GROWLIFE, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF BUSINESS AND ORGANIZATION

GrowLife, Inc. (“GrowLife” or the “Company”) is incorporated under the laws of the State of Delaware and is headquartered in Seattle, Washington. The Company was founded in 2012 with the Closing of the Agreement and Plan of Merger with SGT Merger Corporation.

The Company’s goal of becoming the nation’s largest cultivation facility service provider for the production of organics, herbs and greens and plant-based medicines has not changed. The Company’s mission is to best serve more cultivators in the design, build-out, expansion and maintenance of their facilities with products of high quality, exceptional value and competitive price. Through a nationwide network of knowledgeable representatives, regional centers and its e-commerce website, GrowLife provides essential and hard-to-find goods including media (i.e., farming soil), industry-leading hydroponics equipment, organic plant nutrients, and thousands more products to specialty grow operations across the United States.

The Company primarily sells through its wholly owned subsidiary, GrowLife Hydroponics, Inc. In addition to the promotion and sales of GrowLife owned brands, GrowLife companies distribute and sell over 3,000 products through its e-commerce distribution channel, Greners.com, and through our regional retail storefronts. GrowLife and its business units are organized and directed to operate strictly in accordance with all applicable state and federal laws.

On June 7, 2013, GrowLife Hydroponics completed the purchase of Rocky Mountain Hydroponics, LLC, a Colorado limited liability company (“RMC”), and Evergreen Garden Center, LLC, a Maine limited liability company (“EGC”). The effective date of the purchase was June 7, 2013. The Company purchased all of the assets and liabilities of the RMH and EGC Companies, and their retail hydroponics stores, which are located in Vail and Boulder, Colorado and Portland, Maine. The Company purchased RMC and EGC from Rob Hunt, who was appointed to the then Company’s Board of Directors and President of GrowLife Hydroponics, Inc.

On February 18, 2016, the Company’s common stock resumed unsolicited quotation on the OTC Bulletin Board after receiving clearance from the Financial Industry Regulatory Authority (“FINRA”) on our Form 15c2-11. The Company is currently taking the appropriate steps to uplist to the OTCQB Exchange and resume priced quotations with market makers as soon as it is able.

NOTE 2 – GOING CONCERN

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company incurred net losses of \$5,688,845 and \$86,626,099 for the years ended December 31, 2015 and 2014, respectively. Our net cash used in operating activities was \$1,375,891 and \$2,122,577 and the years ended December 31, 2015 and 2014, respectively.

The Company anticipates that it will record losses from operations for the foreseeable future. As of March 31, 2016, our accumulated deficit was \$119,616,994. The Company has experienced recurring operating losses and negative operating cash flows since inception, and has financed its working capital requirements during this period primarily through the recurring issuance of convertible notes payable and advances from a related party. The audit report prepared by our independent registered public accounting firm relating to our financial statements for the year ended December 31, 2015 and filed with the SEC on April 14, 2016 includes an explanatory paragraph expressing the substantial doubt about our ability to continue as a going concern.

Continuation of the Company as a going concern is dependent upon obtaining additional working capital. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern.

NOTE 3 – SIGNIFICANT ACCOUNTING POLICIES: ADOPTION OF ACCOUNTING STANDARDS

Basis of Presentation - The accompanying unaudited consolidated financial statements include the accounts of the Company. Intercompany accounts and transactions have been eliminated. The preparation of these unaudited consolidated financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”).

Principles of Consolidation - The consolidated financial statements include the accounts of the Company and its wholly owned and majority-owned subsidiaries. Inter-Company items and transactions have been eliminated in consolidation.

Cash and Cash Equivalents - The Company classifies highly liquid temporary investments with an original maturity of three months or less when purchased as cash equivalents. The Company maintains cash balances at various financial institutions. Balances at US banks are insured by the Federal Deposit Insurance Corporation up to \$250,000. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant risk for cash on deposit.

Accounts Receivable and Revenue - Revenue is recognized on the sale of a product when the product is shipped, which is when the risk of loss transfers to our customers, the fee is fixed and determinable, and collection of the sale is reasonably assured. A product is not shipped without an order from the customer and the completion of credit acceptance procedures. The majority of our sales are cash or credit card; however, we occasionally extend terms to our customers. Accounts receivable are reviewed periodically for collectability.

Inventories - Inventories are recorded on a first in first out basis. Inventory consists of raw materials, purchased finished goods and components held for resale. Inventory is valued at the lower of cost or market. The reserve for inventory was \$20,000 as of March 31, 2016 and December 31, 2015, respectively.

Property and Equipment - Property and equipment are stated at cost. Assets acquired held under capital leases are initially recorded at the lower of the present value of the minimum lease payments discounted at the implicit interest rate or the fair value of the asset. Major improvements and betterments are capitalized. Maintenance and repairs are expensed as incurred. Depreciation is computed using the straight-line method over an estimated useful life of five years. Assets acquired under capital lease are depreciated over the lesser of the useful life or the lease term. At the time of retirement or other disposition of property and equipment, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in the consolidated statements of operations.

Goodwill and Intangible Assets - The Company evaluates the carrying value of goodwill, intangible assets, and long-lived assets during the fourth quarter of each year and between annual evaluations if events occur or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount. Such circumstances could include, but are not limited to (1) a significant adverse change in legal factors or in business climate, (2) unanticipated competition, (3) an adverse action or assessment by a regulator, (4) continued losses from operations, (5) continued negative cash flows from operations, and (6) the suspension of trading of the Company's securities. When evaluating whether goodwill is impaired, the Company compares the fair value of the reporting unit to which the goodwill is assigned to the reporting unit's carrying amount, including goodwill. The fair value of the reporting unit is estimated using a combination of the income, or discounted cash flows, approach and the market approach, which utilizes comparable companies' data. If the carrying amount of a reporting unit exceeds its fair value, then the amount of the impairment loss must be measured. The impairment loss would be calculated by comparing the implied fair value of reporting unit goodwill to its carrying amount. In calculating the implied fair value of reporting unit goodwill, the fair value of the reporting unit is allocated to all of the other assets and liabilities of that unit based on their fair values. The excess of the fair value of a reporting unit over the amount assigned to its other assets and liabilities is the implied fair value of goodwill.

The Company amortizes the cost of other intangible assets over their estimated useful lives, which range up to ten years, unless such lives are deemed indefinite. Intangible assets with indefinite lives are tested in the fourth quarter of each fiscal year for impairment, or more often if indicators warrant.

Equity Investments – The Company classifies all highly-liquid investments with stated maturities of greater than three months from the date of purchase and remaining maturities of less than one year as short-term investments. Investments with maturities beyond one year may be classified as short-term based on their highly liquid nature and because such investments are viewed as being available to support current operations. The Company classifies and accounts for short-term investments as available-for-sale and reflect realized gains and losses using the specific identification method. Changes in market value, if any, excluding other-than-temporary impairments, are reflected under stockholders' deficit as unrealized gain/loss on related party investment.

Long Lived Assets – The Company reviews its long-lived assets for impairment annually or when changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Long-lived assets under certain circumstances are reported at the lower of carrying amount or fair value. Assets to be disposed of and assets not expected to provide any future service potential to the Company are recorded at the lower of carrying amount or fair value (less the projected cost associated with selling the asset). To the extent carrying values exceed fair values, an impairment loss is recognized in operating results.

Fair Value Measurements and Financial Instruments - ASC Topic 820 defines fair value, establishes a framework for measuring fair value, establishes a three-level valuation hierarchy for disclosure of fair value measurement and

enhances disclosure requirements for fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The carrying value of cash, accounts receivable, investment in a related party, accounts payables, accrued expenses, due to related party, notes payable, and convertible notes approximates their fair values due to their short-term maturities.

Derivative financial instruments -The Company evaluates all of its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations. For stock-based derivative financial instruments, the Company uses a weighted average Black-Scholes-Merton option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement of the derivative instrument could be required within twelve months of the balance sheet date.

Sales Returns - We allow customers to return defective products when they meet certain established criteria as outlined in our sales terms and conditions. It is our practice to regularly review and revise, when deemed necessary, our estimates of sales returns, which are based primarily on actual historical return rates. We record estimated sales returns as reductions to sales, cost of goods sold, and accounts receivable and an increase to inventory. Returned products which are recorded as inventory are valued based upon the amount we expect to realize upon its subsequent disposition. As of March 31, 2016 and December 31, 2015, there was no reserve for sales returns, which are minimal based upon our historical experience.

Stock Based Compensation - The Company has share-based compensation plans under which employees, consultants, suppliers and directors may be granted restricted stock, as well as options and warrants to purchase shares of Company common stock at the fair market value at the time of grant. Stock-based compensation cost to employees is measured by the Company at the grant date, based on the fair value of the award, over the requisite service period under ASC 718. For options issued to employees, the Company recognizes stock compensation costs utilizing the fair value methodology over the related period of benefit. Grants of stock to non-employees and other parties are accounted for in accordance with the ASC 505.

Net (Loss) Per Share - Under the provisions of ASC 260, "Earnings per Share," basic loss per common share is computed by dividing net loss available to common shareholders by the weighted average number of shares of common stock outstanding for the periods presented. Diluted net loss per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that would then share in the income of the Company, subject to anti-dilution limitations. The common stock equivalents have not been included as they are anti-dilutive. As of March 31, 2016, there are also (i) stock option grants outstanding for the purchase of 29.0 million common shares at a \$0.028 average strike price; (ii) warrants for the purchase of 565.0 million common shares at a \$0.032 average exercise price; (iii) 164.0 million shares related to convertible debt that can be converted at 0.007 per share; and (iv) 6.0 million shares that may be issued to a former executive related to a severance agreement. On April 6, 2016, we issued \$2 million in common stock or 115,141,048 shares of our common stock pursuant to the settlement of the Consolidated Class Action and Derivative Action lawsuits alleging violations of federal securities laws that were filed against the Company in United States District Court, Central District of California. In addition, we have an unknown number of common shares to be issued under the TCA financing agreements. As of March 31, 2015, there were stock options outstanding for the purchase of 40,720,000 common shares, warrants for the purchase of 565,000,000 common shares, 217,287,286 shares related to convertible debt and 6,000,000 of shares which we may have to issue under a settlement agreement which could potentially dilute future earnings per share.

Dividend Policy - The Company has never paid any cash dividends and intends, for the foreseeable future, to retain any future earnings for the development of our business. Our future dividend policy will be determined by the board of directors on the basis of various factors, including our results of operations, financial condition, capital requirements and investment opportunities.

Use of Estimates - In preparing these unaudited interim consolidated financial statements in conformity with GAAP, management is required to make estimates and assumptions that may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Significant estimates and assumptions included in our consolidated financial statements relate to the valuation of long-lived assets, estimates of sales returns, inventory reserves and accruals for potential liabilities, and valuation assumptions related to derivative liability, equity instruments and share based compensation.

