EXPLANATORY NOTE

As previously disclosed in our Current Report on Form 8-K dated April 4, 2005, the Company, with the concurrence of the Audit Committee of the Company's Board of Directors, concluded that the Company's previously issued financial statements for each of the fiscal years ended May 29, 2004, May 31, 2003 and June 1, 2002 and for the first two quarters of fiscal 2005 should be restated as a result of a recent letter issued by the Securities and Exchange Commission (the "SEC") regarding the application of generally accepted accounting principles for lease accounting.

Historically, when accounting for leases with renewal options, the Company recorded rent expense on a straight-line basis over the fixed initial term, with the term commencing when rental payments actually began, and computed depreciation/amortization on the related leasehold improvements and other long-lived assets located on these properties over their useful lives. The Company has restated the financial statements to recognize rent expense on a straight-line basis over the expected lease term, including rent holidays and option periods where exercise of such option periods is reasonably assured. In addition, the commencement date of the period over which rental expense is recognized is the earlier of the date on which the Company becomes legally obligated for rental payments or the date on which the Company takes possession of the property. The resulting adjustments have no effect on historical or future cash flows or timing of payments under pertinent leases.

In addition, the Company previously netted lease incentives received from the lessor for the reimbursement of costs of leasehold improvements against the incurred capital expenditures. The Company has restated the financial statements to account for these lease incentives by recording them as deferred rent and amortizing them over the lease term.

In addition, the Company identified other matters requiring the reclassification of certain items in its statements of operations and cash flows, as discussed in Note 2 to the accompanying condensed consolidated financial statements.

This Amendment No. 1 to our Quarterly Report on Form 10-Q/A ("Form 10-Q/A") for the quarterly period ended August 28, 2004, initially filed with the SEC on October 7, 2004 (the "Original Filing"), is being filed to restate (i) the Company's condensed consolidated balance sheet at August 28, 2004 and (ii) the Company's condensed consolidated statements of operations and cash flows for the three month periods ended August 28, 2004 and August 30, 2003, and

the notes related thereto. For a more detailed description of these restatements, see Note 2, "Restatement of Financial Statements" to the accompanying condensed consolidated financial statements and the section entitled "Restatement" in Management's Discussion and Analysis of Results of Operations and Financial Condition in this Form 10-Q/A.

For the convenience of the reader, this Form 10-Q/A sets forth the Original Filing in its entirety, as amended by this Form 10-Q/A. However, this Form 10-Q/A amends only Items 1, 2 and 4 of Part I in their entirety, in each case, solely as a result of, and to reflect, the Restatement (as defined in Management's Discussion and Analysis of Results of Operations and Financial Condition in this Form 10-Q/A), and, except as noted above, in Management's Discussion and Analysis and in Note 2 to the accompanying condensed consolidated financial statements, no other information in the Original Filing is amended hereby. The foregoing items have not been updated to reflect other events occurring after the Original Filing or to modify or update those disclosures affected by subsequent events. In addition, Item 6 of Part II of this Form 10-Q/A has been amended to contain the currently-dated certifications from our Chief Executive Officer and Chief Accounting Officer required under Sections 302 and 906 of the Sarbanes-Oxley Act of 2002. These certifications are attached to this Form 10-Q/A as Exhibits 31.1, 31.2, 32.1 and 32.2.

Except for the foregoing amended information, this Form 10-Q/A continues to describe conditions as of the date of the Original Filing, and we have not updated the disclosure made in this Form 10-Q/A to reflect events occurring after the Original Filing. Disclosure reflecting events occurring after the Original Filing or modifying or updating information in this Form 10-Q/A that is required to be made by the Company has been or will be addressed, as of their respective dates, in our Quarterly Report on Form 10-Q for the quarter ended February 26, 2005, or other reports filed with the SEC subsequent to the Original Filing.

We have not amended and do not intend to amend our previously filed Annual Reports on Form 10-K or our Quarterly Reports on Form 10-Q for the periods affected by the Restatement that ended prior to May 29, 2004. For this reason, the consolidated financial statements, auditors' reports and related financial information for the affected periods contained in such reports should no longer be relied upon.

BURLINGTON COAT FACTORY WAREHOUSE CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

**THREE MONTH PERIODS ENDED AUGUST 28, 2004 AND AUGUST 30, 2003
(UNAUDITED)**

1. The condensed consolidated financial statements include the accounts of Burlington Coat Factory Warehouse Corporation and all its subsidiaries in which it has the controlling financial interest through direct ownership of a majority voting interest or a controlling managerial interest ("the Company"). All subsidiaries are wholly owned except three. The Company maintains a ninety percent interest and a seventy-five percent interest, respectively, in two investments. The Company maintains a fifty percent interest in a third investment in which it maintains managerial and financial control. These investments are consolidated, net of their minority interest. All significant intercompany accounts and transactions have been eliminated. The accompanying financial statements are unaudited, but in the opinion of management reflect all adjustments (which are of a normal and recurring nature) necessary for a fair presentation of the results of operations for the interim periods. The balance sheet at May 29, 2004 has been derived from the audited financial statements in Amendment No. 4 to the Company's Annual Report on Form 10-K/A for the fiscal year ended May 29, 2004, filed with the Securities and Exchange Commission ("SEC") on April 19, 2005. Because the Company's business is seasonal in nature, the operating results for the three month period ended August 28, 2004 and the corresponding period ended August 30, 2003 are not necessarily indicative of results for the fiscal year.

2. Restatement of Financial Statements

Subsequent to the issuance of the Company's condensed consolidated financial statements for the three month periods ended August 28, 2004 and August 30, 2003, the Company's management reviewed its accounting for leases with renewal options. Historically, the Company recorded rent expense on a straight-line basis over the fixed initial term, with the term commencing when rental payments actually began, and computed depreciation/amortization on the related leasehold improvements and other long-lived assets located on these properties over their useful lives. The Company has restated the financial statements to recognize rent expense on a straight-line basis over the expected lease term, including rent holidays and option periods where exercise of such option periods is reasonably assured. In addition, the commencement date of the period over which rental expense is recognized is the earlier of the date on which the Company becomes legally obligated for rental payments or the date on which the Company takes possession of the property. The resulting adjustments did not affect historical or future cash flows or timing of payments under pertinent leases.

In addition, the Company previously netted lease incentives received from the lessor for the reimbursement of costs of leasehold improvements against the incurred capital expenditures. The Company has restated its previously issued financial statements for the three month periods ended August 28, 2004 and August 30, 2003 to account for these lease incentives by recording them as deferred rent and amortizing them over the lease term.

Also, the Company concluded to reclassify its other income items, including investment income, gains or losses on disposition of fixed assets and other miscellaneous income items under the caption Other Income, Net, previously reported under the caption Other Revenue, in its condensed consolidated statements of operations for the three month periods ended August 28, 2004 and August 30, 2003.

Also, the Company previously included restricted cash and cash equivalents as part of cash and cash equivalents in the condensed consolidated statements of cash flows. The Company has restated the condensed consolidated statements of

cash flows for the three month periods ended August 28, 2004 and August 30, 2003 to treat only unrestricted amounts as cash and cash equivalents. Cash and cash equivalents changed from \$39.1 million to \$29.8 million at the beginning of the three month period ended August 28, 2004 and from \$54.8 million to \$44.4 million at the end of the same period as a result of the Restatement. Cash and cash equivalents changed from \$36.7 million to \$27.9 million at the beginning of the three month period ended August 30, 2003 and from \$34.8 million to \$26.0 million at the end of the same period.

