FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) Basis of Presentation

We, Famous Dave's of America, Inc. (Famous Dave's or the Company), were incorporated in Minnesota on March 14, 1994. We develop, own, operate and franchise restaurants under the name Famous Dave's. As of March 29, 2009, there were 174 restaurants operating in 37 states, including 47 company-owned restaurants and 127 franchise-operated restaurants. An additional 96 franchise restaurants were committed to be developed through signed area development agreements at March 29, 2009.

We prepared these consolidated financial statements in accordance with Securities and Exchange Commission (SEC) Rules and Regulations. These unaudited financial statements represent the consolidated financial statements of Famous Dave's and its subsidiaries as of March 29, 2009 and December 28, 2008 and for the three month periods ended March 29, 2009 and March 30, 2008. The information furnished in these financial statements includes normal recurring adjustments and reflects all adjustments, which are, in our opinion, necessary for a fair presentation. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Form 10-K for the fiscal year ended December 28, 2008 as filed with the SEC.

Due to the seasonality of our business, revenue and operating results for the three months ended March 29, 2009 are not necessarily indicative of the results to be expected for the full year.

(2) Net Income Per Common Share

Basic net income per common share (EPS) is computed by dividing net income by the weighted average number of common shares outstanding for the reporting period. Diluted EPS equals net income divided by the sum of the weighted average number of shares of common stock outstanding plus all additional common stock equivalents, such as stock options, when dilutive.

Following is a reconciliation of basic and diluted net income per common share:

	Three Months Ended	
	March	
	29, 2009	March 30, 2008
<i>(in thousands, except per share data)</i>		
Net income per common share basic:		
Net income	\$ 1,320	\$ 835
Weighted average shares outstanding	9,082	9,611
Net income per common share basic	\$ 0.15	\$ 0.09
 Net income per common share diluted:		
Net income	\$ 1,320	\$ 835
Weighted average shares outstanding	9,082	9,611
Dilutive impact of common stock equivalents outstanding	5	162
Adjusted weighted average shares outstanding	9,087	9,773
Net income per common share diluted	\$ 0.15	\$ 0.09

There were 335,945 and 25,500 options outstanding as of March 29, 2009 and March 30, 2008, respectively, that were not available to be included in the computation of diluted EPS because they were anti-dilutive.

(3) Allowance for Doubtful Accounts

We provide an allowance for uncollectible accounts on accounts receivable based on historical losses and existing economic conditions, when relevant. During fiscal 2008, we established a general bad debt reserve for franchise receivables due to increases in day's sales outstanding and deterioration in general economic market conditions. This general reserve is based on the aging of receivables meeting specified criteria and is adjusted each quarter based on past due receivable balances. Additionally, we have periodically established a specific reserve on certain receivables as necessary. Any changes to the reserve are recorded in general and administrative expenses. The allowance for uncollectible accounts was approximately \$213,000 and \$457,000 at March 29, 2009 and December 28, 2008, respectively. The decrease in this balance is due to adjustments to our general reserve and write-offs of balances deemed uncollectible. Accounts receivable are written off when they become uncollectible, and payments subsequently received on such receivables are credited to bad debt expense. Account receivable balances written off have not exceeded allowances provided. We believe all accounts receivable in excess of the allowance are fully collectible. If accounts receivable in excess of the provided allowance are determined uncollectible, they are charged to expense in the period that determination is made. Outstanding past due accounts receivable are subject to a monthly interest charge on unpaid balances which is recorded as interest income in our consolidated statements of operations. In assessing recoverability of these receivables, we make judgments regarding the financial condition of the franchisees based primarily on past and current payment trends as well as other variables, and annual financial information, which the franchisees are required to submit to us.

(4) Public Relations and Marketing Development Fund and Restricted Cash

We have a system-wide Public Relations and Marketing Development Fund, which Company-owned restaurants, in addition to franchise-operated restaurants on which franchise agreements were signed after December 17, 2003, are required to contribute a percentage of net sales, currently 0.5%, to this fund that is used for public relations and marketing development efforts throughout the system. The assets held by this fund are considered restricted. Accordingly, we reflect the cash related to this fund in restricted cash and reflect the liability in accounts payable on our consolidated balance sheets as of March 29, 2009 and December 28, 2008. As of March 29, 2009 and December 28, 2008, we had approximately \$654,000 and \$1.2 million in this fund, respectively.

(5) Credit Facility

On April 17, 2008, the Company and certain of its subsidiaries (collectively known as the "Borrower") entered into an amendment and restatement of an existing Credit Agreement with Wells Fargo Bank, National Association, as administrative agent and lender (the "Lender"). The Credit Agreement, which amended and restated an agreement previously entered into by the company on July 31, 2006, increased the Company's existing revolving credit facility from \$20.0 million to \$30.0 million (the "Facility") with an opportunity, subject to the Company meeting identified covenants and elections, to increase the commitment to \$50.0 million. The maturity date on the Facility was extended five years to April 17, 2013.

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate plus an applicable margin or at a Base Rate plus an applicable margin. The Base Rate is defined in the agreement as either the Federal Funds Rate (0.25% at March 29, 2009) plus 0.5% or Wells Fargo's prime rate (3.25% at March 29, 2009). The applicable margin will depend on the Company's Adjusted Leverage Ratio, as defined, at the end of the previous quarter and will range from 1.00% to 2.00% for Euro Dollar Rate Loans and from -0.50% to +0.50% for Base Rate Loans. Unused portions of the Facility will be subject to an unused Facility fee which will equal to either 0.25% or 0.375% of the unused portion, depending on the Company's Adjusted Leverage Ratio. Our rate for the unused portion of the Facility as of March 29, 2009, was 0.25%. An increase option exercise fee will apply to increased amounts between \$30.0 and \$50.0 million.