Recent Accounting Pronouncements

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, management has not determined whether implementation of such proposed standards would be material to our consolidated financial statements.

NOTE 4 – TRANSACTIONS WITH CANX USA, LLC AND LOGIC WORKS LLC

Transactions with CANX, LLC and Logic Works LLC

On July 10, 2014, the Company closed a Waiver and Modification Agreement, Amended and Restated Joint Venture Agreement, Secured Credit Facility and Secured Convertible Note with CANX, and Logic Works, a lender and shareholder of the Company. The Agreements require the filing of a registration statement on Form S-1 within 10 days of the filing of the Company's Form 10-Q for the period ended June 30, 2014. Due to the Company's grey sheet trading status and other issues, the Company did not file the registration statement.

Previously, the Company entered into a Joint Venture Agreement with CANX, a Nevada limited liability company. Under the terms of the Joint Venture Agreement, the Company and CANX formed Organic Growth International, LLC (“OGI”), a Nevada limited liability company, for the purpose of expanding the Company’s operations in its current retail hydroponic businesses and in other synergistic business verticals and facilitating additional funding for commercially financeable transactions of up to \$40,000,000.

The Company initially owned a non-dilutive 45% share of OGI and the Company may acquire a controlling share of OGI as provided in the Joint Venture Agreement. In accordance with the Joint Venture Agreement, the Company and CANX entered into a Warrant Agreement whereby the Company delivered to CANX a warrant to purchase 140,000,000 shares of the Company common stock that is convertible at \$0.033 per share, subject to adjustment as provided in the warrant. The five year warrant expires November 18, 2018. Also in accordance with the Joint Venture Agreement, on February 7, 2014 the Company issued an additional warrant to purchase 100,000,000 shares of our common stock that is convertible at \$0.033 per share, subject to adjustment as provided in the warrant. The five year warrant expires February 6, 2019.

Waiver and Modification Agreement

The Company entered into a Waiver and Modification Agreement dated June 25, 2014 with Logic Works whereby the 7% Convertible Note with Logic Works dated December 20, 2013 was modified to provide for (i) a waiver of the default under the 7% Convertible Note; (ii) a conversion price which is the lesser of (A) \$0.025 or (B) twenty percent (20%) of the average of the three (3) lowest daily VWAPs occurring during the twenty (20) consecutive Trading Days immediately preceding the applicable Conversion Date on which the Holder elects to convert all or part of this Note; (iii) the filing of a registration statement on Form S-1 within 10 days of the filing of the Company’s Form 10-Q for the period ended June 30, 2014; and (iv) continuing interest of 24% per annum. Due to the Company’s grey sheet trading status and other issues, the Company did not file the registration statement. This 20% of the average should be 70% and the Parties are working to resolve this issue.

Amended and Restated Joint Venture Agreement

The Company entered into an Amended and Restated Joint Venture Agreement dated July 1, 2014 with CANX whereby the Joint Venture Agreement dated November 19, 2013 was modified to provide for (i) up to \$12,000,000 in conditional financing subject to review by GrowLife and approval by OGI for business growth development opportunities in the legal cannabis industry for up to nine months, subject to extension; (ii) up to \$10,000,000 in working capital loans, with each loaning requiring approval in advance by CANX; (iii) confirmed that the five year warrants, subject to adjustment, at \$0.033 per share for the purchase of 140,000,000 and 100,000,000 were fully earned and were not considered compensation for tax purposes by the Company; (iv) granted CANX five year warrants, subject to adjustment, to purchase 300,000,000 shares of common stock at the fair market price of \$0.033 per share as determined by an independent appraisal; (v) warrants as defined in the Agreement related to the achievement of OGI milestones; (vi) a four year term, subject to adjustment and (vi) the filing of a registration statement on Form S-1 within 10 days of the filing of the Company’s Form 10-Q for the period ended June 30, 2014. Due to the Company’s grey sheet trading status and other issues, the Company did not file the registration statement.

Secured Convertible Note and Secured Credit Facility

The Company entered into a Secured Convertible Note and Secured Credit Facility dated June 25, 2014 with Logic Works whereby Logic Works agreed to provide up to \$500,000 in funding. Each funding requires approval in advance by Logic Works, provides for interest at 6% with a default interest of 24% per annum and requires repayment by June 26, 2016. The Note is convertible into common stock of the Company at the lesser of \$0.0070 or (B) twenty percent (20%) of the average of the three (3) lowest daily VWAPs occurring during the twenty (20) consecutive Trading Days

immediately preceding the applicable conversion date on which Logic Works elects to convert all or part of this 6% Convertible Note, subject to adjustment as provided in the Note. The 6% Convertible Note is collateralized by the assets of the Company. The Company also has agreed to file a registration statement on Form S-1 within 10 days of the filing of the Company's Form 10-Q for the three months ended June 30, 2014 and have the registration statement declared effective within ninety days of the filing of the Company's Form 10-Q for the three months ended June 30, 2014. Due to the Company's grey sheet trading status and other issues, the Company did not file the registration statement.

On July 10, 2014, the Company closed a Waiver and Modification Agreement, Amended and Restated Joint Venture Agreement, Secured Credit Facility and Secured Convertible Note with CANX, and Logic Works, a lender and shareholder of the Company. NOTE 8 – DERIVATIVE LIABILITY

In April 2008, the FASB issued a pronouncement that provides guidance on determining what types of instruments or embedded features in an instrument held by a reporting entity can be considered indexed to its own stock for the purpose of evaluating the first criteria of the scope exception in the pronouncement on accounting for derivatives. This pronouncement was effective for financial statements issued for fiscal years beginning after December 15, 2008. The adoption of these requirements can affect the accounting for warrants and many convertible instruments with provisions that protect holders from a decline in the stock price (or “down-round” provisions). For example, warrants or conversion features with such provisions are no longer recorded in equity. Down-round provisions reduce the exercise price of a warrant or convertible instrument if a company either issues equity shares for a price that is lower than the exercise price of those instruments or issues new warrants or convertible instruments that have a lower exercise price.

Derivative liability as of March 31, 2016 is as follows:

Financial Instruments	Fair Value Measurements Using			Carrying Amount at March 31, 2016
	Level 1	Level 2	Level 3	
Liabilities:				
Derivative Instruments	\$ -	\$ 3,845,467	\$ -	\$ 3,845,467
Total	\$ -	\$ 3,845,467	\$ -	\$ 3,845,467

For three months ended March 31, 2016, the Company recorded non-cash expense of \$2,468,292 related to the “change in fair value of derivative” expense related to its 6%, 7% and 18% convertible notes.

Derivative Instruments	\$-	\$1,377,175	\$-	\$1,377,175
Total	\$-	\$1,377,175	\$-	\$1,377,175

For the year ended December 31, 2015, the Company recorded non-cash income of \$723,740 related to the “change in fair value of derivative” expense related to its 6%, 7% and 18% convertible notes.

Non-Voting Preferred Stock

Under the terms of our articles of incorporation, the Company's board of directors is authorized to issue shares of non-voting preferred stock in one or more series without stockholder approval. The Company's board of directors has the discretion to determine the rights, preferences, privileges and restrictions, dividend rights, conversion rights, redemption privileges and liquidation preferences, of each series of non-voting preferred stock.

The purpose of authorizing the Company's board of directors to issue non-voting preferred stock and determine its rights and preferences is to eliminate delays associated with a stockholder vote on specific issuances. The issuance of non-voting preferred stock, while providing flexibility in connection with possible acquisitions, future financings and other corporate purposes, could have the effect of making it more difficult for a third party to acquire, or could discourage a third party from seeking to acquire, a majority of our outstanding voting stock. Other than the Series B and C Preferred Stock discussed below, there are no shares of non-voting preferred stock presently outstanding and the Company no present plans to issue any shares of preferred stock.

Series B Preferred Stock Designation

In connection with the Amended and Restated Securities Purchase Agreement, the Board of Directors, on October 21, 2015, approved the authorization of a Series B Preferred Stock as provided in our Certificate of Incorporation, as amended.

The Series B Preferred Stock has authorized 150,000 shares with a stated value equal to \$10.00 per share. Dividends payable to other classes of stock are restricted until repayment of the aggregate value of Series B Preferred Stock. Upon our liquidation or dissolution, Series B Preferred Stock has no priority or preference with respect to distributions of any assets by us. The Series B Preferred Stock is convertible into common stock by dividing the stated value of the shares being converted by 100% of the average of the five lowest closing bid prices for the common stock during the ten consecutive trading days immediately preceding the conversion date as quoted by Bloomberg, LP.

TCA was issued 150,000 shares of Series B Preferred Stock. However, in no event will Purchaser be entitled to hold in excess of 4.99% of the outstanding shares of common stock of the Company.

Also, TCA is also surrendering its Series B Preferred Stock in exchange for the \$1,500,000 balance evidenced by said preferred stock being added to the Second Replacement Debenture.

Series C Preferred Stock Designation

In connection with the Amended and Restated Securities Purchase Agreement, the Board of Directors, on October 21, 2015, approved the authorization of a Series C Preferred Stock as provided in our Certificate of Incorporation, as amended, and the issuance of 51 shares of Series C Preferred Stock. These shares only have voting rights in the event of a default by us under the Amended and Restated Transaction Documents. The Series C Preferred Stock is cancelled with the repayment of the TCA debt.

The Series C Preferred Stock Designation authorizes 51 shares of Series C Preferred Stock. Series C Preferred Stock is not entitled to dividend or liquidation rights and is not convertible into our common stock.

In the event of a default under the Amended and Restated Transaction Documents, each share of Series C Preferred Stock shall have voting votes equal to 0.019607 multiplied by the total issued and outstanding common stock and preferred stock eligible to vote divided by .49 minus the numerator. For example, if the total issued and outstanding common stock eligible to vote is 5,000,000, the voting rights of one share of Series C Preferred Stock shall be equal to 102,036 (e.g. $((0.019607 \times 5,000,000) / 0.49) - (0.019607 \times 5,000,000) = 102,036$).

Determining Fair Value under ASC 505

The Company records compensation expense associated with stock options and other equity-based compensation using the Black-Scholes-Merton option valuation model for estimating fair value of stock options granted under our plan. The Company amortizes the fair value of stock options on a ratable basis over the requisite service periods, which are generally the vesting periods. The expected life of awards granted represents the period of time that they are expected to be outstanding. The Company estimates the volatility of our common stock based on the historical volatility of its own common stock over the most recent period corresponding with the estimated expected life of the award. The Company bases the risk-free interest rate used in the Black Scholes-Merton option valuation model on the implied yield currently available on U.S. Treasury zero-coupon issues with an equivalent remaining term equal to the expected life of the award. The Company has not paid any cash dividends on our common stock and does not anticipate paying any cash dividends in the foreseeable future. Consequently, the Company uses an expected dividend yield of zero in the Black-Scholes-Merton option valuation model and adjusts share-based compensation for changes to the estimate of expected equity award forfeitures based on actual forfeiture experience. The effect of adjusting the forfeiture rate is recognized in the period the forfeiture estimate is changed.

