None of the Company's operating segments were aggregated in determining the Company's reportable segments. 5. **Stock-Based Compensation Plans**

Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 123(R), Share-Based Payment, (SFAS 123(R)) using the modified prospective method. This method requires that companies recognize compensation expense for new grants and the unvested portion of prior grants at their fair value on the grant date and recognize this expense over the requisite service period for awards expected to vest. The results for prior year periods have not been restated. No stock-based employee compensation expense has been charged against income in the six month period ended June 30, 2006 as there were no stock options granted during this period, and all of the Company's stock options granted prior to the effective date were 100% vested at the effective date. The Company's policy is to estimate the fair market value of each option granted on the date of grant using the Black-Scholes option pricing model and record the compensation expense on a straight-line basis over the vesting period. The Company issues new common stock to satisfy stock option exercises.

The following table illustrates the effect on quarterly net earnings per share for the three and six month periods ended June 30, 2005 as if the fair value based method of SFAS No. 123, Accounting for Stock-Based Compensation, had been applied for all outstanding unvested awards for periods prior to the adoption of SFAS 123(R).

At June 30, 2006, the Company had three stock option plans: the 1996 Nonqualified Stock Option Plan, the 1997 Stock Option Plan and the 2005 Equity Incentive Plan. Under the plans, options to purchase common stock were granted to officers and key employees at prices not less than the fair market value of the common stock on the date of the grant. Most options expire ten years from the grant date, with the exception of certain incentive stock options, which expire five years from the grant date. As of June 30, 2006, there were 798,750 shares remaining available for stock option grants under the 2005 Equity Incentive Plan.

**7. New Accounting Pronouncement**

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). This Interpretation clarifies the accounting and disclosures for uncertainty in tax positions. FIN 48 provides that the tax effects from an uncertain tax position can be recognized in the Company's financial statements only if the position is more likely than not of being sustained on audit, based on the technical merits of the position. The provisions of FIN 48 will be effective for the Company January 1, 2007. The Company is currently evaluating the impact of adopting FIN 48 on its financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

**OVERVIEW**

The Company is a distributor of men's casual, dress and fashion shoes under the Florsheim, Nunn Bush, Nunn Bush NXXT, Brass Boot, Stacy Adams and SAO by Stacy Adams brand names. The acquisition of one of the Company's significant customers by another retailer in 2005 resulted in some loss of sales volume at Nunn Bush and Florsheim in the first half of 2006. The acquiring company decided not to go forward with either the Nunn Bush or Florsheim product lines in its stores. Sales to this customer were down \$1.6 million and \$3.0 million for the current quarter and six months, respectively. Total sales to this customer in 2005 were approximately \$12.0 million. The Company expects to lose a total of approximately \$9 million in sales volume during 2006 due to the loss of this customer.

Sales in the Stacy Adams division grew notably this quarter in comparison with the prior year. Strong sales growth was achieved across several categories of footwear within the brand, including high fashion, contemporary and casual styles. Quarterly and year-to-date sales in the Stacy Adams division were somewhat offset by a decline in sales of the SAO sub-brand this year.

Nunn Bush sales for the second quarter were down compared with last year due to \$1.1 million of lost sales to the customer discussed above. Sales to this customer were down \$1.9 million for the six-month period ended June 30, 2006. Despite this loss, total Nunn Bush sales for the first half of 2006 were down only slightly as the brand's Comfort Gel products have been well received and have made a positive contribution in 2006.

Florsheim sales in the current quarter were up 3.1%, despite the loss of \$500,000 in sales to the major customer (discussed above), and the loss of approximately \$900,000 in sales of the FLS sub-brand following the Company's decision last year to discontinue FLS in the United States. Florsheim sales for the first six months of 2006 were up 5.5% compared with last year, despite the loss of approximately \$1.1 million in sales from the major customer and the loss of approximately \$1.9 million in sales of the FLS sub-brand. This growth, despite the volume loss, reflects the good response this year to the new more casual and contemporary styles in the line. In total, the discontinuation of FLS will cost the Company approximately \$2.8 million in sales volume during 2006 compared with 2005.

## Edgar Filing: WEYCO GROUP INC - Form 10-Q

Retail net sales in the current quarter were up 3% at \$6.7 million from \$6.5 million in the prior year. Year-to-date sales in the retail division increased to \$13.7 million this year from \$13.3 million last year. The quarter and year-to-date increases were primarily attributable to three additional stores at June 30, 2006 compared with June 30, 2005. Same store sales in the three- and six-month periods ended June 30, 2006 were flat compared with the same periods in the prior year. The Company continues to evaluate new store locations in the United States, with a goal of expanding to approximately 50 stores over the next few years. The Company has signed leases for three new stores, two that will be opening in the third quarter of this year, and one that is scheduled to open in 2007.

