Governance Practices Code of the Brazilian Corporate Governance Institute (*Instituto Brasileiro de Governança Corporativa*, IBGC), and the Corporate Sustainability Assessment Manual of the Dow Jones Sustainability Index.

Creation of the Audit Committee (*Comitê de Auditoria*). The Audit Board (*Conselho Fiscal*) remains in existence.

The Eligibility and Assessment Policy for appointments to the Board of Directors or Executive Board of subsidiaries or affiliated companies.

The Related Party Transactions Policy.

Formal designation for the Board of Directors to ensure implementation of and supervision of the Company's systems of risks and internal controls.

Optional power for the Executive Board to expand technical committees on which members are career employees and which have autonomy to make decisions on specific subjects.

The CEO to be responsible for directing compliance and corporate risk management.

Greater emphasis on the company's control functions: internal audit, compliance, and corporate risk management.

Adoption of an arbitration chamber for resolution of any disputes between the company, its stockholders, managers, and/or members of the Audit Board.

These changes to the by-laws show the commitment of the controlling and minority stockholders to enhancement of the process of management and corporate governance practices, as a means of ensuring Cemig's sustainability and profitability in the long term.

**Subject: Request for information Reiteration of requirement
Official Letter 198/ 2018-CVM/SEP/GEA-1.**

Dear Sir,

1 We refer to the Market Announcement published by the Issuer on May 14, 2018, in response to the above-mentioned Official Letter, which requests explanations about a news report in the *Estadão Online* news medium, under the heading:

Santo Antônio Hydroelectric Plant declares imminent risk of financial failure .

- 2 On this subject, the Issuer alleged in the said correspondence that it did not see any reason for disclosure additional to, or concomitant with, the Material Announcement or Market Announcement, because it considered the explanations published by Santo Antônio Energia S.A. on the subject to be sufficient.
- 3 However, in view of the significant scale of the investment for the Issuer, bearing in mind that it is larger than the net profit of Cemig in the business year ended December 31, 2017[1], we reiterate the requirements contained in that Official Letter.
- 4 Thus, we now once again request the need for statement by the company on the reasons why it opted not to publish a Material Announcement in relation to the question under discussion, and also commentaries on other information considered important on the subject, especially in relation to the possible impacts of losses relating to the investments in Santo Antônio Energia S.A. on the Issuer's position in terms of equity and financial situation.
5. This statement must be given through the *Empresa.NET* system, in the category: *Market notice*; Sub-category: *Responses to consultations by CVM/B3*; Subject: *Media News Report*; and should include a transcription of this Official Letter.

6 We warn you that, by order of our Company Relations Supervision Management, using its legal powers under Sub-item II of Article 9 of Law No. 6385/1976 and CVM Instruction 452/07, a coercive fine of **R\$ 1,000 (one thousand Reais)** is applicable, without prejudice to other administrative sanctions, for non-compliance with the requirement contained in this Official Letter, which is sent exclusively by e-mail, **by June 13, 2018**, notwithstanding the provisions of §1 of Article 6 of CVM Instruction 358/02.

Reply by CEMIG

Dear Ms. Nilza Maria Silva de Oliveira,

In response to Official Letter 232/2018/CVM/SEP/GEA-1, Cemig (*Companhia Energética de Minas Gerais*) (Cemig or the Company) provides the following additional statements in relation to the requirements contained in Official Letter 198/2018-CVM/SEP/GEA-1.

At the time, through our Market Announcement in response to Official Letter 198/2018-CVM/SEP/GEA-1, we informed you that after the responses published by Santo Antônio Energia S.A. (SAE) itself on the media report published by the *Estado on May 9, 2018*, we saw no reason, under CVM Instruction 358/2002, that would justify disclosure, by the Company, of information concomitant with or additional to the Material Announcement published by SAE.

On this point, it should be noted that the debts of SAE, which are the subject of a Court action in the judiciary, are still under discussion and are susceptible to negotiation and potential agreement for payment by instalments, and that this was stated in the Material Announcement published by SAE on May 10, 2018, which was attached to our previous response:

Santo Antônio Energia S.A. (SAE or the Company), in accordance with CVM Instruction 358 of January 3, 2002 as amended, and in reference to the Material Announcements published on April 17, 20 and 24, 2018, and the report published on May 9 in the *O Estado de S. Paulo* newspaper (*Santo Antônio Hydroelectric Plant declares imminent risk of financial failure*), hereby advises the market as follows:

As has already been stated in the above-mentioned Material Announcements, the Company has applied to the Courts to re-establish the effects of the interim injunction previously granted by the regional Federal Court of Brasília, in relation to the criteria for calculation of the Availability Factor of the Santo Antônio hydroelectric plant, which was also given in the Higher Appeal Court (STJ), to the case records of which the item in the Estado de S. Paulo refers. Notwithstanding such measures, and in compliance with Aneel Dispatch 946/2018 and based on the decision in favor given by its Board of Directors, the Company, on May 9, 2018, formalized a proposal to Aneel for payment by installments of the debit relating to the calculation of the Availability Factor (*Fator de Disponibilidade* FID) of the Santo Antônio Hydroelectric Plant. The Company continues to honor all its financial, legal and contractual obligations. SAE will continue to keep its stockholders and the market duly informed on the progress of and the results arising from these matters.

In light of these facts, in relation to the Company's investment in SAE being of an amount higher than Cemig's net profit in the business year ended December 31, 2017, at the time we did not see a situation of risk capable of

impacting the investments made by the Company in SAE, since SAE is taking the necessary, adequate and appropriate judicial and administrative measures to mitigate any risks that may occur.

Av. Barbacena 1200	Santo			Tel.: +55 31	Fax +55 31

This text is a translation, provided for information only. The original text in Portuguese is the legally valid version.

And, indeed, SAE subsequently gave further explanation on the question, in its Market Announcement published on May 11, 2018:

The media report referred to makes reference to the passage in the writ filed by the Company in the action for Suspension of Mandamus currently before the Higher Appeal Court, which was extracted out of its context and which cannot be interpreted in isolation. This being so, any mention of risk in the said writ should be interpreted in the specific context of the related Court action which, because its objective is to obtain an injunction to suspend the Company's debt, highlighted the urgency and importance of the subject, not dealing with (nor could it) other alternatives for resolution of the debit referred to, such as normal business negotiations, which are in progress, with Aneel. Therefore, the general risk of the Company must be analyzed based on the ample and wide-ranging information regularly provided by the Company's Management, as per the Material Announcements referred to above, and in no event based on partial extracts made from isolated legal proceedings, based on the Media. Finally, the Company notes that it continues to comply with all its financial, legal and contractual obligations, and also awaits developments resulting from the proposal presented to Aneel, and from a legal action currently in progress, to provide the basis of its next decisions on the subject and on the continuing compliance with its obligations.

We also highlight that there was no atypical movement in the share prices of the Company trading on the exchange in the days subsequent to the publication of the media report and publication of the Material Announcements and Market Announcements by SAE and by the Company.

Solely for the purposes of information, we remind you that in the Company's financial statements for the first quarter of 2018 the subject was included through Explanatory Note 15 – Investment – at Page 43, as follows:

Investment in the Santo Antônio plant through Madeira Energia S.A. (Mesa) and FIP Melbourne The FID (Availability Factor)

On July 31, 2015, the Regional Federal Appeal Court accepted the request by Santo Antônio Energia S.A. (SAE – a subsidiary of the investee Madeira Energia S.A.) for interim relief on appeal. This relief suspended the application of the Availability Factor (FID) related to the generating units of the Santo Antônio hydroelectric plant not dispatched by the National System Operator (ONS). This decision, which had ordered Aneel and the CCEE to adopt the necessary procedures to make that decision effective in the CCEE's accounting and settlement, was suspended by the Higher Appeal Court (STJ), and after an unfavorable decision against SAESA in a constitutional appeal to the Supreme Federal Court (STF), the suspension was maintained. On March 31, 2018, SAE had an amount accrued as current liabilities of R\$ 691,464, representing the effect of the application of the FID in that claim. SAESA expects and will make its best efforts to re-establish the effects of the interim injunction until final court decision. On April 24, 2018, in an Extraordinary Meeting, Aneel granted interim relief in the administrative application presented by SAE on April 19, 2018, for suspension of the payment of guarantees required by CCEE, and also the related financial settlement, in relation to the calculation of the availability factor (FID) of the Santo Antônio hydroelectric plant, in which the payment expired on that date. After receiving the CCEE notification and recalculation of the debit relating to the FID, SAE will present to Aneel a proposal for resolution of it, which should be previously approved by its Board of Directors.

Finally, we report the following new developments from the discussions in relation to the FID of SAE:

On April 27, 2018, the CCEE advised a new amount for the debit, namely R\$ 724,808,282.61.

On May 9, 2018, SAE presented to Aneel a proposal for payment by instalments of the debit relating to the calculation of the FID for the Santo Antônio hydroelectric plant which would be in line with its capacity for payment.

On May 22, 2018, in an Ordinary Public Meeting, Aneel, by its Dispatch 1146/2018, did not accept the proposal for payment of the debit presented by Santo Antônio Energia S.A., and ordered the Company to present a new proposal for payment of the debit directly to the Electricity Trading Exchange (CCEE) by May 28, 2018, and authorized CCEE to analyze and decide on the proposal for payment of the debit by instalment and set the conditions for its operationalization in up to 45 (forty-five) days from publication of the Dispatch.

Av. Barbacena 1200	Santo			Tel.: +55 31	Fax +55 31
Agostinho	30190-131	Belo Horizonte, MG	Brazil	3506-5024	3506-5025

This text is a translation, provided for information only. The original text in Portuguese is the legally valid version.

Complying with the period established, on May 28, 2018 SAE sent a proposal to the CCEE for payment of the debit by instalments, in such a way that the flow of payments would be compatible with the cash flow generated by the Company.

SAE continues to employ its best efforts with CCEE for acceptance of the proposal. The period for reply by CCEE is up to 45 (forty-five) days from publication of the Dispatch.

As to the possible impacts relating to the investments in SAE, we highlight that in its accounting Cemig does not consolidate the results of SAE, which is neither a subsidiary nor an affiliated company under Law 6404/76 and Law 1303/16: these amounts are recorded as gain (loss) by the equity method, and their effects are recognized and published in the Company's quarterly information.

Any change in the situation that could have influence on the investment made by the Company in SAE will immediately be communicated by Cemig to the market in accordance with CVM Instruction 358/2002.

Please do not hesitate to contact us if you need any further explanation.

**MATERIAL ANNOUNCEMENT DATED JULY 2, 2018: CEMIG D APPEALS ANEEL INFRINGEMENT
NOTICE**

COMPANHIA ENERGÉTICA DE MINAS GERAIS CEMIG

LISTED COMPANY CNPJ 17.155.730/0001-64 NIRE 31300040127

MATERIAL ANNOUNCEMENT

Cemig D appeals Aneel infringement notice

Cemig (*Companhia Energética de Minas Gerais*), a listed company with securities traded on the stock exchanges of São Paulo, New York and Madrid, as per CVM Instruction 358 of January 3, 2002, as amended, **hereby reports** to the Brazilian Securities Commission (CVM), the São Paulo Stock Exchange (BM&F Bovespa S.A.) and the market **as follows:**

Today the Brazilian electricity regulator, Aneel, posted on its website its Infringement Notice 0018/2018 SFE, advising of the opening of administrative proceedings against Cemig Distribuição S.A. (Cemig D), for alleged non-compliance in calculation of the service outage indicators DEC (duration) and FEC (frequency) for the year 2016.

The notice orders Cemig to recalculate these two indicators, and applies a fine totaling R\$ 12,495,000.80 (twelve million, four hundred ninety five thousand Reais and eighty centavos), with deadline for compliance 30 days after final judgment in any administrative appeal.

Cemig will lodge an administrative appeal, since it believes that it calculates the DEC and FEC indicators correctly.

**MATERIAL ANNOUNCEMENT DATED JULY 9, 2018: CHANGE IN TIMETABLE FOR DISPOSAL OF
TELECOM ASSETS**

106

COMPANHIA ENERGÉTICA DE MINAS GERAIS CEMIG

LISTED COMPANY CNPJ 17.155.730/0001-64 NIRE 31300040127

MATERIAL ANNOUNCEMENT

Change in timetable for disposal of telecom assets

Complementing the Material Announcement published on May 25, 2018, **Cemig** (*Companhia Energética de Minas Gerais*, listed in São Paulo, New York and Madrid), in compliance with CVM Instruction 358 of January 3, 2002 as amended, **hereby reports** to the Brazilian Securities Commission (CVM), the São Paulo Stock Exchange (B3) and the market **as follows**:

Cemig has changed the timetable specified in Tender Announcement No. 500-Y12121, for the competitive tender offering disposal of telecommunications assets and assignment of the contractual position in the contracts associated with these assets.

The purpose of the change of timetable is to give more time for parties interested in the tender to evaluate the extensive documentation made available in the Data Room, ensuring preparation of the most appropriate and competitive economic proposals.

Among other changes, the date of the Public Session has been changed from July 25, 2018 to August 8, 2018.

The new timetable is on Cemig's Procurement Site: <http://compras.cemig.com.br/>.

**MATERIAL ANNOUNCEMENT DATED JULY 12, 2018: ADDITIONAL ISSUE OF EUROBONDS BY
CEMIG GT**

108

COMPANHIA ENERGÉTICA DE MINAS GERAIS CEMIG

LISTED COMPANY CNPJ 17.155.730/0001-64 NIRE 31300040127

MATERIAL ANNOUNCEMENT

Additional issue of Eurobonds by Cemig GT

Cemig (*Companhia Energética de Minas Gerais*, listed in São Paulo, New York and Madrid), in compliance with CVM Instruction 358 of January 3, 2002 as amended, **hereby reports** to the Brazilian Securities Commission (CVM), the São Paulo Stock Exchange (B3) and the market **as follows**:

On today's date Cemig's wholly-owned subsidiary **Cemig Geração e Transmissão S.A. (Cemig GT)** completed the pricing of an additional tranche of US\$500,000,000.00 (five hundred million dollars) resulting from re-opening of the Eurobond issue originally placed on December 5, 2017.

This additional issue was priced at a yield of 9.14% p.a., with maturity, in 2024, on the same date as the rest of the issue. Settlement will be on July 18, 2018.

This issue is aligned with Cemig's strategy of lengthening of its debt profile and reduction of financial expenses: the proceeds of this new tranche of this issue will be used for payment of debt maturing in the coming months. Also, Cemig expects that, depending on market conditions on the settlement date, the final cost of this issue, after an exchange rate hedge, will be lower than the average cost of the debts that will be settled with these proceeds.

The initial demand for this additional transaction exceeded US\$1 billion, i.e. more than twice the volume offered by the Company. This fact once again demonstrates the confidence of the investor market in Cemig's management, strategy and fundamentals.

Belo Horizonte, July 12, 2018.

CONDENSED NOTES TO THE INTERIM FINANCIAL INFORMATION

FOR THE QUARTER ENDED AS OF MARCH 31, 2018

(In Thousands of Brazilian Reais except where otherwise indicated)

1. OPERATING CONTEXT

a) The Company

Companhia Energética de Minas Gerais ('Parent company' or 'Holding Company') is a listed corporation, registered in the Brazilian Registry of Corporate Taxpayers (CNPJ) under number 17.155.730/0001-64, with shares traded on the São Paulo Stock Exchange ('B3') at Corporate Governance Level 1; through ADRs on the New York Stock Exchange ('NYSE'); and on the stock exchange of Madrid ('Latibex'). It is domiciled in Brazil, with head office at Avenida Barbacena 1200, Belo Horizonte, Minas Gerais. It operates exclusively as a holding company, with subsidiaries and investments in associates or jointly controlled entities (collectively refer to as 'Cemig' or the 'Company'), which are engaged in the construction and operation of infrastructure used in the generation, transformation, transmission, distribution and sale of electricity, and also activities in the various fields of energy sector, for the purpose of commercial operation.

As of March 31, 2018 Cemig's current liabilities exceeded its current assets by R\$ 635,090 and R\$ 225,366, respectively, in the consolidated and the Holding Company. In the quarter then ended, the Company generated negative consolidated operating cash flow in the amount of R\$ 373,067 (positive in the amount of R\$ 528,084 in the same period of 2017) and the Holding Company generated a positive operating cash flow of R\$ 248,789 (R\$ 2,166 in the same period of 2017). Additionally, as of March 31, 2018, Cemig's consolidated indebtedness from loans, financings and debentures on current and non-current liabilities comprised R\$ 2,588,160 and R\$ 11,110,656, respectively. The Company's management monitors its cash flow and, in that way, studies actions in order to the adjustment of its current financial position to the levels considered adequate to meet its necessities.

As part of the Company's indebtedness management, in 2017 the subsidiary Cemig GT, issued Eurobonds for an amount of US\$ 1 billion (R\$3.2 billion) which mature in 2024. In 2017, Cemig entered into negotiations with its main creditors aiming at a Bank Debt Refinancing, representing up to R\$3,441 million of which R\$ 2,700 million of the subsidiary Cemig D and R\$ 741 million of the subsidiary Cemig GT. These two initiatives have balanced the Company's cash flows, extended average debt maturities, and improved credit quality.

Based on the facts and circumstances that existed on this date, Management evaluated the Company's ability to continue on a going concern basis and is convinced that its operations have the capacity to generate funds to continue its business in the future. In addition, Management is not aware of any material uncertainties that could generate significant doubts about its ability to continue operating. Therefore, these interim financial information have been prepared on a going concern basis.

Merger of Cemig Telecomunicações S.A. - Cemig Telecom

On March 31, 2018, Cemig completed the merger of its wholly-owned subsidiary Cemig Telecom at book value. As a result, Cemig Telecom has been wound up and Cemig has taken over all subsidiary's assets, rights and obligations. Considering this is wholly-owned subsidiary merger there has not been capital increase nor new shares issuance. The Cemig Telecom shares have been extinguished on the merger date.

The balance sheet of Cemig Telecom used for the merger, at March 31, 2018, is as follows:

	03/31/2018		03/31/2018
Assets		Liability	
Current	24,986	Current	33,816
Non-current		Non-current	55,407
Non-current assets	15,313		
Investments	17,116		
Net PP&E	271,766		
Intangible assets	11,716		
	315,911	Equity	251,674
Total assets	340,897	Total Liabilities and Equity	340,897

The Company's management is studying alternatives related to possible sales of the assets merged from Cemig Telecom and such studies are expected to be concluded in the second quarter of 2018. Due to this reason, the Company has concluded that Cemig Telecom's assets should not be reclassified to current assets since they have not met the criteria for classification as held for sale under technical pronouncement CPC 31 / IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*.

The merger was approved by the Extraordinary General Meetings of the Company and its subsidiary held on February 28, 2018.

2. BASIS OF PREPARATION

2.1 Statement of compliance

The interim financial information has been prepared in accordance with IAS 34 *Interim Financial Reporting*, issued by the International Accounting Standards Board (IASB), Technical Pronouncement 21 (R1) - CPC21, which applies to interim financial information, and the rules issued by the Brazilian Securities Commission (*Comissão de Valores Mobiliários*, or CVM), applicable to preparation of Quarterly Information (*Informações Trimestrais*, or ITR).

These interim financial information have been prepared according to principles, practices and criteria consistent with those adopted in the preparation of the December 31, 2017 financial statements, except for the adoption of new pronouncements that came into force as from January 1, 2018, which impacts are presented in Note 2.2 to this interim financial information.

Thus, this interim financial information should be read in conjunction with the said financial statements, approved by the Company's Fiscal Council on March 28, 2018.

Material information in the interim financial information is being disclosed, which is used by Management in its administration of the Company.

On May 14, 2018, the Company's Executive Board authorized the issuance of these interim financial information for the quarter ended on March 31, 2018.

2.2 Adoption of new pronouncements effective as from January 1, 2018

IFRS 15/CPC 47 *Revenue from contracts with customers*

IFRS 15/CPC 47 Revenue from contracts with customers establishes a five-step model to account for revenues arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount which reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. This new pronouncement will supersede all current requirements for recognition of revenue under the CPCs/IFRS. Additionally, IFRS 15/CPC 47 establishes requirements for more detailed presentation and disclosure than the standards currently in effect.

The Company and its subsidiaries adopted the new standard based on the prospective method, with the impacts accounted for as of January 1, 2018.

The Company and its subsidiaries performed an assessment of the five steps for recognition and measurement of revenue, as required by IFRS 15/CPC 47:

1. Identify the contracts signed with its customers;
2. Identify the performance obligations in each type of contract;
3. Determine the price of each type of transaction;
4. Allocate the price to the performance obligations contained in the contract; and
5. Recognize the revenue when (or to the extent that) the entity satisfies each performance obligation of the contract.