These adjustments, described above, are collectively referred to as the "Restatement."

The condensed consolidated financial statements included in this Form 10-Q/A have been restated to reflect the adjustments described above. The effects of the Restatement have also been set forth, for the periods presented therein, in Amendment No. 4 to the Company's Annual Report on Form 10-K/A for the fiscal year ended May 29, 2004, which was filed with the SEC on April 19, 2005, and in Amendment No. 1 to the Company's Quarterly Report on Form 10-Q/A for the quarter ended November 27, 2004, which we are concurrently filing with this Form 10-Q/A.

The following is a summary of the impact of the Restatement on the Company's condensed consolidated balance sheet at August 28, 2004 and the Company's condensed consolidated statements of operations for the three month periods ended August 28, 2004 and August 30, 2003.

Total Comprehensive Loss	(17,065)	228	(16,837)

3. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the financial statements and notes thereto included in Amendment No. 4 to the Company's Annual Report on Form 10-K/A.

4. Restricted cash and cash equivalents consist of \$0.4 million of compensating cash balances at two of the Company's banks, \$7.4 million pledged as collateral for certain insurance contracts and \$2.6 million contractually restricted and related to the acquisition and maintenance of a building related to a store operated by the Company.

5. Merchandise inventories as of August 28, 2004 and May 29, 2004 are valued at the lower of cost, on a First In First Out (FIFO) basis, or market, as determined by the retail inventory method. The Company records its cost of merchandise (net of purchase discounts and certain vendor allowances), certain merchandise acquisition costs (primarily commissions and import fees), inbound freight, warehouse outbound freight, and freight on internally transferred merchandise in the line item "Cost of Sales" in the Company's Condensed Consolidated Statement of Operations. Costs associated with the Company's warehousing, distribution, buying, and store receiving functions are included in the line items "Selling and Administrative Expenses" and "Depreciation" in the Company's Condensed Consolidated Statement of Operations. Warehousing and purchasing costs included in Selling and Administrative Expenses amounted to \$10.6 million and \$9.7 million for the three month periods ended August 28, 2004 and August 30, 2003, respectively. Depreciation related to the warehousing and purchasing functions amounted to \$2.2 million and \$1.9 million for the three month periods ended August 28, 2004 and August 30, 2003, respectively. Also included in Selling and Administrative Expenses are payroll and payroll related expenses, occupancy related expenses, advertising expenses, store operating expenses and corporate overhead expenses.

6. The Company classifies its investments in debt securities into held-to-maturity, available-for-sale or trading categories in accordance with the provisions of Statement of Financial Accounting Standards ("SFAS") No. 115, *Accounting For Certain Investments in Debt and Equity Securities*. Debt securities are classified as held-to-maturity when the Company has the positive intent and ability to hold the securities to maturity. Held-to-maturity securities are stated at amortized cost. Debt securities not classified as held-to-maturity are classified as trading securities and are carried at fair market value, with unrealized gains and losses included in net income (loss). The Company's investments not classified as held-to-maturity or trading securities are classified as available-for-sale and are carried at fair market value, with unrealized gains and losses, net of tax, reported as a separate component of stockholders' equity. At the balance sheet dates presented, investments consisted of (in thousands):

August 28, 2004

	<u>Cost</u>	<u>Unrealized Gains (Losses)</u>	<u>Fair Market Value</u>
Trading Securities (Current):			
Short Term Municipal Bond Fund	\$48,303	(\$95)	\$48,208
Available-for-Sale Investments (Long Term):			
Equity Investments	\$22	\$ 3	\$25

May 29, 2004

	<u>Cost</u>	<u>Unrealized Gains (Losses)</u>	<u>Fair Market Value</u>
Trading Securities (Current):			
Short Term Municipal Bond Fund	\$163,863	\$(392)	\$163,471
Short Term Bond Fund	<u>5,080</u>	<u>(77)</u>	<u>5,003</u>
)		
	<u>\$168,943</u>	<u>(\$469)</u>	<u>\$168,474</u>
)		

Available-for-Sale Investments (Long Term):			
Equity Investments	\$22	\$1	\$23

7. The Company records revenue at the time of sale and delivery of merchandise. The Company records revenue net of allowances for estimated future returns. The Company accounts for layaway sales and leased department revenue in compliance with Staff Accounting Bulletin ("SAB") No. 101, *Revenue Recognition in Financial Statements*. Layaway sales are recognized upon delivery of merchandise to the customer. The amount of cash received upon initiation of the layaway is recorded as a deposit liability within other current liabilities. Gift cards are recorded as a liability at the time of issuance, and upon redemption the related sale is recorded.

8. As of August 28, 2004, the Company had a current deferred tax asset of \$31.7 million and a non-current deferred tax asset of \$13.6 million. As of May 29, 2004, the Company had a current deferred tax asset of \$19.7 million and a non-current deferred tax asset of \$13.6 million. Income taxes are provided on an interim basis based upon the Company's estimate of the effective annual income tax rate.

Page 11

Valuation allowances were not required. Current deferred tax assets consisted primarily of certain operating costs, provisions for uncollectible receivables, certain inventory related costs not currently deductible for tax purposes and tax loss carryforwards. Non-current deferred tax assets primarily reflected the excess of store opening costs over book and tax depreciation differences.

9. The Company accounts for intangible assets in compliance with SFAS No. 142, *Goodwill and Other Intangible Assets*. The Company's intangible assets primarily represent costs incurred to acquire long term store leases. These leasehold purchases are recorded at cost, which approximates fair value, and, in accordance with SFAS No. 142, are amortized over the minimum lease term including option periods where the exercise of the option period can be reasonably assured, which approximates the leasehold's useful life. Amortization of intangibles is included in Selling and Administrative Expenses in the Company's Condensed Consolidated Statement of Operations. Intangible assets as of August 28, 2004 and May 29, 2004 are as follows (in thousands):

	August 28, 2004			May 29, 2004		
	Gross Carrying Amount	Accumulated Amortization	Net Amount	Gross Carrying Amount	Accumulated Amortization	Net Amount
Leasehold Purchases	\$59,920	\$12,740	\$47,180	\$59,920	\$11,820	\$48,100
Other	<u>1,042</u>	<u>342</u>	<u>700</u>	<u>1,042</u>	<u>317</u>	<u>725</u>
	<u>\$60,962</u>	<u>\$13,082</u>	<u>\$47,880</u>	<u>\$60,962</u>	<u>\$12,137</u>	<u>\$48,825</u>

Amortization expense amounted to \$1.0 million and \$1.0 million for the three month periods ended August 28, 2004 and August 30, 2003, respectively. Amortization expense for each of the next five fiscal years is estimated to be as follows: fiscal 2006 - \$3.6 million; fiscal 2007 - \$3.5 million; fiscal 2008 - \$3.5 million; fiscal 2009 - \$3.3 million; fiscal 2010 - \$3.2 million. Amortization for the remainder of fiscal 2005 is expected to be approximately \$3.1 million.