(5) Credit Facility (continued)

The Facility contains customary affirmative and negative covenants for credit facilities of this type, including limitations on the Borrower with respect to indebtedness, liens, investments, distributions, mergers and acquisitions, dispositions of assets and transactions with affiliates of the Borrower, among others. The Facility also includes various financial covenants that have maximum target capital expenditures, cash flow ratios, and adjustment leverage ratios. If the Company's Adjusted Leverage Ratio is greater than 3.00 to 1.00, an additional covenant applies that limits the maximum royalty receivable aged past 30 days. In addition, capital expenditure limits include permitted stock repurchase limits (limited to \$10.0 million in aggregate during any 12 month period, and \$20.0 million in aggregate during the term of the agreement).

The Credit Agreement currently provides for up to \$3.0 million in letters of credit to be used by the Company, with any amounts outstanding reducing our availability for general corporate purchases, and also allows for the termination of the Facility by the Borrower without penalty at any time. At March 29, 2009 we had \$15.0 million in borrowings under this Facility, and had \$150,000 in Letters of Credit as required by our fiscal 2005 self-funded, workers compensation insurance policy and \$255,000 in letters of credit for real estate locations, which reduced our borrowing capacity under the Facility as of March 29, 2009.

We obtained a covenant waiver and amendment to our Facility effective December 28, 2008. The amendment temporarily changes the definition of EBITDA in our existing Facility and specifically carves out certain franchise receivables from EBITDA and the maximum aged royalties receivable calculation due to special circumstances. We paid approximately \$45,000 of fees related to the amendment, which were deferred the first quarter of 2009 and will be amortized over the remaining life of the facility. We were in compliance with all covenants as of March 29, 2009.

(7) Stock Options, Performance Shares, Other Forms of Compensation, and Common Share Repurchases**Stock-based Compensation**

We recognized stock-based compensation expense in our consolidated statements of operations for the first quarter of fiscal years 2009 and 2008, respectively, as follows:

We have adopted a 1995 Stock Option and Compensation Plan, a 1997 Employee Stock Option Plan, a 1998 Director Stock Option Plan and a 2005 Stock Incentive Plan (the Plans), pursuant to which we may grant stock options, stock appreciation rights, restricted stock, performance shares, and other stock and cash awards to eligible participants. Under the Plans, an aggregate of 429,000 shares of our Company's common stock remained unreserved and available for issuance at March 29, 2009. In general, the stock options we have issued under the Plans vest over a period of 3 to 5 years and expire 10 years from the date of grant. The 1995 Stock Option and Compensation Plan expired on December 29, 2005, the 1997 Employee Stock Option Plan expired on June 24, 2007, and the 1998 Director Stock Option Plan expired on June 19, 2008. Although incentives are no longer eligible for grant under these plans, each such plan will remain in effect until all outstanding incentives granted hereunder have either been satisfied or terminated.

Performance Shares

Since fiscal 2005, stock incentive awards for employees of the Company (whom we refer to as Associates), including officers, have primarily taken the form of performance shares. We have a program under which management and certain director-level Associates may be granted performance shares under the 2005 Stock Incentive Plan, subject to certain contingencies. Issuance of the shares underlying the performance share grants is contingent upon the Company achieving a specified minimum percentage of the cumulative earnings per share goals (as determined by the Compensation Committee) for each of the three fiscal years covered by the grant. Upon achieving the minimum percentage, and provided that the recipient remains an Associate during the entire three-year performance period, the Company will issue the recipient a percentage of the performance shares that is based upon the percentage of the cumulative earnings per share goals achieved. No portion of the shares will be issued if the specified percentage of earnings per share goals is achieved in any one or more fiscal years but not for the cumulative three-year period.

No recipient will have any rights as a shareholder based on the performance share grants unless and until the conditions have been satisfied and the shares have been issued to the recipient. In accordance with this program, we recognize as compensation expense, the value of these stock grants as they are earned in our consolidated statements of operations throughout the performance period.

As of March 29, 2009, we currently have three performance share programs in progress. All of these performance share awards qualify for equity-based treatment under Statement of Financial Accounting Standards (SFAS) No. 123R. Accordingly, we recognize compensation cost for these share-based awards based on their fair value, which is the closing stock price at the date of grant over the requisite service period (i.e. fixed treatment). During the first quarter of fiscal 2009, based on our history of approximately 90% attainment of performance share payout, we estimated our attainment rate for the performance share plans in year two and three to be approximately 90%. In the first year of any program, we estimate the attainment rate to be 100%. In accordance with SFAS 123R, we have recorded compensation expense net of the estimated 10% non-attainment rate. We will continue to evaluate the need to adjust the attainment percentage in future periods. During the first quarter of fiscal 2009, we issued 26,484 shares out of the 2006-2008 performance share program, representing the achievement of approximately 82.3% of the target payout for this program. Recipients elected to forfeit 10,336 of those shares to satisfy tax withholding obligations, resulting in a net issuance of 16,148 shares. The current status of our performance share programs as of March 29, 2009, is as follows:

For each of the three programs currently in progress, if the Company achieves at least 80% of the Cumulative EPS Goal, then each recipient will be entitled to receive a percentage of the Target number of Performance Shares granted that is equal to the percentage of the Cumulative EPS Goal achieved, up to 100%. With all of the plans, except the 2009-2011 plan, if the Company achieves between 100% and 150% of the Cumulative EPS Goal, each recipient will be entitled to receive an additional percentage of the Target number of Performance Shares granted equal to twice the incremental percentage increase in the Cumulative EPS Goal over 100% (e.g., if the Company achieves 120% of the Cumulative EPS Goal, then the recipient will be entitled to receive 140% of his or her Target Performance Share amount). The maximum share payout a recipient will be entitled to receive under the 2009 2011 plan is 100% of the shares granted if the Cumulative EPS Goal is met.