Net loss per share (basic and diluted) associated with this expense was approximately (\$0.00). Mr. Hegyi's annual compensation is \$150,000 for the first year of the Hegyi Agreement; \$250,000 for the second year; and \$250,000 for the third year. Mr. Hegyi is also entitled to receive an annual bonus equal to four percent (4%) of the Company's EBITDA for that year. The annual bonus shall be paid no later than 31 days (i.e., by January 31st) following the end of each calendar year. Mr. Hegyi's first annual bonus will be calculated based on the Company's EBITDA for calendar year 2014, with such bonus payable on or before January 31, 2015. If Mr. Hegyi's employment is terminated for any reason prior to the expiration of the Term, as applicable, his annual bonus will be prorated for that year based on the number of days worked in that year. At the commencement of Mr. Hegyi's employment, an entity affiliated with Mr. Hegyi received a Warrant to purchase up to 25,000,000 shares of common stock of the Company at an exercise price of \$0.08 per share. The Hegyi Warrant is exercisable for five years. On June 20, 2014, the Company and Mr. Hegyi reduced the warrant life from ten to five years. On January 25, 2016, the Company reduced the warrant exercise price to \$0.01 per share effective December 18, 2015.

Mr. Hegyi was entitled to participate in all group employment benefits that are offered by the Company to the Company's senior executives and management employees from time to time, subject to the terms and conditions of such benefit plans, including any eligibility requirements. In addition, the Company is required to purchase and maintain during the Term a "key manager" insurance policy on Mr. Hegyi's life in the amount of \$4,000,000, paid as \$2,000,000 payable to Mr. Hegyi's named heirs or estate as the beneficiary, and \$2,000,000 payable to the Company. The Company and Mr. Hegyi waived this \$2,000,000 key manager insurance. If, prior to the expiration of the Term, the Company terminates Mr. Hegyi's employment for "Cause", or if Mr. Hegyi voluntarily terminates his employment without "Good Reason", or if Mr. Hegyi's employment is terminated by reason of his death, then all of the Company's obligations hereunder shall cease immediately, and Mr. Hegyi will not be entitled to any further compensation beyond any pro-rated base salary due and bonus amounts earned through the effective date of termination. Mr. Hegyi will also be reimbursed for any expenses incurred prior to the date of termination for which he was not previously reimbursed.

If the Company terminates Mr. Hegyi's employment at any time prior to the expiration of the Term without Cause, or if Mr. Hegyi terminates his employment at any time for "Good Reason" or due to a "Disability", Mr. Hegyi will be entitled to receive (i) his base salary amount through the end of the Term; and (ii) his annual bonus amount for each year during the remainder of the Term, which bonus amount shall be equal to the greater of (A) the annual bonus amount for the immediately preceding year, or (B) the bonus amount that would have been earned for the year of termination,

absent such termination. If there has been a “Change in Control” and the Company (or its successor or the surviving entity) terminates Mr. Hegyi’s employment without Cause as part of or in connection with such Change in Control (including any such termination occurring within one (1) month prior to the effective date of such Change in Control), then in addition to the benefits set forth above, Mr. Hegyi will be entitled to (i) an increase of \$300,000 in his annual base salary amount (or an additional \$25,000 per month) through the end of the Term; plus (ii) a gross-up in the annual base salary amount each year to account for and to offset any tax that may be due by Mr. Hegyi on any payments received or to be received by Mr. Hegyi under this Agreement that would result in a “parachute payment” as described in Section 280G of the Internal Revenue Code of 1986, as amended. If the Company (or its successor or the surviving entity) terminates Mr. Hegyi’s employment without Cause within twelve (12) months after the effective date of any Change in Control, or if Mr. Hegyi terminates his employment for Good Reason within twelve (12) months after the effective date of any Change in Control, then in addition to the benefits set forth above, Mr. Hegyi will be entitled to (i) an increase of \$300,000 in his annual base salary amount (or an additional \$25,000 per month), which increased annual base salary amount shall be paid for the remainder of the Term or for two (2) years following the Change in Control, whichever is longer; (ii) a gross-up in the annual base salary amount each year to account for and to offset any tax that may be due by Mr. Hegyi on any payments received or to be received by Mr. Hegyi under this Letter Agreement that would result in a “parachute payment” as described in Section 280G of the Internal Revenue Code of 1986, as amended; (iii) payment of Mr. Hegyi’s annual bonus amount as set forth above for each year during the remainder of the Term or for two (2) years following the Change in Control, whichever is longer; and (iv) health insurance coverage provided for and paid by the Company for the remainder of the Term or for two (2) years following the Change in Control, whichever is longer.

Amended Transactions TCA Global Credit Master Fund LP

Previously, the Company, its subsidiaries and TCA had entered into a Securities Purchase Agreement dated as of April 30, 2015, but made effective as of July 9, 2015, a Supplemental Securities Purchase Agreement effective as of August 6, 2015, and an Amended and Restated Securities Purchase Agreement dated as of October 27, 2015 whereby the Company agreed to sell and TCA agreed to purchase an aggregate of \$1,050,000 in original face amount of Senior, Secured, Convertible Redeemable Debentures.

First Amendment to Amended and Restated Securities Purchase Agreement

Effective as of May 4, 2016, the Company, its subsidiaries and TCA entered into a First Amendment to Amended and Restated Securities Purchase Agreement whereby the parties agreed to amend the terms of their existing purchase agreement in exchange for forbearance on existing defaults by the Company.

Due to the Company being in default on its repayment obligations under the Purchase Agreement and related documents, the parties agreed to restructure the Purchase Agreement whereby TCA agreed to forbear from enforcement of the Company defaults and to restructure a payment schedule for repayment of TCA under the Purchase Agreement.

Specifically, the First Amendment to Amended and Restated Securities Purchase Agreement made the following material modifications to the existing Purchase Agreement:

The existing Debentures were modified as described in more detail below.

Payments on the Debentures are expected to be made by (i) certain debt purchase agreement(s) to be entered into by TCA; (ii) under the parties S-1 transaction with Chicago Venture Partners, LP; or (iii) by the Company directly.

Second Replacement Debentures A and B

Effective as of May 4, 2016, the Company issued Second Replacement Debenture A in the principal amount of \$150,000 and Second Replacement Debenture B in the principal amount of \$2,681,209.82 (collectively, the "Second Replacement Debentures").

Per the First Amendment to Amended and Restated Securities Purchase Agreement, the Second Replacement Debentures were combined, and apportioned into two separate replacement debentures. The Second Replacement Debentures were intended to act in substitution for and to supersede the Debentures in their entirety. It was the intent of the Company and TCA that while the Second Replacement Debentures replace and supersede the Debentures, in their entirety, they were not in payment or satisfaction of the Debentures, but rather were the substitute of one evidence of debt for another without any intent to extinguish the old.

The Second Replacement Debentures contemplate TCA entering into debt purchase agreement(s) with third parties whereby TCA may, at its election, sever, split, divide or apportion the Second Replacement Debentures to accomplish the repayment of the balanced owed to TCA by Company.

The Second Replacement Debenture are convertible at 85% of the lowest daily volume weighted average price ("VWAP") of the Company's common stock during the five (5) business days immediately prior to a conversion date.

In connection with the above agreements, the parties acknowledged and agreed that certain advisory fees previously paid to TCA as provided in the Purchase Agreement in the amount of \$1,500,000 have been added and included within the principal balance of the Second Replacement Debentures. The conversion price discount on the Second Replacement Debentures will not apply to the amount of advisory fees added to the Second Replacement Debentures. TCA is also surrendering its Series B Preferred Stock in exchange for the \$1,500,000 balance evidenced by said preferred stock being added to the Second Replacement Debenture.

THE COMPANY AND OUR BUSINESS

GrowLife, Inc. (“GrowLife” or the “Company”) is incorporated under the laws of the State of Delaware and is headquartered in Seattle, Washington. We were founded in 2012 with the Closing of the Agreement and Plan of Merger with SGT Merger Corporation.

Our goal of becoming the nation’s largest cultivation facility service provider for the production of organics, herbs and greens and plant-based medicines has not changed. Our mission is to best serve more cultivators in the design, build-out, expansion and maintenance of their facilities with products of high quality, exceptional value and competitive price. Through knowledgeable representatives, regional centers and its e-commerce website, GrowLife provides essential and hard-to-find goods including media (i.e., farming soil), industry-leading hydroponics equipment, organic plant nutrients, and thousands more products to specialty grow operations across the United States.

We primarily sell through our wholly owned subsidiary, GrowLife Hydroponics, Inc. In addition to the promotion and sales of GrowLife owned brands, GrowLife companies distribute and sell over 3,000 products through its e-commerce distribution channel, Greners.com, and through our regional retail storefronts. GrowLife and its business units are organized and directed to operate strictly in accordance with all applicable state and federal laws.

Resumed Trading of our Common Stock

On February 18, 2016, our common stock resumed unsolicited quotation on the OTC Bulletin Board after receiving clearance from the Financial Industry Regulatory Authority (“FINRA”) on our Form 15c2-11. We are currently taking the appropriate steps to uplist to the OTCQB Exchange and resume priced quotations with market makers as soon as it is able.

Market Size and Growth

As the states across the country approve medicinal cannabis usage, with different THC and CBD compositions, cultivators purchase equipment and supplies from GrowLife and similar indoor growing supply companies. Therefore, as the cannabis market grows so does the revenue growth opportunity for us. Researchers from The ArcView Group, a cannabis industry investment and research firm based in Oakland, California, found that the U.S. market for cannabis grew 74 percent in 2014 to \$2.7 billion, up from \$1.5 billion in 2013. Today, 23 states plus Washington, DC have legalized cannabis for medical use and four states plus Washington, DC have passed recreational use into law.

We serve a new, yet sophisticated community of commercial and urban cultivators growing specialty crops including organics, greens and plant-based medicines. Unlike the traditional agricultural industry, these cultivators use innovative indoor growing techniques to produce specialty crops in highly controlled environments. This enables them to produce crops at higher yields without having to compromise quality - regardless of the season or weather and drought conditions.

Indoor growing techniques have primarily been used to cultivate plant-based medicines. Plant-based medicines often require high-degree of regulation and controls including government compliance, security, and crop consistency, making indoor growing techniques a preferred method. Cultivators of plant-based medicines often make a significant investment to design and build-out their facilities. They look to work with companies such as GrowLife who understand their specific needs, and can help mitigate risks that could jeopardize their crops.

The ArcView report indicates that plant-based medicines are the fastest-growing market in the U.S., and conservatively predicts the market could be worth more than \$10 billion within five years. Several industry pundits including Dr. Sanjay Gupta of CNN believe that plant-based medicines may even displace prescription pain medication by providing patients with a safer, more affordable alternative.