10. Other assets consist primarily of notes receivable.

11. Other current liabilities primarily consist of sales tax payable, unredeemed store credits and gift certificates, accrued payroll costs, accrued insurance costs, accrued operating expenses, layaway deposits, payroll taxes payable, dividend accrual, current portion of deferred rents and other miscellaneous items.

12. Other liabilities primarily consist of deferred lease incentives and the net accumulation of excess of straight line rent expense over actual rental expenditures. Deferred lease incentives are funds received from landlords used primarily to offset the costs of store remodelings. These deferred lease incentives are amortized over the expected lease term including rent holiday periods and option periods where the exercise of the option can be reasonably assured.

13. In May 2003, the Company established a reserve of \$0.4 million covering lease obligations of closed stores extending beyond May 31, 2003. Scheduled rent and rent related payments for each of the fiscal years 2004 and 2005 amount to \$0.2 million. During the three month period ended August 28, 2004, \$0.1 million of payments were applied against this reserve. In November 2003, additions to the Company's reserve for lease related obligations of closed stores amounted to \$1.5 million. Payments applied against this reserve during the first quarter of fiscal 2005 amounted to \$0.1 million. At August 28, 2004, the reserve amounted to \$1.3 million. The Company believes this reserve is adequate to cover the expected contractual lease payments and other ancillary costs associated with these closings. *

*Forward Looking Statement. See Safe Harbor Statement on Page 26.

14. Long-term debt consists of (in thousands):

	<u>August 28, 2004</u>	<u>May 29, 2004</u>
Senior Notes, 4.06% due in annual payments of various amounts from September 30, 2006 to September 30, 2010	\$36,000	\$36,000
Senior Notes, 4.67% due in annual payments of various amounts from September 30, 2007 to September 30, 2013	64,000	64,000
Industrial Revenue Bonds, 6.0% due in semi-annual payments of various amounts from September 1, 2004 to September 1, 2010	6,400	6,400
Promissory Note, non-interest bearing, due in monthly payments of \$17 through January 1, 2012	1,483	1,534
Capital Lease Obligations	<u>26,621</u>	<u>26,651</u>
Subtotal	134,504	134,585
Less Current Portion	<u>(1,078)</u>	<u>(1,047)</u>
))
Long-Term Debt and Obligations Under Capital Leases	<u>\$133,426</u>	<u>\$133,538</u>

Page 12

15. On August 5, 2004, the Board of Directors of the Company declared a cash dividend in the amount of four cents (\$0.04) per share payable on December 15, 2004 to stockholders of record on November 22, 2004. The Company has recognized a dividend accrual of \$1.8 million at August 28, 2004.

16. The Company presents comprehensive income as a component of stockholders' equity in accordance with SFAS No. 130, *Reporting Comprehensive Income*. For the three month period ended August 28, 2004 and the three month period ended August 30, 2003, comprehensive income consisted of net loss and net unrealized gains on available-for-sale investments.

17. The Company has one reportable segment, operating within the United States. Sales by major product categories are as follows (in thousands):

	Three Months Ended	
	August 28, <u>2004</u>	August 30, <u>2003</u>
Apparel	\$435,385	\$391,891
Home Products	<u>141,466</u>	<u>133,582</u>
	<u>\$576,851</u>	<u>\$525,473</u>

Page 13

Apparel includes all clothing items for men, women and children and apparel accessories, such as jewelry, perfumes and watches. Home Products includes linens, home furnishings, gifts, baby furniture and baby furnishings.

18. Rental income from leased departments, included in Other Revenue, amounted to \$2.0 million for each of the three month periods ended August 28, 2004 and August 30, 2003.

19. Rebates and allowances received from vendors are accounted for in compliance with Emerging Issues Task Force ("EITF") Issue No. 02-16, *Accounting by a Customer (including a Reseller) for Certain Consideration Received from a Vendor*. EITF Issue No. 02-16 specifically addresses whether a reseller should account for cash consideration received from a vendor as an adjustment of cost of sales, revenue, or as a reduction to a cost incurred by the reseller. Rebates and allowances received from vendors that are dependent on purchases of inventories are recognized as a reduction of cost of goods sold when the related inventory is sold or marked down. Rebates and allowances that are reimbursements of specific expenses are recognized as a reduction of selling and administrative expenses when earned, up to the amount of the incurred cost. Any vendor reimbursement in excess of the related incurred cost is recorded as a reduction of cost of sales. Application of EITF Issue No. 02-16 resulted in a reduction of net loss by \$0.1 million and \$0.6 million for the three month periods ended August 28, 2004 and August 30, 2003, respectively. Rebates and allowances that were reimbursements of specific expenses, which were recognized as a reduction of selling and administrative expenses, amounted to \$0.2 million and \$0.3 million for the three month periods ended August 28, 2004 and August 30, 2003, respectively.

20. In March 1998, the American Institute of Certified Public Accountants ("AICPA") issued Statement of Position ("SOP") 98-1, *Accounting For the Costs of Computer Software Developed For or Obtained for Internal-Use*. The SOP requires the capitalization of certain costs incurred in connection with developing or obtaining software for internal use. The Company capitalized \$0.6 million and \$1.4 million relating to these costs during the three month periods ended August 28, 2004 and August 30, 2003, respectively.

21. SFAS No. 123, *Accounting for Stock Based Compensation*, as amended by SFAS No. 148, *Accounting for Stock Based Compensation - Transition and Disclosure, an Amendment of FASB Statement No. 123*, encourages, but does not require companies to record compensation cost for stock-based employee compensation plans at fair value. The Company has chosen to continue to account for stock-based compensation using the intrinsic method prescribed in Accounting Principles Board ("APB") Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations. Accordingly, compensation cost for stock options is measured as the excess, if any, of the quoted market price of the Company's stock at the date of the grant over the amount an employee must pay to acquire the stock. The Company did not issue, and there was no compensation expense related to, the issuance of any stock options during the three month periods ended August 28, 2004 and August 30, 2003. Therefore, there would have been no effect on net loss and net loss per share had the Company applied the fair value recognition provisions of SFAS No. 123.

22. The Company accounts for impaired long-lived assets in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. This statement requires that long-lived assets and certain identifiable intangibles to be held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Also, in general, long-lived assets and certain intangibles to be disposed of should be reported at the lower of the carrying amount or fair value less cost to sell. The Company considers historical performance and future estimated results in its evaluation of potential impairment and then compares the carrying amount of the asset to the estimated future cash flows expected to result from the use of the asset. If the carrying amount of the asset exceeds the estimated expected undiscounted future cash flows, the Company measures the amount of the impairment by comparing the carrying amount of the asset to its fair value. The estimation of fair value is generally measured by discounting expected future cash flows at the rate the Company utilizes to evaluate potential investments.

23. The Company continuously monitors and evaluates store profitability. Based upon these evaluations, the decision to permanently close a store or to relocate a store within its same trading market is made. Only those stores permanently closed where sales by another store will not absorb the closed store's sales are included in the Company's calculation of discontinued operations. In accordance with SFAS No. 144, the Company's discontinued operations reflect the operating results for the eight stores closed during fiscal 2004. There were no stores closed during the three month period ended August 28, 2004.