Restricted Stock Units

On April 21, 2008, Wilson L. Craft commenced employment with the Company serving as its President and Chief Executive Officer. Also on April 21, 2008, and pursuant to the agreement governing Mr. Craft's employment, the Company granted Mr. Craft 100,000 restricted stock units having an aggregate grant date fair value of \$925,000. On September 11, 2008, Wilson Craft resigned as Chief Executive Officer and the grant of restricted stock units was cancelled in its entirety.

On September 11, 2008, Christopher O. Donnell was promoted to President and Chief Executive Officer. Also on September 11, 2008, and pursuant to the agreement governing Mr. O. Donnell's employment, the company granted 50,000 restricted stock units having an aggregate grant date fair value of \$454,000. These restricted stock units will vest in three equal installments on the three, four and five year anniversaries of the grant date provided that Mr. O. Donnell remains employed by the Company through the applicable vesting date, and will vest in its entirety upon a change of control as defined in the employment agreement. In accordance with SFAS No. 123R, the compensation expense for this grant will be recognized in equal quarterly installments as general and administrative expense in our consolidated statements of operations through the applicable service period which expires in the third quarter of fiscal 2013.

In addition, on the same date, the Company made a grant of 25,000 restricted stock units to the Company's Chief Financial Officer, Diana Purcel, for a grant date fair value of \$227,000. This grant is subject to the same terms and conditions as Mr. O. Donnell's grant.

Deferred Stock Unit Plan

We have an Executive Elective Deferred Stock Unit Plan (Deferred Stock Unit Plan), in which executives can elect to defer all or part of their annual incentive compensation or commissions, or their receipt of any compensation in the form of stock grants under the Company's equity incentive plans or otherwise, for a specified period of time. The amount of compensation that is deferred is converted into a number of stock units, as determined by the share price of our common stock on the effective date of the election. Following expiration of the deferral period, stock units representing cash deferrals are re-converted into cash and paid to the executive. In accordance with SFAS No. 123R, the Deferred Stock Unit Plan qualifies for liability treatment. Accordingly, we recognize compensation expense throughout the deferral period to the extent that the share price of our common stock increases, and reduce compensation expense throughout the deferral period to the extent that the share price of our common stock decreases (i.e. mark to market). No deferrals were elected in fiscal 2008 or fiscal 2007.

Common Share Repurchases

On August 6, 2008, our Board of Directors authorized a stock repurchase plan that authorized the repurchase of up to 1.0 million shares of our common stock from time-to-time in both the open market or through privately negotiated transactions. As of March 29, 2009 we had repurchased 75,412 shares under this program for approximately \$680,000 at an average market price per share of \$9.00, excluding commissions. There were no purchases during the first quarter of fiscal 2009.

Board of Directors Compensation

In fiscal 2009, we will issue shares to our independent board members at the time of our annual shareholder meeting on May 5, 2009. These will vest over the term of service from May 2009 to April 2010.

In February 2008, we awarded our independent board members shares of common stock for their service on our board for fiscal 2008. These shares were unrestricted upon issuance, but required repayment of the prorated portion or equivalent value thereof, in cash, in the event of a board member not fulfilling their term of service. In total, 25,500 shares were issued on February 20, 2008, on which date the price of our common stock at the close of market was \$10.42. The total compensation cost of approximately \$266,000 was reflected in general and administrative expenses in our consolidated statements of operations for fiscal 2008, and was spread over the fiscal year equally by quarter.

Employee Stock Purchase Plan

The Company maintains an Employee Stock Purchase Plan (ESPP), which gives eligible employees the option to purchase Common Stock (total purchases in a year may not exceed 10 percent of an employee's current year compensation) at 100% of the fair market value of the Common Stock at the end of each calendar quarter. There were approximately 3,068 and 1,121 shares purchased with a fair value of \$3.23 and \$10.45 during the first quarter of 2009 and first quarter of 2008, respectively. For the fiscal quarter ended March 29, 2009 and March 30, 2008 the Company recognized no expense related to the stock purchase plan due to it being non-compensatory as defined by IRS Section 423.

(8) Retirement Savings Plans

401(k) Plan

We have a pre-tax salary reduction/profit-sharing plan under the provisions of Section 401(k) of the Internal Revenue Code, which covers employees meeting certain eligibility requirements. In fiscal 2009, we will match 25.0%, and in fiscal 2008, we matched 50.0%, respectively, of the employee's contribution up to 4.0% of their earnings. Employee contributions were approximately \$136,000 and \$149,000 for the first quarter of fiscal years 2009 and 2008, respectively. The employer match was \$20,000 and \$46,000 for the first quarter of fiscal years 2009 and 2008, respectively. There were no discretionary contributions to the Plan during the first quarter of fiscal years 2009 or 2008.

Non-Qualified Deferred Compensation Plan

We have a Non-Qualified Deferred Compensation Plan effective as of February 25, 2005 (the "Plan"). Eligible participants are those employees who are at the director level and above and who are selected by the Company to participate in the Plan. Participants must complete a deferral election each year to indicate the level of compensation (salary, bonus and commissions) they wish to have deferred for the coming year. This deferral election is irrevocable except to the extent permitted by the Plan Administrator, and the Regulations promulgated by the IRS. During fiscal 2009, we will match 25%, and in fiscal 2008, we matched 50%, respectively, of the first 4.0% contributed and paid a declared interest rate of 6% and 8%, respectively, on balances outstanding. The Board of Directors administers the Plan and could change the rate or any other aspects of the Plan at any time.