Indoor growing techniques, however, are not limited to plant-based medicines. Vertical farms producing organic fruits and vegetables are beginning to emerge in the market due to a rising shortage of farmland, and environmental vulnerabilities including drought, other severe weather conditions and insect pests. Indoor growing techniques enables cultivators to grow crops all-year-round in urban areas, and take up less ground while minimizing environmental risks. Indoor growing techniques typically require a more significant upfront investment to design and build-out these facilities, than traditional farmlands. If new innovations lower the costs for indoor growing, and the costs to operate traditional farmlands continue to rise, then indoor growing techniques may be a compelling alternative for the broader agricultural industry.

Strategy

Our goal is to become the nation's largest cultivation facility service provider for the production of organics, herbs and greens and plant-based medicines. We intend to achieve our goal by (i) expanding our nationwide, multi-channel sales network presence, (ii) offering the best terms for the full range of build-out equipment and consumable supplies, and (iii) deliver superior, innovative products exclusively.

First, we provide distribution through retail, e-commerce and direct sales to have national coverage and serve cultivators of all sizes. Each channel offers varying pricing for differing benefits. Retail sells at list price by offering inventory convenience, e-commerce provides the lowest price without requiring local inventory, and direct sales delivers the best bid price for high-volume purchasers. Additional points of service may be added through existing distribution locations and services. This may be done in several manners such as a value-added reseller program that reaches hundreds of cultivator-centric locations or with collations with other resellers.

Second, we serve the needs of all size cultivators and each one's unique formulation. We provide thousands of varieties of supplies from dozens of vendors and distributors. More importantly is our experience of knowing which products to recommend under each customer's circumstance. Growing operations seeking expansion may also qualify for leasing terms by one of our financing partner.

And third, our experience with hundreds of customers allows us to determine specific product needs and sources to test new designs. Lights, pesticides, nutrients, extraction and growing systems are some examples of products that GrowLife has obtained exclusive access to purchase and distribute. Popular name branded products are seeking to be part of the GrowLife Company in many forms. In exchange, we can market their products in a unique manner over generic products.

Our company will expand on these strategies until it serves all the indoor cultivators throughout the country. Once a customer is engaged, we will gradually expand their purchasing market share by providing greater economic benefit to the customers who buy more products from GrowLife than from other suppliers.

Key Market Priorities

Demand for indoor growing equipment is currently high due to legalization of plant-based medicines, primarily cannabis, which is mainly due to equipment purchases for build-out and repeated consumables. This demand is projected to continue to grow as a result of the supporting state laws in 23 states and the District of Columbia. Continued innovation in more efficient build-out technologies along with larger and consolidated cultivation facilities will further expand market demand for our products and services.

We expect for the market to continue to segment into urban farmers serving groups of individuals, community cultivators, and large-scale cultivation facilities across the states. Each segment will be optimized to different distribution channels that we currently provide. Our volume purchasing will allow us to obtain the best prices and maximize both our revenues and gross margins.

The nature of the cannabis industry's inefficiencies due to the lack of interstate commerce imposed by the Federal government has segmented the market opportunities by State laws, population and demand. Currently, Colorado laws and population demand make it the most progressive and top market in the industry. We have elected to have a major retail presence in Colorado with our direct sales team and centralized our national e-commerce operations. We are currently reaching most of the legal states using both direct sales and seek to re-introduce GrowLife eco products to other hydroponic retailers.

Employees

As of March 31, 2016, we had one full-time employee and one consultant at our Seattle, Washington office. Marco Hegyi, our President, is based in Seattle, Washington. Mark E. Scott, our consulting CFO, is based out of in Seattle, Washington. In addition, we have 7 employees located throughout the United States who operate our e-commerce, direct sales and retail businesses. None of our employees is subject to a collective bargaining agreement or represented by a trade or labor union. We believe that we have a good relationship with our employees.

Key Partners

Our key customers varying by state and are expected to be more defined as the company moves from its retail walk-in purchasing sales strategy to serving cultivation facilities directly and under predictable purchasing contracts.

Our key suppliers include distributors such as HydroFarm, Urban Horticultural Supply and Sunlight Supply to product-specific suppliers. All the products purchased and resold are applicable to indoor growing for organics, greens, and plant-based medicines.

Competition

Certain large commercial cultivators have found themselves willing to assume their own equipment support by buying large volume purchased directly from certain suppliers and distributors such as Sunlight Supplies, HydroFarm, and UHS. Other key competitors on the retail side consist of local and regional hydroponic resellers of indoor growing equipment. On the e-commerce business, GrowersHouse.com, Hydrobuilder.com, HorticultureSource.com and smaller online resellers using Amazon and eBay e-commerce market systems.

Intellectual Property and Proprietary Rights

Our intellectual property consists of brands and their related trademarks and websites, customer lists and affiliations, product know-how and technology, and marketing intangibles.

Our other intellectual property is primarily in the form of trademarks and domain names. Government Regulation

Currently, there are twenty-three states plus the District of Columbia that have laws and/or regulation that recognize in one form or another legitimate medical uses for cannabis and consumer use of cannabis in connection with medical treatment. About a dozen other states are considering legislation to similar effect. There are currently four states that allow recreational use of cannabis. As of the date of this writing, the policy and regulations of the Federal government and its agencies is that cannabis has no medical benefit and a range of activities including cultivation and use of cannabis for personal use is prohibited on the basis of federal law and may or may not be permitted on the basis of state law. Active enforcement of the current federal regulatory position on cannabis on a regional or national basis may directly and adversely affect the willingness of customers of GrowLife to invest in or buy products from GrowLife. Active enforcement of the current federal regulatory position on cannabis may thus indirectly and adversely affect revenues and profits of the GrowLife companies.

All this being said, many reports show that the majority of the American public is in favor of making medical cannabis available as a controlled substance to those patients who need it. The need and consumption will then require cultivators to continue to provide safe and compliant crops to consumers. The cultivators will then need to build facilities and use consumable products, which GrowLife provides.

THE COMPANY'S COMMON STOCK

Our common stock traded on the grey market under the symbol "PHOT" through February 17, 2016. While the company was without a market maker, its stock does trade directly between buyers and sellers on the grey sheets. The quotations reflect inter-dealer prices, without retail markup, markdown or commission, and may not represent actual transactions. Consequently, the information provided below was not be indicative of our common stock price under different conditions.

On February 18, 2016, our common stock resumed unsolicited quotation on the OTC Bulletin Board after receiving clearance from the Financial Industry Regulatory Authority ("FINRA") on our Form 15c2-11. We are currently taking the appropriate steps to uplist to the OTCQB Exchange and resume priced quotations with market makers as soon as it is able.

PRIMARY RISKS AND UNCERTAINTIES

We are exposed to various risks related to legal proceedings, our need for additional financing, the sale of significant numbers of our shares, the potential adjustment in the exercise price of our convertible debentures and a volatile market price for our common stock. These risks and uncertainties are discussed in more detail below in Part II, Item 1A.

Effective as of May 4, 2016, we, our subsidiaries and TCA entered into a First Amendment to Amended and Restated Securities Purchase Agreement whereby the parties agreed to amend the terms of their existing purchase agreement in exchange for forbearance on existing defaults by the Company.

Due to our being in default on its repayment obligations under the Purchase Agreement and related documents, the parties agreed to restructure the Purchase Agreement whereby TCA agreed to forbear from enforcement of our defaults and to restructure a payment schedule for repayment of TCA under the Purchase Agreement.

Specifically, the First Amendment to Amended and Restated Securities Purchase Agreement made the following material modifications to the existing Purchase Agreement:

The Second Replacement Debentures were intended to act in substitution for and to supersede the Debentures in their entirety. It was the intent of the Company and TCA that while the Second Replacement Debentures replace and supersede the Debentures, in their entirety, they were not in payment or satisfaction of the Debentures, but rather were the substitute of one evidence of debt for another without any intent to extinguish the old.

In connection with the above agreements, the parties acknowledged and agreed that certain advisory fees previously paid to TCA as provided in the Purchase Agreement in the amount of \$1,500,000 have been added and included within the principal balance of the Second Replacement Debentures. The conversion price discount on the Second Replacement Debentures will not apply to the amount of advisory fees added to the Second Replacement Debentures. TCA is also surrendering its Series B Preferred Stock in exchange for the \$1,500,000 balance evidenced by said preferred stock being added to the Second Replacement Debenture.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements (as that term is defined in Item 303 of Regulation S-K) that are reasonably likely to have a current or future material effect on our financial condition, revenue or expenses, results of operations, liquidity, capital expenditures or capital resources.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

3.

This item is not applicable.

ITEM 4. CONTROLS AND PROCEDURES

4.

a) Evaluation of Disclosure Controls and Procedures

We conducted an evaluation under the supervision and with the participation of our management, of the effectiveness of the design and operation of our disclosure controls and procedures. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (“Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures also include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on this evaluation, our principal executive and principal financial officers concluded as of March 31, 2016 that our disclosure controls and procedures were not effective at the reasonable assurance level due to the material weaknesses in our internal controls over financial reporting discussed immediately below.

Identified Material Weakness

A material weakness in our internal control over financial reporting is a control deficiency, or combination of control deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected.

Management identified the following material weakness during its assessment of internal controls over financial reporting:

Audit Committee:

On June 3, 2014, we formed an Audit Committee and appointed an audit committee financial expert as defined by SEC and as adopted under the Sarbanes-Oxley Act of 2002. Prior to this, we did not have an Audit Committee to oversee financial reporting and used external service providers to ensure compliance with the SEC requirements. The current Audit Committee has one management director. Subsequent to the fiscal year-ended December 31, 2015, Mr. Fasci was appointed as Secretary of the Company and is no longer deemed independent under this standard.

Other Weaknesses:

Our information systems lack sufficient controls limiting access to key applications and data.

Our inventory system lacked standardized product descriptions and effective controls to ensure the accuracy, valuation, and timeliness of the financial accounting process around inventory, including a lack of accuracy and basis for valuation resulting in adjustments to the amount of cost of revenues and the carrying amount of inventory.

b) Changes in Internal Control over Financial Reporting

During the quarter ended March 31, 2016, there were no changes in our internal controls over financial reporting during this fiscal quarter that materially affected, or is reasonably likely to have a materially affect, on our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are involved in the disputes and legal proceedings described below. In addition, as a public company, we are also potentially susceptible to litigation, such as claims asserting violations of securities laws. Any such claims, with or without merit, if not resolved, could be time-consuming and result in costly litigation. We accrue any contingent liabilities that are likely.

