Press Release

**CVRD clarifies statements made to the press**

Rio de Janeiro, November 17, 2004 Companhia Vale do Rio Doce (CVRD), regarding articles published in various press media with interpretations of the statements made by the Chief Executive Officer of CVRD, Roger Agnelli, clarifies that:

- 1) CVRD is not keeping any talks with the Brascan Group about Noranda;
- 2) The statements made by the CEO were: CVRD never announced any agreement, never announced anything (with respect to Noranda). We have always announced the following: in the day we have something to announce, we would announce it officially. It is what we have always said. CVRD's management, including the Board of Directors and the Executive Directors never announced anything.
- 3) The CEO also stated that: If Brascan wishes to sell to the Chinese or to Russia, it is their concern, not ours. If they have an interest in searching for us to offer something, or to talk, I know their president, I know all their directors; there is no problem. We are open to study anything. We have as an obligation and duty to study everything. However, we will only go ahead with a project that generates, creates value to our shareholders. If the project does not create or generate value to our shareholders, we will analyze it and discard it. I would say to you that the volume of projects discarded is much greater than the ones accepted.
- 4) Therefore, there were not, at any time, any mentioning of any discussions or negotiations with whomever about the subject Noranda; the statements above are absolutely consistent with the direction adopted by CVRD to generate value for our shareholders. This was, is and continues to be the most important commitment of CVRD and its managers.

These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates.
