-

4. ANTI-DILUTION

During the Exercise Period, the Exercise Price and the Conversion Ratio are subject to the adjustments resulting from the realization of the following corporate events ("Adjustment Events"), subject to the rules established herein:

(i) **First Adjustment Event.** If the Company performs any (a) issuance of preferred shares as a dividend or distribution on the preferred shares; or (b) splits or combinations of the preferred shares, the Exercise Price shall be adjusted based on the following formula:

$$EP_1 = EP_0 \times$$

$$\frac{PN_0}{PN_1}$$

Where:

" EP_1 " means the adjusted Exercise Price, in force immediately after the date that the preferred shares start to be traded ex-rights due to the Adjustment Event or the date on which the preferred shares start to be traded in the normal course reflecting a split or combination of preferred shares, as the case may be;

" EP_0 " means the adjusted Exercise Price, in force immediately before the date that the preferred shares start to be traded ex-rights due to the Adjustment Event or the date on which the preferred shares start to be traded in the normal course reflecting a split or combination of preferred shares, as the case may be;

" PN_0 " means the number of preferred shares existing immediately before the date that the preferred shares start to be traded ex-rights due to the Adjustment Event or the date on which the preferred shares start to be traded in the normal course reflecting a split or combination of preferred shares, as the case may be, excluding the effects of the Adjustment Event;

" PN_1 " means the number of preferred shares existing immediately after the date that the preferred shares start to be traded ex-rights due to the Adjustment Event or the date on which the preferred shares start to be traded in the normal course reflecting a split or combination of preferred shares, as the case may be, considering the effects of the Adjustment Event.

(ii) **Second Adjustment Event.** If the Company (a) issues preferred shares, Warrants for subscription to preferred shares or other securities convertible into or exchangeable for preferred shares; or (b) grants options for the acquisition of preferred shares, which in any case guarantee the right to holders of preferred shares to subscribe to or purchase new preferred shares (y) within a period of up to 45 days as of the reference date that identifies the Holders of preferred shares that may exercise the rights resulting from that issuance or grant, and (z) at a price for each preferred share lower than the average of the Latest Reported Sale Prices of the ADSs over the 10 consecutive Trading Day period ending on the day immediately before the date of the announcement of the Adjustment Event, including *divided* by the number of preferred shares then represented by one ADS (“Extraordinary Rights”), the Exercise Price shall be adjusted based on the following formula:

$$EP_1 = EP_0 \times \frac{PN_0 + A}{PN_1 + B}$$

Where:

“EP₁” means the adjusted Exercise Price, in force immediately after the date that the preferred shares start to be traded ex-rights due to the Adjustment Event;

“EP₀” means the adjusted Exercise Price, in force immediately before the date that the preferred shares start to be traded ex-rights due to the Adjustment Event;

“PN₀” means the number of preferred shares existing immediately before the date that the preferred shares start to be traded ex-rights due to the Adjustment Event;

“A” means the number of preferred shares equal to (a) the aggregate price payable to exercise such rights, options or warrants, divided by (b) the quotient of (i) the average of the Latest Reported Sale Prices of the ADSs over the 10 consecutive Trading Day period ending on, and including, the Trading Day immediately preceding the date of announcement of the issuance of such rights, options or warrants, *divided by* (ii) the number of preferred shares then represented by one ADS;

“B” means the total number of preferred shares to be issued or delivered due to the exercise of the rights issued or conferred in the Adjustment Event.

(ii.a) Any adjustment under this item (ii) will be made successively whenever any such rights, options or warrants are issued and shall become effective immediately after the open of business on the ex-dividend date for such issuance. In the event such Extraordinary Rights are not exercised during the exercise period, the Exercise Price adjustment shall be recalculated considering the application of the formula above where “B” will be the number of the preferred shares effectively issued or delivered as a result of the exercise of the Extraordinary Rights.

(ii.b) In determining whether any rights, options or warrants entitle the holders to subscribe to or purchase preferred shares at a price per share that is less than the average of the Latest Reported Sale Prices of the ADSs for the 10 consecutive Trading Day period ending on, and including, the Trading Day immediately preceding the date of announcement of such Adjustment Event, *divided by* the number of preferred shares represented by one ADS, and in determining the aggregate offering price of such preferred shares, any consideration received by the Company for such rights, options or warrants and any amount payable on exercise or exchange thereof shall be taken into account, with the value of such consideration, if other than cash, to be determined by the Company’s Board of Directors or a committee thereof, as applicable.

