BIO-MATRIX SCIENTIFIC GROUP, INC.

Notes to consolidated Financial Statements

As of December 31, 2015

The accompanying unaudited interim condensed consolidated financial statements of Bio-Matrix Scientific Group, Inc. ("Bio-Matrix" or "the Company") have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the United States Securities and Exchange Commission ("SEC"), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company's annual report filed with the SEC on Form 10-K for the year ended September 30, 2015. In general, interim disclosures do not repeat those contained in the annual statements. In the opinion of management, all adjustments consisting of normal recurring adjustments necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Bio-Matrix Scientific Group, Inc. ("Company") was organized October 6, 1998, under the laws of the State of Delaware as Tasco International, Inc.

From October 6, 1998 to June 3, 2006 its activities have been limited to capital formation, organization, and development of its business plan to provide production of visual content and other digital media, including still media, 360-degree images, video, animation and audio for the Internet.

On July 3, 2006 the Company abandoned its efforts in the field of digital media production when it acquired 100% of the share capital of Bio-Matrix Scientific Group, Inc., a Nevada corporation, ("BMSG") for consideration consisting of 10,000,000 shares of the common stock of the Company and the cancellation of 10,000,000 shares of the Company owned and held by John Lauring.

As a result of this transaction, the former stockholder of BMSG held approximately 80% of the voting capital stock of the Company immediately after the transaction. For financial accounting purposes, this acquisition was a reverse acquisition of the Company by BMSG under the purchase method of accounting, and was treated as a recapitalization with BMSG as the acquirer. Accordingly, the financial statements have been prepared to give retroactive effect to August 2, 2005 (date of inception), of the reverse acquisition completed on July 3, 2006, and represent the operations

of BMSG.

Through its controlled subsidiary, Regen BioPharma, Inc., the Company intends to engage primarily in the development of regenerative medical applications which we intend to license from other entities up to the point of successful completion of Phase I and or Phase II clinical trials after which we would either attempt to sell or license those developed applications or, alternatively, advance the application further to Phase III clinical trials. As of December 31, 2015 The Company holds 15.6% of the equity and 65.7% of the voting power of Regen BioPharma, Inc. (“Regen”)

A. BASIS OF ACCOUNTING

The financial statements have been prepared using the basis of accounting generally accepted in the United States of America. Under this basis of accounting, revenues are recorded as earned and expenses are recorded at the time liabilities are incurred. The Company has adopted a September 30 year-end.

B. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Bio-Matrix Scientific Group, inc., a Delaware corporation, Bio Matrix Scientific Group, Inc, a Nevada corporation and a wholly owned subsidiary (“BMSG”), Regen BioPharma, Inc., a Nevada corporation and controlled subsidiary (Regen) and Entest BioMedical, Inc., (“Entest”), a Nevada corporation which was a majority owned subsidiary up to February 3, 2011. Significant inter-company transactions have been eliminated.

C. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. All estimates are of a normal, recurring nature and are required for the fair presentation of the financial statements. Actual results could differ from those estimates.

D. CASH EQUIVALENTS

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

E. PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost. Maintenance and repairs are expensed in the year in which they are incurred. Expenditures that enhance the value of property and equipment are capitalized.

F. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. A fair value hierarchy requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company's financial instruments as of December 31, 2015 consisted of Securities Available for Sale consisting of 8,066,667 common shares of Entest Biomedical, Inc and a Note Receivable from Entest Biomedical, Inc. for \$12,051 .

The fair value of Securities Available for sale as of December 31, 2015 were valued according to the Level 1 input. The carrying amount of the financial instruments is equal to the fair value as determined by the Company. The fair value of the Note Receivable was valued according to Level 3 input.

G. INCOME TAXES

The Company accounts for income taxes using the liability method prescribed by ASC 740, "Income Taxes." Under this method, deferred tax assets and liabilities are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted tax rates that will be in effect in the year in which the differences are expected to reverse. The Company records a valuation allowance to offset deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized as income or loss in the period that includes the enactment date.

The Company applied the provisions of ASC 740-10-50, "Accounting For Uncertainty In Income Taxes", which provides clarification related to the process associated with accounting for uncertain tax positions recognized in our financial statements. Audit periods remain open for review until the statute of limitations has passed. The completion of review or the expiration of the statute of limitations for a given audit period could result in an adjustment to the Company's liability for income taxes. Any such adjustment could be material to the Company's results of operations for any given quarterly or annual period based, in part, upon the results of operations for the given period. As of December 31, 2015 the Company had no uncertain tax positions, and will continue to evaluate for uncertain positions in the future.