Class Actions Alleging Violations of Federal Securities Laws

Beginning on April 18, 2014, three class action lawsuits alleging violations of federal securities laws were filed against the Company in United States District Court, Central District of California (the “Court”). At a hearing held on July 21, 2014, the three class action lawsuits were consolidated into one case with Lawrence Rosen as the lead plaintiff (the “Consolidated Class Action,” styled Romero et al. vs. GrowLife et al.). On May 15, 2014 and August 4, 2014, respectively two shareholder derivative lawsuits were filed against the Company with the Court (the “Derivative Actions”). On October 20, 2014, AmTrust North America, our insurer, filed a lawsuit contesting insurance coverage on the above legal proceedings. We made a general appearance in this action. On June 1, 2015, the Court preliminarily approved the proposed settlement of the Derivative Actions pursuant to a proposed stipulated settlement agreement. On August 3, 2015, the Court entered a Final Order and Judgment resolving the Consolidated Class Action litigation in its entirety. The Consolidated Class Action was thereby dismissed in its entirety with prejudice and without costs. On August 10, 2015, pursuant to a settlement by and between the Company and AmTrust North America, AmTrust’s lawsuit contesting insurance coverage of the Consolidated Class Action and Derivative Actions was dismissed in its entirety with prejudice pursuant to a Stipulation for Dismissal of Entire Action with Prejudice executed by and between AmTrust and the Company. On August 17, 2015, the Court entered a Final Order and Judgment resolving the Derivative Actions in their entirety. The Derivative Actions were thereby dismissed in their entirety with prejudice. We issued \$2 million in common stock or 115,141,048 shares of the Company’s common stock on April 6, 2016 pursuant to the settlement of the Consolidated Class Action and Derivative Action lawsuits alleging violations of federal securities laws that were filed against the Company in United States District Court, Central District of California. We accrued \$2,000,000 as loss on class action lawsuits and contingent liabilities during the year ending December 31, 2015.

Sales and Payroll Tax Liabilities

As of March 31, 2016, we owe approximately \$110,000 in sales tax and \$19,000 in payroll taxes. We are currently negotiating or operating under payment plans on these liabilities.

Potential Convertible Note Defaults

Several of our convertible promissory notes remain outstanding beyond their respective maturity dates. This may trigger an event of default under the respective agreements. We are working with these noteholders to convert their notes into common stock and intends to resolve these outstanding issues as soon as practicable.

Other Legal Proceedings

We are in default on our Portland, Maine, Boulder, Colorado and Plaistow, New Hampshire store leases for non-payment of lease payments and we are negotiating with the landlords. We are currently subject to legal actions with various vendors and a former officer.

It is possible that additional lawsuits may be filed and served on the Company.

On April 11, 2016, TCA and the Company mutually agreed to terminate the Committed Equity Facility.

Effective as of May 4, 2016, the Company, its subsidiaries and TCA entered into a First Amendment to Amended and Restated Securities Purchase Agreement whereby the parties agreed to amend the terms of their existing purchase agreement in exchange for forbearance on existing defaults by the Company.

Due to the Company being in default on its repayment obligations under the Purchase Agreement and related documents, the parties agreed to restructure the Purchase Agreement whereby TCA agreed to forbear from enforcement of the Company defaults and to restructure a payment schedule for repayment of TCA under the Purchase Agreement.

Specifically, the First Amendment to Amended and Restated Securities Purchase Agreement made the following material modifications to the existing Purchase Agreement:

The existing Debentures were modified as described in more detail below

Payments on the Debentures shall be made by (1) certain debt purchase agreement(s) to be entered into by TCA, (2) under the parties S-1 transaction with Chicago Venture Partners, LP, or (3) by the Company directly

Per the First Amendment to Amended and Restated Securities Purchase Agreement, the Second Replacement Debentures were combined, and apportioned into two separate replacement debentures. The Second Replacement Debentures were intended to act in substitution for and to supersede the Debentures in their entirety. It was the intent of the Company and TCA that while the Second Replacement Debentures replace and supersede the Debentures, in their entirety, they were not in payment or satisfaction of the Debentures, but rather were the substitute of one evidence of debt for another without any intent to extinguish the old.

The Second Replacement Debentures contemplate TCA entering into debt purchase agreement(s) with third parties whereby TCA may, at its election, sever, split, divide or apportion the Second Replacement Debentures to accomplish the repayment of the balanced owed to TCA by Company.

The Second Replacement Debenture are convertible at 85% of the lowest daily volume weighted average price (“VWAP”) of the Company’s common stock during the five (5) business days immediately prior to a conversion date.

In connection with the above agreements, the parties acknowledged and agreed that certain advisory fees previously paid to TCA as provided in the Purchase Agreement in the amount of \$1,500,000 have been added and included within the principal balance of the Second Replacement Debentures. The conversion price discount on the Second Replacement Debentures will not apply to the amount of advisory fees added to the Second Replacement Debentures. TCA is also surrendering its Series B Preferred Stock in exchange for the \$1,500,000 balance evidenced by said preferred stock being added to the Second Replacement Debenture.

TCA is able to significantly influence all matters submitted to our stockholders for approval, as well as our officers, directors, management and affairs. For example, these persons, if they choose to act together, could significantly influence the election of directors and approval of any merger, consolidation or sale of all or substantially all of our assets. This concentration of voting power could delay or prevent an acquisition of us on terms that other stockholders may desire.

Failure to operate in accordance with the Agreements with TCA could result in the cancellation of these agreements, result in foreclosure on our assets in event of default and would have a material adverse effect on our business, results of operations or financial condition.

Suspension of trading of the Company's securities.

On April 10, 2014, we received notice from the SEC that trading of our common stock on the OTCBB was to be suspended from April 10, 2014 through April 24, 2014. The SEC issued its order pursuant to Section 12(k) of the Securities Exchange Act of 1934. According to the notice received by us from the SEC: "It appears to the Securities and Exchange Commission that the public interest and the protection of investors require a suspension of trading in the securities of GrowLife, Inc. because of concerns regarding the accuracy and adequacy of information in the marketplace and potentially manipulative transactions in GrowLife's common stock." To date, the Company has not received notice from the SEC that it is being formally investigated.

On February 18, 2016, our common stock resumed unsolicited quotation on the OTC Bulletin Board after receiving clearance from the Financial Industry Regulatory Authority ("FINRA") on our Form 15c2-11. We are currently taking the appropriate steps to uplist to the OTCQB Exchange and resume priced quotations with market makers as soon as it is able.

The suspension of trading eliminated our market makers, resulted in our trading on the grey sheets, resulted in legal proceedings and restricted our access to capital. This action had a material adverse effect on our business, financial condition and results of operations. If we are unable to obtain additional financing when it is needed, we will need to restructure our operations, and divest all or a portion of our business.

SEC charges outsiders with manipulating our securities.

On August 5, 2014, the SEC charged four promoters with ties to the Pacific Northwest for manipulating our securities. The SEC alleged that the four promoters bought inexpensive shares of thinly traded penny stock companies on the open market and conducted pre-arranged, manipulative matched orders and wash trades to create the illusion of an active market in these stocks. They then sold their shares in coordination with aggressive third party promotional campaigns that urged investors to buy the stocks because the prices were on the verge of rising substantially. This action has had a material adverse effect on our business, financial condition and results of operations. If we are unable to obtain additional financing when it is needed, we will need to restructure our operations, and divest all or a portion of our business.

On July 9, 2015, the SEC entered into settlements with two of the promoters. In connection with the settlement of their SEC action, the two men are liable for disgorgement of approximately \$2.1 million and \$306,000 in illicit profits, respectively. Earlier this year the two men were also sentenced to five and three years in prison, respectively, for their participation in the scheme.

We are involved in Legal Proceedings.

We are involved in the disputes and legal proceedings as discussed in this Form 10-Q. In addition, as a public company, we are also potentially susceptible to litigation, such as claims asserting violations of securities laws. Any such claims, with or without merit, if not resolved, could be time-consuming and result in costly litigation. There can be no assurance that an adverse result in any future proceeding would not have a potentially material adverse on our business, results of operations or financial condition.

Our Joint Venture Agreement with CANX USA, LLC is important to our operations.

On July 10, 2014, we closed a Waiver and Modification Agreement, Amended and Restated Joint Venture Agreement, Secured Credit Facility and Secured Convertible Note with CANX, and Logic Works, a lender and shareholder of the Company. The Agreements require the filing of a registration statement on Form S-1 within 10 days of the filing of the Company's Form 10-Q for the period ended June 30, 2014. Due to the Company's grey sheet trading status and other issues, the Company did not file the registration statement.

Previously, we entered into a Joint Venture Agreement with CANX, a Nevada limited liability company. Under the terms of the Joint Venture Agreement, the Company and CANX formed Organic Growth International, LLC ("OGI"), a Nevada limited liability company, for the purpose of expanding the Company's operations in its current retail hydroponic businesses and in other synergistic business verticals and facilitating additional funding for commercially financeable transactions of up to \$40,000,000.

We initially owned a non-dilutive 45% share of OGI and the Company may acquire a controlling share of OGI as provided in the Joint Venture Agreement. In accordance with the Joint Venture Agreement, the Company and CANX entered into a Warrant Agreement whereby the Company delivered to CANX a warrant to purchase 140,000,000 shares of the Company common stock that is convertible at \$0.033 per share, subject to adjustment as provided in the warrant. The five year warrant expires November 18, 2018. Also in accordance with the Joint Venture Agreement, on February 7, 2014 we issued an additional warrant to purchase 100,000,000 shares of our common stock that is convertible at \$0.033 per share, subject to adjustment as provided in the warrant. The five year warrant expires February 6, 2019.

Waiver and Modification Agreement

We entered into a Waiver and Modification Agreement dated June 25, 2014 with Logic Works whereby the 7% Convertible Note with Logic Works dated December 20, 2013 was modified to provide for (i) a waiver of the default under the 7% Convertible Note; (ii) a conversion price which is the lesser of (A) \$0.025 or (B) twenty percent (20%) of the average of the three (3) lowest daily VWAPs occurring during the twenty (20) consecutive Trading Days immediately preceding the applicable Conversion Date on which the Holder elects to convert all or part of this Note; (iii) the filing of a registration statement on Form S-1 within 10 days of the filing of the Company's Form 10-Q for the period ended June 30, 2014; and (iv) continuing interest of 24% per annum. Due to our grey sheet trading status and other issues, the Company did not file the registration statement. This 20% of the average should be 70% and the Parties are working to resolve this issue.

Amended and Restated Joint Venture Agreement

We entered into an Amended and Restated Joint Venture Agreement dated July 1, 2014 with CANX whereby the Joint Venture Agreement dated November 19, 2013 was modified to provide for (i) up to \$12,000,000 in conditional financing subject to review by GrowLife and approval by OGI for business growth development opportunities in the legal cannabis industry for up to nine months, subject to extension; (ii) up to \$10,000,000 in working capital loans, with each loaning requiring approval in advance by CANX; (iii) confirmed that the five year warrants, subject to adjustment, at \$0.033 per share for the purchase of 140,000,000 and 100,000,000 were fully earned and were not considered compensation for tax purposes by us; (iv) granted CANX five year warrants, subject to adjustment, to purchase 300,000,000 shares of common stock at the fair market price of \$0.033 per share as determined by an independent appraisal; (v) warrants as defined in the Agreement related to the achievement of OGI milestones; (vi) a four year term, subject to adjustment and (vi) the filing of a registration statement on Form S-1 within 10 days of the filing of the Company's Form 10-Q for the period ended June 30, 2014. Due to our grey sheet trading status and other issues, we did not file the registration statement.