The impact of the adoption of this pronouncement occurred in the recognition of reimbursements to customers resulting from the penalties for breach of quality indicators in the electricity supply, mainly the indicators DIC, FIC, DMIC and DICRI, as a reduction of revenues from use of the distribution network (TUSD). Until December 31, 2017, these reimbursements were recognized as operating expense.

This table shows the impact of adoption of IFRS 15 (CPC 47) on the statement of income for the quarter ended March 31, 2018:

	03/31/2018 with adoption of IFRS 15/CPC 47	Effect of adoption of IFRS 15/CPC 47	03/31/2018 without adoption of IFRS 15/CPC 47
NET REVENUE	4,867,877	16,446	4,884,323
OPERATING COSTS	(3,645,615)		(3,645,615)
OPERATING EXPENSES			
Other operating revenues (expenses)	(66,573)	(16,446)	(83,019)
	(472,855)	(16,446)	(489,301)
Equity in earnings of unconsolidated investees	(35,766)		(35,766)
Net financial revenues (expenses)	(157,800)		(157,800)
Income and Social Contribution taxes	(175,788)		(175,788)
Net income for the period	380,053		380,053

- a) Refers to penalties for violation of energy supply quality indicators, mainly the indicators DIC, FIC, DMIC and DICRI.

IFRS 9/CPC 48 Financial instruments

IFRS 9/CPC 48 establishes that all financial activities recognized that are within the scope of IAS 39 (equivalent to CPC 38) should subsequently be measured at amortized cost or fair value, reflecting the business model in which the assets are administered, and their cash flow characteristics, not affecting accounting recognition of the Company's financial assets and liabilities. IFRS 9/CPC 48 contains three categories of accounting for financial instruments: Amortized cost; Fair value through other comprehensive income; and Fair value through profit or loss. The standard has eliminated the existing categories under IAS 39/CPC 38 and, thus, the Company and its subsidiaries have reclassified those categories to comply with the new standard, as follows:

Consolidated	Classification	
	IFRS 39/CPC 38	IFRS 9/CPC 48

- 1) Recognized at their nominal realization values, which are similar to fair value.
- 2) The Company has securities with various classifications under IFRS 9 / CPC 48.

Impairment

The material impact resulting from the adoption of the standard as from January 1, 2018 is related to the impairment of trade accounts receivable.

The new pronouncement also establishes that in relation to the impairment losses of financial assets, the expectation of loss model in the credit is no longer losses incurred, but a prospective model of expected credit losses, based on probabilities.

Based on the new pronouncement provisions for expected losses were measured based on the losses expected in the next 12 months, as a function of the potential default events, or losses of credit expected for the whole life of a financial instrument, if the credit risk has significantly increased since its initial recognition.

The Company and its subsidiaries have adopted, in its analyses, a simplified approach, considering that the balance of its accounts receivable from clients do not have a significant financial components, and have calculated the expectation of loss considering the historic average of non-collection over the total billed in each month (based on the last 12 months of billing), segregated by type of customers and projected for the next 12 months, taking into account the aging of receivables, including those not yet due. The estimated loss for the past due balances of customers who renegotiated their debt has been calculated based on the maturity date of the original invoice, with the new terms negotiated not being taken into account. For the balances that are more than 12 months past due, expectation of total loss was assumed.

The estimated effects at January 1, 2018 arising from adoption of IFRS 9, resulted in an increase in the provision for doubtful accounts and a corresponding effect in Equity, as follows:

	01/01/2018
Customers and Traders; Transport of energy (a)	150,114
Reflex of the adjustment due to the jointly controlled Light	82,770
Deferred income and social contribution taxes (a)	(51,038)
	181,846

(a) Refers to estimated losses on doubtful accounts receivable from consumers of Cemig D.

10. RESTRICTED CASH

The balance of Restricted cash amounting to R\$ 108,197 in the Consolidated and R\$ 89,556 in the Holding Company, refers mainly amounts deposited with a financial institution, in accordance with the Shareholders' agreement of the jointly controlled Rio Minas Energia Participações RME, as a guarantee for the settlement of the options to sell an interest in RME.

11. ACCOUNTS RECEIVABLE FROM THE STATE OF MINAS GERAIS

On October 25, 2017 the Company signed a Debt Recognition Agreement with Minas Gerais State, through its Tax Office, where the state committed to reimburse to the Company the total amount deposited, after adjusting it for inflation using the IGP-M index, related to the dispute on the criteria to be used to adjust the amounts passed through by the State government as an advance for future capital contributions in the previous year.

The parties agreed that the Minas Gerais State will reimburse the Company R\$ 281,309, of which R\$ 239,445 relate to the historical amounts deposited, and R\$ 45,718 relate to the monetary adjustment, which R\$ 3,851 is related to the three-months period ended March 31, 2018, which will be paid in 12 consecutive monthly installments, each adjusted by the IGP M inflation index through the settlement date, starting on November 10, 2017. Further, the agreement states that, in the event of arrears or default by the State in the payment of the agreed consecutive monthly installments, Cemig is authorized to retain dividends or Interest on Equity distributable to the State in proportion to the State's equity interest, for as long as the arrears and/or default continues. Until March 31, 2018, a total of R\$ 46,291 had been collected regarding two installments and the remaining balance of R\$ 238,869 is still outstanding. Even though installments are overdue since January 2018, Company's Management believes that no impairment losses is expected on these receivables considering the aforementioned guarantees.

12. ESCROW DEPOSITS

These deposits are mainly related to legal proceeding relating to labor and tax contingencies.

Escrow deposits mainly relate to tax disputes, mainly on the calculation of PASEP/COFINS, for which the Company believes the amounts of ICMS (VAT) should be exclude from the taxable amount on which the PASEP/COFINS taxes are charged.

(1) The escrow deposits relating to Pasep and Cofins taxes refer to the case challenging the constitutionality of inclusion of the ICMS (VAT), which *has been* charged, *within* the amount on which the Pasep and Cofins taxes are calculated. See more details in Note 23 (*Inclusion of ICMS (VAT) in the taxable base for Pasep /Cofins*).

(2) See more details in Note 23 *Provisions* (Indemnity of employees future benefit the Anuênio).

1) Inclusion of ICMS (VAT) in the taxable base for Pasep /Cofins

Refers to the escrow deposits made in the action challenging the constitutionality of inclusion of ICMS (VAT), already charged, *within* the taxable amount for calculation of these two contributions. The subsidiaries Cemig D and Cemig GT obtained interim relief from the Court allowing them not to make the payment, and authorizing payment as

escrow deposits, starting in 2008, and maintained this procedure until August 2011. After that date, while continuing to challenge the basis of the calculation in court, they opted to pay the taxes monthly.

On October 2017, the Federal Supreme Court (STF) published its Joint Judgment on the Extraordinary Appeal, on the basis of setting a global precedent, in favor of the argument of the subsidiaries. Based on the opinion of its legal advisers, the subsidiaries adopted the following procedures:

Cemig GT reversed the provision in the amount of R\$ 101,233, with effect on the net income for 2017, recorded the reversal as a deductions on revenue, in the fourth quarter of that year, remaining an escrow deposit in amount of R\$ 185,205.

Cemig D wrote down the liabilities relating to these contributions; and recorded a liability for reimbursement to consumers. More details in Note 19.

13. REIMBURSEMENT OF TARIFF SUBSIDIES

Subsidies on tariffs charged to users of distribution services are reimbursed to distributors through the funds from the Energy Development Account (CDE).

On March 31, 2018, the amount recognized as subsidies revenues was R\$225,493 (R\$191,254 in 2017). Of such amounts, Cemig D recorded a receivable of R\$73,345 (R\$73,345 in 2017) and Cemig GT recorded a receivable of R\$3,386 (R\$3,741 in 2017), in current assets.

1) Financial assets related to infrastructure

The energy distribution and transmission concession contracts and the gas distribution contracts are within the scope of ICPC 01 (IFRIC 12). The financial assets under these contracts refer to the investment made in infrastructure that will be returned to the grantor at the end of the concession contract and for which the Company has a contractual right to receive cash from the grantor during the concession contract as well as at the end of the concession contract.

1.1) Transmission Residual value receivable

Cemig's transmission concession contracts are within the scope of ICPC 01 (IFRIC 12). The financial assets under these contracts refer to the investment made in infrastructure that will be returned to the grantor at the end of the concession contract and for which the Company is entitled to receive an amount corresponding to the residual value of the infrastructure assets at the end of the concession contract.

On April 22, 2016 the Mining and Energy Ministry (*Ministério de Minas e Energia*, or MME) published its Ministerial Order 120, setting the deadline and method of payment for the remaining amount corresponding to the residual value of the assets. The Ministerial Order determined that the amounts homologated by the regulator should become part of the Regulatory Remuneration Asset Base (*Base de Remuneração Regulatória*, or BRR) and that the cost of capital should be added to the related Permitted Annual Revenues (RAP).

On August 16, 2016, the regulator, through its Dispatch 2,181, homologated the amount of R\$ 892,050, in Reais as of December 2012, for the portion of the residual value of assets to be paid to the Cemig GT. Such amount was recorded as a financial asset, with specific maturity and interest rate.

The amount of indemnity to be received, updated until March 31, 2018, amounted to R\$ 1,852,673 (R\$ 1,928,038 as of December 31, 2017), corresponding to the following:

Portions of remuneration and depreciation not paid since the extensions of concessions

An amount of R\$ 972,663, corresponding to the portions of remuneration and depreciation not paid since the extensions of the concessions, through the tariff adjustment in 2017 (R\$ 992,802 as of December 31, 2017), which will be inflation adjusted using the IPCA (Expanded National Customer Price) index, and remunerated at the weighted average cost of capital of the transmission industry as defined by the regulator for the periodic tariff review, to be paid over a period of eight years, in the form of reimbursement through the RAP.

Residual Value of transmission assets injunction awarded to industrial customers

On April 10, 2017, an preliminary injunction was granted to the Brazilian Large Free Customers Association (*Associação Brasileira de Grandes Consumidores Livres*), the Brazilian Auto Glass Industry Technical Association (*Associação Técnica Brasileira das Indústrias Automáticas de Vidro*) and the Brazilian Ferro-alloys and Silicon Metal Producers Association (*Associação Brasileira dos Produtores de Ferroligas e de Silício Metálico*) in their legal action against the regulator and the Federal Government requesting suspension of the effects on their tariffs of payment of the residual value of transmission assets payable to agents of the electricity sector who accepted the terms of Law 12,783/2013.

The preliminary injunction was partial, with effects related to suspension of the inclusion in the customer tariffs paid by these associations of the portion of the indemnity corresponding to the remuneration at cost of capital included since the date of extension of the concessions amounting to R\$ 321,669 at March 31, 2018(R\$ 316,138 at December 31, 2017) updated by IPCA.

In compliance with the court decision, the regulator, in its Technical Note 183/201-SGT/ ANEEL of June 22, 2017, presented a new calculation, excluding the amounts that refer to the cost of own capital. Cemig believes that this is a provisional decision, and that its right to receive the amount referring to the assets of the basic national grid system (*Rede Básica Sistema Elétrico*, or RBSE) is guaranteed by law, so that no adjustment to the amount recorded at March 31, 2018 is necessary.

Adjustment of the BRR of Transmission Assets – Aneel Technical Note 183/2017

In the tariff review processes of Cemig GT, ratified on June 23, 2009 and on June 8, 2010 the addition of certain conducting cables was not included in the tariff calculation. The new values calculated with the inclusion of the said conducting cables in the Remuneration Assets Base for the period from July 2005 to December 2012 resulted in the amount of R\$ 149,255 as of July 2017, to be received by Cemig GT in 12 months, through RAP. At March 31, 2018, the outstanding amount receivable was R\$ 37,313 (R\$ 74,627 at December 31, 2017).

Remaining balance to be received through RAP

The remaining balance, of R\$ 521,028 at March 31, 2018 (R\$ 544,471 at December 31, 2017) was incorporated into the regulatory remuneration base of assets, and is being recovered through RAP. Cemig GT expects to receive in full the receivables in relation to the residual value of the transmission assets, whose changes are as follows:

Balance at 12/31/2017	1,928,038
Monetary adjustment	49,841
Amounts received *	(125,206)
Total 03/31/2018	1,852,673
Balance at 12/31/2016	1,805,230
Monetary adjustment	65,830
Total 03/31/2017	1,871,060

* Receipts of credits started to occur from July 2017, after homologation by ANEEL.

1.2) Transmission – Assets remunerated by tariff

For new assets related to improvements and upgrades of facilities constructed by transmission concession holders, the regulator calculates an additional portion of Permitted Annual Revenue (RAP) in accordance with a methodology specified in the *Proret* – Tariff Regulation Procedures.

Under the *Proret*, the revenue established in the Resolutions is payable to the transmission concessionaires as from the date of start of commercial operation of the facilities. In the periods between tariff reviews, the revenues associated with the improvements and upgrades of facilities are provisional. They are then ultimately determined in the review immediately subsequent to the start of commercial operation of the facilities; this review then has effect starting the date when commercial operations begin. At March 31, 2018, the receivable amounts to R\$ 546,672 (R\$ 547,800 at December 31, 2017).

1.3) Generation Residual value financial asset

Plants operated under the Quotas regime as from January 1, 2016

Starting August 2013, various concession contracts under the Concession Contract 007/1997 started expiring. Upon expiration of the concession contract, Cemig GT has a right to receive an amount corresponding to the residual value of the infrastructure assets, as specified in such concession contract. The financial asset balance corresponding to such amounts, including Deemed Cost, are recognized in Financial Assets, amounted to R\$ 816,411 at March 31, 2018 and December 31, 2017 .

As stated in Aneel Normative Resolution 615/2014, the valuation reports that support the amounts to be received by the Company in relation to the residual value of the plants, previously operated by Cemig GT, that were included in Lot D and for the *Volta Grande* plant have submitted to the regulator. The Company do not expect any losses in the realization of these amounts.

On March 31, 2018, investments made after the *Jaguara*, *São Simão* and *Miranda* plants came into operation, in the amounts of R\$174,203, R\$2,920 and R\$22,546 respectively, are recorded as concession financial assets, and the determination of the final amounts to be paid to the Company are under discussions with the regulator. Management does not expect any losses in realization of these amounts.

Miranda and São Simão plants

In accordance with the Mining and Energy Ministry Order 291/17, the amounts of the basic project of Miranda and São Simão plants were recorded as concession financial asset and are being monetary adjusted, as shown below:

(1) Adjustment of the residual value of the São Simão and Miranda plant, as per MME Order 291/17.

Cemig GT is discussing with the Ministry of Mines and Energy the criteria used to determine the amounts informed by its Order 291/17, as well as the payment date, since that Order establishes that payment must be made by the Federal Government on or before December 31, 2018, provided that is subject to budget and financial availability.

1.4) Concession grant fee Generation concessions

In June 2016, the Concession Contracts 08 to 16/2016, relating to 18 hydroelectric plants of Lot D of Aneel Auction 12/2015, won by Cemig GT, were transferred to the related specific-purpose entities (SPEs), wholly-owned subsidiaries of Cemig GT, as follows:

Cemig GT s paid a concession fee for a 30-year concession contract related to 18 hydroelectric plants for an amount of R\$ 2,216,353. The amount of the concession fee was recognized as a financial asset, as Cemig GT has an unconditional right to receive the amount paid, updated by the IPCA Index and remuneratory interest (the total amounts the project internal return rate), during the period of the concession. Of the energy produced by these plants, 70% are sold in the Regulated Market (ACR) and 30% in the Free Market (ACL).

2) Account for compensation of variation of portion A items (CVA) and *Other financial components*

The Amendment that extended the period of the concession of Cemig D guarantees that, in the event of termination of the concession contract, for any reason, the remaining balances (assets and liabilities) of any shortfall in payment or reimbursement through the tariff must also be included payable to Cemig D by the grantor. The balances on (i) the CVA (*Compensation for Variation of Portion A items*) Account, (ii) the account for Neutrality of Sector Charges, and (iii) *Other financial components* in the tariff calculation, refer to the positive and negative differences between the estimate of the Company s non-manageable costs and the payments actually made. The variations are subject to monetary adjustment using the Selic rate and considered in the subsequent tariff adjustments.

The balances of these financial assets and liabilities are shown below. It should be noted that in the balance sheet amounts are presented net, in assets or liabilities, in accordance with the tariff adjustments approved or to be approved:

- (1) Due to the great increase in the costs of hydrology risk, as from July 2017, the regulator amended the rules for pass-through of the excess on the Energy Reserve Account (Conta de Energia de Reserva, or Coner), to relieve the cash pressure of the distributors. Cemig D received approximately R\$ 254 million from Coner, not included in the tariff coverage, directly impacting the CVA amount of the ESS/EER to be returned to the customer at May, 2018.
- (2) Due to unfavorable hydrology condition since July 2017, there has been less hydroelectric generation and as a result more dispatching of thermal plants, increasing the spot price (PLD), and affecting the level of reduction of the physical power offtake guarantee of the hydroelectric plants. For the distributors, this results in higher costs of CCEAR (Regulated Market) contracts with thermal plants, and higher hydrology risk costs for the Itaipu plants, for those that trade power supply under Physical Guarantee Quotas, and for those that sold CCEARs and renegotiated the hydrology risk. In view of these factors, the difference from the cost taken into account in setting the tariff is greater, resulting in an increase in the deferred asset related to purchase of power supply on March 31, 2018 and December 31, 2017.
- (3) Billing arising from the Flag Tariff System not yet homologated by Aneel.

- (4) From March, 2017, under Proret 2.1A, from this point onward amounts of excess of demand and excess of reactive power were appropriated to sector financial liabilities, and will be amortized only at the time of homologation of the 5th periodic tariff review cycle.

Payments from the Flag Tariff Centralizing Account – CCRBT

The Flag Account (*Conta Centralizadora de Recursos de Bandeiras Tarifárias* – CCRBT or *Conta Bandeira*) manages the funds that are collected from captive customers of distribution concession and permission holders operating in the national grid, and are paid, on behalf of the CDE, directly to the Flag Account. The resulting funds are passed through by the Wholesale Trading Chamber (CCEE) to distribution agents, based on the difference between the realized amounts of costs of thermal generation and the exposure to short term market prices, and the amount covered by the tariff in force.

Pass-through of funds from the Flag Account from January to March, 2018 totaled R\$ 153,267 (R\$ 2,721 from January to March, 2017) and were recognized as a partial realization of the CVA receivable previously constituted.

- 1) On November 2017, the Company acquired all the shares of Lepsa, and therefore as from that date now consolidates that company in its interim financial information. Lepsa's sole asset is comprised of an investment in common and preferred shares in Light. Hence the Company no longer presents the investment that it previously held in Lepsa in its interim financial information, presenting only the interest in Light.
- 2) Company in Spain to evaluate opportunities for investments abroad. As of March 31, 2018, the Company has no operations.
- 3) On March 31, 2018 Cemig Telecom was merged into the Company.

The Company's investees that are not consolidated are jointly-controlled entities, with the exception of the interest in the Santo Antônio power plant, and Ativas Data Center, which became an investee in which Cemig has significant influence.

a) Right to exploitation of the regulated activity

In the process of allocation of the acquisition price of the jointly-controlled subsidiaries, a valuation was made of the intangible assets relating to the right to operate the regulated activity. This asset is presented together with the acquisition cost of the investments in the previous table. These assets will be amortized over the remaining period of the concessions on the straight-line basis.

- 1) Jointly-control under a Shareholders Agreement
- 2) On March 31 ,2018 Cemig Telecom was merged into the Company.

On March 31, 2018, the current liabilities of some jointly-controlled entities exceeded their current assets, as follows:

Light: On March 31, 2018, Light had consolidated negative working capital of R\$ 1,744,131 (R\$ 1,355,157 on December 31, 2017). The management of Light has been negotiating important renewal of its loans and financings, as creation of the Fund for Investment in Light Credit Rights (FIDC) and is in a new international bond issuance which will be the process of extending its debt maturity profile as well as expects a higher operating cash flow generation from the tariff adjustment, effective as from March 15, 2018, which resulted in an average increase in electricity bills of 10.36%. Management believes that by extending its debt maturity profile the current financial situation will be reverted.

Madeira Energia (Mesa): The excess of current liabilities over current assets, equal to R\$ 2,155,727, arises mainly from the balances of the accounts Suppliers, Other liabilities and Loans and financings. Mesa expects to adjust the flow of its debt servicing payments with the BNDES and the onlending banks, and the release of funds from the reserve account to be allocated to these payments, which will be replaced by a bank guarantee and operational cash generation.

Renova Energia: On March 31, 2018, Renova Energia reported loss of R\$ 120,543 and accumulated losses of R\$ 2,135,133. Renova Energia is required to obtain capital to comply with the construction commitments of wind and solar generating plants.