The Company generated a deferred tax credit through net operating loss carry forward. However, a valuation allowance of 100% has been established.

Interest and penalties on tax deficiencies recognized in accordance with ACS accounting standards are classified as income taxes in accordance with ASC Topic 740-10-50-19.

H. BASIC EARNINGS (LOSS) PER SHARE

The Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 260, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. ASC 260 requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of ASC 260 effective from inception.

Basic net loss per share amounts is computed by dividing the net income by the weighted average number of common shares outstanding. All options and convertible debt outstanding has an anti-dilutive effect on the EPS, therefore Diluted Earnings per Share are the same as basic earnings per share.

I. ADVERTISING

Costs associated with advertising are charged to expense as incurred. Advertising expenses were \$0 and \$0 for the quarters ended December 31, 2015 and December 31, 2014.

J. REVENUE RECOGNITION

Sales of products and related costs of products sold are recognized when: (i) persuasive evidence of an arrangement exists; (ii) delivery has occurred; (iii) the price is fixed or determinable; and (iv) collectability is reasonably assured. These terms are typically met upon the prepayment or invoicing and shipment of products.

The Company determines the amount and timing of royalty revenue based on its contractual agreements with intellectual property licensees. The Company recognizes royalty revenue when earned under the terms of the agreements and when the Company considers realization of payment to be probable. Where royalties are based on a percentage of licensee sales of royalty-bearing products, the Company recognizes royalty revenue by applying this percentage to the Company's estimate of applicable licensee sales. The Company bases this estimate on an analysis of each licensee's sales results. Where warranted, revenue from licensees for contractual obligations such as License Initiation Fees are recognized upon satisfaction of all conditions required to be satisfied in order for that revenue to have been earned by the Company.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

In June 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-10, which eliminated certain financial reporting requirements of companies previously identified as "Development Stage Entities" (Topic 915). The amendments in this ASU simplify accounting guidance by removing all incremental financial reporting requirements for development stage entities. The amendments also reduce data maintenance and, for those entities subject to audit, audit costs by eliminating the requirement for development stage entities to present inception-to-date information in the statements of income, cash flows, and shareholder equity. Early application of each of the amendments is permitted for any annual reporting period or interim period for which the entity's financial statements have not yet been issued (public business entities) or made available for issuance (other entities). Upon adoption, entities will no longer present or disclose any information required by Topic 915. The Company has adopted this standard.

The following accounting standards updates were recently issued and have not yet been adopted by us. These standards are currently under review to determine their impact on our consolidated financial position, results of operations, or cash flows.

In May 2014, FASB issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. The revenue recognition standard affects all entities that have contracts with customers, except for certain items. The new revenue recognition standard eliminates the transaction-and industry-specific revenue recognition guidance under current GAAP and replaces it with a principle-based approach for determining revenue recognition. Public entities are required to adopt the revenue recognition standard for reporting periods beginning after December 15, 2016, and interim and annual reporting periods thereafter. Early adoption is not permitted for public entities. The Company has reviewed the applicable ASU and has not, at the current time, quantified the effects of this pronouncement, however it believes that there will be no material effect on the consolidated financial statements.

In June 2014, FASB issued Accounting Standards Update (ASU) No. 2014-12 Compensation — Stock Compensation (Topic 718), Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period. A performance target in a share-based payment that affects vesting and that could be achieved after the requisite service period should be accounted for as a performance condition under Accounting Standards Codification (ASC) 718, Compensation — Stock Compensation. As a result, the target is not reflected in the estimation of the award's grant date fair value. Compensation cost would be recognized over the required service period, if it is probable that the performance condition will be achieved. The guidance is effective for annual periods beginning after 15 December 2015 and interim periods within those annual periods. Early adoption is permitted. The Company has reviewed the applicable ASU and has not, at the current time, quantified the effects of this pronouncement, however it believes that there will be no material effect on the consolidated financial statements.

In August 2014, FASB issued Accounting Standards Update (ASU) No. 2014-15 Preparation of Financial Statements — Going Concern (Subtopic 205-40), Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. Under generally accepted accounting principles (GAAP), continuation of a reporting entity as a going concern is presumed as the basis for preparing financial statements unless and until the entity's liquidation becomes imminent. Preparation of financial statements under this presumption is commonly referred to as the going concern

basis of accounting. If and when an entity's liquidation becomes imminent, financial statements should be prepared under the liquidation basis of accounting in accordance with Subtopic 205-30, Presentation of Financial Statements—Liquidation Basis of Accounting. Even when an entity's liquidation is not imminent, there may be conditions or events that raise substantial doubt about the entity's ability to continue as a going concern. In those situations, financial statements should continue to be prepared under the going concern basis of accounting, but the amendments in this Update should be followed to determine whether to disclose information about the relevant conditions and events. The amendments in this Update are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The Company will evaluate the going concern considerations in this ASU, however, at the current period, management does not believe that it has met the conditions which would subject these financial statements for additional disclosure.