Deferral periods are capped at the earlier of termination of employment or not less than three calendar years following the end of the applicable Plan Year. Extensions of the deferral period for a minimum of five years are allowed provided the election is made at least one year before the first payment affected by the change. Payments can be in a lump sum or in equal payments over a two-, five- or ten-year period, plus interest from the commencement date.

The Plan assets are kept in an unsecured account that has no trust fund. In the event of bankruptcy, any future payments would have no greater rights than that of an unsecured general creditor of the Company and they confer no legal rights for interest or claim on any assets of the Company. Benefits provided by the Plan are not insured by the Pension Benefit Guaranty Corporation (PBGC) under Title IV of the Employee Retirement Income Security Act of 1974 ("ERISA"), because the pension insurance provisions of ERISA do not apply to the Plan.

For the quarter ended March 29, 2009 and March 30, 2008, eligible participants contributed approximately \$14,000 and \$32,000 to the Plan, respectively, and the Company provided matching funds and interest of approximately \$16,000 and \$23,000, respectively.

(9) Asset Impairment and Estimated Lease Termination and Other Closing Costs

In December 2008, the Company recorded a lease reserve in accordance with SFAS No. 146 *Accounting for Costs Associated with Exit or Disposal Activities*, of approximately \$2.2 million for the locations in Atlanta, Georgia due to the closure of these locations. This represented the net present value of all lease obligations, net of estimated sublease income which we had estimated to be zero at December 28, 2008.

During the quarters ended March 29, 2009 and March 30, 2008 the Company did not record any asset impairment charges as described under SFAS No. 144. In the first quarter of fiscal 2009, the Company

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES****(9) Asset Impairment and Estimated Lease Termination and Other Closing Costs (continued)**

recorded approximately \$106,000 in costs associated with closed restaurants, such as utilities, related to the Atlanta restaurants that were closed in November 2008 as we continue to pursue lease termination discussions. This amount also includes closure costs for a location in West Saint Paul, Minnesota that closed on March 29, 2009, at the end of its original lease term. There were not any closure costs recorded during the first quarter of fiscal 2008.

Lease termination reserve activity for the first quarter of 2009 was as follows:

(11) Subsequent Event

On May 5, 2009, the Company's Board of Directors approved a lease termination agreement with the landlord for one of the previously closed Atlanta, Georgia restaurants. The termination fee was approximately \$395,000, including commissions. This resulted in a gain of approximately \$190,000 which represents the difference between the buyout amount and the remaining lease reserve for this location. This gain will be reflected as a credit in *Asset impairment and estimated lease termination and other closing costs* in our consolidated statement of operations. The net impact on earnings per share will be approximately \$0.01 per diluted share.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Famous Dave s of America, Inc. was incorporated as a Minnesota corporation in March 1994 and opened its first restaurant in Minneapolis in June 1995. As of March 29, 2009, there were 174 Famous Dave s restaurants operating in 37 states, including 47 company-owned restaurants and 127 franchise-operated restaurants. An additional 96 franchise restaurants were in various stages of development as of March 29, 2009.

Fiscal Year

Our fiscal year ends on the Sunday closest to December 31st. Our fiscal year is generally 52 weeks; however, it periodically consists of 53 weeks. This fiscal year, which ends on January 3, 2010 (fiscal 2009) consists of 53 weeks while the fiscal year ending December 28, 2008 (fiscal 2008) consisted of a 52 weeks.

Revenue

Our revenue consists of restaurant sales, franchise-related revenue, and licensing and other revenue. Our franchise-related revenue is comprised of area development fees, initial franchise fees, and continuing royalty payments. Our area development fee to secure the territory consists of a non-refundable payment equal to \$10,000 per restaurant in consideration for the services we perform in preparation of executing each area development agreement. These services include, but are not limited to, conducting market and trade area analysis, hosting a meeting with the potential franchise partner and the Famous Dave s Executive Team, and performing potential franchise background investigation, all of which are completed prior to our execution of the area development agreement and receipt of the corresponding area development fee. As a result, we recognize this fee in full upon receipt. Our initial franchise fee is typically \$40,000 per restaurant, of which \$5,000 is recognized immediately when a franchise agreement is signed, reflecting the commission earned and expenses incurred related to the sale. The remaining \$35,000 is included in deferred franchise fees and is recognized as revenue, when a franchisee has secured a site, meaning a lease has been executed or a property purchase agreement has been signed, at which time we have substantially performed all of our obligations. Costs and expenses associated with these services are included in general and administrative expense. Franchisees are also required to pay us a monthly royalty equal to a percentage of their net sales, which has historically varied from 4% to 5%. In general, new franchises pay us a monthly royalty of 5% of their net sales. During a time when financing is difficult to obtain, we suspended our franchisees development schedule requirements in 2009 and 2010. Additionally, we eliminated the extension fees that were required to be paid by a franchisee in order to retain their territory. At the same time, we announced an incentive program to encourage growth where it makes sense. Any of our franchisees who choose to build in 2009 or 2010 will receive a reduced royalty rate for 12 months from date of opening. Our measure of comparable sales represent net sales for restaurants open year-round for at least 24 months.