Overall gross earnings as a percent of net sales for the three months ended June 30, 2006 was 38.7% compared with 35.7% in the prior year period. Wholesale gross earnings as a percent of net sales for the quarter was 32.2% in 2006, up 340 basis points from 28.8% in 2005. Gross earnings as a percent of net sales in the retail division was 66.4% in the second quarter of 2006 compared with 65.0% in 2005.

Overall gross earnings as a percent of net sales for the six months ended June 30, 2006 was 36.9% compared with 35.7% in 2005. Wholesale gross earnings as a percent of net sales for the six months ended June 30 was 31.0% in 2006 and 29.7% in 2005. Retail gross earnings as a percent of net sales for the first half of this year was 65.6% and 64.4% last year. The increase in wholesale margins for the three and six months ended June 30, 2006 was primarily the result of higher margins on new footwear, favorable purchase prices on selected product from our manufacturers, and the impact of fewer closeout sales this season.

The Company's cost of sales does not include distribution costs (e.g., receiving, inspection or warehousing costs). The Company's distribution costs for the three- and six-month periods ended June 30, 2006 and 2005, were \$1,531,000 and \$3,173,000 in 2006, respectively, and \$1,496,000 and \$3,063,000 in 2005, respectively, and were included in selling and administrative expenses. Therefore, the Company's gross earnings may not be comparable to other companies, as some companies may include distribution costs in cost of sales.

The Company's selling and administrative expenses include, and are primarily related to, distribution costs, salaries and commissions, advertising costs, employee benefit costs, rent and depreciation. In the current quarter, selling and administrative expenses as a percent of net sales were 26.6% versus 25.4% in 2005. Wholesale selling and administrative expenses as a percent of net wholesale sales were 22.6% in 2006 and 22.1% in 2005. Retail selling and administrative expenses as a percent of net sales were 52.3% in 2006 and 47.6% in 2005.

For the six months ended June 30, selling and administrative expenses as a percent of net sales were 23.8% in 2006 versus 23.0% in 2005. Wholesale selling and administrative expenses as a percent of net wholesale sales to date were flat at 20.1% in 2006 and 19.9% in 2005. Retail selling and administrative expenses as a percent of net sales increased to 50.9% in 2006 from 46.8% in 2005. The increase in retail expenses as a percent of sales for both the second quarter and first six months of 2006 was due to higher expenses in relation to sales in the three new stores, as well as increased costs associated with lease renewals at some existing stores.

Net interest income in the second quarter and first six months of 2006 was up over last year \$209,000 and \$420,000, respectively due to this year's higher investment in marketable securities.

The effective tax rate for the three and six months ended June 30, 2006 was 38.2% and 37.7%, respectively which was comparable with 36.7% and 37.9%, respectively, in the prior year periods.

#### **LIQUIDITY & CAPITAL RESOURCES**

The Company's primary source of liquidity is its cash and short-term marketable securities, which aggregated approximately \$13.2 million at June 30, 2006 as compared with \$23.7 million at December 31, 2005.

In the first six months of 2006, cash and cash equivalents decreased approximately \$10.4 million as the Company continued to invest in municipal securities and repurchase its common stock under its buyback program. The Company also increased its quarterly dividend rate in 2006.

Net cash provided by operating activities to date in 2006 was \$20.2 million lower than the same period in 2005 primarily due to the Company's efforts in 2005 to reduce inventory levels which resulted in an unusually high amount of cash provided by operations in 2005.

Cash used for investing activities increased \$2.6 million, mainly due to higher net purchases of marketable securities to date this year, as compared with 2005.

Cash flows used for financing activities in 2006 decreased \$1.5 million as compared with last year, primarily due to lower repayments of borrowings.

As of June 30, 2006, the Company had a total of \$50 million available under its borrowing facility, of which total borrowings were \$9.5 million. The facility includes one financial covenant which specifies a minimum level of net worth. The Company was in compliance with the covenant at June 30, 2006. The facility has a 364-day term and expires April 30, 2007.

The Company will continue to evaluate the best uses for its free cash, including continued increased dividends, stock repurchases and acquisitions. The Company currently has 1.4 million shares available under its previously announced buyback program.

The Company believes that available cash and marketable securities, cash provided by operations, and available borrowing facilities will provide adequate support for the cash needs of the business in 2006.
