PART III -- NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

Michael Baker Corporation (the "Company") is filing this Form 12b-25 because additional time is needed for the Company to complete its Annual Report on Form 10-K for the year ended December 31, 2005, which was due on March 16, 2006.

As described in its Forms 12b-25 filed on August 10, 2005 and November 10, 2005, such delay relates primarily to (1) accrual issues in accounting for income tax expense and income tax withholding certificates in the Company's Nigerian operations and (2) the Company's assessment of the need to accrue an initial "incurred but not reported" liability for certain self-insured professional liability losses.

As discussed in Part IV below and in the Company's Form 8-K dated January 26, 2006, the previously issued consolidated financial statements of the Company for fiscal years 2000, 2001, 2002, 2003 and 2004, and its related interim consolidated financial statements for each of the quarters of 2003 and 2004 and the first quarter of 2005, should not be relied upon because of errors in those financial statements. Such financial statements will be restated.

Consequently, the Company has not been able to complete its financial statements for the year ended December 31, 2005, and the Company has not been able to file its Form 10-K for the year ended December 31, 2005 by the March 16, 2006 due date.

If answer is no, identify report(s).

Yes [] No [X]

Form 10-Q for the quarter ended June 30, 2005
Form 10-Q for the quarter ended September 30, 2005

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes [X] No []

If so: attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The corrections to be made to the Company's consolidated financial statements are required primarily due to the following Nigerian tax matters:

- 1) The underaccrual and underpayment of non-resident Nigerian income taxes by one of the Company's wholly-owned Energy segment subsidiaries, plus estimated penalties and interest associated with the underpayments (affects all financial statements from fiscal 2000 through the first quarter of 2005).
- 2) The underaccrual and underpayment of Nigerian payroll taxes related to the same Energy subsidiary's employees working on projects in Nigeria, plus estimated penalties and interest associated with the underpayments (affects all financial statements from fiscal 2001 through the first quarter of 2005).
- 3) Overstated prepaid tax asset balances recorded by the Company's majority-owned Nigerian subsidiary, as adjusted by applicable minority interest effects (affects all financial statements from fiscal 2000 through the first quarter of 2005).

Certain other immaterial corrections will also be made to the Company's consolidated financial statements. The first of these corrections relates to the Company's need to record an "incurred but not reported" liability for self-insured professional liability insurance losses, which affects all financial statements from fiscal 2000 through the first quarter of 2005. Several other such corrections relate to non-routine project accounting and other transactions that result in income statement adjustments during the restatement period, but which net to an immaterial effect on retained earnings as of March 31, 2005. These corrections affect all financial statements from fiscal 2000 through the first quarter of 2005.

Based on current information, the aggregate effect of all corrections,

Edgar Filing: BAKER MICHAEL CORP - Form NT 10-K

including the related tax effects, is currently expected to result in net income reductions in the range of \$0.5 million to \$1.5 million in each of the 2000, 2001, 2002, 2003 and 2004 fiscal years, and a total net income reduction in the range of \$5.8 million to \$6.2 million for this five-year period; a net income reduction in the range of \$0.6 million to \$0.8 million for the first quarter of 2005; and a cumulative reduction in the range of \$7.4 million to \$7.8 million in the Company's retained earnings as of March 31, 2005.

Management currently believes that all issues which will require restatement of the Company's consolidated financial statements for each of the five years in the period ended December 31, 2004, and the first quarter of 2005, have been identified. The estimated restatement amounts disclosed above remain preliminary, unaudited, and subject to adjustment, possibly by amounts that could be material individually or in the aggregate. In addition, it is possible that the Company may identify new issues which could also impact its previously issued consolidated financial statements and the scope of the restatement described in this Form 12b-25. In the event that new issues requiring restatement arise, it is possible that such additional adjustments could be material individually or in the aggregate.