Costs and Expenses

Restaurant costs and expenses include food and beverage costs, operating payroll and employee benefits, occupancy costs, repair and maintenance costs, supplies, advertising and promotion, and restaurant depreciation and amortization. Certain of these costs and expenses are variable and will increase or decrease with sales volume. The primary fixed costs are corporate and restaurant management salaries and occupancy costs. Our experience is that when a new restaurant opens, it incurs higher than normal levels of labor and food costs until operations stabilize, usually during the first three to four months of operation. As restaurant management and staff gain experience following a restaurant s opening, labor scheduling, food cost management and operating expense control are improved to levels similar to those at our more established restaurants.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES*****General and Administrative Expenses***

General and administrative expenses include all corporate and administrative functions that provide an infrastructure to support existing operations and support future growth. Salaries, bonuses, Associate benefits, legal fees, accounting fees, consulting fees, travel, rent and general insurance are major items in this category. Additionally, we record expense for Managers In Training (MIT s) in this category for approximately six weeks prior to a restaurant opening. We also provide franchise services for which the revenue is included in other revenue and the expenses are included in general and administrative expenses.

The following table presents items in our unaudited consolidated statements of operations as a percentage of net restaurant sales or total revenue, as indicated, for the following periods:

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the accompanying unaudited consolidated financial statements and notes, and the audited consolidated financial statements and notes included in our Form 10-K for the fiscal year ended December 28, 2008.

Total Revenue

Total revenue of approximately \$33.8 million for the first quarter of fiscal 2009 was approximately flat to revenue of approximately \$33.7 million for the comparable quarter in fiscal 2008.

Table of Contents

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

Restaurant Sales, net

Restaurant sales for the first quarter of fiscal 2009 were approximately \$29.3 million, essentially flat compared to net sales of approximately \$29.2 million for the same period in fiscal 2008. Restaurant sales for the first quarter reflected growth from three restaurants that opened in the fourth quarter of 2008 and weighted average price increases of approximately 3.6%, offset by a comparable sales decrease of 5.5%.

Franchise-Related Revenue

Franchise-related revenue consists of royalty revenue and franchise fees, which include initial franchise fees and area development fees. Franchise-related revenue was approximately \$4.2 million for the first quarter of fiscal 2009, essentially flat to the comparable period of 2008. Franchise royalty revenue reflected 13 new franchise restaurants and 9 closures since the first quarter of 2008, and was offset by a comparable sales decrease of 6.2%. Five new franchise restaurants opened during the first quarter of fiscal 2009 and one franchise restaurant closed. There were 127 franchise-operated restaurants opened at March 29, 2009 compared to 123 franchise-operated restaurants at March 30, 2008.

Licensing and Other Revenue

Licensing revenue includes royalties from a retail line of business, including sauces, rubs, marinades and seasonings. Other revenue includes opening assistance and training we provide to our franchise partners. For the first quarter of fiscal 2009, the licensing royalty revenue was approximately \$92,000 compared to approximately \$79,000 for the comparable period of fiscal 2008. During fiscal 2009, as a result of continued growth in our restaurant base and expanded markets, we expect to see licensing revenue increase slightly compared to fiscal 2008 levels.

Other revenue for the fiscal 2009 first quarter was approximately \$154,000 compared to \$107,000 for the comparable prior year quarter. The increase in other revenue is due to the opening of five restaurants during the first quarter of 2009 compared to only three restaurants that opened during the first quarter of 2008. The amount of other revenue is expected to remain essentially flat for fiscal 2009 based on the level of opening assistance we may be required to provide during the remaining franchised openings for fiscal 2009.

Same Store Net Sales

It is our policy to include in our same store net sales base, restaurants that are open year round and have been open at least 24 months. Same store net sales for company-owned restaurants for the first quarter of fiscal 2009 decreased 5.5%, compared to fiscal 2008's first quarter increase of 3.6%. At the end of the first quarter of fiscal 2009 and the first quarter of fiscal 2008, there were 39 and 36 restaurants, respectively, included in this base. The industry wide declining trend in sales reflects the state of the economy and, although we are seeing some hints of improvement, we do not expect a fast recovery. We continue to see softness in all three of our revenue levers – dine-in, to-go and catering, and we are still experiencing significant declines in corporate caterings, as businesses continue to hold back on entertainment budgets.

Same store net sales for franchise-operated restaurants for the first quarter of fiscal 2009 decreased approximately 6.2%, compared to a decrease of approximately 3.3% for the prior year comparable period. For the first quarter of 2009 and the first quarter of 2008, there were 92 and 77 restaurants, respectively, included in the franchise-operated comparable sales base. The decline in franchise comparable sales for the 2009 year-to-date period reflects the continuation of economic challenges being faced in certain franchise markets. Restaurants in five states accounted for over 50% of the decline in franchise comparable sales.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES*****Average Weekly Net Sales and Operating Weeks***

Catering and TO GO accounted for approximately 27.3% of 2009's first quarter net sales compared with approximately 29.2% for the first quarter of 2008, with the decline in the percentage year-over-year reflecting the continued decline in corporate catering orders from 2008 that were either not repeated in 2009, or were scaled back considerably. We have several initiatives regarding catering and continue to invest in this important extension of our business. Recently we hired a catering director who will now oversee catering strategies across all our company-owned markets and will travel to franchise markets to assist them with their off-premise opportunities. Also, with our focus on the upcoming graduation catering season, and knowing that the consumer is more cost conscious than ever, we have intensified our messaging around value, our willingness to work with any budget, and our ability and skill at being the last minute catering expert. Additionally, we have developed a new catering menu highlighting a variety of value-oriented items.

Food and Beverage Costs

Food and beverage costs for the first three months of fiscal 2009 were approximately \$8.8 million or 30.0% of net restaurant sales, compared to approximately \$8.9 million or 30.6% of net restaurant sales for the first three months of fiscal 2008. As a percentage of dine-in sales, our adult beverage sales at our company-owned restaurants were 9.4% and 9.5% for the first quarter of fiscal years 2009 and 2008, respectively.