	Three Months Ended	
	(All amounts in thousands)	
	August 28, <u>2004</u>	August 30, <u>2003</u>
Revenues	-	\$4,178
Gross Margin	-	536
Selling and Administrative Expenses	-	2,341
Depreciation	-	112
Loss from Discontinued Operations Before Income Tax Benefit	-	(2,144)
Loss from Discontinued Operations, Net of Tax	-	(\$1,315)

Page 14

24. The Company's net advertising costs consist primarily of newspaper and television costs. The production costs of net advertising are charged to expenses as incurred. Net advertising expenses for the three month periods ended August 28, 2004 and August 30, 2003 were \$10.8 million and \$11.2 million, respectively. The Company nets certain cooperative advertising reimbursements received from vendors against specific, incremental, identifiable costs incurred in connection with selling the vendors' products. Any excess reimbursement is characterized as a reduction of inventory and is recognized as a reduction to cost of sales as inventories are sold. Vendor rebates netted against advertising expense were less than \$0.1 million for each of the three month periods ended August 28, 2004 and August 30, 2003, respectively.

25. Basic and diluted net loss per share is based on the weighted average number of shares outstanding during each period. The amounts used in the calculation of basic and diluted loss per share from continuing operations are as follows (in thousands):

	Three Months Ended August 28, 2004			Three Months Ended August 30, 2003		
	<u>Loss</u>	<u>Shares</u>	<u>Per Share</u>	<u>Loss</u>	<u>Shares</u>	<u>Per Share</u>
Basic and Diluted Loss Per Share:						
Loss from Continuing Operations	(\$18,681)	44,636	(\$0.42)	(\$15,524)	44,547	(\$0.35)

SFAS No. 128, *Earnings Per Share*, requires that no potential common shares be included in the computation of any diluted per-share amount when a loss from continuing operations exists. As a result, options to purchase 442,320 shares of common stock, which were outstanding during the first quarter of fiscal 2005, were not included in the computation of weighted average shares outstanding, and 500,740 shares of common stock, which were outstanding during the first quarter of fiscal 2004, were not included in the computation of weighted average shares outstanding.

26. The Company holds no derivative financial instruments.

27. Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash, cash equivalents and investments. The Company manages the credit risk associated with cash equivalents and investments by investing with high-quality institutions and, by policy, limiting investments only to those which meet prescribed investment guidelines. The Company has a policy of making investments in debt securities with short-term ratings of A-1 (or equivalent) or long-term ratings of A and A-2 (or equivalent). The Company maintains cash accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses from maintaining cash accounts in excess of such limits. Management believes that it is not exposed to any significant risks on its cash and cash equivalent accounts.

28. Certain reclassifications have been made to the prior period's financial statements to conform to the classifications used in the current period. These reclassifications primarily relate to the treatment of discontinued store operations.

29. In March 2004, the EITF issued a consensus on EITF Issue No. 03-01, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*. In this consensus, the EITF required certain quantitative and qualitative disclosures related to debt and marketable equity securities classified as available-for-sale or held-to-maturity under SFAS No. 115 that are in an unrealized loss position at the balance sheet date but for which an other-than-temporary impairment has not been recognized. In addition, the EITF developed a basic model in evaluating whether investments within the scope of EITF Issue No. 03-01 have other-than-temporary impairment. The Company adopted the requirements of EITF Issue No. 03-01 during fiscal 2004. The adoption of EITF Issue No. 03-01 did not have a material impact on the Company's consolidated financial statements.

30. There have been no material changes from the disclosures made regarding commitments and contingencies in Amendment No. 4 to the Company's Annual Report on Form 10-K/A for the year ended May 29, 2004 filed with the Securities and Exchange Commission on April 19, 2005.

BURLINGTON COAT FACTORY WAREHOUSE CORPORATION
AND SUBSIDIARIES

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.

Burlington Coat Factory's management intends for this discussion to provide the reader with information that will assist in understanding our financial statements, the changes in certain key items in those financial statements from year to year, and the primary factors that accounted for those changes, as well as how certain accounting principles affect our financial statements. The following discussion contains forward-looking information and should be read in conjunction with the consolidated financial statements and notes thereto included elsewhere in this report and in Amendment No. 4 to the Company's Annual Report on Form 10-K/A filed with the Securities and Exchange Commission on April 19, 2005. Our actual results could differ materially from the results contemplated by these forward-looking statements due to various factors, including those discussed under the section entitled "Safe Harbor Statement." All applicable disclosures have been modified to reflect the Restatement as described below.

Restatement

Subsequent to the Company's issuance of its condensed consolidated financial statements for the three month periods ended August 28, 2004 and August 30, 2003, the Company's management reviewed its application of generally accepted accounting principles for lease accounting. Based on this review and discussions that the Company had with the Audit Committee of the Company's Board of Directors, on April 4, 2005, the Company concluded to restate its previously issued financial statements for each of the fiscal years ended May 29, 2004, May 31, 2003 and June 1, 2002, and for the first two quarters of fiscal 2005 related to its computation of depreciation/amortization, straight-line rent expense and the related deferred rent liability. In addition, the Company identified other matters

requiring the reclassification of certain items in the statements of operations and cash flows, as discussed in Note 2 to the condensed consolidated financial statements. These adjustments, collectively, are referred to as the "Restatement."

Historically, when accounting for leases with renewal options, the Company recorded rent expense on a straight-line basis over the fixed initial term, with the term commencing when rental payments actually began, and computed depreciation/amortization on the related leasehold improvements and other long-lived assets located on these properties over their useful lives. The Company has restated the financial statements to recognize rent expense on a straight-line basis over the expected lease term, including rent holidays and option periods where exercise of such option periods is reasonably assured. In addition, the commencement date of the period over which rental expense is recognized is the earlier of the date on which the Company becomes legally obligated for rental payments or the date on which the Company takes possession of the property. The resulting adjustments have no effect on historical or future cash flows or timing of payments under pertinent leases.

Page 16

In addition, the Company previously netted lease incentives received from the lessor for the reimbursement of costs of leasehold improvements against the incurred capital expenditures. The Company has restated its previously issued financial statements for the three month periods ended August 28, 2004 and August 30, 2003 to account for these lease incentives by recording them as deferred rent and amortizing them over the lease term.

The Restatement did not have any effect on comparative sales or on the Company's compliance with any covenant under the Company's line of credit facility or other debt instruments.

Management's Discussion and Analysis of Results of Operations and Financial Condition has been revised for the effects of the Restatement. See Note 2 to the condensed consolidated financial statements.

Overview

Burlington Coat Factory experienced an increase in sales in the first quarter of fiscal 2005. Net sales from continuing operations for the first quarter of fiscal 2005 ended August 28, 2004 were \$576.9 million compared with \$525.5 million for the comparative period ended August 30, 2003, a 9.8% increase. These results reflect a 2.9% comparative store sales increase over the comparative period in the prior year. Comparative store sales increased 1.6% in June, increased 4.0% in July and increased 3.5% in August compared with the same periods of last year. Gross margins decreased during the three month period ended August 28, 2004 compared with the three month period ended August 30, 2003 due to higher markdowns taken during the three month period ended August 28, 2004.