Secured Convertible Note and Secured Credit Facility

We entered into a Secured Convertible Note and Secured Credit Facility dated June 25, 2014 with Logic Works whereby Logic Works agreed to provide up to \$500,000 in funding. Each funding requires approval in advance by Logic Works, provides for interest at 6% with a default interest of 24% per annum and requires repayment by June 26, 2016. The Note is convertible into common stock of the Company at the lesser of \$0.0070 or (B) twenty percent (20%) of the average of the three (3) lowest daily VWAPs occurring during the twenty (20) consecutive Trading Days immediately preceding the applicable conversion date on which Logic Works elects to convert all or part of this 6% Convertible Note, subject to adjustment as provided in the Note. The 6% Convertible Note is collateralized by the assets of the Company. The Company also has agreed to file a registration statement on Form S-1 within 10 days of the filing of our Form 10-Q for the three months ended June 30, 2014 and have the registration statement declared effective within ninety days of the filing of the Company's Form 10-Q for the three months ended June 30, 2014. Due to our grey sheet trading status and other issues, we did not file the registration statement.

On July 10, 2014, we closed a Waiver and Modification Agreement, Amended and Restated Joint Venture Agreement, Secured Credit Facility and Secured Convertible Note with CANX, and Logic Works, a lender and shareholder of the Company. As of December 31, 2014, we have borrowed \$350,000 under the Secured Convertible Note and Secured Credit Facility dated June 25, 2014 with Logic Works.

OGI was incorporated on January 7, 2014 in the State of Nevada and had no business activities as of March 31, 2016.

Our proposed business is dependent on laws pertaining to the marijuana industry.

Continued development of the marijuana industry is dependent upon continued legislative authorization of the use and cultivation of marijuana at the state level. Any number of factors could slow or halt progress in this area. Further, progress, while encouraging, is not assured. While there may be ample public support for legislative action, numerous factors impact the legislative process. Any one of these factors could slow or halt use of marijuana, which would negatively impact our proposed business.

As of May 16, 2016, 23 states and the District of Columbia allow its citizens to use medical marijuana. Additionally, 4 states have legalized cannabis for adult use. The state laws are in conflict with the federal Controlled Substances Act, which makes marijuana use and possession illegal on a national level. The Obama administration has effectively stated that it is not an efficient use of resources to direct law federal law enforcement agencies to prosecute those lawfully abiding by state-designated laws allowing the use and distribution of medical marijuana. However, there is no guarantee that the administration will not change its stated policy regarding the low-priority enforcement of federal laws. Additionally, any new administration that follows could change this policy and decide to enforce the federal laws strongly. Any such change in the federal government's enforcement of current federal laws could cause significant financial damage to us and its shareholders.

Further, while we do not harvest, distribute or sell marijuana, by supplying products to growers of marijuana, we could be deemed to be participating in marijuana cultivation, which remains illegal under federal law, and exposes us to potential criminal liability, with the additional risk that our business could be subject to civil forfeiture proceedings.

The marijuana industry faces strong opposition.

It is believed by many that large, well-funded businesses may have a strong economic opposition to the marijuana industry. We believe that the pharmaceutical industry clearly does not want to cede control of any product that could generate significant revenue. For example, medical marijuana will likely adversely impact the existing market for the current “marijuana pill” sold by mainstream pharmaceutical companies. Further, the medical marijuana industry could face a material threat from the pharmaceutical industry, should marijuana displace other drugs or encroach upon the pharmaceutical industry’s products. The pharmaceutical industry is well funded with a strong and experienced lobby that eclipses the funding of the medical marijuana movement. Any inroads the pharmaceutical industry could make in halting or impeding the marijuana industry harm our business, prospects, results of operation and financial condition.

Marijuana remains illegal under Federal law.

Marijuana is a Schedule-I controlled substance and is illegal under federal law. Even in those states in which the use of marijuana has been legalized, its use remains a violation of federal law. Since federal law criminalizing the use of marijuana preempts state laws that legalize its use, strict enforcement of federal law regarding marijuana would harm our business, prospects, results of operation and financial condition.

Raising additional capital to implement our business plan and pay our debts will cause dilution to our existing stockholders, require us to restructure our operations, and divest all or a portion of our business.

We need additional financing to implement our business plan and to service our ongoing operations and pay our current debts. There can be no assurance that we will be able to secure any needed funding, or that if such funding is available, the terms or conditions would be acceptable to us.

If we raise additional capital through borrowing or other debt financing, we may incur substantial interest expense. Sales of additional equity securities will dilute on a pro rata basis the percentage ownership of all holders of common stock. When we raise more equity capital in the future, it will result in substantial dilution to our current stockholders.

If we are unable to obtain additional financing when it is needed, we will need to restructure our operations, and divest all or a portion of our business.

Potential Convertible Note Defaults

Several of the Company’s convertible promissory notes remain outstanding beyond their respective maturity dates. This may trigger an event of default under the respective agreements. The Company is working with these noteholders to convert their notes into common stock and intends to resolve these outstanding issues as soon as practicable. Any default could have a significant adverse effect on our cash flows and should we be unsuccessful in negotiating an extension or other modification, we may have to restructure our operations, divest all or a portion of its business, or file for bankruptcy.

Closing of bank accounts could have a material adverse effect on our business, financial condition and/or results of operations.

As a result of the regulatory environment, we have experienced the closing of several of our bank accounts since March 2014. We have been able to open other bank accounts. However, we may have other banking accounts closed. These factors impact management and could have a material adverse effect on our business, financial condition and/or results of operations.

Federal regulation and enforcement may adversely affect the implementation of medical marijuana laws and regulations may negatively impact our revenues and profits.

Currently, there are twenty three states plus the District of Columbia that have laws and/or regulation that recognize in one form or another legitimate medical uses for cannabis and consumer use of cannabis in connection with medical treatment. Many other states are considering legislation to similar effect. As of the date of this writing, the policy and regulations of the Federal government and its agencies is that cannabis has no medical benefit and a range of activities including cultivation and use of cannabis for personal use is prohibited on the basis of federal law and may or may not be permitted on the basis of state law. Active enforcement of the current federal regulatory position on cannabis on a regional or national basis may directly and adversely affect the willingness of customers of GrowLife to invest in or buy products from GrowLife that may be used in connection with cannabis. Active enforcement of the current federal regulatory position on cannabis may thus indirectly and adversely affect revenues and profits of the GrowLife companies.

Our history of net losses has raised substantial doubt regarding our ability to continue as a going concern. If we do not continue as a going concern, investors could lose their entire investment.

Our history of net losses has raised substantial doubt about our ability to continue as a going concern, and as a result, our independent registered public accounting firm included an explanatory paragraph in its report on our financial statements as of and for the years ended December 31, 2015 and 2014 with respect to this uncertainty. Accordingly, our ability to continue as a going concern will require us to seek alternative financing to fund our operations. This going concern opinion could materially limit our ability to raise additional funds through the issuance of new debt or equity securities or otherwise. Future reports on our financial statements may include an explanatory paragraph with respect to our ability to continue as a going concern.

We have a history of operating losses and there can be no assurance that we can again achieve or maintain profitability.

We have experienced net losses since inception. As of March 31, 2016, we had an accumulated deficit of \$119.6 million. There can be no assurance that we will achieve or maintain profitability.

We are subject to corporate governance and internal control reporting requirements, and our costs related to compliance with, or our failure to comply with existing and future requirements, could adversely affect our business.

We must comply with corporate governance requirements under the Sarbanes-Oxley Act of 2002 and the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, as well as additional rules and regulations currently in place and that may be subsequently adopted by the SEC and the Public Company Accounting Oversight Board. These laws, rules, and regulations continue to evolve and may become increasingly stringent in the future. We are required to include management's report on internal controls as part of our annual report pursuant to Section 404 of the Sarbanes-Oxley Act. We strive to continuously evaluate and improve our control structure to help ensure that we comply with Section 404 of the Sarbanes-Oxley Act. The financial cost of compliance with these laws, rules, and regulations is expected to remain substantial.

We cannot assure you that we will be able to fully comply with these laws, rules, and regulations that address corporate governance, internal control reporting, and similar matters. Failure to comply with these laws, rules and regulations could materially adversely affect our reputation, financial condition, and the value of our securities.

Our management has concluded that we have material weaknesses in our internal controls over financial reporting and that our disclosure controls and procedures are not effective.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of a company's annual or interim financial statements will not be prevented or detected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the company's financial reporting. During the review of our financial statements for the year ended December 31, 2015, our management identified material weaknesses in our internal control over financial reporting. If these weaknesses continue, investors could lose confidence in the accuracy and completeness of our financial reports and other disclosures.

Our inability to effectively manage our growth could harm our business and materially and adversely affect our operating results and financial condition.

Our strategy envisions growing our business. We plan to expand our product, sales, administrative and marketing organizations. Any growth in or expansion of our business is likely to continue to place a strain on our management and administrative resources, infrastructure and systems. As with other growing businesses, we expect that we will need to further refine and expand our business development capabilities, our systems and processes and our access to financing sources. We also will need to hire, train, supervise and manage new and retain contributing employees. These processes are time consuming and expensive, will increase management responsibilities and will divert management attention. We cannot assure you that we will be able to:

expand our products effectively or efficiently or in a timely manner;

allocate our human resources optimally;

meet our capital needs;

identify and hire qualified employees or retain valued employees; or

incorporate effectively the components of any business or product line that we may acquire in our effort to achieve growth.

Our inability or failure to manage our growth and expansion effectively could harm our business and materially and adversely affect our operating results and financial condition.

Our operating results may fluctuate significantly based on customer acceptance of our products. As a result, period-to-period comparisons of our results of operations are unlikely to provide a good indication of our future performance. Management expects that we will experience substantial variations in our net sales and operating results from quarter to quarter due to customer acceptance of our products. If customers don't accept our products, our sales and revenues will decline, resulting in a reduction in our operating income.

Customer interest for our products could also be impacted by the timing of our introduction of new products. If our competitors introduce new products around the same time that we issue new products, and if such competing products are superior to our own, customers' desire for our products could decrease, resulting in a decrease in our sales and revenues. To the extent that we introduce new products and customers decide not to migrate to our new products from our older products, our revenues could be negatively impacted due to the loss of revenue from those customers. In the event that our newer products do not sell as well as our older products, we could also experience a reduction in our revenues and operating income.

As a result of fluctuations in our revenue and operating expenses that may occur, management believes that period-to-period comparisons of our results of operations are unlikely to provide a good indication of our future performance.