For this purpose it has taken several measures to rebalance its liquidity and cash flow structure through the sale of assets, using the funds to pay suppliers and amortize debt, as well as optimizing the portfolio, with sale of projects and/or operational assets.

The management of Renova Energia believes that with the success of these measures it will be possible to recover the economic and financial equilibrium, and liquidity.

Management has analyzed the indications of impairment referred to above and, based on available information and believes that there is no material uncertainty as to the continuation of the operations of these investees.

Investment in the *Santo Antônio* hydroelectric plant, through Madeira Energia S.A. (Mesa) and FIP Melbourne

The Company has a direct and indirect investments, of 10% and 8.13% respectively, in Madeira Energia S.A. (which holds an investment in Santo Antônio Energia S.A.), of R\$ 1,067,775 at March 31, 2018 (R\$ 1,117,265 at December 31, 2017).

Madeira Energia S.A. (Mesa) and its subsidiary Santo Antônio Energia S.A. (Saesa) are incurring construction costs related to the construction of the *Santo Antônio* hydroelectric plant. Total construction costs related to amounted to R\$ 23,393,393 (Mesa, consolidated) on March 31, 2018. According to financial projections prepared by its management, such construction costs will be recovered through future revenues from operations as all the entity's generation plants are currently under operation.

The Federal Public Attorneys Office, have conducted and are in the process of conducting investigations and other legal measures are in progress, involving other indirect Shareholders of Madeira Energia S.A. and certain executives of those other indirect Shareholders. In this context, the Federal Public Attorneys have started investigations on irregularities involving contractors and suppliers of Mesa and of its other Shareholders. In response to allegations of possible illegal activities, the investee and its other Shareholders have started an independent internal investigation. It

is not possible to determine the results of these investigations, or the developments arising from them, which may at some time in the future affect the investee.

The effects of any changes to the current scenario will be reflected, appropriately, in the financial statements of the Company and its subsidiary Cemig GT.

The FID (Availability Factor)

On July 31, 2015, the Regional Federal Appeal Court accepted the request by Santo Antônio Energia S.A. (SAESA a subsidiary of the investee Madeira Energia S.A.) for interim relief on appeal. This relief suspended the application of the Availability Factor (FID) related to the generating units of the Santo Antônio hydroelectric plant not dispatched by the National System Operator (ONS). This decision, which had ordered Aneel and the CCEE to adopt the necessary procedures to make that decision effective in the CCEE s accounting and settlement, was suspended by the Higher Appeal Court (STJ), and after an unfavorable decision against SAESA in a constitutional appeal into the Supreme Federal Court (STF), the suspension was maintained. On March 31, 2018, SAESA had an amount accrued as current liabilities of R\$ 691,464, representing the effect of the application of the FID in that claim.

SAESA expects and will make its best efforts to re-establish the effects of the interim injunction until final court decision.

On April 24, 2018, in an Extraordinary Meeting, Aneel granted interim relief in the administrative application presented by SAESA on April 19, 2018, for suspension of the payment of guarantees required by CCEE, and also the related financial settlement, in relation to the calculation of the availability factor (FID) of the Santo Antônio hydroelectric plant, in which the payment expired on that date.

After receiving the CCEE notification and recalculation of the debit relating to the FID, SAESA will present to Aneel a proposal for resolution of it, which should be previously approved by its Board of Directors.

Arbitration proceedings

In 2014, Cemig GT and SAAG Investimentos S.A. (SAAG), a vehicle through which Cemig GT holds an indirect equity interest in Mesa, opened arbitration proceedings, in the Market Arbitration Chamber, challenging the following: (a) the increase approved in the capital of Mesa of approximately R\$ 750 million partially to be allocated to payment of the claims by the Santo Antonio Construction Consortium (CCSA), based on absence of quantification of the amounts supposedly owed, and absence of prior approval by the Board of Directors, as required by the bylaws and Shareholders' Agreement of Mesa; and also on the existence of credits owed to Mesa by CCSA, for an amount greater than the claims; and (b) the adjustment for impairment carried out by the Executive Board of Mesa, in the amount of R\$ 750 million, relating to certain credits owed to Mesa by CCSA, on the grounds that those credits are owed in their totality by express provision of contract.

The arbitration judgment by the Market Arbitration Chamber recognized the right of Cemig GT and SAAG in full, and ordered the annulment of the acts being impugned. As a consequence of this decision, Mesa reversed the impairment, and posted a provision for receivables in the amount of R\$ 678,551 in its financial statements as of December 31, 2017.

To resolve the question of the liability of the CCSA consortium to reimburse the costs of re-establishment of the collateral and use of the contractual limiting factor, the affiliated company opened arbitration proceedings with the International Chamber of Commerce (ICC) against CCSA, which are in progress. This process is confidential under the Arbitration Regulations of the ICC.

Investment in the *Belo Monte* Plant through Amazônia Energia S.A. and Aliança Norte

Amazônia Energia and Aliança Norte are Shareholders in Norte Energia S.A. (NESA), which holds the concession to operate the Belo Monte Hydroelectric Plant, on the Xingu River, in the State of Pará, and manages that interest. Through the jointly-controlled entities referred to above, Cemig GT owns an indirect equity interest in NESA of 11.74%.

NESA will still require significant funds for costs of organization, development and pre-operating costs, resulting in negative net working capital of R\$ 2,371,188 as of March 31, 2018. The completion of the construction works for *Belo Monte* plant, and consequent generation of revenues, in turn, depend on the capacity of the investee to continue to comply with the schedule of works envisaged, as well as obtaining the necessary financial resources, either from its shareholders and / or from third parties.

On April 7, 2015, NESA was awarded a preliminary injunction ordering the regulator to abstain, until hearing of the application for an injunction made in the original case, from applying to Appellant any penalties or sanctions in relation to the Belo Monte Hydroelectric Plant not starting operations on the date established in the original timetable for the project, including those specified in an Aneel Normative Resolution and in the Concession Contract for the Belo Monte Hydroelectric Plant ANEEL nº 595/2013 and its Concession contract 01/2010-MME. The legal advisers of NESA have classified the probability of loss as possible and estimated the potential loss on March 31, 2018 to approximately R\$ 592,711.

Investigations and other legal measures are in progress, conducted by the Federal Public Attorneys Office, which involve other Shareholders of NESA and certain executives of those other Shareholders. In this context, the Federal Public Attorneys have started investigations on irregularities involving contractors and suppliers of NESA and of its other Shareholders, which are still in progress. At present it is not possible to determine the outcome of these investigations, and their possible consequences. These might at some time in the future affect the investee. In addition, based on the results of the independent internal investigation conducted by NESA and its other Shareholders, a write-down of the value of the infrastructure of NESA, by R\$ 183,000 was already recorded in 2015.

The effects of any changed in the current scenario will be reflected, appropriately, in the financial statements of the Company.

Investment in Renova Energia S.A. (Renova)

Conclusion of negotiations with Brookfield

On February 23, 2018, Renova received a binding offer from Brookfield Energia Renovável S.A. (BER) for acquisition of the assets of the whole Alto Sertão III Complex (ASIII Complex), and also approximately 1.1 GW in certain wind projects under development. On February 27, 2018 the Board of Directors of Renova approved the proposal received and granted BER exclusivity for a further 30 (thirty) days, automatically renewable for 30 (thirty) additional days, for finalization of the documents of the transaction.

On May 10, 2018, Renova announced the closure of negotiations with BER involving the sale of assets, as no agreement was reached on the final terms of the transaction.

Renova's management informed that they are working together with its controlling shareholders on a new restructuring plan aimed to equating the capital structure and honoring its commitments, which will inform the market as soon as possible.

Binding proposal by Cemig presented to Renova

On March 27, 2018 Cemig (the equity holder of Cemig GT) presented a binding proposal to the jointly-controlled entity Renova, for acquisition of 100% of the shares in Chipley SP Participações S.A. (Chipley) held by Renova, or 51% of the shares in Brasil PCH S.A. held by Chipley. On May 3, 2018, Renova's Board of Directors decided not to accept Cemig's proposal.

Risks related to compliance with laws and regulations

On January 19, 2018, Renova responded to a formal statement by the Civil Police of Minas Gerais State received in November 2017, relating to the investigation being carried out by that Police Force related to certain capital injections made by the equity holders of the parent of Renova, and capital injections made by Renova in certain projects under development in previous years. As a consequence, the governance bodies of Renova requested the opening of an internal investigation, which is being conducted by an independent party.

In addition, a monitoring committee was set up, composed by an independent counselor, the Chairman of the Audit Committee and the chairman of the Board of Directors, who, together with the Audit Committee, will monitor the internal investigation.

The investigation is in progress, and it is not possible to determine any effects of this investigation, nor any impacts on the interim financial information of Renova, of the Company for the quarter ended March 31, 2018.

(2) Related to the merged of its subsidiary Cemig Telecom. See Note 1.

The average annual depreciation rate for the Company and its subsidiaries on the first quarter of 2018 is 3.14%. Depreciation rates, which take into consideration the expected useful life of the assets, are revised annually by Management.

The Company and its subsidiaries have not identified any evidence of impairment of its Property, plant and equipment assets. The generation concession contracts provide that at the end of each concession the grantor must determine the amount to be paid to Cemig GT for the residual value of the infrastructure assets. Management believes that the amounts ultimately received will be higher than the historical residual value.

The residual value of the assets is the residual balance of the assets at the end of the concession contract which will be transferred to the grantor at the end of the concession contract and for which Cemig is entitled to receive in cash. For contracts under which Cemig does not have a right to receive such amounts or there is uncertainty related to collection of the amounts, such as in the case of thermal generation and hydroelectric generation as an independent power producer, no residual value is recognized, and the depreciation rates are adjusted so that all the assets are depreciated within the concession term.

Consortium

Cemig GT is a partner in the electricity generation consortium for the *Queimado* plant, for which no separate company with independent legal existence was formed to manage the object of the concession, whose controls are being kept in fixed assets and Intangible assets. Cemig GT's portion in the consortium is recorded and controlled separately in the respective categories of PP&E and Intangible assets.

(2) On March 31, Cemig Telecom was merged into the Company, see Note 1

The intangible asset easements, onerous concessions, assets of concession, and Others, are amortizable by the straight-line method and taking into account the consumption pattern of these rights. The Company and its subsidiaries have not identified any evidence of impairment of its intangible assets. The Company and its subsidiaries have no intangible assets with non-defined useful life. The amount of additions on March 31, 2018 includes R\$ 8,272 (R\$ 22,351 on March 31, 2017) of capitalized borrowing costs, as presented in Note 20.

The annual average amortization rate is 3.85% on the first quarter of 2018. The main annual amortization rate reflects the expected useful life of assets and pattern of their consumption by the management.

Under the regulations of the electricity sector, goods and facilities used in the distribution are linked to these services, and cannot be withdrawn, disposed of, assigned or given in mortgage guarantee without the prior express authorization of the Regulator. Undoing of that link, for assets of an electricity concession requires that the proceeds of the disposal are used for purposes of the concession.

(I) The Tax Amnesty Program (PRCT).

In 2017 the subsidiaries Cemig D and Cemig GT joined the terms of the Minas Gerais State Tax Amnesty Program (*Plano de Regularização de Créditos Tributários*, or PRCT), for payment of ICMS through installments, updated and net of the reductions of penalty payments and interest as specified in State Law 22,549, and subsequent decrees that specified the conditions for payment of tax debits by installments.

The main tax issues that led to the decision of Cemig D to subscribe to the PRCT relate to ICMS on the CDE subvention in the period January 2013 to October 2016, and also to the classification of residential condominiums in the *commercial* category, which has a different ICMS rate, generating disagreement with the tax authority on interpretation, over the period 2013 to 2015. The amount included in the PRCT for Cemig D, in the amount of R\$ 557,673, net of the reduction in interest and penalty payments by 90%, was paid in 6 (six) installments, adjusted at a 50% of the Selic rate and the 6th installment was paid on April 2, 2018.

(II) The long-term obligations for the Pasep and Cofins included the amounts relating to the Court challenge of the constitutionality of inclusion of the amount of ICMS tax within the base amount on which these contributions are calculated. The subsidiaries Cemig D and Cemig GT obtain interim relief from the Court allowing them not to make the payment and authorizing payment of the deposits into court (starting in 2008), and maintained this procedure until August 2011. After that date, while continuing to challenge the basis of the calculation in court, it opted to pay the taxes monthly.

On October 2017, the Federal Supreme Court (STF) published its Joint Judgment on the Extraordinary Appeal, on the basis of setting a global precedent, in favor of the argument of the subsidiaries. Based on the opinion of its legal advisers, the Company wrote down the liabilities relating to these contributions and recorded a potential liability related to the reimbursement to its customers. On March 31, 2018, the liability to its customers in the amount of R\$ 1,096,460 (R\$ 1,087,230 on December 31, 2017), which is equivalent to the updated amount of the escrow deposits already made which total R\$ 1,120,056 (R\$ 1,110,376 on December 31, 2017), net of the Pasep and Cofins incident on its revenue from updating, in the amount of R\$ 23,596 (R\$ 23,146 on December 31, 2017). This liability was recorded considering that the subsidiary passes to its Customers the tax effects incident upon its electricity bill, maintaining the neutrality of tariffs. The restitution to Customers will depend upon the court escrow deposit being lifted and a decision by Aneel on the mechanisms to be adopted. The net effect arising from the recognition of this matter on the net income for the year 2017, was null.

Borrowing costs, capitalized

Costs of loans directly related to acquisition, construction or production of an asset which necessarily requires a significant time to be concluded for the purpose of use or sale are capitalized as part of the cost of the corresponding

asset. All other costs of loans are recorded as finance costs in the period in which they are incurred. Costs of loans include interest and other costs incurred by the Company in relation to the loan.

The subsidiaries Cemig D and Gasmig transferred to Intangible assets the costs of loans and financings linked to working in progress, as follows:

	03/31/2018	03/31/2017
Costs of loans and financings	304,620	483,772
Financing costs on Intangible assets (1)	(8,272)	(22,351)
Net effect in Profit or loss	296,348	461,421

(1) The average rate of capitalization of financing costs on Intangible assets were 9.64%p.a... in 2018 (17.17%p.a. in 2017).

The amounts of the capitalized borrowing costs have been excluded from the statement of cash flows, in the additions to cash flow of investment activities, because they do not represent an outflow of cash for acquisition of the related asset.

- (1) Through contractual amendments, a further early maturity clause was added to Cemig GT's Bank Credit Notes and Fixed Credit Line with Banco do Brasil, requiring compliance with a financial ratio similar to that required by the 7th Debenture Issue.
- (2) 7th Issue of Debentures by Cemig GT, in December 2016, of R\$ 2,240 million.
- (3) There is also an obligation to comply with a maintenance covenant which requires that the debt in Cemig Consolidated (as per financial statements), shall have asset guarantee for debt of 1.75x Ebitda (2.0 x in December 2017); and a damage covenant, requiring real guarantee for debt in Cemig GT of 1.5x Ebitda. In the event that maintenance financial covenants are exceeded at any time, the interest rate will automatically be increased by 2% p.a. as long as the excess continues.
- (4) The Bank Credit Notes of Banco do Brasil and Caixa Econômica Federal were amended in December 2017, to include requirement for 6-monthly compliance with covenants as described above. The 5th Debenture Issue

included demand ability of compliance with the Covenants.

- (5) If Gasmig does not achieve the required covenants, Gasmig must, within 120 days from the date of notice in writing from BNDES or BNDESPar, constitute guarantees acceptable to the debenture holders for the total amount of the debt, subject to the rules of the National Monetary Council (CMN), unless the required ratios are restored within that period. Cross-default: Certain contractually specified situations can cause early maturity of other debts.

As of March 31, 2018, the Company was in compliance with the restrictive covenants.

The amounts recorded in current liabilities refer to the contributions to be made by Cemig and its subsidiaries in the next 12 months to amortize the post-retirement obligations.

The amounts reported as Expense recognized in the statement of income refer to the costs of post-retirement obligations, totaling R\$ 83,271 on March 31, 2018 (R\$ 94,638 on March 31, 2017), plus the finance expenses and monetary updating on the debt with Forluz, in the amounts of R\$ 18,007 on March 31, 2018 (R\$ 19,368 on March 31, 2017)

Debt agreed with the pension fund (Forluz)

The Company recognized an obligation for past actuarial deficits relating to the pension fund in the amount of R\$ 704,887 on March 31, 2018 (R\$ 720,498 on December 31, 2017). This amount has been recognized as an obligation payable by the Company, and is being amortized up to June 2024, through monthly installments calculated by the system of constant installments (known as the Price table), and adjusted by the IPCA (Expanded National Consumer Price) inflation index (published by the Brazilian Geography and Statistics Institute - IBGE) plus 6% per year. Because the Company is required to pay this debt even if Forluz has a surplus, the Company and its subsidiaries maintain the record of the debt in full, and the effects of inflation adjustment and interest are recorded in the statement of income as finance expense.

Agreement to cover the deficit on Forluz Pension Plan A

Forluz and the sponsors Cemig, Cemig GT and Cemig D signed Debt Assumption Instruments to cover the Deficit of Plan A for the years 2015 and 2016. In March, 2018 the total amount payable by Cemig and its subsidiaries Cemig D and Cemig GT as a result of the deficit found in Plan A is R\$ 383,964 (R\$ 283,291 on December 31, 2017) with

monthly amortizations up to December 2031, calculated by the system of constant installments (known as the Price Table). Remuneratory interest applicable to the outstanding balance is 6% p.a., plus the effect of the IPCA (Expanded National Customer Price) index published by the IBGE. If the plan reaches actuarial surplus before the full period of amortization of the contracts, the Company and its subsidiaries will be exempted from payment of the remaining installments and the contracts will be extinguished.

23. PROVISIONS

The Company and its subsidiaries are involved in certain legal and administrative proceedings in various courts and government bodies, arising from the normal course of business, regarding employment-law, civil, tax, environmental and regulatory matters, and other issues.

Actions in which the Company is defendant

The Company and its subsidiaries recorded Provisions for contingencies in relation to the legal actions in which, based on the assessment of the Company and its legal advisors, the chances of loss are assessed as probable (i.e. an outflow of funds to settle the obligation will be necessary), as follows:

The Company's management and its subsidiaries, in view of the long periods and manner of working of the Brazilian judiciary and tax and regulatory systems, believes that it is not practical to provide information that would be useful to the users of these Interim Financial Information in relation to the the timing of any cash outflows, or any possibility of reimbursements, might occur. The management of the Company and its subsidiaries believe that any disbursements in excess of the amounts provisioned, when the respective processes are completed, will not significantly affect the Company's result of operations or financial position.

The details on the main provisions and contingent liabilities are provided below, with the best estimation of expected future disbursements for these contingencies:

Provisions, made for legal actions in which the chances of loss have been assessed as probable ; and contingent liabilities, for actions in which the chances of loss are assessed as possible

Labor claims

The Company and its subsidiaries are involved in various legal claims filed by its employees and by employees of service providing companies. Most of these claims relate to overtime and additional pay, severance payments, various benefits, salary adjustments and the effects of such items on a supplementary retirement plan. In addition to these actions, there are others relating to outsourcing of labor, complementary additions to or re-calculation of retirement pension payments by Forluz, and salary adjustments.

The aggregate amount of the contingency is approximately R\$ 1,973,864 (R\$ 1,854,257 on December 31, 2017), of which R\$ 487,838 (R\$ 473,874 on December 31, 2017) has been provisioned the amount estimated as probably necessary for settlement of these disputes.

Customers claims

The Company and its subsidiaries are involved in various civil actions relating to indemnity for moral and material damages, arising, principally, from allegations of irregularity in measurement of consumption, and claims of undue

charging, in the normal course of business, totaling R\$ 48,922 (R\$ 56,017 on December 31, 2017), of which R\$ 18,798 (R\$ 18,632 on December 31, 2017) has been provisioned this being the probable estimate for funds needed to settle these disputes.

Other civil proceedings

The Company and its subsidiaries are involved in various civil actions claiming indemnity for moral and material damages, among others, arising from incidents occurred in the normal course of business, in the amount of R\$ 221,703 (R\$ 218,455 on December 31, 2017), of which R\$ 37,057 (R\$ 43,105 on December 31, 2017) has been provisioned the amount estimated as probably necessary for settlement of these disputes.

Tax

The Company and its subsidiaries are involved in numerous administrative and judicial claims actions relating to taxes, including, among other matters, subjects relating to the ICMS (Value Added tax on goods and services); the Urban Property Tax (*Imposto sobre a Propriedade Territorial Urbana*, or IPTU); the Rural Property Tax (ITR); the Tax on Donations and Legacies (ITCD); the Social Integration Program (*Programa de Integração Social*, or PIS); the Contribution to Finance Social Security (*Contribuição para o Financiamento da Seguridade Social*, or Cofins); Corporate Income (*Imposto de Renda Pessoa Jurídica*, or IRPJ); the Social Contribution (*Contribuição Social sobre o Lucro Líquido*, or CSLL); and motions to tax enforcement. The aggregate amount of this contingency is approximately R\$ 162,910 (R\$ 159,109 on December 31, 2017), of which R\$ 42,414 (R\$ 43,970 on December 31, 2017) has been provisioned the amount estimated as probably necessary for settlement of these disputes.