During the first quarter of fiscal 2005, the Company opened one Burlington Coat Factory store and relocated two Burlington Coat Factory stores to new locations within their existing trading markets. The Company plans to open an additional eight Burlington Coat Factory stores, three MJM Designer Shoes stores and two Super Baby Depot stores during fiscal 2005. Four relocations and seven remodels of existing Burlington Coat Factory stores are planned for the remainder of fiscal 2005. In addition, two locations which were previously operated as Decelle stores are expected to be converted and reopened as Cohoes Fashions stores. *

* Forward Looking Statement. See Safe Harbor Statement on Page 26.

Page 17

Key Performance Measures

Management considers numerous factors in assessing the Company's performance. Key performance measures used by management include comparative store sales, inventory turnover, inventory levels, gross margin, net

operating margin and liquidity.

Comparative store sales is a measure of the performance of a store during the current reporting period against the performance of the same store in the corresponding period of the previous year. The Company experienced an increase in comparative store sales of 2.9% in the first quarter of fiscal 2005 compared the first quarter of fiscal 2004.

Inventory turnover is a measure that indicates how efficiently inventory is bought and sold. It measures the length of time the Company owns its inventory. This is significant because usually the longer the inventory is owned, the more likely markdowns may be required to sell the inventory. Inventory turnover is calculated by dividing the retail sales before sales discounts by the average retail stock for the period being measured. Inventory turnover improved slightly in the first quarter of fiscal 2005 with a 2.0 rate, compared with a 1.9 rate in the first quarter of fiscal 2004. Inventory turnover for the first quarter of fiscal 2005 is below the Company's turnover rate for the prior fiscal year. This is due to higher inventory levels during the first fiscal quarter as the Company builds inventory for the fall selling season.

Inventory levels are monitored by management to assure that the stores are properly stocked to service customer needs while at the same time assuring that stores are not over-stocked which would necessitate increased markdowns to move slow-selling merchandise. At August 28, 2004, inventory was \$727.8 million versus \$669.9 million at August 30, 2003. This increase in inventory is due to the increase in the number of stores operating in the first quarter of fiscal 2005 compared with the first quarter of fiscal 2004.

Gross margin is a measure used by management to indicate whether the Company is selling merchandise at an appropriate gross profit. Gross margin is the difference between net sales and the cost of sales. For the three month period ended August 28, 2004, the Company experienced a decrease in gross margin to 35.2% from 36.6% for the three month period ended August 30, 2003. This decrease is due primarily to increases in markdowns and decreases in initial markons in the current year's three month period compared with the similar period of last year.

Net operating margin provides management with an indication of the operating profitability of the Company. Net operating margin is the difference between revenues (net sales and other revenue) and the combination of the Cost of Sales and operating expenses (Selling and Administrative Expenses and Depreciation). Historically, the Company's first fiscal quarter is a loss quarter. The negative margin for the three month period ended August 28, 2004 and the three month period ended August 30, 2003 was \$29.6 million and \$24.9 million, respectively.

Page 18

Liquidity measures the Company's ability to generate cash. Management measures liquidity through cash flow and working capital. Cash flow is the measure of cash generated from operating, financing, and investing activities. The Company experienced an increase in cash flow from the sale of short term investments. In addition, the Company experienced a decrease in cash outflow from investing activities during the current year's first quarter compared with last year's first quarter. This was primarily due to a decrease in the acquisition of property and equipment of \$13.3 million. Along with cash flow, working capital assists management in determining the Company's ability to meet its cash requirements. Working capital measures the Company's current financial position. Working capital is current assets, excluding assets from discontinued operations, minus current liabilities. Working capital at August 28, 2004 was \$302.4 million compared with \$156.5 million at August 30, 2003. This increase in working capital resulted in part from the Company's sale of \$100 million of senior notes in September 2003.

Critical Accounting Policies and Estimates

The Company's condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires

management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities; (ii) the disclosure of contingent assets and liabilities at the date of the consolidated financial statements; and (iii) the reported amounts of revenues and expenses during the reporting period. On an on-going basis, management evaluates its estimates and judgments, including those related to revenue returns, bad debts, inventories, income taxes, financing operations, asset impairment, retirement benefits, risk participation agreements, vendor promotional allowances, reserves for closed store and contingencies and litigation. Historical experience and various other factors, that are believed to be reasonable under the circumstances, form the basis for making estimates and judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The Company believes that the following represent its more critical estimates and assumptions used in the preparation of the condensed consolidated financial statements:

Inventory

. The Company's inventory is valued at the lower of cost or market using the retail first-in, first-out ("FIFO") inventory method. Under the retail inventory method, the valuation of inventory at cost and resulting gross margin are calculated by applying a calculated cost to retail ratio to the retail value of inventory. The retail inventory method is an averaging method that has been widely used in the retail industry due to its practicality. Additionally, the use of the retail inventory method will result in valuing inventory at the lower of cost or market if markdowns are currently taken as a reduction of the retail value of inventory. Inherent in the retail inventory method calculation are certain significant management judgments and estimates including, merchandise markon, markups, markdowns and shrinkage which significantly impact the ending inventory valuation at cost as well as the resulting gross margin. Management believes that the Company's retail inventory method and application of FIFO provides an inventory valuation which approximates cost using a first-in, first-out assumption and results in carrying value at the lower of cost or market. Estimates are used to charge inventory shrinkage for the first three fiscal quarters of the fiscal year. An actual physical inventory is conducted at the end of the fiscal year to calculate actual shrinkage. The Company also estimates its required markdown allowances. If actual market conditions are less favorable than those projected by management, additional markdowns may be required. While the Company makes estimates on the basis of the best information available to it at the time estimates are made, over accruals or under accruals may be uncovered as a result of the physical inventory requiring fourth quarter adjustments.

Insurance

. The Company has risk participation agreements with insurance carriers with respect to workers' compensation and liability insurance. Pursuant to these arrangements, the Company is responsible for paying individual claims up to designated dollar limits. The amounts included in the Company's costs related to these claims are estimated and can vary based on changes in assumptions or claims experience included in the associated insurance programs. An increase in worker's compensation claims by employees or liability claims will result in a corresponding increase in the Company's costs related to these claims.

Page 19

Reserves for Revenue Returns

. The Company records reserves for future revenue returns. The reserves are based on current revenue volume and historical claim experience. If claims experience differs from historical levels, revisions in the Company's estimates may be required.

Long-Lived Assets

. The Company tests for recoverability of long-lived assets whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. This includes performing an analysis of anticipated undiscounted future net cash flows of long-lived assets. If the carrying value of the related assets exceeds the undiscounted cash flow, the Company reduces the carrying value to its fair value, which is generally calculated using discounted cash flows. Various factors including future sales growth and profit margins are included in this analysis. To the extent these future projections change, the conclusion regarding impairment may differ from the estimates. Future adverse changes in market conditions or poor operating results of underlying assets could result in losses or an inability to recover the carrying value of the assets that may not be reflected in an asset's current carrying value, thereby possibly requiring an impairment charge in the future.

Allowance for Doubtful Accounts

. The Company maintains allowances for bad checks and losses on credit card accounts. This reserve is calculated based upon historical collection activities adjusted for current conditions.