If we do not successfully generate additional products and services, or if such products and services are developed but not successfully commercialized, we could lose revenue opportunities.

Our future success depends, in part, on our ability to expand our product and service offerings. To that end we have engaged in the process of identifying new product opportunities to provide additional products and related services to our customers. The process of identifying and commercializing new products is complex and uncertain, and if we fail to accurately predict customers' changing needs and emerging technological trends our business could be harmed. We may have to commit significant resources to commercializing new products before knowing whether our investments will result in products the market will accept. Furthermore, we may not execute successfully on commercializing those products because of errors in product planning or timing, technical hurdles that we fail to overcome in a timely fashion, or a lack of appropriate resources. This could result in competitors providing those solutions before we do and a reduction in net sales and earnings.

The success of new products depends on several factors, including proper new product definition, timely completion and introduction of these products, differentiation of new products from those of our competitors, and market acceptance of these products. There can be no assurance that we will successfully identify new product opportunities, develop and bring new products to market in a timely manner, or achieve market acceptance of our products or that products and technologies developed by others will not render our products or technologies obsolete or noncompetitive.

Our future success depends on our ability to grow and expand our customer base. Our failure to achieve such growth or expansion could materially harm our business.

To date, our revenue growth has been derived primarily from the sale of our products and through the purchase of existing businesses. Our success and the planned growth and expansion of our business depend on us achieving greater and broader acceptance of our products and expanding our customer base. There can be no assurance that customers will purchase our products or that we will continue to expand our customer base. If we are unable to effectively market or expand our product offerings, we will be unable to grow and expand our business or implement

our business strategy. This could materially impair our ability to increase sales and revenue and materially and adversely affect our margins, which could harm our business and cause our stock price to decline.

If we incur substantial liability from litigation, complaints, or enforcement actions resulting from misconduct by our distributors, our financial condition could suffer. We will require that our distributors comply with applicable law and with our policies and procedures. Although we will use various means to address misconduct by our distributors, including maintaining these policies and procedures to govern the conduct of our distributors and conducting training seminars, it will still be difficult to detect and correct all instances of misconduct. Violations of applicable law or our policies and procedures by our distributors could lead to litigation, formal or informal complaints, enforcement actions, and inquiries by various federal, state, or foreign regulatory authorities against us and/or our distributors. Litigation, complaints, and enforcement actions involving us and our distributors could consume considerable amounts of financial and other corporate resources, which could have a negative impact on our sales, revenue, profitability and growth prospects. As we are currently in the process of implementing our direct sales distributor program, we have not been, and are not currently, subject to any material litigation, complaint or enforcement action regarding distributor misconduct by any federal, state or foreign regulatory authority.

Our future manufacturers could fail to fulfill our orders for products, which would disrupt our business, increase our costs, harm our reputation and potentially cause us to lose our market.

We may depend on contract manufacturers in the future to produce our products. These manufacturers could fail to produce products to our specifications or in a workmanlike manner and may not deliver the units on a timely basis. Our manufacturers may also have to obtain inventories of the necessary parts and tools for production. Any change in manufacturers to resolve production issues could disrupt our ability to fulfill orders. Any change in manufacturers to resolve production issues could also disrupt our business due to delays in finding new manufacturers, providing specifications and testing initial production. Such disruptions in our business and/or delays in fulfilling orders would harm our reputation and would potentially cause us to lose our market.

Our inability to effectively protect our intellectual property would adversely affect our ability to compete effectively, our revenue, our financial condition and our results of operations.

We may be unable to obtain intellectual property rights to effectively protect our business. Our ability to compete effectively may be affected by the nature and breadth of our intellectual property rights. While we intend to defend against any threats to our intellectual property rights, there can be no assurance that any such actions will adequately protect our interests. If we are unable to secure intellectual property rights to effectively protect our technology, our revenue and earnings, financial condition, and/or results of operations would be adversely affected.

We may also rely on nondisclosure and non-competition agreements to protect portions of our technology. There can be no assurance that these agreements will not be breached, that we will have adequate remedies for any breach, that third parties will not otherwise gain access to our trade secrets or proprietary knowledge, or that third parties will not independently develop the technology.

We do not warrant any opinion as to non-infringement of any patent, trademark, or copyright by us or any of our affiliates, providers, or distributors. Nor do we warrant any opinion as to invalidity of any third-party patent or unpatentability of any third-party pending patent application.

Our industry is highly competitive and we have less capital and resources than many of our competitors, which may give them an advantage in developing and marketing products similar to ours or make our products obsolete.

We are involved in a highly competitive industry where we may compete with numerous other companies who offer alternative methods or approaches, may have far greater resources, more experience, and personnel perhaps more qualified than we do. Such resources may give our competitors an advantage in developing and marketing products similar to ours or products that make our products obsolete. There can be no assurance that we will be able to successfully compete against these other entities.

Transfers of our securities may be restricted by virtue of state securities "blue sky" laws, which prohibit trading absent compliance with individual state laws. These restrictions may make it difficult or impossible to sell shares in those states.

Transfers of our common stock may be restricted under the securities or securities regulations laws promulgated by various states and foreign jurisdictions, commonly referred to as "blue sky" laws. Absent compliance with such individual state laws, our common stock may not be traded in such jurisdictions. Because the securities held by many of our stockholders have not been registered for resale under the blue sky laws of any state, the holders of such shares and persons who desire to purchase them should be aware that there may be significant state blue sky law restrictions upon the ability of investors to sell the securities and of purchasers to purchase the securities. These restrictions may prohibit the secondary trading of our common stock. Investors should consider the secondary market for our securities to be a limited one.

We are dependent on key personnel and we are default under Employment and Consulting Agreements

Our success depends to a significant degree upon the continued contributions of key management and other personnel, some of whom could be difficult to replace. We do not maintain key man life insurance covering our officers except for Marco Hegyi, our President. We are in default under the Employment Agreement with Mr. Hegyi and the Consulting Agreement with Mr. Scott.

Our success will depend on the performance of our officers and key management and other personnel, our ability to retain and motivate our officers, our ability to integrate new officers and key management and other personnel into our

operations, and the ability of all personnel to work together effectively as a team. Our failure to retain and recruit officers and other key personnel could have a material adverse effect on our business, financial condition and results of operations.

We have limited insurance.

We have no directors' and officers' liability insurance and limited commercial liability insurance policies. Any significant claims would have a material adverse effect on our business, financial condition and results of operations.

Risks Related to our Common Stock

CANX and Logic Works and TCA could have significant influence over matters submitted to stockholders for approval.

CANX and Logic Works

As of March 31, 2016, CANX and Logic Works in the aggregate hold shares representing approximately 45.5% of our common stock on a fully-converted basis and could be considered a control group for purposes of SEC rules. However, their agreements limit their ownership to 4.99% individually and each of the parties disclaims its status as a control group or a beneficial owner due to the fact that their beneficial ownership is limited to 4.99% per their agreements. Beneficial ownership includes shares over which an individual or entity has investment or voting power and includes shares that could be issued upon the exercise of options and warrants within 60 days after the date of determination. If these persons were to choose to act together, they would be able to significantly influence all matters submitted to our stockholders for approval, as well as our officers, directors, management and affairs. For example, these persons, if they choose to act together, could significantly influence the election of directors and approval of any merger, consolidation or sale of all or substantially all of our assets. This concentration of voting power could delay or prevent an acquisition of us on terms that other stockholders may desire.

TCA

On July 9, 2015, we closed a Securities Purchase Agreement and related agreements with TCA Global Credit Master Fund LP, an accredited investor, whereby we agreed to sell and TCA agreed to purchase up to \$3,000,000 of senior secured convertible, redeemable debentures, of which \$700,000 was purchased on July 9, 2015 and up to \$2,300,000 may be purchased in additional closings. The closing of the Transaction occurred on July 9, 2015.

On August 6, 2015, we closed a Securities Purchase Agreement and related agreements with TCA Global Credit Master Fund LP, whereby we agreed to sell and TCA agreed to purchase a \$100,000 senior secured convertible redeemable debenture and we agreed to issue and sell to TCA, from time to time, and TCA agreed to purchase from us up to \$3,000,000 of our common stock pursuant to a Committed Equity Facility. The closing of the Transaction occurred on August 6, 2015.

On October 27, 2015, we entered into an Amended and Restated Securities Purchase Agreement and related agreements with TCA Global Credit Master Fund LP whereby we agreed to sell, and TCA agreed to purchase \$350,000 of senior secured convertible, redeemable debentures. We previously entered into a Securities Purchase Agreement dated as of April 30, 2015 and effective as of July 9, 2015 to purchase up to \$3,000,000 in Debentures. As of October 27, 2015, we sold \$1,050,000 in Debentures to TCA and up to \$1,950,000 in Debentures remains for sale by us. The closing of the transaction occurred on October 27, 2015. In addition, TCA has advanced us an additional \$100,000 for a total of \$1,150,000. Also, on October 21, 2015 we issued 150,000 Series B Preferred Stock at a stated value equal to \$10.00 per share to TCA that is convertible into our common stock. On October 21, 2015, we also issued 51 shares of Series C Preferred Stock at \$0.0001 par value per share to TCA that is not convertible into our common stock. In the event of a default under the Amended and Restated TCA Transaction Documents, TCA can exercise voting control over our common stock with their Series C Preferred Stock voting rights

On April 11, 2016, TCA and the Company mutually agreed to terminate the Committed Equity Facility.

Effective as of May 4, 2016, the Company, its subsidiaries and TCA entered into a First Amendment to Amended and Restated Securities Purchase Agreement whereby the parties agreed to amend the terms of their existing purchase agreement in exchange for forbearance on existing defaults by the Company.

Previously, the Company, its subsidiaries and TCA had entered into a Securities Purchase Agreement dated as of April 30, 2015, but made effective as of July 9, 2015, a Supplemental Securities Purchase Agreement effective as of August 6, 2015, and an Amended and Restated Securities Purchase Agreement dated as of October 27, 2015 (collectively, the "Purchase Agreement") whereby the Company agreed to sell and TCA agreed to purchase an aggregate of \$1,050,000 in original face amount of Senior, Secured, Convertible Redeemable Debentures.

Due to the Company being in default on its repayment obligations under the Purchase Agreement and related documents, the parties agreed to restructure the Purchase Agreement whereby TCA agreed to forbear from enforcement of the Company defaults and to restructure a payment schedule for repayment of TCA under the Purchase Agreement.

Specifically, the First Amendment to Amended and Restated Securities Purchase Agreement made the following material modifications to the existing Purchase Agreement:

The existing Debentures were modified as described in more detail below

Payments on the Debentures shall be made by (1) certain debt purchase agreement(s) to be entered into by TCA, (2) under the parties S-1 transaction with Chicago Venture Partners, LP, or (3) by the Company directly

Maturity Date extended to April 28, 2018

TCA agreed that it shall not enforce and shall forbear from pursuing enforcement of any existing defaults by the Company unless and until a future Company default occurs

In connection with the First Amendment to Amended and Restated Securities Purchase Agreement, the parties also agreed upon amended terms related to their outstanding Debentures.