In addition to the issues above the Company and its subsidiaries are involved in various proceedings on the applicability of the IPTU Urban Land Tax to real estate properties that are in use for providing public services. The aggregate amount of the contingency is approximately R\$ 125,423 (R\$ 121,948 on December 31, 2017). Of this total, R\$ 14,676 has been recognized (R\$ 13,078 on December 31, 2017) this being the amount estimated as probably necessary for settlement of these disputes.

Environmental

The Company and its subsidiaries are involved in environmental matters, in which the subjects include protected areas, environmental licenses, recovery of environmental damage, and other matters, in the approximate total amount of R\$ 70,192 (R\$ 68,097 on December 31, 2017) of which R\$ 46 (R\$ 45 on December 31, 2017) has been provisioned the amount estimated as probably necessary for settlement of these disputes.

Regulatory

The Company and its subsidiaries are involved in numerous administrative and judicial proceedings, challenging, mainly: (i) tariff charges in invoices for use of the distribution system by a self-producer; (ii) alleged violation of targets for continuity indicators in retail supply of electricity; and (iii) the tariff increase made during the Federal Government's economic stabilization plan referred to as the Cruzado Plan, in 1986. The aggregate amount of the contingency is approximately R\$ 212,839 (R\$ 222,434 on December 31, 2017), of which R\$ 42,960 (R\$ 39,812 on December 31, 2017) has been recognized as provision the amount estimated as probably necessary for settlement of these disputes.

Other legal actions in the normal course of business

Breach of contract Power line pathways and accesses cleaning services contract

The Company and its subsidiaries are involved in disputes alleging losses suffered as a result of supposed breaches of contract at the time of provision of services of cleaning of power line pathways and firebreaks. The amount recorded is R\$ 32,969 (R\$ 31,987 at December 31, 2017), this being estimated as the likely amount of funds necessary to settle this dispute.

Other legal proceedings

The Company and its subsidiaries are involved as plaintiff or defendant, in other less significant claims, related to the normal course of their operations, with an estimated total amount of R\$ 164,765 (R\$ 170,158 on December 31, 2017), of which R\$ 10,903 (R\$ 13,655 on December 31, 2017) the amount estimated as probably necessary for settlement of these disputes has been provisioned. Management believes that it has appropriate defense for these proceedings, and does not expect these issues to give rise to significant losses that could have an adverse effect on the Company's financial position or profit.

Contingent liabilities whose losses are assessed as **possible** , and the Company believes it has arguments of merit for legal defense

Taxes and contributions

The Company and its subsidiaries are involved in numerous administrative and judicial proceedings in relation to taxes. Below are details of the main claims:

Indemnity of employees future benefit (the Anuênio)

In 2006 The Company and its subsidiaries paid an indemnity to its employees, totaling R\$ 177,686, in exchange for rights to future payments (referred to as the *Anuênio*) for time of service, which would otherwise be incorporated, in the future, into salaries. The Company and its subsidiaries did not pay income tax and Social Security contributions on this amount because it considered that those obligations are not applicable to amounts paid as an indemnity. However, to avoid the risk of a future fine, The Company and its subsidiaries obtained an injection, which permitted to make an escrow deposit of R\$ 121,834, which updated now represents the amount of R\$ 269,367 (R\$ 267,432 at December 31, 2017). The updated amount of the contingency is R\$ 314,307 (R\$ 311,138 on December 31, 2017) and, based on the arguments above, management has classified the chance of loss as **possible** .

Social Security contributions

The Brazilian federal tax authority (*Secretaria da Receita Federal*) has filed administrative proceedings related to various matters: employee profit sharing; the Workers Food Program (*Programa de Alimentação do Trabalhador*, or PAT); education benefit; food benefit; Special Additional Retirement payment; overtime payments; hazardous occupation payments; matters related to Sest/Senat (transport workers support programs); and fines for non-compliance with accessory obligations. The Company and its subsidiaries have presented defenses and await judgment. The amount of the contingency is approximately R\$ 1,541,934 (R\$ 1,647,343 on December 31, 2017). Management has classified the chance of loss as **possible** , also taking into account assessment of the chance of loss in the judicial sphere, (the claims mentioned are in the administrative sphere), based on the evaluation of the claims and the related case law.

Non-homologation of offsetting of tax credit

The federal tax authority did not ratify the Company's declared offsetting, in Corporate income tax returns, of carry-forwards and undue or excess payment of federal taxes IRPJ, CSLL, PIS and Cofins identified by official tax deposit receipts (DARFs and DCTFs). The Company and its subsidiaries are contesting the non-homologation of the amounts offset. The amount of the contingency is R\$ 282,004 (R\$ 274,836 on December 31, 2017), and the chance of loss was classified as **possible** , since the relevant requirements of the National Tax Code (CTN) have been complied with.

Corporate tax return restitution and offsetting

The Company was a party in an administrative case involving requests for restitution and compensation of credits arising from tax losses carry-forward balances indicated in the corporate tax returns for the calendar years from 1997 to 2000, and also for over payments identified in the corresponding tax payment receipts (DARFs and DCTFs). Due to completion of all appeals in the administrative sphere, an ordinary legal action has been filed, for the approximated amount of R\$ 582,802 (R\$ 576,386 on December 31, 2017). The chances of loss in this action are assessed as

possible , due to nullities in the conduct of the administrative proceedings and the understanding that mistaken assumptions were used by the tax authorities in the administrative judgment, and also based on analysis of the Company s argument and documents of proof.

Income tax withheld on capital gain in a shareholding transaction

The federal tax authority issued a tax assessment on Cemig as a jointly responsible party with its jointly-controlled entity Parati S.A. Participações em Ativos de Energia Elétrica (Parati), relating to withholding income tax (*Imposto de Renda Retido na Fonte*, or IRRF) allegedly applicable to returns paid by reason of a capital gain in a shareholding transaction relating to the purchase by Parati, and sale, by Enlighted, on July 7, 2011, of 100% of the equity interests in Luce LLC (a company with head office in Delaware, USA), holder of 75% of the shares in the Luce Brasil equity investment fund (FIP Luce), which was indirect holder, through Luce Empreendimentos e Participações S.A., of approximately 13.03% of the total and voting shares of Light S.A. (Light). The amount of the contingency is approximately R\$ 214,670 (R\$ 212,393 on December 31, 2017), and the loss has been assessed as possible .

The Social Contribution tax on net income (CSLL)

The federal tax authority issued a tax assessment against the Company and its subsidiaries for the years of 2012 and 2013, alleging undue non-addition, or deduction, of amounts relating to the following items in calculating the Social Contribution tax on net income: (i) taxes with liability suspended; (ii) donations and sponsorship (Law 8,313/91); and (iii) fines for various alleged infringements. The amount of this contingency is R\$ 329,491 (R\$ 322,196 on December 31, 2017). The Company has classified the chances of loss as possible , in accordance with the analysis of the case law on the subject.

Regulatory matters

Public Lighting Contribution (CIP)

Cemig and Cemig D are defendants in several public civil claims (class actions) requesting nullity of the clause in the Electricity Supply Contracts for public illumination signed between the Company and the various municipalities of its concession area, and restitution by the Company of the difference representing the amounts charged in the last 20 years, in the event that the courts recognize that these amounts were unduly charged. The actions are grounded on a supposed error by Cemig in the estimation of the period of time that was used in calculation of the consumption of electricity for public illumination, funded by the Public Lighting Contribution (*Contribuição para Iluminação Pública*, or CIP).

The Company believes it has arguments of merit for defense in these claims, since the charge at present made is grounded on Aneel Normative Resolution 456/2000. As a result it has not constituted a provision for this action, the amount of which is estimated at R\$ 1,244,323 (R\$ 1,224,274 on December 31, 2017). The Company has assessed the chances of loss in this action as possible , due to the Customer Defense Code (*Código de Defesa do Consumidor*, or CDC) not being applicable, because the matter is governed by the specific regulation of the electricity sector, and because Cemig complied with Aneel Resolutions 414 and 456, which deal with the subject.

Accounting of electricity sale transactions in the Electricity Trading Chamber (CCEE)

In a claim dating from August 2002, AES Sul Distribuidora challenged in the courts the criteria for accounting of electricity sale transactions in the wholesale electricity market (*Mercado Atacadista de Energia*, or MAE) (predecessor of the present Wholesale Electricity Exchange Chamber *Câmara de Comercialização de Energia Elétrica*, or CCEE), during the period of rationing. It obtained a favorable interim judgment in February 2006, which ordered Aneel, working with the CCEE, to comply with the claim by AES Sul and recalculate the settlement of the transactions during the rationing period, not considering Aneel's Dispatch 288 of 2002. This should take effect in the

CCEE as from November 2008, resulting in an additional disbursement for Cemig GT, related to the expense on purchase of energy in the spot market on the CCEE, in the approximate amount of R\$ 294,881 (R\$ 287,515 on December 31, 2017). On November 9, 2008 Cemig GT obtained an interim decision in the Regional Federal Appeal Court (*Tribunal Regional Federal*, or TRF) suspending the obligatory nature of the requirement to pay into court the amount that would have been owed under the Special Financial Settlement made by the CCEE.

Cemig GT has classified the chance of loss as possible , since this action deals with the General Agreement for the Electricity Sector, in which the Company has the full documentation to support its arguments.

System Service Charges (ESS) Resolution of the National Energy Policy Council

Resolution 3 of the National Energy Policy Council (*Conselho Nacional de Política Energética*, or CNPE) of March 6, 2013 established new criteria for the prorating of the cost of additional dispatch of thermal plants. Under the new criteria, the costs of the System Service Charges for Electricity Security (*Encargos do Serviço do Sistema*, or ESS), which were previously prorated in full between free customers and distributors, was now to be prorated between all the agents participating in the National Grid System, including generators and traders.

In May 2013, the Brazilian Independent Electricity Producers Association (*Associação Brasileira dos Produtores Independentes de Energia Elétrica*, or Apine), of which Cemig GT is a member, obtained an interim court decision suspending the effects of Articles 2 and 3 of Resolution CNPE 3, exempting generators from payment of the ESS under that Resolution.

As a result of the interim decision, the CCEE carried out the financial settlement for transactions from April through December 2013 using the criteria prior to Resolution. As a result, Cemig GT recorded the costs of the ESS in accordance with the criteria for financial settlement published by the CCEE, without the effects of Resolution CNPE 3.

The applications by the plaintiff (Apine) were granted in the first instance, confirming the interim decision granted in favor of its members, which include Cemig GT and its subsidiaries. This decision was subject of an appeal, distributed to the 7th Panel of the Regional Federal Court (*Tribunal Federal Regional*, or TRF) of the 1st Region, which is still pending of judgment.

The amount of the contingency is approximately R\$ 206,919 (R\$ 201,586 on December 31, 2017). In spite of the successful judgment at first instance, the Association's legal advisers still considered the chances of loss of this contingency as possible. Cemig GT agrees with this, since there are not yet elements to make it possible to foresee the outcome of the Appeal filed by the Federal Government.

Tariff increases

Exclusion of customers classified as low-income

The Federal Public Attorneys Office filed a class action against the Company and Aneel, to avoid exclusion of customers from classification in the *Low-income residential tariff* sub-category, requesting an order for Cemig D to pay twice the amount paid in excess by customers. Judgment was given in favor of the plaintiffs, but the Company and Aneel have filed an interlocutory appeal and await judgment. The amount of the contingency is approximately R\$ 282,269 (R\$ 275,458 on December 31, 2017). Cemig D has classified the chances of loss as possible due to other favorable decisions on this matter.

Environmental claims

Impact arising from construction of power plants

The Public Attorneys of Minas Gerais State, together with an association and individuals, have brought class actions requiring Cemig GT to invest at least 0.5% of the annual gross operating revenue of the *Emborcação, Pissarrão, Funil, Volta Grande, Poquim, Paraúna, Miranda, Nova Ponte, Rio de Pedras* and *Peti* plants in environmental protection and preservation of the water tables of the counties where these power plants are located, and proportional

indemnity for allegedly irrecoverable environmental damage caused, arising from omission to comply with Minas Gerais State Law 12,503/1997. Cemig GT has filed appeals to the Higher Appeal Court (STJ) and the Federal Supreme Court (STF). Based on the opinions of its legal advisers, Cemig GT believes that this is a matter involving legislation at infra-constitutional level (there is a Federal Law with an analogous object) and thus a constitutional matter, on the issue of whether the state law is constitutional or not, so that the final decision is one for the national Higher Appeal Court (STJ) and the Federal Supreme Court (STF). No provision has been made, since based on the opinion of its legal advisers management has classified the chance of loss as possible . The amount of the contingency is R\$ 130,250 (R\$ 126,664 on December 31, 2017).

The Public Attorneys Office of Minas Gerais State has filed class actions requiring the formation of a Permanent Preservation Area (APP) around the reservoir of the *Capim Branco* hydroelectric plant, suspension of the effects of the environmental licenses, and recovery of alleged environmental damage. Based on the opinion of its legal advisers in relation to the changes that have been made in the new Forest Code and in the case law on this subject, Cemig GT has classified the chance of loss in this dispute as possible . The estimated value of the contingency is R\$ 81,116 (R\$ 79,378 on December 31, 2017).

Other contingent liabilities

Early settlement of the CRC (Earnings Compensation) Account

The Company is involved in an administrative proceeding at the Audit Court of the State of Minas Gerais which challenges: (i) a difference of amounts relating to the discount offered by Cemig for early repayment of the credit owed to Cemig by the State under the Receivables Assignment Contract in relation to the CRC Account (*Conta de Resultados a Compensar*, or Earnings Compensation Account) this payment was completed in the first quarter of 2013; and also (ii) possible undue financial burden on the State after the signature of the Amendments that aimed to re-establish the economic and financial balance of the Contract. The amount of the contingency is approximately R\$ 400,569 (R\$ 397,897 on December 31, 2017), and, based on the Opinion of the Public Attorneys Office of the Audit Board of the State of Minas Gerais, the Company believes that it has met the legal requirements. Thus, it has assessed the chances of loss as possible, since it believes that the adjustment was made in faithful obedience to the legislation applicable to the case.

Contractual imbalance

Cemig D is a party in disputes alleging losses suffered by third parties as a result of supposed breach of contract at the time of implementation of part of the rural electrification program known as *Luz Para Todos* (*Light for All*). The estimated amount is R\$ 268,062 (R\$ 261,281 on December 31, 2017), and no provision has been made. Cemig D has classified the chances of loss as possible as a result of the analysis that has been made of the argument and documentation used by the contracted parties in attempting to make the Company liable for any losses that allegedly occurred.

The Parent company is also a party in other disputes arising from alleged non-compliance with contracts in the normal course of business, for an estimated total of R\$ 82,335 (R\$ 79,985 on December 31, 2017). Cemig D has classified the chance of loss as possible, after analysis of the case law on this subject.

Irregularities in competitive tender proceedings

Cemig D is a party in a dispute alleging irregularities in competitive tender proceedings, governed by an online invitation to bid. The estimated amount is R\$ 26,324 (R\$ 26,149 on December 31, 2017), and no provision has been made. Cemig D has classified the chance of loss as possible, after analysis of the case law on this subject.

24. EQUITY AND REMUNERATION TO SHAREHOLDERS

The Company's issued and outstanding share capital on March 31, 2018 and December 31, 2017 is R\$ 6,294,208, represented by 420,764,708 common shares and 838,076,946 preferred shares, all with nominal value of R\$ 5.00 (five Reais).

(a) Capital Increase

On October 26, 2017, the Shareholders Extraordinary Meeting of Shareholders unanimously approved the proposal by the Board of Directors for a capital increase through issuance of up to 199,910,947 new shares, each with par value of R\$ 5.00 with the same rights providing to those shares in the same class of shares that resulted in the capital increase.

Up to December 31, 2017, R\$ 1,215,223 had been subscribed by Shareholders, and a total of 184,965,518 shares at the price of R\$6.57, comprising 13,139,679 ON (common) shares and 1,815,750 PN (preferred) shares.

On March 21, 2018, Cemig sold the totality of the remaining shares not subscribed through a public offer of a single and indivisible lot of shares, which resulted in a financial volume of R\$ 110,700. A total of 13,139,799 remaining common shares (ON) were sold for an average price of R\$ 7.30, totaling R\$ 95,773; and 1,815,750 remaining preferred shares (PN) were sold for an average price of R\$ 8.22, for a total of R\$14,927.

On April 23, 2018, the Shareholders Extraordinary General Meeting approved a Company capital increase in the amount of R\$ 999,555, whose capital increased from R\$ 6,294,208 to R\$ 7,293,763, throughout the issue and subscription of 199,910,947 new shares, each with par value of R\$ 5.00 (five Reais), comprising 66,849,505 common shares and 133,061,442 preferred shares.

The capital increase, considering the issuance price, represented proceeds of R\$1,324,773. The difference, in the amount of R\$ 325,218, will be allocated to the capital reserve account.

(b) Earnings per share

Considering the capital increase on April 23, 2018 described above, the calculation of basic and diluted earnings is presented as follows:

Number of shares	03/31/2018	03/31/2017
Common shares already paid up	420,764,708	420,764,708
Common shares to be paid up	66,849,505	
Treasury shares	(69)	
	487,614,144	420,764,708
Preferred shares already paid up	838,076,946	838,076,946
Preferred shares to be paid up	133,061,442	
Treasury shares	(560,649)	(560,718)
	970,577,739	837,516,228
Total	1,458,191,883	1,258,280,936

Basic and diluted earnings per share

	03/31/2018	03/31/2017
Net income for the period (A)	464,449	342,596
Total of shares (B)	1,458,191,883	1,258,280,936
Basic and diluted earnings per share (A/B) (R\$)	0,319	0,2729

Considering the subscribed shares have the right to dividends for 2017 year, if these dividends had been considered in the calculation of the basic and diluted earnings per share for the first quarter of 2017, the result of the calculation would have been 0.2349.

The call and put options related to investments described in Note 29 could potentially dilute basic earnings per share in the future; however, they have not caused dilution on the earning per share in the presented periods.

Total	12,953,601	13,264,284	5,397,905	5,771,613

(1) Data not reviewed by external auditors.

(2) Includes a CCEAR (Regulated Market Sales Contract), bilateral contracts with other agents, and the revenues from management of generation assets (GAG) for the 18 hydroelectric plants of Lot D of Auction no 12/2015.

b) Revenue from Use of the Distribution System (the TUSD charge)

A significant part of the large industrial customers in the concession areas of Cemig D are now Free Customers. Energy is sold to them by the Cemig group's generation and transmission company, Cemig GT, and also by other generators. Thus, the charges for use of the distribution network (TUSD) of these Free customers are charged separately from the posting under this line.

c) The CVA Account, and Other financial components

The results from variations in (i) the CVA Account (*Portion A Costs Variation Compensation Account*), and in (ii) *Other financial components* in calculation of tariffs, refer to the positive and negative differences between the estimate of non-manageable costs of the subsidiary Cemig D and the payments actually made. The amounts

recognized arise from balances recorded in the current period, homologated or to be homologated in tariff adjustment processes. For more information please see Note 14.

d) Transmission concession revenue

Transmission revenue comprises the amount received from agents of the electricity sector for operation and maintenance of transmission lines of the national grid, in the form of the Permitted Annual Revenue (*Receita Anual Permitida*, or RAP), plus an adjustment for expectation of cash flow arising from the variation in the fair value of the Remuneration Assets Base in the amount of R\$ 2,927 for the quarter ended March 31, 2018.

e) Construction revenue

Entities that are within the scope of ICPC 01 (R1) should record a construction or improvement of the infrastructure of the concession in accordance with CPC 17 (R1) – *Construction Contracts*. The costs of infrastructure construction carried out by the Company are measured reliably; the revenues and expenses corresponding to these construction services are recognized as and when they are incurred, up to the reporting date. Any expected loss on construction contracts is recognized immediately as an expense. Considering that the regulatory model currently in effect does not provide for specific remuneration for construction or improvement of the infrastructure of the concession; that constructions and improvements are substantially executed through specialized services of outsourced parties; and that all construction revenues is related to the construction of the infrastructure of the energy distribution services, the Company's management believed that revenues related to construction services are immaterial.

f) Gain on financial updating of the Concession Grant Fee

Represents the inflation adjustment using the IPCA inflation index, plus interest, on the Concession Grant Fee for the concession awarded as Lot D of Auction 12/2015. See Note 14.

g) Transmission indemnity revenue

On the quarter ended March 31, 2018, the Company recognized revenue in the total amount of R\$ 49,841 (R\$ 65,830 on March 31, 2017), corresponded to updating, by the IPCA index, of the balance of indemnity receivable existing. See Note 14.

h) Generation indemnity revenue

On the quarter ended March 31, 2018, the Company recognized revenue of R\$ 17,245, for the adjustment to the balance of non-amortized indemnities for the concessions of the *São Simão* and *Miranda* Hydroelectric Plants, as per Ministerial Order 291/17, also taking into account the updating of the amounts. See Notes 14.

i) Revenue from energy transactions in the CCEE (Wholesale Trading Chamber)

The revenue from transactions made through the Wholesale Electricity Exchange (*Câmara de Comercialização de Energia Elétrica*, or CCEE) is the monthly positive net balance of settlements of transactions for purchase and sale of energy in the Spot Market, through the CCEE.

j) Adjustment to expected cash flow from Financial assets on residual value of infrastructure assets of distribution concessions

Monetary adjustment of the Regulatory Remuneration Asset Base resulting in the recognition of income from the adjustments on the expectation of cash flow from the Financial asset on the residual value of the infrastructure assets of distribution concessions.