Recent Accounting Pronouncements

In March 2004, the Emerging Issues Task Force ("EITF") issued a consensus on EITF Issue No. 03-01, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*. In this consensus, the EITF required certain quantitative and qualitative disclosures related to debt and marketable equity securities classified as available-for-sale or held-to-maturity under SFAS No. 115 that are in an unrealized loss position at the balance sheet date but for which an other-than-temporary impairment has not been recognized. In addition, the EITF developed a basic model in evaluating whether investments within the scope of EITF Issue No. 03-01 have other-than-temporary impairment. The Company adopted the requirements of EITF Issue No. 03-01 during fiscal 2004. The adoption of EITF Issue No. 03-01 did not have a material impact on the Company's consolidated financial statements.

Results of Operations

The following table sets forth certain items in the Condensed Consolidated Statements of Operations as a percentage of net sales for the three month periods ended August 28, 2004 and August 30, 2003.

Percentage of Net Sales

Three Months Ended

	(unaudited)	
	August 28, <u>2004</u>	August 30, <u>2003</u>
Net Sales	100.0%	100.0%
Cost of Sales	64.8	63.4
Selling & Administrative Expenses	37.7	38.8

Depreciation	3.7	3.6
Interest Expense	0.3	0.1
Other Income, Net	0.1	0.1
Other Revenue	1.1	1.1
Loss from Continuing Operations before Income Taxes	(5.3)	(4.8)
Income Tax Benefit	2.1	1.9
Net Loss	(3.2%)	(3.2%)

Page 20

Three Months Ended August 28, 2004 and August 30, 2003

Sales

Consolidated net sales increased \$51.4 million (9.8%) for the three month period ended August 28, 2004 compared with the similar period of last year. Comparative stores sales increased 2.9% for the first quarter of fiscal 2005.

Beginning in fiscal 2004, the Company defines its comparative store sales as sales of those stores (net of sales discounts) that are beginning their four hundred and twenty-fifth day of operation (approximately 1 year and 2 months). Existing stores whose square footage has been changed by more than 20% and relocated stores are classified as new stores for comparative store sales purposes. This method is used in this section in comparing the results of operations for the three month period ended August 28, 2004 with the results of operations for the three month period ended August 30, 2003.

One new and two relocated Burlington Coat Factory department stores opened during the first quarter of fiscal 2005 contributed \$2.0 million to net sales for the first quarter of fiscal 2005. Stores opened during fiscal 2004 contributed \$31.1 million to this year's net sales in their non-comparative periods.

The Cohoes Fashions stores contributed \$7.9 million to consolidated sales for the three month period ended August 28, 2004 compared with \$7.8 million for the three month period ended August 30, 2003.

The MJM Designer Shoes stores contributed \$6.8 million to sales for the three month period ended August 28, 2004 compared with \$5.7 million for the similar period of last year. As of August 28, 2004, eleven MJM Designer Shoes stores were operating.

Through June 2003, the Company operated seven stores under the name "Decelle." During July 2003, these stores were closed. The Company converted three of these stores to Burlington Coat Factory stores and intends to convert two stores to Cohoes Fashions stores. Sales in fiscal 2004 for the Decelle stores were \$3.2 million.

Other Revenue

Other Revenue (consisting of rental income from leased departments, sublease rental income, layaway and alteration service charges and miscellaneous revenue items) increased to \$6.4 million for the three month period ended August 28, 2004 compared with \$5.7 million for the similar period of last year. This increase is primarily related to increases in sublease rental income from new stores and from two shopping centers controlled by the Company, and by increases in service charges.

Page 21

Cost of Sales

Cost of sales increased \$41.1 million (12.4%) for the three month period ended August 28, 2004 compared with the three month period ended August 30, 2003. The dollar increase in cost of sales was due to the increase in net sales during the three month period ended August 28, 2004 compared with the three month period ended August 30, 2003 and to increased markdown costs in the three month period ended August 28, 2004. Cost of sales as a percentage of net sales increased from 63.4% in the fiscal 2004 period to 64.8% in the fiscal 2005 period. The increase in cost of sales, as a percentage of net sales, for the fiscal 2005 period compared with the fiscal 2004 period was primarily the result of increases in markdown related expenses and slightly lower initial margins. These increases were partially offset by a decrease in the Company's interim provision for inventory shrinkage for this year's three month period compared with the similar period of last year. The Company's cost of sales and gross margin may not be comparable to those of other entities, since some entities include all of the costs related to their buying and distribution functions in cost of sales. The Company includes these costs in the Selling and Administrative Expenses and Depreciation line items in the Condensed Consolidated Statements of Operations. The Company includes in its Cost of Sales line item all costs of merchandise (net of purchase discounts and certain vendor allowances), inbound freight, warehouse outbound freight and freight related to internally transferred merchandise and certain merchandise acquisition costs, primarily commissions and import fees.

Selling and Administrative Expenses

Selling and Administrative Expenses, including amortization of leasehold purchases, increased \$13.4 million (6.6%) from the fiscal 2004 three month period to the fiscal 2005 three month period. The increase in selling and administrative expenses was due primarily to the increased number of stores in operation during the first quarter of fiscal 2005 as compared with the first quarter of fiscal 2004. As a percentage of net sales, Selling and Administrative Expenses were 37.7% for the three month period ended August 28, 2004 compared with 38.8% for the three month period ended August 30, 2003. As a percentage of net sales, payroll related costs declined 0.7% for fiscal 2005 compared with fiscal 2004 as a result of the Company's budgetary controls over payroll expenditures. In addition, as a percentage of net sales, occupancy costs declined 0.6% for the current fiscal period as compared with the similar period of last year. During fiscal 2004 and fiscal 2003, the Company established reserves of \$1.5 million and \$0.4 million, respectively, for future lease obligations relating to stores closed during these periods of which \$0.2 million was paid during the first quarter of fiscal 2005.

Depreciation

Depreciation expense amounted to \$21.5 million in the three month period ended August 28, 2004 compared with \$19.1 million in the three period month ended August 30, 2003. This increase of \$2.4 million is attributable primarily to capital additions relating to new store purchases, improvements, expansions and remodelings over the past two fiscal years.

Page 22

Interest Expense

Interest expense increased \$1.0 million for the three month period ended August 28, 2004 compared with the similar period of last year. The increase in interest expense is primarily related to the \$100.0 million of senior notes issued by the Company in September 2003.

Other Income, Net

Other Income, Net (consisting of investment income, gains and losses on disposition of assets and other miscellaneous items) increased \$0.4 million to \$0.8 million for the three month period ended August 28, 2004 compared with the similar period of last year. The increase is due primarily to slightly lower losses on disposals of fixed assets and increases in miscellaneous items in the three month period ended August 28, 2004 compared with the similar period of last

year.

Income Tax

Income tax benefit was \$12.0 million for the three month period ended August 28, 2004 and \$9.8 million for the similar fiscal period of last year. The effective tax rate for the first quarter of fiscal 2004 was 38.7% compared with 39.1% in the first quarter of fiscal 2005. The increase in the effective tax rate is primarily the result an increase in the Company's expected effective state income tax rate.