Effective as of May 4, 2016, the Company issued Second Replacement Debenture A in the principal amount of \$150,000 and Second Replacement Debenture B in the principal amount of \$2,681,209.82 (collectively, the "Second Replacement Debentures").

Per the First Amendment to Amended and Restated Securities Purchase Agreement, the Second Replacement Debentures were combined, and apportioned into two separate replacement debentures. The Second Replacement Debentures were intended to act in substitution for and to supersede the Debentures in their entirety. It was the intent of the Company and TCA that while the Second Replacement Debentures replace and supersede the Debentures, in their entirety, they were not in payment or satisfaction of the Debentures, but rather were the substitute of one evidence of debt for another without any intent to extinguish the old.

The Second Replacement Debentures contemplate TCA entering into debt purchase agreement(s) with third parties whereby TCA may, at its election, sever, split, divide or apportion the Second Replacement Debentures to accomplish the repayment of the balanced owed to TCA by Company.

The Second Replacement Debenture are convertible at 85% of the lowest daily volume weighted average price ("VWAP") of the Company's common stock during the five (5) business days immediately prior to a conversion date.

In connection with the above agreements, the parties acknowledged and agreed that certain advisory fees previously paid to TCA as provided in the Purchase Agreement in the amount of \$1,500,000 have been added and included within the principal balance of the Second Replacement Debentures. The conversion price discount on the Second Replacement Debentures will not apply to the amount of advisory fees added to the Second Replacement Debentures. TCA is also surrendering its Series B Preferred Stock in exchange for the \$1,500,000 balance evidenced by said preferred stock being added to the Second Replacement Debenture.

TCA is able to significantly influence all matters submitted to our stockholders for approval, as well as our officers, directors, management and affairs. For example, these persons, if they choose to act together, could significantly influence the election of directors and approval of any merger, consolidation or sale of all or substantially all of our assets. This concentration of voting power could delay or prevent an acquisition of us on terms that other stockholders may desire.

Trading in our stock is limited by the lack of market makers and the SEC's penny stock regulations.

On April 10, 2014, as a result of the SEC suspension in the trading of our securities, we lost all market makers and traded on the grey market of OTCBB. Until we complied with FINRA Rule 15c2-11, we traded on the grey market, which has limited quotations and marketability of securities. Holders of our common stock found it more difficult to dispose of, or to obtain accurate quotations as to the market value of, our common stock, and the market value of our common stock declined.

On February 18, 2016, our common stock resumed unsolicited quotation on the OTC Bulletin Board after receiving clearance from the Financial Industry Regulatory Authority ("FINRA") on our Form 15c2-11. We are currently taking the appropriate steps to uplist to the OTCQB Exchange and resume priced quotations with market makers as soon as it is able.

Our stock is categorized as a penny stock. The SEC has adopted Rule 15g-9 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than US\$ 5.00 per share or an exercise price of less than US\$ 5.00 per share, subject to certain exclusions (e.g., net tangible assets in excess of \$2,000,000 or average revenue of at least \$6,000,000 for the last three years). The penny stock rules impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC, which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for TCA and receive TCA's written agreement to the transaction. Finally, broker-dealers may not handle penny stocks under \$0.10 per share.

These disclosure requirements reduce the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules would affect the ability of broker-dealers to trade our securities if we become subject to them in the future. The penny stock rules also could discourage investor interest in and limit the marketability of our common stock to future investors, resulting in limited ability for investors to sell their shares.

FINRA sales practice requirements may also limit a shareholder's ability to buy and sell our stock.

In addition to the "penny stock" rules described above, FINRA has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. The FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

The market price of our common stock may be volatile.

The market price of our common stock has been and is likely in the future to be volatile. Our common stock price may fluctuate in response to factors such as:

Halting of trading by the SEC or FINRA.

Announcements by us regarding liquidity, legal proceedings, significant acquisitions, equity investments and divestitures, strategic relationships, addition or loss of significant customers and contracts, capital expenditure commitments, loan, note payable and agreement defaults, loss of our subsidiaries and impairment of assets,

Issuance of convertible or equity securities for general or merger and acquisition purposes,

Issuance or repayment of debt, accounts payable or convertible debt for general or merger and acquisition purposes,

Sale of a significant number of shares of our common stock by shareholders,

General market and economic conditions,

Quarterly variations in our operating results,

Investor relation activities,

Announcements of technological innovations,

New product introductions by us or our competitors,

Competitive activities, and

Additions or departures of key personnel.

These broad market and industry factors may have a material adverse effect on the market price of our common stock, regardless of our actual operating performance. These factors could have a material adverse effect on our business, financial condition, and/or results of operations.

The sale of a significant number of our shares of common stock could depress the price of our common stock.

Sales or issuances of a large number of shares of common stock in the public market or the perception that sales may occur could cause the market price of our common stock to decline. As of March 31, 2016, there were approximately 999.0 million shares of our common stock issued and outstanding. In addition, as of December 31, 2015, there are also (i) stock option grants outstanding for the purchase of 29.0 million common shares at a \$0.028 average strike price; (ii) warrants for the purchase of 565.0 million common shares at a \$0.032 average exercise price; (iii) 163.9 million shares related to convertible debt that can be converted at 0.007 per share; and (iv) 6.0 million shares that may be issued to a former executive related to a severance agreement. We issued \$2 million in common stock or 115,141,048 shares on April 6, 2016 pursuant to the settlement of the Consolidated Class Action and Derivative Action lawsuits alleging violations of federal securities laws that were filed against the Company in United States District Court, Central District of California. In addition, we have an unknown number of common shares to be issued

under the TCA financing agreements. If all stock option grant, warrant and contingent shares are issued, approximately 1.878 billion of our currently authorized 3 billion shares of common stock will be issued and outstanding.

These stock option grant, warrant and contingent shares could result in further dilution to common stock holders and may affect the market price of the common stock.

Significant shares of common stock are held by our principal shareholders, other Company insiders and other large shareholders. As affiliates as defined under Rule 144 of the Securities Act or Rule 144 of the Company, our principal shareholders, other Company insiders and other large shareholders may only sell their shares of common stock in the public market pursuant to an effective registration statement or in compliance with Rule 144.

Some of the present shareholders have acquired shares at prices as low as \$0.007 per share, whereas other shareholders have purchased their shares at prices ranging from \$0.007 to \$0.78 per share.

These stock option grant, warrant and contingent shares could result in further dilution to common stock holders and may affect the market price of the common stock.

Some of our convertible debentures may require adjustment in the conversion price.

Our 6% Senior Secured Convertible Notes Payable, our 7% Convertible Notes Payable and our 6% Convertible Secured Convertible Note and Secured Credit Facility dated June 25, 2014 with Logic Works may require an adjustment in the conversion price if we issue common stock, warrants or equity below the price that is reflected in the convertible notes payable. Any adjustment in the conversion price also could affect the market price of the common stock.

We do not anticipate paying any cash dividends on our capital stock in the foreseeable future.

We have never declared or paid cash dividends on our capital stock. We currently intend to retain all of our future earnings, if any, to finance the growth and development of our business, and we do not anticipate paying any cash dividends on our capital stock in the foreseeable future. In addition, the terms of any future debt agreements may preclude us from paying dividends. As a result, capital appreciation, if any, of our common stock will be your sole source of gain for the foreseeable future.

Anti-takeover provisions may limit the ability of another party to acquire our company, which could cause our stock price to decline.

Our certificate of incorporation, as amended, our bylaws and Delaware law contain provisions that could discourage, delay or prevent a third party from acquiring our company, even if doing so may be beneficial to our stockholders. In addition, these provisions could limit the price investors would be willing to pay in the future for shares of our common stock.

We may issue preferred stock that could have rights that are preferential to the rights of common stock that could discourage potentially beneficially transactions to our common shareholders.

An issuance of additional shares of preferred stock could result in a class of outstanding securities that would have preferences with respect to voting rights and dividends and in liquidation over our common stock and could, upon conversion or otherwise, have all of the rights of our common stock. Our Board of Directors' authority to issue preferred stock could discourage potential takeover attempts or could delay or prevent a change in control through merger, tender offer, proxy contest or otherwise by making these attempts more difficult or costly to achieve. The issuance of preferred stock could impair the voting, dividend and liquidation rights of common stockholders without their approval.

If the company were to dissolve or wind-up, holders of our common stock may not receive a liquidation preference.

If we were to wind-up or dissolve the Company and liquidate and distribute our assets, our shareholders would share ratably in our assets only after we satisfy any amounts we owe to our creditors. If our liquidation or dissolution were attributable to our inability to profitably operate our business, then it is likely that we would have material liabilities at the time of liquidation or dissolution. Accordingly, we cannot give you any assurance that sufficient assets will remain available after the payment of our creditors to enable you to receive any liquidation distribution with respect to any shares you may hold.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Unless otherwise indicated, all of the following sales or issuances of Company securities were conducted under the exemption from registration as provided under Section 4(2) of the Securities Act of 1933 (and also qualified for exemption under 4(5), formerly 4(6) of the Securities Act of 1933, except as noted below). All of the shares issued

were issued in transactions not involving a public offering, are considered to be restricted stock as defined in Rule 144 promulgated under the Securities Act of 1933 and stock certificates issued with respect thereto bear legends to that effect.

We have compensated consultants and service providers with restricted common stock during the development of our business and when our capital resources were not adequate to provide payment in cash.

During the three months ended March 31, 2016, we had the following sales of unregistered of equity securities to accredited investors unless otherwise indicated:

On January 4, 2016, we issued 3,000,000 shares of its common stock to an entity affiliated with Mark E. Scott, our Chief Financial Officer, pursuant to a conversion of debt for \$30,000. The shares were valued at the fair market price of \$0.01 per share.

On January 16, 2016, we issued 1,400,000 shares of its common stock to an unaccredited former consultant pursuant a conversion of debt for \$40,000. The shares were valued at the fair market price of \$0.01 per share.

On January 27, 2016, we issued 1,500,000 shares of its common stock to Michael E. Fasci, a Board Director, pursuant to a service award for \$15,000. The shares were valued at the fair market price of \$0.01 per share.

During March 2016, Holders of our Convertible Notes Payables, converted principal and accrued interest of \$608,905 into 86,986,437 shares of our common stock at a per share conversion price of \$0.007.

In consideration for advisory services provided by TCA to us, we issued 15,000,000 shares of Common Stock during the year ending December 31, 2015. As the common stock was conditionally redeemable, we recorded the common stock as mezzanine equity in the accompanying consolidated balance sheet as of December 31, 2015. As of March 31, 2016, the shares are no longer conditionally redeemable and were recorded as issued and outstanding common stock.