On January 31, 2013, the FASB issued Accounting Standards Update [ASU] 2013-01, entitled Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities. The guidance in ASU 2013-01 amends the requirements in the FASB Accounting Standards Codification [FASB ASC] Topic 210, entitled Balance Sheet. The ASU 2013-01 amends to FASB ASC 210 clarify that ordinary trade receivables and receivables in general are not within the scope of ASU 2011-11, entitled Disclosure about Offsetting Assets and Liabilities, where that ASU amended the guidance in FASB ASC 210. As those disclosures now are modified with the ASU 2013-01 amendments, the FASB ASC 210 balance sheet offsetting disclosures now clearly are applicable only where reporting entities are involved with bifurcated embedded derivatives, repurchase agreements, reverse repurchase agreements, and securities borrowing and lending transactions that either are offset using the FASB ASC 210 or 815 requirements, or that are subject to enforceable master netting arrangements or similar agreements. ASU 2013-01 is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. The adoption of this ASU is not expected to have a material impact on our financial statements.

On February 28, 2013, the FASB issued Accounting Standards Update [ASU] 2013-04, entitled Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date. The ASU 2013-04 amends to the guidance in FASB Accounting Standards Codification [FASB ASC] Topic 405, entitled Liabilities and require reporting entities to measure obligations resulting from certain joint and several liability arrangements where the total amount of the obligation is fixed as of the reporting date, as the sum of the following:

The amount the reporting entity agreed to pay on the basis of its arrangement among co-obligors.

Any additional amounts the reporting entity expects to pay on behalf of its co-obligors.

While early adoption of the amended guidance is permitted, for public companies, the guidance is required to be implemented in fiscal years, and interim periods within those years, beginning after December 15, 2013. The amendments need to be implemented retrospectively to all prior periods presented for obligations resulting from joint and several liability arrangements that exist at the beginning of the year of adoption. The adoption of ASU 2013-04 is not expected to have a material effect on the Company's operating results or financial position.

On April 22, 2013, the FASB issued Accounting Standards Update [ASU] 2013-07, entitled Liquidation Basis of Accounting. With ASU 2013-07, the FASB amends the guidance in the FASB Accounting Standards Codification [FASB ASC] Topic 205, entitled Presentation of Financial Statements. The amendments serve to clarify when and how reporting entities should apply the liquidation basis of accounting. The guidance is applicable to all reporting entities, whether they are public or private companies or not-for-profit entities. The guidance also provides principles for the recognition of assets and liabilities and disclosures, as well as related financial statement presentation requirements. The requirements in ASU 2013-07 are effective for annual reporting periods beginning after December 15, 2013, and interim reporting periods within those annual periods. Reporting entities are required to apply the requirements in ASU 2013-07 prospectively from the day that liquidation becomes imminent. Early adoption is

permitted. The adoption of ASU 2013-07 is not expected to have a material effect on the Company's operating results or financial position.

A variety of proposed or otherwise potential accounting standards are currently under study by standard setting organizations and various regulatory agencies. Due to the tentative and preliminary nature of those proposed standards, the Company's management has not determined whether implementation of such standards would be material to its financial statements.

NOTE 3. OPTIONS AND WARRANTS

As of December 31, 2015 the Company has no options or warrants outstanding.

NOTE 4. GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. Exclusive of a onetime non-cash gain of \$41,645,688 recognized upon the deconsolidation of Entest Biomedical, Inc., the Company generated net losses of \$33,468,578 (excluding \$663,649 of Equity in Net Losses of Entest Biomedical, Inc. recognized) during the period from August 2, 2005 (inception) through December 31, 2015. This condition raises substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional financing as may be required and ultimately to attain profitability. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Management plans to raise additional funds by offering securities for cash. . During the quarter ended December 31, 2015 Regen raised \$560,000 through the issuance of equity securities for cash.

As of December 31, 2015 the Company has a Deferred Tax Asset of \$11,379,317 completely attributable to net operating loss carry forwards of approximately \$33,468,578 (which expire 20 years from the date the loss was incurred) consisting of

(a) \$38,616, of Net Operating Loss Carry forwards acquired in the reverse acquisition of BMSG and

(b) \$33,429,962 attributable to Bio-Matrix Scientific Group, Inc. a Delaware corporation, BMSG and Regen.