The main conditions and characteristics of interest with reference to the related party transactions are:

- (1) This refers to sale of energy supply to the Minas Gerais State government. The price of the supply is the one set by Aneel through a Resolution relating to the annual tariff adjustment of Cemig D. In 2017 the government of Minas Gerais State signed a debt recognition agreement with Cemig D for payment of debits relating to the supply of power due and unpaid, in the amount of R\$ 113,032 , to be settled in 24 installments, updated monthly by the variation of the IGP-M. The first portion, in the amount of R\$ 5,418, was settled in December 2017, and the others have due dates up to November, 2019.
- (2) This refers to the recalculation of the monetary updating of amounts relating to the Advance for Future Capital Increase (AFAC), which were returned to the State of Minas Gerais. Amount transferred from administrative deposit to Accounts Receivable from Minas Gerais State, on September 30, 2017 (see Notes 11).
- (3) Transactions with energy between generators and distributors were made in auctions organized by the Federal Government; transactions for transport of electricity, made by transmission companies, arise from the centralized operation of the National Grid carried out by the National System Operator (ONS).
- (4) Refers to a contract to provide plant operation and maintenance services.
- (5) In 2017, advance payments were made to Santo Antônio Energia, subsidiary of Madeira Energia. For the purposes of settlement invoices for energy supply to be issued by Santo Antônio Energia starting in 2018, in 12 tranches, will be used;

- (6) This refers to reimbursement of supply of energy that was decontracted due to alteration of Regulated Market Electricity Sale Contracts (CCEARs) between Santo Antônio Energia (subsidiary of Madeira Energia) and Cemig D (Distribution), with value totaling R\$ 84,092, to be settled in 24 monthly installments, with monetary adjustment by the Selic rate. The first two installments were received in February and March 2018, and the others have due dates up to January 2020.
- (7) This refers to advance payments under Agreements for Incentive-bearing Power Supply becoming due in April through August 2018, discounted at 155% of the rate for Interbank Certificates of Deposit published by Cetip.
- (8) Cemig GT has an item of R\$ 359 million receivable from Renova that will be paid in monthly installments over 2021 with actualization at 150% to 155% of the CDI rate.
- (9) This refers to a contract for development of management software between Cemig D and Axxiom Soluções Tecnológicas S.A., instituted in Aneel Dispatch 2,657/2017.
- (10) FIC Pampulha has financial investments in securities issued by subsidiary companies of the Company. There is more information, and characteristics of the fund, in the description below.
- (11) The contracts of Forluz are updated by the Expanded Customer Price Index (IPCA) calculated by the Brazilian Geography and Statistics Institute (*Instituto Brasileiro de Geografia e Estatística*, or IBGE) plus interest of 6% per annum and will be amortized up to the business year of 2031 (See Note 22).
- (12) The Company's contributions to the pension fund for the employees participating in the Mixed Plan, and calculated on the monthly remuneration, in accordance with the regulations of the Fund.
- (13) Funds for annual current administrative costs of the Pension Fund in accordance with the specific legislation of the sector. The amounts are estimated as a percentage of the Company's payroll.
- (14) Rental of the Company's administrative head offices, in effect to March 2019 and May 2034, adjusted annually by IPCA inflation index.
- (15) Post-retirement obligations relating to the employees' health and dental plan (see Note 22).

29. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Financial instruments of the Company and its subsidiaries are: Cash and cash equivalents; Securities; Customers and Traders; Concession Holders – Energy Transport; Advances to suppliers; Concession financial assets related to infrastructure; Low-income subsidy; Funding from Energy Development Account (CDE); Investments in infrastructure; Restricted cash; Escrow deposits in litigation; Receivables from related parties; the CVA Account; and *Other financial components*; in tariff adjustments; the Minas Gerais State Tax Amnesty Program (PRCT); Loans and financings; Obligations under debentures; Obligations under concessions; Obligations to suppliers; Debt agreed with the pension fund (Forluz); Post-retirement obligations; Put options; and Swaps. Gains and losses on transactions are reported in full in the statement of income for the period or in Equity, by the accrual method.

The financial instruments of the Company and its subsidiaries are classified as follows:

Amortized cost this category contains: Cash and cash equivalents; Securities; Customers and traders; Concession holders (power transport); Restricted cash; Receivables from related parties; the CVA Account and *Other financial components*, in tariff adjustments; Low-income subsidy; Reimbursement of tariff subsidies; Other credits owed by Eletrobras; Escrow deposits in litigation; and Concession financial assets. They are recognized at their nominal realization value, which is similar to fair value.

Financial instruments measured at fair value through profit or loss

1. Securities in the amount of R\$ 419,624 (R\$ 1,043,893 on December 31, 2017). They are valued at fair value and the gains or losses are recognized directly in the Statement of income.
2. *Concession Financial Assets Related to the Distribution Infrastructure* measured through the remuneration base of the concession assets, according to the legislation established by the regulatory agency (ANEEL), taking into account the changes in the estimated cash flow, based on factors such as New Replacement Value (Valor Novo de Reposição, or VNR) and update by the IPCA, which are considered equivalent to the fair value at the date of these Interim Financial Information.
3. *Indemnities receivable – Transmission*: measured at New Replacement Value (Valor Novo de Reposição, or VNR), according to criteria established by the Concession-granting power (Grantor), based on the fair value of the assets to be indemnified, and on the weighted average cost of capital (WACC) used by the Grantor, which reflects the concession holder's return on the operations of the concession. The VNR and the WACC are public information disclosed by the Grantor and by Cemig.
4. *Indemnities receivable – Generation*

Plants operated under the quotas regime: measured at New Replacement Value (Valor Novo de Reposição, or VNR), according to criteria established by the Concession Grantor, based on the assets fair value to be indemnified by the termination of the concession, updated by the Selic rate as from publication of Ministerial Order 291 of August 3, 2017. More details in Note 4.

The *Miranda* and *São Simão* plants: measured at New Replacement Value (Valor Novo de Reposição, or VNR), based on the Company's estimates, to be updated after such amount be authorized by Aneel.

5.

Derivative financial instruments Swap transactions: recognized initially at their fair value and the attributable transaction costs are recognized in the Statement of income when they are incurred. After initial recognition, derivatives are measured at fair value and changes in fair value are accounted for in the Statement of income.

6. *Derivative financial instruments (put options):* measured at fair value using the Black-Scholes-Merton (BSM) method.

Other financial liabilities Non-derivative financial liabilities: related to Loans and financings; debentures; debt agreed with the Pension Fund (Forluz); concessions payable; the Minas Gerais State tax regularization plan (PRCT); suppliers; advances from clients and CVA (Compensation for Changes in Portion A Items). They are measured at amortized cost using the effective interest rate method.

Derivative financial instruments:

Put options

The Company holds options to sell certain securities (put options) for which it has calculated the fair value based on the *Black and Scholes Merton* (BSM) model. This takes the following variables into account: exercise price of the option; closing price of the underlying asset on March 31, 2018; the risk-free interest rate; the volatility of the price of the underlying asset; and the time to maturity of the option.

Analytically, calculation of the exercise price of the options, the risk-free interest rate and the time to maturity is primarily deterministic, so that the main divergence in the put options takes place in the measurement of the closing price and the volatility of the underlying asset.

On March 31, 2018 and December 31, 2017 the existing options were as follows:

Consolidated	Balance at 03/31/2018	Balance at 12/31/2017
Put option for shares in RME	541,767	507,232
Put option SAAG	316,050	311,593
Put / call options Ativas and Sonda	(3,883)	(3,801)
	853,934	815,024

Put option SAAG

Option contracts were signed between Cemig GT and the private pension entities that participate in the investment structure of SAAG (comprising FIP Melbourne, Parma Participações S.A. and FIP Malbec, jointly, the Investment Structure), giving those entities the right to sell units in the Funds that comprise the Investment Structure, at the option of the Funds, in the 84th (eighty-fourth) month from June 2014. The exercise price of the Put Options will correspond to the amount invested by each private pension plan in the Investment Structure, updated pro rata temporis by the Expanded National Customer Price (IPCA) index published by the IBGE, plus interest at 7% per year, less such dividends and Interest on Equity as shall have been paid by SAAG to the pension plan entities. This option was considered to be a derivative instrument, accounted at fair value through profit or loss.

For measurement of the fair value of SAAG put options Cemig GT uses the Black-Scholes-Merton (BSM) model. The assumption was made that the future expenditures of FIP Malbec and FIP Melbourne are insignificant, so that the options are valued as if they were direct equity interests in Mesa. However, neither SAAG nor Mesa are traded on a securities exchange, so that some assumptions are necessary for calculation of the price of the asset and its volatility for application of the BSM model. The closing price of the share of Mesa on March 31, 2018 is ascertained on the basis of free cash flow to equity holders (FCFE), expressed by equivalence of the indirect interests held by the FIPs. Volatility, in turn, is measured as an average of historic volatility (based on the hypothesis that the series of the difference of continuously capitalized returns follows a normal distribution) of comparable companies in the electricity generation sector that are traded on the Bovespa.

Based on the studies made, a liability of R\$ 316,050 (R\$311,593 on December 31, 2017) is recorded in the Company's Interim Financial Information, for the difference between the exercise price and the estimated fair value of the assets.

The changes in the value of the options are as follows:

	Consolidated
Balance on December 31, 2016	196,173
Adjustment to fair value	46,936
Balance on March 31, 2017	243,109
Balance on December 31, 2017	311,593

Adjustment to fair value	4,457
--------------------------	-------

Balance on March 31, 2018	316,050
----------------------------------	----------------

Cemig GT made an analysis of the sensitivity of the exercise price of the option, varying the risk-free interest rate and the volatility, keeping the other variables of the model unchanged. In this context, scenarios for the risk-free interest rate at 5.66% to 9.66% p.a., and for volatility between 19% and 79% p.a., were used, resulting in estimates of minimum and maximum price for the put option of R\$ 284,810 and R\$ 375,389, respectively.

Put options of RME

Cemig granted a put option to *Fundo de Participações Redentor* which is now a Shareholder of *Rio Minas Energia Participações S.A. (RME)* the right for *Redentor* to sell all RME's shares, originally exercisable in May 2016. The exercise price of the option is calculated based on the sum of the value of the amounts injected by the Fund, plus the expenses of the fund, less Interest on Equity, and dividends, distributed by RME.

The exercise price is subject to monetary updating by the CDI (Interbank CD) plus financial remuneration at 0.9% per year.

RME owns common and preferred shares of Light, and currently exercise jointly control, with the Company, the activities of that investee. Therefore, this option was considered to be a derivative instrument, accounted at fair value through profit or loss.

On November 22, 2017 Cemig signed the First Amendment to the Shareholders' Agreement of RME - Rio Minas Energia Participações S.A. (RME), with: Banco Santander (Brasil) S.A. (Santander), BV Financeira S.A. - Crédito Financiamento e Investimento (BV Financeira) and BB-Banco de Investimento S.A. (BB-BI), (jointly, the Shareholder banks) to formalize the partial postponement of the date of the Put option granted by Cemig to the Shareholder Banks, the new exercise date being moved from November 30, 2017 to November 30, 2018.

Amount of the Company's exposure

The change in the value of the options - the difference between the estimated fair value for the assets and the corresponding exercise price, for the three months period ended on March 31, 2018 and 2017, has been as follows:

Balance on December 31, 2016	1,149,881
Variation in fair value	15,651
Balance on March 31, 2017	1,165,532
Balance on December 31, 2017	507,232
Variation in fair value	34,535
Balance on March 31, 2018	541,767

In the calculation of the fair value of the option based on the Black-Scholes-Merton analysis, the following variables are taken into account: exercise price of the option; closing price of the share of Light on March 31, 2018 (as a reference for the value of the indirect equity interest held by the direct Shareholders of RME in Light); the risk-free interest rate; the volatility of the price of the underlying asset; and the time to maturity of the option.

The Company made an analysis of the sensitivity of the exercise price of the option, varying the risk-free interest rate and the volatility, keeping the other variables of the model unchanged. In this context, scenarios for the risk-free interest rate at 2.55% p.a. to 10.55% p.a., and for volatility between 20.0% and 90.0% p.a., were used, resulting in estimates of minimum and maximum price for the put option of R\$ 525,279 and R\$ 558,945, respectively.

Sonda options

As part of the shareholding restructuring process, Cemig Telecom and Sonda signed a Purchase Option Agreement (issued by Cemig Telecom) and a Sale Option Agreement (issued by Sonda). Considering the merger of Cemig Telecom into Cemig, occurred on March 31, 2018, the option contract is now between Cemig and Sonda.

These resulted in Cemig Telecom simultaneously having a right (put option) and an obligation (call option). The exercise price of the put option will be equivalent to fifteen times the adjusted net income of Ativas in the year prior to the exercise date. The exercise price of the call option will be equivalent to sixteen times the adjusted net income of Ativas in the business year prior to the exercise date. Both options, if exercised, result in the sale of the shares in Ativas currently owned by the Company, and the exercise of one of the options results in nullity of the other. The options may be exercised as from January 1, 2021.

The put and call options in Ativas (the Ativas Options) were measured at fair value and posted at their net value, i.e. the difference between the fair values of the two options on the reporting date of the Interim financial information for March, 2018. Depending on the value of the options, the net value of the Ativas Options may be an asset or a liability of the Company.

The measurement has been made using the Black-Scholes-Merton (BSM) model. In the calculation of the fair value of the Ativas Options based on the BSM model, the following variables are taken into account: closing price of the underlying asset on March 31, 2018; the risk-free interest rate; the volatility of the price of the underlying asset; the time to maturity of the option; and the exercise prices on the exercise date.

The closing price of the underlying asset was based on the valuation prepared by the same specialized consulting firm responsible for calculating the options. The valuation base date is March 31, 2018, the same date of closing of the Company's Interim Financial information, and the methodology used to calculate the Company's fair value is Discounted Cash Flow (CDF) in the amount of the Ativas by Sonda, held on October 19, 2016. The calculation of the risk-free interest rate was based on yields of National Treasury Bills. The time to maturity was calculated assuming exercise date on March 31, 2021.

Considering that the exercise prices of the options are contingent upon the future financial accounting results of Ativas, the estimate of the exercise prices on the date of maturity was based on statistical analyzes and on information of comparable listed companies.

The net effect of the calculation of the call and put options in shares of Ativas amounted to a credit amount of R\$ 82 in the income statement for the three-months period ended on March 31, 2018.

Swap transactions

Considering that part of the loans and financings of the Company's subsidiaries is denominated in foreign currency, the companies use derivative financial instruments (swap transactions) to protect the servicing associated with these debts (principal plus interest).

The derivative instruments contracted have the purpose of protecting the operations against the risks arising from foreign exchange variation and are not used for speculative purposes.

The amounts of the principal of derivative transactions are not presented in the balance sheet, since they refer to transactions that do not require cash principal payments to be made: only the gains or losses that actually occur are recorded. The net result of these transactions was positive adjustment, on March 31, 2018, of R\$ 97,517, recorded in finance income (expenses).

The Company has a Financial Risks Management Committee, created to monitor the financial risks in relation to volatility and trends of inflation indices, exchange rates and interest rates that affect its financial transactions and which could negatively affect its liquidity and profitability. The Committee implements action plans and sets guidelines for proactive control of the financial risks environment.

The table below shows the derivative instruments contracted by Cemig GT at March 31, 2018 and December 31, 2017:

Risk management

Corporate risk management is a management tool that is an integral part of the Company's corporate governance practices, and is aligned with the process of planning, which sets the Company's strategic business objectives.

The Company has a Financial Risks Management Committee, the purpose of which is to implement guidelines and monitor the financial risk of transactions that could negatively affect the Company's liquidity or profitability, recommending hedge protection strategies to control the Company's exposure to foreign exchange rate risk, interest rate risk, and inflation risks.

The principal risks to which the Company and its subsidiaries are exposed are as follows:

Exchange rate risk

Cemig and its subsidiaries are exposed to the risk of increase in exchange rates, with effect on Loans and financings, Suppliers, and cash flow.

The net exposure to exchange rates is as follows:

Exposure to exchange rates	03/31/2018		12/31/2017	
	Foreign currency	R\$	Foreign currency	R\$

Sensitivity analysis

Based on information from its financial consultants, the Company and its subsidiaries estimates that in a probable scenario the variation of the exchange rates of foreign currencies in relation to the Real at March 31, 2019 will be an appreciation of the dollar by 5.23%, to R\$ 3.50/US\$, and depreciation of the Euro by 1.32%, to R\$ 4.03/. The Company and its subsidiaries have made a sensitivity analysis of the effects on the Company's profit arising from depreciation of the Real exchange rate by 25%, and by 50%, in relation to this probable scenario.

Sensitivity analysis

In relation to the most significant interest rate risk, the Company and its subsidiaries estimate that, in a probable scenario, on March 31, 2019 the Selic and TLP rates will be 6.25%. The Company and its subsidiaries have made a sensitivity analysis of the effects on its profit arising from increases in rates of 25% and 50% in relation to the probable scenario. Variation in the CDI rate accompanies the variation in the Selic rate.

Estimation of scenarios for the path of interest rates considers the projections made by The Company and its subsidiaries, based on its financial consultants.

Liquidity risk

Cemig has sufficient cash flow to cover the cash needs related to its operating activities.

The Company manages liquidity risk with a group of methods, procedures and instruments that are coherent with the complexity of the business, and applied in permanent control of the financial processes, to guarantee appropriate risk management.

Cemig manages liquidity risk by permanently monitoring its cash flow in a conservative, budget-oriented manner. Balances are projected monthly, for each one of the companies, over a period of 12 months, and daily liquidity is projected over 180 days.

Short-term investments must comply with certain rigid investing principles established in the Company's Cash Investment Policy, which was approved by the Financial Risks Management Committee. These include applying its resources in private credit investment funds, without market risk, and investment of the remainder directly in bank CDs or repo contracts which earn interest at the CDI rate.

In managing cash investments, the Company seeks to obtain profitability through a rigid analysis of financial institutions' credit, applying operational limits for each bank, based on assessments that take into account their ratings, exposures and balance sheets. It also seeks greater returns on investments by strategically investing in securities with longer investment maturities, while bearing in mind the Company's minimum liquidity control requirements.

The greater part of the energy sold by the Company is generated by hydroelectric plants. A prolonged period of scarce rainfall can result in lower water volumes in the plants' reservoirs, possibly causing losses due to increased costs of purchasing energy, due to replacement by thermoelectric generation, or reduction of revenues due to reduction in consumption caused by implementation of wide-ranging programs for saving energy. Prolongation of generation by thermoelectric plants can pressure costs of acquisition of energy by the distributors, causing a greater need for cash, and can impact future tariff increases – as indeed has happened with the Extraordinary Tariff Review granted to the distributors in March 2015.

Any reduction in the Company's ratings could result in a reduction of its ability to obtain new financings and could also make refinancings of debts not yet due more difficult or more costly. In this situation, any financing or refinancing of the Company's debt could have higher interest rates or might require compliance with more onerous covenants, which could additionally cause restrictions to the operations of the business.

The flow of payments of the Company's obligation to suppliers, for debts agreed with the pension fund, loans, financings and debentures, at floating and fixed rates, including future interest up to contractual maturity dates, is shown in this table:

Credit risk

The distribution concession contract requires levels of service on a very wide basis within the concession area, and disconnection of supply of defaulting customers is permitted. Additionally, the Company used numerous tools of communication and collection to avoid increase in default. These include: telephone contact, emails, text messages, collection letters, posting of clients with credit protection companies, and collection through the courts.