Our pork contract, which extends through December 2009, resulted in a 2.0% price decrease from fiscal 2008. Our poultry contract has been locked in through September of 2009 at a price decrease of approximately 6% from 2008's price and we are projecting an annual savings of approximately 6%. Our brisket contract is firm through May of 2009 and we are watching the market closely for opportunistic buys while exploring

-18-

Table of Contents

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

various brisket options at similar prices to prior year. We currently anticipate an average price increase of 9.3% in our hamburger prices from our two suppliers. Both suppliers are on contract through August. With regard to other food and beverage categories, although we have had to absorb increases in certain items such as salmon, corn and beans, we've realized savings in others, such as oil, sauces and seasonings. Additionally, we have experienced favorable freight costs in the first quarter of 2009 due to reduced diesel fuel prices. We continue to watch the markets closely and have seen the benefit this year of being flexible through negotiating shorter-term contracts. Additionally, we have made progress in identifying secondary suppliers and expect that expanding our supply chain will result in further protection and ensure a more fair and competitive pricing environment.

We have completed phase one of our food cost management system, consisting of implementation of the system in each of our company-owned restaurants. While our restaurant operators continue to learn how to best use this tool, we will be moving into the second phase, which consists of validation of recipes and establishing an ideal food cost at the restaurant unit level. This system will provide our operations team with an ideal food cost as well as insight into pricing, product mix, and waste issues.

As a result of all of these initiatives, for the full fiscal 2009 timeframe, we anticipate a 50 to 60 basis point decrease in our food costs as a percent of sales year over year.

Labor and Benefits Costs

Labor and benefits costs for the three months ended March 29, 2009 were approximately \$9.3 million or 31.8% of net restaurant sales, compared to approximately \$9.2 million or 31.4% of net restaurant sales for the three months ended March 30, 2008. Although we reduced our labor matrices in early 2009, we still saw an increase in labor and benefits costs year-over-year, predominantly due to higher health insurance claims and insurance reserve adjustments, which caused an unfavorable 80 basis point impact in comparison to the first quarter of 2008. For the remainder of 2009, we expect labor and benefit costs as a percent of sales, to be approximately 40-50 basis points lower as compared to 2008 due to expected labor efficiencies from changes to our labor matrix, and the normalization of the three restaurants that opened in late 2008, partially offset by the expected continuation of increases in medical claims costs.

Operating Expenses

Operating expenses for the first quarter of fiscal 2009 were approximately \$7.6 million or 25.8% of net restaurant sales, compared to operating expenses of approximately \$7.5 million or 25.6% of net restaurant sales for the first quarter of fiscal 2008. The increase in restaurant level operating expenses as a percentage of net restaurant sales for the first quarter of fiscal 2009 reflecting a de-leverage of sales and higher occupancy costs. Additionally, repairs and maintenance costs increased year over year due to storm damage and other losses at certain of our restaurants, which were below our insurance deductible in order to qualify for submission of a claim. These increases were partially offset by reduced utility costs and lower advertising expense. Advertising expense in 2009 is still expected to be approximately 3.5% of net sales, including 0.5% contribution to the National Ad Fund. For fiscal 2009, operating expenses as a percentage of net sales is expected to be approximately 20-30 basis points lower than 2008's percentage as a result of lower utility costs somewhat offset by higher repairs and maintenance expense.

Depreciation and Amortization

Depreciation and amortization expense for the first quarter of 2009 was approximately \$1.3 million or 3.9% of total revenue, compared to the first quarter of 2008 at approximately \$1.5 million or 4.3% of total revenue. During fiscal 2009, depreciation and amortization is expected to decrease by approximately 10 basis points compared to fiscal 2008 reflecting the impairments recorded during the last half of 2008.

Table of Contents**FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES*****Pre-opening Expenses***

Pre-opening expenses consist of labor, food, utilities, training and rent costs incurred prior to the opening of a restaurant. Included in pre-opening costs is pre-opening rent for approximately 16 weeks prior to opening which will vary based on lease terms. During the first quarter of 2009, we had no pre-opening expenses and had approximately \$254,000 of pre-opening expenses in the first quarter of 2008. We do not plan to open any company-owned restaurants in fiscal 2009 and therefore do not expect any pre-opening expenses. As previously disclosed, however, we will remain watchful for any real estate opportunities that may present themselves due to other casual dining establishments slowing down their growth.

General and Administrative Expenses

General and administrative expenses for the first quarter of 2009 were approximately \$4.3 million or 12.7% of total revenue, compared to approximately \$4.7 million or 13.8% of total revenue for the first quarter of fiscal 2008. General and administrative expenses as a percent of total revenue, excluding stock-based compensation, were 12.3% for the first quarter of 2009 and 13.0% for the first quarter of 2008. A one-time grant of 25,000 shares was made to the chairman of the board of directors which vests over a one year term. An initial one-time grant of 25,000 shares was made to the new chairperson of our audit committee which vests over a five year term. As a result of a material increase in our stock price since the first quarter of fiscal 2009 earnings were released on April 22, 2009, we are updating our guidance on stock-based compensation expense as follows: Including performance shares for the 2009-2011 program and grants to our board of directors, we are expecting stock-based compensation to be approximately \$874,000 in fiscal 2009, as follows (in thousands):

Performance Shares	Restricted Stock Units	Board of Directors Shares	Unvested Stock Options	Total
\$397	\$136	\$318	\$23	\$874

We expect that general and administrative expenses in 2009, as a percentage of revenue, with full accrual for bonus achievement, will be approximately flat to fiscal 2008's general and administrative expense as a percentage of revenue which included an approximate \$200,000 bonus payout for individual achievement for associates below the executive level.