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carry forwards are expected to be available to reduce taxable income. The achievement of required future taxable income is uncertain. In addition, the reverse acquisition of BMSG has resulted in a change of control. Internal Revenue Code Sec 382 limits the amount of income that may be offset by net operating loss (NOL) carryovers after an ownership change. As a result, the Company has the Company recorded a valuation allowance reducing all deferred tax assets to 0.

Income tax is calculated at the 34% Federal Corporate Rate.

NOTE 6. RELATED PARTY TRANSACTIONS

As of December 31, 2015 the Company is indebted to David Koos, the Company's Chairman and Chief Executive Officer, in the amount of \$87,986. These loans and any accrued interest are due and payable at the demand of Mr. Koos and bear simple interest at the rate of 15% per annum.

On June 23, 2015 Regen Biopharma, Inc. entered into an agreement (“Agreement”) with Zander Therapeutics, Inc. (“Zander”) whereby Regen Biopharma, Inc. granted to Zander an exclusive worldwide right and license for the development and commercialization of certain intellectual property controlled by Regen Biopharma, Inc. (“License IP”) for non-human veterinary therapeutic use for a term of fifteen years. Zander is a wholly owned subsidiary of Entest Biomedical, Inc.

Pursuant to the Agreement, Zander shall pay to Regen Biopharma, Inc. one-time, non-refundable, upfront payment of one hundred thousand US dollars (\$100,000) as a license initiation fee which must be paid within 90 days of June 23, 2015 and an annual non-refundable payment of one hundred thousand US dollars (\$100,000) on the first anniversary of the effective date of the Agreement and each subsequent anniversary.

The abovementioned payments may be made, at Zander’s discretion, in cash or newly issued common stock of Zander or in common stock of Entest BioMedical Inc. valued as of the lowest closing price on the principal exchange upon which said common stock trades publicly within the 14 trading days prior to issuance.

Pursuant to the Agreement, Zander shall pay to Regen Biopharma, Inc. royalties equal to four percent (4%) of the Net Sales, as such term is defined in the Agreement, of any Licensed Products, as such term is defined in the Agreement, in a Quarter.

Pursuant to the Agreement, Zander will pay Regen Biopharma, Inc. ten percent (10%) of all consideration (in the case of in-kind consideration, at fair market value as monetary consideration) received by Zander from sublicensees (excluding royalties from sublicensees based on Net Sales of any Licensed Products for which Regen Biopharma, Inc. receives payment pursuant to the terms and conditions of the Agreement).

Zander is obligated pay to Regen Biopharma, Inc. minimum annual royalties of ten thousand US dollars (\$10,000) payable per year on each anniversary of the Effective Date of this Agreement, commencing on the second anniversary of June 23, 2015. This minimum annual royalty is only payable to the extent that royalty payments made during the preceding 12-month period do not exceed ten thousand US dollars (\$10,000).

The Agreement may be terminated by Regen Biopharma, Inc.:

If Zander has not sold any Licensed Product by ten years of the effective date of the Agreement or Zander has not sold any Licensed Product for any twelve (12) month period after Zander’s first commercial sale of a Licensed Product.

The Agreement may be terminated by Zander with regard to any of the License IP if by five years from the date of execution of the Agreement a patent has not been granted by the United States patent and Trademark Office to Regen Biopharma, Inc. with regard to that License IP.

The Agreement may be terminated by Zander with regard to any of the License IP if a patent that has been granted by the United States patent and Trademark Office to Regen Biopharma, Inc. with regard to that License IP is terminated.

The Agreement may be terminated by either party in the event of a material breach by the other party.

On September 28, 2015 Zander caused to be issued to Regen Biopharma, Inc. 8,000,000 of the common shares of Entest Biomedical, Inc in satisfaction of one hundred thousand US dollars (\$100,000) to be paid to Regen Biopharma, Inc. by Zander as a license initiation fee. Regen Biopharma, Inc. recognized revenue of \$192,000 equivalent to the fair value of 8,000,000 of the common shares of Entest Biomedical, Inc as of the date of issuance.

David R. Koos serves as sole officer and director of both Zander and Entest Biomedical, Inc. and also serves as Chairman and Chief Executive Officer of Regen Biopharma, Inc..

NOTE 9. COMMITMENTS AND CONTINGENCIES

On April 12, 2013 a complaint (Complaint) was filed in the U.S. District Court Southern District of the State of New York against the Company, the Company's Chairman and Does 1-50 by Star city Capital, LLC ("Plaintiff") alleging securities fraud, common law fraud, negligent misrepresentation, breach of fiduciary duties and breach of contract in connection with the issuance of. The Plaintiff is also request declaratory relief from the Court.