Loss from Continuing Operations

Loss from continuing operations amounted to \$18.7 million for the three month period ended August 28, 2004 compared with \$15.5 million for the comparative period of last year. Basic and diluted loss per share from continuing operations was \$0.42 per share for the first quarter of fiscal 2005 compared with basic and diluted loss per share from continuing operations of \$0.35 per share for the similar period of fiscal 2004.

Discontinued Operations

During fiscal 2004, the Company discontinued the operations of eight stores. During the three month period ended August 30, 2003, net sales and gross margin for these stores amounted to \$4.2 million and \$0.5 million, respectively, during the period. Loss from discontinued operations amounted to \$1.3 million during the first quarter of fiscal 2004. Loss per share from discontinued operations for the three month period ended August 30, 2003 was \$0.03 per share. There were no discontinued operations recorded during the first three months of fiscal 2005.

Page 23

Net Loss

Net loss increased \$1.9 million to \$18.7 million for the fiscal 2005 period from \$16.8 million for the comparative 2004 period.

Liquidity and Capital Resources

Overview

The Company was able to satisfy its cash requirements for current operations, expansions (such as new store openings), and other initiatives primarily from cash flows provided by operating activities, combined with the sale of senior notes, short-term borrowings and utilizing available lines of credit.

Operational Growth

During the first quarter of fiscal 2005, the Company opened one Burlington Coat Factory Warehouse department store and relocated two Burlington Coat Factory Warehouse department stores to new locations within their trading areas. The Company estimates spending approximately \$118.1 million in capital expenditures during fiscal 2005 including \$102.1 million for store expenditures, \$2.6 million for upgrades of warehouse facilities and \$13.4 million for computer and other equipment expenditures. For the first three months of fiscal 2005, capital expenditures amounted to approximately \$29.5 million.

The Company monitors the availability of desirable locations for its stores from such sources as dispositions by other retail chains and bankruptcy auctions. The Company may seek to acquire a number of such locations in one or more transactions. Additionally, the Company may consider strategic acquisitions. If the Company undertakes such transactions, the Company may seek additional financing to fund acquisition and carry charges (i.e., the cost of rental, maintenance, tax and other obligations associated with such properties from the time of commitment to acquire to the time that such locations can be readied for opening as Company stores) related to these stores.* There can be no assurance, however, that any additional locations will become available from other retailers or that, if available, the Company will undertake to bid or be successful in bidding for such locations. Furthermore, to the extent that the Company decides to purchase additional store locations, it may be necessary to finance such acquisitions with additional long-term borrowings. *

Stock Repurchases

From time to time, the Company repurchases shares of its stock. These purchases are reflected as treasury stock in the equity section of the balance sheet. During fiscal 2004 and the first quarter of fiscal 2005, the Company did not repurchase any shares of its stock. During fiscal 2004, the Company reissued 46,402 shares of treasury stock as part of its required contribution to the Company's 401(k) and profit sharing plans. As of August 28, 2004, the Company had authority to purchase an additional \$3.6 million of its stock.

Working Capital

Working capital decreased to \$302.4 million at August 28, 2004 from \$330.0 million at May 29, 2004. This decrease is due primarily to the Company's purchase of property and equipment for new stores.

Net Cash Provided by Continuing Operations

Net cash provided by continuing operations of \$45.2 million for the first quarter of fiscal 2005 increased by \$57.9 million from \$12.7 million of net cash used in continuing operations for the similar period of fiscal 2004. This increase in net cash from continuing operations was due primarily to the sale of the Company's short term investments during the current fiscal year's first quarter. The Company had short term investments of \$168.5 million at May 29, 2004, primarily resulting from the Company's sale of \$100 million of senior notes in September 2003.

* Forward Looking Statement. See Safe Harbor Statement on Page 26.

Dividends

On August 5, 2004, the Board of Directors of the Company declared a cash dividend in the amount of four cents (0.04) per share payable on December 15, 2004 to stockholders of record on November 22, 2004. The Company has recognized a dividend accrual of \$1.8 million at August 28, 2004.

Long-Term Borrowings and Capital Lease Obligations

The Company's long-term borrowings at August 28, 2004 consisted of \$100 million of Senior Notes issued to institutional investors in a private placement, an industrial development refunding bond of \$6.4 million issued by the New Jersey Economic Development Authority (the "Refunding Bonds"), a \$1.5 million loan from the Burlington County Board of Chosen Freeholders and capital lease obligations of \$26.6 million.

Refunding Bonds

. The Refunding Bonds consist of term bonds. The term bonds consist of two portions, \$1.4 million maturing on September 1, 2005 and \$5.0 million maturing on September 1, 2010. The term bonds bear interest at the rates of 5.6% for the portion maturing on September 1, 2005 and 6.125% per annum for the portion maturing on September 1, 2010. The average interest rate and average scheduled maturity of the Refunding Bonds are 6.0% and 3.4 years, respectively. Payment of the principal and interest are guaranteed under an irrevocable letter of credit in the amount of \$6.6 million.

Loan from Burlington County Board of Freeholders

. On December 5, 2001, the Company borrowed \$2.0 million from the Burlington County Board of Chosen Freeholders. The proceeds were used for part of the acquisition and development costs of a new warehouse facility in Edgewater Park, New Jersey. The loan is interest-free and matures on January 1, 2012. The loan is to be repaid in monthly installments of \$16,667 which began on February 1, 2002.

Senior Notes

. On August 15, 2003, the Company and its wholly-owned subsidiary, Burlington Coat Factory Warehouse of New Jersey, Inc., entered into a Note Purchase Agreement with a group of institutional investors for the sale of an aggregate of \$100 million of Senior Notes. The Notes were issued on September 30, 2003 in two tranches. The Series A Notes aggregated \$36 million at an interest rate of 4.06% due in annual payments of various amounts from September 30, 2006 to September 30, 2010. The Series B Notes aggregated \$64 million at an interest rate of 4.67% due in annual payments of various amounts from September 30, 2007 to September 30, 2013. The Company intends to use the proceeds from the sale of the Notes for general corporate purposes and the build-out of additional stores, including associated real estate acquisitions.

Capital Lease Obligations

. The Company has capital lease obligations relating to two of its stores. The lease terms for these locations extend over twenty-three years and twenty-one years. The capital lease obligations equal the present value of the minimum lease payments under the leases and amounted to \$27.1 million. At August 28, 2004, capital lease obligations amounted to \$26.6 million. During the first fiscal quarter of 2005, \$0.6 million of lease payments were applied to interest and less than \$0.1 million were applied against capital lease obligations.

Lines of Credit

As of August 28, 2004 and August 30, 2003, the Company had in place a committed four year revolving line of credit agreement in the amount of \$100.0 million. The term of the committed revolving line of credit automatically renews for an additional year on its anniversary unless the lender gives notice of its intention to not renew in which case the revolving line of credit will continue until the remaining three year term expires. Short term borrowings against the Company's lines of credit bear interest at or below the lending bank's prime rate (4.50% at August 28, 2004). The Company had letter of credit commitments outstanding against the committed line of credit of \$35.5 million at August 28, 2004 and \$31.6 million at August 30, 2003. For the three month period ended August 28, 2004, the Company had no borrowing under these lines of credit. At August 30, 2003, the Company had borrowing under these lines of credit of \$53.4 million. Maximum borrowing amounted to \$62.9 million during the first quarter of fiscal 2004. The average borrowing under these credit lines during the first quarter of fiscal 2004 was \$33.3 million, at an average interest rate of 1.6%. Borrowings under the Company's lines of credit were necessary during the prior year's first three months primarily because of the purchase of inventory during the period and capital expenditure requirements.