Interest Expense

Interest expense was approximately \$474,000 or 1.4% of total revenue for the first three months of fiscal 2009, compared to approximately \$511,000 or 1.5% of total revenue for the comparable time frame of fiscal 2008. This category includes interest expense for notes payable, financing lease obligations, our line of credit, and a company match and interest for deferrals made under our non-qualified deferred compensation plan. The year over year decrease is due to lower interest rates and a lower line of credit balance compared to the prior year. For fiscal 2009, we expect interest expense to be approximately 20 basis points lower than fiscal 2008 levels due to our strategy of focusing on repayment of our line of credit and lower expected interest rates in fiscal 2009 as compared to fiscal 2008. We had a balance on our line of credit of \$15.0 million as of March 29, 2009.

Interest Income

Interest income was approximately \$34,000 and \$58,000 for the first three months of fiscal 2009 and fiscal 2008, respectively. Interest income reflects interest received on short-term cash and cash equivalent balances. We expect fiscal 2009 interest income to be essentially flat compared to fiscal 2008.

Table of Contents

FAMOUS DAVE S OF AMERICA, INC. AND SUBSIDIARIES

Provision for Income Taxes

For the first quarter of 2009, we recorded an estimated provision for income taxes of approximately \$680,000 or 34% of income before income taxes, compared to a tax provision of approximately \$450,000, or 35% of income before income taxes, for the first quarter of 2008. We estimate a tax provision of 34% of income before income taxes for fiscal 2009.

Basic and Diluted Net Income Per Common Share

Net income for the three months ended March 29, 2009 was approximately \$1.3 million or \$0.15 per basic and diluted share on approximately 9,082,000 weighted average basic shares outstanding and 9,087,000 weighted average diluted shares outstanding. Net income for the three months ended March 30, 2008 was approximately \$835,000 or \$0.09 per basic and diluted share on approximately 9,611,000 weighted average basic shares outstanding and 9,773,000 weighted average diluted shares outstanding.

Financial Condition, Liquidity and Capital Resources

During the first quarter of 2009, our balance of unrestricted cash and cash equivalents was approximately \$2.0 million, compared to the fiscal 2008 year-end balance of approximately \$1.7 million.

Our quick ratio, which measures our immediate short-term liquidity, was 0.24 at March 29, 2009 and 0.25 at March 30, 2008. The quick ratio is computed by adding unrestricted cash and cash equivalents with accounts receivable, net and dividing by total current liabilities less restricted marketing fund liabilities. The change in our quick ratio was primarily due to increased current liabilities from the increase in our line of credit balance as compared to the first quarter of fiscal 2008.

Net cash provided by operations for the first quarter of 2009 was approximately \$3.8 million. Cash provided during the first quarter of fiscal 2009 was primarily from net income of approximately \$1.3 million, depreciation and amortization of approximately \$1.3 million, an increase in accrued compensation and benefits of \$943,000, and a decline in restricted cash of approximately \$516,000. These net increases were partially offset by an approximate \$1.1 million decrease in accounts payable.

Net cash provided by operations for the first quarter of 2008 was approximately \$3.6 million. Cash provided during the first quarter of fiscal 2008 was primarily from depreciation and amortization of approximately \$1.5 million, net income of approximately \$835,000, a decline in restricted cash of approximately \$1.2 million and a decrease in accounts receivable of \$865,000. In addition, there were increases in stock based compensation of \$281,000. These net increases were partially offset by an approximate \$1.1 million decrease in accounts payable.

Net cash used for investing activities was approximately \$311,000 for the first quarter of fiscal 2009 and \$2.3 million for the first quarter of fiscal 2008. During the first quarter of 2009, we used approximately \$322,000 on capital expenditures for existing restaurants and for other projects. During the first quarter of 2008, we used approximately \$2.4 million for capital expenditures primarily related to the construction of our new restaurants. In fiscal 2009, we expect capital expenditures to be approximately \$2.6 million, primarily reflecting continued investments in existing restaurants.

Net cash used for financing activities was approximately \$3.1 million in the first quarter of fiscal 2009 and approximately \$764,000 for the first quarter of fiscal 2008. During the first quarter of 2009, we had draws of \$2.0 million on our line of credit and had repayments of \$5.0 million. In addition we paid \$45,000 for the 2008 fourth quarter waiver and amended credit agreement and repaid \$102,000 of long-term debt. During the first quarter of 2008, we had draws of \$5.5 million on our line of credit and had repayments of \$6.0 million. In addition, we repaid approximately \$93,000 of debt and repurchased 16,000 of our shares for

approximately \$156,000, including commissions.

On April 17, 2008, the Company and certain of its subsidiaries (collectively known as the Borrower) entered into an amendment and restatement of an existing Credit Agreement with Wells Fargo Bank, National Association, as administrative agent and lender (the Lender). The Credit Agreement, which amended and restated an agreement previously entered into by the company on July 31, 2006, increased the Company s existing revolving credit facility from \$20.0 million to \$30.0 million (the Facility) with an opportunity, subject to the Company meeting identified covenants and elections, to increase the commitment to \$50.0 million. The maturity date on the Facility was extended five years to April 17, 2013.