The risk arising from the possibility of Cemig and its subsidiaries incurring losses as a result of difficulty in receiving amounts billed to its customers is considered to be low. The credit risk is also reduced by the extremely wide customer's base.

The allowance for doubtful debtors constituted on March 31, 2018, considered to be adequate in relation to the credits in arrears receivable by the Company and its subsidiaries, and was R\$ 726,175.

In relation to the risk of losses resulting from insolvency of the financial institutions at which the Company or its subsidiaries have deposits, a Cash Investment Policy was approved and has been in effect since 2004.

Cemig manages the counterparty risk of financial institutions based on an internal policy approved by its Financial Risks Management Committee.

This Policy assesses and scales the credit risks of the institutions, the liquidity risk, the market risk of the investment portfolio and the Treasury operational risk.

All investments are made in financial securities that have fixed-income characteristics, always indexed to the CDI rate. The Company does not carry out any transactions that would bring volatility risk into its financial statements.

As a management instrument, Cemig divides the investment of its funds into direct purchases of securities (own portfolio) and investment funds. The investment funds invest the funds exclusively in fixed income products, and companies of the Group are the only unit holders. They obey the same policy adopted in the investments for the Company's directly-held own portfolio.

The minimum requirements for concession of credit to financial institutions are centered on three items:

1. Rating by three risk rating agencies.
2. Equity greater than R\$ 400 million.
3. Basel ratio above 12.

Banks that exceed these thresholds are classified in three groups, by the value of their equity; and within this classification, limits of concentration by group and by institution are set:

			Limit per bank
Group	Equity	Concentration	(% of equity)*
A1	Over R\$ 3.5 billion	Minimum of 80%	Between 6% and 9%
A2	R\$ 1.0 billion to R\$ 3.5 billion	Maximum 20%	Between 5% and 8%
B	R\$ 400 million to R\$ 1.0 billion	Maximum 20%	Between 5% and 7%

* The percentage assigned to each bank depends on individual assessment of indicators, e.g. liquidity, and quality of the credit portfolio.

Further to these points, Cemig also sets two concentration limits:

1. No bank may have more than 30% of the Group's portfolio.

2. No bank may have more than 50% of the portfolio of any individual company.

Risk of over-contracting and under-contracting of energy supply

Sale or purchase of power supply in the spot market to cover a positive or negative exposure of supply contracted, to serve the captive market of Cemig D, is a risk inherent to the energy distribution business. The regulatory limit for 100% pass-through to customers of exposure to the spot market, valued at the difference between the distributor's average purchase price and the spot price (PLD), is only the margin between 100% and 105% of the distributor's contracted supply. Any exposure that can be proved to have arisen from factors outside the distributor's control (involuntary exposure) may also be passed through in full to customers. The Company's Management is continually managing its contracts for purchase of power supply to mitigate the risk of exposure is to the spot market.

Risk of continuity of the concession

The risk to continuity of the distribution concession arises from the new terms included in the extension of Cemig D's concession for 30 years from January 1, 2016, as specified by Law 12,783/13. The extension, coming into force on January 1, 2016, brought changes to the present contract. Under the new contract, continuity of the concession is conditional upon compliance by the distributor with new criteria for quality and economic-financial sustainability.

The extension is conditional on compliance with indicators contained in the contract itself, which aim to guarantee quality of the service provided and economic and financial sustainability of the company. These are determinant for actual continuation of the concession in the first five years of the contract, since non-compliance with them in two consecutive years, or in the fifth year, results in cancellation of the concession.

Additionally, as from 2021, non-compliance with the quality criteria for three consecutive years, or with the minimum parameters for economic/financial sustainability for two consecutive years, results in opening of proceedings with a view to termination of the distribution concession.

Hydrological risk

The greater part of the energy sold by the Company's subsidiaries is generated by hydroelectrical plants. A prolonged period of scarce rainfall can result in lower water volumes in the plants' reservoirs, possibly causing losses due to increased costs of purchasing electricity, due to replacement by thermoelectric generation, or reduction of revenues due to reduction in consumption caused by implementation of wide-ranging programs for saving of electricity. Prolongation of the generation of energy using the thermal plants potentially could lead to cost increases for the energy distributors, causing a greater need for cash, and could result in future increases in tariffs.

Risk of early maturity of debt

The Company's subsidiaries have loan contracts with restrictive covenants normally applicable to this type of transaction, related to compliance with a financial index. Non-compliance with these covenants could result in earlier maturity of debts. For more details please see Note 20.

30. MEASUREMENT AT FAIR VALUE

The Company measures its financial assets and liabilities at fair value. Fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The Fair Value Hierarchy aims to increase consistency and comparability: it divides the inputs used in measuring fair value into three broad levels, as follows:

Level 1 – Active market – Quoted prices: A financial instrument is considered to be quoted in an active market if the prices quoted are promptly and regularly made available by an exchange or organized over-the-counter

market, by operators, by brokers or by a market association, by entities whose purpose is to publish prices, or by regulatory agencies, and if those prices represent regular arm's length market transactions made without any preference.

Level 2 No active market Valuation technique: For an instrument that does not have an active market, fair value should be found by using a method of valuation/pricing. Criteria such as data on the current fair value of another instrument that is substantially similar, or discounted cash flow analysis or option pricing models, may be used. The objective of the valuation technique is to establish what would be the transaction price on the measurement date in an arm's-length transaction motivated by business considerations.

Level 3 No active market No observable inputs: The fair value of investments in securities for which there are no prices quoted on an active market, or of derivatives linked to them which are to be settled by delivery of unquoted securities, is determined based on generally accepted valuation techniques, mainly related to discounted cash flow analysis.

The following is a summary of the financial instruments and their respective fair values:

Fair value calculation of financial positions

Concession financial assets related to infrastructure: measured at New Replacement Value (*Valor Novo de Reposição*, or VNR), according to criteria established in regulations by the Concession grantor (Grantor), based on fair value of the assets in service belonging to the concession and which will be revertible at the end of the concession, and on the Weighted average cost of capital (WACC) used by the Grantor, which reflects the concession holder's return on the operations of the concession. The VNR and the WACC are public information disclosed by the Grantor and by Cemig. The movement in Concession financial assets is shown in Note 14.

Indemnities receivable Transmission: measured at New Replacement Value (*Valor Novo de Reposição*, or VNR), according to criteria established by the Concession-granting power (Grantor), based on fair value of the assets to be indemnified as a result of acceptance of the terms of Law 12,783/13, and on the weighted average cost of capital (WACC) used by the Grantor, which reflects the concession holder's return on the operations of the concession. The VNR and the WACC are public information disclosed by the Grantor and by Cemig.

Indemnities receivable Generation:

Plants operated under the quotas regime: measured at New Replacement Value (*Valor Novo de Reposição*, or VNR), according to criteria established by the concession Grantor, based on the assets fair value to be indemnified by the termination of the concession, updated by the Selic rate as from publication of Ministerial Order 291 of August 3, 2017. More details in Note 4.

The *Miranda* and *São Simão* plants: measured at New Replacement Value (*Valor Novo de Reposição*, or VNR), based on Company's estimates to be used after such amount be authorized by Aneel.

Cash investments: The fair value of cash investments is calculated taking into consideration the market prices of the security, or market information that makes such calculation possible, and future rates in the fixed income and FX markets applicable to similar securities. The market value of the security is deemed to be its maturity value discounted to present value by the discount factor obtained from the market yield curve in Reais.

Put options: The Company adopted the Black-Scholes-Merton method for measuring the fair value of the SAAG, RME, Lepsa and Sonda options. The fair value of these options was calculated based on the estimated exercise price on the day of exercise of the option, less the fair value of the underlying shares, also estimated for the date of exercise, and brought to present value at the reporting date. The movement in relation to the put options, and other information, is given in Note 14.

Swap transactions: The fair value of the swap transactions was calculated based on the security market value at the due date brought to present value using discount factor from the market yield curve in Reais.

Other financial liabilities: The Company has calculated the fair value of its loans, financings and debentures using 146.5% of the CDI rate based on its most recent borrowings. For the loans, financings and debentures, and debt renegotiated with Forluz, with annual rates between IPCA + 4.70% to 8.07% and CDI + 0.69% to 5.62%, the Company considered fair value to be substantially equal to book value.

31. OPERATING SEGMENTS

The operating segments of the Company and its subsidiaries reflect their management and their organizational structure, used to monitoring its results and are aligned with the regulatory framework of the Brazilian electricity sector, with different legislation for the sectors of generation and transmission of electric energy.

The Company also operates in the markets of gas and telecommunications, through its subsidiaries Gasmig and Cemig Telecom (see Note 1), and other businesses which are not material to its results of its operations. These segments are reflected in the Company's management, organizational structure, and monitoring of results.

The tables below show segment information for March 31, 2018 and 2017:

32. NON-CASH TRANSACTIONS

For the three-months periods ended on March 31, 2018 and 2017, the Company and subsidiaries have the following transactions not involving cash, which are not reflected in the Cash flow statement:

Capitalized borrowing costs of R\$8,272 for the first quarter of 2018 (R\$22,351 for the first quarter of 2017);

Except for the balance of cash and equivalents received in the absorption of Cemig Telecom, in the amount of R\$ 428, in first quarter 2018 the remaining balances merged have no effect on the Company's cash flow.

33. SUBSEQUENT EVENTS

Advanced payment for future energy supply

On April and May of 2018, Cemig GT made advanced payments of R\$ 54,200 to its jointly controlled investee Renova, in relation to future energy supply becoming due between September 30, 2018 and February 2019. These advances are adjusted to present value at a rate of 155% of the CDI (Interbank Rate for Interbank Certificates of Deposit or *Certificados de Depósito Inter-bancário* - *CDIs*).

Issuance of Commercial Promissory Notes

In May 2018, Cemig D issued Commercial Promissory Notes in the amount of R\$400 million, due on October 24, 2019 and bears interest of 151% of the CDI Rate (Interbank Rate for Interbank Certificates of Deposit or *Certificados de Depósito Inter-bancário* - *CDIs*), which will be paid on the maturity date. The resources will be used to recompose Company's cash, due to the payment of the issuance of debentures and enhancing working capital.

Annual General Shareholders Meeting

On April 30, 2018, the Annual General Meeting approved the statutory financial statements of the Company as of December 31, 2017, and the allocation of retained earnings and net income for the year of 2017, as proposed by the Board of Directors.

CONSOLIDATED RESULTS**(Thousands of Brazilian Reais R\$ except where otherwise indicated)***Annex A Net income (loss) for the period*

On the first quarter of 2018 (**1Q18**) Cemig reports net income of R\$ 464,595, which compares with its net income of R\$ 342,734 in first quarter 2017 (**1Q17**). The following notes describe the main variations in revenues, costs, expenses and financial items.

Ebitda (earnings before interest, tax, depreciation and amortization)

Cemig's consolidated Ebitda in 1Q18 was 8.47% below its Ebitda of 1Q17. The most significant factors in this variation are set out below. In line with the lower Ebitda, Ebitda margin was lower, at 20.68%, in 1Q18, than in 1Q17 when it was 22.86%.

Ebitda Thousands	03/ 31/2018	03/ 31/2017	Change, %
Net income (loss) for the period	464,595	342,734	35.56
+ Income tax and Social Contribution tax	171,617	163,389	5.04
+ Finance Income (expenses)	157,800	392,746	(59.82)
+ Depreciation and amortization	212,991	201,365	5.77
= Ebitda	1,007,003	1,100,234	(8.47)

Ebitda is a non-accounting measure prepared by the Company, reconciled with the consolidated Interim financial information in accordance with CVM Circular SNC/SEP 1/2007 and CVM Instruction 527 of October 4, 2012. It comprises Net income adjusted by the effects of net Finance income (expenses), Depreciation and amortization, and Income tax and Social Contribution tax. Ebitda is not a measure recognized by Brazilian GAAP nor by IFRS; it does not have a standard meaning; and it may be non-comparable with measures with similar titles provided by other companies. Cemig publishes Ebitda because it uses it to measure its own performance. Ebitda should not be considered in isolation or as a substitution for net income or operational income, nor as an indicator of operational performance or cash flow, nor to measure liquidity nor the capacity for payment of debt.

Revenue from supply of electricity

Total revenue from sales of electricity in 1Q18 totaled R\$ 5,397,905, compared to R\$ 5,771,613 in 1Q17, or 6.47% lower period-on-period.

Final customers

Total revenue from supply of energy to final customers, excluding Cemig's own consumption, was R\$ 4,733,392 in 1Q18 this was 7.60% lower than the figure for 1Q17, of R\$ 5,122,632.

The main factors for this reduction were:

The annual tariff adjustment for Cemig D, effective May 28, 2017 (full effect in 2018) with average *downward* effect on customer tariffs of 10.66%.

Volume of energy sold was 0.50% lower.

Higher revenues from the Flag tariff, which were R\$ 116,772 in 1Q18, compared to R\$ 29,258 in 1Q17. This mainly reflects the low level of reservoirs, activating the Red Flag additional tariff rate in December 2017, with effect in January 2018, leading to higher revenue in 2018.

Cemig's electricity market

The total sales at Cemig's consolidated electricity market comprises sales to: (I) Captive customers in Cemig's concession area in the State of Minas Gerais; (II) Free Customers in both the State of Minas Gerais and other States of Brazil, in the Free Market (*Ambiente de Contratação Livre*, or ACL); (III) other agents of the electricity sector traders, generators and independent power producers, also in the Free Market; (IV) Distributors, in the Regulated Market (*Ambiente de Contratação Regulada*, or ACR); and (V) the Wholesale Power Exchange (*Câmara de Comercialização de Energia Elétrica*, or CCEE) eliminating transactions between companies of the Cemig Group).

The table and comments below describe Cemig's market by category of customers, comparing 1Q18 with 1Q17:

(1) Includes Regulated Market Electricity Sale Contracts (CCEARs) and bilateral contracts with other agents. We highlight the volume of electric power sold to the *industrial* customer category, which was 5.29% lower, basically due to customers leaving the status of captive customer to become customers in the Free Market.

The volume sold to the rural customer category was also down 4.13% period-on-period, due to the higher rainfall in 1Q18, resulting in less use of electricity for irrigation.

On the other hand, consumption by public lighting was up 2.67% period-on-period, and consumption by public services was up by 2.26% period-on-period, reflecting the addition of new customer units.

Revenue from Use of Distribution Systems (the TUSD charge)

This is revenue from charging Free Customers the Tariff for Use of the Distribution System (*Tarifa de Uso do Sistema de Distribuição*, or TUSD) on the volume of energy distributed. In 1Q18 this revenue was R\$ 373,741, compared to R\$ 463,049 in 1Q17 a period-on-period reduction of 19.29%.

This change is mainly due to the reduction of approximately 40% in the TUSD which took place in the 2017 Annual Tariff Adjustment, applied as from May 28, 2017.

CVA and Other financial components in tariff adjustment

In its interim financial information Cemig recognizes the difference between actual non-controllable costs (in which the CDE, and electricity purchased for resale, are significant components) and the costs that were used in calculating tariffs. The amount of this difference is passed through to the clients in Cemig D's next tariff adjustment – in 1Q18 this represented a gain in revenue of R\$ 441,156, whereas in 1Q17 it produced a reduction of R\$ 302,602. The difference in this case is mainly due to the increase in costs of energy in 2018, in relation to tariff coverage, and in comparison to the previous period, generating a financial asset to be reimbursed to the Company through the next tariff adjustment.

For more details please see Note 14 of these Interim Financial Information.

Transmission concession revenue

Cemig GT's revenue from transmission comprises the sum of the revenues from all the transmission assets. The concession contracts establish the Permitted Annual Revenue (Receita Anual Permitida, or RAP) for the assets of the existing system, updated annually based on the variation in the IPCA index. Whenever there is a strengthening, improvement or adaptation to an existing asset made under a specific authorization from Aneel, an addition is made to the RAP.

This revenue was R\$ 100,991 in 1Q18, compared to R\$ 92,500 in 1Q17 – or 9.18% higher period-on-period. This variation arises basically from the inflation adjustment of the annual RAP, which was applied in July 2017, plus the new revenues related to the investments authorized to be included. It includes an additional adjustment for expectation of cash flow from financial assets, arising from change in the fair value of the Regulatory Remuneration Asset Base (BRR).

The percentages and the indices applied in this adjustment vary according to the concessions. In 2017 the adjustment was 3.59% (the IPCA index) for the concession of Cemig GT, and 1.57% (the IGP-M Index) for the concession of Cemig Itajubá.

Transmission indemnity revenue

In 1Q18 this revenue was R\$ 49,841, compared to R\$ 65,830 in 1Q17.

The Company reports the updating of the amount of indemnity receivable based on the average regulatory cost of capital, as specified in the sector regulations.

For more details please see Note 14 of these Interim Financial Information.

Generation indemnity revenue

In 1Q18 the Company recognized revenue of R\$ 17,245 for the adjustment to the balance not yet amortized of the concessions for the *São Simão* and *Miranda* Hydroelectric Plants, as per Ministerial Order 291/17. For more details see Note 4 of these Interim Financial Information.

Revenue from transactions in the Wholesale Power Exchange (CCEE)

Revenue from transactions in electricity on the CCEE in 1Q18 was R\$ 134,327, compared to R\$ 226,648 in 1Q17 a reduction of 40.73%. The lower revenue from this source reflects the lower quantity of energy available for settlement in the wholesale market in 2018, in spite of the average Spot Price (PLD) being 32.56% higher (R\$ 201.06/MWh in 1Q18, vs. R\$ 151.67/MWh in 1Q17).

Revenue from supply of gas

Cemig reports revenue from supply of gas totaling R\$ 428,071 in 1Q18, compared to R\$ 410,541 in 1Q17 4.27% higher than prior year. The volume of gas sold was 11.10% lower than prior year in 1Q18, at 264,226 m³, compared to 297,226 m³ in 1Q17 we associate the lower volume with the increases in tariffs.

Construction Revenue

Distribution Infrastructure Construction Revenue in 1Q18 was R\$ 177,860, which was 11.32% less than in 1Q17 (R\$ 200,559). This revenue is fully offset by Construction costs, of the same amount, and corresponds to the Company's investments in assets of the concession in the period.

Other operating revenues

The Company's other operating revenues in 1Q18 was R\$ 462,113, or 32.84% more than in 1Q17 (R\$347,869). See Note 25 of this Interim Financial Information for a breakdown of financial revenues and expenses.

Sector / Regulatory charges reported as Deductions from revenue

The charges that are recorded as deductions from operational revenue totaled R\$ 2,713,992 in 1Q18, or 6.69% more than in 1Q17 (R\$ 2,543,810).

The Energy Development Account – CDE

The amounts of payments to the Energy Development Account (CDE) are decided by an Aneel Resolution. The purpose of the CDE is to cover costs of concession indemnities, tariff subsidies, and the subsidy for balanced tariff reduction, the low-income customer subsidy, the coal consumption subsidy, and the Fuels Consumption Account (CCC). Charges for the CDE in 1Q18 were R\$ 587,855, compared to R\$ 443,621 in 1Q17.

This is a non-manageable cost: the difference between the amounts used as a reference for setting of tariffs and the costs actually incurred is compensated for in the subsequent tariff adjustment.

Customer charges – the Flag Tariff system

There was an increase in the customer charges related to the Flag tariff system: the figure for these charges in 1Q18 was R\$ 116,772, compared to R\$ 29,258 in 1Q17. This reflects the low level of reservoirs, activating the Red Flag additional tariff rate in December 2017, with effect in January 2018, leading to higher collection of revenue.

Other taxes and charges on revenue

The deductions and charges with the most significant impact on revenue are mainly taxes, calculated as a percentage of sales revenue. Thus, their variations arise, substantially, from the changes in revenue.

Operating costs and expenses (excluding Finance income/expenses)

Operating costs and expenses in 1Q18 totaled R\$ 4,198,292, or 6.46% more than in 1Q17 (R\$ 3,943,702). For more on the components of Operational costs and expenses see Note 26.

The following paragraphs outline on the main variations in expenses:

Electricity purchased for resale

This expense in 1Q18 was 8.15% higher than prior year, at R\$ 2,263,693, compared to R\$ 2,093,088 in 1Q17. This reflects an average volume of energy purchased 19.93% higher period-on-period in 1Q18, at 5,305,723 MWh, vs. 4,423,976 MWh in 1Q17, with an offsetting effect from the average price per MWh 9.37% lower period-on-period (at R\$ 149.92 in 1Q18, vs. R\$ 165.42 in 1Q17).

Charges for Use of the Transmission Network

Charges for use of the transmission network in 1Q18 totaled R\$ 392,542, an increase of 90.10% period-on-period, compared to R\$ 206,497 in 1Q17.

This expense is payable by electricity distribution and generation agents for use of the facilities that are components of the national grid. The amounts to be paid are set by an Aneel Resolution. The higher amounts in 2018 are due to increased transmission costs related to the payment of the transmission indemnities to the agents of the electricity sector that accepted the terms of Law 12,783/13.