Letters of Credit

The Company also had letter of credit agreements with a bank in the amount of \$2.2 million and \$3.5 million guaranteeing performance under various leases, insurance contracts and utility agreements at August 28, 2004 and August 30, 2003, respectively.

Off-Balance Sheet Arrangements and Contractual Obligations

As of August 28, 2004, the Company had no material off-balance sheet arrangements. The Company's contractual obligations and commitments, which consist of debt, capital and operating leases, open purchase orders, outstanding letters of credit and other miscellaneous commitments, have not changed materially from the amounts disclosed in Amendment No. 4 to the Company's Annual Report on Form 10-K/A for the fiscal year ended May 29, 2004 filed with the Securities and Exchange Commission.

Page 25

Liquidity and Capital Resources Summary

The Company believes that its current capital expenditures and operating requirements can be satisfied from internally generated funds, from the proceeds of the sale of the \$100 million of senior notes, from short term borrowings under its revolving credit and term loan agreement as well as uncommitted lines of credit.* Furthermore, to the extent that the Company decides to purchase additional store locations, or to undertake unusual transactions such as an acquisition, it may be necessary to finance such transactions with additional long term borrowings. *

Safe Harbor Statement

Statements made in this report that are forward-looking (within the meaning of the Private Securities Litigation Reform Act of 1995) are not historical facts and involve a number of risks and uncertainties. Such statements include but are not limited to, proposed store openings and closings, proposed capital expenditures, projected financing requirements, proposed developmental projects, projected sales and earnings, and the Company's ability to maintain selling margins. Among the factors that could cause actual results to differ materially are the following: general economic conditions; consumer demand; consumer preferences; weather patterns; competitive factors, including pricing and promotional activities of major competitors; the availability of desirable store locations on suitable terms; the availability, selection and purchasing of attractive merchandise on favorable terms; import risks; the Company's ability to control costs and expenses; unforeseen computer related problems; any unforeseen material loss or casualty; the effect of inflation; and other factors that may be described in the Company's filings with the Securities and Exchange Commission. The Company does not undertake to publicly update or revise its forward-looking statements

even if experience or future changes make it clear that any projected results expressed or implied will not be realized.

* Forward Looking Statement. See Safe Harbor Statement on Page 26.

Item 3. Quantitative and Qualitative Market Risk Disclosures.

The Company does not have any derivative financial instruments. The Company's primary market risk exposure with regard to financial instruments is to changes in interest rates. Pursuant to the terms of certain revolving credit arrangements, changes in the lenders' prime rate, LIBOR or other stated interest rates could affect the rates at which the Company could borrow funds thereunder. At August 28, 2004, the Company had no outstanding borrowings against the credit facilities. The table below summarizes the fair value and contract terms of the Company's fixed rate debt and capital lease obligations at August 28, 2004:

Expected Maturity Date of Long-Term Debt and Capital Lease Obligations (Including Current Portion) at August 28, 2004 (unaudited) (dollar amounts in thousands):

	<u>Fixed Rate Debt</u>	<u>Average Interest Rate</u>
2005	\$ 966	5.2%
2006	1,190	5.3%
2007	8,488	4.3%
2008	17,740	4.5%
2009	17,861	4.5%
2010	18,056	4.6%
Thereafter	<u>70,203</u>	6.0%
Total	<u>\$134,504</u>	
Fair Value at August 28, 2004	<u>\$130,630</u>	

Item 4. Controls and Procedures.

The Company's management, with the participation of the Company's principal executive officer and principal financial officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's principal executive officer and principal financial officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. A controls system, no matter how well designed and operated, cannot provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

In connection with the Restatement and the filing of this Form 10-Q/A, the Company's management, with the participation of the Company's principal executive officer and principal financial officer, re-evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Company's principal executive officer and principal financial officer concluded that, as of the end of such period, the Company's disclosure controls and procedures as of the end of the period covered by this report were functioning effectively.

In concluding that the Company's disclosure controls and procedures were effective as of August 28, 2004, management considered, among other things, the circumstances that resulted in the restatement of its previously issued financial statements as more fully described in Note 2, "Restatement of Financial Statements," to the condensed consolidated financial statements included within this Form 10-Q/A. The Company's management also considered the materiality of the restatement adjustments on its condensed consolidated balance sheet and statement of operations included in this Form 10-Q/A, and that these non-cash adjustments had no effect on historical or future cash flows or timing of payments under pertinent leases. Finally the Company's management considered that restatements of financial statements in prior filings made with the SEC may be an indicator of the existence of weaknesses in the design or operation of internal control over financial reporting.

While the Company's principal executive officer and principal financial officer concluded that, as of August 28, 2004, disclosure controls and procedures are functioning effectively, the Company remains in the process of performing the system and process documentation, evaluation and testing required for management to provide an assessment of the effectiveness of the Company's internal control over financial reporting. At the end of fiscal 2005, the Company's management will be required under applicable securities laws to provide an assessment of the effectiveness of the Company's internal control over financial reporting, and the Company's independent registered public accountant will be required to audit management's assessment. In the course of evaluating and testing its internal control of financial reporting, management may identify deficiencies that will need to be addressed and remediated.

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 2. Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities.

The Company did not repurchase any shares of its stock during the three month period ended August 28, 2004. As of August 28, 2004, the Company had authority to purchase an additional \$3.6 million of its stock.

The following table summarizes the Company's common stock repurchase activity for the three month period ended August 28, 2004 and the approximate value of shares of common stock that may yet be repurchased.

<u>Period</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid Per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Program</u>	<u>Maximum Value of Shares that May Yet be Purchased Under Publicly Announced Program</u>
May 30, 2004 to June 30, 2004	-0-	N/A	-0-	\$0
July 1, 2004 to July 31, 2004	-0-	N/A	-0-	\$0
August 1, 2004 to August 28, 2004	-0-	N/A	-0-	\$0
Total	-0-	N/A	-0-	

Item 6. Exhibits and Reports on Form 8-K.

a. Exhibits

31.1

Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

31.2

Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

32.1

Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

32.2

Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

b. The Company filed three reports on Form 8-K during the period ended August 28, 2004. The first was filed June 8, 2004 and reported under Item 12 that the Company issued a press release reporting its sales for its fourth fiscal quarter and year ended May 29, 2004. The second was filed on August 6, 2004 and reported under Item 12 that the Company issued a press release reporting its

sales and net income for its fourth fiscal quarter and year ended May 29, 2004 and announcing the declaration of a cash dividend. The third was an amended Form 8-K filed on August 12, 2004 to correct a computational error contained in the press release attached to the Form 8-K filed on August 6, 2004. The report on Form 8-K filed on June 8, 2004 did not contain any financial statements. The reports on Form 8-K filed on August 6, 2004 and August 12, 2004 contained Consolidated Statements of Income (Unaudited) for the three months and year ended May 29, 2004 and May 31, 2003.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