Principal amounts outstanding under the Facility bear interest either at an adjusted Eurodollar rate plus an applicable margin or at a Base Rate plus an applicable margin. The Base Rate is defined in the agreement as either the Federal Funds Rate (0.25% at March 29, 2009) plus 0.5% or Wells Fargo s prime rate (3.25% at March 29, 2009). The applicable margin will depend on the Company s Adjusted Leverage Ratio, as defined, at the end of the previous quarter and will range from 1.00% to 2.00% for Euro Dollar Rate Loans and from -0.50% to +0.50% for Base Rate Loans. Unused portions of the Facility will be subject to an unused Facility fee which will equal to either 0.25% or 0.375% of the unused portion, depending on the Company s Adjusted Leverage Ratio. Our rate for the unused portion of the Facility as of March 29, 2009, was 0.25%. An increase option exercise fee will apply to increased amounts between \$30.0 and \$50.0 million.

The Facility contains customary affirmative and negative covenants for credit facilities of this type, including limitations on the Borrower with respect to indebtedness, liens, investments, distributions, mergers and acquisitions, dispositions of assets and transactions with affiliates of the Borrower, among others. The Facility also includes various financial covenants that pertain to maximum target capital expenditures, cash flow ratios, and adjustment leverage ratios. If the Company s Adjusted Leverage Ratio is greater than 3.00 to 1.00, an additional covenant applies that limits the maximum royalty receivable aged past 30 days. In addition, capital expenditure limits include permitted stock repurchase limits (limited to \$10.0 million in aggregate during any 12 month period, and \$20.0 million in aggregate during the term of the credit agreement).

The Credit Agreement currently provides for up to \$3.0 million in letters of credit to be used by the Company, with any amounts outstanding reducing our availability for general corporate purchases, and also allows for the termination of the Facility by the Borrower without penalty at any time. At March 29, 2009 we had \$15.0 million in borrowings under this Facility, and had \$150,000 in Letters of Credit as required by our fiscal 2005 self-funded, workers compensation insurance policy and \$255,000 in letters of credit for real estate locations, which reduced our borrowing capacity under the Facility as of March 29, 2009.

We obtained a covenant waiver and amendment to our Facility effective December 28, 2008. The amendment temporarily changes the definition of EBITDA in our existing Facility and specifically carves out certain franchise receivables from EBITDA and the maximum aged royalties receivable calculation due to special circumstances. We paid approximately \$45,000 of fees related to the amendment, which were deferred the first quarter of 2009 and will be amortized over the remaining life of the facility. We were in compliance with all covenants as of March 29, 2009.

We anticipate that all restaurant development and expansion will be funded primarily through currently held cash and cash equivalents, cash flow generated from operations, and from sources such as our credit facility. We expect capital expenditures of approximately \$2.6 million in 2009, which will consist of costs related to normal capital expenditures for existing restaurants.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Contractual Obligations

See Notes 6, 7, 8, and 9 to our Consolidated Financial Statements in our Fiscal 2008 Annual Report on Form 10-K for the details of our contractual obligations.

Under the agreements governing our long-term debt obligations, we are subject to two main financial covenants. We must maintain a 1.5 to 1.0 fixed charge coverage ratio each fiscal year under one of our covenants.

We are also subject to an Adjusted Leverage Ratio covenant and a franchise royalty covenant under our credit facility. Due to the impairment charges and lease termination fees recorded during the third and fourth quarters of fiscal 2008, we were not in compliance with the Adjusted Leverage Ratio covenant under the Facility. We amended our credit agreement to change the definition of consolidated EBITDA to include a defined amount of impairment charges and lease termination fees in any fiscal 2008 quarter. Additionally, we were also not in compliance with the franchise royalty receivable covenant as of December 28, 2008. After receipt of the waivers, we were in compliance with all covenants under the Facility as of December 28, 2008. We were in compliance with all covenants as of March 29, 2009.

Critical Accounting Policies

Our significant accounting policies are described in Note One to the consolidated financial statements included in our Annual Report for the year ended December 28, 2008. The accounting policies used in preparing our interim 2009 consolidated financial statements are the same as those described in our Annual Report.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our Company s financial instruments include cash and cash equivalents and long-term debt. Our Company includes as unrestrictive cash and cash equivalents investments with original maturities of three months or less when purchased and which are readily convertible into known amounts of cash. Our Company s unrestricted cash and cash equivalents are not subject to significant interest rate risk due to the short maturities of these instruments. We have no derivative financial instruments or derivative commodity instruments in our cash and cash equivalents. The total outstanding long-term debt of all our Company as of March 29, 2009 was approximately \$11.1 million, including financing lease obligations. All of the outstanding long-term debt, is subject to a fixed interest rate. The terms of our credit facility with Wells Fargo Bank, National Association, as administrative agent and lender are discussed above under

Management s Discussion and Analysis of Financial Condition and Results of Operations Financial Condition, Liquidity and Capital Resources.

Some of the food products purchased by us are affected by commodity pricing and are, therefore, subject to price volatility caused by weather, production problems, delivery difficulties and other factors that are outside our control. To control this risk in part, we have fixed-priced purchase commitments for food from vendors. In addition, we believe that substantially all of our food is available from several sources,

which helps to control food commodity risks. We have secondary source suppliers for certain items and in 2009 we will make this a key area of focus in order to protect the supply chain and to ensure a more fair and competitive pricing environment. We believe we have the ability to increase menu prices, or vary the menu options offered, if needed, in response to a food product price increase.

Item 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There have been no changes (including corrective actions with regard to significant deficiencies or material weaknesses) in our internal control over financial reporting or in other factors that could significantly affect our internal control over financial reporting subsequent to the end of the period covered by this report.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

From time to time, we are involved in various legal actions arising in the ordinary course of business. In the opinion of our management, the ultimate dispositions of these matters will not have a material adverse effect on our consolidated financial position and results of operations. Currently, there are no significant legal matters pending.