This is a non-manageable cost: the difference between the amounts used as a reference for calculation of tariffs and the costs actually incurred is compensated for in the subsequent tariff adjustment.

Operating provisions

Operating costs and expenses in 1Q18 totaled R\$ 133,207, or 36.12% less than in 1Q17 (R\$ 208,532). The main factors are:

Variation in fair value of the investment options related to Parati and SAAG, totaling R\$ 38,910 in 1Q18, compared to a total provision of R\$ 62,587 in 1Q17. More details on the criteria for making of these provisions are in Note 29 (*Put options*).

The provisions for labor contingencies was 73.06% lower, at R\$ 17,054 in 1Q18, compared to R\$ 63,306 in 1Q17. This basically reflects higher values provisioned in the previous period mainly relating to actions challenging the basis for calculation of rates for hazardous work, and equality of payment for allegedly unlawful outsourcing, and also cases claiming subsidiary and joint liability. For more information see Note 23.

Personnel

The expense on personnel in 1Q18 was R\$ 331,664, or 13.00% lower than in 1Q17 (R\$ 381,208). In spite of the wage increase of 1.83% as from November 2018, under the Collective Wage Agreement, the negative variation mainly reflects a reduction in headcount, of 17.66% period-on-period: the average number of employees in 1Q18 was 5,855, vs. 7,111 in 1Q17.

Construction cost

Construction revenue in 1Q18 was R\$ 180,669, or 9.92% less than in 1Q17 (R\$ 200,559). This line records the Company's investment in assets of the concession in the period, and is fully offset by the line Construction Revenue, in the same amount.

Gas purchased for resale

In 1Q18 the Company recorded an expense of R\$ 263,233 on acquisition of gas, 18.30% more than its comparable expense of R\$ 222,512 in 1Q17. This higher expense mainly reflects increases in the prices of gas purchased, since the volume of gas purchased for resale was lower (263,242 m³ in 1Q18, vs. 293,105 m³ in 1Q17).

Equity in earnings of unconsolidated investees

The result of equity method valuation of interests in investees was a gain of R\$ 56,874 in 1Q18, compared to a gain of R\$ 29,641 in 1Q17. Note 15 gives the breakdown of the results of the investees posted in this line. The main variations from previous year are in the results of Taesa and Light.

Net finance income (expenses)

Cemig reports net finance expenses in 1Q18 of R\$ 157,800, compared to net finance expenses of R\$ 392,746 in 1Q17. The main factors are:

Lower cash investment income: R\$ 23,727 in 1Q18 compared to R\$ 64,830 in 1Q17 – 63.40% lower period-on-period. This basically reflects the lower CDI rate in the year (1.59% in 1Q18, vs. 2.98% in 1Q17) the main indexer for yield on cash investments, and also the lower volume of cash available for investment in 2018.

Gains of R\$ 97,516 on financial instruments in 1Q18, due to the adjustment to fair value of a swap relating to dollar-indexed funding raised (Eurobonds) in 4Q17. (For more information see Note 29.)

Lower cost of loans and financings: Lower borrowing costs on loans and financings: R\$ 294,965 in 1Q18, vs. R\$ 461,421 in 1Q17 – i.e. 36.07% lower. This basically reflected the lower variation resulting from the CDI rate in 2018 – the main indexer of the debt.

For a breakdown of financial revenues and expenses please see Note 27 of these Interim financial information.

Income and Social Contribution taxes

In 1Q18, the expense on income tax and the Social Contribution tax totaled R\$ 171,617, on pre-tax income of R\$ 636,212, an effective rate of 26.97%. In 1Q17, the expense on income tax and the Social Contribution tax totaled R\$ 163,389, on pre-tax income of R\$ 506,123, representing an effective rate of 32.28%. These effective rates are reconciled with the nominal tax rates in Note 9.

OTHER INFORMATION THAT THE COMPANY BELIEVES TO BE MATERIAL

The Board of Directors

The Audit Committee

Our Audit Board (see below) has attributions and duties specified in the Brazilian Corporate Law (Law 6404). In addition to these, in relation to the requirements of the Sarbanes-Oxley Law, to which we are subject due to our shares being registered with the US Securities and Exchange Commission (SEC – the capital markets regulator of the United States), we opted to exercise the exemption allowed by rule 10-3A of the Exchange Act regulated by SEC Release 82-1234, which accepts the activity of the Audit Board as an alternative to the Audit Committee specified by the Sarbanes-Oxley law.

The Executive Board

The Executive Board is made up of eleven members whose individual functions are set by the company's by-laws. They are elected, and may be dismissed at any time, by the Board of Directors for periods of office of three years. They may also be re-elected.

Members are allowed simultaneously also to hold non-remunerated positions in the management of wholly-owned subsidiaries, subsidiaries or affiliates of Cemig, upon decision by the Board of Directors. They are also, obligatorily, members, with the same positions, of the Boards of Directors of Cemig GT (Generation and Transmission) and Cemig D (Distribution).

The period of office of the present Chief Officers expires at the first meeting of the Board of Directors held after the Annual General Meeting of 2018.

The members of the Executive Board and brief résumés are on our website: <http://ri.cemig.com.br>

The members of the Executive Board (the Company's Chief Officers) have individual responsibilities established by the Board of Directors and the by-laws. These include:

Current management of the company's business, complying with the by-laws, the Long-term Strategic Plan, the Multi-year Strategic Implementation Plan and the Annual Budget.

Decision on any disposal of goods, loans or financings, pledge of the company's property, plant or equipment, or guarantees to third parties or other legal acts or transactions, with value of less than R\$ 17.355.

The Executive Board normally meets weekly. It held 12 meetings in the three months to March 31, 2018.

The Audit Board

Meetings

Five meetings have been held in 2018 up to March 31.

Membership, election and period of office

We have a permanent Audit Board, made up of five sitting members and their respective substitute members. They are elected by the Annual General Meeting of Shareholders, for periods of office of one year, and may be reelected. They comprise:

- one member elected by the holders of the preferred shares;
- one member elected by holders of at least 10% of the common shares outside the controlling group; and
- three members elected by the majority shareholder.

The members of the Audit Board are listed on our website: <http://ri.cemig.com.br>

Principal responsibilities and duties:

- As well as the attributions specified by Law 6,404 of December 15, 1976, as amended, in relation to the Sarbanes-Oxley law, to which we are subject due to our shares being registered with the Securities and Exchange Commission (SEC – the capital markets regulator of the United States), we opted to exercise the exemption allowed by Rule 10-3A of the Exchange Act, regulated by SEC Release 82-1234, which accepts the activity of the Audit Board as an alternative to the Audit Committee as defined by the Sarbanes-Oxley Law.

Qualification and remuneration

The Audit Board is a multi-disciplinary body, made up of members with various competencies (in accounting, economics, business administration, and other areas). The remuneration of the members of the Audit Board shall be set by the General Meeting of Shareholders which elects it, in accordance with the legislation from time to time in force.

Résumé information on its members is on our website: <http://ri.cemig.com.br>.

The Sarbanes-Oxley Law

Cemig obtained the first certification of its internal controls for mitigation of risks involved in the preparation and disclosure of the financial statements, issued in accordance with Section 404 of the Sarbanes-Oxley Law and the rules of the Public Company Accounting Oversight Board (PCAOB), which is included in the annual 20 F Report relating to the business year ended December 31, 2006, filed with the US Securities and Exchange Commission (SEC) on July 23, 2007.

Corporate risk management

Corporate risk management is a management tool that is an integral part of Cemig's corporate governance practices. It identifies the events that can interfere in the process of the Company achieving its strategic objectives.

The intention is to provide senior management with information for taking of decisions, thus preserving the Company's value. The practice of risk management is thus a competitive differentiation factor to be used not only defensively, but also as an opportunity for improvement. The structuring and analysis of operations from the point of view of risk management are factors that optimize investment in the control of the activity. They reduce costs, improve performance, and consequently help the Company achieve its targets.

Also, the need to put in place structural elements of the risk management system is one of the aspects that is evaluated for the Company's inclusion in indices such as the DJSI World and the ISE Corporate Sustainability Index.

Cemig's system of risk management was initially implemented in 2003, and has been constantly improved since then. A further element of the organizational structure, the Corporate Risk Management Committee (CMRC), created in 2012, has the following responsibilities: (i) to propose, for approval by the Executive Board, guidelines, policies and procedures to be adopted in the Corporate Risks Management Process, ensuring continuous improvements of the process, and arranging for it to be disseminated; (ii) to analyze and to propose to the Executive Board priority actions dealing with the risks characterized as critical, in the final exposure matrix; and (iii) to submit to the approval of the Executive Board mechanisms to make strategic monitoring operational for the corporate risks identified and effective actions to reduce financial exposure and impact on intangible assets to acceptable levels, taking into account the mitigating plans of action, which are to be in line with the Company's Long-term Strategic Plan. The CMRC meets every two months.

In 2013 a new technological platform was installed exclusively for risk management – the SAP RM (Risk Management) module. This enabled the process of mapping of risks to take place continuously, since updating of information, verifications and assessments of the controls and plans of action become scheduled tasks to be executed by the people responsible within the system itself. This results in all the agents involved in risk management having clearly specified roles and responsibilities, also minimizing costs and use of employee time for these activities and

controls. In addition, there is a flow analysis carried out by an independent group in the Company, for periodic evaluation of the controls for the purpose of auditing the effectiveness of the process.

In 2015 this platform came into full operation, generating reliable reports and providing perception of relationships between the risks that are mapped.

Several new steps were taken in 2015. The most significant of these include:

Adjustments in the standard methodology for management of risks (new model for segmentation of risks, method of quantification of impacts, and approach used in raising information, also incorporating the Top-down approach).

Review and updating of the Risk Management Policy.

Mapping of the principal corporate risks (Top Risks), and some related to Cemig's Socio-environmental Adaptation Program.

Approval by the Board of Directors of the matrix of corporate risks and of the risk appetite assumptions. In the process of the collection of the Top Risks information, a survey was made with the Company's General Managers to establish the principal subjects to be monitored, such as: Loss of concession; degree of indebtedness; liquidity; availability and reliability indicators; and omissions. This produced a matrix that expresses the joint assessment of the impact and probability of occurrence of the risk.

In particular, in relation to Cemig's socio-environmental Adaptation Program, the risks relating to the following aspects, among others, were identified: use of water, handling of vegetation, fish deaths, environmental accidents with oils/material logistics, and compliance with environmental requirements. Cemig adopts measures to mitigate and manage exposure that are aligned with the risk appetite assumptions.

In 2016 Cemig created the Compliance and Corporate Risks (GC) Management Department, under a General Manager responsible to the CEO's Office enabling a greater degree of autonomy in this work.

In risk management processes, in planning of operations and in development of new business initiatives, Cemig always acts in consideration of the precautionary principle. During planning, all the factors that might present risks to health and/or safety of employees, suppliers, clients, the general population or the environment are taken into account.

Statement of Ethical Principles and Code of Professional Conduct

Cemig's Board of Directors approved the *Cemig Statement of Ethical Principles and Code of Professional Conduct* in May 2004. It can be seen at <http://ri.cemig.com.br>. The Code aims to orient and discipline everyone acting in the name of, or interacting with, Cemig, to ensure ethical behavior at all times, and always in accordance with the law and regulations. It was updated in 2016.

Cemig's Ethics Committee was created on August 12, 2004, to coordinate all actions relating to management of the *Cemig Statement of Ethical Principles and Code of Professional Conduct*. This includes assessment of and decision on any possible non-compliances with the document.

After the Ethics Channel (*Canal de Denúncia Anônima*, as we name it) was created in December 2006, to be used only by Cemig employees and workers, the Ethics Committee began to accept anonymous reports through this

anonymous reporting channel, which is available on the company's Intranet. These reports may involve irregular practices that are contrary to the Company's interest, such as: financial fraud, including adulteration, falsification or suppression of financial, tax or accounting documents; misappropriation of goods or funds; receipt of undue advantages by managers or employees; irregular contracting; and other practices considered to be illegal.

The Ethics Committee

This was created on August 12, 2004, with three sitting members and three substitute members, and is responsible for management (interpretation, publicizing, application and updating) of the Code of Professional Conduct.

The Committee receives and analyzes all reports of violation of ethical principles and standards of conduct, that are presented in a written document and signed by the interested party, accompanied by indications of the corresponding means of proof (witnesses, documentation or other effective method). They can also be sent by email or telephone – the address and phone number are well known to all the company's employees.

Our Ethics Channel – the anonymous reporting channel on the corporate intranet that we put in place in December 2006, to receive and process accusations of irregular practices, such as financial fraud, undue appropriation of assets, receipt of irregular advantages or illegal contracting – is one more step in improving transparency, and in correcting behavior, and a support in the concept of corporate governance in the Company. As a new instrument of corporate governance it improves the management of our employees and of our business, and reaffirms our ethical principles.

Investor Relations

In 2016, through strategic actions intended to enable investors and shareholders to make a correct valuation of our businesses and our prospects for growth and addition of value, we have increased Cemig's exposure to the Brazilian and global capital markets.

We maintain a constant and proactive flow of communication with Cemig's investor market, continually reinforcing our credibility, seeking to increase investors' interest in the Company's shares, and to ensure their satisfaction with our shares as an investment.

Our results are published through presentations transmitted via video webcast and telephone conference calls, with simultaneous translation in English, always with members of the Executive Board present, developing a relationship that is increasingly transparent and in keeping with best corporate government practices.

To serve our shareholders who are spread over more than 40 countries and to facilitate optimum coverage of investors, Cemig has been present in and outside Brazil at a very large number of events, including seminars, conferences, investor meetings, congresses, roadshows, and events such as *Money Shows*; as well as holding phone and video conference calls with analysts, investors and others interested in the capital markets.

At the end of May 2017, we held our 22nd annual Meeting between Cemig and the Capital Markets in the city of Belo Horizonte, Minas Gerais where these professionals had the opportunity to interact with the Company's Directors and principal executives.

Corporate governance

Our corporate governance model is based on principles of transparency, equity and accountability, focusing on clear definition of the roles and responsibilities of the Board of Directors and the Executive Board in the formulation, approval and execution of policies and guidelines for managing the company's business.

We seek sustainable development of the Company through balance between the economic, financial, environmental and social aspects of our enterprises, aiming always to improve the relationship with our shareholders, clients, and employees, the public at large and other stakeholders.

Cemig's preferred and common shares (tickers: CMIG4 and CMIG3 respectively) have been listed at Corporate Governance Level 1 on the São Paulo Stock Exchange since 2001. This classification represents a guarantee to our shareholders of optimum reporting of information, and also that shareholdings are relatively widely dispersed. Because Cemig has ADRs (American Depositary Receipts) listed on the New York Stock Exchange, representing preferred (PN) shares (with ticker CIG) and common (ON) shares (ticker CIG.C), it is also subject to the regulations of the US Securities and Exchange Commission (SEC) and the New York Stock Exchange Listed Company Manual. Our preferred shares have also been listed on the Latibex of the Madrid stock exchange (with ticker XCMIG) since 2002.

Our by-laws include our dividend policy, and also the following targets from our Long-term Strategic Plan:

Consolidated indebtedness: limited to 2 times Ebitda;

Consolidated (Net debt) / (Net debt + Shareholders' equity): limited to 40%.

Consolidated funds in Current assets: limited to 5% of Ebitda.

Consolidated funds allocated to capital expenditure in each business year: limited to 40% of Ebitda.

Investment only in distribution, generation and transmission projects that offer real minimum internal rates of return equal to or greater than those specified in the Long-term Strategic Plan, subject to the legal obligations.

Limitation of the expenses of the subsidiary Cemig D (Cemig Distribuição S.A.), and of any subsidiary which operates in distribution of electricity, to amounts not greater than the amounts recognized in the official tariff Adjustments and Reviews.

In response to temporary situations the Board of Directors may authorize figures in excess of these standards, up to the following limits:

- Consolidated debt: maximum of 2.5 times Ebitda.
- Consolidated (Net debt) / (Net debt + Shareholders' equity): maximum of 50%.
- Consolidated funds in Current assets: maximum of 10% of Ebitda.

Report on the review of interim information ITR

To the Shareholders and Management of

Companhia Energética de Minas Gerais

Belo Horizonte MG

Introduction

We have reviewed the individual and consolidated interim financial information of Companhia Energética de Minas Gerais (Company), contained in the Quarterly Information Form (ITR) for the quarter ended March 31, 2018, which comprise the statement of financial position as at March 31, 2018 and the statements of profit or loss, of comprehensive income, of changes in equity and cash flows for the three-month period then ended, including notes to the interim financial information.

Management is responsible for the preparation of the individual and consolidated interim financial information in accordance with Accounting Pronouncement CPC 21 (R1) Interim Financial Reporting and in accordance with IAS 34 Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the fair presentation of this information in conformity with the standards issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on review of interim financial information (NBC TR 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity, and ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the individual and consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the quarterly information referred to above is not prepared, in all material respects, in accordance with CPC 21(R1) and IAS 34, applicable to the preparation of Quarterly Financial Information ITR, consistently with the rules issued by the Brazilian Securities and Exchange Commission.

Emphasis of matter

Risks related to compliance with laws and regulations

As mentioned in Note 15 to the interim financial information, the Company has indirect investments in Madeira Energia S.A., Renova Energia S.A. and Norte Energia S.A. (jointly referred to as non-controlled investees), which are accounted for under the equity method. Currently, investigations and other legal measures are being conducted by public authorities in connection with these non-controlled investees regarding certain expenditures and their allocations, which involve and also include some of their other shareholders and certain executives of these shareholders. At this point, it is not possible to forecast future developments arising from these investigation procedures by the public authorities, nor their possible effects on the Company's interim financial information. Our conclusion is not modified in respect of this matter.

Risk regarding the ability of non-controlled investee Renova Energia S.A. to continue as a going concern

As disclosed in Note 15 to the interim financial information, the non-controlled indirect investee Renova Energia S.A. has incurred recurring losses and, as at March 31, 2018, has negative net working capital. These events or conditions indicate the existence of relevant uncertainty that may raise significant doubt about its ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Other matters

Statements of value added

We have also reviewed the individual and consolidated Statements of Value Added (SVA) for the three-month period ended March 31, 2018, prepared under the responsibility of Company management, the presentation of which in the interim financial information is required by the rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of Quarterly Information (ITR), and as supplementary information under the IFRS, whereby no SVA presentation is required. These statements have been subject to the same review procedures previously described and, based on our review, nothing has come to our attention that causes us to believe that they are not consistently prepared, in all material respects, in relation to the overall accompanying interim financial

information.

Review of prior period corresponding figures

The corresponding figures, individual and consolidated, relating to the statements of profit or loss, of comprehensive income, of changes in equity, of cash flows and value added for the three-month period ended March 31, 2017, presented for comparative purposes, were reviewed by another independent auditor who issued a review report on May 15, 2017, with an unmodified conclusion on the review of the interim financial information, containing emphasis of matters on the renewal of the concessions for Jaguara, São Simão and Miranda hydroelectric plants and on the issues described above.

Trading volume in Cemig's preferred shares (CMIG4) totaled R\$ 5.26 billion in 1Q18, a daily average of R\$ 87.73 million – this is 17.33% higher than in 1Q17. Average daily trading in the common (ON) shares was R\$ 9.76 million. Cemig's shares, by volume (in the aggregate of ON and PN shares), were the second most liquid in Brazil's electricity sector in the period, and among the most traded in the whole Brazilian equity market.

On the New York Stock Exchange the volume traded in ADRs for Cemig's preferred shares (CIG) in 1Q18 was US\$ 517 million. We see this as reflecting recognition by the investor market of Cemig as a global investment option.

The São Paulo stock exchange Ibovespa index rose 11.7% in the quarter, closing the quarter at 85,366 points. Cemig's shares significantly outperformed the principal Brazilian stock index and also the electricity sector index: the common (ON) shares rose 22.0% in the quarter, and the preferred (PN) shares rose 24.6%. The ADRs for Cemig's preferred shares, traded in New York, rose 25.20% in 1Q18.

Cemig's consolidated electricity market

The Cemig Group sells electric power supply through its distribution company, Cemig Distribuição (Cemig D), its generation and transmission company, Cemig Geração e Transmissão (Cemig GT), and other wholly-owned subsidiaries: Horizontes Energia, Sá Carvalho, Cemig PCH, Rosal Energia, Cemig Geração Camargos, Cemig Geração Itutinga, Cemig Geração Salto Grande, Cemig Geração Três Marias, Cemig Geração Leste, Cemig Geração Oeste, and Cemig Geração Sul.