(iii) **Third Adjustment Event.** If the Company (a) pays any dividend or distribution *in natura* for the preferred shares; (b) realizes the redemption or amortization of the preferred shares by delivering property, assets or rights; (c) reduces the capital stock as a result of the delivery of property, assets or rights; the Exercise Price shall be adjusted based on the formula set forth below, provided that such event does not result in (i) an issuance of preferred shares, warrants for the subscription of preferred shares or other securities convertible in, or exchangeable for preferred shares, or grant option for the acquisition of preferred shares that represents an Extraordinary Right; (ii) a dividend or distribution in cash as set forth in item (e) below; or (iii) an Adjustment Event provided in item (d) below:

$$EP_1 = EP_0 \times \frac{C - FMV}{C}$$

Where:

“EP₁” means the adjusted Exercise Price, in force immediately after the date that the preferred shares start to be traded ex-rights due to the Adjustment Event;

"EP" means the adjusted Exercise Price, in force immediately before the date that the preferred shares start to be traded ex-rights due to the Adjustment Event;

"C" means the average of the Latest Reported Sale Prices of the ADSs over the 10 consecutive Trading Day period ending on the Trading Day immediately before the date that the preferred shares start to be traded ex-rights due to the Adjustment Event, including, *divided* by the number of preferred shares then represented by one ADS;

"FMV" means the fair market value (as determined by GLAI's Board of Directors or a committee thereof) of the shares, properties, assets or rights described in this Adjustment Event and delivered to each Holder of preferred shares on the date that the preferred shares start to be traded ex-rights due to the Adjustment Event.

(iii.a) If the Company issues rights, options or warrants that are only exercisable upon the occurrence of certain triggering events, then: (a) the adjustments under this item (iii) will only be made once the earliest of these triggering events occurs; and (b) a readjustment under this item (iii) will be made to the extent any of these rights, options or warrants are not exercised before they expire, provided that the rights, options or warrants trade together with the preferred shares and will be issued in respect of future issuances of the preferred shares.

(iv) **Fourth Adjustment Event.** In case the Company performs any of the Adjustment Events described in item (iii) above and such Adjustment Event results in the delivery to the holders of preferred shares of any type or class, or other similar securities issued by or related to a subsidiary of the Company or another business unit of the Company, which are listed or admitted to trading on a national U.S. stock exchange (directly or in the form of ADSs) ("Affiliate's Shares"), the Exercise Price shall be adjusted based on the following formula:

$$EP_1 = EP_0 \times \frac{D}{FMV + D}$$

Where:

"EP" means the adjusted Exercise Price, in force immediately after the end of the Assessment Period (defined below);

“EP” means the adjusted Exercise Price, in force immediately before the end of the Assessment Period (defined below);

In the case of any (a) recapitalization, reclassification or change in the preferred shares (other than changes in par value or resulting from a subdivision or combination) or (b) any consolidation, merger, merger of shares or other combination involving the Company, as a result of which the preferred shares would be converted into or exchanged for (“Specified Corporate Event”) stock, other securities, other property or assets (including cash or any combination thereof) (“Reference Property”), then the Holder shall be entitled to receive the Reference Property that a holder of a number of preferred shares corresponding to the Conversion Ratio immediately prior to such Specified Corporate Event would have been entitled to receive upon such Specified Corporate Event.

If the Specified Corporate Event causes the preferred shares to be converted into, or exchanged for, the right to receive more than a single type of Reference Property (determined based upon any form of holder election), the Reference Property will be deemed to be based on: (a) the weighted average of the types and amounts of consideration received by the holders of the preferred shares that affirmatively make such an election, and (b) if no holders of the preferred shares affirmatively make such an election, the types and amounts of consideration actually received by the holders of the preferred shares.

5. ENCUMBRANCES

If the ADSs (or Subsidiary Shares, as applicable) are not listed or traded under the terms set forth herein, a Trading Day means a Business Day.

EXHIBIT II

EXHIBIT 30-XXXII OF NORMATIVE RULING NO. 480/2009, AS ADJUSTED WITH THE INFORMATION OF EXHIBIT 15 OF NORMATIVE RULING No. 481/2009 OF THE BRAZILIAN SECURITIES COMISSION (COMISSÃO DE VALORES MOBILIÁRIOS)

a. Inform the number of subscription warrants to be issued

Up to 56,054,019 Warrants will be issued. Each Warrant will give its holder the right to subscribe to one preferred share issued by the Company, which have the characteristics described in Article 5 of the Company's bylaws.

Partial subscription to the Warrants will be allowed provided that at least 60.79% of the total Warrants issued are subscribed to, as set forth below.

b. Explain, with details, the reasons for the issuance and its consequences

The issuance mainly seeks to enable GOL Equity Finance's exchangeable debt transaction, as informed to the market on March 14, 2019. For this purpose, FIP Volluto and MOBI Fundo de Investimento em Ações have informed the Company that they will assign their preemptive right to subscribe to their portion of the Warrants to GOL Equity Finance.

c. Inform the issuance price and exercise price of the warrants

The issuance price of the Warrants is R\$13.04 per Warrant and must be paid upon subscription to the Warrants, in cash in Brazilian *reais*.