The action arises from the issuance and subsequent cancellation of 103,030,303 of the company's common shares in satisfaction of \$17,000 of convertible indebtedness of the Company held by the Plaintiff. The Plaintiff alleges that a cancellation notice sent by them to the Company's transfer agent was meant to instruct the Transfer Agent simply to cancel the physical certificate in order that an equivalent number of shares may be transferred via DWAC to the Plaintiff's stockbroker for the benefit of the Plaintiff. DWAC is the acronym for Deposit/Withdrawal At Custodian. The DWAC transaction system run by The Depository Trust Company (a.k.a. DTC or CEDE & CO) permits brokers and custodial banks, the DTC participants, to request the movement of shares to or from the issuer's transfer agent electronically. A DWAC results in the crediting or debiting of shares to or from DTC's book-entry account on the records of the issuer maintained by the transfer agent.

The Company believes that the cancellation notice sent by the Plaintiff clearly represents a cancellation of the conversion notice itself.

The convertible indebtedness held by the Plaintiff was convertible at Holder's demand into the common shares of the Company's stock at a conversion price per share equal to 55% (the "Discount") of the lowest closing bid price for the Company's common stock during the 5 trading days immediately preceding a conversion date, as reported by Bloomberg (the "Closing Bid Price"); provided that if the closing bid price for the common stock on the date in which the conversion shares are deposited into Holder's brokerage account and confirmation has been received that Holder may execute trades of the conversion shares (Clearing Date) is lower than the Closing Bid Price, then the purchase price for the conversion shares would be adjusted such that the Discount shall be taken from the closing bid price on the Clearing Date, and the Company shall issue additional shares to Purchaser to reflect such adjusted Purchase Price("Reset"). The Company and the Plaintiff had agreed on a limitation on conversion equal to 9.99% of the Company's outstanding common stock.

On February 2, 2015 Plaintiff and the Company entered into a Settlement Agreement and Mutual General Release to fully and finally resolve the aforementioned legal action pursuant to the following terms and conditions:

- Within seven business days of the Company's transfer agent's receipt of an appropriate opinion of counsel, the
- (a) Company shall deliver to Starcity or its designee or assignee (which designation or assignment shall be provided in writing) via DWAC, 103,030,303 of the common shares of the Company , it being the agreement of the parties that such issuance shall constitute full and complete satisfaction of \$17,000 due to Starcity by the Company.

- (b) The Company shall deliver to Starcity a non interest bearing Convertible Note in the face amount of \$300,000 ("Note") due and payable April 1, 2016.

The Holder of this Note is entitled, at its option, at any time after 180 days after the date that consideration of \$52,500 is paid to the Company to convert all or any amount of the principal face amount of this Note then outstanding into shares of the Company's common stock (the "Common Stock") at a price ("Conversion Price") for each share of Common Stock equal to the greater of

- fifty five percent (55%) (the "Discount") of the lowest closing bid price for the Company's common stock during (i) the five (5) trading days immediately preceding a conversion date, as reported by Bloomberg (the "Closing Bid Price") ("Initial Conversion Price") or

- (ii) \$0.0001.

Other than as provided in 5(p) of the Note), the Holder shall not have the right to convert its debt into shares which, when added to such Holder's other holdings in the Company stock, shall have caused such Holder to hold more than to hold more than 9.99% of the Company's outstanding common stock. Section 5(p) of the Note states that:

Upon :

- (i) a transfer of all or substantially all of the assets of the Company to any person in a single transaction or series of related transactions,

- (ii) a reclassification, capital reorganization or other change or exchange of outstanding shares of the Common Stock, or

- (iii) any consolidation or merger of the Company with or into another person or entity in which the Company is not the surviving entity (other than a merger which is effected solely to change the jurisdiction of incorporation of the Company and results in a reclassification, conversion or exchange of outstanding shares of Common Stock solely into shares of Common Stock)

then, in each case, Holder may convert the unpaid principal amount of this Note into shares of Common Stock immediately prior to such event at the Conversion Price.

In the event that Starcity fails to fund the Note by making a payment of \$52,500 to the Company on or before April 1, 2015, the Company's obligations under this Note shall be terminated, cancelled and relinquished.

On August 21, 2012 the Company entered into a settlement funding agreement with Princeton Research, Inc. and Jan Vandersande (collectively the "PRI Parties") which obligates the Company to pay the PRI Parties \$1,000 a month over thirty months.

The Company utilizes approximately 2,300 square feet of office space at 4700 Spring Street, Suite 304, La Mesa California, 91941 subleased to Regen Biopharma, Inc. by Entest BioMedical, Inc. on a month to month basis beginning October 1, 2014.