This market comprises sales of electricity to:

- (I) captive consumers in Cemig's concession area in the State of Minas Gerais;
- (II) Free Clients in the Free Market (*Ambiente de Contratação Livre* or ACL), located in Minas Gerais or in other States;
- (III) other agents in the electricity sector, in the Free Market trading companies, generation companies, traders and independent power producers; and
- (IV) distributors, in the Regulated Market (*Ambiente de Contratação Regulada*, or ACR).

In 1Q18 the Cemig group sold a total volume of 12,953,601 MWh, which was 2.3% less than in 1Q17.

Sales of electricity to final consumers, plus Cemig's own consumption, totaled 10,320,802 MWh, or 0.5% less than in 1Q17.

Sales to distributors, traders, other generating companies and independent power producers in 1Q18 totaled 2,632,799 MWh or 9.0% less than in 1Q17.

In March 2018 the Cemig group invoiced 8,367,920 clients a growth of 1.0% in the consumer base in the year since March 2017. Of these, 8,367,519 were final consumers (including Cemig's own consumption), and 401 were other agents in the Brazilian power industry.

This chart shows the breakdown of the Cemig Group's sales to final consumers in the year, by consumer category:

The electricity market of Cemig D

Electricity billed to captive clients and electricity transported for Free Clients and distributors with access to Cemig D's networks totaled 10,849,763 MWh in 1Q18, or 3.0% more than in 2017.

The reduction has two components: consumption by the captive market 0.7% lower YoY, and use of the network by Free Clients 8.5% higher YoY.

In March 2018 Cemig billed 8,366,618 consumers, or 0.98% more than in March 2017. Of this total, 1,052 are Free Consumers using the distribution network of Cemig D.

Comments on the various consumer categories:

Residential

Consumption by captive residential users of Cemig D in 1Q18, at 2,593,117 MWh, was 2.2% more than in 1Q17. Average monthly consumption per consumer in 1Q18 was 127.4 kWh/month, or 1.3% more than in 1Q17 (125.8 kWh/month).

The increase in residential consumption is attributable to:

addition of 63,513 new consumer units;

Indications of recovery of the economy of Minas Gerais State, such as the growth in average real income (1.6%) year-on-year in 1Q18 according to data from FIEMG

Industrial

Electricity used by captive clients was 5.6% of the volume of electricity distributed by Cemig D, and totaled 612,077 MWh in 1Q18 a reduction of 5.0% compared to 1Q17.

Electricity transported for Free Clients was 39.4% of the volume of electricity distributed by Cemig D, totaling 4,271,693 MWh in 1Q18, or 7.6% more than in 1Q17 reflecting growth in Metallurgy and Ferro-alloys (21.8%) and in mining (15.1%).

The lower consumption in the captive market mainly reflects consumer disconnection and also consumers migration to the Free Market.

In this category there was a slight improvement in some economic indicators related to production. According to FIEMG¹, in 1Q18 industrial capacity utilization was 1.6 percentage points higher in 1Q18, at 78.6%, than in 1Q17 (77.0%) although this is still below its historic average (83.2%). Also, sales volume was up 4.4%, year-on-year, in real terms, in the quarter and the best YoY comparison (up 7.5%) for a first quarter since 2011.

Commercial

Consumption by the *commercial* category of Cemig D's captive market totaled 1,351,365 MWh in 1Q18. This is associated with a reduction of 4.1% in the volume of energy billed to captive consumers, and growth of 28.9% in the volume of energy transported for free clients.

The reduction in the captive market is connected with the migration of clients to the free market. The increased consumption in the Free Market mainly reflects the addition of 172 new consumption units.

Both markets (captive and free) are affected by the increase in commercial activity compared to 2017 illustrated, for example, by sales of Minas Gerais retailers being 5.2% higher in January and February 2018 than in the same two months of 2017. In the services sector, consumption was 3.0% lower on the same comparison².

Rural

Consumption by captive clients in the *rural* category, totaling 765,502 MWh in 1Q18, was 4.13% lower than in 1Q17; consumption for irrigation was 19.4% lower; and consumption by conventional farming was 4.0% higher, YoY.

These figures reflected the higher rainfall in 1Q18 than 1Q17.

The electricity market of Cemig GT

Cemig GT billed a total of 6,326,036 MWh in 1Q18, or 5.5% more than in 1Q17.

The number of clients billed by Cemig GT was 15.4% higher than at the end of March 2017, totaling 1,248. Of these: 1,179 were industrial, commercial and rural clients, 49 were distribution companies, and 20 were companies in the category of traders, generators and independent power producers.

Free Clients in the industrial, commercial and rural consumer categories consumed 3,705,165 MWh in 1Q18, or 58.6% of the total volume of energy provided by Cemig GT, and 2.0% less than in 1Q17.

This lower total reflects consumption by industrial clients 8.0% lower:

(i) A large part of the reduction can be attributed to reduction of client sales contracts for example, repurchase of contracted supply from a large consumer;

(ii) and some contracts were not renewed due to unavailability of supply at competitive prices.

Between the end of 1Q17 and the end of 1Q18 Cemig GT added 7 new industrial clients, and 149 clients in the Commercial and Services category in the latter category the year-on-year increase in consumption was 36.8%.

Trading of electricity to other agents in the electricity sector in the Free Market totaled 1,989,515 MWh in 1Q18, 12.0% less than in 1Q17.

Sales of energy in the Regulated Market, including those to Cemig D, totaled 631,356 MWh in 1Q18, or 3.0% less than in 1Q17, due to differences in seasonal characteristics of distributors contracts between the two periods.

QUALITY INDICATORS DEC / DECI and FEC / FECI

Cemig is continuously taking action to improve operational management, organization of the logistics of emergency services, and its permanent regime of inspections and preventive maintenance of substations, lines and distribution networks. It also invests in training of its staff for improved qualifications, state-of-the-art technologies, and standardization of work processes, aiming to uphold the quality of electricity supply, and as a result maintain the satisfaction of clients and consumers.

The charts below show Cemig's indicators for duration and frequency of outages DEC and FEC, since January 2016.

DEC Average outage duration experienced by consumer hours/consumer/month

Internal DEC Average consumer outage duration due to factors internal to concession holder hours/consumer/month

FEC Average outage frequency experienced by consumer outages/consumer/month

Internal FEC Average outage frequency experienced by consumer due to factors internal to concession holder outages/consumer/month

Consolidated operational revenueRevenue from supply of electricity:

Total revenue from supply of electricity in 1Q18 was R\$ 5,397,905, 6.47% lower than in 1Q17 (R\$ 5,771,613).

Final consumers

Total revenue from electricity sold to final consumers, excluding Cemig's own consumption, in 1Q18 was R\$ 4,733,392, or 7.60% less than in 1Q17 (R\$ 5,122,632).

The main factors in this revenue were:

The annual tariff adjustment for Cemig D, effective May 28, 2017 (full effect in 2018) with average *downward* effect on consumer tariffs of 10.66%.

Volume of electricity sold 0.50% lower.

Higher revenues under the Flag Tariffs R\$ 116,772 in 1Q18, vs. R\$ 29,258 in 1Q17. This reflects the low level of reservoirs, activating the Red Flag additional tariff rate in December 2017, taking effect in January 2018, leading to higher revenue in 2018.

Revenue from Use of the Distribution System (the TUSD charge)

This is revenue from charging Free Consumers the Tariff for Use of the Distribution System (*Tarifa de Uso do Sistema de Distribuição*, or TUSD). In 1Q18 this revenue was R\$ 373,741, a reduction of 19.29% from R\$ 463,049 in 1Q17.

This is basically the result of the TUSD being reduced by 40% in the annual tariff adjustment of 2017, effective from May 28, 2017 (full effect in 2018) partially offset by growth in use of the network by Free Clients.

CVA and Other financial components in tariff adjustment

In its interim accounting information Cemig recognizes the difference between actual non-controllable costs (in which the CDE, and electricity bought for resale, are significant components) and the costs that were used in calculating rates charged to consumers. The amount of this difference is passed through to clients in Cemig's next tariff adjustment. In 1Q18 this represented a gain in revenue of R\$ 441,156, whereas in 1Q17 it produced a reduction of R\$ 302,602. The difference in this case is mainly due to the increase in costs of energy in 2018, in relation to tariff coverage, and in comparison to the previous year, generating a financial asset to be reimbursed to the Company through the next tariff adjustment.

Transmission concession revenue

Cemig GT's revenue from transmission comprises the sum of the revenues from all the transmission assets. The concession contracts establish the Permitted Annual Revenue (*Receita Anual Permitida*, or RAP) for the assets of the existing system, updated annually based on the variation in the IPCA index. Whenever there is a strengthening, improvement or adaptation to an existing asset made under a specific authorization from Aneel, an addition is made to the RAP.

This revenue was R\$ 100,991 in 1Q18, compared to R\$ 92,500 in 1Q17 – a year-on-year increase of 9.18%. This variation arises basically from the inflation-adjustment of the annual RAP, which was applied in July 2017, plus the new revenues related to the investments authorized to be included. It includes an additional adjustment for expectation of cash flow from financial assets, arising from change in the fair value of the Regulatory Remuneration Base of Assets (BRR). The percentages and the indices applied in this adjustment vary according to the concessions. In 2017

the adjustment was 3.59% (the IPCA index) for the concession of Cemig GT, and 1.57% (the IGP-M Index) for the concession of Cemig Itajubá.

Transmission indemnity revenue

In 1Q18 this revenue was R\$ 49,841, compared to R\$ 65,830 in 1Q17. The Company reports the updating of the amount of indemnity receivable based on the average regulatory cost of capital, as specified in the sector regulations.

Adjustment of the BRR of Transmission Assets Aneel Technical Note 183/2017

In the tariff review processes of Cemig GT, ratified on June 23, 2009 (backdated to July 1, 2005) and June 8, 2010 (backdated to July 1, 2009), certain conducting cables, which have been the subject of an application by the Company, were not included in the tariff calculation. Cemig GT applied for inclusion of these assets in the BRR (Remuneration Assets Base) and, consequently, for backdated calculation of the amounts not considered in the prior tariff reviews.

Aneel ruled in favor of the Company's application, and calculated the differences between the amounts of revenue ratified in the tariff reviews referred to above and the new values calculated for inclusion of the said conducting cables in the Remuneration Assets Base for the period from July 2005 to December 2012. Updated, these amounts were calculated to total R\$ 149,255, at June 2017 prices, to be received by Cemig GT in 12 months, via RAP. On March 31, 2018 the balance receivable was R\$ 37,313 (R\$ 74,627 on December 31, 2017).

Indemnity of transmission assets injunction awarded to industrial consumers

On April 10, 2017, an interim court remedy was granted to the Brazilian Large-scale Free Consumers Association (*Associação Brasileira de Grandes Consumidores Livres*), the Brazilian Auto Glass Industry Technical Association (*Associação Técnica Brasileira das Indústrias Automáticas de Vidro*) and the Brazilian Ferro-alloys and Silicon Metal Producers Association (*Associação Brasileira dos Produtores de Ferroligas e de Silício Metálico*) in their legal action against Aneel and the federal government requesting suspension of the effects on their tariffs of payment of the indemnity for transmission assets payable to agents of the electricity sector who accepted the terms of Law 12783/2013.

The preventive remedy was partial, with effects related to suspension of the inclusion in the consumer tariffs paid by these associations of the portion of the indemnity corresponding to the remuneration at cost of capital included since the date of extension of the concessions – this amounts to R\$ 321,669, at March 31, 2018.

Complying with the court decision, Aneel, in its Technical Note 183/201-SGT/ANEEL of June 22, 2017, presented the new calculation, excluding the amounts that refer to the cost of own capital. Cemig GT believes that this is a provisional decision, and that its right to receive the amount referring to the assets of the basic national grid system (*Rede Básica Sistema Elétrico*, or RBSE) is guaranteed by law, so that no adjustment to the amount posted at March 31, 2018 is necessary.

Remaining balance to be received through RAP

The remaining balance, of R\$ 521,028 at March 31, 2018 (R\$ 544,471 at Dec. 31, 2017), was incorporated into the Remuneration Assets Base, and is being recovered via RAP.

Cemig GT expects to receive in full the credits receivable in relation to the transmission indemnity, and has calculated the following amounts as indemnity:

Generation indemnity revenue

In 1Q18 the Company recognized revenue of R\$ 17,245 for the adjustment to the balance not yet amortized of the concessions for the *São Simão* and *Miranda* hydroelectric plants, as per Ministerial Order 291/17.

Plants operated under the Quotas regime as from January 1, 2016

As from August 2013, there were expiry dates of the concessions for various plans operated by Cemig GT under Concession Contract 007/1997. As from the termination of the concession, Cemig GT held the right to indemnity of the assets not yet amortized, as specified in that concession contract. The accounting balances corresponding to these assets, including the Deemed Cost, are recognized in Financial assets. Their total at March 31, 2017 was R\$ 816,411.

As specified in Aneel Normative Resolution 615/2014, the valuation opinions of indemnity for the plants, previously operated by Cemig GT, that were included in Lot D and for the Volta Grande plant have been delivered to Aneel. The Company and its subsidiaries do not expect losses on realization of these assets.

On December 31, 2017, investments made after the *Jaguara*, *São Simão* and *Miranda* plants came into operation, in the amounts of R\$ 174,203, R\$ 2,920 and R\$ 22,546, respectively, are classified in Financial assets of the concession,

and the decision on the final amounts to be indemnified is in a process of discussion with Aneel. The management of the Company and its subsidiaries do not expect losses in realization of these amounts.

Revenue from transactions in the Wholesale Trading Market (CCEE)

Revenue from transactions in electricity on the CCEE in 1Q18 was R\$ 134,327, compared to R\$ 226,648 in 1Q17 a reduction of 40.73% year-on-year. The lower revenue from this source reflects the lower quantity of energy available for settlement in the wholesale market in 2018, in spite of the average Spot Price (PLD) being 32.56% higher (R\$ 201.06/MWh in 1Q18, vs. R\$ 151.67/MWh in 1Q17).

Revenue from supply of gas

Cemig reports revenue from supply of gas 4.27% higher YoY in 1Q18, at R\$ 428,071, compared to R\$ 410,541 in 1Q17. This basically is the result of increases in tariffs since the volume of gas sold was 11.10% lower in 1Q18, at 264,226m³, compared to 297,226m³ in 1Q17 we associate the lower volume with the increases in tariffs.

Sales to thermal generation plants were significantly lower in 1Q18, due to lower dispatching of thermal plants in the period.

Supply of gas to the residential market, which began in 2013, totaled 33,055 households invoiced in March 2018 compared to 17,979 in March 2017.

Sector/regulatory charges reported as Deductions from revenue

The total of these taxes and charges reported as deductions from revenue in 1Q18 was R\$ 2,713,992 or 6.69% higher than in R\$ 2,543,810 in 1Q17.

Consumer charges the Flag Tariff system

There was an increase in the consumer charges related to the Flag tariff system: the figure for 1Q18 was R\$ 116,772, compared to R\$ 29,258 in 1Q17. This reflects the low level of reservoirs, activating the Red Flag additional tariff rate in December 2017, taking effect in January 2018.

Operational costs and expenses

Operational costs and expenses totaled R\$ 4,198,293 in 1Q18, or 6.46% higher than in 1Q17 (R\$ 3,943,702).

The following paragraphs comment on the main variations:

Electricity purchased for resale

The expense on electricity bought for resale in 1Q18 was R\$ 2,263,693 or 8.15% more than in 1Q17 (R\$ 2,093,088). The main factors in the higher figure are:

Cemig D:

The expense on electricity bought for resale in 1Q18 was R\$ 1,485,293, or 7.73% more than in 1Q17 (R\$ 1,378,708).

Cemig GT:

The expense on electricity bought for resale in 1Q18 was R\$ 795,414, or 8.33% more than in 1Q17 (R\$ 734,282). This reflects an average volume of energy purchased 19.93% higher YoY in 1Q18, at 5,305,723 MWh, vs. 4,423,976 MWh in 1Q17, with an offsetting effect from the average price per MWh 9.68% lower YoY (at R\$ 149.92 in 1Q18, vs. R\$ 165.42 in 1Q17).

Operating provisions

Operational provisions were 36.12% lower year-on-year in the quarter at R\$ 133,207 in 1Q18, compared to R\$ 208,532 in 1Q17. The main factors are:

Variation in fair value of the investment options related to Parati/RME and SAAG, in the amount of R\$ 38,991 in 1Q18, compared to a total provision of R\$ 62,587 in 1Q17. The following is a summary of the balances in the options held by the Company:

Consolidated balance of liabilities R\$ 000	Balance at Mar. 31, 2018	Balance at Dec. 31, 2017
--	-------------------------------------	-------------------------------------

Put option for shares in RME and Lepsa	541,767	507,232
Put option SAAG	316,050	311,593
Put / call options Ativas and Sonda	(3,883)	(3,801)
	853,934	815,024

The expense on provisions for employment-law contingencies was 73.06% lower in 1Q18, at R\$ 17,054, than in 1Q17 (R\$ 63,306). This basically reflects higher values provisioned in the previous year mainly relating to actions challenging the basis for calculation of rates for hazardous work, and equality of payment for allegedly unlawful outsourcing, and also cases for subsidiary and joint liability.

Default

With the Brazilian macro context of lower economic activity, which created unemployment and inflation, the adverse hydrological situation, and the increase in tariffs, which had been held down, Cemig has experienced higher than average growth in the total debt owed by clients. The good news is that Cemig's confronting of default in 2017 has already reduced the index of default in recent months. The Company is confident that with more intense collection and disconnection the levels of default will be reduced in 2018.

Personnel

The expense on personnel in 1Q18 was R\$ 331,664, or 13.00% lower than in 1Q17 (R\$ 381,208). In spite of the wage increase of 1.83% agreed in November 2017, under the Collective Agreement, the lower figure reflects the reduction of 17.48% in the average numbers of employees when comparing the two periods (5,853 at the end of 1Q18 vs. 7,093 in 1Q17).

Numbers of employees

2018 PDVP Programmed Voluntary Retirement Plan

In March 2018, the Company created the Programmed Voluntary Retirement Program (the 2018 PDVP). Those eligible to take part were any employees who will have worked with Cemig for 25 years or more by December 31, 2018. The period for joining the program was specified as from April 2 to April 30, 2018. For program offers payment of the severance amounts specified by law, including payment for the period of notice, and especially deposit of the penalty amount of 40% of the FGTS Base Value, and other charges specified by the legislation, with no provision for payment of an additional premium.

The 2018 PDVP was accepted by 175 employees, with an additional cost of R\$ 28,129 to be recognized in the second quarter of 2018.

Gas bought for resale

In 1Q18 the Company recorded an expense of R\$ 263,233 on acquisition of gas, 18.30% more than its comparable expense of R\$ 222,512 in 1Q17. This higher expense mainly reflects increases in the prices of gas purchased, since the volume of gas bought for resale was lower (263,242 m³ in 1Q18, vs. 293,105 m³ in 1Q17).

Equity in earnings of unconsolidated investees

In 1Q18 Cemig posted a net equity method gain of R\$ 56,874, which compares with a net gain of R\$ 29,641 in 1Q17. This reflects better equity gain from **Light** in 1Q18 a gain of R\$ 44 million, compared to a loss of R\$ 8 million in 2017. The positive overall figure included equity method losses in 1Q18 in **Renova** of R\$ 41 million and the **Santo Antônio** plant R\$ 49 million.

Financial revenue and expenses

Cemig reported net financial expenses in 1Q18 of R\$ 157,800, which compares with net financial expenses of R\$ 392,746 in 1Q17. The main factors are:

Income from cash investments: R\$ 23,727 in 1Q18, compared to R\$ 64,830 in 1Q17, a reduction of 63.40%. This basically reflects the lower CDI rate in the year (1.59% in 1Q18, vs. 2.98% in 1Q17) the main indexor for yield on cash investments and also the lower volume of cash available for investment in 2018.

Gains of R\$ 97,516 on financial instruments in 1Q18, due to the adjustment to fair value of a swap relating to dollar-indexed funding raised (Eurobonds) in 4Q17.

Lower borrowing costs on loans and financings: R\$ 294,965 in 1Q18, vs. R\$461,421 in 1Q17 i.e. 36.07% lower. This basically reflected the lower variation resulting from the CDI rate in 2018 the main indexor of the debt, as shown above.

Ebitda

Cemig's consolidated Ebitda was 8.47% lower in 1Q18 than in 1Q17:

Absorption of Cemig Telecom (Cemig Telecomunicações S.A.)

On March 31, 2018 the absorption by Cemig of its wholly-owned subsidiary Cemig Telecom was completed. This took place at book value. As a consequence Cemig Telecom was extinguished; Cemig is successor to all its goods, rights and obligations. Since this is an absorption of a wholly-owned subsidiary, there was no capital increase nor issue of new shares by Cemig. The shares in the subsidiary were canceled, on the Absorption Date.