Each Warrant will give its holder the right to subscribe to one preferred share, at the exercise price of R\$39.24 per preferred share.

d. Inform the criteria used to determine the issuance price and exercise price, justifying, in detail, the economic aspects that determined their choice

The issuance price of the Warrants was set at R\$13.04 per Warrant, by applying the results of a study by Brasilpar Serviços Financeiros Ltda., at the request of the Board of Directors.

The exercise price of the Warrants, i.e., the issuance price of the preferred shares to be delivered to exercising Warrant holders, was set in accordance with the terms of and in order to enable GOL Equity Finance's exchangeable debt transaction.

e. Provide management's opinion on the effects of the capital increase, especially with regard to the dilution caused by the capital increase

Considering that the preemptive right to subscribe to the Warrants will be assured to the Company's shareholders, if shareholders exercise their respective preemptive rights and convert all their Warrants into shares, there will be no dilution of their interest in the Company.

f. Inform the terms and conditions to which the exercise of the warrants is subject

The Warrants may be exercised at any time in the period beginning on May 8, 2019, 2019 and ending on July 30, 2024.

g. Inform if the shareholders will have preemptive rights to subscribe to the warrants, detailing the terms and conditions to which these rights are subject

The issuance of Warrants is targeted primarily to the Company's shareholders, who will have preemptive rights to subscribe to the Warrants in proportion to the number of shares held by them, as set forth in Article 171, paragraph 3, of Law No. 6404/76. For the purpose of this calculation, all shares issued by the Company, whether common or preferred, were considered, although common shares were considered at a ratio of 35:1.

Shareholders of the Company that hold shares as of May 2, 2019 will be entitled to the preemptive rights.

Exercise of the preemptive rights may occur within a period of 30 days from and including May 8, 2019 to and including June 10, 2019. Any shares of the Company acquired on or after May 3, 2019 will not be entitled to the preemptive right to subscribe to the Warrants and will be traded without these preemptive rights.

Any fractions of Warrants resulting from the exercise of the preemptive rights shall be disregarded. Any such fractions will be grouped in whole numbers of Warrants and will be considered remaining Warrants that can be subscribed to by investors who expressed interest in them during the subscription period.

FIP Volluto and MOBI Fundo de Investimento em Ações have informed the Company that they have assigned their preemptive rights to GOL Equity Finance, which, in turn, expressed its commitment to subscribe to the totality of the Warrants to which it is entitled, *i.e.*, 34,074,063 Warrants.

Possibility of Partial Subscription

Partial subscription to the Warrants will be allowed provided that at least 34,074,063 Warrants are subscribed to, which is certain considering GOL Equity Finance's subscription commitment.

Subscribers who wish to condition their subscription decision (for the issue of all Warrants or a minimum amount determined by them, and subject to the minimum number established by the Board of Directors informed above) must do so at the time of subscription.

Considering that partial subscription to the Warrants will be allowed, subscribers must indicate upon subscription whether, in the case of a partial subscription, they choose to receive (a) the totality of the Warrants subscribed to or (b) the amount equivalent to the ratio between the number of Warrants actually subscribed to and the maximum number of Warrants subject to the issuance. In the absence of a subscriber's manifestation, the subscriber's interest in receiving the totality of the Warrants subscribed to by him shall be presumed.

The Company will not open an additional period for the revision of the subscription decision in the case of partial subscription to the Warrants.

Treatment of Remaining Warrants

Upon exercise of their preemptive rights, subscribers that wish to subscribe to remaining Warrants shall express their intention to do so. In a period of up to five business days as of the end of the term to exercise preemptive rights, the Company will disclose a notice to shareholders, in which the apportionment of remaining Warrants will be informed.

If there are any remaining Warrants, the Company will apportion among those subscribers who have requested a reserve of remaining Warrants. A round of apportionment of remaining Warrants will be performed, observing the proportion of Warrants subscribed to by each interested party considering the total Warrants subscribed to at that moment.

If, however, there are still remaining Warrants, the balance will be canceled by the Company.

h. Inform the secondary market where the warrants will be traded, if applicable

The Warrants will be admitted to trading on the B3 S.A. *-Brasil, Bolsa, Balcão* ("B3") as of a date to be timely informed to shareholders.

i. Describe the rights, advantages and restrictions of the shares to be delivered upon exercise of the warrants

The Company's preferred shares to be delivered upon exercise of the Warrants will be entitled to the full receipt of dividends or interest on own capital that may be declared by the Company as of the date of issuance and to all other rights and benefits that are conferred to holders of the Company's preferred shares on equal terms and conditions.

j. Inform the percentage of potential dilution resulting from the issuance

If only the minimum amount of 34,074,063 Warrants is subscribed to, as detailed above, the potential dilution resulting from the issuance of the Warrants for the Company's shareholders shall be 8.87%.
